

Sherrill Park Play Off Site For District

Floydada's Sherrill Park baseball field has been named as district play-off site for Freshman League teams. The Wylie Oil Co. Cardinals have already sacked up the league crown and they will meet winners of the Matador - Roaring Springs league here on July 31 - August 1 in a best two of three game series. The champion of that league has not as yet been named.

Some make-up games and a few scattering schedule games are still on tap but these will only go to settle league standings below the number one position which has already been definitely established.

All Stars Named

This week league president Claude Weatherbee released the roster of boys chosen to the Freshman League all-star team. The roster includes: Juan Enriquez and Joe Christian of the Martin and Co. team; Howard Bartee, Larry Crawford, Cruz Zavalla and Bobby Gilliland of the Dougherty Grain Co. team; Rodney Bunch and Ricky Fields of the OK Rubber Welder team; Sammy Deleon, Ronnie Hill and Dayne Golightly of the Oden Chevrolet Co. team; Travis Weems of the Lon Davis Grain team; and Larry Hunter and Curtis Jester of the Higginbotham Bartlett team.

The all-stars will play the league winning Wylie Oil team one day next week and will play a home and home series with Spurt before they put away their bats. The league champion Wylie team will be allowed to pick up two boys as additional pitcher-catcher strength for the play-offs and they have chosen Tommy Weatherbee and Terry Amburn to join them in this effort.

Eagles Have Make-up Games
In the junior league the Matador team has won the title but several make up games are still being played to determine second place winner and lower positions. This action should wind up within a week.

The Matador Eagles will also be allowed to pick up a pair of players to strengthen their batteries for the play-offs. Their opponent is expected to be Munday.

Steve Marler Leads Locals At Olympics

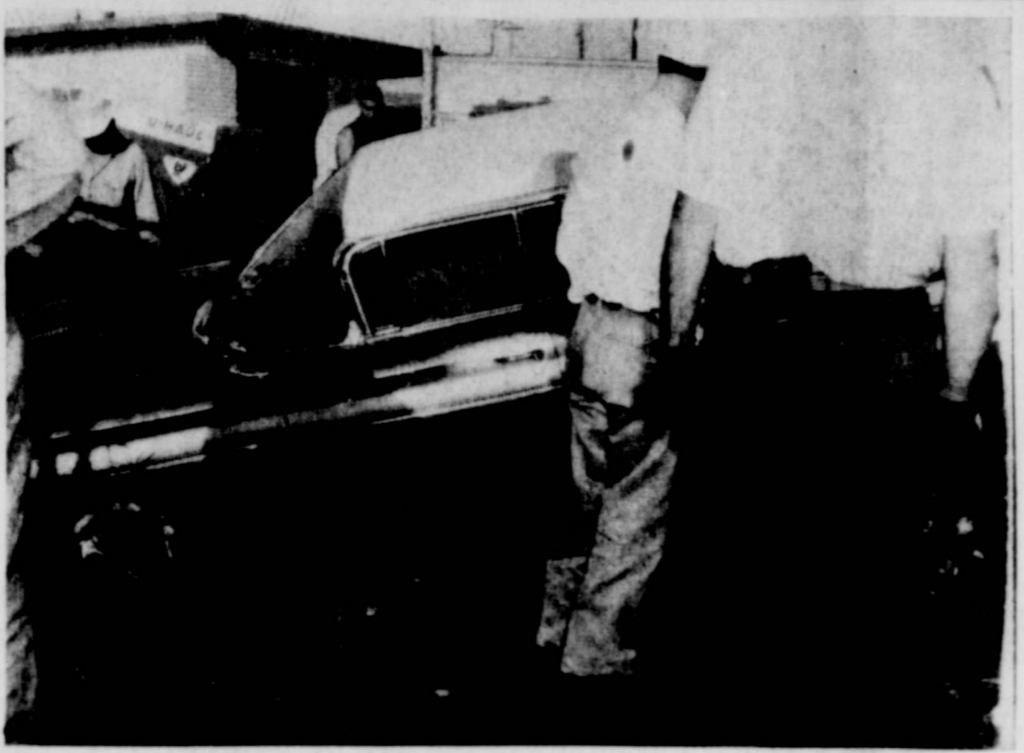

Little Steve Marler, running in the junior division, led Floydada track and field hopefuls as he brought home three places in the meet held Saturday in Lubbock. Steve placed second in the 50 yard dash, third in the 100 yard dash and fifth in the running broad jump.

Joe Christian was the only other double winner as he took fourth in the 50 yard dash and fourth in high jump. Joe competed in the midjet division.

Rodney Teague was the only contestant who placed in the senior division. He came in fourth in the 120 yard high hurdles.

A number of boys and girls from Lockney, Muleshoe and Abilene placed high in the meet. All towns large and small compete in the same class in the junior olympics with age alone being the dividing line between classes.

So far as is known no Floydada girls have as yet shown an interest in the track and field events that are staged each summer to help develop outstanding young athletes.

Stop Arguments, Launch Satellite, AT&T Urges

The Bell System stands ready to foot the bill to launch a communications satellite - and give America another "first" in the space race - if government agencies will give the go-ahead signal, said J. C. Oakley, Southwestern Bell Telephone Company manager here.

Oakley cited a recent statement by Frederick R. Kappel, American Telephone & Telegraph Company president, who said, "We have been ready to go ahead for a long time, and pay our costs as we go. We don't want the taxpayers' money. The first immediate need is a go-ahead to get experimental communications satellites aloft."

At stake for the American people - because of present indecision in Washington - is the possibility of the U. S. falling behind in the space communications field in which America took a clear lead with Project Echo, he said.

The problem of starting the program is being delayed by arguments over who will operate the system, how it will be organized and who will control it, he said.

"Our sole interest in this matter is the earliest practicable establishment of a worldwide commercial satellite system, to supplement existing telephone and telegraph communication services," he added.

Kappel spelled out the Bell System position regarding AT & T's participation. "I'd like to spike the notion that the telephone company is out to dominate this field. Nothing could be further from the truth. We are perfectly content to go along with the regulatory safeguards against favoritism or domination."

"Space communications should be a joint venture involving American international common carriers, under public regulation, and communications agencies abroad. This puts the job right where it belongs - with the common carriers who are responsible to the public for good service," Kappel said.

For many years, the company has spent millions in research and development of communications, including world-wide telephone and television transmission, by communications satellites.

Planning to make the trip from Floydada are Gary Campbell, John Kimble III, Charles Overstreet, Jimmy Tye, Mac Wilson, Ralph Johnston, and Phil Wylie.

Club Picnic Plans Made

Committees for the annual Floydada Country Club picnic were named this week, according to E. A. Williams, secretary of the organization.

Plans call for the affair to start in the early afternoon next Thursday, July 27. There will be bridge, golf putting and driving, swimming, and horse shoe pitching on the entertaining agenda with the evening topped off by a family-style fried chicken supper followed by a dance at 9 o'clock in the club house.

Tickets must be purchased by the 26th for the event. Williams said there would be no entry fee in any one of the contests to be held.

The hour of events and committees are as follows: Bridge, 2 p. m.; Mrs. Keith Burman and Mrs. Glad Lynn Norman. Players are to notify the women by the John Farris; Swimming, 3:30 p. m.; Horse shoe pitching, 4 p. m.; Lee Rushing and Bill McNeill; Driving, 5 p. m.; Doyle Moore; Alva Sparks and Doyle Norris; Picnic lunch, 6:30 p. m.

Ernest Terry of Lubbock will serve as Provisional Scoutmaster during the week. The boys will receive training, instruction, and hope to qualify for Scout Merit Badges in the fields of swimming, life saving, Scout life guard, rowing and canoeing.

For many years, the company has spent millions in research and development of communications, including world-wide telephone and television transmission, by communications satellites.

Richard F. Stovall, home Sunday from the orientation cruise on the Caribbean as a guest of the navy on Carrier Shangri-la, said the seven days spent at sea was a revelation in many ways. It lacked a great deal of being a pleasure cruise, he said. He and other civilians on the cruise were kept alerted to the operation on the maneuvers. They were amazed at such operations as landing planes on the blacked out carrier decks at night.

Three or four other Texans also made the trip. Stovall boarded the Shangri-La at Mayport near Jacksonville, Fla. The big carrier was the flagship of the division.

Local children include Claude Gilbert and Roy Fawver, who have kept a bedside vigil with their elderly father.

Mr. Fawver is steadily growing weaker, according to reports from the daughter this week.

Mrs. George Fawver who has been in failing health for some time has been transferred to Sloan's Convalescent Home in Lubbock at 4510 27th St. She is reported doing fairly well at this time.

Floyd County Women's Home Demonstration Council will meet Friday, July 21, at 2 o'clock p. m., in the Council Room at the Court House.

Mrs. G. W. Smith, chairman, urges attendance of all members.

Jim Bob Rafferty, newspaper composing room whiz, is here for a brief stay with his parents, Mr. and Mrs. H. L. Rafferty, having returned to Texas after a year with the Chicago Sun-Times.

The first of this week Jim Bob and his nephew, Darryll Lindsey, went to Lake Stamford on a fishing jaunt.

Contractor for the new construction is W. B. Crawford Company of Lubbock and completion date is to be in time for maize harvesting this fall.

Jury Upholds Adames In Vahlsing Dispute

ALWAYS GOT A JOB. Ralph E. McConnell is one crop duster who never runs out of a job. In off season for dusting and spraying he builds houses. Here McConnell pauses at his contracting sign at the site of an imposing three bedroom house he has under way on West Missouri St. He started construction months ago, and a spraying season has intervened. He builds until he gets a call when construction is all off until he gets back. When he gets a house built he sells it if a buyer is found. Otherwise he lives in it. (Staff photo-engraving.)

Four Growers Also Seeking Settlement

F. H. Vahlsing, Inc., lost the first round in the dispute with five laborers last weekend over a \$7,000 labor bill growing out of their 1959 onion operations in Floyd County, and this week are faced with four other suits, these filed by onion growers who ask for recovery of \$28,033.90 claimed due them for onions handled for them by Vahlsing.

Gene Belt, Lloyd M. Readhimer, J. D. Billington and C. L. Henderson are the plaintiffs in the new suits filed this week in 110th District Court.

In addition to actual sums claimed due them the new plaintiffs ask for \$5,000 exemplary damages each and a reasonable sum as attorneys fees.

Four Farmers File Suit

The plaintiffs in the suits filed this week live on irrigation farms in the Lockney area. Belt is asking for recovery of \$5,155.00, Billington claims \$8,668.80, Readhimer \$8,280.00 and Henderson \$7,330. All are substantial farmers of long residence in the county.

F. H. Vahlsing, Inc., has offices in Hidalgo County. In their pleadings the farmer plaintiffs make identical claim that defendant company has never given any accounting whatever of the marketing operations.

The suits are based on an oral contract entered into for Vahlsing by C. W. Duncan, then of Lockney, on April 1, 1959. The respective pleadings allege that pursuant to this contract

"Defendant was to furnish onion plants to plaintiff to set out approximately 10 acres of onions on plaintiff's irrigated farm, and whereby plaintiff was to bear the expense of setting such plants, was to cultivate, fertilize and irrigate such onions up to the time same were ready for harvest;

Terms of Agreement
"That defendant would harvest such onions, grade, sack, ship and sell them, deducting 85 cents per sack for such harvesting, grading, sacking, selling and shipping such onions, and that the net proceeds from the sale of such onions, after deducting said 85 cents per sack, were to be divided between plaintiff and defendant with 80 percent of the proceeds to be paid to plaintiff and 20 percent to be retained by defendant."

The defendant's representative also agreed a written contract covering the provisions of the agreement would be furnished by the defendant but same was never done, pleadings allege.

Good Crops Harvested
In each instance, the plaintiffs allege that a "substantial crop" was produced and that when they were ready for harvest the plaintiffs respectively knifed the onions. The defendant then sent crews into the field, hauled the onions off, graded, sacked and shipped them from Lockney.

From that point each of the plaintiffs claim that, except for seeing the onions graded and sacked in defendant's sacks with defendant's label thereon, on its own tickets and invoices, they have no knowledge of the names of buyers and places where the onions were marketed.

The harvesting, grading and sales period occurred in the last 10 days of July and the first 15 days of August, 1959, the plaintiffs allege.

Claim The Onions Spoiled
Vahlsing's pleadings allege, represented that all of the onions harvested on the plaintiffs' respective farms "were spoiled upon arrival at their various destinations and that not one penny was realized from the sale of the plaintiff's onions."

On the contrary, the onion growers allege that the onions were good and marketable and at least \$3 per sack was realized from the sale of such onions.

Pleadings ask that the defendant company be required to produce all of the records concerning the production, sale and shipments of the onions.

The farmers' suits this week were filed by Attorney John B. Stapleton.

In the Adames case the plaintiffs are asking for \$5,000 exemplary damages each and a reasonable sum as attorneys fees.

Multiplicity of Problems Face City During Months of Summer

City of Floydada general fund this \$837.60 was from the 1960 minimum bill. The city has several of these stalled meters.

Ineffective Water Meters
An effort to get more water meters into operating condition is one of the means that will be utilized to cut down operating losses. Sand from the city's supply wells gets into the meters to make a continuing problem for the water department. A stalled water meter doesn't "charge" the customer with anything but the

Unsupervised dumping had resulted in "one of the biggest messes" imaginable.

Janice Miller, senior 4-H club winner of the Floyd County Dress Revue held last week and Linda Abbott, junior winner, will be at Tech next Tuesday where they will compete in their respective divisions at the Annual District Dress Revue to be held on the Texas Tech campus.

Janice will be escorted by Billy Don Colston, of the Dougherty 4-H club.

Burglary Loss Exceeds \$1,000 In Local Store
Dalton's Superette suffered heavy loss Sunday night when the business was broken into and a little over a thousand dollars taken.

J. L. Dalton, owner of the relatively new establishment, said he left the store shortly before 11 o'clock Sunday night and when he opened up Monday morning he discovered the burglary.

Entrance was gained through the back door where the latch had been broken. Missing is \$641 in cash and about \$400 in personal checks, Dalton said.

Sheriff Walter Hollums and City Police Alton May are investigating the case.

Mrs. Tom Smith Injured In Fall

Mrs. Tom Smith is recovering nicely from surgery performed recently to correct a broken limb. Mrs. Smith sustained the break at the family home in Floydada as she was standing on a chair attempting to hang curtains. She fell after losing her balance. The bone was broken just below the hip joint.

With her in Lubbock are her two daughters, Mrs. Harlan Palmer of that city and Mrs. Dale Elsner of Austin. Mrs. Smith is expected to be brought home within the next few days.

NATIONAL FARM SAFETY WEEK JULY 23-29, 1961

Drawn for Texas Farm and Ranch Safety Council by Harold Maples - Courtesy, Ft. Worth Star Telegram

Farm Safety--a Year'Round Job

(Farm Safety Week Guest Editorial) We Americans seem to need an official "week" each year to remind us of things we really should practice every week of every year.

There's nothing wrong with the idea -- the official reminder usually proves helpful--but too often too many people will substitute one week's observance for a year's practice.

National Farm Safety Week, to be celebrated July 23-29 this year, is a perfect example of a "week" that should be considered a continual part of rural life.

Cosponsored on the national level by the National Safety Council and the U. S. Dept. of Agriculture and on the state level by the Texas Farm and Ranch Safety Council, the Texas Farm Bureau and the Extension Service, the 18th annual Farm Safety Week has as its theme, "Safety Is a Family Affair."

Accidents in American farm homes take about 2,700 lives a year, according to the Texas Farm and Ranch Safety Council.

A SORRY MESS REVEALED

Petty pandering may be the answer to the evidence of neglected highways in New Mexico. Confessions, one after another, were blurted out by state employees at an investigation telling of receiving largess from the men whose work they were supposed to be supervising.

HERE IS ANOTHER ANGLE

While the New Mexico revelations in highway inspection peccadilloes is called "sordid" we have a casual acquaintance who says that where the big money is spent is where the big pay off is made.

That, he says, is a part of the cost of doing business in all the states he has ever worked in. It is in the Bureau of Public Roads where the real pay off comes, he said.

The Bureau spends 90 percent of the money and in that vast complex is where the congressional investigating committee ought to be spending its energies.

The trouble with the layman hearing such things is that it leaves a doubt. Then you recall that the Bureau of Public Roads has more than doubled the estimate of the cost of the Interstate

Council, and some 3,400 persons are killed each year doing farm work. This is in addition to the 4,700 farm residents who die on the highways in non-work accidents.

If we think of safe practices as a means of doing things, rather than as a set of do's or don'ts, accident prevention will become a way of life--a way of life that will preserve the lives of farm families.

Let's make every week Farm Safety Week.

Road System since it was started less than eight years ago, that more taxes have been added to exact these billions from the public.

And bearing in mind that the love of money is the root of all evil, one realizes that only strong men could let that much money go through their hands without some of it rubbing off.

Are all the men in the Bureau of Public Roads strong men? This contractor friend says they are not.

Financial conditions vary in different states, but the set-up for highway building and maintenance seems to follow about the same patterns in all states.

THE SITUATION IN TEXAS

In Texas the danger to the highway program is two-fold. With the vigilance being exercised over the appearance of evil in the highway service payola is not one of these.

The dangers lie in over-extending the demand on the funds the department has available to do its work, and the jealous eye with which the gasoline tax money is watched by other departments of the state.

But all indications are that the people of the state are getting their full measure of value on their road contracts.

DRINKING FROM THE OCEAN

Water from the ocean is flowing through the mains at Freeport. A pilot water desalination plant, built there by the federal government in search of practical ways to make use of ocean water, is spewing out good water to drink.

The cost is about twice the going cost of good potable water in the average city. This means it is not an economical operation yet.

But in future time the search now being made for means of changing brine into water suitable for human use may well prove to be a great blessing. The search is being made on a trial and error basis for a real break-through of economical conversion.

It is already evident that not too many years hence water is going to be worth whatever it costs to get.

Caprock Club Women Attend TF Work Shop

Approximately 100 club presidents and program chairmen of the Caprock District, Texas Federation of Women's Clubs, were at the Colonial Ballroom in Pioneer Hotel in Lubbock Thursday for a workshop, theme being, "New Dimensions and Women's Responsibility in a Free Society."

Mrs. A. E. Boyd, Plainview, district president, gave the greeting and made the introduction of the theme. Mrs. T. L. Dunlap, Littlefield, presided at the session.

The morning program consisted of panel discussions on the organization of new clubs. Mrs. Sammy Hale and Mrs. Lane Decker of Floydada, who are director and co-director of Junior Clubs of the district, headed this discussion.

Mrs. Lon V. Smith said the invocation for the district to provide funds to build tennis courts at Gristown, U.S.A. at Whiteface. The home was voted at the district convention as a project to provide recreational facilities.

Attending from Floydada other than Mrs. Decker and Mrs. Hale were Mrs. Jewel Norman and Mrs. George Spears.

The fall board meeting for the Caprock District is to be held in Denver City, the date to be announced later.

Peace Officer Slain Monday At Plainview

Sgt. Virgie Lee Thompson, 34-year-old Plainview policeman, known well in this area by fellow officers, was killed Monday about 4:30 a. m. near the railroad tracks in Plainview and in the vicinity of several Latin American homes.

Held under guard on a murder charge is a wounded laborer, Alfonso Sandoval, 34, who has a previous police record of assault to murder and liquor violations in Plainview.

Newspaper sources said officials related that Thompson was on night duty and had radioed for assistance, saying he was checking a character walking near the tracks.

When two officers arrived at the scene they found Thompson lying on his face, his feet in a puddle of water in the ditch. A few inches away was the policeman's gun and a few feet further was a Llama automatic. All cartridges had been fired from both guns. Thompson had six wounds in his body.

Some two hours after the fatal shooting Sandoval, accompanied by his mother and wife, appeared

at a Plainview Hospital and asked for treatment of his wounds. Sandoval is suffering from a bullet wound in the right side of his back and a shattered rib.

A Plainview lawyer notified officials after a member of Sandoval's family contacted him of the incident.

Questioned at length the Latin American denied the shooting of the patrolman and said he didn't know "Who did it".

Several acquaintances of the victim from this area attended yesterday in the Southside Assembly of God Church in Plainview.

Thompson had been with the Plainview force for five years. He was a veteran of World War II and the Korean War.

Survivors include his widow, an infant daughter, five brothers and six sisters.

Whom Do Farm Programs Help?

(By Jno. C. White, Commissioner of Agriculture)

How is it that the American farmer keeps getting it in the neck repeatedly and increasingly as being a burden on taxpayers, a depressant on the economy, a costly necessity for the nation? It is most likely that those who malign the farmer as being a drain on the county's pocketbook don't realize that it is the public — not the farmer — who would pay most dearly if farm programs should be abolished.

What about surpluses? The fact that surpluses are produced — and that alone — holds retail prices for any foods as low as they are today. The slightest shortage would result in skyrocketing consumer prices.

This is but one instance in which farm programs work primarily for the public. Here are some others:

Water reservoirs and flood control. The city dweller who lives near a river which used to wreak havoc by flooding probably doesn't realize the series of reservoirs which regulate the water in upper reaches of the river were charged to the farmer on whose land they are located. The farmer may get little or no benefit from the reservoirs — but they are charged to the farm program.

School lunches. Every citizen's child who eats at a public school cafeteria is benefited by low-cost meals made up partially from surplus products given to the school and charged to the farm program.

Foreign aid and military assistance. Billions of dollars worth of foreign aid programs and military assistance for other countries are paid for with agricultural commodities, the cost of which is charged to farm programs.

Merchant Marine service. Fifty million dollars a year accrues to the Merchant Marine for transporting farm commodities to other countries.

The armed forces. How many people realize that part of the cost of the milk and dairy products used by our armed forces is charged against the farm program?

Forests. A billion forest trees a year are being planted on eroded and tired land. The farmer who plants those trees will not likely ever harvest any of them. The cost of all public reforestation is charged against agricultural appropriations.

Consumer services. Research on preparation and handling of food for the housewife's benefit is billed to the farm program, inspection of meats and other food products, charged to the farm program, is primarily for the benefit of the non-farm population.

Whom Do Farm Programs Help?

(By Jno. C. White, Commissioner of Agriculture)

How is it that the American farmer keeps getting it in the neck repeatedly and increasingly as being a burden on taxpayers, a depressant on the economy, a costly necessity for the nation? It is most likely that those who malign the farmer as being a drain on the county's pocketbook don't realize that it is the public — not the farmer — who would pay most dearly if farm programs should be abolished.

What about surpluses? The fact that surpluses are produced — and that alone — holds retail prices for any foods as low as they are today. The slightest shortage would result in skyrocketing consumer prices.

This is but one instance in which farm programs work primarily for the public. Here are some others:

Water reservoirs and flood control. The city dweller who lives near a river which used to wreak havoc by flooding probably doesn't realize the series of reservoirs which regulate the water in upper reaches of the river were charged to the farmer on whose land they are located. The farmer may get little or no benefit from the reservoirs — but they are charged to the farm program.

School lunches. Every citizen's child who eats at a public school cafeteria is benefited by low-cost meals made up partially from surplus products given to the school and charged to the farm program.

Foreign aid and military assistance. Billions of dollars worth of foreign aid programs and military assistance for other countries are paid for with agricultural commodities, the cost of which is charged to farm programs.

Merchant Marine service. Fifty million dollars a year accrues to the Merchant Marine for transporting farm commodities to other countries.

The armed forces. How many people realize that part of the cost of the milk and dairy products used by our armed forces is charged against the farm program?

Forests. A billion forest trees a year are being planted on eroded and tired land. The farmer who plants those trees will not likely ever harvest any of them. The cost of all public reforestation is charged against agricultural appropriations.

Consumer services. Research on preparation and handling of food for the housewife's benefit is billed to the farm program, inspection of meats and other food products, charged to the farm program, is primarily for the benefit of the non-farm population.

Conserving national resources. The soil and water of our land is our most vital possession. Nearly all the cost of conservation work on soil and water is charged to the farm program.

SELECTIVE EXCISE TAX. by Rep. Ben Atwell of Dallas. It is similar to the Pennsylvania tax, also, and would yield an estimated \$355,000,000.

ESCHEAT BILL. by Rep. Charles Hughes of Sherman. This is the well-worn proposal to provide enforcement procedures so that abandoned property, bank accounts, etc., would go to the state.

BATTLE OF THE POLLS. Two citizens groups are engaged in a duel of poll taking, each trying to demonstrate more public support for its tax plan.

Citizens for a Sales Tax announced that 11,000 persons replying to its post card poll, 83.6 per cent favored a retail sales tax.

Citizens for Fair Taxation, a group which supports Governor Daniel's tax program, immediately declared that the CST poll was heavily weighted with Chamber of Commerce members and not a true reflection of public sentiment.

Citizens for Fair Taxation is at work on a poll of its own.

SPENDING BILLS PUSHED. A general appropriations bill and a bill to raise teachers' salaries are moving through both houses with little re-hashing. Senate quickly approved a two-year appropriations bill. It is essentially the same as the Senate appropriations bill in the regular session.

Both Senate and House education committees approved bills that would give public school teachers an across-the-board raise of \$810 a year. House passed the teachers' bill on the floor, 141 to 1.

Senate committee also approved education bills providing for educational films, driver education, assistant principals for larger schools, and five days sick leave a year for teachers.

MONEY NEEDS UPPED. State Comptroller Robert S. Calvert had a new revenue forecast for legislators at the beginning of the session that showed an expected revenue from existing sources at \$24,000,000 less than the January forecast.

Part of the difference between the old and new forecasts was due to some \$6,000,000 in additional school and welfare payments authorized during the regular session. Most of the rest of the drop was attributed to a decline in revenue from auto sales taxes and franchise taxes.

Calvert also estimated that the general fund deficit at the end of the fiscal year Aug. 31 will be \$64,000,000. This is \$1,000,000 more than his January prediction.

LOBBY REGULATIONS OF FERED. At Governor Daniel's suggestion, a bill to impose further lobby controls has been introduced.

Daniel has consistently blamed "lobby interference" for the regular session to agree on a tax plan.

Five House members are co-sponsors of a bill that would require that all contributions of \$50 or more to be used to influence legislation be reported. It would also prohibit lobbyists from being on the floor of House or Senate during sessions or calling members of the floor during debate.

Sen. A. R. Schwartz of Galveston has said he will sponsor a companion measure in the Senate.

INSURANCE INQUIRY SET. House has authorized a special five-member committee to look into the reasonableness of a 15 per cent raise in auto insurance rates recently ordered by the State Board of Insurance.

Rep. Will Smith of Beaumont sponsored the resolution to set up the investigation.

Resolution expressed concern that the higher rate might cause many drivers to drop their auto insurance and thus become unable to pay for accident damage.

TEACHER TRAINING HIT. Member of the Commission on Higher Education looked over a 140-page report on teacher education courses being offered in state colleges and decided that there was too much folderol.

A number of legislators also have been critical in recent months, both of the content and the amount of time spent on teaching method courses. State Board of Education has recently reduced the number of method courses required for teacher certification.

Commission on Higher Education members expressed hope that the college administrators could and would do for themselves the necessary pruning in education course offerings.

SHORT SNORTS. Sen. Preston Smith, Lubbock theater owner, has been named president pro tempore of the Senate for the special session. As third in line to the governorship, Senator Smith undoubtedly will have a chance to be "governor for a day" sometime during the session.

House of Representatives is reduced to 149 members as a result of the death, just before session opening, of Rep. Marshall O. Bell of San Antonio. Bell, who was serving his 10th term in the House, was known as "dean of the House" because of his record tenure. That designation now goes to Rep. Herman Yezek of Bermond, a lawyer-publisher in his ninth consecutive term as a member of the House.

Texas Railroad Commission has set a hearing for July 25 on the request by 27 bus lines for a 5 per cent increase in fares.

Six Members of the House of Representatives are actively at work in hopes of being speaker for the 58th Legislature. They are Reps. Bryan Tun, all of Tyler; Alonzo Jamison of Denton; Franklin Sparks of San Antonio; Ben Glusing of Kingsville, C. W. Pearcey of Temple and W. T. Oliver of Port Neches.

Introduces Interphones As Farm Aid

A new farm communications system that combines regular telephone service with an inter-com system for the farm, chick or dairy farm is being introduced here, J. C. Oakley, Southwestern Bell Telephone Company manager, announced.

Known as the Farm Interphone, the system includes a master phone in the house, an extension phone in the barn, milk shed or other farm building, and a two-way long-range loudspeaker outdoors.

Additional extension phones and outdoor speakers can be added to fit the farm's individual needs.

The Farm Interphone was specially designed to meet the

needs of farms, cattle ranches, chicken ranches, and dairy farms," Oakley said. "By making it possible to talk between various farm locations, it will save valuable time and steps for the users."

Each phone on the system has a control button to change from regular telephone service to inter-com calling between farm locations. Phones are equipped with loudspeaker-microphone units so the user can talk on the com system for the farm, chick or dairy farm is being introduced here, J. C. Oakley, Southwestern Bell Telephone Company manager, announced.

Regular phone calls can be held on the line while the inter-com is used to talk with someone at another location on the farm. The outdoor loudspeaker-microphone feature makes it possible to talk with persons working outdoors in the farm yard. For example, the farmer's wife can talk to him while he is working outdoors, and he can reply, even though he may be a considerable distance from the sensitive microphone.

"Many adaptations of the Farm Interphone can be made to meet the individual needs of the farmer," the manager said.

A New Cotton Stripper:

Just a few short years ago, the South Plains cotton farmer was not only burdened with the expense of raising and protecting his cotton, but when the cotton matured, he was forced to pay \$40.00 a bale to get it harvested. In extreme cases this \$40.00 was all that a renter had left after other expenses. Then the law of supply and demand went to work. The farmer was demanding a cheaper method of harvesting his cotton and the machinery manufacturer responded. Now the farmer can harvest his cotton for about one-fourth of his previous expense.

Almost all the major machinery companies responded with the common "cotton stripper," however a larger manufacturing firm in Dallas is experimenting with a new concept in cotton harvesting. This machine strips the burs, cotton, and trash from the stalk but removes most of the trash and burs before the cotton is blown into the trailer. This machine employs the use of nylon brushes to "brush" the cotton from the stalk. Although this machine is in the experimental stage it shows possibilities of being profitable to the farmer.

This particular machine was designed to operate in West Texas on dry mature cotton. The short staple, storm-proof type cotton that is predominate in this area is the type of cotton the machine is designed for.

Board of Directors met for their regular monthly meeting July 12th at the Lighthouse. All directors: Clarence Rathel, Maurice Campbell, Odell Breed, Riley Teague, Herman King, Henry Scarborough and Gerald Lackey, Melvin Henry, Manager, and Ben Ayres, Attorney were on hand for the meeting.

Adult Education classes were held Tuesday and Wednesday at the Plainview Senior High School, with the teacher, Norma Parton, in charge. The classes have been well attended and lots of interest shown. The subject for Tuesday was Fruits — How to Freeze and how to Use. Wednesday dealt with vegetables — Processing Vegetables for Economy, and Healthy and Happy Families.

Vegetable Cookery

Vegetables are one of our most essential foods. In fact, they should form a good part of our daily diet, for they contain a generous supply of the vitamins and minerals we all need for health. However, far too often, they lose much of their nutritional value before they reach the table because of faulty or careless cooking.

Since vegetables can offer us a priceless gift of health-producing food elements, we owe it to ourselves to take the trouble to cook them properly.

Here are a few simple rules for cooking vegetables. Try them if only for an experiment. You'll be surprised at the difference you will notice in the flavor — you may decide it is worth you while to cook vegetables this way all the time.

Here are four simple rules for protective cooking of vegetables.

1. Use Little Or No Water
2. Start Fast - Cook Quickly
3. Avoid Violent Boiling
4. Cook In a Covered Utensil

1. Use Little Or No Water

To minimize mineral and vitamin loss, most vegetables should be cooked in only 1-4 to 2-cup water. When you are cooking with 2 tablespoons water or less, first place 2 tablespoons butter or margarine in the utensil, then the water, then the vegetable. Greens and spinach require only the water which clings to the leaves after washing. Tomatoes require no water. (These amounts of water are for cooking on electric ranges, or in electric table-top appliances.)

2. Start Fast - Cook Quickly

Bring vegetables to steaming point on high heat, then turn control to low.

3. Avoid Violent Boiling

4. Cook In a Covered Utensil

Do not stir, for this fills food with extra air which destroys certain valuable vitamins.

Dutch Apple Pie

Pare and slice or cut fine: 5 or 6 tart apples. Cut butter or oleo into flour and sugar:

- 1-3 cup butter
- 1-3 cup flour
- 1-3 cup sugar
- 1-3 cup sweet cream

Mix altogether and place in pan lined with pastry. Have 1/2 cup sugar and 1 teaspoon cinnamon mixed and sprinkle over top.

Bake 10 minutes at 400 degrees F, reduce heat to 350 degrees F and bake 30 to 40 minutes longer or until the apples are done.

Sitting vs Standing

Laboratory tests show that women actually use 4 per cent more energy when sitting, rather than standing, to wash dishes and do ironing.

These studies by the Department's Agricultural Research Service are part of continuing research on energy use, which is providing basic information needed to improve housing and household equipment, and to develop ways to do housework with less effort.

The studies also showed that

NEWEST FARM TOOL, the Farm Interphone, makes it possible to communicate easily with distant locations. One feature is outdoor loudspeaker-microphone which permits conversations between house and farmyard.

NEW FARM INTERPHONE CAN SAVE YOU TIME, STEPS AND MONEY

The new Farm Interphone combines conventional telephone service with an inter-communications system for the chicken ranch, or dairy farm.

By making it possible for you to talk to and from distant locations, Interphone can save you steps and valuable time.

The basic Interphone package consists of a master telephone in the house, an extension phone in the barn, milk shed or other farm building, and a two-way long-range loudspeaker outdoors. You can add additional extension phones and outdoor speakers to fit your individual needs.

Phones are equipped with special loudspeaker-microphone units that enable you to talk on the inter-communications system without removing the receiver from the hook.

The Farm Interphone can save you many times its cost helping you make the most of your time.

It's easy to use. The cost is low. And equipment is maintained in perfect working order at no additional cost.

If you'd like to know more about the Farm Interphone, call your telephone business office. We'll help you plan the system that best fits YOUR needs.

IS THE BIBLE CATHOLIC?

Our Catholic friends call us "Protestant" because we protest against much of their teaching. In fact, a recent series of Catholic articles have appeared in the newspapers. Such is entirely in accordance with our American freedom of the press. It is wonderful to live in a country where friends and neighbors of differing faiths may consider their differences with mutual respect.

This article is presented with the conviction that there are sincere, honest people in all churches. But just as Paul was completely in error and persecuting Christians, so today, good, honest people may be in religious error. We trust that each reader will examine the Scriptures to see whether these things are so. **IS THE BIBLE CATHOLIC?** The Bible teaches that—

1. Christ is the ONLY head of the true church. (See Eph. 1:22-23, Col. 1:18).

2. Peter is never described in the Bible as being the head of the church. The "keys of the kingdom" were given to him and the power of binding and loosing was given to him and to ALL the apostles. (See Matt. 16:18-19, and 18:18). This power was never delegated to any so-called "successors" of the apostles. The foundation of the church is Christ and ALL of the apostles, not Peter alone. (See 1 Cor. 3:11 and Eph. 2:19-20).

3. Peter does not fit the Papal pattern, because—

(a) He was a married man. (See Matt. 8:14).

(b) He would not allow others to bow down before him. (See Acts 10:25-26).

(c) He was not infallible, and when he was found in error he was reproved before the whole assembly by Paul. (See Gal. 2:11-14).

(d) There is no Biblical evidence he was ever in Rome.

4. Leaders in the true church are called elders or bishops. They are required to be MARRIED men with believing children. (See Titus 1:5-6). These men had the oversight of only one congregation. (See Phil. 1:1). Each church was independent. There is no mention in the New Testament of the church ever being governed by popes, cardinals and priests, unmarried men.

5. The New Testament is a complete and perfect guide in all spiritual matters. (See 2 Tim. 3:16-17, 1 Cor. 4:6). We are told not to go beyond this perfect guide. (See 2 John 9). The church and its leaders have never been given authority to make religious rules, articles of faith, or creeds. Hence, there would be no need for church councils, synods, conferences, or centralized church government.

6. Christian worship is described in the New Testament as being simple and heart-felt. (See Acts 2:42, Col. 3:16-17). We are warned not to depart from this simplicity. (See 2 Cor. 11:3). We are warned against various religious seasons and festivals. (See Gal. 4:10-11). Such things as incense, robes, holy water, infant baptism, sprinkling, candles, instrumental music, prayer-beads, and bowing before images have not been authorized by God for Christian worship. These practices have been introduced by men without God's authority. Jesus said that the teaching of men's doctrines makes worship vain. (See Matt. 15:9).

7. Paul said he would rather speak five words that could be understood, than to speak 10,000 words in a tongue that was not understood. Would he have conducted a service in Latin before a congregation that spoke English? (See 1 Cor. 14:19).

8. Jesus loved His mother Mary but he taught plainly that every obedient disciple was as dear to Him as His own mother. (See Matt. 12:46-50, Mark 3:31-35, Lk. 8:19-21). Mary was not set forth as one to be worshipped, nor are we taught by the Bible to pray to her, or to bow down before her, or her image. We are to worship God.

9. The Scriptures fortell that some shall "depart from the faith"—forbidding to marry, and commanding to abstain from meats. (See 1 Tim. 4:1-3).

10. In regard to religious titles, Jesus said, "Call no man father." (See Matt. 23:9). He also forbade His disciples to be called

Center News

By Mrs. J. E. Green
CENTER, July 17 — In spite of recent showers Sunday afternoon was a real summer temperature. Hot! Today, Monday, bids fair to be like Sunday. Fine cotton growing weather. Gardens are coming along with vegetables to can. The cannery is open so women are going to be busy soon putting up good things in freezers and cellars. What a nice time of year! But how the weeds are growing too!

There were good crowds at churches Sunday.

The revival at First Baptist Church closed Friday night with record crowds for the week. Dr. R. G. Lee was the evangelist with wonderful results.

At Calvary Baptist we've been worshipping in the Center Building Auditorium while the Calvary auditorium is being remodeled. For some of us like being in the Center auditorium best of all. Seems like "old times" to some of us older ones, when the children were with us. Calvary congregation is looking forward to Wednesday night — family night, when we are to have a song fest and afterwards refreshments of home made ice cream and cake.

The first half of last week, Mr. and Mrs. C. W. Denison had as guest their granddaughter, Gil Lane Denison, of Lubbock. She attended the revival services with her grandparents until Wednesday afternoon when her mother came for her.

Sunday the Denisons were in Lubbock attending a family reunion, the annual Stevens "get-together" at MacKenzie Park. There were some fifty members present. After this, the Denisons, accompanied by Mr. and Mrs. W. B. Parrack, of Anson, visited in the Lubbock home of the Parrack's son, B. Parrack, and enjoyed a back-yard supper served from the grill.

Mr. and Mrs. J. D. Welborn and Donna were in Amarillo Sunday visiting their son, James David, and family. Donna remained for several days. From there Mr. and Mrs. Welborn went on to La For to visit other relatives. Mrs. Welborn's mother, Mrs. Ethel Hendricks, came home with them for a visit.

Sue Thomas spent Sunday and Sunday night with Jo Anne Welborn. Sue was in Lubbock over the weekend before until Wednesday visiting the Welborn Miller family.

Mr. and Mrs. Hal Thomas visited last Monday in town with the P. L. Ormans.

Mr. and Mrs. Thomas Warren and children dined Sunday in town with his mother, Mrs. Ola Warren.

Mr. and Mrs. Doc Ryan and children, who have been visiting in the home of her parents, the J. E. Greens, left Wednesday for their home in Sweeny. They went by Big Spring to visit overnight with her brother, Don Clark Green and family.

Thursday evening Clyde Green and family arrived at the Green home from Ft. Worth and Dallas where they visited relatives. Friday afternoon they left to spend the night in Plainview with his brother and family, the Vic Greens and on to their home in Peralta, N. Mex. on Saturday.

Mr. and Mrs. Anthony Latta visited Friday morning with the J. E. Greens and Clyde Greens.

Mrs. Doris Huckabee and children, of Stephenville, visited from Tuesday until Friday with her parents, Mr. and Mrs. O. C. Vinson. Also visiting in the home some of the time were the son, Jerrold Vinson and family, of the Rabbi or Master. (See Matt. 23:8-12).

The use of religious titles is contrary to the plain teachings of the Bible. The great Apostle Paul was referred to simply as "brother Paul." (See 2 Peter 3:15). Congregations of Christians are referred to as "churches of Christ" in Romans 16:16. They exist today, scriptural in name, organization, work, and worship. If we can persuade others to forsake religious error and return to Bible ways, God will be pleased. In the language of Paul, "Am I therefore become your enemy because I tell you the truth?"

We stand ready to study the Scriptures with anyone who requests it. Questions on Bible matters may be mailed to us. We are ready to engage in private or public discussion with any church leader.

Harmony Community, and the daughter, Mrs. Evelyn Edmond-Fred Battey. Visitors in the Doyle Sandifur home are her sisters, Mrs. O. H. Young and Mrs. Doyle Tunnel, of Phoenix, Ariz. All the brothers and sisters, four sisters and four brothers and families or parts of families met for dinner in the Plainview Park Sunday. Their mother, Mrs. Alice Crump, who is ill in a Littlefield rest home was not able to be present. Part of the family saw her Sunday afternoon and the rest during the weekend.

Mr. and Mrs. J. E. Green visited the D. I. Boldings Friday evening and Mr. and Mrs. W. C. Plumlee while Sunday afternoon. Mr. and Mrs. Floyd Montgomery, of Plainview, were in the Frank Dunn home Thursday. Mr. and Mrs. James Lovell visited the Duns Saturday evening.

Mr. and Mrs. Frank Dunn were in the Lindsey Graham home a while Sunday. Mrs. Graham's mother, Mrs. Rhodes, was infinitely weaker from her long illness, and we regret to say, passed away early Monday.

Funeral services are pending. We hate to lose from our midst this fine, patient, always cheerful, good neighbor whom we have known so long. But our loss is heaven's gain. Our sympathy will be with her family and all loved ones.

Mr. and Mrs. R. C. Ross had visiting them last week, relatives from Alabama and other points. These were Mr. Ross' brother, R. J. Ross and wife and daughter of Tuscumbia, Ala., a niece, daughter, Mrs. Buck Ragsdale, of Baileyboro, and the son, Melvin Ross and family, of Spearman. Harry Webb, former resident of Floydada, now of Lockney, and brother of Mrs. J. R. Yearwood, died in the Lockney hospital Wednesday night after a two year illness.

Miss Jo Powell, daughter of Mr. and Mrs. H. N. Powell of Dougherty, became the bride of Edward H. Wester Sunday night in the First Christian Church in Floydada. The couple will make their home here. The bridegroom is employed at Hagood's Dept. Store.

Gladis Ruth Buckner of Lockney and Eugene Lawson of Floydada were united in marriage Friday evening, July 18 in Broadway Church of Christ in Lubbock. The couple plan to reside in Floydada. Lawson and his brother are in the wedding business. Mr. and Mrs. Robert Scott of Boston, Mass., are here visiting with Mr. Scott's parents, Mr. and Mrs. Ralph Tubbs and their sons of Los Angeles, Calif. They are in Texas while on vacation, Spearman. All left Friday except a grandson, Don Ross, from Spearman, who will visit his grandparents for several days.

Mr. and Mrs. J. M. Daniel and son, Don, and Kenneth Bishop returned last weekend from Arkansas and Tennessee where they visited kinsmen.

Mr. and Mrs. W. B. Cates and family left Monday for Cisco, Tex., where Mr. Cates will manage a tin shop he purchased about a year ago.

How about a Fair Break for Railroads?

we're asking your support for equal treatment by government of all carriers, including the railroads

The Association of American Railroads has drawn up a document called "Magna Carta for Transportation."

We're asking for public support of this common-sense statement on public transportation policy, hoping citizens will recognize that an entire industry that serves them is being deprived of its natural rights—and will want to help.

What to do? Ask your congressman to help restore to the railroads these "four freedoms":

- Freedom from discriminatory regulation
- Freedom from discriminatory taxation
- Freedom from subsidized competition
- Freedom to provide a diversified transportation service
