BILLY DON COLSTON, declared the top Texas farmer for 1960, has a good maize and has a good record as well as the above photos would indicate. When The Hesperian's reporter visited Don Friday at the Colston home near Dougherty he got shots of the young farmer and his coach, County Agent Cecil Lewis in Don's maize field. Below Don poses for the camera at his desk where he did the "book work" for his nine year record. (Hesperian photos-engraving).

Top Farm Honor Goes To Billy Don Colston

COLLEGE STATION, Oct. 11.—The top 4-H agriculturist in Texas for 1960 is a Floyd County youth, Billy Don Colston for nine years a member of the Dougherty 4-H Club.

The announcement was made by Floyd Lynch, State 4-H Club leader, and he added that Billy would receive an all-expense trip to National 4-H Club Congress, Chicago, November 27-December 1. Donor for the 4-H Agricultural Awards Program is the International Harvester Company of Chicago. They also provided medals for county winners and six \$400 college scholarships for national awards. Billy's record will be submitted for national consideration, Lynch said.

Objectives of the program are: to develop the member's leadership talents; to personally devel-

Gas Company Is Requesting Raise In Local Rates

A request for a revision in the general service rate for natural gas service in Floydada was filed last Thursday by Pioneer Natural Gas Companies with the city council of Floydada.

Tuesday in their afternoon meeting the council tabled the request for further consideration. Some members of the council quickly indicated opposition to the request, but the official attitude is one of hands off until further study can be made.

The company's request covers only domestic rates. Industrial rate change is not sought.

If the rate increase is granted the change would be from \$1.50 to \$1.65 for the first 2,000 cubic feet or less, the net effect on the customer's rates being from 11 per cent to 10 per cent, the proposed rate structure spreading the increase evenly through all the rate brackets.

The company, which also serves and has served 40 or more communities including Floydada since 1929, asks for approval of the rates so that they will apply to all meter readings beginning December 15.

A statement accompanying graphs and arguments relative to the proposed increases says:

During the past several years there has been a consistent increase in our cost of operations. This has resulted from increased costs of material, wages, taxes and gas purchased for resale. We have included graphs and other information in our petition showing increases experienced in some of these items. Your attention is particularly directed to the cost of gas in the field.

The area we serve has experienced rapid growth; many of the cities served have tripled in population. The major portion of the facilities necessary to provide for this expansion and development has been constructed in recent years during a period of increased costs. Consequently our investment per consumer has increased as shown on the graph.

"Investment per Customer in Distribution Plant and Equipment." This growth has required not only the expansion of our distribution facilities but likewise enlargement of existing and construction of new transmission lines and the securing of additional sources of natural gas in the various gas producing fields.

Cotton Crops Defoliated As Storms Loom

Less than 1,500 of Floyd County's 120,000-bale cotton crop had been harvested and ginned as of Saturday night, according to the Texas Employment commission, and a threatening weather that lies to the west.

Two nights in succession an area that extends from Plains to the southwest near the New Mexico border to Friona on the north, has been lashed by damaging rains, hail and boisterous damaging winds. Another night of the same was forecast for Wednesday night by the Weather Bureau.

All the inclement weather has to do to damage also in Floyd County is to move eastward, six miles or so.

Meanwhile cotton fields by the thousands of acres have been treated for defoliation and more thousands are being done this week.

Late cotton is developing in a great way but it must have some additional time for maturity before frost to get the maximum benefit for growers.

Sees Damage at Friona

Mrs. John Fowler spent Tuesday night in Friona with her daughter and family, Mr. and Mrs. J. R. Bartlett, and saw while in Friona the destruction caused there Tuesday by the twister.

The Bartlett family reside some 15 miles from Friona on the Dimmitt-Bovina highway, therefore being missed by the storm. However, Mrs. Bartlett witnessed the funnel and rushed to school as did other parents, for their children.

One man was injured in the storm and some \$400,000 dollars' damage were reported alone in Parmer County.

County-Wide Beet Meeting October 25

Wide-spread interest in the possibility of getting sugar beet acreage allotted to Floyd County has been evinced among growers since the inception of a campaign to interest congress became known locally two weeks ago.

Several Floyd County people attended a plains-wide meeting in Hale Center Tuesday night of last week, in which the various angles of the purpose were discussed.

Yesterday it was announced that R. F. Stovall, chairman of a group from the Chamber of Commerce hoping to promote sugar beet acreage in this county, had called a county-wide meeting for the night of Oct. 25 at the high school auditorium. The meeting will be called to order at 7:30 o'clock.

General interest in and general understanding of the problem, which faces plains farmers is being urged.

Pat Henry Is New Extension Service Office Secretary

Miss Pat Henry, daughter of Mr. and Mrs. Melvin Henry, has accepted employment with the County, replacing Mr. Barbara Gross, whose resignation was effective Friday.

Miss Henry will be office secretary to County Agent Cecil Lewis, assistant agent John Schlittler and Home Demonstration agent, Miss Phyllis Roggeford.

She was formerly employed in Amarillo. She completed her high school education at Pampa.

Posters By The Score Depict The Story Of Fire Prevention

Fire Prevention Posters, featuring the boys and girls of the schools prepared a probable 150 posters on the theme. Mrs. Claude Weatherbee, who was requested to name a committee from her club to do the judging, said some of the posters unearthed unusual talent, both in originality and execution of the posters.

Paving Project Complete With 136 Blocks Included

One hundred and thirty-six blocks of paving out a project of 140-odd had been finished in the City of Floydada in a program that began early in the year and for which the final touches were being made yesterday.

A. B. Green, construction foreman for W. A. Thomson Construction Company, said yesterday that all the projects undertaken were getting final touches. In addition to 136 blocks done under the city contract, two and a half blocks were finished under private contract and 12 blocks of re-sealed.

Among other work being done yesterday was the re-sealing of 48 test holes dug in the pavement on Texas Avenue, where the contractor, according to information The Hesperian has had an independent test made on all the other blocks in the paving program and are confident they have met all requirements of their contract with the city.

There have been no indications of dissatisfaction on other streets so far as this newspaper is informed. The contractor as late as yesterday could not be contacted on the matter, however, and A. B. Green, the paving superintendent, said he had no authority to discuss the matter for his employer.

Green did ask to be quoted however, on the good treatment he and his workers had at the hands of city authorities and the people of the community. All were uniformly courteous and helpful, he said.

He singled out Chas. E. Horton, water superintendent, and J. D.

Mrs. J. E. Race Rites Held At Lockney Sunday

Rites for Mrs. J. E. Race, resident of Floyd County since 1923, were held Sunday in Lockney at the West Side Church of Christ. Mrs. Race died Friday at her home in Lockney.

She and her husband settled near Muncy community after coming to this county. They lived a short time in Floydada then moved to Lockney in 1952.

Mrs. Race was born Jan. 21, 1876 in Alabama. Survivors include her husband; two sons, Shirley of Milburn, Okla., and Johnny Race of Lockney; one daughter, Mrs. B. Landrum, Lockney, two sisters; one brother; 12 grandchildren and two great grandchildren.

Wage Finding Effective October 7

Wage finding effective October 7 Floyd County cotton fields, as reported by W. E. Day, office manager of the Texas Employment Commission, sets first payroll for irrigation cotton at \$1.50 per hundredweight. Rates less than \$1.55 not applicable to Mexican contract workers, it was advised by Tracy G. Murrell, regional director.

Homecoming to Add Spice For Lockney Exes

The big Floyd County football classic of the year will be unveiled Friday night in Lockney when the Floydada Whirlwinds and the Lockney Longhorns battle on Mitchell-Zimmerman field. Regardless of team standings and ratings this game has always been a big attraction.

Added to this for the 1960 meeting will be the fact that the winner will emerge as a district 2AA favorite and Lockney has named this game as their homecoming for former students, teachers and players.

Some extra preparations have been made to take care of the overflow crowd expected for the grid tilt. A ticket office will be in operation at the northeast corner of the stadium (the Floydada side) to speed entrance to the field and this gate will provide the quickest service for visiting Floydada fans.

The football crowd is expected to start gathering early and at 7:45 there will be a ceremony for crowning of the homecoming queen. Following this the game kick-off is expected to start at 8:00 p. m. or shortly thereafter.

Seek Perfect Record

The Floydada Whirlwinds will be battling to preserve a perfect season record to date and to notch their first district win. Lockney has suffered but one loss and one tie to date and will also be trying to keep their loop record clean. Floydada has won the last two outings between the two schools.

A conversation with Lockney's sports writer Jim Bob Reynolds on Tuesday afternoon made no mention of any Lockney injuries and it appeared the Longhorns were at full strength for the county championship battle. Coach E. L. Rhoden, guides the Longhorn team.

His charges defeated Hale Center, Tullia and Slaton and lost to Dimmitt and were tied by Rallis this season.

VISION CONSERVATION—Floydada Lions Club's committee on vision is pictured here with school nurse Mrs. Wesley Carr. The committee is working to find defective vision among school children so they can be corrected. Cost to the club for this part of the project was \$235. Other members of the committee are Dale Goen, Olin Watson and Conroy Johnson, serving as chairman.

Service of the U. S. Air Force. This service uses airplanes to save lives, not to destroy them. "Don't forget to Write", A. T. Buchwald, bears the classification: 817-Humor. This author is a shrewd observer of human nature and points his typewriter in the direction of actors, American tourists, film stars, fashion, politics and many other subjects. In "A Long Row to Hoe", Billy Clark reminisces on a boyhood spent in roasting bullfrogs over an open fire in summer and trapping muskrat in the winter. The young hero of this book is a modern-day Huckelberry Finn, but the author has caught something here that remains deep within us, a rustic tradition of a people who have grown up on the land. "To Kill a Mockingbird", Harper Lee, tells about two children in a small Alabama town exploring the variety of human nature among their family and neighbors. They come face to face with some large and disturbing mysteries. A book for grown-ups. Other books are: "Sail a Crooked Ship" by Nathaniel Benchley; "The Hills Stand Watch", August Derleth; "All our Tomorrows", Josephine Lawrence; "Winter Solstice", Gerold Brace; "Hawaii", James Michener; "My Brother Michael", Mary Stewart and "Enjoy, Enjoy" by Harry C. Floydada Merchants At Their Jobs

REV. HENRY C. RUSSELL, in addition to his duties as a salesman at White Auto Store, serves as pastor of the Assembly of God Church at 326 West Virginia St. "Two pretty fair lines of merchandise," one of his friends quipped.

Honored this week as outstanding Floydada merchant is Henry Russell who is on the sales staff at White Auto Store in Floydada. Russell is a family man and he and wife Dahlia have one son, Mike, age 8, who is in the third grade. The Russells live in the Assembly of God Parsonage at 326 West Virginia Street.

Russell has served as pastor of the church for the past two years. There are some sixty members in the congregation.

Henry Russell was born in Silvertown and moved to Floyd County as a youngster back in the '30's. He was married to Miss Dahlia Sprayberry in the Mt. Blanco community in 1950.

He has been with the White Auto Store here since 1955 being active in the sales and service of appliances, household goods, sporting goods, toys as well as auto accessories.

Russell says he enjoys both his church work and retail sales duties and has no hobbies diverting his full time to the two fields of endeavor.

Sutherland and Mrs. Holmes are nieces of Mrs. Fawver's.

Mrs. Kenneth Willis was honored with a coffee and pink and blue shower Thursday morning at 9:30 in the home of Mrs. J. B. Colston. Guests were served coffee and nut breads along with mints from a table centered with a large stork holding in its bill a miniature doll wrapped in a blanket.

Which Democratic Platform?

Which do you prefer: the socialistic, anti-Texas platform of Kennedy — or the Nixon Platform that more nearly conforms with Texas principles and ideals as expressed in the State Democratic platform?

The Kennedy platform is against nearly everything Texans are for—it is for nearly everything Texans are against.

What will be your choice? It is between a party label and the best interest of Texas and the Nation.

Allan Shivers says: "I'LL TAKE TEXAS. I accept the Texas Democratic platform and will work for it. I repudiate the other—the Kennedy platform. I will join with my fellow Democrats to work and vote for men of maturity, experience, responsibility, and a fearless dedication to this country's best interests.

"I will vote for Richard M. Nixon and Henry Cabot Lodge."

EDITORIAL VIEWS AND COMMENTARY

Wonders Of Nature. Once upon a time it was thought that the high, flat plains country, so far away from asphalt and sea shell might never enjoy to any extensive degree the great advantages of paved roads. But before too long it was learned that caliche, found around every "lake" in plains counties, when handled right, made the perfect base for better roads than were enjoyed by many other parts of the country. Caliche deposits vary in degree of hardness, compacting qualities and the like, about which engineers know. But the right kind of caliche can be found within reasonable hauling distance of any job that is likely to be undertaken in any plains county. Nature has a way of providing, it seems, when the need becomes apparent. Half a century ago caliche had a bad name and a bad name only. Now it is looked upon with respect.

That "Dead" Dirt. Along with caliche deposits also are found large quantities of "dead" dirt, which along with other surface earth and rubbish must be stripped from above the caliche deposit before the latter can be run through the crusher and used. Who knows that another decade or another generation will not find something in this dirt, not now known or needed or utilized that will make it valuable also. Nature and science have done more remarkable things than that.

Which Reminds Us. Through the years we have kept a good many secrets learned in the course of news gathering. Some of them we know we should not have kept, errors in judgment due to "softness," no doubt. One business secret we are divulging for the first time after a quarter of a century or more is that of a good old boy who was peddling remedies for fowls. This lad had a formula printed on his bottles, that was required by law, he was told. He paid a chemist or pseudo-chemist \$10 for the formula (which, presumably described his "medicine." With this formula as his selling point he outdid his competition tremendously. He got along good while they struggled. And he revealed to us in confidence the secret of his success. His bottles had a large per cent of an ingredient none of the others had. It was "inert." He had us print it in capital letters.

Motorist Visiting Privileges. Current news reports have it that Texas has reached agreement with all the states in the union that visiting motorists can operate their vehicles up to ninety days without additional registration charges.

reciprocally. This is contrary to the news we hear which is that in more than one state a Texas autoist hardly hits the ground and finds living quarters until he is pounced upon and fined for failure to obtain state operating license. It might be well for the State Highway Department to see if the provisions of the law in other states have learned about this understanding. There could be such a thing as just putting on the bite when a Texan comes to town. We have a distinct hunch there is such a thing.

The Great Debate. Blowing, unprepossessing, inartistic, uglifying, inelegant, uncouth, awkward and clumsy, are some of the adjectives which come to mind in connection with the way the Big Three of TV are belittling the men the two major parties of the country are running for the presidency. These men are running for the highest office in the land. They are the cream of the crop, so to speak. The setting, if we must have another of the series of The Great Debate, should have some semblance of dignity. And those silly news-men! Shades of the \$64,000 question!

Tons and Tons of Tomatoes. Harvest of a few tomato crops around, where growers have tons and tons of the most luscious love apples ever grown, with that tartness that plains soil imparts. Grown under contract the principal hazard is only the length of the season. That is, when will frost put a stop to it, to be blunt.

The Frost Date. Forecasts run all the way up to November 8 for the first frost or freeze. Weather prognosticators are most likely influenced by their wishful thinking. The Hesperian has even gone so far as to wish for a December frost. No doubt of it, tons and tons of tomatoes will be ruined in the field, regardless of the lateness of the frost. We foresee the day when a herbicide will be available that will not be injurious to the fruit of the vine but will take off the leaves and let in the sunshine to ripen the fruit quickly. If cotton can be cultivated with a flame thrower surely something can be done to let sunshine get to tomatoes and ripen them.

Knowledge of the Seasons. And in addition, why not also foresee a day when the frost date will be common knowledge aforesaid, so the tomato man, the cotton man, and all the rest, can make their plans against it? Stranger things have been imagined—and accomplished—to be sure.

Farmers Home Administration Broadens Its Loan Program

Farmers who have regular off-farm employment, if otherwise eligible, may obtain farm operating and development loans from the Farmers Home Administration, under the recently revised regulations of the agency.

Joe T. Boon, Farmers Home Administration county supervisor for Floyd County, said the new regulation is now in effect. Previously, except in rural development counties, a farmer had to spend most of his time farming in order to qualify for a loan.

Experience gained in rural development counties has shown that many farmers who are regularly employed off the farm can profitably use the Farmers Home Administration's credit facilities to increase the farm portions of their total incomes. The regulation, which had limited credit assistance to farmers who spend most of their time farming, prevented some from obtaining the maximum income from their farms and from taking advantage of opportunities for industrial and other off-farm employment.

Other eligibility requirements remain unchanged. Applicants must have sufficient farm experience to carry on sound farm operations, must need credit, and be unable to obtain financial assistance from other sources. As in the past credit will be extended only to operators of farms that are family-type size or smaller. No loan will be made unless

Floyd County 14 Years Ago

(From The Hesperian, Oct. 3, 1946)

Sgt. Elena Simmons, daughter of Mr. and Mrs. W. S. Simmons arrived home Sept. 14 after landing in New York on Monday. Sgt. Simmons' last assignment was in Wiesbaden, Germany, where she was with the army of occupation. She was stationed in England and France during the war and in all spent two and one half years overseas. She has enlisted for nine more months and is now home on 30 day leave.

Mr. and Mrs. Oliver Allen spent the first of the week at John Tarleton college, Stephenville where they entered a pen of 11 of their Parmenter red hens in the National Egg Laying contest. The 1929 Study Club, which was disbanded during the war, was re-organized Saturday when members met in the home of Mrs. J. D. McBrien.

Miss Alma Owens, daughter of Mr. and Mrs. J. H. Owens, became the bride of J. D. Cantrell son of Mr. and Mrs. Johnnie Cantrell, in ceremonies read in Sweetwater in the Methodist parsonage Sept. 30.

Tommy McIntosh arrived in Amarillo last Wednesday night from Chicago, Ill., and was met there by his parents, Mr. and Mrs. B. F. McIntosh. Tommy will visit in Floydada for several days before reporting back to Illinois School for Optometry.

Mr. and Mrs. W. N. Guffin of Altus, Okla., spent the weekend here with Mr. Guffin's sister, Mrs. Addie Thagard.

Mr. and Mrs. J. M. Willson are in San Francisco this week at members of the delegation of Texans who are representing the American Legion organization of this state at the National Convention.

The children and grandchildren of Mrs. J. W. Howard of Floydada enjoyed a family reunion held in the city auditorium in Plainview Sunday, Sept. 29. A of the children were present with only five grandsons absent of which three are stationed overseas.

The Floyd County Cannery will open next Monday and will be under the supervision of Mrs. W. C. Sims, according to Henry G. Barber, vocational agriculture teacher.

Funeral rites for H. C. Love Jr., 23, were held Tuesday in the First Methodist Church in Floydada.

Thaxton In Line For Ten-Year Service Award

Southwestern Public Service Company will hold its 12th annual service awards dinner for the Plains Division employees October 26 at the Hilton Hotel in Plainview.

Fred H. Thaxton, a resident of Floydada, will receive an award for 10 years service. The award will be presented by A. R. Watson, Executive Vice President. L. L. Davis, Division Superintendent, will serve as master of ceremonies.

Top awards, for 35 years service, will go to Ira J. Gilliland and C. O. Greene, of Clovis, Roy B. Holland, of Portales, and Lee S. Westhoff, of Plainview.

The 46 employees received awards this year have combined service of 595 years.

Savings Bond Sales Report

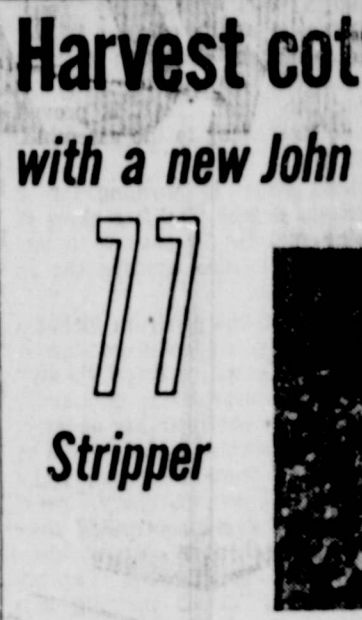

Savings Bond sales in Texas increased 15 percent in August over the same period of 1959. This report was made today by Don Pemberton, chairman of Floyd County Savings Bonds Committee.

"August Savings Bond sales in our county were \$34,738.00. Sales for the first eight months amount to \$169,311.00 which was 79.5 percent of our county's 1960 goal."

The Panhandle Compress Warehouse Company Of Floydada Invites You To Store Your Cotton With Us

We are proud to be a part of Floydada and are interested in Floyd County, its growth and welfare. We pay our Local Taxes and support all civic projects. Our payroll for the past year exceeded \$80,000 and approximately 90% of this money was spent locally with the merchants of Floyd and Floyd County.

Our charges for handling your cotton are listed below:

Receiving, per bale (includes weighing and sampling on arrival)

Storage per month or fraction thereof

No Charge for executing Loan Notes or Sales Agreements

TOTAL CHARGES PER BALE

This charge is 79c CHEAPER PER BALE than charges made by some of Plainview and Lubbock Compresses. Commodity Credit Corporation port price is 30c PER BALE HIGHER in Floydada than Plainview or Lubbock. This means you SAVE \$1.09 OR MORE PER BALE by doing business with home merchants.

To make this profit of \$1.09 per bale, ask your Ginner to send your cotton to the Panhandle Compress & Warehouse Co. in Floydada. We will appreciate your business and render you satisfactory service.

FROM NOW ON...

What a strange feeling it gave me, the first time Laura went to school! As I watched her, I realized that these were her first independent steps. From this day forward, she would be increasingly on her own.

I don't think I ever felt my responsibility as a mother as much as I did at that moment. Had I given her the proper foundation to meet the trials, the temptations and frustrations that are an inevitable part of even a school child's life? Had I done enough for her?

Being human, I probably hadn't. But there was one thing I had done. From the beginning, I had made the Church a part of Laura's life.

You can't shelter your children from harsh reality. But you can, through the teachings of the Church, help them face life with strength and faith, giving them the assurance that God is ever-present.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

TE CAPITAL Highlights AND Sidelights by Vern Sanford

TEXAS PRESS ASSOCIATION

Many city officials believe that the pyramiding growth and expenses of urban areas make new revenue sources necessary.

ACCIDENTAL DEATH UPHELD — State Supreme Court has reaffirmed its own earlier ruling of "accidental death" in the case of a man who died from a blood clot on his brain after watching his office records burn.

This means two insurance companies must pay double for policies on the man's life, which provided for double indemnity in case of accidental death.

Decision was 5 to 4 by the court.

Majority opinion said that the "viewing of the fire produced wholly unexpected, unusual and unforeseen catastrophe."

Dissenting opinion said that the case would bring up all sorts of confusion, such as whether a heart attack caused by excitement from watching a football game or TV show was "accidental death."

ANOTHER CHANCE FOR SA — Supreme Court ruled that the City of San Antonio has the right to make another try in court for water from the Canyon Dam Reservoir.

San Antonio's effort to get some water from the dam being built by the Guadalupe-Blanco River Authority has been going on for years.

State Water Board turned down the city's request which is vigorously opposed by GBRA. San Antonio appealed the Water Board decision to district court which rejected the appeal, saying, in effect, that it was too late since construction of the dam already had begun.

Supreme Court held that San Antonio was entitled to a trial of the case on its merits in district court. If the district court should decide that the city should get some of the Canyon Dam Water the case will go back to the Water Board to decide how much it should get.

"SALOON CLUBS" UNDER FIRE — State Liquor Board has set a hearing Oct. 24 on proposed new regulations for private clubs selling liquor by the drink.

Bona-fide private non-profit clubs are not the target of the proposed new rules, said Liquor Board Administrator Coke Stevenson Jr.

It's aimed, he said, at "fly-by-night operators" who give away membership cards or have only the flimsiest sort of organizational set-up as an excuse for selling liquor by the drink.

New rule would require all clubs to have a private club registration permit, to be renewed annually. To get the permit, the club would have to have dues or fees, exclusive of liquor charges sufficient to pay rental, insurance, taxes, repairs, etc., on its premises.

Liquor dealers would be forbidden to deliver liquor to any club without a permit.

Stevenson said there are probably more than 1,000 clubs providing liquor by the drink in Texas.

TEXBOOKS CHALLENGED — "As the twig is bent, the tree's inclined" — which led a group of citizens from over the state to come to Austin to challenge proposed public school textbooks they felt might incite youngsters in the wrong way.

J. Everett Haley of Canyon headed the group called the Texans Committee for Education which appeared before the State Textbook Committee. Haley, an arch-conservative, ran for governor in 1956.

Haley's committee objected to references in the proposed texts to persons they regarded as "subversive" and to what they called "left-wing comment." Some books, they said, encouraged "government doles" by picturing farm subsidies in a favorable light.

Members of the State Textbook Committee, made up of teachers, said that any favorable reference to proven subversives would be taken out of any books recommended for state adoption.

TEXAS - ALASKA AGREEMENT — Texas and Alaska, the big two of the United States, have worked out a "visiting privileges" agreement for motorists from the two states.

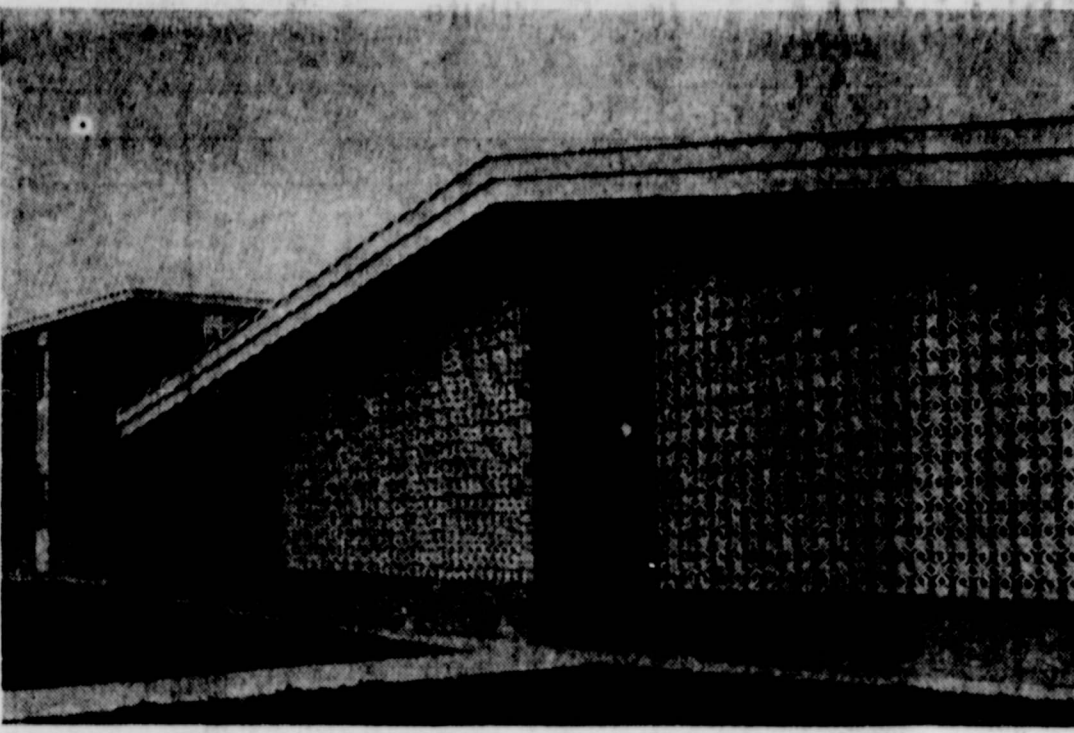

Texas vehicles can operate in Alaska up to 90 days without additional registration charges, and Alaskan cars, trucks and buses may do the same in Texas as well.

State Highway Engineer DeWitt C. Greer announced the agreement. He said Texas now has reciprocal passenger car agreements with all other states and truck and bus agreements with all but six states.

SHORT SNORTS — Governor's Advisory Commission on Finance knocked down one of the favorite themes of the optimistic — that the state has enough money in special funds to offset the shortage in the general revenue fund. Month by month, the balances in the statutory special funds would not cover the general revenue fund deficit, said a commission report.

Land Commissioner Bill Allcorn has announced the appointment of Jack Giberson as chief clerk of the General Land Office. Giberson was serving as legal counsel for the land office. Howard L. Arno will become engineer of secondary roads for the State Highway Department, beginning Oct. 15. He succeeds Percy S. Bailey who is retiring after 36 years with the Highway Department.

Texas Employment Commission notes a drop both in job holders and job seekers. Unemployment dropped by 3,800 to 176,700 total, says TEC, while total employment slipped by 23,600 to 3,304,100.

NEW AT WTSC—Dedication of two new dormitories and the new addition to the student union building at West Texas State College will be on "Mom and Dad's Day" Oct. 15. On that day WT students parents will be guests at the services, dinner and a football game with North Texas State. The new dormitories were named for two of the original faculty members of the college, Ferdinand Guenther and Mary E. Hudspeth. Shown above is a shot of the entrance to the new Guenther hall for men.

\$3,000 Blaze Hits Station On North 2nd

Building damages to the sum of \$3,000 and at least \$1,000 to equipment resulted from a fire at Bill's Texaco Station, 509 N. 2nd on Wednesday night of last week. The fire of undetermined origin was discovered by Mrs. Bill Watson, wife of the station operator. Employees had just closed the station some 15 minutes before and Mrs. Watson was passing the station when she noticed the blaze coming from the storage room, about 10-15. The Watsons live near the station.

The fire was confined mostly in the storage room where oil was kept. Heavy smoke damage was reported to the remaining portion of the building and its furnishings.

Come on in and make your '61 car-shopping rounds the easy way—all under one roof!

New '61 Chevrolet IMPALA SPORT SEDAN

You've got five Impalas to pick from—models that put the accent on luxury while offering all of Chevy's new ideas about comfort and convenience—like larger door openings, higher seats, and a low-loading deep-well trunk.

Presenting big-car beauty at small-car prices

NEW '61 CHEVY BISCAYNE 6

(2-Door Sedan, above) All Biscaynes, 6 or V8, give you a full measure of Chevy quality, comfort and proved performance. Yet they're priced right down with many smaller cars that give you a lot less!

New lower priced '61 CORVAIR 500 4-DOOR SEDAN

Like all Corvair coupes and sedans, this model costs less for '61. You get more spunk, space and savings—and now Corvair has wagons, too!

New '61 Chevrolet BROOKWOOD 9-PASSENGER STATION WAGON

All six Chevrolet wagons feature a cave-size cargo opening that's nearly five feet across!... plus a new concealed compartment (lock is optional at extra cost) for stowing valuables.

NEW '61 CORVETTE

New form and fitness for America's only true sports car. New '61 Corvette offers more performance and more luxury equipment than any car in its class.

See the greatest show on worth at your Chevrolet dealer's!
