## Vets Get Ration Preference In Starting Business

An important step in the OPA program to assist veterans in adjusting to civilian economic life was announced today by W. A. Robertson, Veterans Relations Adviser in the District Office of Price Administration.

Changes in ration regulations which will permit veterans of the present war to open small businesses making use of rationed foods—businesses which under rationing have been closed to newcomers—will become effective March 26.

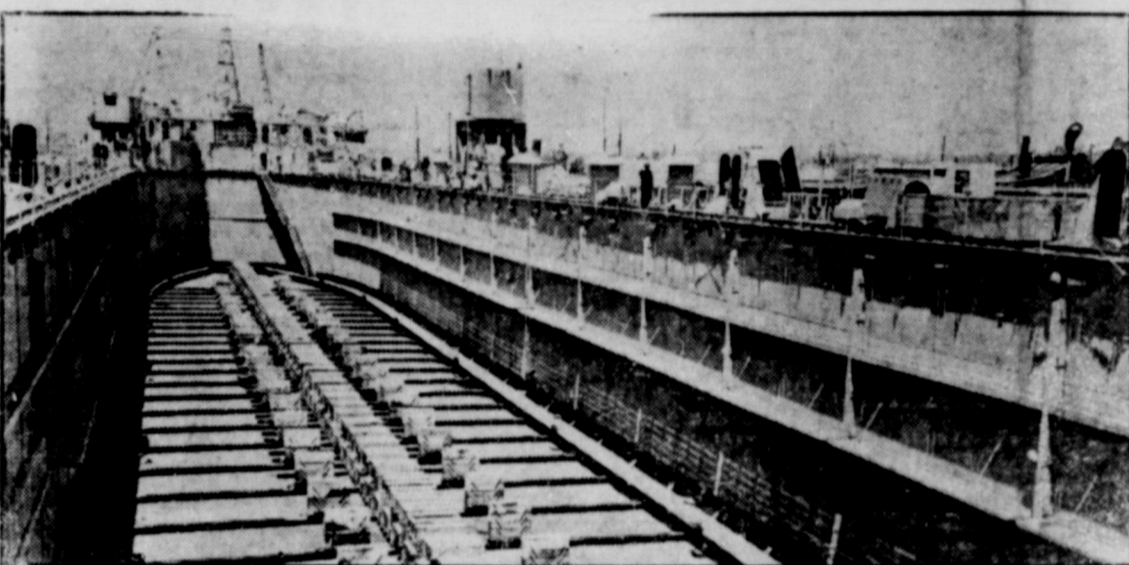

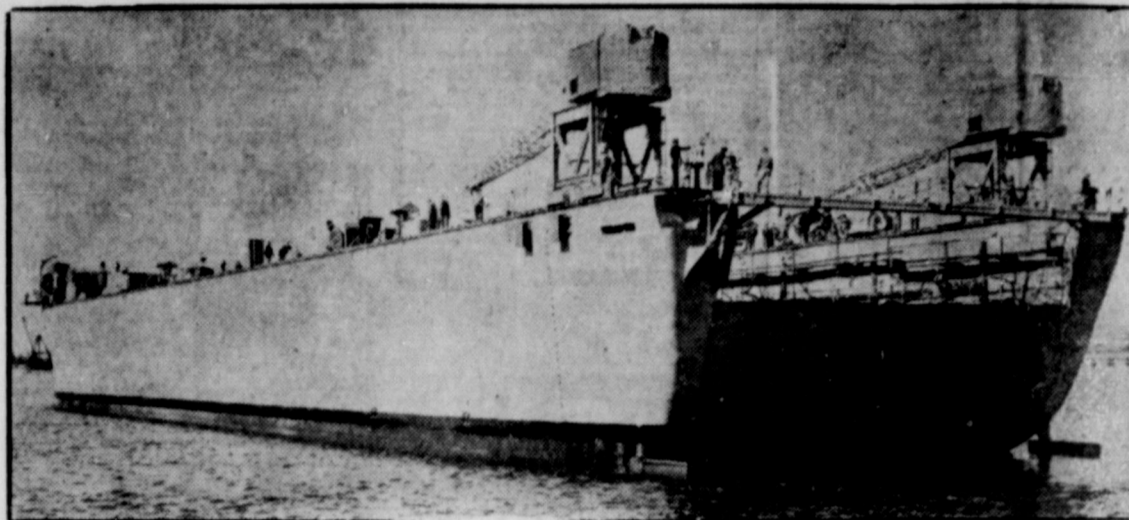

"This is only one of several moves OPA is making to help veterans get started," Robertson stated as he announced that two types of businesses are thrown open to veterans by the new ration order. One type is establishments which use rationed foods as raw materials. The other type is establishments which use rationed foods in the service of "refreshments."

Existing regulations, Robertson pointed out, already permit the opening of certain types of new establishments dealing in food, such as retail and wholesale establishments distributing rationed foods, restaurants or other institutional users using rationed foods in the service of meals, and certain establishments producing rationed foods.

The amounts of rationed food that a veteran may obtain are limited so that, in general, the businesses operated will be comparable to typical "small" businesses now operating, Robertson said.

Other OPA regulations are being reviewed, it was announced, to determine whether additional changes of aid to veterans can be made within the allotments of scarce commodities for civilian use. It was emphasized that scarce supplies of rationed foods will not permit the opening of large businesses under the new regulation. It was also pointed out that price regulations applying to other businesses of the same type will apply to businesses operated by veterans, and that they should obtain information about ceiling prices before making financial commitments in connection with new businesses.

## Rock-a-Bye Destroyer, in the Dry Dock

Floating dry docks are one reason the Navy gets warships back in fighting trim so soon after battle damage. At top is one of the big contraptions all ready to go to sea. It can scoop a destroyer right out of the water by dropping the end gate, right. Then it pumps itself dry, cradling the destroyer for repairs. Lower, the floating dry dock's innards. The Navy has been using these since 1942, making repairs practically on the scene of action. (Navy photos)

## Plainview Dairy Show Scheduled

PLAINVIEW—All except last minute arrangements are complete for the eighteenth annual Panhandle Plains Dairy Show here April 10-13 inclusive, said Mrs. Maude Alexander, Manager.

Prospects are for an entry list exceeding the record-breaking 381 head of cattle exhibited last year. Swisher County with its eighty head groomed for exhibition and Hale County's possibly equally large representation so far lead in number of entries in prospect.

A total of \$3,460.50 will be paid in cash premiums to winning exhibitors. Many thousands of dollars will change hands at the two auction sales scheduled in connection with the show, the Jersey Sale on Thursday and the Milking Shorthorn auction on Friday, concluding day of the exposition.

As in the past, show activity will begin with the production contest which starts on Sunday and continues through Monday. Wayne Thomas of Perryton is official tester and superintendent of the department where cows win their prizes on the basis of butterfat production.

The show will open officially at 9 o'clock Tuesday when judging of Guernsey entries starts with W. L. Stangel, head of the Texas Technological College husbandry department, scoring the animals. Stangel will judge the Jerseys and Holstein-Friesians, also the latter class will be judged on the afternoon of the opening day.

Wednesday, second day of the show, is American Jersey Cattle Club day. Activity will begin at 8 a. m. with judging of Jerseys. At 5:30 in the afternoon there will be the annual roundup of A & M College students and exes. Harvie D. Pool, Levelland, is president of the Central Plains A & M Club. The annual banquet for Dairy Show Association members is scheduled at 7:30 that night and at 9 o'clock there will be a revue of bathing beauties at the Granada theater. A bevy of forty beauties are ready to vie for prizes.

Thursday's program will start at 8 a. m. with judging of Milking Shorthorns with Keith King of Victoria, Ill., placing the entries. At 1 o'clock that afternoon the Jersey auction will begin and that night at 7:30 Milking Shorthorn breeders will have their annual banquet. A dance starting at 9 p. m. at the Legion home with Warren Gregory and his Melody Makers furnishing the music will conclude the day's activities.

The Milking Shorthorn auction beginning at 1 p. m. Friday afternoon will conclude the eighteenth annual Dairy Show.

C. B. Martin, Hale county agent, is general show superintendent and L. D. Ballard, Plainview, is assistant. A. B. Buchanan, Brownfield, is president of the show association and M. C. Brandon, Plainview, is vice-president.

Department superintendents are Harvie D. Pool, Levelland, Jersey; C. C. Brookshire, Tulla, Holstein-Friesian; M. U. May, Dimmitt, Guernsey; Frank Weil, Hale Center, Milking Shorthorn; Leon Ranson, Floydada, Dairy Calf Club.

## LADIES AID HOLDS REGULAR MEETING

The Congregational Ladies Aid met in the church basement, Wednesday, March 21, with the chairman, Mrs. L. F. Lillard, presiding over the business meeting.

Mrs. J. A. Guyer gave the devotional, the subject being—"One Trouble at a Time," taken from the scripture verse—"Sufficient unto the day is the evil thereof."

Mrs. Fred White was on the program and gave an interesting talk on "Experimenting on Community Christian Citizenship."

The rest of the afternoon was spent in quilting and hand work, and refreshments were served by the hostess, Mrs. O. F. Lange, to 11 members, and one visitor, Mrs. Edna Shaw of Tyler.

Our next meeting will be at the home of Mrs. Marvin Whaley, Apr. 4, with Mrs. Charley Bainum and Mrs. Mary Bainum as hostesses.

## Legion and Auxiliary Meet at Bovina

The next meeting of the American Legion and Auxiliary will be held at Bovina school house, on Tuesday, April 10, at 8:30 o'clock.

## Meeting Tuesday to Discuss New Ground Training Class Here

If you are interested in aviation and would like to get started soon on a ground training course, you are invited to the meeting to be held Tuesday night at 8 o'clock at the Maurer Machinery Company offices.

Carl Maurer and Clyde Dorris, local flight instructors, are preparing to start a new ground training class which will be open to men and women of the Friona territory and the meeting Tuesday will be for the purpose of arranging a schedule. An approved ground training course is required before any flyer can receive any type of license; and the training to be offered will be valuable, whether or not the student plans to follow up immediately with flight training.

## Card of Thanks

We take this means of expressing to our many friends our true appreciation and thanks for the many words and deeds of kindness and sympathy, and for the beautiful flowers that have been sent to cheer us during Carroll's illness. All these things have done much to cheer and comfort us.

Mr. and Mrs. Carroll Loflin.

## Don't Change License No. on Gas Coupons

"Don't change the license numbers on the face of gasoline coupons that you have already endorsed—just change the number on the gas book cover and on the Mileage Ration Record," cautioned the District Office of Price Administration in response to many questions about gasoline coupon endorsement after new automobile license plates go into use.

The instructions OPA issued are simple; just draw a line through the old license number on the back of your gas ration book cover and write in the new license number. The same procedure should be followed on the Mileage Ration Record. It is not necessary, however, to change the license numbers on the face of gasoline coupons that you have already endorsed.

## Revival Begins Saturday Night

Just reminding the public that, as was announced last week a two-weeks revival service will begin at the 10th Street Church of Christ Saturday night, Mar. 31, and will continue through Sunday, Apr. 15.

Minister Lester Hathaway, a well posted Bible student, will do the preaching. There will be services each night and the general public is most cordially invited.

## STILL IN HOSPITAL

Carroll Loflin, who two weeks ago had an emergency operation at the Memorial Hospital at Clovis, is still in the hospital, and making only slow progress.

He is still running temperature each day. It is understood that the fact that the appendix burst before Loflin reached the hospital, is perhaps the cause for the delayed recovery.

## Rodeo at Bovina Sunday Afternoon

Arrangements have been made and bills are out announcing an invitational rodeo to be held at Bovina, Sunday afternoon, Apr. 1, beginning at 2:30 o'clock.

Mrs. Roden imitated Gildersleeve's laugh, and Johnny imitated Kay Kayser. Helen Taylor did a very good imitation of Harry Bonzell, Jr.

Afterwards refreshments were served, consisting of hamburgers, doughnuts and punch.

The evening was thoroughly enjoyed and ended merrily with brooms and cup towels a-flying. The members of the Sub Deb Club hereby express their thanks to the members of the Congregational Church for the use of the basement.

## Fat Salvage To Be Increased in Coming Year

Stating that good results have been achieved thus far in the fat salvage drive in Deaf Smith County, Miss Sadie Lee Oliver, chairman of the women's division of the county salvage committee, this week urged continued cooperation by every housewife in the county.

"All markets in Hereford will accept salvage fats," Miss Oliver said, "and the amount of used fats turned in is increasing; however, it is necessary for us to increase fat salvage even more in order to keep up supplies of paints, synthetic rubber, soap, pharmaceuticals and thousands of other war and civilian products."

Fats collected here are sent in to the Pickney Packing Co. in Amarillo, operators of the only fat salvage depot in this district.

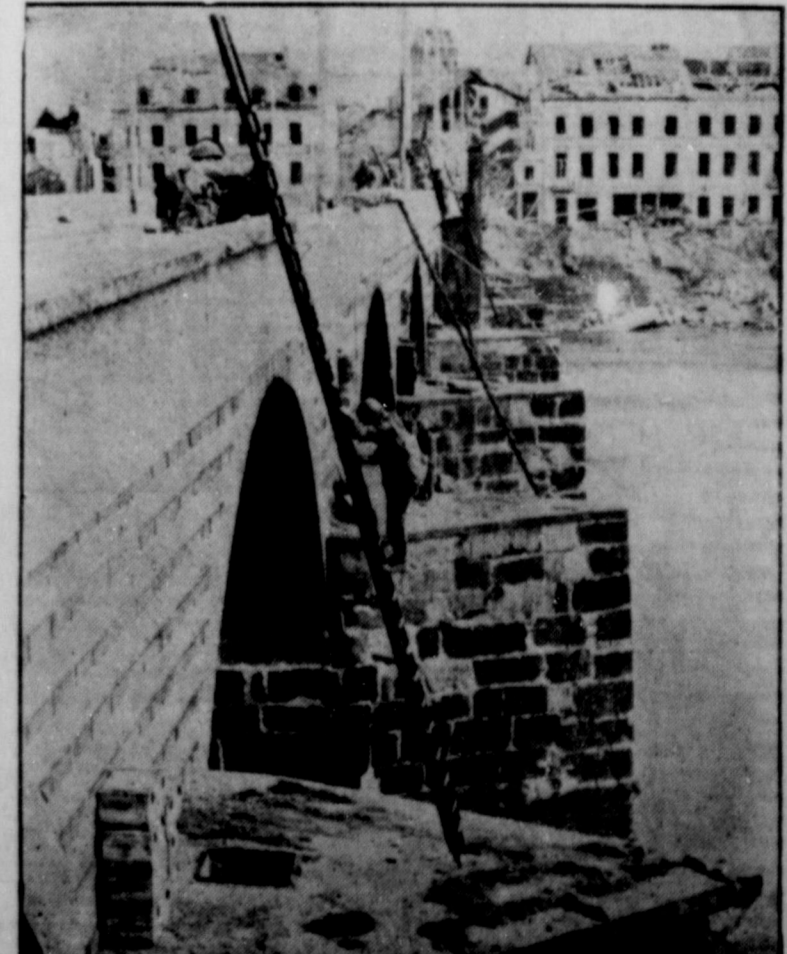

Payment for used fats is made at the rate of four cents and two red points a pound.

"With the fat salvage quota increased almost 100 million pounds over what was collected in 1944, the nation is looking to rural communities such as ours to supply most of that increased quota," Miss Oliver said.

He attained the rank of technician fifth-grade, and was on overseas service for 23 months, taking part in the African-Middle Eastern Campaign and seeing service in Tunisia and Sicily. He died as the result of cancer of the lung, believed to have been caused by an injury received in service. Survivors include his parents, Mr. and Mrs. H. D. ## NEWS IN THE WORLD OF RELIGION

By W. W. REID

"One of the handicaps to democracy, in a big society like ours, is the tendency of citizens to become spectators of government, rather than participants," says President Harold W. Dodds of Princeton University. "Yet it is the moral duty of the Christian, as a Christian, to participate. Because democracy best expresses the Christian ideal, church members are particularly charged with preserving and extending it. But the future of democracy at home (domestic democracy) is inseparably bound up with world order. The world cannot continue to have war and liberty both. The time has come to choose between them. For the Christian there can be but one choice."

There are 12 "musts" that the Christian is required to observe if America and the world are to be freed from race and color discrimination and a better world built, according to the Federal Council of the Churches of Christ in America. Says the Council: "We must realize that we have moral obligation to all men; demonstrate in practice our belief in the intrinsic worth and dignity of every human being, recognize that lines of division based upon color alone are unjust and tyrannical; substitute pride in the human race for racial pride; break away from the prejudices of convention and caste; make sure that every public measure to improve the quality of life of our people shall apply equally to all citizens; insure equal opportunity in every kind of useful work for all persons of equal skill and energy; make sure that the life of a person, his standing in the community and ability to meet his needs is not made to depend upon race or color but only upon character and willingness to contribute his best; oppose all charlatans and demagogues; support with counsel, service and material resources all constructive efforts for equal justice and opportunity for all; sponsor study groups, forums, fellowship in worship and other interracial means through which men learn cooperation; make sure that in our churches those of every race and people shall be welcome to full membership and fellowship."

## Bridge Out

Shattered spans and approach of the Hohenzollern bridge over the Rhine at Cologne, as seen from the dome of the Cologne Cathedral. Docks and other shipping facilities are also smashed. Of the entire city's 3320 built up acres, 2010 are completely destroyed, a result of 18 big bombing attacks and artillery—five times damage done in Stalingrad, says British Information Service.

## CHDA Recommends Fruits for Area

Pointing out that many fruit trees have not yet bloomed and

therefore are still safe from freeze damage, Miss Sadie Lee Oliver, CHDA, this week urged that fruit growers study the lists of "adapted varieties" and plant trees which will produce fruit nearly every year in the Panhandle.

She lists sour cherries—Early Richmond, Montmorency and English Morello varieties—as good for this territory. Also adapted are Hansen bush cherries, hybrid cherry plums (Opata and Sapa varieties.)

A few peaches are consistent producers here; and grapes, rhubarb and strawberries are good fruits for this territory.

**A GOOD TAX-PAYING CITIZEN**  
... wherever we serve!

Every good citizen realizes that it is a duty and a privilege to help support our government, schools, public institutions and to help maintain other government services.

There is only one place from which this money can come.

It must come in the form of taxes from those who enjoy the benefits of our democratic form of government.

Taxes make these benefits possible and in addition are helping to win the war.

Like yourself, we are glad to be Americans—to pay taxes—to enjoy the securities and privileges of this great country—our America!

## New Santa Fe Bridge Speeds War Traffic

Santa Fe trains are now rolling across a new double-track steel bridge over the Colorado River near Topock, Arizona, speeding up vital war traffic along the route to Tokyo through California's ports of war.

This new Santa Fe bridge removes the

"bottle-neck" created by the old single-track bridge it replaces and has ample strength to take care of future requirements as to weights to be imposed on it.

The new Topock bridge is an impressive engineering feat, but it is only one step in Santa Fe's program of plant improvement—started long before Pearl Harbor. These improvements have speeded up war traffic today, and they will enable a higher standard of Santa Fe service in the days of peace to come.
