

## Big Vote Seen in General Election Tuesday

### Opposing Forces Make Strong Bid As Campaign Nears Close

No doubt about it, granted passable roads and reasonable weather Floyd County voters are going to take enough time out from a busy harvest season to vote in Tuesday's general election. The county will have cast the biggest vote, per centage wise, in the history of November balloting for at least 25 years. General election interest, usually perfunctory, will be high.

This is forecast by street talk and by the absentee vote. At a time in the year when vacations are at a minimum only absentee votes being cast are those of necessity.

At noon yesterday County Clerk Margaret Collier reported 75 ballots already cast. Twenty-seven applications by mail are out with a deadline to be returned the close of business Friday, tomorrow.

The long and arduous campaigns, which opened up in August have reached a crescendo this week. Candidates Nixon and Kennedy and their running mates Johnson and Lodge, have laid out campaigning programs that will keep them busy right up to election day.

In this connection Texas has been the object of solicitude on the part of the campaigners and the state has seen a movement of important political figures into its boundaries from both parties of unprecedented volume. More than 20 senators and congressmen of large stature in the past have been campaigning in the state, and any number of lesser lights.

Forecasts of the election results following points will probably be as varied as the men a reporter can talk to. Scores have been seen who are positive either for the information of election judges and voters.

Don't Lose Your Vote While a voter may split his state's vote on election day, ticket by voting for the president and vice presidential candidate of one party, as well as of the usually conservative candidates of another party, he cannot vote for the presidential candidate of one party, and the ticket. The Hesperian has fore-vice presidential candidates of each party are a single ticket, and minds in July, consider it their you cannot vote for one and the other; if you attempt to do so, you will lose your vote in that race, for the election judges will not count your vote for either candidate.

Residence Requirements If you have been a resident of Texas for 12 months or more prior to the election, and have paid a poll tax if required to pay one, but have resided in Floyd County less than 6 months, you may nevertheless vote in Floyd County in the election precinct in which you reside, in national and state races, though not in county races. You must of course be a bona fide resident of Floyd County in order to vote here if you are here only temporarily your residence by absentee ballot. Assuming you are an actual resident of Floyd County, though you are not as much as 6 months, you should so inform the election judge when you go to vote; there will be no move across the street will, before handing you the ballot, strike from it all county and district races, leaving you the opportunity to vote in the national and state races. Incidentally, if you moved to Floyd County from another place in this congressional, appellate court, or representative district, you may likewise vote in that district race as well.

Last Day For Absentee Voting. The County Clerk's office will Friday, November 4th, is the open election night, Tuesday, last day for absentee voting. Election boxes and supplies are ready, and may be picked up by

The Voting Places The mechanics for the election have been set up by the county election board, composed of the judge, the clerk and the sheriff. All voters will cast their ballots at the same places where they voted in the Democratic primary save and except Northwest Floydada, No. 19. Voters there will move across the street to the city hall to vote at the American Legion Hall, designated

### Frost Sears Crops In Stealthy Move

Frost stole upon the county's crops and gardens in two successive waves in late October, but so gently as to serve the cotton and feed man almost as well as had it waited another week or ten days.

So silently did the harbinger of winter arrive that he was like a thief in the night on his first trip the night of October 21. Evidence of his second visit in the early morning hours of Monday, was more quickly visible. The date, for the record, was October 31. A brief yarn that got side-tracked last week at the news office told the story, now belatedly being repeated.

Only early morning risers knew of the first frost. Among those who actually saw the frost on windshields, and around in Floydada before 4 o'clock were the night watchman, Bill Taylor, Mrs. Nora Fair, co-manager of Rogers Restaurant and Chef Barney Latham there. A breath of warm air accompanying a cloud cover about 6 o'clock dissipated the visual evidence. Only tender growth including cotton leaves gave evidence of the frost.

On Monday when the frost was generally evident throughout the countryside, a low of 33 degrees in temperature was recorded. The cold held on from 3 o'clock to about 7 o'clock, at 33 to 34 degrees, the Pioneer Natural Gas Company's record indicates.

Commissioned Pilot Officer in England in 1941, Cdr. ### 'Winds Try New Foe Friday Night

The Floydada Whirlwinds when they meet a new foe Friday night when they travel to Morton to engage the Morton Indians. No one in the school can remember any previous meeting on the gridiron between these two teams.

The 'Winds will be laying their perfect record on the line and must win to stay on top in 2AA standings.

The Indians of Coach Paul Jones have not had a good year. They only elevated to AA play a few years back and in addition to this graduated a big part of their last year's team.

This season the Indians' only win was over Whiteface whom they narrowly six point margin to strong Sandown and scored a respectable 22 points against strong Olton losing 22 - 38.

The Indians to date have had most of their problems trying to muster a strong line. They have a fine quarterback who is a good

Another farm route which is also all paved is to go to Abernathy and in the south part of town turn west on 597 to go through Anton and on to Morton. Those who like the traffic and bright lights will want to go through Lubbock, Levelland and Whiteface to reach Morton.

The big Whirlwind band will follow the team for the game and most of the faithful fans will also make the long drive. Concert of the Whirlwind coaches has been the fear that the team may expect an "easy one" and let down. District 2AA teams have been so closely matched this attitude could mark any club for an upset.

Scores Last Week Floydada 13 - Abernathy 8; Lockney 8 - Olton 30; Morton 8 - Mulshoe 56; Dimmitt 34 - Tullia 0; Denver City 60 - Stanton 0; Spur 22 - Haskell 14; Petersburg 12 - Idalou 38; Matador 28 - Ralls 22; Silverton 28 - Crosbyton 20; Floydada B 12 - Lockney B 5. ### Funeral Of Mrs. M. B. Holmes Conducted Sunday at Lockney

Funeral rites for a long time resident of the county, Mrs. Mary Brown Bealand Holmes, were held Sunday in the First Methodist Church at Lockney. The minister, Rev. Russell McAnally and Rev. Charles Lutrick, pastor of the First Methodist Church at Floydada, officiated.

Interment was in Floydada cemetery under the arrangement of Harmon Funeral Home. Grand sons of the deceased were pallbearers.

Mrs. Holmes died in Peoples Hospital Saturday morning where she was taken on the prior Tuesday after suffering a stroke. Her condition had been grave for several days before death.

Born Jan. 24, 1874 in Lincoln Co., Tenn., Mrs. Holmes was married to William P. Holmes Feb. 2, 1893. The couple lived at Greer County, Tex., later called Looney, Okla. The family moved by covered wagon to the Plains settling in the Ireck Community in Floyd County in 1908 then to Sand Hill Community the following year.

Mrs. Holmes was the mother of 12 children, four of whom died in infancy and a son, Ed Holmes who died Sept. 28, 1954. The deceased was a member of the Cumberland Presbyterian Church. She joined in 1887 and

### Cotton Maize Harvest Resumed As Sun and Wind Dry Out Fields

With an estimated 35 per cent of the cotton crop of Floyd County open in the fields, harvest beginning of the crop had begun to resume movement in considerable volume yesterday after the paralyzing three days of rains that engulfed the county Oct. 15-17.

An occasional field could be entered by cotton harvesters as early as last mid-week but these were the exception. A few bales of cotton were ginned on Oct. 26 and the quantity has increased gradually since.

Maize harvesting machinery began to move last weekend in limited parts of the county. The Texas Employment Com-

mission count of bales of cotton ginned to Saturday night was 5,214 bales. This was indicated in the report to be about 5 per cent of the crop, reported in fair condition.

Early reports on cotton grades following the resumption of the harvest ran principally in the low middling spots class. Grades had begun to show some improvement with the passing of more time, with sunshine drying out the fields and opening the cotton.

Light frosts have obviated the necessity of further defoliation of cotton. Cotton staple lengths have run an inch to an inch and 1-thirty-

second, a few longer staple. For the most part the farm operators in the hail districts will never know definitely how great was their loss. Most of them have a fair to good crop left, if they get to harvest it, both maize and cotton. A few fields were wiped out but these are exceptions.

This week it began to be evident that a good many crops of cotton are going to be left in the field until they can be gathered with machinery. High percentage of labor costs and continued harassment from government agencies are indicated as the reasons.

E. Green publicity.

BY Phyllis Roggendorff  
County Home Demonstration Agent

**Sweet Potatoes**

Sweet potatoes can add color to your meals besides being nutritious and appetizing. Baking sweet potatoes retains much of the flavor and food value, and saves time for the cook. All you do is wash and dry the potato — greasing before baking serves no real purpose as the peeling of sweet potatoes is not eaten. Bake one hour in a moderate oven (350 degrees) for medium sized potatoes. Test for doneness by pressing rather than puncturing with a fork. Potatoes may "leak" if baked too long or with too high heat.

Left over sweet potatoes will keep for several days in the refrigerator. Serve them mashed, fried, or candied. Citrus juices, tart apples and nuts combine well with the flavor of sweet potatoes.

**4-H Officers Training**

A training meeting will be held this Saturday for 4-H officers including president, vice-president, secretary-treasurer, reporter, recreation leaders and song leaders. These 4-H officers are urged to attend. This meeting is planned to assist the officers in carrying out their responsibilities to the club. It will be held at 10 a. m. in the Home Demonstration Council room.

**4-H Achievement Banquet**

The annual recognition of 4-H members who have completed their 4-H work this year will be held Saturday, November 12, at Lockney. The 4-H members, their parents and leaders are invited to the banquet.

The 4-H members meals are paid for from the 4-H Council fund, but due to lack of funds, their parents and leaders are asked to pay \$1.25 a plate.

This year for the first time we are asking the parents and leaders to pay for their plates before the banquet, so that we will not have the confusion of collecting money the night of the banquet, and so that we will know how many to expect at the banquet. The Harmony Home Demonstration Council is serving the meal.

The deadline for paying for the banquet meal is this Saturday, November 5. We hope that the parents and leaders will send the money to the Extension office by then or at least call us so you will pay us so that we can get an accurate count.

**COMMITTEES**—Three Achievement Banquet committees will meet this Saturday at 9:15 in the District court room of the court house. They will be:

**PROGRAM**—Norman Hopper, Chairman; Novis Johnson, Bobby Holt, and Mrs. Bob Hopper, advisor.

**PROGRAM BOOKS**—Paulette Kropp, chairman; Gregg Williams, Wesley Johnson, Mrs. Paul Kropp, advisor.

**DECORATIONS**—Sue Wilson, chairman; Tim Hartman, Dennis Griffith, Nathan Mulder, and Mrs. Deany Henderson, advisor.

The Foods committees which has already met includes Pat Tucker, chairman; Joedi Campbell, Teddy Porter, and Mrs. Tom Porter, advisor.

**4-H COUNCIL** The regular 4-H Council meeting will be held Monday night, November 7, at 7:30 in the Home Demonstration Council room. New officers to serve in 1961 will be elected.

Controversial New Book Up To Review Monday Evening

The Myrtice Group of Christian Women Fellowship of the First Christian Church will present a book review Monday, Nov. 7 at 8 p. m.

Mrs. Kinder Ferris will review "To Kill a Mockingbird" by Harper Lee. "It's a sin to kill a mockingbird", a father taught his children. Mockingbirds harm no one and they create beautiful music. "Why then" thought the daughter, "are people so cruel one to another?" This novel, fourth of the best seller list, is a controversial and much talked about book of our day.

Prior to the book review there will be a salad supper in Fellowship Hall at 7 p. m. Everyone wishing to attend the

As Cuba's crisis comes to a boil, we Americans are shaking in our custom-made shoes. Normally preoccupied with cars and salaries, kitchen conveniences and clothes, we tend to look the other way when something unpleasant shows up on the world front.

But this time Mr. K. is contacting his brew right in our doorway. Now everyone wonders anxiously what to do. While Cuban's boiling pot may explode within its own boundaries before it reaches us, the dangers of its spreading to other Latin countries is a thing we must face.

There's hardly a person but would be willing to help with our southern neighbors if he knew exactly what his job should be. If someone in authority would say: "Mr. C, sign up 20 leading citizens for a Spanish course - quick - and get to work on Latin American relations in your own hometown." "Mrs. B, you've travelled a lot; why don't you compile a guide to good manners for American tourists in other lands?"

But democracy isn't run that way. Nor is it possible for one person, however wise, to know the abilities and talents of 177 million Americans so he can tell each just how best to serve in crisis.

Threats to our much-loved freedom have been rare in the past; so rare, in fact, that we can hardly believe anyone wants to hurt us. Because we feel friendly toward other countries, our complacency has been understandable. But warned as we are now we had best wake up before it's too late.

Panic is no solution in any crisis. But panic comes from not recognizing our problems. If each of us begins at once to do what we can, within the circle of our own environment, it will help preserve the freedom we love.

## Lakeview News

By Mrs. Q. D. Williams  
LAKEVIEW, Oct. 31 — A good crowd came out to the Lakeview Halloween Carnival. The date was changed to Saturday night rather than Monday, because the latter date was used by the Floydada schools. The money was given to the 4-H Club, seventh and eighth grades, and the remaining grades.

The cake walk brought in over eighteen dollars. Penny McClintock won first place in girls' costumes with a witch costume. Mike Bishop won first for the boys. Mrs. Annabelle Henry of Vernon was here visiting her sister Mrs. Louis Pyle, and won the bean guess (a basket of wax fruit), the door prize (a cake lamp), and a cake in the cake walk. This was a nice welcome to a visitor in our community and I'm sure the Henry family appreciated it.

Mr. and Mrs. Warner Johnson, Novis, and Wesley, visited in Big Spring this weekend. They were house guests of Mrs. Johnson's sister and family. Mr. and Mrs. Eddie McClain, the Johnsons also visited former Lakeview residents, the Fowler Estes, who own a motel in the city.

Mr. and Mrs. Orville Custer visited Mrs. Joe Eavers in Floydada Sunday.

The Roy Fawcetts were visitors in Mrs. T. F. Anderson's home in Floydada Wednesday. The occasion was the arrival of Mrs. Fawcett's cousin and family, Mr. and Mrs. Dennis Kizer, of Saratoga, Calif.

Mr. and Mrs. R. L. Johnson attended the funeral for the little girl who was killed at Silver Falls last week when she darted into the path of a truck. A memorial service was held in Crosbyton on Monday, and burial service in Soaravines on Tuesday.

Mr. and Mrs. Leroy Henry of Vernon visited the Weldon Hammond's Saturday night. Both families were Sunday dinner guests of the Louis Fyles.

Miss Betty Sue Harrison had Miss Bonnie Helms as her house guest Saturday night.

## China Painting Enthusiasts Pay Visit To Exhibit

Mr. and Mrs. J. O. Warren and Alene, Mrs. I. T. Graves, and Mrs. R. H. Rogers of Lubbock spent last weekend in Dallas where they attended the National Exhibition of China Decorators. The seminar and exhibit was held in the Memorial Auditorium.

This was the first National China Painting Teachers Convention and Exhibit ever held in the United States. There were 4 States represented at the exhibition.

The huge exhibit of hand-painted china was the work of hundreds of nationally recognized china-painting teachers.

While in Dallas, Mr. and Mrs. Warren and Alene visited Mr. and Mrs. Duane Smith and Mrs. Nora Cox, who are former residents of Floydada. Mrs. Smith will be remembered as Thomasine Cox.

Mrs. C. M. Norris, Connie, and Katrina of Carlsbad, N. M., visited Mrs. Norris' parents Mr. and Mrs. W. J. Wilks, this past week. Mr. Norris joined the family on Friday night.

representatives from a Crosbyton Study Club came to the Light-house Kitchen for a demonstration on "Table Arrangements for Different Occasions".

Grace Robertson did flower or dry arrangements for different occasions and I did foods appropriate for these same occasions. These included Halloween, Thanksgiving, Christmas, a nice way to welcome a new neighbor, "pink and blue" showers, and party suggestions in general.

Among those attending the meeting were: Mrs. H. M. Bell, Maud Nancy Buddy Keeler, Rayburn Karr, Hubert Turner, Grady Sheppard, E. W. Smith, Hobby Smith, Virgil Martin, O. A. Triplett and L. F. Wood, all of Hale Center or the Hale Center community. Mrs. Doris Evans and Mrs. Rose Richardson, of Crosbyton, Mrs. Troy Leonard, Mrs. Theima Jones and Mrs. J. H. Buchanan of Floydada.

Mrs. Grady Sheppard, president of the club expressed their appreciation for the demonstration and said they would be looking forward to coming to Floydada again in the very near future for another meeting.

**Something to Think About**  
"You are richer today than you were yesterday — if you have visited. The Titus family are forgiven often, given something friend today, or made stepping stones of stumbling blocks; if you have thought more in terms of education and T. E. A. and Mrs. Titus is teaching homemaking of one of the Austin schools."

On Wednesday the Broadway Club met for their October meeting at the home of Mrs. Duwayne Brewer. The program was "Christmas Ideas, and Things to Make at Home." It was a very interesting program, everyone brought something they had made or something that had been given to them.

Thursday afternoon the Mount Blanco Home Demonstration Club met for their October meeting at the home of Mrs. Joe Appling.

Mrs. Joe Appling and Mrs. Gord on Appling were joint hostesses for this occasion. The program was "Ways to Use Green Tomatoes."

Here are some of the recipes we tried out — just in case you have a few green tomatoes you are wondering what to do with —

**Green Tomato Mince-meat**  
1 pint chopped green tomatoes  
1 1/2 pints chopped tart apples  
1 cup sugar  
1 pound raisins  
2 teaspoons cinnamon  
1 teaspoon each, salt, allspice, cloves  
1-4 cup vinegar

Mix together, bring to a rapid boil then let simmer until thick. Pour into sterilized jars and seal. Use as any other mince-meat. Butter may be added when pie is made.

**Green Tomato Preserves**  
1 1/2 pound tomatoes  
1 pound sugar  
1 pint water  
2 tablespoons lemon juice  
Wash tomatoes; cut out stems. Add sugar and water and cook slowly until thick. Add lemon juice when nearly done.

**Green Tomato Pickles**  
Wash, core and slice green tomatoes. Soak in lime water overnight (1 tablespoon lime to each quart of water.) Next morning drain and rinse tomatoes. Mix 1 cup vinegar, 1 cup water, 1/2 cup sugar, dash of turmeric, 1 tablespoon mustard seed and 1 teaspoon salt. Let come to a boil and pour over tomato slices. Let set overnight. Next morning drain off liquid and heat to a full rolling boil, pour over the tomato slices in sterilized jars and seal.

**Chow-Chow**  
12 large green tomatoes  
4 large onions  
4 green peppers  
1 red pepper (hot one)  
1 tablespoon salt  
1 cup sugar  
2 cups vinegar  
Dash of turmeric  
Grind, drain, mix together and cook (just let come to the boiling point).  
Seal while hot.  
Makes approximately 4 pints of chow-chow.

**Okra and Tomatoes**  
3 cups okra cut in rounds  
1-4 cup butter or margarine  
3 cups tomatoes, peeled and cut in wedges or chopped.  
3-4 cup onion slices  
2 teaspoons salt  
1-4 teaspoon pepper  
Saute okra in butter until tender.  
Add remaining ingredients and simmer gently, covered 5 minutes or until done. Don't overcook.

**VARIATION:** Use green tomatoes instead of ripe tomatoes for a delightful change.

**French Fried Green Tomatoes:**  
Slice green tomatoes in rounds. Dip in fritter batter and fry in deep fat until nicely browned.

**Fritter Batter**  
Beat 2 eggs, stir in 1/2 cup milk. Sift together and beat in 1 cup all-purpose flour, 1 teaspoon baking powder and 1 teaspoon salt. Add 1 teaspoon melted fat or cooking (salad) oil.

# REPUBLICANS S. THE FARMER

In 1952 the Republicans promised the Farmer, First Parity, then 100% — Parity being a fair price what the farmer sells in relation to the price of what he has to buy. In 1960 Nixon tells America that approach to Parity will raise the cost of living — but Today, Parity, which stood at 100% in 1952, fallen to 77% while the cost of living has risen to highest level in history.

Farm Income for 1959 was \$3.5 billion below 1952, the total net income loss to farmers in seven years of Ezra Taft Benson has been \$19.9 billion.

Ezra Taft Benson has spent more money in 7 1/2 years in the Department of Agriculture spent in all of previous 70 years of its existence, and he has increased the Departments Employees from 66,000 in 1952 to 85,000 in 1960.

Never have so many done so little with so much, and never has one man done so much to so many in so little time. Along with all of those other decisions he has made, did Dick Nixon make the decision to keep Benson these long years?

**THE CHURCH FOR ALL . . . ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	Isaiah	7	13-16
Monday	Proverbs	6	20-22
Tuesday	Galatians	4	1-7
Wednesday	Ephesians	6	1-4
Thursday	II Timothy	3	14-17
Friday	Hebrews	13	7-8
Saturday	Psalms	77	13-14

I call Bruce my combination angel-terror. Soon he will be four, and he is a fascinating mixture of mischief and goodness.

At bedtime, I always tiptoe into his room to be sure he's covered. Then it is that I am struck by the innocence of his face in sleep. Then it is that I realize how helpless is this small dynamo, who plunges with such boundless energy about our house and yard all day. Then it is that I am struck by the awesomeness of my responsibility.

I realize it is entirely up to me to see that Bruce learns right from wrong, to see that he grows into the sort of man who will be a credit to his family, his community, and his country. I must teach him to keep a steady heart and a level head, to resist the many temptations that will be strewn in his path, to hold honor and truth and integrity high.

When I think of my task, I send a small and special prayer to God to aid me. And I thank God for his Church on earth which, for years to come, will be helping me, again and again, in making my small mischief into a man.

### Ponder New Location Of Ward School

While North Ward school and North Floydada High School have resumed work in their once-over-flowed school grounds beginning Monday of this week, the school board has been reflecting on the possibility of getting a new location for the school.

The matter had not passed the talking stage as of this mid-week but it was said authoritatively the board had been offered a site for a new location on higher ground.

Fiscal considerations may have a bearing on the outcome of any movement to get a new location. North Ward pupils attended school in the educational rooms of the First Methodist and First Baptist churches in the two-week period while high water had the school barred from the school house. The use of the buildings were loaned in the emergency by the churches.

The annual president's message was brought by Dr. W. A. Criswell, pastor of the East Grand Baptist Church in Dallas. "Found Faithful" was the theme for the session Ramsey Pollard, president of the Southern Baptist Convention, was featured speaker throughout the meeting.

The choir from the local Baptist Church joined the District Nine Mass Choir in closing musical sessions last night. Some 300 Baptist from Floyd County attended.

## Spending Is Threatening Sound Dollar

To The Hesperian: I wish to thank you for the information that is given in your publication for our County. This with the fact that you are to my notion as good a weekly paper as any county should wish I am concerned with who we elect to rule over us but in the long run I am more concerned about what they do after being elected.

My information is that the national debt of 290 million exceeds the combined debts of all other nations in the world by \$47 billion. Even more startling our national debt has been growing three times as fast as the combined national debts of the rest of the world. Our national debt is seven times its 1939 size.

Because of this debt the stability of the dollar has been questioned here and abroad. No doubt but that we are a very rich nation but not wealthy enough to keep increasing our debt at such a rate. Restraint must be done if we curb inflation.

Now the candidates seem to me to be promising to have up big spending bills next congress. Education will be raised although many states now are able to get along good. A few more billions for a veteran, no matter what class have pensions of \$100 per month whether needy or not. Others will show up, I am sure.

Now it is possible for congress to curb spending so as to pay some of the debt as did last year but all of us have to bring pressure to bear or they will vote more spending unnecessarily. If things are curbed this way the dollar will be sound.

# Weariness Catches Up Ben Eudy After 15 Years

The Po Valley Campaign which started in February of 1945, cost many lives in the rugged country.

On May 2 word came from the commander that an unconditional surrender of the enemy in Italy might be expected that day. This laid the foundation for the return of peace to Europe. From the Straits of Messina to the Brenner Pass, Italy was free.

**Meets The Fowler Boys**  
Thomas and Wilson Fowler, two other Floyd County men and brothers, who saw battle along the same campaigns, visited with Ben while he was stationed at Caserta, Italy in 1943. At that time Ben was a guard at a field hospital. Later at Carano, Italy Thomas Fowler lost his life in battle.

Ben came home in August, 1945, one of many battle weary men of the U. S. He has been making his home with his mother and brother since that time.

Friends wishing to extend their best to Ben may write him at Veterans Hospital, Fort Lyon Colo.

**EDITORIAL VIEWS AND COMMENTARY**

**Until It Becomes** more apparent what the legislature would do when and if a new legal rate of interest not to exceed 6 per cent were adopted, we think we will beat back the amendment that is listed as No. 4 on the general election ballot. True, although the governor, the attorney general, and practically all the important people in the state, have come out for it, the amendment does not eliminate the "Loan Shark Evil." All it does is to turn the legislature loose on another law-making binge, which is more likely to result in naming another commission to run people's affairs and to involve lenders and borrowers in more rules and regulations. It will not reduce the number of people who will promise to pay more than they can pay, nor will it reduce the number of people who will find it profitable to prey on this type of borrower.

**One could vote** for Amendment No. 1, which is, in effect, a local law for Lamar County, Hidalgo County, and Commissioners Precinct 4 in Comanche County, so they can legally vote bonds and build hospitals, if the people of those areas desire to do so.

**Veterans Land Bonds.** Since the rate of interest has gone up the State Veterans Land Board has been unable to sell its bonds to carry on the sale of land to veterans. The rate of interest for state bonds would be increased from three to three and a half per cent. Amendment No. 2 is adopted, and there would be immediate resumption of activity in this field. Money lenders may continue to have the upper hand in bargaining for a generation or so. In such a case, until money gets cheaper the veterans must pay higher interest on the Veterans Land Board activities remain at a standstill.

**Amendment No. 3** is the amendment that would increase the pay of legislators to \$4,800 per year and in years when the legislature meets, have an additional \$1,440 in per diem pay. At least that is the way it looks on the face of it. We go along with this amendment. Whether or not it gets a better job of legislation, it at least makes a beginning on paying the laborer for his work. Fairness is fairness.

**Frustrating Experiences.** Official Washington is caught up in a situation that is frustrating to the point of exasperation. While the whole world calls on America and the Soviets to get together and "prevent a global war that would destroy mankind," they are speed with the fact that in 25 years the United States has had 3,400 meetings

with the communists, including Teheran, Yalta, Potsdam, Panmunjan, and Geneva. In these negotiations there were spoken 106 million words, recorded in 700 volumes. All this talk led to 52 agreements, the American Bar Association says. Soviet Russia has broken 50 of them. What kind of tactics or strategy can be used to impress the on-looking world that more talk is useless unless it has some place to begin—some kind of guarantee that some good will come of continued effort?

**Twenty-nine Dollar Shoes.** With the dollar at 41 cents advertisements from the makers of better shoes list many of their models at \$29 and above. Last time shoes were at that figure more people wanted shoes than could have them—supply and demand. This time the reason is different but the result the same. Inflation, joining with cupidity, has a stinger out for the American dollar and its owner.

**An Important Program.** It took many years of work and research, with many failures thrown in, to bring the grain sorghums to their present high state of perfection on the plains of Texas and the southwest. When the first crooked stemmed maize was brought to America and tried out at Chillicothe Experiment Station the results were not too encouraging. But people took to it as practically the sole crop, as they thought, to produce feed for live stock. Similarly safflower, in the first experiments is not doing so well. At the Hi-Plains Research Station, however, the workers are not thrown by the first tests, which have not been favorable. Safflower has possibilities and the Hi-Plains Station has laid out a program of research that will cover a period of years.

**A Stolen Reminder.** "Remember when a cigarette was called a 'coffin nail,' trampling on the U.S. flag meant an apology or else, children were home nights or parents knew their whereabouts, the wife kept house, looked after the kids and husband made the living, neighbors harvested a sick man's crop, children cared for their aged parents, merchants threw in a pair of suspenders with a suit of clothes, there were no government controls, the dollar was worth 100 cents, and this country looked after its own affairs instead of the whole world's?"

**A New Philosophy.** There are people who figure they ought to have high wages on their first job because it's harder work when you don't know anything about it.

**County Prone To Accidents Survey Shows**

(Special to the Hesperian)

**NEW YORK, Oct. 25** — Is Floyd County a safer place in which to live, from the standpoint of accidents, than most other communities in the United States? What are the odds against a local person's being involved in some sort of an accident in any given year?

Evidence produced at the recent National Safety Congress, held in Chicago shows that some areas are more accident-prone than are others.

The variations are due to a number of factors, among them the kind of housing, the proximity to water, the types of industry, the amount of driving done and the effectiveness of public safety programs.

Data has just been released by the U. S. Public Health Service giving the vital statistics for all parts of the country for the year ending January 1, 1959.

They show that there were 9 fatalities due to accidental causes among residents of Floyd County in the year, with 3 of them attributed to motor vehicles. Excluded are local mishaps involving non-residents.

Considering the population of the county, the total is relatively high.

It represents a rate of 81 accidental deaths per 100,000 population.

This was greater than the average reported by the Public Health Service for the United States, a rate of 52 per 100,000. For the West South Central States it was 60 per 100,000.

Taken into account are on-the-job accidents, drownings, firearm fatalities, those due to gases and explosions, falls in the home, auto accidents and all other causes.

For each accident that ends in a fatality, there are 101 others that cause disabling injuries that require people to give up their normal activities for at least one day, states the National Safety Council.

The dollars and cents cost of this toll is enormous. Last year it amounted to \$13 billion, according to the council's estimate, taking into account wage losses, medical fees, property destroyed and drop in production.

Floyd County's proportionate share of this cost, using the average loss per accident, would come to \$1,136,000.

# Squeaker Won By Whirlwinds At Abernathy

The Floydada Whirlwinds defeated the Abernathy Antelopes 13-8 in what has become routine fashion for them this year. Though the 'Winds were fighting their hearts out with a shaky five point lead they earned in the fourth quarter, the fans were beginning to become accustomed to these squeakers since Floydada has hit for five of their eight victories in this fashion.

Abernathy had a big and seasoned ball club with as good a defense as the locals have faced all year. They took the field after the half and carried the fight to the Whirlwinds in much of the two final stanzas. The Floydada team played one of its better games of the year and it was only through a maximum effort that they were able to pick up

KENNETH MANKINS

FRANK BARROW

MAX CAMPBELL

the victory. Opening the game the 'Winds kicked off and Teague's boot went low striking an Antelope lineman in the front wall. The 'Winds charged the free pig hide and it was the kicker Teague who recovered for Floydada on the Antelope 44.

### Pass Play Spoiled

From this point it was power for the green and white and soon Stovall had earned a first on the 33 and after another series of plays to the 21. Floydada drove inside the hosts 20 then bogged down and on their best effort one of the officials got in the way of a perfect pass play at the goal line and the 'Wind receiver was unable to get his hands on it to make the score. Abernathy took over on their own 22 to end the threat.

The Antelopes gained but seven yards and then on fourth down Brown punted from his twenty-seven to the Floydada 39 dead. This time the Whirlwinds were

able to gain but three yards their Teague booted from his own 42 to Stanley Joy on the Antelope 2 and he ran it back to the 31 where he was downed.

The Whirlwinds dug in and with Van Stovall calling the defensive shots the Antelopes were stopped cold with Green, Stovall, Dunn being among those getting good tackles. Abernathy then punted from 30 to the Floydada 36 where the ball rolled dead.

### Floydada Ahead 7 to 0

Floydada had driven to the mid field stripe as the second quarter opened and from here Allen hit for 14 then Marler for 9 and Stovall picked up another first on the Antelope 24. Ted Allen then banged to the 6 and on the next play to the five. The 'Winds lost two and then Teague went to the 1 and on the next play scored. Teague kicked the conversion with Christian holding and Floydada was ahead 7-0.

Floydada continued to play tight defense and the remainder of the first half was a punting duel with Abernathy's deepest penetration to the Floydada 41 and the 'Winds had a drive sty Abernathy four with one minute before the half. Good tackles were turned in by most all the 'Wind defenders with Stovall, Green and Davis being spotted on ston where their numbers stood out. Just before the intermission

Abernathy gained their first first down as Floydada fell back to defend against the long pass and Brown picked up eight yards with the clock running out.

### Abernathy Takes Lead

In the third period the Antelopes romped and stomped and held eight to seven lead for a time. It all came about after Abernathy had kicked off and then held the 'Winds at their 27 forcing a pun which went to the Antelope 38. The fired up Abernathy team then hit hard and kept driving and with the aid of some general officiating were able to gain their first down yardage by running the ball on all four plays of each series. The drive was climaxed when Brown passed to Jack Waters for the score then rolled out and circled end for the two pointer.

Following the Antelope kick off the locals were held and forced to punt. Then Abernathy wanted to increase their lead went to the air, but it was Rodney Teague of Floydada who pulled down the pass and he returned it to the Antelope 22. On the last play of the third period Teague hit Marler with an eleven yard pass and he was downed on the 11.

On the first play of the final period Teague took the ball from a spread formation and went it to score. The fake kick was to set up a similar play for the two pointer but the Antelopes caught on and he was downed short of pay dirt but the 'Winds led 13-8.

Following the Floydada kick off the Antelopes drove as deep as the Floydada 35 Floydada took over on downs after throwing the invaders back to the 43 where the 'Winds took over possession. Allen, Davis, Parks, Teague and others were doing yeoman service in the tackling department.

### Losses Ball on Fumble

With Teague carrying from a deep spread formation the 'Wind hit for 15 yards and then repeated for another long gain only to lose the ball on a fumble and Abernathy had another chance.

Abernathy had gained first down yardage on the Floydada 49 and then disaster struck when they were jarred loose from the ball and Joe Lee Dunn pounced on it at the Floydada 47.

Teague ran the clock out long count keepers and had crossed into Abernathy territory when the final whistle sounded.

Statistic wise Floydada led the Antelopes more than the score would indicate in the very close game. Floydada had four penetrations to the Antelopes one, had 15 first downs to Abernathy's 5 and had a rushing gain of 159 yards before losses were subtracted. Abernathy's yardage total was 118 yards not counting losses. Only in passing did the Antelopes come close and here Floydada led with 31 yards to Abernathy's 28 1/2 yards. Each club had a pass intercepted.

Starting for Floydada were Walker, Allen, Stovall, Teague, Barrow, Ginn, Lloyd, Davis, Dunn Powell and Switzer. Entering the fray to see much action were Marler, Mankins, Green, Parks, Orman, and Christian.

# 1959 'Greats' To Play Again At Plainview

College football moves to Plainview Thursday, November 10, and a big part of it will be Floydada's 1959 high school great, Bill Gilliland.

Gilliland, a member of the Whirlwind team that went undefeated in winning the 1959 district championship, is scheduled to be starting left guard when his West Texas State College B Team meets the Texas Tech freshmen.

The game is set for 7:30 p. m. at Plainview's Bulldog stadium. Admission will be \$1 for adults and 50 cents for students. All seats will be general admission.

The game is being sponsored by the Plainview Kiwanis Club. All proceeds will go to advance the club's civic work.

In addition to Gilliland, another lad well known by Floydada fans will be in the contest, due to start at guard on the other side of the WTSC line.

He is Dan Smith, of the Lockney Longhorns.

Strange as it may seem for Gilliland and Smith to be united as guard on the same team, Sunday fans will face a stranger's sight.

Robert Foster, quarterback for the 1959 championship Sundown Roughneck team, is now playing with Tech. David McInturff, actual halfback for the same team, will be starting for West Texas. Thus the two oppose each other for the first time in history.

In addition to Gilliland, Smith, Foster and McInturff, several other top players from this area will be on the two teams, including boys from Petersburg, Levelland, Hereford, Littlefield, and Lubbock.

**AUSTIN** — Many a deer may survive the Texas hunting season because the hunter died first.

According to the State Health Department, there were 181 accidental deaths in Texas, attributed to firearms, in 1958. Last year the number increased to 198.

November is the month when hunting starts in earnest. Normally sane men will start blasting away at one another, on deer leases, or contrive intricate methods of suicide such as climbing over barbed-wire fences with their rifles off safety.

Firearms are not the only threat. Health officials point out that a good many hunters slip and fall over precipices, while gazing off into the distance. Others never get to the lease because they combine a few warming drinks with a fast drive through

for damages caused to neighboring farms by crop dusting activities, the State Supreme Court ruled.

Defendant in the case was the Pitchfork Land and Cattle Company which was sued by a group of King County landowners. Suit also was brought against the aerial spraying firm hired by the land company.

Pitchfork Company contended that the spraying firm was solely responsible for any damages, but the high court held the land company responsible too.

**WATER POLLUTION RULING** — In another case involving landowner rights, the Austin Court of Civil Appeals upheld a lower court decision awarding damages from salt water pollution.

A Runnels County woman, owner of a 150-acre farm, claimed her fresh water supply had been polluted by salt water discarded by a drilling firm during oil exploration efforts.

District court found the drilling firm negligent in not having sealed the pits in which it discarded the salt water. It awarded the landowner \$9,000 in damages.

**PICKLE NAMED TO TEC** — J. J. (Jake) Pickle, Austin public relations man, has been appointed by Gov. Price Daniel to succeed Maurice Acres as employer representative on the Texas Employment Commission.

Acres' term expired Nov. 21 but he will remain in office, until Jan. 1.

Pickle has had a significant background role in many of Texas' major political events in the past decade. He was director of the State Democratic Executive Committee for four years and has worked at one time or another in the political campaigns of Governor Daniel, former Gov. Allan Shivers and Sen. Lyndon Johnson.

Acres, an attorney and former FBI agent, was appointed to TEC by Governor Shivers. He served as Shivers' executive assistant in the governor's office.

**CLUB RULES DUE NOV. 21** — After listening to a round of protests at a hearing on proposed new regulations of private clubs, the State Liquor Control Board plans to re-study the rules and possibly make some changes.

Administrator Coke R. Stevenson Jr., indicated, however, that the rules would probably be basically the same.

Primarily, says Stevenson, the rules are designed to give the Board a means of preventing the operation of open saloons under the guise of private clubs. They would provide for the licensing of clubs and forbid liquor dealers to deliver liquor to those that did not meet licensing standards.

Representatives of private clubs called some phases of the rules unreasonable, such as requiring a club to be in existence three years before receiving a liquor selling permit. They declared they would welcome some workable guidelines for operation.

## WHAT THEY WANT Six School Bills Included In Program of Texas Teachers

The Hale-Aiken Study, an improvement foundation program recommended in 1953 by more than 50,000 Texas citizens, was discussed extensively recently at the meeting of Floyd County Teachers at Lockrey.

The proposal consists of six bills of which none have been enacted into law, according to reports from the Texas State Teachers Association in Austin.

However, the 57th Legislature convenes in January 1961 and will have the opportunity to enact the legislation designated to improve the school program.

The proposed program recommended by the Hale-Aiken study asks for a higher annual salary of \$4,014 for a beginning teacher with a B. A. degree, and \$4,239 for an M. A. Degree, the salaries entire program to the state would be based on a nine month school year. In addition to the 1,500 school districts in Texas salary base in teachers pay they are asking for a percent in the amount of approximately \$20 million.

Local districts are now of necessity spending in excess of their Foundation Program Allowable for maintenance and operation and transportation. Increased allotments for these purposes in which the State would share on an 80-20 basis would free local tax money to meet much of the additional cost of this improved program according to the TSTA.

The three remaining bills call for the establishing of a sick leave policy for teachers for five days sick leave each year; to establish regional libraries for films and other audio-visual aids to be financed on a matching basis by the state and participating local districts and to provide an assistant superintendent for districts having 150 teachers or more.

The additional cost of the proposed program would be for the State to pay approximately 60 percent of the cost of the first five bills and the last bill would be financed on a matching basis. The total cost per year of the program would be approximately \$81 million.

# TEXAS FARMER Do YOU Want UNIONIZED FARM LABOR???

- The real issue in the present political campaign is whether we want Reuther and George Meany calling the shots if a Democrat is elected president.
- THE ONCE PROUD DEMOCRATIC PARTY HAS BEEN TAKEN BY THE LABOR LEADERS.
- This is their privilege, but let us not be fooled by their label.
- Kennedy presents himself without reservation as the total ally strongest force within the Democratic party—organized labor.
- The Union Leaders are tied so closely to the Democratic Party now that the Democratic Candidates are Endorsed Almost Automatically.
- THE FACTORY WORKER'S WAGES RISE FOLLOWING EVERY UNION STRIKE — THE FARMER'S PROFIT MARGIN SHRINKS.
- HOW THEN CAN THE FARMER BE LABOR'S "BUDDY" AT POLLS???

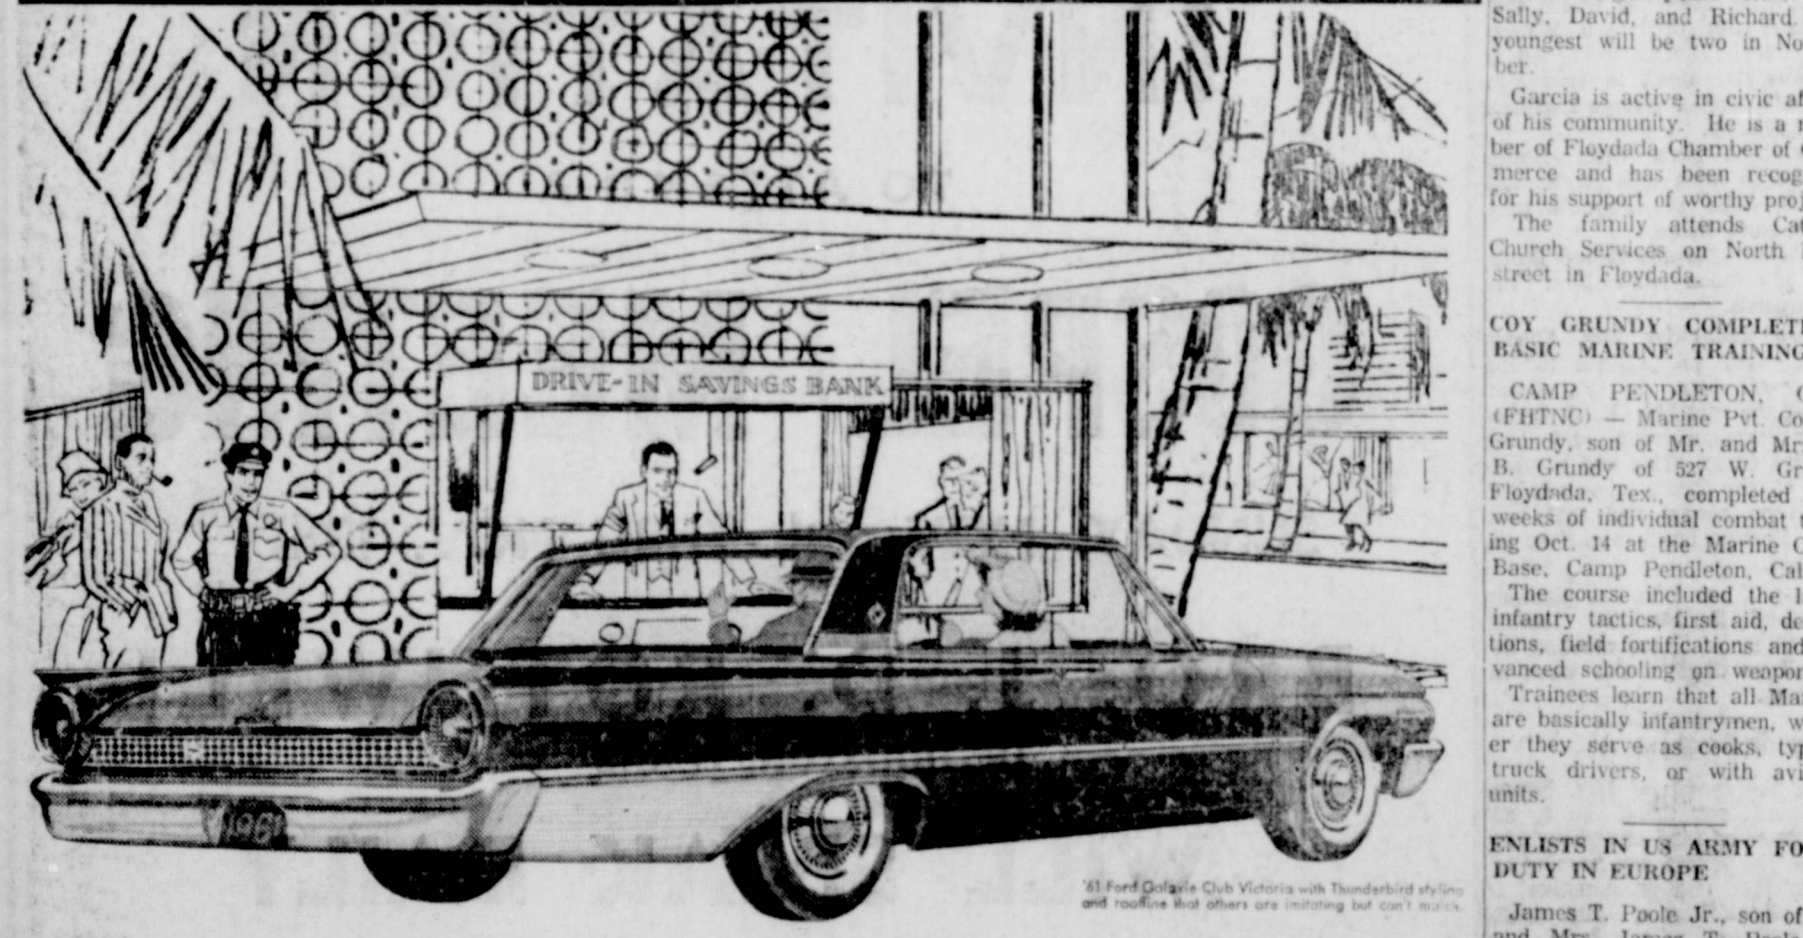

The AFL-CIO has now appropriated \$262,000 for the Agricultural Workers Organizing Committee in the San Joaquin Valley Campaign to organize farm workers. AFL-CIO President George Meany said that considerable progress has been made and that there are presently about 5,000 organizers in that area.

Are you in favor of AFL-CIO organizing your farm workers?

Are you able to pay a minimum wage of \$1.25 per hour to every worker regardless of his capabilities?

Do you agree with AFL-CIO that the "right to work" Law should be repealed?

**The one '61 car built to back up a long-term warranty**

Ford led the way with the one car beautifully built to take care of itself . . . and you

On September 29, Ford Dealers set an industry trend—were first to extend their 1961 car warranty from the conventional 4,000 miles or 3 months to 12,000 miles or one full year, whichever comes first.

Why? Because Ford built the one car to support such confidence. Ford for 1961 is the one car beautifully built to take care of itself!

The '61 Ford was designed and built to the more exacting standards necessary to offer an extended warranty. Ask to see this warranty at your dealer's.

It is significant that Ford has so many take-care-of-itself features not found in other cars, regardless of price. These new Ford features are a triumph of exhaustive research, fine engineering, and quality construction that give you the most reliable Ford ever built. Drive a '61 Ford soon.

**HERE'S HOW THE '61 FORD TAKES CARE OF ITSELF**

Lubricates itself—You'll normally go 30,000 miles between chassis lubrications. Then a quick, inexpensive Ford Dealer "lube job" (which costs about \$1.00\*) will get you set for another 30,000 miles.

Cleans its own oil—You'll go 4,000 miles between oil changes with Ford's Full-Flow oil filter.

Adjusts its own brakes—New Truck Size brakes adjust themselves automatically for the life of the lining.

Guards its own muffler—Ford mufflers are double-wrapped and aluminum—normally will last three times as long as ordinary mufflers.

Protects its own body—All vital underbody parts are specially processed to resist rust and corrosion, even to galvanizing the body panels beneath the doors.

Takes care of its own finish—New Diamond Lustre Finish never needs wax.
