Recipe Of The Week

We are sure housewives have a favorite recipe, one that is quick, appetizing, a fancy dish, a new dessert. Share it with your friends and neighbors. We would like to know about it and so would our readers, so we've begun this column to give you the opportunity to exchange recipes with your friends and neighbors. Each Thursday we will carry a favorite recipe and a picture of the housewife submitting it. Call Peggy Medley at the Hesperian or mail your recipes to Box 848, City. We'll pick one each week, it may be yours. This week we are sharing with you a recipe out of the kitchen of Mrs. Wilbur Floyd.

RAISED DOUGHNUTS

It's a fact: in the year ending Oct. 31, 1962, more Massey-Ferguson tractors were sold in the U.S. and Canada than in any previous year. Why? Dozens of reasons! Multi-Power on-the-go shift, for one. The never-equalled Ferguson System, for another. Plus work-easing features that make every day seem shorter. And power plants — diesel or gas that deliver a bonus of HP-hours of work per gallon of fuel.

How to invest in freedom

McCOY

You can't buy freedom: For cash or installments or any other way. It's not for sale.

You can make a sound investment in freedom, though, by investing in U.S. Savings Bonds. Just \$4.33 a week on payroll savings where you work will buy a \$25.00 Bond each month.

As your savings grow, built up by 33/4% interest, you get closer to financial freedom-a desirable state for each of us if America is to be financially strong.

At the same time, your dollars go work for another kind of freedom the kind you'll find fully descri in a document conceived net two centuries ago at Independe Hall Hall.

Start buying Bonds where you now. When you do, you'll be join 8 million Americans who have signed up for a regular share of freedom each month.
