### CORDING TO OFFICIALS

### Control Program Reduced Weevils 90% On High Plains

Miller said officials are very pleased with the first year's operation of the program. Although final evaluation of this year's program can't be made until Spring, preliminary evaluation has been encouraging. Intensive field checks have revealed up to 90% reduction of the weevil population in the spray zone. Also of major importance is the fact that weevil movement to the west was stopped short when the spray program started. According to Miller, the fall spray program plus good in-season control practiced by farmers along the edge of the Caprock prevented weevils from advancing as far west as they did in 1963.

The control zone covered about 300,000 acres in portions of Hall, Briscoe, Floyd, Motley, Crosby, Dickens, Kent, and Garza counties. A small number of acres in the southwestern corner of Lubbock County were also sprayed. A total of 1,136,676 acres were sprayed. The entire control zone received four applications — with some of the heavier infested area receiving five to six applications of technical malathion.

Officials of the spray program feel many Plains farmers still have not realized the seriousness of the weevil threat. For the second straight year the area along the edge and just below the Caprock has had the heaviest weevil infestations in the Cotton Belt according to Miller.

The boll weevil control program, specifically designed to keep weevils from becoming established in the High Plains cotton country, is receiving area wide support from Plains farmers.

The annual Christmas program of Parent-Teachers Association of Andrews Ward will be presented Friday (tomorrow night) at 7:30 in the high school auditorium. The program is free and the general public is cordially invited to attend.

Children from all grades at Andrews Ward will participate in the program. Bob Copeland will give the welcome and Hollis Payne the benediction.

Thrift Super Market, 401 S. Second and Mississippi will offer the Hesperian a profit on his paper subscription rate for year and Ellison will offer in cash or in trade to bring to Thrift Super Market from each week... that's a \$1.20 per year.

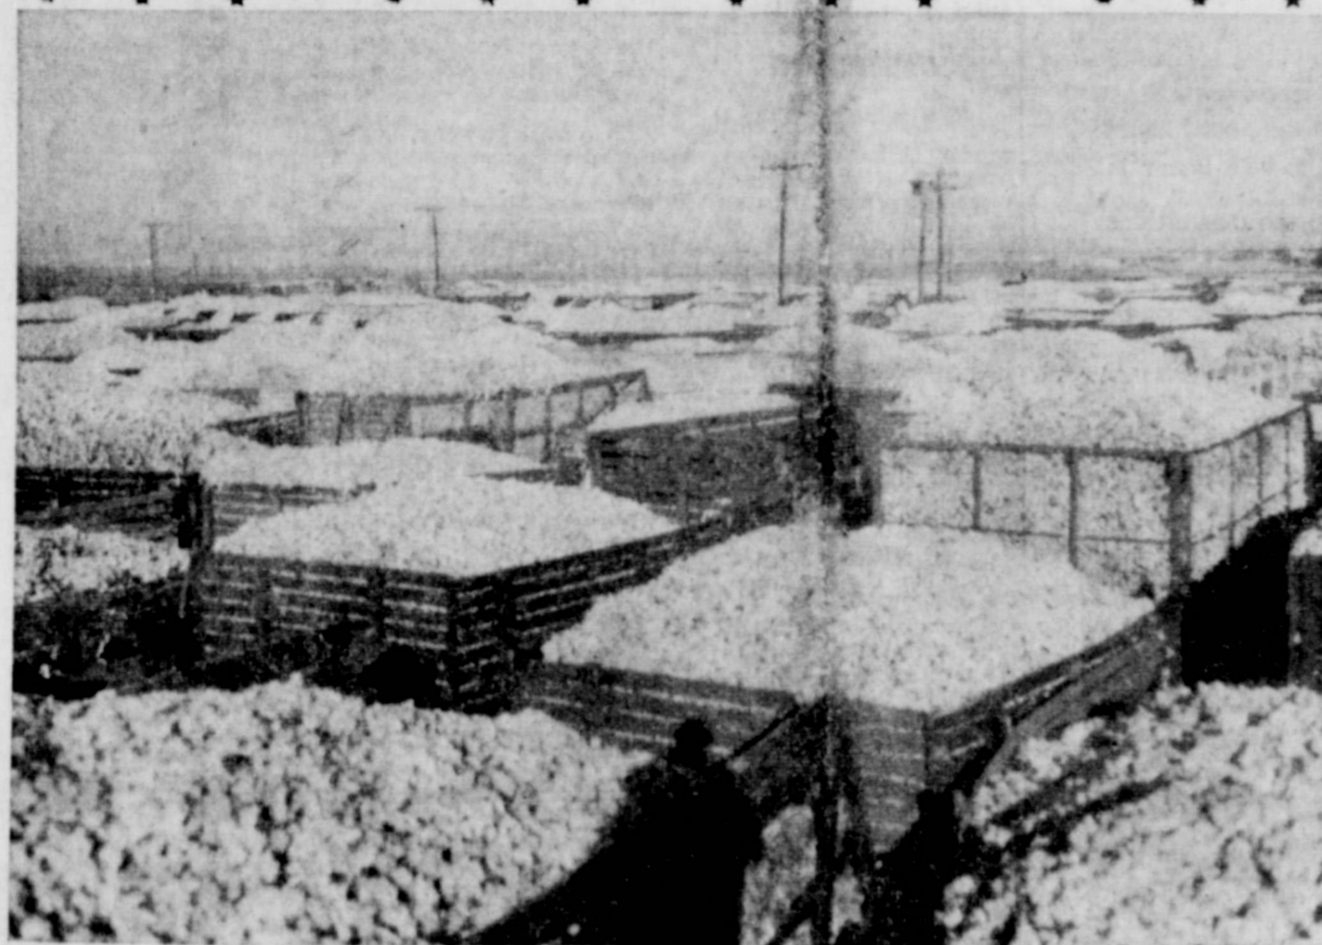

Derrick has been the E. E. Wells farm of South Plains has been dismantled. However, one of the Lakeview area, 1 1/2 miles west of South and from west lines in R. M. 391 continues drilling.

The I. W. Lovelady (77 feet from north line) in section 14, GC&SF survey has been abandoned at a depth of 5,133 feet as of Dec. 10.

Bob Kropp, Lockney, took sweepstake honors at the 1964 National 4-H Livestock Judging Contest held in Chicago recently.

He was named high individual in swine judging; four high individual honors in overall contest and second place honors in the sheep judging. He tied for first place in sheep judging and in the run-off he lost by one point.

Bob was presented an Elgin wrist watch for his individual award. He also participated with the Floyd County 4-H Judging Team which placed 16th in the overall contest among 29 teams. The team, composed of Neil Mitchell, Larry Golden, Ricky Kellison and Kropp placed first in the sheep

GIN YARDS COVERED — Last week and this week most of the gin yards have been scenes similar to that pictured above... covered with trailer loads of cotton. However, around the weekend most of the gins caught up with the backlog that had accumulated, but the warm weather saw more cotton strippers in the fields and the lots were covered once again. ### Local Farmhand AT ANNUAL FOOTBALL BANQUET

#### Killed In Early Morning Mishap

Jessie Solis, 30 year old farm hand of Mac Smitherman, was killed early Sunday morning and a companion, Vincente Hernandez, injured, when their pickup went out of control and overturned four and a half miles south of Floydada on U. S. Hwy. 62.

Highway Patrolman Thurman Ketter of Plainview, timed the accident at about 4:30 a.m., however Solis' body was not discovered until shortly before 6 a.m. by a passerby.

Hernandez told investigating officers that he was knocked out in the wreck and when he came to he had crawled to the highway. He then walked to the home of Thomas Duran, who took Hernandez to his rural home at McCoy, Duran told officers that Hernandez reached his house about 5 a.m. He received treatment at 9 a.m. at Peoples Hospital then dismissed.

A billfold belonging to Hernandez was found in the wreckage. See FARMHAND, Page 7

### Phyllis Bradley Football Sweetheart; Jim Barrow Named Fighting Whirlwind

At the annual Football Banquet held at the high school last Saturday night, Phyllis Bradley was crowned as the 1964 Whirlwind Football Sweetheart, and Jimmy Barrow, a 132 pound guard received the coveted Fighting Whirlwind Award.

The new tri-captains for the 1965 football team were introduced at the banquet by Coach Ken Hill. They are Ronnie Eubanks, Zeke Robertson and Clinton Fawver, all interior linemen.

The invocation at the banquet was given by Mr. A. E. Baker, superintendent of Floydada Schools, and this was followed by a Toast to the Whirlwinds given by Gordon Hambricht, president of the Floydada Quarterback Club.

Following the meal, the new sweetheart was presented by Bill Curry, head football coach and athletic director.

The tribute to the seniors was given by Coach Bill Carmack, in the form of a "final pep talk". Carmack also gave the tribute to the cheerleaders for the work they had done during the season in boosting the morale of the team and entire school. The tribute to the Whirlwinds was given by Coach Curry.

The cheerleaders then presented Mrs. Fred Cardinal, pep squad sponsor with a gift of appreciation.

Miss Linda Bateman sang two selections regarding rivers, "Ole Man River", and "Moon River". She was accompanied at the piano by Sharon Huggins.

After the presentation of the District Trophy, a gold football, by Coach Curry to Supt. Baker, Coach Nick Greer recognized the Whirlwinds that made the all-district team.

During the tribute to the coaches, given by the 1964 Captains, Mac Willson and Bill Potts, the two reminded the coaches of the preseason ratings of the Whirlwinds. Most of these predictions put the Whirlwinds in third place in the district, and the team was a co-champion of district 3-AA and represented the district in the bi-district playoff.

### Parks Oil, School Hit By Burglars

Parks Oil Company in South Plains and the Junior High School were places hit by burglars last week and this past weekend, with several hundred dollars in merchandise and cash taken from the places.

I. H. Parks at Parks Oil said that the burglars broke the window out of the back door and came into the building through the grease room. The cash drawer was broken into and emptied as was the cigarette machine and the candy machine. Parks said he had no idea of how much money was taken out of the machines.

Last week, at least one person entered the Junior High School and gained entrance to the principal's office by breaking the glass in the door and reaching through the window and turning the lock on the inside of the room.

According to A. W. Coltharp, principal of the school, the most valuable things missing were a Polaroid Camera, a tape recorder, and a transistor radio. These items alone bring the value of goods missing to well above the \$170 mark.

In other police activity a car theft and two minor wrecks dotted the reports.

The B. P. Neffs, of the Lakeview Community were returning home from shopping in town last week, when they met a pickup belonging to them being driven by a Lath American. They immediately stopped, phoned the police and in twenty minutes had recovered the pickup, but the driver, and a passenger, managed to elude the patrolmen, according to Bill Taylor, Floydada Chief of Police.

### Allotments Generally Unchanged For 1965

The annual USDA cotton acreage quota referendum will be held Tuesday, December 15 with voting boxes set up in each of the nine communities, according to Tom Hutchins, Floyd County ASCS office manager. The county farmers will decide whether they will accept or reject the proposed quotas for the 1965 cotton growing season. The farmers will not receive price supports if the quotas are rejected unless he complies with the proposed quotas.

The cotton allotments are generally unchanged from last year. The county's quota was set at the first of this year at 93,365 acres. This is up only 76 acres over the entire county over last year. However, reapportionment of the acres gave Floyd County an additional 10,000 acres.

### Newcomers Number 9 In November

According to records at City Hall there were nine new families moving to Floydada during the month of November. This is the second month in a row that nine have been listed as newcomers. This brings the year's total to 127.

The city received twenty-two new families during January and February combined, nineteen in March, eleven in April, nine in May, twenty in June, nine in July, sixteen in August, three in September, nine in October and nine in November.

The new families and their addresses are: Kenneth Dodd, 329 1/2 W. Kentucky; Ellis Butler, 622 W. Grover; Minnie Martinez, 914 S. 3rd. Domingo Barraza, 603 E. California; Pablo Flores, 726 E. Thornton; Joe Diaz, 502 N. 9th; Bill Shurbet, 602 W. Virginia; Luther Scales, 508 S. Main; and Arlis Powell, 113 J. B. Avenue.

### New Dispatch Time Given For Floydada Post Office

The post office department has restored the 6:00 p.m. dispatch time to Floydada. This will make next day delivery to surrounding areas up to 300 miles. This will cover Dallas, Fort Worth, Wichita Falls, Lubbock, Amarillo and the Floydada trade territory. The deadline for this mail in the post office will be 5:45 p.m. The mail truck arrives at 5:20 p.m. and waits at the back door until 6:00 p.m. The clerk on duty must help load in order for him to make close connections at Childress, Texas, so the close-out time must be 5:45 p.m. This service was restored to allow patrons an extra forty five minutes for preparation of their evening mail. This will definitely benefit many business firms.

CHRISTMAS CARDS Unsealed greeting cards without writing, other than your name, may be mailed for 4c, but they cannot be forwarded or returned to you if undeliverable as addressed. Those bearing the letter rate of postage, 5c, can be forwarded or returned if undeliverable, provided they bear your return address. All sealed cards and those containing writing must bear the letter rate of postage. When addressing your cards be sure to use the correct and complete address, including the ZIP CODE number if known.

According to R. T. Pierce, chairman, Agricultural Stabilization and Conservation State Committee the State of Texas will receive a total of 6,835,945.0 acres on which to grow cotton this coming year. This represents the state's share of the 16-million acre national allotment and of the 200,000-acre national acreage reserve to take care of minimum farm allotments, announced the Department of Agriculture recently.

Cotton growers voting in the December 15 referendum will determine whether marketing quotas will be operative for the 1965 crop of upland cotton. Approval by at least two-thirds of those voting is necessary in order to put the quotas into effect.

Price pointed out that the domestic allotment program authorized by legislation enacted last spring, will be in effect for the 1965 upland cotton crop if marketing quotas are approved in the December 15 referendum. Under this program, a cotton farmer has the option of planting within his farm's effective allotment or the domestic allotment. The effective allotment is the farm allotment after any release or reapportionment. For those voluntarily reducing their acreage, growers may qualify for price-support payments in addition to the regular price-support loans. The domestic allotment program was in effect for the 1964 upland cotton crop.

The referendum this year presents these alternatives to voters: If marketing quotas are approved, marketing penalties will apply to any excess cotton of growers who exceed their farm's effective allotments, price support (at a level within 65 to 90 percent of parity) will be available to growers who do not exceed their effective allotments, and additional price-support payments will be made to growers who voluntarily reduce their cotton acreage to the farm's domestic allotment. (In general, the farm marketing quota—which a farmer may market free of penalty—is the production from the farm's effective acreage allotment.)

If quotas are not approved, the See REFERENDUM, Page 7

## City Fathers Agree To Extend Services To Highland Addition

At the regular City Council meeting held in the City Hall last Tuesday night, the members agreed to begin work to extend the needed services to the Highland Addition.

The developer of Highland, John Key West, met with the council and discussed what he planned to do and what his understanding of the terms were. That addition will contain a rest home and several residential structures.

It was found that the city employees will be able to do most of the work involved in the development of the addition. The only thing needed will be the letting of bids for the materials needed in the paving. The city will begin laying pipe to the project and getting other materials needed.

Another group, this one considering asking annexation to the city so they may get sewer service, also met with the council to see what would be required of them and what obligations the city would have if they were annexed. They were Bill Carmack, Dr. Tom Theford and Lloyd Allen, all of whom own property bordering the city limits on Ollie Street.

The aldermen also passed an ordinance, number 380, that gives the Mayor the power to appoint a Recorder for the Corporation Court with the approval of the council. Troy Leonard was presented to the council by the Mayor for approval by the council members. It was noted that the Recorder (judge) must be a resident of the city during the tenure of his office.

### Gift Bonanza Underway; 2nd Drawing Today

A large number of people braved freezing wind last Friday afternoon to see the annual Christmas Parade in Floydada and see Santa ushered into town on a fire truck.

The jolly man had been on the streets earlier in the day to chat with the small tots. He will be back in town from 2 until 4 p.m. December 12 and December 19.

The crack Tech ROTC Drill Team that took part in the parade last Friday had a local resident marching along with its members. He is Jimmy Oden, son of Mr. and Mrs. Conner Oden of Floydada.

The first of the drawing for the gift certificates was held Monday afternoon with Agnes Baker winning six of the eighteen gift certificates given away.

deez was found at the scene of the wreck and the victim was believed to be Hernandez until his employer, Tom Sneed, said the body was not that of his farmhand.

After officers went to the Hernandez residence, they found out Solis's employer, Mac Smitherman, who identified the body.

Solis had been employed by Smitherman for the past four years and prior to that had worked eight years near Falls.

Foster Auburn, who arrived at the scene about 5:50 a.m., said Solis was lying in a ditch east of the highway and the pickup was just northeast of his body, overturned in a field. Investigation of the pickup, driven by Solis, evidently skidded sideways and overturned on the pavement.

Services for Solis were held Wednesday morning in the Catholic Church with Rev. Paul Link officiating.

Survivors include his wife and three children all of Barwise where the family resided.

Burial was in Floydada cemetery under the direction of Moore Funeral Home.

**Month's Total Insured Loss By Fire \$1600**

According to a report by the Floydada Fire Department a total of \$1,600.42 was the estimated value of local property lost because of fires during the month of November.

The estimated value of the property that was involved in fires is \$75,000, which carried a total of \$37,500 insurance. The total loss on property was set at \$1,100 with \$1,102.42 being recovered from insurance companies.

On contents involved in fires, a total estimated value was set at \$10,000 that carried an insured value of \$5,000. The losses totaled \$500 and \$500 was recovered from insurance companies.

These amounts included only two fires during the month that created any loss. One was a double garage belonging to Harold Ellison at 621 West Kentucky and the other was the Calvary Baptist Church at 505 North 2nd. Both of these are frame structures.

There were four other fires but no losses involved.

During December only one fire has occurred and that happened while the participants in the Christmas Parade were lining up. Santa Claus was on the fire truck and attended the fire. The property is at 225 W. Mississippi and belongs to John Stapleton.

MRS. DAVID CECIL KEYS

## Judy S. Cook, David C. Keys Exchange Double Ring Vows

Judy Sue Cook, daughter of Mr. and Mrs. E. Shelby Cook of Amarillo, and granddaughter of Mr. and Mrs. Fred Barthey of Floydada, became the bride of David Cecil Keys, son of Mr. and Mrs. H. C. Keys of Longview, November 28th.

The main altar was decorated with an elegant center bouquet of white princess glads and white snow ball mums, flanked on either side by two golden candelabra holding lighted tapers. Embracing the entire altar setting were two bouquets of white princess glads and snowball mums. Overlooking the setting was a crystal chandelier and candelabra also bearing lighted tapers. To the front was a white wrought iron satin covered kneeling bench. The snow white aisle cloth was accented by white satin bows and glistening white balls which adorned the shimmering white silk rope on the pews, where the family was seated.

Fred MacFarland of Lubbock, sang "You'll Never Walk Alone" and Miss Gay Edmondson of Phillips sang "Whither Thou Goest". They were accompanied at the organ by Helen Jean Holloway of Amarillo.

The bride, given in marriage by her father, wore a floral length gown fashioned of pure silk peau de soie in a cameo tone. It was designed in a romantic Empress Josephine manner with the bodice featuring a low rounded neckline opened at the center front, which revealed an inset of dyed to match imported re-embroidered Alencon lace. The long fitted sleeves tapered to form petal points over the hands. The a-line skirt, released from the empire line, fell in a deep inverted pleat at the center front creating a redingote effect.

A tiny bias fold of silk defined the empire line ending at the front with a small tailored bow. An over-layer of the re-embroidered Alencon lace paneled the entire skirt that was revealed from the opened front pleat. The back portion of the skirt unfolded to form a magnificent Cathedral length train. The bride carried a cascade bouquet of ivory roses and white flowers. Attached to the shower-

ing ivory satin streamers were ivory rosettes and Sweetheart rose buds. The bride presented to the mothers a Sweetheart rose which she carried in the bouquet.

She wore a cone shaped head dress of peau de soie caught to a shoulder length veil of imported illusion. For something old she carried a beaded purse belonging to her great grandmother, the late Mrs. R. C. Watson of Floydada, which was also carried by the bride's mother at her wedding.

Miss Vickie Nicholson was maid of honor, Mrs. Janice Wadley, mistress of honor, and Misses Cheryl Swannerson and Jo Beth Quisley were bridesmaids. They wore floor length empire gowns of moss green satin with moss green velvet bodices. They carried cascade bouquets of Belmont gardenias and anemom curts with flowing moss velvet and nozier streamers. The bride's mother wore a gold orchid corsage complementing her floor length gown of teal blue peau de soie and velvet jacket. The groom's mother wore an ivory orchid corsage designed to coincide with her floor length gown of soft yellow peau de soie

## Willie Mae Woods Becomes Bride Of J. Ronald Taylor

Miss Willie Mae Woods became the bride of J. Ronald Taylor in an impressive double ring ceremony solemnized Saturday, Nov. 28 at 6 p.m. in First Baptist Church, Quitaque. Rev. Sealy Smith, pastor of South Plains Baptist Church, read the vows.

Parents of the bride are Mr. and Mrs. W. W. Woods, Quitaque, and the bridegroom's parents are Mr. and Mrs. J. P. Taylor, South Plains. The altar was decorated with a blue lined arch covered with white carnations and greenery flanked by basket arrangements of white carnations and pink gladioli and candelabra holding white candles. Miss Jan Johnson, organist, played the nuptial music and accompanied Mrs. O. R. Stark Jr., who sang "The Wedding Prayer." Given in marriage by her fa-

ther, the bride wore a dress of white embroidered cotton. The bodice was designed with a scooped neck line and long sleeves. Self-covered buttons accented with a bow at the waistline formed the back closing. The street length skirt was pleated. She carried a bouquet of white carnations showered with blue and white satin streamers.

Miss Chilonez Woods, Quitaque, sister of the bride, was maid of honor. She wore a dress of blue and silver designed as a sheath. Her corsage was of white carnations. Candelighters were Cheryl Ann McCrell, Quitaque, niece of the bride, and Katie Taylor, sister of the groom. They wore blue frocks with low necklines and pleated skirts. Their corsages were of white carnations. Nathan Mulder, Plainview, attended the groom as best man. Ushers were Warren Lee Mer-

## Dougherty Club Meets Nov. 23rd In Ross Home

Dougherty Home Demonstration club met in the home of Mrs. W. J. Ross on November 23rd, with Mrs. Ross opening the meeting with a reading for the devotional.

Each member present gave countless blessing that had been theirs through the year. They answered roll call with a good deed someone did for them in 1964.

Mrs. Ross gave the council report in the absence of Mrs. A. H. Kreis.

In the November 12 meeting Mrs. Robert Ward resigned the post as new president and Mrs. G. W. Smith was elected to fill her term.

The club's Christmas project was voted on and club will give their donation to Miss Pearl Coward's class.

Mrs. Earl Edwards gave the program on retarded children which was very informative. She also gave the highlights from the book, "They That Never Grew" by Pearl Back.

Some of the highpoints covered were happiness comes first for the child and all else follows. There are many things a child can do and exercises that are benefitting.

In choosing homes for the retarded select one where the children are well cared for and liked. The most expensive are not always the best.

Mrs. Carmel Eastham gave a five minute demonstration on foot notes.

Games prizes went to Mrs. Edwards, Mrs. Eastham and Mrs. Claude Ring.

Refreshments of chess pie and coffee were served to two guests, Mrs. Bob Ross and son and Mrs. C. A. Caffee, also to the following members: Mmes. Eastham, Edwards and Ring.

The Christmas party is planned for December 14 at 2 p.m. in the home of Mrs. A. H. Kreis.

## Wedding Date Of Newberry And Autrey Changed

The wedding date of Judy Newberry, daughter of Mr. and Mrs. C. H. Newberry, to Bonnie Autrey, has been set forward from February 15 to December 27, 1964, according to the bride elect's parents.

## OES Christmas Party Tonight

The annual Christmas dinner for members and their families of the Order of Eastern Star will be held on December 10, at 6:30 p.m. with the slated meeting to follow at 7:30.

A short program will also be presented, according to Mrs. Jo V. Eingham, Worthy Matron. The usual visit of the Deputy Grand Matron, Laverne Lonz, at this meeting will not be until January 28th.

## CHRISTMAS PARTY FOR 1964 CLUB

The 1964 Study Club will hold their annual Christmas party on the night of December 15 in the home of Mrs. John Stapleton. Members are to exchange gifts.

## March Of Dimes Banquet Held Here Saturday Night

Twenty-two persons were present Saturday night for the March of Dimes Banquet held in Lamplighter's Inn. The event was in preparation for the annual drive in Floyd County in January.

Barry Barker, Lockney MOD chairman and Ed Wester, Floydada MOD chairman, were in charge of the meeting. Special recognition went to Edgar Hays, Lockney, who has served the county chapter for the past 22 years, and to Wester, who has served since 1947.

Mrs. Sammy Hale, who has served the past three years as chairman of the Mother's March, extended her thanks to Study Clubs in the county whose members have assisted each year in the drive. She reported that all Federated Junior clubs who participate this year, would be given a certificate for their club.

Two polio victims, Miss Felicia Appplewhite of Lockney, and Harvey Allen of Floydada, were introduced. Miss Appplewhite brought the program on her rehabilitation at Warm Springs

## Miladies Club Plans Party

Miladies Club met Thursday with Hettie Bennett. Members answered roll call by giving their waist measurements.

Plans were made for the club's annual Christmas party Monday, December 14 at 7 p.m. in the Community Room of the bank. Gifts will be exchanged and members will reveal their secret pairs.

Attending the meeting were Vida Womack, Pernie Leatherman, Beulah Baker, Tommie Rowan, Gladys Cross, Mirrah Amburn, Audrey Nelson, and Maggie Lovell.

Beulah Baker will be hostess for the January meeting at which time members will answer roll call with what they did during Christmas.

The next scheduled meeting will be January 7 in the Home Ec Lab. The advisors will present the program on draperies.

## Linda Scheele Shower Honoree

A bridal shower honoring Miss Linda Scheele, bride-elect of Johnny Calahan, was held Friday, Nov. 27 in the home of Mrs. R. C. Matthews in Providence Community. Calling hours were 2 to 4 o'clock.

The dining table was laid with a white linen cut-work cloth centered with two large wedding bells accented with an arrangement of blue carnations around a single white rose. A large blue box featured streamers bearing the names of "Linda and Johnny". Hot spiced tea and coffee poured from a silver service were served with white angel food coconut snow balls, nuts and mints.

Misses Jane Thacker and Beth Calahan presided at the table and Diane Scheele secured names for the register.

An array of beautiful gifts were displayed. The hostess gift was a set of stainless steel cookware.

Hostesses were Mmes. Warren Mathis, L. B. Brandes, Harold McLaughlin, Don McLaughlin, Everett Crume, K. E. Morphis, Royce Carthel, Cecil Boedeker, Wilfred Stoerner, H. F. Quebe, R. C. Matthews, Robert Matthews, E. M. Quebe, Albert Sammann, Melvin Keim, Virgil Brashear, and Arnold Dietrich.

**Soil Can Be Winterized With Burrs**

Winterize your soil and protect it with a mulch of cotton burrs during this period of the year. The value of burrs applied to the land will off-set (many fold) the so-called disadvantages of weed problems, etc.

Recent studies have been made on the value of cotton burrs applied on the soil surface. Marked increases in the penetration of moisture were observed where burrs were left on the surface. Where the burrs were plowed under little or no increase was observed. The increase in penetration is attributed to a partial elimination of surface sealing and to a reduction in runoff, allowing more time for the moisture to penetrate.

Wind erosion is virtually eliminated where cotton burrs are applied and left on the surface through the blow season. This also reduces evaporation of moisture from the surface.

A mulch of cotton burrs has the same value of a high residue producing crop for returning organic matter to the soil. Organic matter has a far reaching effect on all processes which go on in the soil.

Moisture penetration, protection from wind, erosion, addition of organic matter, and return of plant nutrients enter into the picture when you consider the real value of applying cotton burrs to the land.

The average amount of nitrogen, phosphorus, and potassium in one ton of burrs is about 17.5 pounds of nitrogen, 8.7 pounds of phosphorus and about 72 pounds of potassium. These amounts are worth about \$7.65 in fertilizer value alone.

Burrs are effective for increased lint yields under both irrigated and dryland conditions.

Cotton harvest is in peak production, burrs are available in most of the gins in the county.

Mrs. Foster Amburn celebrated Sunday by their 40th wedding anniversary. The open house was held at the Amburn home in the afternoon. Mrs. Amburn of Tulsa and another daughter, Mrs. W. A. Amburn, Tulsa, and a daughter, Mrs. W. A. Amburn, Tulsa, were both of the invited guests to their anniversary party. Taylor was at the party.

Amburn presided at the service and Mrs. Tholman served cake. The cake was decorated with green and white frosting and green and white ribbons. The letters of the centerpieces were decorated with green and white ribbons. The table was decorated with a white tablecloth and a white and green centerpiece. The centerpieces were decorated with green and white ribbons. The table was decorated with a white tablecloth and a white and green centerpiece. The centerpieces were decorated with green and white ribbons.

IT WAS our privilege to have Matador newspaper publisher Doug Meador to speak to the Rotary club here last week. Doug had everything well under control with a good bag of funny stories and some very good philosophy on being thankful. I kept thinking about the joke Doug told about the man in Houston who owned a men's clothing store. He had made a tremendous error in stocking one roll of dotted suit of clothes and of course was having a hard time selling it.

One day as he was leaving the store to go to lunch he told his salesman, "Bill, if you can sell that polka dot suit while I'm out to lunch I'll give you a \$20 bill and a \$20 a month raise." Bill said he would do his best to sell it. . . he sure needed some extra money. When the owner of the store returned from lunch he found the store in a considerable disarray and Bill had his shirt nearly torn from his body and his arms and face were scratched. He looked over at the man's suit rack and discovered that the polka dot suit was gone, however, and brightly said to Bill, "well, I see you did sell the polka dot suit." "And from the looks of this store the customer must have given you quite a bit of resistance," he said as he handed Bill a \$20 bill. Bill pocketed the \$20 bill as he sat down on a nearby chair and replied, "well, boss, the customer didn't give much resistance to the sale, but that sneaky eye dog he had, nearly chewed me and the store both up."

IT'S LIKE I said all the time, this community is going to get bigger every day. It can't help but grow because so many people are working for its advancement. We have a group of leaders working on a new airport for the city, we have another group working to create another state highway through Floydada, and now comes the announcement of a new sausage manufacturing business here.

The Ponderosa Meat Company, one of our newest business establishments is making a new sausage under the brand name of "Johnny's Country Style Pure Pork Sausage." It will not only be sold locally, but will be routed to many area cities. Our congratulations to Ponderosa partners Johnny Harris and Parnell Powell on this big step. . . and I'll testify to the fact that "Johnny's Sausage" is mighty good.

Saw these rules published recently in an exchange paper, thought they would be of interest to you. **TEACHER, THOU SHALT** (These rules for teachers were posted by a New York City principal in 1872.)

1. Teachers each day will bring a bucket of water and a scuttle of coal for the day's sessions.
2. Teachers each day will trim lamps, clean chimneys and trim wicks.
3. Make your pens carefully. You may whittle nibs to the individual taste of your pupil.
4. Men teachers may take one evening each week for courting purposes, or two evenings a week if they go to church regularly.
5. After ten hours in school, the teachers should spend the other two reading the Bible or other good books.
6. Women teachers who marry or engage in unseemly conduct will be dismissed.
7. Every teacher should lay aside from each pay a goodly sum of his earnings for his benefit during his declining years so that he will not become a burden to society.
8. Any teacher who smokes, uses liquor in any form, frequents pool or public halls, or gets shaved in a barber shop will give good reason to suspect his worth, intention, integrity, and honesty.
9. Any teacher who smokes, uses labors faithfully and without fault for five years will be given an increase of 25 cents per week in his pay, providing the Board of Education approves.

THE HIGHWAY department is to be commended for its prompt action in getting the "Down-town Floydada" signs up on highway 70 through Floydada. . . and while we're putting them on the back, their promptness in getting the new city limit signs up is appreciated.

AND, by the way, if you have a horse that needs breaking . . . don't call Louis Anderson!

A New England paper recently published this announcement: "In case you find mistakes in this paper, please consider they were put there for a purpose. We publish something for everyone, and some folks are always looking for mistakes."

**Area Men Join In Good Neighbor Projects; Harvest Cotton On Race And Durham Farms**

The true meaning of Christmas was dramatically illustrated this week as hundreds of area men pitched in, gave, gifts of their time, equipment, hired hands and love to two area families by machine harvesting their cotton crops.

On the farm of the late Shirley Race around 22 cotton strippers harvested 159 bales on 104 acres in around five hours. The farm is located about three miles out on the Ralls Highway . . . the project was very appropriately named, "Shirley Race Day".

The following men helped either by bringing machines, trailers, pickups or supervision of the project: Elmer Biggs, Everett Warren, Thurman Batley, Grady Walker, Buster Simpson, J. T. Huckabey, David Campbell, Jim Simpson, Junior Simpson, Duke Waiding, Cleo Whittle, Alton Noland, Max Dyess, Weldon Smith, L. C. Pruitt, W. J. Cox, Buck Hickerson, Lonnie Hinsley, Al Galloway, Howard Gregory, Bill Norris, Earl Pierce, Bobby Smith, Lane Decker, Bob Owens, Mike Lowrance, Weldon Pruitt, Gary Huckabey, Bill Walker, Alvin Wilson, and Louis Pyle.

Leonard Matsler of Leonard's Cafe in Floydada served free hamburgers and cokes to approximately 100 workers at noon time. Brown Gin, Scott Gin and Floyd County Co-op Gin furnished trailers for the project.

**Childress Site Of VFW Confab**

"Nothing has even been accomplished individually. Everything of importance that you or I have done has been on an organization basis and with God's help and guidance", Ed Krenick, Departmental Commander of the Texas VFW told the District 13 convention representatives in Childress last weekend in stressing the importance of a strong organization.

He also reminded the group that with each session of Congress there is a movement started to cut down on the veterans budget, particularly on the hospital end of the budget. However, a counter movement usually stimulates the action and the veterans organizations are able to retain the same amount that it's facilities have received each year.

Krenick pointed out that the organization is not trying to get any new facilities, but merely maintain what is already there. He also mentioned the alcoholic rehabilitation facilities at the Veterans' Hospitals are very unique.

He mentioned that the hospitals serve four classes of hospital patients. They are: (1) Those who need help for alcoholism, (2) Those who could pay for any hospital, (3) Those who can't pay their hospital bills (and this amount would have to be borne by a county or private hospital otherwise) and (4) Those who won't normally go to a hospital even when medication is needed, for lack of funds.

The organization is trying to get Memorial Day and Veterans Day declared legal holidays at the next Texas Legislature. Texas is one of few states that doesn't recognize the two as holidays. Memorial Day is observed here, but it is only on a community basis.

The meeting was attended by Mr. and Mrs. John Bordeaux last Saturday and Sunday. Bordeaux is the local Post Commander.

**You Don't Need To Be Present To Win Gifts**

Due to a considerable amount of confusion at the drawing for gift certificates at the chamber of commerce office. Winners will announce each drawing in The Hesperian and over KFJD. Over \$300 worth of the valuable gift certificates are being given away . . . so register with the Floydada merchants participating from now until December 17.

Next drawing at 4:30 this afternoon.

The next drawing will be held this afternoon at 4:30 p.m. The merchants that are taking part in the Gift Bonanza should have their registration slips at the slab on the south side of the courthouse square around 4:25.

The drawing for the eighteen certificates, good for \$10 or \$15 each in merchandise or trade, took almost thirty minutes to complete. The reason was that a person must be present to win and sometimes there were four or five names called before the name of a person present was called. This has been changed.

In addition to this afternoon's drawing there will be two more at 4:30 p.m., one December 14 and one December 17.

All a person need do is go by a participating store and register. Over \$900 worth of gift certificates are being given by Floydada merchants.

**New Hospital Work Progresses**

According to a report from the Caprock District Hospital board this week representatives from Southwestern Laboratories in Fort Worth have been at the proposed site of the new hospital here and made core samples of the soil.

This information will be used in deciding upon type and construction of foundation requirements when bids are let on the construction around February of 1965.

The board reported that S. C. Cooper, city engineer, will soon begin surface engineering on the site.

Half of the money is available for the new hospital through a recent Hill-Burton grant of \$425,000 and the county tax office is currently collecting taxes on the bond vote that was approved by the voters in the district last year.

The nearer we come to great men the more clearly we see that they are only men.

**Annual Basketball Tourney Gets Underway Here Today**

The Annual Floydada Invitational Basketball Tournament gets underway this afternoon at 2 p.m. with a game that matches Post girls against McAdoo. This will be the first of eight games in the first round of the tournament that has a total of sixteen teams entered.

The Tom S. Lubbock B team, that filled in after Crosbyton withdrew recently will play Hereford at 3:15 Thursday. This game will be followed by a game between Mileshee and the Lockney girls, another team that filled in after Crosbyton withdrew to enter another tournament.

The other first round games are as follows: Spur vs Floydada Girls at 7 p.m. Thursday; Spur vs Floydada boys, 8:15 Thursday; Sudan vs O'Donnell girls, 2 p.m. Friday and Sudan vs O'Donnell boys at 2:15 Friday afternoon.

The double-elimination tournament will conclude Saturday night with the girls' championship game played at 7:30 p.m. and the boys at 8:45 p.m.

Last year the Whirlettes won the tournament in the girls' bracket and he Whirlwinds were defeated in the second round of play by Petersburg. The Whirlettes placed three members on the all tournament team.

Charles Horton was appointed as Building Official. W. Dale Goen and R. Fred Batley were named to two-year terms as commissioners of the Floydada Housing Authority and Carl Minor was appointed city tax assessor for 1965 tax collections.

The council also agreed to raise the patrolmen's salary to \$350 since the resignation of Joe Conden.

All members of the council were present.

### 30th District GOP Elects New District Committeeman

PLAINVIEW — Republicans from Texas's 30th Senatorial District passed a resolution Sunday endorsing Sen. Barry Goldwater and national GOP chairman Dean Burch.

Also, a newly-elected district committeeman told the group that he was a conservative and the group agreed to continue to follow conservative policies.

The resolution said, "Even in the face of defeat in the last election, we still strongly support the present conservative leadership."

County chairman and vice-

chairmen from the 15-county 30th Senatorial District, which splits the Panhandle, were meeting in Plainview to elect a replacement for district committeeman Bill Carter of Littlefield.

Carter died shortly after his election to the post at the state GOP convention.

Robert Lee Smith, a board member of Lubbock Christian College and a former president of the Floyd County Farm Bureau, was elected by acclamation as Carter's replacement. The election is subject to approval by the state committee.

Smith announced that he was a conservative and intended to follow the policies begun by Carter.

Smith, 35, is a farmer from the Sterley Community near Lockney. He was nominated by John Farris, Floyd County chairman, and the nomination was seconded by Bruce Rigler, Hale County chairman.

Buddy Hedges of Olton, a field representative for the state GOP, said after the meeting that in his opinion state party policies will be "the same as ever, only we'll have to work a little harder."

Mrs. E. R. Little of Sunnyside Community near Dimmitt, a district committeewoman, said the resolution endorsed Goldwater's "continued leadership of the Republican party and of retention of

Dean Burch as national chairman."

The resolution continued, "We believe that the 26 million people who voted for you represent the largest single unified opinion in the country. We also believe these people will continue to vote for principals rather than personal gain and will attract others to the cause of right."

The resolution is to be sent to Goldwater, Burch, Texas state chairman Peter O'Donnell of Dallas, Texas national committeeman Albert Fay of Houston, and members of the Republican Governors Association.

Burch is expected to ask for a vote of confidence from the national GOP committee late in January.

### Brother Of Two Local Women Dies In Lubbock

Funeral rites for Albert J. Randolph of Lubbock, 80 year old brother of Mrs. W. B. Wilson and Mrs. Albert Mize of Floydada, were held Saturday morning in Franklin-Bartley Funeral Home in Lubbock.

Randolph died Thursday morning in West Texas Hospital where he was taken by ambulance shortly after becoming ill at his home.

A retired civil service employe, Randolph moved to Lubbock from the Cedar Hill community in Floyd County where he was associated with his father in the farming and ranching business for many years. At one time he was in the general mercantile business in Lockney.

He was born in Texas and was a graduate of Plainview High School and Valparaiso University in Indiana, where he received his bachelor of science degree.

Randolph was a registered pharmacist and was employed at the South Plains Army Air Base at the Municipal Airport in Lubbock during World War II and later at Beese AFB.

Survivors include his wife; three sons, Peyton of Washington, D. C., David of Lubbock and Henry of Belvedere, S. C.; two daughters, Mrs. Kenneth Penrod, Lubbock and Mrs. E. C. Richardson of Pasadena, Calif.; two sisters, Mrs. Wilson and Mrs. Mize and eight grandchildren.

### Floydada Girl Named Among Who's Who At West Texas

CANYON — Patricia Tucker, Floydada senior, is one of 36 students named to represent West Texas State University in the 1964-65 edition of "Who's Who Among Students in American Universities and Colleges."

West Texas State annual names 36 juniors and seniors to the honor volume, from among nominees by all campus organizations and all departments of instruction. They are picked on the basis of scholarship, campus leadership, and participation in cam-

pus affairs.

Miss Tucker is the daughter of Mr. and Mrs. Marian Tucker of Route 1, Floydada. She is a music major and is minoring in education.

She is a member of the University Band, the University Chorus; vice-president of Tau Beta Sigma, national honorary band organization for women; treasurer of Mu Phi Epsilon, national music sorority; and is president of Brown Hall, women's dormitory.

**WHO'S WHO REPRESENTATIVES** — Patricia Tucker, standing left, was one of 36 juniors and seniors named to represent West Texas State University in the 1964-65 edition of "Who's Who Among Students in American Universities and Colleges." Also standing are Grady Savage of Plainview and Larry Elms of Silverton. Seated, Beverly Blaine of Plainview, Judy Jackson of Tulia and Sarah Gentry of Littlefield.

### Toastmasters Program For Tonight Given

Floydada Toastmasters will meet at 7:30 p.m. in the First National Bank on December 10 and 17. No meeting will be held on December 24 and 31.

The program for tonight will include the following: Bill Brown will be Toastmaster of the evening. Roy Teague, Don Pemberton, Shirley Irwin and John Reue will be speakers. Weldon Harris is in charge of the Table Topic and John C. Moss is the News Caster. Jack McIntosh will act as Time Keeper and Don Cheek will be the General Evaluator.

### Bible Baptist Sets Christmas Program Dec. 16

The Bible Baptist Church have planned their Christmas Program for next Wednesday night, December 16th at 7:30 p.m. The Young People will be in charge of the program. Visitors are invited and will certainly be welcome to attend this special Christmas program.

In order for the Church to know the approximate number of gifts to purchase for the night of the Christmas program they are asking all visitors and members that plan to attend the Christmas program to be present this Sunday for their regular service, if at all possible. This will help determine the number of gifts needed, because each person that attends will receive some form of gift.

Bro. Rhine stated that they have had over 250 visits from visitors in their regular services the

last five weeks and that it has posed a problem in planning for their purchasing of gifts for the Christmas program. Bro. Rhine said if you cannot be present this Sunday, that you are still welcome to attend the Christmas program.

### \$200 FINES DOT REPORT

AUSTIN — Fishermen and hunters shared the questionable privilege of paying the largest law violation penalty as noted in a Parks and Wildlife Department arrest report.

A man paid a \$200 fine plus costs for hunting antelope without a permit. A similar levy was made against a man for seining crappie.

Otherwise, it was a run of the mine roundup, said J. B. Phillips, law enforcement coordinator.

But the open fall weather was mirrored in the 107 tags issued for fishing without a license.

Fifty-four were charged with hunting without licenses; forty-four for killing doves in closed season; twenty-two for exceeding the game bag limit; fifty-two for hunting from an automobile; twenty-one for hunting in closed season and twelve were tripped by the ancient evil of using an electrical device to take fish.

Fines totaled \$12,922.82.

SOUTH PLAINS NEWS by Mrs. Murray Julian

Local Youth Home From Hospital

SOUTH PLAINS, Dec. 7—Monty Smitherman, son of Mr. and Mrs. Philip Smitherman, underwent a tonsillectomy at the Methodist Hospital in Lubbock Tuesday of last week. His parents and grandparents, Mr. and Mrs. Ernest Smitherman were with him, and Monty stayed at the hospital until Wednesday then was brought home. He is doing just fine, and was able to be out at Sunday School this Sunday.

Murray Julian attended services for Mrs. S. C. Hutcherson, 84, which were held at the First Baptist Church in Plainview at 2:30 Thursday afternoon. Mrs. Hutcherson had died at 4:50 p.m. Tuesday in Plainview following a long illness. She was the sister of Mrs. Jewel Kenady of Lockney and Mrs. Bill Harper, Mr. and Mrs. Bill Harper of McAllen, Mr. Mrs. Frank Jackson of Lubbock and Mrs. Walter Brown were here for the services and the Harpers visited several friends and relatives here until Sunday when they left for their McAllen home.

Womens Missionary Union will meet at the South Plains Baptist Church this Tuesday morning at 9:30 for the December Week of Prayer Meeting. This is the annual Lottie Moon Christmas offering and program. The church has set their goal for \$2,000.00, and each one will especially want to give to this worthy mission project. Ladies will bring covered dishes and husbands will come at noon to have lunch at the church Tuesday. Theme of the Christmas program is "Worship Christ the King."

Mr. and Mrs. Buster Dunham and Billy were guests of Mrs. Dunham's sister, Mrs. L. T. Wood and L. T. from Friday to Sunday noon. The Dunhams now live in Rankin, Tex., which is near Odessa.

Mrs. Jean McClure, D'Ann Donna and Boyd of Plainview had Sunday lunch here with Mrs. McClure's parents, Mr. and Mrs. Frank McClure, and Mrs. Skeet Thornton also was a visitor with the McClures.

The cotton harvest which was going in full blast up to Thursday of last week had kept the two South Plains cotton gins going 24 hours a day but since Thursday all farming operations were brought to a halt. This Monday morning the sun is shining brightly and again the strippers are in the fields, and castor beans are also being harvested. The thermometer fell as low as 18 degrees last week.

Mrs. Bryan Karr has been suffering with an infected tooth, and Thursday of last week had the tooth removed. This Monday she went back for further treatment.

Mr. and Mrs. Fred Fortenberry visited in Plainview at the Medical Hospital with his nephew, Eldon Fortenberry of Cedar Hill, who has been stripping cotton on the L. N. Johnson farm Wednesday and had the misfortune to get his hand caught in the stripper. He came home from the hospital Saturday and is getting along as well as possible, but it will be a month before he can use his hand again, according to his folks.

Mr. and Mrs. Alvin Nichols visited Sunday in Lockney with Mr. and Mrs. C. H. Rose, and Mr. and Mrs. C. L. Record.

Mr. and Mrs. Pete Thornton who live on a ranch near Sterling, Colorado, are coming this week to spend the Christmas holidays here with their son, Mr. and Mrs. Herman Thornton, Kay and Russell, and also with other relatives in Lockney. Mr. Thornton hopes to be able to attend the birthday celebration for his brother, Willie Thornton of Plainview who will be 90, Sunday, December 13, with the celebration to be Monday, Dec. 14.

Miss Linda Scheele of Providence, bride-elect of Johnny Calahan, was honored with a bridal coffee Thursday afternoon, December 3, in the home of Mrs. L. T. Wood.

Hostesses were Misses L. T. Wood, S. D. Kinniburgh, R. H. Adams, L. H. Parks, Griesby Milton, John Wilson, J. K. West, Alvin Nichols, E. J. Kinslow, Roy Burks, Roy Bledsoe, Glen Wood, Leighton Teeple, Elmer Thornton of Lockney, and Mrs. Walter Wood. Their gift was a large electric mixer.

The bride-elect's chosen colors of pastel blue and white were used in the table decorations. White linen covered the table which was centered with a bowl of white gladioli. Spiced tea and coffee were served by Mrs. Bledsoe and Mrs. Kinslow served white angel cake squares, using a silver tea and coffee service.

Mrs. Glen Wood registered guests.

Included among the guests were the bride-elect's mother, Mrs. Albert Scheele of Providence; Mrs. Shelby Calahan, mother of the prospective bridegroom, and Mrs. Gilbert Bean of Lockney, grandmother of the prospective bridegroom.

The young couple have planned their wedding for December 30, and they will be wed in the Providence Lutheran Church.

Mrs. Raymond Reeves attended an all-day luncheon bridge in the home of Mrs. Flute Hutsell, who lives near Silverton, on Friday. Sixteen guests attended and after luncheon which had as its main attraction Christmas ham, bridge was played at four tables.

GIVE VEGETABLES A "NEW LOOK" FOR THE HOLIDAY SEASON

Vegetables are sometimes called the stepchildren of the food family, even during the holidays. It is often said, "Meats and desserts, appetizers and beverages get special elaborate treatment, but the vegetables just get battered."

In fact, almost any time of the year the vegetables get little attention; perhaps this is why so many people just don't like them. Teenagers in particular omit vegetables (except French fried potatoes) from their diets.

This season of the year is a good time to try some of the many ways to dress up the vegetables in our meals. They can be marinated, served hot or cold, covered with sauce, prepared in a casserole or in combination with each other.

Decorative garnishes may be added at the last minute for a festive look.

For those who have the time there are "cute" suggestions like making faces of green pepper rings and olive slices, however these ideas often take more time than the result is worth.

SAUCES GLAMORIZE HOT VEGETABLES

There are so many vegetables that look and taste better served with a sauce poured over them. Vegetables in the green family — beans, peas, asparagus, Brussels sprouts, broccoli, celery and others are particularly nice with sauces. Almost any cook can make white sauce and its many variations that go well with vegetables; cheese, curry or mushroom for example.

Some vegetables are interesting served cold as an accompaniment to a hot main dish. Those in the red family — tomatoes, cooked

beets, red onions, red cabbage and radishes — all may be covered with a vinegary dressing and refrigerated a few hours or overnight so that the flavor will penetrate. The wide variety of vinegars give interesting flavors to marinades.

There are bottled dressings of oil-and-vinegar base that are also tangy marinades. A pretty red beet salad, marinated in an oil-and-vinegar mixture, adds tartness to a holiday meal. Similarly served green beans and asparagus are also festive.

Vary serving methods of the rich-in-vitamin A vegetables to give a lift to your holiday menus. Baked sweet potatoes are elegant in a sugar glaze or with marshmallow topping. They may also be baked in their skins and served with butter.

Acorn squash, usually baked in its skin, can be cooked in water and mashed with butter for a good eating change. Carrots, are delicious, too, mashed with butter, then seasoned with a bit of nutmeg.

The popular yellow vegetable, corn, can be used in corn puddings, fritters, or casseroles that can be baked along with other foods for a meal. Canned and frozen peas, Brussels sprouts, beans and corn can be seasoned, then baked in a covered dish. Be sure when doing this to remember that baking will require longer time than top-of-the-range cooking.

White potatoes, onions, cauliflower and turnips make casseroles that are especially good for buffet serving. These are good hot dishes to accompany cold sliced turkey or ham at a supper meal. Cauliflower au gratin, turnips in cheese sauce, and scal-

Relative Of Resident Passes

FAIRVIEW, Dec. 7 — We were sorry to learn of the death of the brother of Mrs. W. B. Wilson and Mrs. A. S. Mize, Albert Randolph who passed away Thursday. His funeral was held Saturday morning at 10:30 at Franklin-Bartley Funeral Home Chapel in Lubbock. Mr. Randolph had made his home in Lubbock since 1912. Relatives from here attending funeral services were Mrs. W. B. Wilson, Mr. and Mrs. A. S. Mize,

loped potatoes are a few of the possibilities.

Buttered crumbs or crusty cheese toppings add flavor and color contrasts to light vegetables as do chopped pimiento and green peppers.

Gelatin salad molds are another attractive way to serve vegetables. Shredded, crisp carrots, cabbage, celery and green peppers make nice jellied salads.

At holiday time, for a sparkling color use tomato juice as the liquid for gelatin. Here are variations unlimited. There are many herbs and condiments which, along with butter, give a new look. Besides parsley, usually sprinkled on top and mushrooms, there are such additions as pickle relish, chestnuts, celery seed, curry powder or nutmeg. During the holidays, chopped pimiento is a seasonally colorful garnish for green beans and peas.

Another way to give variety is to select fresh produce once in a while, and canned, frozen or dried at other times.

"TOMATO SLICE" SALAD: Add sparkling color to a festive menu. Shredded cabbage and green pepper are stirred into a tomato juice aspic and chilled in the tomato juice can so no fancy molds are needed.

WISS BEANS:

- 4 cups green beans or 2 packages French cut frozen beans
1 teaspoon salt
2 tablespoons sugar
1 teaspoon pepper
2 tablespoons butter
2 tablespoons grated onion
2 cans cornflakes
1/2 cup grated cheese
1 can sour cream
1 tablespoon cornstarch
Cook green beans and onion until tender.
Blend sour cream, salt, sugar, pepper and cornstarch and cook to make a cream sauce.
Saute cornflakes in 2 tablespoons butter.
Combine drained beans with sauce.
Line baking dish with cornflakes, add beans, put remaining cornflakes on top and add grated cheese.
Bake until golden brown.

The Ag IV class is starting woodwork projects their first being the stage props for the three act play "The Miracle Worker" directed by Jackie Gilbreath.

Each year the senior class takes advantage of the woodworking tools in the shop and every senior ag student produces a project having to do with woodworking.

For the play the boys made two different level rooms and an old time water pump, the door frames and window frames. The lumber used was loaned to the Theatricals Dramatics Club by Higginbotham-Bartlett Lumber.

The ag boys will disassemble the material to be returned to the lumber company.

Other projects of the students will be individual woodwork.

# Floydada Teams Down Crosbyton In Three Games Here Last Week

The Floydada Whirlwinds, Whirlettes and Girls "B" team all took victories at the expense of the visiting Crosbyton teams in Graves Gym last Friday night.

None of the local teams were seriously threatened by the opponents during the course of the ball games. A couple of them started off as if they would be close, but by halftime the locals had control of the game and went on to take the victory with little trouble.

The most impressive game of the night was the Whirlettes victory over the Crosbyton varsity girls. Every member of the local team saw action in that encounter, with reserve players in the game during at least three quarters. Guards were switched to forwards and vice versa by Coach Kelly Chadwick to give the team members a little experience in places other than their regular positions.

The varsity boys' win was their first victory of this season in three starts and the first time they had played anyone near their class. When they lost to Shallowater it was the first game of the season for the locals and the ninth for the Shallowater team. The Lamesa team that downed the locals last week was a very sharp team.

**"B" Team**  
The Whirlettes "B" team, led by the scoring of three forwards in the double figures and the outstanding work of the guards, downed the Crosbyton "B" team by a score of 48-27. In this game as the others, the locals took control of the game and never relinquished a lead after the game began.

Valdonna Bennett, Sally McIntosh and Janis McNeill scored in the double figures with 20, 15 and 14 points respectively. Jan Kill-

ian tallied 9 points to add to the victory.

The outstanding defensive job was led by the Whirlette "B" girl Linda Williams who constantly kept the pressure on the Crosbyton forwards. It was the first game of the season for the "B" team.

**Whirlettes**  
In a game that had an unusually large number of fouls the Whirlettes jumped into a 23-9 first quarter lead, led up the pressure and coasted on in to a 63-30 victory over Crosbyton. The consistent aggressiveness of the Whirlettes kept the Crosbyton girls in a state of confusion and frustration on several occasions.

The Whirlettes increased their lead to 36-19 by halftime and a 51-22 edge going into the final stanza, after holding Crosbyton to only four points during the course of the third period.

Shirley Rainer led the locals in the scoring department with 30 points. Dee Wilson and Pat Pierce added 18 and 15 to the team total. Shirley fouled out late in the fourth quarter, or could possibly have increased the amount scored. Dee Wilson also fouled out in the waning minutes of the game.

Sylvia Curry led the visitors scoring with 11 points, and she too fouled out of the game.

The locals scored only 40% of the free throws.  
It is hard to give any particular guard credit for holding the opponents score to as low as it was for the players were shifted from guard to forward and back again as substitutions were made.

**Whirlwinds**  
The Whirlwinds in their third outing of the season, are beginning to look less and less as though they are still carrying pads on their shoulders and playing like a basketball team, as

they grabbed their first victory of the season in downing Crosbyton 72-37 last Friday night.

The locals kept a full-court press defense on the Chiefs during 3 1/2 quarters of the game in helping develop the defense the team has been needing this season.

Also, as the team moved onto offense, each player showed that he is beginning to understand how his teammate is thinking and what he plans to do in certain situations.

Keith Teague again led the locals in scoring by racking up an impressive 34 points. David Lutrick added 16 and Kerry Bearden added 9. Teague and Bearden fouled out of the game.

The boys, as did the Whirlettes, jumped out into an early lead with the scoreboard showing 26-12 at the end of the first period of play. As the half ended the scoreboard showed that Crosbyton had closed the gap a little but the locals were still in command with 42 points and Crosbyton 22.

Going into the final stanza the Winds held a 59-47 lead and ended the game leading 73-37.

Morris led the losers with 15 points after their post-man Blazg fouled out of the game in the first quarter.

The locals had a little better eye for the goal than they have been showing in the past few games by dropping in 36% of their shots from the free-throw line. Previously this figure had been around the 30-35% mark.

**Standings**  
Presently the "B" team has the best record of the three teams with a 3-0 win-loss mark.

The Whirlettes have not dropped a game since they played in the Wagon Wheel Basketball Clinic and lost to Colton Center 32-42 in the first game of the year. Presently they stand at 4-1.

The Winds, in the winning column for the first time this year stand at 1-2 and are looking better with each performance.

The next home games will be, of course, the Floydada Invitational Tournament this weekend. After that the teams won't play a game at home until they host Tulsa December 22.

## Amarillo Downs

### Hornet's A

### And B Teams

The Della Plains Hornet A and B Basketball teams traveled to Amarillo last week and came back with a lot of disappointment for neither was able to overcome their opponents.

The B Team gave the Amarillo team a good battle all the way and led the first half, but during the third quarter, the Amarillo team started to work pulled ahead and never fell behind during the game.

The end of the first quarter saw Della Plains ahead 12-8 and at halftime the locals still led the host team 30-25 but during the third quarter, Amarillo scored 21 points to Della Plains' 8 and moved ahead to stay. Final score was Amarillo 50 and Della Plains 44.

Tommy Collins led the Della Plains in the scoring department with 17 points followed by Marcellous Richardson who sank 12 and Ernest Richardson with 7.

L. D. Turner with 13, and Morris Mitchell with 12 led the Amarillo team scoring. Eddie Dunn with 11 and Jerome Manuel with 10 also scored in the double figures for the host team.  
When the A team took the field in Amarillo, the team from the Panhandle was seeking revenge for a defeat handed them by Della Plains here in Floydada a couple of weeks ago. They got that revenge as they blasted the Hornets 90-49.

The Amarillo team had a 22-11 advantage at the end of the opening period, and led 49-26 at halftime. Going into the final stanza Amarillo led 77-41. The final score was Amarillo 90 and Della Plains 49.

For the locals Jewell Storey led the scoring with 14 points.

# SPORTS

## Girls Defeat Queen Bees; Whirlwinds Lose To Lamesa

The Whirlettes and the Wayland Queen Bees fought a nip-and-tuck ball game here in Graves Gym last week for three quarters and in the fourth stanza, the Whirlettes closed the door and took the victory by a 16-point margin, while the Winds lost their second game in a row 82-40. The Friday night before, Shallowater beat the locals by that same score.

The Whirlettes took a narrow 15-13 lead at the end of the first quarter and were leading 25-21 at halftime. After the intermission it was anyone's ball game until the beginning of the final stanza with the scoreboard showing the Whirlettes holding a 36-33, three-point margin. However when the final buzzer sounded the aggressive and determined locals had increased that three point lead to sixteen points. The final score read Whirlettes 57, Queen Bees 41.

Shirley Rainer tallied 24 counters to lead the locals in the scoring but Dee Wilson was pushing her for the honors with 22. Pat Pierce added 11 to the locals cause.

Pat Norman scored 22 for the Queen Bees.

The local team had an eye for the basket for they sank an impressive 81% of their free throws. The Whirlwinds put forth a great effort in battling the Lamesa Tornadoes here last week, but the visitors simply had the locals outclassed.

At the end of the first quarter, with the score standing 13-9, Lamesa, it still looked as though the Winds could come on and give the visitors a run for their money. By halftime, however, the height, accuracy, and smoothness had

Wilmur Bonner accounted for 12, Hozie Jackson sank 9 and Robert Conte 7.

David Mitchell of Amarillo led the field by burning the net with 31 points. Otis Watson had 20 points and Alvin Smith 20.

proven to be more than the Winds could contain and the score stood 39-23, Lamesa. At the end of the third stanza, the visitors had increased that lead to 27 points with the scoreboard showing 65-38. During the fourth quarter the locals managed only two points while Lamesa added another 17 to make the final score 82-40, Lamesa.

Keith Teague and Kerry Beard-

First, our congratulations to Miss Phyllis Bradley, and Jimmy Barrow for being selected the 1964 Football Sweetheart and Fighting Whirlwind.

Both these people worked hard, received little recognition during the season for the effort they had to put forth. These two certainly are very deserving of the honors presented them Saturday night at the football banquet. It's easy to work hard when you're getting the glory, but it becomes more difficult when you're not in the spotlight.

This was the first of the banquets this writer has been privileged to attend since moving to Floydada. Watching the tributes to the seniors, the Whirlwinds, and to the coaches it was certainly obvious that a lot more was being held together than green jerseys with white numerals and, of course, tape. There is something that goes a lot deeper, and something that won't set in a trophy case and tarnish as the years pass, but heart, like you the Whirlwinds have holding you together as a team, will live with you forever.

The same holds true for the honor you gave me Saturday night. I know my mouth fell open when Mac Wilson asked you to give me a standing ovation. Thank you Whirlwinds, it was very warm and I'll cherish and nurture that moment as long as I live.

To the new 1965 tri-captains, Ronnie Eubanks, Zeke Robertson, and Clinton Fawver, congratulations to you. You have a great amount of responsibility to shoulder, for the entire football squad will look to you for leadership, both on the gridiron and off. But you're shoulders are broad, you can carry it. See if you can lead that team a little farther next year.

It's still good to see Denver City on the victory trail. The farther they go, the better it makes Floydada look when compared with teams in other regions of the state.

They had a hard time with Stamford, and finally got their score after Stamford failed to make a first down facing a fourth and-39 from their own 19. On the first down, DC went in to score on a pass from Jerry Martin to Roy Henson was good for the TD with 1:20 remaining in the game. When the final gun sounded, the Mustangs were on another scor-

en shared the scoring honors for Floydada by sinking 14 points each. David Lutrick added 10. For Lamesa Franklin led the scoring with 21 and Lindsey had 13.

## Della Plains Teams Down Olton In District Games

The Hornets and Hornettes of Della Plains traveled to Olton last week for two district contests and brought home two victories. The Hornets downed their opponents in a low scoring clash 31-20 and the Hornettes more than tripled their counterpart's score with a final count of 97-31.

In the almost entirely defensive battled played by the girls, the Hornettes had to come from behind in the fourth quarter after trailing their host team the entire first three periods. At the end of the first eight minutes Della Plains girls had managed only 3 points while Olton gathered 9. At halftime the scoreboard read more like that of a football game than basketball with Olton still in the lead 13-10.

Also in the third quarter the locals were still trailing and going into the stretch pulled ahead of Olton and sprinted away from

ing drive, after recovering the short kickoff.

The schedule for this week's Texas schoolboy football semifinals:

team (during the varsity games) fouled off before the games ended. The post man for Crosbyton boys received five fouls in the first period of play.  
 The teams are looking better with each outing, now. The Whirlwinds defeated what should have been some tough competition last week as they eased by the Wayland Queen Bees in a game played here Tuesday night.  
 Friday night as the varsity teams played, the Whirlwinds took command of the game in the first quarter and Coach Kelly Chadwick began sending in substitutes and switching his players from one position to another. Although there are not a lot suited out for the varsity squad, the team has a tremendous amount of depth for any member of the team can step in and play any position on the court.  
 Talking to several people around town I have heard such statements as "I can remember a few years back when the girls were almost afraid for the ball to come back up from the floor on a dribble, but look at them now, they're aggressive, in fact, they'll run over someone if they happen to be in the way." It seems that the coach has made these girls want to win, and they really fight for those victories now.  
 Another person was heard to say last week, "It's a shame that these girls are in this district, for if they were located anywhere else in the state, they would go a long way on the road to the state championship."  
 That person was not saying that the Whirlwinds don't have a chance being in the 3-AA District, but competition is as tough here as in any district in the state. The team made a good showing last year, and lost only two team members. Here's hoping for the best, and girls, you can do it.  
 The Whirlwinds finished last week with mixed feelings, for they lost to a tall, fast, and smooth operating team here last Tuesday night, but came alive, spotted Crosbyton a few inches in height and defeated the Chiefs. It was the first victory of the Basketball Season for the Winds.  
 As the Crosbyton team and the Winds were warming up before the game, Coach Nick Greer looked at the size of the visitors and said "I believe they grow high school boys that are larger to the south . . . and to the east, west and north." Needless to say, the Whirlwinds will have one of the shorter basketball teams for a AA school.  
 Remember the days when the Winds had a small football team? It seems that this has carried over into the basketball season.  
 The Floydada Invitational Basketball Tournament begins here tonight. There are several fine teams entered and the quality of the games appears as if it will be very good.  
 Make an effort to come out to the games and help boost both the local teams to the championship.

## Women & Excise Cuts

So far as we know, nobody has yet come up with a figure to show how many of the nation's womenfolk cast their ballots for President Johnson on November 3rd.

But it's quite safe to guess that he got a whopping majority vote from the ladies in favor of his decision to start repealing federal excise taxes.

If Lady Bird herself had been doing the selecting, the list picked for repeal could not have come closer to the feminine heart.

Such things as toilet articles and cosmetics, jewelry, furs and handbags are items with a high priority rating on milady's shopping list, as any harassed husband can attest, when the bills come in.

And because any woman loves a bargain, the elimination of the ten per cent tax might be rationalized into a saving, justifying more purchasing.

Maybe that's one of the things the President and his financial advisors have in mind in their proposal for the excise cut — the notion that Uncle Sam will recoup any lost excise revenue in the form of other taxes generated from increased spending.

## The Ninety-Five Bases

The decision of the President to allow his Secretary of Defense to close ninety-five military installations is a sound one and one which should be applauded by most Americans.

It is a well-known fact that it is difficult to close a military installation. When such action is proposed, because a base is no longer needed, the suggestion always brings sharp protests from the Senators and Congressman affected. More often than is good for the national economy (and the taxpayers' pocket-books) the decision is made to allow the installation to stay open — as a gesture to pacify political interests.

This situation can no longer be tolerated when the defense budget is eating up over fifty per cent of the total revenue available to the Treasury — more than fifty billions of dollars.

There is little doubt that the squawks and squeals will be long and loud, in this case, but there is little doubt that ninety-five bases are no longer needed. In fact, Secretary of Defense Robert McNamara says the closings will save the nation almost half a billion dollars a year and eliminate some 63,000 unnecessary jobs.

One wishes the unneeded job holders in other segments of the national bureaucracy could also be eliminated. Certainly this is an unusual step — the elimination of 63,000 jobs and the saving of half a billion dollars annually, and most Americans heartily applaud the President's action and his courage in ordering the move.

### STILL A PLACE FOR MARTYRS

The slaying of a number of missionaries by Communist-backed rebel forces in the Congo recently has brought the Christian world face-to-face with the fact that the day of the martyrs is not past.

Most of the attention has been centered on the death of Dr. Paul Carlson, a young medical missionary from California, who has become something of a symbol of martyrdom in this age. However, several other dedicated missionaries are known to have died in the Congo massacres, and it is possible that when the final accounting is made, the number will be larger than we even know about at the present time.

But more has been written about Doctor Carlson than about some of the others, because more was known about him, for one thing, and in a way, he seemed to be typical of the men and women who give up the comfort and safety of their own homes and go to foreign lands to pour out their lives in the service of others.

Doctor Carlson, who was only 36 — married and the father of two — left a highly successful practice in California to go to the Congo after a visit there in 1961. Operating a hospital in a small building, under the auspices of the Congo Protestant Relief Agency, he was the only physician available to thousands of Africans in a wide area. He spent long hours in dispensing aid to the needy who came to him, in what was a labor of love. And finally he died a martyr's death because he had chosen to place the needs of others above his own safety.

A question many may ponder in this cold, pragmatic age is: "Why do men like Doctor Carlson choose to take this course of action? Why do missionaries and humanitarians elect to face grave danger—including the possibility of death—in order to minister to others, when they are not required to do so?"

Certainly, they do not go for money, or for prestige. And they are not seeking ease or comfort, because they leave all that behind when they venture into the earth's remote regions to minister to primitive people.

The fact is, those who go abroad to serve as missionaries or as humanitarians do so because they have a sense of mission. Throughout the centuries, there have been

## Floyd County 25 Years Ago

(Dec. 7, 1939)

Three young men were killed instantly Thursday night when the auto in which they were riding crashed into an eastbound Fort Worth and Denver freight train at a crossing on the Floydada Silverton highway at South Plains. The dead were Clovis McGavock, 25 of Lockney, Aaron Frieze, 24 and Morgan Garvin, 24, both of Silverton.

Funeral rites were held Monday for Mrs. Lorene Elizabeth Landers, who died in her home Sunday.

Funeral rites for Mrs. G. M. Woolsey, 71, were conducted Wednesday. She died Monday at her home. Mrs. Woolsey had lived here since 1920.

The Whirlwinds smashed Spur Bulldogs on Thanksgiving Day, 27-6, in their final game of the season.

Saturday marks the formal opening of the new Consumers Fuel service station of which C. C. Huckabee is manager. Other employees include Buck Bishop, Homer Warren, Ed Dunavant, Seaton Howard, Alvis Channing, Beatrice Davis, cashier, and Jack McKinney.

Jeff Hardin, father of Mrs. E. L. Angus, died at his home in Bonham Sunday.

Men and women who loved humanity more than they loved themselves and were willing to give their all in service to their fellow men. And often they make the supreme sacrifice in doing so.

Christianity is a missionary faith. It was Tertullian, one of the great writers of the Early Church, who said: "The blood of the martyrs is the seed of the Church." The blood of missionaries has been shed in all periods of Christian history. It is being shed today, as recent events in the Congo prove.

In an age which worships power and exalts materialism, it is difficult for many to understand the motives of men and women who leave the comforts of civilization to spend their lives in far-off lands to bring hope and help to those who need them so desperately. Some cynics criticize these dedicated healers and teachers, or even impugn their motives. But it is heartening to know that there still are men and women who are spending themselves in the service of others—and are willing to risk their lives, if necessary, in doing so—in a world which seems to be moving toward disaster. After all, it was the Great Physician who said: "Greater love hath no man than this, that a man lay down his life for his friends." (John 15:13)

## 1100 Foot Irrigation Well Yields Much Salt Water

HALE CENTER — Drilling operations have been closed down on a deep well probe in search of another strata of water for irrigation on the McBeth farm, five miles south and five east of Hale Center.

The test well was drilled and cased to a depth of 1100 feet.

An abundant supply of water for irrigation apparently was available, but the test operations were halted because of salt in the water which rendered the water supply unfit for irrigation.

Hope is fading for developing a deep well source of water for irrigation as results of the strong showing of salt in the McBeth test well. Hundreds of doubtful farmers were hoping that the "wild cat" would provide evidence of a new supply of water at deep levels for irrigation to replace the rapidly diminishing supply of shallow water.

The McBeth Brothers, Harold, David and Bobby, have not completely given up hope yet, although they reported the outlook for deep water production appears very dim.

"We're going to wait and see what happens in other deep well tests before making up our minds what to do next," Harold McBeth said. "The expense of continuing the test alone is prohibitive."

The deep test was drilled at McBeth's expense in an attempt to discover a new level of water that would give new hope in the "rock water" area which embraces about 200 square miles between Hale Center, Abernathy and Petersburg.

McBeth reported that the water in the test hole showed about "ten times too much salt" for irrigation.

"Salt content run much higher at the depth of 750 feet than at 1050 feet, which offers the possibility that the bottom is fresh water and that salt is seeping in around the 700-800 foot level," McBeth stated. "We are getting a high and low count of 15,000 to 30,000 parts per million."

McBeth stated that the static level of the well is 380 feet, and that the level climbed 110 feet after bailing was started.

"If someone else digs a well like this one and seals it at about 750 feet, and then comes up with fresh water at the bottom, we will attempt to seal our well at the 750 foot level. Otherwise, we don't plan to seal at this time."

McBeth continued: "It would cost from \$3,000 to \$4,000 to cement the casing. If we seal and miss the point of entry for the salt, we have lost our money because we can't take the casing out of the cement. We want to be absolutely sure of what strata is producing the salt before we attempt to seal."

## Heat Needs Of Greenhouse Tomatoes Explained At A&M

COLLEGE STATION — One of the first puzzles to confront the newcomer in greenhouse tomato production is how to figure the heat requirement of a plastic-covered structure.

The problem can be solved by using a formula which has proved reasonably reliable for Texas weather conditions.

Dr. D. R. Paterson, horticulturist at Texas A&M University, says the heat requirement for a greenhouse covered with a single layer of 4 mil polyethylene plastic is 1.2 British Thermal units (BTU) per square foot of exposed plastic area per degree of temperature differential.

Paterson hastens to add that the formula is not nearly as complicated as it sounds.

The first step, he said, is to contact the weather man and ask for the normal low winter temperature for the grower's area. Subtract that figure from 60 degrees, which is about the lowest desirable limit for tomatoes. The resulting temperature differential is multiplied by

1.2 to get the BTU's needed for each square foot of exposed plastic.

Using the College Station area as an example, Paterson says the normal low temperature is 20 degrees. Subtracting that from the 60 degrees leaves a temperature differential of 40 degrees.

Forty multiplied by 1.2 is 48 BTU's for each square foot of exposed plastic.

Paterson said a small greenhouse 20 by 50 with 7-foot side-walls at the eaves has about 2,400 square feet of plastic, counting sides, ends and roof. The heat requirement for such a house at College Station would be 2,400 multiplied by 48, or 115,200 BTU's. A furnace with 115,000 BTU output should be adequate for this house.

"But instead of depending on one furnace in this case, two furnaces with an output of 60,000 BTU's each, one in each end of the house would make a more practical heating system," the horticulturist said. "If one fur-

Total carloads moved over Santa Fe System Lines for the week ending Nov. 28, 1964 were 29,145 compared with 28,529 for the same week a year ago.

On-line loadings were 17,773 compared with 17,805 for the corresponding week last year.

Cars received from connections totaled 11,372 compared with 10,734 for the same week a year ago.

Santa Fe handled a total of 29,941 carloads in the preceding week of this year.

Since falls, the other furnace should keep the house over 33 degrees until repairs are made."

Paterson added that even though temperatures may fall to 10 degrees for a few hours, tomatoes will not be harmed appreciably if the greenhouse temperature falls to 33 degrees for several hours.

## Floyd Philosopher Admires Scientists' Timidity In Trying To Get That Rocket To Mars In July

Editor's note: The Floyd Philosopher on his Johnson grass farm has what probably is an unscientific view in his letter this week.

Dear editor:

A bunch of us was sitting around talking about that rocket the United States has launched to Mars and wondering how much figuring and calculating it took to aim it in the right direction, considering the fact the earth itself is twisting and hurtling through space at the same time, making the job sort of like trying to hit a roving animal from the back of a pickup truck bouncing over a pasture, using a boomerang for a weapon.

"It sure takes perfect timing," somebody said.

"He's right, and personally I take my hat off to the scientists who're doing it."

For example, you know of course it'll take about eight months for the rocket to get within television range of Mars and you realize what time of year that is? It's July and this is another example of perfect timing.

With the Russians also having a rocket sailing in that direction, July is positively the best month of the year for the finish, the

month that has the least variation from anything else. Oh, by the way, you weren't going to those scientists timing the rocket during the winter basketball season, during spring basketball, or during the late part of the major league games.

July was exactly the month to get the people's attention, and I look forward to the time. If it's handled and we can get a few millions taking up the sport, a real shot in the arm for dull summer months. We'll make it a real contest, three or four more, that much attention would focus if only Harvard and Yale playing?

Once the other entries are lined up, the sport has almost unlimited possibilities, as we run out of planets to race. There are billions of them there. This is exactly what needed.

Yours faithfully, J. A.

COLLEGE STATION—At least two major changes affecting the financial status of many American families have taken place during the past decade: Double paychecks and more family sav-

This observation comes from Mrs. Wanda Meyer, Extension home management specialist at Texas A&M University.

Approximately 70 percent of the families with wage earners in 1950 were receiving two or more paychecks, compared with more than 50 percent of wage earner families now receiving two or more paychecks.

The working wife is primarily responsible, says Mrs. Meyer. One out of three married women are now employed.

Average family income during the past 10 years has risen from about \$3,300 to just under \$6,000. The average is for the nation as a whole. In many instances, two or more paychecks have served to boost family income into the \$5,000 or higher bracket.

Naturally, two paychecks and higher incomes have had an effect on savings. The Home Loan Bank Board, a government agency that keeps an eye on the thrift of the nation, reports that total savings of individuals are now approximately \$400 billion, or nearly twice that of a decade ago.

"This works out to the equivalent of over \$7,000 per family as the government measures thrift," says Mrs. Meyer.

Boy Scouts of America was founded in 1910 and was granted a Federal Charter from the Congress of the United States in 1916.

**SOMETHING TO THINK ABOUT**

As we grow older, the thing that becomes more and more clear to us is the importance of friendships, and one can conceive of no greater satisfaction than that of conducting himself in such a fashion that he may constantly add to his list of friends, and thereby obtain a fuller life.

To live for the most there is in life must mean that we cannot live to ourselves alone. If we wish real success we must work and build together.
