Nixon Carries Floyd County By 133 Votes

Floyd County went Republican again in the general election of Tuesday, but by a slimmer margin than was recorded in 1956. Complete but unofficial count announced by the election bureau gave Nixon 1,389 votes, Kennedy 1,447, a majority of 133 for Nixon. And the state definitely had swung back into the Democratic column, also, based on the vote count that was incomplete but conclusive early Wednesday morning. In 1956 Texas gave Eisenhower a 220,661 majority, and the county went Republican 1,767 to 1,443, a majority of 323 votes. In the general election Tuesday the vote was considerably higher than the primary votes in May and June, when interest was apathetic. But at that time the total vote this year at an unofficial total of 2,164 was less than the vote in 1956 when the total vote was 3,212, according to the Texas Almanac.

THE DEMOCRATIC TEAM. John F. Kennedy and Lyndon B. Johnson were elected president and vice president of the nation Tuesday in the closest popular vote since 1912. Election reporters did not declare the democrats definitely the winners until after 6 o'clock Wednesday morning.

Closest Race Makes Record In Total Vote

John F. Kennedy of Massachusetts and Lyndon B. Johnson of Texas will be the next president and vice president of the United States, unofficial and incomplete but decisive returns from the nation's vote early Wednesday morning indicated. The Massachusetts and Texas senatorial team are expected to have a final popular vote of about 50.2 per cent of the nation's ballots to a probable 49.8 per cent for their Republican opponents, Vice President Richard F. Nixon and Ambassador Henry Cabot Lodge. The race may go down in history as the closest in a half century or more. More than 60 million votes were cast. Early returns began to favor the Democratic team and early forecasts gave them an easy victory, but later returns began to cut their lead as voters from the mid-west and western states began to appear on bulletin boards. The farm belt vote went to Nixon, whereas early returns had indicated the Democrats would carry the heavily populated states in mid-America. It was not until after 6 o'clock Wednesday central standard time that there seemed to be no doubt left that Kennedy-Johnson would have more than 300 electoral votes and win the prized office.

Whirlwinds and Olton Clash for Title Friday

Floydada's homecoming ball game with Olton has turned out to be the blue chip game of district 2AA for the 1960 season. The Whirlwinds and Mustangs will line up for the opening kickoff on Wester field at 2:30 p. m. but pre-game activities will start a half hour sooner at 2:00 o'clock. In addition to the homecoming festivities and the all-important district championship, the Whirlwind team will be honoring their dads at the game and all Whirlwind fathers will be seated on the sidelines wearing the game number of their sons on the field. Immediately preceding the game there will be a ceremony for the homecoming crowd and the crowning of the homecoming queen. The school bands of Floydada and Olton will perform for the fans at either the pre-game ceremony or at the half or perhaps on both occasions. Capacity Crowd Expected Attendance at the big game should tax the capacity of Wester field if the weatherman is kind. A number of out-of-town exes are due to be home for the contest. Olton will have a big following for their team and the game being in the day time will draw fans from a number of neighboring towns whose teams will be playing ball that night. Winner of the Floydada-Olton game will not only get the 2AA championship, but also the honor of carrying the district colors into the bi-district game against Dimmitt. The visiting Olton Mustangs are coached this year by Jo J. Bryan who went to Olton from Plainview. The Mustangs were tabbed as district favorites last winter after winning the bi-district crowd over Canyon. They returned practically their entire line-up intact and have made no changes in their starters since the season started in September. They have won nine straight games and have by far the highest scoring offense in the district. The Mustangs headed by big Robert Priest, a 190-pound bull scoring fullback and Randeé Buchanan, a 170-pound speed merchant, have a fearsome foursome in their backfield. The wild horses have run over nine opponents scoring 257 points or some 28 1/2 points per game for an average. Their defense has allowed 113 points or an average of 12 1/2 points per game.

Despite the heavy conservative vote in Texas, the religious issue, and the fight of Senator Johnson's political foes, Texas is back in the Democratic column after having given the Republican ticket a majority in two successive campaigns. It became apparent by 10:30 Tuesday night as a cross section of the state gave the Democrats a majority to the Democratic fold. The state's lone Republican, Bruce Alger, of the Dallas District, was re-elected. In the 19th District George Mahon was returned to his seat in the Congress with only token resistance recorded for his opponent John R. Anderson. The vote in Floyd County was, for Mahon 2,386, for Anderson 419. Price Daniel was re-elected to the governorship of Texas by a heavy vote over Republican Steger. All Amendments Carry All four of the proposed amendments to the state constitution of Texas were given handsome majorities, on the face of unofficial returns. Senator Lyndon B. Johnson is the second Texan to have the honor of being elected to two of the offices at one and the same time. John N. Garner, first running mate of F. D. Roosevelt was elected vice president and congressman from Texas in 1932. Johnson has announced that he will not resign his seat in the senate immediately. Politicos forecast that he will hold the office until near the time for the inauguration and that the governor will appoint a successor to hold office until a special election names a successor. W. B. MITCHELL PASSES Mr. and Mrs. S. J. Handley were in Crosbyton Monday to attend funeral rites of Mr. Handley's brother-in-law, W. B. Mitchell, 78. Rites were conducted in the Primitive Baptist Church in Crosbyton.

Nostalgic Letters Say Some Can't Be At Exes Reunion

Cooperation of the weatherman seems to be all that is needed to make the Floydada homecoming a big success Friday. Ex-student association officials reported more than a week ago that the last big job of invitation letter mailing was complete. Since that time response has been showing up from all over and it now looks like a good time will be had by all. A check with Edward Wester, Ex-Student Association president on Wednesday brought out an interesting sampling of exes mail. With a good chance to win the recognition for coming the longest distance to the celebration will be Ona Bagwell Wade of Eugene, Ore. This news came from Wayland Bagwell of Los Angeles who requested reservations for himself, Mrs. Wade and Mrs. Edith Bagwell Mulvaney of Albuquerque, N. M. The trio wanted reservations for the barbecue and dance and also asked for information about motel accommodations. They are looking forward to seeing many old friends and acquaintances. Another nice letter came from Bertram, Texas, and says in part: "Am quite pleased to learn of the proposed Homecoming Activities for Floydada High School, November 11. This is an event toward which I am looking with much anxiety as I am anticipating my reunion with those who have meant so much to my life in the past." It is signed Thomas S. and Elaine Ballard, class of 1946. Here In Spirit And news comes also that there are those who can't get away and come as they would like to do. From Tulare, California, comes these words: "Really wish I could be at the Floydada High School Homecoming and see old friends. It would especially be nice to be in the Pep Squad again. Bill and I used our class color of the year 1934. This quilt is presently being used on my bed as a spread. I am reminded daily of the many friends Addie and I have in Floydada." Signed L. V. Assiter. The volunteer workers who have put in long hours finding addresses and working over mailing lists feel that a good job has been done in reaching exes. Concern now is that the people who live in Floyd County come out and take a more active part. People who come from as far away as Oregon will expect to see their old friends. Local residents should be there to greet them and see that the trip will not be a disappointment. First Student Homecoming Dance The Floydada High School Homecoming will for the first time include a dance for the student body. A group of interested parents worked with the school to make this possible. (See Home-Coming, Page 6)

Many Votes Voted

One thing that became apparent in Floyd County as vote counters began their jobs Tuesday is that many Floyd County people either do not know how to vote a general election ticket or get in too big a hurry to vote and get back to their jobs. Scores of ballots were not counted because the voters did not clearly indicate their intentions. Complaint of election judges on this score came from most all portions of the county.

Sixty-One New Homes Included In Growth Report for Floydada

Aside from the public money's spent in Floydada in the period of a year from Nov. 1, 1959, to Oct. 31, 1960, firms and individuals have spent \$1,006,000 for homes and commercial ventures, it was revealed here this week. In a brochure prepared by Manager J. W. Reue, of Floydada Chamber of Commerce for publication in West Texas Today, regional magazine, Floydada people are shown to have invested \$712,400 in 61 new homes in the period, and at the same time to have spent \$304,000 for new commercial improvements or additions to already existing plants or buildings. These facts are revealed by the city permit records and by other statistical records. West Texas Today is the publication of West Texas Chamber of Commerce. Its November edition annually recounts the achievements of the communities which make up its membership. In particular it notes the evidences of progress of the area. In the expenditure of public funds directly affecting Floydada the chamber of commerce man's report shows under the head of municipal improvements the expenditure of approximately \$550,000 for street paving, and water and sewer extensions and church plant betterment and upkeep. In Highway improvements which add to the convenience of the public in the immediate area, the highway department, it is noted, has spent \$108,000 on Lakeview Highway, an excellent stretch of 10.3 miles of FM roadway and are embarked on a \$650,000 re-building program on Highways 62 and 70. Only extensive completion of buildings partaking of a public nature was the construction of the new \$50,000 home of the Masonic Lodge. In the period since April 1, 33 water meters have been added to the municipal water system.

Candelabras flanked by palms and white baskets of mums and yellow gladiolus formed the wedding scene for Miss Janice Noland and Rex Lackey Sunday afternoon in the First Methodist Church.

The Rev. Charles Lutrick, pastor, officiated at the double-ring ceremony at 2:30.

The bride is the daughter of Mr. and Mrs. Audie Noland and the bridegroom is the foster son of Mr. and Mrs. E. B. Chesnut, all of Floydada.

Mrs. Bob Copeland was at the organ and played selected wedding preludes including "Indian Love Call". She accompanied Miss Tiny Copeland as she sang, "Because", "I Love You Truly" and the "Lord's Prayer".

The bride, given in marriage by her father, was in a beautiful floor length gown of white, charmingly lace and tulle over ruffles of nylon net and taffeta. Her ensemble was fashioned with a boat neckline edged with appliques of lace and encrusted with iridescent sequins and pearls. Long tapering sleeves caught tightly with tiny covered buttons enhanced the fitted bodice buttoned at the back from the waist. The neckline by matching buttons. The skirt of tulle billowed full to the oval swirl hemline which was edged with lace.

She carried a bridal bouquet of cascading tiny white roses centered by a single white yellow throated orchid, on top of a white ivory bible belonging to the bride's cousin, Mrs. Gordon Hambricht who carried it on her own wedding day.

The bride wore an opal pendant necklace, a gift from the groom, and carried a handkerchief for something old, belonging to her aunt, Mrs. Collins Jordan. Something new was her wedding ensemble, something borrowed was her bible, and something blue was a dainty garter made by another aunt, Mrs. J. O. Warren. A penny bearing the date of her birth and one bearing her wedding date and year was worn in each of the bride's slippers.

For traveling Mrs. Lackey chose a winter white wool dress, mink hat, brown gloves and lizard bag and shoes. She wore the yellow throated orchid from her bridal bouquet.

After a short honeymoon the couple will return to Floydada for a visit with their parents before traveling on to near Jacksonville, N. C., where they will make their home.

At last we've elected a president! Last week we were party members, proudly defending the man of our choice, and threatening to secede if he didn't go in. But that was last week. The party hatchet we've kept handy at all times — just in case someone got too personal about our candidate — can now go back on the shelf. The fight was fun, but it's over and we can relax into being just plain Americans again. Maybe we won't agree with every decision he makes, but would we have with the other one? Anyhow he's got the job, so we can leave the worrying to him from now on and begin to think of other things: Thanksgiving, Christmas, the weather, and what to wear.

When we tune in our favorite radio station, we can be sure it's music we'll hear, not slogans and political harangues. Of course we may get sweet music when we want rock-n-roll; or classical when we want popular. But it'll be a different tune. On television somebody'll be sockin' his hero in the abdomen, or shootin' from the hip, not debating the issues of the day. In the news papers there'll now be room for garden club write-ups and the new paving program.

One great American freedom is the freedom to disagree — and say so. This we've all done, with spirit. But even campaign buttons and campaign issues grow tedious after awhile and we're relieved to put them aside for four more years.

Meantime, as far as the outside world knows, this is our man! Happy landings, Mr. President-to-be! There may be rough weather ahead!

EDITORIAL VIEWS AND COMMENTARY

Veterans' Day, November 11 To Honor All Servicemen . . .

CHANGING OF THE GUARD at the Tomb of the Unknown Soldier, Arlington National Cemetery. The 24-hour vigil at the Tomb, an honored military duty in the Armed Forces, is maintained by U.S. Army's Third Regiment (Old Guard). In 1919 on the anniversary of the end of World War I, Armistice Day, November 11 was proclaimed a national holiday. In 1954 President Eisenhower broadened the concept of the holiday, proclaiming it Veterans' Day—a solemn occasion set aside to honor all servicemen, living as well as dead, and the victories they have won in all our wars.

Widely Divergent Opinions. Regardless of how the election came out Tuesday, as has been seen by the time this paragraph is in print, there are going to be many serious-minded voters greatly disturbed over the outcome. A consoling thought in this connection is afforded by the events of history. At times the country has come out of troubled periods despite the president and the ruling party. Frustration in our global dealings seems to be our major problem at the time. Somehow, some way, we feel, the chips will begin falling our way. If we can keep strong and keep doing what we can with good will the break has to come, at least it has for almost two centuries. We've got to keep the right thought.

City of Floydada is coasting on the application of Pioneer Natural Gas Company for a 10 per cent raise on domestic, or non-commercial gas rates. And for good reason, no doubt. Having no facts, only appearances, on which to act, other than the company's statement, the council has no knowledge of their own on which to base a raise in rates or a refusal to give the increase sought.

Comes As a Surprise It should be stated, to clarify the atmosphere in connection with the raise sought, that the average consumer is surprised that there should be a need for it. Because the situation of the gas company in a widely irrigated section, has given it the opportunity to have as big a "load" in consumption in the summer as in the winter. Selling fuel to irrigation farmers has been a big windfall for Pioneer Natural Gas. This is a fact which the company does not minimize.

The Cost of Natural Gas. One of the items in their costs which the company points out is that the cost of the gas supply at the well head has increased greatly in the past decade. Natural gas has become more sought after than oil.

On the other hand, it is a matter of record that the last raise in gas rates which came our way was ordered by the State Railroad Commission. One wonders why the council is asked to give this raise when they were not consulted when the last raise was made. In ignorance, the question arises what is the

difference in the situations now and then. The gas company have been quite reasonable people in the past. They have made voluntary cuts in rates more than once. But the situation still leaves a question mark. How can you act wisely on a matter where no facts of your own are available on which to act?

Campaign Too Long. One thing that seems to have been learned from the general election campaign is that it outlasted itself for many millions of voters. How many television sets were turned off in the last week before election day can only be guessed. People can only take so much of anything. The country is at the cross roads the candidates told us. We believed and gave attention for weeks and weeks. But repetition became tiresome. A sixty-day campaign might have been better for all concerned. From July to November is a long-long time. The bone-weary candidates must be agreed on this, along with the rest of us.

Keep Them At Home. We hope that better judgment prevails after January 20 than has been evident in the campaign, about sending our Senior Statesmen to Europe and around in an effort to get an understanding with other peoples. It is our sincere belief, and many others must surely feel the same, that we have sent too many across the waters already, to be cursed and spat upon. Some kind of a new approach is needed. Keep these old men at home. Do something else, or even try doing nothing but tending to our own business for a brief period of time. It sometimes helps in human relations just to keep your mouth shut.

The Frost Date. For the record, November 8 arrived before the first real cold or killing frost in this part of the high plains. The Hesperian's truth squad vouchers for this statement. Tomatoes and poke still green in the gardens, and volunteer grain sorghum in the fields growing up around the shocks of bundle feed are ample proof. True some tree leaves got tired of the long wait and fell to the ground to enrich next year's soil, and cotton fields are seared brown. But no real frost or freeze.

Jacobs Rites Held Saturday At Matador

Mrs. Charlie Posey and daughter, Rhonda, were in Matador Saturday afternoon for the rites of William F. Jacobs, who died Friday morning from a heart attack. Mr. Jacobs had suffered from a heart condition for some 10 years. Mrs. Posey is a friend of the family.

Jacobs was owner and operator of the Matador Variety Store, one of the oldest businesses in that city. He was lay leader in the Methodist Church and past president of the official board of the First Methodist Church in Matador. He was a district steward and former superintendent of Sunday School.

Mr. Jacobs was also a member of the Masonic Order in Matador and past Worthy Patron of the Order of Eastern Star. He was a former member of the City Council of Matador and past president of the Lions Club there. His first wife, the former Miss Mattie Mae Ansley died in 1931. His present wife who is among survivors is the former Miss Vivian Estes of Matador.

Also surviving is a daughter in the home; a son of Houston; one sister; one brother and two grandchildren.

Wheat Diseases

Many fields are showing heavy infestation of leaf rust. This disease is caused by a fungus parasite. The disease attacks leaves, producing small, round orange red pustules. This disease can occur any time of the year. Generally, the disease appears in early spring during moderately cool weather and adequate moisture.

We have had a heavy buildup of rust in Floyd County. The rust will continue to cause damage until the temperature gets below 60 degrees F. The rust will be killed during cold weather and becomes dormant below 60 degrees F. However much colder weather will kill the disease.

Severely infested fields of wheat which show many dead leaves may have a high percentage of winter kill due to the weakened condition of the plants.

There is no practical means of controlling rust at the present time except planting tolerant varieties. The only varieties available at the present time are Quannah and Penco. Crockett's susceptible during seedling stage but develops resistance from the root stage to maturity.

Cotton

The condition that the cotton reaches the gin largely determines the final grade of the lint in the bale. We should try to handle the cotton so that it reaches the gin as dry, loose and clean as possible.

In most cases harvest should be delayed until 8:00 to 9:00 a.m. in the morning so as to have vest as dry as possible for good ginning.

The cotton should not be tramped because this makes it impossible for the gins to remove the leaf trash from the lint.

Harvest cotton dry, keep it loose for best grades and highest prices for the lint cotton.

HERE! EASIER GOING FOR THE DRIVER THE LOAD, LONGER LIFE FOR THE TRUCK

'61 TORSION-SPRING CHEVROLET

If you don't think scrapping the front axle has made a world of difference haven't driven a Chevy in a while. A few minutes behind the wheel and you'll feel why drivers are happier and breakable loads are better protected. Biggest advantage of all, you'll realize, is that the truck itself (sheet metal, chassis components, everything) takes less abuse. With independent front suspension soaking up road shock and vibration, the truck lasts longer, goes thousands of miles before trade-in time. Add that to what everybody's known about Chevy dependability and you find yourself looking at the soundest truck investment you could put your business on.

and look! NEW REAR-ENGINE CORVAIR

A panel and two pickups that put a thrifty air-cooled engine in the rear, the up front and as much as 1,600 pounds of load space in between! That's capacity than a conventional half-tonner. Yet these Corvaire 95's are nearly feet shorter from bumper to bumper. Highly maneuverable. Built to last bound to save on a busy schedule!

FOR IRRIGATION EFFICIENCY. One of the two land leveling machines owned by the Floyd County Soil Conservation District installing a conservation irrigation system on the K. E. Probaseo farm 3 miles north of Barwise. (USDA-SCS photo by J. J. McEntire).

Land Leveling For Irrigation Is Important

As water conservation becomes more important, more farmers are leveling their land for irrigation efficiency. To have irrigation efficiency, water must be applied uniformly in the correct amount to apply all the moisture the crop requires. This water must be applied when the particular crop being grown requires it with no erosion or runoff.

With these goals in mind, level or near level irrigation is the first requirement. To level land for irrigation, any outside water coming onto the area to be leveled must be controlled. This may mean a diversion terrace and waterway in some instances.

Most of the soil in Floyd County will average absorbing about 1-4 to 1/2 inch of water per hour. When high intensity rains such as fell in some parts of Floyd County during July and again the last of October is received a large part of this rainfall is lost to runoff. By leveling, maximum use is made of rainfall by slowing runoff of water and distributing it evenly over the field. This helps to conserve irrigation water by allowing more rainfall to be taken up by the soil.

The kind of leveling to be done on a piece of land will depend on the slope of the field. On flatter land as much as a whole field may be leveled in one block while on the more sloping land what is commonly known as bench leveling may be required. This system of fitting the leveling to the slope of the land so that complete conservation irrigation system may be installed enables the farmer to make maximum use of rainfall and to irrigate uniformly without erosion or waste of irrigation water.

The Floyd County Soil Conservation District urges all farmers to help conserve our soil and water resources. Over 100 acres of land leveling has been completed in the district during the last year. Those who need technical assistance in planning their

SOUTH PLAINS, Nov. 7 — With a cold wind whistling around us this Monday, it reminds us that snow may be just around the corner. Too much cotton and maize still lie in fields for us to want the rain and bad weather to materialize.

One hundred four were present at Baptist Church morning services Sunday with about 50 there at night. Mr. and Mrs. Johnny Wilson and son of Floydada were out for the morning services, and evening visitors included Rev. and Mrs. Freeman Burns and children of Northfield Baptist Church, and Rev. Raymond Hall, a senior at Wayland College in Plainview. Rev. Hall preached the good evening sermon at the church. Bible survey members will meet at the church this Monday night, instead of Tuesday, as that is Election Day. Wednesday night there will be a business meeting after prayer service, and all should plan to attend.

Polis will be open here at the schoolhouse, Tuesday, from eight to seven, for the voting of our community. Bryan Karr, Mrs. L. T. Wood, Arby Mulder and Mrs. Fred Fortenberry will preside at the polls.

The annual recognition banquet for 4-H club members, parents and leaders will be held this Saturday, Nov. 12, at seven p. m. in Lockney, at the High School Cafeteria. Many members with their parents plan to go from here. Sue Wilson and Nathan Mulder were on the planning committee and are helping with decorations for the event. The Harmony Home Demonstration Club will serve the 4-H banquet this year. Mr. and Mrs. B. H. Adams will leave Tuesday for Eldorado, Okla., where they will attend funeral services for her aunt, Mrs. Julia Baker, nearly 87, of Eldorado, who passed away from a heart attack Sunday. Services will be held at the Eldorado Baptist Church Tuesday afternoon at 2:30. We extend our sympathy to them in their bereavement.

We also extend our sympathy to Mr. and Mrs. Sylvain Kinnibrugh and girls at the news of death of his cousins, Jimmie and Clyde Couch of Vera, who were killed instantly Saturday night near Seymour when their car and a truck loaded with 360 sheep collided. 250 of the sheep were killed, as were the two young men in the car, in the terrible accident.

Mr. and Mrs. Hewitt Simmons and Ronnie of Truscott came Sunday night to spend the night with Mr. and Mrs. Sylvain Kinnibrugh and girls. They all left together Monday morning for Truscott and Vera where they would attend the funeral services for Sylvain's cousins, Jimmie and Clyde Couch.

Alton Higginbotham was home Sunday from WTSC at Canyon for the wedding of Miss Janice Noland and Mr. Rex Lackey which was held Sunday afternoon at 2:30 in the First Methodist Church at Floydada. Alton was a groomsmen in the wedding party. Many from our community attended the lovely wedding.

E. Green, Mrs. Grady Evans, Mrs. Ben Richardson, Mrs. Rosi Cash, Mrs. Velma Smith, Mrs. Madeline Fewell and Mrs. Maxine Allison.

An easy confection the children enjoy may be made as follows: 2 1/2 cup karo syrup, 1 cup brown sugar, 1 cup peanut butter, 1 box of Cocoa Krispies. Cook over moderate heat — the karo and brown sugar, until it boils.

Remove from heat and stir in the peanut butter and cocoa krispies. Press into a buttered pan or dish and cut into squares when it is cool. When considering gifts, be sure to give yourself a gift that is appropriate to all seasons — the gift of some extra time. You can do this by making the most efficient use possible of your electricity and your electrical appliances.

REMEMBER: Electricity is your best and cheapest hired hand! Something to Think About — Josh Billings once said "Tight shoes are the greatest blessing on earth. They make you forget all your other troubles."

Then And Now Traditions At FHS Compared

Seniors in the 40's and 50's usually went to Roaring Springs for a picnic.

Bonfires were held prior to each football game in the 40's and early 50's. The students and band would march to town usually to a vacant lot for a big bonfire.

It is a tradition to fly a white Victory Flag underneath "Old Glory" after every Whirlwind victory.

Seniors of 1946 had the first "Kid Day."

In 1930's a float representing the school and floats for each class promoted school spirit. The pep squad would march behind the parade in the boiling hot sun and yet manage to keep cool enough to pep up the rest of the paraders. Each organization was depicted on the floats.

Senior class members' pictures were placed on the walls in groups. This was stopped in 1957. Seniors used to graduate in black gowns. Today they graduate in green caps and gowns.

Today students have 25 minutes for lunch.

In the 1940's students planned assemblies. Southern Assemblies were unheard of.

Boys wore suits and ties to school in the 20's and 30's. Khaki pants were more popular than levis in the early 40's.

EDITORIAL

THE OLD VERSUS THE NEW

(Guest Editorial)

Home Sweet Homecoming! Yes, Homecoming is sweet. School days and the old school are precious to all exes. At the time we are going to school, we cannot really appreciate or revere them. We just accept them as necessary evils in our lives, and we do not really take advantage of all the many opportunities or offerings of courses, activities, teachers, fun, and fellowship afforded by our school.

We graduated with a sigh of relief—of freedom and emancipation. Then, when September rolls around each year, we realize that we have closed the doors on a very happy, carefree period of our lives that we can never reopen or relive.

Homecoming is a day of football, pep rallies, coffees, dances, class reunions, reminiscences of parties, songs, teachers, fun, senior trips, graduation, classmates—and a chance to examine all the bald spots, lines, and wrinkles.

Homecoming affords a temporary escape into days gone by—when the exes were together as classmates. They know they cannot go back because they now live in a different world, having grown up and gone their separate ways. All they have left are the fond memories.

They see the new, young, happy faces of students in a new environment and new teachers at the desks of most of their instructors, many of whom they can no longer see, but only wish they could. Only a few have remained through the years to welcome their return.

The old Floydada High School still stands in all its majestic and grandeur after 37 years of impressionable and indelible memories recorded. There former students see their class pictures still hanging on the walls; the principal's office recalling memories, pleasant and unpleasant, of excused absences, tardy slips, demerits, reprimands, and awards; the same auditorium echoing "Old Black Joe," campaign speeches, pep rallies, one-act plays, high school follies, and devotional moments in message and song; the same classrooms recalling various types of teachers, easy courses, difficult tests, oral reports, spelling matches, experiments, theorems to be proved, themes to be written, books to be balanced, stitches to be taken out, cooking failures, etc.; and the football field reminiscent of victories and defeats, pep squad and band performances, favored coaches and work-outs. Such memories as these are revived by Homecoming.

A new Floydada High School makes them realize that time changes things—and for the better, but they realize too that the old building and all it represents are an intricate part of their lives. As they stand and sing the Alma Mater—"Hail, Floydada High School, hats off to you. Ever you'll find us loyal and true. Firm and undaunted—always we'll be. Hail to the school we love, here's a toast to thee!"—they have more pride and feeling behind their words. They are proud of FHS and all it means to them.

We underclassmen may not really appreciate Homecoming, but we shall try our best to make you exes feel welcome. We may not know you by name, but we can tell by the gleam in your eyes that Floydada High School was once YOURS!

We know this Homecoming Day is YOUR day. So may it be something special and may it be sweet—until we meet again in 1964!

—Welcome Exes!

SUPERINTENDENT EXTENDS WELCOME TO EX-STUDENTS

(Below is an official letter of welcome to all former students of Floydada Schools from the administration.)

TO ALL EX STUDENTS:
It is a privilege to welcome you to the Homecoming activities. During the history of the Floydada Public Schools, there have been thousands of you to complete the requirements for a high school diploma and thousands of others have attended the Floydada Public Schools for part of your education.

We appreciate your achievements and the various careers in which you may be engaged. Each of you have individual personalities, desires, and probably are different in many other characteristics. However, there is one thing which I am sure is mutual with all of you and that is your loyalty, devotion, and admiration for the Floydada Public Schools.

We hope that you look back to your school days with pleasure, and the Homecoming activities will recall happy memories.

First Recent Home-Coming Held In 1954

The first Homecoming for FHS in about nine years was held Oct. 8, 1954. Organizational meetings were held mostly in different homes and the former high school.

The Floydada Whirlwinds played the Abernathy Antelopes.

Nominees for Homecoming Queen were Betty Blum, Christine Brints, Darlene Bryant, and Gerry Graves. Betty Blum was chosen for the honor.

The second Homecoming on Oct. 14, 1955, was attended by 115 exes. Thirty attended the athletic meeting, 25 the ex-cheerleaders, 11 the ex-annual and ex-newspaper, and 12 the Thespians.

Twenty-five exes met in the auditorium for the purpose of organizing an ex-student association. Mrs. Polly Cardinal was voted chairman to get it started.

Floydada played Slaton. Gayle Clark was Homecoming Queen. Nominees were Doris Campbell, Joyce Hammonds, and Fontaine Fowler.

The third annual Homecoming was attended by approximately 500 ex-FHS students on Nov. 16, 1956. Registration began at 9:30 in Graves Gymnasium, where coffee and doughnuts were served. A pep rally was held at 11:30.

About 2,500 attended the Spur Floydada game. Class reunions were held in the present Junior High Building after the football game. At the barbecue on Western Field were 447 exes.

Homecoming Queen was Cheryl Crawford. Her attendants were Naomi Kiker, Sonja Wilson, and D'Lene Witkowski.

The Homecoming dance was held at the VFW Hall where an ex, Orby McCleskey and his band played.

It was decided at the 1956 Homecoming to have the reunion every four years. This year's promises to be the biggest so far.

MUG SHOTS ARRIVE

Remarks such as, "He thinks he's Perry Como," could be heard around FHS Oct. 31 when senior pictures were distributed.

These pictures were taken on registration day by Marquise Studio of Enid, Oklahoma. Fifty-five seniors took their pictures.

111 Graduated in 1941. The senior class of 1941 holds the record for the largest senior class in the history of FHS.

ONE OF THESE FIVE lovely ladies will reign as 1960 Homecoming Queen tomorrow afternoon when she is crowned at pre-game activities. Her majesty's court will be made up of four princesses. Nominees vying for the crown are (right to left, front row) Glenda Morgan, Lois Ann Glover, Sara Holmes (right to left, back row). Linda Lutrick (Runner-up) Mary Grace Dunn, Linda Roe.

CHAMPIONSHIP AT STAKE 'Winds Ropes & Branding Irons Are Poised For Mustangs Friday

Olton's Mustangs will be stampeding into the fair City of Floydada with high hopes of trouncing the Floydada Whirlwinds in their own corral, Western Field, before one of the largest Homecoming crowds in history tomorrow at 2:30 p. m.

The big, crucial duel will be the big game of the year for both elevens as it will decide the District 2-AA Championship. Both teams have perfect records in season play.

Coming out of Shoot No. 1 will be the Mustangs with Coach Walter Bryan wearing the spurs. His team has twelve returning lettermen from last year.

Quarterback Johnny Schenck will be pulling the reigns. Other returning starters are halfback Randy Bucheneau with 90 points already stacked up for his team, and fullback Robert Priest, who has gathered 195 points.

These Mustangs have a defense that is solid as the "Rock of Gibraltar" to go along with their terrific offense. Men like Kenneth Hopper, Bob Brown, and Eddie Loveless hooked to the double tree help make it so.

Coach Charles Tyer astraddled the mighty Whirlwinds. Calling the plays will be quarterback Rodney Teague. Fullback Van Stovall will be the quirt of the Whirlwind backfield.

The Winds have a "dandy" defensive calling card also. Men like Don Davis, Ray Walker, Joe Dunn, and Eddie Parks are the war horses for Floydada.

Comparing both teams by previous games of the season, Olton leads with 257 points to Floydada's 179, but Floydada has allowed only 42, whereas, Olton has allowed 103.

The Mustangs also have two scorers that rank over Floydada's leading, Teague, who has scored 60 points.

This game should be one of the best played by either team all year. Since Olton is ranked over the Winds, and Floydada being underdogs before a Homecoming crowd, it will make the clash a true fight to the finish.

The victor will enter the state playoffs when it meets the Dimmitt Bobcats of District 1-AA for the Bi-District Championship.

Home-making of reservation natives in Southern Rhodesia was Mrs. Ewing's subject.

The African woman does all the work while her husband hunts or sits in the shade. Since the African hut has no furniture house cleaning is a simple matter. Native women do not have as many complicated tasks as do American women, but they must work much harder," said Mrs. Ewing.

Allen Takes Citizen Of Month Honor

Ted Allen, 5 feet 7 inches, 147 lb., senior, has been elected Citizen of the Month for October.

Others nominated for Citizen of the Month were Charles Christian, Richard Marler, Janet Borna, Helen Foster, Eddie Parks, Eileen Thrasher, Glenda Morgan, Lana Davis, James McKinney, Joe Lee Dunn, Keith Thomas, Nathan Noidler, Jay Holmes, and David Barnhart. There was a run-off between Lana Davis and Ted Allen.

Ted is on the starting line-up of the Whirlwind football team. A finger broken in the Floydada-Abernathy game may prevent Ted from participating any more this season.

When Ted was a sophomore, he won fifth at the state track meet. Among his likes are: food, steak, car, Pontiac; color, blue; song, "Devil or Angel;" movie, "The Ten Commandments;" subject, chemistry.

Ted's ideal person in FHS is Eddie Parks. Ted's dislike is people who think they know it all. His favorite pastime is "goofin' off."

Ted plans to enter Baylor after graduation, and major in P. E.; minor in science.

Baby Samples Rat Poison

A 20-month-old baby, Robin Schlittler, daughter of Mr. and Mrs. John Schlittler, seems none the worse after sampling some rat poison at the family home Tuesday morning.

The baby was taken to Peoples Hospital and had her stomach pumped out and was released shortly before noon the same day. The Schlittler family had been gone from home for several days and upon returning found their residence infested with mice.

Mrs. Schlittler had placed the containers of poison out of reach of the baby, and had put the remainder under the cabinet. Unknown to her Robin got the poison out from under the cabinet and was seated in the rocker in the living room partaking of the powder when her mother came on the scene.

Robin is doing nicely but is being kept under close observation by her family to make sure of no complications.

Floydada Merchants At Their Jobs

PICTURED ABOVE is Gerald Hall who operates the produce department at the Piggly Wiggly store in Floydada. Hall takes pride in his fresh fruits and vegetables which are delivered to him several times weekly. The department usually has in stock as many as 75 different types of fruits and vegetables for the Piggly Wiggly shopper.

Gerald Hall considers himself a Floyd County native though he was born at White Flat in Motley County in 1933. The Halls now live at 419 West Jackson Street in Floydada.

Other members of the family are wife Freda (former Freida Jarrett) and daughter Leslie, age four.

Gerald has been with Piggly Wiggly since he was discharged from the US Navy in 1958. While in service he was stationed on both the east and west coasts.

His favorite sport is football and he is a faithful Whirlwind fan and a member of the quarter-back club.

The Halls attend the Calvary Baptist Church in Floydada. As head of the produce department at Piggly Wiggly Gerald services one of the busiest parts of the big store. He has one part time helper, Albert Hernandez.

Fresh fruits and vegetables are a big part of the Piggly Wiggly operation, and a part which Hall is justly proud of. Some items, of course, are seasonal and not available in every month but Gerald figures that 75 different offerings are about average for his department.

Food shoppers will usually find Hall busy stocking and keeping his merchandise in an attractive display. He advises those who do not readily see what they are looking for to ask and he will be glad to assist them in making their selections.

Chessnuts Host Wedding Party At Rehearsal Dinner
Mr. and Mrs. E. B. Chesnut were hosts for a rehearsal dinner last Saturday evening honoring their foster son, Rex Lackey and his bride-elect Miss Janice Noland.

Boyce House Says I Give You Texas

What was the scene which the waiting audience beheld? The three stories of the courthouse had been leveled. All that remained besides the basement, was the floor of the first story - and a jagged section of wall, some eight feet high, immediately above the cornerstone. By this time many persons were standing on the floor of the old structure; others were perched on a mound of debris in the yard but most were on the ground. Heads were thrust from the upper windows of the buildings

overlooking the square. Fully 1,500 were present and eyes were directed from all sides, from above and from below at the cornerstone as the drama began. A cable was looped about the wall and the end was attached to a truck which began to tug. But there were warning shouts; the wall and the cornerstone were so firmly attached that both threatened to topple. So a worker perforated just above the cornerstone, then the truck began to pull again but, once more, both wall and cornerstone were in danger of falling. A second time the worker plied the pick and when the line again tightened, the wall fell, leaving the cornerstone in place.

All of this I saw as I stood nervously in the fringe of the crowd. Not wishing to be a target of the jibes and perhaps anger when nothing was found, I walked across the street and, entering the bank building, climbed the steps to the second floor. Just as I entered the office of a friend, there was a roar from outside and a man in the window shouted, "They've found the frog!" I rushed across the room and just then there came a loud roar and the watcher exclaimed, "And the d - thing's alive!"

When the wall had been torn down, a worker, with a pick, broke a layer of cement - an important bit of circumstantial evidence. With the layer of cement removed a metal covering was revealed. The lid was lifted. The Rev. F. E. Singleton, pastor of the Methodist Church, who had been standing beside the cornerstone, peered in, then pointed and said, "There's the frog!" Gene Day, an oil man, took out the creature, flat and dust-covered, and handed the apparently lifeless frog to the minister who in turn gave it to Judge Pritchard. Grasping the animal by a hind leg, the official held it high so that all could see and there was a cheer.

Then Pritchard saw the other hind leg twitch and the creature's body began to swell as he obtained his first breath of air in thirty-one years! That was when the greater roar arose. Excitement gripped the crowd and those in the back pressed forward so there was danger that the frog would be knocked to the ground and trampled. County Motorcycle Officer Bob Hammett took the creature, forced his way through the crowd, got on his motorcycle and rode to the edge of town to allow the excitement to subside.

The news flashed around the world. Some scientists scoffed but Dr. William T. Hornaday, former director of the New York Zoological Gardens, who had explored many parts of the world, including the Southwest, declared the feat was quite possible. Many West Texans came forward with incidents in their own knowledge of horned frogs surviving long periods without food or water. Arthur Brisbane commented in

Whirlwinds Roll Over Morton Indians By 34-0 Score

The Floydada Whirlwinds scored the first time they had the ball and then rolled on to down the Morton Indians 34 - 0 for their ninth victory of the season. The win left Floydada tied with Olton for the district lead and set a perfect stage for the blue chip game here with the Mustangs November 11 which is also Floydada homecoming day.

The Winds showed a versatile attack with seven backs racking up good yardage as they hit for 332 yards rushing and an additional 100 passing, completing 5 of 11 tries.

The green and white made seven penetrations of the Morton 20 yard line and crashed in on five of these. Floydada made 21 first downs and was penalized 85 yards.

Morton made a net of 64 yards rushing, completed four of 13 passes for 22 yards and earned six first downs. The Indians were penalized 5 yards and did not penetrate the Whirlwind 20 in the game.

In the rushing department Marler made 79 yards net on eight carries. Teague 76 on 11, Stovall 63 on 13, Walker 47 on seven, Christian 46 on eight, Lindsey 30 on 4, and Hernandez 7 on 1.

How The Winds Scored
The scoring went to Marler who made the first TD from 27 yards out with Teague kicking the conversion.

Teague passed to Marler for 28 yards and the second score and Christian ran the conversion. Teague passed to Christian for 21 yards and a tally and the point try was missed.

In the final stanza Teague ran for 11 yards and a score they took the point after.

Albert Hernandez got the final marker on a seven yard punt around his right end. The pass for the points after failed.

In the first scoring drive the big gainers were a Marler to Christian pass for 37 yards and Marler's 23 yard TD gallop. Teague, Stovall, and Christian also added valuable yardage and all received good blocking from the Floydada line.

Floydada then stopped Morton allowing a total of four yards in as many tries and the Indians had to punt. This time a rip snorting green and white offense. Teague, Christian, Walker and Stovall with the latter getting the longest gainers. Stovall carried into the end zone but the officials ruled he had fumbled before crossing the line and the score did not count. Instead Morton got the ball on the 20, after recovering the fumble for a touchback.

Second Quarter Scoring
The first of two second quarter scores came following an 85 yard drive with Marler, Stovall, and Teague doing most of the carrying chores then the pass Teague to Marler covered the final 23 yards. Charles Christian skirted his right end for the conversion.

In the second period good defensive work was led by Parks, Stovall and Walker turned in fine tackles to stop the Morton team and then Melvin Green knifed through to smear Middleton for a 12-yard loss and the Indians had to punt. Teague took the kick at midfield and returned it to the 25 where he was downed.

The Indians rose up to stop the Winds however and took over the ball on their own 20.

This time it was defense again and Parks hit the Morton ball carrier for a 12-yard loss and the Indians decided on a quick kick. Melvin Green had other ideas about the play and blocked the punt, the ball rolling out on the Morton 21. From here Teague passed to Christian for the score and the try at kicking failed to get the conversion.

In the third quarter the Morton efforts were checked by stout defensive work by Floydada. Don Davis, Don Switzer, Frank Barrow, Eddie Parks, Joe Lee Dunn, and Van Stovall turned in good interception.

Floydada's offensive efforts were halted by two pass interceptions by Morton's Steve Middleton who left the green and white scoreless in the third quarter.

Penalties made the going rough for the locals but they hit the score hard again after recovering an Indian fumble in mid-field and driving in for the marker.

It took some 80 yards of running, however, as two 15-yard holding penalties added to the drive distance. Teague got the last 11 yards in one hunk and also kicked the conversion to make the score 28 - 0.

Morton then took to the air and it was Richard Marler who broke up one long pass then intercepted another to stop the Indians. Floydada called on their reserve offense and it was Lindsey, and Walker who carried in on the last scoring drive before

DAVID HUTCHINS

naming Hernandez to do the honors on the last seven yards. The scoring was over at 34 - 0. Morton's final effort to break the goose egg on the score board met with disaster as Larry Orman intercepted a pass to give Floydada possession as the final whistle sounded.

We refer our readers to a communication in this week's paper, on the subject of a Rail-Road connection between Hempstead and Columbus. It seems to us that this is an important route and we can not see why it should not be built. Houston is contending for the honor as well as pret of being the R. R. center of the state. Hempstead already has three rail roads centering there and when this one is built, it will make the fourth. We do not believe that any other work could be started that would more advance the interest and prosperity of Hempstead and Austin county generally than the building of this road. The country over which it would pass is rich and well settled, and there would be very little grading to be done. It should

It's really a "new voice" for people who are unable to speak. When held against the neck, it looks something like a flashlight and produces normal vocal chords to produce speech on a non-profit basis.

Home Making Hints

How Much Turkey?
Homemakers shopping for turkey often ask how much to buy. I hope these suggestions will help you if this is your problem. Small turkeys have a larger percentage of bone than do the larger birds. Allow 3-4 to 1 pound of ready-to-cook turkey for each serving - if the bird weighs less than 12 pounds. Allow 1/2 to 3/4 pound per serving if the bird weighs 12 pounds or more.

If you are expecting your family and guests to have big appetites, you may need to allow more than one serving per person. Too, you may want planned left-overs to take care of some extra holiday meals. If so, make allowances as you shop. For more information on buying, preparing and cooking turkey, come by the Extension office or call and ask for a free copy of "Let's Eat Turkey."
