## First Cotton Blooms Of Season Start Appearing

FIRST COTTON BLOOMS — Kim and Kelli Trowbridge, of the Harmony Community, proudly display one of the first cotton blooms found in the county as their father, Steve, looks on.

### Lad From Turkey To Live In R. C. Mitchell Home

Yavus Deniz, a 17-year-old foreign exchange student from Canakkale (pronounced Cha-nak-kale), Turkey, will arrive about the middle of August and will reside in the R. C. Mitchell home. Yavus will be a senior at Lockney High School during the coming school year.

He has black hair and black eyes, olive complexion, is 5'9" and weighs about 130 pounds.

His favorite sport is listed as basketball, and he was basketball team captain last year at his school in Turkey. Other sports enjoyed by the youth are swimming and hiking.

Yavus is studying to be an engineer. His favorite subjects, some of the dreaded courses by most American students, are physics, chemistry, geometry, general math, and algebra.

For the past nine years, since the death of his father, Yavus' mother has been head of the household in Turkey. She has supported the family of five as a shopkeeper.

A younger brother, one married sister and one sister studying to be a lawyer at a university in Turkey make up the remainder of the family.

Yavus is of the Islam religion. Mitchell said, "We just found out about this last Friday evening. We are thrilled about it and are looking forward to this school year with Yavus in our home."

The town of Canakkale is located on the narrow straits between Thrace and Anatolia.

The Mitchell's son, David, will be a companion of Yavus' during his school term.

### Moisture At Mid-Year Totals 6.44"

The moisture received by the county half-way through the year totals only 6.44 inches. Last year at this time 8.85 inches had been recorded at the ASCS office in Floydada.

About two months ago it was reported that this year had received more moisture than a number of years before, at the same time, but in 1964, two of the wet months have failed to yield even close to normal amounts of moisture.

In May the county received only 1.59 inches of moisture compared with 4.60 in 1963. June records show that last year 3.19 inches were received as compared with only 2.52 this year.

However, according to past years one of the wet months is yet to come. In July of 1960, 6.89 inches of moisture was received, in 1961, 6.12, 1962, 5.08 and in 1963 the amount dropped below normal to only 3.33 inches.

Although, it is drier than normal, most of the moisture received this year has come at times when it was needed most. One exception was last Spring when several acres of dryland wheat were plowed under because of lack of moisture.

### Local Crops Given Boost By Scattered Showers

The first cotton blooms of the 1964 season are beginning to appear around the county and the first blooms reported were on the F. B. Trowbridge farm in the Harmony Community. The farm is operated by Steve Trowbridge the son of F. B.

The cotton was planted on the 15th of April and is a Rex variety. The first bloom noticed by Steve was on some of his earliest cotton, but some that had suffered from Root Rot, and on what Trowbridge thought was some of his poorer cotton.

On June 23, Trowbridge was following a tractor on one side of his field to try to set the cultivator to sweep out the middles for irrigation when he noticed a white bloom. He looked around for some time, but couldn't find any more.

When a Hesperian reporter was on his farm last Monday afternoon, even in the heat of the day, several pink blooms were visible, and a few more white ones could be seen. Most of the white blooms, however, tend to close during the heat of the day.

Most of the crops around the county are close to a month ahead of what they were this time last year.

Driving through the county, particularly the irrigated sections, one can see that about 50 per cent of the grain sorghum that has been planted is already heading out. Under normal conditions it takes maize from 65 to 90 days to mature after it is in the bloom stage according to Richard Miller, Floyd County Agricultural Agent.

At this rate people can expect to see combines in the fields cutting the grain sorghum from the middle of September until the last of October, under normal conditions.

Parts of the county in the southwestern edge of the county received a little rainfall last Wednesday night, and narrowly escaped hail damage that cleaned some fields in Hale and Lubbock Counties.

Thursday night, most of Floyd county received rainfall varying

### Crowning of Farm Bureau Queen Scheduled Tonight

Last year's winner, Miss Judi Shurbet, went on to win the region title and will be crowned the State Farm Bureau Queen.

The girls are Vickie Jarboe, Dee Wilson, Vicki Gregory, Lauretta Lacerwell, Debra Brandes, Karla Smith, Sue Johnson and Cheryl Rucker.

Three of the girls are from Lockney and three from Floydada.

Vickie is the 17 year old daughter of Mr. and Mrs. Mal Jarboe of Floydada. She will be a senior this coming year and is editor of the annual. She is sponsored by the Floydada Chamber of Commerce.

Dee is a 16 year old daughter of Mr. and Mrs. Woodrow Wilson of Floydada and she will be a Junior this school year. Her sponsor is Koop Aerial Sprayers of Floydada.

Vicki's parents are Mr. and Mrs. Howard Gregory of Floydada. She is 16 years old and will be a high school junior. Sponsoring Vicki is Foote Butane of Floydada.

Lauretta is 16 years old and is the daughter of Mr. and Mrs. Dale Lacerwell of Lockney. She will be a senior this year. Her sponsor is Lockney Co-op Gin.

Debra is 16 years old and will be a junior in Lockney this year. She is the daughter of Mr. and Mrs. L. B. Brandes of Lockney. Sponsoring Debra is her sponsor.

Cheryl is the daughter of Mr. and Mrs. Robert Lee Smith, is 16 years old and will be a senior in Lockney High School this year. Lockney Young Farmer's are sponsoring her.

### '64 Floydada Graduate To Get State FFA Degree At Convention

A 1964 Floydada graduate will journey to San Antonio next week and be awarded the next to highest degree a vocational agriculture student can receive.

He is Vernie Moore and he will be awarded the State Farmer Degree during the annual State FFA Convention slated July 15-18 in the Bexar County city. The highest honor is the American Farmer degree.

Only two per cent of the state FFA members are eligible for the degree, and this leave only a very small number for each Area. When this number is broken down to the individual chapters, to have one achieve this mark every 3-5 years in a town the size of Floydada is something to be proud of.

There were four members of the local FFA chapter that started out the year eligible for and

working toward the degree, but five other three missed the goal, for various reasons, and lost out in the Area I screening. The four members are Dale West, John Calahan, Billy Wheeler, and Moore.

Although Overstreet is the delegate, each of the boys will attend various sessions of the convention, but will vote under Overstreet's name. This way each gets a taste of the convention and one boy doesn't have to stay through all the sessions.

A younger brother, one married sister and one sister studying to be a lawyer at a university in Turkey make up the remainder of the family.

Recently Craig Edwards, who graduated from Floydada, received word that the State of Texas had recommended that he be awarded the most coveted degree in FFA, that of the American Farmer.

Although he hasn't received the degree yet, it should be noted that the National Organization has never turned down a state recommendation for the degree.

Edwards is the second Floydada graduate ever to be recommended for the degree. The first was Stanley "Teen" Burleson, who graduated from Floydada about 10 years ago.

Another Floyd County resident holds the coveted degree. He is Billy Ware, who got his through the Plainview FFA Chapter.

### Cardinals Moving To Plainview

Shorty Cardinal has purchased Wallace Insurance Claims Service in Plainview and is traveling to and from work there now from Floydada. The family will move to Plainview as soon as a home can be secured.

Sam Baker will take over complete ownership and management of the Cardinal Insurance Agency in Floydada which he purchased about a year ago.

In an announcement in this issue of the Hesperian Shorty expresses his thanks to the public for its friendship and patronage the six years he was in business here. He and his wife are natives of Floydada and have lived here all their lives, except for seven years in South Dakota.

### Reserve Your Stadium Seat By August 1

According to high school principal Charles Tyer, those who had reserve seat tickets last year have until August 1 to re-reserve those same positions or the tickets will go on sale to the public.

Price of the tickets are \$4.00 for the 1964-65 football season.

Those wishing to reserve seats other than the ones held last year should also contact Tyer in the near future.

### Three Hurt In Mishap At Sandhill

Two men and a high school boy were injured Tuesday morning between 9:00 and 9:30 a.m. at the intersection of Highways 784 and 378 in Sandhill.

This was the second collision in less than a month resulting in four persons being injured seriously, one not serious, and one escaping injury.

Tuesday's mishap occurred when a truck loaded with watermelons driven by E. J. Cantrell, owner and manager of Cantrell Fruit Market in Floydada was traveling west on Highway 784, entered the intersection and was struck by a late model automobile driven by Lewis Grant Hoover of Lubbock who was traveling north on 378, according to Sheriff Walter Hollums.

Cantrell received a broken nose in the wreck, Mike Hollums of Floydada a passenger in the truck received a slight knee-cup injury, and B. D. Jones of Lockney, a second passenger in the truck escaped injury. Hoover received head injuries and was transferred from People's Hospital to a Lubbock hospital.

Both the truck and automobile were total losses.

Carl Mullin of the Texas Department of Public Safety investigated the accident.

June 12 a wreck at the same intersection resulted in the injury of two persons and the loss of two cars. Coach Bob Davis of Lockney received a broken arm and Jerome Pemberton of Floydada suffered slight cuts, bruises and some head injuries in the mishap.

### Floydada Grad Heads WTSU Ex-Students

CANYON, July 8—A new executive director of the West Texas State University Ex-Students, Inc., has been selected by the organization's board of directors. He is Eddie Conner, Amarillo businessman and a member of the famed 1950 Border Conference Championship football team.

Conner, whose home was Floydada, where he graduated from high school, will assume duties July 15. He was selected after the board of directors, headed by Frank Barrett of Hereford, association president, screened applicants for several months.

The new director fills a vacancy left when Milton "Buff" Morris, executive secretary for more than a dozen years, resigned in September to devote full time to The Opportunity Plan, Inc.

In accepting the new assignment with West Texas Ex-Students, Inc., Conner outlined plans to continue work on several projects currently underway, and to add other programs of assistance to WTSU.

While he was born in Shiloh Springs, Conner moved with his family to Floydada when he was three years old, and he was reared there. After his graduation from high school, he served a three year tour of duty in the Far East and the Philippines with the Navy.

Conner earned his B.S. degree in 1951, after lettering four years in football. After graduation, coached and taught in the Amarillo and Canyon schools. He completed requirements for the masters degree in 1963 in counseling and administrative education.

For five years Conner was a partner in Bueh's Sporting Goods in Amarillo. After selling his interests in that firm, he became a partner in the C & C Real Estate in Amarillo, which he left to become executive director of the West Texas Ex-Students, Inc.

SOUTH PLAINS NEWS by Mrs. Murray Julian

July 4th Celebrated In Fields

SOUTH PLAINS, July 6 — Fourth of July here found most farmers in the field, busy with irrigation, hoeing of young cotton, and Leighton Teeple dug his acres of onions this Wednesday and has them all on the market.

Thursday night most of our area received only sprinkles of rain, but the Early Pritchetts and neighbors there got 1.60, Garvin Beedys 1.00 and Floydada and all to south received wonderful amounts of rain.

Mrs. Roy Childress, former South Plains folks. They then went to Irving where they visited Cherry Mullins, his folks, Mr. and Mrs. Fred Riggs, having Friday lunch there.

Mr. and Mrs. Fred Fortenberry left Friday to spend that day and Saturday near Fort Worth to visit his father, Tom McCain, who lives at Grapevine.

Mr. and Mrs. L. N. Johnson took Mr. and Mrs. Truman Bradshaw to Amarillo Tuesday morning where Mr. Bradshaw entered the West Texas Hospital. He is very critically ill.

Rev. Sealy Smith went up to Amarillo Wednesday to visit Mr. Bradshaw, and have been back again this week to check on him.

Murray Julian went to Roscoe and Sweetwater last Friday on a business trip and visited there with Mr. and Mrs. Terry Julian, Dee and Dickie.

Floyd County 4-H Camp will be held this year at the Methodist Ceta Camp near Canyon, and several plan to attend Friday through Sunday from here.

Mr. and Mrs. Barry Kinslow of Canyon spent the week end of the Fourth here with his parents, Mr. and Mrs. E. J. Kinslow and boys.

Mr. and Mrs. Nathan Mulder left Wednesday for Lubbock to visit Mr. and Mrs. Jimmy Respondek, then spent that night in Clovis, N. Mex. with her grandparents, the Hightowers, and Thursday they were in Albuquerque with his uncle, the O'Dell Mulders.

They then left for Farmington, N. Mex. where Nathan will preach the coming two Sundays at the Baptist Mission Church, and then for the next few weeks they will be working with the Navajo Indians in that area.

Mr. and Mrs. Early Pritchett and sons were at Plainview Friday night for a family reunion of Early's folks, at the home of his parents, Mr. and Mrs. H. H. Stevenson. Relatives came from near and as far away as South America, whom Early had not seen in years.

Rev. Isias Longoria, pastor of the Mission Latin-American Church at South Plains, spoke at the Sunday morning services of South Plains Baptist Church, and Rev. Hollis Shewmake, pastor of the Colored Mission Church there will be the Sunday night speaker in the absence of Rev. Sealy Smith, who is off on a short vacation.

Local Lions In Toronto For Meeting

Two local Lions, Rev. Roy Turner, and O. M. Watson, are in Toronto, Canada, attending the international meeting of the organization.

Rev. Turner recently won the expense paid trip at a drawing held by the Lions Club at a regular meeting. Each year a name is drawn from the pot, and that person gets his way paid to the international meeting.

The entire Turner family is making the trip because Mrs. Turner's family lives in Connecticut, and the Turner's will attend the Lions meeting this week, come back through New England and visit another week with relatives there.

The Watson family left with the Lions' chartered bus from Lubbock Saturday morning and were due to arrive in Toronto sometime Tuesday.

The bus will leave Toronto next week and come back to Lubbock via New York City and the World's Fair. The group is due back to latter part of next week.

Very few taxpayers keep a careful record of their investment in their home. You have a basic purchase price when you buy a new home. You may add to this to increase your cost basis by planting trees and shrubs, paving the alley, adding a new room, or making other additions to your basic investment.

When the home is sold, you will be able to determine whether or not you owe tax if you sell.

Mr. and Mrs. James Teague and son of Lubbock hosted an outdoor steak supper Saturday night, Fourth of July at their home with guests from here. Her folks, Mr. and Mrs. L. T. Wood, Mrs. Walter Wood, Mr. and Mrs. Glen Wood, Russ and Lynn, who also spent the night there, and Walter Wood, and girl friend, Teresa.

Mr. and Mrs. Frank McClure went to Silverton Saturday evening to visit Mr. and Mrs. Gene Long. He had been in the Lockney Hospital last week.

Larry McCormick underwent major surgery Tuesday at Plainview Hospital and Clinic Tuesday morning and is getting along fine at this time. We all hope he continues to mend satisfactorily.

The home of Mrs. L. T. Wood was the setting Saturday morning, July 4, of a "Come as You Are" breakfast, where she served biscuits, sausage, scrambled eggs, jam and orange juice to members of her Intermediate Sunday School Class. They were brought to the breakfast, which was served out in Mrs. Wood's patio, which was recently built.

Mr. and Mrs. Eugene Byrd, Lee and Ernest spent the week end here with her parents, Mr. and Mrs. Ernest Newton. They are from Stanton, Sunday they all went to Plainview to spend the day at the Plainview Park where they attended a family reunion of the Hollums family.

Promises Produce Volunteer For Tulia's 74th Anniversary

Wayne Cooper, popular Chamber of Commerce manager in Tulia, finds Chamber work very demanding sometimes.

When the time came this year to work on Swisher County's 74th Founder's Day Celebration, Cooper found there was no chairman or committee. The resourceful manager called several reluctant "could-be's" together and started a conscription campaign.

Volunteers were still reluctant until Wayne began making promises. In order to have hot dog races, he promised the Tule Lake would be full of water. In order to have an air show, he would make a parachute jump.

Although work had not been completed at the City-County Air Port, he promised that it would be complete and he would have a dignitary present to dedicate the air port — on top of that there would be a fireworks display during the dedication.

Results: the lake is full, he has had a volunteer to pack his chute, fireworks ordered, air port practically completed, committee formed and at work. Dignitary (?), "We bet he will have one."

This statement is from W. A. Amburn who is the owner of Radio Station KTUE in Tulia. He is

Those coming were Vickie and Judy Johnson, Zecha and Kay Cummings, Dian and Cathy Calahan, Carolyn and Sandra Sesums, Kathy Mulder, Katie Taylor, Beth Calahan and Barbara Milton.

We want to add our congratulations to the many which Ronnie Upton of Amarillo, son of Mr. and Mrs. Raymond Upton of Upton Grocery here, has received upon his act of bravery last July 22, when he dived into a cess pool and saved the life of two young boys at Olton. Last Monday Ronnie went to Pittsburgh, Penn. to receive the Carnegie Hero Medal, and also received \$50 in cash. It was a wonderful thing which Ronnie did, and we are so proud of him, and for him.

Mrs. Johnny West was hostess in her home for members of her bridge party, on Tuesday afternoon. LHE Clinches Junior League Title

Lighthouse Electric Junior League Team wrapped up the League title here last Monday night as they downed the First National Bank by a score of 8-1.

Ronnie Gaston was the winning pitcher and tossed a two-hitter. This makes his record 4 wins and only 1 loss for the season.

Kerry Bearden and Steve Marler let the hitting for LHE. Bearden connected three times and Marler got two hits. Bearden hit a home run in the 5th inning.

Fred Perez was the losing pitcher for the First National Bank Team.

Manager Junior Bearden is hoping to go with the team when they enter the Regional playoffs at Haskell sometime around August 1.

Star team in the annual invitational tournament here July 18-19.

Manager Bearden, and Assistant Manager Dee Adams admit they are anticipating trouble winning the next two games, which will complete the season, due to the number of injuries.

Presently Gaston has only 3 innings left to pitch this week. Bearden, one of the other pitchers is out with a sprained ankle and pulled cartilage as a result of stretching a double into a triple Monday night, and Marler, the only other pitcher is suffering from a pulled muscle.

Joe Christian, who Manager Bearden has been working out for a pitcher for next year, may have to step in and finish the game Thursday night when the LHE meets the VFW.

Mr. and Mrs. E. J. Morehead, who have run the firm for several years sold the business to their daughter and son-in-law, Mr. and Mrs. John S. Hotchkiss, formerly of Lampasas, Texas.

The Commercial Hotel of Floydada, a landmark to people, coming from up on the Caprock to the South Plains was sold to the third generation of ownership last week.

Mr. and Mrs. E. J. Morehead, who have run the firm for several years sold the business to their daughter and son-in-law, Mr. and Mrs. John S. Hotchkiss, formerly of Lampasas, Texas.

The hotel was opened in 1913 by W. P. Daily, father of Mrs. E. J. Morehead.

Mrs. Hotchkiss and the two children have already moved here, and Mr. Hotchkiss will follow in about two or three weeks.

The couple is well versed in catering to the public for by entering the Triangle Motel in Lampasas for 14 years.

The children are: Susan, who will be a sophomore in Floydada High School next year, and Sam, who will be a freshman at Texas A & M this fall. Sam was an all-state center in conference AAA football last fall.

Mrs. Hotchkiss said, "We have lived here before, and I am looking forward to getting re-acquainted with the people I know." During World War II, Mrs. Hotchkiss and the children lived with the Moreheads while Mr. Hotchkiss was in the service.

Future plans for the 50-year-old hotel include conversion into a motor-hotel and a name change.

A little less selfishness would go a long way toward solving some of the world's problems.

## Letters To The Editor

Mr. Tooley, Dear Sir, my son, Joe D. Montgomery and daughter, Miss Marilyn Jo surprised me (his mother) by arriving by plane to spend a few days.

Joe has been principal of Anchorage, Alaska, school for several years. Recently he is assistant school administrator of Anchorage school district, and was sent to Jackson, Wyo. for 3 day convention, and came on to see me.

July 4th we spent with my daughter, Mrs. W. B. Eakin and husband, and Mrs. Lee Roy Channing and Douglas, and Mrs. DeLores Thomas and baby, were there, and we had a wonderful feast and a happy reunion together.

Joe and daughter left yesterday at 8 a.m. from Lubbock on a jet plane to return to Anchorage.

Joe was a football boy and graduated in Floydada school. His wife, Ella, and other daughter Julie at home had a special dinner ready when they got home.

I am doing fine and hope to be able to return to Floydada by fall and build another home and my friends and families can come see me for Christmas and will make me very happy.

Mrs. Mary A. Dorsey

## New Phone Directories

Copies of the 1964 Floydada telephone directory were mailed to customers here on July 1, 1964. Bill Costra, manager for the Southwestern Bell Telephone Company said.

The cover is of white stock, overprinted in brown ink. There is 20 "white" or alphabetical pages and 40 classified or Yellow Pages.

Condra said that almost 2,500 copies of the new directory have been printed but not all of them will be mailed to customers at this time. He explained that additional copies are always prepared to have on hand for new customers moving to this area and as replacement for books in heavily used locations like public telephone booths.

Customers should throw their old directories away when the new ones are received. Condra cautioned customers to check them carefully for addresses and out-of-town number lists as well as other valuable papers before consigning them to the wastebasket. "Quite often," he said, "customers will keep lists, valuable papers and even pictures between the pages of the telephone directory. Then when the new ones arrive, they throw the old ones away without checking them and things that they wanted to keep are lost forever."

### Glassmoyers And Dee Ann Wilson Hurt In Wreck

Mrs. Margaret Glassmoyer of Plainview, former resident of Floydada, was dismissed from a Dallas Hospital this week where she had been under treatment for injuries sustained in a car wreck on June 25th near Jacksboro.

Also injured and already dismissed were Mrs. Larry Glassmoyer, daughter-in-law of Mrs. Glassmoyer, and Dee Ann Wilson, sister of Mrs. Larry Glassmoyer. Both are daughters of Mr. and Mrs. Woodrow Wilson of Floydada.

The Plainview women received a broken ankle, Mrs. Larry Glassmoyer a cracked kneecap and facial injuries and Dee Ann, knee and leg injuries. The two children of Mrs. Larry Glassmoyer were uninjured.

Mrs. Wilson said Dee Ann was released from the hospital Saturday and Mrs. Larry Glassmoyer, the former Senja Beth Wilson, is now recuperating at her home in Grand Prairie.

According to the family the car driven by Mrs. Margaret Glassmoyer was forced off the road at the intersection of Highway 199 and 281 seven miles northwest of Jacksboro. Driver of the other vehicle was James Barnett of Brownfield. Driver of a collision Mrs. Glassmoyer swerved her car which struck a tree and two mailboxes.

The injured said Barnett did not stop until he reached Jacksboro where he turned himself in. During this time road blocks had been set up to apprehend him, after an eye witness followed him a distance to get his car tag number.

Other news sources said Barnett was passing the Glassmoyer car in a "no passing zone" and was forced to his right to avoid a collision with two oncoming cars.

Mrs. Larry Glassmoyer and her children had been in Floydada and Plainview visiting and her husband's mother was taking them home, accompanied by Dee Ann, at the time of the mishap.

Mrs. Wilson and Dee Ann returned to Floydada Wednesday from Grand Prairie where she had been caring for the Glassmoyer children.

## Higher Yielding Castor Bean Varieties Tested

Castorbeans with even higher yields will be available to farmers in the future according to Larry Love, Associate Agronomist at the High Plains Research Foundation.

Three experimental strains, developed by the Baker Castor Oil Co., had yields above 3,000 pounds per acre on an irrigated test at the Foundation. Twenty strains and varieties including hybrids were in the test plots.

Yields in experimental plots ranged from a low 1,965 pounds to 3,112 pounds per acre. The average yield of 20 types was 2,587 pounds per acre. These yields show a gratifying increase over the tests made at the start of the castorbean testing program at the Foundation in 1957. The 1963 tests showed the highest yields ever at the Foundation.

The 20 castorbeans in the test were planted May 10th in four-row plots. There were four plots for each variety and experimental strain. All castorbeans were harvested on December 23, 1963, with a harvester furnished and operated by the Baker Castor Oil Co.

A preplant irrigation was applied to all plots on April 3. During the growing season there were three additional irrigations. These were applied 3.30 inches, July 11; 3.17 inches, July 26; and 4.10 inches, August 14. Rainfall received from May 1 to October 1 totaled 14.1 inches. All plots received 944 pounds of nitrogen as ammonium nitrate at the time of planting, and 100 pounds of nitrogen from anhydrous ammonia on July 14. The best results for several years were received from a fertilizer application of 100 pounds nitrogen preplant and 50 pounds nitrogen sidedressed.

There was no significant difference between the first twelve varieties and strains in the test of 20 Five new unreleased strains were ahead of the first released variety, Hale Hybrid, in the test. These five will be available for release in the near future.

The complete data on the results of the 1963 castorbean experiments are available in Research Report No. 86 at the High Plains Research Foundation.

All entries in the test were developed in the breeding programs of the Baker Castor Oil Co., The Texas Agricultural Experiment Station, and the Agricultural Research Service of the U.S.D.A.

Dr. Earl H. Collier, Director of the Foundation, stated that, "These tests on castorbeans are a part of the Foundation's continued research program to determine the best hybrids and varieties."

## RATE OF WATER USE IN RELATION TO PLANT DEVELOPMENT

## Heavy Early Irrigations Detremental To Cotton

Don't start irrigating cotton too soon! County Agent Richard Miller says, "Cotton that received a good pre-plant irrigation or has benefitted from recent rains should have enough moisture in the ground to last until the first white blooms appear. Cotton at this stage of growth should be about 60 days of age."

Watering cotton prior to this time can lead to troubles, says Miller.

1. If watered too early (before white blooms appear) cotton tends to keep growing in a vegetable manner and doesn't start fruiting early.

2. Early irrigation can lower soil temperatures in the root zone of cotton plants. This encourages blights, wilts and seedling diseases. Above all, Miller cautions, irrigation shouldn't be practiced when fields of young cotton are disease-ridden, as this tends to compound the problem.

3. Watering too early can also keep roots from penetrating deep in the soil. Especially in the tighter soils area north of Lubbock, this can create hazards. If roots haven't penetrated deep in the soil, the normally hot, dry weather of August will cause plants to become moisture-stressed. An inadequate root system means farmers won't be able to irrigate their cotton fields often enough at this time to keep plants adequately supplied with water, says Miller.

If irrigation water is short, it might be necessary to start watering before the first white blooms appear. Miller cautions, however, that irrigation should be timed as closely as possible to appearance of the first white blooms.

Highest water requirement of cotton plants occurs at peak bloom stage. At this stage, cotton will use one-fourth to four-tenths inches per day. This compares to less than one-tenth inch per day for cotton plants from emergence to squaring stages. From white bloom to peak blooming stage, cotton plants will utilize one-tenth to one-fourth acre-inches water daily.

Miller points out that several years research at South Plains Research and Extension Center Lubbock, has shown a six-inch pre-plant irrigation plus two four-inch postplants gives maximum yields with top net returns in normal growing seasons. A good rain at the proper time can eliminate one of the post-plant irrigations.

Observance of a water cut-off date is very important. In areas from Lubbock north, water should be cut-off by August 20. From Lubbock south, August 20 to 25 are considered optimum cut-off dates. Following this practice will mean better grades of cotton going to the gin, with less "bollies" and more money in the bank.

Now is a good time for salad. So when you pick the best greens in the market, it's important that they are stored correctly. Any surface dirt should be removed before placing the greens in the refrigerator. If washing seems necessary, be sure and drain all excess water off before storing in crisper, food bags or wax paper. Lettuce keeps longer if the head is kept intact until meal preparation time. Then separate the leaves needed for a salad, wash in cold water, drain all excess water off so dressing can cling to leaves. Many greens lend themselves to a tossed sal-

KAY BAKER  
Granddaughter Of Local Couple Weds In Virginia

Wedding vows for Miss Kay Baker and Pvt. Mack Allison were read recently in the Sixth Street Chapel at Fort Eustis, Virginia. The Reverend Jutus P. Selp, Chaplain, U. S. Army, officiated at the ceremony.

Parents of the couple are Mr. and Mrs. James Freeman of Muleshoe, and Mr. and Mrs. Oscar Allison of Muleshoe.

The bride is the granddaughter of Mr. and Mrs. Grady Freeman of Floydada.

Attendants were Miss Donna Baker, sister of the bride, maid of honor, and Sam Allison, brother of the groom, best man.

Mrs. Sam McKinstry, grandmother of the groom was among those attending from Muleshoe.

The couple will be at home in Denbigh, Virginia for the present.

IN ORDER to get some Republicans off our back, think I should correct a story that we ran last week about their state convention in which we stated that Dennis Taylor was a delegate to the National Republican convention.

Taylor was chairman of the 19th Congressional District Caucus in Dallas, but could not be elected as a delegate. Although he owns some land in Floyd county, he is not considered a former Floyd county resident.

This mistake on our part calls to mind a letter received by John Denson of the Mionok, Illinois, News Dispatch and illustrates the hazards of trying to get all the news printed correctly. Said the letter:

"Dear Editor Denson: Every time I send you a write-up about our Missionary Society meeting you get it all balled up so it doesn't make sense. Time and again I've sent in corrections, but you get them mixed up, too. So I give up. In the future when I send you our Missionary Society write-up, please don't print it!"

YOU'LL NOTICE a story on the front page of this edition about Lion Club members Olin Watson and the Rev. Roy Turner attending the Lion's National convention in Toronto, Canada.

Since there will be 40,000 Lions in attendance, it is reported by local Lion club member Claude Estes that 2,000 detectives have been added to the Toronto police force to be on the alert for pick pocket artists.

Now, you can interpret Claude's tip any way you think most appropriate!

During the rain, one of the most brilliant electrical storms of the season kept county residents alert. At least one report of lightning hitting ground objects was reported. This occurred at the Gordon Hambricht residence at 815 West Missouri in Floydada.

The Hambrichts had been attending a ball game in Floydada when the storm came up. When they reached home, it was raining so hard they decided to stay in the car until it let up a little.

While they were still in the car, a bolt of lightning hit one of the elm trees in the front yard, peeling the bark off the west side, and digging into the woody section about two inches.

A portion of the tree about 10 feet in length and about 6 inches wide and 3 inches deep was knocked from the tree.

Other damage done by the storm was reported at Brown Gin on the Ralls Highway when a concrete block wall on one of the labor camp buildings was knocked over by a high wind.

LETTERS TO THE EDITOR

Mr. Wendell Tooley
Floyd County Hesperian
Floydada, Texas
Dear Mr. Tooley:
The UPI reported on June 21 that Texas editors and publishers, meeting in Houston, passed a resolution expressing "united admiration and support of Lyndon B. Johnson".

On January 15, 1964, President Johnson said, "We are going to take all the money that we think is unnecessary being spent and take it from the 'haves' and give to the 'have-nots' that need it so much".

I trust that you, sir, and other members of the Texas Press Association are not so taken by state loyalty to the President from Texas as to disregard your responsibilities to your profession and the public.

Sincerely,
John G. Whitney, D.D.S.
Amarillo
Editors Note: Sir, it is evident that you feel a great degree of suspicion for the leader of this great United States and that you have taken in context a phrase

from a speech that he made.
Newspaper people know better than anyone how politics can take contexts of all sorts of statements . . . without the full interpretation and twist it to mean something else.

It is my belief that President Johnson is the strangest man I lead our nation . . . now and after the November election, and I'm sure this is what the Texas Press Association had in mind when it made the resolution at the annual convention.

Our nation is only as strong as its people responds to its leadership. Just as the American people worked behind a Republican president when he was in, it should likewise follow President Johnson . . . not just because he is a Texan . . .

Sincerely,
The editor

Veterans Ask
I was recently hospitalized in a VA Hospital for 30 days for treatment on a service-connected disability. After 18 days, I was released for seven days leave, then returned for five more days. Am I entitled to temporary 100 percent rating for my service-connected disability during the period of hospitalization?

Floyd County 25 Years Ago

(July 6, 1939)
The largest field of commercially grown potatoes in Floyd County this year is on the R. A. Keniston place four miles west of Erick, where the harvest of about 25 acres was started this morning.

Funeral rites for Leonard Merrill of Quitaque were held Thursday of last week in the high school auditorium. He died Wednesday, Mr. Merrill was a 34 year old native of Motely County.

One of the most efficient tractor operators in the Floyd County wheat harvest this season has been nine year old George Reil May, son of Mrs. G. R. May of Baker, who has handled a big International machine pulling a 20 foot combine.

A dinner was given Sunday to honor Mr. and Mrs. G. H. Day in their home to observe their Silver wedding anniversary. Hosts for the occasion were daughters, Mrs. M. J. McNeill and husband, Mrs. T. E. O'Neal and husband and Mary Helen Day.

Mrs. A. E. Guthrie entertained Saturday afternoon with a party to honor her son, Aubrey on his sixth birthday.

vice-connected disability during the period of hospitalization?

No. To meet requirements for temporary 100 percent rating, you must have received continuous treatment for a period of 21 days. Passes of more than four days within the first 21 days will be considered as interrupting the continuity of treatment.

For the purpose of qualifying for \$1,600 toward the purchase of an automobile or other authorized conveyance, does the term "World War II" include any period of continuous service performed by the veteran after December 31, 1946, and before July 26, 1947, if that period began before January 1, 1947?

Yes. I recently retired from Civil Service employment and am filing claim for non-service connected pension from the VA. Will my retirement pay be considered income for pension purposes?

Retirement benefits based on a claimant's own employment are not considered income until the amount of the claimant's personal contribution has been received. After he has received an amount equal to his personal contribution all payments will be considered income.

Is education or training available to peacetime veterans?
Only if they have service incurred disabilities. A definite vocational handicap must also exist if the service-connected disability is rated less than 30 percent.

Tragedy & The Kennedy's

Before he became President, John Fitzgerald Kennedy was perhaps best known as author of the book titled "Profiles in Courage." He, himself, epitomized that high tradition in heroic action as a PT boat commander in the Pacific in World War II. The trait was equally evident when he put duty ahead of personal safety to make that fateful trip to Dallas last November.

Viewed in retrospect, it could not have been otherwise.

For tragedy and trouble have stalked the Kennedy family for 20 years.

Only a clan with a very rare sort of pride and fortitude could have withstood the blows ill fortune has rained upon it.

There was the heartbreak of a mentally retarded daughter, first of all. The war-time death of the eldest son, Lt. Joseph Kennedy, Jr., in action as a Navy pilot came next. In 1948 his sister, Kathleen, already a war widow . . . was killed in a plane crash.

The President's assassination came hard on the heels of a stroke suffered by the head of the family, a former Ambassador to England.

And Senator Edward Kennedy recently had a brush with death in another plane accident.

Those who give it thought should be inspired by the example of a family which the greatest of sorrows and trials has not broken.

GUEST EDITORIAL Hootenannies And Hymns

THE SO-CALLED "hootenanny," which is nothing more or less than a jet age revival of the oldtime sing-song is, as all know, enjoying considerable popularity in the land. If there are objections, or criticisms, they can't be well founded. There's nothing wrong and a lot right with folks getting together and singing their heads off — even if the results sometimes come out a little off key.

As a result of the "hootenanny," which consists mostly of folk songs, popular old favorites and even an occasional new hit, there has been another group, singing revival. It is called, for want of a better name, maybe, the "hymnananny." Church people — and, it may be assumed, even others, too — are banding together to let go with the grand old religious melodies too little heard in the more sophisticated places of worship in recent years.

Here and there over the U.S., in urban as well as in rural areas, the "hymnananny" singers are growing in numbers. And that, certainly, deserves an A-plus.

Something like three decades ago, a plug for singing the "old favorites" in church was published in this column, together with a proposition. Let some local church set aside its entire Sunday night service for congregational singing of the old hymns and the A-J would publicize it fully to help drum up a crowd. First pastor to call in and say "we'll do it" would get the spotlight for his church.

First pastor to call in — and there were a number of others, later — was the then minister of First Christian Church, the much beloved Rev. Walter P. Jennings. Well, the appointed Sunday evening rolled around and the church, then at 19th and Avenue J was over-run. Youngsters sat in the aisles and the welkin rang for a couple of hours as people sang lustily. You know what they sang, of course: "The Old Rugged Cross," "Abide With Me," "What a Friend We have in Jesus," etc., etc.

It was a howling success, no pun intended.

FROM TIME TO TIME in recent years, local congregations have featured occasional "old fashion hymn singings," and I am told that First Methodist started featuring such programs a couple of years or so ago and

Mrs. Lenwood Gaston recently returned home from St. Louis Missouri, there she spent several weeks enjoying a new grandson, who was born on June 23rd, weighing nine pounds to Mr. and Mrs. Fred Talmerton. The Talmertons also have an 18 month old daughter, Sherry Lynn.

Mrs. Gaston said she was sure glad to see the Caprocks of Texas and related we should really appreciate the weather more up this way. She said the humidity at St. Louis was terrible.

We have found that it is much easier to make promises than to carry them out.

has continued, successfully, ever since, on Sunday nights. The only thing that surprises me about the occasional old "hymn singings," or, if you prefer, the new "hymnanannies," is that there aren't more of them. Just because the wonderful oneness shay has gone by the board along with brush arbor revivals, doesn't mean the old hymns are not just as popular as they always were.

Sometimes while in church (OK, OK, Mr. Jumper, admittedly that isn't too often) I find myself wondering why whoever picks the hymns picks the ones he does, so many of them being completely foreign to the congregation. A congregation loves to go to town on "Holy, Holy, Holy," or "Onward Christian Soldiers," simply digs in its heels in resistance when the organ peals out with and tuneless, and unfamiliar collection of sharps and flats.

This is getting to be a pretty big town now. There must be something like 250 churches scattered around Lubbock, so I don't know what's going on in them. Maybe the "hymnananny" already has reached our busy little trading post and, if it has, fine.

On the other hand, if it hasn't ought to and soon.

Summer time's a fine time for special hymn-singing programs, especially on Sunday nights.

Floyd Philosopher Comes Out With Economic Move To Hold Nominating Conventions By

Editor's note: The Floyd Philosopher on his Johnson grass farm reports on another of his unworkable notions this week.

Dear editor:
According to an article I read last night in a copy of a newspaper which blew out of a teenager's car which came around a corner out here near my farm on two wheels to save rubber I guess, a plan is underway to conduct the next national census by mail, instead of having thousands of paid people walking around knocking on doors and this got me to thinking.

Why not hold national political conventions by mail? Here's the deal: it'll cost millions and millions of dollars for the Republicans to travel to San Francisco and the Democrats to Atlantic City, to set up all the telephone wires, television cables and cameras, to get the convention halls ready, to handle all the traffic, feed all the people, find hotel rooms, hire more police, etc.

This seems like going to a lot of expense and trouble to get a bunch of delegates from around the nation into one spot to vote by voice, particularly when most of them already know how they're going to vote anyway. But even if they don't know how they're going to vote, it seems like they could make up their minds about as well from their desks back home and drop their vote into the mail, because if they're depending on making up their minds on the basis of a nominating speech in a noisy convention hall, you have got the wrong bunch of delegates to start with. If there ever was a delegate who was influenced by a bunch of people tearing down the aisles waving signs and beating drums, he was picked by mistake.

For \$500 worth of stamps, the whole thing could be conducted by mail.

However, I'll admit when the convention opens, I'll be sitting I. Gauthier.

in front of a television ching the show. After places in the summer a summer all television used to seeing news J. A.

FLOYDADA, TEXAS

**CREEPING FORWARD**—This machine is cutting a ditch about 30 inches in width that will allow plenty of room for the plastic underground pipe to be laid on the P. F. Bertrand farm recently.

## Underground Pipeline Aids In Conservation Of Soil and Water.

"The less water that is exposed to the open air before it is applied to the crop, the more efficient the irrigation process", according to Glen Black, of the local Soil Conservation Service.

Black was talking about the progress of the underground systems with the aid of the Soil Conservation Service Thursday afternoon while he and a Hesperian reporter were looking over the installation of an underground pipe on the P. F. Bertrand farm.

The particular pipe being installed was a black plastic, which is not as popular as the concrete pipe.

"The main drawback of the plastic pipe, seems to be people don't know whether it can really stand the weight of the dirt piled on top of it, if ever the water should be removed from the system", Black said.

Also, it was noted that when the plastic pipe is laid, the same width ditch is cut. All the space isn't necessary, but the companies installing the underground systems have their machines built to cut the ditches wide enough for people to work in with the sections of concrete, since it has been the most popular material for underground pipe in the past.

About 50 to 70 miles of underground pipeline are put into the ground annually by Floyd County farmers. Of this the farmer can get up to 40 percent paid for by the SCS or up to \$600 whichever

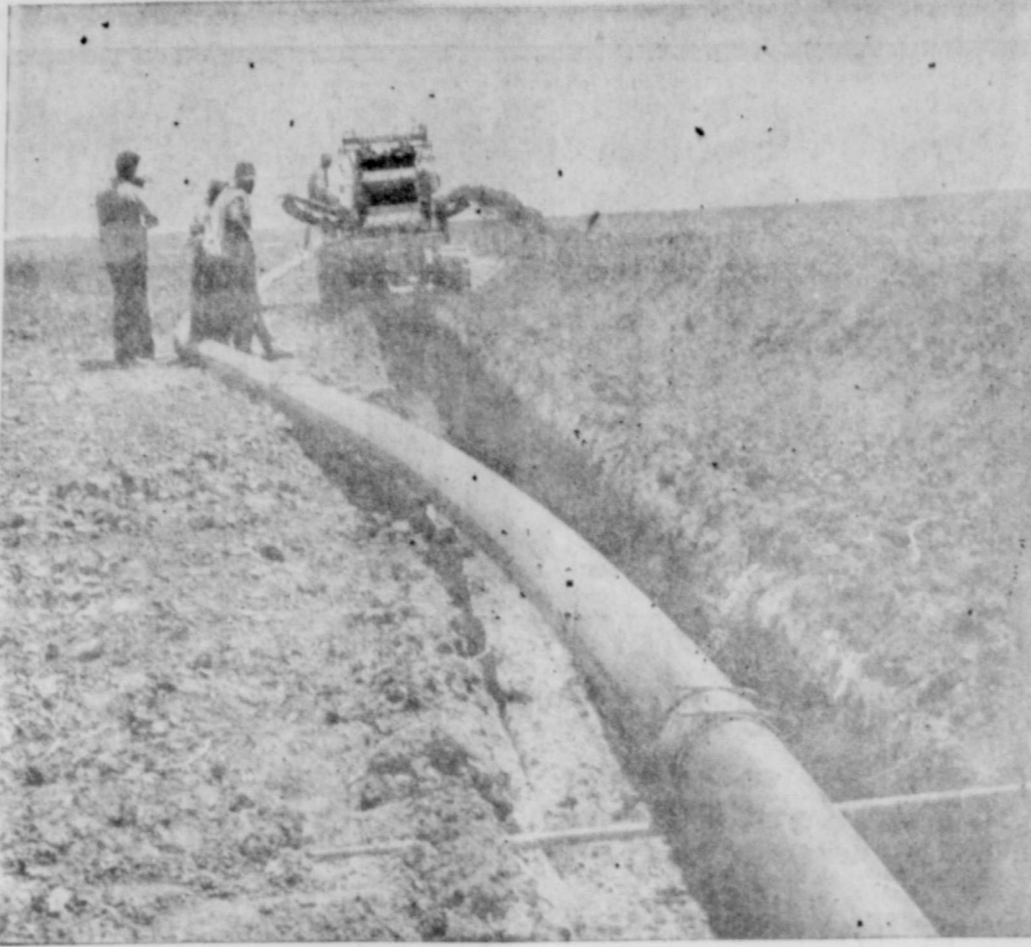

A farmer can get up to \$1,000 from the SCS for pipeline up in side the state. If, for example, he puts in a given amount of pipeline in Floyd County and receives \$600 from the SCS he can still put a pipeline on his farm in Crosby County and get another \$400 from the SCS to help pay for the project. The next year the farmer is entitled to another \$1,000 or \$600 for work done inside the county.

When a pipeline is put in, that is paid for partially by the SCS, a representative must inspect it as it is being laid, and make sure it reaches a certain standard, or certain specifications.

After his first inspection, the pipeline, about four feet deep, is covered with just a few inches of dirt. The valves of the pipe are then opened and the ditches are flooded with water. This settles the dirt covering and packs it tightly around the pipeline.

The additional dirt covering is put on top of the pipe after the "water packing" has dried completely. The hardness of the water pack keeps a large amount of the weight of the topsoil off the pipe itself, and distributes it mostly around the pipe.

"If the initial ditch were not so wide (about 30 inches), the water

**FLEXIBLE** — This underground pipe, sometimes thought not as strong as concrete pipe, is very flexible, however, and easy to install once the ditch is cut. The plastic pipe is believed to not be as susceptible to leakage. (Staff photo)

**SMALL NOW BUT THEY'LL GROW** — These fish brought into Floydada by the Texas Game & Fish and distributed to those farmers who have made application for them arrived Tuesday morning. One coffee can will hold 100 of these bass.

Four Floyd County farmers who have accommodations approved by the Game and Fish Service and who picked up a supply are W. M. Stanforth, Leo Thrasher, H. B. Thornton, and R. W. Overstreet. (Staff Photo)

packing might not be so necessary," commented Black. The pipe is only eight inches in diameter.

Black said the county is about 50 percent irrigated but he wouldn't venture a guess at the number of miles of underground pipe on these farms, nor could he estimate the number of farms that have underground pipe.

It had been noted years ago that 40 per cent of the water pumped from the ground and transported in an open ditch was lost to evaporation and absorption before it reached the crop.

Though the water level of the area is constantly dropping, through the use of such measures of conservation, the water supply may be used more efficiently and thus reduce the amount of water pumped from the underground reservoirs.

### Senior Citizens To Meet July 14th

Senior Citizens are to meet on Tuesday, July 14 at 11 a.m. for the devotional in Fellowship Hall of the First Methodist Church. All denominations are invited to attend this social.

At the noon hour the group will enjoy a covered dish luncheon and then a program will follow in the afternoon.

### Doctor's Enjoy 'Resort' Area Near Matador

**MATADOR (Special)** — The "resort" business in Motley County is booming. The number of out-of-state resort visitors is up a trillion per cent, from zero to two.

Two Birmingham, Ala., doctors have set up camp on Sheriff Jinks Wilson's ranch about 14 miles northeast of Matador, on land that once was a part of the famous Matador Ranch.

Dr. W. J. Wingo, a biochemist and associate professor at the University of Alabama Medical Center, and Dr. Robert Francis, associate professor of microbiology there, are enjoying their stay.

Dr. Wingo once attended school in the Lone Star community in Floyd County and graduated from Plainview High School. He and Dr. Francis often had talked of "roughing it" in this area and when their wives took tours of the eastern United States and Europe they decided this was the time.

They obtained hunting license to permit them to shoot "coyotes and other varmints" after pitching their tent near a vacant ranch house.

## Burtions Host Albuquerque

**FAIRVIEW, July 6** — Rev. and Mrs. Albert Hinkley of near Albuquerque, New Mexico spent last Thursday night here in the home of Mr. and Mrs. Lee Burton and family. The Hinkleys daughter, Alberta, had spent some time here in the Burton home as guests of Sharon Burton and returned home with her parents. Sharon is in New Mexico now spending some 3 or 4 weeks in the Hinkley home.

Mr. and Mrs. Bud DuBois and family of Lubbock and Mr. and Mrs. Bill DuBois and sons of Cedar Hill spent Sunday with their parents Mr. and Mrs. Edell DuBois. Sandra and Dianne, daughters of Mr. and Mrs. Bud DuBois had been here a week with their grandparents, they returned home Sunday evening with their parents.

Fairview Community received from 1/2 to 3/4 of an inch of rain Thursday night. Those of us who live in town received a nice rain that night also.

Mrs. Lee Burton, Carolyn and Phyllis visited at South Plains Saturday with her father J. T. Myrick.

Mr. and Mrs. Earl Huckabee and Sandra of Hereford visited Sunday afternoon in the Lee Burton home.

Mr. and Mrs. Wilson and Mr. and Mrs. Harvey Allen and sons Mike and Norman were Sunday dinner guests of Mrs. W. B. Wilson.

Mr. and Mrs. T. J. Perry and Jan went to Lubbock Saturday night where they visited in the home of Mr. and Mrs. Don Branson and had supper with them.

Sunday visitors for dinner in the home of Mrs. J. T. Perry were Mr. and Mrs. S. W. Perry of Amarillo and Mr. and Mrs. T. L. Perry and Jan of Floydada.

Mr. and Mrs. Earl Thompson of Matador spent the day July 4th with Mr. and Mrs. Galen Holland, in the afternoon Mr. and Mrs. Rucy Irwin visited in the Holland home.

Mrs. Mary Stanley visited in the home of Mrs. L. E. Crabtree Friday afternoon.

Mr. and Mrs. Kay Crabtree and Becky visited in Idalou Sunday with her parents, Mr. and Mrs. Elmer Griffith and other relatives.

Mrs. Harvey Allen and sons Mike and Norman visited in the Bill Tye home Saturday.

Joe Barnes of Amarillo is here visiting for a week or so in the home of his great uncle Marion

Burns and family. Mr. and Mrs. Stan family went to Lubbock afternoon and night and Mrs. L. F. Irwin and had supper.

Mr. and Mrs. G. and children, were Sunday dinner guests of Mr. and Mrs. S. Hotchess from Pecos, who are operators of the hotel.

**FLOYD** — Mr. and Mrs. Carolyn Moore and spent the weekend in Idalou, where they took their son, Kenneth, training in ROTC.

**FLOYD** — Charlotte Harlan, as is visiting in Floydada this week. She is the daughter of Mr. and Mrs. S. Hotchess from Pecos, who are operators of the hotel.

CENTER NEWS by Mrs. J. E. Green

Shower Friday Leaves Area Cool

CENTER, July 6 — Nights and mornings are cool and pleasant since the rain Friday night. But this July afternoon sun is really hot.

There was a good crowd at Calvary Church Sunday including several visitors. Among these were Mrs. DeWayne Lancaster of Batesville, Ark., who with her two children are visiting her mother, Mrs. Bradford and sister Delzie and other relatives. Also a family of five from Big Spring visiting her brother and wife, Mr. and Mrs. Marvin Tollett.

Mr. and Mrs. R. C. Ross visited Tuesday with her brother and wife, Mr. and Mrs. Bob Guffee of Hale Center.

Mr. and Mrs. W. C. Plumlee were in Amarillo over the weekend visiting their son Bobby and family.

Mrs. Grady McAda of Tucumcari, N. Mex., came Wednesday to spend a few days with her mother, Mrs. H. E. Makins.

Mr. and Mrs. G. A. McAda of Lockney visited Mrs. Mankins and Mrs. Grady McAda Sunday afternoon.

The J. E. Green's called in the Mankins home Thursday afternoon. Also Mrs. Green visited Mrs. Clyde Burton, and the R. H. Ashton.

Mr. and Mrs. J. D. Welborn are on a vacation trip to San Francisco, California. They accompanied their son James David and family of Plainview. All except baby Sherrie. She is staying with her aunt and family, the Nolan Arney's.

Mr. and Mrs. Clarmon Both were in Paris for the weekend. They took home Clarmon's brother and sister who have been visiting Clarmon and Donna for several days.

Mrs. C. W. Denison is home again after two weeks in the local hospital.

Mrs. O. C. Vinson visited two or three times last week with Mrs. J. A. Harrell who is at home again after several weeks in the People's Hospital.

Mrs. Frank Dunn and Mrs. Vinson saw Mrs. Lee Rushing at her home Thursday afternoon.

Mrs. Dunn and niece Gwenetta visited the Vinson's Sunday afternoon.

Mrs. Vinson visited Mr. and Mrs. Oliver Allen Wednesday. The Allens were leaving for Riohondo, N. Mexico for the holiday weekend where they expected to meet some of their children.

Mr. and Mrs. Thomas Warren and children dined Sunday with Mr. and Mrs. Billy Hendrix and family.

Mr. and Mrs. Leo Frizzell left Friday for a vacation in the Red River country.

Mrs. Brooks of Moran is visiting her daughter, Mrs. John Carey, and Nancy.

Mr. and Mrs. James Lovell are adding some porches to their house this week.

Joe Lee Dunn of Lubbock spent Saturday night with his mother, Mrs. Frank Dunn, and cousin Gwenetta.

Mrs. Doyle Sandifur was taken ill last Thursday and rushed to a Quannah hospital where she is at present. We hope she will soon be able to return home.

Mr. and Mrs. Floyd Montgomery of Plainview came by the Dunn home Tuesday on their way home from a stay in Dallas and in Abilene.

We regret to record the passing of a good neighbor, Mr. Clarence Pope who died early Friday in the local hospital. Our sympathy goes out to the son, Cecil and family and all the other sorrowing relatives. Last rites were in the Wall St. Church of Christ on the 4th of July. A sad holiday.

Norman W. Brints, formerly of Floydada, on June 21 became area farm management specialist for the Texas Agricultural Extension Service with headquarters in Vernon.

According to the announcement by Director John E. Hutchison of the Texas Service, Brints will succeed Tom Hunter who is resigning August 31 to do graduate work at the University of Tennessee. Thus, added the director, the new specialist will have an opportunity to become familiar with the programs and activities now underway in the area. These include records on cost and returns for crop and livestock enterprises. The close working relationship with the county agents of the district will be continued.

Brints grew up in Floyd and Crosby Counties and was farm reared. His parents are Mr. and Mrs. W. W. Brints of Route 2, Crosbyton. He is a graduate of Crosbyton High School and holds a BSA degree from Texas Technological College and an MS degree from the University of Arkansas with majors in agriculture and economics. He was an honor student at Tech.

The new area specialist has had extensive farm experience and has also worked in a cotton gin and for his county ASCS. He was a graduate research assistant for two years at the University of Arkansas.

Selective Service Registrants Delinquent

The Selective Service System, Local Board No. 45, Plainview, Texas, has declared the following registrants to be DELINQUENT:

- Rogelio Domiguez Macias - Jimmie Wilson.

According to Bertha M. Clapp, clerk for the board, the registrants have failed to perform duties required of them under Selective Service law. Anyone knowing the present whereabouts of these persons is requested to notify the Selective Service System, Local Board No. 45, Plainview, Texas, at once.

Lockney Sisters Continue Round Of Studies

Misses Myra and Felicia Louise Applewhite, daughters of Mr. and Mrs. G. C. Applewhite of Lockney, are continuing their round of studies this summer.

Myra arrived Friday at Middlebury, Vermont, where she will receive her master degree August 15. She has spent the past school year attending the University of Madrid in Spain. The last few weeks have been spent visiting England and Scotland.

While in London, she visited a former classmate and sorority sister of Baylor University who is teaching at Cambridge University. They toured many Shakespearean scenes in the London area.

Myra will teach Spanish at Wayland College this fall where she has previously taught.

Felicia Louise left Saturday for Cloudcroft, N.M., to attend the annual Raymond Froman Art school which will continue through July 18.

Froman, a noted artist from Dallas, directs an art colony each year a Cloudcroft where students may take advantage of the inspiring scenery and mountain air.

OUR SUMMER TIME MEALS:

When the weather gets hot and we get tired there is a tendency to cut down on our cooking and on our meals. This is good if we do not cut down on the nutrition that our family's need to keep them in good physical condition.

Household appliances play a big part in our kitchen work and the work of feeding our families — very few of us make the most use possible of the things we have available.

Another important thing is our planning — a thing well-planned is half done.

So for these hot, busy, summer-time days let's do some real planning — in order that our families may be well fed and that our time may be sufficient for us as homemakers to get the things done that are so necessary for healthy, happy families. Use recipes that are nutritious but not so time consuming to make.

SOMETHING TO THINK ABOUT

"Jumping to conclusions seldom includes happy landings."

Glenn Sparks spent the week end in Lubbock with Miss Charlie Caldwell, daughter of Mr. and Mrs. Wayne Collins, who is attending summer school at Texas Tech.

FB Insurance Agents Meet At Country Club

The monthly meeting of the Area II Farm Bureau insurance agents was held at the Floydada Country Club last Wednesday.

The meeting was a family affair with about 35 agents and their families, totaling 100 people in attendance. Sam Puckett, and Joe Noland represented Floyd County at the meeting.

The featured speaker of the day was Larry McBride of Waco a training officer from the home office in that city.

Included on the agenda was a business meeting in the morning, a catering service at noon, and recreation, including dominoes, golf, and swimming, was enjoyed in the afternoon.

FLOYD DATA

Capt. and Mrs. Gordon Chapin, Curtis and Laura, are visiting with her great-grandparents, Mr. and Mrs. E. J. Morehead after a three year stay in Stuttgart, Germany. Captain Chapin is an aviator in the U. S. Air Force.

TRACTORS ARE SAFE . . . if you use them safely.

TIPPING

To insure control while driving your tractor, keep brakes, steering mechanism, clutch, and hydraulics in proper adjustment. Reduce tractor tipping hazards by spreading tractor wheels as far as practicable. Put all controls in neutral and depress clutch before starting the engine. Set drawbar in lowest position when hitching to a heavy load. Pull only from the drawbar; never hitch higher than the drawbar. Reduce speed before making a turn or applying brakes. Avoid sudden stops when operating on hillsides, rough ground, or most off-road operations. When moving on the highways, or from field to field, lock brake pedals together for simultaneous operation when making a stop.

FALLS . . .

Clean dirt, trash and grease from the operator's platform, pedals, steps, steering wheel, and other places where it may cause an accident. Only the driver should ride on the tractor, and he should sit on the seat or stand on the platform. Do not dismount while tractor is in motion.

POWER TAKE-OFF . . .

Avoid loose fitting clothing; a hanging sleeve or open coat is more apt to catch in moving parts. Safety shielding is for your protection. Keep it in place when using the power take-off. Disconnect power take-off before dismounting, adjusting, or unclogging power-driven machinery.

REMOVER . . .

Keep children away from tractors and equipment. Do not leave the engine running unattended. Lock the brakes so tractor will not roll.

HIGHWAY COLLISION . . .

One-third of all fatal tractor accidents occur on public roads. Avoid heavily traveled roads when moving farm equipment, whenever possible. Use red warning flags in daytime and lights and red reflective tape at night to alert fast-moving traffic when you move equipment on public roads.

OTHER . . .

Do not refuel hot or running engines, and do not smoke when refueling. Refuel LP gas engines according to instructions. Oil, grease and service engine before starting, not while engine is running. To remove pressure radiator cap when engine is hot, first turn cap to safety and let all pressure and steam escape before removing. A few dollars for a fire extinguisher and first aid kit may save a life and thousands of dollars in equipment. Carry these safety tools on your tractor. Operate your tractor inside a building only when dogs are open. Do not remove belt while pulley is in motion. Lower all equipment before leaving the tractor.

TO BATTLE THE BULGE

Use your head to help your figure. Ask yourself: is one minute of pleasant taste worth the calories it adds? When cooking for others, don't kill them with kindness and rich foods. Spend calories as carefully as your money and time . . . Eat when you are hungry, but stop before you are "full." Never eat to save food, better let it go to "waste" than go to the "wast." Hunger is need for food, appetite is just the desire for it. Eat more protein foods. Slow down on fats and sweets. Understand calories and protein. All foods supply calories but some foods supply more than others. If the foods you eat supply fewer calories than you need for your activity, then some of the stored fat in the body will be used up and you begin to get slimmer. When your body uses up 3500 calories which have been stored, your weight drops about one pound. Protein is the substance in food which helps to build and maintain muscle, blood skin and all other body tissues. A high protein diet is satisfying to reducers.

Cook with the low calorie touch Less fat in the fry pan; less sugar to sweeten. The way out of

Stubble Soil

leaves little benefit to the soil with the main purpose in mind being the ease and convenience in plowing the land. The soil is left in a condition where it is more susceptible to wind and water erosion plus the loss of effective soil moisture due to the unprotected cover on the top of the ground.

Progressive farmers, who are also good managers, have demonstrated that more net income can be made from a soil improving system of farming than from one that depletes soil fertility.

## Mahon Urges \$1 Million To Aid Boll Weevil Bout

WASHINGTON, D. C. — July 1. Congressman George Mahon appeared Monday before the Senate Committee on Appropriations to urge the inclusion in a Senate money bill of \$1,000,000 to be used for the purpose of combating the advance of the boll weevil into the High Plains area.

The President last week sent the \$1 million budget request to Congress for the boll weevil program, Mahon, Chairman of the House Appropriations Committee, had asked the President and the Secretary of Agriculture several weeks ago to approve the request for the necessary funds. The funds would be available only if matched by a similar sum from area farmers, and High Plains farm groups have made such commitments.

Plains Cotton Growers, and appeared with them before the House Appropriations Committee to ask support for a cooperative program between farmers and the Department of Agriculture to combat the weevil threat.

In view of the President's supplement budget request, Mahon said he is optimistic that favorable action will be taken in the Senate and that the funds will be provided in the final version of the bill to be worked out in a House-Senate conference.

## Floydada Girl On Wayland Honor Roll

PLAINVIEW, (Special) — Eight students at Wayland Baptist College are applying themselves more diligently or the faculty is getting more lenient because, for the first time in many years, if ever before, seven students made the Dean's Honor Roll with an average of 2.0, a perfect "A" record.

In addition to this record number of top students, some 33 others earned grades above the cut-off average of 2.50 or "B-plus."

In the total group are: 10 seniors; 9 juniors; 10 sophomores; 9 freshmen; and 2 post-graduates.

Among the 40 top-ranking students at Wayland in the spring semester is Linda Gayle Robertson, daughter of Mr. and Mrs. M. S. Robertson 626 W. California, Floydada, with an average of 2.60. Miss Robertson is a freshman, majoring in elementary education. She is a 1963 graduate of Floydada High School.

The County Vegetable Processing Plant is open for use once again.

Each year the shed is closed during the winter months because there are not vegetable crops grown in this area during that time.

Most of the processing is done for the onion farmers at the present time, for this harvest is now in full swing. At the plant the crops are sorted weighed and sacked for shipment to market.

Later in the year other processing plants and shipping and receiving points will be open. Brown gin will serve as such point for the cucumbers grown in this area under contract with the East Maid Packing Company of Ft. Worth. About 200 acres of this crop is being grown in the county.

The shed located between the railroad tracks on east highway 70 is owned by Floyd County.

Education being what it is, it is hard to understand why so few students like school.
