Growth KNOWS No Season

The year around, you members of 4-H and of the Future Farmers of America continue to grow - in knowledge, achievement, and good citizenship.

Your kind of growth knows no season — and our admiration for you and your work knows no bounds. In whatever way we can help the forward progress of you fine young people of our community,

we stand ready to do so - all the year around.

For All your banking needs . . . check FIRST with the FIRST.

EDITORIAL VIEWS AND COMMENTARY Soil Meeting

ful outlook in agriculture for this year, local industry, commerce and civic developments moving along normally, we are out of patience with ourselves for the way the editorial mind turns, either whiney, gripey or fault-finding. The weather is so different, maybe that is it.

Not On The Same Road. It is as meaningless to compare the steel output or the engineering graduates of the United States of Soviet Russia and the United States of America, as it is to compare the number of automobiles or swimming pools in the two countries. For the time being, at least, the two countries are not traveling the same road. There is considerable difference between the structure and stages of development of the two economies, which are important to keep in mind. Common people of the country, keeping these facts in mind will not be so badly carried away either by the alarmists or the let-well-enough-alone group.

Right to Bear Arms. Some writer, reporting on the continuing effort of well-meaning people to abridge the right of citizen to bear arms, tags it "gun laws aimed wildly." Everybody seems to think that for everything good there ought to be a law for it and for everything bad a law against it. Somebody has a gun accident, immediately there ought to be a law against guns; a desperado breaks out and kills some people, everybody ought to be robbed of their right to bear arms. The king also thought the same way about it. So far as gun accidents are concerned the percentage of deaths due to this cause is in about the same ratio as people who choke to death on something they wallowed.

Problem Was Different, When George ington became the country's first ident, he was the head of a group es and citizens who had just h off the yoke of tyranay and they oving their freedom so much ers downright unruly. So says a reminder that things are differ-In those days the jubilant colwere ready to give one and all derstand they were happy enough end to their own affairs and would just the same, Washington species or world many years e unimored Americans to give of their powers and local rights to strengthen their infant na-

Payment Depository

From time to time I have had customers tell me hat they were by the telephone office to pay their oill and we were closed. Our offices are open from 8:00 to 5:00, 5 days a week, Monday through Friday. These customers then went on to say that they were by after 5:00 or on Saturdays.

For your convenience we have a night depository to be used by the customers to make their payments in when they find the office closed. Payments can be deposited in this depository and they will be applied to the account the next business day. There are always envelopes available for your convenience.

Do you have a list of all emergency numbers, such as the fire department, police, hospital, your doctor's business and residence numbers, ambulance, etc., handy by your telephone. If not, may I recommend you prepare one now in case you need it in a hurry.

What's A Telephone For?

It's amazing how some folks don't make all the use they can of their phones.

A friend and I were talking about this very thing recently. This fellow, by the way, is one of the busiest people I know. In addition to his job, he does a lot of 'do-it-yourself" projects, such as adding a family room to his home, takes part in social and church events with

his wife, hunts, bowls and still has time to spend with his two young sons. "How do you manage to accomplish so many things?" I asked.

"I have help," he told me. "How's that

"My two phones at home," he said. "Why, I just pick up one of them and the job's done."

Yes, my friend certainly believes in using his phones as much as he can-for business and pleasure. If you aren't getting the most out of your telephone, as he is, you might ask yourself, "Why not?" After all, that's what a telephone is for . . . to use.

Find It Fast In The Yellow Pages

"I wonder where to find . . . " I bet you've heard that statement many times by folks looking for a particular product or service. You've probably said it vourself.

There's really no need to wonder, though. Not when you can refer to the Yellow Pages. It's Floydada's most complete shopping guide.

Call by number. It's twice as fast. SOUTHWESTERN BELL TELEPHONE COMPANY

Esso Extra gasoli

Yes! Famous Esso Extra, No. 1 "premium" gasoline in Texas, has been improved.

Substantially improved. No other gasoline in its price range exceeds new Esso Extra's over-all quality. No other will give your car better performance.

Octane rating reaches a new high. Mileage is better-you get all the mileage your car can deliver. And a di ical additive, perfected at Hun Research Center, conditions your gine so that performance impr mile after mile.

Esso Extra, at intermediate is the perfect gasoline for hundred thousands of Texas automobiles it in yours.

"CORVAIR HANDLES BETTER, STEERS MORE EASILY, RESPONDS MUCH MORE QUICKLY AND HOLDS THE ROAD MORE SECURELY THAN ANY STOCK FOUR-DOOR SEDAN EVER MADE IN THE U.S."

-Jim Whipple, Car Life

If you think we're enthusiastic about Corvair, leaf through the leading automotive, sports and science magazines and see what the experts are saying. Then, by all means, drive one yourself.

parking speeds it feels power assisted; it is so precise as to be absolutely without play, and it is fast enough to allow complete control over every situation." -Karl Ludvigsen, Sports Cars Illustrated

"Steers like a feather and is extremely quick. . . . This is a beautifully designed automobile, engineered by real pros.

- Tom McCahill, Mechanix Illustrated "Most surprising thing to me outside of the excellent handling characteristics was

the feeling of roominess inside. . . . I didn't have the sensation of driving a small car and the headroom was greater

"Corvair's steering is so light that at in the Corvair than in some standard -L. H. Houck, Automotive News

"So far as shopping goes, the Corvair is a housewife's dream. It's small and easily maneuvered without any power steering, and so easily parked . . . it's a lot easier to unload a cart full of groceries into a front trunk at the supermarket than it is into a rear one.

-Rosemary Francis, Popular Science

"I want to state as firmly as I can that the Corvair handles as beautifully and is as safe as-if not safer than-any family car on the road today." -Jim Whipple, Car Life "There is none of the typical whine normally associated with rear-engined vehicles. Inside the car, the effect is quite unlike anything we have ever experienced. It almost seems that there is no engine, and the general effect is so quiet as to be almost uncanny

- John R. Bond, Road & Track

"No written word can suffice for the genuine pleasure that you will receive behind the wheel of America's newest and most advanced contribution to transportation. . . . It is a great car. -Don Stewart, Motor Life

Drive it—it's fun-tastic! See your local authorized Chevrolet dealer for fast delivery, favorable deals.

It would be difficult to count the blessings the electric cooperatives have brought, and impossible to list them in order. For how can you choose between running water, or electric lights, or refrigeration, not to mention literally hundreds of home appliances and work saving devices.

But there's no argument that rural Texas is a far better place to live because of the member-owned electric cooperatives that are paying their way with interest. The Electric Cooperatives of Texas borrowed money to build their own electric systems. And they are paying back principle and interest with honesty and industry, while providing PARTNERSHIP POWER FOR PROGRESS.
