Voters Approve Creation Of Caprock Hospital District

Kreis, Williams, Goen, Wood, Robertson Appointed To Board

Over 800 voters in precincts 1, 3 and 4 of Floyd county turned out in the first vote of its kind in this area and approved the formation of Caprock Hospital District last Saturday.

This is the first step in getting a new hospital to be built in Floydada.

The overall three precinct vote was 551 for and 256 against.

Some communities in the county voiced a strong opposition to the new hospital. The Cedar Hill Community voted 52 against to 3 for. On the other hand the community of Harmony voted the highest percentage in favor of the hospital district 14-1.

The vote for the creation of the hospital district was rated 2 to 1. Over 80 per cent of the Floydada voters voted for the district.

The individual box vote results are as follows: SW Floydada, 266 for, 50 against; Starkey, 9 for, 4 against; Allmon 6-0; Sand Hill, 15 for, 16 against; South Plains, 16 for, 36 against; Cedar Collier, daughter of Mr. and Mrs. Hill, 3 for, 52 against; Baker Bob Collier, will participate in 13 for, 2 against; Lakeview, 9 for, 16 against; Harmony 14 for, 1 against; Goodnight, 1 for, 16 against; NW Floydada, 71 for, 7 against; Dougherty, 21 for, 14 against; McCoy, 13 for, 8 against; SE Floydada, 83 for, 18 against; NE Floydada, 17 for, 22 against.

BOARD APPOINTED
The Floyd county commissioning high school seniors from a hurry Monday morning and appointing an official five man board to begin work with is scheduled for Saturday night, an architect and present plans July 27. Miss Collier is a candidate in the queen contest.

Judge J. D. McBrien said the men selected for the board were selected for their business ability, confidence and respect they have among their fellow men, and winds up on the 27th of the all-star game.

Miss Collier and Rucker and their families are being invited to take part in events throughout the week. Highlights will be in the parades, picnic, evening dancing and the ball game.

The Greenbelt Bowl has been popular with Floyd County football fans down through the years. A. H. Kreis, a farmer in the area on at least two occasions they have seen Whirlwind stars standing named to the outstanding player very much interested in the new event.

Selected to serve on the board were Mrs. Don Probasco, Mrs. E. M. Quebe, Mrs. Tom Duvall, Mrs. A. C. Pratt, Mrs. Hollis McLain and Mrs. Ras Ware.

So The Citizens May Know

Editor's Note: In order that Floydada residents may be fully informed on the forthcoming revenue bond election this is the first in a series of articles written by the members of the city council explaining the importance of more power for the city electric plant.

The forthcoming bond election for the issuance of \$350,000.00 dollars in bonds for the purchase of more power for the city light plant is one of the most important issues to come before the citizens of our city.

If we are to continue to furnish light and power at the reasonable rates we now enjoy we must increase our output to take care of the demands for electricity as the present facilities which we now have are producing the maximum amount of power. Our stand-by facilities are almost nil at this time.

Your City Council has given this matter long and serious thought and we have explored every avenue available to us for the securing of more power, and after much thought and time spent can find no other choice in the matter.

If the citizens fully understand just what the light plant means to us in savings on electricity and the amount of money this plant contributes to the tax load, they cannot afford to vote against this proposition. This bond election is strictly a revenue producing issue and does not involve an increase in ad-valorem taxes.

The bonded indebtedness must be paid out of and from the light and power plant after a reasonable amount has been allocated to the expenses of producing and the operation of the system and no taxes can ever be levied against any ad-valorem or personal property to pay off the bonds.

The present plant was built for the purpose of giving the citizens a reasonable light and power rate and to keep our taxes on ad-valorem and personal property low.

Records at the City Hall which are open to any citizen will reveal that many thousands of dollars have been and is being contributed to the expense of our city government, and without the revenue from this plant our tax load would undoubtedly be approximately 100% greater than they are now.

A vote for the proposition on July 30th will assure you of a continuance of a reasonable electric rate and keep our taxes down. If you want Floydada to go forward and keep pace with progress you will go to the polls and vote for this bond issue on July 30th.

Farm Safety Week To Be Observed In Floyd County

County Judge J. D. McBrien has officially proclaimed July 21-27, 1963, as FARM SAFETY WEEK in Floyd County, according to J. R. Turner, president of the local county Farm Bureau.

President Kennedy and Governor Connally have previously designated that week on national and state levels as a period to call attention to worthwhile safety practices that can reduce disabling injuries and death.

The county farm leader said that farm accidents have been reduced in the past few years; however, farmers cannot afford to let down their guard against accidents. He emphasized that farming remains one of the most hazardous occupations in America today.

In his official proclamation, County Judge McBrien said: "All the citizens of Floyd county are concerned about the safety and well-being of farm families from whom we receive our abundance of food and other essential agricultural commodities.

"Farm accidents are responsible for needless suffering and incapacity, and greatly effect the economic well-being and progress of our agricultural population in our county, state and nation.

"Throughout this special week, a statewide farm accident prevention and educational program will be undertaken by the Texas Farm Bureau, the Texas Farm and Ranch Safety Council, the Texas Agricultural Extension Service, the Texas Safety Association and the Floyd county Farm Bureau.

Foreign Student Will Arrive Here On August 16th

The Leonard Matslers have received news that Maria Antonette Capocéfalo, who is to be their houseguests during her school term in Floydada as foreign exchange student, will arrive in New York on August 15, aboard the SS Seven Seas.

Normally all exchange students are flown from New York to their destination immediately, so the Matslers are expecting "Mary" 1963, according to figures from as she will be known here, in Wayne Brown, local manager. Lubbock either on the 16th or 17th of August. She is from least 30 new families in the city, Rome, Italy.

Miss Capocéfalo is hoping to meet with Miss Wilson and Phil Dents here Brown said. Wylie of Floydada during a brief New Floydada telephone direct visit they plan in Rome while on their way to the first of July.

IN THE GOOD OLD SUMMERTIME . . . The Floydada swimming pool keeps a lot of youngsters cooled off for the summer. The city spent \$600 remodeling it and has leased it to individual operation for the summer. Night swimming parties, swimming lessons and regular swimming enjoyment are all available at the pool.

New Tractor Dealership In Floydada

A new business is open in Floydada next door south of Piggly Wiggly. It is the Payne Implement Company, new dealer for Minneapolis, Moline tractors and equipment.

The business is owned by Travis Payne, M.M. dealer in Happy, Texas and is managed by Jack Porter, P.Parts manager is Tom Burrow.

Both Porter and Burrow have several years experience in the tractor business and invite the area farmers in to get acquainted with them in their new location.

The new business offers the farmer new and used tractors, implements, irrigation engines and a modern service department for machinery repair.

The spacious 50 ft. x 150 ft. building affords a big selection of parts, new machinery displays and repair departments.

Other employees of the new business include mechanics J. D. Cantrell, Jasper Hopper and Ray Thompson. John Curry is in charge of farm service.

Lighthouse Team Meets Eastland On July 30

The Lighthouse Electric baseball team of the Floydada Junior League has been certified as winner of the league schedule and will advance to the regional playoffs at Sweetwater on July 30. Junior League Vice-President, Garth Gtocher, and team manager Johnny Harris have been busy this week making preparations for the trip. The Lighthouse team will meet Eastland at 6:45 p.m. on July 30. The locals drew a bye in the first round and will meet the Eastland boys in the second round of action.

Other teams are Stamford which meets Tri-County (Cisco) and Big Spring which meets Sweetwater.

The tournament is a single elimination (sudden death) affair with one loss sending the team back home. The state playoff is scheduled to be held one week later.

Lighthouse Electric will be dressed out in all new uniforms come next week and they will go to the tournament in style. Harris said this week the uniforms were expected in time for the Sweetwater trip and perhaps in time for the invitational tour to be held here early next week.

Junior League Tournament Begins Here Monday Night

League Vice-President Garth Gtocher announced this week that the Junior aged baseball invitational tournament that will start on the local diamond on Monday night.

Action is scheduled Monday, Tuesday, Thursday and Friday nights. The latter being the championship game.

Team entries have come in from Crosbyton, Ralls, Petersburg, Sprinklake-Olton, Silvertown and two teams from the local league. The Lighthouse Electric team which won the league championship will enter with the same roster they will carry to the playoffs.

Also an all-star team made up of players from VFW, Mata-Gocher announced this week that the Junior aged baseball invitational tournament that will start on the local diamond on Monday night.

The victim, only child of Lela Mae Harris, apparently got the rubber in its mouth after the balloon had burst. Alton May, city policeman, was cruising in the neighborhood at the time of the tragedy and after he was summoned he rushed the baby to Peoples Hospital where he died about on hour later.

Ries for the baby were conducted Monday in the North Side Church of Christ with interment in the Floydada colored cemetery. The busy weekend actually started on Sunday afternoon.

You are reminded to clip it and save it for further reference.

Wylie Butane Sponsors Rain Chart

Wylie Butane in Floydada is sponsoring a complete rain chart of rainfall in Floydada since 1925 in this issue of The Hesperian.

You are reminded to clip it and save it for further reference.

Pack 257 To Have Outing

There will be a "Cub and Dad" outing for cub scout pack 257 this weekend, according to an announcement by cub master Glenn Jarnagin. This is an annual affair for the pack.

All are asked to meet at the Legion Hall and be prepared to leave at 2:30 Saturday afternoon for Camp Haynes. The group will be at Camp Haynes overnight attend Sunday School Sunday morning and return to Floydada after lunch that evening.

Approximately 35 to 40 cubs are expected to make the trip and all are urged to go if at all possible.

Word Sponsors Football Schedule

Jim Word at Floydada Real Estate and Insurance is sponsoring the official Whirlwinds football schedule in this issue of The Hesperian.

You are reminded to clip it and save it for future reference.

City Officials Have Busy Week

City officials were kept hopping over the weekend breaking up fights, hauling in drunks and making emergency calls, one which resulted in the death of a six months old negro baby boy after he swallowed portions of rubber from a burst balloon Sunday afternoon.

The victim, only child of Lela Mae Harris, apparently got the rubber in its mouth after the balloon had burst. Alton May, city policeman, was cruising in the neighborhood at the time of the tragedy and after he was summoned he rushed the baby to Peoples Hospital where he died about on hour later.

Ries for the baby were conducted Monday in the North Side Church of Christ with interment in the Floydada colored cemetery. The busy weekend actually started on Sunday afternoon.

You are reminded to clip it and save it for further reference.

Silvertown Man Dies Following Altercation

Jessie Gremland, 34, blacksmith and machinist at Silvertown died following an altercation with Robert Haley Hill in Silvertown Saturday night.

Gremland and Hill had been involved in a "friendly poker game" and following the altercation Hill died about 1 a.m. Sunday.

Blood test records showed that intoxicating beverages had been consumed by the deceased.

He is survived by a wife and three children.

The Weather

High temperature Wednesday was 98, high expected Thursday 92-102. Partly cloudy with scattered thundershowers in the area. Low temperature 67 to 77.

Thunder Showers Boost Crops

Thunder showers have been measured so far as over their allotted acres and will have to plow up cotton acreage. This "overplanting" was due to the hazardous planting situations in June and farmers planted over their allotments in order to get enough up to meet allotments. Elevator men say the grain sorghum crop looks very good, including dryland crops.

A total of 2.79 inches of rain fall have been recorded in Floydada this month. The average for July is 2.61.

BOLL WEEVILS
Farmers along the Caprock should watch cotton closely for boll weevil punctures states County Agricultural Agent, H. T. Davison.

Although no weevils have been found, weevil grubs and punctures have been found in cotton squares in the Dougherty area.

John B. Stapleton In New Office

John B. Stapleton has announced the opening of his law offices at the corner of 101 N. Main street in Floydada.

Mr. Stapleton's office in the courthouse will remain open where he serves as district attorney. The downtown offices have been completely remodeled inside and out with all new office furnishings.

Mexican Man Beats Wife; Fined \$132.15

Erassamo Becerra, transient laborer was fined \$132.15 and charged with aggravated assault after his wife turned him in for beating her with a hoe.

The beating took place in the McCoy community last Friday and Becerra was arrested by the sheriff's department Saturday.

The sheriff's department said that most of the woman's injuries were extensive bruises over her body.

Hesperian Editorials

Farming -- High Hazard Industry

For many years farming has ranked as the third most hazardous occupation. Only mining, including quarrying and petroleum drilling, and construction have higher death rates.

In general the death rate from farm accidents has followed national trends, decreasing steadily since the turn of the century.

But where the rate on farms was once below the national average, in recent years it has been higher. And the difference appears to be increasing. In 1961, when the national rate fell to an all-time low of 50.4 deaths per 100,000 population, the farm average rose to 58.8.

National Farm Safety Week, July 21-27, is an opportune time to examine the record to learn where farm safety falls down.

National Safety Council statistics show the motor vehicle, home and public accidents—the three largest accident categories nationally—hit farm residents about as hard as the rest of the country.

It is in work safety that farming lags behind. Work accidents are second only to motor vehicle accidents among farm residents, comprising 31 per cent of the total.

Other industries have developed safety procedures that have made work accidents the smallest of all four categories—accounting for 15 per cent of the nation's accident toll. These same procedures, not to work on the farm, can bring farm safety back into line with the national record.

A farmer must be many kinds of a craftsman. He often is called on to be a carpenter, an electrician, a mechanic. He uses fuels, chemicals, fertilizers, and many different kinds of machines.

To work safely he must know and follow the safe practices developed in many different industries.

In most industries, employees' mistakes are noticed and corrected immediately. But much of farm work is done away from direct observation and supervision. Too often, an unsafe act, unseen and unrecognized, becomes a habit instead of being corrected promptly. These bad habits must be discovered and replaced with proper methods.

National Farm Safety Week is not a week in which to be more careful, then to be forgotten until next year. Instead it is a time to examine work habits, to compare methods with those proved effective in other industries, and to seek out better and safer ways to do our jobs.

Accident prevention is a year-round job. An official "week" is simply a reminder that emphasizes the importance of that job.

Every week should be Farm Safety Week.

Business Buildings, Homes Won't Rent When In Poor Condition

We have noticed an increase in business building occupancy in Floydada the last two months. There is nothing that pleases us more than to see these ghost buildings come back to life with new business, new fronts, and remodeled interiors.

In the meantime two or three well located buildings in Floydada remain unrented. It doesn't take much horse sense to see why they are not occupied. They are simply in a run down, dilapidated condition. They do not appear desirable. . . certainly they are uninviting to the prospective business man.

The John Stapleton building has been completely remodeled and today is one of the most modern buildings inside and out in Floydada. Others have been improved.

We don't know how the owners can afford to own an unrented building. . . yet it only seems logical that they will have to spend some money for repairs and remodeling before they can hope to rent them. The

LOCKNEY

HARMONY NEWS by Mrs. Mather Carr

Harmony Community Got No Rain Saturday

HARMONY, July 15 — We did not get any rain Saturday night. Mrs. Everett Miller, Barbara and Mrs. Philip Dunavant and Mrs. Mrs. Zant Scott returned home Thursday from Stillwater, Okla. where she had been for some time in the home of her son and family, who have a new baby daughter.

Mr. and Mrs. Triett McQuest of San Angelo was a supper guest Saturday night in the Zant Scott home. Judy Smith attended church at the Calvary Baptist Church in Floydada Sunday.

Mr. Joe Smith and children of Amarillo came down Sunday to spend several days with her in-law, the Marvin Smiths while her husband is away from home on business.

Larri Wallace of Crosbyton attended services at the Chapel Sunday night. She is visiting in the Marvin Smith home.

Mark and Mike Hay of Montrose, Colo. came Saturday for a visit with their aunt, Mrs. Marlon Tucker and family. They will probably leave this Monday for Hart to visit with their grandparents, Mr. and Mrs. Emmet Foster.

Rev. Merriman preached both Sunday morning and night at the Chapel. They were dinner guests in the home of Mrs. M. D. Raney.

Well another surprise for me Sunday when the children and grandchildren came and brought a birthday dinner and gifts to me. Those present were Mr. and Mrs. Leon Williams, Mr. and Mrs. Horace Carr, Floydada, Mr. and Mrs. Mrs. Wesley Carr and Bill, Mr. Scott, Mrs. Carrick Snodgrass, Mr. and Mrs. Chloma Williams

old saying, "It takes money to make money" can certainly be applied here.

In the meantime the crying need of Floydada is more homes . . . both for sale and to rent. Due to the scarcity of good rent houses, every sort of old shack is now being rented.

Let's make Floydada a better place in which to live . . . a better place in which to do business with better upkeep of our homes and business buildings.

GUEST EDITORIAL

One Simple Basic Fact . . .

There are more shades of opinion about racial discrimination and civil rights than there are shades of human skin, and muddled thinking has contributed more to the confusion of issues than muddled skin tones.

But there is one basic fact which, if faced up to and recognized, could dispel a lot of the confusion: the Negro is a human being.

The pigment of a man's skin is an incidental external characteristic which confers no particular degree of humanity. All men, whether their skin is white, brown, yellow, red or black, are products of the same processes of creation . . . have the same general physical characteristics, the same basic mental processes, and, if you are a Believer, are all children of the same God.

By all the yardsticks of Science, by all the processes of Logic, and by all the precepts of Christianity, the Negro is as much a human being as his white (or brown, or red, or yellow) brother.

Whatever your personal prejudices, you cannot bar him from the human race. This simple admission sweeps away many of the rationalizations by which we whites attempt to justify to ourselves our attitude toward the Negro as a breed apart . . . a sort of sub-human species a little higher than the animals but considerably lower than us angels. It just won't wash.

In the United States of America, the Negro is also a citizen. He is subject to the same laws as whites, and is entitled to equal treatment under them; he pays the same taxes as whites, and is entitled to equal benefits from them.

It is on this basis that the question of Civil Rights is based. It is on this basis that the Negro demands equal freedom of the ballot, equal treatment in our courts, and equal access to our schools and other public institutions . . . and we have neither a legal nor a moral right to deny them.

In the area of purely Civil rights, the law and the Constitution are clear . . . you don't have to like the facts, but you have no right to change them.

In the area of racial discrimination, the legal line is less clearly drawn. Ours is a nation in which personal freedoms are cherished and guarded, and it is a touchy question to decide where one man's freedom ends and another's begins. It is certainly your privilege, under the law, to dislike a man whose skin is dark, and to refuse to associate with him socially. It may even be your privilege, under the law, to refuse to serve him in your place of business . . . This is a grave area in the law where personal freedoms come in conflict, and one in which responsible lawmakers are reluctant to legislate. But if rank discrimination persists against a segment of our population, it is almost certain that legislation will be passed to end it . . . and when such laws are passed, some personal freedoms will be sacrificed.

This is a question which could much better be resolved in terms of humanity than of legality . . . and could be resolved by the simple recognition of the fact that the negro is also a human being.

In one other area the Negro is seeking equal rights and in this area there can and must be no resort to law. This is in our churches . . . and these are, and should remain, outside the law.

But it is inconceivable to us that any person, professing to be a Christian can refuse to join in worship with another human being because of his color. Here the issue of discrimination must certainly be resolved on the grounds of Humanity.

No act of law can force the integration of races in a church . . . this question must be left to the individual Christian conscience.

But the fact remains, and must be recognized, that the Negro is a human being . . . even as you and I.

(Canadian Record)

each lasting for 2 weeks. Campers range from age 10 years to 18. For every 7 campers there is a counselor. The counselors are college girls who receive an 8 week training course at the camp the previous summer. Adults at the camp include the Camp Director, the Dietician, a nurse, and a man who acts as caretaker. One college boy assists at the stable.

"Zis Girl Scout Council" of Artesia owns and operates the camp. The scouts' stable houses a fire string of horses and donkeys.

The beautiful land was donated to the Scouts by Mrs. Mary White who owns a ranch near by. Animals and equipment were purchased through cookie sales and individual donations. The camp is open 9 months a year for troop camping. The summer sessions cost a very nominal fee since the camp is a non-profit organization.

Floydada 5th grade scouts participated in the "Beginner Camp Program." They slept in Adirondack shelters, which are built of unpeeled pine and have only 3 sides. Nature study, music, hand crafts and dramatics were emphasized. Breakfast and lunch were served in the Lodge. For supper each "unit" of 21 girls prepared an open fire and the meal.

Favorite pastimes "Typical Scout" "Kapers" jobs included sweeping the cabin, darning the tent, setting tables, serving food, cooking, washing and drying dishes. To shower each unit built a wood fire under a high tank, requiring 3 hours to heat the water. Flashlights were used instead of electricity in the cabins.

The camp program offers challenges to all age levels. Scouts in 6th, 7th and 8th grades may take a "Gypsy Trip." A covered wagon hauls pup tents and food. Scouts hike with packs on their backs. This session the older girls hiked 17 miles to Clouderott in 7 days and returned to camp by truck. They hiked over beautiful mountains, resplendent with towering Ponderosa Pine and tabling brooks.

Scouts in the 9th grade may take a "Barro Trip." Equipment is loaded on donkeys and the girls hike, spending several nights along the route.

Senior high school scouts who have already earned the "Horsewomen Badge" may take the "Horse Trip." Gear is tied to

Appeals From Floyd Residents Turned Down

Austin 8 the State Supreme Court turned down appeals by the H. W. Carpenters and W. W. West — all of Floyd County — Wednesday when it upheld a decision by the 110th District Court in Floyd County in a controversy over a 320-acre oil and gas lease.

The Carpenters alleged a breach of their 1956 oil and gas lease contract with West and sought to cancel the contract, and also obtain \$35,000 for salt water damage to their land when they brought suit in the Floyd County court.

Trial testimony showed that West was behind in delay rentals at the time of suit, but brought them up to date after the Carpenters filed. The trial court ruled that he succeeded in keeping "the lease alive", and refused to cancel the lease.

But the court did award \$5,848 for damages to the Carpenters. Both parties appealed to the 7th Court of Civil Appeals in Amarillo which, backed the trial court's decision, and the Supreme Court concurred.

Mr. and Mrs. Roe Jones are visiting this week in Midland, S. Dak. with Mrs. R. T. Jones and other relatives.

Lakeview Potato Farmers Harvest 121 Acres; Market In Crosbyton

SIZE SPUDS . . . W. H. Bunch and his son are pictured on each side of Lee Doyle, field manager of the Jack Renfro potato warehouse in Crosbyton. They are pictured last Saturday morning after the digger.

Hot Weather Hampers Harvest

Three Lakeview farmers are harvesting 121 acres of potatoes in the Lakeview community and marketing them through the Jack Renfro potato warehouse in Crosbyton.

More than 16,000 100 pound bags of spuds have been processed in the warehouse from the 240 production acres it serves.

The yield per acre in the Lakeview community is around 150 sacks per acre, on the Willis Bunch, Milton Harrison and L. R. Rainbolt farms.

Ed Wilson, manager of the warehouse in Crosbyton reports that "ground temperature is giving us fits . . . it is helping the cotton, but it is sure hurting the potatoes . . . ground temperature is the highest since we've been coming to Crosbyton."

Consequently most of the potato digging is early in the mornings and late in the evenings. Prices on potatoes are still running \$2.00 to \$2.25 depending on quality according to Wilson.

Wilson said over half of the potato crop was harvested.

The Lakeview farmers have been raising potatoes for the last three or four years.

SACKING POTATOES . . . these Latin Americans are pictured picking up and sacking the potatoes after digger had laid them out in a row. This field made around 140 sacks per acre.

FLOYD COUNTY HESPERIAN

Disk Plowing Improves Water Intake Of Soils

July — The had a water-intake rate 1.9 times that of check plots not deep plowed. The permeable soils can be deep tillage says the U. S. Agriculture.

Pullman and associated soils which predominate on the Plains are moderately permeable clay loam underlain by 16 to 20 inches of dense compact clay, says the Department. Immediately after irrigation or rainfall, water enters these soils at 0.5 to 1.0

inch per hour, but the water-intake rate declines to less than 0.1 inch per hour after four hours and to 0.05 inch per hour within 10 hours.

To determine the effectiveness of deep tillage, moisture measurements were taken 20 minutes following an irrigation. Moisture was distributed to a depth of six feet in the disk-plowed soils but entered the check plot to a depth of only one foot.

Deep tillage appeared to have a permanent effect on the soil permeability, say the scientists. Three years after the disk-plowing the water-intake was undiminished, they report.

This improvement of the soil was attributed to the mixing of more permeable layers with less permeable ones. The USDA says that the mixing of the less fertile soil with the fertile top soil will probably not reduce the productive capacity of the land if moisture and soil fertility remains adequate.

New Officers Installed For Noble Grands

The Friendship Past Noble Grand Club met Friday night of last week for the purpose of installing new officers for the current term and to initiate a new member, Ruby Davis.

These installed were Laules Parkey, president; Minnie Faye Thomas, vice-president; Grace Grundy, recording secretary; Jane Marquis, treasurer; Belle Berry, chaplain, Ethel Sawyer, musician; Jewel Reeves, inside guard; Dorothy Reeves, team captain; Dimple McGavock, instructor; Artie Webb, reporter; and Lona Sparks, song leader.

Retiring president, Omega May was escorted to the seat of honor where a song in her tribute was sung. She was presented a nylon tufted bedspread, a gift from

the club. A song in tribute to the new president was also sung.

Attending the meeting and assisting with the ceremony were Omega May, Laules Parkey, Jewel Reeves, Belle Berry, Grace Grundy, Dorothy Reeves, Ora Kins, Artie Webb, Dimple McGavock, new candidate, Ruby Davis and one visitor, Beverly Kincer, who was musician in the absence of Ethel Sawyer.

At the next meeting night on August 2, members plan a "cook out" at which time husbands will be special guests.

Local Farmer Hurt In Wreck

Earl Adkins, 28 year old Floyd County farmer, is reported better this week in West Texas Hospital where he is receiving treatment for injuries sustained in a two vehicle collision last week. Adkins was said to be suffering from a broken left arm, back injury, and cuts and bruises. He and his family reside in the Starkey community.

Occupant of the other vehicle involved, Jim Sales of Ralls in Methodist Hospital, is also reported to be some improved. He sustained serious internal injuries and a broken arm.

The mishap occurred at an intersection of two unpaved roads Wednesday about four miles southwest of Ralls. Both vehicles involved were pick-ups and both men were traveling alone. Sales was traveling west and Adkins north, according to other news sources.

Adkins had been to Lubbock and was in the Ralls area to visit friends when the wreck took place.

Visitors in the Dickie Atteberry home over the holiday were his brother and family, Mr. and Mrs. Forest Atteberry of Dallas, Mrs. Atteberry's cousin, Mr. and Mrs. W. L. Lewis of Canyon, Mrs. Era Norrell and Mrs. Berlin Dunavant of Floydada, Mrs. B. D. Jones of Lockney and Mrs. J. T. Poole of Dougherty.

Revival At Floydada Nazarene

The Church of the Nazarene of Floydada, will start a ten day revival with the Rev. Leon F. Wyss Wednesday, July 24th through August 4. Nightly services will start at 7:30 with children's services at 7:00.

Rev. Leon Wyss, of Fort Scott, Kansas, is an elder in the Church of the Nazarene. Mr. Wyss is now devoting his full time to the work of itinerant evangelism in his denomination, as preacher and singer.

He is a graduate of Bethany Nazarene College, Bethany, Oklahoma, and prior to his entering this field of labor; he served as pastor of Churches of the Nazarene in Missouri and Texas.

Mr. Wyss is a strong holiness preacher. His messages are stirring, challenging, and inspirational. He has a unique delivery which appeals to both young and old.

He has served as district N.Y. P. S. president, youth camp director, and while in college traveled with the A Cappella Choir, and also as a member of a male quartet.

The church and its pastor are pleased to extend a hearty welcome to you and your friends. Each and every service will be filled with good things: spiritual songs, choruses, special music, a dynamic gospel message, and, and, best of all, the presence of God. Be sure to be with us in our opening service.

Don and Dan McKinnis, twin sons of Mr. and Mrs. F. A. McKinnis, are in Madison, Wis. for a three weeks visit. The two are guests in the home of Dr. and Mrs. M. C. Bessire and family.

Shower Honors Mrs. McCormick

The Lockney home of Mrs. Pat Frizzell was the setting for the bridal shower honoring Mrs. Audrey McCormick, the former Barbara Hunter of Floydada, on June 29th.

Guests were received by Mrs. Frizzell and presented to the honoree her mother, Mrs. Turner Hunter and her grandmother, Mrs. W. A. Campbell of Floydada, and Mrs. L. R. McCormick, mother of the bridegroom.

A white linen cloth covered the dining table, and was complimented by a lovely arrangement of pink carnations centered with a large white candle. Cookies and punch were served from milk-glass appointments.

Presiding at the table were Mr. Robert Carthel, Mrs. Joe Allard, Miss Jane Thacker and Miss Paul-

lette Kropp.

Hostesses for the occasion were Mrs. Pat Frizzell, Kenneth Wolford, L. L. Rhodes, Roy Rolling, Don Bybee, Harley Workman, Clyde Farish; Bailey Henderson, Melvin Brock, Oran Cross, Gene Belt, Buck Sams, Burl Holt, P. Paul Belt, Buck Sams, Burl Holt, Paul er, Audvie Barnett and Mrs. Dorsey Baker. They presented the

bride with a Sunbeam coffee maker.

Mr. and Mrs. McCormick are residing in Lockney at 319 Southwest 6th. He is engaged in farming and Mrs. McCormick is employed at the ASCS.

FARM SAFETY WEEK
JULY 21-27

Accidents can happen to anyone . . . even you, Mr. Farmer or Mr. Rancher! Accidents take a heavy toll in lives and injuries each year among farm families, but many of these accidents could be avoided. Here's how: Keep all machinery and equipment in top condition; follow the rules of safety in operating your equipment; check your farm for fire, water and electrical hazards; approach your animals with caution; learn first aid methods and use them promptly.

**A SAFE FARM IS A PRODUCTIVE FARM—
CHECK YOURS TODAY!**

WHEN YOU THINK OF BANKING . . . THINK FIRST OF THE FIRST.

Everybody's talkin' about...
Old Masters Liquid WOOD COATING
Create beautiful wood finishes—right over the old finish!

Yes—create wood finishes right over the old finish—just paint with OLD MASTERS—no scraping—no messy removers—economical—easy to use—beautiful astonishing results—a child can do it.

We apologize to the folks in this trade territory for not letting them know that we have had this popular paint in stock . . . for over two years!

THE DEPENDABLES FROM DODGE!

IF YOU'D LIKE TO DRIVE A GREAT BARGAIN

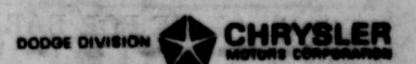

BE OUR GUEST

The car shown above is a '63 Dodge Polara hardtop, a beautiful bargain if there ever was one—a good reason why Dodge sales are up 65.5% so far this model year. For one thing, the Polara is priced with Ford and Chevy. For another, it's backed by a five-year/50,000-mile warranty.* And to seal the bargain, Dodge Dealers are giving the best deals in their history. So be our guest and come drive this bargain. The '63 Dodge. At your Dodge Dealers now.

*Your Dodge Dealer's Warranty against defects in material and workmanship on 1963 cars has been expanded to include parts replacement or repair without charge for required parts or labor for five years or 50,000 miles, whichever comes first, on the engine block, head and internal parts; transmission case and internal parts (excluding manual clutch); torque converter, drive shaft, universal joints (excluding dust covers); rear axle and differential; and rear wheel bearings—provided the vehicle has been serviced at reasonable intervals according to the Dodge Certified Car Care schedule.

South Plains Cotton Loss Estimated

The Lubbock Cotton Exchange this week estimated that about 40,000 acres of cotton land over the area have been planted to crops other than cotton.

This is due, of course, to destructive weather which wiped out cotton crops too late in the season to be planted back to cotton.

H. A. (Bob) Poteet, executive secretary of the exchange, said the exchange's committee on information and statistics now figures the standstill cotton acreage in its 20-county area at roughly 2 million.

"Excellent growing conditions have prevailed over the area the past two weeks," Poteet pointed out, adding that "fields are in a good state of cultivation."

May Cotton Is Squaring

Most area cotton is reported to be growing well and May plantings are squaring. Scattered blights have been reported from several localities.

Poteet said irrigation of some early cotton is expected to begin next week.

The exchange estimates that the area has about 100,000 acres, or 5 per cent of the total acreage, of cotton planted in April. It figures May plantings at 600,000 acres, or 30 per cent.

Cotton planted June 1-15, the exchange estimates, stands at 1.2 million acres, 60 per cent of the total. Another 100,000 acres, 5 per cent of the total, were planted June 15-30.

Fleashoppers Seen In Area

A general buildup in fleashopper populations has been reported in a number of area counties, says Don R. Rummel, extension entomologist here.

Rummel said light to moderate fleashopper populations have been reported in Howard, Crosby and Midland counties. Dickens County reported heavy infestations in some fields.

"In most counties, thrips don't present any problem at this time," Rummel reported. "However, late cotton should be observed closely for thrip damage."

Rummel said light populations of bollworms have been observed in some counties, with Floyd and Midland reporting moderate infestations in some fields.

"Producers should be encouraged to observe fields closely for increases in bollworm populations," he advised.

The entomologist said Dickens and Motley counties have reported moderate infestations of boll weevils. He commented that "yearly control to reduce weevil populations before they reach extensive numbers should be encouraged."

Local damage to cotton from the saltmarsh caterpillar, Rummel said, has been reported in Midland, Garza and Martin counties. He said light populations of beet armyworms have been observed in several counties.

Texas Farmers And Ranchers Spend Money; Helps Area

College Station, July — Texas farmers and ranchmen are continuing to contribute mightily to the general economic welfare of their state and nation. They are big spenders on main street, pointing out John McHaney, extension economist, despite the fact their numbers are decreasing. Their purchases of production and consumer items continue to increase and are a determining factor in many counties for business conditions.

On an annual basis, Texas farmers and ranchmen spend about \$1,948,000,000 in their operations. Included is 449 million dollars for hired labor and machine hire, 380 million for seed, feed, plants, fertilizer and lime, 310 million for livestock bought and livestock

Yarborough Newsletter

Dear Fellow Texan:

Recently I reported to you that the Interior Department is moving forward now on buying land for the 81-mile National Seashore Recreational Area on Padre Island off the Gulf Coast of Texas.

This time, I want to report to you on the status of three other Texas national park projects which I have sponsored.

One is the Old Fort Davis National Historic Site. Secretary of the Interior Udall has advised me that title to 447 acres of this old fort in Jeff Davis County in the rugged Davis Mountains is now held by the United States. I sponsored the companion bill in the Senate to one introduced in the House that re-designated Old Fort Davis as a National Historic Site. This is the fort where Jefferson Davis as Secretary of War spearheaded the cattle traffic to the Pacific over the deserts of the Southwest before the Civil War — the place where frontier cavalrymen held off Indian attacks until about 1890. Now it belongs to the public and will become one of the great tourist attractions of our state.

Another bill that I introduced has been passed by the Senate, to authorize Harris County or the State of Texas to save 142 acres across the Houston Ship Channel from the San Jacinto Battlefield, as a park memorial to Lorenzo De Zavala. The land includes the homesite and burial ground of De Zavala, a signer of the Texas Declaration of Independence, first Vice President of the Republic of Texas and one of the heroes of the Texas Revolution for Independence.

De Zavala was once a member of the Cortez of Spain, the governing body or parliament of the Congress of Spain while Mexico was under Spanish rule. He was a governor of the State of Mexico, then a district of Spain similar to our District of Columbia. He settled in Texas in 1835 because of the tyranny of Mexico to build his home near what is now the historic San Jacinto Battleground.

Still another bill I have introduced is one to create a National Monument preserving the historic Alibates Flint Quarries and Pueblo Ruins near Amarillo. The quarries were a source for weapons and tools for the North American Indian even before the Comanches and Apaches arrived in that region. Flints from these quarries have been found in Indian burial sites thousands of miles away.

The ruins are near Palo Duro Park, made famous by Kit Carson, the frontiersman, and Charles Goodnight, the first rancher in the Panhandle. It will be another step forward for Texas tourism if this old quarry can be preserved for the public.

Authorities say that there isn't a single crop grown in the world today which doesn't have a large number of different species of insects living on its roots, stems, leaves, seed, or fruit. They estimate that 90 percent of the food man grows would be destroyed if we didn't wage constant war on insects and other pests such as mites, snails, nematodes and rodents.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

By Vern Sanford, Texas Press Association

AUSTIN — A growing toll of accidents on city streets and freeways, heavier damage claims and an act of the Legislature — all have combined to cause insured motorists in Texas a double-dip premium increase during the next five months.

First boost for most drivers will come on policies renewed after August 1, when new auto insurance rates set by the State Board of Insurance go into effect.

Many others face a second increase in liability insurance premiums after January 1. This is effective date of a new law requiring financial responsibility of \$10,000 per person and \$20,000 per accident.

Present law requires \$5,000-\$10,000. So those now carrying minimum insurance will pay an average of \$4 more after January 1.

Increasing accident losses, mainly in urban areas, forced the Insurance Board to hike liability and collision rates in most sections of the state.

Average premium boosts after August 1 will be 5.2 percent for bodily injury, 9.7 percent for property damage and 8.4 percent for collision. This will cost policyholders a total of \$12,000,000. Drivers in some rural areas, however, escaped the rate increase.

PHYSICAL EDUCATION — Atty. Gen. Waggoner Carr has been asked to come to the aid of hard-pressed physical education departments in the 20 state-supported universities and colleges.

Commission on Higher Education asked Carr for an opinion on the legality of the "rider" in the new appropriation bill, which goes into effect on September 1. Rider declares that state funds for physical education can be used only for mass calisthenics unless the students are majoring in PE. Net effect would be special fees charged by the schools if they wanted to give instruction in games.

Some schools have protested that the rider would seriously curtail physical education programs.

JOBS ASSIGNED — Speaker Byron Tunnell has more than 60 appointments to make on interim study committees. He is making them at the rate of one or two a day.

Reps. George Cook, Odessa; J. Collier Adams, Lubbock; Maurice Docke, Wichita Falls; George Davis, by an Act of September 1, 1961. This is the fort where Jefferson Davis as Secretary of War spearheaded the cattle traffic to the Pacific over the deserts of the Southwest before the Civil War — the place where frontier cavalrymen held off Indian attacks until about 1890. Now it belongs to the public and will become one of the great tourist attractions of our state.

Another bill that I introduced has been passed by the Senate, to authorize Harris County or the State of Texas to save 142 acres across the Houston Ship Channel from the San Jacinto Battlefield, as a park memorial to Lorenzo De Zavala. The land includes the homesite and burial ground of De Zavala, a signer of the Texas Declaration of Independence, first Vice President of the Republic of Texas and one of the heroes of the Texas Revolution for Independence.

De Zavala was once a member of the Cortez of Spain, the governing body or parliament of the Congress of Spain while Mexico was under Spanish rule. He was a governor of the State of Mexico, then a district of Spain similar to our District of Columbia. He settled in Texas in 1835 because of the tyranny of Mexico to build his home near what is now the historic San Jacinto Battleground.

replace Dan Sullivan as district attorney of Andrews, Crane and Winkler Counties.

Sullivan resigned to head up Sen. Ralph Yarborough's state office in Austin.

FINAL MEETING — At the Game and Fish Commission's last meeting, the eight remaining commissioners were presented with engraved plaques by the 2,700-member Bayshore Rod, Reel and Gun Club. Executive Secretary Howard Dodgen then presented them with gold-framed certificates for their service on behalf of the department's staff.

Those receiving the awards were Ben F. Vaughan Jr. of Corpus Christi, chairman, Howard Carnoy of Atlanta, Morris Higley of Childress, H. A. Walsh of El Paso, Frank M. Wood of Wichita Falls, J. F. Corley of Houston, W. O. Reed of Dallas and Carl Dupuy of Lufkin.

Ninth member, Wilson Southwell of San Antonio, resigned last spring.

Commissioners are making way for the new 3-man Parks and Wildlife Commission. It will handle both State Parks and Game and Fish matters under the merger of the two agencies.

SHORT SNORTS — Texas railroads, trying to block federal court approval of the \$911,000,000 Trinity River canal project, have asked the State Water Commission to delay its feasibility hearing from July 30 to August 26.

U. S. Bureau of Roads has released \$3,438,664 in federal road funds to Texas to speed up current highway projects, aiding both the interstate highway system and other federal-aid construction projects.

Texas Commission on Higher Education elected Dr. Lester E. Harrell Jr. as its director. Harrell has been acting director since Dr. Ralph Green resigned a year ago.

WMU Mission Study Held

The Womens Mission Society of the First Baptist Church met in circle meetings for Mission Study July 10th.

The Margaret Oliver Circle met in the church chapel. The call to prayer was read by Mrs. Vesta Savage.

The group sang, "Wherever he Leads I'll Go", accompanied by Mrs. Adrian Helms at the piano.

Mrs. Lon V. Smith, circle chairman introduced Mrs. Helms as teacher of the book "Annie Armstrong" by Elizabeth Marshall Evans.

Present for the study was Mrs. Bob Ratgen, Mrs. C. W. Dennis, Mrs. W. S. Simmons, Mrs. R. L. Nichols, Mrs. Robert Garrett, Mrs. W. C. Sims, Mrs. Vesta Savage, Mrs. Joe Wilson, Mrs. Lon V. Smith, Mrs. Adrian Helms, Mrs. Andrew McCulley and David McCulley.

The Ethel Hardy Circle met in the home of Mrs. Doyle Mount, with Mrs. Dennis Dempsey teaching the lesson from the Mission Study book, "Annie Armstrong." Members attending the meeting

Highway Patrol Reports Two Accidents

The Highway Patrol investigated 2 rural traffic accidents in Floyd County during the month of July. D. S. Lawson, patrol supervisor of this area.

These wrecks accounted for four persons injured and an estimated property damage in the amount of \$2,510.00.

The Sergeant stated that this brings the total for the year thus far in Floyd County to 22 accidents that claimed five lives, injured 23 people and caused property damage of \$21,876.00.

For a comparison, the Patrol Supervisor pointed to accidents in this County for the first six months of 1962 that accounted for one death, 18 injuries, and property damage of \$13,461.00.

"Prior to July 1, there had been a total of 941 fatal accidents in Texas," Sergeant Lawson said, "That took the lives of 1136 persons."

"As the year is over half gone, there are definite indications that traffic deaths will hit an all-time high in 1963. Motorcycles at this time are over 100 more than at the same time last year," the Sergeant said. "If we continue to take lives at the present rate, 1963 will become the most deadly year in Texas history for traffic fatalities. Considering the trend of increased accidents and casualties, we have every reason to expect that traffic deaths will exceed the previous all-time high in Texas of 2611 in 1956."

"Only 191 more deaths in 1963 than in 1962 will make a total of 2612 deaths, an all-time high and an increase for the year of eight per cent over 1962. Deaths this year have consistently been in excess of eight per cent over 1962."

The Patrol Sergeant stated, "This is not just a probability, it is fairly certain to become a reality unless the motoring public becomes more thoughtful in regard to complying with all traffic laws which would break the trend."

Floyd County 14 Years Ago

(Issue dated July 21, 1949)

O. M. Watson Jr., delegate from Foydada Lions Club to the Lions International convention in New York City, is due home the first of next week.

Jewel Eliza, who has been with the First National Bank since January, 1946 in Foydada, is due to succeed C. C. Huckabee as manager of Consumers Fuel Association sometime in the next 30 days.

Robt. A. (Bob) Montgomery and his wife and child have returned from Alaska to make Foydada their home after 2 1/2 years in the nation's biggest territory. Montgomery announced last week that he had purchased Carthel's Phillips service station in Foydada.

Mr. and Mrs. Bob Smith of Foydada and granddaughter, Linda Merry of Denver, Colo., and relatives, Mr. and Mrs. B. D. Renick of Florence, Tex., returned to Foydada Monday from Hot Springs, N. Mex., where they had been visiting an uncle.

Mrs. Bernard Jaeger and boys, Charles and Don, left Friday for their home in Cincinnati, Ohio. They have been here visiting Mrs. Jaeger's sister, Mrs. C. W. Denison and Mr. Denison.

Mrs. Wilson Kimble and grandsons, Kim and Harry Kimble, returned home Sunday from a visit in Oak Parks, Ill. and New Buf-

alo, Mich. They were visitors in the home of Mrs. John Kimble's parents, Mr. and Mrs. Harry J. Koenen.

Mr. and Mrs. Bill Smiley of Joplin, Mo., were here Monday for a short time as guests of Mr. and Mrs. W. F. Daniel, County Attorney and Mrs. Enos T. Jones and sons, John and Phillips accompanied by Mrs. Jones' parents, Mr. and Mrs. J. W. Langford of Girard, attended a family reunion last Saturday at Crystal Lake.

Funeral rites for Mrs. L. B. White, 85, were conducted Friday in the First Methodist Church at Valley View, Tex. Mrs. White died while visiting her daughter, Mrs. W. C. Cates and family in Gentry, Ark. The Cates formerly lived in Bianco community here.

Funeral services for L. H. Stone, 59, of Clovis, formerly of Foydada, were held Monday afternoon in Clovis. Mr. Stone was found dead of a heart attack in his bed Saturday morning by his wife. His mother, Mrs. Mar. G. R. Stickland reside in Foydada and a sister, Mrs. J. Langford.

Midgie Threatens Grain Sorghum In Texas

Delbert Langford, Associate Agronomist of the High Plains Research Foundation, located on the High Plains of Texas, announced that Midgie is now infesting grain sorghum throughout the area. Langford has alerted farmers to take measures to protect their crops. This insect can completely eliminate a grain sorghum crop.

Midgie infestations have invaded the High Plains Research Foundation. July 9 is the first this insect has put in an appearance here this year. The adult Midgie itself will not do any damage, but will lay eggs in the bloom of the grain sorghum head. As the larva grows, it eats the grain thus leaving only an empty hull.

Control of Midgie can best be brought about by spraying with insecticides prior to and during the blooming stage. The first application should be made about two days after the head emerges from the boot. Some of the chemicals recommended for spraying are Endrin, Sevin, and Toxaphene. Farmers should contact local dealers for application rates and methods.

In years past with plantings of May 15 and earlier, there has been no damage to grain sorghum by Midgie due to an early

The Texas spring pig crop totaled 612,000 head, according to the Texas Crop and Livestock Reporting Service. This number is 15 percent below last spring's crop and the number of sows farrowed was 90,000 or 13 percent lower than in the spring of 1962. A further decrease in the pig crop was caused by a drop in the average size litter from 6.9 in 1962 to 6.8 this spring.

YOU FARM TO LIVE... **LIVE to FARM**

DON'T GAMBLE WITH YOUR
LIVELIHOOD OR LIFE!

A SAFE FARM IS
A PRODUCTIVE
FARM--CHECK IT

AND OBSERVE
SAFETY RULES
AT ALL TIMES

Be Wise FOLLOW THESE SIX SAFETY SUGGESTIONS

1. Keep all equipment in good repair --- know and use the safety rules in operating machinery on the farm and highways.
2. Treat animals with caution -- always speak to an animal as it is being approached. A frightened animal can be deadly.
3. Eliminate all fire hazards around your farm --- and be aware of fire dangers at all times. Don't smoke in barns!
4. Many accidents can be eliminated by **keeping** your farm clean and neat. Keep buildings in sound condition, too.
5. Be careful around water holes, wells, and lakes. Learn how to swim and never go out in or on water by yourself.
6. Learn the methods of first aid ---keep a kit handy --- and always apply first aid promptly when an accident occurs.

MAKE SURE YOUR FAMILY KNOWS THESE
SAFETY SUGGESTIONS, TOO!

DEAN MORRIS, Manager

Philosopher Put Out By Washington Who Finds Farmers' Hands Flabby

The Floyd Phil-grass farm asking for a loan, our space scientists were as far advanced ahead of Russia as us agricultural scientists, we'd have already been to the moon twice and raised our debt ceiling four times to pay for it.

How a farmer shakes hands ain't no index to the complicated farm planning going on inside his head, and a farmer sitting on his front porch in deep thought can be as constructive as an Einstein doing the same thing.

This is the image the public ought to have of us farmers - dedicated, underpaid scientists, and I have pioneered in trying to bring it about. I've done my part. I've been sitting on my front porch for years.

Yours faithfully
J. A.

discuss with you some information that I have been receiving on the situation in Cuba.

I have various sources of information on Cuba. They are independent sources, some are old reliable and proven sources, some are relatively new sources. But there's one striking fact, and that is that the information that comes from these various sources all tends to be very similar. In other words, my sources tend to correlate the information that I have. And as say, many of these sources are very proven and accurate sources.

It would appear that there is some very intensive construction in the military activity on the part of the Russians in Cuba now, and this activity, I think, is pretty obvious to all who have the capacity to observe. The Communists, apparently, far from abandoning Cuba, are evidently intent on fortifying the island as heavily as possible and as quickly as possible. The Russians, according to our informants, have taken command of practically all military bases throughout Cuba including such air bases as Managua, San Antonio, and San Julian. There are many areas that are completely "off limits" to the Cubans themselves.

Cases throughout the island have been converted into subterranean bases. Enormous quantities of modern armaments are being unloaded in different parts of the island constantly.

There can be little doubt, from the wealth of detailed information available on this, that Russians have all taken over the show as far as Cuba's military posture is concerned. There appears to be little reason for this if nothing but the defense of Cuba was concerned. Cuban sources say that Colonel Alexander Rumiznev, Russian expert in hydroincs, has been on the island since the mission of perfecting new military installations.

It is obvious that the Russians intend to make Cuba as near impregnable as possible, and use the area as both a military threat to the United States, thereby tying down forces of our own that might be needed elsewhere, and a staging ground of subversion and intrigue throughout the Western Hemisphere.

As an indication of the thoroughness with which the Russians have taken over in Cuba we now have reports that they command all ports, custom houses, maritime installations, police stations, Habana and Punta Fortresses in Havana, and even Morro Castle. Clearly the Russians regard themselves as being permanent in Cuba.

I might point out that there has been some intensive construction activity in Cuba. There's been an influx of reinforced concrete steel girders, and other types of heavy building material. This material is taken into various provinces and areas of Cuba. I won't go into the business of trying to name all of them now because there are many areas in which this heavy construction is going on.

The material is driven almost to the site of the construction by Cuban drivers and then it is taken over by Russian drivers. They won't even let the Cubans in to these strategic areas. This is strong evidence to indicate that much of this construction is for possible use as ballistic missile bases. I don't think we should discount the possibility at all there's strong evidence to suggest that there are missiles stored in Cuba and that much of this construction in these secret areas is actually missile base construction.

The question, I think, is not just what's going on in Cuba, but why and what do we do now? There seems to be a policy of withholding information from the American public. There tends to be a policy on the part of the Administration to just shrug its shoulders and say that really this military build-up doesn't exist but it does exist. So I would like to reiterate my suggestion, that we recognize the Cuban government in exile, that we help the insurgents, that we blockade Cuba for strategic materials. This is your U. S. Senator, John Tower.

Dance Club At Levelland Extends To Area Clubs This Saturday

Square Dancer of Lubbock will call the dance with the Twir. The dance precedes a series of Trail Dusters square dance lessons for teenage Clubs willagers which the Levelland Club will be heldis sponsoring. Donations to defray the expenses of the lessons on the South will be solicited at the street Levy Glaz-dance.

In the event of bad weather the dance will be held in the Women's Building at the Hockley County Fair Grounds.

All square dancers and spectators are invited to attend.

As summer pastures mature they contain less protein and thus the percent protein in the ration should be increased, says A. M. Meekma, extension dairy specialist, Texas A & M College. Attention to this will help prevent a drop in summer milk production. Also, this is the time of year to begin making arrangements for the good quality hay you will need this fall and winter, he says.

Dan Whitaker To Teach In Music Camp

LUBBOCK (Special) - Dan Whitaker, Director of the Floydada High School Band, will teach in the Fifth Annual Music Camp at Lubbock Christian College, Lubbock, Texas, July 29 through August 9.

The concentrated study program will feature classes in theory, sight reading, choral singing, band, and other courses in the fundamentals of music. Other activities of the camp will include daily Bible classes and a program of recreational activities.

Also on the faculty will be Paul Epps, Associate Minister for the Preston Road Church of Christ in Dallas; Horace Coffman, Song Director for the Broadway Church of Christ in Lubbock; and Lubbock Christian College Music Department personnel and Bible and recreation instructors.

LCC instructors will be Wayne Hinds, Director of the A Cappella Chorus, and E. Joe Lee, Director of the Royal Blue Band. Jim Randolph, recent LCC graduate, will be student instructor. Gerald Kendrick, instructor in Bible, will teach classes, and Hugh Rhodes, Athletic Director, will supervise recreational activities. Recreation will include tennis, basketball, softball, badminton, volleyball, picnics, and evening programs.

Students 13 years and older are encouraged to attend the Music Camp.

Registration will be Sunday, July 28, from 2:00 to 5:00 p.m. Total cost for tuition, room, and board while attending the camp will be \$40.00. Students who live at home while attending the camp may attend for a tuition fee of \$10.00.

Those who stay on the campus will be housed in the college dormitories. Music Camp students are asked to furnish the following: linens, blankets, and pillows.

Enrollment forms and other information can be obtained by writing to Wayne Hinds, Director, Floyd County Hospiten Thursday, July 18, 1963

MANY HERE FOR RITES OF MRS. CLYDE PARR

Many out of town relatives and friends were here July 11 to attend the last rites of Mrs. Clyde Parr, who succumbed July 9 at the Lockney General Hospital.

Among those present were Mr. and Mrs. Grady Parr, Donna Kay and Ann Beth; Mr. and Mrs. Bruce Parr, Britt, Paula, and Marcus; Mrs. J. R. Terry; Mrs. Bill Hoffman; and Mrs. Lea Henley all of Childress, Tex.

Mr. and Mrs. Terry Parr, Mrs. F. H. Myrick, Mr. Raymond Turner, Mr. Bernell Turner, Lubbock.

Mrs. Shan Chewning and Parr Wade, Mrs. Ralph Caldwell, and Mr. and Mrs. C. C. McClure; and Mrs. Vonley Calvery (Daisy Eudy) of Amarillo.

Plainview attendants were Mr. and Mrs. Dub Wofford, Mr. Chil McClure, Mr. T. V. McClure.

Mr. and Mrs. Cleo Parr and Mrs. Robert Moss, Memphis, Tex. Also Mrs. M. F. Huskey, Dallas; Miss Maggie Smith, Russellville, Kentucky; Mrs. Patty Becker, Brownsville.

From Lockney were Mr. Jack Harris, Mr. E. R. Harris, Mr. Kenneth Wofford, and Mrs. Betty McClure.

Mrs. Carl Daves, and Mrs. George Henry, Wellington, Mrs. Marvin Crane, Tell; Mr. and Mrs. R. W. McClure, Kress; Mrs. Dennis Taylor, Crosbyton; Mr. and Mrs. R. J. Clark, Slaton;

Mr. and Mrs. Hoyt McClure and Mrs. C. A. McClure, Crosbyton; Rev. and Mrs. F. O. Parr, of Kankakee, Ill. were also present. Rev. Parr, a brother of C. J. of Floydada, assisted in preaching at the services at the First Methodist Church.

PLAINVIEW, Special - Plainview, the center of women's basketball as the home of the Hutchinson Flying Queens, will be temporarily the center of girls' basketball July 18-20 when it hosts the annual Texas High School Girls Basketball Coaches Association.

Featured speaker will be Dr. Rhea Williams, Austin, director of the University Interscholastic League, who will speak at 10:30 a.m. Saturday, on "The Girls Basketball Program."

Climax of the three-day meet will be the annual North-South Game on Saturday night at the Plainview High School Gymnasium. Following that game the Texas All-Star Team will be named. This game is open to the public and all basketball enthusiasts are urged to attend.
