Purcell has been on the board since 1942. Following the election a discussion was held by those attending on the greater plains conservation program and the district plan of work on soil and water conservation.

The general public is invited to attend board meetings of the Soil Conservation District the first Tuesday of each month at the agricultural building.

Joe McIntire of Floydada, work unit conservationist with the district, was among those attending the Tuesday night meeting at South Plains.

Aggies Honor Soph Miss As Sweetheart

Future Farmers of America at Floydada High School last week closed their sweetheart contest and named Miss LaJuana Rimmer to this position of honor. Last year's sweetheart was Glenda Morgan.

This year the four ag classes each nominated a sweetheart candidate and those chosen were Lana Davis, Nita Cage, Janice Trapp and LaJuana Rimmer.

The chapter uses the contest as a money raising project and numerous posters, campaign slogans, campaign managers were in evidence during the contest period.

The new sweetheart will represent the local chapter at the district FFA banquet and will be honored at the Floyd County Junior Fat Stock Show and banquet.

The ag boys present their sweetheart with an FFA pin, ring and jacket.

Miss Rimmer is a member of the sophomore class, she is a member of the Whirlwind Band and also serves as a majorette and is head twirler for this organization.

In sports she is a member of the girls basketball team having held a starting forward position as a freshman last winter to earn her first letter.

In other activities of the Aggies this week the organization named vice president Keith Thomas as a delegate to the district meeting in Hale County. He was nominated and elected vice president of the district.

Keith Thomas and Robert Overstreet have been selected delegates to attend the National F. A. Convention in Kansas City October 10 through the 15th.

County Farm Bureau Names 5 Directors

Aside from the reports of the various officials of the county Farm Bureau at their Monday night annual convention and adoption of recommendations at the state and national level which the county organization will espouse formed the principal feature of the program.

The recommendations, adopted unanimously, covered the cotton program, cotton and grain exports, labor, price supports, land retirement, wheat minimum allowance, taxes, farm to market roads, licensing to farm trailers, and motor vehicles and safety at highway intersections.

The new directors to serve on the county board include Rex Smitherman in northeast Floyd County, Lee Burton, east Floyd County, Tommy Duvall, west Hollis McLain, south and Herman Thornton, north. These succeed Jerry Cooper, L. T. Wood, David Battey Jr., Shirley Irwin and Sterling Cummings.

Carry over members of the board are Jack McIntosh, Ewald Quebe, J. P. Moss and Thomas Warren.

The county organization operated the past year on a budget that totaled slightly less than \$10,000. The organization now has a membership approaching the 700 mark.

In the campaign this fall the board hopes to reach 700 members in the county. Delegates to the state convention will be chosen at the county level.

FIRST TAX PAYER. Fred Battey, a resident of the county 49 years, is shown at the window of the Tax collector's office as he paid his county and state taxes, early Saturday morning. Mr. Battey was the first in the county to do so. T. Hamilton, tax assessor and collector, said usually there was a line of people on the first of October to pay, but due to the first of the month falling on Saturday, he felt it would be the first of the week before lines started forming.

October Brings Local Tax Bills For Property Owners to Tackle

A tax bill for state, county, good, school and other purposes totaling almost \$850,000 was being tackled this week by Floyd County property owners.

Collectors for the various taxing agencies without exception said they had had good response since opening their doors on the morning of October 1.

The biggest bill of the lot will be paid at the office of the County Assessor-Collector, where the property owners will fork up \$55,720.69 in state taxes, \$129,456.88 in county taxes, \$56,608.68 in road bond taxes, \$24,291.73 in special road taxes, and \$16,194.61 in court house bond taxes; and in addition \$7,483.32 water district assessments, \$18,807.92 for the Weed control District and \$45,359.68 for common school district taxes, for a total of \$354,159.71.

To this must be added \$3,766.99 with a balance of some \$2900 plus the tax collector will collect for Plomat Independent School District in Motley County on land lying in that district but in Floyd County.

There are also three local tax collection bodies outside of Floyd County each of which will take a bite out of the income of citizens in this county. These tax collection agencies are in Plainview, Petersburg, and Quitaque.

Plainview School District includes a few sections lying along the Hale County line west of Aiken and will collect school taxes from that area in an amount not recorded locally. Likewise, Petersburg school District takes a bite out of the southwest corner of Floyd County, and Quitaque a bite out of the southwest corner of the southwest corner of the county.

Floydada Independent School District will collect the second biggest amount out of the county total. With valuations of \$13,951,893 the school district tax levied is \$223,230.32.

Lockney Independent School District, with valuations at \$12,461,592, will collect \$186,970.35 from property owners in that district.

City of Floydada with valuations at \$3,651,508.28 will collect \$54,472.62 and the City of Lockney, with valuations of \$1,477,695 will collect \$22,165.46.

Collections were not too good on Saturday all of the collectors indicate, but on Monday morning a steady stream of taxpayers began making the rounds of the various offices. Collections are

MAKE ASPEN DRIVE Making the beautiful Aspen Drive over the past weekend were Mr. and Mrs. Floyd Webb and Mrs. Webb's sister, Mrs. Ruth Benson of Matador.

Eagles Bring Well-Balanced Team To Field

The Floydada Whirlwinds will be at home again this week as they play host to the Canyon Eagles in their last intersection game of the season before buckling down to district play.

The 'Winds are riding high on a four game winning streak and are undefeated for the season. Their opponents for the Friday night game will come to town with a one win three loss record.

Kick-off time at Wester Field will be 8:00 p. m. The bands of the two schools are scheduled to perform.

The Canyon Eagles of Coach E. J. Webb are members of district 1AA. They opened the season with a comparatively young squad and with a very rough schedule. Thus far they have won from Slaton and dropped games to Hereford, Perryton and Dumas, all respected foes.

When the Eagles come to town they will bring a team of about the same weight as the local's. They have a fine fullback in Elmer Oberst and also a good quarterback in Jim Killingsworth.

The tough opposition has not given the Eagles much chance to show their scoring ability, but they are known to have good material and given only half a chance can be expected to break loose in any game.

Whirlwinds in Fair Shape The Winds feared to be in fair shape as late as Tuesday and were expecting to be able to start their regulars in the Canyon game. Kenneth Monkins got to see some action in the Post game last week and Charles Christian also seemed to be able to run well straight ahead but was still having trouble with sharp cuts as his ankle is still weak. Most of the other team members looked like they were ready for any kind of action.

The Winds thus far have not been too explosive a ball team on offense though they have run

# Poison Control Center Kept For Guidance Of Physicians

A poison control center (PCC) is a place which helps family doctors keep patients from becoming statistics.

Each year a hundred or so Texans — mostly children — become statistics by virtue of being accidentally poisoned. In the last four years, State Health Department record keepers have added 364 new names to the grim list of deaths by poisoning. PCC's undoubtedly have kept the list from being much longer.

Fifteen PCC's now operate in Texas under local physicians' guidance. The most recent one was set up in San Antonio July 13. Others are located in Abilene, Austin, Corpus Christi, Dallas, Fort Worth, Galveston, Grand Prairie, Harlingen, Houston, Tyler, Wichita Falls, Odessa, San Angelo and Waco.

Hugh D. McGaw, a State Health Department occupational health engineer who works intimately with them, describes a PCC's round-the-clock operation like this:

"A curious youngster eats some of his mother's cosmetics and it makes him sick. His mother calls the doctor, but he doesn't know what toxic ingredients the cosmetic had in it. So he calls the nearest PCC, reports the brand name. A quick check of an index card file reveals the toxic substance and the antidote."

Twelve of Texas' 15 PCC's are equipped to provide emergency treatment, in addition to supplying detailed information on antidotes on a moment's notice.

McGaw says that PCC's in Texas' major cities handle some 150-250 emergency calls every month. And the volume is increasing all the time, with more and more potentially hazardous products being marketed each year.

"Poison control centers are not intended to answer queries directly from the public," says McGaw. "They're set up to serve the physician who serves the patient. This is the way they can be of most benefit."

Even if the ingested product turns out to be harmless, the PCC has still saved the patient the discomfort of having his stomach pumped, McGaw points out.

He and other state health officials would like to see centers in the Panhandle, on the southwestern border, and in far West Texas so all areas of Texas would be within an economical telephone

call of a center. The Department's division of occupational health supplies a file of information on poisonous materials and their antidotes after the center has been established. (A weekly feature of the Health Education Division, Texas State Department of Health.)

## First Baptist Fall Revival Begins Sunday

Services of the Fall Revival at First Baptist Church begins this coming Sunday. Week-day services will be at 12:00 noon and at 7:30 in the evening. Lunch will be served at 12:30 each day.

Dr. F. B. Thorn, pastor of the First Baptist Church at Wichita, Kansas, will preach for the revival, with Eddie Nicholson, of Birmingham, Ala., leading the singing.

Dr. Thorn began preaching at the age of 16. After he entered the ministry all of his four brothers and his father also were ordained and began preaching. His son, also, is a Baptist minister, serving the Calvary Baptist Church of Lubbock at this time.

Churches at McAlester, Okla., Waco, and Houston have been among the cities where he has served pastorates. At Houston he was pastor for 13 years and he has been serving the Wichita church for several years. He has been prominent in the Kansas Baptist Convention during this period.

With a keen sense of humor preaching that lifts Christ up, his biographer describes Dr. Thorn as an optimist unparalleled, terming him the Will Rogers of the pulpit.

Eddie Nicholson, the singer, has written many gospel songs, one of which is "Try Jesus, Man of Gallilee." Under his direction the choir is expected to thrill the revival audiences.

The meeting will continue through Oct. 16.

Parent-Teachers-Students Association met Monday night in the auditorium of Junior High with Newell Burk presiding.

Mrs. Ralph Rucker, member ship chairman of the PTSA announced that 128 paid members were enrolled. The drive is to continue until Oct. 12. At the end of the drive the room reporting the most members will receive a treat.

The cooperation of parents to make this drive a success is greatly needed. Students may still turn in membership dues to their home room teacher until next Wednesday when the drive ends, it was announced.

A. W. Coltharp introduced the faculty of Junior High to parents and students attending, then escorted parents on a tour of the rooms. Parents visited some ten minutes in each class room going thru procedures of daily lessons.

The tour proved to be most informative and educational to the parents.

Mr. Coltharp also made the announcement that the PTSA is planning a money making project in order to acquire a PA system for the school. More details and planning are ahead for the project at present.

The next meeting will be held on Nov. 21 at 7:30 p. m. Students of the school are to demonstrate audio-visual equipment at this time.

Neat cooks wouldn't know about recipe hoarders. But some women collect recipes as others do pewter, baskets, or china fig urines. They stuff them into files until these are full; slip them inside cookbooks where they're lost unless found accidentally; shove them into drawers where they may never come to light.

A day of reckoning came at our house last month as we moved things out to renovate the kitchen. And as we sorted, clipped, copied and filed, what a flock of memories fluttered out!

Recipes we had clipped from magazines in the blessed days before calories counted, some used many times over, others forgotten the day after they went into a drawer. Those we collected as a bride — from mother, sister, friends, and the women who thought the spouse might starve to death if they didn't come to the rescue.

Recipes for the war years — eggless-butterless fruit cake; victory garden specials; meatless meals; sugarless cookies; fish and chicken dishes by the dozens. Not to mention home canning, how to dry vegetables at home, and (of all things) an old ration book!

The recipe for Mexican rice, misplaced for years, but we had been ashamed to ask for it again. Instructions for barbecuing chicken, given us once by a doctor's wife who does it so well.

Blackbottom pie, cranberry salad, chow mein, meringues chutney sauce, homemade chili, eggplant soufflé. As we scanned the lot, we could only think: if readin' were doin', what a cook we'd be!

Wise husbands would encourage their wives to spend an hour a week reading about tempting dishes and gourmet's delights. That ought to shake any cook out of kitchen boredom, and repeating the same old menus day after day.

## WMU Conference Held This Week

Numerous members of the Women's Missionary Society of the First Baptist Church in Floydada attended various Leadership Conferences on Monday in Crosbyton, on Tuesday, Oct. 4.

On Wednesday the executive board of WMU met in the local church parlor.

Among those attending the conferences was Mrs. Joe McEntire, newly installed president of the Missionary Union in Floydada.

Rhonda Kay Bennett, seven-month old baby daughter of Mr. and Mrs. Harold Wayne Bennett was brought home Monday from Lockney General Hospital and is recovering by her mother to be progressing nicely following a slight case of encephalitis.

The baby was stricken some two weeks ago with what was first thought to be a cold. Later diagnoses proved it to be encephalitis.

### Double Ring Vows Unite Pair Sunday

Wedding vows were solemnized between Miss Brenda Q. Carter and Milton Lee Sutton, in double ring ceremonies read Sunday afternoon in the Assembly of God Church in Lockney.

The bride is the daughter of Mr. and Mrs. Q. Carter of Lockney, former residents of Floydada. The groom is the son of Mrs. Myrtle Sutton also of Lockney.

Rev. Charles Broadhurst, pastor of the First Baptist Church at Lockney, performed the wedding before a white arch decorated with white wedding bell and blue

of the groom. Miss Joyce Young poured from a silver service and Miss Jessie Barkley, Lockney, also a niece of the groom, served wedding cake made by Mrs. Carver Monroe of Silverton.

### Henry-Baker Nuptial Vows Read Sunday

An impressive single-ring ceremony read Sunday afternoon by H. L. Matheny, Church of Christ minister of Andrews, united in marriage Miss Rita Jane Henry and Kenneth DeWayne Baker both of Floydada.

Vows were exchanged at 10 o'clock in the home of the bride's parents, Mr. and Mrs. Clay Henry. Parents of the bridegroom are Mr. and Mrs. Earl Baker of Floydada.

The wedding party stood beneath an arch of lemon leaves and golden pom pom mums flanked by a pair of candelabra illuminated by white tapers. A large palm of commodore was accented by aisle posts holding white satin ropes to complete the setting.

Mrs. Bill Hardin, organist, played wedding selections. Candle-lighters were Ann and Bill Strickland of Lubbock, cousins of the bride. Sam Clayton Henry, brother of the bride, was ring bearer and carried the wedding band atop a white satin pillow edged in lace. Wayne Rice of Floydada ushered guests.

The bride, given in marriage by her father, wore a white gown of lace over taffeta fashioned ballarina length.

A sabrina neckline was enhanced by a V shape in the back where a single white satin rose with matching satin streamers was attached. Matching satin formed a cummerbund at the waist where tiny pleats fell into a full skirt. The tight bodice was accented by tiny shoulder straps. She wore a jacket of lace styled with three quarter length sleeves.

Her veil of French silk illusion and lace was caught to a tiara of seed pearls and sequins. Her bridal ensemble was completed by white satin slippers, and she carried a crescent shaped bouquet of white mums and green Maline centered with a corsage of yellow pom pom mums and green satin leaves.

In carrying out the traditional something old something new, borrowed and blue, the bride wore a blue garter of lace and seed pearls made by her aunt, Mrs. Derrell Henry of Odessa. She wore a pin of rhinestones and cluster of pearls belonging to Mrs. H. M. Thomas of Floydada and a six penny in her slipper bearing the date of her birth.

Sister Is Maid Of Honor Miss Betty Claire Henry of Lubbock, served her sister as maid of honor. She wore a street length dress of olive color silk organza highlighted by satin trim. The bodice was accented by three quarter-length sleeves, a stand up collar with matching satin bow at the neck. She wore identical colored slippers and a feathered hat of bronze, gold and green. She carried an arm bouquet of yellow and bronze pom pom mums.

The feminine candlelighter was dressed in autumn olive color of green lace over taffeta. The waist of the dress was caught on either side by bows.

Carroll Sims of Floydada served as best man.

Mothers of the bride and groom wore shoulder corsages of yellow and bronze pom pom mums.

Following the ceremony a reception honoring the newly weds was given in the home. Members of the houseparty were Mrs. Alton Strickland, Misses Ann Strickland, Betty Henry, Kay Edwards and Ann Howle of Lubbock, Mrs. Jack Kassahn, Hereford, Mrs. Toby Waggoner and Mrs. B. B. Howle of Plainview, and Mrs. S. D. Roe of Floydada.

The bride's table was beautifully laid with a floor length cloth of white net over taffeta. Cascading white satin ribbon with lace bows caught portion of the skirt fold. Each fold held a white net pom pom tied with white satin streamers and centered by tiny Lily of the Valley.

A five branch candelabra covered with lemon leaves and gold-

yellow pom poms formed the centerpiece which was flanked by the attendants bouquets.

Antique Wedding Knife The four tiered wedding cake was in the shape of a clover leaf and decorated in white with tiny golden flowers. A miniature bride and groom encircled with an arch was placed atop the cake. The first slice was cut by the bride H. L. Matheny, Church of Christ minister of Andrews, united in marriage Miss Rita Jane Henry and Kenneth DeWayne Baker both of Floydada.

# Wheat Compliance for 1961 Wheat Year

Preparation not be subject to marketing quota completed on penalties. If you have more acres of wheat than your farm allotment, some of the wheat from your farm will be eligible for price support.

**Marketing quota penalty** — In general, if your acreage of wheat is more than your farm allotment and the harvested acreage is more than 15 acres, the excess wheat will be subject to a marketing quota penalty. If you obtain approval from the ASC county committee to grow up to 30 acres of wheat for feed or other use on the farm where grown and you comply with the provisions of that program, your wheat will not be subject to marketing quotas.

**Farms with no wheat allotment** — A producer can seed 15.0 acres of wheat on any farm for which no wheat allotment has been determined or on which the allotment is 15.0 acres or less.

## FLOYDADA MERCHANTS AT THEIR JOBS

**J. W. GILBREATH** who operates Gilbreath's Humble Service Station in Floydada has made a name for himself as an aggressive service station man. He opened the new Humble station in Floydada in December, 1956, and has operated it since that time, serving an ever-expanding list of customers.

J. W. Gilbreath is well known around Floydada as an up to date service station operator. He first opened his doors in December, 1956 when Humble entered the local picture and has been at the same stand since that time.

At present the station has a staff of three and they specialize in giving the very best of service. The famous Humble gasolines, motor oils, greases, and Atlas tires and batteries are the merchandise offered.

The service to car owners includes washing, greasing, oil changes, flat fixed, air, water, windshields, head lights and windows washed along with the usual gasoline and oil. Gilbreath takes pride in keeping an attractive and clean station and clean rest rooms.

Other member of the Gilbreath family is wife Betty Jo. She and her husband enjoy boating and fishing as recreation. Gilbreath attends the First Baptist Church in Floydada and is a member of that congregation.

Melonie and Cindy McCray were Saturday visitors with us.

Grady Howard was a Monday afternoon caller in the T. E. Thornhill home.

(Intended for issue of Sept. 29)

**BROADWAY, Sept. 26** — This cool fall weather was wonderful. Even though it was quite cool it was a relief from such very hot sultry weather.

Broadway ginned their first bale of the season Tuesday of last week. Richard Sudduth brought in the first one. Friday night the gin had ginned eleven bales and there are a few hands around those. Most of the cotton is not even beginning to open very much as it is so very late.

Parts of the community received about an inch of rain Friday night in some spots about one-half inch. Some think they will have enough moisture to sow wheat. Others say the moisture is still too light for sowing.

Mr. and Mrs. Ben Beckham and Rodney Thompson visited near Cooperton, Okla., Wednesday

# Campaign Will Urge Need To Prevent Fires

With fall weather coming on with dry grasses and weeds in large quantities from the bounties of nature during the growing months, citizens of Floydada are warned to take Fire Prevention Week October 9-16 seriously.

Fire Marshall Billy Joe Baker says be extra careful with outside fires. A lighted cigarette or match on a windy day could easily cause a holocaust in some portions of the city.

Floydada has been fortunate this year and the same can be said of the county for the most part in total losses from fires. The people have been careful of fire hazards, generally speaking.

Fire Prevention week is intended to be a reminder of the constant need for vigil and to get a check up on the elimination of fire hazards.

Two grass fires occurred in one day last week. No damage to any extent occurred, Baker said but either could have been serious had the wind changed or gotten higher.

One grass blaze was blamed either on a carelessly tossed cigarette or match. The spark ignited dead grass just south of the grade school Wednesday morning.

The second grassfire was reported the same afternoon about 3 o'clock when persons were burning old tree stumps south of Piggly Wiggly on a vacant lot. Grass caught and the fire spread rapidly but was brought under control by firemen before any damages resulted.

Rural people of Texas have a tremendous stake in National Fire Prevention Week being observed Oct. 9-16, according to Sam Whitton of Dallas, president of the Texas Farm and Ranch Safety Council.

increased by 37 per cent during the past ten years, with one-third of this increase occurring during 1958. Farm property losses from fire last year amounted to about \$175 million.

Whitlow said 515 people died in Texas from fires last year.

"This means fire is a dangerous enemy," he added. "Fires annually cause considerable damage on Texas farms and ranches. Authorities agree the best way to cut down on fire losses is to practice a sound prevention program. The Texas Farm and Ranch Safety Council urgently recommends that rural homes put into practice a safety inspection program to diminish the possibility of fire damage. Let's cut down on fire losses," Whitlow urged.

named as at a later date.

Jack McIntosh, president, presided, Sam Puckett reported on the insurance program, Jerry Cooper gave the financial report and Shirley Irwin headed the nominating committee for directors.

Robert Lee Smith, chairman of the resolutions committee, presented the resolutions.

Albert Scheele gave the invocation, which opened the convention.

Attendance was light due to conflicting dates, and consideration of a new county constitution was postponed until a fuller attendance is obtained.

Charles H. Chester, chairman of the committee which framed the new constitution to be presented for adoption.

The resolutions adopted at the Monday night convention were as follows:

**National Recommendations**

**Cotton** - Since the cotton program in effect in 1959 and 1960 has resulted in an improved cotton marketing situation, we commend that The Agriculture Act of 1958 be amended to continue the present A and B cotton programs until a better permanent program can be found.

**Cotton Export** - Since many complaints have been heard regarding unscrupulous practices by American cotton shippers and exporters, we recommend that Farm Bureau investigate said complaints appropriate action should be taken as indicated by the study.

**Grain Sorghum Export** - Since many complaints have been heard regarding unscrupulous practices by American grain sorghum shippers and exporters, we recommend that Farm Bureau investigate said complaints. Appropriate action should be taken as indicated by the study.

**Labor** - We are opposed to licensing of crew leaders by any agency of government as this is an obvious step toward unionization of all agricultural workers.

**Price Support** - We oppose any form of compensatory payments as a means of price support. Such practices level incomes and reduce initiative.

**Land Retirement** - We feel that any farm legislation should include a realistic land retirement program, preferably with out compensation as a prerequisite to use of price support programs. Any acreage reduction on a farm should include, in proportion, acres of allotted crops in surplus.

**Wheat** - We urge the abolition of the 15 acre minimum allowance on wheat so that wheat may principally be grown in the areas ideally suited for the crop known as traditional wheat country.

**State Recommendations**

(Continued From Page One)

Jewel Eliza appeared before the board to report on the band boosters organization and their problems. He said that this year had been set to retire the debt against the new band uniforms and on Tuesday a payment of \$1800 was made leaving a balance of \$820.62 which the organization still hopes in some stock, "Civil Defense", "Rescue Breathing" and others.

In a mix up over cleaning of the band uniforms the band boosters had paid \$105 of their money for this last spring and the high school locker fund was used for another \$137. The board voted to refund both of these and make further study of the situation before this comes up again.

The board voted to accept \$1400 payment from the Conelike school now and another \$1300 at Jimmy will be attending school mid-term for taking care of the high school students from that have five children. # Sand Hill News

By Mrs. James Jeffress

SAND HILL, Oct. 3 Some have defoliated this week hoping to get their cotton out before the bad weather begins, but most of the cotton is so late, others are having to wait until more is open before they use the defoliant.

The maize is moving, but lots of it is late and still green, so most of us are still hoping for a late freeze.

The Sand Hill Home Demonstration Club met Wednesday afternoon in the home of Mrs. J. I. Myrick. Mrs. Myrick gave the devotional and roll call was answered with "My entries in the fair."

Mrs. Gene Bloys gave the council report. All yearly reports from the committee chairman should be sent in to the council chairman of each committee in time for council in October. They will be given at club this Wednesday.

A nominating committee was appointed by the president. They are Mrs. Gene Bloys, Mrs. Lynn Miller and Mrs. H. F. Jackson.

Mrs. Lynn Miller led recreation. The program was on "Arranging furniture", given by the agent, Miss Roggenhoff. This was Pollyanna day and gifts were exchanged.

Refreshments were served to Miss Roggenhoff, Mrs. R. I. Bullocks, Mrs. H. F. Jackson, Mrs. J. T. Myrick, Mrs. Lynn Miller, Mrs. James Jeffress, Mrs. Glenn Kinard, Mrs. Gene Bloys, Mrs. C. B. Carmack and one visitor, Mrs. Onba Miller.

Mrs. Myrick gave an interesting talk on "Citizenship". Mr. and Mrs. Gene Bloys met with the officers of the Sand Hill Community 4-H Club Wednesday night to plan the year books for the coming year. Those meeting were Warren Mitchell, Beverly Jeffress, Bobby Holt and Norma Hollums.

The 4-H Club will meet Monday night, October 10 at 7:30 p.m. The program will be on "Conserving Wild Life" and Gene Bloys will be in charge of the program.

Other programs during the year will be on "Thanksgiving", "Live Stock", "Civil Defense", "Rescue Breathing" and others.

We would like to thank the 4-H members for taking part in and helping make our 4-H Club one of the best.

We all want to welcome Bro. and Mrs. Jimmy McGuise and family from Plainview to our community. Brother McGuise is the new pastor of the Sand Hill Baptist Church and will move into the parsonage this Thursday.

Jimmy will be attending school at Wayland in Plainview. They have five children. We know the same procedure they will add to our community also is to be followed on colored Sunday dinner guests in the home of Mr. and Mrs. Tom Pien attending North Ward Schooler were her brother, Mr. and Mrs. Jim Robertson and children. Visit in the afternoon were Jimmy

and Timmy Jeffress. Mr. and Mrs. Jim Holmes spent Friday night in Amarillo, visiting in the home of her brother and wife, Mr. and Mrs. Jim Jeffress. They returned home with them to spend the weekend. The Holmes made the trip to Amarillo with Mr. and Mrs. John Holmes, of the Eric Community. They visited in the home of another brother while in Amarillo.

Mrs. W. R. Billington honored her husband on his birthday Sunday with a birthday dinner. Those attending were Mr. and Mrs. James Jeffress and sons, Mr. and Mrs. Jim Jeffress of Amarillo, Mr. and Mrs. Jim Holmes and Mr. and Mrs. H. F. Jackson. After dinner the group enjoyed visiting and playing.

At the breakfast hour a waitress in a busy Chicago drugstore served coffee and toast to a patron: ten minutes later she breezed in with his orange juice. The customer complained of the cockeyed sequence. "Are you married?" asked the waitress.

"Yes," said the customer. "What's that got to do with it?" "Well," said the girl, "why don't you have breakfast at home?"

**COMPARISON**

The two tramps were stretched out on the green grass. Above them was the warm sun, beside them was a babbling brook. It was a quiet, restful, peaceful scene.

"Boy," mused the first tramp contentedly, "right now I wouldn't change places with a guy who owns a million bucks!"

"How about five million?" asked his companion.

"Not even for five million," drawled the first tramp.

"Well," persisted his pal, "how about ten million bucks?"

The first tramp sat up. "That's different," he admitted. "Now you're talking real dough!"

# Vote for Texas

RICHARD M. NIXON, candidate for President, is a Californian, but he thinks the Texas way. Richard Nixon stands for:

- A strong national economy and defense so that America will not have to apologize to Khrushchev for anything;
- A sensible farm program that will attack and solve the present problems.
- Texas retaining its tidelands, and a tax policy favorable to Texas.
- Local control of our schools.

If you will read and compare Nixon's platform to that of his opponent, you will agree that a vote for Nixon is a vote for the best interests of Texas.

# County Wealth Distributed More Evenly

(Special to the Hesperian) NEW YORK, Sept. 26 - A larger proportion of families in Floyd County are to be found in the "have more" income groups and a smaller percentage in the "have less" category than in most parts of the West South Central States.

The conclusion is based on a breakdown of 1959 incomes, conducted by Sales Management. It shows, for each area, what part of its population falls within each income bracket.

The copyrighted study also reveals, for every community, whether its so-called "average income" is made up of earnings that are evenly distributed or whether it represents a small number of families with very large incomes making up for a much greater number with substandard incomes.

For Floyd County, the report shows a relatively even distribution as well as a high general average.

Approximately 53.7 percent of the local households had spendable incomes last year, after taxes, of \$4,000 or more.

This compares favorably with the scale of earnings in the rest of the West South Central States, where only 49.0 percent of all households were in the over \$4,000 brackets.

It was also better than in the State of Texas, where 52.8 percent had such earnings.

For the business man in Floyd County, it is a healthy state of affairs, making for a stronger market. It means that more of the local families have available and extra spending money for better food and clothing, for second cars, for washing machines and for luxuries in general.

The overall spending of a large segment of a population enjoying middle-income earnings or better, as is the case locally, produces a greater volume of business than does a high-low income combination, the economists have found.

Also disclosed by the Floyd County income breakdown is the fact that 10.8 percent of the households were in the \$7,000 to \$10,000 bracket last year. They accounted for 15.7 percent of all local earnings.

Those in the \$2,500 to \$4,000 groups comprised 24.3 percent of the households and accounted for 13.7 percent of the income.

To the 53.7 percent in the "over \$4,000" class went 80.4 percent of the local income.

## EDITORIAL VIEWS AND COMMENTARY

**The World Series.** We've been a good feller for a long, long time. Never asked Congress for anything. Never called the governor to ask him for a favor. Voted the ticket straight right on through Jim Ferguson, W. Lee O'Daniel, Adlai Stevenson and all. Now we ask the Congress for one little favor. We want a law that will make the World Series start not earlier in the week than Thursday, Wednesday is the wrongest day of all.

From the days when the boys around town made up four bits a half inning to get the World Series score by Western Union to this good day when they sit in air-conditioned relaxation and sip you know what while they get the series with much less effort than (and almost as much detail as) the people who are in the park—through all these years Wednesday has been the day that the weekly newspaper man didn't have time—too busy in the salt mine as the saying goes—to join the fun. That sentence, ninety-four words long gives only an inkling of our frustration and resultant indignation, about Wednesday as an opening day for the series. We'll forward it to Mr. Sam and see if our petition gets some action.

We choose Mr. Rayburn as the man to carry the torch for us. Mr. Mahon is too deep in appropriations for the defense of Thailand or somewhere and Mr. Johnson is out in the Dakotas trying to convince the Swedes. Mr. Sam just back from the cattle barn overseeing the operations there, will have time to put on his best bib and tucker and line the boys up to take care of our just and well-founded complaint, we are confident. And next year we'll see the first pitch of the world series on a Saturday afternoon.

**Watch The Corners.** "Grass and weeds six to eight feet high obscured vision at all four corners of the unmarked intersection," or words quite similar in portent often are seen in the current reports. Generally the words accompany the harrowing details of the death of one or more persons. There are many corners in Floyd County which those words would aptly describe, as seen from the road on each side of the intersection. If one will remember that death well may lurk around that corner and use discretion, it would cost a moment's time but could well save a life or lives and suffering and property damage.

No pleasure is comparable to standing on the vantage ground of truth.  
— Sir Francis Bacon.

"American business is fighting a hard fight with a short stick," says the Ochiltree County News at Perryton, apropos the notion that somehow business has become undesirable; and the newspaper charges that the principal reason that business has lost public esteem is because the government has made the business man a tax collector. Nobody likes a tax collector, the newspaper points out. In what appears to be a futile plea to be let out of the tax collecting business the editor continues: "Business collects the income tax on employees, deducts the social security tax, then turns around and collects the gasoline, tobacco, liquor, entertainment, sales and all other excise taxes. On top of this, business collects its own profits tax by a necessary levy on consumers. Any business man knows that he is an unpaid government tax collector and any business with a bookkeeper is paying much of that bookkeeper's salary to make reports for the government. Business is being made the fall guy—yet without private enterprise, the economy would be sunk."

**The Same Newsmen,** who is a son of the H. I. Hudsons, who one operated a grocery business in Floydada, points up a problem that small city business people have to battle—the fabulous shopping centers that are springing up in such cities as Amarillo and others all over the southwest. Hudson viewed one of the gorgeous things they call a shopping center and this was his reaction: What we could see was draining off of customers from the area, including Perryton, into this and similar shopping centers in Amarillo. Business men in smaller cities have a constant fight on their hands from regional shopping centers like Amarillo as well as from their neighbors down the street, competitors in the next town. Add the competition from mail order houses, discount houses, catalog stores and door-to-door peddlers and you can see that the businessman in Perryton has to keep swimming or be deluged by his competition. There are shopping centers all over Amarillo and more in the process. Where does the money come from to keep them afloat—from the area around Amarillo, to be sure. There are not enough people in Amarillo and immediate area to keep these centers alive.

When I play with my cat, who knows but that she regards me more as a plaything than I do her? — Montaigne

If you do not think about the future, you cannot have one.

## Versatility aplenty in 1961 Corvair Greenbrier Sports Wagon

Chevrolet will raise the lid on a real surprise package when they reveal the 1961 Greenbrier Sports Wagon. A promising addition to the Corvair line is this 92-inch wheelbase vehicle with rear-installed engine and independent suspension.

The Greenbrier is certain to fit transportation needs from backwoods camps to swank hotels. Seats may be repositioned to fit specialized requirements. There also is a commercial counterpart—a delivery vehicle named the Corvan.

## Rear Powered Corvair Line Is Widened

Chevrolet's ingenious, rear-powered Corvair blossoms out as a full line of automobiles for 1961. In addition to the three half-ton commercial cars previously announced, the company discloses that station and sports wagons will join the family at dealer showings of new models Friday, October 7.

Here is the Corvair lineup for 1961:

**Passenger cars** — Club coupes, four-door sedans and a new Lake-wood Station Wagon in the "500" and "700" series plus the deluxe Monza Sport Coupe and the new Greenbrier Sports Wagons.

**Commercial** — Corvan, Ramp-side and Loadside trucks. In appearance, the latest Corvair retains its lithe, symmetrical form. New styling touches and beautified interiors clearly distinguish the models as 1961's, but the low-slung, appealing profile remains unchanged.

Also untouched are the engineering fundamentals which have made the Corvair the most talked-about automobile in America. The flat, air-cooled engine and transmission-axle combination are continued at the rear. Compact body frame integration lends its special staunchness to all models.

To supplement the primary excellence of the Corvair features however, several improvements have been adopted.

A hot air heater is now offered as optional equipment. Increased luggage capacity is made possible by moving the spare tire from under the hood to the engine compartment.

A 14-gallon fuel tank is substituted for the former 11-gallon tank.

# FRIDAY! THE GREATEST

# SIXTY-ONE DERFUL CHEVROLET

Here's the car that reads you loud and clear—the new-size, you-size '61 Chevrolet. We started out by trimming the outside size a bit (to give you extra inches of clearance for parking and maneuvering) but inside we left you a full measure of Chevy comfort. Door openings are as much as 6 inches wider to give feet, knees, and elbows the undisputed right of way. And the new easy-chair seats are as much as 1 1/2" higher—just right for seeing, just right for sitting.

Once you've settled inside you'll have high and wide praises for Chevrolet's spacious new dimensions (in the Sport Coupes, for example, head room has been upped as much as 2 inches, and there's more leg room, too—front and rear). Chevy's new trunk is something else that will please you hugely—what with its deep-well shape and bumper-level loading it holds things you've never been able to get in a trunk before.

Yet, generously endowed as this car is with spaciousness and clean-etched elegance, it holds steadfastly to all the thrifty, dependable virtues Chevrolet buyers have come to take for granted. Your dealer's the man to see for all the details.

There's never been a trunk like it before! The floor's recessed more than half a foot and the loading height is as much as 10 1/2 inches lower.

## Chevy Beautifies, Expands Lines for '61

Three for the road—here are three smart new Chevrolet passenger cars which will make their bow to the public on October 7. Left—One of the newcomers in the Corvair line . . . the Greenbrier Sports Wagon designed for multiple cargo jobs and outdoor living with seats that may be repositioned to accommodate many varied arrangements. Center—The sleek Impala Convertible with its soft, graceful body lines converging into an entirely new styling motif. Right—Another new model is the challenging Corvair Lakewood Station Wagon with rear-engine and second folding seat. Front and rear compartments combined give the Lakewood an unusual amount of cargo space.

and establishes new heights in motoring comfort and convenience, is featured in the regular line of passenger cars.

The entire body, from floor to roof and grille to rear bumper, is all new. Prime design emphasis has been placed on functionalism with thrust.

- High on the list of advantages of the all-new body are:
1. Easier entrance to passenger compartments.
  2. Large, more accessible luggage space, with the trunk load level lowered as much as 19.5 inches.
  3. Improved chair height and over-the-hood visibility which will increase the ease of parking and add to driving safety.
  4. Other safety items include improved breaks, overlap electric windshield wipers, and a new placement for the fuel tank which protects it from road hazards such as hard bumps and flying stones.

Although the conventional cars are shorter, narrower and slightly lower, the interior roominess remains about the same or better than comparable 1960 models. Riding comfort is improved.

# SHOW ON WORTH!

## NEW '61 CHEVY CORVAIR

The newest car in America: the CORVAIR 700 LAKEWOOD 4-DOOR STATION WAGON.

CORVAIR 700 CLUB COUPE. Like all coupes and sedans, it has a longer range fuel tank.

CORVAIR 700 4-DOOR SEDAN. Provisions for heating ducts are built right into its body by Fisher.

Now in production—the GREENBRIER SPORTS WAGON with up to twice as much room as ordinary wagons (third seat optional at extra cost).

More space . . . more spunk and wagons, too!

Here's the new Chevy Corvair for '61 with a complete line of complete thrift cars.

To start with, every Corvair has a budget-pleasing price tag. And Corvair goes on from there to save you even more. With extra miles per gallon . . . quicker-than-ever cold-start warmup so you start saving sooner . . . a new extra-cost optional heater that warms everyone evenly. Riding along with this extra economy: more room inside for you, more room up front for your luggage (sedans and coupes have almost 12% more usable trunk space).

And our new wagons? You'll love them—think they're the greatest thing for families since houses. The Lakewood Station Wagon does a man-sized job with cargo, up to 68 cubic feet of it. The Greenbrier Sports Wagon you're going to have to see—it gives you up to 175.5 cubic feet of space for you and your things.

Corvair's whole thrifty lineup gets its pep from a spunkier 145-cu.-in. air-cooled rear engine. Same rear-engine traction, same smooth 4-wheel independent-suspension ride. See the polished and refined 1961 Corvair first chance you get at your Chevrolet dealer's.

Spare tire is in the rear in coupes and sedans—leaving more luggage space up front.

Even middle-seat passengers sit pretty, thanks to Corvair's practically flat floor.

### Whirlwinds Down Post Easily To Roll To Fourth Victory

The Floydada Whirlwinds downed the Post Antelopes 33-6 Friday night as they rolled to their fourth straight victory. Though the 'Winds were unimpressive in the win they did have what it takes and the outcome was never in doubt.

Starting the game Floydada kicked off with Teague toeing one to Richard Ray on the Antelope 15. Ray was downed on his 26. Post gained to their 32 then punt ed out on the Floydada 39 yard line.

The 'Winds offensive carried them to the Post 20 where they ran out of gas and lost the ball. The Antelopes counter punched the ball back to 28 and then punt ed out on the Floydada 39 yard line.

Taking the ball at their 39 the 'Winds had gained to their own 47 before Rodney Teague rolled out on a quarterback keeper to go 53 yards around his left end to score. Teague then passed to Don Switzer for the two point conversion and Floydada had a 8-0 lead they never lost.

Following the ensuing kickoff the 'Winds dug in and played a good defense with Switzer, Lloyd and Davis making fine tackles to hold the Antelopes.

As the second period got underway Post gambled on 4th down and a foot at their own 30 and half the 'Winds had kicked off made it. Then after three more plays they faced fourth and one at the 40 and couldn't go with the Antelopes. Stovall intercepted Floydada taking the ball at their point. Dunn, Allen, and Parks were among those putting on the stop in this drive.

Floydada's possession was short however as Teague fumbled as he took a hand off from Lindsey.

The Antelope attack lost ground and Wendell Duncan soon punted from his own 31 to Richard Marler on the 'Winds 35. Marler broke loose and ran back to the Antelope 18 almost going all the way on the punt return. A few plays later Marler went over from the two to score. Stovall was caught short on the conversion attempt and the score was 14-0.

Floydada kicked to Post again and this time good tackles were made by the 'Winds as Teague, Walker, and Stovall put up the stop sign then Walker and Teague each broke up a pass to punt Post in a punt situation and Duncan kicked from his 35 to the Floydada 33 where the ball went out of bounds.

The 'Winds drove down field with Christian, Stovall and Teague picking up yardage and then Lindsey hit Switzer for a first down pass on the Post 7. The touchdown came when Charles Christian went over to score the two yard line. Floydada drew a penalty on the conversion attempt and then Marler and Davis making fine tackles to hold the Antelopes.

From the eight and the PAT was no good and the score 20-0. Before the clock ran out at the end of the 10 running it to the 40 and the 'Winds had kicked off made it. Then after three more plays they faced fourth and one at the 40 and couldn't go with the Antelopes. Stovall intercepted Floydada taking the ball at their point. Dunn, Allen, and Parks were among those putting on the stop in this drive.

Richard Ray intercepted a Lindsey pass on the 10 running it to the 40 and the Antelopes had however as Teague fumbled as he took a hand off from Lindsey.

The third period touchdown Lindsey punted to Post 20. Duncan returned it to the Antelope fourth down punt from mid field.

On the series of downs Max Rucker, David Barnhart, and Denny King were among those in on good tackles with Rucker stopping Minor short on one crucial play, and Barrow on another.

Post drove to the Floydada 49 where they were held and Floydada took over and the game ended soon after.

Starting for Floydada were Walker, Allen, Stovall, Teague Barrow, Ginn, Davis, Crawford, Dunn, Powell, Switzer on the kick-off team. All of the Winds saw a lot of service as regulars played most of the first two periods and reserves most of the final two.

Floydada made six penetrations to one for Post, piled up 22 first downs to 7 for the visitors, rushed for 291 yards and passed for 64 while Post rushed for 64 and passed for 52. Floydada owned the ball for 65 plays not counting kicks and Post for 45.

Outstanding for Floydada on offense was Teague with 78 yards rushing and some good passes Marler with 56 from scrimmage plus some good run backs of kicks, Christian with two touchdowns in the game, Teddy Allen who hit the line for 59 yards in 8 tries behind a reserve line.

Mr. and Mrs. Bud Queen and children of Andrews were in Floydada visiting friends and relatives over the weekend.

# STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

**AUSTIN.** Neither Texas civil nor the armed forces can afford the losses incurred through traffic accidents involving military personnel in the state.

On this note, the Texas Military-Civilian Traffic Safety Council was formed in Austin with a goal of reducing the accidents.

About 200 persons, civilian and military, attended the Council's first meeting, called at the behest of Gov. Price Daniel.

Servicemen have more auto accidents than any other population group in Texas, said Col. Homer Garrison Jr., director of the Department of Public Safety.

Last year servicemen drove 103 fatal accidents in which 130 persons were killed.

Ford's new light duty E-oline commercial vehicles come in three models, a Pickup, Van and eight-passenger Station Bus. Powered by a modified version of the dependable, economical 35-horsepower Falcon engine and utilizing many standard components from other Ford products, the E-oline vehicles are 163.4 inches long — nearly two feet shorter than the Falcon station wagon. Wheelbase is 90 inches, with over all width of 72.5 inches for Pickup and 75.8 for the Van and Bus. The easily accessible engine is located forward beside the driver's seat, providing ample pass-through space in the front, and a flat rear floor area with low 25-inch loading height. The Van and Bus have 204.4 cubic feet of load space behind the front seat. The Pickup has a curb weight of only 2,389 pounds, but can carry a payload of nearly 1,700 pounds when equipped with optional extra spring leaves and heavy duty tires.

A great many of the service-gram of lending financial aid to men in Texas are in the 18 to 25-year-old age bracket, said Gen. Edward T. Williams, Fourth Army commander. People in this age bracket generally are the most inclined to have auto accidents, Gen. Williams urged vigorous enforcement of traffic regulations.

Loans are so that the driver knows he will be caught and punished if he breaks the law.

Brad Smith, director of the Governor's Highway Safety Commission, outlined the five-point program recommended by the governor to improve highway safety.

1. Driver education for all high school students.
  2. A law to permit chemical tests to determine if a driver is intoxicated.
  3. At least 200 additional highway patrolmen.
  4. Revision of the drivers license law.
  5. A system of traffic courts.
- WATER PROGRAM STUDIED** — Texas' 7-man Water Development Board is considering whether to ask the next Legislature to expand and liberalize its program of lending financial aid to local water projects.
- Decision is to be made at the Board's Oct. 28 meeting.
- This year the protection of home industries against ruinous competition from imports has been a prime issue.
- Governor Daniel said he felt much could be accomplished by the conferring governors "if we stand together."
- HURRY-UP HOSPITALS** — With a long, long waiting list of mentally retarded patients, the State Hospital Board is studying short cuts toward providing housing for them.
- A contractor-member of the Board presented drawings of one possible approach — semi-permanent one-story, concrete block cottages. They would provide for 40 persons, cost \$38,000 apiece and could be ready for occupancy in 20 months.
- More than 1,000 children are now on the state homes' waiting list.
- Board has authorized getting an estimate of the cost of putting an automatic sprinkling system in the Confederate Home in Austin, now used for mental patients. Home has been called a fire trap but if it could be made safe, the cost of replacing it could be postponed.
- Also voted by the Board was a policy of preventing tuberculosis patients, by force if necessary, from leaving state hospitals until they are well enough not to infect other people.
- A recent attorney general's ruling held that the hospital system does have authority to make TB patients stay in the hospital until they are no longer contagious.
- EDUCATION SUPPORT SOUGHT** — Texans will be penny wise and pound foolish if they try to avoid the cost of establishing a top-notch system of higher education.
- This was the theme at an Austin meeting of the members of governing boards of state colleges and universities. A series of regional meetings are planned during October and November to rally public support for better appropriations for state colleges.
- Regretfully, the regents pegged Texas state supported colleges as less than best. A survey was cited showing that 65 percent of the top jobs in Texas industry are held by graduates of out-of-state colleges. Texas is training the hired hands; other states are training the bosses, said Reagan Houston III of San Antonio.
- Texans will pay, said John Newton of Beaumont, whether they ante up for good education or not. In an age of electronics, automation and exotic fuels, good educational and research facilities are a prime attraction for new industries, said Newton.
- "Cost of losing major opportunities for growth will be at least as great as the cost of providing what we really need," he said.
- PRISON PROBLEMS CITED** — Seventy-five per cent of the inmates of the Texas prison system are in "tanks" or dormitories which crowd impressionable young offenders in with hardened criminals, says the chairman of the Department of Corrections.
- More housing to correct this situation is urgently needed, H. H. Coffield told an Austin audience. On the bright side, Coffield said the Texas system had pulled up from one of the worst to one of the best in the nation, in the past 10 years — a period when the prison population skyrocketed. Yet per-prisoner cost is far below the national average.
- As an "ounce of prevention" Coffield urged citizens support of such local agencies as churches, Scouts and Salvation Army.

### Burns Are Fatal To Little Girl

Funeral rites were held in Henson, Tex., Tuesday of last week for three-year-old Verna Jean Hall, colored daughter of Mr. and Mrs. Walter Hall of the Hill community.

Verna Jean died Sunday in John Sealy Hospital where she was taken after sustaining severe burns on the farm of Raymond Everett.

The youngster and her sister, Beverly, age four, were playing in an empty barrack type house near their home, and turned on a jet from a butane stove. The older girl said she struck a match to light the stove and the accumulating fumes ignited.

The little girls' clothing caught fire and they ran from the building to their mother for aid. (The father, who is also employed by the T. C. Hollums, was at the Hollums place working when the accident occurred.)

Beverly is still hospitalized at Lockney and is said to be somewhat improved after being in a critical condition for several days.

The Halls have one other child, a six-month old son. They have lived in this area for several years and were employed by the Lockney family last year, before moving to the Sand Hill community.

So far off when you and your family, relax here in Floydada, may watch a royal tennis match in Australia by live satellite place a call to Singapore or Calcutta thousands of miles in the sky.

Only a few years ago. Now they can reality, all because of "Project Echo." It was an attempt to "bounce" a voice off a satellite.

When the silver "Echo" satellite orbiting the earth "bounced" a phone call off it staggers the distance. That's what happened when a Bell engineer in New Jersey talked with an engineer in California. They said each other as clearly as if they were talking.

Scientists heavily on telephone science and technology not only participated in voice communications via satellite, but Bell guidance system that directed the satellite.

A new era of worldwide communications. Bell already proposed a plan for using satellites to carry telephone calls and television to the world.

THE 1961 LANCER is Dodge's new, short-wheelbase compact. The Lancer is very maneuverable and remarkably convenient to park. The simple, clean lines of the body create a style that is lasting. The dimensions of the passenger compartment and trunk introduce a pleasant luxury to the compact car field.

One of Fairview's most beloved residents passed to her heavenly home last Tuesday. She was Mrs. W. W. Baxter, who had been ill for some two years and had spent much of that time in the hospital here and at Lubbock. We wish to express sympathy to her bereaved loved ones.

J. J. Baxter of Santa Clara, Calif., returned to his home Sunday by plane after being here several days to be with relatives and to attend the funeral of his mother, Mrs. W. W. Baxter.

We attended the funeral of another long time friend last week, Mr. W. T. Hamilton, who's funeral was held on Wednesday at the First Baptist Church. We also express our sympathy to the Hamilton family.

Another one of Fairview's families have moved into town. Mr. and Mrs. T. L. Perry and Jan moved Friday to their new home on South Fourth Street in Floydada.

## Dougherty HD Club Has Rearranging Furniture as Topic

When the Dougherty Home Demonstration Club met in the home of Mrs. W. J. Ross on Oct. 23, the topic discussed was one to delight most any woman, namely, that of moving and rearranging furniture.

Miss Phyllis Roggendorff presented the program and led the discussion. She first gave the points to keep in mind when rearranging furniture and stressed the idea of the conveniences of the family's use of the room. She had a chart drawn on scale for the room furniture then had the club members to suggest changes that might be made.

We found the television set to be the arch enemy of all those who love to rearrange their living quarters as it is almost impossible to properly balance a room and still leave all the chairs where everyone can easily view T. V.

Mrs. G. W. Smith, club president presided over the meeting and roll call was answered with "My remedy for a Cold". The devotional, Titus 2:1-5, was read by the hostess.

Several items of business were discussed and a committee was appointed to nominate officers for the coming year.

Games were directed by Mrs. Ned Bradley and prizes were won by Mrs. Mac Ward and Bill Ross. The attendance prize went to Mrs. Robert Ward.

A delicious refreshment plate was served to Mmes. Smith, Mac Ward, Robert Ward, A. H. Kreis Bradley, Miss Roggendorff and
