Dougherty Club Meets With Mrs. Earl Edwards

By Mrs. Claude Ring
The Dougherty Home Demonstration Club met in the home of Mrs. Earl Edwards Sr., on January 25th with Mrs. W. J. Ross, president, calling the meeting to order.

The devotional was from Hebrews 12-12 and given by the hostess.

"This Thing Called Food" by Mrs. Howe Hines, and "Music is Fun" part 2, by Phyllis Roggendorf, was presented for the program.

Members answered roll call by giving their "preferred author" such as Dr. Vincent Peel, Gladys Taylor, Nancy Holt Giles, Pearl Buck, Ernest Hemingway and many others.

The talk on food was very interesting and informative with Mrs. Hines relating no matter how young or how old a person is they need the right kind of food and the poorly nourished are not always thin.

A pretty table, with a tasty and colorful meal, will cause children to eat the food they need to build better bones and teeth, she said. Each day we need milk, eggs, vegetables, meats and fruits.

Stereo records were played and explained by Miss Roggendorf. Instruments of the 18th century whether they were bowed or plucked, were the predecessors of the piano. Miss Roggendorf said especially the harp and the harpsicord.

Records of the Grand Canyon and the Painted Desert, giving the sounds of animal calls, lightning and thunder, cloud bursts, and even the sunrise and sunset were played.

Game and attendance prizes went to Mrs. W. J. Ross, Mrs. J. T. Polvadore and Johnnie Cates.

Delicious cake, coffee and tea were served to Miss Roggendorf and assistant HD agent, Mrs. Thompson, and Mmes. W. J. Ross, Johnnie Polvadore, Howe Hines, G. W. Smith, Johnnie Cates, Claude Ring, Bob Vickers, and daughters, Brenda and Beverly.

Members of the club are to bring good used clothing for men of the Texas Confederate Home to the next meeting which will be on Feb. 4th in the home of Mrs. Howe Hines.

\$830,000 Bid Submitted For Four - Laner

Henry L. Stafford of Lubbock with a bid of more than \$830,000 was the apparent low bidder for the construction of a fourlane highway from Floydada through Lockney to the Floyd County line and for the paving of a road from West Locust Street in Lockney to connect with Highway 70 a mile west of town.

The bids which were opened in Austin late Friday are subject to review by the Texas State Highway Department. Awarding of the contract is expected in February.

The fourlane highway totals approximately 18 miles and the West Locust connection approximately one mile.

The Locust Street Highway 70 road will be the usual farm-to-market type construction which provides a 20-foot wide driving surface. Officials said that if traffic count justifies, the part within the city limits may be curbed and paved to full width at later date.

Last Friday Mrs. Garland Foster, Mrs. Ralph Johnston and Mrs. Lon V. Smith attended the Caprock WMO Associated meeting at Matador. The highlight of the interesting program was an address by Mrs. Bert Black, State WMO president.

Della Plains In District Tourney Play

The Della Plains boys and girls basketball teams will be busy Saturday when they enter their district tournament at Lubbock. Winner in each division will advance in the state play-offs.

The locals drew Sudan in the first round of play with the first games starting at 9:00 a.m. and the other contest following.

Teams in the district are Floydada, Sudan, Olton, Hale Center, Spur and Anton.

Last Wednesday night the Della Plains teams took both ends of a double header with Spur with the girls team winning 35-20 and the boys coming out on the long end of a 75-39 count.

The Della Plains boys team of Coach Johnson fell before Lubbock's Dunbar twice in the past week. The first loss was a heart-breaker with the locals holding a 79-78 lead with only seconds remaining. Dunbar tried a shot at the buzzer and a foul was called giving them two free throws which won the game for the visitors 80-79.

In a second meeting of the two teams in Lubbock on Tuesday night the local team was weakened with some key players not quite up to par and fell by a long score 58-108.

Floydada Girls, Canyon Boys Win Cage Games

The Floydada Whirlettes won a squeaker Tuesday night to hang on to second place in the district standings when they defeated Canyon 52 - 49.

Starters for Floydada were forwards Jan Alexander, Dee Wilson, and Charlotte Pierce; and guards Janis Jones, Betty Wright, and Sheila Patterson. Also seeing service in the contest were Shirley Rainer, Linda Rucker, Sandra Marler, Sandy Bishop and Janet Burke. A regular starting forward, LaJuana Rimmer, has been sidelined for the season with an injury. Alexander took scoring honors for the night with 28 points.

The local lasses got off to a 13 - 8 first quarter lead, were ahead 26 - 22 at the half, tied at 36 - 36 at the three-quarter mark then had to come from behind in the fading minutes to win by a narrow 52 - 49 margin.

The Whirlwind boys team got off to an early lead in the game with Canyon, then went cold against the tall visitors and could not match them after midway in the second period. Floydada led 15 - 11 at the end of the first, trailed 26 - 34 at the half, and was behind 42 - 57 after three periods. Canyon finished with a comfortable 71 - 57 margin to keep their record clean in district play.

Starters for Floydada were Darryl Lindsey, Vernie Moore, Butch Gilliland, Joe Dunn, and Don Rainer. Keith Teague and Denny King also saw action in the contest.

The loss leaves Coach Bob Shields and his Winds with a one won and four lost record in district play and with three more games on the schedule.

Who Is Subsidized?

WHO IS SUBSIDIZED? . . . obviously all of us are as illustrated by the following little story:

A young man lived with his parents in a public housing development. He attended public school, rode the free school bus and participated in the free lunch program. He entered the Army and upon discharge retained his national service insurance. He enrolled in the state university, working parttime in the state capitol to supplement his GI education check.

Upon graduation he married a public health nurse, bought a farm with an FHA loan, and obtained an RRC loan to go into business. A baby was born in the county hospital. He bought a ranch with the aid of the veteran's land program and obtained emergency feed from the government. Later he put part of his land in the soil bank and payments soon paid out his farm and ranch. His father and mother lived very comfortably on the ranch on their social security and old-age assistance checks. REA lines supplied electricity. The government helped clear his land. The county agent showed him how to terrace it; then the government built him a fishpond and stocked it with many fish. The government guaranteed him a sale for his farm products at higher prices.

Books from the public library were delivered to his door. The government insured the money he banked. His children grew up, entered public schools, ate free lunches, rode free school buses, played in public parks, swam in public pools and joined the FFA. The man owned an automobile so he favored the Federal Highway program.

He signed a petition seeking federal assistance in developing an industrial project to help the economy of his area. He was a leader in obtaining the new post office and Federal building and went to Washington with a group to ask the government to build a great dam costing millions so that the area could get "cheap electricity." He petitioned the government to give the local air base to the county. He also was a leader in the movements to get his specific type of farming special tax write offs and exemptions.

Then one day he wrote his congressman: "I wish to protest these excessive governmental expenditures and attendant high taxes. I believe in rugged individualism. I think people should stand on their own two feet without handouts. I am opposed to all socialistic trends and I demand a return to the principles of our Constitutions and the policies of states' rights."

(Editor's Note: Actually we're all subsidized in one way or another. . . Newspapers are subsidized to some extent through the mail services. . . the question is — how much is too much?)

GUEST EDITORIAL

Open Records, Open Meetings, With One 'But'

The movement designed to keep public records open to the public and to require open meetings of public bodies has sound reason behind it.

Altogether too many public officials take the attitude that there are things in the public record which they'd not like the public to see. It is much easier to conduct public affairs without the annoyance of questioning people. There are just a lot of things for various reasons they'd rather some segments of the public would not know, right now. This is bad.

Open public records is a desirable thing. After all whose records are they? Records of those conducting the public's business, or the public itself?

We can go along enthusiastically with the requirement that the public is entitled to know what action is taken by the boards, commissions, bureaus, governing bodies of municipalities, schools, and the like.

But we take with a grain of salt and will continue to ponder the growing demand that all meetings of these bodies be public meetings. There are times and topics which any governing board should be able to discuss among themselves in "executive" sessions, without their staffs or the public itself admitted. What is done at an "executive" session should be required by law to be immediately announced when such a body arises from an "executive" (closed) session, and to become, then and there, a part of the current minutes.

For example, in the instance of a chief administrative officer. There may be criticism. The board may wish to discuss it. They may be thinking of employment of an administrative head from several applicants. It is right and fair to all concerned that this be in the privacy and the discussion known only to the board.

The value of an administrative officer might be greatly decreased if some of the matters discussed and threshed out became public.

One fine Texan, now gone on to whatever reward comes to a man in the Faith, and a great civic leader, used to refer to these matters as the "secret work of the lodge".

No public board should have the right to hold an executive session and take action therein which is not placed in the minutes and other public records.

But, again, it is not right, but it is contrary to good old common sense, horse sense, if you please, that a board be required to admit to such "Executive" sessions the public, the press and others gathering data for news media.

Those who are so vocally and rhetorically demanding open records and open meetings of the public bodies should recognize the difference between deliberation and action.

There are few boards which lack judgment to recognize the public's right to knowledge about public business.

There's a common sense approach to all matters. (Plainview Daily Herald)

The New York Newspaper Strike

A newspaper is a newspaper, regardless of size, and those who think they could get along just as well without their home town paper are asked to look at what is happening in New York after nearly two months without a local newspaper.

New Yorkers, after such a long time without a newspaper, have discovered some aspects of the power of the press beyond those usually attributed to it, according to Truman Temple, staff writer of The Washington Evening Star, after a survey of our largest city.

The leading dealer in luxury cars told Mr. Temple: Our sales are off 75 per cent. If you can't tell people what you have, you can't sell."

A few blocks away in the famed clothing district, he noticed the padlocked newsstand of a blind couple. Normally, he was told, they averaged \$30 to \$40 a week, but had not worked since Dec. 7.

These two extremes in the merchandising scale says Mr. Temple, "illustrate the way the current newspaper strike has cut across all walks of life here."

"It is creeping disaster. Nothing dramatic happens in any one day or week. But it shows in a hundred ways how daily journalism is woven into the fabric of a city's spending and eating and working and even dying."

Business in downtown stores, he learned, has slipped from four to 20 per cent, with the large department stores the hardest hit. Florists are hurt by the lack of obituary columns, since people cannot read of the demise of friends. "If you die in New York nowadays, it's likely to be a lonely trip to the grave."

As of the 41st day, says The Star's man, the strike had cost the newspaper industry over \$60 million in lost wages, advertising and circulation. Some 20,000 employees at nine New York dailies have lost their jobs. Many are unable to find temporary work."

That the strikers will lose also, in the long run, should be obvious. Thus, all are losing, there are no winners. And the growing uneasiness of New Yorkers at being out of touch with the world and their own community threatens not only morale but the city government and the public safety.

The newspaper is indispensable to order and progress — as well as enlightenment — in any town or city, regardless of size.

STATE OF THE UNION: President Kennedy's State of the Union message has pointed up the main issues confronting the 88th Congress. In the main, there were no surprises. It was chiefly the continuing New Deal, Fair Deal, and New Frontier approach to national ills, real and imagined. The same old story of more power for the central government, with more spending, and more unbalancing of the budget, for more programs. Much of this philosophy, and its specific accompanying proposals, as a responsible United States Senator, I must oppose. We are spending much too much money. Every year we are going more and more in the hole. Our national debt has passed the \$300 billion mark and is still soaring. My position is that it is economically unsound and immoral for us to impose a great debt on generations yet unborn to afford ourselves some public welfare benefits, some public works and so on.

There are many non-defense areas in which spending can, and must be cut. As submitted, the President's budget of virtually \$100 billion, is a record figure. It exceeds, in peace time, the record \$88.3 billion of the costliest fiscal year of World War II.

TAXES: The President asks for an across-the-board cut in individual and corporate income taxes to total \$13.5 billion in three years. You are familiar with my own legislative program, which includes measures to reform and reduce personal and corporate income taxes, and for a balanced budget, except in wartime. The President's proposal is one that most legislators can support in principle as a stimulus to business, investment and economic growth, but, unless it is accompanied by a corresponding reduction in federal spending, it will lead to economic chaos. The federal budget should be balanced in periods of peace and general prosperity and I am opposed to the tax cut unless federal spending is cut, and the budget is balanced. The President asks for the closing of some existing tax loopholes, but spending should be cut first, so the government will not go so deeply in the red.

MEDICARE: The President has again called for passage of the Medicare under social security legislation. This was defeated in the last session of the Congress. It is my fervent hope it will be defeated again. It is my conviction that medical care for the indigent elderly, or medical care for anyone who cannot afford it is the responsibility of the State and the local community and of private individuals and organizations. It is not the responsibility of the federal government. I am sure, if we instituted medicare under social security, it will be the first step toward socialized medicine.

RULE 22: Rules of the Senate, one of the few remaining forums with virtual unlimited rights of speech and debate, permit Senators to hold the floor for very long periods of time. It is difficult, under present Rule 22 of the Senate, to cut off debate. In order to close debate, a petition must be entered by 16 or more members. After two days, the petition must be voted on and must be adopted by two-thirds of those present and voting, or the debate continues. The Senate is presently considering proposals to modify Rule 22 to permit a simple majority of the Senate to cut off debate at any time. I disagree with this proposition have already spoken against the modification of the rule, both on and off the Senate floor, and shall continue to do so. I believe Rule 22, as presently constituted, is a good rule. Unlimited debate in the Senate protects the minority against what could be the "emotional tyranny" of the majority. It protects minority rights, and while unlimited debate has on occasion, slowed down or prevented the passage of good legislation, it has many times prevented the passage of bad legislation, which could have been enacted in an emotional situation, or hurriedly.

considered. For these reasons, I support the continuance of Rule 22, as it is.

DOMESTIC PEACE CORPS: This domestic peace corps proposal calls to mind the old CCC of Depression days. It is amusing to consider it could send graduates of eastern finishing schools to Texas, to teach Texans how to raise peanuts, or cotton, or something. This socialistic scheme is just one more step in preparing our young people for collectivization.

CONGO: President Kennedy, in his State of the Union message, put his stamp of approval on the State Department's reprehensible conduct in the Congo, in support of United Nations aggression there. Our conduct in the Congo is a national shame. It marks the first time in our Nation's history we have deliberately undertaken to destroy the liberty and independence of another people. The support by our government for this calculated campaign of force and pillage, waged by Secretary General U Thant's 18,000-man army, is convincing the American people, more and more each day, of the futility of the United Nations as an effective instrument of peace. Abroad, the U. S.-backed war against Tshombe has dismayed many of our traditional allies and friends among the Western governments, and well it should. united Congo, achieved with persuasion and diplomacy, is certainly proper, but there is no justification for the UN to intervene with military might and sanctions to force unification. I am in favor of a thorough investigation by the Congress, and will propose this to the appropriate Senate investigative committees.

LEGISLATIVE PACKAGE: I have again introduced an updated and expanded conservative legislative package. These are bills and resolutions, as you may know, that provide for the balancing of the federal budget, except in times of national emergency, a farm bill to provide phased reduction of price sup-

ports, removal of government competition with private business, a resolution that "victory over Communism" is the sense of the Congress upon state laws. My tax bill, parallel to the Baker-Heilig measure in the House, would reduce personal income taxes to a maximum of 42 per cent in five years, by spaced out rate reform. This, I believe to be more realistic than the President's proposal to reduce the top rate to from 91 to 65 percent in three years. And, I want to be perfectly clear, at all times, that I am for a tax cut, as a business and economic incentive, only when accompanied by reduced federal spending and a balanced budget. One of the long range undertakings I have begun, as a member of the Committee on Labor and Public Welfare, is a study among educators of their estimates of school needs during the next ten years. The consensus of the survey will be the basis for legislative proposals later.

Q—My father, a veteran of World War II, died of a service connected disability. My mother has remarried. Am I still eligible for educational and training benefits?

A—Yes, you are still considered a war orphan and are eligible provided you are within the age limits. See you nearest VA office.

Q—I am a Korean Conflict veteran and eventually I plan to buy a home through a GI loan. What is the final deadline for applying?

A—You have 10 years after your discharge, plus one year for every three months of active wartime service. The final deadlines are: For World War II veterans, July 25, 1967, and for Korean Conflict veterans, January 31, 1975.

Q—I named my mother the beneficiary of my GI insurance. She is now dead. Will the VA pay the insurance to my wife in the event of my death?

A—You had better notify the VA to make your wife the beneficiary. With no named beneficiary, the VA may have to divide the insurance among your nearest heirs when you die.

Farm Bureau Says Budget Cut Must Accompany Income Tax Cut

AUSTIN — A federal income tax cut unaccompanied by a substantial reversal of the "free spending" policies now being followed in Washington would invite "runaway inflation and a further decline in the value of the dollar," a national farm organization spokesman said Tuesday.

John C. Lynn, Washington, D. C., legislative director of the American Farm Bureau Federation, spoke to a statewide gathering of county Farm Bureau presidents and policy execution chairmen at an afternoon session of the Texas Farm Bureau's legislative conference at the Villa Capri Motor Hotel here. Tuesday night he spoke on the role of Farm Bureau in state and national affairs at a banquet attended by county leaders, high state government officials and members of the 80th Legislature. The banquet concluded the one-day legislative conference.

Lynn said the nation's largest general farm organization is calling for a budget cut of "at least 10 percent below the current level in order to permit both a reduction in the deficit and a tax cut. "Farmers recognize that federal expenditures for agriculture are contributing to the need for high taxes, and, as evidence of our willingness to share in the proposed reduction of federal spending, we recommend that the budget of the U. S. Department of Agriculture for price support operations and payments be reduced by \$1 billion, effective in fiscal 1964.

"We challenge all other groups who agree that a tax cut is desirable to make specific recommendations to Congress for comparable reductions in expenditures," he declared.

"We believe that the foreign aid program, for example, can be reduced by \$1 billion—and improved in the process."

Lynn said Farm Bureau strongly supports an adequate defense program. But he added: "Several billion dollars can be saved without impairing our defense posture by insisting that the military establishment provide a dol-

federal budget and help farmers to get away from rigid government controls.

Grandparents are Mr. and Mrs. Earl Norman of Siloam Springs, Ark., and Mr. and Mrs. Tom Hall of Hereford. Mrs. R. F. Hall of Floydada is a great grandmother.

"Under the Agricultural Act passed in 1962 wheat farmers will take it on the chin in 1964, whereas the producers of feed grains will be free to produce to the maximum at a reasonable government price support. It seems that the wheat farmers must give serious consideration to the forthcoming referendum.

"Under the certificate plan the Secretary of Agriculture would be given the authority to use the tightest controls ever seriously considered for any commodity," he said, adding that quality wheat producers would be "greatly penalized" and farmers living in areas where there are few alternatives to wheat production would suffer "grave consequences" if the certificate plan is approved in the coming referendum.

Lynn said Texans and "all Americans who believe in constitutional government" should support proposals to balance the

Dr. Johnson To Conduct Revival

Gilbert H. Rhine, pastor of the Bible Baptist Church announces the beginning of their Mid-Winter Revival services which begins this Sunday the 3rd of February and will continue through the 10th and maybe the 17th. It will depend much upon the weather conditions whether it will continue through the 17th, Rev. Rhine stated.

Dr. Ben D. Johnson was the former pastor and now associate pastor of the Tabernacle Baptist Church of Lubbock, and he will be doing the preaching during the Revival Services. Dr. Johnson has organized many churches in the West Texas area including the church he is now the associate pastor of. He is also the founder of the Plains Baptist Challenger, a religious paper that has a wide circulation in Texas as well as many other states. He has been kept busy conducting revival meetings since he resigned as the pastor of the Tabernacle Baptist Church. Dr. Johnson can be heard over the Floydada Radio Station every Sunday morning at 8:15.

Rev. Rhine said the church here has been in a revival spirit for the last few weeks, and he stated that last Sunday was no exception with three (3) conversions with six (6) coming for membership in the church. He also reported they have had 20 to 25 visitors in their services for the last two months, with the exception of two Sundays.

The Bible Baptist Church wants to give everyone an invitation to come be in their Revival Services and hear Dr. Johnson, who has been preaching now for many years. Starting time each evening will be 7:30.

HOMEMAKING HINTS

Try the new convenience foods and judge their worth for your own family's needs — don't purchase them indiscriminately. Use your own skill and imagination to make them less standardized and more individual.

Use foods liberally when they are at their peak season, or are featured in special sales. Learn to prepare some of the less expensive cuts of meat. They may become your family's favorites.

Store or refrigerate foods properly at home. Put frozen foods in the freezer immediately.

Watch food advertisements and store displays, listen to the radio and TV broadcasts to keep up with current prices and to know which foods are in good supply.

Plan your shopping ahead, make a list that at least has general reminders if not specific items, and then remember to take the list with you.

Chairman Urges Take Tax Refund In Savings Bonds

If you're in line for a refund on your 1962 Federal income tax return, County Savings Bonds Chairman, Don Pemberton has a word for you. Two words, in fact — Buy Bonds.

This year for the first time, Mr. Pemberton points out, Uncle Sam is making it possible for you to take your refund in Series E Savings Bonds by the simple expedient of putting an "X" in the appropriate box on the tax form.

Last year some 40 million taxpayers received cash refunds on their taxes. Judging from samplings of opinion, a lot of them would have preferred to get their money in Savings Bonds if they had a chance.

The way the bond option works is simple; the Treasury will issue the smallest possible number of E Bonds of the largest possible denominations to cover the amount of the refund. If there's anything left over, a check will be written for the balance. The one complication comes if the cash balance is from one to 99 cents, since the check-issuing apparatus can't handle anything less than a dollar. Details are given in the instructions.

What about joint returns? Mr. Pemberton gave us the answer to that one, too. "John and Mary Smith" on the tax return becomes "John or Mary Smith" on the bond registration, making them co-owners.

Why 2... money...? Why should the Lighthouse Electric Cooperative, Inc. borrow money at 2% interest? It's a fair question and it has a fair answer. We founders of this electric system made a covenant with the federal government to provide area coverage... instead of serving only where it is convenient or profitable. That is why Lighthouse averages only 1.8 members per mile of line. Yet in spite of this handicap, the member owned Lighthouse Electric Cooperative, Inc., offers a dependable... efficient... economical electric service while paying back principal and interest on its loans. It took ingenuity and industry on the part of your rural neighbors to do the job even with 2% money but it has been a smashing success. Low cost loans and the integrity of the Lighthouse members share in this great accomplishment. Lighthouse Electric Cooperative, Inc. 910-15th Street Lubbock, Texas Ph. PO 3-9561, Area Code 806

Election Set For Feb. 7

All students who aspire for Student Council positions of president, vice-president, secretary, treasurer, and reporter for next year must have names and petitions ready by tomorrow to be eligible to seek office.

The all-student body election is scheduled for Feb. 7. Petitions must have 25 names on them endorsing the candidate. The candidate must write his own theme on why he thinks he is qualified to run," Fred Thayer, SC president, said.

A Board of Review will be held tomorrow morning to answer pertinent questions. Annual and newspaper aspirants will not be required to write themes. Actual campaigns are due to start tomorrow, and posters will be put on display next Monday. Fred said that any stunt to be used in a candidate's behalf must be approved. "Each candidate has five minutes for his speech if he is running for president. All others will get three minutes," Fred added.

The outcome of the election and the candidates' names will appear in the next edition of the Whirl, Feb. 14.

Faculty Selects Eight Students Who's Who In Senior Class

and two girls have been selected by the faculty to be in the "Who's Who" for 1963. They are: Fred Thayer, Denny King, Tommy King, Rita Colley, Tommy Watts, Joe Dunn, Fred Thayer, and Janice Trapp. The students were chosen for their leadership, citizenship, and extra-curricular activities. The "Who's Who" is a list of the top 100 students in the senior class of 40 boys and 24 girls.

WTHSPA Awards Whirl High Rating For First Semester

The Whirl received an excellent rating from the West Texas High School Press Association for the first semester. The newspaper accumulated 456 out of a possible 489 points for this rating in the Class AA category. Thirty-four more points would have meant a superior rating, which is 490 to 560 points. Superior ratings were earned for headlines, editorial content, editorial writing, and typography. Excellent ratings were made on news content, news style, news organization, news leads, news coverage, features, printing, makeup, editorial coverage and display, and photography. According to the judge's criticisms, the paper could be improved by emphasizing future events, more tightly written copy, printing better pictures, having student opinion columns and reviews, and avoiding stereotyped expressions. The leads should open with interest-capturing words and have more variety.

Linda Robertson Receives Dar Good Citizen Award

Lindsey Earns Citizen Honor

Darryl Lindsey, senior, received a gold pin after being elected as citizen of the semester. Others nominated for this honor were Charlie Caldwell, Tommy Watts, Jody Campbell, Joe Lee Williams, Fred Thayer, and Ann McIntosh. Jody received three nominations; Joe, two; and Gregory, two. Teachers nominate students on the basis of good wholesome attitude, participation in school activities, and strong character. Then the Student Council members elect the citizen by secret ballots. Rita Colley was elected as January citizen of the month. Nominees were Robbie Becker, Gregory Williams (three times), Jody Campbell, Charlie Caldwell (two times), Zeke Robertson, Joe Dunn Dwing, Wesley Edwards, Camilla Nash, and Rita. Jody Campbell was elected December citizen. Other nominees were Janet Holmes, Billy Stanforth, Lana Davis, Bill Potts, Max Rucker, Mac Wilson, Charlie Caldwell, James G. Lightly, Darryl Lindsey, David Latrick, Janice Trapp, Dale West and Craig Edwards. Students who have also been elected as citizens consist of Fred Thayer for September, Tommy Watts for October, and Vernie Moore for November. The president of the SC presents certificates to each citizen in assembly.

JANET'S INGLIS

Well, girls—let's get busy and get the "new" Jackie Kennedy going. It's taking Paris by storm. Did you know that they had a Powder Puff game at FHS 1948 and 1949? And we think we started something new last year. Politicians will start putting on the steam since it's election time again in Whirlwindland. Policeman: Gary, why does a traffic light turn red? Gary Wilson: You would, too, if you had to change in front of all those people. And you think you've got problems. Gary Wilson had a wreck; and no sooner than he left the scene of the accident, he ran a red light and received a ticket. Janice Trapp and Gloria Sparks are sporting new glasses. Joe Lamb's brains are going to be taxed this semester since he has four study halls, and two classes. The girls are going to have a white victory flag and the boys a new green one soon. Let's keep them flying high with victories in basketball. If we had "most dependable," Mitchell Abelman and Linda Robertson would certainly qualify. Whatever happened to the twi-37

GARY WILSON—"I've got nothing against Mac personally." LINDA DUNCAN—"I thought highly of Macbeth until he maliciously killed because of his ambition." BUD HIGGINBOTHAM—"He reminds me of Ronald Bertrand." LYNN JACKSON—"He is a convincing idiot." BRUCE HORTON—"He is horrible. I wouldn't want to be like him." MARJORIE DUNAVANT—"He is an interesting character, but I don't like him, because he is a cruel, heartless person. I don't like people who are heartless." CAROLYN MARTIN—"He let his ambition to be king ruin his entire life." KENNETH SMITH—"He's credited for memorization." CHARLOTTE CALDWELL—"I think he's pretty far off." WAYNE MANKINS—"He's kind of bloody." JANICE TRAPP—"I loved him."

Outstanding Pupils Honored

All class officers nominated the outstanding students for the first time this year, and the student body then elected the winners. Run-offs were needed in several of the selections, with the seniors winning all but one title. Rita Colley, senior, was chosen most talented girl, while Conley Bradford, junior, won most talented boy. Joe Dunn and LaJuana Rimmer, seniors, were named most athletic boy and girl in FHS. Janice Trapp and Darryl Lindsey, seniors, received the honor of most likely to succeed. Janet Moore, senior, was elected most courteous girl, and Fred Thayer, senior, most courteous boy. Jimmy Pritchett, senior, and Judy McGrew, junior, were in the run-off for most talented students. Nominated for most talented boy were Bruce Julian, Don Rviner, Mac Wilson, Bill Potts, Thurmond Kirby, and Clinton Fawver. Others nominated for most athletic girl were Janice Trapp, Janice Jones, Betty Wright, Charlene Piree, Dee Wilson, and Glenda Giles. Recognition will be given to the title-holders in the yearbook. There was no election for most dependable boy and girl because of space limitations in the annual. The Student Council voted last year to change the nominating system this year so that a more representative selection could be made, according to Miss Anne Swepton, SC sponsor. SYMPATHY EXTENDED The student body expresses sincere sympathy to Jody Campbell, sophomore, upon the death of her grandfather. Gary Buntin, senior, has moved to New Mexico.

Friday Last Day To Apply For Foreign Student

"Tomorrow is the deadline for families to volunteer for Floydada High School's second foreign exchange student for next year," reports Miss Anne Swepton, Student Council sponsor. Qualifications for the family are as follows: The family must be of average income bracket. It must represent a good American home life. It must have other school children in the family. The student must have a bed of his own, but he can share a bedroom. Any family interested in keeping a student should remember they can have their preference of a boy or a girl. The family should also remember that the student cannot drive an automobile or have one while in the United States, so some type of transportation is needed for the student to and from school. The SC sponsors the foreign student by paying \$650 for transportation to America. This year Rev. Charles Lutrick and family kept Sigurd Waage, of Norway, the first exchange student. Anyone family filling the requirements and would like to take this responsibility should notify Mr. Charles Tyer, high school principal, or Miss Swepton, immediately.

How to Vote

By JANICE TRAPP

of the United States, we will some day have the opportunity to exercise our right to vote. It will be our responsibility to realize and understand the importance of an election and our duty to vote for the best candidates for the main purposes of school elections. We must have two decisions of voting for the most popular best friends, or the candidates that will best serve the school. If the qualities of popularity and ability are found in the selection is easy; however, this is not always the case. In the case of Floydada High School, it is necessary that we elect the candidates that will best qualify for these very offices even if they may not be so popular. The Student Council is the voice of our school. It is the only body that represents the individual and the administration. We need to select leaders that can best establish this relationship. The tedious jobs and constant pressure persons who are most dedicated to the ideals of government and service to the student body. This is a job, not one to be entered for selfish reasons. It is important that the most qualified annual editor because a yearbook is the only visible document by which the student body can judge the quality of the school. Dedication to a purpose is a prerequisite for a successful annual. The newspaper editor holds a very important position. He is the students' voice to the parents, administrators, faculty, and students through the Whirl requires very hard work and interest. Seeking the limelight and glory through these offices elsewhere. These positions require people who are hard workers, often without much recognition, for the betterment of the school. The dedicated candidates need our votes and the dedicated candidates.

You Cannot Pull Yourself Up By The Bootstraps

By Kerwin Baxter Science Instructor

The gift least appreciated by man is the ability to walk. This ability to walk is best explained by a fundamental law of physics called "balanced forces." The usual thought is that an application of force produces an accelerated motion. This is true if the force unbalances the object upon which it is acting. However, the force one exerts by pushing against the ground, floor, etc., only results in the general pushing back with an equal force which balances the one caused by the foot. This means the act of walking consists of successive backward pushes against the ground by the feet of the walker. Since the ground pushes with a slight forward force, this results in an advance. If a person is standing on a surface so smooth that frictional force between his feet and the ground is negligible, he cannot walk. A close approach to this predicament is experienced by a person attempting to walk on a waxed floor or on wet ice. Mr. Joss Wind, Southern Assembly performer, presented a musical variety program Jan. 22. He had appeared here four years ago.

Tulia Tops Boys In District Game

Tulia topped the Floydada Whirlwinds Jan. 18, 60-58, in the third District 2-AA basketball game for FHS. The win left Tulia 2-0 and tied for the conference lead with Canyon. A third straight defeat for the Whirlwinds, Tulia led all the way until the fourth quarter. Then the lead was swapped several times. Tulia led, 31-27, at the halftime. The Winds hit 35 per cent of their field goals and 60 per cent of free throws. The Hornets hit about 70 per cent of field goals and free throws. High pointer for the game was Ronnie Latham, of Tulia, with 34 points. Don Rainer was high for FHS with 16.

Veteran Senior Sponsors Hold Record In Years Taught, Class Leadership

If Floydada High had two cornerstones in human form, Mr. Henry Barber, agriculture instructor, and Miss Anne Swepton, English IV teacher, would qualify to be set in the edifice. Mr. Barber holds the longest service record of 23 years in FHS, with 12 elsewhere, while Miss Swepton is second with 22 here, and 2 at Hillcrest. Miss Swepton has been senior sponsor for 18 years to Mr. Barber's 17. Both enjoy the position because of the association with seniors. "I am glad that trips are over because I like the idea of parties better," Miss Swepton said, "and I have made nine trips." The Board of Education banned trips in 1959. She said her most memorable trip was the second one to Missouri in 1958 because of the water activities, climate, food, and recreation provided. "The Colorado trip gave me the most headaches," she confided. Mr. Barber also favors class parties to trips. He has been on all senior trips that have been sponsored except one. "I enjoyed the Colorado trip best because of horseback riding in the snow-covered Rockies. The Rimmer had 12, and Dee Wilson, Cheryl Culwell led Tulia with 7 problems," he said.

Girls Lose First Conference Tilt

The Tulia Hornets handed the Floydada Whirlwinds their first defeat in district play Jan. 18, winning by a margin of six points. Scoring was close during the first half, but the Hornets broke loose to gain a wide margin in the third quarter. With final minutes ticking off, the Whirlwinds closed the margin to a final score, 67-61. The girls are hoping for an upset victory over the Tulia Hornets when they play there Feb. 5. The Hornets are racing toward the district championship and have defeated the Whirlwinds, 67-61. The boys will also seek revenge over the Tulia Hornets on Feb. 5. A non-conference battle is scheduled for Feb. 8 at Hale Center when both boys and girls will meet for the second time this season. Floydada hosts Lockney here on Feb. 12 for the last district game.
