'Unbranded' Calf Story Real, Says W. K. Birchfield

Predatory animal hunters, will time this year. May, June, and July, K. Birchfield of Floydada and Lewis McDonough of Matamore, have been credited with another kill so to speak. The two men, both government hunters, 94,769 coyotes captured and killed a male and female coyote and their eight pups after they were found dened up in Motley County recently.

The capture of the animals went something like this: In Motley County L. B. Campbell was riding fence when he heard a calf bawling in an adjacent pasture owned by Mrs. U. L. Willie. Campbell found a big gray coyote with a calf down and the wolf eating at the animal's hip. Campbell was not carrying a gun and the wolf escaped. Campbell took the calf to a veterinarian and had the wound treated.

The coyote had eaten away a brand on the calf's hip which had not completely healed. Otherwise the 250-pound calf was in satisfactory condition. He is back on the range now and probably the only calf in Texas "unbranded" by a coyote.

Hunters Birchfield and McDonough answered the request for help and tracked the pair of wolves to their den where they took the eight pups. They set steel traps near the den and trapped the male and female the first night.

Coyote and Bobcat Trouble Birchfield said this week that ranchers have had quite a bit of trouble with coyotes and bobcats this year. More than usual numbers have been roaming the ranges.

To give an idea of the increase the hunter said in a three month period last year he trapped 53 coyotes. In the same length of

Fine rains that have been partial to north and east Floyd County points and to a considerable portion of Briscoe and Motley counties, have fallen in the period since last Friday.

Johnsons, etc. there was around an inch; Saturday the Yeary farms, and around the Rex Smithermans they had a round two inches, and Sunday in scattered showers Johnny West, John Wilson, Fred Fortenberry and others received about .30. Some had more and some had none in any of the showers.

Buffalo Clover Festival

Buffalo Clover is what the old settlers called it. Now it's known as the state flower of Texas.

Most likely you prefer the modern name of this beautiful lupine plant for it does look more like what it is now called... the bluebonnet.

You haven't seen much of Texas either if you haven't seen the fields of sky-blue bluebonnets.

Every April the town of Marlin in Central Texas (Falls County) holds a "Bluebonnet Festival." Beautiful models are provided to pose for the amateur photographers who travel from all over the nation to see the festival and to compete in the annual photo contest.

Check Beginner's Readiness for School

Starting to school is a big event in every child's life. The experience will be a happy one, if your youngster is physically, mentally, and emotionally ready for it.

Children should not be entered in school unless they can meet certain practical tests to show they are ready. These tests are suggested by the White House Conference on child health and protection.

First of all, a child needs to know his own name and address well enough to repeat to others if necessary.

Physically he needs to be fairly independent and well-trained. He should be able to dress and undress himself, take care of toilet needs, and eat wholesome food without assistance. If he is able to run, climb and use his hands easily in simple construction and play, he will be more at ease with other youngsters.

Check on his intellectual readiness. He should talk readily, using sentences, understand and carry out simple directions, and show a healthy curiosity and desire to experiment. It will help if he knows the names and uses of the common objects in his environment.

Health check-ups are very important. Be sure to include eye, ear, nose, and throat examinations, and dental check. Plan for necessary vaccinations and immunizations. Build up general health with lots of rest and nourishing foods during the rest of the month.

School will mean a new social situation. He will be happier if he has learned to play with other children, respects their possessions and assumes some responsibility for his own belongings.

The emotional adjustment is difficult for a child who is still full of dependent on others, shows time marked fears, temper outbursts or moodiness. If he looks forward to school as a happy experience, and has learned to stay contentedly in another home or school for limited periods, he is ready to go.

Check safety training, too. Make certain your child knows the danger of passing automobiles and streets or highways. He needs to realize the danger of sharp instruments, matches, electricity and machinery in motion.

Only a short time remains before school starts. Check your beginner now and help prepare him for a happy start.

4-H Records Due

4-H records are due in the County Extension office next Monday, August 21. The records will be checked by 4-H leaders to determine which will be sent to the district and the county awards to be given.

The agents will be available at the office this week to assist 4-H members in completing their records. Call us, or come by and we will help you.

Broadway News

By Mrs. T. E. Thornhill

BROADWAY, Aug. 14 — Part of our community received a very nice rain Friday afternoon.

Maybe the others will get a rain before the crops begin to suffer.

Revival services were well attended last week. It was a privilege to hear Bro. Testerman and to sing with Mr. Benson. Several enjoyed dinner at the Church Sunday.

Cindy McCray, Timmy and Shelly Havens were Sunday visitors with Max, Mike and Carolyn Hodges, children of Mr. and Mrs. Arnold Hodges. Afternoon callers of the Arnold Hodges were Mr. and Mrs. Joe W. Grizzle and children, David, Regina and Jody Bob of Calgary.

Mr. and Mrs. T. E. Thornhill and Tommy, Mr. and Mrs. Otis Justice and children, Wayne and Sue, Mr. and Mrs. Leonard Park-

er and Kitz were callers Thursday night in the A. L. Winegar home.

Mr. and Mrs. A. D. Whajen

are the proud owners of a new Chevrolet car. They took their daughter and granddaughter Mrs. Joe Dutton and Patty to their home in Kerrville Wednesday of last week. They visited in the Dutton and Harold Whalen homes while there. Saturday all enjoyed a trip to San Antonio for a sight seeing tour and a visit to the zoo.

Mrs. J. B. Marley was a Monday morning caller of Aunt Dodie Starret and Mrs. Dunsworth.

Mrs. McCray of Portales, N. Mex. visited a few days with the Bill McCrays.

Mr. and Mrs. D. D. Thornhill visited with Mr. and Mrs. R. M. Spence and Mr. and Mrs. Birch Guilliland in Floydada Thursday afternoon of last week.

Mrs. Mary Darwin and boys, Paul, John and Jim, and Miss Lydia Lewis, all of Fort Worth were visitors in our community last week. John had the misfortune of stepping on a nail, so Friday he was walking with a cane. We surely hope it doesn't give him any unusual trouble.

Friday afternoon callers of the Darwins and Miss Lewis were Mr. and Mrs. Homer Smith of Crosbyton, Grady Howard of Ida Lou, Mr. and Mrs. Richard Suduth, Mrs. D. D. and Mrs. T. E. Thornhill and Mrs. M. R. Givens.

John Darwin tells us that he and his brother have a go cart at their Ft. Worth home, called "The Dragon". Bet those boys really have a good time with it.

Mr. A. L. Rathel of Crosbyton, but a former member of our community, underwent surgery in the Crosbyton Hospital Friday of last week. Among those who have been staying near our community, are her parents, Mr. and Mrs. Jodie Joplin, her sister and family, the Harold Trulls, and the R. C. and W. H. Rathels. We truly hope she will soon be feeling fine again.

Max Rathel came home with Tommy Thornhill after church Sunday night. Both went over to school Monday morning for a difficult for a child who is still full of dependent on others, shows time marked fears, temper outbursts or moodiness. If he looks forward to school as a happy experience, and has learned to stay contentedly in another home or school for limited periods, he is ready to go.

Mrs. Delma Norris, Bob and Sandra of Big Springs, and Mr. and Mrs. T. E. Thornhill and Tommy visited from Saturday afternoon until Sunday afternoon with Mr. and Mrs. E. A. Clark of Colorado City.

Did you ever see such nice big grapes as the vines have on them this year.

Mr. and Mrs. T. E. Thornhill visited with Keltion Winegar in the Crosbyton Hospital while Thursday morning of last week.

Bessie Smith, daughter of Mr. and Mrs. Horner Smith of Crosbyton, spent another day or so in the hospital. We surely hope she will soon be feeling much better.

MRS. WOODS IN ILL HEALTH

Mrs. L. N. Woods is reported very ill this week in Peoples Hospital where she has been confined for several weeks. She is the mother of Roy Woods of this city. Mrs. Woods has been in Floydada the past three months making her home with her son and wife. With her a portion of the time is a daughter, Mrs. J. R. Kee of Lubbock.

CARD OF THANKS

We wish to express our appreciation to all our friends and neighbors for the many kindnesses during my illness and stay at the hospital. For the beautiful flowers, cards, phone calls and visits, and especially for the prayers uttered in my behalf. May the good Lord bless and keep you as our prayer.

ver the story to the best advantage by going to the scene. When the patrol wagon arrived, the first man to step to the ground was the officer who had displaced the reporter—and the madman put a bullet between the policeman's eyes. Had the newspaperman made the trip, he would have been the one who was killed. His name was C. P. J. Mooney and he became the editor of the Commercial Appeal and the most famous newspaperman of his day in the South. He gave me my first newspaper job. Sometimes, the old ways are the best—for some people. There was a middle-aged lawyer in a county-seat Texas town who continued to drive a horse-and-buggy although it was in the mid-1920's. One day he bought a car and he told how he had been "converted." He had drawn up a paper for a client and then said, "I'll drive out tomorrow morning and get the other man to sign it. It's ten miles each way but I can easily make it in one day." The client said, "Why, we'll go now!" "I'll drive you out there." They got into the car and drove to the farm, obtained the signature and were back in town in less than an hour. That so impressed the attorney that he bowed to progress. He had been skillful at driving a horse because he had driven one all his life but the automobile, with its pedals, shifts, steering wheel, throttle to pull out and all the rest, he never did feel at ease with. One day he drove up on a railroad crossing saw a train approaching, stepped on the wrong pedal, killed the engine and lost his life. That client did not know it but that day, he signed a delayed death warrant for the attorney. Behind a plodding, intelligent horse, he might have lived twenty years longer. But of course none of us can peer into the future.

July Highway Accident Toll

3 In County

The Highway Patrol investigated three accidents on Rural Highways in Floyd County during the month of July, according to Sgt. D. S. Lawson Highway Patrol Supervisor of this area. These wrecks accounted for eight persons injured, and a property damage of \$1,135.00. The rural traffic accident summary for Floyd County from January through July of 1961 shows a total of 17 crashes. As a result of these crashes there were 18 persons injured and no persons killed. The estimated property damage amounted to \$7,979.00. This compares with the first seven months of 1960's total of 21 rural crashes injuring 20 people, killing one person and causing an estimated property damage of \$17,700.00. Prior to August 1, throughout the state of Texas, there had been a total of 974 fatal crashes resulting in 1214 persons losing their lives needlessly," the Sgt. stated. This compares with 929 fatal crashes and 1134 lives lost for the same period in 1960. Therefore, in 1961 there have been 45 more fatal crashes resulting in 30 more lives lost, or a 7 percent increase. With the summer vacation period in its final month and Labor Day approaching, many thousands of people will be crowding in their final visit, outing, etc., before their children start back to school. This means many people will be trying to travel too far in a short time. Many will be carefree and careless in their driving. The Sgt. listed some facts about last year's Labor Day Weekend and some suggestions to remedy this. There were 22 fatal crashes, resulting in 30 smashed out lives over the 1960 three-day Labor Day Weekend. In order to arrive alive at your destination start in plenty of time to allow for delays along the way. Give the right of way, don't take it. Be prepared for the other driver's actions; if he can't or won't stop at an intersection, you can. Remember, drive with caution so as not to arrive in a coffin! Numerous relatives have visited the past several days in the home of Mr. and Mrs. C. L. Berry, among them all of the living daughters of Mrs. W. J. Berry and the late Mr. Berry. They are Mrs. Maggie Latham, Wichita Falls; Mrs. Arjerie Bishop, Littlefield; Mrs. Evelyn Newkirk, and the mother, Mrs. Berry, both of Silverton. Other visitors included the C. L. Berry's daughter, Mrs. Tubal Cain and family, Wellington, and a son, C. L. Berry Jr., and family of Earth. Mrs. Cain is convalescing in the Berry home here after a serious illness. She has been for some time in the Wellington Hospital. Rev. Ed B. Bowles, pastor of the First Baptist Church, who has been in a meeting at Birmingham, Ala., is due to resign his pastorate here at an early date, according to authentic but unofficial reports. He has accepted a call to the First Church at Henderson, Texas, according to a news story appearing in the Fort Worth Star Telegram. Rev. Bowles was expected to reach home this mid-week. Mrs. Brown will present her Dramatic Workshop students in a program to be given in the High School auditorium on the night of August 21 at 8 o'clock. Outdoors In Texas

If you want a barrel of fun and a boat full of fish... Curtis Carpenter of the Game and Fish Department joined me for an early-morning expedition on Lake Austin, on a recent week end, seeking the wily black bass. About three hours and no strikes later we decided that the blacks were smarter than we were. Suddenly Curtis spied some fish breaking water on the far side of the lake, so we revved up the 25hp Gale and sped to the area. Sure enough there was plenty of activity. But it was a school of those long-nosed gar. "Might as well have some fun" said Curtis, as he tossed me one of the many horn-made gar-tangling lures he had stowed away in the bottom of his big tackle box "just in case." A few casts in the area and I nipped a three-foot-long, one-pounder. A basket supper will be served at 6 p.m. Five minutes later I had the saw-toothed critter alongside the boat. "Grab the camera and take a picture of it," I yelled to Curtis. He was just about to eye-level the camera when the subject took off like a rocket. Snap went the 10 pound line, the lure and the gar. I had loosened the drag so as to relieve the tension considerably, but not enough. No pix. No gar. All I had left was a Zebco rod and reel. . . and I was lucky to have them. First move I made was to loosen the drag some more. I had learned my lesson. Then I strung the line again. . . or what was left of it. . . tied on another lure. . . and cast out for more. Suddenly there was a tug on my buddy's line. "I've got a good one this time," said Curtis. And he did. Some 10 minutes later he had subdued the dread five-footer. It stretched from gunwale to gunwale, across the wide beam of the Boston Whaler boat. That's when we went ashore and did some picture taking. But what about that lure? It was nothing but a piece of rubber-covered, white-nylon clothesline with most of the rubber removed. Want to know how to make your own? First buy a 50 foot roll of No. 7 rubber covered nylon clothes line (cost \$1.45). Be sure it's all nylon inside—no wire. Next get a dozen No. 3 size snap swivels, or some double swivels with eyes large enough for the clothesline to go through. Then obtain some fishing line or fine wire. Actually almost anything will do. . . 8 to 20 pound monofilament or 45 pound braided squidding line. Makes little difference. Get whatever you can wrap and tie easiest. Finally buy some steel leaders, about 12 to 15-inches long. Now you're ready to go to work. Cut off a 20 inch strip of the clothesline. Run the clothesline through one eye of the swivel (or through the snap end of the snap swivel) until the swivel is in the center of the 20-inch strip of clothesline. Bend the strip of clothesline in the center so that you have half the line (10 inches) on each side of the swivel. Next wrap the fishing line or wire tightly around the clothesline, close to the swivel, and tie it good and tight. This will serve to hold the swivel in position in the center of the "lure." Final act is to trim about 8 inches of rubber off the two ends of the clothesline. Exercise great care so that you do not cut into the nylon as every strand you sever reduces the size and appeal of your lure. Do NOT add a hook. When you're ready to fish, attach the steel leader to your line, snap on the swivel and lure, then cast right into the middle-of the school. And don't forget to loosen the drag! Let the lure sink to the bottom, or if in deep water let it down about 10 feet. Then start a slow retrieve. Give the rod a slight twitch, ever so often, to "sluff up" the lure. The soft, silken looking lure, as it moves slowly through the water quickly attracts the gar's attention. When he attacks, you feel only a slight tug. Don't try to set your hook. Remember, you don't have a hook. Let the gar roll a couple of times, then you will soon get the sensation you seek. What happens down there in the deep blue water is this. The

gar gets his sharp teeth entangled in the silken threads of nylon and as he rolls over and over he wraps the nylon around his nose. Then he's had it. But he's not through. Not by a long shot. He won't give up willingly. After a good battle you'll have him beside the boat, providing he hasn't broken the line, or the swivel, or the rod. Don't swing him into the boat until you're sure you have plenty of flopping-around space. Then be mighty careful. His scales can cut like a knife. His teeth are sharp and vicious. Above all, don't pick him up in your bare hands. Some fishermen, with gloves on, grasp the gar's back, if they are sure his mouth is tied tightly with the nylon. Then they pull his head over the gunwale and apply a pacifier (a baseball bat) to end his existence. Remember that by eliminating the gar you'll improve the game fishing. What looks like a stroke of misfortune may prove to be the proverbial "blessing in disguise." When I broke into newspaper work as police reporter for the Memphis Commercial Appeal, when things were quiet late at night, veterans of the force would tell stories of happenings in the long ago.

One story was this: There was a young and ambitious reporter on the police run. One day a call came that a man had gone berserk, had barricaded himself and was terrorizing a neighborhood with a gun. The officers piled into the patrol wagon and the young reporter took the last remaining space on the backstep. Just then a policeman came up, pushed him off and took the place. The reporter was keenly disappointed, he had wanted to co-

Chigger Repellents Great Boon

AUSTIN — It's been a great year for the chiggers, State Health Department entomologists say. And for tens of thousands of Texans that's the understatement of the decade. Texas probably has the nation's longest chigger season, entomologists report. The pernicious little parasites are a year-around menace in the southern part of the state, and elsewhere survive until frost. The season is now at its height. If you're susceptible to chigger depredations—and it is almost a sure thing you are—here is the very best thinking of state and national authorities on how to avoid being attacked in the first place, or, failing that, how to ease the itching. There are several highly effective repellents on the market now. Some of them act against mosquitoes and other insects as well as chiggers. Particularly useful repellents are those containing diethyltoluamide, dimethyl phthalate, dimethyl carbate ethyl hexanediol and benzyl benzoate. Since these chemical names are difficult to remember or even to pronounce, clip this article and take it with you when you purchase your repellent. Apply the repellent lightly with your fingers to uncovered skin surfaces on arms and legs. Tread socks after you put them on. Run a ring of repellent around openings that are buttoned, zippered or otherwise fastened. On trousers and slacks, treat cuffs and waistband, on shirts and blouses, treat armholes and neck bands. If you go into a chigger-infested place without the protection of a repellent, it is almost certain you will be attacked. If this happens, the experts advise taking a bath as soon as possible. Alternate lathering and rinsing with germicidal soap several times. Next, apply a dab of antiseptic to each wheel to kill any chigger not washed off or killed by the bath. This will also help prevent infection. Destroying the chiggers will reduce the itching, but will not stop it altogether. The fluid injected by the chiggers to dissolve tissue is the itching agent and there is no known way to remove it or to get permanent relief from the itching. Your physician can recommend a local anesthetic for temporary relief. Remember, the quicker you get into a soapy bath after exposure the better. If you can make it within an hour after the attack, chances are good most of them will be killed before they can attach. NEW ADOPTEE FOR FHS

Word has just reached Floydada that the high school student council has a new adoptee, an eight-year-old Korean girl, Jang Hwa Ja.

Last year as a result of the donation of funds from the Ex-student Association the Floydada High School's student body adopted a little Korean orphan boy, Lee Sang Ok. Recently Lee Sang Ok's mother remarried and the hardships which had separated that family were overcome. Jang Hwa Ja, whose name translated "beautiful" is a happy healthy, third grader in her primary school. She was born on September 24, 1952. In the orphanage she has the special care of nursing benches. Her favorite studies are reading and writing. Her favorite play is skipping rope. Wylie Oil Co. Team Defeated At Corsicana

The Wylie Oil Company Cardinals of the Floydada Freshman League lost in their effort at the state tournament at Corsicana last week, being defeated by Temple by a score of 13 - 2.

The local team was obviously nervous in the early parts of the game and could not play their usual fine style of ball. The Temple team, however, was a strong one and it was certainly no disgrace to lose to such a club.

Floydada was carrying the colors of the entire area at the state meet as they had earlier won the district tournament held there when they defeated the Matador entry.

The loss brought to a close the baseball season and the suits will now be stored away until next spring.

SONIC BOOM TROUBLE. Thursday afternoon at 4:35 when a jet zoomed down (or up) the corridor of the Air Force practice range the machine broke the sound barrier just right to play havoc with this window at Floydada Implement Co. Leo Sawyer, manager, is shown inspecting the gaping hole caused by the vibration. One-half of the broken glass fell inside the place, the other portion outside. The chair just barely missed was in use seconds before by Bookkeeper Starks Green. Down the same street items on shelves at Tye Drilling Co. bounced to the floor at the same time. (Staff photo.)

"GRASS ROOTS CAPITALISM"
 The newspapers recently ran a story that I thought was pretty significant. It gave real insight into our American economic system. The story reported that, for the first time, an American business had 2,000,000 owners. This important "first" was achieved by the Bell System, of which my company is a part.

Hugh and Irene Polson of Wichita, Kansas, are the two million shareowner. Pictured with them above are their two youngsters - Kay Louise, 9, and Stephen Hugh, 7.
 The Polsons own and run their own pharmacy. And, even though they keep plenty busy with the drug store and duties at home, they take part in church, PTA and community activities.
 Mr. and Mrs. Polson own ten shares of stock. They bought it as part of an investment plan to send their children to college. Like the Polsons, a great many investors - 335,000, in fact - have fewer than 10 shares. Of the two million shareowners, nearly 850,000 are women and 300,000 are telephone employees.
 This is real evidence of "grassroots capitalism," and I think Mr. and Mrs. Polson typify many of today's "grassroots" investors, who come from all walks of life, from all sections of the country.
 As I said before, here is a truly significant story. Here is the nation's largest business, the Bell System, now owned by 2,000,000 people. Here is a dramatic testimonial to the American economic system. Here is democracy at work—with all the world to see.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

AUSTIN, Tex. — Texas has crossed the great divide of controversy and entered the field of general sales taxation.

To the central collection point for the operation of the state's business, this means some \$320,000,000 in the next two-year period.

To the individual taxpayer, the cost is unknown, but educated guesses already are being made.

James McGraw, research director for the Texas Research League, has estimated it will cost the average Texas family \$25 to \$30 a year, "maybe less."

Passage of the tax bill and the attending publicity caused many a man — and woman — on the street to suddenly realize that there already was a state sales tax on such things as cosmetics and appliances.

Actually, the sales tax bill was only part of the tax package handed down by the lawmakers. In addition to the \$320,000,000 estimated to come from this source, they passed a corporate franchise tax worth \$20,500,000. They increased drivers' license fees by \$7,250,000. They made a bookkeeping transfer of motor fuel tax funds totaling \$4,000,000. They also taxed dedicated gas reserves \$3,330,000. And they passed a bill designed to bring in some \$3,000,000 from abandoned property.

In addition, the Legislature pro-

viously had passed a tax on private clubs, calculated to raise some \$4,000,000.

Roughly, it is figured that all these things will cover the state's needs for the next two-year period, and provide for a school teacher's pay raise of \$810 per year.

ESCHEAT BILL OMMITS BANKS — Gov. Price Daniel won a partial victory in his long fight to tighten the state's escheat law. It's the law under which abandoned cash and property held by private business and industry is supposed to revert to the state.

After several attempts the Legislature passed a bill requiring institutions holding such property to report it to the state. Banks, however, were exempt from the provisions of the bill, much to the dismay of Governor Daniel.

"With everyone else covered," he said, "the banks cannot hold out much longer. The enforcement procedures should include banks and I shall continue to fight for this, both as a principle and as a means for the state to obtain property it already owns under the present escheat law."

PROBLEM AT GATESVILLE — Recent breaks at the Gatesville School for Boys, and the death of an attendant beaten with a baseball bat, have focused attention on that institution which is without walls or barricades of any kind.

A delegation of attendants came to Austin, talked with Governor Daniel and complained that measures which they are allowed to take are too indefinite. They said no attendant is allowed to "discipline" inmates of the mind. Sometimes the boys will mind and sometimes they will not.

Dr. James A. (Jack) Turman, Executive Director of the Texas Youth Council, told the men that changes were being made which would help. A maximum security fence is in the works for the worst offenders.

LEGISLATIVE COUNCIL SWAMPED — The Texas Legislative Council has been requested by the Legislature to look into a host of things which may require new laws.

One request asks a study of the adequacy of the present cattle brand inspection laws. It was pointed out that Texas, unlike many other western states, has no statewide brand registration system, relying on county by county registration which permits duplication of brands.

TLC also has been asked to look into the problem of job discrimination because of age; problems of urban mass transportation; and the feasibility of using state parks as evacuation centers in the event of enemy attack.

HOUSE STREAMLINES — The House of Representatives has voted to do away with more than a third of its committees in order to streamline its operations. House's 43 committees will be re-

duced in the 1963 session to 25 by combining several groups. Seniority would determine the membership of one fourth of each committee.

TEXAS BUSINESS GOOD — Business activity in Texas dropped three percent in June, from an all-time high in May, reports the UT Bureau of Business Research. But it still was seven percent above the level of one year ago.

June activity also was the second highest for any month since the bureau began computing in 1935.

Prospects are fine for good business conditions to extend well into 1962. This partially as a result of the expanded arms program, resulting from the Berlin situation.

However, the agency said there is a possibility of inflation plaguing the economy again.

STATE GUARD STRENGTH REPORTED — With the possibility of calling up the National Guard for active duty, Adjutant General James E. Taylor has been furnished a report on the active strength of the Texas State Guard — 504 officers and enlisted men in active reserve units, and 218 officers in the ready reserve unassigned.

Governor Daniel said of Strain's work on the board: "Dr. Strain's term on the board has been marked by fine progress in the administration of the insurance laws, and he has made lasting contributions to the State of Texas in this field. He has served with distinction and great ability in a highly important position."

Strain joined the board in March of 1958. Formerly he was an associate professor of insurance at the University of Texas.

COLLEGIANS URGED TO STAY WITH IT — Colonel Morris Schwartz, State Director of Selective Service, has advised college students to stay with their studies and not be disturbed by increased draft calls.

He predicted no change in the present policy of not drafting anyone under the age of 22, "and said college students will be considered for scholastic deferment and likely will be deferred if they are full-time students making passing grades."

He reported Texas draft boards currently have more than 8,000 college students deferred on the basis of education.

TEACHERS HONOR NEWSPAPERS — Ten Texas newspapers were honored for public service by The Vocational Agriculture Teachers Association at a meeting in Austin.

Awards went to the Marshall News-Messenger, the Bovina Blade, The Midland Reporter-Telegram, the Colorado County Citizen at Columbus, the Clay County Leader at Henrietta, The Weatherford Daily Herald, The Fredericksburg Standard, the Clifton Record, the Dayton News and the Raymondville Chronicle.

FLAME CROP CULTIVATION FIELD DAY — All phases of flame cultivation research will be observed by visitors on August 23 at the High Plains Research Foundation: The Texas Butane Dealers Association, Maurice Bell, Donna, Texas, is President of the Association and Bill Lawson, Austin, is the Executive Secretary.

Local hosts to the farmers and dealers throughout the state will be Fred Garrison, District Director of the Association, and Bill Taylor, who was instrumental in starting the research projects, both of Plainview; and J. L. "Red" Weathers, Petersburg, Past State President of the Association.

During the afternoon tour, the staff at the Foundation will display the results of flaming on various crops including cotton, grain sorghum, corn, soybeans, sesame, castor beans, sugar beets, and other vegetables.

Dr. T. C. Longnecker, Director of the Foundation, in announcing the date, said that he joined the Association in extending an invitation to all interested in flame cultivation.

SOURCE OF AUTHORITY IN RELIGION
GOD'S WORD ONLY, OR GOD'S WORD PLUS?

What is our source of authority in religion? Is it the word of God, or is it the pronouncement of some man or church? Until religious people can determine this principle, many will continue in hopeless confusion.

After Christ had taught the apostles intensively, He commissioned them to carry on His word. He did not trust their fallible human memories, but for complete accuracy of teaching He promised "the Holy Spirit shall teach you all things, and bring to your remembrance all that I said unto you" (John 14:26). Since they were inspired by the Holy Spirit, their teaching was identical with that of Christ, whether their teaching was oral or written. They were soon inspired to commit their oral teaching to writing, for Paul said, "when ye read, ye can perceive my understanding in the mystery of Christ" (Eph. 3:4). Furthermore, he warned them "not to go beyond the things which are written" (1 Cor. 4:6).

How perfect and complete was this word? Peter said, "his divine power hath granted unto us all things that pertain unto life and godliness" (2 Peter 1:3). James wrote of the message as "the perfect law" (James 1:25). Paul said, "I shrank not from declaring unto you the whole counsel of God" (Acts 20:27) and, "every scripture inspired of God is also profitable for teaching, for reproof, for correction, for instruction which is in righteousness: that the man of God may be complete, furnished completely unto every good work" (2 Tim. 3:16, 17). God's word is perfect and complete.

Not only must we embrace God's perfect law but we must avoid perverted and different gospels. Paul said, "though we, or an angel from heaven, should preach unto you any gospel other than that which we preached unto you, let him be anathema" (Gal. 1:8). A different gospel cannot be accepted even from an apostle or an angel.

When the aged Apostle John finished the Revelation letter, he warned those who would add or subtract (Rev. 22:18, 19). We have now the complete and perfect word, "the faith which was once for all delivered unto the saints" (Jude 3).

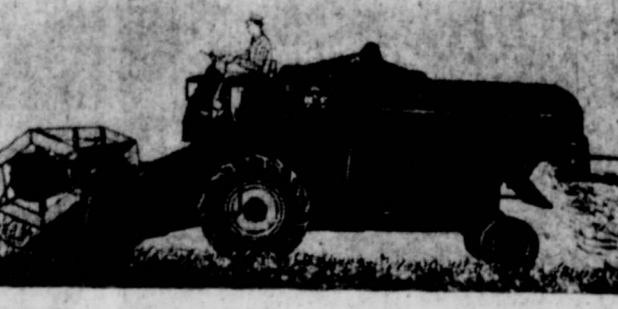

To summarize the teaching of God's word about itself: it is inspired; it is written; it is complete and perfect; it has been once for all delivered; we must avoid prevented gospel; we must not go beyond the things which are written. With this reverent attitude toward God's word, we come with questions: Was any apostle the head of the church? Were the apostles to have successors? Were any to speak by inspiration after the days of the apostles? May infants be baptized? May sprinkling be substituted for immersion? May instrumental music be used in the worship?

To these and similar questions the apostles were empowered to remember all that Jesus taught, and to tell us not to go beyond that which is written. In answer to all the above questions, their silence is eloquent!

Ranch Rodeo Will Be Day Celebration

Rancher who over the Labor Day weekend, September 3rd and 4th. This will be the 17th annual presentation of the "only rodeo of its kind in the nation." All of the contestants are Boys Ranchers and it is the biggest Labor Day celebration of the Golden Spread. All indications are that this will be the fastest, most competitive and thrilling rodeo the boys have ever produced.

Riding professional rodeo stock, boys from eight to 18 will compete for points and prizes in calf, steer, Junior and Senior bull and bronc busting competition. Approximately 90 boys will be competing in two divisions and will ride under R. C. A. rules.

Clowns and trick riders have been carefully selected from among the top riders of the Ranch and they will provide the color and excitement along with other special attraction participants. The hundreds of behind-the-scenes activities of the rodeo will also be handled by the boys themselves.

More than 7000 people witnessed the rodeo last year and an even larger attendance is expected for the two performances this year. Special seating arrangements will enable spectators to watch the rodeo under the large shade trees of the Ranch, and ample parking areas will be provided for cars.

Performances will be held at 2:30 on Sunday and Monday afternoons. Admission will be 75 cents for children and \$1.50 for adults. Proceeds will go to help the Boys Ranch expansion program.

The Galveston News - Extra

MILITARY

The five German companies attached to the first regiment of Galveston Volunteers, have withdrawn from it, and formed a battalion, commanded by Lieut. Col. Oswald and Major Otto Bruch, the former officer having resigned as Major of the Regiment, when Col. Sheldon resigned. We understand it is the intention to raise three more companies, in order to form a German regiment.

We are also informed that the other infantry companies—those that were of the Regiment and those that were unattached—are taking steps to organize as a Regiment. We trust this will be done. Without battalion or regimental organization, our volunteers, however zealous and well drilled, would be, if our inland were suddenly invaded, almost as much in their own way as would be the enemy. The Confederate officer in command could not be expected to have a dozen aides to camp to convey orders to them (let alone the regiment of infantry and the artillery companies he will have enlisted for the war.) and he will certainly require at least that number should, some sixteen or twenty independent companies,

be called suddenly to the field, waiting his orders. A regimental organization is therefore imperatively necessary; and we trust, for the sake of the efficiency of the companies and the causes they have volunteered for, that none but capable, experienced, and energetic officers will be chosen.

THE INDIAN NATION

A correspondent of the Rusk Enquirer writes, on the 15th ult., from Col. Greer's camp: I have seen several inhabitants of this nation, the Chickasaws, and learn from the consummation of the treaty between the Confederate States and the native Chickasaws, the Creeks, and the Seminoles, and the Choctaws, recently at Norfolk town in the Creek nation. The Confederate States, among other things, agree to pay them their usual annuities and allow them to sectionize their country. They seem to be well pleased. Governor Harris, of this nation, will issue his proclamation in a day or two.

The Cherokees refused to enter into the treaty by not attending the council. Ross, their Chief, is not a sympathizer with us, though an influential Indian in the nation says that he can and will, in spite of Ross, raise five thousand warriors for the Confederate States.

It's true. On the average, it takes two hours a day to wade through three stacks of dishes—breakfast—lunch and dinner. That comes out to 730 hours a year. And, friends, that's a month. A month of full 24 hour days.

Don't be a drudge and do dishes — and lose a month a year. "Dial" dishes in an electric dishwasher and enjoy life all year long.
