## Second Round Of District 2AA Basketball Action Will Start On Tuesday Night

The Floydada High School Basketball teams will travel to Lockney tomorrow night (Friday January 25) as they wind up the first round of action in district play. The Lockney and Floydada teams should provide some real fire works as teams from the two schools have identical loop records.

The tall Lockney boys team after winning district last season and starting strong in inter-district play this year has wilted and is looking for a first win in 2AA action. The local boys team has not been able to crack the win column in loop play and the contest will be a battle to stay out of the cellar.

The Floydada and Lockney girls also are tied up in the district standings with two wins and a single loss each. Both teams have won over Canyon and Abernathy and both have lost to Tulia. The winner Friday night will have a firmer hold on second place in the district.

**Second Round Starts Tuesday**  
The second round of play in the district starts on Tuesday night when the Canyon teams come here for a triple header. The boys B teams square away at 5:30, the girls play at 7:00 and the boys A teams get together about 8:30.

**Tulia Wins Two**  
The Tulia Hornets won both ends of their double header here last Friday night as they downed the local girls 67 - 61 and then took the boys game 68 - 58.

It was a night of fine basketball as the young Whirlettes kept the pressure on their experienced opponents throughout the contest. Tulia's senior team took the victory but their all state forward Miss Cullwell, saw Floydada's sophomore Jan Alexander walk off with scoring honors and 42 points. The Whirlwinds spotted Tulia

a long lead in the boys game then fought back to tie the score at 58-all with 13 seconds remaining. Tulia sunk one to go ahead 60 - 58 and the locals lost the ball out of bounds with seven seconds on the clock. Tulia never threw the ball in until after the final buzzer.

**Split With Dimmitt**  
Floydada won two and lost one with the visiting Dimmitt teams on Tuesday night. The boys B team took a 78 - 57 victory and the girls posted a 56 - 37 win. Dimmitt won the boys game 88 - 69.

The Whirlettes lead all the way holding 11 - 5, 27 - 17, 37 - 28, and 56 - 37 leads at the close of game quarters. The Floydada boys started hot and stayed ahead until the half but Dimmitt finished hot and pulled away in the last two periods. Butch Gilliland had 20 points to lead local scorers.

## County Fair Board Votes For New Steel Building

The 10th annual Floyd County Fair has been set for Sept. 12, 13 and 14 which will be held in Lockney at the Fair Grounds. The Fair board met last week and voted to erect a new steel building to be used for entertaining purposes. Tents have previously been used in the past Fairs.

President Hershel Cartmel, recently re-elected, appointed Herbert Frizzell, Corkey Guffee and C. L. Mooney as the committee for the construction of the building. The structure will be 50 feet wide by 120 feet long. The 12 foot walls will extend to a gable roof, with a two foot drop from the eave, with the remainder of the sides to be open. The stage will be the width of the building and 20 feet deep stationed in the east end and enclosed by the outer wall. No floor will be run in the building at present.

Horton Howell who represents the committee of the Lockney Area Evangelistic Crusade, met with the Fair Board last week and stated that his committee had agreed to pay \$300 from the Crusade budget and would raise another \$300 by donations if the board would build the structure and allow the Crusade to be held there in April. The board agreed to do so. Remainder of the cost of the building will come from other donations and financed over a period of years. Cost of the building will be approximately \$2,000.

Assisting Cartmel as head of the Fair this year are Corkey Guffee.

**HARD LUCK FOR TRUCK DRIVER . . .** and Tuesday of last week must have seemed like Blue Monday to the driver of this telephone rig, T. R. Franklin of Memphis, Tex. He left Memphis in the afternoon and 12 miles east of Floydada a tractor tire blew out, he drove on into Floydada and planned to spend the night. A few miles out the water pump went out on his truck so he proceeded on into town to have repairs. Just as he was crossing the dip at the intersection of Wall Street and Mississippi about 7 p.m. the tongue broke and his truck was minus a trailer. The trailer was loaded with telephone poles and all slid forward at the time of the mishap. They were pushed off the following morning in order to fix the damage. Franklin was enroute to Abernathy with the poles. Assisting Franklin during the bitter cold Wednesday morning above are Joe Jones and Otis Johnson.

eries of the washboard, so the dryer is taking away the memories of stiff, cold fingers, and frozen clothes on wash day. Mr. and Mrs. Kenneth Tate and children of Silvertown spent Sunday with Mr. and Mrs. Doyce Smalley. Mr. and Mrs. Arthur Fewell of Ralls visited Sunday with her sister, Mrs. Buck Marrison, Mr. Marrison and boys. Mr. and Mrs. Walter Lovell were dinner guests on Sunday in the home of Mr. and Mrs. Grady Freeman. Johnny Lackey and his mother, Mrs. Gerald Lackey, were co-op visitors one afternoon last week. So nice to have Johnny up and out again, and able to come by for a visit.

Wiley Rogers visited at Methodist Hospital in Lubbock Sunday afternoon. E. B. Chesnut is back to work after spending a few days at home nursing a bad cold. Delbert Smith, who has been Power Use Advisor at the Lighthouse for the past year is leaving to accept a similar job in Lubbock. He is being replaced at the Lighthouse by Alton Higginbotham, who with his wife and baby have moved to Floydada. Alton is the son of Mrs. Bryant Higginbotham of South Plains. He is a graduate of West Texas State College, Canyon, and has also done some studying at Texas Tech. Mrs. Higginbotham will be remembered as Miss Sue McClung, daughter of Mr. and Mrs. Bates McClung, of Floydada.

Mr. and Mrs. L. R. Cross of Route 1, Plainview, was a co-op visitor early Monday morning. It has been said: "Today, a faded from hanging on the line, woman who makes a career of managing her home and rearing children is a homemaker, and not an old-fashioned housewife." No doubt modern electrical appliances have brought about this revolution. Opinions may differ as to what appliance has contributed most to this change, but I'm sure the automatic clothes dryer is playing an important part. Never in the history of household equipment has an appliance been more warmly welcomed or more appreciated by the homemaker. Its labor-time-saving and convenience features has brought about its acceptance. The fortunate owner of an automatic clothes dryer is freed from lifting heavy baskets of wet clothes; carrying them to the line; reaching, stooping, bending, and stretching to hang them on the line and to take them off again.

The nuisance of waiting for a good wash day is past; there is no rushing out to bring the clothes off the line when there is a sudden shower of rain or a dust storm; no re-washing of clothes because of a broken line; and according to research projects conducted the homemaker no longer walks 40 miles a year to hang clothes and she saves 20 eight-hour work days a year when she has an automatic clothes dryer. Here are four good reasons for buying an electric automatic clothes dryer: 1. SAVES ENERGY — no more lugging, stretching, or stooping and many clothes require no ironing. 2. GIVES BETTER RESULTS — Clothes are fluffier, softer, not faded from hanging on the line. 3. SAVES TIME — Many garments need no ironing, no time

and had been sent into the other room to "think things over." At the attack aircraft carrier U.S.S. Ter a while she came out all smiles and said: "I thought and I prayed." "Fine!" said her mother. "That will help you to be good." "Oh, I didn't ask God to help me to be good," said Mary. "I just asked Him to help you put up with me."

# ROSS CARTWRIGHT 's Big Man Dan Blocker to Receive "Texan Award"

STIN, Tex. —Dan Blocker, the "big" man, will be the recipient of the Texas Press Association's 1963 "Texan of the Year" award.

Blocker's selection was announced by George Baker, president of the newspaper association and publisher of the Fort Worth Star-Telegram.

Blocker, co-star of the NBC television series "Bonanza," will be honored at the Mid-Winter Meeting at the Americana Hotel in San Antonio Saturday evening.

Blocker, known on TV as Hoss Cartwright, was born in Bowie, Texas, on December 10, 1928, grew up in the Texas Panhandle and received his education at the University of Texas.

Blocker, 34 pounds at birth, he weighed 105 pounds when he entered grade school and became known as "The Big N."

Blocker worked alongside his father at grain elevators and in the oil business.

When he finished his army hitch, he came home with the stripes of a first sergeant, to further impress Dolphina Parker, his college sweetheart. They were married on August 25, 1952. They now have four children, twin girls and two boys.

Blocker returned to Sul Ross shortly after his marriage to work on his master's degree. He left classes for one year to teach in the high school at Sonora. Upon receiving his Master's degree in drama and English, he taught school at Carlsbad, New Mexico.

In 1956, he went to Los Angeles for graduate work at UCLA. Almost immediately he was chosen for a feature role in a Gunsmoke episode, where he made more money in four days than in a month of teaching.

Since that time his rise to stardom has been rapid. He has played in many significant TV roles and today has top billing with Bonanza.

When 12 years old he enrolled in the Texas Military Institute at San Antonio. At that time he weighed 200 pounds and stood six feet tall.

From the military institute he went to Hardin-Simmons University at Abilene for a semester, then to Sul Ross State College at Alpine, on a football scholarship, to major in physical education. He changed his major to drama before he was graduated in 1950. From Alpine he went to Boston

# Floyd Pioneer Saves 1905 Copy Of Hesperian

W. W. Emert, who moved to Floyd County in 1905 has safeguarded a 1906 copy of The Hesperian. It is interesting to look at some of the items of news and advertising back on that January 25th date.

Emert, who works for J. M. Massie, has taken good care of the edition and it is very legible.

A front page advertisement by Stolley and Lucas announces that the firm has \$205,000 to loan on school and patented land. They offer \$2 and up on patented land . . . \$1 to \$2 on school lands.

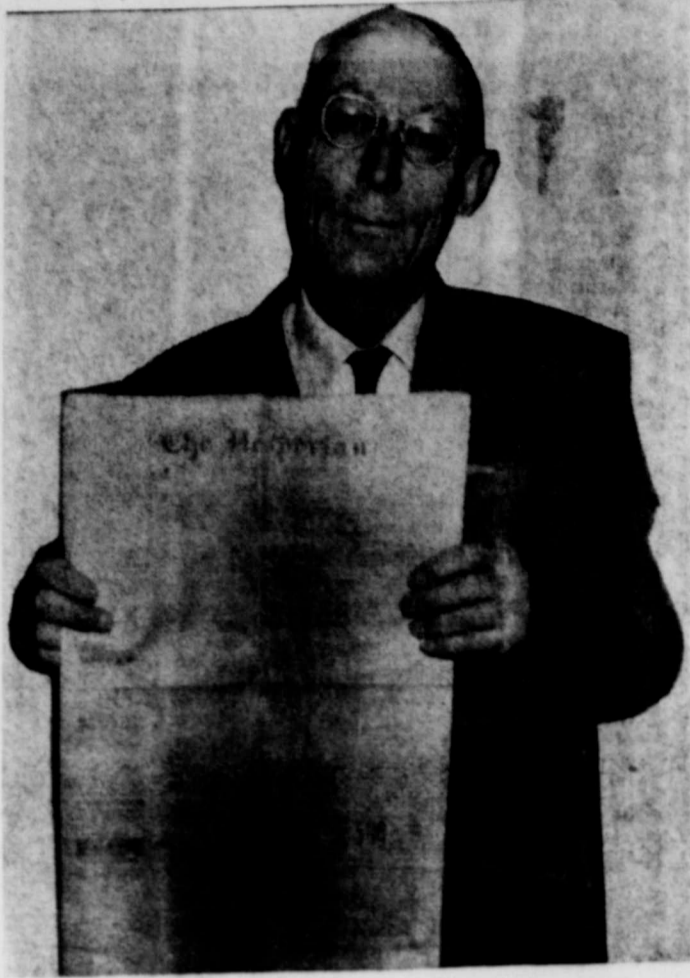

There's a story on the front page about dipping cattle as follows: "According to an order issued by Secretary Wilson cattle may be brought into the Otoe and Osage reservation from Feb. 1 to May 1 after one dipping in Beaumont oil instead of two."

Another story is interesting. "L. P. Goen surprised his friends here by slipping off to Oklahoma under pretense of going to Canyon for freight. Freight indeed! He brought home a wife as pretty as a June day. The lady whom Floydada will wish joy was formerly Miss Minnie Dew of Oklahoma. They had a nice reception Saturday night at their home north of town.

Another interesting story on the front page reads as follows: "Dr. R. C. Andrews reached his three score and ten milestone January 24, 1906. The Doctor is hale, hearty and still deserving of the title Foxy Grandpa, as he can jump and clap his heels like a howling deerslayer, and still tames the Masonic goat when unmanageable. He has found what Ponce de Leon sought vainly four centuries ago.

Evidently the beginning of the Poll Tax was about this time: "You may kick at the new poll tax law, and pronounce it undemocratic and all such but that does not keep it from being a law, and because you oppose it, will not make you a legal voter unless you hold a poll tax receipt. So you had better trot on over to the tax collector's office and pay up, or maybe some one will be defeated at the polls in November, that you would like to have assisted, but lo, that poll tax receipt that you didn't have."

Men, you could buy a tailor-made-suit of clothes for \$15.00 in 1906, and women told of miracle cures. "I knew no one, for four weeks, when I was sick with typhoid and kidney trouble," writes one local ladies testimonial . . . "and when I got better, altho I had one of the best doctors I could get (I was bent double, and had to rest my hands on my knees when I walked.

W. W. EMERT

From this terrible affliction I was rescued by Electric Bitters, which restored my health and strength, and now I can walk as straight as ever. They are simply wonderful."

And transportation advertisements were interesting. "Lockney and Estelline stage lines . . . U. S. Mail leaves Lockney at 5 a.m. and arrives at Estelline at 7 p.m., rates per passenger with grip baggage, \$4.00 or \$7.00 for the round trip.

few days, the President will submit to the Congress a proposal for the reduction of tax rates which will lower the tax liabilities by about 13.5 billion. Of this 13.5 billion, 11 billion would result from reducing individual tax rates, and the other 2.5 billion would result from reducing corporate tax rates.

A tax cut is desperately needed, but I do not entirely agree with the President as to what brackets should be cut. A tax reduction is necessary to stimulate investment, to stimulate spending, to get our economy moving at the rate that it should be moving. However, I must reiterate my insistence that if we are going to cut taxes, we must also reduce government spending.

We are spending too much money and if we cut taxes at the rate requested by the President, it is altogether likely that we will be looking at a 20 billion dollar deficit next year.

Every year we are going more and more in the hole. My position is that it is economically unsound and immoral for us to impose a great debt burden on generations yet unborn, to afford ourselves some public welfare benefits, some public works and that sort of thing. There are many areas in which spending could be cut.

The President also advocated a Domestic Peace Corps. The Peace Corps, as you know, is a group of volunteer young people who are sent abroad to give technical assistance to help in community projects, and things of this sort in the underdeveloped countries.

The President thinks we ought to have a Domestic Peace Corps; that is to say, a group of volunteer young people that would go around the country doing good works, in mental hospitals, on Indian reservations, at centers for the aged, in schools for the illiterate and handicapped, and so forth. I do not think that this is a good idea. It calls to mind the old CCC of depression days. I do not think that such a corps would be useful. It strikes me as a little bit amusing that they might send a graduate of Harvard down to East Texas, to show East Texans how to raise peanuts or cotton or something like that. I just don't think this Domestic Peace Corps is a good idea; I don't think we really need it. As a matter of fact, I think it is just one more step in preparing our young people for collectivization. The scheme strikes me as being a little bit socialistic in character.

The President advocated Medicare under Social Security again. This was defeated in the last Ses-

sion of the Congress. It is my fervent hope, it will be defeated again. I am convinced that medical care for the indigent aged, indeed, medical care for anyone who cannot afford it is the responsibility of the State and of the Community and of private individuals and organizations. It is not the responsibility of the Federal Government. I am sure, if we instituted it, it would lead to Socialized Medicine in this country.

# Floyd Philosopher Joins In Move For A Tax Cut, But Not Just On The Washington Level

Editor's note: The Floyd Philosopher believes it can get more afraid the experts are victims of farm joins the tax discussion this money out of me by taking less, a blind-spot. They're spending week, his letter reveals. I'm willing to enter into the experiment.

In nearly every newspaper or magazine I've gotten my hands on lately there has been a bunch of articles on the prospects for a tax cut this year.

According to the experts, a tax cut will stimulate business, increase capital and initiative, and produce more rather than less revenue for the government in the long run. I don't know how

I have a handy solution to tide us over. Just give everybody a ten per cent cut in his taxes, from top to bottom. I guarantee I will take my ten per cent and stimulate business with it.

I know a lot of people will say all we'd be doing is piling up a debt for our grandchildren, but what makes you think our grandchildren won't be smart enough to have grandchildren of their own?

Yours faithfully

# Cold Weather Means Hog Killing At The Daniel Farm

DANIEL GRINDS THE SAUSAGE . . . and the four hogs were made into sausage. Only and lard were processed besides the sausage.

With plenty of cold weather available the Daniel families who live in the Blanco Community ten miles southwest of Floydada decided to kill four hogs last week. One for the W. F. Daniel couple, one for the Daniel, Jr. family, one for the W. R. Daniel family and one for the Howard Goree family.

For many years the Daniels have killed and dressed hogs and sold the meat commercially, but the past few years most of the hog killing has been done for the immediate family.

W. F. Sr. moved to the Blanco community 36 years ago and from the very beginning always fattened out plenty of good hogs for winter killing. He mentions the year of 1940 when he and the family sold 25 hams — and in the years past the hog killing job also included making cracklings and soap.

When a Hesperian reporter visited the Daniels last week, the hogs had already been killed and the scraping was almost finished. The scalding is done in two barrels that have been welded together and buried in the ground under a shed where the scraping is done.

The 600 pound hogs are lowered into the scalding water in the barrels by block and tackle, then scraped, then while they are still on the "single tree" gutted and prepared for cutting. The hams were cut off and cured and the rest cut into lard or made into sausage. Four big wash pots are used in making lard. The sausage is taken to another building where an electric grinder makes fine work of the meat. A recent invention in the grinding process the cutting of a hole in the table just below the grinder, so the sausage would fall from the grinder into a tub below the table.

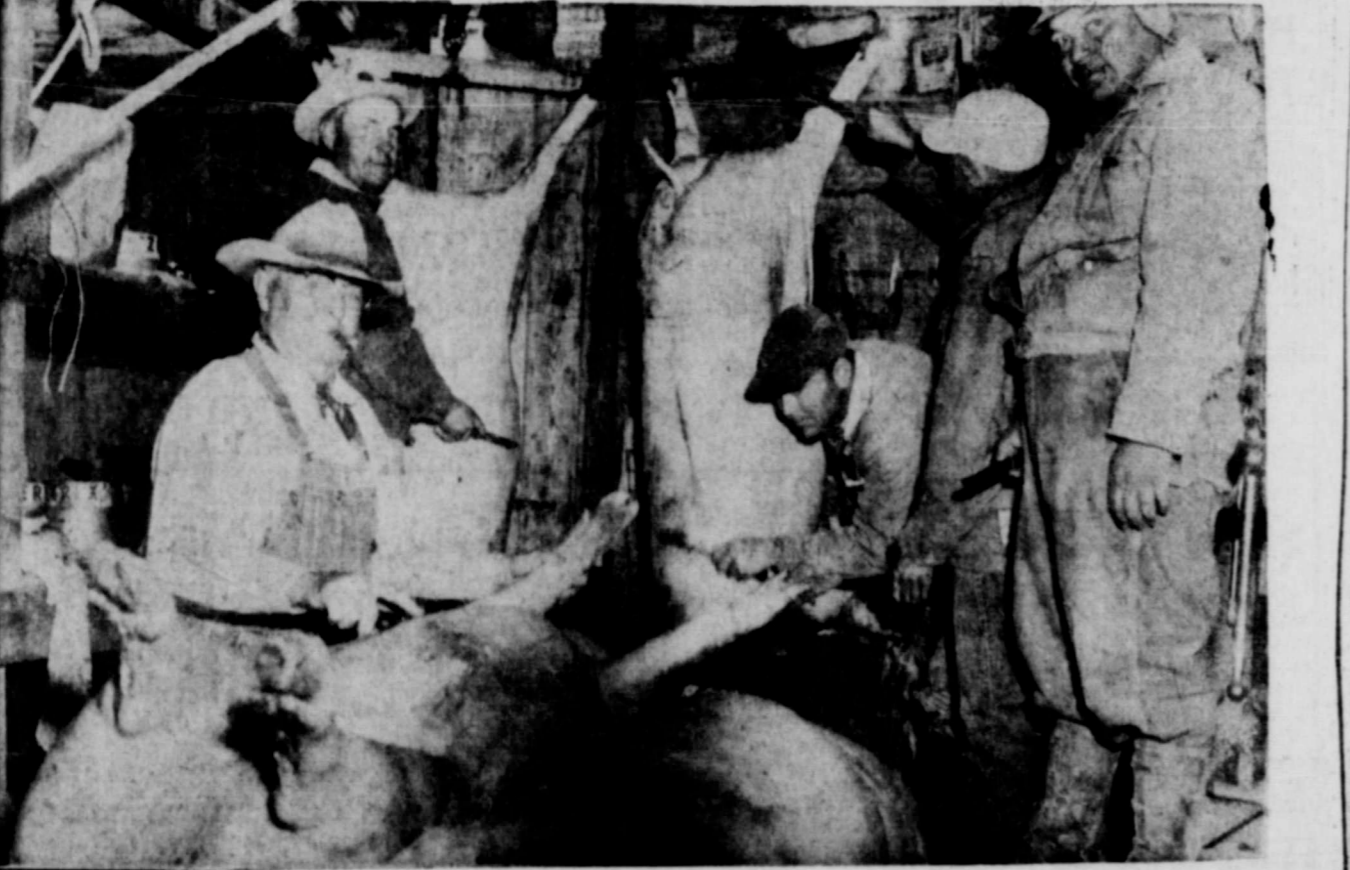

After the sausage is ground it goes to W. F. Sr.'s "parlor" and is piled on a table. At this point

the Daniel women go to work. Mrs. W. F. Sr. sprinkles just the right amount of seasoning in a most delicious sausage. A "sample" is placed in a nearby skillet occasionally to make sure the sausage is seasoned just like each family desires it.

After the seasoning is completed the women take the sacks and begin stuffing and tying. When the last sausage was sacked it was almost eight o'clock in the evening and the Daniel "crew" had four hogs "ready to eat."

W. F. Sr. confided to the Hesperian reporter that the job should have been finished much sooner, but he just couldn't get his "assembly line" methods to working as usual.

It is evident that the Daniel families enjoy eating delicious meat and also like the fellowship of living in a community together — sharing in the work on their homes and farms — like to be a part of a progressive community and enjoy a happy way of life.

PROCESS IS SCRAPING . . . but the Daniel clan is well equipped for this. Two barrels welded to are buried in the ground and hogs are lowered into the scalding water by block and tackle . . . comes easy then. Down with the 600 pounder is the old master of hog killing, W. F. Daniel, Sr., behind him is Bill Daniel, scraping the right hog is Howard Goree. Others are unidentified hired

## Mrs. Glenn Saul And Infant Son Interred Monday

Funeral services for Mrs. Glenn Saul, 22, and her four-month-old son, Randall, daughter-in-law and grandson of Plainview, were held Monday afternoon in the Emmanuel Baptist Church with burial in the Fort Collins, Colo., cemetery.

Doyle Saul just recently purchased the Floydada Livestock Sales Co., northeast of this city. The two victims were killed Friday afternoon in a two-car collision near Ft. Collins, where the husband, Rev. Glenn Saul, pastors a church nine miles southwest of Fort Collins.

The Saul family who were accompanied by Mr. and Mrs. Rolan Spencer, Wayland students had been to the church and were on their way to visit church members when the mishap occurred on an ice-coated curve.

Mrs. Saul was killed instantly and the infant died about two and one-half hours later. Mr. and Mrs. Spencer and Rev. Saul were not injured seriously. Occupants of the other car also escaped serious injuries.

Rev. and Mrs. Saul are 1962 graduates of Wayland Baptist College. The couple were married early in 1961. She was the daughter of Mr. and Mrs. H. L. (Doc) White of Fort Collins and was born in Muleshoe.

Airman Long was trained to operate manual ground radar equipment used for aircraft control and warning purposes.

The airman, whose parents reside on Rt. 1, Roaring Springs, is a graduate of Roaring Springs High School.

SACKING THE SAUSAGE . . . no recipe needed here as Mrs. W F Daniel Sr., (right) puts in just the right amount of each seasoning from years of experience. Others left to right are: Mrs. Howard Goree, Ardis Daniel and Margaret Daniel (with coonskin hat).

DOWN THE MIDDLE . . . W. F. Daniel, Sr. takes his sharp knife (used for hog killing almost 50 years) and slits the middle of the hog as butchering process begins. Son Bill assists "operation".

Other returning senators with half-term assignments were Galway Colboon Jr., Martin Dies Jr., Abraham Kazen Jr., David Telford and A. R. Schwartz. Freshmen senators who got the year to his were H. H. Blanchard, Don Kennaard, Jack Strong and J. P. Wood. Returning senators who held on to four-year terms were: A. M. Aiken Jr., Mrs. Neveille H. Colson, Tom Creighton, Louis Crump, Grady Hazlewood, Culp Krueger, George Parkhouse, William N. Patman, Andy Rogers and Franklin Spears. New members drawing full terms were James S. Bates, Criss Cole, Ralph Hall, D. Roy Harrington, Walter Richter and Murray Watson. However, there is a possibility that a constitutional amendment and new redistricting act may require election of all senators again next year.

**COIN TOSS CHOICE**—Selection of the president pro tempore of the Texas Senate was determined by the toss of a coin. Senator Martin Dies Jr. of Lubbock won over Senator Louis Crump of San Saba when the pair decided to flip a coin for the position, rather than to oppose each other. Customarily, the selection is made on the basis of seniority. In this instance, Dies and Crump had equal seniority.

**HOUSE RULES FIGHT**—Election of Speaker of the House Byron Tunnell, fourth-term representative, at the opening of the 57th Legislature with only token opposition—nine votes cast for Rep. John Almon of San Antonio.

But the rules fight that followed Tunnell's ascension to the speaker's stand was a different story. A group led by Rep. Bob Eckhardt of Houston sought to adopt the permanent rules of the 57th Legislature. The majority rules of the 56th—a custom that has followed by previous sessions.

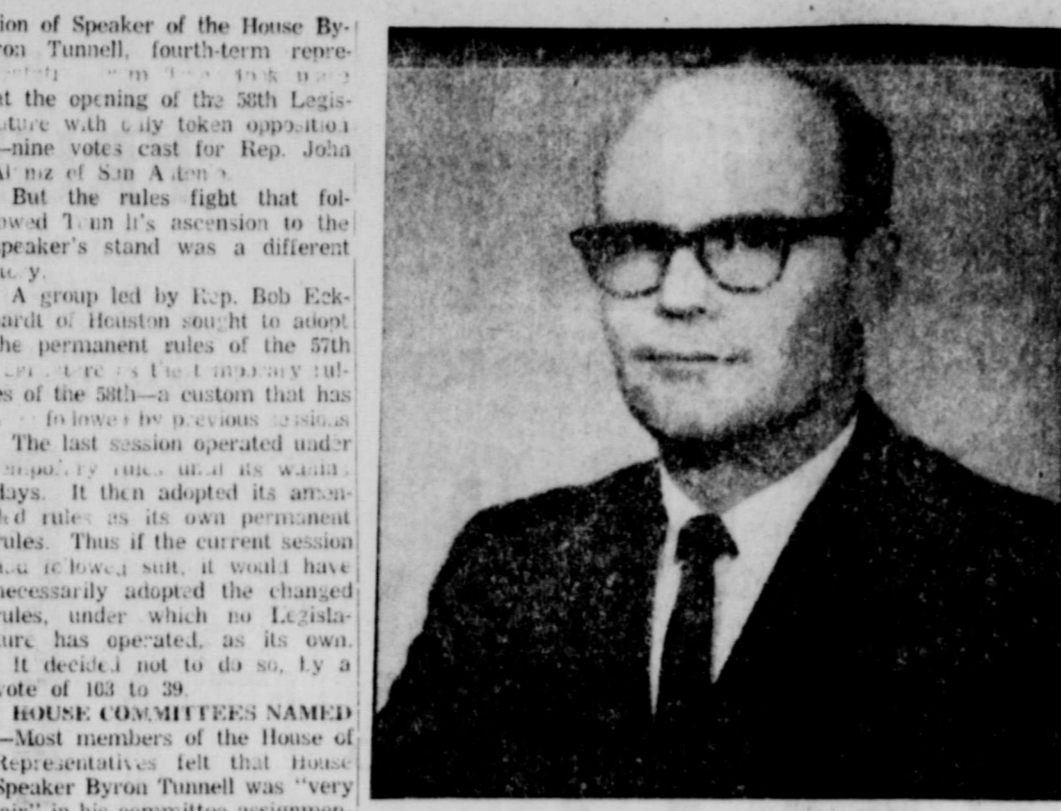

The last session operated under majority rules until its waning days. It then adopted its amended rules as its own permanent rules. Thus if the current session followed suit, it would have necessarily adopted the changed rules, under which no Legislature has operated, as its own. It decided not to do so, by a vote of 163 to 39.

**HOUSE COMMITTEES NAMED**—Most members of the House of Representatives felt that House Speaker Byron Tunnell was "very air" in his committee assignments. Rep. John Allen of Longview, who made the nominating speech for the new Speaker, will head the committee on state affairs; Rep. Ben Barnes of DeLeon will be in charge of hiring and firing for the House as head of the rules committee. Other choice chairmanships include: Rep. W. S. Healy Jr. of Paducah, Appropriations; Rep. Menton J. Murray of Harlingen, Constitutional Amendments; Rep. Jerry Butler of Kenedy, Labor; and Rep. George Cook of Odessa, Oil, Gas and Mining.

**FAMILY TRADITION**—When Senator Strons took the oath of office as senator from the second district, it marked the 40th anniversary of the day his father, James G. Strong of Carthage, was first sworn in to represent the same area. The "elder" statesman in the Strong family and his wife were witnesses to the swearing-in ceremony for their 32-year old son.

**"HOT CHECK" BILL PROPOSED**—A bill which would help small-town merchants with the problem of bad checks has been prepared by Sen. Bruce Reagan, who wants an act authorizing justice of the peace courts to try bad check cases up to \$25. Under the present hot-check law a merchant must travel to a county seat to file charges in a county court for a \$10 hot check. If Reagan's bill becomes law, the merchant could file a complaint in his local justice court.

Rep. George Richardson of Fort Worth is preparing a bill which would allow justices of peace to try cases involving hot checks of less than \$50. He feels that the court justices are closer to the people of their areas and can handle complaints quicker than

Fischer of Temple has been named vice-president. **WATER STAFF**—Hydraulic engineer Lewis B. Seward has been added to the staff of the Texas Water Commission. Chief Engineer John J. Vandertulip said that Seward will work with the water resources planning division.

**CONVICTION UPHOLD**—Bradly land promoter B. R. Sheffield has lost another round in his battle to shed his land scandal conviction. Texas Court of Criminal Appeals has upheld his conviction on charges relating to the Texas veterans land scandals. **DEFICIT AT \$53,300,000**—State Treasurer Jesse James reported the State General Revenue at a \$53,300,000 deficit on December 31, 1962. This figure was \$18,400,000 more than that reported in November, James said.

**DRAFT QUOTA 173**—Texas' quota for draft boards in February call for 173 compares with a quota of 163 for January and 235 for December. The state Selective Service Director also announced that local boards would send 1,450 men for pre-induction physical and mental examinations.

**School Menus** (for the week of January 28, 1963) MONDAY: Vegetable Soup and Crackers, Pimento Cheese and Peanut Butter Sandwiches, Oatmeal Cake, 1/2 pint milk. **SECURITIES RECORD**—State Securities Board says Texas made significant gains as a source of public investment funds in 1962. In its annual report to Governor Daniel, the Board said the sharp decline in the stock market was no deterrent to public investment in funds which it regulates. During the year the board granted 695 permits for the sale in Texas of securities valued at \$357,340,707. On the policing side of the board's activities, it reported that three applications for permits to sell to the public securities valued at a total of \$745,000, were denied. Report also noted that 22 applications representing \$22,417,826 were withdrawn. More than \$445,000 in fees were collected during the year.

**GOOD NEIGHBOR**—Austin attorney J. Manley Head has stepped into the role of Texas' No. 1 "good neighbor." The former legislator has been named chairman of the Texas Good Neighbor Commission. Head served four years in the House of Representatives and in the Senate from 1936 to 1941. He is a former executive of the Texas Motor Bus Association.
