Friday, March 27, Final Day To Sign For Grain Program

Payment Increased For Castor Beans

According to Tom Hutchins, manager of the Floyd County ASCS Office in Floydada, Friday, March 27 is the last day a grain producer may sign up for the feed grain program of 1964. The sign-up began on Monday, February 10.

Therefore, there is still time to sign your "intentions" and if you so desire, receive an advance payment for the intended acreage.

Too, the United States Department of Agriculture last week, issued a new order increasing feed grain diversion payments on acreage planted in castor beans.

The price support payments on final diverted acreage must be made next fall, after performance has been determined.

All persons who will receive a share of the Feed Grain on a farm must sign their intentions before an advance payment is made to anyone.

Judge Ratliff Sets Date For Hearing Hospital Suit

A Hesperian reporter interviewed district judge L. D. Ratliff by telephone Wednesday morning and learned that the judge had set a hearing date of Monday, April 13 on the Caprock Hospital District suit entitled, "Rene Yearly, et al vs. Hollis Bond et al. Judge Ratliff said that Jim Milam, attorney for the defendants from Lubbock had filed an answer to the suit and had made a motion for summary judgement. He said that he expected Milam and Thomas J. Griffith, attorney

for the plaintiffs, to present briefs of the case which concerns a technicality of the creation of the hospital district and he will study the briefs before the April 13 hearing. The situation and question is this:

The Texas Constitution states that hospital board may be formed by the approval of the majority of qualified voters in any given area. Last July 13 the creation of the Caprock Hospital District was approved by the qualified voters by a vote of 551-256.

This vote would normally have been acceptable to all concerned, except for the fact there are 1750 qualified voters in the District. Even though the creation of the district was approved by a majority of those VOTING, the Plaintiffs claim there are an additional 843 people qualified to vote on the issue, so the 551 voting for the district was not a majority of the 1750 qualified.

The Plaintiffs contend that a person does not have to go to the polls in order to be a qualified voter.

The suit is against Hollis Bond, M. P. Goen, L. T. Wood, A. H. Keels and M. S. Robertson, individually and as Board of Directors of Caprock Hospital District, and J. D. McBrien, member and presiding officer of commissioners court.

There has been no temporary injunction filed to stop the sale of bonds since this can't take place until after the approval for Hill-Burton money. Filmer for the grant will be in May and it will be September before approval is expected.

The law to create the Caprock Hospital District was approved by the state legislature in 1963 and was then approved by a majority vote of the district.

The board will meet with a representative of the state hospital division of Hill-Burton on the afternoon of March 30th. At this time the board will show the representative sites which are available for purchase for the new hospital and make a decision about the building site.

In order to get the matching Hill-Burton money of \$355,000, the state representative must approve the building site.

According to the hospital board two sites have been offered for sale for the building location. (See PUBLISHER Page 6)

Pioneer Wins Case Pressed By Dena Myrick

Pioneer Natural Gas Co. was the victor in a trial held in the 110th District Court Room last Thursday morning. Mrs. Dena Myrick had pressed charges against the company after her husband was burned and died as a result of the burns. The accident occurred January 29 1962.

Myrick was driving on the Lockney Highway (U. S. 70) when he pulled to the side of the road and started to turn around. As he backed off the road the auto ran into a gas meter and broke it causing a leakage. The car also got caught on the meter and caught on fire burning Myrick severely. Raymond Rucker, Mrs. G. C. Applewhite Named Outstanding Lockney Citizens

Raymond Rucker and Mrs. G. C. Applewhite are the outstanding man and woman of Lockney for 1964. Last year's winners, Hershel Carthel and Mrs. Joe Foster, presented the awards at the Lockney Chamber of Commerce banquet Friday night.

Most 600 persons attended the affair in the high school gymnasium, including out-of-towners from Plainview, Floydada, Halfway, Lubbock and Amarillo. Rev. Gene Hawkins, First Baptist Church pastor, was master of ceremonies.

Hubert Frizzel, the new chamber president, was introduced by Eddie Fortenberry and presented with a special plaque for outstanding service to the chamber. Frizzel had sold more than 400 tickets to the banquet.

Edna R. Hays, outgoing president, was unable to be present because of the death of his brother. It was also announced that Hays was hurt but not seriously injured Friday morning when in an automobile accident while on the way to Beaumont with his family.

A Dallas dentist, Dr. Earle Williams, was the principal speaker. Among offices he has held is the vice-presidency of the American Dental Assn. His address was largely humorous and he praised laughter as being good medicine. "You don't see evil in a person if he is laughing and truly amused."

The theme of his more serious remarks was "Be good when you don't have to be, so you can be good when you want to be." He praised Lockney's good citizenship and said such men as made up the membership of the chamber were men to follow. Persons are appreciated for the service they give, rather than their attainments of power, wealth or knowledge, he said.

Rucker owns farmland south of Lockney and lived there most of his life until building a new home and moving into town about three years ago. He received honorary membership in the Lockney Future Farmers Assn during Future Farmers of America week.

Past president of the Floyd County Fair Board, Rucker also is past grand master of the Masonic Lodge, former school board member and former chamber director. He is active in youth work and other affairs in the

First Methodist Church and is secretary of Community Gas Line.

A lot of corn is raised in the valley, Mr. Lyles said and is now eight to ten inches high. There are also some kind of crops being harvested all the time, winter and summer. Plenty of good fishing at the Salton Sea, but Floyd County and Floydada looked good to them when they returned, Mr. Lyles stated.

Friday, March 27, Final Day To Sign For Grain Program

Judge Ratliff Sets Date For Hearing Hospital Suit

Payment Increased For Castor Beans

GIRL SCOUT SUNDAY — These girl scouts attended worship services at the City Park Church of Christ last Sunday morning in troop form, commemorating Girl Scout Sunday. About seventy five of the scouts and brownies were expected to attend the services.

A Hesperian reporter interviewed district judge L. D. Ratliff by telephone Wednesday morning and learned that the judge had set a hearing date of Monday, April 13 on the Caprock Hospital District suit entitled, "Rene Yearly, et al vs. Hollis Bond et al."

There has been no temporary injunction filed to stop the sale of bonds since this can't take place until after the approval for Hill-Burton money. Files for the grant will be in May and it will be September before approval is expected.

According to Tom Hutchins, manager of the Floyd County ASCS Office in Floydada, Friday, March 27 is the last day a grain producer may sign up for the feed grain program of 1964. The sign-up began on Monday, February 10.

Therefore, there is still time to sign your "intentions" and if you so desire, receive an advance payment for the intended acreage.

Too, the United States Department of Agriculture last week, issued a new order increasing feed grain diversion payments on acreage planted in castor beans.

The price support payments on final diverted acreage payment will be made next fall, after performance has been determined.

All persons who will receive a share of the Feed Grain on a farm must sign their intentions before an advance payment is made to anyone.

Again in 1964, as in 1963, the entire intended diverted acreage must be diverted, except for a small tolerance, for the farm to be in compliance.

However, a grower may change his intended diverted acres through March 27, 1964.

The minimum participation is 20 percent of the feed grain base and the maximum amount that can be diverted is 50 percent of the feed grain base.

Castor, Bean Payment — The new ruling by Washington provides that if a farmer diverts 41 percent to 50 percent of his feed grain base he will receive 1/2 of his maximum diversionary payment as figured on the crop with the lowest rate.

There will be no change in method of calculating the payment of the feed grain diverted acres planted to castor beans if a farmer diverts only 20 percent of his feed grain base.

Prior to this new ruling, a farmer would have received only 1/4 his minimum diversionary payment regardless of the percentage of the acres that he diverted from feed grains and planted to castor beans.

The grower will also receive the full price support payment on the farm.

The change in ruling was in response to presentations from this area urging that castor bean growers be allowed larger payments on acreage diversion as an incentive to develop the processing industry in this area and to provide another good cash crop.

Hutchins has said regarding the March 27 deadline "I hope everyone doesn't wait until that day to decide to come into the office and sign-up."

The Texas Constitution states that hospital bond may be formed by the approval of the majority of qualified voters in any given area. Last July 13 the creation of the Caprock Hospital District was approved by the qualified voters by a vote of 551-256.

This vote would normally have been acceptable to all concerned, except for the fact there are 1750 qualified voters in the District. Even though the creation of the District was approved by a majority of those voting, the plaintiffs claim there are an additional 843 people qualified to vote on the issue, so the 551 voting for the district was not a majority of the 1750 qualified.

The plaintiffs contend that a person does not have to go to the polls in order to be a qualified voter.

The suit is against Hollis Bond, M. P. Goen, L. T. Wood, A. H. Kreis and M. S. Robertson, individually and as Board of Directors of Caprock Hospital District, and J. D. McBrien, member and presiding officer of commissioners court.

In order to get the matching Hill-Burton money of \$295,000, the state representative must approve the building site.

According to the hospital board two sites have been offered for sale for the building location.

Floyd County Spelling Bee Tuesday, March 24

According to Clarence Guffee, County School Superintendent, the Floyd County Spelling Bee will be held Tuesday night, March 24, at 7:30 p.m. in the County Court Room.

Those schools that have entered the event are Lockney, Lakeview, Dougherty and Floydada.

Mrs. G. C. Applewhite of Lockney will be the word pronouncer.

We feel that every church will benefit if its members attend, thereby assisting the entire community."

New Series Begins In This Issue

The Hesperian is beginning a new series in this issue known as Highlights from the Pioneer Days.

There are a number of people in this area who can weave a few yarns about the "Good Old Days" and may want to share some of those experiences with their friends and neighbors through the columns of this newspaper.

We begin this series with a history and testimonial of the life of W. F. Culpepper. This story can be found in another part of this issue.

Field And Kitchen News

It was my privilege last Saturday to attend the FAMILY LIFE WORKSHOP held at Estacado Junior High School in Plainview, by the Plainview Young Homemakers Chapter.

Members of the other sixteen or more Young Homemakers Chapters in this district were invited to attend this helpful and worthwhile work shop.

The theme was "Promoting Family Unity."

The purposes were to gain some understanding of necessary adjustments in marriage; how attitudes of the parent affect the child; the role of the parent in educating the child spiritually, physically, and mentally and how affecting families.

Mrs. Bobby Phipps, President of the Plainview Chapter presided over the morning session. Among those appearing on the program were Dr. Roy C. McClung, President, Wayland Baptist College, who spoke on "Maturing in Marriage," and Mr. Harold LaFont, Plainview Attorney, who discussed "Laws affecting Family Life."

The group was served a delicious buffet luncheon at noon by the Plainview Chapter. The devotional was given by Mrs. Gail Brewer, Home Service Advisor, South Plains Electric Cooperative, Lubbock. She used a beautiful Easter story as the basis for her talk.

President for the afternoon session was Mrs. Jimmy Cummings, Wayland Baptist. "Responsibilities of Parenthood" was presented in a panel discussion.

Mrs. Ina Dora Hulse, Consultant, Home-making Education, U. S. Department of Education was leader. Members of the panel were:

Rev. Arthur Digby, Pastor, First Christian Church, Plainview; Mrs. T. Coe Branch, Educator and mother; Mr. Marvin Schivere, M. D.; Dr. James T. Wright, Director, Elementary Education, Wayland Baptist College; Mrs. Orveta Persons, First Grade Teacher, Edgemore Elementary School.

A highlight of the program was the talk given by Elizabeth Ramos, from Cuba, who is now an International Student at Wayland Baptist College in Plainview. She spoke on "Our Children in a Changing World." She said to the mothers, "When you go home, teach your children to Love God, love people, and love their country."

what you have".

Mrs. Cummings opened the afternoon session with a favorite poem of hers that was very impressive and certainly FOOD FOR THOUGHT.

Mr. and Mrs. A. O. Beck of Dumas spent the weekend in the home of their daughter and family. Mr. and Mrs. Bud Sparks and Gloria.

Mr. and Mrs. Tom Hutchins went to Ralls, Saturday afternoon to visit his mother, Mrs. J. H. Hutchins.

Mr. and Mrs. Claude Weatherbee, Tommy and Leigh Ann attended the Robert Bivens-Kay Catelety wedding in Slaton on Saturday of last week.

Mr. and Mrs. Johnny Shuts were Plainview visitors Sunday afternoon.

Wiley Rogers visited in Roaring Springs Sunday afternoon in the Peck home — long time friends of the Rogers family.

Alton Higginbotham has this to say regarding the National Meeting in Dallas:

"National Rural Electric Cooperative Association Annual Meeting was held March 5-12 in Dallas. The theme of this 22nd meeting was 'NEW DIMENSIONS IN RURAL ELECTRIFICATION'."

General Manager Clyde T. Ellis, a former congressman from Arkansas, sounded a warning to rural electric opponents in his keynote address when he stated, "We are not in Dallas for the funeral of Rural Electrification."

Other speakers were Senator Earl Brandt of South Dakota, Guile McGee of Wyoming, and Ralph Yarborough of Texas. U. S. Representative, Odin Ljunggren of Minnesota, Esther Peterson, Special Assistant to the President on Consumer Affairs, and Governor John Connally.

The meeting was well attended with more than 7500 registered. There were 14 people from Light-Electric in attendance.

Some of the facts brought out at this meeting were: Rural Electric consumers purchased more than 1 1/2 billion dollars in appliances and electric equipment in 1962; Rural Electric Cooperatives generate less than 1% of their power, serve 85% of the U. S. electric load and have more than 54% of all distribution lines, yet collect less than 8% of all electric revenues.

Attending the NRECA meeting in Dallas along with Alton Higginbotham were: Melvin Henry,

Claude Weatherbee, Mr. and Mrs. Herman King and Joan, Mr. and Mrs. Henry Scarborough, Mr. and Mrs. Gerald LaKey, Mr. and Mrs. Cecil Baxter, Mr. and Mrs. Lee Trice.

Mr. and Mrs. Alton Higginbotham, Kelly and Bryant visited his mother, Mrs. Ruby Lee Higginbotham on Saturday.

Mr. and Mrs. Horace Rathel, Broadway community, Crosby County, were Sunday afternoon visitors in our home.

The Broadway Club met last Thursday afternoon in the home of Mrs. Mansel Young for their regular monthly meeting. The demonstration was "Quick Tricks for Busy Days". Mrs. C. K. Stroup, who just recently moved into the community, and my sister, Mrs. Hershel Fields of Inglewood, California, were guests at the club meeting.

The Annual Meeting Planning Committee met last Friday afternoon for the further planning of the Annual Meeting on Saturday, April 11th, at the High School Auditorium. A very fine program is planned. Among those listed to appear on the program — Mrs. Bess Rothman Boon, nationally-known lecturer of L. A. California; Jimmy Cobb of Austin, President of Texas Electric Cooperatives, some good band music, a magician — with plenty of tricks, and a Walter Jetton Barbecue at the noon hour.

Make your plans now to attend this meeting. If you are a member it is your duty and privilege.

Among the "goodies" served at the coffee hour last Saturday in Plainview were these:

1 cup white sugar,
1 cup white wax,
Put into a good sized pan and let come to a good boil (the sure way is melted).
Add 1 cup peanut butter and stir until dissolved.
Add 4 cups Kellogg's Special K cereal.
Mix thoroughly and drop into bits on greased waxed paper.

SOMETHING TO THINK ABOUT
"Do not tell the world what you can do — 'SHOW' IT!"

Freak Accident Causes Burns To Buhman Boy

A freak accident last Saturday morning proved to be quite painful and injurious to Brad Buhman, 17 month old son of Mr. and Mrs. Keith Buhman of Floydada.

Mrs. Buhman was using an extension cord that has a three-way outlet, when Brad waded up and saw a large part of the extension lying on the floor. Out of curiosity, he picked up the outlet, and true to the tradition of the children of his age he put the outlet into his mouth.

During the process, the male part of the appliance cord slipped out of the socket, and when Brad got the cord into his mouth, the electricity burned his mouth, the corners of his upper lip and his bottom lip quite severely.

According to Mrs. Buhman, the child will need plastic surgery to repair his lips. This cannot take place for several weeks, however, because the burned portions must heal first.

LEROY DURHAM HAS SLIGHT ATTACK

Friends said he would have to be in the hospital at least ten days if all goes well.

Dougherty Club Meets In Home Of Mrs. Cates

The Dougherty Home Demonstration club met in the home of Mrs. Jennie Cates last Thursday with the program Mrs. W. J. Ross in charge.

The devotional was brought by the hostess followed by the group singing "Somebody Needs Your Love". Members answered roll call with "How I overcome an undesirable habit."

Gifts were donated to the Crippled Children's fund.

The new Hesperian election was given in a part by Mrs. Earl Edwards followed by Mrs. Carol Eastman who gave the program on Speech Therapy with the assistance of Mrs. E. H. Crawford.

The women said there are three sorts of reading: mentally educative and the mentally educable children. The best time to start children to a speech therapy is in the lower grades, one through the third. The therapist says a child can through several stages of increasing their vocal cords, such as the toothy cry, babbling, jargon, rhythm and intonation talking. True speech comes later.

Therapists stress, take time and never hurry with a child. Always be calm. You can always have a 3-year child but do you believe he or her can talk "at you" but believe at all times. Don't minimize the defects of a child, neither encourage, but be patient.

TOPS HAS TAUGHT ME By Phyllis Rickett, TOPS, Calif. There are things that TOPS has taught me. That I never knew before. Things like "Kid, you'd better know it. So you can get through the door. Things like calories do count. So its best to write them down. Things like cuttin' down the poundsage. So you'll swim instead of drown. There are other things its taught me. Things I'd like to share with you. Such as, don't you get discouraged. Never mind when you feel blue. Just hop into that jockey. Each time meeting night rolls around. Let the weigher-in-er weigh you. The recorder write it down. If you've lost, they'll be happy. If you've gained they'll sympathize. But they'll urge you to keep at it. Till your down to normal size. Above all else, be friendly. Try to help the other gal. If she's lonely or discouraged. Build her ego, be a pal. We're all in this thing together. And the object is to lose. There are times we all need babies' grandmother. Mrs. Alma Holmes in Floydada had the twins will have to remain in the hospital in Lockney for about two weeks.

Mr. and Mrs. Teague also have a son, Kent, who is 14 months old. The father attends Amarillo Junior College.

Grandparents are Mrs. Holmes and Mr. and Mrs. Riley Teague of Floydada. Great grandparents are Mr. and Mrs. Earl Bishop of Floydada.

I ENJOYED watching E. E. and Marvin Wells planting sugar beets on Marvin's farm in the Liberty community Saturday afternoon. Don Marble was helping them line out the planter. Three different implements were involved. First, E. E. drove a tractor up and down the rows that shaped and applied pre-emergence liquid to keep weeds from growing. . . then a hired hand came along with a tractor pulling a roller that packed the beds, next came Marvin with the planter.

No doubt about it, there's a mechanical revolution going on in sugar beet farming here in Floyd County and it means more money in circulation. The 250 acres of sugar beets could very easily bring checks of \$100,000 back here from the sugar beet plant.

THE FINAL official count is in and Lockney did have about 100 more at their chamber of commerce banquet than did Floydada!

However, it's easy to figure the difference . . . mainly a fellow by the name of Hubert Frizzell. Hubert just sold 400 of their 600 tickets for the banquet.

Note to the Floydada chamber of commerce: There must be something we can do to get Hubert to move to Floydada. . . let's make him vice president of something or get him a job punching cows. . . he's the type we need down here.

WE PUBLISHED a picture last week of Joe Noland making a hole-in-one and the ball going in to the cup. For Joe's sake think we should explain that the pictures were taken after he made a hole in one. Just for the record Joe made a hole-in-one on number eight Saturday before last while playing with Bill Walker, Raymond Merriwether, Mack Tavelton, Keith Buhrman and Tom Chatham. I believe number eight is 175 yards and it usually takes me five or six strokes to get in the cup if the wind isn't blowing too hard out of the southwest!

SCHOOL OFFICIALS asked that I remind parents who bring their children to school to please not use the north doorway at Andrews Ward to unload their children. This is access area for the school buses to unload. Parents should use the street in front of the school.

AN INTERESTING finale to the county fat stock show is the report from county agent Tom Davison that the show swine dressed 77 percent at Lubbock Packing. Average is 75 percent.

Person Named To PCA Nominating Committee At Annual Meeting

W. H. (Junior) Simpson was named to the 1965 nominating committee at the 30th Annual Stockholders Meeting held in Plainview, Saturday, March 7.

The growth and progress of the Production Credit system of agricultural financing in its 30-year history was cited as testimony to the success of the farmers and ranchers providing their own source of agricultural credit at the meeting.

Speaking before the 30th annual meeting of the Plainview Production Credit Association, Vice President W. H. Calkins of the Federal Intermediate Credit Bank of Houston, discount and supervisory agency for all 36 PCA groups in Texas said that in 1963 the bank closed loans for more than \$316 million, highest in its history, and the PCA of Texas now have capital and surplus in excess of \$42 million.

Three members of the board of directors were elected, two to three-year terms and one to fill one year of an unexpired term.

Re-elected to three-year terms were Don Garrison of Silverton and Henry Hayes of Plainview. Loyd Widener of Lockney was elected to a one-year term, to complete the term of L. R. Durham of Plainview, who resigned last year. His successor, Watson Jones, declined to seek election for the remainder of the term.

President Grady Shepard served as chairman of the meeting. Holdover directors are Grady Shepard of Hale Center and Billy W. Carthel of Dimmitt. Shepard and Hayes were reelected president and vice president of the board, respectively. Woodley was reelected general manager and secretary-treasurer.

Elected to the 1965 nominating committee were Jim Bob Curry of Plainview, Harlin Barber of Dimmitt, W. H. Simpson Jr. of Floydada, Carl Schlenker of Fritch, Floyd Prentice of Littlefield, Walter Little of Muleshoe, Fred Smith of Olton, Carver Monroe of Silverton and Wayne Pearson of Tulla.

DIRECTORS ELECTED — Three directors of the Plainview Production Credit Association visit following their election at the annual stockholders' meeting of the agri-

cultural financing institution, held recently in Plainview. Left to right are Henry Hayes of Plainview, Loyd Widener of Lockney and Don Garrison of Silverton.

Charity And Welfare Meet Friday, April 3

At a meeting held in the Fellowship Hall of the First Methodist Church Friday morning, fifteen people in attendance heard Gilmur Muddell of the Salvation Army Service Unit give a few ideas about how to coordinate the charity of a community like Floydada.

Muddell said that he was to attend a staff meeting at Dallas Sunday, March 15, and there he would have an opportunity to confer with staff members from other areas of Texas that faced similar problems, and would possibly have some solution to the problem.

Muddell also stated, "even though there are a number of 'free-loaders' that prey on welfare agencies, and churches, 91 per cent of the people on welfare are deserving."

Mrs. Wesley Carr, school nurse, brought to mind the fact that the labor camps in Floydada are breeding places for communicable diseases. A number of these have been noted in the school

Floyd Has Five Rural Accidents During February

The Texas Highway Patrol investigated five accidents on rural highways in Floyd county during the month of February, according to Sergeant D. S. Lawson, Highway Patrol Supervisor of this area.

These wrecks accounted for four persons injured and an estimated property damage of \$3,425.00.

The rural traffic accident summary for this county for the first two months of 1964 showed a total of ten accidents resulting in no persons killed, six persons injured and an estimated property damage of \$7,960.00.

"Fantastic? Yes, but true," stated the veteran patrol supervisor of this area. In all of its glorious history Texas reached its darkest hour in traffic fatalities during 1963 with the preliminary death count now standing at 2,703, which is 282 more lives lost than in 1962. Also, this is 92 greater than the previous all time high of 2,611 in 1956. It is estimated that when all reports are received for the year 1963, the death figure from traffic accidents will be in excess of 3,000.

At the meeting set for Friday, April 3, the group is to select some plan of action to help reduce this problem of duplicate children.

Fair Grounds To Get Additional Improvements

Five hundred dollars worth of pipe to be used toward improving the Floyd County Fair grounds at Lockney, was voted on last week in a meeting of directors held at Lighthouse Electric.

Hubert Frizzell presided over the session. C. L. Mooney is the chairman of the grounds and improvement committee.

Reports were heard from Jerry Williams on a Junior Heifer show which is open to junior boys on the South Plains. The show will meet all standards of the American Angus Assn. Williams was appointed to head the show and Kenneth Brosch will be assistant.

The Young Homemakers of Floyd County will be in charge of the Ladies Day activities in 1964. Joe Reeves is to again head the gospel singing and Mrs. J. A. Noland the old fiddler's contest. Mrs. Max Marble gave a report on the advertising sales.

Highlights From The Pioneer Days

By W. F. Culpepper
Hello folks of the Hesperian family, that is to the ones that get the paper and scan the pages and read them.

I wrote to you some time back and gave you a part of my life's background where I grew up but didn't tell anything of the Christian side.

My father and mother were both Christians. Mother wasn't able to go to church a lot of the time and the two sisters thought it too long and hot a trip for them to make on foot. I made the trip most all the time.

We were poor working sharecroppers, plowing one mule with a Georgia Stock. Well we just could make ends meet. We didn't have Christmas every day like most children do nowadays.

I think that is all I will say along that line now as I started and thought I would say a little on Christian life. As I have already said we went to church. Brother A. G. Rains was pastor then. Brother T. A. Kelly followed.

Brother Kelly lived 12 or 15 miles from the church and he had to come by our home. A lot of times he would get to our home going to church and would spend the night. Lots of times he would top with us on Sunday night on his way home Monday.

I will remember riding with him several times when I would have been glad for him to have

talked to me about the salvation of my soul. I wanted to be saved but I wouldn't make a full surrender.

I went on this way for quite a while. I would try to pray. I would get down on my knees beside tree stumps and try to find God but couldn't. But I didn't give up.

My father read the Bible most every night and had prayer. But one day there was a bearing on my heart and life and I just walked down the slant past the barn, then up another slant in a pine grove. There I gave myself over to the Lord and on Sunday right following I joined the church.

That was in Alabama. More than 60 years have passed since that date. I haven't lived a true life for God and my Saviour but there has been a turning point all the way.

Let's back up a little. I lived in that community some four or five years. Then I went to another community some sixteen miles. There were two Baptist churches closer than Providence but I didn't join either of them. I was working for a man for

wages at \$10 a month, so I worked one or two months. I don't remember how long, and Oh I was homesick. Not so much to see mother and dad but to be back at the church with the people that I knew.

Sure I wanted to visit the folks and be with them. Yes it was all right for me to have a mule to ride.

Well after that I would ask for one and if it was all right to ride one. And you know that I was never denied that whole year.

The other three Sundays I would drive the team to church there close by and carry all the boys and girls. The father didn't go with us. He would walk and go to another church in another community and of course of another belief.

Then after that second year I was with him he sold out and came to Louisiana. It was getting late in the fall and all land was rented. I went on some forty miles farther and as it happened, a brother-in-law to one of the men that came on the same train as I did had bought a little farm and I rented it. This man had already rented from another and let me have what he had bought.

I went to church at two or three different places, but didn't join. That year made a good crop.

The Lord was good to me. I finished gathering and selling December 24 and left there the 25th to go back where the people were that I came with.

So I rented land and joined the church. It was several miles to the church over rough roads. That was 1905 but we managed to ride over those roads for five years.

People kept coming into the community, so in the spring of 1910 we decided to organize a Baptist Church and, of course, we needed a Superintendent. Well, there weren't many to choose from, just nine in all.

But the preacher that helped in the organization agreed to hold week's revival. That week closed with the church having about 36 members, and I was elected Superintendent.

In the summer of the same year we held another revival and closed with a membership of 87. Now the church is still going and the membership is about the same.

In 1924 I came to Floydada and in 1926 we organized a little Baptist Church out here close to Dougherty. There wasn't any Dougherty then, it was Mayview. That was in 1925 and, if I remember correctly there wasn't but 6 or 8 in that group. I can't see PIONEER Page 3

Prayer In The School

A recent Gallup Poll showed more than 70 per cent of Americans questioned endorsed the idea of prayers in public schools.

A number of Capitol Hill lawmakers profess to see a trend toward adoption of a proposed Constitutional amendment allowing voluntary prayer and Bible reading in public schools.

In that connection, a nation-wide movement to marshal and mold public sentiment for winning approval of such an amendment has been launched in Hollywood, California.

Known as Project Prayer, the organization is backed by prominent movie and figures.

The growing tide of opinion must be crystallized and expressed to state legislatures and to Congress with an overwhelming show of strength if Project Prayer is going to be successful.

The people — through their elected representatives — will, in the end, decide this question.

In the meantime, there's nothing wrong with prayer in the home.

Defeat In Vietnam?

A phrase that comes to memory from the inaugural address of the late President Kennedy is the candid and all to prophetic one in which he warned that things will get worse before they get better.

Nothing could have been more prophetic, it would seem, concerning this country's predicament in South Vietnam.

Operating in a sort of military "twilight zone" dictated by existing policy, American forces have not been permitted to do enough to win the war — merely enough to keep it going.

The result has been a series of setbacks, both military and political, which have done Uncle Sam no good either at home or abroad.

A deterioration which began under the Diem regime before his overthrow has not been arrested since and there seems little solid reason to anticipate a change for the better.

Recognition of that grim fact of life could account for Defense Secretary Robert McNamara's recent disclosure that this country will withdraw much of its force from the area by the end of next year.

And it could suggest the Administration has a major policy shift in mind as concerns the troubled Asiatic country, which would be an admission of mistaken policy in Vietnam.

A Person Can Hit That Which He Cannot See

By C. A. DEMPSEY
Texas Highway Patrol

"You cannot hit what you cannot see", is true on a ball diamond, but you can hit what you cannot see on the highway.

The eye is like a fast camera, flashing 30 to 40 pictures to the brain every second. The eye uses two different types of detecting equipment. One is fringe or peripheral vision. When looking directly ahead, it allows you to see both sides. Fringe vision does not allow you to see anything clearly or in color. It is fuzzy, out-of-focus, but it does many jobs. It picks up objects, lights and movements in the upper, lower and side range of vision. It is in effect a scanning device that helps you select the objects upon which to focus.

The second type of detecting equipment is central vision. It is a narrow three degree cone of clear vision, your sharp central sight. The central vision sees things sharply and clearly and in color. In using central vision you are focusing your attention directly on an object. Your fringe vision could be termed "detection vision", while your central vision serves as "identification vision". To demonstrate your two vis-

ions, pick out the bold underlined word in the next paragraph. Fix your eyes on it. You will not be able to read the words next to it. That is your narrow central vision in action. It is used to great advantage by speed readers who have learned to scan whole pages in seconds.

This scanning process is also used when driving. As the wheels turn, the picture changes every split second. DEMANDING drivers' eyes to stay right with it. Trouble starts when correct seeing stops while vehicle wheels are still turning! When you are alert, your attention shifts automatically at least every two seconds as you drive. When you allow your eyes to hold on something longer than two seconds, a dangerous fixed stare results. The blank stare is even more dangerous since the mind is not interpreting the images sent by the eye. This is most apt to occur when you are preoccupied or inattentive.

Most of us trust our eyes. Seeing is believing, we say. But this is blind faith if we have not developed correct seeing habits. We are trusting a mechanism, our eyesight, that has not been properly trained for driving.

Everyone Hates The Editor

An editor who takes a firm stand on controversial issues, and tries to print all the news in an unbiased manner, may be respected (in a fair-minded community) but he will never be popular.

Sooner or later such an editor will tread on the toes of everyone who reads the newspaper, be he friend or foe, neighbor or stranger.

Prime sources of an editor's woes are weddings, obituaries, police and court news. The description of grandmother's dress must be included in the wedding write-up and uncle Joe's favorite poem must be appended to his obituary or the editor is an unfeeling barbarian, not fit to associate with genteel human beings.

Persons whose names appear in the court news usually fall into two classes — those who were badly mistreated by the law, and those who admit guilt but want to protect someone else by keeping their name out of the newspaper.

This desire to protect dear old mother who has a bad heart, or the grandchildren in school, or the minister from embarrassment, has led people to offer us bribes, threaten us with mayhem and check the possibility of filing a libel suit.

We have often pointed out that we don't make the news, we just print it. All anyone needs to do to keep his name out of the court news is to stay out of court.

Other ways to incur the wrath of readers are: Disagree with them on a school issue; misspell their names; give another church more space than you do their church; refuse to print an item so old it has long since ceased

to be news; decline to work at night on a rush printing job for someone who would have ordered it out of town to begin with had he not been in a hurry; suggest on the fourth or fifth statement that you would like to be paid; decline to print all the personal letters, magazine articles and other material people bring in; get poor reproduction of a poor picture, etc., etc., etc.

We sometimes think what really irritates readers is the crusty old editor's steadfast refusal to drop dead. That seems to be the only way to please a big majority at one time.

SAVINGS BOND QUIZ

Q—I married recently and want to know if I can add my wife's name to my Savings Bonds?

A—Yes, either as a co-owner or a beneficiary. Use Form PD 1787 which can be obtained at many banks or by writing the Bureau of the Public Debt, Division of Loans and Currency, 536 South Clark Street, Chicago, Illinois 60605.

Q—Why was my 1964 insurance dividend so much lower than 1963?

A—The dividend paid in 1963 included a special dividend in addition to the regular dividend. Only the regular dividend was paid in 1964.

Inspection Deadline For Vehicles Rapidly Nearing

The time is almost here—April 15th is the deadline for having your 1964 Motor Vehicle Inspection sticker displayed in the lower right hand corner of your windshield. Only 50% of the 604,389 registered vehicles in Region No. 5 of the Texas Department of Public Safety have visited safety inspection stations and obtained their 1964 safety inspection sticker, according to Captain Alan Johnson, Motor Vehicle Inspection Service of the D.P.S.

"Residents of Floyd County own 8,716 registered vehicles and 4,350 have not been inspected as yet," Johnson said.

"Under the law there can be no extension of the deadline, and motorists who fail to display the new sticker on and after April 15th are subject to arrest," he said. Authority for the enforcement of the provisions of the Motor Vehicle Inspection Act is vested in any Sheriff or Deputy Sheriff and City Policeman as well as the enforcement officers of the Texas Department of Public Safety.

According to Captain Johnson there are 12 state approved inspection stations located in this county, and many motorists are going to find long lines awaiting them as the deadline rolls nearer.

He added, "It is as much a violation to display an old sticker as not to have one at all. The law provides a fine of from one dollar to two hundred dollars plus court costs for operating a vehicle registered in Texas subject to the Motor Vehicle Inspection Act without a valid current inspection sticker."

Floyd County 14 Years Ago

(March 9, 1950)

Canvass of election held yesterday by Floydada Rotary Club indicates that Hollis R. Bond has been elected president for the year beginning in July.

Six of the seven sons and daughters of W. A. Cates were present at a family reunion held in the Cates home Sunday. Member of the family not here was Mrs. A. M. Fowler of Happy, who was unable to attend due to ill health.

Dorothy Jeanne Battey, daughter of Mr. and Mrs. D. S. Battey, has received high praise from Dr. Clement, registrar of Texas Tech. Dorothy Jeanne is listed on the college honor roll with a straight A report card. Miss Battey is a junior and an arts and science major.

Veteran's Ask

Q—I recently received my GI insurance dividend check. I am now drawing 100 percent service-connected disability, and because of this, I have a waiver on my insurance premiums. Since I do not pay anything into the insurance fund, should I return the check?

A—No, the money is yours as long as you continue to have 100 percent disability.

Q—May a child in training under War Orphans Educational Assistance Act pursue summer school for about two months during the next two summers without jeopardizing full entitlement for four full school years of college training?

A—It depends. If each regular school year begins approximately September 15, and ends approximately May 15, only eight months entitlement will be used each year, leaving entitlement for enrollment for the two summer sessions. A longer regular school year would leave less entitlement time.

Q—Why was my 1964 insurance dividend so much lower than 1963?

A—The dividend paid in 1963 included a special dividend in addition to the regular dividend. Only the regular dividend was paid in 1964.

Floyd Philosopher Claims He Farms On Congressional Level And Is In Committee

Editor's note: The Floyd Philosopher on his Johnson Grass farm defends his farming methods in an odd way this week.

Dear Editor:

A friend of mine visited out here on this Johnson grass farm the other day and looked the place over and then asked: "Tell me, how come you didn't work that field over there last year?"

Contrary to what you may think, if you look hard enough you can tell which fields of mine have been worked and which haven't.

"Why," I said, "it never did get out of committee."

"Out of committee?" What do you mean?" he asked.

I could see he was grossly unfamiliar with both Washington and this Johnson grass farm, so I didn't explain to him, with a man like that there's no place to start, but here's the way it works.

I farm on the Congressional level. I don't just get up in the morning and say, I believe I'll do such-and-such today, review the plan, argue it with myself, debate the issue, then vote on it and proceed to act. No sir.

I send it to a committee.

But you don't send a matter to a committee this morning and expect to get a decision this afternoon. First you have to check the calendar and see when the committee can consider it. Generally, me and Congress, have found, this is at least a month off, sometimes four or five.

Then when it finally gets to the committee, the chairman can stall if he doesn't like the bill, pigeon-hole it, take off for Europe, etc. I know exactly how he

feels. I'm chairman of all the committees on this farm and there are lots of things that come before me that I have a great distaste for, and the longer I car stall the less I have to plow. Plowing and voting in a row area are two things a farmer and a Congressman don't want to do as long as they can be put off.

Now some people think my fences are down or the roof is leaking or the weeds in season are too thick because I'm lazy, but that's not it at all. Those things are still tied up in the committee.

Yet I can hear my friend saying now, if he reads this, "Yeah, but why doesn't he start a year ahead, why doesn't he start a year's farm plans to his committee this year, so he can be ready to plant when the time comes?"

There's no excuse for this type of ignorance. Hasn't he ever read a newspaper or listened to

TRUDAN I

the true sudan hybrid from Northrup King

Trudan I grows surprisingly fast... reports of one and three inches a day are not uncommon. Its recovery after grazing is almost unbelievable; it sometimes grows at almost twice the rate of ordinary sudangrass. Trudan I is very palatable, produces well as a pasture crop, hay, silage, or green chop. Its yield potential is tremendous wherever ordinary sudangrass is grown.

Curfew Set In Lockney For Young People

A city ordinance at Lockney has been passed calling for a curfew for young people under 18 years of age, prohibiting their presence on the city streets between the hours of 11 p.m. and 5 a.m. City officials there said the ordinance was passed because some teenagers were found rearing the streets as late as 3 and 4 a.m.

The ordinance went into effect immediately. Persons under the ages of 18 found in or around any public grounds, public places or public buildings, except when engaged in lawful employment, unless minor is accompanied by parent or guardian or upon an emergency errand or legitimate business directed by parents, will be dealt with in accordance with the juvenile court law.

Conviction may bring a fine of not less than \$5 nor more than \$200.

The ordinance places responsibility on the parents, making it unlawful for parent or guardian to "knowingly permit" the teenager to be out during the hours set forth in the instrument.

County ASCS News Letter

by Tom Hutchins
REAPPORTIONED COTTON: Floyd County received 8932.4 acres of cotton for reapportioning to farms in the county. In order to receive this additional cotton, a request must have been signed by March 4, 1964. The notices of the increase will be mailed in the next few days.

BREAKING OUT NEW LAND: The regulations relative to breaking out new land in 1964 have changed twice since the program came out. It now reads that any new land put in cultivation in 1964, plus any new land put in cultivation in 1963, will be added to the farm conserving base, which must be devoted to a conservation crop or land use if the farm is participating in the 1964 Feed Grain Program. Conserving base acres cannot be planted to castor beans.

1964 BARLEY ACREAGE destroyed prior to May 11, 1964 must be reported to our office by such date or the acreage will be considered feed grain in determining the total feed grain acreage for a farm in connection with the 1964 Feed Grain Program.

COTTON PREMEASUREMENT SERVICE will be made available through our office to each farmer requesting this service and paying the required service fee through March 31, 1964. This service is available only on cotton. The charge for premeasuring is:

\$10.00 per farm plus 5.00 per plot over 1 plus .05 per acre of cotton allotment plus .09 per mile of travel.

1964 FEED GRAIN SIGNUP: Approximately 50 percent of the Feed Grain farms in Floyd County have signed to participate in the 1964 program. A majority have signed to reduce 40 percent or more of their base and receive the increased payment rate.

March 27, 1964, is the final date to sign up. If you have not signed up and intend to do so, please do not wait until the last day or so. Sign up now and avoid the late rush.

CHANGE IN REGULATIONS: If a producer signs up to divert at least 40 percent of his feed grain base to substitute crops (Castor Beans, Sesame, or Guar) the payment rate has been

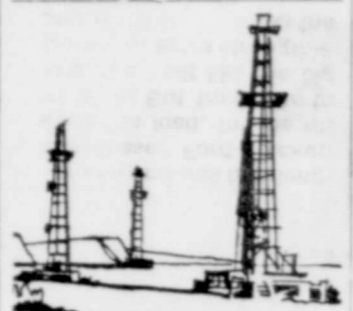

changed to 50 percent of the lowest additional diversion rate for the farm.
 Producers signing to divert less than 40 percent of their feed grain base will continue to be paid at 50 percent of the minimum payment rate for the farm.
 If you have signed up in the program to divert less than 40 percent of your feed grain base and plant this to castor beans, you may wish to change your intentions to divert 40 percent or more and draw the additional rate. This must be done by March 27, 1964.

ZIP CODE NUMBERS: Our office, in cooperation with the Post-Office Department, is in the process of including on our address labels the Zip Code Number for each address. We will therefore appreciate your cooperation by including your Zip Code Number in your return address on all your correspondence to our office.

Patience is a most necessary quality for business; many a man would rather you heard his story than granted his request.
