Four Run-Offs On Tap For Second Primaries Saturday

Reasons Are Numerous For Casting Ballots

Ever stop to think that there are more reasons than one for casting a vote in any general election?

Of course, every American is convinced that this is the way to keep the people that they want in the controlling positions. Or not to have someone we don't want running the local business of any county, community or other group.

Are you aware of the fact that the number of delegates going to a state Democratic convention or Republican convention from a local area is governed by the number of people voting in the last Governor's race?

For example, Floyd County is allowed to send one delegate to the state Democratic convention for every 300 votes cast, or major portion thereof, in the party in the last gubernatorial election.

In November, there are 2,400 votes cast in the governor's race on the Democratic ballot, then in 1966 Floyd County would be eligible to send 8 voting delegates to the state convention.

The same is true of the Republicans. There is one delegate from Floyd County for every 300 votes cast in the last governor's race on the Republican ballot.

One can see from this that his or her vote helps to keep the government rule on a local basis.

So, Saturday, June 6, get out and vote; it's more than a duty, it's a privilege.

Interest On 2 Local Deadlocked Contest

The last of the primary action will be concluded this Saturday, June 6 when the Floyd County residents go to the polls and determine the winners in three Democratic run-offs and one Republican contest.

When the final ballots were counted it was found that two county offices were left unfilled because none of the candidates won a clear-cut majority and one state office on both the Democratic and Republican tickets remained unfilled.

BULLETIN!

Word was received late Wednesday afternoon that the Floyd County Livestock Judging team won first place at College Station at the 4-H Club Round-up with a team score of 1649. Team members are Bob Kropp, Ricky Kellison, Larry Golden and Neil Mitchell. Kropp was second high individual in the statewide contest.

On the County Democratic ballot, some precincts will have three run-offs and some only two. Precincts one, two and four will vote only for tax assessor and collector and for Congressman-at-large. Precinct three voters must select a commissioner in addition to the other post named.

The Republicans will vote only for U. S. Senator. Joe Pool, incumbent Congressman-at-large will face Robert Baker in the June 6 primary, and the winner will then run against Republican Bill Hayes in the general election in November. Hayes has made a personal appearance, termed a "coffee stop", in Floydada recently.

A runoff is set between C. J. Payne and Carl Jarrett, both of Floydada, for Floyd County Tax Assessor-Collector.

The candidates still in the race for Commissioner of Precinct 3 are Carl Plummer, who has been the commissioner there for a number of years, and John Key West, of South Plains.

The Republicans will vote for either Jack Cox or George Bush for U. S. Senator and the winner of the June 6 runoff will then attempt to unseat Ralph Yarborough, who will complete his first full elected term in that office.

Local Resident Dies In Dallas Of Heart Attack

Clay Black, 63 year old resident of Floydada for the past ten years, died Tuesday morning about 3 o'clock of a heart attack in St. Paul's Hospital in Dallas, north of Dallas, when he became ill.

Mr. Black and his wife were accompanying their daughter in the car when he complained of feeling ill. They stopped at a drug store where an ambulance was summoned and the ill man was rushed to the hospital. Mr. Black suffered a previous heart attack several years ago shortly after he and his wife moved to Silverton. They returned to Floydada and Mr. Black was seriously ill again some two years ago but he had regained his health and doing well before being stricken Tuesday.

Funeral rites were conducted yesterday in the Church of Christ at Eldorado, Okla., former home of the deceased. Herman Alexander, minister of the City Park Church of Christ in Floydada, assisted the Eldorado minister.

Mr. Black was a cotton buyer for George Cochran of Lubbock. He was a member of the City Park Church of Christ and was born in Oklahoma.

Survivors include his wife, Mrs. Black.

Amarillo Court Of Appeals Hears Floydada Tax Suit

Amarillo court of civil appeals judges James G. Denton and E. O. Northcutt heard attorneys for the plaintiffs and defendants in the Floydada school tax suit Tuesday and their judgement of the appeal should be forthcoming in the next two weeks.

The appeal centered around the plaintiff's belief that Judge E. A. Bills should not have released the 1963 school tax roll for collection in his decision of last November.

The defendants (school board) maintain that the school could not operate unless the tax roll was released.

In the Tuesday hearing local attorney Ben Ayres represented the defendants; Pittsburgh, Texas attorney W. D. Hancock and Plainview attorney Harold LaFont represented the plaintiffs.

Plaintiffs attending were Ed Brown, Fred Brown, D. M. Cogdell, W. M. Massie, Frank Pro-

besco, E. E. Wells D. S. Battey David Battey, Jr., Mr. and Mrs. Henry Price, Robin Fortenberry and John Lloyd.

The deficit could be larger, depending on how many acres farmers have plowed up to comply with acreage allotments for this year's new wheat program.

This analysis took into account that wheat production prospects are better this year in both Western Europe and Russia. Poor crops last year forced them to increase imports from the United States and other wheat exporting countries.

The 1964 crop is now indicated at 1,275,000,000 bushels, but could be lower. The combined domestic and export demand is forecast at 1,320,000 bushels. This latter figure assumes exports of around 700,000,000 bushels compared with an indicated \$30,000,000 from the 1963-crop supply.

US Wheat Shortage Predicted

WASHINGTON — The Agriculture Department said today market prospects indicate this year's wheat crop will fall at least 45 million bushels below demand.

The deficit could be larger, depending on how many acres farmers have plowed up to comply with acreage allotments for this year's new wheat program.

A-Day Set At Davis Farm Supply Store

A-Day, that is Appreciation Day, is set at Davis Farm Supply in Floydada at which time \$50 in cash will be given away to some lucky customer of Davis Farm Supply, June 30, 1964, according to Louis Bearden.

According to Bearden, A-Day is just one of the many ways the

heavy object to be moved, such as a concrete porch that has been broken into small enough pieces so that it can be handled by hand. In the past very large objects have been placed for pickup that were entirely too large to handle.

On the days the workers will pick up the trash in the alleys they will need any number of dump trucks, flat bed trucks, front end loaders, winch trucks and probably a number of pick-ups. Anyone who wishes to volunteer any of this equipment for these days should contact Wayne Bennett, the Chamber of Commerce, City Hall, or the Hesperian. From these points it will reach the proper personnel.

Please note: When a person cleans their yard, or has some object they would like to have moved on those days, please place them right at the side of the alley and not in the alley. If the objects are in the alley, it blocks the route of the trucks, front end loaders, or equipment that may be used on that day.

Passage Of Two Proposed Bills Could Unionize All Farm Labor

At a time when the Bracero Program was coming once again into the spotlight, as far as Agriculture Legislation is concerned, two more ominous bills began to hang over the horizon of American Agriculture, according to Ed Dean, labor specialist for the Plains Cotton Growers in a recent statement.

The Bills are pushed by Sen. Harrison Williams of N. J. who heads the Senate Migratory Workers Committee.

The two bills, S-528 and S-529, relate to minimum wages and collective bargaining for farm workers respectively.

The first states that any farmer employing more than 500 man-days of hired farm labor during any one of the four preceding quarters of the year would be required to pay his hired workers not less than (1) 75 cents per hour the first year after the bill became effective; (2) 85 cents per

hour the second year; (3) \$1.00 per hour the third, and (4) the rate established by the Wage and Hour law (now \$1.25) thereafter.

However, maximum hourly provision of the Wage and Hour law (40-hour week) would not apply to the farm labor.

The other bill, S-529, would extend to agriculture the provisions of the National Labor Relations Act as it applies to the contract on industry.

For example, it would require a farmer to recognize a union as the bargaining agent for his workers and to enter into a collective bargaining contract with the union.

The contract would then be enforceable by the National Labor Relations Board and the Federal courts.

The terms of this farmer-union contract could:

(1) Establish a union hiring hall by requiring farmers to fill

was stricken at the age of three and a half while the family lived at Fort Worth. After eight months in a Fort Worth hospital she was sent to Gonzales Warm Springs where she remained a year. Braces were applied there and she was taught to walk.

She has been attending Ballinger schools the past 11 years with the exception of two times because of operations for curvature of the spine in Scottish Rite Hospital, Dallas. She spent 15 months in a cast and still returns to Dallas for checkups.

When Jo Ann entered high school she wondered how she would manage the stairs. But that wasn't any problem at all. There were always students to help her.

The stairway obstacle was overcome in high school by the invention of human escalators supervised by Jo Ann's close friend, Joe Forester, high school principal. Jo Ann's chair was carried up the stairs and the act was all but on a competitive basis to see who could be the first to clasp the handles and ascend the stairs. This tradition continued for four years.

Mrs. Green provides transportation to and from school with the help of Jo Ann's sister, Mrs. Tom Simmons and Mary Lynn Green.

In high school Jo Ann was active in Future Homemakers of America and served as an officer for three years in the chapter. She also served on the Student Council.

With the help of Mr. Forester and a longtime friend, Helen Murphy, Jo Ann made the senior trip to Corpus Christi. She hopes to go to college in the fall.

At home Jo Ann is able to keep her room neat, does her own ironing and helps with the dishes at night. She has four sisters.

Jo Ann is active in the Seventh Street Baptist Church in Ballinger and is also a member of the Young Women's Auxiliary.

Muncy Family Helped Greatly The Development Of Floyd

The following is a summary of the early history of Floydada as told by the late Mrs. R. E. L. Muncy, now 85 years of age, who was born in the town of Muncy, Pa., and came to Floydada in 1897. She has lived in Floydada for 67 years.

westward over dim trails, with one of the guides going ahead to locate the campsite for the next day, while the other one guided the wagons to the campsite he had chosen the previous day. They moved on to Benjamin, then onto the prairie land west and near Guthrie. It was at this point that they lost their horse herd, but was recovered by some cowboys, who rounded them out of the mesquites, several days later.

Then they moved along to Boaring Springs to make camp and rest for a few days. At this place the wagons separated, to go to different parts of the country. The party of the young couple traveled north - westward and came onto the plains near the "Quitaque Peaks" August 14th and arrived at Rev. Muncy's brother's place, east of the Cedar Hill community.

more cattle and broke out land for feed and other crops. He hired a farm hand for twelve dollars per month. The Santa Fe Railroad was built into Plainview, so in 1908 he freighted lumber from there and built a new home. The country was settling rapidly as the coming of the railroad had made a trading place where coal, lumber and other supplies could be purchased. Life began to be made easier for the settlers. Schools were centrally located, so all children were not too far from a school.

have some improved pasture you should be giving it a bite to eat in the form of some dry fertilizer before you water it next time. Help the old and new growth alike. Animals are looking better every day in the field around the country and I think, myself, they are going to be real good this year here in Floyd. There are several things that continue to this indication. If you have any young or late wheat the thrip real close so they won't hinder growth or maturity. The wheat ripening more every day, the thrip moving in on this young cotton. So, keep a eye on the cotton crop. There is lots of silencing cotton around. This is due to insect damage the first fleas today, so don't let either the flea get a good buildup in your field before you spray. I am of the belief that the early flea are more damaging to cotton than the late ones. Let's join forces and keep them out of your field. There is a lot of flaming being done now, due to the fact that the propazine failed to give the control that I saw some real pretty work done at South Plains yesterday. If you notice the plants being flamed turning a yellowish brown, you are alarmed, it isn't hurting the maize at all. Flame is only extracting the Chlorophyll out of the plant (or the color). It will be restored within four days and you won't be able to tell any difference in the plants. A farmer who doesn't like flame cultivation is giving the "Bi-Fluid" the second look. The way you can control the weeds and grass is by spraying. It sure looks good to me due to some of the corporations that are going to be added in as far as to do a multiple job. You should have any spot spraying in your cotton to get the thrip out of the past has given real good results. You should be watched for cut worms, your plants should be checked for thrip and trees and shrubs for insects.

They then moved west to section 30, Block "G", one mile south of the town of Mayshaw. They also moved their 2-room house and the lumber from the half-dugout to this new location. This was in the fall of 1897. They waited until 1899 to file on the land at one dollar per acre. After becoming located at this place, the father began to turn his time to preaching and helping to develop the new country, while the mother kept the home fires burning.

At first, he traveled horse-back, with a pair of saddle bags, to meet his church appointments. This mode of travel was replaced later with a horse drawn two-wheeled cart, then the hack, drawn by a white mare and a gray mule. He preached over most of the Plains and along the Caprock.

Times were hard then as there was no farming, and the "Nester" made his living by freighting goods to Childress, to get money for most needed supplies. Fuel consisted of cow chips, together with some wood that was cut in the breaks. The women dried corn, pumpkins and other vegetables and fruits for winter food. As the country began to develop the father found a broader mission field, preaching at most of the more than forty school houses in the county, and a large number of adjoining counties. He was also instrumental in organizing a number of churches. He and his wife helped to organize the first Sunday School in Floydada and later at Mayshaw.

By 1902, two more boys were added to the family, making five boys. These were Roy and Bob Muncy. Churches were being organized in the different communities. The father traveled extensively to meet with his churches as pastor. Sometimes he would travel as far as seventy miles round trip, and be gone from home over a period of four days. Sometimes he would receive five dollars for it. The wife and five small boys stayed at home and raised a small herd of cattle, as the range was wide open. But there was little feed so it was hard to winter the cattle. Their home became the center for travelers, and the young people of the community. They were most welcome and the mother was a gracious hostess. The father, when at home, took part in the county affairs, and also carried on farming on a small scale. He sowed wheat in 1901 and planted some cotton a few years later. They raised

During this later period telephone lines were built to Lockney and Floydada. The free grass was being fenced and better hedges replace the dugout. Hacks took the place of wagons, and coal was being used for fuel. The Santa Fe then built their road on to Lockney and Floydada in 1910. The country was ready to start its extensive farming growth, with a market. The five sons grew to manhood, married, and four of them are residing here now. The father and mother who left Slidell in 1885, rest in the Lockney Cemetery. They have fought a good fight. Muncy concluded his talk with, "That boy stands before you, feeling it a great honor to be elected your president of the Old Settlers' for the year 1964. Thank you all".

Homebuilders Meet In Home Of Mrs. Bertrand

Homebuilders home demonstration club met in the home of Mrs. F. Bertrand on May 26. Mrs. Leslie Fawver called the meeting to order. Mrs. Bertrand gave the devotion from Matthew 12:37 followed by members answering the roll call with a beauty of nature they enjoy. Mrs. Shirley Race read the minutes.

The council report was given by Mrs. Fawver in place of Mrs. O. G. Mayfield, council delegate, who was in Fort Worth due to illness in the family.

Miss Sherry Mullin, HD agent, brought a demonstration on freezing main dishes, tips on preparing and freezing eggs, tips on freezing cooked foods, salads, baked foods such as bread and rolls, baked cakes and pies and those unbaked, cookies, baked and unbaked, sandwiches and tips and tricks with your food freezer.

Miss Mullin then baked and served a casserole dish, Chicken Divan. She used two 10 ounce packages frozen broccoli or two bunches of fresh; two cups sliced chicken or three chicken breasts, cooked or broiled; two cans condensed cream chicken soup; one cup mayonnaise; one tsp. lemon juice; one-half tsp. curry powder; one-half cup shredded sharp process cheese; one-half cup soft bread crumbs; one tsp. butter or margarine, melted.

Cook broccoli in boiling salted water until tender, drain and arrange stalks in greased baking dish. Place chicken on top and combine soup, mayonnaise, lemon juice and curry powder, pour over chicken. Sprinkle with cheese and combine crumbs and butter, then sprinkle over ingredients. Bake at 350 degrees for 25 to 30 minutes. Trim with Parm. Makes six to eight servings.

Miss Mullin also made and served strawberry cream pie.

Members present for the meeting were Misses, Leslie Fawver, Shirley Race, P. F. Bertrand, Raymond Evans, W. R. Daniel, Ernie Widener, Harmon Roberts, Raymond Williams, John Burns, O. G. Mayfield and Mrs. C. C. Burns, who was back after a long absence due to illness and Miss Mullin.

TO THE VOTERS OF PRECINCT 3

I take this method to ask for your support in the coming run-off election Saturday, June 6. Most of you know me, but to those who don't, I would like to say that I am a native of Floyd County. I am fifty-three years old and am married, have four children, one daughter and three sons, who are associated with me in my farming operations.

Since they are in partnership with me, this will allow me plenty of time to devote the time so necessary for the carrying out the duties of the commissioners job.

I am a graduate of Floydada High School, a graduate of John Tarleton Ag. College where I majored in agricultural education. During my senior year I was president of the Student body.

I have lived in the South Plains community for 31 years and during this time it has been my good fortune to serve my community in many capacities. Also I have been able to serve on many farm organizations, always working for the interest of the farmer and a better market for our products.

I have been active in church and civic affairs, being a trustee of the Methodist church, and having served on the governing body on numerous civic organizations. I was an organizer and have served on the board of directors for ten years of the Caprock Gas Assn., one of the largest of its kind in Texas.

I have been moderately successful in my profession and feel that I am well qualified to be a member of the governing body of the county. It is my desire to work for the people of Precinct 3 as well as the whole county.

Should you choose to elect me as your commissioner I have just one promise to make and that is: I will do my best at all times to take care of the duties in a business-like manner, with favoritism toward none.

I ask your careful consideration in the June 6 election. Thanks.

Double Ring Vows Unite Miss Shore, Craig Edwards

In double ring vows read last Thursday afternoon at 3 o'clock Miss Betty Lorain Shore, daughter of Mr. and Mrs. Melton Shore of Petersburg, became the bride of James Craig Edwards, son of Mrs. and Mrs. Wilson Edwards of the McCoy community.

An arch of white candles in milk glass containers enhanced by white gladioli formed the scene for the nuptial ceremony read by Rev. Lynn Fisher. The marriage was performed in the Lubbock home of the bride's sister and husband, Mr. and Mrs. Earl Eubanks.

The bride was given in marriage by her father and was attired in a white lace shift fashioned with a pique collar and trim. She wore a matching hat with a brief veil and carried a white carnation corsage atop a white Bible.

Miss Judi Busby of Petersburg was maid of honor. She wore a street length dress of blue silk organza designed with a fitted waist, and a full skirt featuring a large bow.

Randy and Cindy Eubanks, nephew and niece of the bride, were candle lighters. Darrel Lindsey served as best man.

A reception held in the Eubanks home followed the ceremony. The bride's table was covered with white lace underlined with aqua. A centerpiece of blue lilies of the valley and white candles, and appointments of milk glass and silver completed the setting.

Lockney Man To Head Processing Plant At Kansas

LOCKNEY (Special) — Jack Ford, Lockney, has been named superintendent of Paymaster's new sorghum processing plant being built near Leoti, Kan., according to Dr. Harold Loden, general manager of Paymaster Seed Farms at Aiken.

Ford has been an employee of the Paymaster seed plant at Aiken for the past 2½ years and has served as plant superintendent. He is a graduate of Lockney High School and is the son of R. H. Ford. Jack and his wife, the for-

mer Vickie Cook, have two sons Kevin and Denn.

The new research center and sorghum seed processing plant is located at a 150-acre farm two miles east of Leoti, only 38 miles from the Colorado border.

It is scheduled to be completed by fall and will be used to supplement the extension research and development program now being conducted in Mexico, Argentina and a number of locations within the United States.

This new location will provide facilities for investigation of new products and development of products with particular adaptability to the Central Great Plains area, Loden said.

Lockney Teacher Resigns Post

LOCKNEY (Special) — C. M. Cheves, in the teaching profession for the past 33 years, the past nine years as principal of the Lockney Junior High School, recently resigned to move soon to Lubbock.

His contract had been extended to 1966 by the Lockney school board, but Cheves, who owns property in Lubbock and Amarillo, decided to move to the Lubbock area, he said.

Mrs. Cheves is a fifth-grade teacher, and a daughter, Mrs. Paul Thomas, teaches in the Sherman public schools.

When Cheves arrived in Lockney in 1935, 135 pupils were enrolled in junior high school, and only six classroom units were in existence. Enrollment has grown to 326 students with 10-ful-time

teachers and three part-time teachers.

NEW LINE—City workers were caught by the photographer last Thursday morning putting in a new line. In the past one line had served all of Virginia and Jackson streets and all the area north to White street and served the area west of White. Now the old line served only Virginia and Jackson, and the new line services the southwestern part of the city. (Staff Photo)

Politics

(Continued from Page 1)

According to Ben Ayres, County Democratic chairman, all 20 Democratic voting precincts in the county will be open for the June 6 primary.

The Republicans on the other hand, will leave only two voting boxes open, one at the Agriculture Building in Floydada and the other at the Wofford Manufacturing Company Building, on Highway 70 in Lockney, according to John Farris, Floyd County Republican Chairman.

It should be noted that those who voted in the Democratic Primary May 2 cannot vote in the Republican primary June 6, and vice versa.

However, those who did not mark a ballot in the May 2 primaries and are eligible voters wishing to vote June 6 may vote in either of the primaries they desire.

According to Margaret Collier the Floyd County Clerk, two Republican absentee ballots were cast and about 65 Democratic ballots. Tuesday at 5:00 p. m. was the final day and time to vote absentee in the June 6 primary.

Hospital. He suffered a second attack Monday and the fatal one about 4 o'clock yesterday morning.

Moore Funeral Home was in charge of local arrangements. The body was taken overland to Vernon where funeral rites were pending at this time. The family said tentative plans were set for Friday at the Zion Lutheran Church in Lockney, Tex., with burial in Vernon. The body is at Henderson Funeral Home in Vernon.

Mr. Schulz was born on December 28, 1893, in Warder, Tex. He and the former Zelma Schoppa were married at Vernon 48 years ago. Mr. Schulz was a retired farmer and a member of the Zion Lutheran Church.

Survivors include three sons, Arthur of Vernon, Monroe of Harmony and Leroy of Rockdale; seven grandchildren; five brothers and four sisters.

and the wide range of efficient levels among farm workers precludes the setting of a minimum wages that would be equally just for all workers and all employers.

Similar attempts to unionize agriculture workers and bring them under Federal minimum wage laws (many of them fathered by Senator Williams) have been made in the past and Congress has exercised admirable good judgment in turning thumbs down on all such proposals.

According to Dean, there is talk that the Senator plans to tack the two bills onto the tail of President Johnson's anti-poverty bill, in which case they would tend to become lost in the hickering over the relative merits of the anti-poverty program, party politics and pressure from the Administration.

Dean said, "Very few, if any, bills relating to farm labor have ever been propounded with greater potential for injury to the American Farmer, and here will be an excellent opportunity for the National Council of Agricultural Employers to show the color of its flag."

IF YOU habitual golfers have noticed a fewer amount of mosquitoes biting on you this past week, it's because Western Farm Supply and Werns Norman teamed up and gave the country club an aerial spraying.

NO DOUBT about it, the row crop is up and going . . . the mil and cotton is 'way ahead of last year. Of course there are a few little hail spots that have been replanted . . . otherwise it looks very good. In the meantime the wheat crop begins to trickle to market.

HERE'S ONE for the doctor:

A forgetful patient went to his doctor. The doctor wrote a prescription in the usual illegible hand doctors reserve for themselves.

The patient put the prescription in his cardcase, forgot to get it filled.

Every morning for two years he showed it to the conductor as a railroad pass. Twice it got him into Radio Music Hall, once into Yankee Stadium to see the Yankees play.

He got a raise from the cashier by showing it as a note from the boss. One day he mistook it at home: his daughter picked it up, played it on the piano and won a scholarship to a conservatory of music.

A film and a life-like dummy are part of the program which is beneficial as well as informative. After Swisher County had the program and presented it to various groups, at least one life was saved as a direct result of the program within the next month.

Refreshments of ice cream and cookies will be served to the group by the Young Farmers. Those desiring a nursery will have to provide one of their own, for none will be furnished by the group.

Since the swimming season is here and the chances of a person drowning are greatly increased all people are urged to attend this program. One never knows when the need may arise.

The next meeting of the Young Farmers is set for July 2.

A parade almost a mile in length highlighted the activities of the Annual Old Settlers' Reunion in Floydada last Thursday. There were 567 Floyd County Pioneers registered for the all day event which included the parade, races for all age groups, an old fiddlers' contest, free barbecue dinner (for those here 50 years ago or more), a business meeting, and a memorial service.

An enormous crowd of old timers and young timers, flocked to the edge of the streets when the parade began at 2:00 p.m. Included in the event were floats representing clubs, communities, and businesses, baseball teams, riding clubs, bicycles and antique autos.

At the barbecue luncheon Mrs. W. H. Pope, 91, of Friona was announced to be the oldest woman, and person at the reunion and Charlie Wilson, 89, was the oldest man.

This year the old fiddlers' contest was divided into two categories, those 65 years and over, and those under 65 years of age. In the older group Jack Mears, Lubbock was named the champion fiddler and Joe David of Clarendon was second. In the younger category, B. H. Riley of Olton was first, and Denise Boyter of Lubbock was third.

Garland Gainer of Tatum, N. M., won the prize for being the fiddler traveling the farthest distance to attend.

Traveling the greatest distance and registering as an early day settler in Floyd County was T. J. Reed and his wife of Cambridge, New York. Mr. Reed came to Floyd County in 1892. He and his wife came from New York by train, accompanying Mr. and Mrs. Claude Fawver back who had been in Cambridge for a visit with his uncle, T. J. and Mrs. Reed. Mr. Reed is also the uncle of Gilbert and Roy Fawver.

The eldest woman attending the day long celebration was Mrs. W. H. Pope of Friona, formerly of Floydada. She was 91 in April. The eldest man was Charles Wilson of Floyd County, who was 90 on Feb. 20 and running a close second was J. A. Dunlap of Yucalpa, Calif., who was 90 on Feb. 24.

In the parade, the winners were: pioneer division — Irick Community, first and Lockney second; commercial float division — Producers Co-op Elevator, Floydada, first; club division — Floydada High School Future Homemakers, first, and Girl Scouts, second; community float division—Cedar Hill community, first and Floyd County Home Demonstration Club, second.

The Plainview Riding Club was declared best in the mounted riders and Claytonville community won the Junior Riding Club Division.

Best-dressed old time cowboy was Walter Brannon. Donra Sams rode the best Shetland pony. Chris Johnson rode in the "best sulky." Best Junior cowgirl was Judy Probasco and best junior cowboy was Stanley Nicholson.

Wayne Arnold, Plainview had the winning antique automobile. The Floydada Garden Club won first in the antique window display and Lubbock Christian College Floydada Chapter was second.

At the business meeting held in the morning, the officers elected to serve for the coming year and to make preparations for next year's celebration which will commemorate the County's 75th anniversary were: Joe Reeves, Lockney, president; G. C. Applewhite, Lone Star, vice president; and Hubert Frizzell, Lone Star, treasurer.

FAIRVIEW NEWS by Mrs. Clyde Bagwell

Wintery Weather Moves In

FAIRVIEW, June 1 — Our weather has been more like winter than summer the past few days. The Old Settlers Reunion got off to a good start on a very cool morning. Many enjoyed the day seeing old friends in spite of the damp chilly day.

Friday night .6 of an inch of rain fell in the south part of our community, while the north part received an inch and more. The rain was fine in town also, about 1 inch was received.

Some cotton has been planted, a few farmers have cotton up. The folks that did not lose all of their wheat from the hail recently have started the combines in their fields, but yields will be light.

Mrs. Roy Meek talked by phone Saturday with her sister-in-law, Mrs. Jess Bartlett who lives at Maxwell, New Mexico, where the tornado struck last week. Mrs. Bartlett and her son, R. E. were returning home from Raton when they saw the tornado hit Maxwell. Their place was not in the path of the storm.

Joe Ray Rushing of Lubbock came Saturday to spend the summer here with his grandparents, Mr. and Mrs. Lee Rushing.

Sharon will enter Wayland Baptist College in Plainview next term, she won a scholarship in music from there.

Alberta Hinkley of Albuquerque is here visiting in the Lee Burton home for an indefinite time. Albert will also attend Wayland this fall. She and Sharon will be roommates.

On June 13th the tour will find

she has faith in her husband's knowledge and ability. She sees "his good care of the farm animals . . . sees him turn the sod and sow the seeds . . . sees him reap the harvest.

She takes a farmwife's honest pride in her clean, snug home; in the happy faces of healthy children, whom she rears to accept responsibility and to place dependence upon a Higher Power; in her table, laden with wholesome food provided through her husband's industry, and her pantry shelves, where she has "put the year up" in jars filled with vegetables and fruit, and jellies glowing brighter than jewels.

Always busy, she nevertheless finds time to solace a stricken neighbor, or to bake a cake for the church sale.

At days end, whatever the day has brought, she is content, for she knows there will be a tomorrow . . . the miracle of spring . . . the promise of rebirth and continuation. And, mindful of a troubled world, she gives a silent prayer of thanks for the blessings that make her—a successful farmer's wife.

WARNING!

THE BOLL WEEVIL IS HERE!

A SERIOUS PROBLEM:
 BOLL WEEVILS, virtually unknown on the High Plains in 1960, have made their move. In 1963 they caused from 10 to 90 percent damage to 150,000 acres of cotton in seven of the 23 High Plains counties.

BOLL WEEVILS have proven their ability to live through the winter in the Caprock. They did survive the winter of 1963-64.

BOLL WEEVIL control in infested areas of the cotton belt costs from 10 to 20 cents per pound, or \$25 to \$50 per acre.

BOLL WEEVILS, where they are established, cause average yield loss of 13 percent despite control efforts.

BOLL WEEVILS have practically stopped cotton production in infested areas.

BOLL WEEVILS threaten THE ENTIRE HIGH PLAINS. THEY MUST BE STOPPED!!!

A comprehensive plan for getting the boll weevil out of the PCG area . . . and keeping him out . . . is near completion and will be announced soon. Watch for it.

A PRACTICAL SOLUTION:
 ☆ DIAPAUSE CONTROL, according to the most eminent authorities in the U. S. CAN PROTECT THE HIGH PLAINS from the boll weevil.
 ☆ DIAPAUSE CONTROL has been proven effective in commercial operations at the Texas Prison Farm and in the Presidio area of Texas.
 ☆ DIAPAUSE CONTROL kills weevils in the Fall of the year when they are "Diapausing", or preparing for hibernation. A dead weevil can't hibernate through the winter and come out biting and scratching in the Spring.
 ☆ DIAPAUSE CONTROL is cheaper than in-season control, the need for which will be greatly reduced after 1964.
 ☆ DIAPAUSE CONTROL does not kill beneficial insects.
 ☆ DIAPAUSE CONTROL, carried out over ALL infested acreage back to the range land to the East, can reduce the weevil problem to a small spot-checking operation in just a few years.

STRONG CHURCHES *Make STRONG COMMUNITIES*

Free as a Bird

No worries, no responsibilities! A lot of us would gladly trade places with Wendy, just to share that wonderful "joy of living" that children feel so often, and adults experience so rarely.

"But what is there to be happy about?" you may be thinking. "Maybe Wendy has no worries, but I certainly have!"

Perhaps we forget that this world is in God's hands . . . and that, with God, nothing is impossible. We wear ourselves out seeking human solutions to our problems, when Divine help is always available if we will only ask.

Try it. Try bringing your worries and doubts to God this Sunday in your neighborhood Church. Hear God's promise of guidance and comfort for all who will give their lives to him in childlike trust. And let the Holy Spirit fill your troubled heart with lasting joy.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
