County Joins State In Vote To Amend State Constitution

If You Paid Your Poll Tax, You Are Eligible To Vote

The state's residents who paid their poll taxes this year, or those who may be exempt by age, are eligible to vote this Saturday on four proposed amendments to the Texas Constitution.

Voting boxes in Floyd County are located as follows: SW Floydada, community room of the First National Bank; Starkey, Starkey club house; Allmon, gin offices, Sandhill, Sandhill community center; East Lockney, Lockney city hall; Providence, school house; Lone Star, Lone Star community center; South Plains, school house; Cedar Hill, Cedar Hill Grain Co.; Baker, Baker community center; Lakeview, school house; Harmony, Harmony community center; Goodnight, Fairmont Baptist; West Lockney, First Methodist church; northwest Lockney, city hall; Dougherty, school house; Sterley, community center; McCoy, McCoy store; southeast Floydada, county courtroom; northeast Floydada, county tax assessor-collector office.

The polls will be open Saturday, Nov. 9, 1963, for voters in Floyd County to vote on four proposed amendments of the Constitution. These are the Poll Tax; Needy Aged, Blind, Children and Disabled Persons; Retirement Fund in Jefferson County; and Veterans' Land Fund Amendments.

Floyd Ginners Report 13,202 Bales Ginned

Floyd county continues to lead area counties in amount of bales of cotton ginned on the 1963 crop.

According to the Texas Employment Commission office in Plainview a total of 13,202 bales had been ginned in the county as of last Friday. This compares with 6,304 bales the same time in 1962 and 11,631 in 1961.

Gin reports for other area counties last Friday are as follows: Hale, 5,742; Briscoe, 2,098 and Swisher, 356.

According to reports from the county's agriculture officials hand pulling is slowing down and some machine harvesting of the cotton crop is beginning.

The forecast for the county is an average of better than a bale to the acre, 25,000 bales.

Before these amendments could be submitted to Texas voters, they were first submitted to the Legislature. A two-thirds vote of the membership in the House and a two-thirds vote in the Senate is required to authorize placing a proposed amendment on the ballot for a vote by the electorate of the State.

Because our Constitution is the instrument guaranteeing our liberties; and since it is not simple or easy to revise it, citizens have a great responsibility in voting to adopt or reject proposals. Also, due to the limited space available on the ballots, only a brief summary, provided by the Legislature, in the resolution setting out the proposed amendment, will appear. Citizens must be familiar with the amendments prior to their casting their ballots.

PROPOSITION NO. 1. This proposed amendment, if approved by the voters, would repeal the provision in Section 2 of Article VI of our Constitution which requires payment of a poll tax in order to vote. It would give the Legislature authority to provide by law for the registration of all voters, by amendment of Section 4 of the same Article.

This proposition does not do away with the paying of a poll tax, but it does so as to repeal the provision making payment of the poll tax a requirement for voting and so as to authorize the Legislature to provide for the registration of all voters.

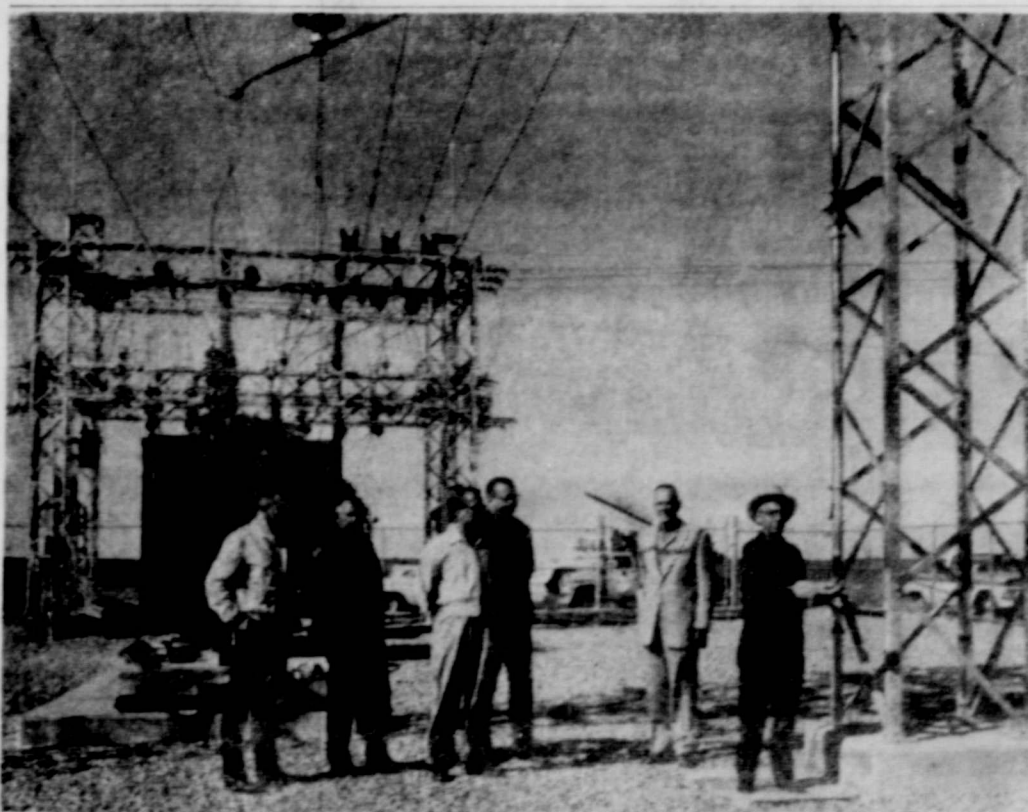

If the issue passes, it will take effect on December 1, 1963. (See VOTE Page 5)

We are sure housewives have a favorite recipe, one that is quick, appetizing, a fancy dish, a new dessert. Share it with your friends and neighbors. We would like to know about it and so would our readers, so we've begun this column to give you the opportunity to exchange recipes with your friends and neighbors. Each Thursday we will carry a favorite recipe and a picture of the housewife submitting it. Call Peggy Medley at the Hesperian or mail your recipes to Box 848, City. We will pick one each week, it may be yours. This week we are sharing with you a recipe out of the kitchen of Mrs. Tate Jones.

 this amendment to \$60,000,000. While there are some reasons for favoring removal of welfare ceilings and a constitutional residential requirement, the Hesperian feels that disadvantages outweigh any gains.

Third amendment proposes to permit Jefferson county political subdivisions to get up retirement, disability and death benefits for officers and employees. Counties now can provide retirement programs and Texas voters have rejected this proposal in the past. This amendment, even county, could start a statewide trend involving 254 counties and risky financial commitments.

Future danger rather than its flat Texans will do well to consider opposing this amendment. Immediate application, indicates.

The fourth proposal on the ballot would authorize Texas to issue another \$150,000,000 in bond to finance land purchases for veterans of World War II and Korea. Interest rates and loan ceilings to individuals also would be increased.

The Hesperian favors this amendment. We feel that there are many veterans who would like to take advantage of this program yet and the plan should be extended.

We also favor this amendment because it has cost the Texas taxpayer nothing, and according to the state auditor the program will make \$80,000,000 for the taxpayers of Texas. This comes for a differential of 1 percent in borrowing interest.

Some will argue that repeal of the poll tax will allow low income people . . . ignorant people, etc. to vote and get us off on the wrong track of paying tax money to their upkeep. We believe that Texas has a majority of intelligent people, who although may not have much money individually, should not have to pay for the privilege to vote.

We believe that exercise of citizenship should not bear a dollar and cents price tag.

Texas is one of only five states in the nation which makes payment of a poll tax prerequisite to voting. A amendment to the national constitution seems likely to do away with the poll tax anyway . . . and it's probably just as well for Texas to get in line with the rest of the nation before it's forced to. Approval of this amendment would certainly relieve a lot of confusion right now.

CONFUSION often results when Texans vote on constitutional amendments. If you just read the "For" or "Against" printed out

to the side of the amendment and do not read the complete explanation, you could very easily vote just the opposite of your convictions.

To sum it all up, we'll vote for the first proposal, against number two and three and for number four.

The Hesperian strongly urges every qualified voter, regardless of his views or party affiliation, to express his convictions this Saturday.

(Continued from Page 1)
 In anticipation of its passage, the Legislature has passed Senate Bill 132. It provides for general registration of voters before February 1 of each year with a registration fee of 25 cents.

PROPOSITION 2 ON THE BALLOT. This provides for assistance payments to the (1) needy aged, (2) needy individuals who are permanently and totally disabled, (3) needy blind and (4) needy children. If passed it would authorize the Legislature to make appropriations out of state funds for the payment of assistance grants on behalf of such recipients; provide for the acceptance of funds from the Government of the United States for the purpose of paying such assistance grants; provide that the amounts expended out of state funds on behalf of individual recipients shall not exceed the amounts that are matched out of federal funds; and provide further that the total amounts expended per year out of state funds for such assistance payments shall never exceed \$60,000,000.

This proposition would eliminate any constitutional requirements of residence in the state in order to be eligible for State assistance and would leave this decision up to the Legislature. The constitution now has several residence requirements, one of which is five years out of the past nine or old age, blind or disabled persons, assistance.

The proposed limit of \$600,000 on State funds for these four programs would be an increase of \$5,500,000 over the present authorization. Last year our Constitution was amended to increase State aid for the needy aged, needy blind and needy children by \$5,000,000 and to increase aid to permanently and totally disabled persons by \$1,000,000.

PROPOSITION 3 ON THE BALLOT. This proposal would add a new subsection to our Constitution providing the Retirement, Disability and Death Compensation Fund for Jefferson County, Texas, covering all appointive officers and employees of said political subdivisions.

Although this is a local issue, if passed, it would set a precedent in other areas.

PROPOSITION 4 ON THE BALLOT. An amendment to Section 48-b of Article III of the Constitution of Texas to increase the Veterans' Land Fund by \$150,000,000; said Fund to be used for the purpose of purchasing land in Texas to be sold to Texas veterans who served in the

 Hooper punted to the Winds 31 yard line.

People picked up nine yards, Watts picked up a first down to the 43 yard line. Finding no room to run, or by passing, Campbell kicked a short kick to the Hornets 45. Floydada received a 15 yard penalty to the Winds 33. Finding the Winds holding the Hornets down, on the 6, Floydada moved for a first down, then was thrown back for a 9 yard loss.

Campbell went back to punt but with a high pass, ran the ball to the 21, not enough for a first down. Hornets took over the ball, but not moving the ball, lost the ball on downs on the 16 yard line. The Winds took it to the 24. Again Tullia intercepted a Floydada pass, Denison returned it to the Floydada 20 for the last play of the game. Score Tullia is Floydada 8.

CROP SEEKS COTTON GIFTS

Refugees from Communist China will receive a Christmas gift in the form of blankets made from cotton collected by CROP this fall, the Texas CROP Director, Norman A. Sundwall reports today.

Last year's shipment of CROP cotton was directed to Hong Kong where it was put into blankets with the help of a local textile man, for little more than cost and with the assistance of a sewing class of needy girls at the Chinese YWCA. The blankets were distributed during the winter months to families and persons in acute cases, generally those newly arrived refugees who can only try to find a home on the street.

From a Church World Service worker in Hong Kong, came the word, "It's a good and practical gift and we're certainly grateful for the cotton from which these quilts are made."

To further extend this ministry county CROP committees have been formed in several counties of the state in Texas and many of these are in the South Plains area. The Rev. Andrew Mild, pastor of the Shegherd King Lutheran Church in Lubbock, is President of the South Plains Area CROP Committee which has set as a goal 100 bales of cotton. The county committees in the area are determined to reach this goal and many of them have set a portion of this as their share. During the next few weeks farmers in the area will be asking their neighbors to contribute their remnants to CROP by leaving them with this designation at their local gin.

Chairmen of the county committees in the South Plains are as follows: Bailey, Rev. J. Frank Peery; Cochran, Rev. Floyd Dunn; Crosby, Rev. Bruce Parks; Floyd, Jack McIntosh; Hale, Price McWilliams; Hockley, Rev. Harold Pembey; Lamb, Rev. Jack Elmyer; Lynn, Rev. Robert Kamrath; and Swisher, Rev. C. W. Long. Others are not announced at the time of this review. Mr. J. C. Eiring of Plainview is the Area Commodity Manager and will complete the shipping arrangements after the cotton has been collected.

CROP is a Community Food Appeal of Church World Service, the overseas relief agency of the Protestant churches of the United States, and all CROP shipments are distributed overseas under church supervision. Representatives of the Churches of America are already there to supervise the distribution, thus making unnecessary the cost of sending someone with the shipment for this supervision.

INTRODUCING THE DEPENDABLES FOR '64

We have designs to get you in our power

Our engineers are a wily group of guys who spend most of their time dreaming up ways to win your approval. Take the Dodge Polara 500. You'd be hard-pressed to find a car that's got more going for you. Deeply-padded, contour-formed bucket seats. All-vinyl upholstery. Sill-to-sill carpeting. Padded dash. Center console. And lots of other trimmings. But that's only the half of it.

Perhaps our approach to power will further illustrate the point.

With the Polara 500 you aren't baked in on a certain engine. You can choose from a standard 318 cu. in. V8 up to a street-version of our wallowing, all-out 426 cu. in. Ramcharger V8. Compromise? Nope. We just feel that a freedom of choice is the surest road to your approval.

That's our way of doing business—giving you lots of car and lots of satisfaction at a price that's hard to quarrel with.

Your Dodge Dealer will be glad to demonstrate the point.

Floydada started a very good drive, picking up the first down. From the 41, Bradford threw a pass to Osborne, where there was a pass interference called on the Hornets 37 yard line. Hornets intercepted another Wind pass, Carrett taking it on the 20 ran for another Tulia TD, with 4 seconds left in the second half, extra point no good.

Rainer kicked to the Hornets 20 yard line. Tulia found the Whirlwinds defense open, ran through for two first downs. Arnold found plenty of room to run, took the ball on the Winds 47, ran for a TD. Howell carried the ball in for two extra points. With 8:30 left in the third quarter the score read Hornets 42 - Winds 2. Tulia kicked out of bounds. They kicked again from the 35 to the Winds 19, Watts returned it to the 33. Bradford passed to Campbell for 55 yards, Moore carried it to the 28 yard line.

Hornets then caught the Winds for two losses back to the 35. Campbell punted to the 10 where Floydada recovered a Tulia fumble. Floydada went to the air again to be intercepted by Arnold who raced from the 3 to the length of the field for another Tulia TD, extra point no good.

Miller kicked to the Winds 25, Campbell ran it back to the 30. Floydada picked up a first down on the 42. Moore was thrown for a loss back to the 32 yard line, a penalty was called on the next play bringing the ball up to the 48. Campbell punted to the Hornets 12 yard line. On first play, the Hornets fumbled, the Winds recovered on the 11 yard line as the third quarter ended.

Moore lost 2 yards, Bradford carried it in to the 3, the 3 yards out Moore carried it in for Floydada's first TD, extra point failed. Rainer tried an on side kick, Hornets recovered it on the 41. Hornets received a clipping penalty carrying the ball back to the 25 yard line. On fourth down

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

Texas Press Association

AUSTIN, Tex. — Some 60,000 Texans soon will be getting invitations to dine with the President for \$100 a plate at Austin's Municipal Auditorium.

Legislative aides now are in Austin making arrangements with top Texas Democrats for a November 22 "Texas Welcome Dinner" for Pres. John F. Kennedy and Vice Pres. Lyndon B. Johnson.

Speakers list so far has been limited to the President, the Vice President and Gov. John Connally.

To assure a capacity crowd, local party officials are being enlisted to help. Quotas are being assigned to districts over the state. Funds raised are to be divided between the National and State Democratic organizations.

Most of Texas' 21 congressmen are expected to attend the dinner and all members of the Legislature will be invited. Early announcements indicate Sen. Ralph Yarborough will be with the Presidential party.

President Kennedy is due to arrive in Houston on November 21, where he will attend an appreciation dinner for Congressman Albert Thomas. Cities all over the State are bidding for the rest of his time.

DRAFT GOLDWATER CAMPAIGN — Meanwhile, Republicans are not standing still on the eve of an election year.

State GOP Chairman Peter O'Donnell of Dallas came to Austin to announce the heads of the Texas drive to draft U. S. Sen. Barry Goldwater of Arizona as a presidential candidate and to map plan for other races.

State Rep. Dick Morgan of Dallas and Mrs. J. C. Man Jr., a Wichita Falls housewife, were designated co-chairmen of the campaign.

O'Donnell said 2,462 elective offices in Texas "will be up for grabs" next year and Republicans intend to reap a fair share.

He said the Republican timetable calls for a Draft-Goldwater chairman in each congressional district by December 1. County chairmen will be appointed by January 1 and precinct chairmen by January 15.

Many of the local draft movements will be in with GOP county executive committees and with election campaigns for precinct, city, county and state, as well as national, elections for public office.

NOVEMBER 9 ELECTION — Coke R. Stevenson Jr., administrator of the State Liquor Control Board, announced that Saturday a special election will not be

FIGURIN' ON A NEW STYLE?

Stevenson said, "All types of alcoholic beverages may be sold during legal hours of sale on that date in wet areas."

LEGISLATIVE REDISTRICTING — Pre-trial hearings will be held Friday on a suit to declare current state legislative districting laws unconstitutional.

State Sens. Don Kennard of Fort Worth and Franklin Spence of San Antonio; Reps. Bob Eckhardt of Houston and Jake Johnson of San Antonio; and Harris County Democratic chairman Bill Edgarlin filed the suit. They are objecting to the law which limit a county to no more than one senator and restricts a county with more than 700,000 persons to one additional state representative per 100,000 population.

Several state-elected officials who represent small-population districts are intervening in the suit.

INSURANCE PROBLEMS — Texas employers are paying more for workmen's compensation insurance and injured workers are enjoying less benefits, Texas Manufacturers Association charged.

STATE AFL-CIO, an unusual TMA ally, suggested a statewide conference on the issue.

State Board of Insurance Chairman Hunter McLean challenged one section of TMA's report, Roy A. Langston, president of the Association of Texas Fire and Casualty Companies, said rates may have gone up 40 per cent in the last 10 years but still are 22 per cent lower than they were in 1938.

INSURANCE COST CUT — A \$3,000,000 reduction in Workmen's Compensation insurance costs to employers, beginning December 1, has been announced by the State Board of Insurance.

Average cut will be 2.2 per cent. Industry-wise it is as follows: Manufacturing 3.7 per cent; contracting 0.5 per cent; oil 2.4 per cent; and all other industries 2.4 per cent.

Board said this is the first overall reduction in Workmen's Compensation insurance premiums in the past five years.

CREDIT INSURANCE RATES — State Board of Insurance set new rates, rules and regulations for credit insurance to become effective November 21.

A rate of 70 cents per \$100 a year was assigned group life coverage of the type used in 75 per cent of insured indebtedness. Board called it one of the lowest yet adopted. Maximum individual life policy rates were set at 80 cents per \$100 on loans exceeding \$700 and 90 cents on those up to \$700. Health and accident coverage rates compare

closely with those under the model bill in other states, the Board maintained.

SLANT HOLE PENALTIES — An Austin jury fined four East Texas oil operators with \$324,800 in penalties in the first slant-hole oil suit tried before State Court Judge J. H. Starr.

H. M. Harrington Jr., Charles Lutes, Reid Allgood, and J. W. Biston, all of Gregg County, were directed to pay the penalties to the State.

A total of 77 civil penalty suits seeking \$22,000,000, filed by the Attorney General following slant-drilling scandals, remains on the docket.

Jury found the four Gregg County oilmen operated a well which bottomed under a neighboring lease for 10 years.

BANKS TURNED DOWN — State Banking Board found "no public need" for proposed Merchants State Bank at Houston and Lone Star State Bank at Lone Star.

Board postponed action on an application for charter of Industrial Bank and Trust at Lubbock.

GIL PRICE CUT PROBE — Reps. George Cook of Odessa and Maurice Duke of Wichita Falls have announced hearings by the House Interim Study Committee on oil and gas matters.

They scheduled a committee meeting with the Railroad Commission for Friday to get directions and guidelines for the crude price probe.

Hearing to be held soon in Wichita Falls and Abilene will concern North and West Texas cuts.

Representatives of companies which indicated cuts will be invited to testify, Cook said. If they refuse, the committee will use its subpoena powers.

Hesperian Editor TO EAST GERMANY

The American public may be largely ignorant of the fact that the traffic to East Germany is greater than the traffic in the other direction. This does not mean that — of their own free will — wish to go to East Germany.

In this connection, it is also true that our soldiers are fleeing to East Germany. This is surprising and poses a better today than was the case in the West. Nevertheless, in the first two weeks in East Germany, and asked for political asylum.

The Communists, of course, make hay of this fact and the American soldiers to the Communist world are featured in and in propaganda films with some effect.

Even though the tide has been turned already won the main battle. There are no million West Germans, compared to some East Germans. The majority of the "have" Germany got out during the years 1945-50, they are already successful business men in Germany today.

But we might as well face the fact that Khrushchev achieved one of his aims when He stopped the flow to the West.

NEW CHEVELLE!

BY CHEVROLET

The kind of handling ease you'd expect in a smaller car. Come on down and drive it.

The kind of comfort you'd expect in a large interior. Come on down and sit in it.

Only a car that looks as good as this could come between Chevrolet and Chevy II. Come on down and stare at it.

Now—Chevy spirit in a new kind of car!

We built this one to do more than just stand around looking beautiful. Held its weight down in the 3,000-pound range. Then built four lusty engines—two sixes and two V8's—with output all the way up to 220 horses!

And if that makes you think this is one frisky car, you've got the right idea.

You've also got a roomy car here. Yet its 115-inch wheelbase keeps it highly maneuverable in traffic and very easy to park.

With its Full Coil suspension, it's got a ride that reminds you of the Jet-smooth kind the way it muffles noise and cushions bumps.

And the fine hand of Body by Fisher craftsmanship up beneath this one's suave good looks, too.

Sound good? There's more. Like the fact that Chevy comes in three series with eleven models—convertible sport coupes, sedans, wagons, even Super Sport with front bucket seats. Like the fact that this isn't one of the nicest surprises of a new Chevelle comes at an easy-to-take price. Like to hear more? The listening's word at your Chevrolet dealer's—and so's the Chevrolet logo.

Ask about a SMILE-MILE Ride and the Chevrolet Song Book at your Chevrolet dealer's.

Floyd Philosopher Tries To Decide Whether We Should Go Ahead With Man-On-Moon Shot

Editor's Note: The Floyd Philosopher on his Johnson Farm discusses a burning issue of the day.

Dear Editor:

A man in town stopped me the other day and said, "Say, you're always expressing an opinion, aren't you? Should the United States proceed with its plans to put a man on the moon?"

I'll give you my opinion very frankly.

First, as I understand it, and I don't mind saying the way I understand some situations has no bearing on what the true situation are, here Russia and the moon and Russia ups and calls the game off.

And as I further understand it, the scientists in charge of the moon project argue that whether Russia tries for the moon or not has no bearing on what we do that getting to the moon is worth what it'll cost, regardless.

Now while I've always felt a man shouldn't rush head-long into pioneering, marrying or moon-shooting, that it's wiser and easier and more comfortable to take your time on either task, still I don't know enough about the fruits of outer space to say we shouldn't spend 40 billion dollars to explore it.

But I was just thinking. Say we spend 40 billion and get to the moon but don't find quite what we were looking for, that the fun, as they say about mountain climbing, was getting there, not staying there.

All right. Here we've got all this money invested, we might as well try some other planet. The next planet, like next year's crop, may always look better than the current one.

Now naturally the first trip like the first model of a new airplane, costs a lot more than those to follow, so we'll assume that we can land a man on Venus.

O. K. Davis Jr. Killed In Auto Accident Friday

Funeral rites for O. Kimball Davis, Jr., 31, were held Monday in the First Baptist Church in Sower. Davis, a native of Floydada, was killed Friday in an auto accident near Boulder, Colo. Burial was in Hillside Memorial Gardens in Snyder.

Local Families In Wreck Near Lockney Sunday

Mrs. Farnell Powell was admitted to Peoples Hospital Sunday night about 11:30 suffering from bruises and shock following a two-car collision near Lockney.

Mr. and Mrs. Powell and their daughter and Mr. and Mrs. Emory Roberson and two children were returning from Plainview when the mishap occurred. Mr. Roberson was driving the Powell's 1952 Ford.

Driver of the other vehicle involved was James A. Ryan of Bunket, Tex., who is employed at the Stamford Gin at Lockney. He was headed toward Lockney, traveling in a 1955 Ford.

The wreck occurred in the detour section of the new highway being built. Roberson said the other vehicle was in his lane of traffic when the accident took place. Ryan evidently became confused as to which lane to travel over the detour. Roberson said he had the Powell car cut off and stalled before a collision with the Ryan car.

The right front fender of Powell car was badly damaged and the Ryan car demolished. Neither vehicle overturned and none of the other passengers injured with the exception of Mrs. Powell.

She was dismissed from the hospital the first part of the week.

PTA Carnival Grosses \$900

Andrews Ward Parent-Teachers Association made approximately \$900 from the annual Halloween carnival last Thursday night. This amount is before expenses, and is just shy of last year's total which was \$1000.

The weather, which was dismal with intermittent rain showers, was thought to have kept many youngsters and their parents from attending the carnival, however a good number gathered.

After expenses have been paid off, the intake, the remainder will go into the PTA fund which is used for school needs at Andrews Ward.

Winners in the costume contest were Leslie Sinar for Best dressed boy; Teresa Liphart, best dressed girl; Blair Davis, best Clever costume and Cristy Simpson, Best Little Spook.

Mrs. J. O. Oswald of Plainview, widely known in the Floyd County area, has been hospitalized for an indefinite time in Plainview Hospital and Clinic.

Mrs. Oswald was shopping in downtown Plainview on Tuesday last week and was knocked at her feet to the sidewalk by a running child.

It is said she may receive a limited amount of visitors.

Host Texas Farm Bureau Meeting

The 30th annual meeting of the Texas Farm Bureau will be held in Fort Worth from November 10 through the 13th with Fort Worth as the convention host.

Primary purpose of the meeting is to be headquartered at the Texas Hotel, is to formulate policies of the general farm organization for next year. More than 750 official voting delegates, representing 200 organized county Farm Bureaus, will participate in the business session Nov. 12-13, in which hundreds of recommendations from county conventions will be adopted, rejected, or amended. Those approved will form the state organization's official policies on state issues and recommendations to the American Farm Bureau Federation on national issues for 1964.

Other convention events will include commodity and special conferences, Talk Meet and Ten-Ten Fund activities for the young people, finals of the annual TFB meet contest, election of seven directors, and addresses by several outstanding guest speakers.

Speakers addressing convention general sessions will include Gov. John Connally, Congressman J. I. Kilgore of Edinburg, AFBF Assistant Legislative Director Darwin L. McLain of Washington, D. C., TFB President C. H. Deane of Coahoma and Waco, and TFB Secretary - Treasurer Edwin Sanderson of Paris.

Dr. N. Quentin Grey, pastor of First Worth's First Christian Church, will speak at the traditional vesper service opening the convention on Sunday evening, Nov. 10. Clayton Rand of Gulfport, Miss., noted editor and author, will speak at the organization's annual banquet on Tuesday evening, Nov. 12.

Planning to attend from Floyd County are Mr. and Mrs. Lewis, Mr. and Mrs. Howard Gregory, Mr. and Mrs. David Battey, Mr. and Mrs. Don Probasco, and Mrs. S. J. McIntosh, Mr. and Mrs. J. R. Turner, Mr. and Mrs. Virgil Brasher, Mr. and Mrs. A. C. Pratt, Mr. and Mrs. Marvin Sharbet, Sam Puckett, Johnny King, Judi Shurbet and many others.

Miss Shurbet, Farm Bureau District Queen winner, will represent her district in the State meet contest to be held during the convention.

Andrews Ward Gifts Needed At PTA Carnival State Hospital

Once again the Volunteer Services Council of the Wichita Falls State Hospital is asking for interested citizens of this district to help provide Christmas gifts to the patients. Their goal is to provide two new gifts for 2000 people. The cost of the items is not important, but to know that someone cares means a great deal, since many of these forgotten ones never receive visitors.

Gifts may be left at Arwino Drug where they will be boxed by volunteer workers, then they will be shipped free of charge by ICN Freight Lines to the hospital.

Gifts should be contributed by Thursday, Nov. 7, 1963.

"WITH ELECTRIC HEAT WE SAVE \$200 TO \$300 A YEAR ON EQUIPMENT WEAR AND TEAR!"

SAYS Fred Wilbanks GENERAL MANAGER OF KRSY-RADIO, ROSWELL, N. M.

This modern, well-designed radio station has 1,500 square feet, is completely electric. A versatile electric heat pump cools, heats and filters the air—automatically—24 hours a day. Ideal here, for this radio station is on the air 24 hours every day.

"With the controlled comfort and clean air, our announcers stay alert," says Mr. Wilbanks. Announcer Jay King is shown inserting tape cartridge in automatic tape recorder.

"It's pure comfort for our employees—even in minus 22 degree weather," says Mr. Wilbanks. E. L. (Abe) Lincoln, sales manager, and Mrs. Joleen Serfas, traffic coordinator, agree.

■ Fred Wilbanks is enthusiastic when he talks about his total electric radio station. "One way we save money," he says, "is through longer tape head life. Our headlife, since we've been in this clean, dust-free, electrically heated and air-conditioned building, is 3 times greater. On this, and other equipment, our savings are \$200 to \$300 a year".

Facts About Veteran's Land Deal

The following information is a short resume of the current status of the various phases of the Veterans' Land Program

1. To date there have been 32,000 veterans who purchased land through the Veterans' Land Program.
2. We have had 3,910 purchasers pay for their tracts in full.
3. We have purchased 2,787,772 acres of land. The average price paid for this land has been \$78.18 per acre.
4. We have had 6,832 transfers;

4,687 have been to non-veterans. 2,135 have been to veterans. The State has invested approximately \$196,000,000 in land.

5. We have in reserves \$9,000,000 in government securities and we will have to put another \$3,000,000 in reserve before we complete our purchases out of the first \$300,000,000. We receive each 6 months approximately \$6,500,000 from payments by veterans on their contracts. Out of the last \$100,000,000 authorized, which continues to rotate until December, 1965, we have approximately \$4,500,000 from veterans' payments to spend each 6 mos.
6. Over the life of the Program, there has been realized a dif-

ferential of 1.1 per cent between the interest we pay on money we borrow on bonds and the interest we charge the purchasers.

7. Since January 1, 1961, we have adopted a policy whereby we keep a differential of at least 1 per cent between what we borrow for and what we loan for. Prior to January, 1961, there was no set policy in this regard.
8. Up to January 1, 1955, there were approximately 14,000 veterans who purchased through the Veterans' Land Program. From 1955 to the present there have been over 18,000 who purchased through the Program bringing a total of over 32,000 purchasers as pointed out above. Since

January 1, 1955, over 130,000 veterans have been sent applications to purchase through the Veterans' Land Program.

9. We have more than 1,000,000 qualified veterans of World War II and the Korean War who served prior to March, 1955.
10. We have approximately 6,500 active mineral leases covering that many veteran tracts. Out of this number there are 441 producing leases of the Veterans' Land Program.
11. Our Auditor predicts that the Program will make \$80,000,000 for the taxpayers of Texas. This comes from the differential of 1 per cent pointed out above. During the year January 1, 1962, to December 31, 1962, the Veterans' Land

Program closed more than 4,600 veteran transactions which was more than has ever been closed during the history of the Program in any one year.

12. There are 12,309 veterans who have taken out insurance under the newly adopted insurance program which pays their contracts in full in case of death. We have collected \$350,298.31 in premiums for the two six months periods. This costs the veteran purchaser only \$5.76 per thousand a year.
13. The death claims to date amount to \$271,481.49 leaving a net balance of \$66,551.34 that the insurance companies have left which must carry them until November 1, 1963.

14. The total income from fees collected through the Veterans' Land Board for the fiscal year from September, 1961, to September, 1962, was \$270,000.00. The total income from September, 1962, to September, 1963, is \$295,000.00 from fees collected by the Veterans' Land Board. These fees are charged to those who receive special services such as homestead deeds, paid in full deeds, appraisal fees for appraising land, and fees for processing aid and gas leases, easements, and severances. This revenue is used to defray the expense of operating the Veterans' Land Program.
15. We also have in force over \$25,000,000 worth of fire and extended coverage insurance

on buildings and improvements on veterans' tracts.
