

Building Fervor Hits New High In Business District

New Business Developments in Floydada are calling for Business district betterments. Property owners are responding to this demand this summer and fall by complete renovation of old buildings and the construction of new ones.

Although official records are sadly lacking because building, electrical and plumbing ordinances are not being enforced by inspection, estimates of business construction of various kinds in Floydada, either under way or completed run close to a half million dollars.

Illustrating the kind of work that is being done to make a New Look to lure the shopper to the business district are pictures numbered (1) and (2). Five buildings here under two ownerships have been completely re-done inside and out, new fronts built, new sidewalks laid, old-fashioned ceilings lowered, temperature controls installed.

The first two on the left and the last two are property of John B. Stapleton, the middle one belongs to Mrs. Maud Hollums. Several thousand dollars have been expended. Three of the buildings were already occupied and the two on the left have tenants ready to move in this month.

and Mississippi Here (No. 3) the foundations are shown, looking from Mississippi Street northwest. The old building in the right corner is the 60-odd year old residence once occupied by the Geo. R. Griggs family, which belonged until recently to Mrs. Mary Davis.

The lodge at the Eastern Star were most considerate of Mrs. Davis in her last years and at her death her children gave the house to the Masons for what use they could make of it. It is to be dismantled for the dimension lumber. Walls of the lodge building, to be 80 by 100 feet in size, are already going up. The lodge has permission to meet at its old location indefinitely rent free.

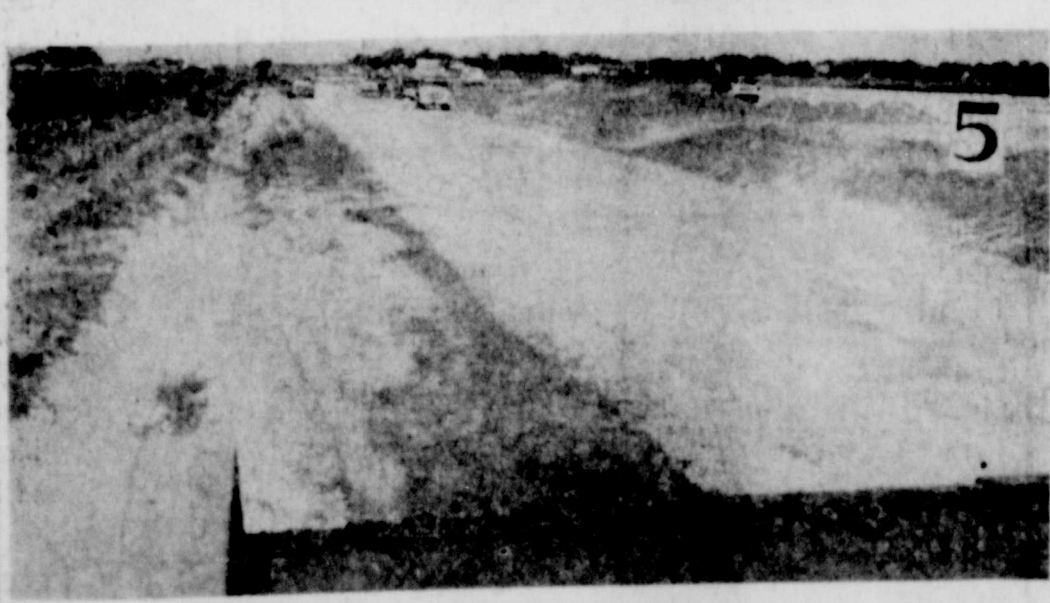

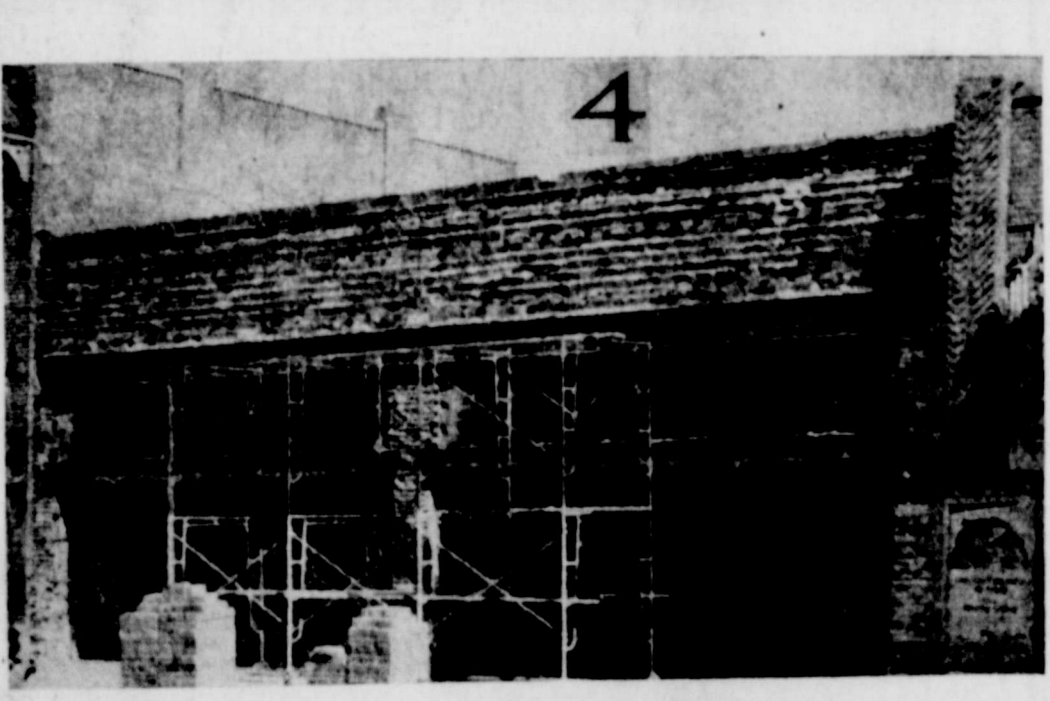

Picture No. 4 is the new location for Hagood's Department Store, Miladies Shoppe and Felton-Collins Grocery & Market were former tenants here. Built by the late Geo. M. Pinkney the property was acquired by Mr. Hagood last fall. The location is at 120 and 122 West California Street. Hagood's expects to move this month. He has used the best architectural advice he could obtain in this section to plan his lay-out. Brick work on the exterior is now nearing completion and workmen are busy on the interior also.

No. 5 is a real innovation for this part of the southwest. Pictured is a dock and 1400-foot cut

where Q A & P Railway is putting in a Piggyback installation for automobiles to be distributed in a wide area of the southwest. Rails have been laid from the old spur track, which has been lengthened also. The work, done in 30 days by Bill Hood Construction Co., Slim Edwards in charge, included moving 120,000 cubic yards of dirt, smoothing it out over a nine-acre area and black topping 4,490 square yards adjacent to the dock. The ground is immediately south of the Quanah lines west of the Lakeview Road, acquired from Mrs. Maud Hollums. When work was started a fine crop of cotton was growing on the site.

No. 6 is one of the new buildings on Highway 70. Floyd K. Cantrell is the builder. It houses Leonard's Cafe, Dr. K. Z. Patzer's office and the Mathis TV shop. It is opposite the new Fielden Motel at the corner of Kentucky and Second Streets. A number of other projects are awaiting developments.

Other construction under way includes the \$150,000 First National Bank building, still in the hands of the contractor and the \$150,000 gin of Farmers Cooperative Gin, first of its kind on the high plains. It is expected to be a model of efficiency. The management expects to "turn the wheels" for the first time this week-end.

Cotton Opens Fast As First Bales Arrive

Floyd County ginners and cotton growers started looking for field hands this week as both dry land and irrigated cotton bolls started popping in most parts of the county.

Many cotton men fear a shortage of pullers for the early part of the harvest season.

Continued hot sun shine and high wind appear to be moving up harvest dates in many fields. Most gins of the county have already had their first bale and at least one local gin has had a fair run of early cotton.

J. T. Hodges at Scott Gin in Floydada reported 25 bales ginned as of Tuesday morning. Bernie Parkey is grower of the early crop which was watered once from a lake. The ginners estimated the yield at near three-fourths bale per acre and report of good samples on all that has been brought in to-date.

Getting First Bales At Bohannon gin some six bales were reported on the same date with the first bale coming from

'Winds Go To Mustang-land Friday Night

The Floydada Whirlwinds will journey to Olton tomorrow night (Friday) to engage the Olton Mustangs in the second game of the new football season. Following the 'Winds will be the big FHS band and a large group of students and local fans.

The Olton-Floydada game will more than likely, knock one of the teams from the ranks of the undefeated Olton last week won over Petersburg 7 - 6 in a very close ball game. Floydada carries a 20-0 victory over Abernathy into the clash.

The football boys and coaches will leave for Olton by bus tomorrow afternoon and the band will follow departing from the school at about 5:30 p. m. in four of the school buses.

The Mustangs of Olton are coached by Joe Turner and are always a colorful ball club. This year is no exception.

Scouts say the wild horses are using the single and double wing formation along with the winged T. They have three good passers in Randy Buchneau a halfback and tailback, John Hair, quarterback, and Robert Priest, the full back. The fourth member of the backfield is Phil Neinst, who is used mostly on blocking assignments.

The Mustang backs have speed to burn and Buchneau was a very elusive runner here last fall.

Up front the Olton team has Robert Ducon, 155, and Fred Riney, 150, at ends; Bobby Brown, 190, and Jimmy Moss, 175, at tackles; Kenneth Hopper, 195, and Tommy Wilson, 160, at guards; and Eddy Lovell, 180 at center.

The Whirlwinds of Coach Preston Watson are hoping to be back near top strength by this Friday if the sickness bug will lay off for awhile. Back in pads early this week were Shipley, Graves, Pierce, Bobby Christian, some of the boys who had been out for a spell. Hal Hines is still on the sick list and he has been joined by Charles Christian, sick with the virus. David Hutchins who is out with a broken arm, and

ATTENDS AUSTIN MEETING County Surveyor Walter D. Newell spent last week-end at Austin, where he met with a committee of surveyors to nominate officers for the Texas Surveyors Association to be named at an October meeting.

Enroute home Newell visited in Dallas, the guest of an uncle, Frank Block, and an aunt, Mrs. Sue Herndon.

Sanford New Hagood Mgr. Norvell Sanford has been named store manager for Hagood's Department Store in Floydada. He is on the job this week, coming to Floydada from Lubbock. Sanford has several years experience in the department store and dry goods line. He was with the J. C. Penny Company before moving here. Early this week Sanford was looking for living quarters for his family and was having some difficulty in finding a three-bedroom house. He has a wife, Sally, and a last minute added attraction, two daughters, Vicki, aged 9, and Candi, aged 3. The Sanfords are Mo-bile, a unit out of Austin, Baptists.

Advertisement this week of the City Council is asking for bids on the city's 100-block paving program to be opened on Monday, Sept. 28. Hour for opening bids is set at 10:30 a. m.

The council met in called session Friday to go over plans and specifications with Engineer Noble James.

The city last week received the proceeds of their bond issue to finance the paving project. The check was for slightly more than \$150,000, the excess covering accrued interest.

Pending the beginning of work on the project the funds have been invested in 91-day government certificates, Mayor J. M. Willson Jr., said.

Meanwhile, field men of the engineering company are carrying on survey work and plans and specifications have been completed ready for prospective bidders to check.

Perry Smith Named Police

In the regular meeting of the council Monday night Perry Smith, a former night police force member was appointed chief of police of Floydada. He is to take office Sept. 15.

Police and Parks Commissioner W. W. Goen said he had the unanimous support of the council in making the appointment. Smith was formerly with the city for a period of years as night patrolman.

John Marsh, who has been with the city police force for a few months, continues as a member of the force. He has been carrying the city's part of the load of law enforcement for three months or more as a loner.

The council has the new well on test this week. What appeared to be a failure is going to be a nice well. Yesterday morning it was running a "full pipe," but it is not a 12-inch well like the first southwest installation. It is expected to produce 600 to 900 gallons of water per minute when it is put in production. The city has to install about 1,400 feet of main to tie it in with the ground reservoir.

Shami Opening New Store Next Week, The Fair

Sam Shami who has been associated with Hagood's Dept. Store for the past several months as manager of the local store is entering business for himself. Shami is now stocking and preparing to open the new business. It is being named The Fair.

The store will feature dry goods, shoes and family and household needs. The Fair is located in one of the newly re-done Stapleton buildings on the west side of the square.

MRS. F. M. PRICE HOME

Sometimes they have a broken hip. Mrs. Price was brought to her home Saturday from the Plainview Hospital and will be confined to bed for at least three months.

Jerry Coltharp Weds Cleveland, O., Miss Aug. 29

Double-ring wedding vows united in marriage Miss Evelyn Such to Jerry R. Coltharp in the Capitol Heights Baptist Church on August 29 in Cleveland Heights, Ohio. The bride is the daughter of Mr. and Mrs. Harry C. Such of Cleveland, and the bridegroom is the son of Mr. and Mrs. A. W. Coltharp of Floydada.

Altho unable to attend the wedding of their son due to the opening of school, Mr. and Mrs. Coltharp were presented a recording of the ceremony.

The newlyweds came to Floydada following their marriage and were houseguests of his parents for a few days.

They are making their home at 1823 South 8th street in Waco where Mr. Coltharp is preparing for the ministry, and his wife in elementary education, at Baylor University.

A small, energetic neighbor sat knitting a green sweater on our back porch the other evening. "Might as well have been knitting at midnight last night," she said. "I just couldn't sleep. I beat my pillow to a pulp. I tried all the tricks I know for relaxing. None of them worked. In her case, probably, sleeplessness results from never letting go during the day. She is forever doing—making crocheted rugs, baking cakes, fashioning tin roses for Christmas wreaths out of used cans. She runs at a light trot all the time and allows herself to get in knots about unimportant details. She is constantly going for others, too, often when she has no business doing anything at all, for her hands are badly crippled with arthritis.

An inability to sleep is not always the result of tension, however. Some folks can't sleep at night because they aren't sleepy. They either go to bed early or stay up late. Sometimes they have a broken hip. Mrs. Price was brought to her home Saturday from the Plainview Hospital and will be confined to bed for at least three months.

Her other daughter, Mrs. Ruby Resick, who had just moved to Roswell, N. Mex., has returned here for an indefinite time to care for Mrs. Price.

Club Members Study Making Straw Bags

Straw handbags were made by members of the Dougherty Home Demonstration Club in the home of Mrs. Mac Ward on Sept. 2. The meeting began at 10:00 a. m. and a delicious covered dish luncheon was served at noon.

Mrs. Louis Blum, club craft leader, had obtained bulk straw in black, red and natural colors with matching wooden beads to make the handles. The bags were trimmed with matching or contrasting flowers or other decorations. Mrs. Dan Gross of the Homebuilders' Club assisted Mrs. Blum in the demonstration.

Mrs. G. A. Smith, club president called the meeting to order at 2:00 p. m. and a short business meeting was held. Mrs. Mac Ward read the devotional. Plans were made for the Fair which is to be held in Lockney and everyone is urged to help in any way possible.

The meeting was adjourned and bag making resumed.

Five ladies from the Lakeview Club visited us and learned to make the bags. In turn they will teach the craft to members of

their club. Those attending were Mrs. Earl Edwards Sr., Milton Harrison, William Bertrand, Lou Pyle and Mrs. Buel Neff.

Present of the Dougherty club spending the day were Mrs. L. H. Blum, Ned Bradley, Johnnie Cates, Russell Crawford, R. C. Jones, A. H. Kreis, W. J. Ross, G. A. Smith, Robert Ward and the hostess, Mrs. Mac Ward. Mrs. Claude Ring and Mrs. C. A. Caffee were unable to attend the morning meeting but came for the afternoon session.

SOUTH PLAINS

(By Mrs. Murray Julian)

SOUTH PLAINS, Sept. 7.—Children are in school and stores are open this Labor Day, and it seems as if it is still summer, as the days have been extremely hot with no relief in sight. Farmers are still running irrigation wells on soy beans and maize in some parts of our community.

E. L. Morrison at the gin reports a few farmers have been cotton picking hands, and several have had to spray the past two weeks for boll worm infestation. Chubb and Graham Elevators have reported maize has not come into the elevators this past week.

Mr. and Mrs. E. J. Kinslow, Stevie, Phil and Barry and Mr. and Mrs. E. P. Pritchett, Stevie, Jimmie and Price left early Sunday morning to spend the day at Old Tascosa Ranch near Amarillo, where they went to attend the annual Boys Ranch Rodeo at 2:30 Sunday afternoon. They took a picnic lunch to have at noon and after an enjoyable day were home by nightfall.

Mrs. I. H. Parks has worked in the Floyd County Fair Association all year as a director and will be in charge of the community exhibits and the ladies program at the Fair on Saturday afternoon in Lockney. Everyone remember to enter something at the Fair this week and work toward the sweepstakes man, Horace Marble, and Mrs. Ernest Smitherman.

Mr. and Mrs. J. A. Kinniburgh came Wednesday afternoon and stayed overnight in the home of Mrs. Thomas as we all called her. They passed away Wednesday morning about 3:20 here in the home of her son, W. E. Thomas and wife, and a daughter Mrs. Maude Brister, where Mrs. Thomas had made her home for many years. She was 91, and had been very ill for 3 years, with loving care given her by her family all these years. The Rev. John Gillispie was with the family at her death and services were held in Post her former home, at the First Baptist Church on Thursday at 2:30 with interment to follow in the Post Cemetery. We offer our sympathy to the family in their sorrow.

Those who went to Post on Thursday afternoon for the fun-

eral services of Mrs. H. D. Thomas were Messrs. and Mrs. Esley Yenny, I. H. Parks, Johnny West, J. D. Webb, John Key West, the Rev. John Gillispie, who conducted the service, and Early Pritchett.

Thursday night at the school house a sock supper was held and enjoyed by the many neighbors, who met to have supper and the proceeds of the event went for school insurance for the school children.

Mrs. Glen Wood and baby son came home from the hospital on Tuesday and her mother, Mrs. Kelly Bowers of Plainview was with them until Thursday night helping take care of the new baby.

Broadway News

(By Mrs. T. E. Thornhill)

BROADWAY, Sept. 7.—Lightening really was popping and crackling early Sunday morning, striking the Pansy Baptist Church at Broadway starting a fire in the attic. It was a smoldering slow burning fire. We are so thankful it was put out before it did a lot of damage even though there is quite a bit of damage. The community truly appreciates the Crosbyton Fire Department being so prompt to come to our aid.

Sorrow came to a number of our friends last week. We truly wish to express our deepest sympathy to the family of Richard Gossett of Lubbock and to the McClure family in the passing of Hoyt's father, C. A. McClure of Crosbyton, who passed away at the Crosbyton Hospital last Thursday. May God comfort each of you in your hour of sorrow in our most humble prayer.

Sunday visitors of Mr. and Mrs. H. L. Starrett were two of their daughters and families, Mr. and Mrs. Eldon McEachern and children, Terry Don and Frieda of Kress and Mr. and Mrs. M. E. Gibson and daughters, Cheryl Ann and Karla Roye of Plainview.

Mrs. Starrett also had a report of her mother, Mrs. Minnie Tisdell of Houston, who has been quite ill. Mrs. Tisdell is improved at this time. We surely hope she will soon be well again.

Mr. and Mrs. Billy Cornelius and children, Duwayne and Mrs. Kenneth Leatherwood were Saturday dinner guests of Mr. and Mrs. T. W. Stouton.

Mrs. Ed Thornton and children of Plainview visited a few days of last week with her parents, Mr. and Mrs. J. C. Johnson. Other visitors Monday night were Mrs. A. L. Rathel of Crosbyton and Mrs. Jerrie Proctor of Lubbock.

Mr. D. D. Thornhill says his Adams was well enough this morning that the doctor let him come home. He will have to be in bed for some time, but we are all glad that he has recovered enough to come home.

and completed 5 of 13 passes for defensive series. 45 yards and 8 points. He had one intercepted.

Rodney Teague also showed up well on the quarterback position, completing several good passes and turning in some fine runs. He was on the receiving end of 3 completed passes that went for 39 yards, and intercepted two Antelope tosses.

Scoring honors were divided between Teague who scored 12 and Gilliland who accounted for a touchdown.

Score in First Quarter
Opening the game Abernathy kicked and Gilliland took the ball on the 20 returning to the 35 before going down. A fumble by Christian, the gave Abernathy the ball on Floydada's 38 but four downs gained by Antelope's but a single yard for the visitors. The green and white took over on their own 37.

Floydada drove down field on the short end of the game. Gilliland was a sense figuring on the line back. He took over the game. Vick-48 before losing possession. Gilliland and Van Stovall turned in some of the night's key tackles in the

Taking the ball in midfield but a fine 30 yard scamper by Vickers was nullified by a penalty and the yardage was too much to overcome as they lost possession on the Antelope 20 failing to gain first down yardage.

And Again in Second
In the second period it was nip and tuck until about 3 minutes before the half when Floydada held Abernathy at their own 21, facing a punt.

Brown punted out to the Abernathy 42 and from here Vickers hit for 29 yards and then Teague added 13 and it was another TD for the 'Winds.

Abernathy tried to get on an offensive rolling before the half but it was caught short as Bob Ed Dempsey intercepted a pass to give Floydada possession as the whistle blew.

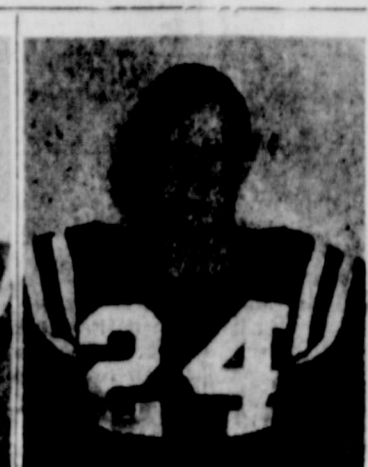

The third period was mostly all defense. On one series it was Irby, Gilliland, Orman and Stovall who turned the tide and stopped the Abernathy attack with fine tackles. Teague did the punting chores for Floydada in fine style.

As the final stanza opened it was Floydada's ball on the Abernathy 24 Vickers made it first, nullified the whole thing and the and 10 on the 11 and then passed play was canceled out with a Teague for the marker. His penalty arm felt good so another pass went to Gilliland for the conversion and the scoring was over at 20 - 6.

The next offensive try by Abernathy was contained and some Orman and David Hutchins. Ed

Penalty Nullifies One
Richard Marler missed a touch punting in the game when a beautiful pass play from Teague, was good for 19 yards and a score was canceled out with a Teague for the marker. His penalty arm felt good so another pass went to Gilliland for the conversion and the scoring was over at 20 - 6.

Ford's Falcon Will Be Shown Oct. Eighth

Ford Motor Company unveiled its new economy car, the Falcon, last week, said it represented a "revolutionary breakthrough" in automotive design and compared the significance of its introduction with those of the Model T and Model A.

In an unprecedented 21-city news conference conducted by means of closed-circuit television, Henry Ford II, president revealed that the Falcon is an all-new, six-passenger car with a six-cylinder, 90-horsepower, front-mounted engine capable of 30 miles to the gallon of gas.

Mr. Ford said the Falcon is three-quarters of a ton lighter than the Ford Fairlane, yet has passenger space comparable to standard cars, has a big-car feel, and has excellent structural rigidity and durability. This, he said, represents a significant engineering breakthrough that could "materially alter the future of the automotive industry."

"It was possible to achieve all of this only through the most extreme design simplification and critically accurate engineering," he asserted. "If we had not succeeded here — if we had not been able to reduce weight without impairing handling and roadability — we would not have been able to build a car of this quality and size to sell in this new price class."

"It's the three-quarters of a ton we've taken out that makes possible the low price to the consumer."

The new car, to be on public display at Ford Division dealerships across the country starting October 8, will weigh 2,366 pounds compared with 3,758 pounds for the average 1959 Ford.

EDITORIAL VIEWS AND COMMENT

State Capitol Prosperity. Good times began the first of September for the state treasury. Money began to roll in right after the thousands of tobacco dealers invoiced the night of August 31 and forwarded the tax on their stocks on hand. Even the fellow with a small cigar and cigarette case remitted \$25 or so. You can imagine. State Treasurer James had to hire more help and borrow some counters from neighboring offices, no doubt. The deficit in the general fund is being wiped out completely pretty fast. Another big sluice will roll in before October 1 when the corporations turn in their newly assessed franchise tax, third increase for them since anybody else has had to divvy up more.

The people want the state to have more tax money and the legislature gave it to them. Business is principally affected. Many small businesses which heretofore had been spared the job of keeping books for the state may now learn how to fill out form numbered So and So, and some of them will find out how much the penalty comes to for failure to do so. For the state will put out "inspectors" to comb the communities big and little.

The vexed smoker can solve the problem of the added cost of cigarettes or his other favorite form of taking on the weed by simply quitting the habit. It isn't as simple as that for him but it is a factual, hard way of stating it. Also, if the whiskey or beer drinker finds the burden of the new tax too much for him and his limited income, swearing off and getting on the water wagon could be his solution. But people are not going to do that way, just like they're not going to quit riding in automobiles because the legislature hiked the state tax on car purchases.

Word Slingers Field Day. Last week's newspapers had some most amusing reactions from newspaper people about the new taxes. The writers who know well how to box adjectives and adverbs around had a good time about the exemption of snuff. The legislators unanimously exempted the snuff dipper from any tax. Whether it was done because there is already a considerable federal tax on this vilest form of tobacco use, because a new tax would be difficult to collect, or whatever the actual reason, the lawmakers got credit for being afraid to raise the ire of the snuff dipper.

Very few departments of the state failed to get substantial increases in their budgets. The new budget deals reasonably well with the state prison system and the eleemosynary institutions and lays it on the line for all the schools of higher learning. Changes also point to more taxes in the near future. The next legislature is due to have a tax problem. Indeed, there may be another session of the present legislature, the fourth called session to deal with other added taxes demanded.

Speaking of Added state taxes, it is a fact that it costs more to operate business, from its simplest form to its most complex. There is no reason to think the state can operate cheaply when every other form of human endeavor is being carried on at greatly increased cost.

New Car Talk will be general for the next forty days or so. At the moment the speculation is on what the 1960 mod-

els will be like, and particularly what the new compacts will offer. Of the new small car models three will be on sale in Floydada for sure, Ford's Falcon is due to be seen early in October at Bishop Motor Company, Chevrolet's Corvair at Oden Chevrolet a bit later, and the Edsel B at Cline & Rainer's. Dealers have, or will, right away, get previews of the kind of cars they are going to sell. The popularity of the imported car with lower first cost and more mileage per gallon of gas, coupled with the high cost of getting around in the larger cars, brought the big domestic three around to the belief they had to add the small car to their lines.

Business Celebrated Labor Day in most of the cities and towns of the country but there was a remarkable lack of parading by labor union people. Labor is too much under fire at the time. Monday was a good day for Labor with a capital L to lie low. Congress has just passed a new law, too, which the public seemed to demand, and the president is due to sign the bill soon. Whether the law is one that will be enforced is to be seen, but anyway it will give Labor bosses cause to reflect and should be sobering to the unions which have swayed across the stage. What the law is actually like is to be seen. Most of us do not know how far down the line the federal orders go nor how many reports they call for.

On the other hand labor leaders may be correct in pointing out that the law as passed is too much of an invasion of the private rights of the laboring man. The government, through some of the laws recently passed and the judgments of the Supreme Court, already has raped the long-cherished principle of the dignity of the individual. This new law could do more of the same. This is simply speculation, we wouldn't know.

Our Frost Prediction. As is well known we have the answers to most weather problems. We had little to say about rain in August because there wasn't any rain in sight. Nobody likes to get credit for carrying bad news. Unless September 21 changes the outlook most everybody who plants wheat will "water it up." That out of the way, next is the frost date to be noted. First killing frost or freeze should come about November 7, give or take a day or two. That gives the tomato raisers some of September, all of October and a few days in November to market their crops. Also it gives the cotton man better than an ordinary break for maturing his crop.

He Scooped Everybody. George Dolan, the Star-Telegram writer, scooped all the newspaper boys in the Seventh Supreme Judicial District on the Alton B. Chapman story. The judge took his vacation this summer working on the highways. He wangled a job out of some friend as a flagman on a construction job. Sitting as a judge is "broadening" so the judge earned a living, got a lot of sunshine and Vitamin K and took 17 pounds off his waistline. Nobody but an old Spur or Floydada boy would have thought of doing it that way, perhaps not any of them even except Alton.

Tax-Man Sam Sez:

A lot of people feel that the tax laws are not fair. Somehow or other this feeling seems highest around income tax paying time when you have to shell out those dollars you may have saved for something else.

Internal Revenue employees have a very serious job in trying to collect all the tax each taxpayer owes as well as helping taxpayers to pay no more than they owe. These people are trained to determine how much you owe under a fair interpretation of the law as passed by Congress. They collect the dollars that belong to Uncle Sam and try to make sure that you keep the dollars that belong to you. All good jobs it makes the tax law fairer for all.

TALENTS WILL TARNISH

How will you help FHS this year? Remember the well-known story in the Bible of the man who didn't use his talent and lost it. Don't let this happen to you. Each person has one special talent, if not many, that is of great value if used in the right way. Are you good at football but afraid to go out because you might not make the team? Are you good on some musical instrument but too lazy to get out and work with the band? Can you write but don't want the responsibility of being on the paper staff? God didn't give you that talent for you to neglect. A talent meant to be used, or it may tarnish like silverware.

Find each talent that you may possess, develop it, and use it on again to retain the standardization of Senior rings.

SENIOR RINGS EXPECTED

(By Nelda McCary)

Attention Seniors! Senior rings were scheduled to arrive sometime this week announced Mr. A. E. Baker, principal of FHS. Seventy-four rings have been ordered, 43 for boys and 31 for girls. The \$4 deposit will be subtracted from the price of the rings. A ring without a stone will be \$12.83. Girls' rings with stones will be \$16.13 and boys' rings with stones will be \$14.33.

This is the third successive year that Seniors will receive standardized rings. In two years the issue will have to be voted on again to retain the standardization of Senior rings.

Excited students gathered Thursday for their class elections. With the duties and the purpose of the meeting in mind, each student cast votes for the officers he thought best for the offices.

Being an officer of any class is a great responsibility, and an even greater responsibility to head the Senior class. To do this Charles Holland was chosen as president; George Farris, vice president; Sue McClung, secretary; Sue Ring, treasurer; and Bill Gilliland, reporter.

Money-making projects for this year's Senior class includes the sale of school supplies in the library; the sale of work books; sale of green and white ballpoint pens; and the sale of ribbons and mums for the home games.

Every year the junior class is responsible for giving a banquet for the Seniors. To do this, capable officers are needed. This year, Larry Orman is president; Pat Ginn, vice president; Helen Foster, secretary; Tiny Coppeland, treasurer; and Grace Potts, reporter.

Refreshments are sold at each home game to the spectators by the juniors' concession stand.

Even though the sophomore and freshman classes have no great project, often an occasion arises that they too need officers to represent them.

Sophomore officers this year are President Charles Christian, Vice President Rodney Teague, Secretary Margaret Moss, Treasurer Melinda Barker, and Reporter Jan Dempsey.

For their first year in high school the freshman class has selected to represent them, President Darryl Lindsey, Vice President Fred Thayer, Secretary Bud Higginbotham, Treasurer Bonnie Helms, and Reporter Denny King.

Sponsors for this year's Senior class are Mr. Barber, Mr. Cook, Mrs. Patterson, and Miss Swepston. Junior class sponsors are Mr. Dalton, Mrs. Dalrymple, Mr. McKenzie, and Mr. Baker. Sophomore class sponsors this year are Mr. Adams and Mrs. Graves, helping the freshman in their first year in high school are Mr. Eady and Mr. Lewis as sponsors.

With a busy year ahead of them, this year's class officers are well prepared. Leading 1959-60 officers will be, left to right, Darryl Lindsey, freshman president; Charles Christian, sophomore president; Larry Orman, junior president; and Charles Holland, Senior president. (Staff photo).

Wilson Assumes Editorship Of 1960 High School Annual

(By Sue Williams)

Judy Wilson, newly-appointed annual editor, has been busy working for the past month with only a few students, and of course, the valuable aid of Mrs. J. W. Adams, yearbook sponsor, Marisue Burleson, original editor for this year, resigned after her marriage to Frank Potts. Mrs. Adams and Mr. Baker decided Judy was best qualified for the position as she was runner-up in the election for annual editor last spring.

As things have slowed down a little, Judy has completed the selection of her staff which are as follows: George Farris, James Huggins, Eric Christensen, Bill Gilliland, Richard Graves, Mary Dunn, Helen Foster, Addie Adkins, Grace Ann Potts, Charles Holland, Jan Dempsey, and Sue Williams.

Sixteen completed pages of the 1960 FHS annual met the September 1 deadline in Dallas. Most of the advertisement section has been completed, and the football pictures and some activity pictures have been taken. James Huggins, staff photographer, took pictures of all the class officers September 3. Freshman, sophomore, and junior class pictures are scheduled to be taken September 24, beginning at 8:45 a. m. The exact date for the Senior pictures has not been set yet, but it will be approximately the same time as last year.

AGGIELAND

(By Doug Galloway)

Here piggy! Here piggy! There go some more freshmen. They are always meaning no harm but just leave them alone for a few minutes.

Jobs being worked on at the present in "Aggieland" consist of building a new fence around the football field. The fence will be completed this week. Building the fence consist of digging post holes, pouring concrete, and stretching wire. A new ticket of ice has been built and placed at the south end of the football field.

Boys are planning exhibits for the Floyd County Fair which will be put on exhibit this morning in Lockney.

Officers will be elected for offices later this week. The names and positions will be in the following issue.

PLEASE freshmen don't kick it, it may kick back!

What Do You Think

About 25 Minutes For Lunch? Darlene Cranford: I think it's entirely too short.

Danny Shipley: I don't like it, sue a flip.

Sue McClung: It doesn't even give you enough time to eat.

Darlene Johnson: It doesn't even give you enough time to think about it.

Fredna Robertson: I think everyone will have indignation.

Don Martin: It's terrible. I'll have ulcers.

Don Neff: I don't have time to eat at the Dairy Mart. I'm always late.

Nancy Watson: I think everyone should have more time to digest their food.

Coy Grundy: I don't like it at all. I've had longer coffee breaks.

Nelda McCary: I'm really too much of a lady to say.

Sonja Guffee: You are supposed to chew your food thirty times to a bite. How can you?

Library Listing

72 New Volumes

(Fredna Robertson)

Out of the 600 books given to all three schools the high school received 72. These books were given to the High School Library by "Books on Exhibit," and by friends of the Floydada community. These books contain adventure, love, autobiography and space age.

All books have a plastic cover on them and are very well protected. Two of the new books the library received are "Princess Grace of Monaco" and "Tools of Science."

The Observatory

(By Typing II Class)

Fredna Smith had the hiccoughs in Shorthand Wednesday of last week.

Mr. Whitaker, band teacher, asked if anyone knew when the bell would ring just seconds before it rang.

Nelda McCary's right front tire on her car is always low.

People in first period English IV liked class so well that they didn't bother to leave when the bell rang last week.

Darlene Johnson combed her hair three times in English IV one day last week.

Kathryn and Carolyn Seago are always wearing aprons in band. It seems they play the cymbals and want to protect their clothes.

Mr. Eady, shorthand and typing teacher, misread a sentence in shorthand class and had to be corrected by his pupils.

Carolyn Cates wore her typing pin upside down last week. Is this the beginning of a new fad?

The five new teachers seem to be very friendly and capable.

Sue Ring was chewing on a small red book in bookkeeping one day last week.

Don (Shakes) Martin shakes his foot all during bookkeeping.

In shorthand Mr. Eady is using a new teaching method. The class reads words before learning the letters or how to write them.

Forty-four girls have gone out for basketball. Could the cause of this be the good-looking coach, Mr. Shields?

'Winds Journey To Olton Friday Night

Take Opening Game Despite Virus Inroads

(By Kenneth Jones)

Friday night the mighty Whirlwinds will crash against the inexperienced squad of the Olton Mustangs at Olton.

Olton has its smallest squad out that they have had in several years. They have 20 boys, with only 4 starters and 2 part-time regulars back since last year. Randy Buchanan, 153 pound Senior halfback, will be the main spark of the team because of his speed.

The position of guard still looks good as junior, Kenneth Hooper (191 pounds), and senior, Tommy Wilson (151 pound) along side center, Phil Neimast (175 pound), return from last year.

The team looks its best in passing and receiving. They may be small but they are not discouraged.

Antelopes First Season's Victim Of Whirlwinds

(By Kenneth Jones)

The mighty Whirlwinds took their first victory of the season by beating the Abernathy Antelopes 20-0. Even though four starting players were absent, Danny Shipley, Richard Graves, Hal Hines, and Elwyn Pierce, they still made a great showing. Although Bob Ed Dempsey had two broken fingers, he still saw some action.

During the first quarter, the Whirlwinds did a good job of blocking the Antelope's passes but had some trouble getting their own through.

After six minutes of play and a 24-yard run by Don Vickers in the first quarter, Bill Gilliland ran for a touchdown. The team failed to get the extra point racked up on their score.

Neither team could seem to make much ground during the second and third quarters even though each team was putting out all it had. In the last three minutes of the second quarter, Rodney Teague made a touchdown, but the extra point again failed. Rodney Teague again showed up in the fourth quarter when he received a beautiful pass from Vickers which was good for another touchdown. Bill Gilliland received a pass from Vickers making the score 20-0.

During the last of the fourth quarter, the Antelopes began to click and intercepted a Whirlwind pass when the Whirlwinds were close to their home goal.

Although there was a wide margin in the score, it was by no means an easy game. The Whirlwinds are now looking forward toward their next game with Olton tomorrow night at Olton.

BEAT OLTON!

Halftime Hash

(Nancy Watson)

Making its debut, the seventy-one piece Whirlwind Band entered the south end of Wester Field in a spread front formation consisting of a ten man front. The Floydada Herald's were then introduced to the audience and an Edgewood fanfare was played. In the middle of the field the band melted into one large block band of eight files and ten ranks.

The band then proceeded to execute a precision drill consisting of left and right flanks while playing a difficult march.

Then the Big WW Band formed two company fronts in the middle of the field facing each other. The members of the band then formed a number of moving intricate diamonds before executing another difficult precision drill consisting of left and right boxes with both lines intermingling with one another. The traditional block F was formed and the band played Bye, Bye Blues while marching off the field. To the joy of the spectators the band played a farewell fanfare as they played their last number on the show.

Mr. Dan Whitaker is the new band director.

Hull 'Sizzles' As Drano Works

(By Sue Ring)

"I walked through Drano," by David Hull.

At a slumber party about two weeks ago at the Floydada Country Club, things got a bit too "sizzling" for David Hull, junior, when he received minor burns on his feet.

Coming into the clubhouse with wet feet from swimming, David stepped in some Drano that had been carelessly scattered on the clubhouse floor. He, first sensed that something was wrong when he felt his feet "sizzle."

Coach Charles Tyer recommended that he soak his feet in a pan of water with five or six Alka Seltzers in it to neutralize the acid.

The moral to this tale is: If you have wet feet and have to walk through Drano, have some Alka Seltzers handy!

District Buys Five New Buses

(By Sandra Wright)

Last spring 5 new buses were purchased. These new Chevrolet buses cost approximately \$4,200 apiece. Each seats 48. All buses are bought from the State Control Department in Austin. Mr. Stanley Killian went to Georgia where they were manufactured to get them.

During the past summer, only one new bus was bought. This bus went to the Cedar Hill community because 1 bus would not be sufficient for the students that live there.

Mr. Stanley Killian repairs the buses during the summer. He is a very busy man as there are twelve buses which need repair at one time or another. The approximate cost of maintaining a bus for 1 year is \$2,700.

Each of the 12 buses brings to school and returns 40 students. The longest bus route is Cedar Hill's driven by Mr. Bell, and the shortest is Muncy, driven by Mr. Killian.

Paint Job Aids Skyline "Look"

It took two weeks and 440 gallons (eight 55-gallon drums) of paint to re-cover the surface of the Producers Elevator Company plant on East Missouri Street.

The job, finished last week, was contracted by the directors to a Sunray firm recently.

One of the tallest buildings in Floydada the elevator top is slightly more than 100 feet above the ground. In need of a fresh coat of paint it now glistens a bright white.

Words cannot express the gratitude in our hearts to those who were so kind during Roy's illness, especially those who sat with us the long hours at night. Our heartfelt thanks also to the doctors, nurses and members of Odd Fellows and others who helped in any way. Your nice cards and cheerful words meant so much.

TEXAS PRESS ASSOCIATION

People who have other school-minded people have Price Daniel been too busy with "back to school" work to get their letters off to the governor.

On the other hand, it could mean that the people are getting tired of taxes, and spiraling wage scales.

PINCH ALREADY FELT—Perhaps the reason many Texans weren't eager to have another tax session was that they were beginning to feel the bite of new taxes already passed this year. State Treasurer Jesse James' report shows that many stocked up on cigarettes and liquor during August, before higher taxes on these items became effective on September 1.

Sale of liquor and cigarette tax stamps that soared to \$5,227,642 in the pay session August. This is \$1,098,496 higher than sales for August, 1958.

No statistics are available for the pre-tax selling of items which

got hit for the first time. But heavy advertising campaigns indicated that merchants hoped buyers would clear their stores during August of such items as air conditioners in order to avoid the 3 per cent sales tax.

GOVERNOR DEFENDS VETO—Governor Daniel's office has suggested that the State Hospital Board tap its \$1,200,000 emergency fund to eliminate any fire hazard to the 800 oldsters housed in the Confederate Home in Austin.

Governor Daniel vetoed a legislative appropriation to build new quarters for these patients. His action brought some reactions of surprise and criticism. State Hospital system's safety officer was quoted as labeling the 50-year-old frame buildings as "definite fire hazards."

A spokesman for the governor retorted that the appropriation the governor scratched would not have emptied the Confederate Home. He said it would have provided quarters for only about 300.

He suggested the State Hospital Board use its emergency funds to re-double safety precautions for the old folks.

LONG TIME, NO PAY—Legislative employees will have to wait until Nov. 4 to get their next pay check.

In its last special session the Legislature approved a \$300,000 fund transfer for these between sessions expenses by voice vote. But all bills not passed by a two-thirds record vote cannot take effect until 90 days after the session ends. Hence, the November date for this action.

Legislature also appropriated \$1,000,000 for legislative expenses, but this was vetoed by the governor. He said he felt they could get along on the \$300,000.

Arrangements were being made for some 20 House and Senate employees who missed two pay days now, to get low interest loans from loan companies.

ATTENTION, ALL BOAT OWNERS—State Highway Department has announced that registration and licensing of boats under the new water safety act will begin next month.

Boat owners will have until March 1, 1960, to get their certificates and identification numbers.

Forms now are being printed and will be distributed to boat dealers, county offices, Highway Department Offices and other public offices.

Cost of the licenses will vary with the size of the craft. Here is the scale: Boats under 16 feet in length, \$1; 16 to 26 feet, \$5; 26 to 40 feet, \$10; 40 feet or more, \$12.50.

Boats, regardless of length, if equipped with a 10 hp motor or less, will be exempt from the tax as well as the numbering provision of the law.

The Highway Department will deal only with the registration phase of the new law and not with safety enforcement.

Visitors At the Fair this week will have a chance to view the Texas Law Enforcement Crimemobile which has an interesting exhibit with such items as the lie detector, police guns, drunkmeter, ballistic microscopes and the X-ray machine.

SENATE INVESTIGATORS—Sen. Wardlow Lane of Center has been appointed chairman of the Senate General Investigating Committee.

Others named to the committee by Lt. Gov. Ben Ramsey are Sens. A. M. Aikin Jr. of Paris (reappointed), Dorsey B. Hardegan of San Angelo, Bruce Reagan of Corpus Christi and R. A. Weinert of Seguin.

This committee succeeds a panel headed by Sen. Charles Herr Highlights galley Two . . . 2

of Austin which collected remains of material on the ICT Insurance Company, the state insurance liquidation division and tax collecting procedures in the state comptroller's office.

COST OF CITYING—In the past ten years Texas population has rocketed from 5,000 to 11,000.

Some might wonder if the state is reverting to the lawless ways of the Old West. Not so, according to O. B. Ellis, general manager of the Department of Corrections. Seemingly, it's "progress" — or at least a paring with old ways — that's causing the trouble.

In citing what he feels are the reasons more Texans are getting behind bars, Ellis put "urban movement" at the top of the list.

"A gook old country boy moves to the city," Ellis explained, "has a 40-hour work week and doesn't know how to use his time."

Ellis also blamed no jobs for youngsters and misplaced values — "too much emphasis on the big home, the big auto."

Are You WANDERING

We have a goal to make, a peace to seek, a life to live and Heaven to reach. But without **DIRECTION** you won't attain any of them. You won't get many places **WANDERING** around. *A plan, a program, a blueprint is absolutely necessary.* Have you lost the influence of hour of worship in your church each week? Have you lost interest in people and the Christian pleasure you derive from helping others? If so, you are without direction. You are a wanderer. You are headed for the ditch. Your destiny is a miserable failure and your life will be futile. *You need to open The Old Book and read a few of those signboards printed in red.* Stop wandering! Let God have a talk with you.

You In The Church
The Church In You

Spur town lots were placed on sale Monday morning between 8 and 9 a. m. on November 1, and within a few hours practically every lot in both residence and business portion of townsite were disposed of to anxious purchasers. At that time the only structures upon the townsite were the Western Hotel, townsite office, depot, section houses and the present Texas Spur office which at that time was the temporary grocery store of Barber and Hancock. Two or three hundred people were awaiting the opening and an opportunity to get in on the ground floor.
