

## Less Spent For City Government In Floydada

(Special to the Hesperian)  
NEW YORK, Oct. 28 - Less money is spent in Floydada, on a per capita basis, to keep the wheels of municipal government turning, than is spent in most of the other cities in the United States.

A voluminous official study, recently completed by the Department of Commerce in connection with its Census of Governments. The financial statistics, covering some 15,000 cities and towns in the United States, are all based for comparative purposes on the same period, the year ending January, 1958.

Whether or not residents of Floydada get more or less in the way of services for their money is another question, not gone into. Locally, the amount spent in the year for general operating expenses, such as highways, sanitation, police protection and the

like, was at the rate of \$19 per capita, the report shows. In the other cities of the United States, such spending amounted to \$34 per capita. It averaged \$32 in the West South Central States.

The figures are exclusive of expenditures and employee retirement outlays, which are common to all cities. General expenditures in the nation's cities showed a 54 per cent rise since 1952, when the last previous survey of the type was made.

Offsetting this increase, but only partially, was the gain in revenue in the period. Overall collections, comprising tax receipts, intergovernmental payments and other income, rose 46 percent.

In Floydada, general revenue for the year amounted to \$21 per capita, compared with \$61 per capita in the United States and \$32 in the West South Central States.

A great variety of new tax levies have come into being, as a result. In Floydada, general revenue for the year amounted to \$21 per capita, compared with \$61 per capita in the United States and \$32 in the West South Central States.

Floydada Live Stock Sales Co. opened their first auction Thursday afternoon last and will repeat this afternoon. This picture was made in the first few minutes of last week's auction, when the camera snapped a pony going through the ring. At left is Tom Word, and second Virgil Brasher, owners of the new sales barn. At the auctioneers loud speaker is Jack Howell, Dimmitt, crying the sale, Lawrence Stovall, clerk, Harold Rouser, weigher, Odie Reese, not shown, was gateman, Joe Tiffin of Turkey, is astride the horse. Three hours later Reese turned his job over to a substitute gatekeeper when he was put out of commission by a cow's terrific kick which broke his leg. (Staff photo by Kenneth Rimmer).

### Hunting Trip Mishap Maims Loyce Turner

Loyce Turner, a resident of Colorado Springs, Colo., son of Mr. and Mrs. Wheeler Turner of Lubbock, all former residents of Floyd County, was seriously injured last week near Grand Junction, Colo., in a hunting accident.

Mrs. Robert Gary of Harmony community said Monday that her son-in-law was to undergo surgery to repair a shattered ankle that morning.

Loyce and several companions were in their cabin late Tuesday, cleaning their deer rifles. An accidental discharge struck Loyce in the left part of one ankle and came out the right side. Being in a remote area it was two hours before medical aid reached the injured man and two blood transfusions were required.

Due to heavy snow fall and bad weather it was two days before Loyce could be flown to Colorado Springs and to a specialist. Doctors there relayed treatment by phone to the attending physician where Loyce was first taken.

Mrs. Gary was told by her daughter, Estelle, that her husband would have to have bone and skin grafting but doctors felt they could save the foot, with only a stiff ankle to contend with. Bearing complication the injured man should be able to be about within two months, Mrs. Gary said.

Loyce is hospitalized at Penrose Hospital, 2215 North Cascade, Room 706, Colorado Springs, Colo.

Mr. and Mrs. Wheeler Turner planned to leave Lubbock for their son's home Tuesday.

### District 3AA Championship Is At Stake

The Floydada Whirlwinds will entertain the Spur Bulldogs of Wester Field Friday night, November 5, in a game that will name the champion of district 3AA.

It is the last regular game of the year for Spur where the squad winds up early and enjoys an open date next week-end.

The Whirlwinds will honor their fans Friday night as they observe Father's Night at the Spur game. Dads of the players will be seated prominently up front wearing their sons' numbers and will be introduced to the crowd.

A Spur victory would clinch the title for the Bulldogs. A win by Floydada over Spur will put Floydada in the driver's seat in district play but the Whirlwinds still have to play Tahoka and must beat them next week also. Next Post takes Tahoka this Friday. In that event Floydada would have the bi-district berth without waiting for another victory.

The big blue chip battle will get underway at 8:00 p. m. and should produce the best game of the year for both teams. The two school bands are to be on hand also and furnish plenty of side entertainment for the fans.

Couch Royal James' Bulldogs will probably be named underdogs in the contest if tradition holds true, but the Dickens County boys have not minded the underdog role as they have played in it several of the past seasons and walked off with victory in the last four outings.

This season Spur has won six games and lost three. They hold victories over Haskell, Anson, Crosbyton, Tahoka, Slaton and Post, while they have lost to Hamlin, Abernathy, and Quanah. None of the losses were district games.

Floydada on the other hand has breezed through eight straight games, having never really been tested and only having been scored on once.

### Good Auction Sale Held on Opening Day

Floydada Live Stock Sales Co. is off to an auspicious start. Tom Word and Virgil Brasher, co-owners, were much pleased with the attendance at the first session they held Thursday afternoon. They were pleased with the attendance, which kept the arena seats filled from the opening sale shortly before 2 o'clock until a late afternoon hour.

The management served fresh coffee and doughnuts throughout the afternoon.

Also pleased with the wide range of buyers present from four more counties.

About 175 head of cattle, two or three horses and a small pen of ewes went through the ring. Today's auction begins at 1:30 o'clock. Meanwhile little changes which they found to be practical have been made in the live stock handling arrangement in and out of the arena.

Only thing that really went wrong the whole afternoon was an accident which put Odie Reese of Plainview, weighing gate man, in the hospital with a broken leg. Reese was kicked by a cow and went down quickly shortly before 6 o'clock. After he was moved out by ambulance the auction was resumed. Reese was reported "doing all right" in a Plainview hospital Saturday.

An added attraction for the night will be the official opening of the Christmas season in Floydada. At a signal, all community Christmas Decorations will be lighted. Every Floydada business firm will also be asked to decorate their show windows and have them ready for display the same day.

Amarillo Oil Company and one of the other major natural gas producers in the Gray County area have entered into a joint venture to construct a new gas line extraction and products plant on the site of Pioneer Natural Gas Company's recently completed Gray County compressor station 12 miles south of Pampa.

## Pre-Christmas Events Begin December First

December 1 is an important date for Floydada and Floyd County boys and girls. That's the day Santa Claus will be coming to Floydada for the first time this year.

Bill Hale and his Floydada Chamber of Commerce Retail Trades Committee are planning a big event to welcome him to Floydada.

The committee met yesterday afternoon for reports and to make further plans for the coming Christmas season.

Dean Davis and Louis Anderson have charge of the night event when Santa arrives. Plans call for Santa to come to town after dark on Tuesday, December 1.

He will be escorted into town by the Floydada high school band and then meet all the boys and girls who would like to see and talk to him. Santa will also have a candy gift for every youngster present.

"We have never tried a night event during the Christmas season," Chairman Hale said. "But the committee feels that this will be something different which should please the whole community."

Announcement of the event, included in all statements mailed out Nov. 1, extends an invitation to their customers to be present. Vice President Gene Collins Jr. said this week that Frank & Winfree contractors, are working under pressure to turn the building over to the bank in ample time.

### Judge Names Watson To Auditor's Position

Coinciding with the announcement that Conner had resigned, District Judge L. D. Ratliff announced the appointment of G. M. Watson Jr. to fill the post.

He will take over Monday after Conner closes out his tenure of service Saturday night.

Mr. Conner said he will move his family next week-end. They have found a home at Muleshoe.

A native son of the county, Watson includes a degree from Texas Tech in Business Administration and four years in the armed forces.

### HALLOWEEN WEEK-END Goblins Behave But Officers 'Work' Five Highway Crashes

"Thanks" are going out this week from the officials of Floyd County to the youngsters who kept their Halloween pranks within the limits of good fun.

At the precise time, City Police, Perry Smith was busy with one car accident on the curve north of Floydada, and the Sheriff and his deputy were investigating a one-car accident near Lakeview, which seriously injured a Latin-American.

Speed and fog were blamed for the two local wrecks. A 1953 Oldsmobile, registered to William Fotech of California, missed the curve on Highway 70 north coming into Floydada and plowed into a planting attachment on a lister planter at King Tractor Extension. The attachment to the planter was heavily damaged.

None of the occupants, including two navymen, required hospitalization.

Aristo Lopez Molina, 21, driver of a 1953 Chevrolet, missed a turn near the Lakeview Gin, about 2:30 a. m., Sunday causing his vehicle to turn over several times, injuring himself, and slightly injuring Alfredo Hernandez, one of three other occupants of the car.

Molina is suffering from a brain concussion and was reported still unconscious Monday in Peoples of Lubbock, and six grandchild Hospital. The Hernandez youth was released at noon Monday after receiving treatment for lacerations and bruises.

### ATTENDS TEXAS BAPTIST GENERAL CONVENTION

Rev. Ed B. Bowles flew from Lubbock Monday night for Corpus Christi where he will attend the Texas Baptist General Convention. Rev. Bowles has been selected as a member of the executive board of the convention. He is due home today.

The chain of accidents started off again Sunday with the first one reported at 9:30 a. m. three miles west of town. Ben Eudy escaped injuries when his car was hit from the rear by a pick-up being driven by a Mexican laborer. Damage was heavy to the pick-up.

The last accident reported for the Halloween week-end in the county was at 7:30 Sunday night at Lockney. Five Mexican youths

Little known facts about Texas boundaries.

(Editor's Note: This is the fourth in a series of articles outlining the numerous boundary conflicts dating back to 1716, pointing up little known facts which shaped the Texas of today.)

The Republic of Texas wanted annexation in 1837 but was rejected by Congress.

Sam Houston withdrew the offer and dreamed of a new republic stretching westward from Texas to the Pacific including the northern tier of Mexican states, plus present day New Mexico, Arizona, and California.

Attorney General Will Wilson, a great admirer of Houston, incited the jealousy of the United States.

"Sam Houston stoked the fire under the pot of jealousy by ignoring the United States and dictating with France and England, both known to want Texas independent."

"Houston's vision of a large competitive nation between the U. S. and Mexico caused Washington to run a fever."

Annexation followed, resulting in the 1848 War with Mexico in

which the Western one third of the present United States was acquired. During this war, Gen. Stephen W. Kearny led U. S. troops overland from Dodge City, Kansas, to capture Santa Fe and remain in possession.

Senator Benton in Congress immediately put the Santa Fe territory into a boiling caldron of debate over slavery by demanding that possession of Santa Fe not be delivered to Texas because Texas was a slave state.

A full dress rehearsal of the coming tragedy of civil war began.

Texas sent Spruce M. Baird as county judge to take possession of Santa Fe, but Colonel John M. Washington kicked him out. Texas also sent Robert S. Neighbors as county judge of El Paso. Since there were no federal troops in El Paso Judge Neighbors successfully established a beachhead and took possession for Texas.

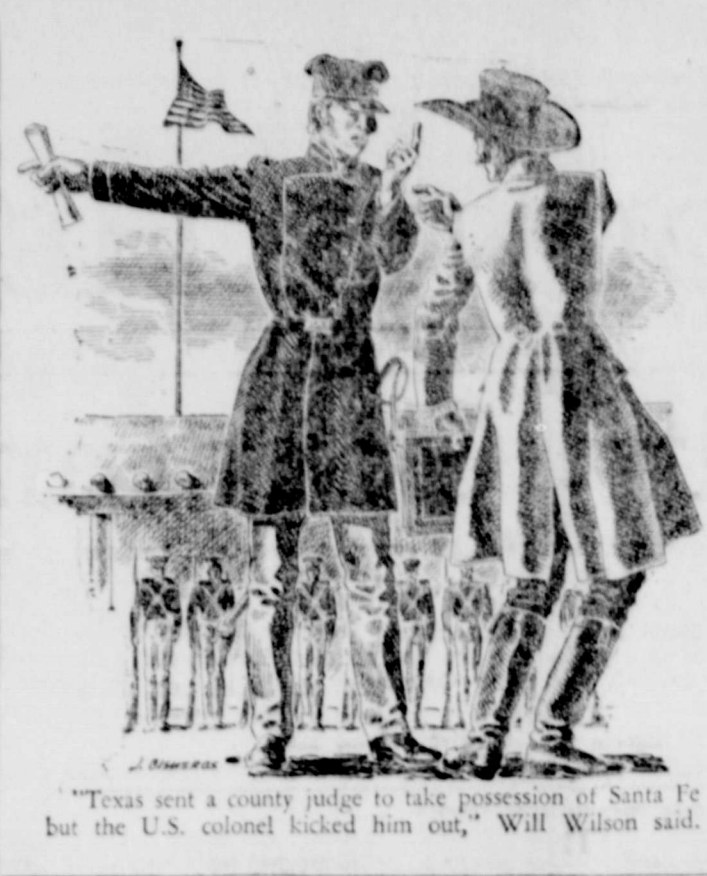

Governor Bell of Texas called a special session of the legislature to organize 3,000 mounted volunteers to capture Santa Fe from the federal troops. The legislature gave Bell an out by providing that the troops be used only if the United States refused to buy the disputed territory.

This brought on another bitter division and debate in our national congress, compromised by fixing the present boundary between Texas and New Mexico and paying Texas ten million dollars for surrendered territory. Texas kept El Paso because she had possession, but Texas lost most of what is now New Mexico.

Historian Will Wilson says Texas got short changed again.

Texas had money in the treasury but her northern and western boundary had been pushed down more than 100,000 square miles.

"The United States bought that real estate for 15 cents an acre!"

"Texas sent a county judge to take possession of Santa Fe but the U.S. colonel kicked him out," Will Wilson said.

## Big Time Had At PTA Party On Hallowe'en

Ghosts and Goblins were out 24 hours early for Hallowe'en Friday night as youngsters in the city once more enjoyed festivities at the annual Hallowe'en Carnival at Andrews Ward. Families arrived early to eat supper in the school cafeteria, then to participate in the fun booths in student's rooms and down the hallway on the ground floor.

There were cake walks, costume contests, fortune telling, clowns, grab bags, and other attractions to keep patrons busy throughout the evening.

The affair, sponsored by the Parent-Teachers Association, took in \$671.41, net proceeds of which will be used for worthy causes by the PTA. This amount was an increase in take from past carnivals.

Room 5-A, sponsors of the goose game, had a room filled with laughter and merriment as children tried to out-do their parents in ringing necks of the geese with hoops.

There were tricksters of various description roaming the building keeping the Hallowe'en spirit going. Glassy eyes glared from dark corners, a cob-web brushed by in the breeze, or a ghostly skeleton jiggled by. Two humorous clowns, played by Bill Hale and Gene Arwine, added to the hilarity as did the mysterious fortune teller, who knew all.

The cake walk proved to be quite a success at the carnival. It was held in the auditorium and was staged for the first time as a new attraction.

The costume contest also proved to be a big hit with prizes going to Candy Sanford, pre-school winner, dressed as Tweety Bird; Glen Bertrand, first, dressed as a fat boy; Charles Loyce, second, dressed as a hobo, and Johnny Farris, third, attired as a tramp. Each received a stuffed Thomas, George West, Joha toy. Forty-five contestants participated in the contest.

# New Gin Now In Operation

The new Joe M. Brown Gin just southwest of town on Ralls Highway has been completed and during past weeks has been in the process of working out the minor difficulties that go with a new gin installation. Now the management has put the stamp of approval on the plant and is ready for business. In this week's Hesperian the gin is inviting area farmers to give them a try.

Joe M. Brown, owner of the plant, is an independent ginners and operates one other plant at Bovina. Experienced in the ginning business the operators have been in this line of work since 1900.

The new gin at Floydada was started back in the summer with a complete new building and adjoining labor camp. The machinery installed included four 90-saw Hardwick-Etter gin stands, Continental dryers, overhead cleaners, Mitchell Super Champ feeders, and two Moss lint cleaners in tandem. The gin is all electric.

Morgan McReynolds is gin manager and has moved to Floydada with his family to make his home.

**New Sub-Station Serves Gin**  
Southwestern Public Service Company built a new sub-station to serve the new electric gin. The gin now requires 430 horse power and is expecting to increase in the near future. Construction of the sub station required most of the time of a four man crew for some three weeks.

Beside the gin plant the sub-station can also accommodate the gin's labor camp and also will eventually give two way feed electric service to the electric company patrons along the highway between Floydada and the Blanco canyon.

Do you ever search frantically through the attic of memory for the name of a book? You read it once - it's gotta be there. Yet seek and sort as you will the name of book or author won't separate itself from a jumble of shadows.

We once loaned a favorite book to a young woman who was new in town. When she returned it, she enclosed a little thank-you note that was really a summing-up of the book's impression on her. And by formulating the thoughts it inspired, to share with its owner, she had also deposited a neatly labelled package on her own mental bookshelf.

The other day, thanks to finding the woman at home from whom we once borrowed a book, whose title was eluding us, we could polish off an idea while it still challenged. But we aren't always that lucky.

One of the joys of reading is to find a comparison between what happens today and what an author once said so well. A treasure hunt may be prompted by experience, conversation, or more reading, as we try to recapture some fleeting thought that darts to-and-fro across memory's window.

### Poteet Family Near Tragedy In Collision

What started out to be a leisurely trip of fishing and visiting with relatives for the Calvin Poteet family ended in near tragedy last week when they were involved in a two car collision along with their daughter, and her family, also of Floydada.

Mr. and Mrs. Powell and their two children, and another daughter of the Poteets, Mrs. Barbara Nell Wages and small son, left this part of the county for a trip down state. Mrs. Wages, her baby, and a daughter of the Powells, stopped off in Henrietta to visit, while the Poteets and Powells with their four year old son, Earl, continued on for Anna, Tex., to visit other relatives.

Near Gainesville, on Wednesday night, and just 35 miles this side of their destination, Powell, who was driving the 1957 Mercury of Mr. Poteet, stopped at a stop sign at a busy four lane junction, just opposite an overpass. As he started across, a car from the other direction hit the left side of the car just back of the mid-section throwing both Mr. and Mrs. Poteet out on to the highway.

Miraculously no cars on the busy highway hit them, although Mrs. Poteet was thrown under her own car, and Mr. Poteet out onto the highway.

Mr. and Mrs. Powell and their son escaped with minor bruises and lacerations.

### Homemaking Hints

Values In Vegetables. You get the most from vegetables when you treat them right as you store, cook and serve them in daily meals.

First of all, freshness counts. Tired or limp and wilted vegetables have lost nutrients as well as flavor and appearance. Keep vegetables as fresh as possible by putting them in the refrigerator when you get home from the store or garden. If they are stored in plastic bags they will stay crisp longer.

Frozen vegetables can lose nutrients and quality too, when the temperature gets too warm. Remember that you can wash, soak and cook water soluble nutrients away. Never soak pared vegetables before cooking. To cook, use the smallest amount of water possible-only enough to prevent vegetables from sticking as they steam.

Avoid violent boiling of vegetables. After the food comes to a steam, reduce the heat to the lowest temperature required to maintain the steaming. This helps keep vegetables whole and saves food value.

Don't stir vegetables as they cook. This puts extra air in the vegetables and air destroys some vitamins.

To preserve color, cook green vegetables in covered utensils and cook only until tender.

For other tips on how to get the most from your vegetables get a copy of B-923, "Vegetables: Selection, Care, Cooking," from my office.

LANDSCAPING - There are 3 purposes in landscaping your home. These are to improve its comfort, convenience, and attractiveness.

Visitors will be greeted at the door by VA employees who will guide them through the various divisions of the VA and will briefly picture the job handled by each. Visitors will be urged to spend additional time in any division of special interest to them.

The regional office was established in 1946 and serves an 81-county area of West Texas which stretches from the Panhandle border on the north to the Big Bend border on the south. ## Cub Scout Party Held Thursday Is Halloween Event

Den 5 of Cub Scout Troop No. 7 closed their two months period under the leadership of Mrs. Paul Fullerton and Mrs. Kinder Farris, Thursday afternoon with a Halloween party in the home of Tommy Farris.

The group made Jack-O-Lanterns from real pumpkins and played pig on the bell on the cat. Steven Craig won first place and Craig Fullerton, a visitor, won second.

Refreshments of orange drinks and cookies in Halloween cups were served.

In September Den 5 studied pets and hobbies and enjoyed a field trip to the Aubrey Stewart farm where they saw pigions, a horse, turkeys, bantam chickens, rabbits, a bird, a cat and dogs. Members got a great delight from making Mr. Stewart's goats.

The den's skit took first place at the pack meeting in September, and their display of hobbies took second.

During fire prevention week in October members had a tour of the Floydada Fire Department. Fire Marshal Bill Baker explained the operation of the fire truck and water hose, and other functions of the department.

The study for the den last month was on Acop's fables. At the pack meeting Monday night of last week their display of Peep boxes featuring fables won first, and their display of wooden tie racks, made and varnished by members of the den, won second.

Mrs. Ed Bowles will be in charge of Den 5 for the next two months and will name another den mother to assist her.

Members of the den are Tommy Farris, Brent Fullerton, Kenneth Cockrell, Steven Craig, Joe Mack Jarragin, Douglas Cannon, Eunnie Bowles, Tod Wester, Billy Finley and David Lyle.

per and sausage and hot cakes for breakfast. The women folk will make headcheese and mincemeat and there'll be other delicacies of pork and corn meal and perhaps pickled pigs feet for the Sunday evening cold table.

There will be a skiff of snow on a morning, and the men will take their guns from the racks and dogs will race out across the fields in front, the first to reach the thicket where the quail and the rabbits hide.

There's a red ring around a Thursday on the calendar in the kitchen, THANKSGIVING, the farmer's own date for the end of autumn and the beginning of winter. After that comes the heavy snows. Work is light. There are the chores for the men and the cooking and the churning and the mending for the women.

Poets call the autumn the melancholy season, but to the farmer it is a fulfillment of the promise of the year, a reward for labor done.

The poet may sing of the perfect days in June, but to the farmer the perfect day comes in Indian Summer. His granaries are full, his animals fat and snug, and shelves of canned good things stand around the walls of his cellar. The promise of the year has been fulfilled, and nature takes a last bow in a perfect setting of sunshine and painted colors.

## Delegation To Attend State FB Meeting

L. B. Brandes, president of the Floyd County Farm Bureau, joined by his wife, and Mr. and Mrs. Jack McIntosh, Robert Lee Smith and possibly others from the county, will be in Dallas next Monday where they will attend the 26th Annual Convention of the Texas Farm Bureau in conjunction with the state finals of the 1959 Texas Farm Bureau Queen contest.

Miss Carolyn Rhodes of Slaton, winner of district title, will represent 17 counties of this area at the contest. Floyd County's Miss Shirley Gregory was runner-up in the district contest.

Winner at the state finals will receive a \$500 expense paid trip to the National Farm Bureau Federation Convention in December at Chicago, and will compete for national honors with girls from the other states in the union.

The local membership drive of the Floyd County Farm Bureau went over its year's quota of 625, according to the membership chairman Sterling Cummings. The Bureau has failed to meet their quota for the past two years. Credit goes to the directors of the board and Cummings for the better showing this year. The Bureau has 13 more members now than the assigned quota.

Enjoyed a meeting on Monday with the F. H. A. Club of McAdoo High School. Mrs. Grace Robertson of the Floydada Garden Club gave a most interesting demonstration on "Making Dry Arrangements."

Here is a poem I received recently from a friend in Missouri. We were school mates when we first started to school at Elkton, Missouri. Which, for some reason, seems a long time ago.

**RIGHTEOUS INDIGNATION**  
The Man in the Moon,  
Was a peaceful old Guy,  
New he is mad,  
And I'll tell you why —  
He was busily polishing,  
The Moon's shiny side,  
When a hammer and sickle,  
By chance he espied,  
He said, "Ungrateful Earthlings,  
I've spent all these years;  
Keeping their secrets,  
I've wept with their tears,  
Illumined their landscape,  
With Silvery beams;  
I've enhanced the beauty,  
Of young lovers dreams,  
I've given my utmost,  
With patience and grace;  
Since ever the day,  
God swung me in space,  
They've charted their ships,  
By my orbit at night;  
I've lended my light,  
So this be the thanks,  
That Earthlings afford;  
I promise one thing,  
By the truth of my word —  
The first who arrives,  
To gain a foul nickel,  
I'll BONG with the hammer,  
and MOW DOWN with the sickle."

The present enrollment of 7,322 was contrasted with that of 1909 when the enrollment was about 600. Only three members of the 1909 faculty are surviving. Of these Miss M. Manora Boylan and Miss Anne Moore were present for the occasion but Miss Edith Lanier was unable to attend.

Entertainment included talent shows, luncheons, reunions, coffee, and plays.

Forty thousand people were in attendance at the football game between the Eagles and the Wheat Shockers of Wichita, Kansas.

## EDITORIAL VIEWS AND COMMENT

The public does not find out what a strike is really all about. From the reams and reams you've read do you know what the unions demand of the steel mills or do you know the actual reason ascribed by the mill operators for wanting a change in the working rules? The union leaders talk hard and mean about the mill people. Since the public is the ultimate loser why couldn't one expect to find the opposing claims itemized, like on a blackboard? Some thing is lacking when the Public is Bedammed in this manner.

We have suspected, from appearances, in the past few years the mills and the unions have played footsie in the belief that the public would take it, a belief in which they were eminently correct as time has proven. The unions want to keep it up, the mills are beginning to be scared of their horses. Foreign mills are making it too hot for them, taking to much of their volume and the domestic customers are becoming hostile.

Belligerent city folks are getting more hostile toward the farmers as the days roll by. The fact that farm prices have been on a steady decline for sometime appears to have no meaning to the cliff dwellers. Probably they do not even realize what is taking place. The higher costs of the food they eat and the apparel they wear is caused by something other than the price paid the man who digs these things out of the soil.

The Price Of Hens. People whose wages have doubled and tripled in the decade are paying a price for hens, one of the products of the farm, that is approximately what their parents paid during the Depression, believe it or not. A man with a fat hen to sell will be offered 8 to 10 cents a pound for her. If hens sold as high as Labor sells the farmer would get \$3 for a hen instead of 50 cents.

Plea Of Privilege. After second thought and some reflection we are unwilling to believe that the Russian camera took a picture of the moon at 4,325 miles that would reproduce as well as we saw in the papers. We do not wish to make the Russians mad. If they are going to take over we need to butter them up instead. But they are asking us to stretch our imagination too much.

Sam Rayburn does not play politics for fun. When he makes a political move it is for keeps. Take his Johnson for President move seriously. He is one wary, capable and sincere politico who knows his way around. Regardless of the battle in Texas between the Liberals and Conservatives for control of the state organization Johnson is a shoo-in to be presented, not as a favorite son offering, but as a straight-out candidate for the party's standard bearer. The Democrats could go further and do worse.

Habit Is Catching A good many Floydada people are betting new money on Floydada. paving programs, new enterprises, old buildings being modernized. This kind of thing catches fire. The first thing you know everybody is doing it.

Auto Insurance Law. So many people —practically every family in the state —will be involved when the new automobile insurance law goes into effect January 1, there are bound to be many questions and uncertainties at first. The cost of insurance is going to be high even for those who fare best and will be unattainable by many who are in the category of high accident rate. Many a trick will be attempted and many a pressure brought to keep names off the records and out of newspapers.

Kick In The Pants. The little dogs can bark at the big ones with impunity one gathers from news reports of Fidel Castro's impassioned talks to his fellow countrymen about "attacks" from United States air fields by defecting Cubans. Fortunately the worst that has happened has been leaflets rained from the sky over Havana. Uncle Sam found 100 men to deploy at Florida air fields to put a stop to the offending operation. Where Washington had the 100 spare men and what he had had them doing before he sent them to Florida would be the most interesting angle to us in connection with the flare up.

We suspect that the government in a pinch could "find" a good many more men to do various and sundry things. For instance, in the Pentagon and in the colonel's laundry where the services have two or three divisions of men serving as chauffeurs, lawn mowers and house servants. This is being charged in responsible places and will be investigated by a committee of the congress.

The Geese Fly High. In the fall plains hunters of ye olden days have nostalgic memories of the days when geese swarmed the lakes and foraged in the green wheat fields. Every family which had a hunter in its household could count on at least one big fat goose to grace the table sometime during the season. Nowadays it is different. Geese fly so high they can't be identified for certain (whether the flight consists of geese or cranes, their calls are so similar). Bill Hambright, best goose authority in the county as we verily believe, said four flights last Thursday were high in the air and headed right on south, apparently not interested in the green wheat fields below.

Supply And Demand. To learn how quickly supply and demand begins to work take a look see at what the steel mill shut down has done to the price of new cars. Dealers could tell you that a new car is worth a good deal more than it was the day the new models were announced. There is no prospect for any considerable number of new cars compared to the demand of the nation. The percentage of people who are going to be driving the newest model car is high. They are going to want a new model and will have it if it can be had. Since there will not be enough to go around for a good many weeks the buyers are in a scramble not a shopping tour.

Civilization is a movement and not a condition, a voyage, and not a harbor. —Arnold Toynbee.

### Floyd County 14 Years Ago

(From The Hesperian Nov. 5, 1942) A telegram from their son, Cpl. Vernon B. McNeely, sent from Philadelphia, Pa., while he was enroute from New York City to San Antonio, tells his parents, Mr. and Mrs. W. O. McNeely, that he will be out soon on the point system. Cpl. McNeely has spent the past three years overseas, much of the time in Africa with Jack Turner of Slaton, who was a buddy of J. W. Harrison on board the jap freighter in the Number Sixteen (16) in Block China Sea when the ship was blown out of the water June 24, 1942, by an American submarine. Floyd has expressed belief that J. W. Harrison, parents of the boy, at the reunion of the Lost Battalion held in Wichita Falls last week. The Harrisons were one couple of scores who attended the reunion in hopes of getting information about their sons. Turner fell about half way out of the ship after the bombing but was not injured badly. He was sleeping next to J. W. and thinks the latter must have fallen in the hold of the ship and gone down with it. It sank within three minutes, he told Mr. and Mrs. Harrison. Earl Crow, who joined up with the Marines, in June of 1942, and was separated from the service

as a sergeant in late September. He returned to his work at the First National Bank as assistant cashier. L. Glenn W. Norman is stilled down for a stretch of service at Kure base formerly formidable Japanese naval installation, according to news sent his parents, Mr. and Mrs. E. L. Norman.

Pvt. Marion Parrish, son of Mr. and Mrs. Creed Parrish, is now serving with the 1320th Construction engineers on Okinawa. He left the states in September. For 25 years a Curleys Cafe until Tuesday of this week when the fixtures were purchased by Hoyt Led. a recently returned veteran from the European front, who will operate the cafe since the failing health of his father, said he had no definite plans as to what he will do to make a living.

Mr. and Mrs. A. W. Chowning, son of Mr. and Mrs. A. W. Chowning, has been honorably discharged from the Air Force after 30 months of active duty. He was a flight engineer.

David Battey Jr., has been on leave for 18 days visiting his parents, Mr. and Mrs. D. S. Battey and friends here. He returned to San Diego, Calif., in time to report to his ship Nov. 5.

Hayes O'Neal is among the ex-service men now having received a discharge at Terminal Island, Calif., after three years of service. He returned home Wednesday night, accompanied by Mrs. O'Neal's brother, Royce Maddox of Ventura, Calif.

Bob Copeland of Floydada, sophomore at West Texas State, is one of four men elected as cheer-leaders. It is the first time in several years that men have tried for the honors.

Mrs. Pearl Baker of the city, has learned that her son, Elvin E. Baker has received a discharge from the army at Sioux Falls, So. Dak. He entered the service in 1942 and has served 19 months with the 8th Air Force

These words of caution are seconded by spokesmen for the American National Cattlemen's Association such as Jay Taylor of Amarillo, former president, and John Marble, head of the fact-finding committee.

"Sure we're going to get a break," says Marble, "and it will come when we quit holding back beefers to build up our breeding herds, either in late 1960 or 1961. But the break doesn't have to be a bust."

## Bulldog Jinx Stands Between Whirlwinds and District Title

BY KENNETH RIMMER

The jinx of the Spur Bulldogs over the Whirlwinds in recent years has left the locals staggering and has made for dry years in the district championship department for the green and white. This Spur supremacy has developed in the last 11 years, however, and in the early days the shoe was on the other foot.

Taking a look at the unofficial records taken from the files of the Floyd County Hesperian we find some interesting figures. Though they may not be entirely complete the ones available are believed to be accurate and give a fair picture.

First recorded score in Hesperian files which was found was in 1921 when Floydada won 30-0, this was the largest score ever run up in the Spur-Floydada series.

Some of the members of the team were Marshall, Colville, Moore, Burke, Day, Duncan, McDonald, Maxey, Britton, Scott, King, Luttrall, Duncan, Nelson, and Shipley. The Shipley named was John Shipley, father of Dan Shipley, a member of the 1959 Whirlwinds.

Following this game the teams missed meeting for two years and then returned in 1924. From then through 1928 Floydada won by scores of 25-0, 14-13, 18-13, 0-20, 20-12.

Then in 1929 Spur steam rolled everything in sight and defeated Floydada 40-0 for their biggest score of the long series. In 1930 the Bulldogs were found to be violating regulations, however, and were out of competition for four years following this game.

Starting again in 1934 Floydada had the upper hand winning 27-13, 20-6, 26-0; then losing series in 1937 and '38 by scores of 22-0 and 0-12.

In '39 the 'Winds hit the vic-

tory trail again and won by 27-6 and followed this by wins of 19-0, 33-0, before tying Spur 6-6 in 1942. On this, the only tie in the two schools' history, Spur won on first downs to represent what was then district 4A and was later defeated by Wellington for bi-district.

In 1943 (a war year) district 4A was made up of Lockney, Spur, Matador and Floydada and played a double round robin in football. On that year Floydada and Spur met three times with Floydada winning the first 15-0, dropping the second 12-14 and using the play-off for district championship 0-12.

The Whirlwinds again lost to Spur 6-24 in 1944 before hitting victory in 1945 to win 31-20. This win was followed by two more on following years 26-0 and 19-6.

In these first 26 years of action Floydada had won 15 games, lost six and tied one.

Starting with 1948 and up until the present time the picture has changed almost entirely. Since that date Spur has won eight and Shipley, the Shipley named the last four in a row. Floydada's last victory over a Spur team was in 1954 when the locals won 27-6.

The overall Floydada - Spur series for nearly forty years of football looks like this - Floydada has won 18 games, Spur has won 14 games and there has been one

## Bulldogs Hold District Lead

Floydada has scored 555 points in these games and Spur has scored 444 with these unusual point totals adding more color to the series.

In the 1959 game this year Spur meets Floydada on Western field in Floydada and again as in so many years of the past the district championship will be riding in the balance, all of which goes to prove the old adage that no team is district champion until Spur and Floydada have played.

The Spur Bulldogs took over the district lead while Floydada was idle last week. Their 34-6 victory over Post gave them three wins and no losses while Floydada has but two wins and no losses.

Tahoka is the only other team with an outside shot at the title. By winning their remaining games they could wind up in a tie with either Spur or Floydada whichever wins Friday's game.

Slaton and Post have lost all their chances at the title this season.

### THE TWO FOOTBALL TEAMS

Once upon a time there were two football teams. Both were very good and competed for the district title.

The big game was played, and Myer the Crier, of the losing team, took it pretty hard. He complained, griped and cried for weeks after the game. "The referees were crooked," he complained. "One big quarterback used brass knuckles. They played dirty football."

Windy Willy was a typical player on the winning team. He just couldn't stop exaggerating and making himself and his team seem "extra big." His account of the game was so far-fetched that it wasn't even recognizable. He had the big head—a typical childish response to an accomplishment.

Luckily these teams also had players that had the right idea about winning or losing. These players knew that no matter what happened, or who won, they would have done their best. There was no use "crying over spilled milk." The players on the losing team didn't complain, and the boys on the winning team didn't get the "big head."

So, take a lesson from these other boys on the team. Don't be like Windy Willy or Myer the Crier. It is not only important how you play the game but how you "replay the game" afterwards.

### High Spirit Reigns; Pep Rally Tonight

Mr. Floydada High School Spurlin's pep rally is expected to attend this game at Western Field. Students are encouraged to support the Whirlwind team.

Slated tonight at 7:30 is a pep rally and a large bonfire that will be east of the school. All students are encouraged to participate and bring boxes to make this bonfire the biggest and best ever.

Other activities have been especially designed this week to bolster school spirit.

After a week of making posters using the theme of beating the Bulldogs, third period classes are eagerly awaiting the announcement of the winning poster. The best posters will be used in the pep rally tomorrow afternoon and next week.

The third period Home Economics II class won the poster contest last year.

The Spurlin-Floydada game is to be the outstanding 2-AA game of the season.

### Band To WTSC Home-Coming

Participating in the 50th annual homecoming at West Texas State College will be the FHS band. The band will leave bright and early Saturday morning, Nov. 7, to take part in the big parade.

This parade, commemorating the big day, will begin at 10:30 and travel down the main street in Canyon. A number of bands will be taking part.

Free barbecue will await the band members will be guests at the WTSC-Virginia Tech game, beginning at 2 p. m. The band will watch the performance of the WTSC Band during half-time.

Buildings will be open to guests and eyes wishing to take a sight-seeing tour.

The band will return home sometime that afternoon.

Don Garrett, I'm keeping a record of all the good times we've had together.

Sonja Guffee: Oh, a diary?

Den: Nope. Stubs in a check-book.

You might call a wedding ring a one-man band.

### Walker Elected Thespian Prexy

Newly elected Thespians officers for the current year are: Dennis Walker, President; Ben Scott, Vice-president; Addie Adams, Reporter; Lois Ann Glover, Treasurer; and Helen Foster, Secretary.

Eighteen are eligible for membership. Betty Washburn, Lynn Jackson, and Mimi Nelson are freshman pledges.

"One has to have an active interest in dramatics to qualify to be a Thespian," says Mrs. I. T. Graves, director.

The group is working very hard on "Junior Miss" which will be presented in December. No further plans have been made until the completion of the play.

### Questions of Curious About The Band At FHS Answered

(BY NANCY WATSON)

You are now entering the world of music. Sit back and relax. Just ahead of you is the band, which holds the 72-piece FHS Band. On your right is the band office which serves as a small work shop for the director, Mr. Whitaker.

Just on your left is the instrument room, holding types of instruments used in the band. A little farther down is the supply room in which you may find such things as music, uniforms, and other equipment.

What are those six small rooms for? you ask. Well, let me explain. These are practice rooms used by the members. You'll note that they are sound-proof.

The next thing you are probably wondering about is where does the band march. Most of the time, they practice for half-time shows just in the gymnasium. On Friday, Nov. 6, the band will march on the practice field just to the south of the high school. On Friday, the band marches on Western Field.

Extra rehearsals before and after school are rarely called unless there is a contest or a special game is approaching.

Another question which is usually asked, is how does the band know what to do? A routine is planned every week by the band director. A formation sheet is usually prepared and given to each member.

The first day the band usually marches without horns and goes through the complete show. By Thursday or Friday "Goof Shirts" are given to those band members who still do not know their parts of the show.

A few changes have also been

## CROP Donors Quite Liberal

While many of the young folks of Floydada were gathering carny, gum, etc. on Halloween night, 30 of the local youth were on a door-to-door canvas, collecting donations totaling \$400 for the north-white organization, Christian Rural Overseas Program.

This relief program is designed to give aid for needy people in all corners of the world. Proceeds are used to ship the surplus food of the United States to hungry people everywhere. For every dollar CROP backers donate, the government sends \$20 worth of surplus food.

This campaign was sponsored and led by the MYF of the First Methodist Church with Rev. DeWitt Seago and Mr. and Mrs. Pete Hickerson acting as supervisors. All participants want to express their appreciation to the donors.

...annual salary. R. W. Byram, State Board of Education member, has suggested giving teachers examinations to determine which should receive raises on the basis of merit. A bachelor's degree, Byram noted, is not a mark of "exceptional learning" in these days.

Choice, in Byram's view, is either better pay for the more competent teachers or a uniform scale pegged at a lower level. Byram declared that teachers' salaries in the larger Texas cities, which pay more than the state-wide minimum already compare well with those of other professions. He said a beginning teacher in Houston gets \$444 a month, while a new geologist or petroleum engineer may start from \$375 to \$425 with the necessity of living "where the job is."

A University of Texas job placement official challenged Byram's figures. Joe L. Bruns contended the Houston school pay is tops, not typical, for the state and reminded that teacher pay is for only nine months a year. On a 12-month basis, said Bruns, most Texas teachers average \$267 a month. He said UT's engineering graduates last year started at an average of \$490 per month.

In Austin, he said, the average starting teacher has about \$200 a month take-home pay — not enough to lure an able young man — particularly a married man.
