## Floyd County Buildings To Be Seen Soon

An intensive fall out shelter survey in 33 counties of West Texas including Floyd, was launched Wednesday to determine the number and the location of existing buildings that can be designated as public fallout shelters, according to minimum standards set up by Civil Defense.

First of the 33 counties to have the survey will be Lubbock, where the search was started yesterday and Hale, Lamb and Floyd Counties. All of the 33 counties will be studied before the end of April.

This development came in an announcement made at a meeting in Lubbock Monday afternoon, when more than 100 persons heard the plans laid out by Roland C. Haun, Santa Fe, N. Mex., regional civil defense representative of the secretary of defense, and D. L. Orendorff, assistant chief engineering division for fall out shelter, U. S. Army Corps of Engineers, Albuquerque, N. Mex. Orendorff's district covers all of New Mexico and 133 counties in West Texas.

**New Grower Cotton**

Matters of imminent interest at the ASC office this week include:

February 16, 1962 has been established as the final date on which farm owners or farm operators may file applications for new farm cotton allotments for 1962. To be eligible for a new grower allotment, neither the operator or owner of the farm covered by the application may own or operate any other farm for which a cotton allotment is established for the current crop year.

**1962 ACP**

Applications under the 1962 ACP are now being taken for approved practices. Rates of cost-sharing and specifications will be mailed all operators in the next few days. The county committee has established a \$100.00 as the limit of cost-sharing to be earned by any one person or per farm.

## Weather Relents Trend Is Warmer

Although temperatures have been higher in Floyd County this week the ground is still frozen several inches, what without water over the weekend many hours out of every 24 recording freezing or below.

Highs and lows in the week since the deep freeze have been as follows:

Friday morning it was 13 degrees for a low and the high was 52. Saturday's low was 22, high 58; Sunday's low, 20, high 44; Monday's low 18, high 52; Tuesday's low, 23, high 39; yesterday's low was 24 and at mid-morning the temperature had reached 36 degrees.

With weather turning warmer by Friday plumbers in Floydada were being swamped with calls for help.

Mrs. Kearney Edmiston said Friday by noon the phone was busy with calls from home owners saying their pipes had burst, some reporting their hot water heaters also burst. The plumbers said Saturday was an even busier day, what with a continuing thaw.

The low temperatures caused greater discomfort than actual damage, according to some reports. However, the city servicemen are experiencing a little of both. A number of water meters were frozen and almost the same number were broken Friday.

EMERGENCY BLANKET APPEAL

In our memory there has always been an emergency somewhere in the world in some far away land, where people were cold or hungry and needed succor desperately.

ALWAYS HELPING OTHER PEOPLE

All of this, no doubt, was fact. We recall how we wished for some money to send the starving people. It wasn't money they needed. It was food, clothing, a means of keeping warm, but money could buy these.

We find people still that way in our country. Our people have not yet, since shortly after the Civil War, related lack of money to lack of something to eat—the danger of lacking food and cover.

DO NOT EXPECT REWARD

No less now than always, perhaps even more demanding are times. War victims, hurricane victims, refugees, earthquake victims, migrants, hospitals without medicine and equipment, the need is almost monotonous.

Right now Church World Service, Inc., is appealing for blankets (or quilts, comforts, afghans) for people in distress in 25 countries, a large percent of whom are in lands where American prestige and influence is low.

"The shivering refugees of the world await your help," a million pounds of blankets needed. And, should you help, remember not to expect appreciation of your country as the country of its origin.

EUROPEAN COMMON MARKET

After many centuries of going it alone—centuries of battles, economic as well as military, the European Common Market is emerging in Europe.

TEAM WORK IS EMERGING

The change is coming about through the cooperation of the various nations affected, Germany, France, Italy, The Netherlands, and others we cannot name for the moment.

In a general business way the result will be a union of these countries so that their business people can trade as freely among themselves as two American states—Texas and New Mexico to illustrate—without tariff and other barriers.

THE JOB OF ADJUSTING

Adjusting to this new competition will be easier for agricultural communities than for the tight-wound industrial communities. It will make, is already making, Big Steel look for its "hole card".

SURVEY IS A GOOD IDEA

To look around to see what you can do, what you should do, and how you can do it, is a much better approach to any problem than to begin thrashing around, spending time and energy, possibly wasting both, in hysteria.

This apropos the announcement of a survey of possible shelters against fall out the federal government is going to conduct nationwide, beginning in the most vulnerable areas first.

An encouraging feature of the survey is that it is to be conducted by agencies of the government already in being. Results are more likely to be common sense. They will be based on what we think is fact, as far as it is possible for informed people to determine.

BEGINNINGS ARE IMMINENT

The assumption of the nuclear theorists and the engineers is that the Roswell installation will be the target of any first round attack in this part of the country, and that the prevailing winds will bring fall out from explosions eastward.

The practical means we have, or if lacking, should begin to bring into being to make survival possible, is the problem. Surveys will begin immediately, if the word of a bureaucrat can be taken at face value.

"I have lived long, a long time, and the longer I live the more convincing proof I see of the truth that God governs in the affairs of men."

—Benjamin Franklin, Constitutional Convention, 1787

Murphy's Law. We've often heard of the law of the cussedness of things, called Murphy's law, but we've never read it in a book. Recently we ran across the printer's version of it, which goes like this: If a typesetting machine can fail, it will.

Another whiskered One. The old man sat in his doorway, lonely and glum and sad... the flies kept buzzing about him, led by a blue-winged gad...

About Experience. A friend says that experience is like a comb presented to the man who has lost his hair.

To Our Creditors. Glen Shelton, clever word slinger who writes for the Wichita Falls News-Record, expresses our January sentiments beautifully in an ode to creditors.

Cold Misery. An AP writer sums up the tremendous wintry blast that hit the country last week: "Seldom have winter's miseries plagued so many regions at one time."

Volume LXVIII. This week, according to the types, is the beginning number of the 68th volume of The Hesperian, and if one didn't know better he'd think that is the way it is.

What happened? What made the volume beginning change from March to January? Was it the calendar? It was not the calendar.

Time Heals. The 11 weeks difference is due to carelessness or ignorance sometime back there. When we discovered what we or some one else had done several years ago, we recalled we once had a printer, a good old boy, who did not know what volume and number meant.

# Missionary Families Hold Reunion

Floyd County Hesperian, Floydada, Tex., Thursday, Jan. 18, 1967

## Men And Women At Work

The reunion was all too brief, according to the Ewing family, but time was limited and each preacher had to resume his church duties.

**Expected Here in February**

Mrs. Ewing is expecting her parents out in this area next month for a visit before going to California where they will spend some time with the other daughter and her family. Upon departing from the states Mr. and Mrs. Short will travel to Bulawayo, Africa, to resume their missionary work.

The couple have served in the African Mission field for 4 years and call that their home. Mr. Short has limited the heavy work due to his age (both he and his wife are near 70) but still holds services each Sunday, teaches scripture, and translates song books and bibles into African dialects.

Mrs. Ewing said he was asked in Alabama, "wasn't he afraid of the natives there?" His answer was "No, he felt safer in Africa with the natives than he did driving down the highways in the U.S."

He remarked that the fast pace in the states did not agree with him.

Mrs. Short had to contend with pioneer living in Africa in the early days as some have here but has modern conveniences now.

The son, Foy and his family, are missionaries in Southern Africa. Bill, who will complete his ministry soon, plans to follow in his father's and older brother's footsteps.

Mr. and Mrs. Ewing also have had experience in missionary work in Africa. Before coming to Floydada where he is minister of the Church of Christ, they lived in Africa where two of their children were born.

Birthdays were celebrated for Rhonda who was six years old and Jimmie who was one year old on January 10.

On the return trip Mrs. Alexander was a guest of her nephew Eddie Ellis, Charlotte Graham, W. M. Jackson and family, of Dallas while Mrs. Edwards visited her nephew, R. L. Stovall and family, also of Dallas.

Mrs. Edwards said Florida's citrus crop suffered a great loss due to the unusual cold weather. At New Orleans the temperature was 18 and the heavy ice on the highways caused them to be very hazardous.

Would you take it? You bet you would! You'd have to be loco to turn that one down. Well, what are you waiting for? Do you know that Lighthouse offers that kind of a deal to you all the time?

**Something to Think About:**  
It has been said: The thing that goes the farthest toward making life worth while, that costs the least and does the most, is just a pleasant smile.

**The Use of Electricity**  
More and more rural families are using electric heat. Home owners are converting to it, contractors are installing it. It is said 400,000 or more rural families are enjoying electric heating. It is also said to be gaining popularity in the cities.

Those who have electric heat are finding that light-colored walls, draperies, upholstered furniture and carpeting are practical because electric heat leaves no grime to dull the colors, thus presenting less cleaning problems.

Electric heating also gives a wide variety of room arrangements, because the furniture can be placed anywhere in the room because there are no radiators or ducts in the way. Another nice feature—there is no dried-out air to warp good woods or ruin valuable furniture.

Electric heating is comfortable. You heat only the rooms you want heated at the exact temperature you want them.

There is no furnace repair or servicing to worry about. No annual upkeep cost to pay. After a survey of electrically heated homes in Iowa, Naomi Shank, Extension Specialist in Home Management, Iowa State University, said families with electric heating repeatedly commented on the fact they have fewer colds and less coughing. She stated further that, although there is no medical proof, people with arthritis and high blood pressure indicated less discomfort with electric heating.

**Births**

The Dallas jewel thief who has made headlines off and on for several years set a new record in 1961. He entered 10 homes, robbed 10 jewel boxes, eluded police 10 times. Add these to his 12 previous successful adventures and he measures out as quite a man.

This fellow has courage, for he often enters a bedroom where the residents are sleeping. He has a spirit of adventure, for he keeps police guessing, at great risk to his personal freedom. He has both skill and cunning, for he never leaves fingerprints, trips over a light cord, makes a noise, or sells jewels where they can be traced.

He understands people, for he knows where to go and when, confides in no one. He has some marks of the gentleman taking only a part of the loot each time, stealing nothing but non-essential luxuries, causing no destructive vandalism, performing no sadistic acts. He has an intelligent alertness, or he would have been caught long since.

With all of these admirable traits, why does he do it? The same amount of energy and personal daring, directed into constructive pursuits, could conquer worlds, save lives, aid the poor. Wouldn't feeling out of step with decent people, knowing such a career leads eventually to disgrace and contempt, cheapen the glory of punishing insurance companies and outwitting taxpayers and cops?

Such ridiculous carryings-on must yield an intelligent person hours of remorse or shame for every minute of excitement gained. In this case, we pity the victimizer more than the victims. With such talents, he could have been worthwhile!

### Sam D. Hunter Died Saturday At Home Here

Heart failure claimed the life of Sam D. Hunter, Sr., 75, at 2 a.m. Saturday at the family home on Jeffie Street. Mr. Hunter had been in failing health for a number of years and seriously ill the past few months.

He was a native of Georgia, born on July 23, 1886, and an old timer of Matley County, before moving to Floyd County three years ago in May he and Mrs. Hunter had resided at Rousing Springs for 36 years. Mr. Hunter was a retired farmer and a member of the Methodist Church.

He and the former Edna Turner were married in Paris, Tex., on April 8, 1917. The couple have three sons, Turner Hunter, Floydada, Sam D. Hunter Jr., Iowa Park, and John R. Hunter of Lubbock; two daughters, Mrs. Doris Thacker of Lockney and Mrs. Jack Chastain of Lubbock; also nine grandchildren.

Mr. Hunter was the last surviving member of his family. Funeral rites were conducted Sunday in the First Christian Church in Floydada with Rev. Paul Fallentin officiating, assisted by Rev. W. B. Vaughn of Matador. Interment was in Floydada Cemetery under the direction of Harmon Funeral Home.

Funeralbearers were B. K. Bark Jr., Billy Brown, Johnny Collins, Gene Collins Jr., L. T. Dycus and E. M. Jackson.

### Fallout Shelter

(Continued from page 1)

that the survey phase will be completed by April 15.

The second phase scheduled to be finished by June 30, will include marking shelters and estimating the cost of bringing the

shelters up to allowable specifications.

**The Minimum Requirements**

Minimum requirements for a building to be a public fallout shelter are:

A protection factor of 20 (which means a person in the shelter would receive no more than 1-20th the amount of radiation he would receive were he outside).

A 50-person capacity.

Ten square feet of floor space per person.

Headroom of at least 6½ feet.

Storage space of at least one cubic foot per person for food, water, medical and sanitation supplies, radiation instruments and tools.

Specified ventilation and lighting requirements.

Also discussed at the meeting were the responsibilities of city and county officials in the public shelter program.

These officials are required to designate a suitable warehouse for emergency goods, obtain signed agreements from building owners, draw up shelter utilization plans and insure that shelters are stocked at the completion of phase one of the program.

While the preliminary survey is under way, the Office of Civil Defense will provide emergency supplies to local authorities in the ratio of one cubic foot for 10 percent of the total population.

Under this arrangement Floyd County would receive 1,236.9 cubic feet of supplies, presumably in the near future. This was not definitely stated. It may be the county will receive these supplies after a building that will qualify has been designated.

What course the government will follow after the surveys are completed and existing conditions determined is conjectural. A bill now in the hopper at Washington would make available to local organizations funds with which to incorporate fallout shelters into plans for schools or other non-profit buildings.

### HOMEMAKING HINTS

By Phyllis Roggendorf, County Home Demonstration Agent

#### Very Hot Water and Disinfectant Necessary to Kill Staph Bacteria

Many bacteria can be killed in the washing machine, but the Department of Agriculture recently found that staph and other drug-resistant bacteria survive in warm, rather than boiling hot, washing machine temperature that everyone uses these days. The need to find a way to disinfect the home laundry is so short of returning to the old method of boiling clothes is particularly important for families who use coin-operated machines and for those with diseases caused by the staph bacteria.

Dr. Ethel McNeil of the Clothing and Housing Research Division of the Agriculture Department after three years of research has proved that two disinfectants kill staph bacteria when added to the wash. They can also be used to disinfect bath tubs, floors and other parts of the house and its furnishings.

#### Not Easy to Find

So far it is not easy to find the agents in the form usable in the home. The January issue of Changing Times Magazine reports that products containing one of them are Roccal, found in janitor and dairy supply houses, and the recently introduced Sanitizer, a washday product sold in cooperative stores only. Pine-sol, which contains the other disinfectant, is available nationally. Other products containing one or the other disinfectant are being prepared for sale by manufacturers.

A disinfectant skin soap, (such as Dial or Phisohex, both of which contain hexachlorophene) is helpful against staph although none of them will do more than temporarily reduce the number of bacteria on the skin.

The main reservoir of staph bacteria appears to be the nostrils of carriers. They spread first to anything that touches the nose, hands, skin, clothing.

The bacteria are likely to be found in the home around bedside tables, in the bath tub, on the toilet seat and lavatory and on clothing and bedding.

As the germs multiply, infection may develop as any one of a number of diseases. In some families the infection takes different forms with different individuals. It is hard to realize that an abscess on a baby might have been the same source as the boil on big brother weeks later, and the case of pneumonia suffered by an elderly family member.

#### Making Sandwiches

Use frozen bread when you must make sandwiches several hours ahead of time. It is easier to spread than fresh bread and the chill from the frozen slices will keep the filling fresh. Even lettuce keeps fresh for several hours. When slices thaw, they have characteristics of fresh bread.

#### 4-H Leaders Meeting

Lighthouse Electric Cooperative is furnishing a dinner for the 4-H Leaders of Floyd County this Thursday night. It will be at Rogers Restaurant at 7 o'clock.

The meeting is planned for the 4-H Organization and Project Leaders. After the dinner the agents will hold discussions on the responsibilities of the Organization and project leaders.

## Broadway News

By Mrs. T. E. Thornhill

BROADWAY, January 15 — Ever since we can remember we have heard the expression, "There is nothing between the Plains and the North Pole but a Bob Wire fence". Last week looked as if some one had cut the bars.

Saturday we talked to a few who still had not gotten their water lines thawed out.

Of course all the moisture we received was a bit of galloping snow, now that the cotton is all out of the fields the farmers would not mind to see some moisture. This Monday morning it is still plenty cold, but the skies are clear as of now.

Mrs. A. D. Whalen, accompanied by Mrs. Richard Sudduth and girls Diane and Richie Ann, visited from Monday until Wednesday with Mr. and Mrs. Dutton and children, in Cane. Think they really plan to stay a few more days to help care for the new baby, but they got afraid the roads would get impassable as it was raining more down that way than here.

Mr. and Mrs. Manford Morgan and children of Amarillo were week end visitors in the home of his aunt and family, Mr. and Mrs. J. C. Joplin and Miltie.

Mr. and Mrs. Bill Marley and family, of near Crosbyton, were Sunday dinner guests of his parents, Mr. and Mrs. J. B. Marley.

Sunday School and church attendance was quite a bit better than the first Sunday of the year.

Mrs. H. R. Starrett (Aunt Dottie) was taken from the Crosbyton Hospital Wednesday of last week to a convalescent home in Lubbock.

Homer Smith of Crosbyton is again in the Crosbyton Hospital and not improving as fast as he would like to. We surely hope he will soon begin to feel much better.

Mrs. D. D. Thornhill was among those who were on Jury duty Monday of this week. Grandmother Berry had the

misfortune to break her glasses on Sunday morning. Really wasn't her lens but the frames. Sunday is a rough day to break them as a body surely cannot get them fixed on Sunday.

Tommy Thornhill and Craig Kendrick were quite busy Saturday as that was mechanic day. Seems as if boys will find something that needs to be worked over any time and Mrs. Lee Parker stopped at the Crosbyton Hospital for a short visit with a brother-in-law, John Gregston of Spur, who is a patient in the Crosbyton Hospital.

Mrs. J. W. Stewart is spending a few days with her daughter and family, Mr. and Mrs. Dale Largent and girls of San Antonio. The Largents are the proud parents of a new baby girl who was born the last of the week. They also have another little daughter, Sherrri. Congratulations to the parents as well as the grandparents, Mr. and Mrs. J. W. Stewart.

Sunday night after church the young people met together in the Elvis Marley home for a social fellowship. Those attending were Teddy Givens, Marshall Berry, Don Wall, Ronald Harding, Lee Roy Ratheal, Karen Watson, Joyce Morris, and Yvonna Marley.

Mr. and Mrs. H. D. Brewer and Debbie were Sunday afternoon visitors in the Elvis Marley home.

Mr. and Mrs. Hoyt McClure said their sons and families, Ronald and Duane, were in and out at their house last week as they were the only ones in the family who had unfrozen water pipes.

Mrs. Hoyt McClure was a Lubbock shopper Saturday of last week.

Mr. and Mrs. Ronald McClure and children, Rhonda, Brenda, and Doug were Sunday dinner guests of the Hoyt McClures.

Miss Kitty Joyce Moore enjoyed a party in the home of Miss Sue Stanford in Crosbyton Friday night of last week.

Mr. and Mrs. Charlie Mack Moore and son, Scotty, were Sunday night supper guests of Mr. and Mrs. Arvis Moore and children, Fern, Robert and Kitty Joyce.

Mrs. Clyde Starrett spent several days in the home of a daughter and family in Lubbock after she was released from the Crosbyton Hospital.

Mrs. Manford Morgan and children were church visitors with the J. C. Joplin's Sunday. It is always good to have visitors in the church services.

Mrs. M. R. Givens was a last Saturday afternoon visitor with Homer Smith in the Crosbyton Hospital.

Mr. and Mrs. Lee J. Parker were week end visitors with a son and family, the Eldrid Parkers of Lubbock. Other visitors in the Eldrid Parker home were Mr. and Mrs. Delton Roberts of Spur, Mr. and Mrs. Clifton Williamson, Mr. and Mrs. G. H. Givens and Mr. and Mrs. F. D. Thomas all of Lubbock.

Enroute home Mr. and Mrs. Lee Parker stopped at the Crosbyton Hospital for a short visit with a brother-in-law, John Gregston of Spur, who is a patient in the Crosbyton Hospital.

# STATE CAPITAL Highlights AND Sidelights by Vern Sanford

TEXAS PRESS ASSOCIATION

AUSTIN, Tex. — Substantial progress has been made by the Legislature in its enactment of Gov. Price Daniel's program.

Lawmakers seeking re-election this spring are diligently at work. They were to be home by the filing deadline . . . Feb. 5.

Loans: House of Representatives sent a non-amended loan regulatory bill to the Senate. Bill would set up tight supervision over those who lend in amounts less than \$1,500. Exceptions are banks, credit unions, savings and loan associations and various kinds of cooperative credit groups.

Those exempt from the regulatory law would be limited to 10 per cent interest per year. All loans over \$1,500 would likewise be held to 10 per cent.

House bill allows a 3 per cent per month charge on loans under \$100 . . . 2 1/2 per cent on the part of the loan from \$100 to \$200 . . . 2 per cent on \$200 to \$500 . . . and 10 per cent on the part of the loan between \$500 and \$1,500.

When interest allowed on a loan over \$20 is less than \$4, the lender can charge \$4 in lieu of interest.

Rural Roads: Senate passed the proposal by Sen. Neveille Colson of Navasota to cut the spending on farm-to-market road construction - improvement by \$17,500,000 a year. This amount will be used for construction of secondary and primary highways.

A House rural bloc on the Agriculture Committee favored a smaller reduction. They preferred a ten year graduated cut . . . to reach the goal set by Governor Daniel, Texas Farm Bureau, the County Judge and Commissioners Association and the Texas Good Roads Association.

Tourism: Large crowds turned out for the Senate and House committee meeting on these bills: (1) to appropriate \$300,000 for advertising for tourists; (2) for expansion of the juvenile parole system; (3) and for repairs to the San Jacinto Monument.

Opposition came largely from advertising people who felt the Highway Department isn't the proper supervisor of an advertising program.

**ATTOENEY GENERAL'S RACE BEGINS** — Former Secretary of State Tom Reavley of Austin was the first candidate for Attorney General to pay the \$1,000 filing fee at State Democratic Executive Committee headquarters.

This is Reavley's first statewide race. The former Nacogdoches County Attorney was appointed Secretary of State in 1955. He now practices law in Austin.

Waggoner Carr of Lubbock, two-term Speaker of the House of Representatives, already has announced as a candidate.

Although Carr lost the 1960 race to Will Wilson, he polled a half million votes.

The Lubbock lawyer says his platform has one basic plan, "strengthening our legal framework where needed, and more vigorous enforcement of those laws, once enacted."

Les Procter of Austin, who resigned his office as District Attorney, is expected to make a strong bid for the Attorney General's job.

Procter won prominence as prosecuting attorney during the veterans land scandals.

Rep. Tom James of Dallas, the fourth announced candidate for Attorney General, is busy with legislative duties.

**"TOURISTS" READY TO TRAVEL** — Formation of the Texas Tourist Council became official at a luncheon here which honored state representatives. Council urged appropriation of \$300,000 for out-of-state advertising.

Tourist Council elected as its president James Gaines of San Antonio. Vice - presidents are Glenn Alexander of Corpus Christi, Everett Fulgham of Lubbock, Ed Leach of Galveston, Charlie Meeker of Dallas, T. P. Newhall of Greenville, John Ben Sheppard of Odessa and John Simpson of Austin. Ed St. John of Austin was elected secretary.

Speaker James A. Turman told the 500 luncheon guests that the old joke "it is easier to pick a tourist than a bale of cotton" is about to go stale. He said Texas must let the rest of the nation know what it has to offer.

**TEXAS CALLED BOOK DESERT** — University of Texas Chancellor Dr. Harry Ransom told members of the Texas Commission on Higher Education that the State of Texas is laboring under the label of "the book desert of the United States."

Dr. Ransom made the statement in support of a plea from Dr. F. L. McDonald, President of Lamar State College of Technology, for a more realistic appropriation recommendation for libraries in Texas' 19 state colleges.

Reappointed to the State Board of Examiners for Teacher Education were: Dr. Glenn Barnett of the University of Texas; Mrs. Kate Bell of Houston Public Schools; Dr. Arvin N. Donner of the University of Houston; Dr. Frank Hubert of Texas A&M; Dr. Herbert LaGrone of Texas Christian University; Dr. Emmett D. Smith of West Texas State College, and Mrs. Florence Vaughn of Tyler Public Schools.

The Board also appointed a 16-member Junior College Study Commission on Budget Procedures and Reporting. This to comply with a bill for appropriations to public junior colleges passed in the summer session of the 57th Legislature.

**Short Snorts**

Assistant Attorney General Bob Eric Shannon of Brownwood has been appointed Chief of the Attorney General's Insurance, Banking and Securities Division.

Atty. Gen. Will Wilson won a judgment recovering more than \$423,000 for the State in a suit alleging fraudulent sale of land in Kinney County to the Veterans Land Board.

Agriculture Commissioner John White predicted that the growth of the European "Common Market" will have a major effect on Texas farm economy. He said Texans will export some 25 per cent of their \$800 million cotton crop this year.

Accreditation standards was a much-discussed topic when 1,200 Texas school administrators met here last week.

### DIAMOND BESSIE'S GRAVE

"Diamond Bessie" now lies in a well marked, fenced grave in the cemetery at Jefferson, Texas, in the northeast part of the state.

This beautiful, well dressed and be-diamonded woman was found murdered near Jefferson only a few days after her marriage to a Rothschild.

Rothschild destroyed one eye in a suicide attempt, on being charged with her murder. He was twice convicted of first-degree murder, but twice freed by a reversal from a higher court. The trial lasted seven years.

The local presiding minister, Clarence W. Hall, said, "The teaching program outlined for this 18-congregation meet from Texas and New Mexico will be built around the theme, 'Assist One Another to Do God's Will'."

The purpose of the Texas-New Mexico meet is to analyze the teaching activity of the circuit and lay plans to expand at circuit and national levels.

## Seek Charter For New Bank At Plainview

PLAINVIEW — An application has been made to the State Banking Department of Texas for a charter for what would be the First Citizens State Bank of Plainview.

Seven Plainview and area men made the application. They proposed a capital of \$300,000, surplus of \$200,000 and a reserve of \$200,000.

Proposed directors include T. E. Mitchell of Plainview, Charles L. Duran, formerly president of the First National Bank, Lockney, W. L. Cooper, Plainview, Ted Boedeker, farmer in the Providence community, Richard Patterson, owner of Muncy Elevator between Floydada and Lockney, and E. R. Arnold Jr., Floyd County farmer and vice president of the First National Bank of Lockney, M. W. (Bill) Yates, former official of the Oil State bank.

Mitchell said the group had an option of a site for the bank building which he stated "will be as modern as any in this area" and will offer all the modern services and conveniences of banking.

No one of the group of proposed directors will have a controlling interest in the firm, should it be put into operation, Mitchell said.

Banking Commissioner J. M. Faulkner estimated it will be at least 60 days before the State Banking Department can complete preliminary investigation of the application and a public hearing can be set.

Floydada brought home a pair of victories from Morton on Friday night though both teams were as cold as the January weather. The Whirlwinds set the pattern when they started slow and trailed for more than three quarters before really getting the game.

Freshman Charlotte Pierce was star of the game and provided the spirit and spark that kept the green and white in the contest. Miss Pierce played both forward and guard at different times in the game and kept the locals close enough to their opponent to pull the victory out once her team mates found the basket.

The final score was 45 - 42 favoring Floydada and the last quarter was a cliff hanger which left the fans limp. Floydada had trailed by as much as 12 points at one time.

Pierce was high for Floydada with 18 points.

The boys game was almost a carbon copy of the girls contest. Floydada started cold and found their passing and plays a bit off in early stanzas with the Morton team jumping into leads of more than 10 points at times.

By the half the Whirlwinds had gained their first lead of the game, at 24 - 23. At the three-quarter mark the count was 39 - 32 and at the final buzzer 47 - 38.

Rodney Teague scored 18 points for Floydada to place high in the scoring column of both teams. The Whirlwinds were playing without the services of Jay Dycus, one of their taller boys, but got good service from Denny King, Vernie Moore and Butch Gilliland who moved in to assist the regulars. Moore got hot at the free throw line in the fading seconds to widen the margin of victory.

Others starting or seeing the considerable action were Charles Christian, Darryl Lindsey, Joe Dunn, Don Rainer.

## College Brand Basketball To Be Seen Here

PLAINVIEW, Jan. — College basketball comes to Floydada this coming week, Jan. 22, when the Pioneers of Wayland Baptist College, Plainview, meet St. Joseph's College of Albuquerque, N. M.

Playing in Floydada's High School gymnasium, the two college teams will pit squads that are annually powerhouses in NAIA national competition.

Coached by Ed Billings, the Pioneers of Wayland will feature the nation's number 11 scorer in college basketball last season, 6-7 Wayne Evans. Evans, a senior center from Albany, N. Y., scored 750 points last year while averaging 24.2 per game. This year he is again the leading Wayland scorer, with 163 points and a 18.1 average.

The game will be the first time for the two teams to meet in Floydada, according to Floydada basketball coach Bob Shields, who graduated from Wayland after starring on the cage team.

Billings, with an unusually large group of freshmen on the varsity this year, will pick his starting team from a group of ten boys.

The most likely probable starter is Evans, who also leads the team in rebounds. Billings will pick his other four from John Alexander, a 5-11 guard from Samnorwood; Larry Smith, a 6-9 senior forward from Sarasota, Fla.; Jesse Holland, a 6-3 senior forward from Gruver; B. B. Kendrick, a 6-2 freshman guard from San Antonio; Lu Gilman, 6-2 junior forward from Pocatello, Ida.; Wig Davis, 6-4 sophomore guard from Seminole; Charles Vandiver, 6-0 freshman guard from Hobbs, N. M.; Royce Harnsberger, 6-2 freshman forward from Wichita Falls; and Les MacDowell, 6-5 junior center from Richland, Wash.

Game time is at 8 p. m. in Floydada's High School Gymnasium, with students being admitted for twenty-five cents, and adults tickets costing one dollar.

## Farm Bureau Workers Rally Is Scheduled

Several Floyd County Farm Bureau leaders will attend a statewide meeting of county Farm Bureau membership workers Jan. 23 in Austin. The big rally, kicking off the state organization's membership drive for 1962, will be attended by county and community membership committee chairmen and county presidents from all over the state. More than 300 are expected to attend.

Those making the trip from this county will include Jack Yeary, chairman of the membership committee and vice president of Floyd County Farm Bureau, Lee Burton, president, Rex Smitherman, Secretary, Tom Duvall, director and Sam E. Puckett, insurance agent.

The afternoon and evening meeting will be climaxed by a banquet with Charles Mayfield of Bloomington, Ill., secretary of organization for the Illinois Agricultural Association as speaker. The IAA is the largest state Farm Bureau organization in the nation. A demonstration on membership acquisition will be held during the afternoon program.

Objective of the Texas Farm Bureau's 1962 membership drive is to reach a new record in membership for the tenth consecutive year. The organization has grown from 48,650 to 82,362 members during the past decade.

Governor Price Daniel has proclaimed the week of Feb. 4-10 as "Farm Bureau Week" in Texas. Membership drive activities by county Farm Bureaus will be concentrated during the special week.

CHURCH GROUPS PLAN TO ATTEND CONFERENCE

Several couples from the First Baptist Church are making tentative plans to attend the State Evangelistic Conference to be held in Dallas, Jan. 22-24.

Speakers on the program are to be Howard Butt Jr., E. S. James, Baker James Cautchen, C. A. Roberts, Charles C. Bowles, Gregory Walcott, W. T. Furr, J. Woodrow Fuller and many other outstanding Baptist Churchmen.

According to relatives here the little boy got up during the night Wednesday of last week at the family home without the knowledge of his parents. He evidently backed to close to a gas heater and caught his pajamas on fire. His parents did not know of the child's plight until he ran into their bedroom, his clothes aflame. His father ripped the clothing from him, rolled him on the floor in a blanket smuffing out the fire. Miraculously the boy's face wasn't burned nor the upper portion of his body.

TELEPHONE TALK

J. C. Oakley, Manager

and everyone these days talks about something being "jet-age" that in mind—I'm going to talk about "jet-age" telephoning. You get jet-age speed in telephone calls in Floydada you dial a local call and the number rings within a few seconds. You can get faster service on Long Distance calls too. You dial the "area code number" for the place you want to call. Instead of the name of the town. If you place calls to Amarillo or most of the nearby towns in this area the code is 806. If you are not sure of the area code for the town you are calling, ask the operator. Then jot it down. The next time you place a call to that number give the operator the code instead of the name of the town, and you'll see how fast telephoning works.

HOT ITEM

Business phone is a hot item. This fact is evidenced by the fact that all over Texas. But recently things got a little hot when a phone in one of our neighboring towns.

A young husband was leaving for work. His wife was with their new baby all night. He didn't want the baby.

He put it efficiently into the oven. Later in the day, his wife found the oven to pre-heat it. When she started to put the baby in, she found one melting Princess phone.

The husband forgot that he also had a bell chime which he had adjusted to ring in any one of three ways — with a loud bell, or a melodic chime.

Note: Telephones are made to stand most bumps and jolts. We heartily recommend that they not be cooked or otherwise abused.

TOGETHERNESS BY TELEPHONE

One of the nice things about the telephone business is that you know when your customers will find a new use for any telephone service.

Two years ago we made it possible for businessmen to hold meetings by means of a long distance conference call. Recently, we received a letter from a happy grandmother who had a conference call for another reason.

"I was widely scattered," she wrote, "a son in California, a daughter in Florida and New York. Though we often thought we'd all be together again. Then I heard of the conference call.

"I was give the operator everyone's name and phone number. She had us all hooked together on a call. I can't tell you the thrill it gave us all."

It's easy with your telephone. Economical too. You can call by number. You save even more when you call on Sundays, or after 6 p.m., weekdays.

Call your number. It's twice as fast.

## HOME on the RANGE

Well, fry mah hide if he ain't brandin' that critter with an electric brandin' iron. What's the world acoming to. It's all the fault of the rural electric cooperative. Oh, I know they brought electricity to us when nobody else would serve us and I know it's great to have a refrigerator and deep freeze... radio... television... electric range... electric heat... air conditioning, power tools and all that... and I know their service is dependable... but an electric brandin' iron. Huh. They're just not making cowboys like they used to.

By the way Ma... Better turn up the control on the electric blanket, looks like a Norther's blowin' in.
