Hardin Rites Conducted At Lockney Church

Funeral rites for Ray Forrest Hardin, peace officer for Floyd County, were held Sunday afternoon in the Main Street Church of Christ in Lockney. Services were conducted by S. A. Freeman, minister, assisted by Paul Epps of Plainview.

Burial was in Lockney Cemetery under the direction of Carter Funeral Home. Pallbearers were members of the Floyd County Peace force, Walter Hollums, Lowell Bilibrey, Truett Bilibrey, C. Reed, Foster Amburn and Alton May.

Deputy Sheriff Hardin died in the Grady Memorial Hospital at Chickasha, Okla., at 5:30 p.m. Friday afternoon. He had been a patient for 11 days, taken there after suffering a coronary thrombosis at the home of a sister in Alex, Okla., Mr. and Mrs. Hardin had been on sales and gone to Oklahoma to attend a family reunion when he was made on or before stricken.

He had been a peace officer since 1936 working in Lamesa, Snyder, Brownwood, Floydada and Lockney. Hardin was a veteran of World War I. He was born October 11, 1895 in Eastland County, Tex., and was married January 25, 1920.

Survivors include his wife, Mattie Woody Hardin, of the Lockney home; two daughters, Mrs. Harry Hamlin, Lamesa, and Mrs. Carl Everett, Victoria; seven grandchildren; two brothers, Claude Hardin of Dallas and Joe Hardin of Tulsa, Calif.; and two sisters, Mrs. John Kitchens, Alex, Okla., and Mrs. Pat Stanley, Tulsa, Okla.

Jury Favors Land Owner Over Oilman

A Floyd County petit jury last week found in favor of the land owner in a suit against an oilman in which relief was sought for damage to the owner's land when a wildcat oil test struck a pocket of air that spewed salt water over the land.

The plaintiffs were Minnie Carpenter and husband, who own land in the southwest corner of the county near Allmon, and the defendant was W. W. West, a Midland oil operator. West was drilling on a geological formation for oil, seeking offset production to wells already producing in that area.

The trial began Tuesday and came to an end Friday afternoon late. The jury returned its verdict about 7:30 o'clock Friday night.

The carpenters were awarded \$4,687.50 by the jury's verdict. The suit dates back to an unusual occurrence in 1956 when a wildcat oil test struck a pocket of air that spewed salt water over the area of 50 to 80 acres, according to the estimates of witnesses here last week.

The drillers finally got the air pocket mudded off and went back into the hole to working again when finished their contract. West, it appears, is a double loser. In a suit tried in 99th District Court at Lubbock, in which he sought redress from drillers, a jury found against him, indicating that the driller had used due diligence in attempting to stop flow of air and salt water, arriving at exactly an opposite conclusion to that of the jury here last week.

Judgment in the case had not been entered this mid-week.

Eighteen Locations Reported Chosen In County's Bounds

Drilling rigs, seven of them coring machines, and four straight drilling rigs which log the formations through which the drills pierce, have been in operation in this area, under contracts with the Defense Department, according to unofficial but reliable information. The Hesperian is able to obtain this week.

C. C. Smith Drilling Co., of Lubbock and General Exploration of Dallas, are two of the firms which have contracts.

Commissioners Adopt County Budget, 1962

Floyd County Commissioners in the budget submitted by Judge J. D. McBrien and Auditor O. M. Watson Jr., and approved by the court Monday, anticipates that 1962 financial needs of the county will be \$404,174.30, and of the county library \$8,514, and that these figures will include \$13,446.88 to be deducted as treasurer's commissions, leaving a net of \$399,251.42.

Expenditures itemized include the jury fund, roads and bridges, general fund, permanent, improvements, officers salaries, and interest and sinking funds.

The total of the beginning of the year balances it is estimated will be \$136,604.00, the figures not including the funds needed to be used to meet the expenditures for right-of-way now in process of being spent for Highway 70 improvement.

There were no citizens present at the time set for the hearing and no public discussion.

Outstanding Debts

Outstanding indebtedness of the county, \$1,000 of which dated back to 1931, stood at \$789,000 as of January 1, 1959, which will be paid by the year of 1962.

The total operating fund rates is put at 95 cents on the \$100 valuation, divided as follows: Jury fund 3 c; Roads and bridge 35 cents; general 35c; permanent improvement 17c, library 5c.

Interest and sinking fund requirements will include 18c for the special road fund 1948, 17 cents for the special road fund 1958, and 10 cents for the court house sinking fund, the total county-wide rate being \$1.40.

These figures do not include common school district tax rates, water district tax rates nor need control district tax rates, which are administered by authorities other than the Commissioners' Court.

Rotary Hosts Teachers Of City Tonight

Tonight, when the men of Floydada Rotary Club and their ladies entertain for the teachers and officials of Floydada Public Schools, they will have as their principal speaker, Earl Collister, a scientist from the Research Foundation at Halfway. "Food for Peace" will be his subject.

Aldine Williams, program chairman for the evening, expects an attendance of 200 to 220 persons. Faculty members, school board members, and their spouses will be honored guests.

The event, staged to promote acquaintanceship between club members and teachers, each with the other, as well as to introduce new members of the faculty, is a pleasant custom which the club has observed for years.

Meeting hour will be 7:30 this evening, Thursday, the place the high school cafeteria.

Collister, a native of Henry Co., Ill., is a graduate of Purdue U. He has BS and MS degrees and also is a doctor of philosophy. His first Texas connection was at the Research Foundation at Renton, and prior to his connection with the Research Foundation at Halfway in 1959, he also spent some time in Cuba as a research consultant. He is chief agronomist at Halfway.

CHECK FOR \$100 for the first bale of 1961 cotton, produced in Floyd County was presented Bernie Parkey, of Muncy, Monday, by W. W. Trapp, first bale chairman-member of the Agriculture Committee, Floydada Chamber of Commerce. The presentation was made at the southwest corner of the square with Scott Gin manager, J. T. Hodges, center, an interested spectator. The Scott Gin processed the 560-pound bale, ginning and wrapping free to the lucky winner. (Staff photo).

REMEMBER WELL THE LESSON

Not since the Galveston flood caught coastal residents unaware 60 years ago have the elements dealt such a crushing blow to the coast of Texas.

CONVENTION AMIDST CONFUSION

Citrus and vegetable growers and shippers, due to meet in Houston in annual convention beginning today probably are finding a city somewhat staggering from the onslaught of the storm.

PROFITABLE VEGETABLE PRODUCTION

The vegetable and citrus growers industry in Texas has two directors located on the plains. Of these one resides at Plainview, the other at Hereford.

In this connection, there seems no doubt that many plains people will find it profitable to "edge" into vegetable production in one manner or another.

We have a friend who says that the in and out probably would be loser but the steady grower would find such a practice worthwhile.

WHAT BECOMES OF THE QUAIL?

Dove hunters find a lot of quail in September that are not there when they go back in the open season in December and January, which makes one speculate on where they may have gone.

If the natural enemies, or the weather or epidemic take such a high toll, the conclusion is logical that the open season should be changed, so as to let the hunter slay and consume the birds instead of losing them to the elements or varmints.

COTTON TAIL NUMBERS INCREASE

A little thing that denotes a change in the cycle of plains habitation is the increase in the numbers of cotton tail rabbits one sees as he gets about.

But while the cotton tail seems to thrive under the new conditions the jackrabbit, like his fellow ruffian, the jackass, does not cotton to the new way of life.

THE SOCIAL SECURITY MAN

In case you need to know, the next visit of the representative of the Social Security Administration to Floydada will be on Monday, Sept. 18, at 9:30.

COX CHANGES HORSES

Jack Cox, the Breckenridge man who ran for the governorship last year and got a sizeable vote as a Democrat, has now switched his political allegiance.

Early fall weather on the high plains of Texas has been ideal for the time of the year. Even with Carla whipping out into the low coastal prairies of the state after lashing the coast line with great fury, its influence is being barely felt at this great distance.

Mergers. Coming so thick and fast now that one doesn't know one week with whom he will be doing business next week, are the mergers, big fish eating up the little ones so as to get "diversification."

A New Angle. One instance we have in mind is a considerable corporation which was building a machine that cut out an expensive operation in the production of type for the pages of a newspaper.

The Winner. Mankind has been at war with the insect world since the dawn of time. A biblical instance of a former era is recorded of the scourge of locusts that visited Egypt.

Modern Miracles. Since man first learned that combustion of a solid material would create warmth for his cave and thus make life easier, the "miracles" have been succeeding each other.

Adjustments. These miracles, in turn, made problems of employment. How many men, would you guess, the wheel put out of employment?

When the steam engine came along in the early 18 hundreds there was much muttering. An old-fashioned "classic" is "John Halifax, Gentleman", story of an employer who had to meet the problem created by the displacement of hand power by steam.

What next? And how will the present displacement problems be met? It has worked out in the past. Is this the insurmountable one?

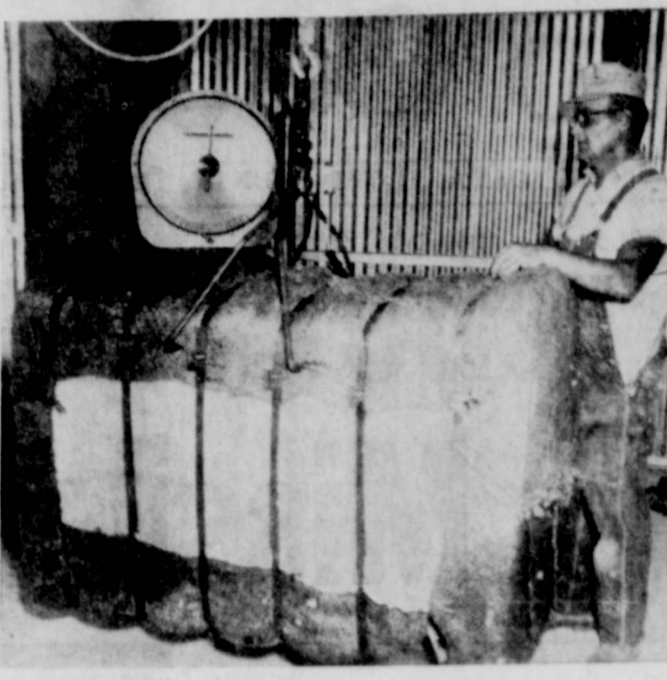

District 2AA Teams Break Even In Week

After two weeks of play district 2AA teams are all even in the won lost columns with five wins, one tie and five losses.

Leading the pack at present and the only team with more than one win is Morton which is nailed down a pair of victories.

The Indians, last year's cellar club, have wins of 22 - 14 over Sudan and 39 - 16 over Whiteface.

Glad's Mens Store has been in the store reopened for business in Floydada since 1900. The store in August after extensive remodeling both inside and out. At that time Glad Norman told Snodgrass and gained fame over the press he planned to hold off a wide section of West Texas as for a time, until his stock of fall head-quarters for well dressed and winter merchandise was complete. Now it is still "Glad's" but complete, before holding the opening this time it is Glad Norman grand-nephew of the founder who is operating the attractive and popularity — the big door prize. It is a big portable TV set and visitors are invited to register with our obligation for a chance at

Bite Is Made On Delinquent Collections

City of Floydada's stepped up effort at the collection of delinquent taxes has borne some fruit during the months of June, July and August, records at the city clerk's office disclose. In that period \$2,138.62 has been rung up on the municipality's cash register. However, the delinquent roll still represents a pile of money, if it could be collected, and that is what the city council is going to continue to attempt. Delinquent taxes outstanding by 1937 and Prior Years — \$755.95 1938 — \$201.27 1939 — \$212.89 1940 — \$322.40 1941 — \$256.68 1942 — \$483.32 1943 — \$489.79 1944 — \$22.67 1945 — \$435.00 1946 — \$379.97 1947 — \$319.22 1948 — \$440.50 1949 — \$446.81 1950 — \$500.51 1951 — \$525.02 1952 — \$889.90 1953 — \$898.13 1954 — \$1,111.95 1955 — \$1,453.36 1956 — \$1,405.90 1957 — \$1,15.40 1958 — \$912.01 1959 — \$2,430.45 1960 — \$3,727.71 Total — \$19,787.01

FOOTBALL

(Continued From Page 1)
Last Friday night the Rabbits added the scalp of O'Donnell, a team they defeated 14-6. Coach Chastain's Jackrabbits will be wearing white jerseys with maroon numerals and the "Winds" will be dressed in green jerseys with white numerals. The offensive punch of the Ralls team is built around big Charles Edwards, a 180-pound senior full-back who is a good ball carrier, blocker and a fine defense man. The Ralls starters usually include ends Danny Moore 155 and Donny Moore 155; tackles Valton Osborne 175 and Larren Huddleston 190; guards James Jester 150 and Wayne Sanders 175; center Dwight Gray 175. In the backfield with fullback Charles Edwards are quarterback Rudy Esparza 130, halfbacks Danny McDuff 155 and Eugene Deering 165. The Jackrabbits always play their best ball of the season against Floydada and this is especially so when the teams meet in Ralls. This year they

Huge Storage Plant Opened At Petersburg

One of the biggest grain storage plants to be opened in this part of the high plains this season was being completed last weekend at Petersburg by Blue Star Elevator and Grain Storage Co. where storage was begun in a plant having a capacity of 665,000 bushels. The new plant in the north out-water damage. They rode out the storm at Victoria, where damages were estimated at \$100,000. A Floydada couple who were in the edge of the storm returned here were Mr. and Mrs. Leo Burns and two companions, they were at New Orleans for a car showing and on Friday drove over to Mississippi where flood waters were already on the rampage. Saturday at noon they left New Orleans in attempt to take the coast highway back home but man J. B. Robertson will be man-Storage steel plant, uses a new way to Beaumont after hearing of the severe storm. They could find available rooms there only at Woodville, 36 miles away. It took them two and half hours to drive the distance due to bumper traffic. They made it to Palestine before they found a vacancy. On the trip home they noticed all businesses on the highways boarded up bracing for the storm. Port Arthur looked like a ghost town to them, not a single person around. The four enjoyed a nice breakfast Saturday morning but were unable to find an eating place again until that night. They talked with many refugees along the way. Roadside parks were full of cars and people and traffic thick all the way to Dallas, they said.

cently to wait until October to return. They have been here the couple feel lucky they were in Floydada. Port Aransas was hard hit. The business district located on the waterfront is gone, no business places left except two grocery stores. Houses, however, stood up well inland only suffering water damage and light wind damage. The causeway connecting Port Aransas with Aransas Pass, which was completed only last year, was lost in the storm. Many people working together have made the fair a success and

TEC Estimate 1,125 Braceros County's Need

Four Floyd County citizens Judge J. D. McBrien, Jim Simpson, Rev. Ramon R. Asebedo and J. W. Reue, County Farm Labor Committee, met with Mr. W. E. Day, Manager of the Texas Employment Commission office, to review the total seasonal employment needs developed by the TEC. The Committee will function under Public Law 78, obtaining domestic farm workers existing in Floyd County and the shortage of workers, if any, which must be met by importing Mexican Nationals to harvest the cotton crop. Under Public Law 78, the TEC must supply this information to the Secretary of Labor who must limit the number of Mexican Nationals to be used in this county by granting a "ceiling." The Committee consults with the Local Office Manager to assist him in estimating the number of workers who will be needed, based on current local conditions affecting the cotton crop. "Ceilings" granted by the Secretary of Labor limiting the immigration of Mexican Nationals into this area will be posted in Post Offices in Floydada, Lockney, in the County Agent's Office and in the Courthouse.

Scooter and Dog Collision Puts Boy In Stitches

Tommye Weathersbee, son of Mr. and Mrs. Claude Weathersbee, is home this week recuperating from facial injuries sustained Monday afternoon in a scooter accident a few blocks from the family home. Tommye is reported by his mother to be resting well but suffering some pain. Young Weathersbee was riding a scooter which he had purchased only a month ago, from savings he had earned over the past two years. Tommye said he tried his best to stop when a dog ran across the paved road in front of him and flipped the vehicle. Tommye skid across the pavement. He was taken to Peoples Hospital by a witness to the accident. Mrs. Weathersbee said some 20 stitches were taken in her son's face, starting from the left eye, above, and across his cheek. Both knees and arms were skinned also and numerous other bruises were suffered by the youngster. Plastic surgery is planned in the future. The accident will put Tommye out of football for a spell but he was able to attend the game his Junior team played Tuesday night with Plainview.

Largest Farm Lenders; Reports on Credit Need

banks were serving farm mortgages. At the same time, \$321-million in farm loans was held by life insurance companies; \$236-million by the Federal Land Bank; \$121-million by Production Credit Associations; and \$58-million in non-real-estate loans plus \$35-million in real estate loans by the Farm Home Administration. About 65 per cent of the production credit extended by lending institutions to Texas farmers and ranchers came from banks.

\$200 Billion Industry

Mr. Norman said that "farming nationally is a \$200-billion industry which means that an average farm represents better than a \$50,000 investment, with many commercial family-type operations running well above this figure. Capital requirements to operate today's farm businesses are increasing and farmers are finding a greater need for the use of borrowed funds. To meet this changing need, banks in Texas have the job of seeing that the legitimate credit needs of farmers and ranchers are met on terms which will bring returns to both borrower and lender and strengthen the economy.

"While farmers have not been sharing fully, for a period of years, in the relatively favorable national income, agriculture is not insolvent. Bank farm loan de-

liquencies are very low and farmers' equities generally are in a favorable position.

"As a further service to help farmers and ranchers keep pace with increased mechanization and technology, about one-third of all bank agricultural loans have a repayment program longer than one year.

Mr. Norman believes that "farmers, ranchers, and bankers working together in this way help make Texas agriculture more prosperous." He reported that 92 per cent of the insured commercial banks in the state are serving agriculture's credit needs.

TWINS

Survey is part of a national program to locate possible fallout shelter space in existing buildings, tunnels and other protected areas.

During the four year nuclear test ban, radioactivity got progressively lower. Before the tests were stopped, engineers said it was 50 to 100 times higher. They expect results of Russian shots to begin showing up here within the next few days.

Meanwhile, Gov. Price Daniel announced a survey is being launched in Texas to make fallout shelter space available over the state. He said Col. R. Paul West of the U. S. Army Engineers at Fort Worth, who has been assigned to survey, will work in coordination with the State Civil Defense and Disaster Relief Division and local civil defense officials.

He reported poultry prices dropped in the past week to as low as 10.5 cents per pound, or as much as five cents below cost for many producers.

Meanwhile, the Attorney General's Department is studying the record of a special court of inquiry to determine if anti-trust violations are involved in the price decline.

LOAN COMPANIES CLEARED OF ANTI-TRUST CHARGE — A civil anti-trust suit alleging 31 loan companies conspired to push punitive small loan laws through the Texas Legislature has been dismissed by Federal Judge Ben Rice Jr. in Austin.

and operating costs, crude pur-chasers should be thinking of some price increase," he said.

"I hope these and other purchasers will consider the plight of the domestic industry in their future actions," he concluded.

DEMOCRAT TURNS REPUBLICAN — Jack Cox of Breckenridge, former member of the Texas House of Representatives who ran as a democrat for Governor in 1960, announced he is enlisting in the Republican Party "as a buck private."

Suit, filed by J. L. House Jr. who operates a small loan business in Waco and other cities charged that large Texas and out-of-state loan companies conspired to secure enactment of laws that would "destroy the small loan business of the plaintiff and all others similarly situated."

Judge Rice held the allegations did not show sufficient cause against the defendant companies to warrant a court trial.

CALL NO MAN FATHER
Jesus taught His disciples, "Be not ye called Rabbi; for one is your teacher, and all ye are brethren. And call no man your father on the earth: for one is your Father, even he who is in heaven. Neither be ye called masters; for one is your master, even the Christ. But he that is greatest among you shall be your servant" (Matt. 23:8-11).

Mt. Blanco News

By Karen Watson
(Intended for Issue of Sept. 7.)
MT. BLANCO, September 4 — Rev. Holt Sodeman preached both sermons at the church Sunday. Church attendance was still low Sunday because there were still families out of the community. There are others who are sick. Visitors for the Sunday morning services were Artis, Charles, and Gary Payne of Lubbock. They are the grandsons of Mr. and Mrs. R. E. Spurgin.

Saturday Mrs. Millard Watson, Karen, Sherry, and Dean visited in Lubbock with Mr. and Mrs. J. H. Watson.
Mr. and Mrs. Brice Allen and Judy visited in the home of Mr. and Mrs. Weldon McClure Saturday evening.
Sunday dinner guests and afternoon visitors in the home of Mr. and Mrs. S. G. Appling were Mr. and Mrs. Gene Miller and chil-

Another lesson which our Lord teaches here, is that no man is implicitly to receive the sayings, doctrines, and decisions of any man or number of men, in the things which concern the interests of his immortal soul. Christ and His word are the only infallible teachers. Every man who wishes to save his soul must search the Scriptures by prayer and faith; hear the discourses of the wise and holy; but let the book of God be the rule of faith and practice. God's Word does not need to be interpreted. It needs to be believed and practiced.

IT IS OUR BELIEF THAT . . .

- A customer is the most important person in our office . . . in person or by mail.
- He is not dependent on us . . . we are dependent on him.
- He is not an interruption of our work . . . he is the purpose of it.
- We are not doing him a favor by serving him . . . he is doing us a favor by giving us the opportunity to do so.
- He is not an outsider to our business . . . he is part of it.
- He is not a cold statistic . . . he is a flesh-and-blood human being with feelings and emotions like our own.
- He is not someone to argue and match wits with! Nobody ever won an argument with a customer.
- He is a customer who brings us his wants . . . it is our job to handle them profitably to him and to ourselves.

We Really Believe In This Policy.
We Have Proved It To Others . . . Come In . . .
Let Us Prove It To You!

We earnestly solicit and desire your business and ask of you only to give us a try.
