## Petitions Ask For Vote On Saturday, September 28th

Petitions are being circulated this week seeking a bond vote for \$800,000 to build a new grade school, more cafeterias, a science addition and a complete remodeling job for all schools in the Floydada school

The petition asks that the vote be presented to the people for vote on Saturday, September 28.

The bond vote was anticipated since the district's school board had instructed a property evaluating company to equally appraise all property in the school district in order to make the bonds saleable.

Every tax payer in the school district who is exempt by age or has paid his or her poll tax is eligible to vote on the bond. The 8\$00,000 bod will be used as follows if a majority of the voters approve it Remod:eling at Andrews Ward grade school, \$56,619.00; remodeling at Junior High. \$40,990.00; work on Junio High gymnasium, \$2,650.00; re rectaing at the high school, \$2,320.00; new 25 room grade school, \$432,520.00; equipment fo all schools, \$21,700.00; paving and

GOOD LIGHTING FOR YOUR HOME Few things contribute as much to the liveability and desirability of a home as good lighting.

In addition to better seeing. good lighting can also enhance the appearance of the home and its furnishings. Greater safety in many areas will also result. Remember that lamps as well as fixtures are used to provide lighting in the home. When proper ly chosen and placed, this lighting team can provide comfortable, convenient, cheerful light throughout your entire home. For seeing comfort you should

To be fashionable is one thing. To be fashion-wise is to be not only smartly dressed, but well groomed at all times. Here's an example of what this means today.

This young couple started out for a gala evening beautifully garbed. But what nappens when they are caught in a rainstorm?

Ready For The Rain

That little evening umbrella is hardly adequate protection! How will they look when they arrive at the party?

If the fabrics they are wearing have been treated with a silicone finish, they have nary a care, for this newest fashlon trick makes them water repellent. Those raindrops will harmlessly

These new silicone treatments actually enhance the fabrics by taproving the "hand" or feel of the cloth, making it luxurious to the touch. If a beverage is accidentally spilled, it can be quickly trushed off with a handkerchief, since the finish resists water torne stains. Wrinkles hang out readily, and this means fewer

## SPEED MERCHANTS!

... The little lady will pass them all with her bedroom telephone:::every time!

Across town or across the continent, there's no faster way to get from one place to another than by telephone. Just spin the dial and seconds later you're talking.

This almost "instant" communication is made possible by a continuous flow of service improvements.

Modern equipment automatically guides your call to its destination. If one voice pathway is busy, electronicequipment routes your call another way — in fractions of a second.

These and many other improvements add up to greater speed, convenience and reliability. Our never-ending goal is to improve the it more is to improve your telephone service and make it more valuable to you.

Making telephone service better to serve you better
