SALES MANAGEMENT DECLARES:

Floyd County Is A High-Powered Market

(Special to the Hesperian)
NEW YORK — On the strength of its performance during the past year, Floyd County gets a high rating for business vitality.

Local earnings per family as well as expenditures in the county's retail stores were at a high level.

The facts and figures bearing on this are contained in a new, copyrighted "Survey of Buying Power," released by Sales Management. It analyzes markets in every section of the country.

It shows that residents of Floyd County had net earnings in the year, after payment of personal taxes, of \$13,744,000, as compared with their 1958 total of \$17,007,000.

What this amounted to, in terms of the average household, was determined by dividing the dollar figure by the number of households. It came to \$6,046 per household.

A SMILE

A smile costs nothing, but gives much. It enriches those who receive, without making poorer those who give. It takes but a moment, but the memory of it sometimes lasts forever. None is so rich or mighty that he can get along without it, and none is so poor that he can be made rich by it.

A smile creates happiness in the home, fosters good will in business, and is the universal counter-sign of friendship. It brings rest to the weary, cheer to the discouraged, sunshine to the sad, and it is nature's best antidote for trouble. Yet it cannot be bought, begged, borrowed or stolen, for it is something that is of no value to anyone until it is given away.

Some people are too tired to give you a smile. Give them one of yours, as none needs a smile so much as he who has no more to give.

When you are eight years old, it is not difficult to transform yourself suddenly into an Indian scout and to see a procession of chiefs, with their brightly colored feathered headdresses, galloping across the horizon astride magnificent stallions.

Children are fired with imagination, just as they are filled with faith. The faith of a child is something so simple and so beautiful that many an adult, viewing it, finds himself crying a little, deep down inside, for his own lost childhood and the touching innocence that was once his.

Yet before God, all men are children, His children, and Faith is there to be accepted, if men will but take it as a gift. The Church has the answer, showing you how to live like a man, while still possessing the heart of a child . . . helping you to get the very most out of life. If you haven't been to church lately . . . why not go this Sunday?

Copyright 1960, Keister Adv. Service, Strasburg, Va.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

A Modern Labor of Hercules . . . Army Missile 'Kills' Missile

AN IMPROVED U. S. Army Nike Hercules air defense guided missile, in an engineering feasibility demonstration, destroys a Corporal ballistic missile fired at White Sands Missile Range, N. M. While the Corporal has much less range and speed than the inter-continental ballistic missiles, the test yielded valuable information pertinent to the development of an anti-missile defense, the Army said. Closing at a speed of thousands of miles per hour, the Hercules intercepts and destroys the Corporal in the first known kill of a guided missile by another. A previous kill was made by the Army's Hawk against the Honest John, a ballistic missile. In the sequence above, the Hercules appears on top as a flash of light as it approaches the Corporal for the kill. At left is the Hercules at take-off and at right is the Corporal which served as the target.

CAUGHT AGAINST THE BACKDROP of a night sky, "Aggressors" of Company D, 2d Battle Group, 4th Cavalry, charge ashore along a Korean river in an attempt to infiltrate the main battle positions of their unit during night training exercises. Constant combat exercises keep these members of the "First Team" (1st Cavalry Division) at the ready along the "Bamboo Curtain" in Korea.

BUSHED, BUT FAR FROM BEATEN, M/Sgt. David K. Broad of Laie, Hawaii, took a breather near Taegu, Korea, after 43 straight days of frontline fighting with the 3th Regimental Combat Team against the North Koreans during the summer of 1950. Ten years later, Sergeant Broad serves as an Engineer NCO with the 25th Infantry Division at Schofield Barracks, Hawaii. The modern Army leans heavily on the combat experience of its veteran NCOs.

CHILEAN CHARMER—This tiny Chilean child is too young to realize the tragedy which struck his country—but not too young to know that she can trustfully seek the helping hands of American soldiers. Medical units and Engineers of the U. S. Army's Strategic Army Corps rushed early to aid the stricken country and continue round-the-clock work in their humanitarian role.

MEDICAL AIDMEN AND NURSES of the U. S. Army's Strategic Army Corps (STRAC) assist Chilean refugees into an ambulance airdropped to the stricken country almost immediately after the disaster began. Doctors, nurses, aidmen, engineers, interpreters, helicopter pilots and many other soldiers immediately answered the alert and flew to Chile for a practical demonstration of American friendship.

Picnic Supper, Bingo Feature Family Night

Family Night at the Floydada Country Club drew a crowd of approximately 55 persons last Friday night.

For the past several summers, the Ladies Golf Association has been sponsoring the Family Night once a month.

Families can bring a picnic supper and then a dollar will entitle them to an evening of fun playing bingo.

The money made from the games each month goes into a fund for the next family night and help pay for the prizes. Ten prizes given each night are picked by the host and hostess, who are in charge of setting up the games and running them.

Sammy Hale won the big prize of the night an outside barbecue. Others winning prizes were Kitty Frances Lloyd, the Bill Dubois family, Mrs. Lane Decker, Mrs. John Smitherman, R. G. Dunlap family, Mrs. J. S. Hale Jr.

Host and hostess last Friday evening were Mr. and Mrs. T. S. Parks of Ralls. Also assisting was Mrs. John Fowler, president of the Ladies Golf Association.

Cards have been prepared and will be sent to all members informing them of the next family night which will be August 26, with Mr. and Mrs. D. B. Thomas.

Japanese Boys

(Continued From First Page)

town is a small village, smaller than Floydada. Hideo's town is populated by some 3000 people.

Hideo's father is a merchant dealing in hardware, electrical equipment, and he runs a cooling school. Hideo has one brother and three sisters. He is also a sophomore in school.

Among favorite American foods the boys found they liked fried chicken and steak the best, and that is what they found on dinner tables at the home, the Willsons, the Ralph Ruckers, the Jewell Elzas, and others.

Their farewell to this reporter was "when does your paper come out?" After being told on Thursday (today) they were jubilant to know their story and pictures would be ready for them to take back to their homeland to show their ancestors of the "small town found in Texas where people are so friendly and everyone knows their neighbors."

covers the junction of 62 and FM 54 south of Blanco Canyon. Travel has been fording the water. Heavy traffic quickly churned the road bed to pieces and the highway department dumped in rock for 50 to 100 yards to make it possible for traffic to keep moving over the route.

Street Work Resumed
An amicable agreement among property owners and the city on paving the block between Tennessee and Georgia Streets, WPS reached last week. The block, included in the original paving schedule, had been "hanging fire" for weeks.

Under the plan agreed upon half of the block will be paved a width of 44 feet and the remaining half 40 feet. The arrangement agreed upon makes use of existing curb and gutter on 150 feet of the block alongside the residence of D. B. Lyle.

A stormy session of the city council, at which R. Fred Brown, one of the property owners declared he was being discriminated against, preceded the final plan which was adopted.

An added block, not in the original plan, between Fourth and Fifth Streets, on Georgia Street alongside Napoleon Park, was put into the program this week urging of property owners in the area, and a full block on Fifth between Georgia and Houston was being readied for the caliche base Tuesday.

Otherwise the paving contractors are carrying on with delayed caliche operations with indications that finishing work may be done on several blocks beginning with next week.

Dry weather has permitted work to progress in uninterrupted fashion for 10 days, not only by the contractor, Thomson's crew, but as well by the city water and sewer department where repairs and replacements of lines have been needed.

If you want it to be a short summer, just sign a 90-day note.

The little old lady at an old-fashioned small town. Even into her room they locate the fire escape. She opened the men's bathroom, to find an arm reclining in the "Oh, pardon me," was just looking for escape.

She had no sooner steps further down the bathroom door and the soaking wet only in a hastily ran after her about the fire!

Mr. and Mrs. Walton Hale and Mrs. Travis Collins are in Laso City, Colo., on two weeks vacation.

The burglars had tied and gagged the cashier after extracting the combination to the safe and had herded the other employees into a separate room under guard. After they rifled the safe and were about to leave the cashier made desperate pleading noises through the gag. Moved by curiosity one of the burglars loosened the gag.

"Please!" whispered the cashier, "take the books, too; I'm \$6,500 short."

Failure is the road of least persistence.

As any married woman will tell you there is no perfect husband which leads one to wonder what happens to the perfect sons mothers are always describing.

Floydada Well Represented in Sod Buster - City Slicker Game

AA-AF teams, will be seeking to snap the City Slickers' two game winning streak during the third annual Panhandle Grid Classic at the Price College field here August 20.

During the past two games, the City Slickers have staged great last half rallies to sew up the contest.

Sodbuster coach Morris (Snake) Bailey, the former TCU standout will have the material to give the City Slickers another interesting game.

The Sodbuster roster is loaded with speed, size and experience. Three members of Floydada's great 1950 team will be on hand when the week long drills open August 15. They are tackle Danny Shipley, 215, Don Vickers, 195, halfback, and Bill Gilliland, 190, fullback and middle guard of note.

The Floydada threesome helped pace the Whirlwinds to a perfect 10-0 record during the regular season. During this 10 game period, Tula was the only team able to cross Floydada's goal line.

One member of the fine Tula team, end Jack Mars, will be a teammate of the Floydada raiders during the Grid Classic.

The Sodbusters will be directed by a trio of outstanding field generals — Jerry Richardson Canyon; Richie Fletcher, Gruber, and Dick Walsh, Price College.

Between them, the Sodbuster quarterbackbacks directed their 1950 teams to 23 victories, six defeats, and one tie.

For sheer power, Gilliland and David Crockett of McLean will be able to fill this capacity at the fullback role. The McLean flash is a master, too, at broken field running although he doesn't have blinding speed.

At the halfback posts, four outstanding athletes will be ready for duty including Derrell Oliver Muleshoe; Gary Bradley, Friona; Jack Burns, White Deer, and Vickers. This foursome has good speed and power.

Bailey's pass catchers, besides his halfbacks, will be ends Larry McDorman, Farwell, Ray DeBord, Sunray and Stinnett, Harold Dawson.

The middle of the line will be commanded by tackles Dan Smith, Lockney, Shipley, Harry Whitworth, Wellington and Richard Bove. Guards Jack Ragland, Dimmitt, Steve Gorman, Groom and Gary Cook, Perryton, and centers Larry Kingsley, Spearman.

Southwest Conference Football Play — long a Texas Tech goal—will be attained this fall by the Red Raiders, who again have the school's first All-American center E. J. Holub, in the lineup.

LUBBOCK, Aug. 1 — If there's a home stadium advantage in football, Texas Tech's Red Raiders could spoil the Southwest Conference title chances of two teams at Fort Hood, Tex. He arrived prominently mentioned for 1960 overseas in May, 1959.

Red Raiders Schedule Six Home Games

Baylor University, the dark horse choice of many, will be played in expanded Jones Stadium Oct. 15, and defending champion Arkansas will be met here Nov. 19. A third Southwest Conference member, Southern Methodist, is slated for the Red Raiders' homecoming Oct. 22.

Rounding out a home card of six games are West Texas State Sept. 17, Tulane Nov. 5, and Wyoming Nov. 12. West Texas State and Baylor are the only night games scheduled at home.

On the road the Raiders play Texas A & M, Texas, Texas Christian, and Rice.

Coach DeWitt Weaver's Red Raiders will be making their debut, a goal set back in 1977, for the first time in history. Texas Tech will have a major All-America first team selection in the person of center E. J. Holub. The choice of the Football Writers' Association and NEA Service last year, Holub, 6-4, 215, has been picked on the pre-season All-America teams of about a half dozen magazines.

THE CAPITAL Highlights AND Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

With a money-short, tax-fighting session ahead, it won't be easy for anyone.

These budget requests have been added to those already under study.

STATE PARKS — An investment in state parks is an investment in the Texas tourist industry and potentially rich source of additional funds for the state treasury.

This is the theme of the State Parks Board in asking for \$2,000,000 appropriation for the next two years. This is almost double the present spending level.

Of this million-dollar-a-year appropriation, the Board proposes to use \$700,000 a year for improvements, \$300,000 a year for administration.

Texas, says parks director Bill Collins, spends less on its state parks than Rhode Island. He cited figures showing that Texas would get \$81,000,000 a year more in tax revenue if each out-of-state visitor stayed in the state one more day.

GENERAL LAND OFFICE — A bigger budget is asked by the General Land Office and Veterans Land Board to assure the state's realizing full value from the resources of state-owned lands.

A two-year budget of \$3,042,200 is asked.

Land Office noted the state now has clear title to 8,000 square miles of tidelands. It wants to employ three oil scouts and a geological director to explore the development of the tidelands' mineral resources.

Expected enrollment increases need for higher faculty salaries and need to lower the student teacher ratio were cited as reasons for requests.

East Texas is asking \$2,446,555 for the first year, \$2,547,125 for the second year of the 1961-62 period. This compares with a present annual budget of \$1,675,424.

Stephen F. Austin asks \$2,063,719 for the first year, \$2,048,063 for the second, compared to the present \$1,244,370 a year.

Sam Houston wants \$2,970,261 for the first year, \$2,992,190 for the second. Present annual spending is \$2,040,677.

These requests, along with all those from state-supported colleges and universities, will be studied and screened by the Higher Education Commission before a recommendation is presented to legislative and executive budget officials.

WHERE TO GET IT — With new spending requests piling up, the search for new money-making plans is ranging far and wide.

Four broad-based tax plans are being considered by tax hunting sub-committee of the Governor's State Finance Advisory Commission.

They are: (1) a payroll tax, paid half by employers, half by employees; (2) a utilities customers tax adding a percentage to all utility bills; (3) a business activities tax which would combine some of the features of payroll, gross receipts and corporate income taxes and (4) a transfer which would be similar to a sales tax.

Other ideas suggested to the panel include higher taxes on liquor and beer, sales tax on soft drinks and restaurant meals and a tax on sporting events.

Land Office claims that for every dollar it has spent in the past 22 years, \$96.18 has been returned to the state treasury in revenue.

AGRICULTURE — Complexities of increasingly scientific farming put greater demands on the State Department of Agriculture, says Commissioner John C. White.

His "sink or swim" budget request is for \$3,061,421 for the coming two-year period. This compares with a \$1,930,966 appropriation for the present period.

White said the "chemical revolution" in agriculture today puts heavy responsibilities on his department. He also asked for more equipment and more salaries for personnel to check weights and measures.

HIGHWAYS — State Highway Department is asking for a two-year allocation of \$698,600,000. Of this, \$348,300,000 would be for the 1961-62 period; \$350,300,000 for the 1962-63 period. This compares with \$337,000,000 spent by the Highway Department in 1959.

Most of the highway revenue comes from special earmarked sources, such as the gasoline tax, license fees, etc. Department is asking \$600,000 from the general revenue fund to be used for tourist advertising.

GAME AND FISH — Game and Fish Commission is asking for what it calls a "status quo" budget, except for salary raises for some of its top technical personnel.

Commission is asking for \$12,034,945 for the coming two-year period compared to \$11,393,651 for the present biennium.

Executive Director Howard Dodge declared the commission's top echelon employees are "grossly underpaid" for highly trained persons, some with master's degrees.

STATE COLLEGES — Three colleges, East Texas State, Stephen F. Austin State and Sam Houston State Teachers College, have told the Commission on Higher Education they need more money.

Mr. and Mrs. Duncan Hollums and family spent several days in Oklahoma last week visiting with her mother, Mrs. Thomas adcock. The Hollums were due to arrive home on Tuesday.

Eddy Smith returned Sunday to his Idalou home after approximately a two months' visit with his grandparents, Mr. and Mrs. Leonard Smith and Leo.

Jake B. Watson journeyed to Amarillo Sunday to attend a convention of the Federal Land Bank Association Managers. Mr. Watson returned Monday evening.

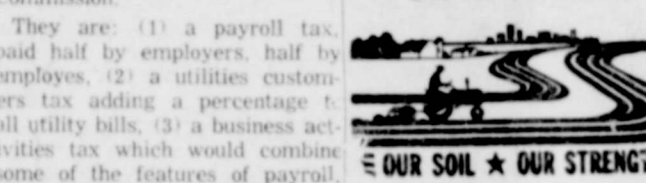

Mr. and Mrs. Milton Evans and family returned Sunday night from a vacation trip to Colorado.

MY COWS ARE LAZY, TOO... but my range gets even grazing since the GREAT PLAINS CONSERVATION PROGRAM helped me get water in the right places!

SOIL CONSERVATION DISTRICT NEWS

Proper location of water and sufficient quantities to last several days are important steps to consider in properly using native grass. This is for the purpose of distributing grazing more uniformly.

Farmers taking advantage of these practices and others included in a complete soil and water conservation plan on their place are: Bill Norman, Dougherty; Skinner Bros., Quilley; Vaughn Hall, Quilley; Charlie Lewis, Floydada; R. W. Overstreet, Floydada; L. R. Bain, Plainview; Ned Bradley, Dougherty; and Hollis McLain, Floydada.

Unexplained Blaze In Pick Up Causes Only Slight Damage

A small and short lived fire occurring at 10:30 minutes to five in front of Arwene's Drug at 100 East California Street. The pick-up truck belonged to David McMillan, who had gone in to Arwene's to get some hand-ages for his arm, when he noticed smoke coming out from the rear of his truck.

The fire department was called and the flames were quickly extinguished. Cans containing asphalt were in the back and Mr. McMillan said the only thing he could figure out as to the cause of the fire was perhaps a carelessly thrown cigarette.

A considerable crowd gathered and had fun being excited briefly.

LIPSTICK LOGIC

Don't collect the darnedest stuff to take on vacations? By plane, excess charges help some. But the 60-pound limit (or is it 44) gives us something to shoot at and we cram in an assortment of efficiency kits, to get our money's worth.

By train, it's easy to take along everything — unless we're pessimistic about red caps. If so, how to stack two heavy bags and three light ones, a candy box, camera, several books and magazines on the spouse from station-to-taxi-to-hotel-lobby becomes a problem in administration that only a wife can handle.

By bus, it's hard to be conspicuous whatever we take. Most of our traveling companions are of the do-it-yourself cult, hence anything from Baby's stroller, bottle kit, and diaper bag to Pop's fishing and golf equipment may be overloaded for the usual luggage.

But when we travel by family car — that's when our collector's fancy gets full play! We carry the suitcases, but hang the suits and dresses. We take along a cooler, sandwich box, thermos, fruit, and maybe the typewriter. We throw fishing boots, the steamer, a package of washing powder, and some old oxfords into the trunk.

However we travel, wherever we go, we spend half our vacation keeping up with all the stuff we've accumulated.

Some day we want to take a vacation from "things." We'll pick up like a gypsy and take off — for Somewhere or Nowhere, leaving behind all these props of civilization. And most of all, we'll go into the mountains, where time is a peaceful eternity, not a 60-second, 60-minute, 24-hour fight to get places, do things, beat the record.

That, my friends, will be a stuff-less holiday!

Wed Saturday, Couple To Make Floydada Home

Mid-afternoon wedding vows between Miss Beth Bulls and Mr. Scott Faulkenberry were solemnized in the Methodist Church at Earth Saturday, July 30. The Rev. Hugh F. Baylock, pastor of the Methodist Church of Dimmitt, performed the ceremony.

The bride is the daughter of Mr. and Mrs. Crill Bulls of Earth, and Mr. and Mrs. F. A. Faulkenberry of Floydada are parents of the bridegroom.

An arch of emerald greenery, plumosis, and candelabra formed the wedding scene. Organist, Mrs. Marie Winders accompanied Mrs. Wilene Lee sister of the bride, as she sang, "I Love Thee" and "The Wedding Prayer."

Gowned in Chantilly lace over taffeta, the bride was escorted by her father. A scooped neckline, banded by satin, and bracelet length sleeves, accented her ensemble.

A satin band at side front terminated the center back with a flat bow, and flowing streamers, emphasizing the waistline. The billowing scalloped skirt fell to waist length.

A cap of scalloped lace, outlined in seed pearls, sequins and French silk illusion fell to shoulder length forming the bridal veil. The headpiece was fashioned by Mrs. Leona Parish, sister of the bride.

She carried a bouquet of white rosebuds and stephanotis with mint green net leaves tied with white ribboned loveknots.

Feminine attendants were Miss Frances Jones, Plainview, who served as maid of honor, and Miss Billie Ann Burnett, Amarillo bridesmaid. Each was attired in mint green silk organza over taffeta styled with rounded necklines, and three quarter length sleeves. The bodices were accented by tiny covered buttons at front flowing into full skirts. Each carried a single long-stemmed white rosebud.

Wayland Faulkenberry, brother of the groom, attended as best man. Gary Bulls and Glenn Bulls, brothers of the bride, served as ring bearers.

The wedding was followed by a reception given in the home of the bride's parents. The bridal table was centered with a double-ring wedding cake. Assisting with hospitalities were Mrs. Eugene Lee, Dermie Glasscock, Leona Parish, and Mrs. Fredia Brooks of Paducah.

For a wedding trip to Colorado Mrs. Faulkenberry changed to a mint green silk suit with matching accessories. She wore a white rosebud corsage.

Upon the couple's return they will reside in Floydada. The bride is a speech therapist in Floydada Public schools. Her husband farms.
