

Grain Dealer Incorporates At Dougherty

Announcement that Poole Grain Company of Dougherty has sold its elevator to the Dougherty Grain Company, incorporated, was made this week by Kinder Farris.

Farris, who has been manager of the business since 1954 will continue to be active head of the business.

There are six stockholders in the new set-up, all of whom are directors. They are, besides Farris, Carmel O. Eastham Jr., Wayne Rainwater, W. S. Poole, Fred Zimmerman, and Lucian Morehead.

Of these Eastham and Rainwater have been active in the operation of the elevator for more than two years. W. S. Poole, the founder of the business, and Fred Zimmerman are farmers, and Lucian Morehead is a Plainview attorney.

The new organization is incorporated under Texas laws with \$100,000 capital stock. Kinder Farris is president, Eastham Jr. is vice president, Rainwater is vice president, Zimmerman is secretary, and W. S. Poole, treasurer, Morehead is director.

Carmel O. Eastham Jr. came from Clovis, N. Mex., two years ago and has been with the grain company continuously since Wayne Rainwater came from Dallas. He has been with the company more than two years.

They are home owners in Dougherty. Poole Grain Company, originator of the business bought the first elevator from J. M. Brown in 1942. This small plant was razed in 1947 and a steel-clad elevator with 74,000 bushel capacity took its place, and is in operation.

Kinder Farris became a member of the firm in 1954, and in 1955 an additional 100,000 bushel storage was added, 170,000 more in 1956 along with a grain dryer of 800 bushel per hour capacity, and 250,000 more in 1957.

Total capacity of the elevators now stands at 600,000 bushels. The same active management will continue to operate the grain company, the only change being the move to broaden the ownership.

Mr. Johnson died in Albuquerque, N. Mex., last Thursday of a sudden heart attack. He lived only a short time after being seized.

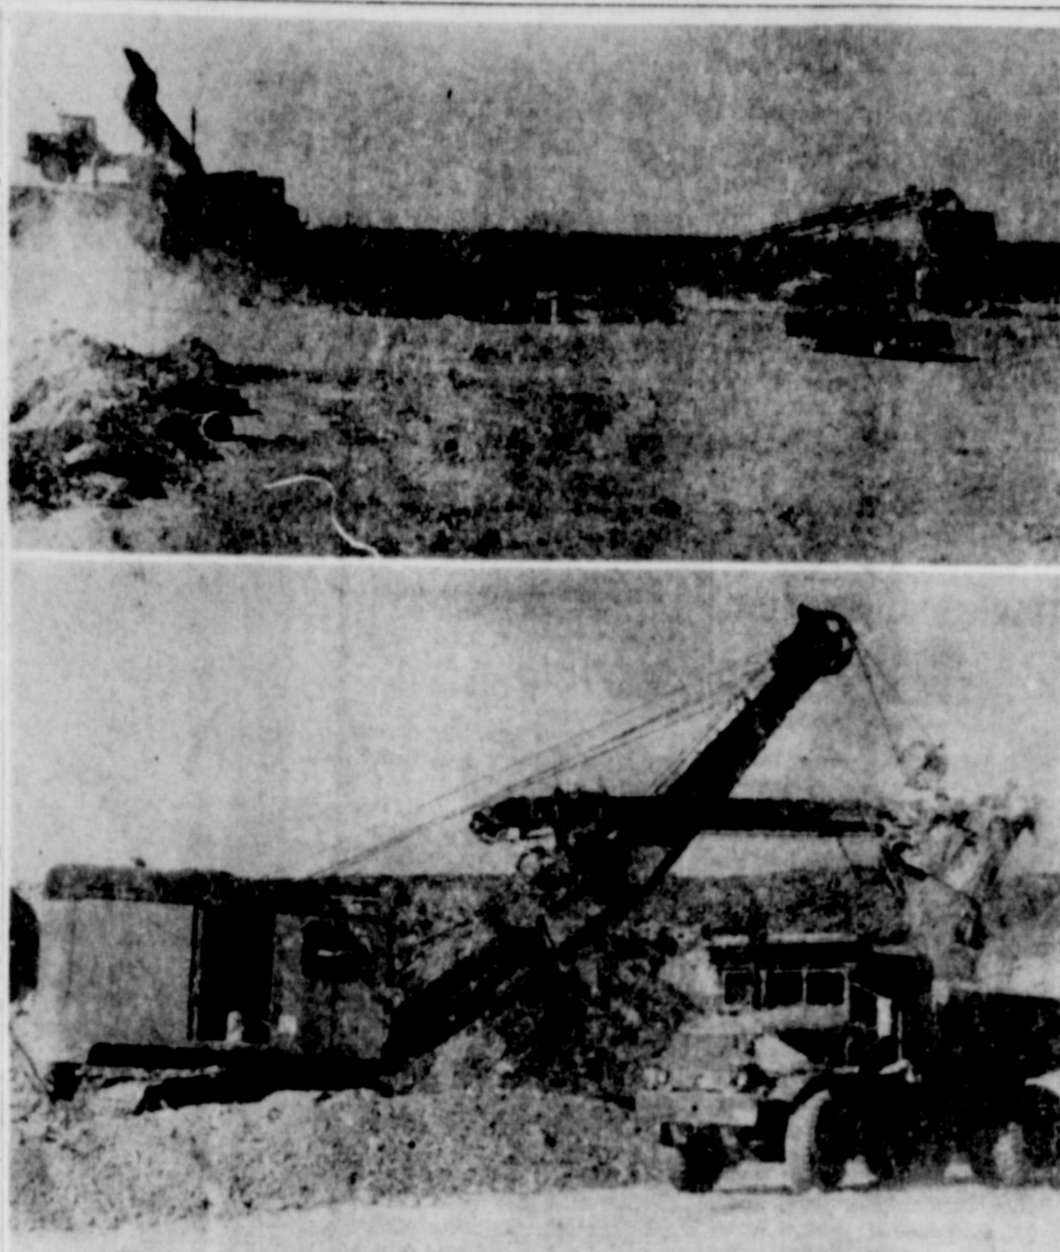

Interment was in Floydada cemetery under the direction of Harmon Funeral Home. Paul Fullerton, minister of the Church, read the rites. Pall bearers were Alva Sparks, Rex Brown, R. F. Stovall, Charlie Bedford, Aaron Carthel and Jeff Welborn.

Mr. Johnson, who resided in Orlando, Calif., was in Albuquerque on business when stricken. His wife, the former Doris Armstrong, their young son, and a sister-in-law were enroute home to Orlando from Albuquerque when stopped in Arizona and notified of the death. The Johnsons had been in this area for some three weeks after the death of their son, Kenneth Johnson, and his wife, both of whom were killed in an airplane crash near Grants, N. Mex.

The deceased lived in Floyd County 33 years before moving to California. He was born in Sweetwater, Tex., April 1, 1902 to J. E. Johnson of Riverside Calif., and the late Mrs. Johnson. He was married to his surviving wife Oct. 31, 1926.

Survivors include the wife; his father; two sons, Mike of the home, Newton Dale Johnson of Chico, Calif.; one daughter, Mrs. Frank Baca of Abilene, 12 grand-children; two brothers, Dr. Robert Johnson, and Joe Johnson of Riverside, and two sisters, Mrs. Mable Maciel of Monterey, Mexico and Mrs. Ruth Alford of California.

MRS. DAN GROSS IS NEW EXTENSION SECRETARY
Secretary at the Extension Service office in the agricultural building of Floyd County is Mrs. Dan Gross, who assumed the duties following the resignation of Mrs. Roy Ferguson to move to Lone Star.

This giant operation which crushed caliche rock on the Hollums farm, five miles north on Silverton Highway, closed shop last Friday after processing 65,000 yards of caliche to be used on the paving job in Floydada by Thomason & Co., contractors. At the top the shovel digs and leads the raw caliche while below the crusher is shown pouring out a thousand yards daily to store on a man-made mountain adjacent. (Staff Photo).

Fiscal Agent Releases 95th Block For Paving

Last weekend the fiscal agent is being piled up ready for the job. Filling the 'Caliche Pit' is the first of this week. The mayor thinks there may be enough earth and debris available to completely fill the hole unless the demand is too great for fills asked for by owners of the southwest part of the city. Nearly a third of the big hole in the ground had been filled the first of this week.

Mayor J. M. Willson Jr. said that several more blocks are due for approval as soon as some of the ownership problems are solved. Nothing of a major nature is in the way. The trend is all toward more demand for the work, the mayor indicated. But property owners have to be seen, their viewpoints considered and their problems resolved, he said.

The last of the mountain of caliche that will be laid on the streets for the paving base was processed last week. Superintendent A. B. Green of the Thomason Construction Company said that 65,000 yards of caliche were processed and stockpiled for the Floydada job.

Placed With Progress
Green was quite pleased with progress of the work at this point, he indicated Tuesday. He has four types of work progressing simultaneously. While dirt moving machinery is opening up streets two sets of workmen are laying curb and gutter, a third crew is piling caliche and a fourth is spreading and packing the base for the topping that is to come later.

Green indicated that the first 25 or 30 blocks will be worked out before a topping curb gets to work. He said the first topping crew might be put to work sometime next week. Tons of

W. R. Puckett Resigns Post
W. R. Puckett has resigned as Farm Bureau service agent in Floyd County to take a similar position in Reeves County, where the Farm Bureau is announcing the promotion of Sam Puckett to the post of general service agent in this county.

Sam has been serving as special service agent. Mr. and Mrs. W. R. Puckett will make their home at Pecos. Mrs. Puckett will join her husband as soon as she can complete personal and household business in Floydada.

A meeting of the county board last Thursday night at the local office gave routine administrative affairs attention and in addition decided to have a Queen Contest and talent find contest this year.

MRS. LOUIE MOORE WILL NOT BE CLERK CANDIDATE
Mrs. Louie F. Moore, widow of the deceased County Clerk of Lubbock County, will not be a candidate for the office made vacant by the death of her husband. Last mid-week Mrs. Moore announced that she would like to have the office for the unexpired term of her late husband, and applied for a place on the ticket. However, she re-considered late Friday and asked that her name be left off the ballot. She was appointed to fill out the unexpired term of Mr. Moore.

Electric Service Men Meet Here Tonight to Talk Appliance Sales
Electric power men and appliance dealers of Floydada, as hosts for the periodic meetings, will gather tonight at Rogers Restaurant and discuss common problems and plans for their coming appliance sales and promotions.

Southwestern Public Service Company, City of Floydada Light Department and Lighthouse Electric Cooperative, Inc., alternate hosts for the periodic meetings.

J. D. Parks will represent the City Light Department, Melvin Henry will speak for the Lighthouse Electric group and Don Pemberton will be present for Southwestern Public Service. Harry Webber of SWPS Co., sales department in Plainview, are expected to be in attendance.

Early Spring Construction Hits New High

New homes in Floydada, either under construction or recently completed, valued at city permit level, at almost \$200,000, have given the local construction industry a distinct boost in the first four months of the year 1960.

Several of the homes were contracted during the major period of rain and slush in January, February and March also contributed to the permit total, and April to date has seen five new residential permits issued.

In addition one small office and shop structure has been finished on 12th Street and two down-town business houses are being remodeled at a cost of several thousand dollars each.

House building inherited from late winter contracts had the builders busy before the new construction fervor made itself felt. Among the new homes finished in this year, based on a 1959 permit was that of Beal Ferguson on Lot 16, Block D, Andrews addition, permit for which was issued on Dec. 29.

January residence permits include:
R. C. Bullock, in Block C, Bowers & Price Addition, \$3,000; John Hearon, Lot 13, Block 9, \$2,250;

Homemaking Hints

BY Phyllis Roggendorff
County Home Demonstration Agent
Cleaning Upholstery on Foam Rubber
Much of the newer furniture is cushioned with foam rubber and upholstered with fabrics. If you are wondering if you can clean the fabric at home without damaging the foam rubber, the answer is yes. Just be sure to use a sofa cleaning agent.
To select your cleaning agent, consider first the nature of the stain, next the type of fabric, and lastly, the effect of the cleaning agent on foam rubber.
Soaps, detergents, glycerine, denatured alcohol, benzene, carbon tetrachloride, sodium hydroxide, sodium thiosulfate, and a weak solution of ammonia are acceptable cleaning agents as far as the foam rubber is concerned. Carbon tetrachloride should be used very sparingly though, because it is a rubber solvent.
Cleaning agents that do have a harmful effect on foam rubber are of the bleaching and oxidizing types. The following are not recommended: vinegar, turpentine, acetone, chlorine, hydrogen peroxide, orbic acid and sodium perborate.
If the nature of the stain or the type of the fabric calls for the use of one of the above cleaning agents, the fabric should be removed from the foam rubber and cleaned separately.
District THDA Meeting:

If we made Gladiola Flour for Pipestem, W. Va...

our job would be lots easier... but we make it for you

Gladiola Flour is just for Texas—and you folks right next door. Every time we make a new batch, we know the best home bakers in America will be checking the quality.

These ladies have kept us on our toes for 47 years, but we don't mind. They repay us for doing our best. Every single day, Gladiola Flour outsells every other brand.

You can't get flour like this in Pipestem, W. Va.—or anywhere else but right around here. Try snow-white Gladiola Flour for your next biscuits, cake or pie crust. It's hard to believe it costs only about 1/2¢ a day more than the cheapest flour on the shelf.

(Pipestem is in Summers County, 8 miles from Jumping Branch)

Lakeview News

By Mrs. Q. D. Williams
LAKEVIEW, April 18 — Mrs. Weldon Harmonds won an electric drill at the R. E. A. picnic Saturday afternoon.

Barry Bristler and Junior of San Angelo visited the Warner Johnsons Friday and Saturday.

The Home Demonstration Club met Thursday noon with Mrs. Q. D. Williams in her home at the T. B. Ranch for a luncheon of foreign foods. The buffet table was covered with a scalloped pink linen cloth. An aqua colored pitcher of Mexican glass held white lilacs and pink roses. Lilacs and Easter lilies decorated the tables in the living room. Card tables set for four were covered with pastel cloths of pink, yellow and pale green. Eastern Star Honors Grand Lodge Guests

The Eastern Star Thursday night in Masonic Hall was honored with the presence of several Grand officers including Dr. R. O. Fuqua, Worthy Grand Patron of Texas; Mrs. Pauline Smith of Lubbock, past Grand Matron; and Frank R. Phillips of Canyon, past Grand Patron.

Other Grand officers attending the gathering were Raymond Wilson, Dimmitt; Mrs. Frances Austin of Plainview; Mrs. Zilda Smith of Plainview; Mrs. Clara Fuqua of Sweetwater; Mrs. Olga Phillips, of Canyon, representative from the state of Utah to the state of Texas. The grand officers were given the chairs of honor.

Prior to a business meeting and program the assembled group enjoyed a bountiful meal among decorations with an Easter theme. It was announced that \$2,200 has been laid on the new carpet now laid paving a small balance. Other announcements included the local chapter being invited to a May Day Tea honoring Mrs. Opal Roberson, Deputy Grand Matron of Hereford, by the Hereford Chapter, also the District 2, Section 4 school in Lubbock is to be on May 7 with coffee time beginning at 8 a. m., and drill time at 9:45.

Mrs. Alsie Hines, Eastern Star member, was reported home and improved.

Following the draping of the chapter charter in memory of Jess Patterson messages were given by the three top Grand visiting officers.

After the chapter closed a program of gaiety was presented by several members depicting the entertainment the Floyd City Chapter had available in 1898.

During the election of officers Hermar King was elected as president of the board for 1960 to replace John Smitherman, who was not eligible for re-election. Gerald Lackey is to replace Smitherman as a board member.

Assisting the new president will be R. C. Rathel as vice president and Maurice Campbell, elected as secretary-treasurer and re-elected to the board.

The construction men, the engineers and city council seem to be fully aware of the critical attitude not only as to quality of the paving to be done but the solution of the drainage problem as well.

Fire Hydrant Blows Out
Wednesday morning a river of water cascaded down California street for 30 minutes or more when a fire hydrant blew out at the corner of California and White.

Chas. Horton and a crew of men moved five hydrants a few feet each and removed two to be put at new locations in the interval between 12 o'clock midnight and

6 o'clock Wednesday morning. Everything was hotsy totsy until that rascal blew out. The water was cut off on all mains for several minutes at breakfast time.

sumed and the awarding of service pins to employees of Lighthouse Electric.

The presentation was made by Cotton John and the first pin started to Manager Melvin Henry for 20 years of service. Mr. Henry started his employment with the Cooperative in 1939.

Line superintendent Wiley Rogers received a 15 year pin, and ten year pins went to K. L. (Red) Gregory, service man; Edwin Pollan, maintenance foreman; Carl James, maintenance ground man; James (Buck) Marrison, lineman; Mrs. Nancy Morckel home economist; and O. A. Neff, lineman.

Gregory and Pollan have been with the cooperative 12 years and Lewis and Marrison eleven years. Five year pins went to Clarence E. Guffee, Wayne Hickerson, J. B. Statts, Wayne Collins, Edwin Neff, Claude Weatherbee, Nolan Arney, Jackie Duke, L. C. Ferguson, Jr., W. H. Hulsey, Julia Baker and Robert Norrell.

Guffee, Mrs. Hickerson and Statts were only short a year of service for a ten year award, and Collins, Weatherbee and Neff were short two years.

The others have been with Lighthouse seven, six and five years respectively.

King Elected President
Following the presentation of awards Jack Christian of the South Plains Co-op at Lubbock gave a report on Legislative matters after which unfinished and new business was taken care of.

DOG POISONING VIOLATES LAW, OFFICER POINTS OUT

Dog poisoning is a violation of the law, Police Officer W. Perry Smith reminds the citizenry. Quite a bit of poisoning has been going on in Floydada, probably on the part of people who have been harried by our excess population of canines. The practice is dangerous. Small children, toddlers and the like, are endangered for one thing, Mr. Smith said.

ECONOMY PROVED IN MOBILGAS RUN!

DRIVAIR CHEVROLET GIVE IT! IT'S REAL!!!!

A pair of Corvairs recently recorded 27.03 and 26.21 miles per gallon in the 2,061.4-mile Mobilgas Economy Run. That's certified proof that Corvair skimps on gas costs. It saves other ways, too. Corvair is the only U. S. compact car that never needs antifreeze or costly radiator repairs. Come in and drive the compact car that outdoes them all.

Things Corvair gives you that America's other compact cars can't:

- Practically flat floor... real foot room for the man in the middle. Fold-down rear seat gives 17.6 cu. ft. of extra storage space.
- Four-wheel independent suspension for a smoother, flatter ride.
- Rear-engine traction... that comes with the engine's weight bearing down on the rear wheels.

You probably realize already that the mileage figures Corvairs recorded in the Mobilgas Run are higher than the average driver can expect. But because the cars met every kind of driving condition—rugged mountain grades, long country straightaways, congested city traffic—those mileage figures prove Corvair's inherent ability to save. Operating costs take a nose dive the day you take delivery of a Corvair.

EDITORIAL VIEWS AND COMMENTARY

BACK HIM ON MAY 7
(A Contributed Editorial)

"I doubt if in the history of our government we ever have had a man so capable, able and efficient as Lyndon Johnson."

The speaker of those words probably comes as close to qualifying as an authority as anyone possibly can. He is Reiman (Pat) Morin, top foreign correspondent and former chief of bureau at the Nation's capitol for Associated Press. He spoke at a recent meeting of the Panhandle Press Association.

In a recent interview in a Washington newspaper, another noted author and columnist, Dorothy Thompson, had this to say:

"From what I know, Lyndon Johnson has been the greatest Senate leader in the history of the United States. I don't know what kind of a President he would make, but a friend in the Senate, who is not of the same party, tells me that he does everything from a long view. That's an asset. And he has an incredible gift of harmonizing people."

Miss Thompson is rarely wrong in sizing up prominent personalities. This estimation of Texas' own Lyndon Johnson will do her record no harm.

People of prominence are not the only ones who can speak for Lyndon Johnson. On May 7, every Texas Democrat will have the opportunity to say "I am for Lyndon — the most able of them all—for President of the United States."

The occasion will be neighborhood precinct conventions all over the state.

And that's where it will count.

Fellow The Directions. The country is full of poisons being used to control insects. Barrels and barrels of necessary insecticides are used in producing crops and the rate of use is growing. As the use grows so familiarity grows with them. Having them around, tends to induce carelessness. Handled rightly the poisons, like highly explosive gasoline, are safe enough. But poisons are not to be left lying around nor to be handled like ordinary substances. Poisons are made to kill. Read the instructions and follow them.

Good Planting Days. If you like to "plant in the signs" of the astrologer April 25-27 and April 30 are good days to plant above-ground crops, seed beds on the 30th, flowers on the 30th. May 1 and 2, May 8 and 9 will be good days also. Since most everybody plants or replants on Old Settlers Day it will also please the customers to know that May 28 and 29 will be good days for cotton and maize.

I never found the companion that was so companionable as solitude.
—Thoreau.

The Poor Man Pays.

Admitting that thousands, probably more than a million, Texans pay no taxes of any kind to the state and county, and that a sales tax would force them to help carry the state's tax load, there are simpler ways to make them help out than to put on a general sales tax. Most of these non-payers are quite expensive users of the state's welfare, educational and highway facilities. But to let the gap down and put them to paying the bills instead of basing taxes on the ability to pay would add greatly to the poor man's tax load.

Already the poor man, always just a wage earner, is keeping up the federal government. The federal law which was originally intended to take revenue from the wealthy man's pocket to carry on the government's affairs, has changed radically. Nowadays the wage earners because there are so many of them, are carrying the principal part of the nation's tax load. Big businesses do pay and pay dearly, but they do have ways of escaping, legally, taxes which would otherwise be ruinous. Gimmicks found by the lawmakers include the capital gains tax and the depreciation allowance, none of which the wage earner can avail himself of. He pays every pay day in full, without ever seeing the money. It is quite conceivable that the government could have his tax money in hand and spent for a given week before the taxpaying wage earner could get to the grocery store to buy his beans. And then add on the sales tax. We need to find another way. And big business should be first to realize this need.

The Bible Tells Me So.

It occurs to us that the sales tax proponents may be working on a biblical basis. You know in St. Mark, King James version, it says: For he that hath to him shall be given; and he that hath not, from him shall be taken even that which he hath.

If Disaster Strikes.

Should disaster strike in Floyd County this year Floyd County may want to resort to their record books to show the Red Cross how loyal the county has been for almost five decades. In that time the county has never failed to meet a quota, even during the days of the two depressions which the county experienced. In some of these years the memberships far exceeded any normal quota. We say we'll have to tell the Red Cross what we have done because it may be we are not going to make the grade currently unless somebody gets the crusading fever and goes out and gets the members that were lacking the last report we had.

Southwestern In Top Third Of Life Cos.

Assets of Southwestern Life Insurance Company now exceed \$400 million, it was announced here by R. E. Fry who represents the Company in Floydada. Measured by its financial resources and insurance in force, Southwestern ranks within the top 3 per cent among more than 1,400 life companies in the United States, Fry said. The Company reported early in March that it had reached the \$2 billion mark in insurance in force.

Fry also noted these additional evidences of progress from the Company's annual report for 1959:

Policy benefits totaling more than \$320 million paid since the Company was organized, including nearly \$30 million paid last year.

New investments in the southwest in mortgages, bonds and other securities totaling more than \$66 million in 1959.

An expanded area of operations, which took in Kansas and Missouri last year and now includes a 10-state region in the midwest and southwest.

Addition of major medical and disability income plans for individuals to the Company's broad line of life and health insurance coverages.

Floyd County 14 Years Ago

from the Hesperian of April 23, 1946

Keith Tye received his discharge about three weeks ago and has been visiting his parents, Mr. and Mrs. W. O. Tye. He has been in service three years and nine months making two trips over seas. He plans to go to California the first of May.

All search for Lt. Ray E. Ramsey, by the Army Air Force has proven futile in the year since he went down in a B-29 Superfortress raid over Tokio, and his wife, the former Zoe White of Lubbock, has been notified by the department that he has been given up as dead. Lt. Ramsey was here visiting with his parents, Mr. and Mrs. M. D. Ramsey and his wife in December, 1944. His plane went down in the raid on April 16, 1945.

Colonel and Mrs. James Badgett and daughter, Linda Carol came Friday of last week from San Antonio to spend 10 days with Colonel Badgett's brothers, Woodrow and Preston. Enroute here they visited his parents, Mr. and Mrs. D. R. Badgett at White-Wright.

Mr. and Mrs. Marvin Jeter are spending a few days with their daughter, Mrs. E. T. Williams, before moving to California to make their home.

Bryan Collins was discharged from the U. S. Navy at Norman, Okla., and returned home Saturday. He has been in the Pacific, at Guam and other points, during his service abroad.

Mr. and Mrs. Vincent Manning, accompanied by their son-in-law, Norvill Willis returned to Petersburg Sunday night from California where they spent three months while Norvill was recovering from injuries suffered in a car accident. Mr. Willis is doing nicely and stood the trip home just fine.

Captain and Mrs. L. D. Barber of San Francisco, Calif., arrived Saturday for an indefinite visit with Mrs. Barber's parents, Mr. and Mrs. J. R. Yearwood.

Hollis McLain, SI-C, U. S. Navy, is to arrive in California the 10th of May and expects to receive a discharge sometime in June. McLain has been in service nearly two years spending a great deal of that time overseas, in the submarine division.

Present for the hayride were Nita Patterson, Nancy Bishop, Joy Lambert, Mickey Kenamer, June Foster, Lovene Jones, Oragene Willson, Dwina Glassmeyer, La Vell Hall, Valrie Burke, Hughetta Smartt, Marjorie Oden, Jean Cardinal and Mariheleen Lewis.

The guests were G. V. Hall, Tuff Hall, Kelly Hagood, Pete McGee, James Finley, Kenneth Bishop, Tom Ballard, Glenn Carmaack, Roy Baxter, Orby McCleskey, Dale Sims and Louis Lloyd. Mrs. Romane, Miss Swepton and Mrs. L. L. Jones were sponsors.

J. O. McMillan, Once Of Floyd, Passed in March

Rev. J. O. McMillan of Beeville, Tex., and a former Floydada resident, died while in training at the First Baptist Church there on March 25. It has been learned here by Mrs. Helen Patterson, friend of the family. Mrs. McMillan, wife of the deceased, said her husband had been feeling as usual and went through the day on routine. He had conducted services the morning of his death, and in the mid-afternoon had gone to the church early to visit the pastor. He was stricken shortly after reaching the church, and pronounced dead on arrival at the hospital.

Rev. McMillan had suffered a heart condition for a number of years.

He and his wife lived in Floydada for three or four years, and Mrs. McMillan taught home making in Floydada High school during that time. Her husband was a retired Baptist minister.

Watering Down-Hill Wasteful Practice Research Indicates

One of the most wasteful practices in the use of irrigation water is applying this water to land having slopes of 1-3 per cent with the rows running down the slope. To illustrate this fact, water studies are being conducted at the High Plains Research Foundation comparing water usage on sloping land to a benched area of same acreage. An 8-row bench 726 feet in length and two areas of similar dimensions running down the slope were selected for this study. During preplant irrigation, 55,000 gallons or 4.6 inches of irrigation water were applied to the bench. This same number of gallons was applied to one of the sloping areas, but 12,800 gal. or 1.06 inches were lost in run-off, and the moisture was not sufficient. On the remaining sloping area, irrigation water was applied until the soil was sufficiently moist. To obtain this moisture, 100,000 gallons or 9 inches had to be pumped with 30,300 gallons or 2.5 inches run-off.

Mr. and Mrs. Dennis Dempsey and children spent the Easter-Easter holiday in Lubbock with her mother, Mrs. W. E. Watson, who has been ill but is much improved at this date.

YOUR FAT STOCK SHOW

You have had or will be having your fat stock show soon. I think you will agree with me this is one of the really big events of the year for our agricultural youth. The Fat Stock Show is one of the places our boys and girls have to show the results of their labors. For a year they have worked hard to make each of their animals a Champion.

The high light of the whole show is always the judging. This is always a very hard job because picking the winner is always hard as each of the animals in the show possibly could be chosen.

Let's all show our interest by going out and visiting the show. Tell the Exhibitors how wonderful a job you feel they have done. I know your interest and participation will be appreciated.

SPIRIT OF SERVICE IN ACTION

Every now and again I hear a warm, human story about people that makes me feel pretty good. I think this one will make you feel good, too.

Here's what happened: A man and his wife had come to court to adopt a little girl—a German orphan. But one of the officials told the man (dressed in a suit and sport shirt) that it was the local custom for a man to wear a tie when appearing before the judge in court. Protesting, the tieless man said if he were not allowed in court now, the adoption would be postponed, perhaps for months.

At this point, Jerry Sharp, a veteran installation foreman for Southwestern Bell who happened to overhear the conversation, removed his own tie and, handing it to the man, said, "Here, take mine."

Well, a few minutes later, the adoption proceedings were underway and the little girl had a new family. So often it's the "little" extra things you do that help the most.

BRIGHT IDEA FOR SPRING

Driving around Floydada the other day, I suddenly realized that Spring is with us again.

Everywhere I went — from Main Street to West on Kentucky—I saw the drab signs of winter being replaced by fresh new colors. Color seems to be the talk of Spring.

Perhaps you've seen our magazine ads suggesting that you "pick-a-phone from a garden of colors." It's a timely reminder that a color extension phone is an easy, inexpensive way to add a dash of color, and time-saving convenience, to any room. Nine beautiful colors to choose from! You can order yours by calling the telephone business office.

All the state wants is the name and address of the owner of the boat, its serial number, make, model (year built) and length, its construction (wood, plastic, etc.), whether it's an inboard or outboard, diesel or gasoline powered, and for what purpose it is being used (business or pleasure).

Application must be notarized, then forwarded to the Texas Highway Department (40th and Jackson) in Austin — along with a money order or cashier's check covering the fee.

Fees are based on the length of the boat. For those under sixteen feet the fee is \$1; 16 to 26 feet, but not including 26 feet, \$5; 26 to 40 feet, \$10; 40 feet and over, \$12.50.

Outstanding Citizens Given Ovation At Lockney C-C Meet

Mrs. Betty Knox, wife of R. L. Knox, Jr., was awarded an inscribed trophy as the outstanding woman of the year 1959 at the annual banquet of Lockney Chamber of Commerce last Thursday night, and Charles Boedeker drew the accolade as the outstanding citizen.

R. M. Olsen, last year's award winner, cited the records of Mrs. Knox and Mr. Boedeker in numerous civic and community endeavors as he presented the trophies.

Two hundred members and guests of the chamber of commerce gathered for the annual feast in the high school gymnasium. Barry Barker was master of ceremonies for the lively program which was held.

Speaker of the evening was Louie E. Throgmorton, of Dallas, an insurance tycoon. Between quips and jokes he presented the need for community oneness in striving for better communities and greater civic and industrial achievement throughout the land. His praise of the accomplishments of Lockney citizens was warm.

fore and aft as well as a green light on the starboard side and a red light on the port side.

Sail boats under 40 feet in length must carry the red and green lantern, but not the white light. However, they are required to have a lantern or a flashlight aboard to be used in sufficient time to avert collision.

Every boat — regardless of size or make — shall have aboard

one coast guard-approved life preserver, buoyant vest, ring buoy or buoyant cushion — for each person on board. And it is the owner's responsibility to see that such equipment is in his boat.

This, regardless of who is operating the vessel.

There are several exemptions to the numbering provisions. However, for the most part the only exemption for private boat owners is the one granted for boats powered by motors of 10 horsepower or less. You fellows don't need to be concerned one way or another — except for the safety requirements.

In your case the safety provisions applicable include a required life preserver for each occupant and a white light to exhibit between the hours of sunset and sunrise.

Under this new law, drinking boat drivers are subject to fines of from \$50 to \$500 and imprisonment up to six months, or both fine and imprisonment. Same applies to intoxicated skiers.

Boat towing skiers must be operated at a reasonable distance from persons and property so as not to endanger the life or property of another person. Fines for violations range from \$10 to \$50.

Who is to enforce the law? Any peace officer has the authority to make arrests and to board any vessel which does not have a proper identifying number or is being operated in a reckless manner.

He can issue you a "ticket" the same as a highway patrolman.

If properly administered and enforced, this law could prove to be a very valuable piece of legislation — in the interest of greater and safer boating pleasure.

Dodge Dealers are such nice people. Example: Dart prices start as low as \$2278. Yet many dealers are shaving the price even lower. See your Dodge Dealer soon. He always carries a sharp pencil.

Dart: niftiest, thriftiest low-price buy!

DODGE DART

There is no reason in the world to pay a big price for a car when Dodge Dart gives you everything anyone could want. Dart is a truly fine car, smartly styled and tastefully appointed, with roomy, made-for-comfort interiors. And Dart's new Economy Slant "6" really saves on gas ("regular," too). So buy a Dart—and bank the difference.

YOUR LAST LAP

Now that we are on the last lap of this school term, what is your attitude toward the whole thing? Is it one of "I'm going to quit studying and go off," or "I'm going to finish up the year as energetically as I can?"
For the sake of our school spirit for the remainder of the year, don't let Spring Fever creep in and dull your energies. Keep your feet on the ground, not in the clouds, and let your mind be as sharp as a razor. Will you be as a junior be eligible for the senior ring? These questions should remain you of the goals ahead.
Let us get on the "A" person can be on the right track. And still get run over, if he doesn't keep moving.

Suggestions Made For Improvement At Floydada High

You have heard the proverb "Everything, no matter how good it may be, can be improved." Here are a few suggestions for improvements at Floydada High.
George Patton - Longer luncheon period.
Wayne Cage - Freshmen could have more respect for upperclassmen.
Gene Franklin - More assemblies.
Pat Ginn - All teachers should be finalists in the Miss Universe contest.
Tiny Copeland - I'd make all the clocks read the same time.
Bill Colston - Improve school spirit.
Helen Whitfill - I'd have lockers instead of baskets in the girls' dressing room; so that no one could steal my sock.
Sherlene Teeple - Air conditioning for when it gets hot.
Martha Dyer - The buses on the north side of the building should be moved before I run into one.

Banquet Given FHS Bandsters

The annual band banquet was held last Thursday, April 14, in the cafeteria and band hall. Sponsored by the Band Boosters, the banquet hall was beautifully decorated in an Easter theme.
Chosen by popular vote of the band members, Miss Nancy Watson was presented as Band Sweetheart by Bob Ed Dempsey, band captain.
As gifts of appreciation, Mr. Dun Whitaker, band director, presented a gift certificate and a plaque was given to Dr. Patzer.
"This was one of the nicest and best band banquets that FHS has had," commented some of the students.

Juniors Have Three Sponsors - Baker, Dalrymple, Dalton

Those years of teaching were spent at Saratoga, Pleasanton, and Centerville. She has sponsored either a junior or senior class every year that she has been science and English. Before he went to college, he was in the signal corps for six months until he was released the latter part of March.
This is his first year of teaching, but he taught physics, trigonometry, geometry, and Algebra I for three months at Yoakum, Texas. Mr. Baker teaches plane geometry, solid geometry, and three classes of algebra here. Last summer he taught trigonometry instead of solid geometry. In addition to this heavy schedule, he also drives a bus.
Mr. Baker has a good background for his teaching career. His father is the superintendent of schools at Roaring Springs and his mother is a fourth grade teacher. He has one sister, Patsy, who has visited FHS several times.
Popular and classic music and black and red are among his favorites. When referring to food, Mr. Baker says, "Steak is hard to beat." He enjoys swimming, horseback riding, and other outdoor sports. His pet peeve is grading papers (sometimes) and, above all, teaching Jerry Battey.
At the present, Mr. Baker's plans are to teach at Floydada next term. His plans are not definite thereafter. He has commented that FHS is one of the outstanding schools of the area with a good administration and good students, usually.
Mrs. Valasia Dalrymple, teacher at the Sam Houston State Teacher's College in Houston, Texas, where she majored next term at Floydada.

Broadway News

By Mrs. T. E. Thornhill

BROADWAY, April 18—Easter of 1960 has come and gone. So many years ago our Saviour rose from the grave, yet how few times we really stop to thank God for a Living Saviour and how very little we do for our Lord. How we pray that this year we will be better Christians and many will accept our Jesus as their Saviour.

Saturday afternoon Mr. and Mrs. Dewey Parsons and sons, Tony, Kirk and Keith of Ft. Worth, Junior, David and Cathy Long of Tulsa, Okla., and Bessie Smith of Crosbyton were callers in the T. E. Thornhill and M. R. Givens homes. The Parsons' and Longs were spending the Easter holidays with Mrs. Parsons' and Mrs. Long's parents and grandparents, Mr. and Mrs. Homer Smith and Mr. and Mrs. Earnest Smith of Crosbyton.

Mr. and Mrs. A. D. Whalen were visiting on Wednesday with Mr. and Mrs. Richard Sudduth and Diann.

Mrs. Richard Sudduth and Diann were Wednesday afternoon callers of Mrs. T. E. Thornhill. Mr. and Mrs. Kenneth Leatherwood of Lubbock visited a few days last week with Mr. and Mrs. Billy Cornelious and Mr. and Mrs. W. H. Leatherwood.

Sunday School attendance was down Sunday morning. Seems more of our folks went visiting than we had visitors, tho we had several visitors for church, who were not there for Sunday School.

Betty Berry, student of Amrillo was home for the Easter holidays.

Thin Clads Go To Regional In Good Numbers

The ladies club met Thursday of last week in the home of Mrs. W. H. Rathel. All reported a very nice time. There were several present.

Mr. and Mrs. Ben Beckham were Monday overnight guests last week with their daughter and family, Mr. and Mrs. Calvin Beckham and Barbara Kay in Lubbock.

Mr. and Mrs. Billy Webster and children were Sunday visitors in Calgary with his folks, Mr. and Mrs. Ray Webster and children.

Mr. and Mrs. S. R. Campbell and daughters, Mrs. Leo Marley Holder of Hale Center, Mrs. Ivey Wall, Mrs. Elvie Richardson and Mrs. Viloa Marley attended funeral services Friday in Rochester for an old friend of the Campbells.

Saturday morning Mrs. Elvie Richardson accompanied Mrs. Holder to her home in Hale Center.

Sunday Mr. and Mrs. S. H. Campbell, Mr. and Mrs. Elvie Marley and Yvonda were guests in the Holder home. Mrs. Richardson returned home with them Sunday afternoon.

Mr. and Mrs. Biddie Wall and Don visited over Saturday night and Sunday in New Mexico with Mr. and Mrs. Charlie Wall and with the men's mother.

Mr. and Mrs. Hoyt McClure had as their weekend guests their son and family, Mr. and Mrs. James B. McClure and children, Debbie, Mike and Martha Jo of San Antonio. Mr. and Mrs. Duane McClure and Rheta, Mr. and Mrs. Ronald McClure, Rhonda and Brenda. Another Sunday dinner guest was Hoyt's mother, Mrs. C. A. McClure of Crosbyton. Sunday afternoon callers were Mr. and Mrs. Jerry McClure of Lubbock and Mr. and Mrs. Weldon McClure.

Mr. and Mrs. D. D. Thornhill visited Sunday with Mr. and Mrs. Homer Miller in Croton.

Sunday visitors in the Herman Morris home were his mother, Mrs. Jessie Morris of Spur, twelve brothers and families, Mr. and Mrs. H. E. Morris and sons of Lubbock and Mr. and Mrs. G. B. Morris and sons of McAdoo.

After church Sunday night Mr. and Mrs. Billy Webster and children and Mr. and Mrs. Leo Reidell and family enjoyed coffee with Mr. and Mrs. Harold Trull and children.

Mr. and Mrs. Claude Sudduth took their son, Jim back to Lubbock Sunday afternoon. Also while there they visited in the home of another son and family, Mr. and Mrs. David Sudduth and Gary.

Sunday dinner guests with the Claude Sudduths were Mr. and Mrs. Richard Sudduth and Diann.

Friday evening callers with the Claude Sudduths were Mr. and Mrs. Preston Weeks.

Mr. and Mrs. Bill McCray and girls spent a few days last week in Colorado.

Among those enjoying the OES Friendship night at Floydada on Thursday night of last week were Mrs. D. D. Thornhill, Mrs. A. D. Whalen, Mrs. W. H. Leatherwood, Mrs. T. E. Thornhill and Mrs. Arnold Goggles.

Mr. and Mrs. D. D. Thornhill were Saturday night callers of the Earnest and Homer Smiths of Crosbyton, of course they also enjoyed a visit with Mr. and Mrs. Carl Long and children of Tulsa, Okla., Mr. and Mrs. Dewey Parsons and sons and Paris Perce all of Ft. Worth as well as a sister of Mrs. Earnest Smith from Tulsa. All were Easter guests in the Smith home.

Mrs. Barbara Gibson and

Thin Clads Go To Regional In Good Numbers

daughters of Plainview attended church at First Baptist in Crosbyton Sunday morning with her parents, Mr. and Mrs. H. L. Starrett.

Well we didn't receive any rain for Easter but we surely did get a cold windy day and the day before was so hot guess that made the weather seem even colder.

Ardith McCray of Lamesa was a Tuesday caller of his brother, Bill McCray.

Mr. and Mrs. Eldrid Parker, Mr. and Mrs. Leo Parker all of Lubbock, Mr. and Mrs. Aaron Parker and family, Mr. and Mrs. Leland Rankin and family all of Odessa, Mr. and Mrs. Pete Hager and baby of Jayton, Mrs. Mack Rickles and boys of Matador, Mr. and Mrs. Delton Roberts of Spur all spent the week end with their parents and grandparents, Mr. and Mrs. Lee Parker.

Mr. and Mrs. Lee Parker and Mr. and Mrs. J. C. Joplin attended church services at Bethel Baptist Church in Spur Thursday night of last week.

On Friday afternoon Mrs. Parker visited with Mrs. John Rinehart in Spur.

BIBLE BAPTIST CHURCH

WHY ARE WE AN INDEPENDENT MISSIONARY BAPTIST CHURCH

We are to begin a study in our Wednesday night services on the subject mentioned in the heading. We shall answer many questions that have been asked by different people such as:

I. What do we mean by an INDEPENDENT Baptist Church?
II. Why are we not affiliated with any Convention, Association or Fellowship etc. that tends to bind the Church from being Independent Baptist?
a. Does any organization outside the LOCAL Church have any Spiritual Authority?
III. What do we mean by saying we are MISSIONARY Baptist?
a. Why do we not have any Mission Board to send our money to, or to approve our Missionaries?
b. Does any Board, Fellowship, or Convention etc. have the right to APPROVE Missionaries, or is this Authority given only to the Local New Testament Church?
c. Why does only a part of the Money sent through a mission board go to its missionary?
d. What happens to excess money that is left in the Mission Board Treasury?
IV. Why do we use the Bible as our ONLY Text Book in Sunday School?
a. Why do we not use the INTERNATIONAL UNIFORM LESSON SYSTEM used by Conventional Baptist and most Denominations which is prepared by the NATIONAL COUNCIL OF CHURCHES?
b. Why does these lessons prepared by one man or several men have the appearances of the work of the Pope?
c. Why should the Bible be studied verse by verse and chapter by chapter?
V. Why do we not use the so called, "REVISED STANDARD VERSION" of the Bible, that was written and also copied by the NATIONAL COUNSEL OF CHURCHES, so often called the "COMMUNIST BIBLE" and has been so highly advertised by many Conventional Baptist Religious Papers, such as the Baptist Standard, etc.?
VI. We have no personal fight with any man, but we are going to show why MODERNISM, COMMUNISM and WORLDLILINISM has tried to destroy our churches. (Eph. 6:12)

STATE CAPITAL Highlights AND Sidelights

AUSTIN. — First it was \$100,000 homes for college presidents. Now it's \$36 door-knobs for the State Office Building that have cost-conscious legislators blowing their tops.

Legislature went through an arduous seven-months tax raising session last year to scrape up enough money to keep state services going. Despite all the problems and criticisms they weathered, it wasn't enough. Now they are face to face with the prospect of another deficit next year and the need to raise more taxes.

It is in this not-so-rosy setting that the House Committee on Saving Taxes is checking into how state money has, and is being spent. When they heard that the terrazzo floors in the brand new State Office Building had cracked, committee members decided to investigate further into the \$3,738,000 building.

They learned that the air conditioning system vibrated excessively, that the building had 1,000 elaborate door knobs, costing \$36 apiece, and that there were telephone booths in the hallways lined with expensive marble. Some offices had no doors.

They learned that the air conditioning system vibrated excessively, that the building had 1,000 elaborate door knobs, costing \$36 apiece, and that there were telephone booths in the hallways lined with expensive marble. Some offices had no doors.

They noted that the Texas Employment Commission Building, just across the street and to the

casual observer equally as handsome, cost only \$14.33 per square foot compared to \$17.40 for the State Office Building.

Cracked floors now are being removed and replaced by the contractor, at no cost to the state. Efforts are under way to smooth out the knobs in the air conditioning. Legislators are an happy at the lack of supervision and inspection while the building was under construction.

H. R. Nieman, who became director of the State Building Commission after the building already he agreed the structure was probably wasteful in some features. He attributed this to inadequate supervision. Steps are being taken to watch this more closely on future projects, he said.

RAW MATERIALS — Gov. Price Daniel has promised to have two sets of ingredients ready when the State Finance Advisory Council meets May 19 to begin shaping up a long-range fiscal policy for the state.

Daniel will present to the committee. (1) A 10-year projection of budgets of agencies which represent the state's main money needs — schools, highways, hospital and welfare.

(2) Five suggested new tax plans. He does not intend to make the five tax plans public before the committee meeting, said the governor, because he doesn't want them to get involved in the current political campaigns.

It is certain that the governor's proposed tax plans will not include a general sales tax or income tax, both of which he has long opposed. However, he said he will ask the committee to look down the road and "report honestly whatever you find and let's see how long we can go without sales or income taxes."

HOUSTON U ASKS AID — Now under consideration is whether the University of Houston should become a fully state-supported college. Commission on Higher Education will hear a report on its staff findings probably in October and make a recommendation to the Legislature, pro or con, next year.

In making their bid before the Commission, Houstonites said the state would get a \$22,000,000 in-

stitution with a 275-acre campus, all free of debt. In return, it would need to spend about \$4,000,000 a year for operating it.

Increased costs have forced the school to raise its tuition fee to \$600 a year and more, with a resulting drop in enrollment. Tuition at state colleges is only \$100 a year.

Council of State College Presidents opposes the move on grounds that the state cannot afford to spread its support any thinner without a damaging drop in quality.

Heutoniens point out that their county has 10 per cent of the state population, pays 20 per cent of state taxes, but has no state college in the area.

SPORTS FUNDS DUE INQUIRY — Commission on Higher Education has ordered an investigation of rumors that state money is being used by some colleges for intercollegiate athletics.

A previous report to the Commission had indicated that this was usual among all schools except those in the Southwest Conference which get enough from gate receipts to support athletics.

Requests by six schools to expand their course offerings are under study. Each proposal will be considered at least six months before approval or disapproval.

LABOR'S CASES UPHELD — State Supreme Court ruled that labor unions have a right to present grievances to a school board if they do not claim the right to strike.

It overruled the position of the Dallas School Board that dealing with the union would be the same as recognizing it as a bargaining agent for public employees and therefore contrary to law.

In another case the high court struck down the sentences imposed by a Dallas judge on three labor officials for picketing in violation of his court order. Because they were picketing a business that is in interstate commerce, their action was held to be a case for federal, not state courts.

STATE DEFICIT DROPS — Annual payments of taxes on corporation franchises and insurance premiums are whittling down the shortage in the state general revenue fund.

After hitting an all-time-high of \$88,000,000 in March, the deficit dropped to \$76,496,922. It is expected to drop further through the spring but not enough to get out of the red this year.

as. States with higher crop expectations are (1) Kansas and (2) Oklahoma.

As a Farm Woman Thinks

CONCLUSION OF MEMORIES OF MRS. MARGARET WITT

I stayed with Grandma and Grandpa Hunter and went to the Weatherford College one year. They taught the lower grades then. The President was named Taylor. I recall some teachers and pupils: Fritz Lanham, Byron Flannery, Mary Owens, Mary Hines.

John worked for the Thompson Nursery, and I kept two boarders. The nursery was two miles west of Weatherford on the Palo Pinto Road. The house had four rooms, back porch with curtain, a good big kitchen and a pantry.

Nellie was born there May, 1898. Grandma Hunter was with me. Mrs. Thompson died with heart trouble. Mr. Lord and Mr. Maxwell were my boarders. Mr. Lord put in the first tomato cannery in Weatherford. Mr. Maxwell was a telegraph operator. 50 cents worth of sugar lasted a week.

I boarded and washed and ironed for them for \$10.00 per week. Jennie Dean came to see me and had on such a pretty Panama sailor with ribbons tied in a big bow in the back. I just had to have one so we walked back to town, two miles, carried Nellie and I bought me one.

Fannie Dean was such a pretty bride. Annie Hunter, who was an excellent seamstress, made the pink wedding dress and a brown one for the "going-away" dress. An old lady came in to see the dresses and told Fannie that pink was very unlucky so Fannie married in the brown dress. She and Felix Franklin were married at the Dean home on Sunday eve. They spent the next day at the Jones home.

Fannie had taught school at Bear Creek, one or two terms. She had taught in Red River County before the Deans moved to Weatherford.

We all cried when Betty Dean married Felix Smith but her sister Josephine, Jo said she was determined to cry when Fannie married.

Bettie married a wealthy man from Austin, Texas. We were all very happy when they came for a visit and brought their two children, Edwin and Annie. Jennie Dean married Ridley Davis and he had one teacher's certificate out of the eight then in Texas.

I was married in the room where I was born. All my brothers and sisters were born in the same house. I played with broken china dishes that the Jones' family had brought from Tennessee. They were beautiful. We swung across the creek on grapevine swings, walked in the woods for flowers and enjoyed our many cousins, aunts and uncles and grandparents. We were a Happy Family.

The way to the Plains was long and hard. Nellie and Lowell were

'Interviews' Feature WMU 'Travelers'

The Women's Missionary Union of the First Baptist Church met on April 13 for their regular monthly meeting.

Mrs. Travis Jones, president, presided over the executive session with Mrs. E. D. Morgan, Mrs. Garland Foster, Mrs. Everett Collier, Mrs. Carl Denison, Mrs. Ed Bowles, Mrs. O. F. Cummings, Mrs. W. S. Simmons, Mrs. O. G. Mayfield and Mrs. T. L. Holland present.

Mrs. Andrew McCulley directed the Mission program which followed on "More Than a Name". The setting was a television interview of travelers from Europe. Mrs. Gordan Hambright introduced the travelers and Mrs. Joe Wilson, Mrs. Robert Garrett and Mrs. Simmons told the history of their personal given names.

Mrs. Bob Durham was news reporter and interviewed Mrs. E. D. Morgan, "returned traveler" from Italy. The television audience asked questions and gave comments on each interview. Television commercials were given by Mrs. Truett Hart, Mrs. L. D. Simpson interviewed Mrs. J. D. McBrien on her "trip to Spain".

The closing interview was film my children then. I went with my family and John stayed and clerked in a store. I was taken back to Colorado City and went back to Weatherford on the train. We moved two years later. John taught singing schools sometimes.

A better life for Rural Texans
The Electric Cooperative turned the fabled Little Red School house into a modern training ground for our future rural leaders, and provided many advantages their parents were denied.
On the average, today's rural young people will be bigger and healthier. They will have a longer life expectancy. But they will also have responsibilities.
Their mothers and fathers borrowed money at interest to build their own electric systems in rural areas. In most instances, they are ahead of schedule repaying principal and interest on their loans. But, an expanding population and increased rural industry will require heavier lines and equipment to insure continued good electric service. These rural young people are the future member-owners of the electric cooperative serving their area.
Thanks to the Electric Cooperative, they will be far better equipped, mentally and physically, to assume their share of the continuing task of Providing Partnership Power For Progress.

New control for cotton seedling damping
Captan-Terraclor 10-10 seed protectant is your answer to the problem of poor cotton stands due to seedling rots in cold, damp weather.
It reduces your production costs because it cuts the expense of replanting, and helps you get better, more uniform stands of healthy plants. Also, you can plant your seed earlier with greater safety.
Stauffer Captan-Terraclor 10-10 is a specially formulated combination that gives you two-way protection. It protects against damping-off (Rhizoctonia), plus Pythium, Fusarium and other soil-borne diseases.
Use Stauffer Captan-Terraclor 10-10 when you plant your seed. It's your weapon against troublesome, profit-robbing seedling diseases. See your dealer for pamphlet: Stauffer Chemical Company, Lubbock or Houston, Texas.

100 Of Local Income From Govt. Sources

The Hesperian reported that 100 percent of the local income from government sources is derived from the state and local governments. The state and local governments contribute 6.6 percent, which comes from the state and local governments. Some areas get an unusually high proportion of their income from such sources, it is noted, generally because of a greater amount of public employment there or an unusual concentration of retired people. In some cases, it is because the locality is the seat of government or the location of a large, publicly-sponsored project. The range is wide. Total government funds figure at least as a proportion of income, in the State of Delaware, where they amount to 12.8 percent. They rise to a maximum of 29.9 percent, in Virginia. An examination of state and local contributions to personal income show a minimum, again, in Delaware, where it is 4.8 percent, and a maximum in Louisiana, 10.4 percent. With income, after taxes, at \$17,007,000 in the year in Floyd County, as reported by Sales Management, the net amount locally from government sources is computed to be \$3,147,000.

Mr. and Mrs. R. C. Ross had home for the Easter holidays their daughters and families, Mr. and Mrs. Book Ragsdale of Baileyboro and Mrs. Norma Craig and children of Roswell, N. M. All returned home Sunday afternoon. Mrs. Ross' father, S. A. Guffee of the Campbell community dined Sunday with the Rosses.

Easter weekend guests of the Thomas Warrens were her sister and family, Mr. and Mrs. Bob Aldridge and children of Hobbs, N. M., and their mother, Mrs. Charley Battey of Floydada.

Mrs. Doyle Sandifur returned home Thursday from a Quanah hospital, where she was admitted last Monday for minor surgery. Some of her visitors soon after her return were her brother and family, Mr. and Mrs. Willard Crump and son, Bennie of Plainview, Mr. and Mrs. B. P. Sandifur and Mrs. Gaynelle Fuston of the McCoy community and Mrs. Hal Thomas and Sue. Mrs. Sandifur appreciates the cards, visits, flowers and phone calls she has received since and during her illness. We all know what a nice person Willie Merle is and hope she will soon be well again.

Mr. and Mrs. C. W. Denison visited Friday night with their son, C. W. Jr. and family of Brownfield. Also present for supper were their other son, Gilmer and family of Lubbock and Mr. Denison's brother, Dr. Dallas Denison of Brownfield.

Mr. and Mrs. C. W. Denison attended an 84 party and chicken supper Thursday evening at the home of Mr. and Mrs. E. W. Walls, Fairview. Others present were Mr. and Mrs. Clyde Bagwell and Mr. and Mrs. Walton Wilson and Judy.

Mrs. Frank Dunn and Mrs. J. D. Welborn and Jo Anne visited Mr. and Mrs. Doyle Sandifur Saturday evening.

Mrs. Gerlie Campbell and Mrs. Charles Horton visited Mrs. Sandifur Monday morning.

Mr. and Mrs. Weldon Cumbie and Ruby of Plainview, Mr. and Mrs. Walter Sims and Jack Fuqua visited in the Charles Horton home Sunday.

Mr. and Mrs. J. D. Welborn and girls spent Easter in La Fors visiting relatives.

Local Rebekahs Attend Meeting At Petersburg

Several from the local Rebekah Lodge were in Petersburg last week to hear the program of visiting Sadie Patterson, president of the State of Texas Rebekah Assembly.

Her program was outlined by the theme, "Take Time for Others". Her flower is the yellow rose, and members from the Floydada Lodge who attended, presented the president with a money yellow rose to use toward her project for the year.

Mrs. Patterson has chosen for her project a fund collection for a business or nurses course for a deserving boy or girl. She is asking each member from the state of Texas, one penny, to help out in the project.

This scholarship will enable local boys and girls to apply for the courses. Two applications were given the Floydada Lodge and any girl or boy worthy may contact Barbara Hatley. Attending the meeting and salad supper at Petersburg Lodge from Floydada were Wanda O'Neal, Barbara Hatley, Jane Marquis, Marie Stutts, Emma Brock, Grace Grundy, Lola Allen and Minnie Fay Thomas.

Those on the program from Floydada were Mrs. Stutts, Mrs. Thomas and Mrs. Marquis. The money rose was presented by Mrs. O'Neal.

NOTE OF THANKS

This is an attempt to express our deep gratitude to all our wonderful friends and relatives, who showed us the quality of their love in the hour of bereavement. The sadness of parting was veiled by the greetings of you friends. We pray that you will share God's blessings with us.

Church attending a Brotherhood meeting.

His son, Jerry, just home three days from a year and a half tour of duty overseas, was within ten feet of his father but escaped uninjured.

The Plainview man was a live stock feeder and had resided in Plainview for a number of years. He is survived by his wife, two sons, Jerry, 23, and Johnny, 13, both of the home; a brother and one sister, Mrs. Walter Jordan of Mason, mother of Mrs. Craig will be grafting done sometime

Definite Recovery Signs Are Evident For Burns Victim

Good news has been received from the Jim Carey family at Galveston in the way of a letter last week from the mother.

Mrs. Carey related that Jim is improving fast now. His fever has broken and his medical shots have ceased. Mrs. Carey said if he continues to improve there will be grafting done sometime

this week on his right hand. There is a possibility that grafting will not have to be done on the elbow as first thought.

The injured man is able to be up and about some in a wheel chair and is eating better, Mrs. Carey said.

She said that he appreciates his cards and letters from home, and the Hesperian. Jim is in Ward 8-A of the John Sealy Hospital, at Galveston.

Your Guide to the Best in Aluminum Values

USE UP TO 45% LESS WATER!

... with portable irrigation and Alcoa Aluminum Pipe!

Save again on leveling, installation and care with a sprinkler or gated system tailor-made of Alcoa Aluminum Irrigation Pipe!

You get *bonus* benefits when you deliver the right amount of water to your crops—as it's needed throughout the growing season—with portable irrigation using Alcoa® Aluminum Pipe. You'll find it uses only about 55 per cent as much water as flood irrigation; is more economical to install, easy to move; eliminates most leveling and ditching.

There's an Alcoa Irrigation Pipe for every need!

Alcoa Standard Class 150—tough enough for rough handling, strong enough for high pressures over long hauls—comes in eight diameters from 2 in. through 10 in. Alcoa Lite-Line comes extruded—light weight and low cost for most average uses; and welded—alclad inside for maximum corrosion resistance. It's available in nine sizes from 6 in. through 12 in. for high-volume sources. Both Alcoa Standard Class 150 and Alcoa Lite-Line come in lengths of 20, 30 and 40 ft; larger sizes of Alcoa Lite-Line, Welded, in 50-ft lengths.

Ask your irrigation supply dealer about Alcoa's 48-Month Irrigation System Finance Plan!

Provisions of this finance plan allow your new irrigation system to serve as collateral against your loan. There's no red tape . . . you get immediate action on application for a loan. Irrigate while you pay for your system out of increased profits.

Your Irrigation Dealer has quality Alcoa Irrigation Pipe available for immediate delivery from local stocks. He is an expert on irrigation engineering and can provide local service on a complete irrigation system tailored to your needs.
