Most Versatile Fashion Show Promised Saturday

The time has arrived again for the annual Floydada spring style show. With Easter just around the corner what would be more appropriate than to enjoy an afternoon of fashion viewing of what my lady will be wearing this season?

Jim Carey Narrowly Escapes Death In Blazing Gas Fire

A Floyd County man's life was miraculously saved shortly before midnight Wednesday of last week, and the lives of two others in the car were endangered as they heroically pulled the victim from his burning car.

Jim Carey, 26 year old son of C. P. Carey, was flown to Galveston by private plane Thursday to be treated for severe burns caused in the accident. He sustained blisters over his entire body and the amputation of both feet was found to be necessary.

The accident occurred on the Jerrald Vinson land near Harmony Wednesday night as Carey was enroute home on the Blanco road.

Witnesses who talked to the injured man said he told them he thought he must have dozed off as he was attempting to turn onto a short cut, the Simpson road, to his home.

Caromes Oil Telephone Pole His 1960 model Ford corcamed off a telephone pole, and landed on top of a natural gas meter, which burst. The exhaust from the car ignited the gas fumes and was followed by an explosion. Carey fell part way out of the car and was evidently attempting to crawl the rest of the way when he lost consciousness. He was lying on his back with both legs still in the seat of the car when found.

First at the scene of the accident were Mr. and Mrs. Kenneth Bean and Mr. and Mrs. J. D. Webb of South Plains. In a second car by Mr. and Mrs. Cecil Lewis of Floydada. The three couples had been at the home of Mr. and Mrs. David Battey Jr. for the evening. Mrs. Battey said as their guests were leaving she and her husband walked with them outside on the porch and saw flames at a distance. They commented on the possibility of an out building burning. As the three couples left they told Mr. and Mrs. Battey they would check the fire. Moments after their departure, Cecil Lewis returned to the Battey home, told them of the accident and a Harmon ambulance was called.

Pulled Free Of Car In the meantime, not knowing whether the gas tank had already exploded, Bean and Webb ran to the scene and pulled Carey from his burning car.

Scholastics Exceed 3,000

Floyd County scholastic population has gone over the 3,000 mark for the first time since the 1930's according to figures from the county school superintendent's office this week.

The enumeration for the county is completed at this date and is being sent to the Census Division of Texas Education by Superintendent Clarence Guffee.

Mrs. Bob Copeland, Floydada census taker, turned in a total of 1,471 enrollment in the city Lockney reported 1,104. In the rural districts South Plains reported 128; Lakeview, 74; Dougherty, 35; Providence, 92; Briscoe County line 14; Motley County line 12; Hale County line (Petersburg) 43; Hale County line (Plainview) 19.

The enumeration for the entire county totaled 3,044. Last year's census showed a total of 2,835.

Old Settlers Meet Saturday Afternoon

Rev. Joe Wilson, president of the Floyd County Pioneers Reunion Association this week issued a call for a meeting of the officers and directors of the organization and all others interested to meet Saturday afternoon.

The meeting will be held in the county court room of the courthouse at 2 o'clock p. m. Plans for the annual meeting on May 28 will be discussed.

Council Meeting Slated Saturday

There will be a meeting of the Floyd County Home Demonstration Council this Saturday afternoon at 2:30. All club presidents and members are urged to be present for the important session.

A THDA County chairman will be elected and following the meeting there will be the election of nominees for delegates to attend the District Meeting.

Precinct One Has Big New Road Grader

Floyd County Precinct No. 1 has a brand new \$20,000 motor grader that was bought by the Commissioners Court in a special session Feb. 23.

The court had three bids, of which the low was \$20,041, to be paid with a trade-in valued at \$10,041 and \$10,000 in cash.

The machine was delivered several days ago and the bill was approved for payment by the Commissioners Court Monday, to be paid out of the funds of Precinct No. 1.

Jones of Floydada, Texas, welcomes his wife, Betty, and children Leonard, Clara, Rita and Richard, as they arrive at Fort Buckner, Okinawa, on February 16th from the United States.

Mrs. Jones, who had not seen her husband for over three months made the voyage to the "Keystone of the Pacific" with her children aboard a Military Sea Transportation Service vessel, the USS General Breckinridge.

SFC Jones is assigned to the U.S. Army 1st Special Forces Group (Airborne), Ryuku Islands as a Light Weapons Leader.

Tulia and Sundown Win Team Trophies in Whirlwind Relays

The Tulia Hornets, showing team strength in most all events, repeated Saturday as champions of the Whirlwind relays. The Hornets piled up 113 points, run away with the class AA division. Second place Muleshoe was far behind with 68 points.

In the class A and B division it was Sundown who stepped out to take that title as they gained 130 points. Closest competition for the Roughnecks came from Anton, which collected 61 1/2 points.

Scoring 10 points for first, 8 for second, six for third, four for fourth, two for fifth and one for sixth in the individual events, the relay races carried double this value. Team totals in double A were Tulia 113, Muleshoe 68, Tahoka 46, Floydada 45, Morton 44, Post 40, Childress 39, Lockney 35, Spur 24, Abernathy 22, Olton 14 and Slaton did not scratch.

High point man was Curtis Didway of Post who scored 24 points placing first in two events, second in one and third in another.

Billy Dick of Tulia picked up 30 points but gave up his chances at the trophy by being on two relay teams that cost him in the race for individual honors.

Sundown Leads A and B In the A and B division Sundown scored 103, Anton 61 1/2, Ralls 51 1/2, Kress 44, Matador 34, L2-budde 30 5/6, Crosbyton 29, Farwell 28 1/3, Bula 26, Frenship 22, Quitaque 14, Hale Center 12 1/3, Lorenzo 12, Idalou 9 1/2, Petersburg 4, Turkey 4, and Amberst 1 1/2.

McInturf of Sundown won high point honors in the A and B division collecting 31 points. For the most part the smaller schools posted better marks than

those in the AA division. Many new marks were entered in the 120 yard high hurdles stood up at 14.2.5. Biffle of Anton posted a new mark in the 100 lows of 19.5 bettering McInturf of Sundown who held a 20.1. Tulia efforts on the local track for a year ago were replaced by the Crites of Frenship with a 124.44 feet 8 inches in shot put in '59 and it was bested this year by Smith of Lockney with a 46.1 feet 10 inch toss.

Though the present record books carry records for class AA in one group and those of A and B schools in another the above mentioned marks are for the overall meet and were the best of the local track for any year ago.

Coach Preston Watson's Whirlwind boys came in fourth in class AA had to rely on their younger boys in the big meet. Of the 45 points scored only seven were made by seniors. Don Vickers picked up six with a fourth in shot put and a fifth in discus and Danny Shipley got a sixth in discus for the other point.

Big man for the green and white was Rodney Teague, sophomore who picked up a second in the high hurdles, and a third in the low hurdles, and a fourth in broad jump for 18 points.

Pat Ginn, a junior, got fourth in the high jump and tied for fourth in the high jump for seven points. Teddy Allen also won a second in high jump for another seven points.

Because of a knee injury, getting in the 200 for six team points. Teddy placed in the state meet last year running for Ralls but a tricky knee has bothered him since the past football season.

The green and white thin clad Crosbyton meet yesterday (Wednesday) in a make up date. The original meet scheduled for Saturday, March 5, was postponed because of bad weather.

Com'rs Delay Action Until Status Clears

A petition which was presented to the Commissioners Court Monday asking for an election on the question of abolishing the office of county school superintendent, came on the same day the announcement was made that the county scholastic population is above the 3,000-mark for the first time since the late thirties.

The petition, signed by approximately 475 persons from various parts of the county, was presented by G. B. Johnston Jr., and James B. Bobbitt.

There would be no significance to this coincidence except in the possibility that the county, having 3,000 scholastic population, may be required by state law to have the office of the county superintendent separate from that of the county judge.

Separation of the duties of county superintendent from the county judge's office in Floyd was voted in the county sometime in the 1920's. It is being assumed that since the creation of the office was the result of a vote of the people, it's abolishment would have to be accomplished by the same process.

Should the office be abolished the county judge automatically would become ex officio county superintendent.

The commissioners in their meeting held in abeyance the matter of checking the list of names on the petition, until they could have one or two matters regarding their duty defined. Through County Attorney Kenneth Bain Jr., they are asking the attorney general's office to advise:

1) Whether considering the fact that the county's scholastic population is above 3,000 the office can be abolished by a vote of the people, under existing laws; and

2) Which local officials, the figures certified by the State Board of Education, after possible errors and duplications are counted out in Austin. Generally there is some variance between the local figures and the figures that Austin comes up with.

When these questions are cleared, if they favor those who want the office abolished, there seems no doubt the petitions have an ample number of names to require the Commissioners Court to call the election. The petition must bear the names of as many qualified voters as 25 percent of the vote for governor in the general election.

The petitions are in six covers and were circulated over the county by various persons. The (See Supt's Office, Page 6)

Water, Sewer Assn. Slates Meeting Here

Chas. E. Horton, superintendent of the Water and Sewer Department of the city, has announced the district meeting of the Caprock Water and Sewer Men's Association will be held here Thursday night of next week, March 24.

The visiting municipal water authorities will be guests of the city at 7:30 for supper at the American Legion Hall, and an open meeting will be held, to which the public is invited, beginning at 8:30 o'clock.

Mayor Willson and members of the city council will be at the meeting if their duties will permit. To get away from shop talk for a change the program planned will consist of a talk and a 26-minute film on public affairs. Horton says the program will be quite interesting and instructive. Representatives of water and sewer departments are expected to register from Muleshoe, Olton, Hale Center, Plainview, Lockney, Quitaque, Matador, Spur, Crosbyton, and Ralls, Horton said.

Bible Baptist Church Plans Revival; May Build New Home

The Bible Baptist Church will begin a revival meeting on March 27, which will continue through April 3, it was announced this week by Gilbert K. Rhine, pastor.

The evangelist for the meeting will be A. W. Cooper of the Fellowship Baptist Church in Amarillo. Rev. Cooper is well-known as a successful pastor and evangelist among the independent Missionary Baptist Churches of Texas, the announcement states.

"The church is very fortunate to secure Evangelist Cooper for this series of services and especially for a spring revival," Rev. Rhine said. "We want to extend a cordial invitation to everyone to be in each and every service."

The pastor said the church believes this revival may be an important turning point in their plans to erect a new brick building. Some plans already have been made. If the congregation decides to build in a new location they will want to sell the present building and lots, it is pointed out.

It has been reported that several people, including some local business people, have already offered to make donations on the new building.

Starting time for the service each evening will be 7 o'clock for the prayer service and 7:30 for the preaching. There will be special music each night, including a local quartet.

Scott, Degge Hear Experts Talk On Weeds

(By Douglas Degge)

EVANGELIST A. W. COOPER

Znt Scott, Vice-Chairman of the Board of Directors of the Weed District, and Douglas Degge, Supervisor, attended a joint meeting in Denver Feb. 22-23, of the Weed Society of America and the Western Weed Chemical Control Conference.

Many new herbicides and methods of weed control were discussed at this meeting as well as improvements of old methods.

Weed experts from all over the United States and several foreign countries attended the meeting. The foreign countries represented were Switzerland, England, Canada, and Australia.

In the monthly meeting of the Board of Directors last week plans were made and date set for the Annual meeting which is to be on Monday night, April 25 in the District Court Room. An interesting and informative program has been planned and all interested persons are urged to attend.

Nominating committees were selected to select nominees for Precincts 2 and 3. The terms of the Board Members representing those Precincts expire this year. Nominations from the floor may be made at the meeting.

The District has traded for a second 4-wheel drive pickup which is to be equipped to spray all patches of bindweed on the county bar ditches. Plans are to begin this work as soon as the vines reach the 6 to 8 inch runner stage.

Robert Lee Smith, Chairman of the Board, has been selected to serve on a panel to discuss the Problems and Benefits of Weed Control Districts at the Great Plains Field Day at Bush on April 21.

SOIL CONSERVATION DISTRICT NEWS

Soil and water conservation leaders here are looking forward to issuance of the world's first water conservation postage stamp by the Post Office Department in Washington, D. C., Gilbert H. Fawver, Chairman of the Floyd County Soil Conservation District, said today.

The commemorative 4-cent stamp, printed in 3 colors, will be issued April 18 at the National Watershed Congress in the national capital at a ceremony featuring three cabinet members, Agriculture Secretary, Ezra Taft Benson, Interior Secretary Fred A. Seaton, and Postmaster General, Arthur E. Summerfield.

The stamp will go on sale on the following day, April 19, at other post offices throughout the country, including those at Floydada and Lockney, Texas.

"The beautiful new stamp dramatizes the fact that water is today, our most precious and most limiting natural resource," Mr. Fawver said. The stamp is being released at the Seventh National Watershed Congress, Mr. Fawver pointed out, because of the influence of upstream land treatment and small dams in small watersheds on our water supplies.

Disabled Farmers Covered by New Social Security

Farmers may now qualify for disability protection under the social security program, John G. Hilton, manager of the Lubbock Social Security Office stated today.

If he is at least 50 years of age and has a severe, long term disability which prevents any substantial activity, a farmer may qualify for monthly payments for himself and his dependents in the same manner as the city worker providing he has at least 5 years of social security coverage out of the 10 years before he became disabled. If he is under age 50, he may have his social security record "frozen" to protect his own and his family's future benefit rights.

Texas Cattle Up 9 Per Cent

It came as no surprise recently when the U. S. Department of Agriculture released its figures on livestock population at the beginning of 1960, showing that cattle on Texas ranges had increased by nine per cent over early 1959.

The USDA inventory reported the total of all cattle in Texas as of Jan. 1, 1960, at 9,276,000 compared with 8,510,000 at the same time a year ago. This nine per cent increase in population was nearly double the rate of the national increase, which amounted to about five per cent.

It also came as no surprise when the USDA reported that the total value of all livestock—cattle, hogs, sheep, horses and mules, poultry—had gone down in spite of increased numbers in most categories. The total valuation at the start of 1960 was placed at \$16,236,400,000, compared with \$18,092,870,000 a year ago.

Nationally, the livestock and poultry population figures showed these comparisons: Cattle, 101,520,000 this year and 96,650,000 last year; milk cows, 21,331,000 and 21,488,000; hogs, 58,464,000 and 56,924,000; sheep, 33,621,000 and 31,945,000; horses and mules, 3,069,000 and 3,142,000; chickens, 368,859,000 and 357,329,000; and turkeys, 5,673,000 and 5,923,000. Horses and mules declined two per cent.

chickens fell off four per cent in numbers, and dairy cows eased off one per cent.

At the same time, the USDA estimated a sharp drop in value per head of livestock, as follows: Cattle, \$136 this year and \$153 last year; milk cows, \$208 and \$219; hogs, \$16.50 and \$20.30; horses and mules, \$112 and \$101; turkeys, \$4.91 and \$4.65. Only horses and mules and turkeys showed a slight increase in price.

Release of the figures emphasized the attitude of most authorities in their outlook on the 1960 cattle market, which is, that the time has arrived for caution in planning any further increases of the livestock population on Texas ranges. Good range conditions in general continue to encourage the trend toward taking full advantage of the conditions, but authorities agree that extreme care should be exercised before any further heavy expansion is developed.

AN APPRECIATION

I want to say thank you to all who remembered me while I was in the hospital; also for the cards, phone calls and the lovely gifts.

Mrs. Hallie Johnson.

Albertine B. Castle Joins GLADIOLA

Sherman home economist, Albertine Berry Castle, who has achieved top rank in her field in Texas, has been named director of home economics at GLADIOLA.

In her new capacity, Mrs. Castle will work closely with home economists over the state, acquainting key persons with qualities of GLADIOLA bakery products. She also will have charge of recipe testing and development, and will work with advertising and sales departments in developing and judging recipes for inclusion in GLADIOLA advertising.

She will work closely with the laboratory and milling technicians in quality testing and control.

In 1956, Mrs. Castle, the former Albertine Berry, was named Home Economist of the Year by the Texas Home Economic Association. She is past president and presently treasurer of the state home economics group and is also past chairman and still a member of the Texas State Nutrition Council.

Her first position after graduation from North Texas State College, Denton, was as home service director for a San Antonio company. She then became director of home economics for Lone Star Gas Co., Dallas. She held this position 13 years, during which she became known for her radio shows.

Mrs. Castle has made frequent guest appearances on television. She and her 10-year-old son, Sterling, and her mother, Mrs. Maye Berry, live at 1611 North Lockhart.

If we made
Gladiola Flour for
Kissimmee, Fla.

we could get by with
lower quality

...but we make it for

We make just enough Gladiola Flour for our near neighbors—in Texas and a little bit beyond. These ladies are the best home bakers in the U.S.A.—and the sharpest judges of flour quality.

That works out fine for us. We know precisely what our customers want, and precisely how to make it. That's why snow-white Gladiola Flour outsells every other brand, every day, every year.

The women-folk in Kissimmee, Fla., just can't bake biscuits, cakes and pies like yours. They don't have Gladiola Flour. Only you and your neighbors can buy it. And, for the average family, it costs only about 1/2¢ a day more than the cheapest flour made.

GETABLES Storage Warehouse And Processing Needed

Marshall storage warehouse there is plenty of money available to finance the project.

Our reputation for raising high quality onions, pink tomatoes, bell peppers, lettuce, cantaloupes etc. is becoming known more and more each year.

Favors Onion Seed

Down through the years I believe we will plant more and more onion seed instead of setting plants out. This way very few good men will go broke. Onion seed planted thick Sept. 15 will give the plant enough age to get through the winter with thinning in the spring. You will then have an earlier crop of onions than from plants. One could also sell the plants from thinning. Remember the date of planting around Sept. 15. That's worth money to you.

I raise an experimental garden both for the good of the farmer and also for exercise. My hobby is raising strawberries just to see how big I can raise them. I have had a small success. Last year I raised one strawberry three and one half inches in diameter.

Blossom Experiment

I learned a lesson with my blossom experiment. The canes on the plains will freeze and no berries next year unless the canes are covered up during the winter.

One of the smartest things a farmer might do is send a soil sample to Texas A&M or Texas Tech telling them what you plant on the land and have them tell you what and how much fertilizer is needed per acre. It's one of the most important dollars you might spend.

Read Your Fiber Label

On my radio program last Friday I mentioned the new Fiber Identification Act which went into effect on March 3, 1960. Here is more information that will help you when buying fabrics and ready-mades.

Fiber identification is an important clue to the use and care of modern fabrics. The Fiber Identification Act, effective last Thursday, requires that each textile fiber product, such as clothing, must carry a label which gives the generic (family) names and percentages by weight of the fibers in the product.

Each generic name designates a kind of fiber that differs in origin. The natural fibers - cotton, linen, silk, and wool - are familiar, but some of the man-made fibers have unfamiliar generic names.

Generic names are useful to the drycleaner and homemaker in the care of clothing. They are a clue to proper washing, drying and pressing temperatures, and to spot removal and storage.

Trade names exist for many

manmade fibers. If a manufacturer uses a trade name he must pair it with the generic name. There are many more trade names than generic names. If you become familiar with the generic names of fibers, this will be your key to proper care.

The following are generic names and examples of some fiber trade names now used in clothing. You will find other trade names on labels, but will have no trouble identifying them, since they will be paired with the correct generic name.

Generic name Rayon; trade names Cupioni, Bemberg, Fortisan, Cordura, Coloray, Colorsun, Jetspun.

Generic name Rubber; trade name Laxtex.

Generic name Spandex; trade names Lycra, Vyrene.

Generic name Acrylic; trade names Orlon, Acrilan, Creslan, Zefran.

Generic name Modacrylic; trade names Verel, Dynel.

Generic name Nylon; trade names Caprolan, Nylenka.

Generic name Polyester; trade names Dacron, Teron, Vycon, Kodol.

Generic name Acetate; trade names Celanese, Estron, Chromspan, Colorsealed, Celaperm.

Generic name Triacetate; trade name Arnel.

When you know the generic name of the fabric, ready-to-wear or home furnishings you buy, you have a clue as to the necessary care for that fabric. If you would like our new brochure entitled, "For Clues to Clothing Care - Read Your Fiber Label," come by or call the Extension office for a free copy.

EDITORIAL VIEWS AND COMMENTARY

New evidence that the community realizes at long last the futility of trying to "hold the line" was afforded by Saturday's four-to-one vote for ample public school maintenance and to furnish the part in the paving program. It so happens that the district has a heavy plant investment in three different parts of town where paving is indicated as needed. It also happens that the district is caught in a money squeeze what with increased scholastics and the "economic index," working in reverse. In some of the up and coming districts of the state the conditions are not so fortunate.

The school district, according to common report, is to be in position to handle its financial affairs without disturbing the property valuations for the coming year. At the same time it is to be able to meet the demands of the changing times for improved facilities (paving is one) and a growing scholastic enrollment. You have to figure pretty close to do all the things at the same time.

Official Nose Count. The time has come for the census. The Bureau of the Census, a vast organization that keeps its finger on the pulse of developments in business, population and mode of living, keeps up-to-date on these matters and has a skeleton report already made. The count will verify these facts and fill in the pluses and minuses, the precise data. First count, (this isn't official) will be in the hotels and motels on the night of March 31. Then will follow quickly in April the count of the rest of us.

Texas Population figures have been estimated and put on paper along with the rest of the states. The Census Bureau expects the count to verify an estimate of 9,724,000 in our state. This is up two million from 1950. It may be a rude shock to some to find that three out of four Texans now live in town and that half of the population of the state lives in 20 of its cities. Leaves the wide open spaces even wider open than ever.

A Soviet Weakness? Senator Lyndon B. Johnson in his weekly report to Texas, released Monday, points up what he considers one of the weaknesses of the Soviets. The greatest Russian fear, he says, is the fear of the truth. The new Russian program calls for students from the world to come to Moscow for study—working in an institution separate from the Russians. He suspects the Communist leaders are fearful of what Russian students might learn if they were exposed too long to thinking of the outside world. Let us hope they have some kind of weakness. We hear a plenty of their strength.

The well-turned story in last week's Hesperian, recounting the significant part Floydada Garden Club has played in the community for a quarter of a century was done by Mrs. E. L. Angus, a charter member. By some mischance the by-line was lost.

This department's efforts last week, viewed a week later, appear to have been quite doggy. Some of the remarks regarding it were catty in a kindly sort of way.

A Wichita Falls writing man has lost his standing among the menfolks of the fraternity in West Texas. We don't see this in the papers but bad news travels on wings. It does not have to get in print. This Wichita man, estimating that every husband spends \$300 a year on hairdos and the like for his wife, ought to spend \$30 or 10 per cent of that amount on a spring hat for her before Easter. Imagine the uproar that followed the appearance of his piece in the paper. Newspapersmen generally are more tolerant toward errands than the mine run of people but there are limits to all things!

The New Day Here? One can't get away from his background of experience and observation. Credited with being a pessimist the helmsman of this column has railed somewhat at the spiral of inflated values which many put on their labors. We have vainly hoped that business and labor and professional people would conclude that they owe something to the community besides a gouge. But the spiral continues and one may as well conclude that holder-backers such as we are being swept up in the backwash of a new day. So far as we are informed very few of the laboring and professional people but right now are working on plans to get more. And going at it in an organized way to force government to force business to get in line.

Death Ratio Lower. Whether it is just one of those things or possibly the application of the new casualty insurance law, the fact remains that the rate of deaths on the highways in Texas is much lower at this time this year than it has been on the average for some time. The State Insurance Board's application of the new insurance law has created a great, great deal of paper work in the board's office as well as in the offices of the insurance companies. Although two or three score employees have been hired by the board and outside overtime help is employed from offices around town in Austin the insurance commissioner says they have a backlog of about 30 days paper work and correspondence. It will take some time for the statistics to prove or disprove that the new system is working. On the one hand the death and accident rate is way down, on the other the mountain of added work on the part of authorities and the insurance companies, costs that are bound to be reflected in the insurance rate sooner or later.

The Political Scene. Within a short time the state committee of the Democratic party will certify the state list of candidates to the county chairmen of the party, and the latter will prepare the ballots for the May 7 primary, now only seven weeks away. Meanwhile, the weather and lethargy of the electorate has been a deterrent for the candidates trying to get their campaigns "off the ground."

Profit is a must. There can be no security for any employee in any business that doesn't make money. There can be no growth for that business. There can be no opportunity for the individual to achieve his personal ambitions unless his company makes money.

Charge Three With Looting Local Stores

Practically all of the loot obtained by three boys in several burglaries from Floydada stores, in fast order Wednesday night, had been recovered by city and county officers by Friday night and the three boys had been lodged in local jails to await action by the grand jury.

And all the three youngsters had for their trouble was more trouble. From 9 to about 11:30 o'clock Wednesday night they obtained:

- Sixty-four dollars from Superior Cleaners on South Fifth; a .22 calibre pistol, several wrist watches and a pair of binoculars from Fyffe Feed and Seed Store on South Wall.

A few dollars and pennies from the cash register at Carnack Feed & Sall on South Wall; a few dollars from the Coker machine at Ted Allen Garage and some ballpoint pens from Spears Auto Co. on North Main; and a billfold from Radio Electric Co. on West California.

The trio also broke into Carthel Implement Co. on East Missouri where they got nothing, and also tried to force entry into Bradford Jewelry on West California.

The boys who are charged with the burglaries are Albert Windoak, 15, James Earl Mimer, 17, and a 15-year-old school boy. The boys were back in the hands of the owners Friday. Superior Cleaners got slightly less than \$60 of his \$64 back, and most of the wrist watches and the pair of binoculars from Fyffe's were returned by officers from caches the boys had made in various places.

Police Officer Perry Smith said the two older boys already had been in serious trouble. Windoak had been released from the state penitentiary a few days before he went on the break and entered spree, and Mimer is on probation on a burglary charge.

Mrs. E. L. Angus returned Sunday from Fort Worth where she attended rites for an uncle, Sam Steele. He was a retired grocery man having been in the business for 30 years.

Lt. (jg.) Carl K. Arnold, U. S. N. R. arrived in San Francisco, Calif., last Friday, according to a phone call to his mother here. Carl has been in Japan, China, and Hawaii, and expects his discharge in about two months. Two other Floydada men are back in the states also, these being Lt. Edward H. Wester of the U. S. Marine Corps, who landed at San Diego, last Wednesday and is expected home this weekend, and Pfc. Carl Lester Minor, Jr., who called his parents last week with word to expect him in Floydada this week.

Those were times of extreme trouble. The people of Israel had gotten far away from God under the rule of bad leaders. One king would walk in the way that was pleasing to God but most of them walked in the way of their sinful fathers.

The enemy was fortified at their walls. But king Hezekiah had the springs outside the city stopped, so that no water could be had by their foes. He made weapons and shields in abundance. He set combat commanders over the people. He built up the wall that was broken down

NOTICE To Residents Of Floydada

We (Joe and Babe Jones) have contracted with the City of Floydada to operate the Sanitary Department.

We will greatly appreciate your co-operation. Any suggestions or complaints should be made to Joe or Babe Jones at Phone No. YU3-3695.

Below is a Summary of the Garbage Ordinance of the City of Floydada. May it be helpful to you:

"It shall be the duty of every person to provide a portable garbage can constructed of Galvanized Iron or other suitable metal, with two handles and a tight-fitting cover of a capacity not less than five gallons nor over 30 gallons.

"And the Daily Accumulation of Kitchen Garbage and Dry Kitchen refuse shall be placed in this Garbage can. Place all trash and rubbish in boxes, sacks or barrels of reasonable size.

"Garbage Cans, Boxes, Sacks or Barrels of Trash, and Rubbish and Tree Limbs shall be placed inside the property line at the edge of the alley. Where there is no alley, cans, boxes and sacks shall be placed inside curb line of street, to be collected by the garbage vehicles.

"Heavy accumulations, such as bricks, broken concrete, ashes, clinkers, cinders, dirt and plaster, sand or gravel, automobile frames, dead trees and other bulky, heavy material shall be disposed of at the expense of the owner.

"Garbage cans shall be kept in Sanitary Condition, and Closed Tightly. Lids must be used at places where receptacles for the Garbage, Trash and Rubbish are located, to keep down odors and flies. The contents of all receptacles shall be protected so that wind cannot blow out and scatter same."

and raised towers upon it and settlers. He recalls the dead cattle that lay for miles and miles from Crosby County into New Mexico as they huddled at the drift fence after their slow freezing walk south to try to get a meal to the brakes for shelter.

He gathered the people in the square at the gate and spoke encouragingly to them the words that are quoted above from Chronicles II: "We have the arm of God," were his words that brought confidence to his people.

Sennacherah, king of Assyria taunted them and told them that their God would not defend them; that Hezekiah was a deceiver. They tried to terrify those who stood on the walls "and they spoke of the gods of the earth which are the work of men's hands."

Then Hezekiah prayed because of this and cried to heaven. And here is the ending of this great lesson from the Bible: "And the Lord sent an angel, who cut off the mighty warriors and commanders and officers in the camp of the king of Assyria. So he returned with shame of face to his own land. And when he came into the house of his god, some of his own sons struck him down there with the sword."

We need leaders; today that can pray to God in this hour of trouble. We need people to pray and be ready on the walls of Christian service. We need great steel piles of faith, of justice.

We need to repair the walls that shut out sinful things, we need to fortify ourselves with the arm of God and be ready for the arms of flesh of the nations which seem to be getting ready to come against us. We know they worship the arm of flesh for their god as did the king of Assyria.

Another of our good friends passed on last week and we are sad at his going. L. C. McDonald has only gone on a short time before many of his friends. He is at rest from his many labors in the service of his Master. He left a good name and we are told in the Scriptures that a good name is better than great riches.

But life is sweet, though all that makes it sweet. Lessen like sound of friend's departing feet; And Death is beautiful as feet of friend.

Ford Motor Company announces the

Debut of the Comet

Today, at your Mercury-Comet dealer's, first compact car with fine-car styling — priced with or below other compacts.

You're looking at the exciting new value-packed compact—Comet. NOTE ITS BEAUTIFUL STYLING. No sawed-off, cut-down look, here. The Comet is proportioned like a fine car—long flowing lines, outstanding good looks.

LOOK CLOSELY AT THE EXTRA FEATURES. You pay nothing more for dual headlights, front and rear arm rests, door-operated dome light, foam padded front seat. And the trunk holds enough for the whole family on a long trip. YOU'LL MARVEL AT THE ECONOMY. Comet's new simplified "six" engine delivers up to 23 miles per gallon of regular gas. YOU'LL REVEL IN THE RIDE. No choppy steering, no bumpy traveling in Comet. The longer wheelbase (114" instead of 107" in average compacts) gives Comet a smoother ride, yet it turns on a dime. NOW, CHECK THE PRICE. Comet is priced with or below other compacts like Rambler, Corvair, Lark, Valiant and Falcon. COMPARE ALL THE COMPACT CARS —and you'll come away with a Comet. It's now at your Mercury-Comet dealer's.

FINEST COMPACT WAGONS ON THE MARKET. The new Comet wagons go far beyond what you might expect in a compact station wagon of this size. There is over 76 cubic feet for storage—as much room as in some wagons costing hundreds of dollars more; a retractable rear window takes the place of the old-fashioned lift-gate. And, there is ample room for six adults with plenty of space left over for baggage. Along with the Comet two- and four-door sedans, there are two- and four-door wagons as well.

Harmony News
 By Mrs. Allan Gross

HARMONY, March 14—How do we miss our telephone when it is out of order? We were without a phone three days last week and couldn't call for news.

A power line at the Floyd Trowbridges fell on a telephone line causing quite an excitement at the Trowbridges Sunday morning of last week. The wires caused a grass fire and fence burned and shorted out several appliances. They considered themselves quite lucky that there wasn't more damage.

Several ladies gathered at Mrs. Walter Hanna's Tuesday for an all day meeting of crafts. A covered dish luncheon was served at dinner, along with ladies from here several came from Petersburg.

Mrs. Mather Carr and Horace Carr visited Mr. and Mrs. Gordon Mayfield Monday.

Ronnie Hopper, son of Mr. and Mrs. R. N. Hopper, won the showmanship trophy in the fat barrow division at the Junior Fat Stock Show. Ronnie placed also eighth with his hog.

Harmony is proud of all of their 4-H boys and girls.

The Harmony H. D. Club met Thursday with Mrs. Allan Gross as hostess.

Miss Phyllis Roggendort, H. D. agent gave the program on "Line and Accessories" which was enjoyed by all present.

Mrs. Gross served refreshments to twenty members.

Mr. and Mrs. R. B. Gary went to Lubbock Friday to see their doctor.

Mr. and Mrs. Gary's grandson, Kelvin Nelson, son of Mr. and Mrs. Hershel Nelson came home from the hospital Friday. Kelvin has had quite a time with his arm.

Mrs. Horace Carr worked at Lockney Hospital Thursday, Friday, Saturday and Sunday.

Mrs. Wesley Carr went to Abilene Friday after her son, Charles Mather who had been sick with the flu. Mr. and Mrs. Carr took him back to Abilene Sunday. Charles is a student at McMurry.

Alvin Roper, brother-in-law of Mrs. Wesley was hurt this past week, and is in a Paducah hospital.

Mr. Roper was hurt when a tractor backed into him. He didn't have any broken bones but was bruised badly. Mrs. Carr visited with him Friday and Saturday.

Mrs. John Reuse, her daughters, Bobby Jane, Susi and her mother, Mrs. Jonki visited with Mr. and Mrs. Zant Scott and family Sunday.

Pat Tucker spent Sunday with Dwona Beth Scott.

Mr. and Mrs. Carrick Snodgrass have been visiting with her granddaddy, A. H. Manning, who is in Peoples Hospital several days this week.

Mr. and Mrs. Everett Miller, Mr. and Mrs. W. W. Edwards, Mr. and Mrs. Charles Reid, Jody and Donna were Saturday night supper guests of Mr. and Mrs. Carrick Snodgrass.

ARE FHS STUDENTS COWARDLY?

Suppose you were an eye witness to a hit-and-run accident. To some so-called good citizens, the question would arise whether or not to report such a crime.

Many feel that this is strictly a police matter. In a true democracy, each citizen must uphold the principles of that democracy. Even at the expense of personal popularity.

Do you have the moral strength to report an infraction of our democratic way of life? If you do not, you do not deserve to enjoy the privileges of a democracy.

Some report regularly to parents, teachers, or others, items of trivial or petty importance. This is the "tattletale." Such a person is looked down upon by friends, associates, and superiors. The tattler is never a popular person.

Sometimes we allow the same stigma to attach to the person who, in discharging his democratic responsibilities, reveals an infraction. Fear of the title squeler, which would be inaccurately applied, keeps the identity of many criminals, some petty and some major, from being revealed.

Are you cowardly in reporting information necessary to preserve the principles of democracy?

Eddie Parks, next year's Student Council president, proves that he will show STRONG leadership. Eddie is using part of the new weight-lifting equipment recently purchased by the Athletic Department. (Staff Photo)

Athletic Department Adds Weight Lifting Equipment

For the first time in the history of the high school, the Athletic Department has purchased a set of weight lifting equipment. This equipment was bought at a cost of \$186.

In charge of this equipment will be the Athletic Department. The purpose of this equipment is to build muscles, speed, and ability. It can be used throughout the year, and especially during the spring and summer.

Each weight lifting set or bell bars weighs ten pounds.

Calf raising, one-half deep knee bends, rowing, stiff legged dead lifts, bench presses, and dead lifts are the six basic exercises.

Council Officers To Attend State Clinic Sessions

Next year's student council of officers and the outgoing president will attend the Student Council State Convention Clinic March 31 to April 2.

All schools in Texas are required to attend the clinic, which will be held this year at Palo Duro High School in Amarillo.

The clinic is held each year for officers and sponsors to learn how to cope with problems of the Student Council.

Attending this year will be Eddie Parks, Hal Hines, Ricky Holland, Jan Dempsey, and Miss Anne Swepton, sponsor.

Jan Dempsey Is Citizen Of Month

Jan Dempsey, sophomore, was selected citizen-of-the-month for February at the last Student Council meeting.

Jan, recently elected to fill the position of secretary of the council next year, is also, editor of the sophomore edition of the WHIRL. Jan was also editor of the freshman edition last year, and she is a member of the Stage Band and the regular high school band.

Nominated for the citizenship honor were Margaret Nash, Ricky Holland, Bill Daniel, Jan Dempsey, Sue Ring, Pat Tucker, Leo Smith, Linda Goightly, Ken Roberts, Darryl Lindsey, Van Stovall, Shirley Gregory, Helen Foster, and Richard Graves.

Recipe For Love

Ingredients:

1 boy
 1 girl
 4 dates
 2 lbs. of candy kisses plus many good times
 1 pkg. fun
 Moonlight nights (as many as desired)
 5 lbs. of chocolates (if needed)
 Mix boy and girl. Stir dates in slowly. Sprinkle in the good times. Pour in the package of fun. Beat at medium speed for one week. Let stand for one and a half weeks or until they have become steadies.

Drop in moonlight nights before arguments set in. If an argument should arise, run down to the candy shop and buy a pound box of chocolates for the girl and pour in one pound of candy kisses for the boy.

The candy kisses and the box of chocolates should settle the argument.

Stir in one more moonlight night. Add the last pound of candy kisses. Mix well.

Let this mixture chill for one week. At the end of this time, both the boy and girl should be in love.

If this recipe should fail, try Betty Crocker.

Senior Theme Writing Tasks Are Outlined

Seniors have begun the grueling job of term themes. Students began working on the themes Feb. 24.

Themes should be from 1,000 to 1,500 words in length, and all information will be written on filing cards. Research may be done by the use of books in the libraries, magazine articles, etc. Students are receiving help from the school and county libraries and from the Extension Loan Library at Austin.

Topics were assigned, and no more than two have the same subject. Students had their choice of subjects as much as possible. Miss Anne Swepton, English IV teacher, checked students' cards last week and gave them additional sources from which to gain information on their subjects. Students made outlines from their cards Tuesday, and the themes will be due in the near future.

Various topics on which they will be writing are as follows: Nature Lovers, Patriotism, People I Love and People I Loathe, Philosophy of Life, Sea and Sea Life, Superstitions and Folklore, The Development of English Drama, Poet Laureates of England, Great English Essays, English Satirists, English Realists, Three Great Romanticists, England's Changing Attitude Toward War, Writers of Romanticism, Ideas of Life and Immortality, Humorous Characters in English Literature, Eccentric (unforgettable, distinctive) Characters, Writers of Free Verse, The English Short Story; Art of Living with People, Belief in Literature, Ideals for which People Live and Die, Landscapes, and English Authors who have won the Nobel Prize, Famous Dickens Characters, Moods: Poetically Expressed, Great Truths Portrayed in Literature, Living English Poets, Poets of the Victorian Age, Robert Burns, William Wordsworth, Alfred Lord Tennyson, George Bernard Shaw, John Milton, John Keats, John Masfield, Lord Byron, Rudyard Kipling, Percy Bysshe Shelley, The English Sonnet, The Spirit of Laughter in Literature, Three Great Some- (tears)

TALA Bulletin Wins Recognition

Floydada's Teen-Age Library Association announced this week the honor of having a picture of one of its bulletin boards published in the state TALA activity book for 1960, according to Mrs. Helen Patterson, librarian.

The bulletin board pictured a "library looter" portrayed by a multicolored bug. Kenneth Barker, graduate of 1959, was in charge of making the bulletin board.

Approximately every two weeks, the bulletin board display is changed. At each meeting a member of the organization is appointed to be in charge of the next display.

Each TALA organization turns in information on a project in any of these six divisions: Club meetings, money-making projects, services, general publicity, bulletin boards and displays, and programs and assemblies.

How To Become a Delinquent Told In Twelve Easy Lessons

Here are twelve rules for becoming a juvenile delinquent.

1. Begin at infancy to give a child everything he wants. In this way he will grow up to believe the world owes him a living.
2. When he picks up bad words, laugh at him. This will make him think he's cute.
3. Never give him any spiritual training. Wait until he's 21 and let him decide for himself.
4. Avoid the use of the word "wrong." It may develop a guilt complex. This will condition him to believe later, when he is arrested for stealing a car, that society is against him and he's being persecuted.
5. Pick up everything he leaves lying around. Do everything for him so that he will be experienced in throwing all responsibility on others.
6. Let him read any printed matter he can get his hands on.
7. Be careful that the silverware and glassware are sterilized, but let his mind feast on garbage.
8. Quarrel frequently in his presence. In this way he won't be too shocked when the home breaks up later.
9. Give him all the spending money he wants. Never let him earn his own.
10. Satisfy his every craving for food, drink and comfort. Denial may lead to harmful frustration.
11. Take his part against neighbors, teachers, and policemen. They are all prejudiced against your child.
12. When he gets into real trouble, apologize for yourself by saying: "I never could do anything with him."
13. Prepare for a life of grief. You'll be likely to have it.

FHS Makes Ready For IL Competition April Ninth

Floydada High School will be seeking eighth consecutive all-around District Interscholastic League Championship on April 9.

Already students are preparing for the various contests in typing, number sense, shorthand, one-act play, slide rule, and athletic events.

Typists working for speed and accuracy for 5-minute tests are Janice Noland, Pat Tucker, Shirlene Teepie, Eric Christensen, James Huggins, and Joyce Leatherman. Eliminations will be soon to select the four contestants to attend district meet. In shorthand, two contestants who must be able to write 30 words a minute are to be chosen

from Judy Williams, Sue Williams, Nancy Watson, Judy Wilson, and Nelda McCary. Mr. B. Tyer is in charge of tennis and golf.

J. Eudy is the coach of typing and shorthand.

Working number sense are George Farris, Kay Asher, Chick Owens, Fred Thayer, Dennis Deavenport, James Elza, Darryl Lindsey, Mitchell Abelman, and Larry Fagan. The three students to represent FHS will be chosen this week by Mrs. Vlasta Dalrymple who is in charge of number sense.

Kit Zimmerman, Vicky O'Neal, Richard Marler, Richard Graves, Bill Gilliland, Carroll Huff, Jimmy Tye, Steve Marler, Tex Morris, and Sara Holmes are working in

tennis for the district meet at Station, April 1. Coach Charles Stovall is in charge of tennis and golf.

The four boys to represent FHS in golf will be chosen from the ten working out. Bob Dempsey, Ray Walker, Don Garrett, Charles Holland, Gary Matler, George Farris, Jerry Powell, Troy Johnston, Van C. Stovall, and Ricky Holland are competing.

George Farris, Bob Dempsey, Danny Shipley, Leo Smith, and Jay Holmes are working out for the slide rule contest. Three candidates are Mr. John Baker is in charge.

Regional journalism contestants are Sue Ring and Sonja Guffee. The meet will be April 23 at Texas Tech, Lubbock.

The cast of the one-act play includes Janice Noland, Bobby Christian, Larry Coltharp, Carolyn Cates, Beth Scott, and Ronnie Smith. They will present "Happy Journey" March 25 in the high school auditorium.

Poetry readers, and declaimers have not been chosen yet. Mrs. I. T. Graves is in charge of all speech events.

Spelling contestants, under the direction of Mrs. Ruth Adams, and readywriting contestants, under the direction of Miss Anne Swepton, are not known at this time.

Coach Preston Watson directs track events at the district level.

Mr. I. T. Graves is Director General of the District Meet. Competing schools for the last time are Spur, Station, Post, Tahoka, and Floydada.

For the next two years, Floydada will be in the bracket with Morton, Muleshoe, Olton, Abernathy, and Lockney.

Eric Christensen Earns Title Artist Of The South Plains

(By Carolyn Dunavant)

In her new book, published about two weeks ago, History of Art of the South Plains, Elsie Wilbanks terms Eric Christensen as the most promising young artist coming up on the South Plains.

Eric, an outstanding sophomore, is well known for his ability in art, first recognized by his first grade teacher, Mrs. Ruth Williams.

At the age of seven, he started his study of art under the instruction of Mrs. E. J. Barker. Although Eric has studied with Brohr Utter, one of the great water colorists of the United States, Dr. Ludstrom of San Francisco, and other prominent artists of the United States, his work has been continuous for the past nine years with Mrs. Barker. He has accomplished his best works under her, and he is highly complimentary of her influence in his art work.

Eric has been a consistent blue-ribbon winner throughout his painting years, winning his first blue-ribbon in his first art entry. He has never failed to win first or second place or special recognition in any exhibit he has entered.

He has exhibited one of his paintings in Texas Technological College Museum for three months, in the Art Gallery in Kansas City, another in the Art Gallery in Topeka, Kansas; another, in the Laguna Art Gallery

33 Make 4th Honor Roll

Thirty-three students made four A's or more to make the fourth honor roll this year. Twelve of these were freshmen; nine, sophomores; six, juniors; and six, seniors.

Senior Theme Chorus Rating Left In Doubt

At this time the choir is not able to officially announce the rating received at the Interscholastic League Choral Contest.

The rating, as it appeared on the bulletin board was a first in concert and a second in sight reading. Because of mismanagement of the rating sheets, FHS's rating cannot be officially announced as yet. As soon as the rating is received it will be announced.

Norma Sue Hollums and Donna Allen ranked second with their individual solos. Merle Nicholson was unable to attend the contest.

Mrs. L. H. Christensen said, "I was extremely pleased with the performance of the Senior High School Choir."

Fourteen girls attended the con-

RECIPE NEW EASY CALIFORNIA TUNA BAKE

1 1/2 cups soft bread crumbs
2 cups milk, scalded
3 eggs, slightly beaten
1/2 teaspoon powdered oregano
1/2 cup finely chopped onion
1 1/2 tablespoons grated lemon peel
1 teaspoon fresh lemon juice
1/2 teaspoon dry mustard
1/2 teaspoon salt
Dash freshly ground black pepper
2 (6 1/2-ounce) cans STAR-KIST TUNA, chunk style
Pastry for 9-inch pie shell, unbaked
1 SUNKIST lemon, unpeeled, sliced

Pick bread into soft crumbs. Pour scalded milk over crumbs in bowl. Stir well and blend in remaining ingredients except tuna. Flake tuna into large pieces; fold lightly into mixture. Pour into greased 1 1/2-quart baking dish. Cut pastry to size of dish, making a circle in center. Brush with milk and place on top of tuna mixture. Place in hot oven (450) 10 minutes, reduce heat to (300) and bake 20 to 25 minutes. Remove from oven. Decorate with halved lemon slices and a few sprigs of parsley. Cut into serving sized pieces and serve piping hot. Simply delicious. Makes 6 servings.

RECIPE

CREAMY TUNA

two 6 1/2-oz. cans STAR-KIST Tuna
two 10 1/2-oz. cans condensed cream of mushroom soup
1/2 cup milk
1 cup peas
1 tsp. grated onion
2 tsp. chopped pimiento (if desired)

Heat all ingredients together. Pour over piping-hot Bisquick Cheese Drop Biscuits. Serves 4 to 6. P.S. Other biscuit variations... add 1/4 cup chopped parsley or chives to dough, instead of cheese. Or drop each biscuit into a bowl of crushed potato chips before baking, for new crisp texture and flavor!

RECIPE

CREAMED TUNA NOODLE CASSEROLE (Makes 4-6 servings)

1 tablespoon salt
3 quarts boiling water
8 ounces medium egg noodles (about 4 cups)
1 1/2 cups (large can) undiluted CARNATION Evaporated Milk
2 cups grated processed American cheese (about 1/2 pound)

Add 1 tablespoon salt to rapidly boiling water. Gradually add noodles so that water continues to boil. Cook uncovered, stirring occasionally until tender. Drain in colander. Combine Carnation, cheese, pepper and chives. Cook over low heat, stirring frequently until cheese melts and chives are wilted. Arrange noodles, tuna and olives in buttered 1 1/2-quart shallow baking dish. Top with cheese sauce and sprinkle with paprika. Bake in moderate oven (350° F.) 30 minutes.
