PLAN FOR REUNION — Floyd County Scottish Rite members held a meeting in Floydada on Monday night at Colonial House.

Heart Chief Offender In Death Rate

(Special to the Hesperian)

NEW YORK, Heart disease is causing 35.5 percent of all deaths among residents of Floyd County.

The report is made by the U. S. Department of Health, Education and Welfare in its latest annual summary of vital statistics.

The findings are especially pertinent at this time because of National Heart Month.

The problems posed by heart disease are proving hard to solve. In some directions, however, definite progress has been made.

Advances of this sort have been noted in heart surgery, in the development of new drugs to prevent or dissolve blood clots.

But, despite all the achievements, there is much to be accomplished before there can be any real cut in the heart toll.

The 35.5 percent mortality among Floyd County residents was somewhat lower than the average in the rest of the United States, 54.9 percent.

Evidence of a striking relationship between the amount of cholesterol and other animal fats in the blood stream and the incidence of heart disease has been accumulating in recent years.

The American Heart Association, in fact, has strongly urged that vegetable oils be substituted in the diet for animal fats as a precaution against heart disease.

The importance attached to diet control is indicated by the fact that the government's National Heart Institute has in the planning stage a 50,000-man experiment to test it out.

Over a period of five years, that number of volunteers would live on specific diets, half of them eating fat-free foods and the others their normal foods.

The current vital statistics report shows, in the case of Floyd County, a total of 90 deaths of local residents in 1959, of which 32 were caused by heart conditions.

Coronary heart disease, with 23 victims, was the chief offender locally.

Wylly Superette To Have Formal Opening Thursday

Wylly Superette, popular food store on east highway 70 in Floydada, is having a big celebration this week-end.

The Wylly's have operated the store since about January 1 and now say they have the stock of merchandise built up so they can do the job right.

The big food sale running in connection with the celebration starts on Thursday, February 22. There will be a number of free prizes of baskets of food and other items and the visitor need only register to be eligible to win.

On Saturday, February 24, the folks at Wylly's will go all out to make an interesting day for callers.

From the registration tickets there will be prize winners every hour on the hour all day Saturday and then on Saturday night a drawing for the free baskets of groceries.

The store is changing to Big Chief Stamps and in this issue are valuable coupons worth many stamps for the next few weeks.

Patricia Bourland Named At McMurry For Contest Honor

ABILENE — Patricia Bourland, daughter of Mr. and Mrs. L. T. Hickerson of Floydada, is selected to represent McMurry College Student Education Association in the contest for Teacher of Tomorrow.

The contest will be held March 15-17 at the Annual Convention Texas Student Education Association in Corpus Christi.

Alternate candidates will be Sue Oatis from Southland and Martha Ranson from Lamesa.

Mrs. Bourland is a senior student in McMurry College. She is a member of Delta Beta Epsilon and has been active in the band and Maidensettes. She was selected to represent McMurry in the Texas Contest in a school wide contest held recently.

Stapleton Buys Another Building

With the execution of a contract for purchase of the Floyd County National Bank building at the corner of Main and Missouri Streets last mid-week John B. Stapleton is adding the seventh business building in downtown Floydada to the list of property he owns in the city.

And in characteristic manner Stapleton began remodeling the building, first in order being a new roof, before the title was transferred.

The bank building, bought in the midst of the depression in 1936 from the liquidator of the Floyd County National Bank has been the property of E. T. Williamson since that time.

Stapleton also has work under way remodeling the building bought from Floydada Masonic Lodge across the street from the Williamson Building on Main and Missouri Streets, recently occupied by the J. C. Western Grocery & Market.

The stair well at the rear of the Western Store is being taken out, squaring up the first floor for use and display of merchandise.

The ceiling is to be lowered, acoustical tile ceiling installed along with new fluorescent light fixtures, before the job is completed.

Believes in the Country

In addition to the business property Stapleton has acquired in the past three years, he also has four three bedroom rental residences. Of these three were acquired from former owners and have been remodeled for tenants, the fourth being a new house.

"I believe in Floydada and Floyd County," Mr. Stapleton said. He got a late start in business, due first to the depression, then lost a year in a bout with tuberculosis, and four years with Uncle Sam during World War II.

JOHN B. STAPLETON

they inherited from their pioneer mother, Mrs. G. J. Stapleton. Property costs money, it is wide open to all the forms of local, state and county taxation, and it costs to keep it modern, but as the community grows and the country develops it will undoubtedly be more valuable, Stapleton believes. He has spent many dollars proving he believes what he says.

Quiz Body Investigates Rash of Law Violations

17 True Bills Are Returned By Grand Jury

A rash of assaults with intent to murder and assaults with intent to rob and robbery by assault appears to have hit Floyd County in December and January.

This is indicated by the bills of indictment returned by the February grand jury, which was empaneled and held its first session Friday of last week.

When the quiz body finished its labors after 5 o'clock in the day it returned into court 17 bills of indictment, all on felony charges.

Jewell Ewing and Eugene Craig both were indicted for robbery by assault of G. P. Nelson, 71, filling station operator at Sterley. The offense occurred Sunday, Feb. 11, about noon.

Mr. Nelson received one cut in the top of his head. He was rather badly beaten up. His head wound required 16 stitches. Bonds have been set at \$5,000 each. They are held in default of bond.

Eugene Craig also was indicted for passing a worthless check for \$226 to Weldon Graves, welder of Lone Star. Bond was set at \$1,000.

Returned From Corpus Christi

Jose Garcia was indicted for assault with intent to rob Rufus Sepeda in December. He was arrested at Corpus Christi. Sheriff Helms returned him to Floyd County. Bond was set at \$1,000.

Ernest Johnson, alias Buddy Henry, was indicted for assault with intent to murder James Carl Johnson, no relation. He made bond in the sum of \$1,000. The offense was committed Dec. 27.

Celso Delgado was indicted for assault with intent to murder Jose Galvan Nov. 18 last winter at a Mexican dance in Lockney. One indictment was returned on a charge of theft over \$50 and another for removal of a mortgaged property from county, both against the same man, who has not yet been apprehended.

A man who has not yet been apprehended is charged with forgery and passing a forged instrument.

B. G. Peoples, who is now in jail at Big Spring, was charged by indictment for the offense of passing a bad check for \$97.50 in payment for a new shotgun bought from Bunk Peck.

Pete Reyes and Albert Garza were indicted, two Mexican youths 17 and 18 respectively for the theft of a pick up from Oscar Golden and theft of an automobile the same night from J.

Chapter Meeting Monday

Lon Davis, chairman of Floyd County Chapter American Red Cross, announced this week the date of the annual membership meeting of that organization has been set for Monday, February 26. The office of County School Superintendent Clarence Guffee was named as gathering place and 2:00 p.m. is the time.

Purpose of the annual meet is to elect officers and to hear financial report, report of home service officer and of the fund raising campaign chairman, W. W. Trapp.

The County has been divided into two parts and Wayne Brown, manager of the Southwestern Bell Telephone Co. is the southern area-wide chairman. He will be selecting and appointing various district chairmen in the very near future.

The northern half of the County will be under the supervision and organization of the Lockney Young Farmers which is an active and enthusiastic young organization. By accepting the chairmanship it will be one of their activity accomplishments and they will in turn receive national recognition in their organization.

In order to make this drive successful it will be necessary for many workers to assist the two area chairmen and some of our good citizens will be asked to give some of their time to this very worthy drive, said Mr. Carr, home nursing; Mrs. L. C of C Banquet Early Comers To Get Views Of City Growth

Early comers at the annual banquet of Floydada Chamber of Commerce the night of Friday, March 2, will see a feature not on the formal program.

While the late arrivals are being seated and served, a series of slides showing Floydada scenes, including business establishments and homes, will be screened. Secretary-Manager of the Chamber of Commerce announces.

The slides have been made at odd times during the year, by the president of the organization, Dr. Chas. C. Craig, as a hobby. It will not interfere with the

regular planned program. This week Reue said Ralph Mardis, ticket sales chairman for the annual banquet, reports sales at a record-breaking figure, and Reue estimates the probable attendance at 350 persons. "We have a considerable number of visitors from other cities and towns who will be with us," he said.

SHIRT SLEEVES IN FEBRUARY

Weather in West Texas is deceiving. February shirt sleeve days do not necessarily presage an early spring.

Trees that have swelling buds, like the peaches, are most likely going to have to make a second try later—probably April, previous weather experience presages.

TRUTH ABOUT FOOD PRICE

We are assured this is a fair statement of fact about food prices:

"Since January, 1953, food prices haven't risen more than five percent, but the total cost of living has risen twelve percent.

These also appear to be facts: The average family pays as much for the service of getting foods in the amounts they want, packaged like they want them packaged, as they used to spend on all their food budgets.

TYPHOID NO LONGER RAGES

The once deadly menace of Texas communities was typhoid fever. But with knowledge of how to protect water supplies and food from contamination this disease has been way, way low on the Texas list.

There is a vaccine available to the general public for those who are subject to unusual exposure. The military make use of the vaccine for all their forces.

The lesson of typhoid as well as many other lessons in disease prevention grew out of the wars in which our country has engaged.

JANUARY ACCIDENTS AT NEW LOW

Whether Floyd County people were unusually careful on the highways in January or whether we were just lucky might be debatable. At any rate the total number of accidents on the highway in the month was only seven, according to the Department of Public Safety.

ABOUT FALL OUT SHELTERS

While you wait the nuclear blast might come, of course, but if the preparation one makes for protection is inadequate the sense of false security could be fatal also.

And this doesn't cover many other small needs and foods of high nutritional value that do not take up too much room. This, then, is to suggest that you do not spend your money just because you have it and would like to keep on living.

FIRST THINGS COME FIRST

The Hesperian likes the factual way the senate is approaching the postal rate increase bill voted recently by the House of Representatives.

Having learned of the senate's attitude the postal employees all over the country are having meetings to determine what they are going to ask for. The rally in this area is to be held Friday night at 8 o'clock.

GETTING TO BE THE CUSTOM

The reasoning of the Senate's postal affairs committee is that a hike of postal employees pay has been tied to every postal rate hike made in the last 10 years.

HAS IT OCCURED TO YOU...

That other people may find it difficult to get on with you? That you were young yourself once? That others have a right to their own opinions?

STATE DISASTER RELIEF

Texas blushed a deep pink when Hurricane Carla hit and we had nothing stashed away to help our own people.

Texas, instead of taking the lead and accepting help from other sources as proffered, stood with official hands in pocket and watched the show.

Odds Forbidding. The way the weatherman is conducting his business this spring makes terrible odds against such delicacies this summer as fresh peaches.

Important to Ministers. Ministers who desire to take social security for their earnings have an important deadline to meet. It is April 16.

Cruise Control. A speed control convenience that is making its appearance on some dash boards is called by various names such as cruisecontrol and speed reminder.

Textile Mill Tour. For a cost of about \$150 a Floyd County cotton raiser could join in a textile mill tour at Winston-Salem, N. C., March 5-7.

Hound Dog. (This one borrowed from a neighbor.) Upon being questioned why he was late for school, a mountain boy had this explanation.

Attendance Is 257 For First Of Fellowships

Two hundred fifty-seven persons turned out Sunday evening for the first Sunday Evening Family Fellowship series which continues through March 11 at the First Methodist Church.

At the evening worship, Rev. Paul Fullerton, pastor of the First Christian Church, spoke on "The Foundation for Christian Living."

He said faith was the foundation for living and we must have it to overcome tensions, frustrations, fears, and worries of this life.

Rev. Houston Dixon, pastor of the Chumberland Presbyterian Church, rendered a psalm, "Stranger of Galilee," accompanied by Mrs. Dixon at the piano.

Rev. Charles Lutrick, pastor of the First Methodist Church, recognized leaders of the different groups at the opening of the worship service.

DIXON TO SPEAK SUNDAY. Next Sunday evening, Rev. Dixon will preach on "The Motive for Christian Living" at the evening worship which is over at 7:30 p.m.

All three churches named above are sponsoring this joint fellowship to provide opportunity for fellowship, learning, and worship.

Question and answer type discussions are conducted for the study sessions that brought forth much interest at the opening session.

Kitchen And Field Report

By Nancy Morckel, Home Economist, Lighthouse Electric Coop.

According to Daniel E. Jones Power Use Adviser with the Electrification Administration in Washington, D. C.

A plentiful supply of hot water instantly available at the turn of a faucet, is something every rural family wants and can have these days. Once a luxury few could enjoy, now water has become a practical necessity.

It is no longer necessary to endure lack of hot water. An adequate size electric water heater assures a plentiful and dependable supply.

An electric water heater is clean and silent it is completely insulated on all sides and is economical to operate. It simplifies the construction of your home inasmuch as it does not require a flue for venting purposes.

Your electric water heater has other advantages, too. Its flexibility permits you to locate the heater nearest the point of most frequent use of water or in out-of-the-way places where it frees valuable space for other purposes.

The one benefit alone of being able to place the water heater at any selected place will mean many dollars saved in its operation. By placing the water heater near the point of most frequent use of hot water you save the excess losses of heat from the water remaining in the pipe each time water is drawn. Also shorter runs of smaller pipes can be used without increasing friction losses in the flow of water.

LOCATION OF WATER HEATER

The most logical location for the water heater in the house is near the kitchen sink. The average home will not use more gallons of hot water at the sink, but the hot water faucet will be turned on and off more often at the sink than at any other place in the home. It is the frequency of alternately emptying and filling the pipe that determines the wastage. If the housewife turns the hot water faucet on for just a cup of hot water, it is necessary to run the water out of the pipe from the water heater to the faucet. Then after the cupful is drawn and the faucet is closed, the water starts to cool immediately, and if there is a long run of pipe between the sink and heater, the loss is considerable over a 30-day period.

The chances are that your family has grown since you put in your present water system years ago. Also, you probably have many more water connected appliances, such as the automatic clothes washer and dishwasher.

Turman Makes Announcement Of Candidacy

James A. (Jimmy) Turman of Fannin County, Speaker of the Texas House of Representatives, has begun his active campaign for Lieutenant Governor.

Speaker Turman said his decision to run for Lieutenant Governor was "based on the sincere belief that my record as a legislator and as presiding officer of the House qualifies me for the duties required of the Lieutenant Governor — to preside over the State Senate in a fair, effective and democratic manner and to help preserve the God-given personal and political rights and liberties of all our citizens." His statement in part continues: "I believe that the only legiti-

JAMES A. TURMAN

mate forces in State government are the wills and rights of all our citizens deciding the issues through their elected state officials, and not through the 'Big Lobbyists' in Austin."

"I want the support of all Texas citizens in establishing fiscal responsibility in State government, and, at the same time, support in providing the protection and services our people have a right to expect from our prosperous State with an ever-expanding economy."

Worked Way Through School.
Speaker Turman added, "I will meet and visit personally with as many people as time, between now and the primary, will permit."

Turman worked his way through East Texas State College as a bus boy, dish washer and waiter, drug store clerk and bookkeeper, receiving the B. S. and M. S. degrees in Business Administration. He earned a Doctor's Degree in Education from the University of Texas.

Turman, a share cropper's son, was born on a tenant farm in Fannin County and lived with his parents in Gober, Gladewater and Bonham. He is a Navy veteran of the Korean Conflict, and a church and civic worker.

Turman married his high-school sweetheart, Ira Nell Wigley of Gober. They have one way about 9 p. m., Sunday, February 18, at Peoples Hospital in Floydada. Mrs. Hatley, age 83, had been ill approximately three months and critically ill a week. The Hatley family have lived in the Dougherty community since 1917. Following the death of her husband, Mrs. Hatley moved to Floydada four years ago. She has frequently visited in the community where she is affectionately known as grandma Hatley. She is survived by three sons, R. B. of Shamrock, D. G. and Oran, Floydada, and two daughters, Mrs. Jess Glover (Bessie) of Dougherty, and Mrs. J. N. Riggs (Ruth) of Phoenix, Ariz., eight grandchildren, Burl, Dwayne, Buddy and Spencer Hatley, Juanelle (Mrs. Don Wyatt) and Trewynne Glover, Elrea, Audrey and Winona and Maxine Hatley or Mrs. Doyle Jackson and Mrs. Wayland Faulkenberry and 18 great grandchildren.

Dougherty News

By Mrs. W. J. Ross
DOUGHERTY, February 19 — Harbingers of Spring, birds singing in the trees, plants budding and cherry trees in bloom and only February. But as a native West Texan, I can say "be not deceived. March and April are to follow."

Harold Woodson and his mother, Mrs. C. R. Woodson visited relatives at Barleson over the weekend.

Edwina Overstreet was the house guest of her aunt, Mrs. A. L. Atkinson, of Lubbock, over the weekend.

Rev. Jim Dewese, Mrs. Dewese and daughters were Sunday dinner guests of Mrs. Ruth Daniel.

Mr. and Mrs. Carmel Eastham and daughters went to Plainview Monday to meet his mother who was arriving by train from Topoka, Kas., for a visit in her son's home.

This is the final week of a 12-hour course on mother-baby care sponsored by the Red Cross at the Baptist Mission. Mrs. Travis Jones, a registered nurse, is conducting the course. She reports much interest in the course by the 17 Latin American women enrolled.

Mrs. Jones is also on duty at the Dougherty School Tuesday of each week where pupils are being checked for such vital factors as weight, hearing, sight, etc.

This is a community club sponsored project.

Mrs. Bet Hockenberger, of San Diego, Calif., was a recent house guest of her sister, Mrs. H. D. Meredith and husband.

Mrs. Hatley, age 83, had been ill approximately three months and critically ill a week. The Hatley family have lived in the Dougherty community since 1917. Following the death of her husband, Mrs. Hatley moved to Floydada four years ago. She has frequently visited in the community where she is affectionately known as grandma Hatley. She is survived by three sons, R. B. of Shamrock, D. G. and Oran, Floydada, and two daughters, Mrs. Jess Glover (Bessie) of Dougherty, and Mrs. J. N. Neff-Galloway Vows Repeated Friday Evening

Miss Winola Neff, daughter of Mr. and Mrs. Lee Neff and Jerry Galloway, son of Mr. and Mrs. Henry Galloway were united in marriage at the home of the bride's parents on February 16 at 7:30 in the evening.

Elder K. B. Martin of the New Salem Primitive Baptist Church performed the ceremony before an ark covered with flowers. The ark was set in front of a mantle massed with flowers and candles.

Accordian music was played by Pat Rials of Dimmitt, who sang "I Love You Truly". She was accompanied by Mrs. Fred Ritchey.

Given in marriage by her father, the bride wore a street dress of white lace over white satin, fashioned with a large velvet bow in the center back. Her tulle veil was attached to a crown of pearls and she carried a bouquet of white carnations.

Mrs. Harvey Rials of Plainview served as her sisters' matron of honor. Miss Martha Warren was bridesmaid and Gail Neff, cousin of the bride, was candlelighter and another cousin, Aubrey Neff, was ring bearer.

All the bride's attendants wore dresses of either gold or white, and each carried a single long-stemmed gold carnation.

Carroll Sims was best man, and Connie Galloway, brother of the groom, acted as groomsmen.

Immediately following the wedding, a reception was held in the home of the bride's parents. Wedding cake and punch was served by Mary Neff and Leona Neff.

American Heritage Study Continued

Mrs. Joe Wilson was hostess to the 1922 Study Club, Thursday afternoon February 15, in the home of Mrs. R. A. Garrett, American Heritage, Path To Freedom, was the subject of the Program.

Mrs. D. S. Battey was Program Director. "The American Creed" was read in unison.

Roll call was answered by giving "One of Our Freedoms."

Mrs. Battey read II Corinthians 3:17 for her devotional.

In contrasting our "American Heritage," Mrs. Battey quoted from Captain Frederick Marr-yates Diary, edited in 1839, who seemed to express the idea, that it is the country and not the government, which has been productive of such rapid strides in America. It is a question, whether the form of government would have existed down to this day, had it not been for the advantages derived from the vast extent and boundless resources of the territory in which it was established.

In comparison, let us take a few quotes, written one hundred twenty five years later, from a recent article of Billy Graham's in regard to our government.

"It would be impossible to understand the system upon which this nation was founded, without understanding the religious faith, fervor, and zeal of those early Americans." Dwight D. Eisenhower once said, "The founding fathers wrote this faith into our founding documents. They put it squarely at the base of our institutions." Graham says, "Early American History was hallowed with a purpose greater than material wealth, and a cause greater than Democracy. It was forged in the fire of a burning faith in God."

Group singing by the club was composed of patriotic songs.

Homes That Tell America's Story, was given by Mrs. D. W. Burke. She showed pictures of the homes of some of our past Presidents, as well as of other great Americans.

The program was closed by giving the Pledge to the flag.

In the business meeting, with Mrs. Battey presiding, reports from various committees were given.

The next meeting will be March 1, at the PCA community room, with Mrs. E. J. Morehead as hostess.

Refreshments were served from the dining table, which was covered with a white linen cut-work cloth, and centered with an arrangement of red carnations, red candles, and two small American flags.

Members present were Meses. D. S. Battey Sr., D. W. Burke, J. V. Daniel, W. H. Henderson, Edd Johnson, Harry Koenen, E. J. Morehead, E. F. Stovall, and J. M. Willson Sr. and the hostess Mrs. Joe Wilson and Mrs. Garrett.

Gas Controversy—In a recent letter to irrigation customers Pioneer Natural Gas Company stated that they didn't believe that the recent activities in Austin during the special session of the Legislature were characteristic of the Plains area, etc. It is uncharacteristic in the sense that the farmers usually accept rising costs of operation with a resigned attitude. It is becoming increasingly clear that farmers must take a more active role in their own interests or be sacrificed to those who are supposed to serve them. City utility rates are under the jurisdiction of the Railroad Commission, and I believe that rural communities are due the same protection. I fail to see how a fairly set service rate could provide a threat to expansion of the gas company.

Thank You, Nancy—When I have any questions about food preparation or preservation, I pick up the telephone and call Mother. If I cannot reach her or if she cannot answer my

question the next person I call is Nancy Morckel. Besides being an expert in the kitchen, Mrs. Morckel possesses a delightful personality. I heartily recommend her to you girls who don't have your mothers within calling distance. If you are in need of a particular recipe, you can be sure that Nancy Morckel will have it right at her fingertips. I know that in her work with Lighthouse Electric, Nancy has made many friends who appreciate her as much as I do.

Popular In-Law—Surveys have shown that a father-in-law wins hands down in popularity—figures have shown him to be seven times more likable than a mother-in-law. First of all, he's more apt to keep hands off his children's courtships, though, as you might suspect, he meddles more in daughter's than son's affairs. After his children's marriages, too, he's less likely to interfere than his wife, presumably because his main preoccupation is his work. But however popular he is as an in-law, his children and their mates do have one persistent peeve about his behavior, and on a surprising score. He outdoes a mother-in-law about four to one in talkativeness, a good part of which is in "telling the same story over and over again."

Freida Smith, Mr. Everett, Wed Friday

Miss Freida Ann Smith became the bride of Bobby Ray Everett at 8 P. M. Friday in the First Baptist Church Chapel. Church of Christ Evangelist, Garland Lipe read the double ring ceremony.

The bride is the daughter of Mr. and Mrs. G. W. Smith of Floydada. Parents of the bridegroom are Mrs. Delton Holt of San Antonio and Mr. Roy Everett of Lubbock. The bridegroom is the grandson of Mr. and Mrs. Roy Everett of O'Donnell.

The bride was escorted and given in marriage by her father, G. W. Smith. She wore a chapel length gown of cloud white de-luster satin, designed with a deep yolk of re-embroidered alencon lace. The scalloped portrait neckline was enchanted by long sleeves tapering to netted points over the hands. The princess bodice flowed into a V-panel of lace. A contour peplum from the sides terminated at the center back and was topped by two flat loops, which formed a bustle that held the full sweep of the chapel train.

The bride's veil had a forward crown with clusters of crystal and pearl spray accented by a shoulder length veil of silk handkerchief point illusion. Her bouquet was a white pearl covered Bible holding a large white cattelaya orchid in showers of bridal satin and white Maline.

Mrs. Dale Smith, sister-in-law of the bride, served as matron of honor. Bridesmaids were Mrs. Byron Brock of Lockney and Miss Carolyn Cates of Abilene. Their dresses were of turquoise Peau taffeta, sheaths with bouffant puffed tunic overskirts. Each carried a cascade bouquet of white butterfly rosebuds, bridal satin streamers and white Maline.

Best man was Ronnie Cannon of Purcell, Okla. Serving as groomsmen were James Badgett of Lubbock and Rod Harris of O'Donnell. Seating the guest were Dave Holt, brother of the bridegroom of San Antonio, and Bill Thomas of Lubbock.

Lighting the aisle and altar candles were Misses Barbara Williams, Lubbock, and Diana Holt, sister of the bridegroom, San Antonio. Their dresses were turquoise Peau taffeta sheaths with bouffant puffed overskirts.

Jana Hash, cousin of the bridegroom served as flower girl.

Mrs. Bob Copeland, organist, provided the nuptial music. Mr. Dale Smith, brother of the bride sang, "The Lord's Prayer" and "Whither 'Thou Goest'". Mmes. Ray Lloyd, Floydada, and Wayne Webb of Childress, aunts of the bride, registered the guests.

The wedding scene was formed by an elevated basket in the background of white and emerald foliage and flanked by white spiral candelabra holding white wedding taper. Matching floor baskets of white mums, emerald foliage and stately palms of emerald foliage completed the wedding scene. The pews on the bridal aisle were decorated in lighted tapers and emerald foliage.

The mother of the bride wore turquoise lace and satin dress with matching shoes and hat complemented by a white pearl bag and gloves. Her corsage was of sweetheart rosebuds and satin leaves. The groom's grandmother's dress was taupe lace with matching hat, brown accessories complimented her costume. A corsage of sweetheart rosebuds

and satin leaves was also worn.

Reception in Church Parlor

The reception was held in the church parlor. The bridal table held a large crystal bowl arrangements of white carnations, white pom pom mums and white twist candles in crystal appointments. The wedding cake and bridal cake were served from crystal appointments, assisting in the hospitalities were Mmes. James Earl Teague, Wayne Adams, Jerry Bullock, Ned Bradley, Mal Jarboe, Dorris Jones, and Johnny Cates.

For travel the bride wore a white Italian knit suit with yellow trim and a matching yellow coat. Accessories included dyed-to-match shoes and bag with white leather gloves, pearl jewelry and a white orchid corsage.

A wedding trip was planned to Corpus Christi, Galveston, and San Antonio.

The bride is a 1960 graduate of Floydada High School and she attended Lubbock Christian College and West Texas State College in Canyon where she is a member of Delta Zeta National Sorority. Her husband is a graduate of O'Donnell High School and Lubbock Christian College and is now a student at Texas Technological College in Lubbock.

Floyd County 14 Years Ago
(You read it in The Hesperian February 12, 1948)

On February 12 the gas company asked that business users of natural gas "take a holiday" to conserve gas for residences. Intense cold, powered by 25 mile an hour winds, had lingered for 3 days and was still hanging on. The lowest reading of this period was 8 degrees above zero. Supt. I. T. Graves announced that Floydada public schools would be closed for the day.

Commissioner Fred N. Clark of Precinct One will be taking a rest for the next four weeks, and son Don returned home on doctor's orders. Mr. Clark went to Lubbock for a check up last week and doctors there said his heart must have a complete rest.

H. G. Parker of the Parker Furniture Company has opened a new home furnishings store in Lockney. Associated with Mr. Parker are Newell Parker and Herschel Swepston.

Trustees of Floydada Independent School District have adopted plans for the additional housing to be built with the \$90,000 district bond issue. W. G. Collins, board president said a north wing will be added to Andrews Ward. The wing will include six classrooms and an enlarged heating system.

The engagement of Miss Floyd Hale, daughter of Mr. and Mrs. Walton Hale, to Raymond Lamar Haines of Amarillo was announced at a tea given in the home of Mrs. Walton Hale on Wednesday, February 11.

Southwestern Bell Telephone company is rapidly transforming their blueprint for expansion into actual work. With all this added activity, the company will pour an estimated \$300,000 into this area. When the construction and installation jobs are completed, they expect to have practically doubled their present 700 home and business stations.

Floyd County taxpayers voted Tuesday by a resounding four-to-one majority to issue \$500,000 in bonds for the construction of roads.

The City Council of Floydada is trying to figure out some way to meet the public demand for a swimming pool. After the bond issue was approved, the council had to wait so long for a permit from federal authorities that they don't have enough money to meet present prices.

Mr. and Mrs. H. G. Barber and son Don returned home Sunday from Weatherford where they had been for a week following the death of Mrs. Barber's mother, Mrs. R. V. Jones.

AUSTIN — Texas newsmen quizzed seven candidates for governor at a session of Sigma Delta Chi, professional journalism society, and fanned early-season campaign sparks.

Gov. Price Daniel took the center position, weathering attacks from nearly all the other candidates, both democratic and republican. All candidates took part except John Connally and Edwin Walker.

A little fire even developed between the three republican candidates. Harry Diehl of Houston said Jack Cox of Breckenridge was "not a Republican — just a conservative candidate." But two days later, Diehl withdrew from the race, leaving Roy Whittenburg as the only republican primary opponent for Cox.

Don Yarborough and Marshall Formby attacked the Daniel administration as "tired" and "lacking vigor." Daniel came back with a recital of his five-year accomplishments in education, industrialization and other fields.

Will Wilson's approach was that Daniel's entry collapsed the Connally bandwagon by splitting Vice Pres. Lyndon Johnson's organization, and that the only way to get an uncontrolled candidate was to elect Wilson.

Candidates got in more punches in answering tough questions posed by nine newsmen. All of

Daniel's opponents made the Governor's unprecedented four-term limit, but with four-year terms for governor instead of the present two.

FRIENDLESS INSECT — A big-hatted crowd of ranchers gathered at an Austin hotel to get more facts on the stockman's dream—the elimination of the screwworm.

There was no one there to defend the insect.

Ranchers learned from Florida how that state was swept free of this costly scourge by a dramatic program. Florida ranchers covered the state with sterile male screwworm flies thus wasting the female flies' single mating period. First airplane distribution of flies in South Texas started the day of the Austin meeting.

Texas stockmen are raising \$3,000,000 by voluntary contributions to match an equal amount of Federal money put up by the U. S. Department of Agriculture. The screwworms cost Southwestern ranchers an estimated \$40,000,000 a year in losses.

LIVESTOCK RAISERS GET HELPERS — A committee of five legislators held its first meeting after hearing plans of the Southwest Animal Health Research Foundation.

Speaker James A. Turman appointed Representatives Ray Bartram of New Braunfels, Steve Burgess of Nacogdoches, Stanley Boyesen of Yoakum, Glenn Kothmann of San Antonio and GMUS Mutscher of Brenham to assist the SWAHRF in planning its attack on the screwworm fly.

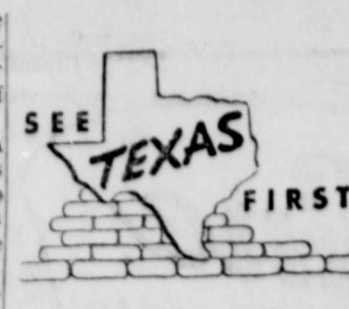

HORSE OF ANOTHER COLOR — Stamford oilman Keith Wheatley seemed to get off the track in his campaign for Railroad Commissioner when he told Austin pressmen that Texans should be able to cast a vote on the return of horse racing to the state.

Wheatley said he is neither for nor against racing, but believes "tax profits from horse racing could do much to aid the old people and the children of Texas."

Gubernatorial candidates are interested in regulating another kind of race. They think limitations should be set on the number of times a governor can run for reelection.

Marshall Formby based his objections to the present lack of limits on the fact that most state projects are operated by commissions whose members are appointed by the governor on a rotating basis. Formby figures that by the end of a second term, a two-time governor has made every state commission appointment and it's time for him to take a rest.

John Connally seconded the charge of commission domination, and said that by the end of a third term, every one of

Seguin's Rebellion Battleground

Cordova's Rebellion was ended in 1839 on a prairie battleground just east of Seguin, Texas.

A monument commemorating this Guadalupe County battle now marks the Central South Texas battleground.

Here 80 volunteers, commanded by General Edward Burleson, engaged in battle with Vicente Cordova and 75 Mexicans, Indians and Negroes. The volunteers killed 25 of the enemy and drove the rest from Texas.

Many of the volunteers were wounded in the battle but they incurred no fatalities.

the more than 900 commissioners have been appointed by a three-time governor. He promised that he would ask the Legislature to limit a governor's tenure to two terms if he's elected.

MIGRANT STUDY SET UP — State Board of Education appointed R. P. Ward of Edinburg to head a study on the education of children of migrant parents, after Commissioner J. W. Edgar called this "one of the critical problems facing the Texas public school system."

Ward, former president of Pan American College, will develop a guide for teaching these children, who form a large percentage of the enrollment in Rio Grande Valley schools.

TEACHERS' TIME TABULATED — State Board of Examiners for Teacher Education and the Texas Education Agency sent out about 80,000 questionnaires, asking how Texas educators spend their time on curricular, co-curricular and extracurricular activities.

So far, more than 20,000 answers are in. Agency researchers are anxious for the other replies. They want to feed them to computing machines. Purpose is to get an analysis to help the Texas Legislative Council prepare a full report on teacher certification and the status of education in Texas.

Other facets of a report to be presented to the 58th Legislature in January will include the public view of education; a history of teacher education and certification in Texas; personal characteristics and social and economic data of teachers; a look at the current class of education majors and an analysis of their college course work.

When the "portrait of a Texas teacher" is completed, educators think it will represent the most comprehensive study of public education ever undertaken in this state.

A teachers' pay survey revealed that the West Texas towns of Crane and Kermit pay the highest salaries to new teachers — \$4,900 a year, and that practically all districts with 2,500 or more students pay more than the \$4,014 legal minimum.

GOP PRIMARIES UNDER FIRE — State democratic committee Walter Sterling opened another argument in the inter-party battle when he accused republicans of dodging their responsibility by not holding a primary in every precinct in the state.

Sterling and the State Democratic Executive Committee question the legality of a republican primary nominee who has not been voted on by every republican. Executive Director Clyde Johnson said, "The republicans should not be able to avoid legal and financial responsibility in these primary elections."

Republicans counter - charged that democrats failed to hold primaries in 24 counties during the 1960 special election. But Johnson promised the party will "follow the law as usual" and hold primaries in all 254 counties this May.

Short Snorts

Governor Daniel has appointed Thomas H. Stillwell of Palestine as judge of the 3rd District Court, to succeed Judge V. M. Johnston.

A report from State Auditor C. H. Cavness showed the Board of

Registration for Professional Engineers made a transfer of \$225,000 to help pay for the new State Office Building No. 2 where it will office.

Board of Corrections and Highway Department have purchased more than \$350,000 worth of steel, which state prison inmates will use to fashion auto license plates for 1963.

Republicans have appointed Mrs. Robert McCord of Dallas to handle publicity for the 10th Annual Republican Women's conference in Washington, D. C., on April 15.

THAT'S THE WAY I LIKE MY SHIRTS SPARKLING CLEAN & READY TO WEAR

That's why we are adding an electric clothes dryer beside the washer in our laundry room.

There will be no need to wait for weather with an electric dryer... no lugging of laundry to and from an outside line and my shirts will last longer.

And I understand my City and Light Department will me wiring assistance on the installation of the new dryer.

Do you have an electric dryer in your house?

WHAT?

BUILD A PICKUP TRUCK SPECIALLY FOR TEXAS!

YES SIR—THE '62 FORD!

IF STARTED IN TEXAS—when Ford engineers came here to track down exactly what Texans need in a pickup. They drove Texas roads... talked to Texas truck owners... and produced a truck that fits Texas to a "T." Drive the '62 Ford pickup and you'll agree!

The wheelbase is long—114 easy-riding inches (122 for 8-foot bodies). There's little chance of bumper-scrape on inclines because of the short front overhang—and more ride stability. The ride is smooth-tooth. To the long wheelbase, add easy springing—and the ride's as soft as a Texas drawl!

The frame is strong. It's built to stand the twisting of high-crowned Texas roads.

The savings are BIG—and they start right today! Ford's pickup prices—the lowest of any leading... save from now on! Save on gas with Ford's modern V-8. Save on oil—go 4,000 miles between oil changes! Ford's Full-Flow oil filter. Save on tires because suspension keeps front tires tracking true. In certain pickups using independent front suspension, Ford's up to 83% longer!

Stop in and drive a '62 Ford pickup today. It's built in Texas. Let us show you why Ford's full-line starts with low price!

been decided on in consequence of the pretensions of Spain to reinforce and direct who refuses to act in concert (army) The most salient with her allies, and seems inclined to carry on the war in her own way and for her own benefit. In addition to the above intelligence, which is stated to be correct, it is determined to dispatch an expedition of about 8,000 men, and a major general and his have been made to Austria of who is to take the coming to bestow the throne of Mexico on Archduke Maximilian

(the husband of Princess Charlotte of Belgium.) It is added, as might have been expected, that the cession of Venetia is attached as a condition to this proposed elevation of the Austrian Archduke. I cannot say whether such overtures have been really made, but they are so talked about that I presume there is something in it. However, the condition alluded to is a sine qua non, there can be no doubt that the negotiations will fail. —LONDON HERALD (Reprinted in Texas newspapers)

MORE INDIAN DEPREDATIONS — We regret to learn that on Friday last, 10 Indians visited Boerne, Blanco County, and killed five persons, whose bodies have been found, besides two or three others are missing, and it is feared are killed. The names are Donop, about six miles north of Boerne, Baptiste, near Boerne, and Reinhart, living in Boerne. Two of Kendall's shepherds are killed, two escaped, and one missing. The Indians are finely mounted on American horses, and do not appear to wish to steal, but to murder. The bodies of all the killed had been stripped. This is truly a lamentable state of things. Boerne is about 35 miles north of San Antonio, and having hitherto been considered safe from Indian depredations, the people had become careless — a fact which had probably come to the knowledge of the savages — hence their boldness. We also hear that the Indians have again visited Atascosa County, stealing Mr. Durand's horses and making their escape. —SAN ANTONIO HERALD

ADVICE TO MARRYING MEN — When you see a girl who can't even sweep her own seven-by-nine chamber, and then goes dancing all night with the power of a locomotive, make up your mind she is "got up" on bad principles. The sooner you take your hat and depart the better. Such kind of calico has been the ruin of many a good man. —THE BELLVILLE COUNTRYMAN.
