

RECORD STOCK SHOW ENTRIES

Big Barn Will Be Full Monday As Show Opens

Floyd County Junior Fat Stock Show, opening Monday morning for a three-day show and sale will be by far the largest exhibit of well-bred fat animals the 4-H Club and FFA boys of Floyd County have ever had. At the deadline for entries Monday night the junior live stock men had turned in applications for space for a total of 360 animals. County Agent Cecil Lewis had in hand entries for: Forty-five Steers, 108 lambs and 267 fat barrows.

This compares with last year's show when 35 steers, 106 lambs and 110 barrows were entered, a total of 251 animals. Although the number of entries is 100 more than the big show barn held last year all the boys' show stock is being provided space inside the walls of the building. Members of the Fat Stock Show have rallied to spend many man-hours putting the show barn into spick and span condition. County Agent Lewis said visitors to the show will note many improvements in conditions and appearance at the barn. Among these is the arrangement of the new set of scales, and greater ease in getting animals into and out of the barn. Donations of caliche and drive-way gravel added to some purchases of aggregate have been used to fill in and level off the floor of the barn and the entrances to it. A run down of the entries show 34 Hereford calves entered, 10 Black Angus and one shorthorn; Also 45 fine wool lambs, 23 medium wool lambs and 40 Southdowns; And six breeds of swine including 30 Poland Chinas, 52 Hampshires, 23 Berkshires, 19 Durocs, six spotted Poland Chinas, 67 Chester Whites, and 10 crossbreeds (York, Landrace and others).

Stock Show Next Week. With the Floyd County Junior Live Stock Show only days away Floyd County 4-H and FFA boys are on the last lap preparing their animals for the show. Above is one of the lambs that will be shown. It belongs to Bill Ross, right, son of Mr. and Mrs. W. J. Ross of Dougherty. The picture was made before the lamb began to get his finish, but he really stands up on those toes. Helping Billy shape up his lambs are Dennis Jones, left son of Mrs. Dorothy Jones and Dan Drysdale, son of Mr. and Mrs. Howard Drysdale. (Photo by Cecil Lewis)

New Game Regulations Are Slated For Floyd County

Style Show Workers. Among the young matrons, members of 1950 Study Club, dreaming up novel ideas for the Saturday afternoon style show, are the above, left, Mrs. Wm. R. Hale, and Mrs. Sammy Hale, no relation. The style show is scheduled for 2:30 Saturday at the high school cafeteria. (Photo by Kenneth Rimmer)

A proposed law that would add Floyd, Hale, Lamb and Bailey Counties to the panhandle and south plains area now under the direct supervision of the Texas Game and Fish Commission is being circulated over the counties by Senator Andy Rogers and Representative H. G. Wells.

The legislators consider the move a good one for the protection of the wild life of the counties and will place the bill in the legislative hopper at an early date unless they learn of material opposition in one or more of the counties. This is their report to newspapers and Commissioners Courts in all the four counties. The bill is patterned after a law passed in 1949, which was introduced by Senator Grady Hazelwood. It placed all of the counties from the top of the Texas Panhandle to a line running east and west from New Mexico on the west to Foard County on the east, running a long the southern boundaries of Parmer, Castro, Swisher and Briscoe Counties, then dropping down to the southern borders of Motley and Cottle under the direct supervision and control of the Texas Game and Fish Commission.

Senator Rogers and Representative Wells report they have a request from the Commissioners Court and many leading citizens of Hale County asking that these four counties be added to the list of counties under the direct supervision of the Texas Game and Fish Commission. Floyd and Lamb County citizens also have requested that they be placed in the same category, they report, no names given. "It is our thought from the experience of the counties to the north of Hale, Floyd, Lamb and Bailey, that it would be beneficial for said counties to be added to this State Game Commission Authority," says their report to the local authorities and newspapers. "It is our intent, if we do not receive heavy criticism of such a plan to proceed with such legislation if any of the four counties do not wish to be included their name or names will be stricken from the bill."

The affair will take place in the high school cafeteria this Saturday afternoon starting at 2:30, with refreshments being served during the showing. Tickets may be purchased from any member of the club for \$1.00 or at the entrance door of the Style Show.

"Shop Floydada First" will be the theme carried out in the afternoon's viewing, emphasizing that local merchants have the latest things in style, color and material. The Style Show is for that purpose, and to raise funds for the study club projects.

Bob Miller Named County Appraiser

Approved as appraiser for Floyd County for parcels of land needed for widening Highway 70 west from Floydada, Bob Miller, Lockney insurance and real estate man, has been making appraisals of tracts for the county for several days. Miller's appointment has been given by the State Highway Department. His contract calls for him to be paid \$25 per parcel appraised.

As of the first of the week field notes on more than 30 tracts had been checked by the highway department and turned over to the Commissioners Court for appraisals.

State FB President J. H. West Slated for Talk Here Friday

J. H. West, president of the Texas State Farm Bureau, will visit Floyd County tomorrow, March 6, and will address Farm Bureau members at a luncheon at Rogers Restaurant in Floydada at 12:00 noon. The meeting will be held at high noon, and attendance is not restricted to members of the Farm Bureau. It will be West's first trip to this county. County President L. B. Brandes says that West is making the state organization an efficient president and is sure that his talk here will be heard with interest.

West has wired Secretary Benson in the name of the State Farm Bureau protesting the cut in price support for the grain sorghums, and hopes to have an answer from the secretary which can be given to his hearers at this meeting. Urging Secretary Benson to reconsider the cut to 75 per cent of the corn support price for maize, West's telegram pointed out: "Farmers are hurt. Milo must compete with corn and adjustments have to be made when prices are taken into account. However, this cut in support price in one year makes adjustment difficult to the producer and imposes severe hardship on him." West's telegram also pointed out that the new arrangements fails to take into account past policies of USDA, and as well encourages the production of corn in uneconomical areas. The serious blow which the new support policies for maize strikes against grain sorghum growers has created wide-spread alarm throughout the area, Brandes said.

Rabbit Hunt Slayer Is Given 99 Years by Jury

A special venire of 100 prospective jurors has been summoned by the 119th District Court for Floyd County to appear in Floydada Monday when the case of Medford Bennett, Lockney Negro, has been set for trial. Bennett is charged with the murder of Prentiss Bagby, Negro, in Lockney November 28, of last year. Bagby was fatally wounded about 11:45 a. m. Medford admits the shooting and is expected to plead self-defense. There had been some ill feeling between the two for sometime and when they met some 200 yards east of Bennett's Cafe on East Locust Street that morning the shooting climaxed their quarrel. Bennett is about 39 years of age. He has paid numerous fines in county court on complaints of selling liquor in dry territory. Brannum Gets 99 Years In District Court yesterday was tried the bizarre case of the man who murdered his companion on a raw winter afternoon on a lonely lake northeast of Lockney, using a borrowed shotgun, then loaded her body into a pickup, hauled it to Oklahoma and dumped it into Red River. The shooting occurred on the 28th day of December. The body was recovered on the last day of the year. The man was 37-year-old Robert Brannum. His victim was Mrs. Mary Ellen Bryson, 33, wife of a Hollis, Okla., man, who claimed the body after its recovery from the muddy waters of Red River. The woman and Brannum had been living as man and wife at Lockney, where Brannum was employed as a gin hand. Brannum was given a 99-year sentence by a jury selected from a venire of 50. The indictment alleged murder with malice. Brannum said he shot the woman when she cursed him in the heat of an argument while on a hunt for rabbits.

Contractor on Ground For Big Reconstruction Job At Bank

Frank Winfrey, of Frank & Winfrey, Denison building contractors, is on the ground this week preparatory to a big reconstruction job at the First National Bank. Enlarging the banking quarters and rebuilding around the bank force while the institution continues to do business at the same stand has been contracted at a cost of approximately \$146,000. Plans for enlarging the banking quarters were announced in 1956 by E. L. Norman, president. The Johnson building was acquired from George Sherrill, adjacent to the bank on the north, it together with the space which has heretofore been used by Bishop Pharmacy and the Palace Barber Shop at tenants, will be included in the banking quarters, more than doubling the working space of the bank. The plans and specifications have been drawn up and approved for several weeks. Plans call for dismantling the second story of the building and tenants are being evacuated from the second story. The last two of these are Ben P. Ayres, attorney, and Massie & Bond, Sales of these two tenants were taken out of the building by workers last week-end.

Baseball Meeting Again March 15

Some twenty-five were present at the baseball meeting held Monday night at the court house. Sam Puckett presided over the business session and a lot of enthusiasm was shown by those present. The group voted to stay out of the national Little League program and will decide later what ties they want with regard to affiliations. Most of the officers of the league have resigned and a committee was appointed to nominate a slate to replace them. The committee will report on Monday night, March 16, when officers are to be elected. Also appointed at the meeting was a finance committee which turned in more than \$100 from the meeting Monday night and a committee to study what league affiliations the group will want. Baseball workers are hoping for a larger attendance at the meeting date set as many important matters are to be decided. All parents and baseball fans are urged to attend and be heard at the session.

ROPING CLUB MEETING

This week President Bill Norris of the Floydada Roping Club issued a call for a meeting of members of the club at the county court room Saturday, March 7 at 2:30 o'clock p. m. The annual election of officers will be held and the business of the club will be discussed, Norris said.

It Was Moving Day, last week-end for tenants of the second floor at the First National Bank Building making ready for the building contractor to begin work this week. In this picture workmen are lowering the big safe of Massie & Bond from the second story window. The new home of the safe is at Andrews Ward School, a gift of the real estate firm.

Spelling Bee Monday Night

County Superintendent Clarence A. Guffee announced this week that the annual spelling bee to choose the champion seventh and eighth grade speller of Floyd County schools for 1959 will be held at the county court room Monday night. Todate he has spellers entered representing four schools of the county Floydada, Lockney, Lakeview and Dougherty. The proceedings will begin at 7:30 o'clock. Mrs. H. G. Barber has been chosen for word pronouncer. Mr. Guffee said that a junior division spelling bee is also being arranged for, with students of the 3rd and 6th grades eligible to compete. County champion in the higher grade will represent Floyd County in the district meet to be held on April 4.

McAda's LEASE FLOYDADA ICE PLANT FOR SEASON

Mrs. A. O. McAda announced this week that she has leased the Floydada Ice Plant from the owner, J. A. Arnold of Ralls, and will operate it this year, with the aid of Mr. McAda. "We'll need all the home patronage we can get in order to keep the plant in operation, and hope to have the help of the business people to do so," Mrs. McAda said.

MUNCY GAINS STRENGTH

Bob Muncy is said to be gaining strength daily and is now able to sit up a few minutes each day in a wheel chair. Muncy, who suffered a heart attack over a month ago, is still hospitalized at Lockney. Members of the family have no idea when the ill man will be dismissed from the hospital.

The Sand Hill Baptist Church has lost thirty members in the past two months and so far we have been unable to replace them. Our attendance is way down and we would like to extend a special invitation to everyone to come worship with us. If you have no church home. We will try to make you feel welcome. Sunday try to put out a little effort and come to church services. I know you will receive a blessing from attending the house of the Lord.

Citizens of Community Swarm To Schools Tuesday Afternoon

Floydada parents in considerable numbers visited the four schools in the city Tuesday afternoon and night in observance of Texas Public School Week. The four included Andrew's Ward grade school, Junior High, Senior High and North Ward School.

High school held open house Tuesday night with a total of 400 parents registering.

Andrews Ward had a total of 275, Junior High, 130, and North Ward, 61. However, the North Ward total is not complete as visiting hours were still continuing late in the afternoon.

Open house began in three schools Tuesday at 2 p. m. with members of the faculty greeting parents and appointing students to direct them on tour of the rooms to give parents the opportunity to acquaint themselves with the surroundings and the progress their children are making in school work.

Principals at each school and superintendent, I. T. Graves, were elated at the interest citizens of the district took in the open house and the children's welfare. Numerous visitors made the inspection trip a get-acquainted with the teacher visit as well.

Texas Public Schools week came in a busy week of school activity. Six week report cards were handed out Wednesday, and school is being dismissed this afternoon at the usual time with a holiday for the youngsters tomorrow, for the State Teacher's Convention.

Tonight six delegates from this area will be in Lubbock at the Capitol Hotel where a business meeting of the organization will be held. I. T. Graves, president of District 4 TSTA, will preside over the session.

BIBLE BAPTIST CHURCH

THIS WE BELIEVE (No. 4)

5 MORE ADDITIONS SUNDAY

I. We believe the Great Commission was given to the Church ONLY. (Matt. 28:18, 20)

A. It was not given to the Apostles AS INDIVIDUALS, but was given to them AS THE CHURCH. If it was given to the Apostles as individuals, then the Commission DIED with the Apostles. It was given to the APOSTLES AS THE CHURCH. (I Cor. 12:27, 28—See This We Believe No. 1) Feb. 12th.

B. The Church has a 1949-fold Commission. (Matt. 28:18, 20) FIRST teach and make disciples. SECOND baptize them. THIRD, teach them to observe ALL THINGS. FOURTH, SEND THEM OUT as missionaries. "Go Ye"

C. Men (the modernists) with their big ideas have changed this Commission from God's way to their way. First, they say it is alright to be saved in the Church. Second they say it is alright to let the Church baptize them. But third, they say LET THE SEMINARIES TEACH THEM the Bible AND fourth LET THE MISSION BOARD APPROVE THEM and SEND THEM OUT. Only two things wrong with this way: two ways are God's and two ways are man's way, therefore unscriptural. The Church is also to TEACH THEM and SEND THEM OUT. (Acts 13:1, 4)

D. The Lord never established any organization except the Church to Carry on His work. And He said in Eph. 1:23 that He was THE HEAD OF ALL THINGS TO THE CHURCH. Does Jesus have to have the UNSCRIPTURAL ORGANIZATIONS such as CONVENTIONS, FELLOWSHIPS and SEMINARIES TO DO HIS WORK? Is He not able to do his work with the Church HE established? Does He need man's organizations? (Read 2 Tim 2:5) More of same to follow.

Farm Housing Program Grows

The Farmers Home Administration Farm Housing Program is designed to help more farmers with their farm building needs.

Now an owner of a farm in agricultural production and on which the operator plans to produce at least \$400 worth of farm commodities for sale or home use may qualify for the 4 percent long-term housing loan provided that he meets other standard eligibility requirements.

Formerly an eligible applicant had to own a farm that produced a more substantial part of the operator's annual cash income.

Loans may be made to build, improve, or repair farm houses and other essential farm buildings, and to provide water for farmstead and household use.

Jack Kassahn, local county supervisor, said that in addition to financing major construction, the loan funds can help meet many other needs for farm and farm home modernization such as adding bath rooms, utility rooms, better kitchens, and many other improvements to the home as well as to farm service buildings.

While tenants and farm laborers are not eligible, the owner may borrow to do the construction work or make improvements for them.

The loans are made to farm owners who need credit to finance building improvements or repairs, but find that adequate credit is not available through banks or other regular channels. The interest rate is 4 percent and loans may be amortized over periods up to 33 years.

Eligibility for loan assistance is determined by the three-member county Farmers Home Administration committee, and applications are now being accepted in FHA county offices.

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

In a recent poll of the nation's independent business by the National Federation of Independent Business, 86% voted in favor of placing cooperatives on the same tax basis as independent enterprise.

It is a measure long sought by independent businessmen, not only to plug a tax inequality, but also make competition in the market place a fairer procedure.

Many years ago, special acts were passed to enable farmers C. W. Harder to form cooperatives for the orderly marketing of their crops. And it is without doubt that in many cases these cooperative marketing plans immensely aided agriculture.

But the law was written on such a broad basis that now there are many cooperative enterprises that have about as much relation to the farmer as the Kremlin has to the Vatican.

Thus, in the field of manufacturing, wholesaling and retailing, and even in certain areas of finance, there are profit-making cooperatives competing without carrying the tax burdens, imposed on private enterprise.

And in this day and age when any small corporation which pays at least 52% of all profits over \$25,000 in a year in federal income taxes, it is quite obvious the competitive edge that is gained by a competing enterprise that can set itself up as a cooperative.

It becomes quite evident when small business is taxed out of existence, there is bound to be a mass merchandising more economical to the contrary.

It also appears obvious that taxing policies which make it impossible for small firms to stay in business, and thus offer the public a broader range of products and brands at different prices, is the road to ruin.

March 21 Named As Wedding Date

O. B. Smith, of Phillips, Tex., announces the engagement of his daughter, Naomi, to Mr. Donald Bruce McGuire, son of Mr. and Mrs. Robert McGuire, formerly of Floydada, now of Anton, Tex.

The wedding ceremony will be performed March 21 in the First Baptist Church at Phillips.

Mr. McGuire, a 1937 graduate of Texas Tech, and Miss Smith, a 1938 graduate of Texas Tech, both are currently employed in Lubbock.

Home Making Hints

(By Phillis Rogendorf, County Home Demonstration Agent)

For most of us the tempo of living is pretty fast these days and sometimes pressures bring on an "edgy" feeling.

B vitamins are important for nerve stability. Enriched corn meals and grits are good sources of these vitamins.

The Texas Food Standard states that for a good diet each day, a person should have a serving of whole grain and other enriched cereal or bread. Surveys show that many Texans do not get this needed food each day.

For more information on "Corn Meal and Grits-Selection and Use," come by the Extension Office for your copy of the bulletin with that title.

Accessories
For the well-dressed woman of today, a wardrobe of fewer, well chosen clothes is less expensive, easier to care for and helps develop personality better than a large wardrobe with less style and quality. A variety can be achieved with the use of skillfully chosen accessories.

Accessories complete a costume and express the personality and taste of the wearer. They include hats, shoes, gloves, purses, scarves, jewelry, belts, flowers, and collar and cuff sets.

What is more exciting this time of the year than a new hat that is just right for you and for the occasion? Your hat indicates the purpose of your costume.

The average woman needs hats for these occasions:
1. Street, travel or business
2. Church and afternoon
3. Parties and after five occasions.

Your hat for street, travel, or business occasions will likely be made of straw this spring. It may be a sailor, breton, or high crown hat without a brim. The color, size, and shape should be becoming to you and harmonize with the rest of your costume.

When you select a hat for church or afternoon wear, make your outfit dressy with the hat. The fabric and trim determine the dressiness of the hat. Adding a veil dresses up a hat. The size of the hat this season may vary from small to large, depending on what you like. The afternoon hat may be of fabric, felt, or straw.

There are many new color combinations. Tones of blue are particularly strong. A high fashion shade is permed, a green-yellow. Also popular are lavender to cherry shades, near white, black, and navy.

Hats for after-five wear are small. They are usually brimless and small and in an auditorium. The hat may be made of fabric with glitter, flowers, feathers, velvets, or silks.

It is not always necessary to wear a hat after five, but never wear a hat without wearing gloves. A smart hat works wonders. It lifts spirits, makes you walk a little light, and gives you confidence. It is a morale builder. I hope you have fun in your new hat.

Next Week-shoes.

Mr. and Mrs. George Sparks returned home Monday after a three weeks absence from the city to visit with their family in California. The couple were guests while gone of the Loy Sparks family at Sacramento, and Mrs. Helen Wright and family at Millbrae. Mrs. Sparks said it rained night and day their first two weeks there and the sun shined the last week.

Mr. and Mrs. H. P. Shrader of Denver, Colo., have returned home after visiting in Floydada with her sister, Mrs. J. G. Wood. While in the city, the couple were accompanied by Mrs. Wood to Olney where they visited the women's ill brother, P. S. Guimarin, and with Mrs. Wood's daughter, Mrs. J. B. Claiborne and family at Larissa.

Mrs. Cocanougher Relates Programs Of Federation

Texas and Federation programs for the year, was the topic dwelled on by Mrs. A. T. Cocanougher, guest speaker at a dinner given in the Colonial House Tuesday night with members of the 1939 Study Club of Floydada as hosts for the occasion.

Guests were welcomed by Mrs. Lane Decker, arrangement hostess, and presented to Mrs. Cocanougher, and two of her guests, Mrs. Drake and Mrs. Humphrey, both of Lubbock.

All five Federated clubs of Floydada were represented at the dinner, including members from the 1922, 1929, 1934, 1936 and 1938 Study clubs.

Mrs. Watson Jones was speaker hostess for the program, and Mrs. Charles Craig, president of the 1939 Study Club, was mistress of ceremony.

Colors of red, white and blue, were used in decorating the dining room, in observance of the Texas Day program. The head table held a styrofoam replica of the map of Texas, with streamers of red white and blue.

Large U. S. and Texas flags graced the table, with place cards made in the shape of the Lone Star flag.

Mrs. Henry Barber, one of the 7th district departmental chairmen, gave opening prayers. Followed in unison the pledge of allegiance.

Mrs. Cocanougher, Seventh District president of Federated clubs, gave the program for the year of Federation and Texas Day, combining her talk on the two subjects.

The speaker, a close friend and co-worker in WMU with Mrs. Joe Wilson and Mrs. Lon V. Smith, and a close acquaintance of many in this area, stressed the fact that clubs come second in the community, your church first.

Mrs. Cocanougher concluded her talk in a spiritual vein, saying that Federation is only one of many organizations of the town's people in church school on their civic affairs.

There were 46 present for the evening's program and for the chicken and spaghetti dinner. Mrs. Cocanougher was well received by those attending.

NO LAUGHING MATTER

The famous writer and cartoonist James Thurber was once served with a summons meant for his brother, John. This forced James to go court to prove his own identity. He brought in documentary proof and added that his good friend, humorist Robert Benchley, would also be there to swear positively that he was James and not John.

At that moment, the irrepressible Benchley burst into the courtroom, face beaming, hands outstretched. "Well, well," he boomed "And how's everything going, John?"

Floydada Cemetery Is Well Kept, Annual Meeting Report Discloses

Sale of burial plots in the new portion of Floydada Cemetery has been a material factor in making it possible for the Cemetery Association to carry on successfully the past year and at the same time keep the fiscal affairs of the association in current condition.

Reporting at a meeting of the association, held Monday evening at 6 o'clock at Rogers Cafe, C. H. Bedford, president, and F. C. Harmon, secretary-treasurer, said that most recent work of the association has been in trimming trees and shrubs at grave sites, also in repair, leveling and laying out thoroughfares. The best drainage conditions prevail in the cemetery grounds now than in

Alvie Ratheal Is New Sheriff Crosby County

The new sheriff of Crosby county, who succeeded J. T. Herrington as sheriff last week, has been a deputy sheriff for several years and was stationed at Lorenzo when the discrepancies in the accounts of the sheriff came to light.

He is Alvie Ratheal and was named sheriff by the Commissioners Court when they hurried back home last mid-week from a state meeting of County Judges and Commissioners in session at A & M College.

The scandal broke while the commissioners and judges were out of the county and they traveled all night to be back home the day after they learned that the county had no sheriff. A Texas Ranger served in the capacity of sheriff for 24 hours or more.

Five indictments have been returned by the Crosby County Grand Jury against Herrington and others are most likely to follow, according to District Attorney George Gilkerson of the 72nd District Court.

The sheriff is charged with theft, misappropriation and extortion of county funds, and making false claims. The sum of money named in the five indictments was \$422.90, but County Attorney Harry Jr. said "several thousand dollars" may be involved when an audit of the sheriff's bond is completed, probably about March 10.

Herrington has made confession of the charges made and has offered \$1,200 in restitution of the sums taken.

Bookmobile Makes Local Stops Today

The first trip of the State Library's Bookmobile to Floyd County is being made today with stops scheduled at four communities, but all the communities of this county will not have been visited until March 17, almost two weeks hence, according to the schedule announced last week.

Today's stops will include Lakeview, Sand Hill, Harmony, and Dougherty with a stop also indicated at the Floyd County Library for book deposit only.

Several Crosby and Dickens County stops will intervene. March 17 stops are scheduled for South Plains, Cedar Hill, Aiken, Providence, Lone Star and Lockney Public Library for book deposit only.

The first round of the Bookmobile's schedule will be completed March 21, in Garza County. The route will be covered every three weeks.

McBrien Attends A & M Conference

COLLEGE STATION (Sp.) — County judges and commissioners from 100 Texas counties attended the three-day County Judges' and Commissioners' Conference held on the campus of Texas A&M College Tuesday to Friday of last week.

Attending from Floyd County was Judge J. D. McBrien. The "back-to-school" type conference program was developed from suggestions by county officials. Its primary purpose was to give those participating a better understanding of the problems which commissioners' courts must handle in the discharge of their responsibilities.

The conference was sponsored by the Texas Agricultural Extension Service and the County Judges and Commissioners' Association of Texas.

Buying Power for Floyd County Worker Shows Gain in 5 Years

(Special to the Hesperian)
NEW YORK, Feb. 9 — How many minutes must a person work in Floyd County to buy a pair of shoes? Or a dozen eggs? Or a pound of bacon? How long to earn the money for his taxes?

The lengths of time for these items are different locally than they are in other communities because local wage scales are different than they are elsewhere.

On the average, it takes less time than it did five years ago. Out of 16 key consumer products investigated, it was found that 10 cost less in terms of hours of labor, one was unchanged and five increased.

This improvement in buying power is the result of the year-by-year rise in wages. Although prices rose also, they went up more slowly. Inflation, therefore, did not wipe out all the gains.

As a result, the average Floyd County worker is now able to buy a man's woolen suit with the proceeds of about 27 hours of his labor, a refrigerator with approximately 117 hours, a house dress with 103 minutes, a pound of round steak with 30 minutes, a pair of nylon stockings with 29 minutes and a dozen eggs with 18 minutes.

To have bought the same items five years ago would have required at least ten percent more in working time.

On the other hand, some costs have risen. A doctor's office visit is now 12 percent higher, a haircut, 4 percent, and admission to the movies, 4 percent.

The figures are based on findings of the National Industrial Conference Board, the Bureau of Labor Statistics and the Tax Foundation.

The typical \$4,500-a-year man in the United States spends more of his working day earning money for his taxes than for any other major necessity, according to a breakdown made by the Tax Foundation.

It lists taxes as requiring 2 hours and 29 minutes per day as compared with food, 1 hour and 39 minutes, housing, 1 hour and 35 minutes, and clothing, 37 minutes.

In Floyd County, where earnings last year were some 12.3 percent above the average of the West South Central States as a whole, the local worker enjoys an economic advantage.

Mrs. Lillie Mae Tingley, 64 of Phoenix, Ariz., a daughter of Mrs. Lela Lloyd, 219 West Virginia St., died in Phoenix Tuesday at 1:30 o'clock.

The funeral rites are expected to be held Friday afternoon at Phoenix. A native Texan Mrs. Tingley and her family were residents of Floydada for several years. They moved to Arizona about eight years ago. Survivors besides the mother here include her husband, four sons and a step-daughter, a sister and two brothers.

Spring Track Events Slated On Local Field

The spring track and field schedule for high school and junior high boys is taking shape already and local fans are in for some entertainment starting in this month.

Big events that will get things going over the south plains will be the first annual Whirlwind Relays to be held in Floydada on Saturday, March 14. Since the Crosbytown Relays have been moved from March 7 to April 4 the local meet will open the season for most area schools.

The track and field events will start all day and will be held on the new track east of the high school.

Already 21 teams have entered and some 300 boys and their coaches are due to take part in the meet. At least that many more fans will be here to the races run.

Acceptances have been received from Malador, Lockney, Raik Paducah, Hale Center, Olton, Tulla, Idaho, Abernathy, Crosbytown, Dummitt, Slaton, Petersburg, Spur, Friendship, Amberst, Sudan, Friona, Farwell, Sundown and host Floydada.

Coach Preston Watson says a few temporary bleachers will be moved from the football field to the track so that spectators will have seats to see the events.

With the close of the basketball season most all the high school athletes are now practicing for track events. The team members will be named some time next week.

The Whirlwind Relays promise to be one of the largest meets on the South Plains this season as conflicting dates later in the season will probably hold down entries at events in March and in early April.

Lions Sponsor Junior Meet
One week later Floydada Lions Club will sponsor a junior high track meet on Saturday, March 21. Coach Pete Fuglaar and Principal A. W. Coltharp have mailed out 17 invitations to near-by schools for this meet.

The junior meet will be for boys through the eighth grade. Team trophies, first place awards and second and third place ribbons will be given individual winners in these events.

The district track and field meet will be held in Lubbock again this year and is set for a Friday in early part of April.

Floyd County Junior Fat Stock Show

The County show begins Monday, March 9, and will close Wednesday, March 11. The 4-H and FFA boys and girls have worked hard with their animals during this past year and they will be on display at this time. Drop by and see the exhibits of steers, lambs and barrows and congratulate the boys and girls on a job well done.

Probably the most interesting day to see what is going on is Tuesday. Swine judging will begin at 9:00 a. m. Lamb judging 1:00 p. m. and steer judging at 3:00 p. m. This is a good way to see what type of animals are being produced to meet the market situation.

Hybrid Grain Sorghum
Many of you will hear about a new hybrid for sale. RS 608 has been released by the Texas Experiment Station. RS 608 is a cross between Martin and 7073. It is about 2 to 3 days earlier maturing than Martin and 7073. It does not have the yield potential as some of our other hybrids but in a 2 year test it out-yielded both Martin and 7073 by 6 percent.

4-H Clubs
The agents met with interested 4-H members and parents and discussed the organization of a Lakeview working day earning money for his taxes than for any other major necessity, according to a breakdown made by the Tax Foundation.

It lists taxes as requiring 2 hours and 29 minutes per day as compared with food, 1 hour and 39 minutes, housing, 1 hour and 35 minutes, and clothing, 37 minutes.

Davis to Head Rotary Club

Floydada Rotary Club Wednesday elected Lon Davis Jr., president of the club for the year beginning July 1, advancing him from the post of vice president.

With him the club chose A. L. Wylie Jr. as vice president, and re-elected Bill Hardin secretary with James M. Willison Jr., treasurer.

New directors of the club will be Bill Brown, Ernest C. Carter, Harold Elder and DeWitt Seago.

The club speaker for the day was Miss Florence Coffee, a Canyon girl, daughter of a former district governor. Miss Coffee was Rotary Foundation Fellow from the 13rd District last year. She spent the year in Australia, where she studied at Sydney University. A Rotary Fellow is not only a student in the country to which they ask to be sent, but is also an unofficial am-

Interest High In Committees First Meetings

Indicating that Floydada citizens are straining to make their town a bigger and a better one in which to live, and to improve along all lines, is indicated by attendance the past week at committee meetings marking the beginning of the new Chamber of Commerce year.

His first meeting in the series will be held tonight. This is the health and safety committee. They will gather at 7:30 o'clock at the PCA office.

Lively interest in the problems of the community is being evinced at the meetings. Chamber of Commerce Manager O. M. Watson Jr. reports.

ders, waxworks, medicine shows, etc.) are no longer useful. Others, such as the chain store tax, he called inequitable.

Seeligson's bill would repeal some 38 such taxes and increase levies in other areas - auto sales, cigarettes, liquor, beer, corporation franchises. His plan also would include two ideas backed by Gov. Price Daniel - to take over abandoned property for the state and to make a bookkeeping transfer of \$18,000,000.

But unlike the governor, Seeligson is frankly pulling for a general sales tax.

Other new tax ideas are to increase the levy on beer from \$4.30 to \$10 a barrel, by Rep. Leon Thurman of Anson.

Rep. W. T. Oliver of Port Arthur has introduced a five per cent gross receipts tax on hotels, motels, rooming house rentals and airline passenger business. Oliver also proposed a five-cent-a-gallon tax on soft drink syrup and a three per cent levy on pop sales.

GALS AT IT AGAIN - That hardy repeater from many past sessions, the women's equal rights amendment, is back again.

Sen. George Parkhouse of Dallas is sponsor of the proposed constitutional amendment which would remove legal restrictions on women.

Representatives of the Federated Business and Professional Women told the Senate Committee that some Texas laws classify women with "infants, imbeciles and lunatics."

They pointed to the statute that prevents a married woman's selling, without her husband's permission, property she acquired on her own hook.

As usual, no one opposed the women. But the proposal was packed off to the attorney general for a "full appraisal of what effect it would have."

OF CHURCH AND STATE - Religion and politics got mixed - with explosive results - when four legislators announced they'd heard atheism was being taught in state colleges.

A bill to require all faculty members in state schools to take an oath they believed in a supreme being

was introduced by the four. They are Reps. Bill Hollowell of Grand Saline, Joe Chapman of Sulphur Springs, Ben Lewis of Dallas and W. T. Dunagan of McKinney.

College officials and university pastors joined in calling the charge "ridiculous." Several University of Texas spokesmen, both educators and ministers, said they had never known a time when there was more sincere interest in religion among both faculty and students than at present.

WHY VACCINATE? - Sen. Floyd Bradshaw of Weatherford and the medical profession are at odds as to the value of smallpox vaccinations.

Sen. Bradshaw refused to send his four children to Austin schools, which require vaccinations, and is teaching them himself in his office. He also introduced a bill which would prohibit local school boards from requiring that children be vaccinated before they can attend school.

Quoting from a 34-year-old medical article, Bradshaw told the Senate Public Health Committee, "the bedbug is the sole conveyor of smallpox."

But medical spokesmen credited vaccinations with eliminating the scourge that once killed thousands every year. Dr. J. M. Coleman of Austin told the committee that allowing children to come to school unvaccinated had the same "potential for destruction" as allowing them to bring "pistols and switchblade knives."

FOUR ALARM HEARING - Committee discussion of bills on city firemen's and policemen's hours brought more spectators than a first class fire.

City officials and the firemen's and policemen's associations are in a head-on clash over the old issue.

A bill by Rep. Robert Johnson of Dallas would set maximum hours, increase overtime pay for fire and police work in cities over 10,000. A rival bill by Rep. Ben Sudderth of Brownsville would give the cities control over these matters.

City officials declare the people who have to foot the bill ought to be able to make the decisions. Spokesmen for the associations said, in effect, that they have to come to the legislature because they can't get any help from their cities.

HOW MUCH CREAM? - Milk producers and milk sellers are squabbling as to whether the law should require that milk be labeled as to butterfat content.

House Health Committee sent the labeling bill to a sub-panel. Retailers opposed the bill, said the procedure would be costly. They said, too, that there would be competition to provide richer milk which a calorie-conscious public doesn't want. Present law requires 3.25 percent butterfat content for whole milk.

Producers said they thought the public ought to know what they're buying.

SHORT SNORTS - Texas Capitol grounds of the 1980's will extend almost to the University of Texas campus, if plans materialize. A proposed master plan, unveiled by Governor Daniel and the State Building Commission, aims at continuing present expansion northward by four blocks and in a four-block-wide strip.

National Safety Council sent congratulations to Governor Daniel for Texas' present record drop in traffic deaths for 1958. Latest reports show 2,336 killed last year as compared to 2,539 the year before.

Hog killing with all its work and grease and soap making, cooking for the thrasher for some twenty men an event in one's life, no wonder a body did not keep in touch with the new growing town of Ralls or the older one of Floydada. A day's shopping in the spring, another in the fall, a picnic maybe in the summer, Children to send to school, early rising to get them off, combing long braids of hair, fixing up school lunches, hunting for hats and gloves and books, listening anxiously cold afternoons for the sound of horse's hoofs coming down the four mile road from McCoy.

Helping in the field with a hoe, running the row binder, heading to pass.

The automobile came, chuffing and spluttering down the dirt roads, scaring horses, but moving us closer to the towns, bringing pavements and better roads. The stores put in

As A Farm Woman Thinks

I Have Known
I cannot say that I have walked with Him.
I cannot say that I have heard His voice.
Or seen His face and felt my heart rejoice.

Yet I have known rest after cruel hardships
peace after chaos, laughter after tears.
Faith after faith was shattered, and contentment
Of middle age after the race of years.

I have known sunshine brightest after darkness,
Spring's sweet young life after the killing frost.
Friendship I thought dead alive and genial.
And life worth living after gravest loss.

I may not feel that I have walked with Him
Or seen His face, or in His presence stood.
Yet I can say that I have known all these
And in them found His promises are good.

—Edna T. Harbour

These cold, windy days are a good time to sit around the warm fires and just take out old, precious, ever-living memories.

After a trip to our farm where we lived some forty-five years I recall when I was a young wife and the new bustling town of Ralls looked like hunks of yellow cheese placed here and there on the town section. Floydada houses were older and more mellowed and had taken on the above.

I was new to farm life having lived soft gray of the ever-changing clouds in the little town of Emma most of the time and in Hereford two short years. Deep ruts cut in the mesquite grass when the lumber was hauled for our new house were not filled in, the trees were only small canes stuck in plowed ground, the lawn was a small pasture coming right to the front door where white daisies nodded and rippled with the wind in the tall grass.

The prairie sod was only fresh broken for the new field, white faced cows huffed up sleeping calves in the big pasture.

The future lay ahead, shining and promising; a blue eyed baby boy played near the cook stove, making marks in the ashes on the hearth and asking me the names of the letters that spelled the firm's name. Two baby girls, twins, lay sleeping in a well-lined box near the open oven. Life was getting full.

There were big washings to be rubbed out on a washboard and boiled in tubs of boiling water, ironing done from sad ironing heated on top of the cook stove, pine floors to be scrubbed with hot lye water and a broom, chickens and turkeys to be raised, a garden made, all shirts and underwear, dresses and aprons to be sewed and a million buttonholes, it seemed to be made.

Days were not long enough, thank goodness I had the strength.

Brownfield, Tex., Man Reports—

2 3/4-Bale Cotton

(Howard) Wheeler, prominent Texas farmer, says: "I farm 1,840 acres. With that much land I have to maintain high yields, year after year. Phillips 66 Ammonia helped me do that. This past year we watched our crop carefully, then when conditions looked good, we went in and side dressed it with Phillips 66 Ammonia. The cotton came right along, setting a high count of squares—of course that meant a good yield, average 2 3/4 bales per acre. I use Phillips 66 Ammonia with excellent results on my maize, too." Other successful Southwestern farmers have discovered that they make more profit per

acre, using Phillips 66 Ammonia. They get more cotton that classes higher at the gin... yields of sorghum grain and ensilage are increased... profits on wheat and small grains are increased through higher grain yields and improved forage... more marketable vegetables are harvested.

Phillips 66 Ammonia can be applied pre-plant or as a side dressing. It can be easily applied either by you or your distributor. See us today about your supply of Phillips 66 Agricultural Ammonia... it gives you more nitrogen per dollar than any other form of fertilizer—a full 82%.

Jerry Crawford Is a Finalist

One senior at Floydada High School has reached the finals of the 1938-39 National Merit Scholarship Program and has been awarded a certificate of Merit, according to Principal A. E. Baker.

Jerry Crawford has received the Certificate, which attests to his high academic promise.

The senior distinguished himself by high scores on the two college aptitude tests used in the National Merit Scholarship competition. About six-tenths of one per cent of the seniors

in each state received the awards. A national total of 10,000 students were honored.

Over 478,000 students were tested in the 1938-39 National Merit Scholarship competition which began last April. The test results have pared the competitors down to the 10,000 finalists. Some 700 of the finalists will be named Merit Scholars this spring. They, and the colleges they have chosen, will share in \$3.5 million in Merit Scholarship funds offered by over eighty different organizations and individuals. The winners will be determined by the results of final judging now being conducted. The Merit Scholars will be announced about May 1.

The Merit Scholarships are four-year awards, and carry stipends that range from \$100 a year to \$1,500 a year. Each stipend is individually determined on the basis of the need of the individual recipient. The amount is based upon family resources, summer earnings and college costs, all of which vary with each winner. No Merit Scholar may accept other major scholarship assistance in addition to his Merit Scholarship stipend, a rule followed by most private scholarship donors.

The fifth program will begin on April 23, 1939, with the National Merit Scholarship Qualifying Test to be given in an estimated 15,000 high schools.

Something To Think About
Sometime when you're feeling important. Sometime when your ego's in bloom. Sometime when you take it for granted. You're the best qualified in the room. Sometime when you feel your going would leave an infallible hole. Just follow this simple instruction. Take a bucket and fill it with water. Put your hand in — up to the wrist. Take it out — and the hole that remains. Is the measure of how you will be missed. You can splash all you please as you enter. You can stir up the water galore. But, when you stop, you will find in a minute That it looks quite the same as before. There's a moral in this quaint expression. Just do the best that you can. Be proud of your self — but remember There is no indispensable man. — Author unknown

Something to Crow About!

YES YOU CAN CROW ABOUT AN ELECTRIC CLOTHES DRYER. HERE ARE SOME REASONS WHY —

1. MEANS LESS IRONING:
There are fewer wrinkles and no "ears" left from clothespins or creases from lines to be ironed out. Many articles in the family wash do not need to be ironed; they are removed from the dryer at the proper time; they are so soft, fluffy and free of wrinkles.
2. ELIMINATES WORRY ABOUT THE WEATHER:
In the midst of blizzards, sand storms or downpours the homemaker fortunate to have an electric clothes dryer remains unperurbed. The washing can be done any time — day or night, and season of the year. Furthermore, the perfect days do not always come on the day most convenient for the homemaker to do the laundry.
3. ELIMINATES THE PROBLEM OF CLOTHES BEING SOILED OR DAMAGED WHILE DRYING:
Clean garments and linens may be replenished frequently. This would be particularly true when there are growing children in the family. Rather than waiting until they are worn out, as smaller stock would be required.

AMOROSITY IN PUBLIC

For those of you who do not recognize the meaning of amorosity, it comes from the Latin word *amare*, *amatus*—to love—and means the display of an affectionate attitude toward a member of the opposite sex. The word, it is true, does need more love; however, that is of a different type from the one mentioned in this text. Showing one's affections for a member of the opposite sex is quite appropriate, when done with discretion and at the proper time in the proper place, but I am concerned with the cheap, immature actions of some of our students toward one another while wrong morally or socially for a boy and girl to walk with one another to classes, and not too much improper with occasional episode of hand-holding, but when a couple are seen continually by the public to be holding hands and standing so close together that a book could not be placed between them, then I believe that these actions are not deplorable of the proper conduct and attitude necessary for a well run school. Actually I do not mean school alone, but any public place. There is a time and place for everything, but a public place is not the correct setting for a display of amorosity.

I think that if a boy and girl have any pride and self-respect, they will not act in the above mentioned manner. If this type of thing is continued, it is a grave step in the lowering of our moral standards which form the legs and feet on which a superior and united nation such as ours supports itself.

Remember, we act enough like animals as it is; therefore, let us try to show that we are civilized and refined some of the time, especially while in public. Moreover, I think that if those concerned will withhold their affections until a later time, they will not find it too difficult a task. If this is done by all our schools, lives and public standing will be greatly improved.

Eighteen Pass Driving Test

(By Freida Smith)

Eighteen driving students in FHS recently received their driver's license and twenty-six received certificates.

The students began driving to the courthouse one a week beginning the first six weeks at the end of the semester.

The test given consisted of rules and signs. All the driving students drive once a week and twice every four weeks.

Class was held every day the first six weeks. The driving textbook is Sportsmanlike Driving.

Only ten per cent of the high school students, who take driver's tests, have accidents.

Twenty-Two Teams Entered in Relays

About 22 schools have accepted invitations to enter the Whirlwind Relays at the Floydada High School on March 14, reports Coach Preston Watson.

Each school will be limited to two entries in each event except relays, one team per school. Entries must be in by March 10, and there is no entry fee. A suitable meal will be served in the FHS cafeteria for \$1. The track field is located on the east side of the high school.

Coaches will meet in the Athletic Department at 8:30 a.m. on March 14.

The meet will commence at 9 a. m. when high hurdle and pole vault events are scheduled.

Finals are scheduled at 2 p. m.

A complete schedule of events will appear in next week's Whirl.

Ambitious Girl Is Estella Wyatt

(By Sue Ring)

A very ambitious girl moved to Floydada from Carey, Texas, in the eighth grade. This fact and many others are proved by the many offices and honors she now holds.

Estella is Exchange Editor for the Whirl in public, and she is a very hard worker and is very well liked. Estella also holds the office of reporter for the Future Homemakers of America. She is a member of the Student Council, a representative of the P. E. class first period.

To prove that she is well liked, the revealing evidence is submitted that she was in the run-off for the class favorite of the senior class.

Estella has many likes. Perhaps the first of these is the senior class, naturally. Running second is avocado's. Oh, yes we can't forget pretty clothes, her favorite song, "Lonely Teardrop," and her favorite singers, the Platters.

Like all normal people, she has a few dislikes. The only one of these worth mentioning is the fact that she doesn't like noisy people, and who does?

When asked to describe Estella, a friend said that she was ambitious and very helpful. This is very true. She plans to go to North Texas State College at Denton after she graduates from Floydada High School where she is now a senior, of course. I am sure, as everyone, that no matter what Estella plans to do in life, she will succeed.

3 Students Hail From Fort Worth

(By Genetta Price)

Martha, Marie, and Billy Kinard are new students in FHS. They attended our school three years ago. Martha and Marie are 17. They attended Technical High School in Fort Worth. Billy is 16 and a sophomore. He attended Amon Carter Riverside High School in Fort Worth.

Billy likes good American and Mexican food, sports (especially football), girls, and loafing. He thinks most of the kids are friendly, and the teachers are teachers. He is taking Vocational Ag, World History, Algebra II, and English II.

Marie likes swimming, picnicking, skating, driving around, and cooking. She thinks the school is fine, the teachers nice, and the kids fairly friendly. She says "It's not like attending a business school." She is taking Home Ec, PE, Typing, World History, and English III.

Martha is taking American History PE, English, Bookkeeping, and Speech. Her likes include Jimmy St. John, her steady from Fort Worth, skating, swimming, eating (who doesn't?) and driving around. She thinks the teachers are wonderful and the subject matter is more difficult in this school.

As these new students we would like to say "Welcome to FHS."

Whirlwinds End Season In Bi-District Game

(By Ricky Holland)

Seminole's smooth-working, sharp-shooting Indians scalped their way to an early lead in the Floydada-Seminole Bi-district game in Chapman Fieldhouse on Tuesday night, February 24.

Harry Doyle, one of the three seniors on the Seminole squad, had one of his best nights of the year, bucketing 22 points. Don Cobb, second starting senior had 17, while Chig Wilson dropped in 10.

Scoring honors of the game went to Floydada's Bill Patterson, who made 23 points before fouling out midway in final quarter. Don Vickers had 15 points and Bill Gilliland 10.

Cobb hit the first two baskets and started the scoring rolling. The Indians built up a 13-2 lead before Patterson hit Floydada's first field goal with 2:32 seconds left in the initial quarter. The quarter ended with Seminole ahead 17-5.

Seminole added six points before Floydada could score in the second quarter. At one stage the Indians had a 20 point lead and when freshman Jim Vining hit two free throws, the Indians reserve hit the court for the Indians.

With three of the regulars starting the third quarter, the Indians came out cold, but warmed up after Floydada cut the margin to 15 points. Two baskets by Wilson pushed the Indians to a 22-10 lead. At one stage Seminole led by 23 points, and later upped it to 24.

Floydada, which trailed 58-36 as the final quarter started, closed the gap to 17 points, but that was as close as the Whirlwinds could get. Seminole hit 29 of 60 shots for 42 per cent, while Floydada made good on 22 of 56 for 39.5 per cent. The Indians had a good night at the free throw line, dropping in 15 of 20 attempts with Floydada making 10 of 24.

Poem For Basketball Players And Fans

(The following poem is dedicated to all basketball players and fans. It was taken from the Seminole War Whoop.)

I think that I shall never see
A satisfactory referee,
About whose head a halo shines,
Whose merit rates reporters' lines;
One who calls them as they are,
And not as I would wish by far,
A gent who leans not either way,
But lets the boys decide the play;
A man who knows the rules by heart,
And uses judgment from the start,
Poems are made by fools like me,
But only God can referee.

Secretary-treasurer of the club is Mr. O. U. Bloushard. Mr. Bloushard is efficient in this capacity because it is his duty to add to the jealousy that Misses Gossip and Jealousy have done.

The organization only has one drawback and that is Mr. Christian Influence. Mr. Influence uses his abilities to keep FHS students away from the club but sometimes he fails because of foolish students who refuse to shy away from the crowd.

Let us dare to be different; destroy this organization.

You can tell a freshman by his silly eager look....
You can tell a sophomore because he carries one less book....
You can tell a junior by his jolly air and such.
You can tell a senior, but you can't tell him much. (yea Sr. 59)

Banquet: Cold lamb chop and faded green peas completely surrounded by dull speakers.

Are you a member of the newly organized "Flap-Jaw" club in FHS? If you are then you must be a social outcast.

The club president is Miss Hilda Gossip. Miss Gossip makes a good president, for you see, she starts all types of stories (often untrue) about some innocent person which often does some very critical damage.

Miss Gossip's assistant is Miss R. Jealousy. Miss Jealousy walks hand in hand with Miss Gossip because gossip is started out of the realm of jealousy.

Qualifications for citizen include: interest and active in school program; good school spirit; contribution to welfare of school and student body; good sportsmanship; good citizenship and wholesome attitude.

Teachers are extremely fascinating characters from a student's point of view.

Some students picture a teacher mentally as the "ogre of the day," a wicked individual with a huge club, standing over the student with the idea that everything he'll do will be wrong and he'll have to take the consequence, a "hardboiled" drip with no sense of humor, no mercy as far as tests are concerned; and a strictness so stiff it would stand by itself.

Actually, a teacher is more than an everyday drudge who stands before a class with a purpose in mind and no idea of how to nail it to the mind of those facing him, the student.

All instructors have spent a certain amount of time and hard work to acquire the often looked down upon title of "teacher." To define "teacher," I might say he is an individual with an immense knowledge which he is trying to pass on to others so that they can be put to use in daily life.

All human beings have feelings and experience love, hate, fear, anger, and other emotional occurrences, so does the teacher. He has his favorites, people who are cooperative and easy to get along with. And he has those students who must be pushed a little but in spite of the type, "teacher" feels a certain communion with all his students.

Any teacher will go more than halfway to meet his student if the student will at first put forth some effort.

The praise teachers never receive is somehow felt in their hearts when a former student returns and tells how the lessons he learned have helped him to enrich his life.

It may be said of a teacher, "High praise from his charges and great objects bring out great minds."

One For The Road

(By Sue Flenniken)

A new doctor arrived at the asylum and one of the patients accosted him saying, "We like you much better than the last doctor." "How is that?" asked the new doctor. "Well," replied the patient, "you seem more like one of us."

Pedestrian—A husband who didn't think the family needed two cars.

Summer—The time of year when the highway authorities close the regular roads and open up the detours.

One thing that will often get you out of hot water is a telephone. The new cars are wider, longer, lower—and higher!

"Is your boy friend lazy?" "Is he?" When he wants to brush his teeth he holds a toothbrush in front of him and watches a tennis match.

Sign in hotel equipped with sprinkler system: "Don't smoke in bed—you may drown yourself."

Whether it's bad luck to meet a black cat depends on whether you are man or mouse.

No man is completely worthless. He can serve as a horrible example.

Facts Of FHS In Paragraphs

(By Price Pritchett)

There are 24 freshmen, 21 sophomores, 25 juniors, and 19 seniors in the FHS Whirlwind Band this year, a total of 89 members.

There are 29 Royal typewriters in the typing room this year. Two typewriters are in the office, one in the library, one in the band hall, and one in the Ag Department.

There are 93 FHA members for 1958-59.

Thirty-one boys were on the A and B basketball squads this year. There were 22 girls who were on the A and B girls' basketball teams.

A total of eight girls have quit school to get married this year in FHS—three juniors and five senior girls. Four senior girls are engaged at present.

Janis Roberts, 1938 FHS graduate, made the first semester honor roll at West Texas State College, Canyon, Texas. She has also been named to a national honor organization. She was salutatorian last year.

Are you a member of the newly organized "Flap-Jaw" club in FHS? If you are then you must be a social outcast.

The club president is Miss Hilda Gossip. Miss Gossip makes a good president, for you see, she starts all types of stories (often untrue) about some innocent person which often does some very critical damage.

Miss Gossip's assistant is Miss R. Jealousy. Miss Jealousy walks hand in hand with Miss Gossip because gossip is started out of the realm of jealousy.

Secretary-treasurer of the club is Mr. O. U. Bloushard. Mr. Bloushard is efficient in this capacity because it is his duty to add to the jealousy that Misses Gossip and Jealousy have done.

The organization only has one drawback and that is Mr. Christian Influence. Mr. Influence uses his abilities to keep FHS students away from the club but sometimes he fails because of foolish students who refuse to shy away from the crowd.

Let us dare to be different; destroy this organization.

You can tell a freshman by his silly eager look....
You can tell a sophomore because he carries one less book....
You can tell a junior by his jolly air and such.
You can tell a senior, but you can't tell him much. (yea Sr. 59)

Across the golden field
To where the blue
The gold.
The combines roar,

And keep a wary eye

The hum of good machinery
The landlord watch

And thinks of all the

Put then the big

The day grows dark
hear the whine.
Though thunder roars

Then hail comes
bines cease to grin
The landlord spits

Production Applications Fertilizer Can Be Profitable

Results indicate that the kind or amount of fertilizer applied had no measurable effect on any fiber quality. Based on the results obtained under the two extremes of weather conditions in 1957 and 1958, the following nitrogen fertilizer program can be suggested: If planted before May 1, 100 to 120 pounds N. May 1 to May 10, 70 to 100 pounds N. May 10 to May 20, 40 to 70 pounds N. May 20 to May 31, 20 to 40 pounds N. After June 1, no N. Forty to 80 pounds of phosphate is suggested regardless of planting time. Experiments showed that similar yield increases were obtained if all nitrogen was applied before planting, all sidedressed, or in split applications. Because of this, it is suggested that the preplant application consist

Miss Virginia Legg Celebrates 90th Birthday at Party

SPUR — A happy little old lady has celebrated her 90th birthday. Her eyes sparkled like a teenage girl and she smiled often through the years of a long life she has retained a cheerful attitude.

Miss Mary Virginia Legg, affectionately known as "Aunt Jennie," friends and relatives, was born in Henry County, Missouri, February 15, 1869. She came to Texas in 1927 and made her home with a nephew and family, Mr. and Mrs. L. H. Lewis of Floydada. Later she lived in the home of a brother and his family, Mr. and Mrs. J. A. Legg in Dickens.

She now has a room with kitchen privileges in the home of Mrs. Ora Russell, 401 W. 3rd Street. Spur. Miss Legg prepares her own meals, walking five blocks to the market and carrying her groceries home. She scoffs at the idea of using a cane.

Miss Legg alone survives a family of ten children. Her father, J. P. Legg, who lived to reach 75, was born, married and died in the same house on a 600-acre Missouri farm.

She was baptized and joined the Baptist Church in 1902 and the church has always had an important place in her life. She has been a member of the Order of the Eastern Star almost as long. One of her cherished mementoes of a long eventful life is a bronze emblem she received when she attended OES Grand Chapter in Kansas City, in October, 1914.

The birthday observance was held at the home of a nephew and family, Mr. and Mrs. Peyton Legg in the Afton community. Two other nephews attended, J. P. Legg of Lubbock and Tandy Legg of Hereford.

Other nieces and nephews in the West Texas area include Mrs. Green Bostick of Matador, Charlie Lewis, Mrs. Beulah Sweetson and Mrs. Mamie Smart of Floydada, Mrs. Jennie Connor of Lubbock and Mrs. Betty Salyers of Abilene.

The Church of the Nazarene at Floydada has been without a pastor since about Feb. 12th, when Rev. C. H. Mosley moved to Quanah where he is now pastoring. However, we haven't been without a preacher as the pulpit has been filled each time, mostly by Bobby Ferguson.

The church has secured a pastor who is to move here March 10. This is Rev. L. A. Miller now pastoring at Shamrock, Texas. We are informed that Brother Miller is a young man with a wife and three small children.

It is probable that a young preacher from Post, Tex., will be with us Sunday, March 8.

She is also a freshman at Amarillo College, where she will attend school in the mornings and will work in the office in the afternoons.

Mr. and Mrs. Alton Love and family of Fort Worth were week-end guests in Floydada of his parents, Mr. and Mrs. H. C. Love and other relatives.
