Club Meeting Discusses TV, Comic Books

Members of the 1950 Study Club met in the home of Mrs. Doyle Moore Tuesday night with Mrs. Claude Weathersbee presiding. Mrs. Lloyd Cook opened the meeting with the "Quote of the Day". Roll call was answered as members revealed their secret pals and drew names for new ones.

During the business meeting Mrs. Sammy Hale discussed plans for the District Board Meeting and workshop to be held in Floydada on October 29.

The president assigned the following committees to work with the 1934 Study Club as co-hostesses for the district meeting:

Hospitality, Mrs. David Batty Jr., Chairman, and Mesdames Lane Decker and Watson Jones; Stage, Mrs. Tommy Assitec; Music, Mrs. Gene Collins Jr., Chairman, assisted by Mrs. Bob Copeland.

A choral group, comprised of thirteen club members, was organized to perform at the event.

TV And Comic Books
A panel discussion, "The Influence of Television and Comic Books on Children", was moderated by Mrs. Gene Arwine. Mrs. Ted Bell presented the teacher's viewpoint of television's influence on children while Mrs. Earl Edwards Jr., approached the subject from a mother's viewpoint.

Mrs. David Batty Jr. read the state law banning the sale of lewd or sadistic comic books, and told of Franklin Stovall's experience as Asst. District Attorney in Houston as that city sought to enforce this law.

The audience contributed thoughts on the subject as the members read in Look magazine the fall T. V. program.

The panel moderator concluded the program with these thoughts:

1. Television increases a child's vocabulary yet may encourage poor grammar.

2. It widens a child's interest and creates an awareness of the world around them.

3. It discourages outdoor activity so important for healthy bodies.

4. Children need a certain amount of make believe yet T. V. droums imagination and the ability to think for themselves.

5. It discourages reading.

6. It suggests a "Modus Operandi" for juvenile crimes.

7. Parents need to regulate what programs their children see and how often they watch T. V.

Encouraging Wholesome Programs
Following the panel discussion

Mrs. David Kirk, head of the Communications Department, suggested ways in which the club could encourage more wholesome movies and television programs. The club voted to write two letters to the National Chairman of Federated Clubs of America to protest the trend in American entertainment which over-stresses violence and infidelity.

Discussion Given 29 Study Club By Mrs. Williams

Mrs. Hollis R. Bond was hostess for a meeting of the 1929 Study Club Thursday afternoon at which time a program was presented on youth. Club collect was given by Mrs. Clay Henry and roll call was answered with "What I Can Do for Youth".

From Socrates came "What mean ye, fellow citizens, that ye turn every stone to scrape wealth together, and take so little care of your children, to whom ye must one day relinquish all."

During a business period, presided over by the club president Mrs. Tate Jones, plans were made to assist in the need of Latin American children attending Andrews Ward. Mrs. L. B. Patterson and Mrs. O. W. Lewis, teachers at the school, were guests at the club, and spoke on the need of the children.

Mrs. Bond was assisted at serving by Mrs. Jones and Mrs. J. D. McBrien. Delicacies of cocoa crisps, squares, cherry balls and cheeses were enjoyed along with coffee and iced tea. A silver bowl containing varied colors of zinnias centered the serving table.

P. T. A.'s Seek New Members In The U. S. — And Overseas

When in Rome—or Oslo or Athens, Fontainebleau or Karlsruhe, Addis Ababa or Reykjavik—American parents and teachers do just about as they do at home: they form a P.T.A.

More than 42,000 P.T.A. members in the European Congress of American Parents and Teachers this fall will join in the annual October Membership Month of the National Congress of Parents and Teachers.

Like their nearly 12 million counterparts on U.S. soil, these P.T.A. members who live overseas—from Iceland to the Middle East, most of them on American military bases—will encourage others to "serve who are: join the P.T.A."

Serving the welfare of American children, wherever they are growing up, is the primary object of the National Congress of Parents and Teachers. It has brought the P.T.A. into many areas of activity during its 63-year history. Since formation of the European branch in 1958, these activities have taken on new flavor:

—A European program of scholarships, similar to those provided by many state congresses in the United States, this year awarded \$500 against tuition to American colleges for seven students; they were graduates of American overseas schools in Nouasseur, Morocco; Stuttgart, Berlin, Biburg, and Heidelberg, Germany, and Vicenza, Italy.

—Concerned, like other P.T.A.'s, with the interests of mentally and physically handicapped children, the European Congress has initiated a program of special class instruction for these youngsters, providing the funds for additional teacher assistants, helpers, and materials to be used in some 20 schools.

—Foreign language education, a natural interest for children whose parents are assigned overseas, has been a major interest of P.T.A.'s in the European Congress. In Air Force schools, extending from Oslo to Libya and from the British Isles to Saudi Arabia, children in grades 3 through 8 are taking classes in foreign language this year.

—Adult education programs of the P.T.A., which in the U.S.

The midst of Europe's Bavarian Alps—it's a P.T.A. meeting. Mrs. James C. Parker, president of the National Congress of Parents and Teachers, confers with Fred L. Miller, coordinator for P.T.A.'s in the European Congress of American Parents and Teachers, during conference in Berchtesgaden, Germany. Some 140 parent-teacher associations in Europe, Northern Africa, and the Middle East will join this fall in programs to enroll more than 2,000,000 parents, teachers, and friends of children as P.T.A. members.

usually take the form of study-discussion groups, may become adult self-education in overseas areas, where American military, government or civilian members of P.T.A.'s take advantage of opportunities for learning the language of the country and for studying its cultural assets.

As these P.T.A. members, both teachers and parents, return from over, as assignments, they bring broader understanding of other countries to their substitute colleagues.

"This is one great contribution our European members can make," says Mrs. James C. Parker, of Grand Rapids, Mich., president of the National Congress, who acted as a consultant to the European Congress when she attended their convention last April.

"Overseas P.T.A.'s," she points out, "bring to American boys and girls living in other parts of the world some of the home and school experiences they would be enjoying if they lived in the United States."

"The richest result is the relationship between parents and teachers; there is a closer re-

Mr. Kruschev's return visit should help us grow up politically — and fast.

When the Soviet premier came here before, it was by invitation from our Department of State. Although many Americans disagreed with the red carpet treatment accorded him then, most of us were willing to leave diplomacy up to government officials, who understand such things. They seemed an outside chance the guy was sincere in wanting friendship between Russia and the United States — and peace-loving Americans hoped it was true.

Now his cards are on the table: he has insulted our President, told lies about American statesmanship, and used unfair propaganda methods for stirring up feeling against us all over the world. If we accept him now, we are as foolish as he claims us to be.

As we see it, Mr. K. comes this time not to the U. S., but to the U. N., which happens to be located here. Moreover, he comes bent on malicious trouble-making. He is not just an ill-bred buffoon, as we had him pictured. He is a dangerous fanatic. Let us treat him as such!

To ignore his boorishness or that earlier visit may have been the courteous thing to do. To accept it now would be to condone his behavior toward our country. Let us forget party lines, at least for the duration of the Soviet stay, and present a solid front for all the world to see. If President Eisenhower can feel the strength of backing from both Republicans and Democrats in all 50 states, he will be able to do his best before the U. N. at this trying time.

Freedom is a thing to protect, as well as to enjoy. We have taken it for granted long enough. Let's grow up politically — and fast!

Many View and Study Houses Sunday on Study Club Tour

Numerous visitors from out of town mingled with local persons Sunday to view new residences on the House Beautiful Tour, sponsored by the 1934 Study Club of Floydada. The weather was made to order for the tour between the hours of 2:30 and 5 p. m. Guests were met at each of the eight homes by hostesses from the study club and guided through the spacious homes. Most interest evinced by the touring parties seemed to be in the living rooms, which took the eye of many. However, the bathrooms came in for considerable attention. Many guests indicated interest in two or more baths large ones, replete with colored fixtures, vanities, recessed radiolamps, decorative tile and other trappings of luxury. Speculating on "when we build" a large percentage of visitors indicated an interest in more space frequently in the guise of family room, regarding it as the most popular area in the house. Other overtones of interest in the conversation of the visitors related to dining rooms, smart kitchens, and outdoor living areas. Attached added luxuries creating interest were area names, postlights, ceramic coach boys and double garage. Homes toured Sunday were those of Mr. and Mrs. J. M. Williams, Mr. and Mrs. Howard Drysdale, Mr. and Mrs. Clement McDonald, Mr. and Mrs. J. H. Barnard, Mr. and Mrs. Frank Harmon, Mr. and Mrs. J. W. Day Jr., Mrs. L. A. Pate, and Rev. and Mrs. Paul Fullerton. Club president, Mrs. Howard Gregory and members of the club, expressed appreciation to those who attended the tour and thanks to the homeowners themselves who so graciously turned their homes over for the event. Proceeds from the ticket sales will go toward projects planned by the 1934 Study Club. Mrs. John Stapleton was in charge of the Home Beautiful Tour, assisted by other club members. Mr. and Mrs. E. L. Normar Jr. and son, Jack of Amarillo were here over the weekend visiting their parents, E. L. Normar, Mr. and Mrs. Byron A. Clark and other relatives. Rotary Party For Teachers Gala Event

Only Rotarians members of the school board and teachers of Floydada schools not present for Thursday evening's gala dinner of the Floydada Rotary Club were those who were absent or necessary.

And the more than 200 persons present were rewarded by a talk from the guest speaker, Dr. James H. Jauncey, of El Paso, that was full of the philosophy of the well-being that comes from striving and accomplishment.

The speaker derided the welfare state, pointing out that socialism can enter by the back door.

He said that juvenile delinquency, so-called, can be traced to idleness enforced on the children of the current generation. "A child needs something to do, responsibilities for which he is accountable," he declared.

Introduction of the numerous guests was assigned to John B. Stapleton and the teachers were presented by Supt. I. T. Graves and Principals A. E. Baker, A. W. Coltharp and W. P. Nicholson.

Group singing was led by Olin M. Watson Jr., with Margaret Moss, club pianist accompanying Mrs. David S. Battey Jr., sang for the group with Mrs. Bob Copeland her accompanist.

The invocation was said by Paul R. Fullerton.

Arthur L. Wylie, president of the club, was master of cere-

monies and extended the club's welcome to teachers to the traditional dinner that marks the opening weeks of the school year in Floydada.

A special 5-minute period was devoted to the presentation of an award to Henry G. Barber, vocational agriculture teacher in the Floydada schools. It was a 25-year pin that was to have been presented at the Vocational Agriculture Teachers convention in Austin earlier in the year.

Mr. Barber became ill shortly before he was to have been honored by his fellow teachers. I. T. Graves, superintendent of the schools, made the presentation in a "deep appreciation of Mr. Barber's outstanding service."

The dinner was served cafeteria style at the high school dining room, where the program followed.

Among those from here who brought together in a new U. S. Department of Agriculture bulletin, just issued. Serving as a comprehensive guide for home makers, physicians, dietitians, and others concerned with planning well-balanced diets, the bulletin will make possible comparison of the nutritive values of various foods and determination of the nutritional quality of family meals.

According to U. S. Food and Home Notes, Sept. 14, 1960. The bulletin, prepared by home economists of the Department of Agricultural Research Service, consists mainly of a table showing nutritive values for about 500 food items—most of them ready-to-serve form. The foods are listed in familiar amounts (cups, ounces, pounds) that can be converted easily into family or individual sized portions. Weights of foods in grams are also listed. The table shows how much of the following nutrients each food supplies: protein, fat, selected fatty acids, carbohydrates, calcium, iron, vitamin A value, thiamine, riboflavin, niacin, ascorbic acid (vitamin C).

FARM BUREAU ANNOUNCES POLICY DEVELOPMENT MEETING

The Board of Directors of the Floyd County Farm Bureau have set Monday, September 26, 1960, as the date for their annual Policy Development meeting to be held in the Legion Hall in Lockney, Texas, at 7:30 P.M. at which time the members of Floyd County will determine their policies and make recommendations to the State Convention.

The entire membership is urged to assume this responsibility and participate in the activities of the group. Organization without membership participation is not only weak but can be dangerous.

Farm Bureau policies are built by Farm Bureau membership. And whether the policies are on county problems or on state and national issues, they are based on RECOMMENDATIONS adopted by a majority vote. This is the process Farm Bureau has developed to make it possible for farmers everywhere who produce any kind of commodity—any place—to meet, study, debate, decide, and rally around a sound solution to their problems.

Showers Delay Cotton Opening, Maize Harvest

Alternate hot, dry days with a mild breeze have alternated the past 10 days with showery, cool nights to make cotton and feed not yet matured do well indeed.

But by the same token early cotton is not making any speed opening for the harvest and feed gathering also has slowed down due to the shower dampness.

Low temperatures have ranged as low as 60 degrees at night and mid-afternoons the thermometer has registered up in the nineties. Saturday the high was 83 degrees.

Sunday the high was 94 degrees and Monday 92 degrees.

Since the rain of Sept. 9 when 1.9 inches was registered here showers have fallen on four nights, on the 14th 1-tenth inch fell, on the 16th 2-tenths and on the 19th 2-tenths. Tuesday night there also was a light sprinkle.

Only a few crews of cotton pullers have operated to date. About 50 bales of cotton had been ginned in all by the more than 20 gins in the county as of Wednesday, warehousemen estimated.

In the first fall report on Floyd County crop and labor situation, Texas Employment Commission estimates the cotton crop as very good with 2 per cent of 100 thousand bales open in the field.

Mrs. McNeill Funeral Will Be Held Today

A well loved Floyd County woman died at 5:30 yesterday morning in her home a mile west of the city.

Mrs. Lou Anne McNeill, 89, had been in failing health since suffering a stroke Aug. 6, three years ago. Although bedfast since that time, Mrs. McNeill was always found to be in a cheerful mood and enjoyed the company of her frequent visitors.

Funeral rites for the deceased will be held this afternoon in the First Methodist Church. Mrs. McNeill was a Baptist but enjoyed attending the Methodist church with her family.

Rev. Charles Lutrick, pastor will officiate. Interment will be in Floydada cemetery beside the remains of her husband. Harmon Funeral Home will be in charge of arrangements with grandsons of Mrs. McNeill as pallbearers.

McNeill, Lubbock; six daughters, Mrs. Maude Hawk, Searcy, Ark., Miss Thelma McNeill and Mrs. Jewel Summers Lubbock, Mrs. Grace Robertson and Mrs. Ann Smith, Floydada, and Mrs. Opal Ashton, Lockney; 12 grandchildren and five great grandchildren.

HOSPITAL

(Continued from First Page)

Since the hospital has been paying its way for many months and is now on a sound fiscal basis, they feel that refinancing should be accomplished without too much difficulty.

Today the hospital has been able to meet all recommendations made by the Texas State Board of Health as to betterments and modernization. Only danger the board foresees is the possibility that the state hospital board and the health department may demand an altogether new building that meets the demands of modern hospitalization.

The great need of the community for hospital facilities and health service has been a factor in getting continued approval of their present building. Their equipment is of high standard.

Several thousand dollars have been expended keeping up with modernization demands which have been made on the hospital with her family.

Mt. Blanco News

By Mrs. Brice Allen

(Intended for Issue of Sept. 15)

MT. BLANCO, Sept. 12 — Fall has certainly been in the air the last few mornings, hasn't it. Pull out the blankets one night. With children back in school, most of the summer irrigation done makes us know that cold winter days will be here before we know it.

Your Mt. Blanco correspondent, Mrs. J. W. McClure, is still recuperating at her home. We hope that Frances will soon be able to write your news again. Mr. and Mrs. McClure were in Lubbock Monday where Mrs. McClure saw a doctor.

The revival at Mt. Blanco Baptist Church was over Sunday night. Our church felt a blessing in having Brother Holt Sodeman with us as our revival preacher. Brother and Mrs. Arzelle Hyche and children and Brother Sodeman were dinner guests in the Brice Allen home on Wednesday, the E. H. Brown home Thursday, and Jos. Appling home on Friday, and the Rudolph McCurdy home Saturday. For Sunday dinner, Mr. and Mrs. Holt Bishop were host to the Hyche family, Brother Sodeman and Brother and Mrs. Elbert Bolson. The Bolsons were also overnight guests in the Bishop home Saturday night.

Monday callers in the home of Mr. and Mrs. C. F. Fleming were Mr. and Mrs. Wilmoth Watkins of Occasdale, Calif., Mrs. C. F. Fleming, Mr. and Mrs. D. J. Moses and children, Mr. and Mrs. Bob Kendrick and Mr. Arvis Moore. On Sunday, Mr. and Mrs. Watkins, Mr. and Mrs. Fleming and the D. J. Moses family were dinner guests of Mrs. C. F. Fleming in Crosbyton.

Mr. and Mrs. J. B. Allen, Lockney, and Mrs. C. A. McClure Crosbyton, were Sunday afternoon visitors in the Brice Allen home. Mr. and Mrs. Allen and Mrs. McClure were also visitors in the church service at Mt. Blanco Sunday night.

Mr. and Mrs. Frank Moore took their son Charles down to Waco on Thursday where he will enter Baylor University. Charles will be playing football with the Baylor Bears. David Edwards also went down with Mr. and Mrs. Moore.

Guests over the weekend with Mr. and Mrs. W. F. Cullpeper were Mr. and Mrs. Henry Davis of Ringold, La. Joining the family for Sunday dinner were other members of the family, Mrs. S. L. Holmes Jr. and Mr. and Mrs. E. L. Redwine of Floydada and Mr. and Mrs. Joe E. Wilson and family of Lubbock.

Judge and Mrs. Alton B. Chapman were here Thursday from their Amarillo home. The former Floydada couple had been to Spur to attend a funeral and remained in Floydada for the Rotary banquet Thursday night.

Mrs. J. L. Dalton is reported doing nicely in Lockney Hospital where she underwent an appendectomy Saturday.

Mr. and Mrs. J. W. McClure were Monday night supper guests of their son Jerry McClure and Mrs. McClure in Lubbock.

Weldon Fletcher of Camp Hood spent the weekend with his parents, Mr. and Mrs. J. F. Fletcher. Our friends and former pastor at Mt. Blanco Baptist Church, Brother Clayton Watkins, Mrs. Watkins, Frankie, Carolyn and Jan, arrived in Texas last week from Cox's Creek, Ky. Brother Watkins has been called to pastor Summerfield Baptist Church, Summerfield is near Hereford. Brother Watkins finished the Seminary at Louisville, Ky.

Garth Gotcher is walking with the support of crutches this week the results of a leg infection. Mr. Gotcher, who is an amputee from the right ankle down, has sustained an infection in his good limb and the other as well. He is under the care of the doctor with orders to stay prone as much as possible.

The Floydada businessman lost his right foot in a combine accident 17 years ago.

Mr. and Mrs. E. C. West, who returned early last week from a stay of several days at Shamrock and points in Oklahoma, have left again for an extended absence from home, expecting to spend sometime on the west coast with relatives and friends.

While Seeking Measles Vaccine Improved Vaccine Developed For Greatest Killer Of Dogs

Medical researchers, seeking a vaccine against one of man's most troublesome diseases — measles — have scored a major accomplishment in the prevention of the greatest killer of dogs — distemper.

Adapting human medicines for animal use is not uncommon, but, in this instance, scientists at Pitman-Moore Company, of Indianapolis, came up with the distemper vaccine before the one for measles is perfected.

Canine distemper is a measles-like disease. When it does not kill, it can paralyze the animal's hind part, causes permanent injury to the nervous system, or some other serious disorder. The scientists are working to produce an effective measles vaccine by growing the modified or "cooled off" disease virus in live tissue, the same basic technique used in producing Salk polio vaccine.

Since the canine distemper virus is similar to measles, they decided to try the tissue-culture technique to see if a better distemper vaccine could be produced. It worked.

It was estimated that there are 25,000,000 in this country) are born with a temporary natural immunity to distemper, which fades rapidly between nine and 12 weeks of age. It is during this time, when the natural immunity is disappearing, that the pup is most susceptible to this killing disease. Veterinarians advise giving the new vaccine, Tissuvax D-H, at nine and 12 weeks to assure maximum protection. And because no distemper vaccine gives permanent immunity, an annual booster shot is recommended for your pet.

Moore and will enter Baylor too. Mr. and Mrs. Frank Moore and Mr. and Mrs. Frank Knox Moore visited Mrs. Pen Shugart in Methodist Hospital, Lubbock on Friday. Mrs. Shugart is Mrs. Frank Moore's sister.

Mr. and Mrs. Frank Moore and Mike visited Sunday afternoon in Crosbyton with Mrs. C. H. Moore and also with Mr. and Mrs. Doyle Moore of Floydada who were visiting Mrs. Moore.

The young people of Mt. Blanco church enjoyed fellowship at the Community Center after church Saturday night. J. M. McClure was in charge of the Fellowship Hour.

Mr. and Mrs. R. E. Spurgin with their daughter, Mrs. Wayne Dean and children of Lubbock went down to Bridgeport Saturday where they visited and spent the night in the home of another daughter, Mrs. Pat Cullpeper. Mr. Cullpeper and children on Sunday Mr. and Mrs. Spurgin Mrs. Dean and children drove to Melissa where they attended the 3rd birthday celebration of Mr. Spurgin's mother, Mrs. J. J. Spurgin. The group returned home on Monday Mr. and Mrs. Spurgin visited their son and family Kay Don Spurgin before coming or out to their home.

Mr. and Mrs. J. W. McClure were Monday night supper guests of their son Jerry McClure and Mrs. McClure in Lubbock.

Modern Army's Surveillance Drone Completes Second Successful Flight . . .

THE USD-5, a turbo-jet, unmanned surveillance drone was successfully flown for the second time at the U.S. Army's Electronic Proving Ground's Drone Test Facility, Yuma Test Station, Arizona. Designed for missions of greater speed and longer endurance than previous propeller-driven surveillance drones, it will carry electronic surveillance equipment to provide Army commanders with continuous information about the enemy and his movements. The USD-5 was designed and built by Fairchild Engine and Airplane Corporation under an Army Signal Corps contract.

Sam Houston was converted and baptized in Rocky Creek in 1854, 18 years before they built the Old Baptist Church that now stands at Independence, in Central Texas.

A monument stone on the bell tower by the church reads, "She sleeps within its sound." Reference is to Mrs. Nancy Lea, mother of Houston's wife. She donated her silver service to be melted into the bell.

The tower was erected with stones from the ruins of the original Baylor building. Judge Baylor's hearthstone is said to be included in the tower.

Fire Department Extinguishes Fire Lit By Lightning

A tenant house belonging to the J. T. Huckabay family was struck by lightning early Friday morning during the passing squall line across the county. Considerable damage was reported from the blaze.

The house, just adjacent to the Huckabay home, sustained water damages as well as from the fire. The family related lightning struck the television antennae starting the blaze. A gaping hole was burned in the roof. Furnishings in the home were saved but some were damaged.

The Floydada fire truck was hampered somewhat by muddy roads up to the house. After the blaze was under control the truck became stuck enroute to the highway and Mr. Huckabay used his tractor to pull the vehicle out.

A piece of luck possibly later saved the tenant's home again when Fred Thaxton of Southwestern Public Service, went to the scene after the firemen had left to check wiring. Upon his arrival he noticed smoke coming from a mattress inside the house where a wire had fallen across a bed un-noticed.

The Floydada boy with the 3rd Armored Division was within two miles of the explosion which took the lives of 16 soldiers and injured 27.

COTTON DISEASES Much Verticillium Wilt has been noted in nearly all fields of cotton. This disease accounts for about 9 percent total yield loss in Texas. Losses also occur in the form of lower spots grade and the production of immature fibers. This disease is caused by a soil borne fungus. It may be identified by the leaves turning brown and their falling off. When ever these plants are noted the stalk may be sliced with a knife and dark brown stains will be noted.

These diseases usually occur on the best soil and places where water stands. The disease is active only when the soil temperature is below 85 degrees and this is the reason for seeing the disease late in the growing season.

It may be spread by movement of cotton trash within fields and from field to field. The movement of soil by cultivation may

gendorff, and the onion shed located in the east part of the city.

Not only does the Shamrock story of Floyd County tell of its settling but gives in detail its resources of today, the trend toward greater crops, agricultural programs, its 305,500 irrigated area, the organizations of FFA, 4-H clubs, and the tax-supported Floyd County Free Library.

Paving, Highway Program

It tells of the new paving finished and the one and one-half million highway modernization program made possible in a 1957 bond issue which is to be completed in 1962. The construction of new buildings, new housing and the several new blocks set aside for development also come in for attention.

A feature story of a settler of an adjoining county is also told in the Shamrock. That is of Hank Smith, first settler on the South Plains of Texas. He and his family lived in the home known as the Hank Smith Rock House, above Catfish Creek in Blanco Canyon. When the Quaker settlement came to Old Estacado, to the west of the Smith home, Hank Smith broke the first sod, planted the first crops and dug the first well on the Plains proper. He died May 20, 1912.

Another story told in the magazine is of the engineering feat on Tech campus when a huge hall of the concrete stands were moved several hundred feet to make room for enlargement of the stadium.

EDITORIAL VIEWS AND COMMENTARY

Voice from California. Don't vote for Mr. Nixon for president. Lots of people here do not think well of him.

The Young Housewife. spouse of the Democratic candidate for president, has a great television personality. Her answers are not trite, they give evidence of a brilliant mind, not cluttered with the fear that she'll say the wrong thing. It wouldn't do the Democrats any harm to maneuver her into having to be heard oftener.

Texas Republicans are having their qualms, too, according to reports coming out of Houston. While the Democratic fists fly at the state convention-Republican leaders find the national platform their party adopted about as difficult for them to swallow. Actually, it appears their platform is much after the same fashion as the Democratic. That is in promises to all and sundry and in pointing to further centralization of powers in Washington. Most members of both parties in this state are staying in line with mental reservations, their candidates acceptable but the platforms on which they are running much too far to the left.

Democratic Presidential Candidate Kennedy had Senator Ralph Yarborough at his side in his trip across Texas campaigning last week. Yarborough was "drafted" to journey in the plane with Mr. Kennedy so as to brief him on what the people in the various localities were interested in, to get the local angle. Thus Mr. Kennedy was able to quote from the Texas Constitution in one city, talk about the defense set-up in another, the farm problem in another, and so on. There was much hoopla, and swirling dust as the candidate's party whipped its way across Texas. The reporters had a hectic time of it, while Senator Kennedy in his New England fashion was as cool as a cucumber.

Brothers and Sisters went in together to buy their candidate brother a plane to make his presidential campaign across the nation. The Kennedys make up an interesting family. They are all for each other.

Present-Day School Law being difficult for the layman to understand it is presumptuous for a newsmen to assume that the Ralls School Board does not have a leg to stand on in its court fight over the Cone transfers to Floydada and the Farmer transfers to Lorenzo. The explanations made by the county school board chairman of Crosby County seem logical, however, as appears on another page in this issue of The Hesperian. Contrariwise it should be stated that state regulations, even state laws, cannot be taken literally to mean what they say. The transfer matter is now set for airing on a tentative date, early in October. Meanwhile it must be comforting to the school patrons of Cone and Farmer that their children have a school home while the authorities squabble over the equities in the matter.

Whose Turn Is It? By mid-week it should have been some nation's turn to blast the United States and get an apology or an apologetic answer. The United Nations area is full of the enemies of our country who are there by right granted when the United Nations was organized. We know it will be our turn to take a blasting from some of them. Which ruffian is to have his turn at tanning our hides and getting a Pecksniffian answer.

Encouraging Progress. Grain producers of the high plains are making progress in their campaign to enlarge the domestic and foreign markets. The foreign markets, in particular, hold out hope, according to R. C. Mitchell, who reports on the meeting held last Thursday night to help carry on the campaign in this county. The grain growers envision the day when the demand may equal the supply for the grain sorghums at prices that will justify the production of them. The effort to gain wider markets in this instance is a self-supporting activity. Farmers support the promotion with two pounds of grain out of each thousand they produce.

Cotton Outlook Better. Status of cotton on the markets this year will be better than in the previous few years, it appears. There is even talk that the acreage of cotton to be allocated under the marketing program may be increased slightly next year. Recent efforts to reach more markets with cotton that meets the international competitive conditions have been fairly successful, according to reports. Heretofore for a good many years American cotton has suffered at the hands of competitive countries. Foreign production has increased all out of proportion to the wider markets, due to our mistaken policies that have prevailed. Live and learn.

The proposed change in the constitution relating to interest rates is meant as a move in the direction of eliminating the loan shark evil. "We have had over 50 years of usury in Texas under our present set up," it is argued by proponents of the change in the constitution. This change would make it possible to "regulate the small loan industry" they say. While it is generally understood that the loan sharks are operating it is not generally understood why they are permitted to flaunt the law. Perhaps proponents of the change will be able to spread understanding of the need before voting time, but until they are able to do so, it will be hard to get support for a revised constitutional provision.

First Cotton Estimate. Texas cotton production this year is forecast to run some 4,425,000 bales. The U.S. Department of Agriculture is responsible for the figures.

And then there's the farmers wife who told the druggist to be sure to label the bottles plainly, so she could tell which was for her husband and which for the horse. "I don't want nothin' to happen to the horse before spring plowin'," she said.

To Rave and Rant. The public can depend on it that the papers and the airways will not skip the news on Fidel Castro and Nikita Krushchev during their stay at the United Nations. The two need to be contained, Mr. Krushchev being especially dangerous, but the more the people are given a chance to see their phony show the better their real aims will be seen. If the two men are as wrong as they seem to us to be the more they occupy the stage the sooner they'll be found out.

Accuse not Nature, she hath done her part;
Do thou but thine! —Milton.
Pride ruined the angels. —Emerson.

Amendment To Social Security Law Adds 250,000 To Eligibility

For the fourth time in six years Congress has passed amendments to the social security law which liberalize the protection afforded disabled workers and their dependents. Under the 1960 amendments approximately 250,000 people — disabled workers under 50 years of age and certain of their dependents — are now eligible for social security benefits. Until now only those disabled workers between 50 and 65 and their dependents were eligible for monthly social security benefits. Younger disabled workers are more likely to have families dependent on them than older workers are. Before the change in the social security law many of them were dependent upon public assistance payments which are financed out of general tax funds. It is estimated that \$20 million will be saved in public assistance payments during the next year now that many of these young disabled workers and their families are eligible for disability insurance benefits based on their past earnings and social security tax contributions under social security. It is expected that savings will be even greater in the years to come when fewer people who become disabled before age 50 will need help through public assistance. If you are under 50 and have already had your social security record frozen, you will receive a letter explaining the new benefits and what you need to do about getting them for yourself and your dependents. Do not get in touch with your social security office at this time. It will only delay the district office in taking action to get checks to you and others who are eligible for payments under the new law. However, severely disabled workers under 50 who have worked under social security, but have never applied to have their social security records frozen, should get in touch with their nearest social security district office now to inquire about their rights to payments. To qualify for disability insurance benefits, a disabled worker must be so severely disabled that he is "unable to engage in any substantial gainful activity". In addition, he must have worked under social security for at least 5 years out of the ten years before he became disabled. Benefits for disabled persons under 50 and their families can start with the month of October, 1960.

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

With all the hoopla of the elections, many of the polls Nov. 10, realize they have decisions to make.

Amendments to the Constitution will be a general election, or to reject after the basic law is passed. It is an important part of the process.

AMENDMENT TWO: Would permit a rate of interest not to exceed 3 1/2 per cent on bonds issued hereafter for the benefit of the Veterans Land Fund. Present constitutional ceiling is 3 per cent.

Veterans Land Board is authorized by law to sell bonds and use the money from these sales to buy land which is re-sold to qualified Texas veterans. Law provided for the sale of \$200,000 in bonds, but the Board has not been able to sell the last

\$62,500,000 of these bonds because interest does not make them an attractive investment.

Financial experts think that raising the permitted interest rate to 3 1/2 per cent should be sufficient to make the bonds salable again.

AMENDMENT THREE: Would change the pay scale to members of the Legislature to give them annual salaries of \$4,800 plus \$12 a day for each day in session. It would limit regular sessions to 140 days (present limit is 120 days). Lawmakers would receive \$12 a day for each day of a 140-day regular session plus \$12 a day for each day of a 30-day special called session.

At present, legislators receive no annual salary. They get \$2 a day for each day, up to 120 days of the regular session plus \$2 a day for each day of a 30-day special session. They receive no pay in years the Legislature does not convene (such as 1960). Under this proposal, they would receive \$4,800 a year base pay whether they spent any time in session or not.

Present provisions for travel expenses would not be changed. These provide for the lawmaker to receive \$2.50 for each 25 miles of the round trip between his home and Austin once each session.

This amendment is essentially a compromise between the present arrangement and the constitutional change proposed in 1958. Last time the proposal was for annual salaries of \$7,500 and no per diem. It also provided for annual sessions which, many think, contributed to its defeat.

Proponents of the current plan say that it will make it possible for better qualified people to serve in the Legislature without having to make so much of a personal financial sacrifice to do so.

Opponents argue that it will create "professional legislators." They contend that it is better for the lawmaker to have another job in private life to keep him closer to the problems of the people.

If the amendment is passed, Texas legislators would receive for his two-year term of office minimum pay of \$9,600. In other states, the pay for a two-year term ranges from \$200 in New Hampshire to \$15,000 in New York. Average is about \$3,600.

AMENDMENT FOUR: Would give the Legislature authority to classify loans and lenders, to license and regulate lenders, to define what part of the charge made on loans should be considered interest and to fix the maximum rate of interest which should be charged.

This is generally known as the "anti-loan shark" amendment and is being supported by a blue ribbon committee of citizens from over the state.

At present the Constitution provides that the maximum rate of interest shall be 10 per cent. This is widely, almost universally, violated by the small loan industry usually through additional charges

besides the interest — "handling charges, service charges," etc.

Attorney General's department investigations have turned up cases of flagrant abuses by loan companies, making charges that totaled altogether as much as 300 per cent of the amount loaned.

On the other hand, the investors themselves admit that a loan company making short-term, high-risk personal loans cannot stay in the black on 10 per cent.

If this amendment is passed, it will be up to the Legislature to decide what is a fair charge. Even those legislators who voted for this proposal admit they dread the prospect of having to decide what rates are fair.

HIGHWAY SLOWDOWN DUE — Public highway work in Texas will be cut back about one-half for the months of November and December, the State Highway Department announces.

This is a seasonal drop, according to State Highway Engineer DeWitt C. Greer. Spring and summer are the "rush season" for highway work because the weather is good. They are also the months when revenue from gasoline taxes runs high.

Sale of license plates next spring will bring the annual bounce-back in money to the Highway Department, and a rise in highway contract lettings is expected about the same time.

Total construction contracts for September and October are expected to hit about \$21,000,000 each month, but will probably drop to half of that for November and December.

SHORT SNORTS — Kenneth I. Kimbro has been named chief clerk under Comptroller Robert S. Calvert. He succeeds the late Gus Farrar. . . A. T. (Moon) Mullins, chief clerk of the General Land Office, has resigned to enter private law practice in Austin. Mullins has been with the Land Office since 1948. . . J. S. Dept. of Agriculture has predicted this year's Texas Cotton crop at 4,425,000 bales, an increase over earlier predictions. Other crop forecasts: sorghum, 276,432,000 bushels, just short of last year's record crop; peanuts, a record yield of 313,125,000 pounds; carrots, up 6 per cent; and pinto beans, 30 per cent in crease.

Whirlwinds Down Fighting Ralls Jackrabbits 31-7

The Floydada Whirlwinds were fine defensive work that led them forced to come from behind Friday night to down a hard fighting unit pounced on numerous fun-bunch of Ralls Jackrabbits 31-7. The Rabbits put on an old-fashioned demonstration of the art of punting, hard blocking, hard running, and fine defense in the first two quarters and went to the dressing room at the half owning a 7-6 lead and looking like they were on the way to upsetting the favored 'Winds.

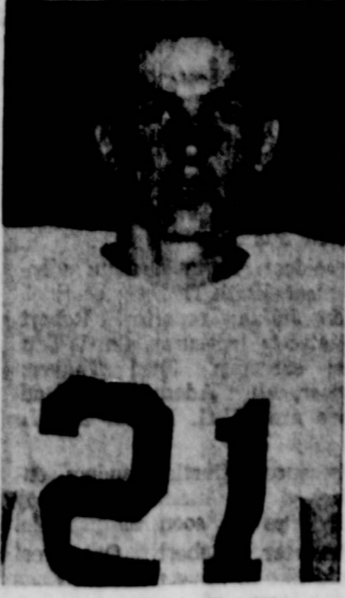

Floydada came out inspired in the third period, however, and pulled the chestnuts from the fire as they poured it on for 25 points in the last two frames. Quarterback Rodney Teague led the scoring parade, hitting for TD's and kicked one conversion for 13 points and in addition pass- yards but fell short and they lost to team mate Larry Orman the ball on fourth down at the for another score. The other two markers were notched by Richard Marler who dived through from the two and Charles Christian who turned the longest scoring scamper as he hit pay dirt from the yards out.

MELVIN GREEN

RICHARD MARLER

Smith holding and the Rabbits owned a 7-0 lead. Ralls was showing good ball handling and blocking through this point of the game.

The Whirlwinds next drive was stopped after the green and white had driven across mid-field and Bill McFadden intercepted Teague's pass on the Ralls 30, ramming it back to the Floydada 48. A blasting tackle by Jerry Poole and a fumble recovery by Eddie Parks soon put Floydada in business again and this time it was a razzle dazzle all the way. A 15 yard penalty set Floydada back to their own 35 then Rodney Teague hit Richard Marler with a 30-yard pass and he threaded his way an additional 30 yards before being downed on the five-yard line.

From here Stovall went to the two, a penalty moved the ball back to the seven and then Teague scored the TD. Teague fell making his cut and failed to run the conversion and Floydada was trailing 6-7 at the intermission. In the third stanza bone jarring tackles and fumbles were the order of the day and Floydada's alert defense took three of these fumbles, turning two into scores.

Recover Fumble Score
The first one Ray Walker recovered on the 18 but the 'Winds were held for downs at the eight. The second Richard Marler recovered on the Ralls 20. From here Teague hit Christian for 12 on a pass, and two plays later Marler scored going in from the 10. The kicking attempt failed but Floydada was in front for the first time 12-7.

Following the ensuing kickoff Melvin Lloyd pounced on the ball after a Rabbit was jarred loose and Floydada owned the pig hide on the Ralls 16. One pass Teague to Orman got the yardage in one hunk and the score was 18-7 as another kick failed. Before the period ended Floydada had kicked off: held Ralls at the Rabbit 33 from which point

PETITION
To the Hon. James Scott, U. S. Mail Agent for the State of Texas: The petition of the undersigned residents of Austin County, respectfully represent: That they labor under great inconveniences for want of sufficient Mail facilities in their County. And they pray for want of a direct Mail route from Bellville to Catsprings, Industry, New Ulm and Shelby. They are informed and believe that the Mail from Houston, via San Felipe to La Grange arrives at Catsprings Post Office on the evenings of Mondays, Wednesdays and Fridays and return to San Felipe the same evenings. That the Mail leaves Catsprings for Industry, New Ulm, etc. on the mornings of Tuesdays, Thursdays and Saturdays. That the Bellville Mail (on the route from Brenham to Richmond) arrives at San Felipe on the night of Mondays, Wednesdays and Fridays, and that the Mail matter for Industry, etc., must lie over at San Felipe until the next Mail, two days afterwards. Your petitioners propose that the Brenham and Richmond route be so changed as to have the Mail go from Bellville direct to Catsprings Post Office, (and thence to Hartsville and Richmond) in order that the Mail matter from Bellville to Industry may go by Catsprings without the necessity of going to San Felipe. That, if your petitioners are correctly informed, none will suffer inconveniences from the proposed change. The route from Brenham to Richmond will be shortened, and the whole communities of Bellville, Catsprings, Industry, New Ulm, and Shelby benefited, and receive their Mail matter from Bellville three or four days sooner than they now do. Petitioners represent that there are large lists of subscribers at the several places named of a Newspaper published at Bellville, Austin County, and that by the circuitous route by which they now receive their Mail, and the delay of the Mail that the people of Industry, etc., receive their Mail matter from New Orleans of the same date as their Bellville paper. Petitioners pray that the proposed change may be made, that Mail Contractors and Mail Riders be stirred up to the performance of their duties, against whom there are now great complaints by the people. That your Honor will represent to the proper department at Washington City our grievances, if need be; and also the importance of establishing a new route from Hempstead to Columbus, to pass through Bellville, Industry, etc. And as in duty bound, &c.

Desperate Effort Fails
Floydada kicked off again and Ralls made a desperate effort to get back into the ball game. The green and white defense was good and Stovall hit Esparza with bruising tackle, Teddy Aton followed suit and Floydada took over on their own 28. After gaining the midfield stripe Charles Christian went the remaining distance of 47 yards to score, circling his own left end.

The next Ralls threat was stopped by a fine defense led by a hard tackle by Don Davis and a pass interception by Ray Walker. Floydada reserves could not get and Ralls took over at their own 46. Soon after the game ended and the scoring was over at 31-7 in favor of Floydada. Starters for the green and white were Marler, Allen, Stovall, Teague, Lloyd, Davis, Crawford, Dunn, Parks, Orman, Powell. The entire squad saw action at some point in the game as the coaches were able to rest most of the offensive and defensive starters. In statistics Floydada led 6 penetrations to 1, in first downs 29 to 10, in rushing yardage 249 to 101, in passing 138 yards to 26. Charles Christian gained 61 yards, Stovall 50, Marler 46, Teague 43, Walker 36 to lead Floydada's ground game. Teague's passes went to Powell for 20, Marler for 60, Christian for 12, Orman for 16, and Christian for 30.

TEXAS A&M-TECH GAME COMING SATURDAY NIGHT
Lubbock, Sept. 19 — Texas Tech's long-headed debut in Southwest Conference football takes place Saturday night when the Red Raiders invade College Station to meet Texas A&M. Pointing up the difficulty of the chore facing the Aggies is the rivalry history, which shows only five Tech wins in the 18 games played. Tech has coked out two successive triumphs, 15-14 and 20-14, over the Aggies the past two seasons. But those were played in neutral Dallas, and the big one, "for Texas," will be on the Aggie's home turf.

Emory Cox, assistant manager at OK Rubber Welders, is a long time resident of the plains country. Cox came to Floydada from the Farmer community in Crosby County in 1934 and has lived here since that time.

He and wife, Ivy, have three children. They are sons, Leonard five years old, and Kenneth two months old, and daughter Karan, two years old. The Coxes are members of the Calvary Baptist Church in Floydada.

On the job at OK Welders, Cox is engaged in tire sales both new and used and in recapping, tire repair and road and field service. OK Welders offer the nationally known General and Star tires along with several other brands of auto truck and tractor tires. He has been with the firm since 1952. At present time the staff at OK numbers some four members.

Off the job Cox has a number of interesting hobbies. Until recently he had a reputation as a opossum hunter and usually kept several dogs. Now he has taken to toy fox terriers and raises these and fighting roosters in his spare time.

Cox is popular with the callers at OK Welders as he always has a grin and a good word to go with the service offered.

Rain Squall Causes Truck-Auto Crash

Three Floydada women escaped serious injury early Friday morning as their car went out of control and hit a truck shortly after a hard driving rain had struck the city.

The women were Gerlie Campbell, Georgia Lee Bryant and Ovella Stephens, all occupants of a 1952 Cadillac driven by Mrs. Bryant and belonging to Mrs. Campbell.

The accident occurred in front of the King Tractor Co., Lockney Highway, when the Bryant car swerved out of control after hitting a water puddle, and struck a legally parked truck trailer on the opposite side of the street.

The truck, Chevrolet cab-over-engine north, belonged to C. A. Washburn of Belton, and was occupied by Jim Bagley and Roy Hickmon, both of Belton. Both men were asleep at the time of the collision.

They were enroute to New Mexico with a load of cedar posts and decided to pull over and sleep during the storm.

Investigating officers said the car coming into the town, south skidded 80 feet before striking the truck against the front and left portion of the vehicle. The car was also smashed along the driver's side.

Reports said the women left the scene to seek first aid at their near by homes not realizing they were occupants in the truck. The driver and his assistant said they thought lightning had struck their vehicle until they saw the car as it was leaving. Neither man was injured and the Floydada women sustained only minor bruises, one requiring X-rays to determine
