Scheele Wins Again

City Attacks Water Problem

See Plentiful Supply Before Summer's Heat

Beset by water problems, as much of engineering at the moment as of supply, the city this week began a vigorous campaign to afford an ample supply at least by mid-summer.

Problems include engineering, finance and materials for one or two new wells, locations for which have been made and the best means of tying them into the city's water system.

Councilman Henry Willis who is the water man on the board of aldermen, said yesterday he had begun working already on the various angles and hopes to have a report for the council to work on by the time of their meeting Tuesday night.

Engineering, financing, drilling wells, and construction all are involved in the work that is being planned.

Action of the council was triggered over the week-end, when in a conference with W. A. Massie the city was donated two well sites on land southwest of the city limits. The city has been in urgent search for new water supply sources.

Members of the council expect to expedite matters as fast as possible to greatly increase the available supply of water by: Adding at least one new well to the water system; and

Constructing a new line to tie in with the city main at strategic locations.

The presumption in the council is that there will be corollary problems, such as sand trapping. What the cost will be and how many days it will take to do the work when financing is arranged are two questions for which the council needs an early answer.

Location of the new well sites are west of the present south west wells which supply the city.

Engineering problem is occasioned in part by the fact that the water line from the supply tank has insufficient capacity to meet the growing demands of the city's users.

Demands on the city, with increasing population, has kept the authorities on the alert to keep an adequate supply and at the same time assure ample water for possible emergencies due to fires.

Farmers Sign Up Acreages

Floyd County farmers are signing their intentions to comply with diverted acreage percentages on wheat and barley production today at the ASC office, according to Thomas J. Hutchins, office manager. Deadline for signing up is March 30.

The minimum amount that can be diverted and is eligible for CCC price support is 20 percent of the base. The government has decreed that diverted acreage must be of equal productivity of other farm land. Sweet sorghum and sweet corn will count against the feed grain base if used for silage. Turn rows or end rows used for turning will not qualify as diverted acres.

Mr. Hutchins is asking for sufficient diverted acreage to be designated at the time of the reporters visit, to avoid the expense of an extra trip. Any excess acreage designated will count toward the diverted acreage of grain sorghum.

All acreage designated as 1962 feed grain diverted acres or wheat diverted acres may be grazed until May 1.

If the feed grain base on the farm is 25 acres or less, all can be diverted. If the base is from 25 to 100 acres, 20 per cent plus 20 acres can be diverted, and as much as 40 per cent of the base can be diverted on 100 acres or more.

THE MCINTOSH FAMILY, Jack and Ruth, their daughters Ann and Sally, and their sons, Kreis and Kirk, have been named Family-of-the-Year at the First Methodist Church in Floydada. They will be placed in nomination with several other families of the district for later submission to a committee of the National Conference on the Christian family to be held in Chicago in October. See related story in this issue. (Staff photo).

Cite McIntosh Family As Family of the Year

The Jack McIntosh family has been named by the First Methodist Church of Floydada as the Family-of-the-Year. This selection is in keeping with a national emphasis on the Christian Family preparatory to the National Conference on the Christian Family to be held by The Methodist Church in Chicago in October.

The following are the qualifications upon which the families are to be judged: 1) The family exemplifies inspiring Christian living in the home. 2) The members of the family are known as warm, good neighbors. 3) The family takes a creative role in church and community life. 4) The family applies Christian ethics in business or professional life. 5) The family shows concern for the welfare of the world outside the community, and appreciation of the church's role in world affairs. 6) Members of the family are church members or are in church school.

Civic and Church Workers

Mr. McIntosh is currently Chairman of the Official Board of the First Methodist Church. He is also teacher of the Men's Sunday School Class, member of The Methodist Men's Fellowship, a member of the Pastoral Relations Committee of the church. He is a lay member of the Northwest Texas Conference, this area.

Funeral services for Stephens are to be held at 10 a.m. this morning at the Church of Christ in Silvertown.

Stephens is no relation of W. A. Stephens, Silvertown resident and a member of the Pastoral Relations Committee of the church. He is, however, a long time resident of the Northwest Texas Conference, this area.

Floydada Rotary Club Chooses Officers For 1962-63 Club Year

Officers and directors of the Floydada Rotary Club for the year of 1962-63, beginning July 1, were named at the noon-day meeting of the club yesterday.

New directors chosen were Wayne Brown, Sam Fowler, Shirley Irwin, and Charles Luterick. President to succeed Cecil Lewis.

Dr. Floyd Golden, president emeritus of Eastern New Mexico University, addressed the group on the menace of communism. He recently made a 37 day stay in the Soviet Union studying the educational system of that country and the social and political life there. He was quite specific in warnings of the intent of the Soviets toward America.

Jr. Stockman Repeats With Angus Steer

David Scheele, a 14-year-old 4-H clubber of Lockney, repeated his performance of last year in showing the grand champion steer of the Floyd County Junior Fat Stock Show, with an 870-pound milkfed calf that won in the lightweight division and went on to be judged the prime calf of the show.

Second place winner was Ricky Kellison, Lockney 4-H, who also showed an Angus calf that tipped the scales at 851 pounds pay weight.

David's show calf that took last year's grand prize was a Hereford. His Angus calf this year came from the herd of John Carroll, Plainview.

David's calf sold for four Providence business men, names not disclosed, at \$1.05 per pound, for a total of \$886.20.

Ricky's calf sold at 80c per pound to First National Bank at Lockney and brought him \$680.80.

Grand champion winner in the swine line was Neil Mitchell, who showed a Poland China barrow to the first honors and a Chester White to the reserve champion spot. His grand champion weighed 193 pounds, his reserve champion 216 pounds.

First National Bank of Lockney bought Neil's grand champion barrow at \$1.05 per pound to gross \$202.65, and his reserve champion went to Lockney Coop Gin at 70c to bring him \$151.20.

Championships in the lamb division were won by Bob Kropp, 4H, in the fine wool category, Paulette Kropp, 4H medium wool, also lamb of other breed, and Jim Kropp 4H with a Shropshire lamb. The Kropp youngsters are children of Mr. and Mrs. Paul Kropp.

First place winner in the Southdown class was Louis Reid Cardinal, a 10-year old 4H club boy, son of Mr. and Mrs. Fred Cardinal.

Show Has Good Weather

For the first time in many a year the weather man smiled on the junior fat stock show. Last year it was snow and cold the young exhibitors had to brave with their animals, and in prior years it has been rain, or wind and dust.

The complete list of winners appears in this issue of The Hesperian and the complete list of sales will be printed next week.

Explosion Kills Briscoe Resident

Trueman Stephens, about 30, was killed Tuesday night about 10:30 at his farm home shop near Whiteley Switch in Briscoe Co.

It is believed that a butane tank explosion was the cause of death, which was instantaneous. Survivors are a wife and several children.

Pastor Returns From Hospital

Rev. Vance Zinn returned to the pulpit of the Calvary Baptist Church last Sunday after an absence of six weeks.

Rev. Zinn has been at the Baylor Hospital in Dallas for treatment, but doctors say his condition is now satisfactory.

He will return to Dallas in May for a checkup.

REPORT FOR ORDERS

Two Floyd County boys reported yesterday at noon to the Selective Service Board for induction into military service. They were Clifford Watson Jones and James Gail Wilson.

Lively Program Given At C of C Annual Feed

Floydada Chamber of Commerce at the annual banquet-meeting Friday night had 372 registered members and guests present and there was little that was dull about the evening.

Dr. Charles Craig's story of Floydada progress in 1961 told in color slides to the moving line that formed at the cafeteria door set the pace for a fast-moving program that followed the dinner.

There was ample room for the largest crowd the organization ever has had at an annual meeting, the food was well-prepared and the home economics students who served it did their work well.

Farming Areas Fortunate

Dr. Arthur A. Smith, the Dallas banker-economist, in his talk told the agriculture conscious audience that the European Common Market in his opinion is less likely to make problems for farming areas than for the industrial centers. Farming even may be given better position in the economic world by the upcoming changes, he thinks.

The economist also paid tribute to the farming industry for its fantastic increase in productivity since the year of 1940. No other type of business has made strides that will equal the job that the farmers have done. The knowledge they have used is available to any other nation in the world but only here has it been applied. Because Floydada is in the middle of this vast agricultural empire it should continue to do well, he told an audience that has been hearing bad news about the place in the sun of the farming industry for a long time.

Floydada an A Community

Dr. Smith rated Floydada an A community. "I have been looking at your town this afternoon and I like what I saw," he said. A little more attention to streets and homes would be helpful, he said, but by and large the picture a stranger gets of the community is a good one, he reported.

Roping Club Announces Rodeo in May

Floydada Roping Club this week is announcing a rodeo to be held at Floydada Rodeo Association grounds on May 17, 18 and 19.

Charles Plumber, Oklahoma rodeo promoter, will furnish the stock for the three-day event.

Program Tonight Will Climax Floydada Public Schools Week

Today, the Floydada Public Schools are inviting all the citizens of the city to attend open house at all the schools.

This is an excellent way for everyone to become acquainted with the teachers and the physical plant of the schools, say the school administrators.

At Andrews Ward, students have made displays for their rooms, and parents will have the opportunity of seeing their children, artistic efforts as well as some of their classroom work.

Incidentally, in mentioning that every community dreams of factories and smoke stacks, he said that business people seeking a location often do their own looking. "They often look for themselves, and the Chamber of Commerce, the banker and others may not even know their town has been appraised," Dr. Smith declared.

Dr. Smith was presented by James M. Wilson Jr., who was a student of the former professor at SMU.

Rev. Paul Fullerton, pastor of First Christian Church, was master of ceremonies. Dr. Charles C. Craig, retiring president, presented members of the board, including the retiring as well as the new members. He also introduced the guests from out of town, 53 in number.

Incoming president Newell Burk, who was slated to have a part in the evening's program, was called out of town unexpectedly on professional business and could not attend.

Chamber of Commerce Manager J. W. Reue was among those recognized and praised for a constructive year of work.

Shirley W. Irwin expressed appreciation of the Chamber of Commerce and the community for the leadership Dr. Craig gave to the organization during the year. It was at considerable sacrifice to himself and to Mrs. Craig that he performed the many tasks which his position demanded, Irwin said.

A musical program was presented by Linda, Dianne, Rebecca, and David Scheele, children of Mr. and Mrs. Albert Scheele; Pamela Brandes, and Debra Brandes, daughters of Mr. and Mrs. L. B. Brandes.

The following trophies were presented: Grand Champion Steer, given by Western Supply, and presented by T. J. Cardinal to David Scheele.

Grand Champion Barrow, given by Producers Co-op Elevator and presented by Roy Hale to Neil Mitchell.

Fine Wool Lamb Champion, given by Consumers Fuel Assn. and presented by Bert Mankin to Bob Kropp.

Medium Wool Lamb Champion, given by Charlie Boedeker and presented by Gerald Lackey to Paulette Kropp.

Champion Southdown Lamb, given by Green Acres Farms and presented by Paulette Kropp to Lewis Reid Cardinal.

Champion of Other Breeds Lambs, given by Winn Restaurant and presented by Skinny Winn to Paulette Kropp.

Championship Shropshire Lamb, given by Caprock Motors Parts and presented by John Key West to Jim Kropp.

Showmanship Award for the Beef Division, given by the Waggon Wheel and presented by Doyle Mount to Randy Henderson.

Others appearing on the program included Rev. Floyd C. Bradley, who said the invocation, Bill Deardorf of Plainview, who furnished dinner music, and the Music Department of Texas Technological College. Dr. Craig singled out President Quin Hemmle directed the musical feature in person.

Jim Sudduth, a Crosby County product, was a good pianist, the audience thought, accompanying these the tenor was Douglas Pummil, and the soprano Linda Baker," he said.

Fete Jr Stockmen Present Awards

The sixth annual Fat Stock Show banquet was held Tuesday night at the high school cafe.

Champion of Other Breeds Lambs, given by Winn Restaurant and presented by Skinny Winn to Paulette Kropp.

Championship Shropshire Lamb, given by Caprock Motors Parts and presented by John Key West to Jim Kropp.

Showmanship Award for the Beef Division, given by the Waggon Wheel and presented by Doyle Mount to Randy Henderson.

Showmanship Award for the Sheep Division was given by KFLD and presented by Mrs. B. A. Robertson to Mark Montandon.

Showmanship Award for the Swine Division was given by Gerald Lackey and presented to Kim Porter by Lackey.

Approximately 269 people were present at the banquet.

City Ballot Has 4 Names

With three to elect, Floydada voters will have a choice among four candidates for the office of Aldermen come April 7 and the date for the annual Municipal election.

Saturday was the deadline for filing places on the ballot and until that date only one name had been submitted at the city office, that of Leonard H. Smith, who is a candidate for re-election.

Saturday the last three candidates filed. They were Roe Jones and Henry Willis, who are on the board and candidates for re-election, and Clement B. McDonald, who has not before offered for city office.

Adrian Sparks was taken to Plainview Hospital Monday night as a result of a fall in his home.

Mr. Sparks has been in poor health since he suffered a heart attack two years ago, and doctors believe that a fainting spell caused the fall.

Seven Mile Road Promised County

A seven mile road that will be of great value, particularly to in-country travel, from the Rock Creek Road east through Sterk to State Highway 207, with junction one mile south of South Plains, is "in the works" for this year.

It is being recommended this week by District Highways Engineer O. L. Crain, Mr. Crain told County Judge J. D. McBrien the first of the week.

About seven miles of road will have to be built, five miles of it new pavement.

FREEDOM BOND DRIVE

(By Charles Ryckman, San Francisco Examiner)

United States Savings Bonds have two purposes; one to provide financing for the government, the other to help people save money.

It becomes an extremely personal thing, when the bond buyer realizes he is putting a solid financial foundation under his home, his family and especially the prospects of his children.

This leads into something currently important. For two months, next May and June, the impact of Savings Bond buying will be felt in the lives of most of our people.

There will be other objectives. One is to have as many people as possible—actually every American, if that is possible—be Savings Bond buyers during the period.

If past experience means anything, the public will respond. There have been no exceptions to this record since the first World War, when all the Liberty Loans and the wind-up Victory Loan were oversubscribed.

THIS IS 4-H CLUB WEEK

There are many pitfalls these days for teenagers and many chances to "get off on the wrong foot." But also, thankfully, there are many opportunities for a youngster to get started right.

One of these, for the boy or girl of the temperament to enjoy the activities of a community club of their own age group, while they engage in useful and productive endeavor, is the Four H-Club.

The activity is one sponsored by the Extension Service and has for its coaches well-trained and dedicated adults who make the work their way of life.

Pointing up the good things that come from the 4-H Clubs for the young people of the nation is National Four-H Club Week.

MILLIONS BUY FISHING LICENSE

A report seen this week in some wild life or sporting magazine says the 50 game and fish departments of the nation have made certified reports to the Department of the Interior showing that more than 19 million people bought fishing licenses in the year of 1960.

This number is large, almost too large to be imagined, but at that it does not represent the whole of the population who fished in that year.

These fishermen do all kinds of fishing, one kind appealing to one type, another kind to another. One thing most of them have in common. They like to fish as well as they like to eat the catch.

CUBA'S MISSILE BASES

The current news that Fidel Castro is not missing but is alive and well speaks volumes, especially in view of the fact that he showed up at the baseball game, was given a turn at bat and on fourth strike lined out a sizzling single.

The Communist need for Fidel is fast being dissipated as people of that poor island become more regimented. We suggested months ago that when he had served his purpose he would be jailed or liquidated on some charge.

But the latest, really, from Cuba is that missile bases are being set up there and the state department to be consistent is having to look the other way, and appear disinterested publicly, as the intelligence agents report the growing military power there.

Country people, had they been running the government, would not have long tolerated Batista himself, much less Castro. Cuban independence is our baby. When the government there became irresponsible we'd have done something about it long before it became an international issue.

To take a cut at the powers that be, we'd say that one is not necessarily wacky because he is in Washington, but when he has moved there he seems to have made a good start.

OLD AGE AND SOCIAL SECURITY

Because of direct personal interest the aged people over the nation are backing the proposal that medical care be tacked on to Social Security taxes. One finds that not only personal support for the measure is being voiced to the congress, but also organized demand is growing, to make a congressman fear for his political welfare should he dare to take an opposing stand.

Principal fear we have is that the added load will break the back of business, drying up the source of the billions that will be needed. It is evident that to pay the costs already entailed in the Social Security law the rates of taxation on business must be increased considerably as the years go by.

This consideration appears not to dismay the proponents of the movement. They may be right (but we don't see how they could be) for at this very moment, every business in the country, including The Hesperian, pays six and a fourth percent of the wages it earns for Social Security.

If all boys were taught responsibility, and "how to work", 75% of our delinquency in America today would not exist.

Twenty-Saw Gin. At a time when all are thinking of bigger and more massive gin plants, more saws per stand and more stands, it is interesting to report a 20-saw plant. This is at High Plains Research Foundation, where equipment was assembled as a gift from various sources.

Young Candidate. One of the youngest aspirants for state office this year is J. Evetts Haley Jr., of Canyon, who says he would like to put some fight into the office of State Commissioner of Agriculture.

Listening Post. The state agriculture commissioner's office has degenerated in the past two decades into what might be called a listening post for the national department, under the growing demand for centralized government.

Man's Humanity. Man's inhumanity to man often is matched by man's compassion. And the state of one's place in life is not the measure of it. Last week The Echo, prison-inmate newspaper at Huntsville, told of a hopelessly ill youngster, whom his parents brought to one of the prison farms to receive life's blood where so many come to give their lives for sins against society.

Spiritual Bedrock. The little boy's parents, no doubt, have had to find help from above to continue the fight against such great odds for their little boy's life and to make his life as nearly normal as can be until the inevitable end.

New Director. Incidentally the prison system has found a new director to take the place of the late lamented O. B. Ellis. He is Dr. George Beto, who assumed his duties March 1. Ellis did so many things for the Texas system of penal correction, and pointed the way so clearly that his successor may not have as difficult a time as former prison directors had.

If all boys were taught responsibility, and "how to work", 75% of our delinquency in America today would not exist.

Driver Is Casual But Leaves Much Excitement Behind

Billy Hinkle was casual enough when he drove out of the Hatley Service Station on East Houston Thursday but he left a lot of excitement behind him. The attendant was still filling the truck tank when Billy felt the urge to leave. The hose was still connected and pulled the pump out of plumb. Gasoline began spilling on the driveway, a short in the hose connection ignited it and lit up the scene. To make it more interesting to Don Pemberton, Doyle Walls and Gene Collins, Jr., of Lockney. Funeral service for Mrs. Owens was held Friday at the First Baptist Church. Rev. F. C. Bradley officiated, assisted by Rev. Paul Fullerton of the First Christian Church. Student Council Tell Of Plans For Exchange Student

Ricky Holland, Janice Trapp and Fred Thayer, officers of the Student Council at Floydada High School told Floydada Rotary Club members last week of their hope to have an exchange student from a foreign land in their school the coming year. They have about \$750 in the fund and believe they will be able to finance the project. However, they have other problems, among them a home in which the exchange student would become a member during his or her school year. Most of the exchange students that come to this area are from an English or European country, they said. In other schools of the area, where an exchange student has studied, the school has found the experience a stimulating one. The youngster would live as a member of the community, and would be shown no special favors.

Girl Scouts Observe 50th Birthday

March will be a busy month for Girl Scouts all over the nation as the girls observe their 50th anniversary.

It was on March 12, 1912, in Savannah, Ga., that Mrs. Juliet Gordon Low organized the first Girl Scout troop, patterned after the Girl Guides of England. The Girl Scout movement now offers girls an organized program under trained leadership.

The program is devised to help girls become good citizens and happy, generous, resourceful individuals. It emphasizes the development of initiative, cooperation, and responsibility. The opportunity to become a scout is offered to all girls from 7 through 17, regardless of race or creed.

In Floydada the birthday month will be observed by a series of "Mother-Daughter Teas", cookie sales, and church attendance in a body. This year the Girl Scouts will attend the First Methodist Church in uniform on March 11, assembling in Fellowship Hall at 10:45 a.m.

Local troop leaders are Mrs. Hollis McLain, second grade Brownies, Mrs. David Lewis, third grade Brownies, Mrs. Wayne Brantlett, fourth grade Brownies, and Mrs. Ralph Thayer, fifth grade Brownies.

Floydada Girl Scouts have a place to meet because of the generosity of Mr. and Mrs. Tate Jones. The local couple are loaning the building to the organization against the day when a permanent Girl Scout House can be built.

Mrs. Rex Luckey and daughter, Jana, have joined her husband in Holly Ridge, N. C.

WOMEN PLAN World Prayer Day Program

United Church Women of Floydada will join women on six continents to observe the World Day of Prayer tomorrow at services to be held at the First Methodist Church at 10 a. m. Lunch will be served at 12:00 noon.

Participating in the service will be Mrs. Kinder Farris, Mrs. Tom Snead, Mrs. Lon Davis, Jr., Mrs. Ed Wester, and Mrs. Arnold Schuppert, all of the First Christian Church. Mrs. Schuppert is in charge of the service.

The World Day of Prayer is sponsored annually by United Church Women, a general department of the National Council of the Churches of Christ in the United States, representing 12 million Protestant and Orthodox women.

Offerings received on World Day of Prayer in this country are divided between the Division of Home and Foreign Missions of the National Council of Churches, The Migrant Ministry, poor rural areas, and work among the American Indians all benefit from these offerings.

Brownies Sell 2 Types Cookies

Brownie Troop One has laid plans for a busy month, in observance of the 50th Anniversary of Girl Scouting in the U.S.A.

On Monday, March 5, the third grade girls began a week long cookie sale. The profits will help to subsidize troop activities. This year two types of cookies are offered, the "Peanut Butter Patties" that were so popular last year, and a new "Round-up" Shortbread cookie, which promises to be a real taste treat.

Cookies sell for 50 cents a box. For prompt delivery call your favorite third grade Scout, or contact the Cookie Sale Chairman, Mrs. G. T. Arwine.

On Sunday, March 11, Troop One will attend church in a body. The girls are asked to meet their leader, Mrs. David Lewis, in Fellowship Hall of the First Methodist Church at 10:45 a.m.

On Monday, March 12, the girls will play host to their mothers at a "Mother-Daughter Tea" to be held at the Scout Hut between the hours of four and five p.m. "Fifty years of Scouting" will be the theme.

Overheard here and there... Of a new hat: "I know it isn't becoming, but it looks smart!" Of one of the current hair-dos: "It's horrible on me, but who can afford to look pin-headed these days?" The old-fashioned woman, of her new home: "John bought it while I was in Denver; he loves modern design, you know. I guess colonial is out of date any way." Five upper-middleage women seated together: "Won't you be glad when they get below our knees?" The bored mother, after the chicks have flown: "I'd like to take interior decorating and open a shop, but Jack says absolutely not!" A man in his forties, about to leave a successful business career: "It seems the thing to do. Mary has never been happy here; and the climate doesn't seem to agree with her." Big-hearted father and spouse: "I used to be quite a deep sea fisherman; but the family likes the mountains." Of favorite foods: "Oh, we never have oysters. I'm the only one who likes them." The 14-year-old boy with ideas of his own: "I wanted to work in a filling station this summer, but Dad says I have to help in the grocery store." The college girl: "I'm majoring in music. I always wanted to be a geologist, but Mother says that's no place for a girl." The wealthy widow's Pekingese dog: "This sweater is impossible! What WILL the other dogs think?" Who says we're living in a free land? We're surrounded and emmeshed by the Joneses' rules and the opinions of our loved ones.

Price, spice and everything nice!

Who ever thought a car that saves like this could have so much sizzle? Chevrolet engineers, that's who! Liveliness and luxury for a low, low price were exactly what they had in mind to begin with. And they began from scratch with a whole carload of ingenious new ideas designed to give you more for your money. That spunky 6 with gas-sipping stinginess is just one example. Another: a new unitized body by Fisher that's fit for a full-size family inside, easy to park outside. Still another: tough but gentle Mono-Plate rear springs that outdo many a rival for quiet comfort. Any wonder Chevy II won magazine's 1962 Engineering Excellence award? (The wonder would be if you settled for thing less—once you get your hands on one at your Chevrolet dealer's!)

Indictments Follow Fatal Street Mishap

An indictment on two counts, alleging failure to stop and render aid, and murder with motor vehicle while driving while intoxicated, was returned against Dallas Edward Hurt, 34, Matador garage man, by a Briscoe County Grand Jury Monday in Silvertown.

The charges grew out of a pedestrian-vehicle collision on Highway 83 in Silvertown, Wednesday night of last week, in which W. A. Stephens, 76, of Silvertown was fatally injured as he entered the highway to cross on the way to a prayer service. His wife, 74, was with him but was only slightly injured, according to witnesses said the injured man, who died on the way to a

Tulia Hospital, was struck by a 1953 black Chevrolet.

Hurt, a married man with a family of four children, was arrested in Floydada about 11 o'clock the same night, Wednesday. He was in company with a nephew, Roger William Throneberry, 19, who was also arrested. Both were jailed in Floydada pending bond of \$5,000 each, set by the Silvertown justice of the peace.

Throneberry was also indicted by the Briscoe County grand jury, charged with being accessory to the offenses alleged against Hurt. Throneberry was formerly of Fort Worth.

Sheriffs Johnnie Lanham of Briscoe County and Walter Holm of Floyd County made the arrests.

District Judge L. D. Ratliff set bonds of \$5,000 for each of the defendants. Hurt was due to be freed Tuesday, after being held overnight in the Floyd County jail. Throneberry was only slightly injured, according to witnesses said the injured man, who died on the way to a

jured man, who had been a resident of Briscoe County for several years, was taken to the Tulia Hospital by a son.

Steps Buried Saturday

Memorial rites for W. A. Stephens were held at 2 o'clock Saturday afternoon at the First Baptist Church and burial was made in the Silvertown Cemetery. Besides his wife he is survived by six sons and one daughter.

Kitchen And Field Report

from Lighthouse Electric Cooperative, Inc., by Nancy Morekel Home Economist

Last Tuesday, February 27, seemed to be just an ordinary day, with the usual round of things to be done - regular home-work chores - a day at the office - plans to go to a shower with a friend in the evening - - -

It was my birthday - but a mail box filled with pretty cards - a lovely gift from the girls here where I work - also a gift from my "secret pal" at the church, cards and gifts from my family along with an invitation for Harry and me to spend the evening and have supper with my brother and his wife, all combined to make it a lovely day. On our way to the party we stopped to pick up Mrs. Don Barrow. When I stepped into her house I was greeted by a group singing "Happy Birthday" to me - I have never in all my life been so completely surprised - a group of friends, a delicious buffet supper complete with a beautifully decorated birthday cake, a lovely gift, and games of "84" were the perfect ending for a birthday that will long be remembered. Those planning and attending the party in the lovely new home of Mr. and Mrs. Don Barrow were:

Mr. and Mrs. Bobby Smith, Mr. and Mrs. Sam Spence, Mr. and Mrs. Lon Davis, Jr., Mr. and Mrs. Starks Green, Mr. and Mrs. Arnold Schuppert, Mr. and Mrs. Tom Sneed, Mr. and Mrs. John Buchanan, Rev. and Mrs. Paul Fullerton, Mr. and Mrs. Glen Jarnagin, Mr. and Mrs. Edd Brown, Mr. and Mrs. Ed Wester, Mr. and Mrs. Don Barrow and Harry Morekel.

"Our hearts are always happy for our friends round about us. With their kindness and their love. For it truly is a blessing to have friends dwelling near. Who are always spreading sunshine. With their words and deeds sincere. When good friends walk beside us.

On the trails we must keep - Our burdens seem less heavy and the hills are not so steep. The weary miles pass swiftly - and all the world seems brighter. With good friends to walk by our side.

Mrs. Melvin Henry has been in Lubbock several days with her mother, Mrs. Gussie Browning who underwent eye surgery recently at West Texas Hospital. Mrs. Browning's condition is quite satisfactory at this time. She is being moved to Plainview to the home of a daughter.

A few days ago a letter came from a dear friend, Marie Purvis, one of the home economic teachers in the Anchorage, Alaska, High School. She with her husband Louis, their daughter Beverly and their son Burt moved from Ralls to Alaska more than two years ago. She says they enjoy the Sourdough Hotcakes so much and she enclosed a recipe for making them, along with an Extension folder giving interesting information and "sourdough yarns."

According to Agnes Sunnell, State Home Economics Leader, Sourdough, another word for an Alaskan oldtimer, also means a yeast starter for leavening hotcakes, waffles, muffins, bread and even cake. To those who lived alone or in a small group of three or four, mining, trapping, or homesteading, sourdough became a precious possession.

In early days of Alaska, bread making at home was a necessity. Food supplies came only once or twice a year by ship and then were transferred to small boats, river steamers, dog sleds or back packs to reach their destination. Many localities received supplies only when a steamer could navigate the river or the lake during the few months of summer thaw. Orders placed the year before required careful selection with close attention to "keeping" qualities as the enroute timing proved uncertain. Yeast became deactivated in a short time and could deteriorate entirely en route, especially if unusual ice formation and heavy wind or seas delayed the ships' entry into rivers or ports of call. Ordinary yeast plants, sensitive to the extreme cold, refused to grow, while the combination of wild or adapted yeast in the Sourdough starter proved as tough as its oldtimer namesake. Or did the oldtimer resemble and get his name from the indomitable sourdough starter? Choose whichever theory pleases you most.

To Make Sourdough Starter

For best results use glass or pottery containers. Never use a metal container or leave a metal spoon in the starter. A good starter contains only flour, water, and yeast. It has a clean sour milk odor. The liquid will separate from the batter when it stands several days, but this does not matter. If replenished every few days with flour and more water, the starter keeps fresh. If starter is not

to be used for several weeks, freeze or dry it to keep it from spoiling. To carry it to camp, add enough flour to shape it into a ball and place it in a sack of flour. In the dried form the yeast will keep inert for a long time like old-fashioned yeast foam. Water and warmth bring the yeast back to the active stage.

Mix well:
2 cups flour
2 cups warm water
1 package dry yeast or 1 yeast cake

Place in a warmplace or closed cupboard overnight. In the morning put 1/2 cup of the starter in a scalded pint jar with a tight cover and store in the refrigerator or a cool place for future use. This is "SOURDOUGH". The remaining batter can be used for pancakes, waffles, muffins, bread or cake immediately.

Commercial sourdough starters now on the market are dried and powdered. Adding water brings it to life. In growing, the yeast gives off a carbon dioxide gas which forms bubbles in the dough. The lactic acid bacteria changes starch and sugar to lactic acid giving the dough a sour odor. Soda is added to react with the acid to form more gas which makes the batter lighter. If too much soda is used, the product is brownish when baked. If too little soda is used, the soda just before baking. Never add soda to the starter as it kills the yeast.

Sourdough Hotcakes:

Sourdough hotcakes, the main breakfast dish of prospectors, miners, and oldtime Alaskans, differ from other hotcakes in that the batter is leavened with a yeast starter and soda. The starter must be set the night before it is to be used. The starter, replenished every week with flour and water, will last weeks, even years. Some Alaskans are still using a starter traced back to an original starter brought into the country with the gold rush. To them the sourdough pot is a prized possession.

To Make Sourdough Hotcakes

Set the sponge for Sourdough Hotcakes the night before your Alaskan breakfast. Place the starter in a medium size mixing bowl. Add 2 cups warm water and 2 cups flour. Beat well and set it in a warm place, free from draft, to develop overnight. In the morning the batter will have gained 1/2 again its bulk and be covered with air bubbles. It will have a pleasant yeasty odor. Sourdough hotcakes for three persons. Set aside 1/2 cup sponge in the refrigerator jar for your Sourdough Hotcakes starter for next time. To remaining sponge add:

1 or 2 eggs
1 teaspoon soda
1 teaspoon salt
1 tablespoon sugar

Beat with a fork and blend in all ingredients. Add 2 tablespoons melted fat. Bake on a hot griddle. Turn once. Serve with mixture of hot brown-sugar syrup or honey and melted butter. Molasses, jelly or rose hip syrup are other tasty combinations.

For interesting variations add 1/2 cup whole wheat flour, cornmeal, wheat germ, or branflakes to the batter. Using 2 eggs will provide the needed liquid for this addition.

News Worthy

One of Texas' finest, and most popular press rooms is in itself news worthy and truly a sight well worth seeing.

This press room accommodates 142 reporters and 20 photographers. As if that weren't enough, there are also facilities for six broadcast teams and 40 Morse and teletype operators. Nothing like getting the news out fast and with broad coverage.

Photos need to go out fast too, so two darkrooms are available for the use of the cameramen. There also are wire photo facilities for sending the photos direct from the press room.

Where is this great press room? In the Texas Capital? Wrong.

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford
TEXAS PRESS ASSOCIATION

AUSTIN.—Although the Texas Supreme Court hosted a Youth Council lost its fight for a legislative appropriation of \$100,000 to add more officers to its Juvenile Parole System, it just won a battle for the benefit of orphans in state institutions.

Attorney General Will Wilson turned over the deed to a \$200,000 Bell County ranch along with a check for \$12,446 to Dr. James A. Turman, Youth Council director. Presentation represented the outcome of a four-year court battle. Heirs of the late Mrs. Parrie Haynes contested her passing the property to the state.

Dr. Turman said the orphans of Texas will receive all benefits from the 4,160 acre ranch on the Lampasas River. It will be used as a summer camp and activity center for orphan's homes. Youth Council will raise cattle, pigs and sheep there to help feed the thousands of children in its care.

HEARINGS SHOCK TURMAN—Speaker of the House James A. Turman, candidate for lieutenant governor and former educator, expressed concern about the House Textbook committee, which he appointed.

Turman was shocked when he heard that a witness in an Amarillo textbook hearing alleged that Rep. Ronald Roberts of the committee was a "communist."

"I am afraid the committee members have been too nice and open about letting anyone appear to talk about any sort of censorship," Turman said. He is worried about the committee getting too far astray of its goal of studying the textbook situation in Texas.

In an Independence Day address at Washington-on-the-Brazos, he advocated the teaching of Texas history in all grade levels, and declared, "I think it is a mistake - a sad mistake - for our educational system in Texas to relegate our great state's history into a sort of grammar school fairy tale."

The speaker may be tempted—or forced—to touch on the subject again Wednesday when he is honored guest at the Public Schools' Week celebration in Jasper, Texas.

Floyd County 14 Years Ago

(From Hesperian, March 11, 1949)

On March 10, a record-breaking temperature of 4 degrees below zero was recorded in Floydada. Light, biting snow rode into the county on 20 mile an hour winds and made all outdoor work extremely disagreeable.

Several Floydada couples were in Plainview March 8 to attend the funeral of Mrs. Guest, wife of Dr. J. L. Guest a pioneer physician.

Members of the Floyd County Commissioners Court were encouraged by the district engineer to hope for a three year road construction program in this county to be followed by additional road building later.

Members of the Chamber of Commerce will meet March 16 at the American Legion to learn what progress has been made to re-activate the Chamber on a new basis of aggressive work. John Reue is the newly-elected president of the Chamber of Commerce.

On March 8, a marriage license was issued to Milton J. Weems and Betty Corley.

Martin and Company is sponsoring a two hour entertainment at the Palace Theatre March 19. In addition to the live entertainment, a technicolor film modern farming methods will be shown.

L. W. Chapman, Lee Trice, and Geo. L. Fawcett are in Chicago this week attending the National Rural Electric association convention.
