District 2-AA Action Starts Abernathy Here Friday Nite

The Floydada Whirlwinds of and kick-off time has been moved. The game will bring together teams of almost identical records. Both have won five and lost one for the season and both have shown that they have a scoring punch, as evidenced by some of the big scores they have run up against pretty good competition. The Antelopes this season have very downed Olton 8-7, Hale Center 41-0, Post 33-14, Friendship 33-0, Merton 40-0. Their lone loss was early in the season to Petersburg 6-12. The Antelopes of Coach Curtis Davenport are a senior ball club. They have nine seniors and two sophomores in the starting lineup.

Crash Kills Mexican Man Santos Lores

Santos Lores, 21 year old Floydada farm laborer, was killed Saturday night when the pick-up truck he was driving overturned three times about one mile west of Floydada. Lores was thrown from the vehicle, which was owned by Cleo Fulton of Sandhill. He was pronounced dead on arrival at Peoples Hospital where he was taken by ambulance following the accident. Fulton said the pick-up was taken unknowingly to him or his family. The Fultons were in Floydada Saturday night and were returning home when they came upon the wreck scene, and noticed the pick-up was theirs.

Connally Attend Rally

Effort to strike a blow among Democrats in the 30th district was held in the high school cafeteria at Tulia on Tuesday, Oct. 23 at 7:00. The entire state ticket will be held in this town. Connally, gubernatorial nominee for Governor and Joe Blain, the party's choice for Governor at Large, both have the opportunity to give a boost in this district.

Wednesday Rain Halts Harvest

All harvest operations in Floyd County came to a halt on Wednesday morning when rain and dampness moved into the area. A few quick checks showed the moisture fall to be heavier in the west part of the county and tapering off to just a sprinkle at Dougherty and along the east county line as of noon Wednesday. At Barwise Gins a report of one inch was the heaviest received by the Hesperian. Some ginning was going on before the rain and the community needed a few more field hands to gather open cotton. McCoy Gin reported one-half bales ginned to date to be reported among those contacted. Cotton men were hoping for a break in the clouds and a return to the sunshine and drying winds to get things moving again. The mile harvest is about over, say most elevator men. Some report their customers have cut 99 percent of the crop. The 1962 milo crop has been good and most cases well above average. The early harvest of the grain crop has left farmers with one less worry from fall rain and weather damage. Much of the county's wheat crop has been sowed and is up to a good stand giving promise of winter pasture.

Housing Authority Will Study Bids On Project

THE CITY OF FLOYDADA HOUSING AUTHORITY is shown here in a picture taken just before they opened bids on Tuesday for a low rent housing project. From left to right are Dale Goen, chairman; Fred Battey, vice-chairman; C. H. Bedford, Ed Wester and Bill Hale. Standing at center is John Reue, executive director of the local housing authority.

Director Says Contract Will Be Let Soon

The Commissioners for the City of Floydada Housing Authority opened bids Tuesday on the proposed low rent housing project for Floydada. Nine bids had been submitted and 37 people were present at the PCA Community Room for the bid opening. Jim Thomas, architect representative of the Wyatt C. Hedrick Co. of Fort Worth, was here with the local commission to go over the bids submitted. The bids were read and have been forwarded to the Regional Office of Public Housing Administration at Fort Worth. John Reue, executive director of the Floydada Housing Authority told The Hesperian that a contract for construction will be let within the next few weeks.

Salvation Army Fund Drive To Be Kicked Off With Breakfast

The Salvation Army annual fund drive will get underway with a kick-off breakfast at the Colonial House on Tuesday, October 23, at 7:00 a. m. Tommy Tommy Army are very low at present, drive chairman for Floydada and the south part of the county, urges all workers to be present for the breakfast meeting. Administration costs of Salvation Army are a little over 9 percent leaving over 90 percent to serve those in need of help. People of Floyd County have been good to Salvation Army in the past and workers ask for continued support. An attempt will be made to contact all people in town and in the rural areas.

A goal of \$2,500 has been set for this part of the county and an effort will be made to reach all persons and give them an opportunity to give to this worthy cause. Floydada has always come through with a good Salvation Army drive.

The regular Salvation Army committee is made up of Chairman John Reue, Treasurer Weldon Harris, C. H. Bedford, Lorin Liebfried, Walter Collins, J. C. Steer, James H. Word, Homer Wilson Jr., Harry Morckel and Don Pemberton.

The committee in the past year gave assistance to 949 people with such items as groceries, clothing, shoes, medicine, hospital care, lodging, transportation, assisted in the school milk program and sent six boys to summer camp.

Funds that are collected in the county will be used one-third in the county and the other two-thirds forwarded to the state organization. All funds of the state organization remain on call by the local committee at all times and are returned as needed. This week. Construction calls for double brick walls inside and out with panel trim. The 36 by 60 feet building will house the chapel, seating approximately 200, a cry room, dressing and rest rooms and tile baptistry. There will be parking area to the east of the church. Hopes are the building will be completed in early December.

Church Chapel Construction Now Moving

Construction is underway on the new "West Side Church of Christ", with the foundation for the chapel structure laid last week. The new church will be located on the corner of Mississippi and First Street, facing north, according to the latest information.

Brick work is to get underway this week. Construction calls for double brick walls inside and out with panel trim. The 36 by 60 feet building will house the chapel, seating approximately 200, a cry room, dressing and rest rooms and tile baptistry. There will be parking area to the east of the church. Hopes are the building will be completed in early December.

Trustees for the building program are Wm. H. Smith, Porter Galloway and Truman Dunavant. Ben Galloway is local contractor for the structure and Weldon Williams is doing the masonry work.

CHARLES ALEXANDER

October 21 Is Laymen's Day At Methodist

The First Methodist Church will observe Laymen's Day, which is an annual affair in many Protestant churches, on Sunday October 21.

Mr. Guy Ginn, local Lay Leader, will be in charge of the services at the morning hour. Mr. Charles Tyler will lead the morning prayer.

Mr. Charles Alexander of Lubbock will be the morning hour speaker. His theme will be "As Good Stewards".

Mr. Alexander is a member and leader in the St. John's Methodist Church of Lubbock. He has served as Chairman of the Commissions on Education and Membership and Evangelism, as Church School Superintendent, and is a member of the Stewardship Commission of his church. He is also president of an adult class, and an active member of the Fishermen's Club of St. John's Church.

Mr. Alexander is manager of the South Plains Office of Great National Life Insurance Co. He serves as President of the South Plains Council of Boy Scouts of America.

The members of the Senior Department of the Methodist Youth Fellowship will present the Laymen's Day program at the evening worship hour. The program will emphasize the theme of "World Order Sunday". Who but youth are concerned with the problems of Peace and World Order?

Marie Thomas New President Of Golf Assn.

New officers for the Floydada Women's Golf Association were elected Thursday at their final meeting of the year and their monthly luncheon date.

Mrs. Marie Thomas was elected to serve as president, Mrs. Hazel Sherrod of Idalou, vice-president; Mrs. Jackie Walls, secretary-treasurer, and Mrs. Nell Vinson, reporter.

During the business meeting the Association voted to sponsor the Scotch Doubles tournament scheduled for Oct. 28. There will be nine holes played and entry fees will be \$5 per couple. Play time will start at 1 o'clock and all country club members are invited to participate in the tournament.

Quarterback Club Meets on Monday

The Whirlwind Quarterback Club will meet on Monday night, October 22, at the Floydada High School Cafeteria. Club President Preston Watson announced meeting time as 7:30 p. m.

Watson will call on the coaches for a scouting report on Lockney and any information of interest in the Whirlwind team. Films of games will be shown and refreshments of cake and coffee will be served.

All interested fans and players are invited to be present.

District 2AA Has Good Intersection Record

District 2AA wound up inter-sectional play with a fine record of 24 wins against 5 losses. The race is still just as tight as was expected when the season started, even more so since Abernathy has shown much stronger than first expected. Lockney the only undefeated team in the race has played one less game than other members of the circuit.

Table with 4 columns: Team, W, L, Pts. Op. Lockney 5 0 79 33, Tulia 5 1 178 51, Abernathy 5 1 159 51, Floydada 5 1 156 68, Canyon 4 2 101 72.

Absentee Voting

Six applications for absentee voting in the General Election had been by Tuesday, according to Margaret Collier, county clerk.

Chownings Move Back

Mr. and Mrs. Leroy Chowning, who were reared in Floyd County and their son, Doug, have moved back to Floydada to make their home. The Chownings will be residing east of town where Mr. Chowning is engaged in farming. The Chownings formerly lived at Hortense, Ga.

## Directors Named At Farm Bureau Convention Mon.

The Floyd County Farm Bureau held their annual county convention at Floydada High School cafeteria Monday night, electing new directors and making recommendations.

Thomas Warren brought the invocation and Rex Smithman read the minutes and financial report. The service agent report was given by Sam Puckett, followed by the field report by J. D. Hill and resolutions by Robert Lee Smith.

Entertainment for the evening was presented by the Scheele family. Mrs. Don Probasco won the door prize of a \$50 Series E. Bond, and the \$25 bond was won by Robert Lee Smith.

Those elected to the board of directors were Marvin Wells, replacing Rex Smithman, Don Bean, alternate; Elton Fortenberry replacing Lee Burton, Bill Ware, alternate; Gene Bloys replacing Tom Duval, Martin Bradley, alternate; Don Probasco replacing Herman Thornton, Bill Sherman, alternate; David Battey Jr., replacing Hollis McLain, Ollie Cox, alternate.

Officers of the board will be elected at the organizational dinner meeting to be held at the Colonial House on October 29. The occasion is for retiring directors, holdovers, new directors and their wives.

DENNIS TAYLOR, center, republican candidate for U. S. Congress, is seen flanked by the Taylorettes, who were hostesses for the coffee held Monday in Floydada for the opening of the Floyd County Republican Headquarters. Taylor was joined by John Zahn, candidate for Senator 30th District of Texas, who was also in Floydada for the grand opening. Reading from left to right the Taylorettes are Mrs. Vance Campbell, Mrs. J. A. Colston, Mrs. Carmel Eastham, Taylor, Mrs. Travis Jones, Mrs. David Battey Jr., and Mrs. Don Probasco. The little Taylorette in front is Jodie Eastham.

The Floyd County Farm Bureau calls attention to their National Policy toward the farm program.

The following county recommendations were voted on and passed:

**Welfare Funds** - That, since we are directly concerned with welfare programs in Floyd County in that they affect the availability of farm labor, the board confer with the county commissioners and other officials on ways and means of dispensing welfare funds and supplies only to those who need such aid.

**Noxious Weed Control** - That, the board of directors confer with the Floyd County Noxious Weed district officials and the

commissioners court in regard to intensifying efforts to control noxious weeds in county rights of way, and concerning the possibility of control of Johnson grass in road ditches.

**County Publication** - That, the board study the possibility of starting a county publication for the purpose of providing more information and increased service to members.

**Railroad Crossing Hazards** - That, Floyd County Farm Bureau assist in any possible way to reduce hazards at railroad crossings in the county.

**Citizenship program** - That, an expanded citizenship responsibility program be instituted in the county.

**Brucellosis Control** - That, Floyd County Farm Bureau provide the support necessary to assure that the screw worm control program is publicized in Floyd County.

**Safety Program** - That, the safety program be emphasized, the safety committee be re-organized, and that a continuous farm safety program be maintained.

**Membership Dues** - In view of the increasing cost of carrying on the necessary functions of the county organization, and the desire of the members to increase and improve services, and in compliance with the constitution and by-laws of the Floyd County Farm Bureau, we authorize annual membership dues to be raised from \$10.00 to \$15.00 and that the effective date of such increase be November 1, 1962.

**State Recommendations** - Railroad Crossing Hazards - We request that Texas Farm Bureau investigate the state highway department regulations that affect installation of signal lights at intersections of highways with railroads, and to work toward the installation of effective signals at all hazardous crossings.

**State and National** - Accept the present policies passed by both the State and National organization.

## Floyd County 14 Years Ago

(From the Hesperian dated Oct. 14, 1948)

Nearly enough cold to make a killing frost was recorded in Floydada and other South Plains points Thursday. A general rain fell over the area Saturday. The reading was down to 36 degrees Thursday morning for about an hour and this mid-week climbed to a hot 90 degrees.

It is a boy for the H. G. Kennamer of Falls River, Mass. The baby was born on Sept. 22 and has been named H. G. III. His Floydada grand-parents are Mr. and Mrs. Kennamer Sr., who are very anxious to go to Falls River. They have not as yet had a chance to meet a granddaughter, Crystal, who is 18 months old.

The first crate of Floyd County carrots brought \$1.00 this week when the Chamber of Commerce had the privilege of paying that amount to Ransom Walker, manager of the Parrish Farms Inc., where the crop was grown. The carrots, 50 to 100 carloads were shipped to Dallas.

Re-burial for Cpl. Cecil I. Cook, nephew of R. H. Ashton of Campbell community, and son of W. F. Cook of Kress, was held here Sunday afternoon in the First Methodist Church. Cpl. Cook died on July 6, 1942 in a Jap Prison camp.

In an impressive church ceremony Sunday afternoon Jacqueline Moore, daughter of Mr. and Mrs. A. H. Moore of Clarendon, became the bride of Doyle Walls, son of Mr. and Mrs. E. W. Walls of Floydada.

Mr. and Mrs. C. N. Battey celebrated their silver wedding anniversary at the home of their daughter, Mrs. Thomas Warren on Wednesday, Oct. 6.

John Maxwell who has been spending the last two months in Veteran hospitals, first at Amarillo then at McKinney, may be dismissed soon, possibly this weekend.

## Federal Crop Ins. Now Gives Grow High Protection

Federal Crop Insurance protection on irrigated cotton crop investments in Floyd County will be up to 44 percent higher for the 1963 crop. Texas FCIC State Director Ben Jordan, Jr. announced today. In Floyd County 150 farmers carry nearly \$350,000 F.C.I.C. protection to cover their approximate production costs.

While protection will be far above any offered here before, the average increase of premium costs to growers will be only slightly increased. This substantial increase in the amount of protection guaranteed by the Federal Crop Insurance Corporation is based on recent high yields in the county.

Mr. Jordan noted that "a great many growers in Floyd County have been policyholders since insurance was first offered in this county. With this coming year's tremendous improvements in our insurance offer, we expect all growers to recognize the value of a sound insurance plan that will protect their rising investment costs."

Federal Crop Insurance protects the grower against all risks that cannot be avoided. Over the country in the last few years the Corporation has paid farmers for crop investment losses caused by over 120 different hazards.

Mr. Jordan stated, "We think our insurance offer is so greatly improved that every business-minded irrigated cotton grower, who uses every modern method to produce cotton, will feel it's plain good business to protect their crop investment. That's what Federal Crop Insurance does."

# Lowell Bilbrey Lockney Deputy Sheriff Resigns

Lockney. Bilbrey has served Lockney as city officer for five years and deputy the past year since the death of Ray Hardin. His resignation was due to the illness of a small daughter who has an asthmatic condition needing constant care and the change in jobs will enable him to spend more time with his family here.

A new officer to replace Lowell Bilbrey, deputy sheriff of Floyd County for Lockney, has Mrs. Noel Troutman of Iowa as yet not been named according to the local sheriff's office. Mrs. Greer Christian and family. Bilbrey resigned last week of November 1 and will work for Peoples Hospital operating road machinery for Commissioner Bob Jarrett of fine.

**New Stretch Fabrics**

Corduroy, denim, terry cloth, and seersucker have something new added. These staple woven fabrics known for excellent wear and serviceability now have an added quality of stretchability. The incorporation of kinds of elastic qualities has become possible with the development of a technique of building stretch into the traditional type fabrics. The surface appearance characteristics remain practically unchanged.

These fabrics may have a thermoplastic fiber added to give the stretch quality, or the cotton may have had a special chemical or physical treatment or both to give it stretchability.

Read labels carefully for fiber content, as the thermoplastic fiber content determines the type of care the garment requires.

Stretch garments should be laid flat for storage. Hanging will allow them to lose shape.

**Home Demonstration Council Meets**

The regular meeting of the Floyd County Home Demonstration Council will be held this Friday at 2 p. m. in the council room. Important business at the meeting will be the election of officers for 1963. Also the council officers and standing committee chairman will give annual reports. The committee chairmen reports will be on what the clubs in the county have done to carry out the council recommendations. All council members are urged to attend.

The national government is galloping away with individual liberty. THE STATES CAN PULL IN THE REINS on the runaway; and perhaps ONLY the states can do it.

To change the whole, it is important to change the parts. The greatest weapon the citizens have against encroachment on their individual liberty is their control of state and local government.

Dryland land leveling being carried out with elevating scraper on terraced land. By leveling areas above terrace channel the problem of drowning out crops during periods of high rainfall is eliminated. Cost is usually about \$20.00 per acre.

Fay Gooch, SCS technician inspects a conditioning crop of millet on Raymond Rucker's farm. This crop was planted to add organic matter to cut acres after land leveling. The crop was turned under green.

## Dryland Leveling

By Joe J. McEntire  
Work Unit Conservationist

A relatively new conservation practice for Floyd County and the High Plains area is dryland leveling. The primary objective of this practice is for uniform distribution and penetration of rainfall. The work is carried out with regular land leveling equipment that is used on irrigated land.

By leveling out the small high and low spots or "lakey" spots that normally occur on our land in Floyd County less erosion will take place and moisture is more uniformly distributed over the entire field. With better distribution of moisture, crops are more uniform and wind erosion is held to a minimum due to lack of areas that may drown out from too much moisture or die out due to being on high spots and not receiving its share of rainfall. Recent checks by Soil Conservation Service personnel has shown that areas leveled above terraces now have 100 per cent more soil moisture in depth than adjoining areas. This could result in the difference of a crop or failure during a continuing drought of several months.

This practice may be best adapted to terraced land where drowning out occurs in terrace channels. Since the terraces are level from end to end it is possible to level an area above the terrace approximately 200' wide. The cost per acre has varied for this practice but has ranged mostly between \$15.00 to \$30.00 per acre with the A.C.P. cost-share available on the basis of 50 per cent of the cost not to exceed \$20.00 per acre. Farmers who have carried out dryland leveling in Floyd County and now have crops growing on the areas are Ray Lloyd, Lee Burton and R. G. Dunlap. Now is a good time to plan to carry out this practice on your diverted acres while a growing crop is not on the land. Contact the local Soil Conservation Service office for information and further planning.

## Interest High in Landleveling

By Truman Gregory  
Soil Conservationist

Interest in land leveling in the Floyd County Soil Conservation District is at an all time high. This is evidenced by the fact that

some 1200 acres of land was leveled last year. Since 1950, 8,522 acres of land has been leveled in the district. This represents a financial investment of approximately one half million dollars.

When land leveling is carried out it results in conservation of moisture and prevents damage caused by water erosion. It also aids in the even distribution of water in the soil profile. Studies conducted by Soil Conservation Service Technicians after recent rains showed that the moisture penetrated to a depth of 6 feet on leveled areas as compared to 2.5 feet on slightly sloping fields adjoining this area where no leveling was carried out. This is very significant since it has been proven by the High Plains Research Foundation at Halfway that it takes 75 percent more water to produce the same amount of cotton, sorghum or soybeans on sloping land than on leveled land. A good start has been made in applying this practice on the land. However, there remains a big job to be done. There is a need for thousands of additional acres to be leveled. The Floyd County Soil Conservation District supervisors encourage all farmers to apply this conservation practice if needed on their farms. Federal cost share is available to assist in the design and installation of land leveling work. Also earth moving contractors are available to install this conservation practice.

## Landleveling And Management Is Paying Off Now

By Lewis McCuiston  
Soil Conservationist

Landleveling coupled with good management is paying off for Raymond Rucker who farms the J. M. Harris farm 3 miles south of Lockney, Texas. Raymond has operated this farm since 1943. He had a shallow lake of about 8 acres which had produced only two wheat crops in the 18 year period before leveling. Crops drowned out, irrigation was difficult and inefficient, wet periods caused inconvenience in farming operations and weeds were a problem around the shallow lake.

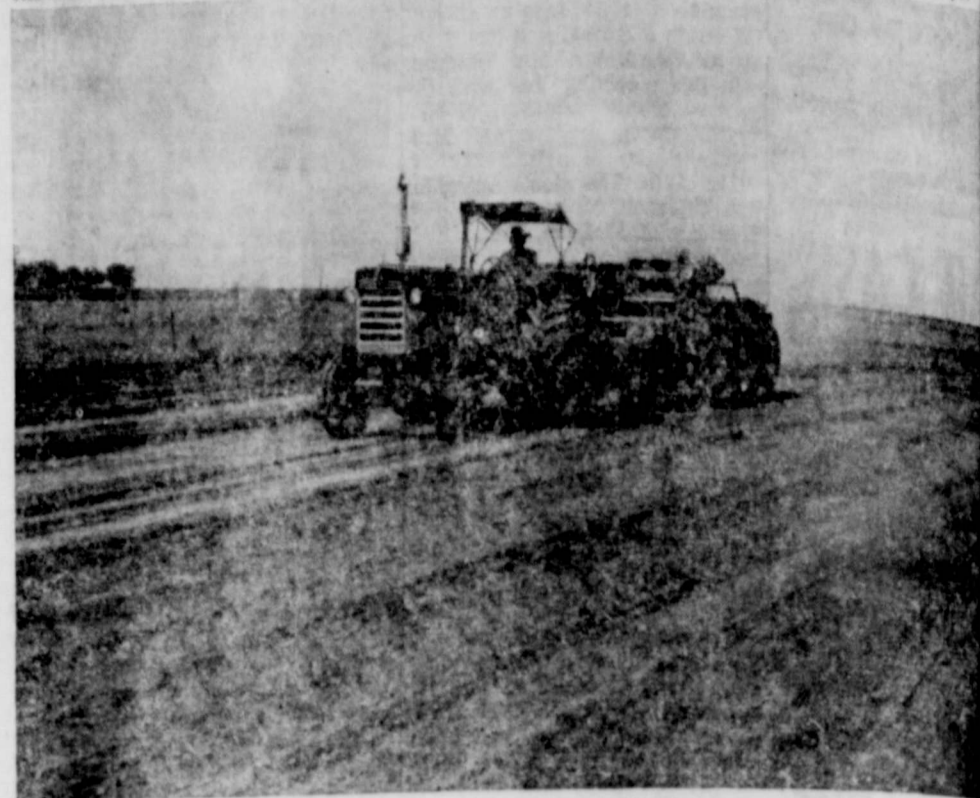

In 1950 Mr. Rucker contacted the local Soil Conservation Service for technical assistance. It was determined that an area of 37 acres should be leveled in order to properly design a system that would solve the shallow lake problem and provide for a conservation irrigation system.

A level furrow system was installed which allows maximum use of rainfall. The leveling job

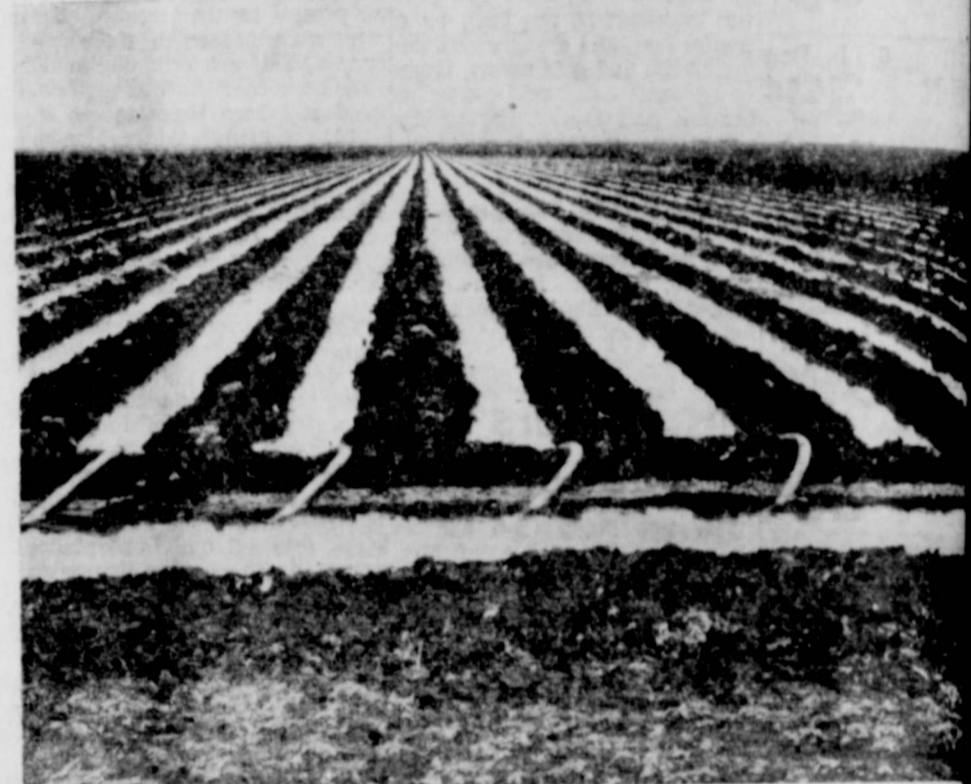

required 9,250 cubic yards at a cost of less than \$50.00 per acre. As a soil conditioner Raymond planted millet to restore organic matter to the cut areas. A good crop was grown which was turned under green. Still unsatisfied with the amount of organic matter restored to the

cut area he applied 5 tons of cotton burrs per acre during the winter months of 1951. Mr. Rucker has carried out a complete conservation program which includes a conservation cropping system, crop residue management, irrigation water management, and landleveling.

This year he planted grain sorghum on the leveled area applied 140 pounds of ammonia per acre. As a result of a sound conservation program he produced 7400 pounds of sorghum per acre. Mr. Rucker believes landleveling pays.

Using a land plane to float out small low and high spots on area after been land leveled. This is necessary after the land leveling has been carried out to get a uniform surface. This area on the R. G. Dunlap farm at Cedarburg now has twice as much soil moisture stored up as adjoining unleveled area.

Uniform distribution of irrigation water on Raymond Rucker's farm at Lockney. This level system was installed by field leveling in 1951.

## Garrison Says Chances For Beets Are Good

Mr. Homer Garrison, President of High Plains Sugar Beet Growers, Inc., told The Hesperian this week that he felt there was a good possibility of securing a sugar beet factory in the immediate future located near Plainview, Texas. The High Plains Sugar Beet Growers, Inc. is a non-profit corporation chartered under the laws of the State of Texas to promote the expansion of the sugar beet industry on the High Plains of Texas. Mr. Garrison said he felt farmers of the High Plains area generally are not aware of the interest that sugar refiners have in placing a sugar beet factory or processing facility in the "Plainview Area."

An example is the Great Western Sugar Company with offices in Denver, Colorado. More than eighteen months ago, beet growers in the area represented by

High Plains Sugar Beet Growers, Inc., confident of the ability of the area to produce sugar beets in the quantity sufficient to supply an up-to-date, modern sugar beet factory, presented facts concerning the area, its land and water resources, etc., to officials of the Great Western Sugar Company. The contacts thus established led to visits to the area by Great Western officials, to the planting of plots with Great Western's seed in both 1961 and 1962, and to the making of a detailed study of the area and its characteristics by Great Western officials.

The Great Western Sugar Company has been involved for some time in an intensive study or estimate of the cost of constructing a modern beet sugar factory in the "Plainview Area". The officials of High Plains Sugar Beet Growers, Inc. have been advised orally that if such a study and a corollary study of probable operating costs and profits which is now being made indicates that a plant could be built in such area with hope of adequate financial return and success, this company would then move forward to the construction of a plant in the "Plainview Area".

Recent contacts with officials of the Great Western Sugar Company indicate that their study and evaluation of plant costs and operating costs has not been completed. Mr. Garrison stated that he is confident that Congress intends to expand the sugar beet industry to help agriculture in America. He further stated he is confident that if the farmers in the "Plainview Area" want a sugar beet factory they can obtain one if they will demonstrate sufficient interest and support for those people who are working with the project at the present time. This interest and support, however, will have to come from farmers in the "Plainview Area" who want to grow sugar beets

for a proposed factory. The Officers and Directors of the High Plains Sugar Beet Growers, Inc. would appreciate an opportunity to appear before interested groups of farmers in the area of the High Plains of Texas to explain fully the effort being made to secure a sugar factory for the High Plains of Texas, and to answer questions concerning concrete steps planned and being undertaken to carry this project to a satisfactory conclusion.

If you would like to have a meeting in your area to have a further explanation of the efforts being made to secure a sugar beet factory, you are requested to contact Mr. Homer Garrison, CA 4-7341, Mr. Charlie Young, CA 3-3243 or Mr. J. B. Wheeler, CA 4-2166, Plainview, Texas, to make arrangements for a group to meet with you and the farmers of your area.

### McNeill Tractor Recovered Along With Six Others

M. J. McNeill went to Kingfisher, Okla., yesterday to bring home his 1960 Ford diesel tractor and other equipment belonging to him which was stolen from his farm in Floyd county in September. His machine along with six others were located at Kingfisher Monday after an intensive investigation.

Sheriff Walter Hollums said all tractors found belonged to farmers in the Lubbock county area, Hale County and the one in Floyd. Additional investigation is continuing in the theft and resale operation which has plagued the South Plains area for many months.

The investigation was set off when Hale county officials notified Kingfisher County officials to pick up a man by the name of James Firestone, on theft of felony involving irrigation motors.

Under Sheriff Harlin Bridle of Kingfisher went to the parent's home of Firestone to find out his where abouts and told the family what the warrant was against him. The mother was quoted as saying "is it in regard to stolen cattle or is it on the stolen tractors." The sheriff related as saying he didn't know what the charges were for, but he would check in East Kentucky, Floydada, daughter of Mr. and Mrs. Kearney Ed

under sheriff radioed Hale County and asked if the area was missing any cattle or tractors. The Floydada High School Student Council will hold a Bake Sale, Saturday, Oct. 27, at Powell Super Market and Wylie's machines were located at the Superette, beginning at 8 a. m.

Ford Tractor house in Kingfisher. The owner said he bought the tractor from Firestone who had a bill of sale for each. These tractors proved to be faked by either Kingfisher or an accomplice. The irrigation motors, five in number, with a total value of \$3,000 and \$1,600 worth of welding equipment has also been recovered.

Charged in five complaints of theft over \$50 in connection with the irrigation motors from Hale County were James Elmer Firestone and Herschel McKnight. McKnight has been released on bond of \$2,000 in each of the five cases and Firestone had not been taken into custody yesterday. At present he is out on bond of \$2,500 in another Hale County theft offense and is also charged with burglary in connection with a break-in of Economy Welding where the welding equipment was taken in September, according to area news sources.

Sheriff Hollums said the cooperation of area officials and those at Kingfisher as well as others involved innocently, was of great significance, and gave them high praise in regard to the breaking of the theft ring.

### CHARLES HOLLAND ILL AT BAYLOR

Mr. and Mrs. T. L. Holland returned home Sunday from Waco where they spent since Thursday with their son, Charles, who was in Hill Crest Baptist Hospital. He was dismissed Sunday and has returned to a limited amount of studies at Baylor University.

Charles has been having some difficulty in the lower part of his abdomen, thought at first to be caused from a strain during summer work. His walking ability had been hampered and he had suffered quite a bit of pain up until his hospitalization. After rigid tests and examinations by his attending physicians his case had still not been diagnosed when the Hollands left for home.

More results are to be learned however from his doctors by the weekend, Mrs. Holland said.

### Two Accidents In City Causes Heavy Damage

Two accidents occurred Monday in Floydada within an hour of one another with damages to cars fairly heavy but no injuries reported, according to investigating officer Alton May.

The first mishap was reported at 5:30 when a south bound car, driven by John Willie Heaton struck a vehicle traveling on North 5th Street, driven by Paul R. Martinez. Both men reside in Floydada.

May said a ticket for running a stop sign was given Heaton (colored) while a ticket for giving no operators license was given Martinez.

An hour later at the intersection of 5th street and California Streets, a 1962 Chevrolet driven by James D. Porterfield collided with a 1962 Ford driven by Cheryl DeKie Gilly at the intersection of 5th and California Streets. Porterfield was traveling north and the Gilly car was going west at the time of the mishap.

Approximately \$300 damages resulted to each vehicle.

Batson - Bullock On Democratic Steering Com'ttee

AUSTIN, Tex. Oct. 15 - Glenn Batson of Littlefield and Mrs. Wyle M. Bullock of Muleshoe have been named members of the Steering Committee for the state Democratic campaign.

Their appointment was announced today by Eugene M. Locke, chairman of the State Democratic Executive Committee. Both are members of the SDEC, representing the 15-county 30th Senatorial District.

The 30th District is comprised of Armstrong, Bailey, Briscoe, Castro, Childress, Collingsworth, Deaf Smith, Donley, Floyd, Hale, Hall, Lamb, Motley, Parmer and Swisher counties.

Duties of the two committee members will include coordinating the statewide campaign in behalf of all the Democratic Party nominees in cooperation with the state campaign offices of John Connally and other Democratic candidates.

They will also work with the various managers and coordinators of Democratic candidates in an effort to turn out a large vote for their party's nominees Nov. 6.

Batson deals in farming and in finance and insurance. He is a member of the Lamb County Political Coordinating Efforts Committee, has served as a member of the Chamber of Commerce Board of Directors and is president of the Pony-Colt baseball

## EVEN NEWER BEHIND THE WHEEL!

You'll never know how really new a 1963 Cadillac can look until you've seen it from the driver's seat. For only in action does this great car reveal all its secrets.

Here's a hint of what you have in store: A newly refined engine so silent you won't be quite sure it's running—until you touch the accelerator pedal.

And then! The instantaneous response will bring you quickly up to date on Cadillac's new true-center drive line. For as the big car glides away from the curb and down the road, you'll experience a wholly new sensation in smoothness. The exclusive design and precision assembly of the new Cadillac drive line makes the flow of power from engine to rear wheels incredibly smooth under all load and road conditions.

And while you're at the wheel, be sure to adjust to your favorite angle. This year, the new Cadillac adjustable steering wheel moves easily to six different positions. It's an extra-cost option, convenient for family and especially refreshing on long journeys.

But these are only a few of the seventy ways which Cadillac performance, ride and handling has been advanced in 1963. Make an early date with your authorized dealer to sit at the wheel of a new Cadillac. It's the world's nicest place to sit.

County Has  
Accidents  
Month

Patrol investigated  
accidents in Floyd  
County last month accord-  
ing to D. S. Lawson  
of this area.

As accounted for an  
accident summary  
from January  
to March 1962 shows  
that there were 27  
accidents and 27 persons  
were injured.

One of the most "kitchen  
aromas" of the year is when those  
last minute pickles, relishes and  
preserves are being made up to  
be ready and on hand to perk  
up those winter-time meals just  
ahead.

I have had so many calls the  
last few days for recipes to pickle  
and can peppers - so, here are  
some that have been given to  
me and all of them recommended  
very highly:

**PICKLED PEPPERS:** (Sweet  
peppers)  
Cut peppers in eighths  
Pour boiling water over the  
peppers and let stand for three  
minutes.  
In the bottom of sterilized jars  
put - (to each pint jar)  
1 teaspoon salt  
1 teaspoon salad oil (such as  
Mazola or Wesson)  
1 quart water  
1 quart vinegar  
3 cups sugar  
Pour over the peppers in the  
jars and seal.

**PICKLED CHILES (CHILES)**  
Select small chile pods. The  
wax chile is preferred by many.  
Wash chile pods carefully. Put  
into sterilized jars, packing tight.  
To every pint jar add 1/2 t.  
whole mixed spices and enough  
vinegar to cover. Remove air  
bubbles by passing knife around  
inside of jar. Seal jars. Process  
in hot water bath for 5 minutes.  
A brine made by adding 1  
teaspoon of salt to 1 cup of water  
may be used to dilute the vinegar.  
Use 1 cup of vinegar and 1 cup  
of brine and you may like the  
resulting product better than with  
strong vinegar.

**PICKLES JALAPENOS** (Jala-  
penos Encurtidos) (from Histor-  
ic Cookery by Fabiola C. Gilbert)  
The jalapeno is a hot green  
pepper native of warm climates.  
It makes a delicious relish pick-  
led in olive oil and vinegar.  
Wash jalapenos peppers. Pack  
tightly in jar. For every cup of  
vinegar use 1/4 cup water, 1/4 cup  
olive oil, 1 teaspoon salt and  
teaspoon pickling spices. Heat  
mixture to boiling. Pour over  
peppers so that they are well  
covered. Seal jars. Process in  
hot water bath for 5 minutes.

Last Wednesday morning the  
FHA Girls from Floydada High  
School came to the Lighthouse  
Kitchen for a meeting and de-  
monstration featuring "Treats for  
Halloween and Other Special Oc-  
casions". Around 130 girls at-  
tended this meeting. It was a  
real pleasure to have this group  
of nice young ladies as our guests.  
Wednesday afternoon I met with  
the Lockney Home Demonstration  
Club at the home of Mrs. Lavon  
Johnson, in Lockney. The pro-  
gram was "How to Grow Old".  
Delicious refreshments of sand-

three times the daylight rate,  
and more than half of all acci-  
dents occur after sundown, despite  
reduction in the volume of traffic.  
At sundown, long shadows and  
fading light make it increasingly  
difficult for drivers to spot traffic  
hazards and stop in time. The  
veteran patrol supervisor said,  
"make it a habit to turn on your  
driving lights at the first hint  
of dusk and always use them  
properly."

**Kitchen And  
Field Report**  
From Lighthouse Electric Coop-  
erative, Inc., by Nancy Morchel  
Home Economist.

Wipe out screwworms - Another \$1.7 million  
is needed to reach the goal set by Southwestern live-  
stock producers and sportsmen to eradicate the screw-  
worm from Texas and the Southwest. These men are  
carrying on an intensive campaign this month to reach  
this goal, Mr. Jay S. Hale, Jr., chairman of the county  
animal health committee, has announced. The program,  
which has been operational since February, involves  
the release of sterile screwworm flies over infested  
areas of the Southwest by airplanes. Mr. Hale says  
there is still time to contribute to this project.

**ENCURTIDOS** (from Histor-

Mrs. Eugene Beedy and Mark  
and Mrs. Harvey Allen and Mike.  
Mr. and Mrs. Lee Rushing left  
home Thursday, October 4 for  
Temple where Mrs. Rushing had  
a check-up and she got a good  
report. From there they went to  
Buchanan Lake where they spent  
three days fishing. Mr. and Mrs.  
Rushing returned home Saturday.  
We had another house moved  
into our part of town. Mr. and  
Mrs. Orville Marler bought the  
house belonging to the late Mr.  
and Mrs. R. T. Teeple and moved  
it last week to their lot on West  
Ollie Street just one block east  
of us.

**TAILORING COURSE COM-  
MENCES TODAY AT HIGH  
SCHOOL**  
The adult education course in  
tailoring of woolen materials com-  
mences today in the Home Ec-  
room at Floydada Senior High  
School. Mrs. A. E. Baker and  
Mrs. James Bachus are teachers.  
The free course will continue  
until Nov. 5 with classes held  
each Monday and Thursday after-  
noons starting at 3 o'clock.

Mr. and Mrs. Floyd Ballard accom-  
panied the Floyd Lawsons back home  
Sunday from Lubbock where she  
had been visiting since Friday  
with her daughter, Mrs. John  
Stoker and Mr. Stoker. The Law-  
sons visited with her mother, Mrs.  
L. M. Powell while in Lubbock.

**Good Records On  
Social Security  
Aid To Farmer**  
There are many cases each  
year where a farmer's or ranch-  
er's monthly social security bene-  
fits are delayed because he has  
not kept good records. John G.  
Hutton, District Manager, Lub-  
bock Social Security Office, said  
today.

Complete and accurate records  
are necessary not only for good  
farm and ranch management but  
for getting proper and continuous  
protection for social security bene-  
fits as well, he said.

Hutton explained that farm and  
ranch operators are required to  
make accurate reports of wages  
for their hired hands and to  
report their own earnings to the  
District Director of Internal Re-  
venue for social security purposes.  
Good farm or ranch records as-  
sure prompt and accurate pay-  
ments of social security benefits  
to the farmer and rancher. These  
records do not have to be elab-  
orate but they should show the  
various types of farm or ranch  
income and expense.

Information on how a farmer  
or rancher becomes eligible for  
social security benefits may be  
obtained from the Lubbock Social  
Security Office which is located  
at 1616 - 19th Street. If more  
convenient, you may wish to meet  
a representative of the Lubbock  
Social Security Office who will

FAIRVIEW, October 15 - The  
colors of fall are all over town  
and country. Leaves on so many  
of the trees are turning yellow  
and some are falling. Crops are  
maturing fast during these hot  
dry days we are having. Today  
a high, dry, dusty wind is blow-  
ing. Wheat has such a pretty  
green color and is growing fast.

## 'Winds Down Stubborn Dimmitt 13-6 In Defensive Battle

The Floydada Whirlwinds show having one intercepted. The Bobcat spirit and determination meant a minus 13 yards for downing the stubborn Dimmitt the night in the rushing department. Bobcats 13 - 6 at Dimmitt last night to wind up with 84 yards Friday night. The victory was net for total offense as they made hard fought for one and was 10 first downs.

Floydada made only six first downs but gained a net of 116 yards rushing after the losses were deducted.

The first quarter was mostly defense and neither club was able to get into the scoring column. Lindsey kicked off for Floydada and Cowser took the kick handing off to Cowell who went to the Bobcat 39 where he was downed.

Floydada rose and threw the Dimmitt back to the 25 from which point they punted to mid field. A Floydada drive then got going to pick up a first but bogged down with a penalty and the Bobcats took over at their 37.

Dimmitt was again held and this time punted to the Floydada 21. The Whirlwinds picked up a first at the 33 and then had to kick from the 36 to the Dimmitt 48. The Bobcats next try ended when Watts intercepted at the Floydada 27 just as the quarter came to a close.

The second stanza started off bad for the locals as they lost a fine run by Watts as it was called back and Floydada was penalized back to their 16. A few plays later Dimmitt recovered a fumble on the Whirlwind 30 and it looked like they were in business.

The green and white defense threw the Bobcats back to the yard completing 13 of 21 and

42 in the series of plays and Nichols kick went from that point to Tommy Watts on the Whirlwind 19. Watts threaded his way down the middle between blockers and emerged in the clear to outrace the pursuing Bobcats going 90 yards to score the TD. Julian's kick was blocked and the score was Floydada 6 - Dimmitt 0.

Dimmitt picked up a first down just before the half on a roughing the kicker penalty but went to the showers with a minus 30 yards for their offensive effort in the first two quarters.

After the intermission Dimmitt kicked off and Watts broke loose again going back to the Bobcat 30 before being downed but it was all in vain as a penalty was called and the ball moved all the way back to the Floydada 15. Floydada had gained the 35 before Vernie Moore quick kicked to the Dimmitt 16 yard line. One try lost two yards and then Mac Willson shot the gap to down Roy Battles for a 11 yard loss on the Bobcat 3 yard line. Nichols was pressed for kicking room and the high punt went to the Dimmitt 23 where Floydada put the ball in play.

Alan Adams ripped to the six, Denny King blasted to the one and then Tommy Watts went over behind his left tackle to score. Keith Peague kicked the conversion and the score was 13 - 0.

The Bobcats came back fighting mad and called on their passing game to drive down field picking up first downs at mid field, the Floydada 38, the 25 and then Ratcliff hit Calvert with a 20 yard heave for the score.

The pass for the points was good and the scoring was over at 13 - 6 favoring Floydada.

Dimmitt made one more desperate effort late in the fourth quarter and following a Floydada punt into the end zone after the TD Winds had been held at the Bobcat 37.

Short passes got the Dimmitt team down field as deep as the Floydada 21 but the fourth down play Stewart, Rucker and Dunn went in to smear Ratcliff on the 31 and take over the ball as time ran out.

# STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

### COMMISSION SHAKEUP

Land Commissioner Jerry Sadler continues his battle against creation of the Padre Island National Seashore. He has charged that oilmen bidding on state school leases in Laguna Madre did not make big cash bonus offers to the state because of passage of the Padre Island bill. Sadler intends to oppose legislation to authorize sales of state land in Laguna Madre to the U. S. for the recreation area. He has hired Captain William C. Russell of Fort Worth, recently retired as director of the Southwest Division of the Coast and Geodetic Survey, to survey the area along the Gulf.

## First National bank FLOYDADA, Texas

For all your banking needs... Check FIRST with the FIRST.

### CASH ON HAND

While there has been lots of talk about the state government being in the red, it really never has been. On August 31, when the fiscal year ended, the State Treasury had a cash balance of more than \$219,000,000.

Deficits have been recurring in one of the state's 380 or so funds — the General Revenue Fund. But the others always have cash balances. Comptroller Robert Calvert gave Texans some charts. They show where \$1,300,000,000 went last year. Education took 41.01 cents of each dollar, highways took 29.50 cents, public welfare cost 16.29 cents, state hospitals and prisons cost 5.16 cents, and all the rest — Legislature, courts, administrative agencies and everything else — cost 9.04 cents of every dollar.

### LAND SENTENCE

A third man's conviction from the veterans land scandals of the mid-1950's was affirmed by the Texas Court of Criminal Appeals. He was B. R. Sheffield of Brady, who was found guilty by a Hill County jury of "uttering a false instrument" in the case of one of the 54 veterans whose rights were put together to buy a 10,000-acre ranch in Kinney County.

Previous convictions were on former Land Commissioner Bascom Giles and J. T. McLarty. Sheffield recently paid back the Veterans Land Board, with interest, the money he received for the land.

### LOST PARK

Back in 1933, Joe Espy of Fort Davis gave the state 169 acres in the Davis Mountains, with a provision that if it were not developed for public recreation he would get it back. The state failed to develop the land, so Espy sued to get it back. Trial court held that he was entitled to the land, and ordered it returned. The State Parks Board is appealing.

Espy said he would give it to the Parks Board again — if the Board will develop it as a park.

### FEDERAL AID

Texas has received \$317,920 from the U. S. Forest Service to be allocated to East Texas counties where four national forests are located. Counties and schools in the forest areas get 25 per cent of the Forest Service's income from the forests, to help maintain road and school programs.

### BOOK DEFENDERS

The men and women who run the public schools came out in strong support of the present method of selecting textbooks in Texas. Plan has been under attack by some witnesses at recent legislative hearings. Texas Association of School Boards, meeting in Austin, found no fault in the system by which a textbook committee selects as many as five books for each course, and then local textbook committees decide which of the five they will use.

### BANISHED FROM CORINTH

Medea attempts to play on the sympathy of Corinthian King Creon for herself and her two children in a rehearsal of Wayland Baptist College drama department's production "Medea". The two-act Greek tragedy is being presented at 8 p.m. today and tomorrow in Gates Hall Auditorium as a benefit performance in collaboration with the High Plains Council for Mentally Retarded Children. Tickets can be purchased in Floydada from Council member Miss Mary Pearl Coward. Proceeds from the play will be used for future free summer camps for mentally retarded children and for future pre-school training which the Council hopes to establish. Playing the title role of Medea in the drama is Miss Carol Ann Elmor, Fritch, while Richard Cheatham, Hart, play King Creon. Cost of tickets is \$1 for adults and 50 cents for students.

### SCHOOL BOARD MEMBERS

also will be decided by the voters. **TWO WITHDRAW** — Two County proposals that central state constitution party candidates have notified the Secretary of State to withdraw their names from the November election. They are Ruben Lzano of San Antonio, candidate for Congress, and Roy R. Brown of Bonham, candidate for Lieutenant Governor.

### JOBS ON RISE

— Figures released in Austin by the U. S. Department of Labor show that Texas employment picture to be twice as good as the national average. Texas' non-agricultural employment increase from 1947 to 1961 was 45.4 per cent, almost double the national average of 23 per cent.

### NEW ERA PREDICTED

— Maurice Turner, chairman of the State Parks Board, believes a surge of public interest presages "a mighty effort to modernize Texas' neglected state parks system."

He credits this new interest to a sizable movement to develop tourism in Texas. Attendance at Texas state parks increased by some 500,000 persons during the last fiscal year.

### Ewing Addresses Floydada 4-H

The Floydada 4-H Club met in the Council Room of the Court House at 7:00 P. M. Thursday October 11, with the President Doris Pawwer presiding. The 4-H Motto and Pledge were led by Margaret Fraham. The Pledge to the Flag was led by Brenda Willis, County Home Demonstration Agent, Phyllis Rosendorff led the group in prayer. The minutes of the previous meeting were read by the Secretary, Willa Finley. The topic of the program was Citizenship Brother Henry Ewing of the City Park Church of Christ spoke to the club. Games and refreshments, served by Teresa Colston, and Kaeky Weems followed.

### Turners Given Housewarming

Relatives of Mr. and Mrs. Robert O. (Shorty) Turner were given a surprise housewarming in their new residence located on the Ralls Highway Saturday night. Guests attending presented the couple with useful gifts for the home and brought refreshments of chips and dips, cokes and coffee. Those attending were Mr. and Mrs. V. D. Turner, Mr. and Mrs. Leroy Burns and family, Mr. and Mrs. Doyle Turner and children, Mr. and Mrs. S. D. Medley and children, Mr. and Mrs. Bud Turner and family, Mr. and Mrs. Travis Young and family, Mr. and Mrs. Elton Turner and Mrs. Sherman Irwin and family, the latter of Lubbock. Table games were enjoyed by the group during the evening.

ness. He had been a patient in Lubbock Hospital before being transferred to the Veteran's Hospital in Albuquerque N. Mex. several weeks ago, where death occurred. He was born on May 8, 1932 and lived at Stephenville before moving to Lubbock some ten years ago.

Survivors include his parents, Mr. and Mrs. Moody Lackey of Lubbock; three brothers, Wendell of Belton, Jerry of the armed forces in Germany and Lester serving with the army in Albuquerque, N. Mex.; two sisters, Mrs. Chuck (Betty) Holmes and Mrs. Sandra Dandy, the latter of Lubbock.

## TELEPHONE TALK

by Ken Garrett, Manager

### SURE WAY TO SCORE

If I were a sports writer, I think I'd devote this column to football. There have really been some exciting seasons — high school, college and professional.

October is a good month for taking in one of the games. And if you're planning a big football week end, let your telephone help you "call plays".

You'll never fumble if you call ahead for reservations if you plan to drop in on friends, a call to let them know you're coming is a sure way to score. You'll score again at home if you'll call and thank your friends for their hospitality.

### ONE CAN DO IT

Looking ahead to next month, I'm reminded that the next elections will soon be upon us.

Just how important will your vote be? Well, let's look at history.

In 1868, Andrew Johnson was acquitted of charges by one vote in the senate.

In 1876, Samuel Tilden defeated Rutherford B. Hayes in the vote, but Hayes won a majority in the electoral college.

In 1941, the Selective Service Extension was passed by a 203 to 202 vote. This law provided that the U. S. could keep in service as long as the government thought necessary. Less than four months after it passed, the U. S. declared war on Japan.

Conclusion: Your vote is mighty important — don't waste it.

### REFRIGERATED BATS

What's the connection between refrigerated bats and phone service here in Floydada?

Don't jump to the conclusion that I've gone "nuts" — it's a connection.

Bell Telephone Laboratory scientists are using bats more about the workings of the human ear. Experiments are performed on bats during normal hibernation experiments, the bats are kept in refrigerators in a penicillin necessary to these experiments.

By studying the bat's anatomy and performing new experiments, our scientists hope to pick up new ideas for communications for all of us.

### ONE LAST THOUGHT

They tell me that what makes them "the good" is usually a rich imagination and a poor memory. So long till next month.

Call by number. It's twice as fast.

## INTRODUCING COMPACT 63 DODGE DART

Dart's a new kind of compact in the large economy size. It's got family-size room, family-size comfort. Nobody gets short-changed. The roofline sweeps straight back instead of sloping off. That means lots of headroom, front and rear. Plenty of comfort for everyone aboard. Dart's too roomy to be a compact, but too darned thrifty to be anything else. Dart's standard Six is as easy on gas as other compacts, but the comparison ends right there. This same Six has the muscle of an eight. You get sizzle, space and savings. Compact Dodge Dart, backed with a 5-year/50,000-mile warranty\*.

Letters To Home Folk From Loved Ones In Germany

Clifford Jones and Kenneth Dale Rimmer enjoyed a nice visit with one another recently in Frankfurt, Germany, according to a letter received here by Rimmer's parents. Kenneth related he had seen Cliff's new address in the Hesperian which prompted him to call Cliff. They each caught a train into Frankfurt and spent a Sunday together, sight-seeing and taking a general tour of Frankfurt. Both Floydada boys are stationed within 40 miles of Frankfurt, in opposite directions.

Children there are dressed attractively, the boys wearing short leather britches and the girls with dresses always with an apron. Mrs. Jones said as far as modern conveniences were concerned the Orville Newberries, the only thing she really missed was the washing machine. In Germany she is using the old time wash tub method. She told her mother she put the tub over a flame and "cook the dirt out", then rinse the clothes and hang to dry. The town where the Jones live has many beautiful churches, and the graves are kept exceptionally clean with black stone markers and gold lettering. Mrs. Jones said she had already met many new friends and found the German people very friendly, especially the owners of the apartment where they reside. Since we in the states know the in-fa-seat is the latest for mothers of young babies. Not so in Germany. Mrs. Jones said everyone stared when she went out with the baby carrying her, Lex Ann, in the in-fa-seat. So the German people solved what they thought must be a problem, by lending her a baby buggy. So she said when she goes out now the in-fa-seat stays home and the baby is put in the buggy. Others from Floydada stationed in Germany as far as we can gather are Bobby Christian, Larry Mankins, Truman Poole, Andy Owens and Wallace Denning. Christian writes home to his parents and his wife, the former Linda Bateman, that what he has seen of Germany is beautiful as far as the cleanliness and views of the country is concerned. He finds the German people very proud of their foreign made cars, especially since they are being used in the United States, and they feel the vehicles are superior to any others, Christian said. Bobby is stationed at Karlsruhe, some 50 miles from Frankfurt. At present about all Mankins writes home about is that he is expected to be back in Floydada about the 20th of December. Mankins has had a chance to see quite a bit of the country while overseas, visiting in Italy and Spain with hopes of touring a part of Rome before starting home. Mankins said in a recent letter he had been offered a job in London operating heavy machine equipment, but his plans were indefinite at his last writing. All in all, with the exception of having to leave their loved ones, the boys are enjoying their tour of duties in Germany, but all seem anxious to get back home.

Mr. and Mrs. Richard Ward are announcing the birth of a daughter, Kelly, at the Crosbyton Hospital October 9 weighing seven pounds eight ounces.

Mr. and Mrs. Charley Harris, of McAdoo and Mr. and Mrs. Mac Ward, of Dougherty are the grandparents. Mr. and Mrs. V. S. McAdoo Ward, of Prague, Okla. are the paternal great grandparents. EXCITING! GO '63 CHEVY II

WINKY NEW WAGONS THAT LEAD LONGER, HAPPIER LIVES

A new kick you'll get out of going places in this... beauty lasts longer, too; air pushes rain and wash water down through the rocker panels (where most rust begins!) in a clever new flush-and-dry system. The ride is smoother and quieter because of a large number of small improvements we've made. And things are a lot plusher inside. Now you've read this far, haven't you? Isn't that good evidence that Chevy II is made for you? The clincher will come when you take the wheel at your Chevrolet dealer's.

See the "New Reliabilities" now at your Chevrolet dealer's!

DOUGHERTY, October 15 — The Dougherty School soft ball teams will play the Lakeview teams at Lakeview Friday afternoon. Games to begin soon after 1:00 p. m.

Mr. and Mrs. J. T. Poole were business visitors to Gainesville Friday.

Mrs. H. N. Powell and Mrs. Jimmy Powell were Plainview visitors Monday.

Rev. Clayton Hicks and Mrs. Hicks are announcing the birth of a son, Joe Don who was born October 2 at Albuquerque, New Mex. He weighed seven pounds, one and one-half ounces. He has an older brother, John, and is the eighth great grandson of Mr. and Mrs. S. M. Crawford. The Rev. Hicks is Chaplain at the Veterans Hospital at Albuquerque. While he was a ministerial student at Wayland he was pastor of the Dougherty Baptist Church.

Mr. Farmer... THIS BALE IS YOURS

And it will pay you if it is stored in your HOME COUNTY. We believe that you will find that in the long run the convenience of having your cotton stored in a warehouse near your farm will pay you for expressing a warehouse preference to your ginner.

Consider these advantages of storing Your Cotton at the Floydada Warehouse

- Compress charges 25c less than some Lubbock Compresses.
- Cotton placed in Government Loan 30c per Bale more than any Compress on the South Plains.

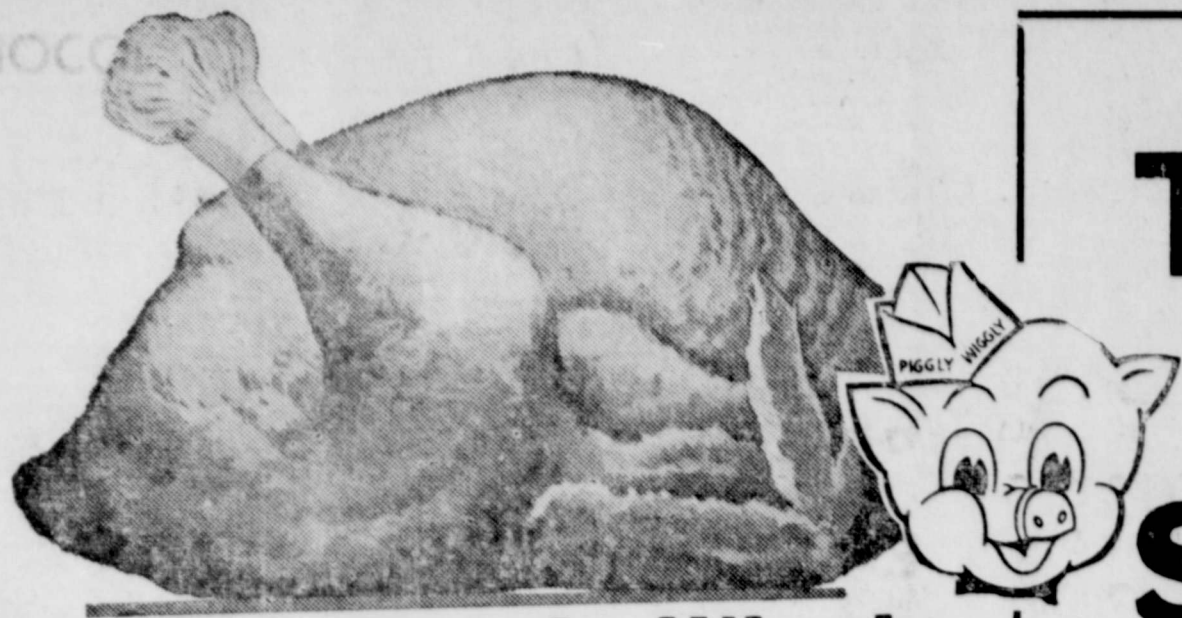

If you have been sending your Cotton to a Lubbock Compress... Contact CLAUDE ESTES and he will show you even a Greater Savings.

**IT PAYS TO STORE YOUR COTTON IN FLOYDADA**

Your ginner will haul your cotton to any compress you request. We are here to serve you. We have space for your cotton. We pay taxes in Floyd County and employ local people to operate our warehouse, and when you store your cotton with us you have the advantage of knowing that you are patronizing and encouraging Floyd County Industry.

WE EXTEND A CORDIAL INVITATION TO THE PEOPLE OF THIS AREA TO VISIT OUR WAREHOUSE AND INSPECT OUR COTTON FACILITIES. WE BELIEVE THAT YOU WILL BE INTERESTED IN THIS PHASE OF YOUR COTTON INDUSTRY.
