

Commissioners Court Votes Salary Boosts

Officials And All Employees Are Included

CLAY HENRY

All elective officers of Floyd County got a pay boost this week when the Commissioners Court held a special session and tentatively raised all salary figures, the first change for elective officers since 1952. Increases were on the conservative side, ranging from \$62.16 per year for Justice of the Peace Ed Griffin in Precincts 1 and 4 to \$1,200 per year for the county judge. The new salary list will become final at a hearing to be held on regular court day, February 9. Order to advertise the new salary proposals was issued by the court Tuesday. The pay raises are based on per month increases. Translated into annual figures they are as follows:

Office	Present	Proposed
County Judge	\$4,125	\$5,340.00
County Attorney	4,125	5,160.00
Sheriff	4,125	5,160.00
County Clerk	4,125	5,160.00
Assr. Collector	4,335	5,364.00
Treasurer	3,600	4,104.00
District Clerk	3,100	3,600.00
Commissioners	3,100	4,008.00
J. P. Pre. 1	247.92	300.00
J. P. Pre. 2 & 3	1,200	1,500.00

In addition to the pay raises given the elective officers, the pay hike has been made effective for all employees and appointive officers. The increase for elective officers will not become effective until the order gets its final okay on February 9. Employees, however, get their raise immediately. Among the increases registered for appointive officials and employees are:

County Service Officer D. G. Ayres to \$275 plus \$15 per month allowance for rent.
Four road machinery operators — D. E. Graham, Fred Robertson, and G. E. Trimble to \$292 per month, and one road man — B. V. Carver — to \$290 per month.
Elmer Dean Williams and Billy Latham got increases to \$275 per month.
Three road machinery operators — Emmet Willis, Fred Robertson, and G. E. Trimble to \$292 per month, and one road man — B. V. Carver — to \$290 per month.
Elmer Dean Williams and Billy Latham got increases to \$275 per month.

Salaries of the judge and four commissioners are paid three-fourths from the road and bridge fund, one-fourth from the salary fund. All other elective officers are paid from the salary fund.
No provision is made for salaries of the county superintendent nor of the county auditor. Quarters are provided for both but the superintendent is paid from funds allocated by the State Education Agency, and the auditor obtains his income from fees charged for his services.
The salary of the county auditor is set by the district judge, who makes the appointment. It is at \$5,366.00 this time.
For comparison the salary for Floyd County on the average is far below that of Crosby County on the South with a tax valuation of about \$10 million and Swisher on the north with a tax valuation of about \$12 million. In those counties salaried officials have had cost of living pay raises two or three times since 1952.

The commissioners were all for retaining the services of the county service officer. The court took cognizance of a report from Charles L. Morris, executive director of the Veterans Affairs Commission at Austin, who pointed out that "due directly to the efforts of County Service Officer D. G. Ayres more than \$62,000 in federal funds were distributed to veterans of Floyd County and their dependents in the past 12 months."
Morris reported that these benefits came in the form of disability compensation, pension and training allowance to living veterans, death compensation and pension paid to widows, orphans and dependent parents of deceased veterans, burial allowances and other benefits less frequently paid.
Hospital care, outpatient treatment, counsel and assistance given in technical matters are not included in these figures.

"Ayres," the director of veterans affairs said, "is well versed in his duties, energetic in the performance of those duties and is possessed with the sympathetic human understanding necessary to properly fulfill these duties."
Judge McBrien and members of the Commissioners Court are of the unanimous opinion that the new scale of pay for all elective and appointive officers, as well as for employees, can be met within the means of the county, based on anticipated income. Changes not made at the special term of the court this week had already been made, to revise upward the salaries of the deputies sheriff.

Survey Reveals Floyd County Business Health Is Excellent

(Special to The Hesperian) NEW YORK — Just how the average Floyd County resident adjusted his spending during the recession, cutting down in some directions and expanding in others, is revealed in the current Consumer Markets Data Study. All in all, it is seen, once he became convinced that his income was not seriously endangered, he again demonstrated his voracious appetite for consumer goods. As a result, most local businesses stood up well. They went through the recession without too much suffering. Exceptions were the heavy goods industries, which depend on selling their higher-priced products on installment credit. The average consumer, normally a cautious individual, cut down drastically on such purchases, refusing to add to his debt load. The retail spending picture, for the fiscal year ending July 1, 1958, is revealed in the annual study, made by the Standard Rate and Data Service. It shows that business done by the various types of food stores in Floyd County, selling food for off-premises consumption, totaled \$4,263,000 in the year, or 27 cents of the retail dollar. The volume is the previous year was \$3,961,000. Sales of automotive equipment and supplies including trailers and boats but not industrial vehicles, amounted to \$3,536,000, equal to 23 cents of the dollar. This compares with \$3,645,000 a year earlier. General merchandise stores, including department, variety and general stores, accounted for \$520,000 or 3 cents, as against \$504,000 previously. Shops selling clothing and other apparel grossed \$750,000, amounting to 5 cents. The figure was \$706,000 the year before. Home furnishings stores took in \$646,000, or 4 cents compared with \$666,000 before. More recently, retail business has been gaining in strength, a reflection of rising employment and of growing consumer confidence. There is less fretting about the future. As a result, purse strings are being loosened and some of the money that was put into savings during the recession is now being brought out. What will be the direction of this spending in 1959? That is industry's big question.

YOU CAN AFFORD A COLLEGE EDUCATION!

(By Grace Ann Potts)

A college degree today has become almost a must. Yet with no difficulty, four years in college can cost you and your parents from \$8,000 to \$10,000. Tuition and fees alone can run to more than \$1,500 a year. Are there ways to beat this high cost of education? You bet there are.

There are scholarships. Colleges have many of course, and though the competition runs high they are awarded to people just like yourself year after year. Don't forget either, that all scholarships don't go to the A student or to athletes. Many a college, for instance, needs musicians for the school band and has scholarships to offer them.

The National Merit Scholarship Corporation is backed by more than \$20 million in Ford and Carnegie Foundation grants. It operates a nationwide talent search among seniors in every high school in the country.

If no one's willing to give you money for your education, there may be a place to lend it to you for most colleges have student loan funds.

One college gave loans to 535 of its students. The rates are low, too: one percent. Student loans were limited to \$1,100 a year.

Loan-fund money is not available to your parents; you must go about borrowing it yourself. The rates of interest a college will give you are considerably below those your parents would be charged.

A number of schools have employment plans under which selected freshmen are guaranteed jobs on arrival. A good high school record is important if you want in on such a program.

If a good sum of money is needed, you might allow five of six years instead of four. This way, you can take a lighter schedule and hold down a good part-time or full-time job.

The rapid growth of public junior colleges is interesting. Students can go on to a university after two relatively inexpensive years in schools like these.

The expansion of certain state universities is also worth looking into. The tuition is not a major item and may be a real bargain.

The cost of college has become shocking. But it is remarkable what can be done about it. If you and your parents can swing your freshman year, then, one way or another, the rest can be managed.

Extra, extra! Buy yourself a Student Directory for only \$1.00, and it is worth far more than that. It has all the kids first names listed in high school, junior high and grade school with their telephone numbers and addresses.

What could be more handy than this type of book? An added value is the autograph page and other assorted information that will be invaluable to students and parents. It will help boys in getting dates, mothers sending out invitations, and church organizations. Each member of every family should purchase one of these books. A wonderful keepsake that may be looked back on in the years to come "as the good old days."

Mrs. Preston Watson says they will be sold next week-end. The football boys will come to houses and business people. Buy this wonderful personal Student Directory. We should thank Mrs. Watson for making this book possible.

The next scheduled meeting will be February 9. The chapter members will visit the Lighthouse Electric Building and Nancy Morckel will present a demonstration on after-school snacks.

Members are reminded that if they paid dues for only one semester, they should contact Fleeta Carthel, treasurer, and pay their dues of \$1.00 for the second semester. These dues can also be paid to Tiny Copeland.

Extra, extra! Buy yourself a Student Directory for only \$1.00, and it is worth far more than that. It has all the kids first names listed in high school, junior high and grade school with their telephone numbers and addresses.

What could be more handy than this type of book? An added value is the autograph page and other assorted information that will be invaluable to students and parents. It will help boys in getting dates, mothers sending out invitations, and church organizations. Each member of every family should purchase one of these books. A wonderful keepsake that may be looked back on in the years to come "as the good old days."

Mrs. Preston Watson says they will be sold next week-end. The football boys will come to houses and business people. Buy this wonderful personal Student Directory. We should thank Mrs. Watson for making this book possible.

Sandra Moore Is New Fish at FHS

(By Addie Adkins)

The bright girl who showed up dressed in red at FHS Monday morning, January 19, is Sandra Moore. Sandra originally hails from Cooper, Texas, and is classified as a freshman.

Her fish schedule consists of PE English, Algebra I, general science, and home economics.

Sandra's first impression of FHS was "the size of it." Her previous school was not quite as large. Her friends at Cooper were no doubt sad to hear of her leaving, but we at FHS feel privileged to have her here with us.

Let's all make Sandra feel at home by greeting her with a "Hi, Sandra, Welcome to FHS."

Band To Sport New Uniforms

(By Sonja Guffee)

Floydada High School Whirlwind Band members are looking forward to displaying their new uniforms. They will get their big chance when the band travels to Del Rio, Texas, February 13-15, to participate in an open-class contest. The band will do parade marching, concert, sight-reading, and a half-time show.

The uniforms cost \$30.50 each. The Band Boosters organization, as well as the band members have been raising money for the uniforms. Many wonderful people have given donations to the band to help on the payment of these uniforms.

The band wishes to thank everyone for their help.

The uniforms are West Point style. The coat is forest green with reversible shield. On one side of the shield is an old English "F". On the other side of the shield is a Whirlwind. There is a Whirlwind on each sleeve also two citation chords. There are braided knots on the shoulders and white cross belts. Another feature about the coat is that they can be worn five different ways.

The slacks are grey with a white stripe down the legs. They also have an adjustable waist.

Mothers March Is Big Success Report Shows

(By Mrs. Ray Ainsworth)

The 1959 Mother's March in Floydada was considered a whopping success by those closely connected with it. The rough total brought in by the Marching Mothers, Monday night, January 26, was \$916.43. It is the understanding that this is the largest amount ever collected by a group of Marching Mothers.

The enthusiasm of the workers and the very generous support by the people of Floydada made our total contribution possible. Additional money is expected for the drive through the mail in envelopes which were left at homes where the families were away for the evening.

The city was divided into three areas. The section covered by the Red Rovers under the direction of Mrs. W. H. Simpson, Jr. yielded \$352.23. Mrs. Glen Amburn's group, the Blue Belles collected a total of \$367.94. The area assigned to Mrs. Claude Weatherbee's workers contributed \$196.26.

Again we thank all workers and the families who loaned us their wives and mothers for the evening as well as all the fathers who helped in so many ways. We also appreciated so much those who helped with our publicity including downtown department stores, and all others

MORCKEL
Farm Chemical Co.

who displayed posters and signs. Our thanks go to the Floydada Volunteer Fire Department for signaling the start of the drive, and to Horace Cagle and the Police Department and the Sheriff's department, under Walter Hollums for patrolling the city during the drive.

Refreshments provided by Fant Milling Co. (Gladia products) and Lighthouse Electric Coop, Inc. which were prepared and served by Mrs. Nancy Morckel and several Marching Mothers gave our evening a party-air after the return of the cold though heart-warming march.

The money collected will be given to the National Foundation for continued aid to polio patients, and for research in the fields of virus diseases, arthritis and birth defects.

Our hats are off to the people of Floydada! Thank you so much.

Reports From Texas Senators

(Forthright attention to two of the major problems which face rural Texas is promised in two encouraging reports out of Washington this week. They are, respectively, from Senator Johnson and Senator Yarborough. They are reprinted here in full so the people may know.—Ed.)

RALPH YARBOROUGH'S REPORT

Right now, five million American families are living in below average homes!

And a few programs set up to help these people into better housing are handicapped because there isn't enough money available to properly do the job. In addition funds haven't been available at all under past programs for building in rural areas, in small towns and on the farms.

Believing that something must be done about these needs as quickly as possible, I have joined in sponsoring The Housing Act of 1959, which I feel will provide for them. It will extend and expand such programs as Federal Housing Administration insurance authorization, contracting authority for public housing, low-rent public housing, a revolving fund for college housing loans, and direct loans to veterans. But the biggest change in the law provided by the bill is the direct loan to Veterans provision which provides credit for building homes in small towns and on the farms.

In the past, federal credit for housing has helped force people off the farms and out of the small towns and into the cities, simply by furnishing credit for home building in the cities, and denying it in the country. This is more than another housing bill—this is a bill to equalize housing benefits, and give the country man a square credit deal with the big city home buyer.

It will help stop the flight of people from the small towns to the cities by furnishing long time low interest rate credit for home building in the country.

The need for quick action in these programs is painfully clear. For example, there are now more than 50,000 veterans who have asked for loans to build their own homes but, because of a lack of money available, haven't had their applications approved yet. These loans can be made only in areas where credit is not available from other sources. This bill, among many other things, proposes 300 million dollars be made available to clear up this backlog and help these veterans and their families get their homes.

A very similar bill passed the senate last year, but lost out in the House. However, considering the changes which have been made in the Congress, I believe a very effective law can be worked out which will meet the urgent needs of the nation's housing problem.

WHAT SENATOR JOHNSON SAYS:

This has been a good week, a busy one. Much has been accomplished. But a simple, two-syllable word is causing me increasing concern.

It is called "surplus."

This is the picture. This nation now has on hand about \$9 billion in surplus commodities. That's a lot of food. And it is food that must be put to use.

The cost of not using it comes high. Just to store this surplus, the Administration estimates that it will be spending by next July 1 at the rate of \$1,027,528,020 a year.

This is a costly luxury. It is one that this nation cannot afford.

The need for action to solve this problem is urgent.

The Congress will have before it a new farm bill.

Within it must be the key to unlock this problem called "surplus."

There is now under study by some very able Senators a broad plan.

This plan would:

Allow a farmer to plant all he wants to. Assure him 100 per cent parity for that portion of his crop consumed in this country; Provide that the portion of his basic crops sold in export would be offered on the open market.

The goals are these: Aid the farmers by easing restraints on his own free enterprise. Lighten the load on the taxpayer. And in doing this, help our friends and allies of the free world to help themselves.

This the Senate intends to do.

Developments at Austin, or rather lack of developments, point to the probability that the legislature will not end its session at the end of 120 days. Closing the session promptly at that time was voted for by the senate and the house concurred as quickly as it was organized. But the signs point to a longer session, or rather, to a special session. The legislature might even be in session as long as six months. This is freely predicted in some quarters. Minds of the people and the legislators lack a lot of meeting on many of the issues. Taxes, and who will pay them, will be debated long and hotly, and there are numerous other issues on which thinking has not jelled.

Adlia Stevenson made a remark while Mikoyan was here that was interesting. He recently returned from a visit to Russia, where he viewed the scene as far as would be permitted. He said that Russia is a beehive of enthusiasm and energy, their boys and girls are being reared to take themselves seriously being made to study and to work. He pointed then to American kids, who are raised to softness and nonchalance. He probably had in mind that time, sooner or later, when our softies are going to have their tug of war with the youth whose minds and bodies are seasoned to toughness. It may not be much of a contest.

Boys and girls, reared to expect a ride to school a few blocks away and the privilege of raising hell about the menu at the hot lunch served in the air-conditioned cafeteria, may not be able to adjust quickly enough when the time comes they must deal with Mikoyan's hordes. But it is wonderful to see them enjoying the things which their parents would have liked to have but could not afford. The good way of life is fine, but not very conducive to toughening mental and physical fibre.

Not much difficulty will be experienced by the average West Texan in choosing a man to back for governor if the choice lies only between Attorney General Will Wilson and State Highway Commissioner Marshall Formby. One of Marshall's advantages is that he speaks the language we know the way we speak it, too.

The Speculative Fever. Some writer last week spoke of the rush to buy common stocks and securities as a speculative fever as though it were a recent phenomenon. What we have had since the close of World War II we had thought of as speculative fever. Nobody has bought anything in 15 years that didn't go up. How high is high?

Floyd County As A Farm Woman Thinks

(Nellie Witt Spikes)

The land had rest all the days of Simon. He sought the good of his nation:

His rule was pleasing to them, as was honor shown him, all his days. To crown all his honors he took Joppa for a harbor, and opened a way to the isles of the sea.

He extended the borders of his nation, and gained full control of the country. He gathered a host of captives; he ruled over Gazara and Bethzur and the citadel, and he removed its uncleanness from it; and there was none to oppose him.

They tilled their land in peace; the ground gave its increase, and the trees of the plains their fruit.

Old men sat in the streets; and they talked of all the good things; and the youths donned the glories and garments of war. He supplied the cities with food and furnished them with the means of defense, till his renown spread to the ends of the earth.

He established peace in the land, and Israel rejoiced with great joy.

Each man sat under his vine and his fig tree, and there was none to make them afraid.

No one was let in the land to fight them and the kings were crushed in those days. He strengthened all the humble of his people; he sought out all the law, and did away with every lawless and wicked man.

He made the sanctuary glorious, and added to the vessels of the sanctuary.

- 1 Maccabees 14, from the Apocrypha.

Thought you might just like the

above as it was written in a time many nations turned away from God.

This put me to thinking—"he made the sanctuary glorious" so the writer says. Do our leaders of today try to make the sanctuary glorious? Oh, I know whenever they attend church it is news but when they go for a rest, do they go to pray like Christ did? All the news says is that they go to fish or to golf or to play bridge. And the enemy at our very doors.

The old testament is full of the history of man when he turned away from God and went his own way; we have had many warnings from the dim past as well as in our own time.

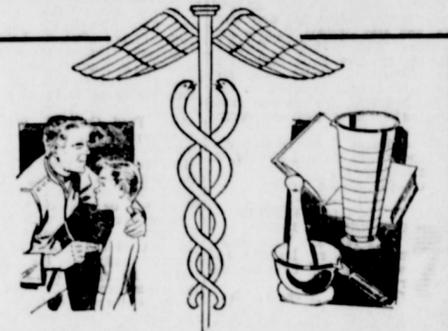

Is it not a time for prayers? A time to make the sanctuary glorious? To turn our ways to God who never forsakes those who trust and let Him have His way in the life of an individual or a nation.

Let us read the Scripture more and it will enrich and bless our own lives and have influence on the lives of others.

MRS. LOYD MUNDELL CRITICALLY ILL IN AMARILLO HOSPITAL

Mr. and Mrs. Glad Snodgrass, who have been in Mineral Wells the past ten days, were called to Amarillo last week due to the critical illness of Mrs. Snodgrass' niece, Mrs. Loyd Mundell, the former Christine Bruner, daughter of the late Mr. and Mrs. Roy Bruner.

Mrs. Mundell was in the hospital in Amarillo receiving treatment for a virus infection when she suffered a severe heart attack. Members of the family here said physicians told them there was little hope in Mrs. Mundell's recovery.

McPeaks Enjoying Stay in Germany

Proof that a tour of duty in Europe with the American Armed Forces can be just about what the service man wants to make it, and also that ties with home are strengthened by the visits of The Hesperian, is afforded this week in a note from Mrs. Ronald R. McPeak. She is the wife of Master Sergeant Ronald R. McPeak. The note, enclosed with a remittance for an annual subscription says:

We certainly enjoy reading every issue of The Hesperian. It is wonderful to bring a little of home into our house in a foreign country.

We have been in Zweig, Germany, for almost two years. Have enjoyed our tour very much. Visited the World's War Museum, Denmark, Luxembourg and Switzerland. We are planning a trip to Italy and the south of France in the summer. We visited all the major pieces of interest in Germany. We are looking forward to our home town, Floydada, in our home town, Floydada, Texas.

Mrs. Ronald R. McPeak (formerly Doris Elmer Biggs of Lockney) after a 10-day confinement at Plainview Hospital where she received treatment for an infection, strain. He was to remain in bed to day resting up a bit.

South Plains News

(By Mrs. Murray Julian)
 SOUTH PLAINS, Jan. 26 — Wednesday morning it was five degrees here with a little snow but the predicted blizzard passed us by. Farmers are finding hard going with their deep plowed fields so dry it is difficult to work them. Moisture is needed very badly.

Children on the honor roll at South Plains the past six weeks are announced as follows by J. M. Williams, principal: 3rd grade, Beth Kinniburgh, Diana Calahan; 4th grade, Glenda Kay Cummings, Rita Taylor, Vicki Johnson, Dewey Spradlin, Sandra Sessums; 5th grade, Darlene Gillespie, Katherine Mulder, Mary Respondek; and in the 8th grade, Dennis Deavenport, Gary Wilson, Jimmy Pritchett, Bill Bledsoe and Bruce Julian.

Don, Nancy and Donette Marble left over the week-end for a vacation out in Nevada and the western states.

Alton Higginbotham, Kendis Julian and Eugene Beedy from WTSC at Canyon were home from Thursday to Sunday with their folks, and were helping in the field work during their mid-semester vacation.

James Hartman and Keith Marble are scheduled to do their boat training at Camp Chaffee, Ark.

Mr. and Mrs. Arby Mulder and children went to Rock Creek on Sunday for a surprise birthday celebration at the home of her brother, Mr. and Mrs. Wayland Fitzgerald and family at Rock Creek. It was a family reunion with about 45 of their folks present for the affair.

Tommy Respondek and Kendis Julian went to Lubbock on Saturday morning where they attended the open house, parade, air show, and static display of aircraft at Reese Air Force Base, with a B-25 dedication ceremony which marked the graduation of the class of B-25 student pilots and the institution of all-jet pilot training.

The Frank McClures had as guests Monday her mother, Mrs. R. W. Newman, and her sister, Mrs. R. L. Younts, Brenda and Rusty all from Snyder.

Mr. and Mrs. Calvin Poteet and family have moved this past week to their new home in Floydada. We

are sorry to see them go from our community. They have sold their home to Mr. and Mrs. Kenneth Bean, Carla and Diane, who will move to their new home in February.

Mr. and Mrs. Grigsby Milton, Darla and Barbara went to Lubbock on Thursday night at 8 o'clock to attend a style show by the Nancy Taylor Finishing School which was held at the Caprock Hotel. Their daughter, Donita, was one of the models in the show. Donita was home with them over the week-end.

Eddie Parks of South Plains was presented a certificate for being elected Citizen of the Semester by the student body and faculty during last Thursday's assembly. We are proud of Eddie and add our congratulations to those of the neighbors.

Qualifications for the award included interest, participation in school activities, school spirit, contribution to welfare of school and student body, sportsmanship and wholesome attitude.

That which was left out is at the Parks Oil Station where it may be picked up.

Those present at the dinner were Mr. and Mrs. Bob Reeves, Sandy, Jean and Jeanette, of Lubbock, Mr. and Mrs. Ted Bell and Rex of Floydada, and Mr. and Mrs. Raymond Reeves and Carol Ann who had to leave his car home at Christmas because of the bad roads near Dalhart, and went the rest of the way on the train.

The Fifth annual meeting of the members of the Caprock Gas Association was held at the schoolhouse on Thursday night, Jan. 22, with Mrs. new director, T. Wood and L. N. Johnson being elected during the business session.

The Young Married Couples Sunday School Class held their party on Friday night at the school house with two tables of 42 and one of 24 played during the evening. Much illness among the children of the families kept the attendance low. Hostesses for the party were Reta Pierce and Joy Smitherman. They served refreshments of cherry and caramel pie, coffee and cold drinks. Present for the meeting and party were the Rev. John Gillespie, Mr. and Mrs. Garvin Beedy, Mr. and Mrs. Sterling Cummings, Mr. and Mrs. Sylvain Kinniburgh, Mrs. Junior Calahan, Mr. and Mrs. Rex Smitherman and Kelly, and Mrs. Thomas Pierce and Beverly.

Guests were Beth Kinniburgh, Beverly Pierce, Linda Lamb, Reta Taylor, Darlene Gillespie and Kay Cummings. Games were played during the hours of 2:30 to 4:30 and Mrs. Calahan served birthday cake, ice cream and cookies with favors of heart-shaped candies.

Wedding Shower For Mrs. James Teague

Lovely white chrysanthemums in a bridal arrangement with a bride and groom amid the greenery centered the table at the miscellaneous wedding shower given in the home of Mrs. H. L. Marble, north of South Plains at a come and go shower honoring recent bride, Mrs. James Teague, nee Junell Wood, from three to five on Saturday afternoon.

Guests were served hot spiced tea, nuts and cake squares decorated with wedding bells from a fragile China service by Miss Donita Milton. The table was laid with a lace cloth over blue, and napkins with the names of "Junell and James" were used depicting the bride's chosen colors of blue and white. Corsages were presented the bride, her mother, Mrs. L. T. Wood and the bridegroom's mother, Mrs. Riley Teague.

Guests were served by Mrs. Marble and registered in a bridal book. The year book chairman, Mrs. Ned Bradley introduced the program for the afternoon on "house plants". Mrs. Raymond Jones spoke on "plants best suited and culture". Mrs. Jones compared the care required of plants in the past and the simple care of today.

Mrs. W. J. Ross spoke on "spring flowers", taking information from America's Garden Book by James Bush and Louise Brown. One of the most adaptable spring flowering bulbs is the narcissus. It requires little care. Place bulb in the soil twice the depth of the bulb. Firm soil is most desirable.

Tulips and hyacinths require practically the same care, except in planting. Tulips should be planted in the autumn.

Johnny Mae Lewis of Plainview was in Floydada last week visiting with her mother Mrs. G. B. Lewis.

House Plants Are Discussion Topic At Dougherty

The home of Mrs. C. A. Caffee was the meeting place for members of the Dougherty Home Demonstration Club, Jan. 21.

The devotional from Psalms 128: 3 was given by the hostess.

Roll call was answered by telling something outstanding about a foreign country they had chosen at the previous meeting. Some of the selected countries were Peru, Scotland, Australia, Italy, Switzerland, Russia and others.

After a brief business session conducted by Mrs. G. W. Smith, Mrs. Robert Ward gave an informative council report.

October or November. Hyacinths in September or October.

Iris is one of the most hearty perennials. One of the interesting things about the iris is that it has been cultivated since medieval times. Some bulbs are said to have quite a long life. Some as old as 100 years.

Phlox and violets make a very nice border and should be placed 6 to 9 inches apart.

Some of the bi-ennials are English daisies, pansies and poppies. They should be sowed in August.

Annals easily adapted to this area are cornflower, larkspur, snapdragon, sweet peas and zinnias.

There was almost an air of spring at the conclusion of the program, even though it was one of the colder days.

Games were directed by Mrs. Raymond Jones, with prizes going to Mrs. W. J. Ross and Mrs. Claude Ring. Mrs. Ring was also awarded the attendance prize.

Guests serving themselves refreshments of lemon butter sandwiches, olives, coconut bits, banana nut bread and coffee were Misses R. W. Overstreet, Claude Ring, Raymond Jones, Lewis Blum, W. J. Ross, Robert Ward, G. W. Smith, Howe Hines, Mac Ward, Ned Bradley, Gus Hammonds, Bill Smith and the hostess, Mrs. Caffee.

The next scheduled meeting will be Feb. 4, on "yard improvement" at the home of Mrs. Bill Smith, 665 W. Kentucky in Floydada.

California Visitors In Hopper Home Mr. and Mrs. Jewel Gilbreath of White, Calif. have been here the past week visiting with Mrs. Gilbreath's parents, Mr. and Mrs. J. M. Hopper and other relatives. The past week-end the family visited in Wichita Falls with Mr. Gilbreath's relatives.

Mr. and Mrs. Gilbreath, former residents of Floydada, will leave today enroute home.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Texas lawmakers face a "broken egg" problem as they decide first how much to spend to keep its money going and then how to cover them? Tax take be set first up accordingly?

With problems are being solved at the same time. Alchemical acrobatics jitters among spect appropriation seekers.

PRESCRIPTION — Gov. Price Daniel is prescribing a two-pronged, \$210,000,000 plan to cure fiscal ailments.

First prong is to raise \$65,000,000 to pay off the debt expected in the general revenue fund by the end of this fiscal year. Second prong is to raise \$72,800,000 a year (\$145,600,000 for the biennium) to cover spending from the general revenue fund.

Sources for this money would include: (1) a natural gas severance tax, (2) an increase in levies on motor vehicle sales, tobacco and corporation franchises and (3) unclaimed bank deposits, insurance

and property, which the state would take over.

Governor Daniel increased his previously recommended budget by nearly \$29,000,000 to include appropriations for retiring state bonds, providing medical care for people on welfare rolls, a driver education program and advertising for tourists and industry.

Total two-year spending from general revenue would be \$330,000,000.

SMALLER PIE — Compared to the governor's proposal to the Legislative Budget Board's recommendation for general revenue fund spending looks modest — only \$285,000,000.

Though the Board's spending would be nearly \$45,000,000 less than the governor's, it would still be some \$4,600,000 higher than the 1958-59 appropriation.

Budget Board suggests slight increases for the judicial system, executive and administrative departments, hospitals and special schools, public schools and highways. Small cuts were recommended for junior colleges and higher education.

Spending from all funds for state government would total \$2,357,347,479.

SEELIGSON PLAN — Rep. Frates S. Seeligson of San Antonio has prepared an extensive plan to overhaul and beef up the state's tax collecting.

Topping the list would be a 15 percent sales tax with food, feed and fertilizer exempted. It would bring an estimated \$67,000,000 annually.

Another Seeligson bill would re-evaluate present tax laws. It would do away with some regarded as obsolete (such as on clock peddlers, street cars) and others called inequitable (on chain stores, stock transfers, radio, TV, cosmetics, etc.). Same bill would eliminate certain exemptions and revise other taxes, mostly upward, on motor vehicle, tobacco and liquor.

Like Daniel, Seeligson recommends that the state take over unclaimed money and property.

Seeligson was vice chairman of the State Tax Study Commission that spent the last two sessions working on tax problems.

FAIR WARNING — Governor Daniel and Lt. Gov. Ben Ramsey both declared at their inaugural that they have sympathetic hearts for Texas taxpayers.

Governor Daniel proposed greater efficiency economy by consolidating some of the 175 separate agencies and 213 special accounts operated by the state.

Ramsey promised there would be "no stringing up of the unfortunate taxpayer by the heels to shake out enough money to give everyone everything he wants."

Added Ramsey, "I refuse to admit that the success of a legislative session, or an administration, depends solely on the amount of money it can spend."

NO PAY NO WORK — House and Senate agreed easily on an automatic shut-off of the regular session at 6 p. m. May 12, but had more difficulty deciding where to get their salary money.

House members shied from a Senate plan to take from a surplus in the fund to aid the permanently and totally disabled. (Future campaign fodder, for sure, reasoned representatives.)

Instead, they proposed borrowing from the Insurance Department Building fund. Both houses agreed to tap the drivers license fund.

A definite adjournment resolution this early in the session is unprecedented in recent legislative history. So is a session of only 120 days, the period for which legislators can be paid. Both are regarded as reflecting disquietment over the defeat of the legislative pay raise amendment last fall.

Already three new pay raise proposals have been introduced: (1) to pay \$50 a day for 150 days, (2) \$40 a day for 120 days, \$20 a day thereafter and (3) \$42 a day. Present scale is \$25 a day for 120 days only.

FLOOD BEGINS — Dozens of new bills—and old bills dusted off—are flowing into legislative hoppers. Already introduced or ready for introduction are measures that would:

TAX GROSS RECEIPTS of manufacturers and importers of manufactured products, by Rep. Jerry Sadler of Percilla, estimated by author to raise \$400,000,000 a year.

REVISE JUVENILE LAWS to allow prosecution of youths, 16 and over, for felonies, by Reps. Joe Ed Winfree, Houston, and Ben D. Suderth, Gustin.

GIVE REA COOPS the right for 10 years to build and operate lines in an area annexed by a city, to be sponsored by Rep. Alfonso W. Jamison of Denton.

REQUIRE A TWO-THIRDS VOTE of both houses to pass a tax measure, a constitutional amendment proposed by Rep. Bill Jones, Dallas.

TELEPHONE TALK

by J. C. Oakley, Manager

OUR NEW YEAR'S RESOLUTION TO YOU
Happy New Year to everyone in Floydada from all of us at the Telephone Company.

Since this is the season for resolutions, I thought you might want to know a little bit more about a resolution that we try to follow 365 days a year in providing telephone service to you and your neighbors.

Here it is —
WE DEFINE OUR OBJECTIVES
"Our objective is to furnish the best possible telephone service at reasonable cost—a cost consistent with financial safety and fair treatment of employees."

"Service ranks above everything else in this policy. And the only good service is one that is continually improving. To furnish this service we need the best people the best equipment, the best methods, and the best management we can develop."

"Reasonable cost has been defined as one that produces an ever-growing public demand. Our equipment, training, and methods would net us nothing if the cost of service became so high that people would not buy it."

"Financial safety should not be endangered by setting the price of service too low. In the long run, a price that provides profit enough to undertake new research and development results in better, cheaper service to the public."

"Fair treatment of employees means good pay, good working conditions, reasonable job security, and opportunity for advancement based on merit. It is people—employees—who are the most important element in the success of any business."

WE ACCEPT THESE RESPONSIBILITIES
"TO THE EMPLOYEES . . . provide machines, methods, equipment, direction, leadership, job training, incentives to progress, selection for promotion."
"TO THE PUBLIC . . . more and better service at a reasonable cost. Contributions to public welfare and national defense."
"TO THE OWNERS . . . run business in a sound, profitable manner."

LOOKING AHEAD
"Progress has long been the keynote of the telephone business. And, if business forecasters are anywhere near correct, the next 20 years will bring more growth and development than we have ever seen before."

"The future can be faced confidently with a policy of equal consideration for owners, employees, and the public."
That's probably the longest resolution you've ever heard about, but it takes a lot of effort to give you the best in telephone service.

Call by number. It's twice as fast.

YOUR COUNTY AGENT

(By Cecil Lewis, County Agent)
SOIL TEST — If you plan on fertilizing cotton and grain sorghum this coming year it might be a good idea to run a soil test and see how your soil rates. This is a good basis for applying the right amount of fertilizer and not use too much or too little. Blanks are available to send in with a soil test to the Soil Testing Laboratories at A.M. College, at the County Agent's Office.

We would be glad to discuss soil testing with you.

WHEAT FERTILIZER — Fertilizer trials conducted by Amarillo Experiment Station on top dressing nitrogen on irrigated wheat increased yields from 32 to 19 bushels an acre increase. Test weight of the wheat was not affected in anyway.

4-H CLUB — The following boys left Saturday, January 24, to exhibit stock at the Amarillo Fat Stock Show: Warren Mitchell, Neil Mitchell, Larry Golden, and James McNeill are exhibiting 6 head of steers. Randy Laceywell and David Mitchell are exhibiting 6 head of Jarrowbs, Billy Don Colston and David Mitchell are exhibiting four lambs.
