

County's Banks Show Over 16 Million Dollars On Deposit

Floydada's First National Hits All Time Record High

In spite of late 1962 crops the County's two banks showed a substantial gain in deposits as of a bank call of December 31, 1962, over the same time last year. The First National Bank of Floydada reached an all time high in deposits with a total of \$10,005,888.66. This corresponded with \$9,105,220.91 last year.

Hesperian Subscription Rate Goes Up

Effective February 1, 1963 the subscription rate to The Hesperian will be increased by 50c according to publisher Wendell Tooley. Publisher Tooley said the rate increase was necessary due to the increased postal rates which took effect January 1, 1963. He also stated that some improvements would be made in news coverage and this would entail some additional expense. The new rates will be \$3.50 per year or \$11.00 for four years plus 2 percent state sales tax. Out of state subscriptions will be \$4.50 per year and \$11.00 for three years. The public is invited to renew at the present rate until February 1, 1963 and save that extra 50c" Tooley added.

Collins Impl. Co. Hold John Deere Day Celebration

January 3 (today) is the big day of the year for Collins Implement Co. in Floydada. This is the date for the big John Deere Day Show and open house celebration. To start the ball rolling at 9:00 a. m. the folks at Collins Implement will serve free coffee and doughnuts at the store and invite all their friends and area residents to come in and enjoy the occasion with them. Refreshments will be served until show time at 1:30 p. m. The John Deere show will be at Palace Theatre and will feature such stars as Charlie Weaver, Donna Douglas, Andy Devine, Allen Jenkins, Byron Foulser, and Titus Moody. The interesting films also show what's new in the farming implement line and some demonstrations of implements in action. Everything is free and E. M. Collins and his staff invite everyone to come and enjoy the day 1961.

The First National Bank of Lockney showed a total of \$6,506,440.21 for December 31, 1962, as compared with \$6,607,133.45 a year ago. Although the Lockney bank was down just slightly from a year ago, the increase of the Floydada bank made the county's total show an increase of \$799,974.51 for the year. Spokesmen for both banks reported that their deposits would probably climb another one and a half to two million dollars after the "hold over" crop money comes in by the latter part of the month. It was believed by one banker that an accumulation of four good crop years in the county helped greatly in building up the deposits and he also reported that the trade area's farmers were in good financial condition at present. Looking at the loan picture, the First National's of Floydada was up over this time last year \$5,484,233.65 to \$5,068,852.44, but spokesman of the bank said they were not concerned about this, as late crop money still must clear cotton loan offices. The Lockney First National reported that its loans were about the same this year as last for this time of year. Local and area businessmen report that 1962 has been a good year and they look forward to even better business in the new year. On the farm front a total of 79,000 bales of cotton had been ginned Wednesday for the county (See County's Banks, Page 8)

Bill Sherman And J. S. Hale Nominees To High Plains Water District Association

The High Plains will hold its annual elections on the 8th day of January. At the end of this year, three of the five men who serve on the District's Board of Directors will conclude their present two-year term of office. These three men are Elmer Blankenship of Wilson, who represents Lubbock and Lynn Counties; John Gammon of Castro and Pecos Counties; and T. L. Sparkman, Jr. of Hereford, who represents Armstrong, Deaf Smith, Potter and Randall Counties. Gammon will be re-elected to his bid for a new two-term on the Board. Sparkman will be running against Earl Holt of Hereford, a former Water District County Committeeman from Deaf Smith County. Running in opposition to Blankenship's seat on the Board will be Russell Bean of Lubbock. Blankenship will not seek re-election. Aside from the election of the three Board members, there will be one County Committeeman elected in each of the counties comprising the District. Each Committeeman will be elected for a three-year term of office. There are five men on each County Committee. Any qualified voter who lives within the High Plains Water District is urged to vote in this election. District spokesmen state that in the past, many have had the mistaken idea that to be eligible to vote, one must own farm land or operate an irrigation well. This is not true. Any resident who has a valid poll tax receipt or exemption may cast a ballot. The barber, grocer, attorney, or housewife is urged to vote as well as the farmer and industrialist who directly use underground water. All persons have a stake in matters concerning ground water, and all pay taxes for the maintenance of the District's activities; consequently, all have a voice at the polls. Voting places have been provided throughout the District, and a voter may cast his ballot at any one of the places in his home county. Voting places for Floyd County will be in the courthouse and City Hall at Lockney. Nominees for county committeemen are: J. S. Hale, Jr., Rt. 1, Floydada, and Bill Sherman, Rt. F, Lockney.

City Police Investigate Two Minor Accidents During Week

A collision Saturday afternoon about 12:30 on East Highway 70, resulted in multiple bruises for the woman driver of one vehicle and slight injuries to the occupant of the second car involved. Mrs. Rafe Ferguson, formerly Ann Finley, of Lockney was an overnight patient in Peoples Hospital where she was X-rayed for possibly internal injuries. However she was dismissed Sunday and is reportedly improving at her home. Cars involved were a 1958 four door Chevrolet driven by a Lakeview farmer, Thomas Erwin Payne, and the 1959 Chevrolet driven by Mrs. Ferguson. Payne and his wife were taking several grandchildren to their home in Lubbock. Mrs. Ferguson was traveling alone. Investigating officer, Alton May, said the Payne family had stopped at a service station for gas and were pulling onto a highway when the mishap occurred. Semi-trucks parked along the highway obscured the vision of Mr. Payne, it was said. Witnesses said he had waited for several cars to go by then pulled out evidently directly in the path of the Ferguson car. The impact spun the Payne car around and into one of the parked trucks causing about \$25 dollars damage to it. Each car sustained approximately \$150 worth of damage. Mrs. Payne was treated at Peoples Hospital for a bruise on her head and released. Another accident reported over the weekend involved a parked vehicle and a 1955 Ford making an illegal turn. The new 1962 Cadillac belonging to J. A. Arwine, Floydada druggist, was struck on the front door, driver's side, Sunday morning about 9 o'clock. Mr. Arwine had his vehicle parked in the center section of the street in front of his place of business. The other car was driven by Francisco G. Martinez of Floydada. Martinez was given a ticket by investigating officer, Alton May, for the illegal turn.

Early Vehicle Safety Check Urged By DPS

"Our weather is getting worse all the time and April 15 will come before you know it," Captain Alan Johnson, Texas Department of Public Safety Supervisor, commented this week.

He was talking about the time left for Texas motorists to get 1963 vehicle safety inspections. The seven and one-half month period for getting inspections is more than half finished. Inspections started September 1 and will continue through April 15.

Since the period is so long, Johnson stated, no allowances are made for bad weather. He pointed out that inspections may not be made when streets are wet. "From now until April 15, we usually have a seige of bad weather in this part of the state which eliminates many inspection days," Captain Johnson said.

He also pointed out that inspection of vehicles now will insure that they are safer for the rest of the winter driving period, when good lights, brakes and other equipment are so vital. Failure to have a 1963 inspection sticker displayed on the windshield of your vehicle after April 15 is a violation of the law and is punishable by a fine not to exceed two hundred dollars.

HOW COME MORE PEOPLE BOUGHT MASSEY-FERGUSON TRACTORS THIS YEAR THAN EVER BEFORE?

It's a fact: in the year ending Oct. 31, 1962, more Massey-Ferguson tractors were sold in the U.S. and Canada than in any previous year. Why? Dozens of reasons! Multi-Power on-the-go shift, for one. The never-equalled Ferguson System, for another. Plus work-easing features that make every day seem shorter. And power plants — diesel or gas — that deliver a bonus of HP-hours of work per gallon of fuel.

Southwestern Public Service Expands Power Facilities At Plant X Near Earth

A 5 year construction program which anticipates the investment of an additional \$130,000,000 in new facilities to meet the electric needs of this area, has been announced by R. Watson, President and General Manager of the Southwestern Public Service Company.

"In all sections of our 45,000 square mile service area, the indications are that the fast growth which has marked recent years will continue. We have a two-fold obligation to have facilities available for our customers before their need, and to keep their rates low and service efficient. Our construction program is designed to fulfill that obligation", Watson said.

The 1963 portion of the 5 year program calls for an investment of nearly \$25,000,000, with new generating and transmission facilities accounting for the bulk of the figure.

A 210,000 kilowatt generator, largest single unit ever installed by Southwestern Public Service Company, is now under construction at Plant X, near Earth, Texas. Scheduled to be in service in June, 1964, the new unit will bring capacity of Plant X to nearly 500,000 Kilowatts, and to make it one of the largest generating stations in the Southwest.

A "first" for the Southwestern system in 1963, will be the installation of a 10,000 kilowatt gas turbine unit at Roswell. This "package-power plant" will be used as stand-by equipment and

at peak periods. It is designed to start automatically, with turbine being driven by gas and compressed air rather than the steam drive used in the larger units on the system.

1963 will also see the beginning of the engineering and survey work for a new generator to be installed at Cunningham Station, west of Hobbs, New Mexico. This is also a 210,000 kilowatt machine, and is scheduled to be in service in 1965.

"I think the new unit planned for Cunningham Station is the ideal example of the growth of our region and the flexible position which an electric company serving a growth area must maintain. Originally, this machine was planned for service in 1966, but as soon as it became apparent that it would be needed earlier, we changed our plans accordingly, and moved it up to 1965", Watson pointed out.

Nearly \$5,000,000, in the 1963 construction budget will be invested in new transmission line facilities. Southwestern's twelve electric generating stations are all tied together by a transmission line network of more than 4,000 miles. This interconnection makes it possible to provide power at any point in the 45,000 square mile service area, and to employ the most economical plants, which are those with the larger and newer generators, at all times, keeping the power production costs down and the rates for service lower. In addition to

the transmission line tie-in, the generating facilities of the larger stations, Plant X, Nichols and Cunningham, are directly controlled by an automatic dispatching system, which electronically employs the most efficient plants at all times. The dispatching system also computes the share of the load which other plants should be carrying, on the basis of costs, and then these loads are assigned to the plants by direct communication from the local dispatching center in Amarillo.

"I'm not sure that our customers are aware of the vital part that new equipment plays in keeping their rates down. Our fuel rates, for example, are up almost 100 per cent in the last ten years. Yet, by constantly investing in new and efficient equipment, plus the fact that our customers are using more and more electric service, we have managed to keep our rates at the same level that existed 11 years ago", Watson said.

Living Cost Boost Is Seen Over Past Year

Consumer prices held steady in November and Labor Department statistics indicated the country would wind up 1962 with a 1.4 per cent increase in living costs during the past 12 months.

The Labor Department reported Friday that higher prices for new automobiles and some services were offset by cost declines for food and clothing during November. Thus the department's index of key consumer items remained at 106 per cent of the 1957 - 59 average.

During the past four years according to Clague, living costs have risen 5.2 per cent, or at an average rate of about one-tenth of 1 per cent a month. He attributed the monthly "creep" to a continued rise in the cost of services, which climb slowly and seldom drop.

Food prices dropped two-tenths of 1 per cent during November chiefly because of seasonal declines in the cost of pork, oranges and eggs. Orange prices started rising in the past few days in various areas as a result of a devastating Florida freeze.

Prices of women's and girls' clothes declined by 1.4 per cent. The drop was a major factor in a six-tenths of 1 per cent dip in all apparel prices. Clague said the decline in clothing prices probably was caused by mild winter weather during the month which failed to boost the sale of heavier coats.

As a result of previous increases in the price index, about 75,000 aerospace employees will receive a one-cent-an-hour wage increase. About 80,000 meat packing workers will receive an additional two cents and 25,000 cartage workers in Chicago will get an extra four cents.

Wage contracts covering these employees are tied to the index.

The report on November showed that the average weekly take-home pay for a factory worker's with three dependents rose about 50 cents during the month to \$86.19. With average prices unchanged, factory workers realized a 1 per cent increase in the buying power of their wages.

E. A. HENRY'S HAVE 50th CELEBRATION

Mr. and Mrs. E. A. Henry of Jones County, former residents of Floyd County who lived here some 14 years before moving to Haskell, observed their 50th wedding anniversary Sunday in the home of a son in Snyder, C. D. Henry.

Hosts for the affair were the couple's three sons, C. D., W. C. of Elgin and J. B. Henry of Houston.

Mr. and Mrs. Henry came to Floyd County in 1918 and moved to Tuxedo in Jones County in 1953 where they now reside.

Mr. and Mrs. J. L. Nichols and children of Shreveport, La., were here during the holidays with Mrs. Nichols' parents, Mr. and Mrs. H. N. Powell at Dougherty and a sister, Mrs. Ed Wester and family in Floydada. Mrs. Nichols and the children remained to visit the family longer, leaving for home Saturday.

Rev. and Mrs. Henry Russell and family of Nucla, Colo., former residents of Floydada, visited here during the holidays with his parents, Mr. and Mrs. Carl Russell and a brother, Wayne Russell and Mrs. Russell. They also visited in Lockney with a sister and at Roaring Springs with the Sprayberrys, parents of Mrs. Henry Russell.

Mr. and Mrs. Roy Patton were hosts for the gathering of their children Christmas Day. Able to attend were Mr. and Mrs. R. C. P. Patton and family of Snyder, Mr. and Mrs. John Stapleton and family, Mr. and Mrs. Bates McClung and family, all of Floydada and Mr. and Mrs. Alton Higginbotham and baby of Lubbock.

PFC John M. Bradley left from Lubbock by plane Thursday afternoon to return to his army base in Homestead AFB, Florida after spending the holidays here with his mother, Mrs. Hazel Bradley and his grandmother, Mrs. M. L. Probasco. Max was transferred to Homestead from Ft. Lewis, Wash., during the Cuban crisis. All of the other units sent to Homestead during that time have since returned to their home stations with the exception of two, so Max feels he will be stationed in Florida indefinitely.

Mr. and Mrs. Bobby Everett of Lubbock are parents of a son named Robert Grant, who was born in West Texas Hospital on December 27. The baby weighed eight pounds and four ounces at birth. Mother and new son are at the home of the maternal grandparents, Mr. and Mrs. G. W. Smith, and are reported doing nicely.

Lockney General Hospital Starts New Expansion

LOCKNEY — Work has begun on a 3500 square foot addition with full basement at Lockney General Hospital and plans are ready for an additional 2400 square feet to be built later this year if present plans are not changed.

The first addition will be a wing on the south side of the building running east and west parallel to the present main wing. It will be 38 feet wide and 92 feet long with a full basement under it.

The basement will be used for storage and will also be available for refuge for patients in case of a storm or other dangers.

The first addition will be completed in from 90 to 120 days, barring an unusual amount of bad weather, Mrs. Sherman said.

New Bite From Uncle Sam Coming Up In New Year

Uncle Sam is going to dig a bit deeper into your pockets starting on New Year's Day.

For all of the 70 million this will mean up to \$24 additional a year for the wage and salary men with a like amount due from his employer.

The Social Security tax hike, which takes effect Jan. 1, is a long-planned move to provide necessary financing for the far-flung system.

The addition will be built of concrete block with brick facing and concrete floors.

Included in the current project is the moving of the laboratory to the present operating room where much more room will be available.

The first addition will be completed in from 90 to 120 days, barring an unusual amount of bad weather, Mrs. Sherman said.

Aim: To Cut Deficit

The new 5-cent letter stamp and other postal rate boosts stem from passage by the 1962 Congress of the bill asked by President Kennedy to supply new funds to cut the huge postal deficit.

Most provisions of the new revision law take effect Tuesday. The Social Security tax boost will change the rate from 3.18 percent to 3.58 percent each for the employer and the employee.

For self-employed persons, the rate will move from 4.7 to 5.4 percent. The 4,800 maximum wage base for payment of the levy is not changed.

The Social Security Administration estimates that the higher levy will produce about 14.6 billion in Social Security taxes in 1963.

The Whirlwinds and Whirlites will swing into action this weekend when they enter the Hale Center tournament starting today.

First City Delivery Carrier Becomes Motorized

Leibfried To Rural Route 1

Effective January 1, Lorin Leibfried will adventure a new field of Postal Service after thirty four years with the Post Office department.

Leibfried entered the Postal Service August 1, 1929 as a part time clerk. On September 1, 1929 he was promoted to city carrier when the delivery was first made in Floydada. He was the first city delivery carrier.

He made two deliveries daily most of this time until one and a half years during the depression (1933) he delivered the entire city's mail.

He carried his regular route plus a part time route for three to five hours.

The Post Office had dismissed the part time carrier but did not discontinue the service.

On October 1, 1952, after 23 years and one month as a carrier he transferred to clerk. To date he has held ten years and three months as clerk.

Leibfried will replace S. L. Powell, who retired as carrier on September 31, 1962.

Philosopher Takes Stock Of Past Year Admits He's Not Sure What Happened

As for what's coming up will be pretty much like what happened in 1962, whatever that was. I know there are people who are afraid the world won't get through 1963, but I've noticed the world has gotten through every year since time began, and I doubt if 1963 will have what it takes to put a stop to it.

Oh, man may venture further out into space, but I doubt if he'll find anything more fun than what he's already got. There's nothing wrong with this planet, excusing a few things, if people would leave each other alone long enough to enjoy it.

Your's faithfully
J. A.

Out here on this Johnson grass farm, the way I handle a crisis is to look the other way. If this doesn't work, I look straight at it, but I've learned a long time ago you don't get very far trying to solve one. Why solve it when you know good and well it'll be replaced by a newer and possibly bigger one? My theory is, when you get used to a crisis, keep it. And I think the world follows this theory too, only it doesn't admit it. It substitutes new names and moves the things around, but generally they're the same old crises. A man who can't live with a crisis ain't long for this world.

what happened to the

f
unnies

Now there's a little man who knows what he wants! He wants the pretty funny papers. You might say, "He has a mind of his own..." That's correct, of course. Every child is endowed by his creator with a will and a mind; not developed, but it's there. Yet, how that child is trained from his earliest years, will mold his character, develop his mind and strengthen his will.

Children should have good example, then. And the best example that parents can give is to go to church. The Church is for you and your family. It is the hope of your children. It is the means of bringing God's bountiful blessings to all.

THE CHURCH FOR ALL - ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Tex. — Jerry Sadler, Veterans' Land Program has proven to be a worthwhile investment in rewarding Texas servicemen and women for their valorous defense of American freedom. It has not been a 'give away' but has been paid for, without cost to the taxpayer, by those directly benefiting from it. "Basic fairness and simple justice require a continuation of the program," Sadler concluded.

POWER TO TAX—Right of 34 local public junior college districts to levy ad valorem taxes was upheld by the Texas Supreme Court.

And Remember:
... DON'T USE ANYONE ELSE'S PRESCRIPTION
"These pills will fix you up, Betty", Martha beamed.
Now, Martha, we know you mean well, yet your pills could prove harmful to Betty... better let her doctor prescribe something. (But, when he does, do suggest she fill her prescription here!)

A majority of the justices failed to find anything in the State Constitution prohibiting the privilege.

Constitutionality of the creation of public junior college districts and their right to a district property tax was questioned by seven property owners in the San Jacinto Junior College district.

With the Supreme Court's decision, the school now can proceed with a \$2,500,000 building program. Several other junior colleges — including those at Hillsboro, Athens, Wharton and Cisco — very likely also will begin to build.

Court's decision was countered by a dissenting opinion written by Chief Justice Robert W. Calvert. He called the tax unconstitutional.

Those who backed its validity admitted that the 1929 constitutional amendment for public junior colleges was a patchwork thing. In fact, they stated that all public school laws in Texas are "confused, vague and conflicting."

Representatives were appointed to interim study committees by "Speaker" James A. Turman. But they'll serve as committees for less than a month.

Terms of all committees, established by the 57th Legislature, automatically end when the next session begins on January 8. The odd situation was created by Attorney-General Will Wilson's recent lame-duck legislator ruling.

Appointees include Reps. Son Cavness, Jack Ritter Jr. and Pat Cain, all of Austin; and Jack McLaughlin, Hugh Parmer and Dave Finney of Fort Worth.

The Austin legislators will help survey possible parking lot space in the vicinity of the State Capitol. Fort Worth group will study the turnpike problems.

RAILROAD SAFETY ACT — A bill requiring trucks that carry inflammable materials or explosives to come to a complete stop at a grade crossing will come before the 1963 Legislature.

and Cosmetic Act of 1961 gave enforcement officers a law with "teeth" in it.

Lakey, who became director in 1946, started working for the act in 1947 with the support of almost every civic club in Texas. It finally passed last year.

It prohibits the manufacture, sale or delivery of any adulterated or misbranded food, device or cosmetic.

"Teeth" in the act include: 1. A clause that says any food is adulterated if prepared, held, packed or stored under conditions whereby it could be contaminated;

2. Labeling restrictions calling for a statement of ingredients, and the manufacturer's name and address; and

3. An embargo provision, which allows time for laboratory tests of a suspicious product before it can be released on the market.

Sharpest "tooth" is a stiff penalty for a second offense — \$100 to \$1,000 fine, or one year in the county jail, in addition to destruction of the product.

Lakey stated that in the past year about 5,500,000 pounds of contaminated food had been removed from the market without court action.

COUNTIES CAN SET UP LIBRARIES — Attorney General Wilson ruled that a county commissioner's court must establish a free county library if a petition for its establishment is signed by a sufficient number of qualified voters.

It also authorizes commissioner's courts to set aside tax funds to maintain the free county library.

CITRUS PRODUCTION TO DROP — Texas Employment Commission predicts a sharp cut in Lower Rio Grande Valley citrus production for 1962. Present estimate is about six per cent of last year's total — 200,000 boxes of grapefruit and 80,000 boxes of oranges.

HAYES O'NEAL HAS SURGERY
Hayes O'Neal, Floydada druggist, who has critically ill the past month and in a hospital at Wichita Falls, underwent surgery Friday for leg amputation. Blood poisoning from poor circulation had set up according to medical reports and amputation was a necessity to save the man's life. The leg was removed just above the knee.

RADIATION CONTROLS TRANSFERRED — The State of Texas will acquire radiation control authority from the United States, effective March 1, 1963.

TRAFFIC TOLL UP — Texas traffic deaths to date, for 1962, total 2179.

SDEC CHIEF RESIGNS — Clyde E. Johnson has announced his resignation as executive director of the State Democratic Executive Committee.
