### McCoy, Blanco, Starkey, Floydada Endure Deluge

Rain so heavy for several minutes the ground could not be seen even when flashes of lightning lighted the elements, accompanied by strong wind, effectively eliminated growing crops of wheat, cotton and onions in an area that includes most of the south half of Floydada district, and all of Starkey, McCoy and Blanco Sunday night.

The combination of wind and rain, accompanied on some farms by light hail, whipped the leaves from cotton, battered out nearly ripe grain in wheat fields, and flattened the ground.

It began as a gentle shower shortly before 12 o'clock midnight. The raging storm actually lasted a probable 35 minutes and it was all over by 1 o'clock or so.

Four and 95-hundredths inches of rain was dumped in down-town Floydada, the West Texas Gas Co. gauge recorded, in that brief period.

The big show was most unusual, residents of Floydada declared who were alerted by the raging elements. Rains of such intensity are a rare sight. I was a flash flood of first dimensions. Torrential is a correct descriptive word.

Area of apparent greatest damage was from McCoy Store eastward to Plains Baptist Assembly ground. Lighthouse Electric Co. cooperative lost 21 poles that were flattened and in the bar ditch a long the farm to market road at McCoy when the repair crew got to the scene early Tuesday morning. A small house was blown in to McCoy Store, damaging that building. In the crash a part of the merchandising area was damaged and Mr. and Mrs. George Smith, who operate the store and have living quarters in the building, were endangered.

Smith had slight cuts and bruises. Eastward at the Baptist Assembly Grounds the roof of the concession stand was blown off to another building and part of the blocks in the walls were scattered about. E. D. Morgan, manager of the grounds, Tuesday got an estimate of the damage which was set at about \$1,600. The grounds also lost a big cottonwood and a big hackberry tree to the storm. They appeared to be twisted off. Mr. Morgan said, also appeared to have twisted off, indicating a tornadic wind. At Floydada the wind seemed to be a straight one.

There was considerable small damage in town. Residents awoke to find water streaming into their houses through "storm proof" windows and doors. Many housewives spent an hour or more mopping up the floors and drying water out of their damaged carpets.

At the U. S. Post Office and the adjoining Southwestern Public Service office the wind-whipped rain poured through roofs and ceilings. Some of the mail was damaged at the post office.

Clean up crews in numerous other places of business were busy most of the morning. Night observers said the water flowed curb to curb through the business streets. Water flowed into the Martin & Company implement building across a fifty-foot shed-covered concrete slab, four inches above ground level.

As far east as the Wm. Bertrand farm, two miles south of Floydada there was evidence of the twister. Bertrand lost his garage to the storm although the car parked in it was not damaged by the wreckage.

Although the damage was anywhere from 75 to 100 per cent complete in the area indicated, other portions of the county had sprinkles to gentle showers. W. E. McClure at Pleasant Valley had a "nice rain" and three miles west of McCoy a good rain that was appreciated fell at the W. B. Eakin farm. One and a half inches of rain there had water running out of Eakin's fields for the first time this spring.

Wesley Carr at Harmony had a nice one inch rain and apparently no damage.

East of Floydada a nice shower fell where Kenneth Willis farms. He was still watering an onion field Tuesday morning. South of Pleasant Hill Henry Willis fared Tuesday.

Commissioner and Mrs. John B. Fowler who were out at dawn Tuesday to make an inspection trip, said their loss was 100 per cent where they farmed at McCoy, and also southeast of McCoy. The heavy damage extended far south as the Crosby County line in some places. Fowler said they would be ready to start

### Interest Intensifies In Control of Weeds

Interest in weed control was greatly intensified during the first month of May with a total of 10 feet beyond the edge of infest 79.46 acres of bindweed being to be treated to assure a treated during the month on 31 kill on all of the root system.

separate farms. Most of the treatment was made with Benzoic Acids. The district has applied the approved chemical desired to be used. When the farmer receives his approval he should contact Douglas Degge, supervisor of Douglas Degge in Room 113 of the courthouse at Floydada, phone Yukon 3-3560 or in Lockney at phone Oldfield 42395, to secure late, for treatment can success through the district at reduced winter months with any of the A. S. C. approved chemicals if prices, due to the cooperation of the patches are clearly staked out. It may be necessary to spot plus patches to prevent seeding in the event that treatment should be delayed for sometime, the dist-

act has an efficient equipment, Mr. Degge will be happy to disperse which it is hoping to measure the infested areas.

In order that farmers may see the results of winter application, the demonstration plots were set up during last winter—one on the October 30, 7 miles north of Floydada on the Silverton Highway on gram High winds and rain have the R. original set up and may in some cases make it necessary to secure an extension on A. S. C. application. These plots received only two inches of rain until April on the chemicals until after the rain. Since all of the soil is dependent on moisture. The district will make an effort to contact the farmer 2 or 3 east one year on irrigated lands prior to treatment date or 2 years on dry land before the tractor available to pull the equipment will not be necessary when the weather has had time and sufficient moisture to carry the chemical through the profile of the soil.

It has been brought to the attention of the district that some are still not familiar with the operational setup of the district. The

Due to the fact that Mr. Degge is in the field a large part of the time, the office in the courthouse is left open from 8:00 to 5:00 and anyone not finding him there may leave his name on the desk after hours and just before storm periods. The breeze was balmy and the sun shone brightly. The weather and the mood of the pioneers were equally good.

Rev. Franklin E. Swanner was the choice of the old timers for the annual address. In a contest with the noises of happy reunion he came out well, paying tribute to the God-fearing people who settled the plains and laid the foundation of good government and good social surroundings for the present generations to enjoy the happiness and well-being of a rich area of productivity.

He was the recipient of a hat presented on behalf of the old settlers by President Jack Henry.

The memorial prayer was read by Rev. Joe Wilson, and a quartet composed of C. M. Lyles, division manager, in announcing Rev. Reeves, Johnnie Wilson and the new appointment. "We feel sure that the people of Floydada will welcome back a young man who first started life in the Community of Floyd County, back in 1924, on the farm operated then by his parents," Mr. Collins added.

**They're Real Mules.** Any number of original and ingenious ideas were used in the Old Settlers Parade by various clubs and organizations last Thursday. The Dougherty Club's entry, above, illustrates the point. Mules, a wagon, tub, water keg, chuck box and other things a chuck wagon has to have. How to find them? Such things run into problems. Mules, once on every side, are curiosities to the modern child. Driver, above is W. E. Burselen, Billie Don Colston has the role of horse wrangler, and the cook, with feet hanging outside, is Kenneth Poole.

## EDITORIAL VIEWS AND COMMENT

**June Tenth Wheat.** Give or take five days there is always some wheat delivered to the market in Floyd County by June 10. Accordingly, although we cannot place the field where the grain is located, we just announce that the first wheat will be delivered to the elevator on that day. The "give or take" has to do with the weather. Since this is a coolish sort of spring we'd say the first wheat will be delivered nearer the fifteenth than the fifth, if either way. There's some very good irrigated wheat and some good dry land wheat. If the reader is the kind that does not get around much he'll be inclined to doubt this last statement. We are told the wheat acreage to be harvested, barring hail, will aggregate about 40,000 acres this year. Quite a contrast with 250,000 acres that was common a decade or so ago.

**Slow Taking Place.** The wet, cool spring may bail the city water department out of a difficult spot this year. The council has been knowing they'd need to do something about the water supply for a year. They got by last season but the potential has increased greatly, as a warm, dry month may demonstrate. Whether to take measures to get more water through the supply main to the ground tank or to drill a new well was discussed for awhile. After it was determined that a new well would be the best answer there were weeks and weeks of delay while a decision on the location of the well was awaited. Latest development is a delay due to technicalities. So no contract can be let until well up toward July. For this reason, and other good reasons, too, we'd like to see ample moisture the first half of this summer.

**La-de-dah-dah de-da . . .** The Hesperian has been quite happy about the fact that the city's streets have been clean the past few months. We got a bang out of seeing the streets all spick and span — no soiled hot dog napkins, paper cups, and the like when Monday morning came after a considerable week of celebrating, with a carnival gateway right down the middle of Main. Whether the bill is running higher than the city can afford we don't know. But we and all the neighbors like it if the council can find the money to keep it going. The city was organized in the first place, fifty years ago, in the hope of alleviating a bad sanitary condition and making the community a more sightly one.

**Not to Minimize** the fact that speed is the cause of a large per cent of the highway crashes, the only remedy for which is simply to cut down the speed. It seems true also the irresponsible driver should get credit for a good many wrecks that dot Texas. Oftentimes the records show that not only are these people on the highway without benefit of insurance or the ability to pay for the damages they cause, but also they often are without drivers license. That is they are on the highway in direct violation of the law. It seems almost an impossible situation to meet except through the highway patrol, unless . . .

**The automobile owner** could be required to produce a drivers' license when he goes to the collector's office to get his license tags. This does not seem an unreasonable thing to do. It does not abridge a man's rights in any way and it does protect the other man to some extent in that it proves the applicant

does have an elementary knowledge of how to operate a machine on the highway.

**If the tax collector** were empowered to collect the ad valorem tax on the machine at the same time he issues the car license tag it seems to us a considerable number of potential highway killers would be eliminated. Also the state, county and city would collect a good many millions (isn't that right?) in taxes to help take care of schools, roads and other expenses that have not been collected whatever for these many years. This kind of a partial solution of highway and tax troubles has been bruited from curbstone to curbstone for a long, long time. It appears sensible.

**The chronic non-payer** by this arrangement would be caught where the hair is short. And whereas, he has laughed at tax collectors and responsibilities, he would have to come up to the lick log. Some thing of this nature is recommended to the legislature for consideration. The only thing the legislature knows for sure, we sometimes think, is that they can raise the corporate tax to get more revenue. Legislatures go to get money where it is easiest to obtain. That's one reason Austin is swarming with lobbyists. They are trying to protect what they have, to keep it from being taxed away.

**Sidewalks Too Wide.** Floydada sidewalks, which in the business district measure upward to 15 feet take up room which should be given the streets, or so we think. One time it was the custom of people to congregate on the streets, chat and talk, and watch the bright lights. Saturday afternoon and during election campaigns you couldn't get down the streets. When the sidewalks ordinance was passed that required walks to be more than 15 feet wide it was good business and logical. But that day has passed. People have too many other interests to take up their time. They do not stand around in groups and chat nor do they have to gather at the bright spots to relieve the ennui. Ten feet, even eight feet is sufficient width for walks now. The remainder of the space taken up with walks could well be put into the streets, make more room for traffic and add to safety and convenience of the public.

**Sidewalk Campaign Needed.** People who count most in getting things done do most of their traveling to the business district in vehicles. They note if street conditions are good or bad, but actually rarely know what is the condition of the sidewalks. So it will be news to them to know that a good many stretches of sidewalks in Floydada's residential district are in a bad state of repair and need to be rebuilt. A lot of people still walk, either from necessity, for economy and convenience, or to save hunting parking space. Property owners who have mud puddles and broken places in their walks could add to the convenience of these people and add attractiveness as well to their premises by rebuilding their sidewalks. The cost is relatively low.

## ADPTICK LOGIC

It's necessary to tend a small child, take care of an invalid, be on 24-hour duty as a minister's wife, or teach school, the sense of "holding on" for so long is released. Then the world opens up like the heart of a rose. "Now what?" it seems to say.

Some psychologist has said that every person should have three distinct phases to his adult career. About every ten years, he observed, one ought to pull up stakes and move on to new frontiers of activity. Well, that may not be practical for a woman, but can't she get the same feeling by finding new hobbies, working in different types of clubs, seeing things from the other side of the fence?

If every woman could realize the sense of emotional housecleaning, offset that comes with reaching a milestone. But stop sign in the daily routine of a demanding job well done.

## BIBLE BAPTIST CHURCH

ARE YOU GOD'S PRESERVE?

(Read Gal. 5:13) We find this phrase in the first verse of Jude. "Preserved in Jesus Christ." Do you remember the preserves your mother used to make? I can still see the big pot on the stove boiling away, until after several testings the "preserves" were just concentrated enough and were poured into glasses or jars. There were strawberry preserves, raspberry preserves, peach and plum and apple preserves.

Why were they called "preserves"? Because they were preserved against spoiling. Fruits in the raw or unsterilized state soon deteriorate, decay, and perish. But "preserved" fruits last indefinitely, because they were impregnated with "sugar." Sugar was the secret. The fruits were preserved in a sweet sugar syrup.

To make good jam, advertisers a certain cookbook "A cup of sugar" to a cup of fruit.

Now our text in Jude 1 says that we are "preserved in Jesus Christ." Could anything be sweeter than that? All true Christians ought to be sweet at all times if they are preserved "in Christ." Impregnated with Christ, filled with Him.

The word "preserved" is "to keep" in the original and means to guard against loss or spoiling. The Christian is watched over by the Lord and He guards and protects us. The more we submit ourselves to Him, the more we meditate upon Him and seek His fellowship, the more we shall become saturated with His sweetness.

It is an interesting thing to find that the word "reserved" in 1 Peter says that we have an "inheritance incorruptible—reserved in Heaven." It is the same word translated "preserved" in Jude 1. We are preserved in Jesus Christ, and our inheritance is "reserved in Heaven for us. What security! We are preserved—our salvation is reserved, and both words mean to "guard against loss or spoiling."

THIS SUNDAY'S SPECIAL SPEAKER WILL BE Jimmie Johnson, from the Victory Baptist Church in Wichita Falls. Come and enjoy both services and Bible Study.

Recipes in our paper, but I don't believe I remember seeing an Indian recipe — so I am sending one for Pashofa.

"I grew up in Oklahoma, and as a little girl I remember my folks going to a Pashofa Dance. The dances gave the Indians an opportunity to get together and have a big time. The Pashofa dances were also held when someone of their number was very sick. If the sick person sat up and took an interest in the dance they felt sure he or she would get well. If no interest was shown they were sure the person was going to die. Here is the recipe for making Pashofa as made by the Chickasha Indians:

"Place two tablespoons of tea or six tea bags in a large teapot or pitcher. Pour one quart of boiling water over the tea. Cover and allow the tea to brew about five minutes. Strain or remove bags. Cool at room temperature.

Boil together one cup sugar, one cup cold water, Cool Strain in a No. 2 can (2 and one-fourth cups) pineapple juice and one-half cup lemon juice. Add cooled tea. Pour over ice in punch bowl and garnish with thin slices of orange and bright red cherries.

The Golden Jubilee and Old Settler's Day brought many people to Floydada last week. We were so glad to have everyone who dropped by the Lighthouse to say "hello" and to visit a bit with us. Among these were Mrs. Percy Lamar, her daughter Marie and Mr. Higginbotham from Crosbyton.

Bill Lewis of Austin, editor of the Texas Co-op Paper magazine, and Dr. Norris Davis, also of TEC, were Floydada visitors on Thursday last week. They were busy all day, gathering "news", taking pictures and visiting with friends.

The Farm and Ranch Department of KGNC, Amarillo, were also on hand all day Thursday for the celebration. "Cotton John" and his assistant, Royce Bodiford, their photographer Bill Rue and their engineer, Mr. White, pulled stakes immediately after their early morning broadcast in Amarillo and arrived here in time to set up "shop" in the lobby of the Lighthouse to broadcast their noon day program live and direct from Floydada. A number of local people appeared on this program.

Mrs. Clayton Terrell of Happy Union community in Hale County and Mrs. Lewis Hedmon of Tulsa came by to visit with the KGNC crew. These two ladies with their husbands went on the Farm and Ranch Tour to Europe with Cotton John and a group of other people last summer and are planning to go with the group on the Alaska Tour, which starts July 9th.

They ate lunch and spent the afternoon in Floydada, enjoying the parade and other activities during the afternoon.

Mr. and Mrs. J. D. McCullough of Amarillo visited Mr. and Mrs. Red Gregory over the week-end. Mrs. McCullough is Red's sister.

Mr. and Mrs. Clovis Myrick and baby daughter, Mr. and Mrs. Charles Nelson and family all of Lubbock and Mr. and Mrs. Gloy Myrick and family of Dallas spent the week-end with Mr. and Mrs. Clovis Myrick and family and other relatives.

Mr. and Mrs. Willard Pollan and family of Dalhart are visiting Mr. and Mrs. Botts Pollan and other relatives for a few days.

Mr. and Mrs. Clovis Myrick and her mother Mrs. J. F. Cantrell went to Sweetwater Sunday afternoon to take Mrs. Cantrell's father, Mr. Green, who had been visiting her for the past two weeks.

Mr. and Mrs. C. W. Terry of Post came last Thursday to visit their daughter and her family, The Claude Weatherbees, and to attend the Old Settler's Day program. Mr. Terry is a former resident of Floyd County.

Patsy Marric of Idalou is here visiting her brother Buck Marric, his wife and boys, for several days.

Mrs. Gene Miller, Marty and Melinda, of Portales, New Mexico, and her father Gordon Appling of Mt. Blanco community in Crosby County were co-operators one morning last week. Mrs. Miller will be remembered as Catherine Appling, who was formerly billing clerk at the Lighthouse. Surely nice to have Catherine and her family drop by for a visit.

Last week was a highlight for us — my family were all here for a family get-together. My sister and her husband, Mr. and Mrs. Hershel Friedls from Inglewood, Calif., and my brother and family, Mr. and Mrs. Paul Buchanan and Bobby of Springfield, Mo. Sunday was spent at Colonial House with Mr. and Mrs. John Buchanan and Mr. and Mrs. Dan Hagood, Brad and Janie.

Mr. and Mrs. Tom Hutchins, David and Dale have just returned after spending a week's vacation in Chickasha, and Cushing, Okla., and Ore City, Texas, with relatives.

Here is a letter from Mrs. Martha Day, Supervisor of the Floydada Cannery, with a recipe for "Pashofa" which I am sure those of you who like to try something different occasionally will enjoy using. Mrs. Day says: "We have had several Mexican

Homemaking Hints (By Phyllis Roggenhoff, County Home Demonstration Agent)

Drip-Dry Fabrics: Dripping is essential for smooth drying of cotton and rayons with a minimum-care finish. For best results, lift the clothes from the rinse water after laundering. Hang smoothly on a hanger. Don't wring, twist or squeeze to remove water.

As the water drips off, it smooths out creases or wrinkles left from laundering. A final touch-up with the iron may be needed to make smooth, seams and edges as smooth as new.

Some of the synthetic fibers, as dacron, also have this drip-dry quality. Clothes made of these synthetics will be wrinkle-free when dry only if lifted from the rinse water and hung to dry with the least possible handling. The more they drip, the smoother they dry.

# There Are Some of the "Firsts" In Floyd County

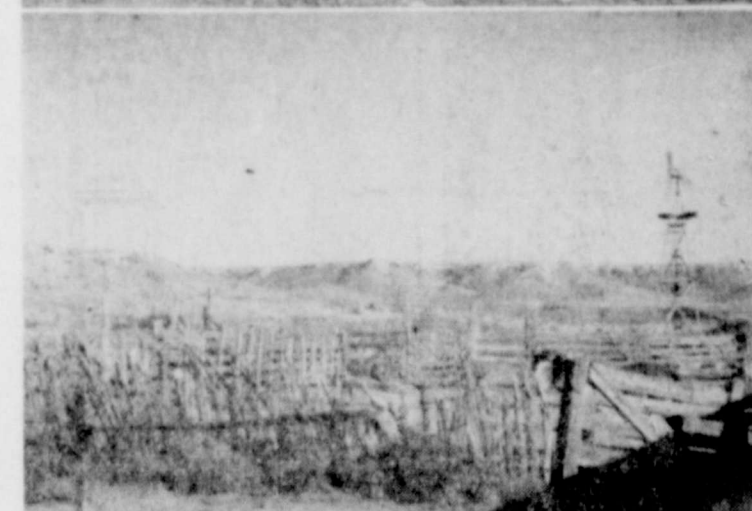

As the lines written into the face of the plate shows, this was the pioneer gin that was operating in Floydada in 1903. It is, we think, the same gin that L. P. Taffinder speaks of handling 50 bales of cotton in the fall of 1901. Jim Molloy, who was a blacksmith, built the gin, which was later operated by Jno. W. Harmon and Jim Ball. A portion of the Floyd County court house is shown on the extreme right in the background.

This picture of officials of Floyd County was made in 1905 or 1906 at the west side entrance of the first courthouse. Pictured back row, left to right, Arthur B. Duncan, County Judge, J. J. Foster, Commissioner of Precinct No. 4, S. B. McCleskey, Sheriff and Tax Collector, R. C. Reagan, Commissioner of Precinct No. 1; front, left to right, Tom P. Steen, County and District Clerk, T. J. Rigdon, Commissioner of Precinct No. 2, Ben C. Willis, Tax Assessor, W. Methley, County Surveyor, and J. L. Van Hook, County Treasurer.

This undated picture has all the sheriffs who served Floyd County from 1905 until the late thirties, with the exception of J. A. Grigsby, the World War I sheriff, and P. G. Stegall, sheriff of the late twenties, whose surviving wife is shown in the group. From right to left in succession came S. B. McCleskey, A. C. Goen, J. R. Maddox, J. M. Wright and E. S. Randerson. All have since passed to their reward.

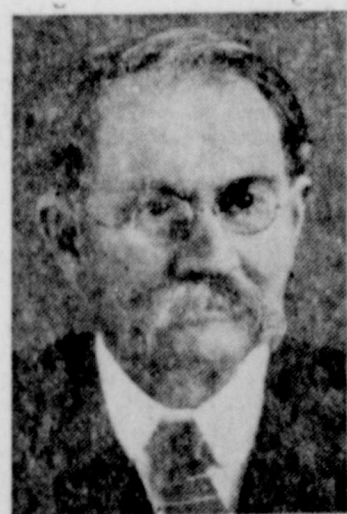

A real pioneer home is this story and a long descendant of Tom Bar Ranch, where Col. Thomas Montgomery lived for more than 50 years on the line of Floyd and Crosby Counties. Built into the side of a little hill on the north side of Blanco in the Eighties it stood until after his death in 1944, when his daughter, Mrs. W. W. Johnson, had it razed. Below is one of the stake corrals which served the ranch for many years.

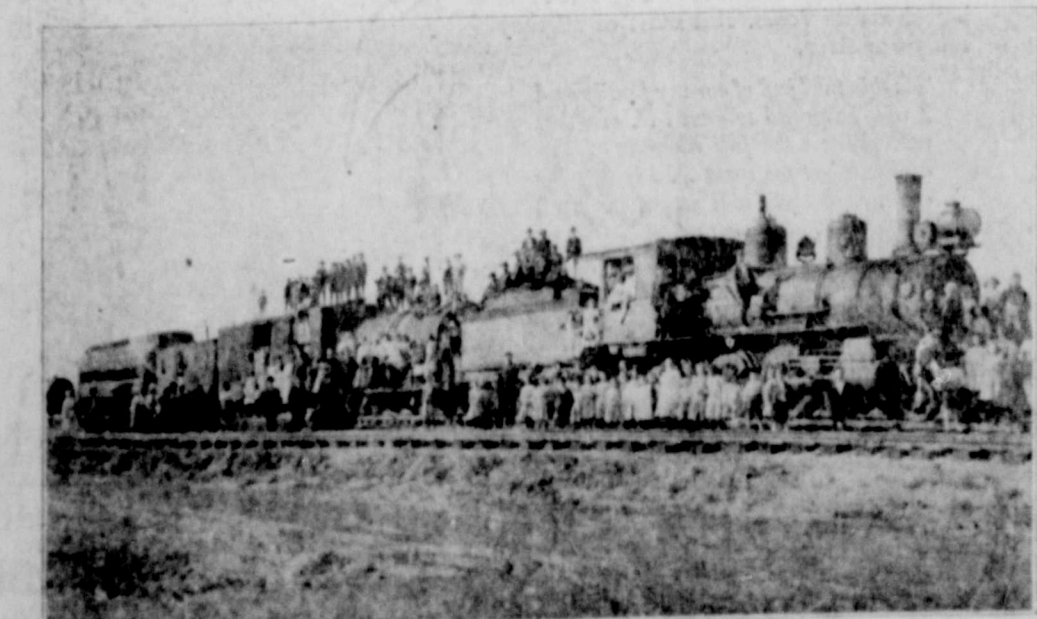

The County School Board had grown in importance in the county when this picture was made in the late thirties. Pictured from left to right, front, J. F. Dollar, L. B. Maxey and W. N. Jones; back row, J. H. Upton, J. W. Howard and Price Scott. The latter was county superintendent and ex officio secretary of the board. Scott is the only living member of this group.

John N. Farris was a large stockholder and the first president of the First National Bank, after it was bought from Lester and Posey, chartered in 1903. His death during the influenza epidemic of 1918 was a heavy blow to the city and county.

Judge J. N. Stalbird for many years was a practicing attorney at Lockney and was chairman of the County Democratic Committee from 1905 until the mid-twenties. Before he moved to Floyd County he was the first judge of Briscoe County.

This is the Santa Fe's first train — at least one of the first — operated into Floydada after the construction crew got the railroad built in the spring of 1910. The holiday crowd, mostly school boys and girls had taken over when the early-day photographer got this shot. The railroad brought a big boom to Floyd County that lasted until after the outbreak of World War I in 1914.

These Lads Are in their fifties now. That Jalopy belonged to Garner Surginer, the young man astride the radiator. On the left front is Macy Burke, right Edwin Stiles. Back, left to right Henry Conway, Roy Haynes, Leslie Surginer and (probably) Chauncey Garrison and Chester Day. The picture dates back to about 1922.

# What Price Local Car Operation

## Triple A Says \$801 Average 5,000 Miles

(Special to the Hesperian)  
NEW YORK — For every car that is registered in Floyd County there is an owner who asks himself, at least once a year, "How much does it cost me to run it?" Generally, the answer is hard to come by. It is difficult to tie in all the variable expenditures, such as oil, gas and service charges, with the fixed costs, such as insurance, taxes and depreciation.

Help in this direction has come from the American Automobile Association, following a study of operating costs in various parts of the county. Its figures are for a car in the popular-price field, driven the average amount of 10,000 miles a year.

The average cost is \$801 a year in fixed charges and 3.99 cents additional for every mile traveled.

Applying this average to Floyd County and to the number of passenger cars in current use locally, yields \$4,938,000 as the estimated annual operating expenditure. Per car, it is \$1,200 on the 10,000-mile basis.

Every day of the year, whether the car is used or not, its owner has a bill for \$2.19, the AAA study shows.

This fixed charge is for depreciation, by far the largest part of it, for property damage and liability insurance (\$25,000 and \$50,000) and for fire and theft coverage. Collision insurance is not included.

As to the 3.99 cents a mile additional, that is for gas and oil, 2.61 cents, for tires, 0.59 cents, and for maintenance, 0.79 cents.

For Floyd County drivers who do 10,000 miles a year under average conditions, the total cost is approximately 12 cents a mile. It compares with 10.5 cents the prior year.

Those who use their cars twice as much, 20,000 miles, come out relatively better. To the fixed charges of \$801 are added the regular mileage costs. The total \$1,629, amounts to 8.1 cents a mile.

Less efficient is operation at 5,000 miles a year. Weighted down with the same fixed charges, the cost per mile zooms up to 20 cents.

Gas stations in Floyd County have been benefiting by the increased amount of auto travel in recent years. In the last fiscal year their business volume reached a new high, \$1,156,000. It was \$1,067,000 in 1957.

At a mile north of U. S. Highway 84, on the old Slaton Highway, and was attempting to pass another vehicle as Robert's car approached. Both Goad and Roberts swerved their cars toward the bar ditch to avoid a collision. They crashed practically head-on and both vehicles were demolished.

When the cars collided, some 18 feet from the pavement, Goad's car came to rest 24 feet from the pavement edge and Robert's car 40 feet from the roadway.

spending a few days this week at Pueblo, Colo.

Fifty-nine were enrolled at Vacation Bible School Monday. Closing program will be at 8 o'clock Friday night.

### Center News

(By Mrs. J. E. Green)

CENTER, June 1 — It is cloudy and cool this morning. Sunday was hot in the afternoon. Here it is June 1. How time flies!

Yesterday our preacher at Center Church was Brother Freeman Burns of Wayland College. He was accompanied by his wife and their children, Randy and Sue. They dined with the Greens.

Mr. and Mrs. Shirley formerly of Floydada but now of Azle visited Sunday afternoon and evening with Mr. and Mrs. C. W. Denison.

Mrs. Sam Lide, accompanied by Mrs. C. W. Denison and Mrs. D. W. Burke made a trip to Lubbock Monday.

Mrs. R. C. Ross stayed home Sunday with a sore throat.

Mr. and Mrs. Jimmy Dunn, Debby and Brenda, of Lubbock, spent the week-end with home folks, the Frank Duns.

Bob White of Wayland who preached for Center Church all winter and spring, came by Friday for another goodbye to several of the congregation. He was on his way home to Grand Prairie and possibly an indefinite stay in a hospital. Our best wishes go with him.

Mr. and Mrs. Victor Green and sons, Jimmy and Steve, of Plainview dined with Vic's parents, the J. E. Greens on Saturday.

Wasn't the Old Settlers Reunion grand? The largest crowd ever, we guess. And the Prairie-rama! Wasn't it beautiful!

I guess it was enjoyed most by us older ones who "had been there". We want to commend those who must have done much hard work to make it all possible.

We are sorry to hear of the misfortune of Mrs. G. M. Bulard who fell in her home late Thursday evening and suffered a broken hip. She is in Methodist Hospital, Lubbock, Room 410. She had surgery Saturday and is reported to be resting as well as can be expected.

Mr. Green had word Friday that his brother, Tom J. Green of Del Rio, is in a San Antonio Hospital where he had major surgery earlier last week.

Mr. and Mrs. Leo Frizzell and Mrs. W. M. Jackson spent a long week-end at Red River with the Fred Combs of Wichita Falls, as did the A. E. Frizzells, Floydada. Vacation time is here again.

The Greens visited the D. I. Bolding's while Saturday evening. Also present were their son, D. I. Bolding Jr. of Lubbock and son-in-law Charles Colium now of Tahoka.

Sunday dinner guests in the J. D. Welborn home were their married children and families, Mr. and Mrs. Nolan Arney and Steve, Floydada, and Mr. and Mrs. James David and baby girl of Canyon.

Mr. and Mrs. Welborn, Jo Anne and Donna plan to visit relatives in East Texas this week.

Steve Arney is ill with a cold. Margaret Carey, our '59 FHS graduate, has accepted a position in the First National Bank, Floydada.

Among the old timers who attended the Old Settlers Reunion were Mr. and Mrs. Martin Green of Seagraves. They were guests of her sister, Mrs. Sudie Thomas and family.

Sue Thomas spent from Thursday until Sunday with Mr. and Mrs. Charley Ellerd and family, Petersburg. The Ellerds brought Sue home Sunday and dined with the Thomas.

Mr. and Mrs. Charles Fulkerson dined Sunday with her sister and husband, Mr. and Mrs. E. W. Thornton, Ralls Highway.

Mrs. H. D. Thomas of South Plains, mother of Hal Thomas, who has been very ill, is reported somewhat improved.

Mr. and Mrs. O. C. Vinson attended the Singing Convention Sunday afternoon at the Nazarene Church, Plainview.

Mr. and Mrs. S. L. West and daughter of Sulphur, Okla., enjoyed a stay in Floydada attending the reunion and visiting her father, T. J. Cardinal and other members of the family.

Mr. and Mrs. Karl Sammann, of Plainview, were among the Floyd County pioneers who registered at the reunion Tuesday. The Sammanns were once for many years residents of Providence.

## Stanton, Tex., Man Reports— Better Grade, Increased Yields on Cotton

Wallace Kelly, successful West Texas farmer, says: "Side dressing of Phillips 66 Ammonia on cotton has really paid off for me. Since starting to use ammonia, I have increased my cotton lint yield at least 1/2 bale to the acre. When the cotton starts squaring, I apply my first side dressing—75 pounds of Phillips 66 Ammonia. This is followed with another side dressing of ammonia in August. Not only have my yields improved, but I'm also getting a grade better at the gin."

Other successful Southwestern farmers have discovered that they make more profit per acre, using Phillips 66 Ammonia. They get more cotton that classes higher at the gin... yields of sorghum grain or ensilage are increased... profits on wheat and small grains are increased through higher grain yields and improved forage... more marketable vegetables are harvested.

Phillips 66 Ammonia can be applied pre-plant or as a side dressing. It can be easily applied either by you or your distributor. See us today about Phillips 66 Agricultural Ammonia... it gives you more nitrogen per dollar than any other form of fertilizer—a full 82%.

**Negro Killed At Card Game Sunday Night**  
Charges of murder were filed against a Floydada colored man after a shooting shortly after midnight Sunday in the flats where a card game was in process.  
Bond of \$7,500 has been set for Ben Pate, 56, pending action of the grand jury. Pate admitted in a signed statement that he shot and fatally wounded 62 year old Willie Garner with a .38 caliber pistol. He is lodged in the county jail.  
Sheriff Walter Hollums, Deputy E. J. Huckabee, and city police John Marsh, went to the home of Clarence Davis where the shooting took place, after the sheriff was called by a witness to the shooting.

# McLain Family Get Together In Floydada

As had been planned the children of the late Mr. and Mrs. J. S. McLain spent a very pleasant week in Floydada for a family re-union. Mrs. Montez Wiggins, mother of the March of Dimes, member of the Plainview Toastmaster's Club and active in city and area activities of the Boy Scouts of America.

His wife, Doris Layne Pemberton, and he, have two sons, Jerome, age 13, and Gale, age 4. The family were members of the First Baptist Church in Plainview. Mr. Pemberton plans for his family to join him here about the end of this month.

# Old Settlers

1930-1939 - Miss Marisue Burleson, Miss Sara Holmes, Miss Grace Anne Potts, Miss Karen Goen, Miss Edwina Overstreet.

Special numbers included a Charleston done by Weldon B. Winn and Troy Lee McNeil and a monologue given by Miss Helen Foster.

# Parade Was A Long One

The parade was the longest in recent years. Led by the two Floydada bands, the high schoolers in the first section, the junior high with the second section, it wound through the streets. Its length was a couple of blocks more than the planners had anticipated, so that it doubled back on itself. However, there was little complaint and one broke ranks.

The floats, commercial and other, had some most unique and original ideas. For beauty the Park Florist float was top prize taker, for originality Floydada Lions Club and Lakeview Home Demonstration Club were both outstanding. Scores of other floats also combined beauty and originality.

One of the noticeable features was the large array of farm harvesting machinery. Several makes of combines were in the parade, big new, powerful models.

Shetland ponies and silkies, riding clubs and horsemen generally added largely to the interest. Thousands of dollars worth of horse flesh was in the parade. The riding club's gear was out of this world.

# Flying Rocks Hurt Players At Spectacle

Bill Gilliland, 17 year old son of Mr. and Mrs. Lewis Gilliland, has recovered from a blow on the head, his mother said this week, with the exception of a headache and soreness.

Gilliland was struck in the head Wednesday night by a thrown rock after the Prairierama as were several others who participated in the show. The youngster playing an Indian brave, was just leaving the grounds under the goal posts at Wester Field when the incident occurred. He was taken to Peoples Hospital for treatment and released.

Tate Jones, who played the part of one of nine men in the Children's scene, was just leaving the stage on horseback, when a rock sailed through the air and hit his mount. The horse lunged, threw Jones off. Other than being bruised and shaken up, no other injury was sustained.

Otis Anderson was also hit with a thrown rock, but received no serious injuries.

Another mishap occurred during the Old Settler's Parade Thursday. The horse being ridden by Curtis Jester slipped and fell. The rider's foot was caught in the stirrup and bruised badly. X-rays Monday however, showed only a sprain and no bones broken. Curtis is the son of Mr. and Mrs. A. D. Jester of Floydada.

# Rain Storms

(Continued From Page One)

Rainfall over the affected area was gauged all the way from 1.95 inches upward to nearly five inches. Scores of farm operators have gauges. Most of these measured the rain at between 2.9 to 3.30 inches.

The rain gauge at the gas office verifying the deluge in the business district of Floydada is a properly installed instrument calibrated to approved standards.

The rain and wind tapered off in all directions. Mr. Blanco had an inch and a half of rain at one place. Northeast of Floydada it rained a tandem disc was operated Tuesday on a farm operated by Leonard Matsler in ground that was "a little too wet."

Around Floydada water was still pouring out of fields into wet weather lakes Tuesday night when an additional inch of moisture fell in showers that lasted from 11 o'clock until early morning.

Other than the heavy loss sustained by Lighthouse Electric the utilities companies were left off rather lightly.

In Floydada there was no interruption of service on city lines and Southwestern Public Service had only minor calls and few of them.

Southwestern Bell Telephone & Telegraph Co., had from 100 to 200 telephones out early Tuesday. Their longest delay restoring service was in the McCoy area where their lines are strung on KEA poles.

Utilities people were alerted by the time the storm abated, expecting rather heavy losses. Light house Electric had poles holed and spews ready to take off for the McCoy area at day break Tuesday.

# Third Generation Of Doctor Families Graduate Together

Lats week at Houston when the Baylor School of Medicine graduated 73 candidates an unusual experience came to pass for a Floydada man.

The man was A. E. Guthrie Jr., son of Dr. and Mrs. A. E. Guthrie. He is the third generation of doctors in his family. Oddly enough though, one of his classmates was Robert Wilson Crosthwait.

What makes it unique is the fact that in 1897 grandfathers of the boys graduated together at the University of Louisville. They were Dr. Crosthwait and Dr. J. H. Guthrie.

In 1929 again a Crosthwait and a Guthrie graduated from the same school. This time it was Baylor and the graduates were Dr. William Crosthwait and Dr. A. E. Guthrie, the '90ers' fathers.

On June 22, Dr. A. E. Guthrie and Dr. Robert Crosthwait will take the State Board Examination in Fort Worth. From there they will travel to Jefferson Davis Hospital in Houston on July 1, where they will have their internship.

Dr. and Mrs. Guthrie Sr., Carl and Suzanne, attended Bachelor's and Commencement Exercises where they heard Bishop Haynes and Basil O'Connor speak. The Crosthwait family was also there, except for the grandfather.

The son and his wife, Dr. and Mrs. Aubrey Guthrie Jr., are here to spend three weeks taking a rest.

Carroll Guthrie, after attending the graduating ceremonies of his brother, left for Dallas where he is enrolled in summer school.

Mrs. W. H. Finley, Floydada, and Ed Sims, third, with a time of 11.9 seconds flat.

Mr. and Mrs. John Finley, Plainview, and Mrs. Maple Richie, Lamesa, spent the week-end in Sand Hill at the bedside of Mrs. W. H. Finley's sister Mrs. Laura Lawson, who is seriously ill.

J. S. Hale was called to Brownwood over the week-end due to the sudden illness of a brother, second, and Dwayne Bear of U. G. Hale Reports are favor-able at this time of the ill man.

The Sand Hill Baptist Church will be host to the workers conference June 16 at the Church. Hail and rain hit the community Monday night with measured to four inches reported. Cotton and wheat were heavily damaged and many fields of maize seed had just been planted.

Mr. and Mrs. Ersel Matthews and family of Altus, Okla., were here last week attending the Pioneer celebration and visiting to Mr. and Mrs. Monroe Schultz her parents, Mr. and Mrs. Walter Collins and other relatives.

Mr. and Mrs. Oscar Stansell of Plainview were here Thursday for Pioneer Day.

Mr. and Mrs. Layton Dorrell and Nita Jo of Lubbock were week-end guests in the home of their parents Mr. and Mrs. L. H. Dorrell and Mr. and Mrs. Oliver Allen.

Francis Wester of Borger was a Lubbock hospital Monday morning to undergo go surgery. We haven't heard how he is in time yet.

# Dallam Rider Wins Best All-Round Cowboy

Winners of the Floydada Roping Club's rodeo were announced this week following the three performances given last week-end.

Johnny Roberts, secretary of the Roping Club, gave the information. Tom Whatley of Dalhart was named "best all around cowboy" after the final performance, and was presented a \$250 Carl Darr saddle.

The stock, furnished by Charlie Plummer of Elk City, Okla., were plenty rough, say the boys who tried to stay on for the bull riding, bareback riding, and saddle bronc riding. Several of the cowpokes received bad spills. One was trampled by a Brahma bull, one received a leg injury, and one got a skinned face when he attempted to grab the horns of a bull in race. Sue Johnson, Floydada, won first; Rex Pope, Floydada, second; and Billy Norris, Floydada, third.

In the kid's flag race, for six year olds, the averages gave Ed die Norris of Floydada, first; Macy Roberts, Floydada, second; and Lloyd Ray Nicholson, Floydada, third.

In the 10 year old kid's flag race, Sue Johnson, Floydada, won first; Rex Pope, Floydada, second; and Billy Norris, Floydada, third.

Around 1000 persons attended the three performances, one before and one after the rodeo on Friday night and the finals on Saturday night.

Tom Whatley had stiff competition all the way. In the individual contests in calf roping, Whatley won first, his time being 13.2. Mac Shurbet of Petersburg placed second with 13.4; and Walter Arnold of Silverton, 13.8. This event was for two calves, time averaged.

In the second go-round, Don Mitchell of Lubbock was first with a time of 11.6; Sonny Phillips of Abilene, second, time, 11.9; and Ed Sims, third, with a time of 12 seconds flat.

Tom Whatley and Ed Sims split the prize money on the first Miles Pigg; suit for partition of land. Judgment rendered as prayed for.

Tom Whatley won first in steer wrestling in the first go-round; Harold Williams of Crosbyton won suit for damages; agreed judgment for \$2,500 for plaintiff; Judson Dodson vs. Texas Employers Insurance association.

# Prairierama Tells Dramatic Story of Floydada

Jubilee cadets, trumpeters, American sailors, and Boy Scout banner bearers in the colorful caravan.

The remaining three nights performances of the Prairierama were viewed by a packed stadium.

The historical spectacle was produced by John B. Rogers Producing Co., rehearsed and staged by Lehr M. Knowles.

Mrs. C. L. Record furnished the organ music, and band music was by the Floydada High School bands under the direction of Maurice Jones. Historical research and material was collected by Mrs. Alma Holmes. Doing the narrations were Mrs. Holmes, Jay Holmes, Mrs. Sam Puckett, E. D. Morgan, Mrs. Bill Hale and Glenn Amburn.

The first scene of the Prairierama depicted an Indian village on the Plains before the settlement period. The first settlers in Floyd county appeared in 1884, with the arrival of the Arthur B. Duncan family, consisting of his wife and infant son, Silas, and a boy, orphaned, by the name of Robert A. Prince. Duncan left his family in order to go to Clarendon, the county seat of Donley County, to file for a homestead.

For six and one half years the Duncan family resided in a dugout in the Blanco canyon. They lived there until the county was organized and the dugout was where their three oldest daughters were born. Maude Hollums, a Floydada professional woman, was the first white girl born in Floyd County. She worked under the supervision of her father for twenty years. She is the present owner of the abstract business, which Judge Duncan established.

The first election in the county was held May 28, 1890. Duncan was elected first county judge of Floyd County. The first mayor was the late W. T. Montgomery, elected 19 years later in 1909.

Death came to Judge Duncan in 1931.

Whatever your banking needs may be, you'll find the many services of the First National Bank will match them; saving you time, and often money.

At income tax time for instance, there's no greater help than having all of your expenses paid with checks on your First National checking account.

With Traveler's Checks from the First, you eliminate the risk of carrying cash while on your vacation.

And of course, right now is a good time to buy that new automobile or farm machinery with a low interest bank loan from the First National.

Or you may need money for medical attention or other unexpected expenses which could be covered by a Personal Loan. These are just a few of many services of the First National Bank of Floydada.

**CHEVY BESTS**

Independent experts and official facts and figures prove Chevrolet's ahead of its seven big ways.

**BRAKES** . . . In direct comparison of repeated stops from speeds, conducted by N.A.S.A., Chevy out-stopped, both the leading low-priced cars—and Chevy brakes are far larger, with bonded linings for up to 100,000 miles.

**BEST TRADE-IN** . . . The figures in any N.A.S.A. book. You'll find that Chevy's price last year averaged up to 100% more than comparable models.

**BEST STYLE** . . . Motor Science magazine sums it up: "The fact is, in its price class Chevy establishes a new high in daring styling . . ." It's the only car of the leading low-priced three that's unmistakably modern in every line.

**BEST ECONOMY** . . . No doubt about this: two Chevrolet Sixes won their class in the famous Mobilgas Economy Run, got the best mileage of any full-size car.

**BEST ROOM** . . . Official dimensions reported to A.M.A. make this clear. For example, Chevy front seat hip room is up to 5.9 inches wider than comparable cars.

**BEST ENGINE** . . . Every motor magazine has given Chevy's standard and Corvette V8's unstinted praise. As Sports Cars Illustrated puts it: "Indeed, this device is surely the most wonderfully responsive engine available today at any price."

**BEST RIDE** . . . You'll be able to tell this yourself, instantly. But Motor Trend magazine expresses it this way: ". . . the smoothest, most quiet, softest riding car in its price class."

# STATE CAPITAL Highlights AND Sidelights By Vern Sanford TEXAS PRESS ASSOCIATION

**AUSTIN** — Whether and how about \$150,000,000 in two years — the state's tax problem is met only about \$10,000,000 short of the now depends largely on the governor's goal.

Senate.

House members, apparently would be an increased levy on "get the monkey off natural gas, a new franchise tax their backs," passed out most of an interstate corporations and the program recommended by bigger taxes on tobacco, liquor, automobiles, utilities, etc.

Biggest milestone was House. Some members bitterly criticized passage by a 71-to-56 majority of the bill as dangerous to Texas the governor's "package bill." As an industrial future and a finally passed, it would raise the cost of the labor-liberal lobby

**TELEPHONE TALK**

by J. C. Oakley, Manager

Telephone Service in Alaska

Someone asked the other day about telephone service in our 49th State, Alaska. A little research tells me that Alaska has 34,000 telephones in use, now being served by 13 private and municipally-owned companies.

This is the only State without Bell System telephones, but Western Electric, suppliers of ours, was the prime contractor for government in providing major defense communications.

Anchorage with a 60,000 population has over 40% of Alaska's telephones and is operated by a municipally-owned company.

Long distance service within new State and to the United States is handled by the Alaska Communications System, a branch of the U. S. Signal Corps.

**Vacation Hint**

When you stop in the middle of your vacation this year to remember friends or family back home, why not give the "wish you were here" greeting a new twist.

Do it with a Long Distance call. It's more fun that way, and you can catch up on the news at home, too.

And remember to call station-to-station. It's cheaper—you can make three calls for the price of two.

**Busy Telephones**

With school out for the summer, telephones in many houses will probably be getting a real workout.

There'll be calls from the children's friends at most any hour of the day—to round up the group for a game, to arrange to meet at the movies, or to compare notes on a new bike or the latest record album.

Whatever the call, the telephone is always there to help teenagers—and small fry, too—have more fun during vacation.

If you have children whose friends keep the phone ringing at a merry clip, make it easy for your youngsters to answer without running through the house. Extension telephones will do the trick.

Why not call the telephone company for a home extension telephone today? The cost is low, just \$1.00 a month plus installation.

Call by number. It's twice as fast.

**SOUTHWESTERN BELL TELEPHONE COMPANY**

But most seemed to agree that it is "the only way to avoid a general sales tax or income tax."

Senators showed no apparent desire to set a speed record on the first money-raising bills sent them by the House. Bookkeeping bill, designed to erase part of the \$65,000,000 deficit by changing the accounting procedure, was sent off for an Attorney General's opinion on its constitutionality.

A bill to increase the corporation franchise tax for one year only — also to ease the deficit — was set aside. Better to wait for the whole program, the Senators decided, than to work at it "piece-meal."

Senate did take one step forward, however, when Sen Crawford Martin of Hillsboro introduced the abandoned property bill which had bogged down in the House taxation committee.

**STITCH-AND-CUT TEAM** — Ten lawmakers — five from the House, five from the Senate — have the difficult task of making one package out of the different spending bills passed by the two houses.

Sen. William S. Fly of Victoria and Rep. Bill Heatly of Paducah head the group. House-passed appropriation bill is more than \$20,000,000 larger than the Senate's. Conference Committee's task will be to cut a little off here, tack a little on there until an acceptable compromise is reached.

In past sessions, this piecing together process has taken several weeks. Even on a day-and-night schedule, this committee will be hard-pressed to finish its job before the present session ends in mid-June.

More than different spending ideas separates House and Senate. Each house used the bill to express its ideas on how the State Board of Insurance should operate House says full-time; Senate, part-time. Unyielding views have been expressed on each side.

Other members of the committee are Sens. Floyd Bradshaw, Weatherford; Ray Roberts, McKinney; Crawford Martin, Hillsboro; and Wardow Lane, Center. Reps. John Huebner, Bay City; Truett Latimer, Abilene; B. H. Dewey, Bryan; and Jesse Osborn, Muleshoe.

**ELECTION CHANGES URGED** — Study leading toward a complete revision of the Texas Election Code is the goal of a House-passed resolution.

Rep. Harold Parish of Taft is sponsor.

If passed by the Senate, the resolution would provide for a 15-member committee to draft recommendations for the 1961 legislative session.

Making up the study panel would be three House members, three Senators, the Attorney General, the manager of the Texas Election Bureau, three persons named by the governor and four persons named by the national committee members of the Republican and Democratic parties.

**ALL ONE JOB** — Two House committees — taxation and appropriations — would be merged under a resolution proposed by Rep. Truett Latimer of Abilene. One committee of 31, called the House Ways and Means Committee, would replace the two 21-member groups.

Latimer declared that since money raised and money spent have to come out even, it would be more logical to have the decisions made jointly rather than separately.

**FARM — MARKET ROAD CHANGE** — State's pressing money shortage may bring about a

change in the favored budget position farm-market roads have had for the past 10 years.

Since the Colson-Briscoe Act was passed in 1949, the General Revenue Fund has been automatically nicked \$15,000,000 a year for F-M roads. Goal was to build 33,000 miles of all-weather rural roads.

Rep. Richard Slack of Pecos has introduced a bill to take F-M road spending out of the State Highway funds rather than from General Revenue. It would not cut farm road spending, but would reduce the money available to the Highway Department for state highways.

Sen. Neville Colson, Navasota, co-author of the 1949 act, opposes any alteration in the program. Even though more than 29,000 miles have been paved, he said there are still school bus and mail routes that are not "out of the mud."

Farm Bureau opposes, as well as others who say that it will lead to an increase in gasoline taxes to make up the cut in highway funds.

Those favoring the change argue that the farm road program has had creamy spending for a long time, but that with general revenue going \$65,000,000 in debt, it can no longer be afforded.

**NOT YET, DOT DECIDES** — Democrats of Texas threw a lot of bricks at U. S. Sen. Lyndon B. Johnson at their Austin convention, but stopped short of an open fight against his nomination for President.

State AFL-CIO President Jerry Holleman headed off resolutions, saying "this is not the time."

DOT did agree to change its name to the Democrats of Texas Clubs (DOTC). It had been frequently criticized for having a name that could be confused with the official Texas Democratic Party organization.

Despite their official "wait and see" attitude about presidential nominees, the delegates made their sentiments clear. They cheered when Adlai Stevenson's name was mentioned and applauded criticism of recent legislation designed to help U. S. Senator Johnson.

**HAS PIANO RECITAL**

Mrs. G. R. May presented her piano and organ pupils in a recital given in the First Methodist Church Sunday afternoon. The program was well presented by the students and enjoyed by those present.

Mr. and Mrs. John Walker and daughter, Shirley, plan to be home tomorrow from San Antonio where they went to get his mother for a visit with the family. Mr. and Mrs. Joe Walker of Hobbs, N. Mex., have been here taking care of Walker's bread route during his absence.

Mrs. Charlie Perry was brought home Saturday from Methodist Hospital and is said to be resting fairly well at this time. Mrs. Perry has been ill for several weeks and went through a series of medical check-ups while hospitalized.

Mr. and Mrs. W. C. Chambliss and children, of Iowa Park, Mr. and Mrs. Vernon Blackwell and family, of Amarillo, and Doc Switzer and family, of Amarillo, were Memorial Day guests of their mother, Mrs. W. F. Culpepper.

# Spectacle Participants Named

Church buildings were erected, the city took on a new look, salons gave way to dry good stores. The first all-modern gin was built in 1906. Cotton had become a crop of considerable importance. One of the early successful cotton raisers was O. F. Battey, portrayed in the spectacle as bringing in the first load of cotton. The only college the town ever had was the Presbyterian Academy. It was also about this time the first grain elevator was built.

Then came the railroad built by a Floydada organization, the Llano Estacado Railroad Company, headed by W. M. Massie. Later it was taken over by the Santa Fe. Geo. A. Linder was the engineer employed to build the new railroad in 1900 during the big boom. The first train carrying passengers pulled into town on March 15, 1910.

Two newspapers served Floydada in the early nineties. They were the Texas Ticker and the Floyd County Times. Neither lasted long. The Floyd County Hesperian was established in 1896 by Claude V. Hall.

The cast of the Prairieorama reenacted the disastrous fire of the city in 1911 when it destroyed all business houses on the west side of the square. The holocaust struck around 2 a. m. while citizens were asleep. Confusion arose. Floydada had no fire fight equipment. Water was carried in buckets, and men's hats from the courthouse windmill. One little girl, Belle Canady Welborn, wanted to go to the fire, but her parents wouldn't wait until she got her shoes on, so she got one high top shoe buttoned and carried the other in her hand.

Then came World War I, the winter of 1918, and the flu epidemic. Frank Harmon, who worked for Michell Bros. funeral home, said over 50 persons lost their

lives during the epidemic one being W. T. Montgomery. The town's three doctors, Dr. Geo. Smith, Dr. V. Andrews and Dr. Lon Smith, worked night and day. The town's only hospital, built in 1913 by Dr. Childers, was filled by Dr. R. C. Andrews was Floyd's first practicing physician. Dr. Smith, here since 1909, still in the practices medicine in Floydada. The depression hit in 1930, Karl Craig, and Mr. and Mrs. Ronnie Upton and Christi, of Canyon, Ariz. were in the middle of the dust bowl. Financial disaster was on every side.

The Farm Holiday Association was organized by M. D. Ramsey, John L. West, Ed Holmes, and A. S. Greer.

The Floydada Chamber of Commerce raised funds for the farmers to borrow and put down wells. Lovell Jones was the first man to use this fund.

After pulling out of the depression came World War II. There were ration cards used as in other cities. There were Floyd County boys lost in the fighting, then there was the big celebration of their return, and the arrival of General Jonathan Wainwright in the city on July 4th, 1945.

The fabulous fifties showed many changes in Floydada since Mayor Billy Montgomery measured off the prairie and marked it with a mesquite branch. A cooperative hospital was organized, a radio station, a vegetable marketing company was organized, and other business.

The Prairieorama portrayed the Floydada of tomorrow, its great possibilities for growth and expansion. The way it has grown since its founding was shown by its own Floyd County people the four nights of the spectacle. It gave people a chance to see how their forefathers made it a place for their descendants to live.

The entire cast of nearly 300 of the Prairieorama came on stage for the grand finale and the fireworks which closed the show each night.

## SOUTH PLAINS

(By Mrs. Murray Julian)

SOUTH PLAINS, June 1 — A crowd of 120 were present at the Baptist Church services Sunday morning. Visitors noted were Mr. and Mrs. Karl Craig, and Mr. and Mrs. Ronnie Upton and Christi, of Canyon, Ariz. Powell of Floydada, Marvin Wells of Cedar Hill, Billy Jackson of Lubbock, Mr. and Mrs. Leonard Moore, John Moore of Idalou, LaJuana Newton of Midland, and Mrs. L. E. Reynolds of Amarillo.

Elton Karr, ministerial student of Wayland, was in South Plains with his family, the Bryan Karrs, over the week-end. He plans to leave on Wednesday, June 3, for a five weeks tour of 30 churches of Canada, with the Mission Band members of Wayland College in Plainview. He was speaker at the evening church services at the South Plains Baptist Church.

Mr. and Mrs. James Teague of Lubbock were visitors here on Thursday and Friday in the home of her parents, Mr. and Mrs. L. T. Wood. The Woods' arrived home Tuesday night from south Texas, and reported seeing the ball fights while in Juarez, Old Mexico, among other things, while gone.

Bob Reeves and his family were guests here on Thursday night in the home of his parents, Mr. and Mrs. Sim Reeves. They plan to go back to Kingsville, Texas, for the coming six weeks where Bob will be enrolled at the Texas College of Arts and Industries in Kingsville for the summer.

Roy Chidress went to Clovis, N. Mex., on Friday to take his sister, Mrs. A. J. Hunt that far as she went on her way to Albuquerque, and later to her home in Winslow, Ariz. She had been visiting here the past two weeks with relatives.

Visiting here over the week-end from Canyon with their parents, the Raymond Uptons in South Plains, were their children, Mr. and Mrs. Ronnie Upton and Christi, and Mr. and Mrs. Karl Craig. Mrs. Grigsby Milton, Barbara Darla and Donita, went to Lubbock on Tuesday to spend the day on business. Donita returned to her work in Midland on Sunday afternoon with LaJuana Newton, after spending the week here with her folks on a weeks vacation. LaJuana had also been here over the week-end.

The Junior Home Demonstration Club members will meet this Thursday at 2:30 p. m. in the home of Mrs. Chester Hidalgo where they have a meeting on Sea Foods and their preparation. Boys who arrived here on Thursday afternoon for the summer with their parents, were Alton Higginbotham, Eugene Beedy, Tommy Respondek, and Kendis Julian who have been in college at West Texas State in Canyon the past two semesters.

Saturday and Sunday guests in the home of Mr. and Mrs. E. W. Newton were her sister, Mrs. L. E. Reynolds of Amarillo, Mr. and Mrs. Leonard Moore and John Moore of Idalou, and LaJuana Newton, a daughter who lives in Midland.

Vacation Bible School officers will meet on Thursday afternoon at 4 o'clock at the church to make plans for the school which will begin on June 15, with Mrs. L. T. Wood acting as principal.

The historical parade of the Golden Jubilee celebration in Floydada was held on Thursday afternoon at 2 o'clock with several dozen floats, two bands, and many riding clubs, and was viewed by most of our community as well as many hundreds of others. Petersburg won first prize with a pioneer float, and in that same division our South Plains Senior Home Demonstration Club won second place with their float which had its theme from Loula Grace Erdman's book "The Edge of Time" where the little

rose bush near a little sod shanty was tended by Mrs. Bill Beedy as in the book on pioneer life on the plains of Texas. Many of our families also attended other parts of the festivities during the week, and the evenings showings of "Prairieorama".
