THE DEADLY TRUTH-About traffic safety in Texas in 1959 was that only one day

in the whole year was free of traffic deaths. In 1958, there were five "Deathless Days"

in Texas, four in 1957, five in 1956, three in 1955. If more Texans will drive in such a

way that their cars are never involved in a crash which takes a human life, then Texas

can record more "Deathless Days." Will YOU drive so that the Fourth of July holiday

will add a "Deathless Day" to the Texas traffic calendar? (Official 1959 Texas Traffic

Most Important Occupation. Politicians are much maligned, but they are engaged in the country's most important profession! The politician is the man who man's the country's policy-making posts from precinct to national level. He is the man who makes the laws, sways the people to his way of thinking. He has the destiny of the country in his hand. Consider the politician. We mean consider!

National Political Scene. The Democratic nominating convention in Los Angeles is the next move in the political world. Senator Kennedy, the Massachusetts man, is far and away the leader in the pre-convention reports. But there will be strong pressures to keep the senator from getting the Democratic Party embroiled in a religious battle. The senator thinks the religious issue should not be involved. Neither do we, but human nature being what it has been since the beginning the leaders in the Democratic party will take a long, hard look before they yield to his persuasions, we think.

The Democratic Party could go further and do worse than to name Senator Johnson or Senator Symington of Missouri. Neither might win but the battle could be staged on issues other than religion. We are averse to the nomination of Gov. Adlai Stevenson. He is a brilliant man but his philosophic, somewhat mystic slant leaves many voters cold. Many of us do not know what he means by what he says, no reflection on the governor intended.

Lyndon Johnson's Victory over the militant Mrs. R. D. Randolph, leader of the Democrats of Texas Clubs, at the state presidential convention, is one to put in the books. The DOTs anticipated being able to stage a real rump convention and to carry their battle to Los Angeles. When the AFL-CIO deserted Mrs. Randolph's banner and revealed where her real strength lay, she only marched out of the convention hall to find herself sitting alone on a park bench. It was sweet revenge to Senator Johnson, no doubt, for the sniping she had been carrying on against him for some years. Doubtless a bitter pill for the woman who had an ambition to lead the state's forces at the national con-

Places To Swim. The Hesperian is pleased to record that the city has at last found a person willing to undertake operation of the municipal swimming pool and that it is expected to be in operation by July 4th. The pool, normally, would have been in opration for weeks, but the council hadnot found an operator until last week end. Local organizations seeking ways to do helpful things for the young people-with an oldster overtone, too-could well lay plans to be sure the pool is manned and ready to go when swimming days get ere again in 1961. The people have a pretty, convenient location for the pool, have something like \$35,000 invested in tax money out there at Northwest Park. Shame to let it go to waste.
