Packages To Hospitals. Late November packages for patients in the State hospitals are being encouraged by the authorities. These packages give meaning to Christmas for the oft-times lonely and neglected ones, who border between mental balance and unbalance. Who For Senator? Despite rumblings from Republican quarters, and demands for recounts in various states of the country, particuarly Illinois and including Texas, the Democratic president and vice-president-elect continue to make plans for taking over as heads of the executive department in January. With the change, which seems to be assumed by all hands, will come the need for electing a new senator in Texas to take the place of Senator Johnson. For this office most every section of the state is going to have a favorite son for the lightning to strike.

Who Is Best Financed? Who is best financed and who gets the breaks in public relations will determine who gets this rich plum in honors, honorarium, and emoluments of office. A special election will have to be followed by a run off under Texas law unless one of the candidates gets a majority of the votes. Who will be able to corral angels enough to provide a million dollar campaign fund? Useless to offer for the office unless the prospect for financial help is good.

We Surely Encourage Not only do we favor the efforts of the Public Housing Authority in Floydada, we strongly urge that its efforts be backed by the people of the community It is true that the upshot of a successful program have the federal government paying a large portion of the bill It is also true that he program smacks a bit of assuming that the community knows better than e individual what the individual eeds.
