FIRST BALE REPEATER

L. D. Gilbert of Edgin, took the \$100 premium for the second straight year Thursday by bringing in the first bale of cotton ginned in the county.

The dry land cotton weighed 465 pounds and was bought by Dick Guest, manager of the Davis Gin in Floydada, at 50 cents per pound.

Mr. Gilbert said his bale for 1960 would have been out sooner but a three inch rain Monday delayed the pulling.

Large Scale Spending For Food In Floyd County Is Disclosed

(Special to the Hesperian) NEW YORK, Aug. 17 — Food stores in Floyd County occupied the top spot last year in the county's spending.

Out of every dollar spent in the local retail stores, 24 cents went to buy food for the family table. That was a bigger piece of the dollar than was spent for any other kind of product.

The amount of money expended for food locally is revealed by the Standard Rate and Data Service in connection with its national survey of spending trends.

Its breakdown shows how the retail dollar was apportioned, as between food, apparel, home furnishings, automotive supplies and the rest, in each part of the United States.

In Floyd County, the grocery stores, meat markets, bakeries, delicatessens and other places of food for home consumption had sales totaling \$3,145,000 in the year.

This was exclusive of the amount that was spent in restaurants, at lunch counters and elsewhere where food and drink are consumed on the premises.

The take-home purchases, if divided evenly among the local population, would figure out to \$925 per household.

The large-scale spending for food was a reflection of the improvement in purchasing power locally. It showed itself in sales of the luxury-type eatables, such as the more expensive cuts of meat, and in sales of frozen foods and ready-to-serve dishes.

Housewives were willing to pay something extra to get convenience foods.

The 24 cents of the dollar devoted to food locally was more than was spent in the United States generally. The average of the States was 23 cents.

In the West South Central States it was also 23 cents. Most other kinds of retail stores will be on cotton defoliation, in Floyd County also enjoyed large sales volumes in the year, the outlets for automotive equip invited to attend.

All local farmers who are interested in cotton defoliation are invited to attend.

Warren H. Smith Jr., first vice commander; Dee M. Burns, second vice commander; D. G. Ayers, post adjutant; W. B. (Jack) Henry, historian and child welfare officer; Louis H. Newell, sergeant at arms; J. C. Wester, finance officer; Edward B. Chesnut, chaplain; Executive committee: J. M. Willson Sr., J. C. Wester, T. L. Holland, Louis H. Newell, Kenneth Rain Jr., and Sam A. Fowler.

Four Floyd County citizens, J. W. Reue, Rev. Ramon R. Asebedo, Dan Brown and Jim Simpson will serve as a County Farm Labor Committee. They met last week with William E. Day, manager of the Plainsview Texas Employment Commission office, to review the total seasonal employment needs of workers, if any, which must be met by importing Mexican Nationals to harvest the cotton crop.

The committee will function under Public Law 78, obtaining facts relevant to the supply of domestic farm workers existing in Floyd County and the shortage of workers, if any, which must be met by importing Mexican Nationals to harvest the cotton crop.

Under Public Law 78, the TEC must supply this information to the Secretary of Labor who must limit the number of Mexican Nationals to be used in this country.

PEEVED BEES MAKE HUNTERS HUNT COVER

Last weekend Dr. Jack G. Jordan and Druggist Hayes O'Neal dove hunting they went. They had everything for a successful hour of shooting including a spot with the land owners permission and everything.

But they got run out just the same. Nary a shot did they take at the doves. Irrate occupants of an adjacent farm didn't fancy any hunting there about that day.

The "irate occupants" were the bees in several colonies planted in a corner of the adjacent farm. Supposed to be busy making honey from the thousands of cotton blossoms in the area, they were hundreds of feet away.

But no sooner had the two Floydada men parked and made ready for the hunt than the bees swarmed them in angry mood, and would not be brushed aside.

The men beat a retreat to their car but the bees followed them in, and it took several minutes of infighting before the car was safe for driving.

The most severe sting either had was a pon on the hand of O'Neal. The bee's stinger caught a blood vessel and O'Neal had a welt a half inch tall in minutes.

CITY POLICE OFFICER W. Perry Smith and Fire Marshal Billie Joe Baker have come up with a low cost idea for identifying streets in Floydada. Here Smith shows a trial marker they made to show how neat the signs would look. For less than \$5 they made stencil markers for more than a dozen streets. A modest sum would mark all the curbed corners in the city, should the idea be adopted, the pair said Tuesday. Such signs have two arguments in their favor: (1) They can be read easily from a moving vehicle and they are not temptations to vandals. City and civic workers have been toying with a \$3,500 street marking plan for months but hesitate because of the cost. The Smith-Baker idea could not be utilized in areas where there are no curbs. Principals Report Attendance Climbing At Floydada Schools

All members of the board of education of Floydada Independent School District were present to meet the need. Some 35 Tuesday night when the board desks and seats, 12 arm chairs had their meeting at the high school and 10 folding chairs will school. President Ralph Johnston probably meet the present need.

The colored school is also growing by leaps and bounds with an enrollment now of 221. The fall session will also tax the capacity of this plant and may require space for emergency use.

Five teachers were recommended by the superintendent and accepted by the board. They were Mrs. Mary Louise Lewis, Mrs. Ted Bell for Andrews Ward, and for the colored school Marjorie Curtis Dalley, and Bettye Haynes Special Education unit, Miss M. D. Scott.

Paving Bill Is Okayed

The secretary read the month bills amounting to \$4,654.67 and 35 from last year as of this date they were examined and then and some 35 or 40 more could be voted to be paid. A paving bill for an additional \$8,886 was presented and okayed for payment.

This bill winds up the paving work of the school's streets. It was voted at the meeting to hold down dust and year's first grade already has 171 students. Here it would be surprising if enrollment went up as much as 75 to 100 during the cotton harvest.

Small Fry Enrollment Heavy

Mr. Nicholson at Andrews Ward reported the most acute situation with 649 now enrolled. This is up from 585 last year and this year's first grade already has 171 students. Here it would be surprising if enrollment went up as much as 75 to 100 during the cotton harvest.

Ways To Cut Your Electrical Costs

The following is reprinted from the Montana Rural Electric News: WAYS TO CUT YOUR ELECTRICAL COSTS, offer ways to trim your electric bill to suit your individual taste — some of which we recommend; others are just for a good laugh.

1. Keep your wife from setting the furnace thermostat too high. Train her to keep on the move and keep warm nature's way.
2. Be sure wiring is heavy enough to carry the power you need. Electricity wastes itself trying to crowd through small wires.
3. Cook everything rare. A little step each day and you can soon eat it raw.
4. Be sure that wiring does not come into contact with water pipes, eaves spouting, trees, or roofs of buildings.
5. Marry girls off young. Let some other dope heat their irons.
6. Give motors and equipment

Early Maize Crops Good

The hotel clerk, his patience and on the clerk, Mr. Weller, "I've told you times already, we don't have a room for you." "If President Eisenhower had a room for his family, why can't we have a room for you?" "Why, of course," admitted Weller. "Then let me have said Weller, 'He's got a room for you.'"

SOMETHING TO THINK ABOUT: MISTAKES

Mistakes are only made by those who strive much to attain. While those who make no big mistakes, No great ends ever gain. For did not Ford forget to place Reverse gears in his car, And finally enabled man To travel fast and far? 'Tis said that Thomas Edison Spent millions on a scheme Which he had thought most wonderful. But proved an idle dream. And if the truth, 62 facts, were known, Mistakes galore were made By Wrights, Marconi, and Burbank. Whose fame will never fade. When delving into unknown fields. In search of something new, Mistakes are likely to be made Before the search is through. So we should e'er remember this: To great perfection gain.

Winds Edge Spur In Opener

First victory for Floydada's new head coach Charles Tyer. It was the first time in recent years that the green and white had won in Spur.

It was the first time that Spur had lost a homecoming game or dad's night affair at least in recent years.

(Spur always has some special kind of celebration to go along with a Floydada game, a thing that has come to be exasperating until this year).

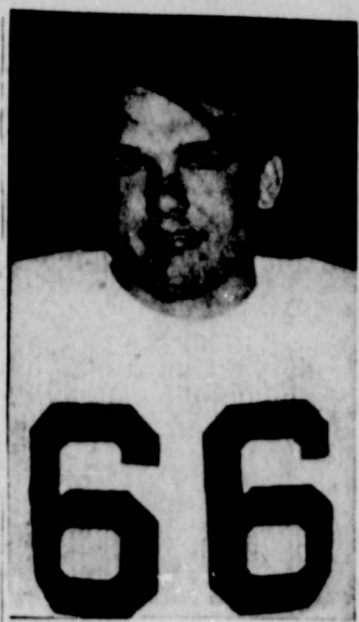

Mainly Defense Game
As the game got underway it soon became evident that it was to be mainly defense for both clubs as the offensive units were having their troubles.

Floydada received the opening kick and Teague took the ball on the 24. Floydada had gained past midfield before Freddie Walker of Spur intercepted a Teague pass on the Bulldog 10 to give them possession at that point.

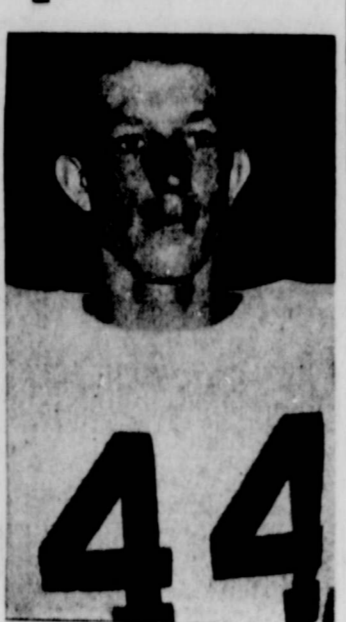

Spur's possession of the ball was brief, however, as Don Davis recovered for Floydada on the Spur 12 and the Winds were in business again.

Strong defense and a penalty were too much and Floydada lost the ball on the Bulldog six failing to make first down yardage.

The Bulldogs soon punted from their 10 dead on the Floydada 41

DON DAVIS

RODNEY TEAGUE

with Walker doing the honors for Spur.

The locals found the going rough in the second quarter and were forced to punt and had trouble in downing the elusive Walker on the punt return. Spur was then held and forced to kick but regained possession of the ball when the punt was touched and a Spur boy recovered for the Bulldogs on the Floydada 40.

See Saw Across Mid-Stripe

The blue and gold team gained the Floydada 36 where they were held for downs and the ball went over to the green and white.

This time the Winds gained to mid-field and Teague punted to Walker who took it on the 15 and ran back to the 35 almost getting away again.

From this point Spur took to the airways and threw a long heave and pray pass that was slapped by Marler, but the Spur receiver stayed with the ball taking it in stride on a blooper type play and all but scored. Parsons was the passer and Parsons the receiver on the play that covered 60 yards. Teague managed to get Parsons foot at the five and downed him there.

Whirlwinds Fired Up
After the intermission Floydada came out fired up and kept Spur in trouble from that time on.

After the kick-off Spur put the ball in play on their 29. The Bulldogs were held on the 35 and prepared to punt. A bad pass from center left no chance for the kicker and he was downed on the Spur 39.

Floydada was held and Teague punted out on the Spur six yard line.

The Bulldogs worked the ball out a little way and then Richard Marler intercepted a pass to give Floydada the ball on the Spur 35. Running plays worked for Floydada and soon Teague picked up a first on the 10, carried on to the five. Marler added 2 1/2 yards and then Teague scored, going off his own left tackle for the remaining 2 1/2 yards and the TD. A try to run the conversion failed and the score was 6 - 0.

Floydada had kicked off to the Spur team before the third period ended.

In the final canto Spur was held and forced to punt near mid-field. Floydada had brief possession of the ball before Roberson of Spur recovered a fumble on the Floydada 46.

The Bulldogs tried the airways but Teague intercepted at the 30 returning the ball to the 35. The Winds were using a number of boys changing their line up quite often but were able to drive to Spur's 32 before they were held.

Spur's final possession of the ball was brief as they again tried the long pass and Teague again put an end to the threat with an interception.

Outstanding on defense the Whirlwind team was led in this department by Don Davis, Ray Walker, Van Stovall and Jerry Powell. Elwyn Pierce called the defensive shots.

Teague quarterbacked most of the game on offense and was the teams leading ground gainer getting 89 yards in 20 tries. Second in this department was Marler who gained 27 yards net on 10 runs. In all the team gained 172 yards running and was blanked in the pass department. This gave them 11 first downs and three penetrations to four first downs, 25 yards rushing and 65 passing with one penetration for Spur.

While neither team sparked on offense the Whirlwinds were able to control the ball, owning it for 52 offensive plays and all-owing Spur but 30.

Seeing most of the action were Orman and Powell on ends, Crawford and Dunn on tackles, Davis and Mankins on guards, Ginn on center, Teague on quarter, Pierce and Marler on halves and Stovall on full.

Walker took a corner on defense and he and most of the remaining team members got into the action on offense or defense or both before the game ended.

At that point Spur owned the ball first and goal on the five yard line with time enough on the clock to score before the half.

The Winds called a defensive huddle, discussed the possibilities of allowing their goal line to be crossed then dug in. Four plays got the Bulldogs 2 1/2 yards and the ball went over to Floydada. The Winds were driving up field killing the clock when the half ended.

Center News
By Mrs. J. E. Green
CENTER, Sept. 5 — The season marches on. Mornings cool the afternoons hot. The Labor Day weekend seems to run true to form, more wrecks on highways. Why can't there be a special low speed requirement for holidays, thus saving more lives? For excessive speed is what does it.

The revival at Calvary Baptist Church in town, which is attended now by some Center people got underway Friday night with Rev. Ken Carter of Plainview doing the preaching and Travis Watson of Lakeview as song leader. The services are scheduled to run through next Sunday. Come and enjoy it.

Two former Centerites, Billy Crabtree and wife and two children of Paula, Calif., and Mrs. Ray Crabtree of Tulsa were in Floydada several days ago visiting their aunt, Mrs. Tom Jernigan and in Lubbock with other relatives. The Crabtrees left Center during World War II.

Mrs. W. M. Jackson, who has been visiting in Amarillo with a daughter and family, returned home one day last week.

Mr. and Mrs. Thomas Warren and children visited Saturday evening in town in the home of her mother, Mrs. Charley Battey surgery.

Others present were the other daughter, Mrs. Robert Aldridge and family of Hobbs, N. Mex. Mrs. Charley Neal of Amarillo, Mrs. Joe Evers, Mr. and Mrs. Fred Battey and Mrs. Ola Warren.

Sunday dinner guests in the Thomas Warren home were Mrs. Charley Battey, Mr. and Mrs. Bob Aldridge and children and their brother and wife, Mr. and Mrs. Clark Battey of Lubbock.

Death In Family Postpones Orman Annual Reunion

Mr. and Mrs. P. L. Orman, who are recently home from a visit in California with their air corps son and his wife, Technical Sgt. and Mrs. Virgil Orman, enjoyed a visit by another son Mr. and Mrs. Mayel Orman and family of Fort Worth last week. The latter were in Floydada for several days returning home Thursday.

Sgt. Orman, who is stationed at Hamilton Air Force base, near Novota, Calif., is anticipating an overseas assignment soon. The Floydada Ormans were in Denton, Tex., the third week in August for the funeral of his sister, Mrs. Curtis Bills of Baltimore, Md. The family normally holds a reunion in the last part of August but due to the death the gathering was postponed. Mrs. Bills was a former resident of Denton and was the first of nine children in the Orman family to pass.

Mrs. Garvin Beedy and small daughter of South Plains visited Friday with her parents, Mr. and Mrs. Leo Frizzell.

Francis Rose Selman and Mrs. Fuqua of Amarillo visited Sunday afternoon with Miss Selman's aunt, Mrs. Leo Frizzell.

Mr. and Mrs. Leo Frizzell were in Lockney Saturday afternoon calling on Mrs. Oscar Warren who was ill in the Lockney Hospital. They also saw the new baby girl, Lisa Denise, daughter of Mr. and Mrs. Bobby Welborn, who arrived early Saturday.

Mr. and Mrs. Welborn Miller are at their new home in Lubbock and we understand a Mr. Lovell and family are moving into the Miller house on the farm. We think the new people are moving into a grand community and people will be glad to have this fine family, although we'll miss the Miller until they come back.

Margaret Dunn of Lubbock visited home folks, the Frank Dunn, during the weekend. Mrs. Dunn and Margaret visited Mrs. Morkins awhile Friday.

The Dunns attended the football game in Spur Friday night. Joe Lee was on the team.

Mr. and Mrs. Claude Carpenter former Centerites but now of Altus, Okla., visited briefly Monday with Mr. and Mrs. H. B. Mankins. They were enroute home after a visit in Lubbock with their daughter and family Mr. and Mrs. Joe Conway and daughter.

The Greens received a letter last week from their son Clyde who with his family had landed safely in Hoonah, Alaska, where he and his wife will teach for the coming year. They were delighted with the country and their prospective place to work. Hoonah is on Chicago Island, west of Juneau.

Mrs. R. C. Ross visited Monday with her father, S. A. Guffee and Mrs. Guffee. Mr. Guffee, who has been ill is getting along nicely.

Mr. and Mrs. Charles Fulkerson visited in Plainview Sunday afternoon with Mr. Fulkerson's brother, J. F. Fulkerson and family. The Plainview brother has been in poor health for several months but is able to be up.

Mrs. Fulkerson visited in Lubbock Thursday with her daughter, Mrs. Donald Finkner.

The Fulkersons and Mrs. Finkner spent some time in August with the other daughter, Mrs. Roland Boenig of New Braunfels while Mrs. Boenig was in a hospital during and following major surgery.

Everybody is busy, women are canning and getting children off to school. Men are rigging up their combines and binders for the fall grain harvest and bundles. Come to church every night this week.

Mr. and Mrs. Bob Finley, Lone Star, spent Sunday in Brownfield where they attended a Finley family reunion.

Finding Peace Assembly Theme

Jehovah's Witnesses' three-day assembly in Altus was climaxed on Sunday when R. L. Anderson, district supervisor, spoke on the subject, "Finding Peace in This Troubled World."

Clarence W. Hall, Sr., presiding minister of the Plainview Congregation, said this assembly stressed the theme, "Seek Peace and Pursue It."

In speaking to the 563 persons assembled in the City Auditorium, Anderson declared that "the Lord's prayer points to the sure remedy for this troubled world."

R. H. Smith, circuit supervisor of the Oklahoma-Texas-New Mexico meet, said the purpose of the assembly was to analyze the 19 reporting congregations, determine the existing weakness and lay plans for expanding the work at circuit and national levels.

CALIFORNIA COUPLE PAY VACATION VISIT HERE

Mr. and Mrs. Clyde Harmon and their granddaughter, Debbie Chambers left for home near San Bernardino, Calif., Monday after visiting since last mid-week in Floydada with Mrs. Harmon's mother, Mrs. Addie Thagard.

The California visitors, who operate an orange grove between Redlands and San Bernardino, enjoyed a visit also with a brother, Flynn and sisters, Mrs. Oliver Allen, and the Layton Dorrall family of Lubbock who joined them over the weekend. Nita J. Dorrall spent several days in Floydada to keep Debbie company.

Mrs. Harmon will be remembered here to friends as Sabra Thagard.

WHAT WOULD YOU HAVE DONE?

Picture yourself in this situation: You're driving on a long trip with your family. You're in a hurry. A storm is brewing, black clouds move in fast. Dust and approaching nightfall obscure your vision. Suddenly, you see the red lights of a small, private plane, desperately circling, searching for a place to land. What would you do?

This was the situation facing T. O. Gravitt, a supervisor for Southwestern Bell, according to a story I heard the other day. Gravitt, a Naval Reservist with 7 years flying experience, understood the plight of the pilot.

Luckily, Gravitt was driving through the small town where he grew up and he knew there was an emergency landing field near the town.

There were no lights on the landing strip, so Gravitt rounded up other motorists who were watching and led them to the field. He had them park around the edge so their headlights would guide the pilot to the field.

Helped by the lights, the pilot set his plane down just as the storm hit.

Needless to say, there is one airplane pilot alive today who is thankful that telephone man Gravitt saw his problem and knew what to do about it.

"BACK TO SCHOOL—DRIVE CAREFULLY"

For a time each fall, these phrases are probably the most noticed and carefully followed instructions in Floydada.

"Back to school — drive carefully" is such a sensible thought that it's a pity to limit its use to a few weeks each fall. For the small-fry, "Back to School" is a months-long activity; for grown-ups, when is there a time NOT to "drive carefully"?

EDITORIAL VIEWS AND COMMENTARY

Somewhat Painful Reaction is noted in some quarters to raising the dove limit from 10 to 15. The liberalization of the limit also was accompanied by a possession limit of 30 birds. The painful area is in the region of the sportsman's pocketbook. The arithmetic of it is approximately as follows: Shells this year, depending on the quantities in which they are bought, range from 10 1/2 cents to 13 cents apiece. Taking the national average of four shots to the bird, the cost per dove bagged will be 40 cents (or better), not counting cost of the gun, the trip and the other trappings. A dove dressed ready for the pan weighs about two ounces. It doesn't take a calculating machine to run out the extensions. Ten birds at 40 cents is four dollars. Fifteen birds would be \$6. For six dollars one has 30 ounces of meat for the table. But don't tell the women.

Hands Off Houston. Governor Price Daniel, who does so many things as governor The Hesperian likes, has wisely told the school board at Houston that the governor has no business intervening in their current imbroglio with the federal courts over integration. How the school board is going to obey the mandates of the court in the face of overwhelming local sentiment is a problem, which, if solved at all, can best be handled at the local level. When the federalists used bayonets at Little Rock, taking the controversy completely out of the hands of local authorities, and got the blessing of the executive and judicial departments in doing so, states were stopped flatly from exercising what had been assumed as the exercise of constitutional authority.

Auto Inspections for the year which begins next April can be had at any time now, and the 1961 stickers applied to windshields. With four and a half million cars to be inspected every car that is out of the way next spring will be a help. Lines will be long in the 15-day period beginning next April 1.

The County Fair. Agriculture minded Floyd County is "going to the fair" this week. From every community throughout its confines the best of garden, farm and live stock lot, as well as the best of talent, will be on display in the three days the big mill building and grounds which is re-conditioned annually for the event. The fair should be the best yet, the officials confidently expect.

Soil Tour Coming Up. Innovations in farming, new ways which the ingenuity of operators has been brought to play to reduce costs or make more efficient will be seen at several interesting stops when the annual soil tour is made a week from today. One of the innovations is Midland Bermuda. This grass is one which, we are told, has been developed from the old style Bermuda with a lot more protein in the stems. Many small plots are being planted in most all counties of the plains. It is credited with increasing the live stock capacity of a pasture several fold. That's what almost everybody on the farm has been looking for!

Good Cotton Crop. If September gives the cotton fields half the breaks it usually does the production of cotton in the county is going to be good this fall, despite the early spring bad starts on many farms. There is a large percentage of good early cotton which was not lashed by the storms. And the late cotton had the advantage of a quite favorable August. Dry land cotton in some parts of the county, notably below the caprock, has better prospects than last fall. Granted the right kind of weather the remainder of the season there'll be bale to the acre cotton in a good many unirrigated fields in that area.

We've Been Asked to use our influence for a late frost date. This we do willingly, eagerly in fact. Late cotton crops need 20 days not usually vouchsafed a cotton crop. Since these growers keep pouring water to the crop, gambling on a late frost, we can do no better than to join them. A hot, dry September would make late watering pay off everywhere except in the big, far advanced fields where the wells are being shut off. So we are betting the frost date will be late this season. We expect frost, without fail, by Christmas Eve, however.

Cotton Estimates Higher. With every passing week of favorable weather cotton experts raise their sights somewhat on the high plains cotton production. Some "authorities" on cotton say normal development of the crop already set on the stalk will make a total above 100,000 bales this season. The market is in a more favorable position than last year which makes the outlook even rosier.

The Kennedy Family fought, bled and died for their country in World War II. This facet of the Democratic presidential nominee's record must be played up if the Democrats are to carry Texas this year. A hard core of opposition has developed because of his religious beliefs. At this writing Floyd, which is an average for Texas, could not be carried by the Democrats if the voting were tomorrow. Seeing and being seen by Texans is the key to Mr. Kennedy's problem in this area. People of the plains are essentially conservative; also, and many are not sure he does not have horns on account of a "radical" record in Congress.

New Highway Look. Engineers can envision a new highway or street like it will be when it is finished. And Texas highway engineers have proven themselves the ultimate in road builders. Things they view are not for the ordinary mortal to vision beforehand. Note the streets in Floydada which have been paved recently and the approach of the new highway into Floydada on No. 62.

Let us then be up and doing,
With a heart for any fate;
Still achieving, still pursuing,
Learn to labor and to wait.

Members of the community had gathered at the school building to prepare it for school opening. Several were standing on the scaffold to wash the ceiling when it gave way and fell. Appling received the leg injuries and others standing on the board with him sustaining minor cuts and bruises.
