Remain in Third Place

In spite of losing to eighth place Dimmitt last week, the Floydada Whirlwinds remain in third place in Class AA ranking.

Floydada's 42 record compares with Denver City 41 and Tulla, 6-0. Post with 5-1 is in fourth place. Friona (6-0) in fifth place, Olton (4-2) in sixth, Canyon (2-4) in seventh place, Dimmitt (2-4) remains in eighth place, Lockney (3-2) in ninth place and Morton (3-2) in tenth place.

The Friday night win for the Dimmitt Bobcats was their second win of the season and the Whirlwinds' second loss.

This is the first year in seven that Floydada has lost more than once during a campaign.

School Suit Delayed Until This Friday

According to the attorney for the school, a suit hearing against the school by 50 taxpayers was delayed last Saturday and is scheduled in district court tomorrow.

In the meantime school officials are urging all tax payers to come into the tax office in the courthouse and pay their taxes on the basis of the 1962 payment in order that the school may have money to continue its operation.

Ralph C. Johnston, President of the Board of Trustees, announced that, in view of a flood of requests from taxpayers, concerned with the financial situation of the District, and of the prospect that pending litigation involving the taxroll of the District would apparently be prolonged, any taxpayer who permitted to pay a sum equal to his 1962 school taxes as a credit upon his 1963 taxes when determined, any surplus to be refunded, and any deficiency to be made up, when 1963 taxes are finally determined.

Womens' Fellowship Has Family Pot Luck Supper

The Christian Women's Fellowship of the First Christian Church held their monthly meeting with a family pot luck supper at the church Monday night.

Speaker for the evening was Walter Hehl, education director for the First Christian Church of Lubbock. The theme of his inspiring talk was "Every Christian is an Evangelist." The highlight of his speech asked the question "How would you write a headline for a newspaper that everyone all over the world would understand?" He answered that it probably would be "God Loves You Anyway!" Evangelism means proclamation, acceptance, proclamation. God has chosen you, you have not chosen Him. He closed his speech by saying that if you were not an evangelist you were not a Christian.

The fellowship service was brought by Mrs. J. C. Wester. Present were Mr. and Mrs.

NEWS for truck owners who need a new one now

Things Chevrolet has developed since the last time you bought to give you more for your money:

Double-wall construction. This feature of Chevrolet cabs and the Fleetside pickup body has two advantages. Insulation and sound-deadening material is sandwiched between the two layers of steel in the cab to give you more comfort; in the body, the lower inner wall acts as a buffer against load damage, preserving the outer appearance of the truck.

Suspension to fit the truck. Conventional half- and three-quarter-ton models have independent front suspension with variable rate coils in the rear. Variable rate coils do not "bottom out" as readily.

Mediums and heavies have I-beam suspension with variable-rate leaf springs. It automatically stiffens as the load increases—and vice versa. It means a smoother, flatter ride regardless of load, a better handling truck.

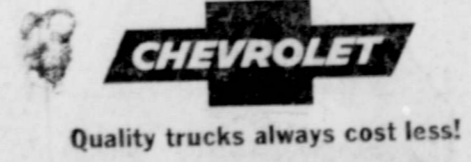

The right engine. Chevrolet never has been in better position to give you the type and size you need for maximum efficiency. Today there are many different capacities of gasoline and diesel

Chevrolet truck engines—fours, sixes, V8's.

Stronger frames. Every conventional 1964 Chevrolet truck has a ladder-type frame. This type is more resilient, better able to give with the load and terrain. Its simple design also makes it easier to mount special bodies on the truck. Its riveted side rails are stronger.

Greater model selection. This time you're going to find it a simple matter to pick the exact type of Chevrolet truck for the kind of work you do. In delivery trucks, for instance, in addition to regular panels and pickups, we have eleven different sizes of ready-made walk-in vans, some with full-width rear doors.

Quality and value. Chevrolets today are a lot more truck than your money bought the last time, and yet the price tag is just about the same as 5 or 6 years ago. Call your Chevrolet dealer for information or for a demonstration.

BEAUTY SPOT OF THE MONTH—is the Napoleon Park in Floydada selected by Mrs. E. J. Morehead, Garden Club member. A member of the club names a beauty spot each month in the city. The park is the project of the club.

Mrs. Morehead Names Beauty Spot Of Month

The Floydada Garden Club met Friday morning in the PCA room with Mrs. E. J. Morehead naming the garden spot of the month, that being Napoleon Park where the hint of autumn has started the leaves on the shrubs to turn and where this summer furnished a playground for the youngsters.

The park is a local beautification project of the Garden Club as is the new park east of high school which was started this summer. Two new fire pits are to be erected soon at Napoleon Park by the club.

Mrs. J. P. Moss was hostess for the meeting, assisted by Mrs. Carl Yeokum. Mrs. Moss had for her table arrangement fresh fruit and geraniums.

Mrs. John Hoffman spoke on basic flower arrangements which was very informative.

During business a letter of resignation was read from Mrs. S. E. Tharman and accepted by the club with regret.

James Golightly Out — Dimmitt Bobcats Hand Floydada 'Winds' Big Upset Here Friday; Score 8-2

Dimmitt Bobcats won the toss which they chose to receive. Floydada Whirlwinds elected to defend the south goal. Don Rainier kicked to the 10 yard line. Landol Frazier returned it to the 21. The first play proved to be the largest gain of the night. Cline Summers drove from the 21 to the Winds 24 yard line. A pick up of fifty five yards. With four tries, the Bobcats took the ball down to the 15 but were unable to make the first down. The Winds took it over. Floydada defense was too strong for the Bobcats to break through. The Winds made some very good gains in the first quarter. They carried eleven times for fifty yards, while picking up four first downs. Then on the 45 the Winds had to kick on fourth down, after being thrown back from the 32. Ken Campbell punted to the 8. Bobcats ran it from the 8 to the 38 picking up two first downs. This ended the first quarter showing the strength of both clubs.

The Winds held the Bobcats with the help of a penalty and then a fumble which the Winds took over on the 38. Moore took the pigskin around end for five yards. Two incomplete passes attempted. On fourth down Ken Campbell punted to the 7 yard line where it was killed by the Winds. Dimmitt took over, made three yards on the first try, then on the next play the Bobcats received a fifteen yard penalty. Since they were only on the ten yard line they took half the distance which brought them back to the 5. The Winds held them for the next two plays. Bobcats went into punt formation.

Mac Wilson got his hands on the punt which knocked the ball back into the end zone where Floydada covered it making a safety, scoring two points. This is the only scoring that the Winds received coming in the second quarter with 7:55 left to go in the first half.

Bobcats took the ball and punted on the twenty. Moore caught it on the 16 yard line returning it to the 27. After a series of plays Bradford hit Tucker for a 20 yard gain. Bobcats put up a good defense holding the Winds and taking over.

Sybil March, bookkeeper at Oden Chevrolet, was hospitalized Tuesday in Peoples Hospital for medical treatment. She was reported improving yesterday.

This Friday night will be starting the first of the conference play, meeting Abernathy on their field, so Floydada fans let's go and back the Winds. They need all the support that we can give them.

SPECIAL CLASS VISITS PAPER

We know there will be children at Della Plains School trying to find a picture of themselves in the Hesperian this week, but as luck would have it when they visited the newspaper plant last week some unforeseen thing was wrong with the camera so the picture they so graciously posed for could not be developed, to our disappointment.

They were escorted through the plant, saw how the paper was published and even had their names set by the linotype machine and given to them. The group was a special class from Della Plains and brought to the Hesperian by Mrs. Billy Brown, Special Education Supervisor and her teacher, Mrs. Mary Alice Allen. DO YOU CARE?

1. WHETHER your investment in Ploydada increases or decreases?
2. WHETHER Floydada has first-rate schools, or schools that we have to apologize for?
3. WHETHER our town is controlled by Mr. and Mrs. U. R. Floydada, or dominated by a few people who have no vision?
4. WHETHER we take care of the problem facing us today, or just sit around and worry about what is going to happen five or ten years from now?
5. WHETHER everyone pays his proportionate share of school taxes, or a select few pay just what they want to pay?
6. WHETHER our town is a friendly, united town, or split asunder by misinformation or misunderstanding?

If you do care, then join hearts, hands and minds with those who have stood steadfast in the face of unkind, unjust and untrue criticism. Give them a vote of confidence and support by finding out what you can do now to serve your school system best, and then do it.

tainly want a full time man seeing after it. This bears no reflection on the mayor or the city council who

cannot devote full time to the job — they have some sideline businesses that require some attention too. Likewise this casts no shadow on the amount of work being done by the city's employees. They're putting in a day's work every day — yet every employee of any business needs some direction with an overall plan of operation.

It simply boils down to the fact that the Floydada community is trying to shake its shackles, shed its cocoon — and as we all work together for its growth and progress, it will continue to grow.

I WAS out Lakeview way this week and saw my first Floyd County cotton stripper in action this season. Billy Joe Hambricht was fast winding up 45 acres of Lankart cotton that looked good — and he told me that he had realized one hand pulling from it before the final stripping.

And while we're on the subject of cotton — our first gin fire happened at 2 a. m. Wednesday at Farmers Co-op here in Floydada. Manager Harold Ellison called me, and I wandered over there in my sleep and got a picture, so you could see what 23 bales of burned cotton looked like.

And there's a moral to this story — "watch those cigarettes around cotton!"

Apples are counted among the most delectable fruits of the day. And this is the season for apples - yellow apples, green ones, striped ones, and apples of all the magnificent hues of red. This is the time to serve apples often, in all the many delicious ways they fit into menu plans.

Eat them raw in salads, cooked, in jam, pies, tarts or apple sauce - and what is more delicious than a slice of good home made bread and butter spread with some delicious "old fashioned" apple butter!

Plan on giving apples to Trick-or-Treat goblins, come Halloween. Coat them with candy or caramel. Or use them in baked goods like cakes and cookies. Because they can be used in so many different ways, apples rank among the most widely used fruits. When cooking apples, there is one rule to remember - spare the water. Apples have a high "natural" water content and will become too soft and lose their form if you use more water than necessary to keep them from sticking to the pan or scorching.

Apples are unsurpassed for fragrant aroma and deliciousness. Be careful to season apple dishes gently. Let your seasonings enhance the natural flavor - not smother it. Spices especially pleasant for apples include all spice, cinnamon, nutmeg, ginger, coriander seed, anise seed, and fresh mint.

Apple sauce, for example, may be merely sweetened to taste. Add spices if you wish, but avoid adding nutmeg until serving time - it has a tendency to make apple sauce bitter if allowed to stand for any length of time. Add peppermint stick candy to apple sauce for a delicious topping for ice cream or for inclusion in parfait glass combinations, to be served semi-frozen.

Include diced, uncooked, peeled apples in your favorite muffin batter and serve with homemade crystal-clear apple jelly. Apples are ideal as a cooked garnish for meat and poultry dishes. And don't forget apples are delicious in making fall salads!

Here is a recipe for an APPLE-DATE CAKE. It is delicious for breakfast, dinner or supper.

- 1/2 cup shortening (1-4 pound oleo)
- 3-4 cup sugar
- 1 egg
- 1 1/2 cups sifted flour
- 1 teaspoon soda
- 1-4 teaspoon salt

SOMETHING TO THINK ABOUT

"Be not content with doing your duty - do more. It is the horse that finishes a neck ahead that wins the race."

Andrew Carnegie
 NOTE: I have found a good way to cook butters, preserves, catsup, etc. is to put it into a dishpan or some pan that will fit into your oven and let it cook in a 350 degree oven until it is done. You will have to stir occasionally but not constantly as you do when it is cooked on top of the range. Another helpful way to cook these foods is in your electric roaster.

Cunningham Rites Held In Lockney

Funeral services for John Morris (Boots) Cunningham, 45 year old Floyd County trucker, who was killed on Tuesday night of last week near Guthrie, were held Thursday afternoon in the First Methodist Church in Lockney. Burial was in Lockney cemetery.

Cunningham was driving a truck hauling a load of grain, which overturned and burned following the collision with a cattle truck being driven by William D. Stubblefield, 33, of Lubbock, who also lost his life in the mishap. Both men died a few hours after the collision in the Paducah hospital.

A third truck involved was also driven by a Lubbock man, Larry C. Clay. He and his passenger, Thomas Craddick of Lubbock, escaped injuries. Investigating officers said the grain truck first collided with the truck driven by Stubblefield, then with Clays truck before overturning and bursting into flames near a cafe-service station, located near the wreck scene in downtown Guthrie.

Survivors of Cunningham include his mother, Mrs. W. A. Cunningham of Lockney, a daughter, Jones Louise of Henrietta; two sisters, Mrs. Clyde Hill and Mrs. Brad Hardy, Lockney and several nieces and nephews in Lockney. He was preceded in death by his father and a brother.

Cunningham had a number of friends in Floydada and was well known in this area.

Voters Face The Question Next Month: To Repeal Or Not Repeal The Poll Tax

On Saturday, Nov. 9, voters of Texas will have an opportunity to vote for or against a proposed constitutional amendment to repeal the provision making payment of poll tax a requirement for voting. Under Texas law the poll tax is the ONLY method provided for the registration of voters. This proposed constitutional amendment (SJR 1) will be in the Number 1 position on the ballot, and will appear as follows:

"FOR the amendment of the Constitution of the State of Texas so as to repeal the provision making payment of the poll tax a requirement for voting and so as to authorize the Legislature to provide for the registration of all voters."

"AGAINST the amendment of the Constitution of the State of Texas so as to repeal the provision making payment of the poll tax a requirement for voting and so as to authorize the Legislature to provide for the registration of all voters."

To provide for the registration of Texas voters, the 58th (1963) Texas Legislature enacted an annual registration bill. Effective date of this system (December 1, 1963) is contingent upon repeal of the poll tax as a prerequisite for voting.

The qualifications and requirements for voting will be the same as are now in effect, with one major change. To be qualified as a voter a person will have to be 21 years of age, a citizen of the United States, and a resident of the State for one year and of the district or county for six months. The major change will be that instead of having to pay a poll tax as a requirement for voting, a person who is otherwise qualified will have to register. This includes ALL qualified electors except those who are over 60 years of age who live in cities of less than 10,000 inhabitants. These provisions will apply for all elections.

The County Tax Assessor-Collector of each county will be the registrar of voters. He will collect from each applicant for registration a fee of 25c, payable at the time of making application. In those counties where the Assessor-Collector is paid on a fee basis, all fees collected will go to the general fund of the county. Where he is paid on a salary basis, all fees collected will go to the officers salary fund of the county.

Voters will register annually, the period of registration being from October 1 through January 31, as it is now. Voters will be qualified to vote in all elections held during a one-year period beginning on the first day of March following the date of registration. The dates for registration apply to all qualified voters except to those over 60 who live in cities of less than 10,000 who may not register at all; and to former aliens upon whom who may register up to within 4 days of any election, as may those over 60 years of age who move to a city of 10,000 or more inhabitants.

A person may apply or register in person or by mail. The husband, wife, father, mother, son or daughter of a person entitled to register may act as an agent for such person.

The Voter Registration Certificate will show the following information with respect to the person for whom it is issued: name, date of birth, sex, race, occupation, post office address, voting precinct, native-born or naturalized citizen, state or country of birth, date on which he became a resident of the state, date on which he became a resident of the county, and if residing in an incorporated city or town, the date on which he became a resident of such city or town.

It will be the responsibility of each registered voter to notify the registrar of a change of residence, a change of name, or of any other fact affecting his registration. Upon moving to another county, it will be the responsibility of the voter to present his registration certificate to the registrar of that county, who will then add his name to the list of registered voters and notify the registrar of the county where the voter formerly lived.

In brief, the annual registration system will differ from the present system mainly in that the "registration fee" will be 25c instead of \$1.50 (or \$1.75 in some counties); no exemption certificates will be issued — All qual-

ified electors will register except those over 60 who live in cities of less than 10,000 who may not register at all; and application will be made in person or by mail — not through an agent except that the husband, wife, father, mother, son or daughter may act as the agent of a person entitled to register.

The annual registration bill also includes provision for "dead" registrations. In the event the proposed amendment to the U.S. Constitution is ratified prior to the adoption of the amendment to the Constitution of the State of Texas abolishing payment of the poll tax as a requirement for voting.

Veterans Ask

Q—A newspaper story in August said 160,000 Korean Conflict veterans had not taken advantage of a special dividend for converting their GI term insurance to either a lower cost term policy or to a permanent form of insurance. How many did make the change by the deadline date, September 13?

A—About 48 percent of the 160,000 converted their policies.

Q—As a so-called peace-time service-connected disability compensation from the VA?

A—Yes, such disability compensation is generally 80 percent of the wartime rates. However, if the disability occurred under extra-hazardous conditions or simulating wartime; i. e., service in Viet Nam, wartime rates veteran; am I entitled to any apply.

H. G. Wells Now With Water Dist.

State Representative H. G. Wells of Tulia has had himself taken off the state payroll as a representative to accept a job with the High Plains Underground Water Conservation District No. 1 as legal counsel for the District.

Wells will retain his seat in the House of Representatives, and will take a leave of absence from the district work during legislative sessions.

Legality of Wells' acceptance of the job with the authority was based on early attorney general's opinions upheld by Atty. Gen. Waggoner Carr's recent opinion that membership in the Legislature is not incompatible with employment with districts of this type.

Precedent was set for Wells' action by Sam Collins of Newton who this summer took similar steps in order to go to work for the Sabine River Authority. Others are teaching school, in public schools or colleges, which receive direct state funds. The High Plains Water District has no state appropriations. It is a district supported by local tax funds.

The constitution prohibits a person from holding two state jobs from which income is received at the same time.
