phone customers in Floyd County will receive "area code stickers" in the mail the next few days, telephone manager J. C. Oakley said. The stickers will be enclosed with customers bills along with a request that the customer affix the adhesive-backed code on the dial wheel of his telephone. Oakley said the company was doing this in order to encourage customers to give their area code numbers to friends who call from out of town.

"We also want our customers to get used to placing out of town calls by using area code numbers instead of giving the name of the town they are calling," he added.

According to Oakley, calling by area code number is faster than giving the name of the town. He said operators no longer write out the name of the place in an abbreviated hand code, but mark the area code number on a special IBM card with a chemically treated pencil.

He also pointed out that the method of getting your calls or motive in mind when it is not written — through faster. "For example," Oakley said, "let's say you place codes. This reason is DDD or trained eye the card might look a call to Dallas. The area code direct distance dialing, a system like secret code or the un- number is 214. If you tell the operator you want area code 214, she immediately Oakley points out that the IBM accounting machine can know this is an out-of-town call telephone equipment cannot read and interpret corresponding figures or digits." According to however, you use the name Dal- change names such as Floydada the manager, that is one of the reasons the company is encour- aging customers to use area code numbers when calling.

Nine Bands To Join In Day-Long Clinic Feb. 10

Band Leaders Find Value In Get-Together

Band students of nine schools will participate in the third invitational band clinic at Floydada High School on Saturday, Feb. 10.

And the public again will get a look in on the event, with invited attendance at a stage band presentation by the FHS Ambassadors during a rehearsal break about 2:15 in the afternoon, as well as at the big concert beginning at 7 o'clock in the evening.

Announcing plans for the event, Band Director Dan M. Whitaker, said the nine schools to be represented by bandmen and their directors are New Deal, Hale Center, Abernathy, Lockney, Petersburg, Idalou, Ralls, Crosbyton and Floydada.

Mr. Whitaker said that from the nine bands, select players will be picked for a combined band of 92 pieces to play for the concert the evening of the clinic.

Those who attend will get to see everyone of the band directors direct at least one number during the evening.

Rehearsals will begin upon arrival of the bands on the scene in the forenoon and will continue throughout the day except for the mid-afternoon break.

Band leaders are finding the day-long clinic has value in getting the young musicians together in friendly cooperation. They learn a great deal from each other. The invitational also gives better students an opportunity to play harder music than they often get to play at home.

Mrs. J. T. Dagley Passed Saturday

Mrs. Nancy Caroline Dagley, 104, one of the few pioneering pioneers of Floyd County, died Saturday morning in Lockney at the home of her daughter, Mrs. A. R. Meriwether.

Funeral rites were conducted in the Carter Funeral Chapel in Lockney. The Rev. Gene Hawkins, pastor of St. Baptist Church, and S. W. Meriwether, minister of the Baptist Church of Christ, officiated.

Burial was in Lockney.

Mrs. Dagley was a native of Lock, Ark., born there on May 1, 1867. With her parents she moved to Oak, Tex., where she was reared from the age of five. She and her husband, John Thomas Dagley, arrived in 1874.

The couple moved to Bosque in 1878 then to Floyd by covered wagon in 1880 where they settled in the Irick community where in 1900 Mr. Dagley died. Mrs. Dagley moved to Lockney with her children in 1902. She has resided in her home until moving to the home of her daughter, Lockney woman was active until the past two years, keeping her own garden, raising chickens and doing her own household chores. She broke her hip at the age of 97 and after that walked with the aid of a cane.

Her survivors in addition to Mrs. Meriwether are two other daughters, Mrs. T. B. Hill, Lockney, and Mrs. James Baker of California; 17 grandchildren; 54 great grandchildren and great great grandchildren.

Savings Grow In County

(Special to the Hesperian)
NEW YORK, Jan. 22 — Residents of Floyd County are living well within their incomes. They are spending much less than they are earning.

Some of the surplus is being used by them to reduce their installment debt. The remainder, or a considerable part of it, is going into savings.

The evidence is seen in the rise in bank deposits and in savings and loan accounts and in the gap between family income and family expenditures.

The findings arise from a study of consumer debt in the United States, made by economist Sidney Weintraub, based on data compiled by the Department of Commerce, the Federal Reserve System and others.

For families in most income levels, it appears, the rate of saving was higher than usual in the past year. Those with net after-tax earnings of \$3,000 were at the lowest end of the savings scale. They put aside less than 2.5 percent of that amount, on average, in the year.

Families with \$6,000 net saved about 6.5 percent. The rate rose rapidly as incomes advanced to the higher levels.

How much have Floyd County families been saving?

On the basis of their average disposable income of \$6,271 per household, as reported in the latest annual survey, at the rate of 8.8 percent. They put an estimated \$425 per household into savings in the year. Implied that the local rate, for each income group, is similar to what it is in the rest of the country.

It compares favorably with the \$330 per household saved in the West South Central States. It was \$380 in the State of Texas.

Taking into account all families in Floyd County, the grand total of savings locally in the course of the year came to some \$1,560,000.

This money, together with what was previously accumulated, represents a huge reservoir of pent-up buying power.

What caused people to become so savings-conscious? The answer is that saving was not their intention. All they were doing was holding back on big-ticket spending. Because of the economic uncertainties, they were refraining from any buying spree.

The job of seeing and selling these 350 persons has been assigned to a committee which

Ralph Mardis heads. In a break-fast session attended by nearly 30 people Friday morning at Rogers Restaurant, Mardis assigned selling jobs to 25 lieutenants. Most of these had begun working this week and have encouraging reports.

The annual banquet will see the installation of new officers for the year, and will have other interesting features.

In addition to the annual banquet planning the secretary's office is also busy on such matters as helping with the arrangements for the Junior Fat stock show, also scheduled for an early March date.

Burns May Prove Fatal To Driver

An automobile fire and explosion heard for two miles Monday night shortly after 2 o'clock in southwest Floydada critically injured Henry D. Myrick, 63 year old resident of the community. He was in extremely bad condition at Parkland Hospital, Dallas, yesterday, where he was taken overnight for treatment.

The bizarre accident, so far as officials could determine, took place when Mr. Myrick turned off of Highway 62 onto the south end of W-1000 street, probably to turn around. The rear bumper of the car struck a gas meter adjacent to the residence of Mrs. R. P. King.

When witnesses reached the scene the car was astride the broken meter, with raw gas escaping from a break under the

Speculation is that the motor ignited the raw gas or that the motor stalled and the driver was attempting to start it again when the first explosion occurred. The injured man was sprayed with gasoline, some witnesses said. Some of those who arrived on the scene early, however, think that he was in the car when the explosion occurred.

The second explosion from the car's gas tank came later after the injured man's flaming clothing had been extinguished, according to the fire department.

A week after the coming Monday the county committee is to be called together Feb. 12 to consider the Democratic primary budget and assess the candidates according to the salaries and emoluments of the respective offices. The meeting will be held in the district court room, he said.

Ayres said the Democratic party has a complete roster of precinct chairmen for the 21 precincts in the county.

Weather Favors Farm Operations

This week the weather is as mild as it was rough two weeks ago. Mid-winter farming operations, largely deep plowing and running tandem discs have been occupying the time of farm operators.

Temperatures have ranged from slightly below freezing to 60 degrees above with one or two days in the high sixties. Also mild weather for another day or two is anticipated.

Thursday and Friday of last week successive fronts brought light moisture to Floyd County in the form of rain, just about 24 hours apart.

The first light shower brought about 35-hundredths of an inch of moisture at Floydada, and the second brought the total up to about 45-hundredths.

THESE FOUR WOMEN, members of the Floydada Mothers March of Dimes for 1962, made ready for the house to house canvas just prior to the March Tuesday night. They are from left to right, back row, Mrs. Cleo Whittle and Mrs. Lane Decker, front row, left to right, Mrs. Ed Wester and Mrs. Sammy Hale, who was chairman. Not pictured are Mrs. Gordon Hambright and Mrs. Jimmy Willson. All were captains of the Drive.

MOTHER IS QUITE ILL
Mrs. Olyne Jordan and daughter, Mrs. Doyle Moore were in Big Spring Monday to spend the day with Mrs. Jordan's ill mother, Mrs. B. A. Queen. Mrs. Queen is just out of the hospital and is convalescing at the home of another daughter. She suffered a heart attack during the holidays and has had several flare-ups since that time.

OUR "TERRIBLE" TEXAS GOVERNMENT

Something terrible is always wrong with Texas and Texas people, our scolds tell us over and over again.

We avow our own belief, based to some extent on information, that this state is one of the top four or five in the nation as to good government, economical operation of its bureaus, commissions and elective offices.

Our state has, in addition to responsive and responsible authorities, more than one research organization, supported by private funds, which are doing a good job. The oft-maligned Texas Research League has done a magnificent job, throwing light on the various types of taxation and on ways and means of bettering the functions of the state government.

We believe, furthermore, that for the most part we have a hard-working, conscientious legislature, and that most of them are enlightened citizens who want to do a good job. Right now the division principally is on "conservative" and "liberal" lines. Fringe publications on both right and left are doing a considerable bit of name-calling on these scores. The claims of both extremes can be discounted by the middle of the road citizen.

GOOD WORK BEING DONE

This is not to say that no selfishness nor self-seeking is in the legislature and in other parts of Texas government. It is also not to say that the people do not get pushed around to some extent by interests which know how to do this and not get caught at it. Nor would we try to leave the impression there are no "rotten spots" in our state.

But by and large, there are honesty and fair dealing, and economy in most places, high and low. And honest search for the best way to serve the most people the right way. We have in mind one commission which is doing a quite worthwhile study of property or ad valorem tax policies. They have been at work for two years. On January 1 they had spent for postage and travel \$6,318 and nothing for salaries.

SHOULD WE BLAST THEM?

The Texas Observer, a weekly periodical with an interesting flair for being at outs with most everything, sometimes carrying the torch for off beat ideas, used a bit of its irony on Texas country newspaper people last week.

General Walker, the "censored" iconoclast of the army and Eddie Rickenbacker, he of auto racing and air service fame, were invited guests at a meeting of the newspaper people. Both made speeches. Both have positive ideas and minced no words in presenting them.

Since much of their philosophy, each in his own way, was contrary to generally held ideas in Texas, should they have been blasted by their hosts? We think not. The newspaper people—the Observer does not credit country newspaper people with being "newsmen"—wanted to see and hear the famous men, to see what makes the wheels go round in them, how they tick.

But The Observer wanted the newspaper people to have the guts to "identify them for what they are: one, a bad-mouthing military bully, the other a malicious rich man who has grown bitter toward this generation."

We think it is pertinent to remark that a host doesn't blast guests, which is what these men were. We add that one of the highlights of the meeting for this writer was 45 seconds of banter with Mr. Rickenbacker at a hotel entrance. A man with a belly laugh like that one has, may be rich — we wouldn't know — but he is not malicious, nor has he grown bitter, the way we take quick judgment on people. Crusty? Yes, but who isn't these days?

The "newsmen" who write for The Texas Observer are not expected to understand.

CAN'T GET AROUND IT ALL

News of our halliwick comes first at The Hesperian Office, the same as it does to every other periodical that attempts to be a newspaper. On top of that comes other things which affect the welfare and the thinking of readers. Reams of it every week at any news desk and editorial writer's elbow.

To mention a few this morning, adding up to ten or fifteen columns in all, no doubt:

American Legion, Western Railroad Association, Life Line, American Medical Association, Department of the Army, Health Insurance Institute, Texas Tubercular Association, Texas Safety Association, Texas and Southwestern Cattle Raisers Association, Texas Farmers Union, High Plains Research Foundation, Texas Commission on State and Local Tax Policy, Texas Highway Department, all in one mail, not to mention two or three columns from men of repute offering for public office.

Far be it from us to complain. Usually every one of them has an idea that is worth pursuing. Every missive represents an outlay of thought and energy. The postage bill alone, mailing to all of Texas, some of them to all of a whole region, is not to be maligned.

But a newspaper, big or little, can do all it can do and no more. That is why, perhaps, the waste paper basket yawns wide-mouthed.

ANOTHER EDUCATIONAL EXHIBIT

A Texan from out on the wide ranges of the state has no idea of the many interesting historical and informing exhibits and things which have been set up at the state capital and its environs. One can browse for a week and not tire, if he is attracted by such. Some of these preserve history that reached back into the days of the Republic and before.

We are reminded of this by a report that another such is in the planning stage by the State Game and Fish Commission. It will be a "resources diorama." It will "depict species and habitat, with actual utilization of natural resources." It will be located in the "second office building" adjacent to the capitol grounds. Most of us will never see it, any more than we will see these others, but it is interesting to know that they are there.

NEW DEFINITION FOR PAVING

We are indebted to an exchange for the following definition for paving:

A hard surface substance installed on streets, usually of asphalt, sometimes of concrete, which as soon as it is finished, provides continuous employment thereafter to people tearing it up to install various and sundry service lines, fixtures, manholes, etc., etc.

Sesame Forecast. A considerable acreage of sesame is one of the probabilities for the high plains within the foreseeable future.

Researchers must find or develop a high yielding variety that is non-shattering and can be harvested with a combine machine. If one recalls what maize once was he can imagine a sesame plant that will meet the requirements.

Passing Scene. Worms for fishermen's bait has become a considerable business in Texas in a quarter of a century.

The demand is growing. No end seen to the need. As long as fishermen fish they'll want bait — and somebody else to provide it. Fortunately worms multiply fast and grow quickly.

In another column there is some discussion about honesty and efficiency in state government in which some praise instead of condemnation is voiced.

We'd like to add about our "one-party" state that a road contractor does not have to drive by the state senator's office to find out who has the best gravel for a job. That's more than some of our "two-party" state newspapermen can say!

Billy The Kid. Brooklyn's contribution to the sagas of the southwest still rides the ranges.

In particular he is being helpful to New Mexico where a good crop of tourists has been found quite profitable. National magazines still write about the Lincoln County War, mentioning New Mexico art and the new ski areas incidentally, and always a blurb about Billy. Communities who are "feuding" over Billy's remains also make good copy!

Oh, Mr. Mardis! We have your card relative to the Pioneer gas bill.

In response: Have note, will sign!

Have A Laugh? One of the most dangerous persons around a printing office is a funny boy at one of the desks or machines, who writes a take off or rib-tickler for the benefit of those around him.

Consider the perverseness of things in a news office, and the danger of one of these marties getting into print. It happened that way in an otherwise well-ordered Texas newspaper the other day. A candidate in his announcement gave forth about honesty in elections. "It shames me," he said, "that a person would lower himself to sell his vote. My voting right, like my birthright is priceless and cannot be bought nor bargained for." (But make me an offer, the joker wrote on the margin of the proof and it got into print). Business picked up in that office! Everybody but the libeled candidate and the newspaper people enjoyed the fun.

Calling 806. Not many days hence people will be using a code number instead of a town name on long distance calls.

Eventually, when one dials his own long distance calls this code number will be a part of the number he dials. As of now the long distance operator doesn't write down "Amarillo" on a distance call to that city. Instead she writes "806". That is the area code. Everybody will be doing it soon.

He who dozes while he drives will rest in pieces forever.

Wed Thursday, Couple To Make Floydada Home

Mr. and Mrs. Lindsey Lackey announce the marriage of their daughter, Linda to Billy Ronald Smith, son of Mr. and Mrs. Wm. H. Smith of Floydada.

The double ring ceremony was read at 7 o'clock p.m. January 25, in the home of the groom's parents, by Garland Lipe, Church of Christ evangelist of Oklahoma.

The wedding party assembled through double doors where urns of caladium and philodendron were placed on either side with a log burning fireplace in the back ground.

Making her entrance to the strains of the Wedding March the bride wore a porcelain white wool street length suit featuring a box jacket with three-quarter length sleeves. Her ensemble was emphasized by a dark ranch mink collar and a white veiled hat with seed pearls and rhinestones. She wore a shoulder corsage of white orchids.

Janice Smith, sister of the groom, was maid of honor. She wore a Paris pink all silk dress fashioned in tailored lines.

Keith Reeves of Floydada served as best man.

For her daughter's wedding Mrs. Lackey selected a burnt orange wool dress and Mrs. Smith wore a beige knit suit.

The bride is a student in Floydada High School and plans to complete her education.

Her husband attended schools at Daugherty and Floydada, graduating with the class of 1959-60. He attended West Texas State and Texas Tech and is presently associated with his father in farming.

After a brief wedding trip the couple have established residence in Floydada at 618 W. Tenn.

NEW FAD — For the dieter there is a new one embraced by chorus girls and referred to as "the S Diet." It is simple — you cut out sweets, salt, sugar, steak, and snacks. Did I hear someone say you cut out living too? I'm having just as much trouble going on a 3000 calorie diet as those of you who are trying to stay on a 1000 calorie diet.

SOMETHING TO SEE — On Tuesday, February 6 on CBS-TV Henry Fonda will play in a comedy spectacular called "The Family." This program is sponsored by the American Dental Association in recognition of Children's Dental Health Week. Did you realize that a child's first visit to the dentist should be made when he is about three years old? This trip is to acquaint the child with the dentist and his tools so that if dental work becomes necessary later the child will know something about what to expect. Precautions such as this do much to alleviate fears children may develop from half-understood conversations of others.

SLIP IS SHOWING — In the excitement of the January sales this advertisement was made over the local radio station: "We have all the long women's coats on sale." With a chuckle, I wondered how many 'long' women would take advantage of those bargains!

DO YOU EVER — Usually the first page I read in any magazine is the letters to the editor. I just wonder if you ever find yourself searching for a back issue of the magazine in order to read the articles that have inspired so many impassioned remarks? I find myself getting so curious about the previous issue that I lose interest in the current one!

THOUGHT FOR A DAY — It was Robert Frost who observed, "The reason why worry kills more people than work is that more people worry than work."

WHY NOT — The subway in Athens, Greece, has a special car for people who smoke and now there is a group demanding a special car be added for citizens who insist on munching garlic.

If you're one of the millions of car owners who should get their cars serviced this week, here's good news:

GALAXIE... styling and performance leader of the full-size cars.

Ford eliminates 10 out of 12 service stops required by most cars!

FAIRLANE... in a class by itself, right between compacts and big cars.

In a 1962 Ford Galaxie or Fairlane you can go all year—or 12,000 miles—with only two stops for service. This revolutionary new twice-a-year maintenance program—available only in the cars from Ford—frees you forever from the nag-nag-nag of month-after-month servicing. (See chart.) It's the biggest thing that's happened to cars since Ford introduced the 12-month or 12,000-mile warranty.* See your Ford Dealer soon—and start saving time and money with the convenience of twice-a-year maintenance. Mrs. Inez Evans Rites Conducted Here On Monday

Mrs. Inez Evans, 44 year old negro domestic worker of Floydada and a long time resident of this city, died Saturday morning in Peoples Hospital after a two year illness. Death was attributed to a malignancy.

Funeral was conducted Monday afternoon in the Friendship Chapel Methodist Church with the pastor, Rev. H. L. Redds, officiating. Scripture was read by Rev. James Jenkins and prayer brought by Rev. Leon Campbell.

Harmon Funeral Home was in charge of burial in Floydada Cemetery. Pallbearers were J. P. Bonner, Terry Watson, Clyde Mitchell, John Campbell, James Campbell and L. V. Jones.

Mrs. Evans was born in Alma, Ark., on August 19, 1917. She and Z. D. Evans were wed 26 years ago and had been living in Floydada since 1939.

Survivors include the husband, one daughter, Mrs. Ada Marie Freeman of Dallas, one grandchild, Marcus Antonio Freeman III of Dallas, and Mrs. Evans' mother, Mrs. Guffie Hilliard of Spur.

Henry Myrick

(Continued From Page One)

were first to arrive at the scene. They said that Mr. Myrick was out of the car and running about in an incoherent state, his clothing ablaze.

They urged Mr. Myrick to roll himself in the dirt but to no avail. Finally, according to report, Randall secured a bucket of water and dashed on the man putting the fire out.

The Kings were out of town this week and not available for their accounts of the accident.

Firemen Called at 8:45

Fred Lambert of the Floydada Fire Department said the alarm was called in about 8:45 p.m. He said the woman who called said there was a

car on fire and a man inside. It was not known if this was before the first explosion or just after. The second explosion occurred after firemen arrived. The car was gutted by the time firemen arrived, Lambert said, and Mr. Myrick had been made as comfortable as possible waiting the arrival of an ambulance.

Lambert said the heat from the fire was intense and sightseers at the scene could have been burned or hurt when the second explosion occurred. Warnings from officials went unheeded by some. Luckily the second blast did not cover a large area and persons were standing at a safe distance.

Myrick was taken by Harmon ambulance to Lockney General Hospital where he received emergency treatment. He was then taken to Dallas by the ambulance accompanied by his son, Clovis. Following by car and still with the injured man are Mrs. Myrick, the injured man's wife, a daughter, Mrs. Joyce Nelson, Floydada, and another son, Jackie of Lubbock. Myrick of Blue Ridge, Tex., is also with the family in Dallas.

Due to arrive by today from California are three other children, Mrs. Dick Bunell of Englewood, Mrs. Ross McWilliams, Ontario, and R. D. (Rasse) Myrick of Santa Clara.

Members of the family who remained in Floydada were notified yesterday that physicians of Mr. Myrick gave them little hope of his recovery. They were planning to operate by today if possible and do skin grafting. However it was doubtful if Mr. Myrick would be able to survive the operation, a necessity in an attempt to save his life.

Ralph Mardis, manager of Pioneer Natural Gas Co., and other employees of the company, were on the scene shortly after the blast. Before they arrived, Mardis said, somebody had turned off the gas at an adjacent control box to extinguish the flame.

Mardis said the window glass in the car had been blown outward, indicating one explosion was inside the car.

Service from the gas mains had been restored in residences

of the area, with the exception of one by mid-morning, Mr. Mardis said.

Dimes March

This amount was deposited in the MOD fund.

The workers extend their deep gratitude to donors who were so cordial and also thank Powell's Grocery for the doughnuts, Lighthouse Electric for the coffee and Mrs. Nancy Morckel for serving the refreshments.

Sock Hop Planned by Teens

On Friday night, February 2, from 8:00 to 12:00 p.m. the teenage program of the New March of Dimes will sponsor a sock hop for teens. The dance will be held at the V.F.W. Hall which has been offered to the teen agers without charge. The admission price is 50 cents stag and 75 cents couple. All proceeds will be given to the New March of Dimes.

For those wondering about a sock hop, it is a dance where everyone wears socks but no shoes. Creative teens are urged to decorate their socks and couples may wear matching socks.

Janet Kay Moore and Janice Trapp, co-chairmen of the Floydada TAP program, invite all teens to attend the dance, emphasizing that the admission price is their donation to the New March of Dimes.

The TAP program, new to Floydada, is a national program to include the teen agers of America in the National March of Dimes. Janet Kay and Janice attended the Lubbock workshop for TAP in December where ideas were exchanged by delegates of groups from Abilene, Midland, Odessa, Lubbock, and surrounding areas.

Whistling Swan Found At Motley County Lake

What would a whistling swan be doing out on the plains of Texas?

One such authentic species was picked up by Jim Price and J. M. Daniel on Horner Lake, a private fishing spot in Motley County, last week-end, and since have turned the water fowl over to a conservation officer of the State Fish and Game Commission.

The fishermen thought the bird was a snow goose and so reported to Weldon Fromm, Conservation Officer, at Amarillo. The bird had no broken pinion but he could not fly. The bird did not want to leave him for a coyote to slay, so they brought him in.

Latest news is that the bird is likely to make a tour of the state with an exhibit recently mounted by Wild Life Service. This information comes from Stanley McDonough, of Canyon, who came to Floydada to get the rare bird.

THE CALL FROM MOSCOW

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

"WE WILL BURY YOU," growled the harsh voice at the other end of the line.

"WHAT!" cried Ed Bryson, hardly believing his ears.

"Your belief in God . . ." the voice went on. ". . . an out-worn superstition leading to foolish notions about democracy and freedom and human rights. Communism will correct this."

"Who do you think you're talking to?" blustered Ed.

"To you, Mr. Bryson. The Party needs you to liberate your countrymen. Encourage them to forget morality for it is a myth. Conscience, it is cowardice. Worship, it is weakness . . ."

"NO," Ed exploded! "NYET if you understand that better! We aren't going to forget the spiritual principles that make the Free World strong. Our kind of liberty is built on God's Truth—and you'll never bury *That*. Go sell your party line somewhere else. I'm on my way to Church!"

Of course, it was just a dream, Ed admits. (Too much pie at bedtime.)

And, thoughtfully, he adds—it shouldn't take a nightmare to make us realize what we believe—and how to preserve that Faith.

Church Plans Lectureships Feb. 11 to 18

Announcement of a lecture week, similar in all respects to a singularly successful program a year ago, has been announced by City Park Church of Christ for the period beginning Sunday, Feb. 11, and continuing through Sunday, Feb. 18.

A sermon each evening during the week will be heard, and on the two Sundays a visiting minister will make both the morning and the evening presentation.

Opening day of the series who attend will hear Gordon L. Downing, of Canyon, a former minister of the local church.

On one evening — Saturday, Feb. 17 — a preacher from Southern Rhodesia, Africa, will have the text, "Go ye, teach all nations."

Last year the local congregation was greatly stimulated by the presence of visitors from many other churches in the area to hear the various speakers.

The "school board" is made up of Rev. Lutrick, general chairman; Mrs. Kinder Farris, vice chairman; Mrs. Glenn Jarvinen, secretary.

Mrs. Lon Davis, Jr., Mrs. Pete Hickerson, and Mrs. Jack Jordan compose the study committee, and Kyle Glover has charge of arrangements.

Everyone is cordially invited to attend the big function and make it a bigger success than last year. Big crowds are anticipated for Christian fellowship, food, learning, and worship.

She was efficient, helpful and so good and friendly. Good in every way. We regret the passing of such fine Christian women. But we have "A Promise of a New and Bright Tomorrow."

Come to church and Sunday School Sunday if you can.

Statistics Dull?

These statistics aren't dull reading. They're quite impressive when you realize they pertain to just one Texas ranch.

—Eighty-five thousand head of cattle on 940,000 acres.

—Three thousand quarter horses.

—Four hundred miles of hard surfaced roads inside the ranch's 1,500 miles of fence.

—Eight hundred employees.

—Three hundred windmills.

—A couple of Kentucky Derby winners.

That's mighty big talk even though you know it's the great King Ranch in the Magic Valley of Texas.

People from the area appreciate the ranch best, however, for the agricultural advancements that have come from experiments in feeding minerals to cattle, re-seeding ranges, conservation of wildlife, and brush eradication from pastures.

The ranch is perhaps best known elsewhere for its development of the outstanding Santa Gertrudis cattle which are a cross between a Shorthorn and a Brahman.

A lot of Texas brags rightly come from this ranch.

appeal to the Railroad Commission, just as cities can do, if the gas company increases its rates.

San Angelo and Edinburg got favorable reports from the Commission on Higher Education on making San Angelo College and Pan American College, now locally supported, part of the state system of colleges in 1965.

They came to Austin to get the Legislature to pass the necessary laws, and make the state take over support of the colleges. House of Representatives went along with both proposals.

But Sen. W. T. Moore of Bryan, down in A & M country, thinks Texas has enough state colleges already. So, he used the filibuster to fight the two new college bills to a standstill.

WAY TO ROADS PAVED — State Highway Commissioner Herb Petry Jr. complimented the Legislature on passage of the Farm-to-Market Road bill. He announced new projects as soon as Governor Daniel's signature was on the bill.

The Commission approved \$135,000 worth of surfacing work on highways in Cameron and Hidalgo counties and an \$82,000 highway contract in Cameron County. Within the next 60 days they will try to schedule more than \$1,000,000 of work on US 83 in the Valley and \$500,000 for road work in the Valley.

Senators Bob Baker of Houston and Neville Colson of Navasota appeared before the Highway Commission to urge approval of a four-lane highway between Hempstead and Houston. The Senators reminded the Commission that they had helped pass the road bill which frees funds for primary roads.

NO RELIEF IN SIGHT — Many legislators were hoping to go home at the end of the week, but as soon as they processed pending bills, other bills were submitted.

At the end of the week, Governor Daniel submitted additional subjects: Authority for the Texas Employment Commission to enter into a compact with other states; financing of the Texas Securities Commission; an appropriation to the Department of Banking; and amendments to the Penal Code.

House members held a Friday session for the first time this month, and resigned themselves to working right through the last of the 30 days of the called session.

INEQUITIES STUDY PROPOSED — Rep. W. S. Healy of Paducah introduced a resolution that the House Committee on Privileges, Suffrage and Elections study election "inequities" in the Constitution, and report its findings to the next legislature.

Healy said he didn't think it fair that while the law requires district and county officials to resign upon announcement of their candidacy for another of-

ice, it does not require this same action by all state officials.

COBB JOINS INDUSTRIAL GROUP — Bill B. Cobb of Austin, who has been serving as chief examiner of the Legislative Budget Board, will leave that post on February 1.

Harry W. Clark, executive director of the Texas Industrial Commission, has picked Cobb as his assistant.

In keeping with recommendations made by the Texas Research League, Cobb's prime duty will be to organize and design research projects, supervise community development efforts and direct the advertising program of the industrial commission.

A ROSE BY ANY NAME — Don Yarborough, Houstonian who is supposed to have liberal backing in Harris County and labor support on a statewide basis, told Capitol newsmen he will run for governor. U. S. Senator Ralph Yarborough, who was supported by liberals in two gubernatorial campaigns, decided not to enter this race.

Candidates already in the race include Democrats Will Wilson, Marshall Formby and John Conally and Republican Jack Cox.

District Judge Otis T. Dungan of Tyler paid the State Democratic Executive Committee the \$1,000 filing fee and became a candidate for Judge of the Court of Criminal Appeals.

Judge W. A. Morrison of Austin, now serving on the high court, is his only opponent so far.

The committee received \$200 filing fees from: L. B. Hightower of Beaumont, running for re-election as Chief Justice of the First Court of Civil Appeals; and Tom F. Coleman of Houston, candidate for the unexpired term of First Court of Civil Appeals Associate Justice Phil D. Woodruff.

State Treasurer Jesse James also became an official candidate for re-election.

MISS JOYCE DEAN NICHOLS

Plan Wedding For February 10

Mr. and Mrs. Robert Nichols announce the engagement and approaching marriage of their daughter, Joyce Dean to Dale Johnson, son of Mr. and Mrs. W. A. Johnson of Floydada.

The wedding will take place February 10 at 2 p.m. in the First Baptist Church in Amherst, Tex., with Elder Jack Johnson of San Antonio, brother of the groom, performing the ceremony.

Friends of the couple are invited to attend.

Then, if our friends do remember it (and, of course they will), they'll think, "My, she really was ahead of us with that one!"

Reading fashion notes is both confusing and consoling. They confuse because each is different, and it's impossible to know exactly what is going to be tops. They're consoling because if one reads about enough showings, somewhere in the lot she finds an item that fits her type and probably her carry-over wardrobe.

A story from Italy this week gives us real hope for spring: All the famous designers seemed to agree that "skirts fall just below the knee." We're thoroughly tired of exposed knee-caps — at church, in living rooms, offices, wherever women go and are seated. Plump knees, skinny knees, young knees, middle-aged knees — no pair of knees is pretty when awkwardly exposed because a too-short skirt has ridden above eye level!

So whether we wear orange or pink, ruffles or empire lines, isn't important. If skirts can "fall just below the knee" this spring, we say "Bravo! Italy!"

HOW DO YOU DRY CLOTHES AT YOUR HOUSE?

If the answer is "electrically" then you are enjoying the best, most modern, clothes drying that is available today.

If your answer is "we dry on a clothes line outside" or "we dry by another method" then perhaps you will want to investigate the many advantages of electric drying.

With an automatic electric clothes dryer there is no lugging of heavy baskets outside, no hanging of clod wet clothes in the freezing wind. You need only put your garments into the dryer and set the dial . . . They need no watching, you can go on to other tasks or go to bed and electricity takes care of them for you.

Why run the risk of sun fading, wind whipping or loss to thieves on an outside clothes line when you can save so much time and money by turning the task over to low cost electricity . . . a servant that is on the job 24 hours a day.
