FLOYDADA (FLOYD COUNTY) TEXAS, THURSDAY, JUNE 17, 1965

NUMBER TWENTY FOUR

IT'S THAT SEASON-FINALLY - Dianne Mathis of Farwell, and Kitty Lloyd, of Floydada, paused on the diving board of the Floydada Swimming Pool this week while they were enjoying the cooling dip in the water. With the temperature and the humidity racing toward the 85-90 degree and per cent mark recently several youths found the pool an ideal spot to cool themselves. The pool opened last week. Civil Defense Organized For Tornado Alert Here

WHEAT HARVEST 25% COMPLETE

After a rash of rainstorms, hail storms, and much cloud watching for possible tornadoes and other turbulent weather, farmers in Floyd County and the surrounding area began cleaning the weeds out of their crops, and putting the fields in better condition.

Some of those crops have to be replanted, and others have experienced nothing but a little moisture, that was badly needed.

At least one particular farmer was planting cotton (or replanting) in rows just a few inches from his original stand that had been hit by a hail during the past few days. Dot Hammonds said, "Part of the crop received quite a bit of hail, but most of it was good enough that I didn't want to plow it up, so I'm planting this right beside the old stand."

Early in the week, throughout the area a person could, and still may, see several hoe hands in the various fields. Although most of the weed control in this area has turned to mechanization and chemicals, the hand labor is still needed at very critical times. Sometimes this type weed control is as economical as the needed investment to acquire the other methods.

WHEAT HARVEST
What people thought a few weeks ago would be a wheat harvest that would start one day, continue day and night for a while then be finished in a very short time, has turned into a drawn out affair. Presently the harvest stands about 25 per cent complete.

The harvest of the wheat that was about ready to be cut two weeks ago was set back a few days when the thundershowers, that were expected a month ago, started occurring almost every day.

By mid-morning the fields in some areas would be almost dry enough to cut, and early in the afternoon, several combines would be in the wheat fields. However, around 5-6 o'clock, or earlier, afternoon and evening thundershowers would halt the operations, and the routine would be repeated the next day.

Most of the irrigated wheat in the county has been left untouched, because what moisture that has been received during the past few weeks has delayed its maturing, for the most part, therefore the crops are still too "green".

Contrary to most year's operations, very little night combining has taken place during this harvest season.

According to the manager of a local elevator, early this week he was trying to get some of his patrons to stop harvesting because the grain was too wet and too green. "We don't have enough dry wheat on hand to blend with what is coming in, so we are having a hard time moving what we do have." This was the comment of Tubby Robertson. "If we could get the humidity down to about 30% and get about three hours good sunshine on the crops, they would be just about right for cutting," he continued.

Throughout most of the county, farmers would prefer to have the sunshine and the low humidity for a few days to get the wheat cut and give the row crops a needed boost.

To date there has been no noticeable insect report that would affect Floyd County farmers.

North Floyd Hit By Heavy Winds, Hail
Thriving cotton, milo, soybean and other crops were battered to the ground in the northwestern part of Floyd County last Saturday afternoon when a fast moving thunderstorm crossed over a strip of the county.

According to reports the strip is around seven miles long and about a mile in width from Providence to Lone Star. Trees were up-rooted, utility poles were blown down and several people were completely hailed out, according to Mrs. David Frizzell who lives near the (See Storm, page 6)

At a meeting of a select group of citizens recently, the Civil Defense of Floydada was re-hashed. Several changes were made.

Of most interest to the group was the need for mobility and more medical supplies in case of a city-wide disaster. Presently in one shelter the food supplies are adequate to handle an emergency, but there is a shortage of blankets and medical supplies.

About 30 were in attendance with Bill Feuerbacher presiding at the meeting, assisted by Dr. Ed Bayouth who cited most of the needs of the organization. (pick up story)

Rites Conducted For George Jones

Funeral rites were conducted Tuesday afternoon in the First Baptist Church for George Wilson Jones, longtime resident of Floyd County. Jones died Sunday afternoon in Lockney General Hospital after an extended illness. He was 78 years old.

Ken Carter, pastor of the Pleasant Valley Baptist Church in Amarillo, officiated, assisted by Rev. F. C. Bradley and by Rev. Charles Lutrick, minister of the First Methodist Church.

Jones was born in Grayson County April 9, 1887 and came to Floyd County in 1904. He and his wife moved to Amarillo in 1902 and back to Floydada in 1961.

He and Mrs. Jones, who died in December, 1963, were married in 1908. She was the former Willie Mae Freeman. Jones was also preceded in death by two daughters.

Survivors include three daughters, Mrs. Porter Finley, Floydada and Mrs. Tom Shelley and Mrs. Homer Long of Amarillo; four sons, Floyd and Clarence of Floydada; Harold in the Marines in North Carolina, and Noel of Amarillo; one sister, Mrs. J. L. Denton of Whitewright; 22 grandchildren and 14 great grandchildren.

Graveside rites were held at Amarillo Memorial Park under the direction of Moore Funeral Home. Grandsons were pallbearers.

Rev. Cahries Lutrick, pastor of the Methodist Church, was put in charge of finding, buying an ambulance, probably through Civil Defense, or through Army surplus, and equipping the vehicle with needed supplies.

In case of an emergency the City Hall would serve as a base operations center for the organization with the Sheriff's office at the courthouse alternate.

The steps the organization would take in case a tornado or other disaster should threaten the city include:

Members of the Civil Defense Committee would meet at Operations Center.

Observation personnel would be dispatched to their respective points, which begin 10 miles from the City Limits and would narrow to within two miles from the city as a threatening cloud develops within the 10-mile area.

On the observation posts would be two units from the sheriff's office, the Department of Public Safety, and nine from the city that are all on the same radio frequency.

The Civil Defense Committee will stand by at Operations Center in constant contact with observation points.

Whenever a tornado develops within the 10-mile circle around the city and is confirmed by observation points then the tornado sirens will be sounded as follows: one solid blast for 45 seconds. Wait one minute. Repeat three times. Wait five minutes. Repeat entire cycle until danger is over.

In areas where fire sirens are not heard the City Police and Fire Trucks will drive through areas with sirens in operation.

When a tornado strikes within the city limits, the following steps will be followed under (See TORNADO page 6)

Pounding For Cotton Center Victims Friday

An old fashion pounding for the Latin American family, Mr. and Mrs. Esteban Esquivel of Cotton Center, who along with their two children were injured in the tornado which struck there two weeks ago, will be given tomorrow (Friday) afternoon at 3 o'clock at the Community Room of the First National Bank.

Members of the 1950 Study Club in Floydada are sponsoring the pounding.

Due to the loss of the Esquivel's home and all of their belongings, the club members feel that the family is in more need of household furnishings and food than other items. However, clothing and linens will be appreciated.

Boxes have been placed in grocery stores by the club this week for contributions of items. These will be picked up by the members and given to the Esquivel family.

The couple, who were brought to Peoples Hospital for treatment of their injuries, have since been released.

Board Grants Payne Year's Leave

The Floydada school board granted school teacher Hollis Payne a year's leave of absence at its regular monthly meeting Monday night in the school business offices.

Payne, who has taught in the Floydada school system for 14 years will finish college work on his Bachelor of Divinity degree, which must be completed at this time. He will attend the Baptist Seminary in Fort Worth and return to school teaching next year.

Mrs. Payne will continue to teach the second grade here. The board's action is subject to the approval of Superintendent Baker who was out of town due to the death of his mother in Arkansas.

In other business the board approved the payment of school bus warranties, which leaves a debt of around \$10,000 on the two bus purchases this year. The expenditure of around \$20,000 on buses bought in the past will be made from the transportation fund and a small amount from the general fund.

The board also accepted the resignation of Mrs. Truman Gregory who is moving to Lubbock and Bob Shields, who will be with the Jr. High School in Amarillo next year.

Shields said that by teaching in Amarillo, he will be able to attend some courses at West Texas State on administrative work.

In other business the board approved a request by the Baptist church to hold a revival meeting in the high school auditorium November 7-14 this year.

The request was made because the Baptist Church will be in a state of remodeling construction at this time.

The board also approved the registration of school tax assessor-collector Dave Eaton at a school business manager's school at Texas Tech June 24-25.

In other business the board discussed the hearing of a group of people in Cedar Hill desiring to leave this district and annex with Lockney. The board took no official action on this matter.

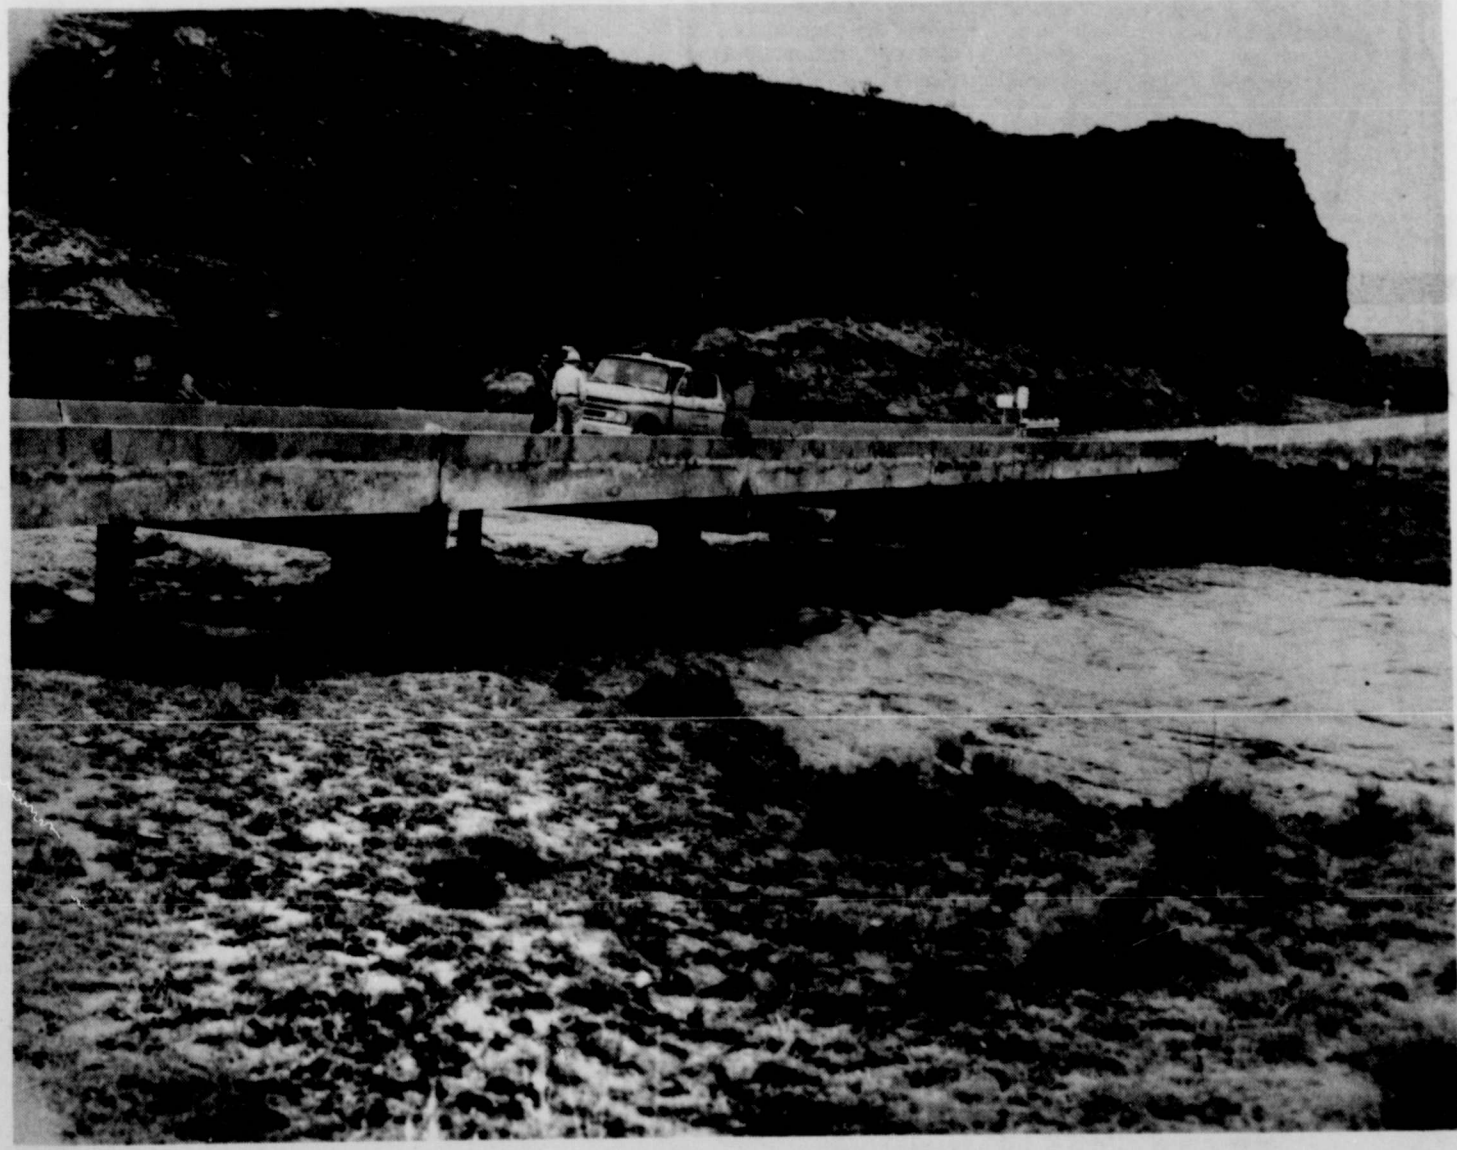

The board also did considerable work on determining size and location of the new grade school to be built. No official action was taken on this matter.

Canneries To Open July 1

The County Canneries at Lockney and Floydada are due to open July 1.

Same personnel as last year will be on duty to help. The cannery will remain open until fall.

Water Flooding Through Mackenzie Dam Site On Tule Creek

Above were taken by Mr. and Mrs. Charles Sarchet, County News of Silverton last Friday. Mrs. Sarchet said that the water at the proposed Mackenzie dam site crested at about 8:30 a.m. Friday, (June 11) The water had at more than 10 feet since about 6:00 a.m. that day, and it left the site at about 9:00 a.m. it was still more than 10 feet. (about 10.80) The Middle, North

and South Tule Creeks all were running. We have seen evidence that the water may have crested at a new high Saturday, but we were out of town getting Charles' brother married and didn't actually see it. However, the Middle Tule was way out of its banks at Tulla and water was over the highway between Tulla and Silverton in several places, and this is a good indication that it might have. My Dad farms southwest of Tulla, and he has had one flood right after another for about 10 days. The bridge (over the Middle

Tule) that he crosses to go to his farm southwest of Tulla was washed completely out this past weekend after having had the water go over the top of the bridge last week. Fences were completely washed out in the area, and when we were observing the water Friday morning we noted lots of big trees and fence posts washing by. It was really a little scary to stand on the bridge when a large one hit one of the pilings of the bridge and feel it give a little. Some oldtimers say they have seen the water lap the bridge (at the damsite) many times, but some who were

on the scene said that this was the most water that has gone down the stream in many a moon. Very timely, with the survey work going on, we might add. The Department of the Interior was on the scene, as you can see in one of the pictures. They couldn't give us information because it has to be officially released, but they were measuring the speed of the current, etc. with some fascinating devices. It will all go into our record, I think, and they will know that if we had built our dam last year it would be nearly full right now!"

CEDAR HILL NEWS by Joe Fortenberry

Moisture Delays Harvest

CEDAR HILL, June 14 - We have received an appreciable amount of moisture this week which is nice on growing crops. Moisture has been so high that there has been a delay in wheat harvesting. Some fields are too wet for machines in the field and the heavy fog for the last two mornings has prevented drying. We are hoping for fair weather so the grain can be harvested.

What Is The Church Of Christ?

Millions have asked this question in view of its remarkable growth. The answer is found in the New Testament. Jesus Christ promised to build His Church for he said to His close disciples, "Upon this rock I will build My church," (Matt. 16:18). Fifty days after His resurrection, Christ built His church when three-thousand became Christians and were added to it, (Acts 2:38-37). The Church of Christ is built upon Jesus Christ the Son of God, and the "Rock of Ages", (1 Cor. 10:4; 1 Cor. 3:11).

The Church of Christ has no head in Heaven or Earth but Jesus, (Matt. 28:18), and "He is the head of the body - the church, that in all things He might have the pre-eminence," (Col. 1:18).

The Church of Christ is not a denomination, but it is complete within itself and separate from all other churches. It is the Kingdom of God, non-denominational and Christ-centered. It is neither Catholic, Protestant nor Jewish, but is world-wide in scope, and congregational in government and operation. It does not have an ecclesiastical hierarchy, since every Christian is a priest under Christ - our only High Priest, (1 Peter 2:9).

The Church of Christ is pleading for the authority for primitive Christianity, the restoration of the apostolic church, and the unity of all professed Christians. Jesus prayed, "that they all may be one," (John 17:21). To achieve this goal, men must respect the same authority, and preach the same thing. Jesus said the "seed of the kingdom" which will produce fruit pleasing to God is "the word" or the New Testament of Christ, (Luke 8:11). If we ALL plant, in the hearts of men, the teaching of CHRIST and NOTHING ELSE, we will have a harvest of souls that are united in their belief and practice. If we preach the SAME things that the apostles preached, and men obey THAT teaching they will all be Christians (Acts 11:26) and will form "Churches of Christ," (Romans 16:16). We seek only to be what the early Church was and invite all men to lay aside partyism and denominational loyalty for the pure unaltered commands of the New Testament.

Local Student In TWU Speech Play

"The Chalk Garden," a play by Enid Bagnold, will open Texas Woman's University summer round of theatrical productions on June 17 and 18 at 8 p.m. in Redbud Auditorium. Wanda Thompson of Floydada is included in the cast.

The play tells of a governess who finds as her charge a young girl pampered by her grandmother. The story attempts to point out that children as flowers in a garden require loving care and attention if they are to grow into maturity.

Dr. Josh Roach, chairman of the Department of Speech, is the director and Ralph Carter, instructor in the department, is supervising the staging. Miss Nancy Haynes, guest professor in Costuming from Indiana University, is designing and supervising the costumes.

The play was first presented on Broadway in 1955 and has been a popular favorite with Community Theatre groups since that time.

Cast for the production includes Barrie Tolson, Fort Worth; Loretta Brocker, Burkburnett; Sara Potts, Denison; Flora Johnson, Denton; Mary Pat Kreischer, Dallas; Wanda Thompson, Floydada; Jerri Wallace, Perryton; Terri Amos, Fort Worth; and Melonie McCoy, Denison.

Four Rural Accidents In County

There were 4 rural accidents in Floyd County during the month of May, according to Sergeant D. S. Lawson, Highway Patrol Supervisor of this area.

These crashes resulted in one person injured and an estimated property damage of \$2,300.00.

The rural traffic accident summary for this county for the first five months of 1965 shows a total of 22 accidents resulting in no persons killed, 9 persons injured, and an estimated property damage of \$12,035.00.

"Due to a man power shortage in the uniform services of the Texas Department of Public Safety, applications for the position of patrolman are now being accepted until July 6," announced the Patrol Supervisor. Examinations will be given throughout the state on July 14 and July 15. The four month training school will begin on August 31 at the Texas Department of Public Safety Law Enforcement Academy in Austin.

Young men between the ages of 21 and 35 that are interested should contact the nearest Texas Department of Public Safety Patrolman or office for additional information.

County Purchases New Maintainer

In a regular business session at the court house last Monday the County Commissioners conducted routine business and purchased a new maintainer.

The new machine, a Gallion, was purchased for Precinct 1, of which John Fowler is commissioner.

In the only other business, the group paid the bills and discussed the work of a Board of Equalization.

HARMONY TO MEET JUNE 24

The Harmony Community meeting will be on June 24 instead of the regular third Thursday night, according to an announcement from Mrs. Truman Dunavant.

Joe Wilson, county agent, will show films of Ireland at this time.

Cuban soldiers talk of their weapons.

Miss Barbara Milton pledged wedding vows with Roy Eugene Edwards at 3 o'clock p.m. Saturday in the South Plains Baptist Church with the Rev. Sealy Smith, minister, officiating the double ring ceremony.

The bride is the daughter of Mr. and Mrs. Grigsby Milton of South Plains and the groom is the son of Mr. and Mrs. Roy Edwards of Floydada.

Matron of honor was Mrs. Arlis Powell, sister of the bride, and one of the candle-lighters was Miss Beth Calahan. Darla Milton, sister of the bride, was a flower girl. Mrs. Kendis Julian was organist and Miss Bennie Galloway was soloist.

A reception followed the beautiful ceremony, and friends and relatives gathered in Fellowship Hall to wish the young couple a good life together. Mr. and Mrs. Edwards will reside in Floydada where he is connected with the Lighthouse Electric.

All happiness is wished the couple from everyone in our community.

MRS. RONNIE OGLE nee Gloria Sparks

Vows Unite Gloria Sparks, Ronnie Ogle

Miss Gloria Jean Sparks and Mr. and Mrs. Bud Sparks of Ronnie Eldon Ogle exchanged double ring vows at 3 p.m. Sunday in an impressive ceremony performed in the First Methodist Church by Rev. Charles Lutrick. Parents of the couple are

brass dressed in long garlands of white pom pom mums held white Cathedral tapers. Aisle ropes of green emilax leading to the altar and brass standing trees of emerald completed the setting.

Mrs. David Battey Jr., soloist, was accompanied at the organ by Miss Lana Davis. The bride, given in marriage by her father, wore a formal bridal gown of de lustre satin fashioned with an empire bodice and a corded Florentine neckline. The elbow length sleeves were accented by white shortie gloves. Her bell shaped skirt was complemented by a removable chapel length train with trailing roses and leaves. Her snood veil of silk illusion was attached to a forward cluster of pearl trimmed rose buds and petals. She carried a bouquet formed in a shower of white Belmont gardenias, white satin and maline.

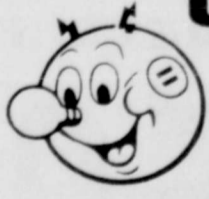

Mrs. Laron Fulton attended her sister as matron of honor. Bridesmatron was Mrs. Bill Gill of Bellevue, sister of the groom and bridesmaid was Miss Norma Hollums. Each were gowned in floor length dresses of aqua crepe designed with a low scooped neckline, elbow length sleeves and set-in mid-riffs. Their softened sheath skirts were accented by a lace dored by crepe. They wore headpieces of matching crepe double bows finished in tulle, and carried cascade bouquets of Hahn's ivy and yellow Marguerite daisies.

Shonda Fulton, niece of the bride, was flower girl.

Hill annexation to Lockney would prevent this. A district cannot cross another school district to annex.
If South Plains residents are looking forward to going to school at Lockney in the future, the annexation of the Cedar Hill strip separating the South Plains and Floydada school districts would make no difference.
It looking at last year's transfers from the South Plains district, county school superintendent Clarence Guffee reports that there were 23 to Floydada schools and 12 to Lockney schools.

Doubtless, the county school board will take several things into consideration when it makes its decision... and of prime importance should be the education of the children involved.

The county school board is composed of: Jack McIntosh, member-at-large and chairman, Milton Evans Precinct 1; Hubert Frizzell, Precinct 2; Leighton Teeple, Precinct 3; and Joe Thurston, Precinct 4.

WELL, IT'S like I said a week or two ago, this little league baseball is very enjoyable. Since then I'd like to admit that the last two games have almost made a nervous wreck of "yours truly, Tooley."

Last Friday we were tied up with a team at the end of five innings and after three more innings we managed to come out winner. Then Monday evening we lost a close one, 3 to 2. Boy, that one was plenty rough on my blood pressure.

Folks, let me just say again, you're missing a lot of fun and excitement if you don't get out and watch these little leaguers play. The Junior League boys, especially display some very professional ball playing that will compare with the big boys on TV.

TWO NEIGHBORING towns made national news recently; Abernathy got on the map due to the visit of President's daughter Luci with the Jim Ray family.

Hale Center got its national publicity the hard way... a tornado that swept the downtown area... and now a total of five have lost their lives due to the tornado.

Marvin Shurbet continues a fight with the government seeking depreciation allowance on income taxes for our underground water. Of course Marvin is a Floyd county farmer... and the case is going in his favor at this time and continues to make national news.
So, Floyd county wasn't missed in "big" news completely.

THE MASTERS CHOICE

(In loving memory of Kelly Keith Patzer
Jesus walked in his garden looking his roses over,
He paused at the tiniest rosebud just opened not long before.
He carried him home to his Father for he was the sweetest one there,
Then a shadow fell in the garden where it had once been so fair.
We know not why he chose him in preference to some of the rest,
But God in his infinite wisdom knows what is needed and best.

Survivors are one daughter, Mrs. Dorsey Baker of Lockney; one brother, Ted August Stinwbaugh of Fort Worth; one sister, Mrs. Lola Gunter of El Paso, four grandchildren and four great-grandchildren.

BULLETIN

Lawrence Stovall, employe of Lighthouse Electric, was injured about 1:30 p.m. Wednesday afternoon, when an apparent defective pole broke under the weight of the lineman.

The accident occurred on the Charles Kay farm about a mile northeast of Finney Switch, near Plainview. The Lighthouse crew was removing unused line from the Kay farm.

Stovall was taken to a Plainview hospital by a Moore ambulance. The extent of his injuries was not known at press time Wednesday.

Signatures for the guest's book were secured by Mrs. W. J. Cox of Lockney and Mrs. Raymond Williams. The register table featured pink rosebuds in a crystal stemmed vase.

The serving table was laid with a white embroidery cut-work linen cloth and centered with a pink floral arrangement in a crystal flared bowl. Mrs. Max Marble of Lockney and Mrs. Elmer Norrell presided at the crystal service.

Hostesses were Mmes. Bert Vernon, J. P. Truett, Alton Noland, W. J. Cox, Linton Pruitt, Weldon Smith, Carl Huckaby of Lockney, Doyle Mount, J. T. Huckaby, Roy Fawcett, H. W. Roberts, O. G. Mayfield, Charles Horton, Raymond Williams, Floyd Fuqua, Elmer Norrell and Elmer Biggs.

Their gift to the couple was an electric food mixer.
Miss Robertson and Race exchanged wedding vows June 12 in First Baptist Church at Durant.

Larry Ogle, brother of the groom was best man. Grooms-men were Stanley Browning of Wichita Falls and Bob Sparkman of Eastland. Laron Fulton and Vaughn Ginn were ushers. Candlelighters were Lanny Huddle of Jacksboro and Jerry Deweber of Newport.

A reception was given in Fellowship Hall of the Church following the wedding. Mrs. Vaughn Ginn secured guest names at the register and Mrs. Stanley Browning and Miss Becky Robertson presided at the table. Also assisting with the houseparty were Mrs. Newell Parker, Mrs. Bud Goen and Mrs. Bob Wellborn.

The bride's table was laid with a white linen cloth and held an elevated three tiered wedding cake in white decorated with aqua colored rose buds and silver leaves, topped with the traditional miniature bride and groom. A five branched candelabra bearing white tapers, flanked by the attendants bouquets completed the arrangement.

For traveling to Red River, N. Mex., the bride selected a three piece beige knit suit with matching accessories complemented by the gardenia corsage from her bridal bouquet.

Mr. and Mrs. Ogle will reside in Floydada where she is employed by Lighthouse Electric and he at the Soil Conservation Service.

The bride is a 1963 graduate of Floydada High School and attended West Texas State University. Her husband is a 1960 graduate of Bellevue and graduated from Texas Tech in 1964.

THURSDAY, JUNE 17, 1965

Registration Underway For First Free Weekend Trip To Mountains

Registration began Monday in various local stores for the first of ten weekend trips to the Rockies being given away by Floydada merchants. Each winner will receive about \$100 worth of lodging and meals for up to five persons.

Next Monday, June 21, the preliminary winners for the first week will be drawn in each of the participating stores. Saturday, June 26, the first of the ten winners will be named. Also, June 21, interested

persons may begin registration for the second trip to be given away, and this routine will continue for ten weeks.

There is nothing to buy, no jingles to write, and the preliminary winners need not be present to win.

All that is necessary is that the contestants be over 21 years of age and fill out one of the official entry blanks in one or more of the participating stores and deposit it in a ballot box

which will be at the store.

Nothing prevents any over-21 person from registering in each store each day if he so desires.

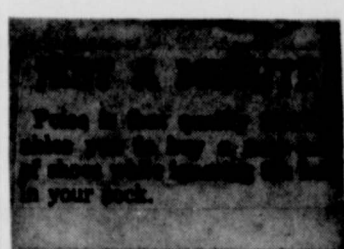

The first preliminary winner's name will be printed somewhere in each of the participating merchant's ad in the June 24 issue of The Hesperian, the second week's winner will appear in the July 1 issue, etc. From among the preliminary winners will be drawn each week's winner.

The winner and the members of his immediate family (a maximum of five, including wife and sons or daughters) will be presented a certificate for all meals for two days and two nights lodging at a Rocky Mountain resort.

Each winner will receive about \$100 worth of lodging and meals for up to five persons. Transportation, beverages, entertainment, tips and souvenirs as desired are not included. (See ROCKIES page 3)

presented; on Thursday evening "Living Pictures" was presented by Las Cruces Elementary Schools especially for Homemakers College; and the grand finale was the Fiesta banquet in Milton Student Center on Friday evening with Ann Landers, one of this country's leading syndicated columnists speaking to the large audience on the subject "THE WETTEST SHOULDER IN THE U.S.A." Her talk was mixed with humorous and serious remarks. She said, "the big problem in the world today is man and wife. Good marriages may be made in Heaven but the maintenance work must be done here on earth", Miss Landers said. "The ability to communicate is the most important ingredient in any marriage", she stated.

"Americans are the most divorced people in the world - one marriage in three ends in divorce and in California it is one in two - stay out of California," she said.

Money is the most overrated of all commodities the columnist stated. She said her column is a mirror of life and its real problems are of real people.

Dr. Roger Corbett, President of N.M.S.U. when introducing the celebrated columnist stated; she is a grandmother, 47 years old, 27 years married (and she said to one man). Ten years ago she was a housewife who had never been inside a newspaper office but now her column appears in 625 newspapers with more than 30 million readers a day. She employs 9 secretaries to answer the 25,000 or more letters she receives each month. Each letter is answered.

Cupid has evidently been busy around the Lighthouse - our congratulations and best wishes to these three couples who were married last week; Gloria and Ronnie Ogle, Bud and Barbara Edwards, and Gary and Caroline Thompson. Welcome to the "Lighthouse Family", Ronnie, Barbara and Caroline.

Mr. and Mrs. Tom Hutchins and Dale visited in Ralls Friday night with Tom's mother, Mrs. J. H. Hutchins.

Mrs. Buck Marricle and boys spent last week in Dumas with her parents, Mr. and Mrs. Bill Latham.

Troy Watson, Lubbock, Job Training and Safety Instructor with A. & M. College Extension Service was here on Monday morning for his regular class on safety for the Lighthouse line-men.

Marshall and Ann Haney and boys are moving to Floydada from Muleshoe. Mr. Haney is a new city employee; Mrs. Haney is the daughter of Troy Watson, Job Training and Safety Instructor who comes to the Lighthouse each month to teach Safety instructions.

Mrs. Mary A. Goen, mother of Bud Goen, was brought home Monday, by ambulance, from Methodist Hospital in Lubbock where she had been for the past six weeks.

Mrs. W. O. Willingham, Sudan, was a Lighthouse visitor Monday afternoon. She was in Floydada attending the funeral for the Patzer baby.

Mr. and Mrs. R. L. Blackman, Springfield, Missouri, were guests in our home on Saturday night. They were enroute to a meeting in San Antonio, Texas.

Mrs. Max Marble and boys were Lighthouse visitors Monday afternoon.

SOMETHING TO THINK ABOUT:

To be born a homemaker is an accident, but to die one is an achievement. If today's woman were turned loose in yesterday's kitchen she would no doubt find it a real challenge to become an efficient homemaker since most of her equipment was powered by elbow grease rather than electricity. LETTER FROM Billy Stanforth in Washington

June 8, 1965 Employees and Friends of Lighthouse Electric:

What a truly great time the 63 of us on the "Government in Action Youth Tour" are having! It's an experience that none of us will ever forget.

I'll give you all detailed reports about each day when I get back to Floydada, but briefly, here is an outline of what we have been doing: Monday, Saturday, and Sunday were filled with scenic but tiring bus rides; Tuesday, today, we visited the capitol, met the Congressmen, and toured the N.R.E.C.A and all the monuments; tomorrow is "Youth Day", and in the afternoon we will visit Arlington Cemetery and Mount Vernon; Thursday we will visit the White House, FBI, and Smithsonian Institute; and then we will leave Washington Friday morning to arrive back in Dallas on Monday.

Ethel, David, and I have thoroughly enjoyed everything we have seen, and we're looking forward to seeing lots more!

It's past curfew now, so I'd better stop for tonight. Thank you all for this wonderful opportunity to really see our "government in action!"

Sincerely, Billy Stanforth

The Republican

By Mrs. David Battey, Jr.

NOTICE
Teen-age Republican Meeting Monday, June 21 at 7:30 in the First National Bank of Floydada, Texas. New officers to be elected. Refreshments furnished.

LOCAL: Teen-agers Attend TAR Workshop:

Joe Cox, son of Mrs. Virginia Cox, Beth Calahan, daughter of Mr. and Mrs. Shelby Calahan, Jeanne Brewer, daughter of Mr. and Mrs. David E. Brewer, and Christine Cozby, daughter of Mr. and Mrs. LB Cozby, attended the Teen-age Young Republicans Workshop in Lubbock June third, fourth, and fifth at the In Town Inn. About seventy Young Republicans came to the workshop, where they attended daily lectures on different facts about the Republican Party. Recreation for the workshop included two banquets, a hootenany, and a luau.

STATE: At the close of the 59th Legislature of Texas, Rep. Frank Cahoon of Midland, was commended by his colleagues for the difficult task of being the Republican "Lone Ranger" of the Legislature. Cahoon, a freshman, introduced three

bills during the session. His GOP Congressional redistricting bill offered to the house failed. Passing were bills which finalized permissive legislation for a domestic relations court in Midland, and for the building of an office for the University of Texas on its Midland County land.

RIGHT - TO - WORK LAWS: There is much discussion concerning the effects of right-to-work laws and the repeal of Section 14B. Right-to-work laws are designed to protect individuals, and Republicans still believe in the individual worth of man, that one individual American is just as important as any other individual American.

One of the fundamental rights of any man is to decide to belong or not belong to a labor union. To force compulsory unionization on any individual is both legally and morally wrong.

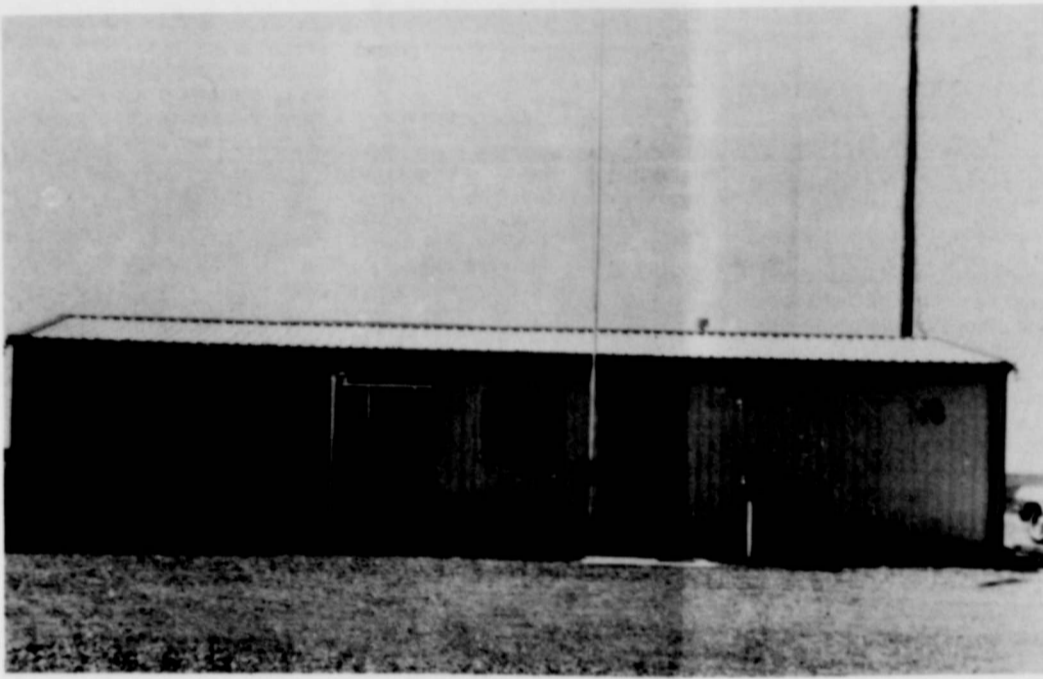

Incidentally, Texas was one of the first of the 19 states who presently have right-to-work laws. These laws were enacted and approved April 8, 1947.

try. Sen. John Tower has intro-

duced legislation which will take this responsibility out of the hands of the federal government and give it to the State authorities. Tower's main point of argument is, "Who is better able to determine the needs of agriculture than those clo-

sed to the situation?" Under Sen. Tower's plan, jobs would be offered first to American citizens who want and need them. Then, if more labor is

Yarborough News Letter

Dear Fellow Texans:

The Senate will have the Federal Excise Tax Reduction Bill before it in the near future, as it has recently been passed by the House of Representatives.

Under this bill excise taxes (most of which are sales taxes on goods or services) on many articles and services will be repealed, which will leave more money in the consumer's hands. For example, the 10% tax on ladies' cosmetics, jewelry, and handbags would be eliminated under this bill. Also, the 10% tax on telephone bills will be reduced to 3%, and then gradually eliminated by 1969. The tax would be removed on both local and long distance calls.

Most of these taxes were originally imposed as emergency wartime measures to raise revenues to assist our war effort, or raise revenues during the depression of the 1930's. Although they were needed then, the taxes are discriminatory in placing the burden on the users of particular articles and also because they do not consider the annual income levels of consumers, as a progressive tax does.

I strongly favor the repeal of these taxes, as it will end their discriminatory burdens, as well as leave an additional \$4.8 Billion in the hands of the consumers during the next fiscal year. The original emergencies requiring excise taxes

needed, bracero recruitment would be done by State officials, with the necessary aid of the U. S. Attorney General.

Sen. Tower needs the aid and support of Texas farmers, so, regardless of your political affiliation, if his bill is favorable to you, let him know.

it's mostly in one spot and a man with any forethought can place his chair where he won't get splattered, and if he's not forethoughted he can move after the first few drops hit him on the head or stay there and get wet, that's his business, around this place, you've got to be not only smart enough to come in out of the rain but to move away from it after you're in.

Anyway, I've been getting some static about it, little hints from my friends like, "When in thunderation are you going to fix that leak?" but I don't let it bother me.

"Look," I said, "you ever heard of the astrodomes in Houston, Texas?"

air-conditioned baseball field plastic dome. Well, I added, those spent 30 million dollars that thing and what? The roof leaked. The engineering skills hire, the first time the roof leaked.

My house is 45 years and 50,000 dollars costing 30 million dollars if it and the astrodomes leak, it seems to me of the latter sort round-about way by a pan under a drip. Or take the New York Fair, put on by the best brains in this biggest city. It cost 30 million dollars long way from any profit.

I discovered they don't have to have money to have a hole in the hole. I'll fix that roof around to it.

Furthermore, when these taxes were enacted, the taxed items were considered "luxuries." Today, however, electrical appliances, telephones and telegrams, as well as cosmetics (so the women tell me) have become necessities.

I support the repeal of these taxes as a progressive step toward a Great Society.

Senator Richard Russell to seek a seventh term.

Red Sox Blast Giants, 11-3

The Giants, tangling with the undefeated Red Sox, started the game in a good winning effort but a seven-run inning in the fourth iced the game for the Red Sox.

After the first inning the Giants were winning, but after two, the Sox had pulled up to tie them at 2-2. In the third, the Red Sox went ahead to stay as they gathered two runs and allowed the Giants only one more during the entire game while getting seven for themselves.

Puckett was the winning pitcher, going the final four innings after Bullock started the game. Vega was the losing pitcher going three innings then being relieved by Pierce.

Dodgers Fall To Red Sox

The Red Sox jumped to an early first inning lead, allowed the Dodgers to tie them in the third then began walking away from the competition with innings netting six, three and one run.

After the first inning the Red Sox led 3-0, but after scoreless second and third innings, in which the Dodgers got three the score was tied. However, in the fourth the Sox began hitting the ball again got six runs in the fourth, three in the fifth and one in the sixth to win the game 13-3.

Hale began the pitching duties for the Red Sox and was relieved by Puckett after 2 2/3 innings. Switzer pitched 4 2/3 innings for the Dodgers, Joe Billegas had one inning and B. Billegas pitched the final 1/3.

Cardinals Top Braves, 3-2

Both the Cardinals and Braves got one run across the plate in the second inning to have a tie ballgame until the sixth when the Cardinals pulled ahead and won the game 3-2. The first, third, fourth and fifth innings were scoreless in the match for both teams.

Dyson was the winning pitcher for the Cardinals and Biggs was the loser for the Braves.

Dodgers 9, Tigers 8

The Dodgers and Tigers fought on even terms in a game last week that went into three extra innings before the Dodgers pulled ahead to stay 9-8.

After the third inning, in which the Tigers had a four run rally, the score stood Tigers 4, Dodgers 3, but the Dodgers tied it up in the fourth. After five innings the score was 5-5. A scoreless sixth inning followed and in the seventh each team added three runs to their total. However, in the eighth Bennett was brought in on a single by J. Billegas and the Tigers were unable to score in the eighth giving the game to the Dodgers.

Joe Billegas was the winning pitcher, but Switzer was credited with one inning on the mound. For the losers Bill Williams was relieved after three innings by Lanston Williams who finished the game.

Yankees 11, White Sox 9

The Yankees allowed the White Sox one run in the first inning, caught up in the second went ahead in the fourth and never allowed the Sox to catch up.

After the first inning the Sox were ahead by one point but the Yanks tied it up in the second. In the third the score was 2-2, but in the fourth the Yanks gathered six runs and allowed the White Sox four. In the fifth the Yanks added two more runs and allowed the White Sox three to end the scoring and leave the score 11-9.

Skipper Lipham was the winning pitcher and Mark Murray was the loser.

LHE Electrifies Matador, 23-4

What appeared at first to be a close game turned into a rout when Lighthouse Electric played Matador last week and beat them 23-4. Bearden's homerun his first time at bat started the scoring.

After two innings the score was tied at 1-1. But in the third LHE added four runs and allowed Matador none. In the fourth the locals got another six across and allowed Matador 2. In the fifth LHE added three, added five in the sixth and four in the seventh while

allowing Matador only one more score.

The winning pitcher was Christian and the loser was Cox.

LHE Blasts Matador, 25-4

In a game that never allowed their opponents a chance, the Lighthouse Electric blasted the Matador team 25-4. It was the second time in the week the locals dropped Matador.

After one inning the score stood LHE 4, Matador 0. In fact Matador did not score until the fifth inning when they got three of their four runs. LHE scored four in the first, six in the second, five in the third, four in the fifth and six in the sixth.

Bearden was the winning pitcher with Cox the loser. Bostick and Garrison were also on the mound for the losers.

Cubs Outlast Pirates, 5-2

The Cubs jumped into an early first inning lead, scored again in the third and stayed off a Pirate threat in the fifth to win a game last week 5-2.

After one inning the score was 3-0, and a scoreless second inning with the Cubs gaining one in the third put them ahead 4-0. The pirates had a two-run inning in the fifth that fell short of the needed points.

Marricle was the losing pitcher for the Pirates and Ruben DeLeon was the winning pitcher.

White Sox Down Pirates, 10-7

The White Sox overcame a five point deficit to pull ahead in the third inning and win a game with the Pirates 10-7.

After the first inning the score stood at 5-0 Pirates. After two innings, the White Sox had gained two scores to make it 5-2 and in the third an eight-run rally put the White Sox ahead to stay. The Pirates gained two in the fourth but couldn't catch the Sox.

The winning pitcher was West Whittle and the loser was Marricle.

Bankers Drop Veterans, 9-3

For the second time in one week the First National Bank handed the Veterans of Foreign Wars a defeat. This time the score was 9-3.

The First National took a three-run lead in the first inning and held onto that lead throughout the game. In the second the VFW scored, but in the fourth the Bankers added one. In the fifth First National added four runs to their score and finished the scoring in the sixth. In the seventh the VFW got two runs, but this was far shy of what was needed.

Covington was the losing pitcher for the VFW going the first five innings. Steve Pierce pitched one inning for the losers. Bobby Gilliland was the winner.

G.I.'s find hunger is a Dominican key.

Colts Stampede Tigers, 10-5

The Colts began stampeding the hapless Tigers in the first inning when the first man at bat, Roberts, walked, Nichols hit a double and Crawford, Harris and Martinez singled to account for five runs. The Tigers got three and the Colts Tigers could never overcome the score.

After two innings the Colts still led 5-0, but in the third they gained another three runs and gave up 1. In the fourth the Tigers got three and the Colts two and in the sixth the Tigers gained one more to end the scoring at 10-5.

Foster was the winning pitcher and Hale was the loser.

Cubs Outlast Orioles, 5-4

In a game that took eight innings to finish, the Cubs came out on top of a small 5-4 score.

After the first inning the score was tied at 1-1. A scoreless second inning was followed by each team's getting one more run across, and then a scoreless fourth inning followed. In the fifth each team managed to get one run across the plate making it 3-3, and sending the game into extra innings.

The sixth inning netted no runs for either team and each got one in the seventh to make it 4-4. In the eighth inning the Cubs got another run across to make 5-4, but the Orioles couldn't make it in that inning and gave the game to the Cubs.

Smitherman went five innings for the Orioles and Young finished the game. DeLeon had five innings for the Cubs and McIntosh relieved him.

First National Defeats VFW

In the first game between the First National and the VFW here last week the Bankers took an easy 10-4 victory.

The First National jumped to an early 2-1 first inning lead and extended that lead to 7-2 by the end of the second. After three scoreless innings each team hit the scoreboard with two runs then the First National added one in the seventh to end the scoring and grab the victory.

The winning pitcher was Tim Rose, who went all seven innings and the loser was Emert who had 3 1/3 innings. Steve Pierce finished the game for the VFW.

Pirates Drop Orioles, 10-8

After leading the Pirates for two innings, the Orioles allowed their lead to diminish and finally were overcome by the Pirates in the 10-8 game.

After one inning the score stood at 1-0, Orioles, after two it was 6-4 Orioles and were ahead 8-4, before the Pirates came back in the fourth inning to gather six runs and pull ahead to stay.

Nichols was the winning pitcher for the Pirates and R. Young was the loser.

Giants, Mets In 7-5 Game

The Mets started out as if they would take the Giants but fell short of that goal when a five-run inning in the second by the Giant's put that team out of reach of the Mets.

After one inning of play the Mets led the Giants 3-2 but the five-run rally in the second put the Giants out in front 7-3. The Mets scored once again in the third and in the fourth but could not overcome the deficit.

Pierce was the winning pitcher for the Giants and Selman was the loser.

Indians Score

The Indians went on path here last week and walked away with victory.

The Indians are scoring in the first three runs and coming scoring in each of the following innings. Hesperian only player for the Indians got on base during the game.

Burk had a home run in the first and the Indians with one more run.

Villareal, Burk and Selman pitched for the Indians. Collins, Payne and Selman on the mound at the end of the game for the Mets.

Braves Drop Colts In 8 Inning Game

The Braves and the Colts had a nip-and-tuck ball game last week that drove the teams into an 8-inning bout with the Braves finally winning the game 5-4.

The Colts jumped to a 2-1 first inning lead but let that lead slip by as the determined Braves pulled ahead 3-2 in the second and led 4-3 at the end of 3. The Colts came back in the fourth to tie the score and it stayed that way until Johnson for the Braves rounded the bases to end the game.

Campbell was the winning pitcher for the Braves and Nichols was credited with a loss for the Colts.

Not 'Natural Deposit'
The government argued that water was not a natural deposit within the meaning of the Internal Revenue code.

Tom McFarland, general manager of the sponsoring High Plains Water District, said the case evolved with the intention of water conservation, and that both Shurbet and the IRS had agreed to take the case to the Supreme Court.

Witnesses Return Home

Twenty-four members of the Plainview congregation of Jehovah's Witnesses have returned home this week, after attending their semi-annual circuit assembly in Vernon. Witnesses from 16 congregations in Texas, New Mexico, and Oklahoma were present.

Friday night by way of talks and demonstrations the theme "Willingly Fulfill Your Ministry" was highlighted. It was pointed out that opportunities of greater service are not limited to just older persons, but that all, young or old, male or female, can reach out for greater privileges.

Saturday afternoon the Witnesses heard a talk on dedication, after which baptism in water was performed on new ministers.

Sunday afternoon, Harry A. Fetzi, district supervisor from Brooklyn, New York, spoke on "The Moral Breakdown-What Can Be Done About It?" "That the issue affects all persons living is apparent in that each day we are faced with decisions having to do with morality", he said.

Clarence Hall, presiding minister of Jehovah's Witnesses in Plainview, said that regular meetings will be resumed this week at the Kingdom Hall, 321 Vermont Street.

Case Will Now Go To High Court

The New Orleans, La., 5th Circuit Court of Appeals Monday upheld a Lubbock U. S. District Court ruling which favored a Petersburg farmer who brought a test case seeking allowance on income tax for irrigation water depletion.

Marvin Shurbet has been active in a case against the Bureau of Internal Revenue the past 11 years. The court decision Monday was regarded by supporters of Shurbet's case as a major hurdle toward a Supreme Court hearing which if favorable could mean a saving of \$5 to \$8 million to Plains farmers.

Officials of the High Plains Underground Water District No. 1 in 1954 began working on the water depletion case which they based on the Bureau of Internal Revenue's practice of allowing depletion of natural gas, iron and other natural resources for tax purposes. The case was taken before Judge Joseph B. Dooley in U. S. District Court in Lubbock where a favorable ruling was handed down.

Recognized Test Case
George McCleskey Jr., attorney representing Shurbet, affirmed Monday night that the case "has been recognized both by the Internal Revenue Service and by the office of the Attorney General as well as the courts as a test case with the results applicable to owners of ground water throughout the High Plains."

In extending the laws to cover water, the appeals court pointed out that cost depletion of ground water in the Southern High Plains was not meant to set a precedent for other areas.

Only Water Source
The court cited peculiar conditions in the 35,000-square mile plateau. It said the only source of water for this area is rainfall which does not percolate downward.

Under natural conditions, said the court, the rainfall almost exactly equalled the amount of water consumed. But with the start of large scale irrigation in 1934, the water table has steadily dropped. By 1958, the court noted, 47,009 pumps were in operation.

In the test suit, the court in Lubbock held that Shurbet was entitled to a \$37.18 depletion deduction for 1959 on 480 acres of land.

Tax Revenue Up

One recent happy note from Washington was that income taxes collected by the government had totaled about 1.5 billion dollars more than was anticipated.

No one is sure where the error in estimates was made, or what caused the official estimate to miss the mark so widely. However, one of the generally accepted theories is that personal incomes rose faster than was expected, and that tax cuts put into effect last year boosted the economy faster than anyone expected.

Coming with the good collection news was congressional action to end many excise taxes and reduce others. This would give consumers another financial lift and, presumably,

ably, the economy another boost.

Somewhat offsetting the bright part of the picture at the moment is the developing prospect that military action in Vietnam and in Santo Domingo will cost the government an enormous sum of money in the next year.

Nevertheless, the economic outlook must be rated as good on the basis of higher-than-expected tax collections and prospective excise tax cuts and continued good business. The most gratifying thing

about it all is that the President's recommendation, and Congress' action, in cutting taxes to boost the economy in 1964, has proven a sound step.

ALLERGIC TO PATIENTS

Middletown, N. J.—Veterinarian, Dr. Cecil Sprung has a big problem because he is allergic to his patients, both cats and dogs. He has found some relief from pills and injections but still has a reaction when his office is full of patients.

War On Poverty

While crops rot in California for lack of workers, government scouts are looking for poverty to fight. A college official recently showed me a letter from a government agency asking for him to look for poverty in Canyon.

Anti-poverty is the biggest boondoggle of all times. Poverty fighters say the program will cost \$800,000 this year and \$1.5 billion next year. They say it must be continued over a 25-year period at a cost of \$100 billion.

So far, most of the money being spent is going for administrative salaries. In Baltimore, a whopping 74 percent of anti-poverty funds is expended to pay administrators.

Head of the program there draws \$22,500. The mayor's salary is \$25,000 and the governor of Maryland is paid only \$15,000.

In St. Louis, the manager of the poverty program draws \$25,000, same as the governor of Missouri and \$10,000 a year more than the state's attorney general.

Youth who enroll in the anti-poverty youth corps gets \$1.25 an hour. They are paid more than youngsters serving as rookies in the armed forces.

Unpalatable as all this is, it might be worth it if there were a shred of a chance that poverty would be eradicated in the next quarter century.

Mike Todd once said, "I've been broke a lot but never poor."

Randall County records show that, with a few exceptions, able bodied who ask for county assistance have not tried too diligently to help themselves.

One case on record tells of

a young father of four who spent 4 percent of his monthly salary on a car pool ride to keep from having to walk a little more than a mile to work.

The young man, in his early twenties, showed up at commissioners court asking help to foot medical bills for the birth of his fifth child. He was married at the age of 16 and is averaging a child a year.

He works a 40-hour week. Only recently the county paid a hospital bill after the young man's wife had been hospitalized.

Commissioners agreed to help him again. They could do little else. The need is there. This time, however, the young man will be asked to work for the money. County Judge Lloyd King was authorized to put him to work cleaning up a county road or county property during hours he is not on duty at his regular job.

I agree with the court. Able bodied people should receive help only if they are willing to work for it.

There was lots of fun poked at the WPA of the 1930s. WPA workers did much constructive labor. I approve of public works when they are necessary to provide employment.

If the anti-poverty people are in earnest, why don't they dispatch some of their corps to California to help harvest crops there that are otherwise doomed to waste in the field? Farmers there would welcome them.

I can't take an anti-poverty program seriously in a country so desperately in need of laborers. I can't shed tears over so-called poverty-stricken if they are unwilling to do manual labor. (Canyon News)

Taxes And Newton's Law

THE FEDERAL government, under this present Democratic Administration, is making some effective efforts to apply the law of gravity to the federal tax structure . . . and to disprove a long-held theory that taxes which go up never come down.

Repeal or reduction of the federal excise taxes on "luxury" products . . . such as jewelry and luggage, playing cards and automobiles, business machines and air conditioners, cameras and film, freezers and musical instruments, and a long list of others . . . is graphic evidence that Newton's Law has become Johnson's as well.

All of these so-called "luxury" taxes are a legacy of wartime . . . World War II-time as a matter of fact, which means that they've outlived their initial purpose by twenty years.

FLOYD DATA

Mrs. Vesta Savage was released from Lockney General Hospital following a 11 day stay there receiving treatment for a hip injury. Mrs. Savage fell recently and sustained the injury. A daughter, Venita Mack and her husband of Houston are here caring for Mrs. Savage.

U. S. seeks German solution allowing arms cut.

and that's "two-timing" with a vengeance. Initially, the excise taxes were enacted not so much to raise revenue as to discourage consumer spending for items made with vital war materials . . . but they proved so effective as revenue measures in the post-war years when their restrictive function was no longer needed that Congress has been understandably reluctant to let go.

The view of the Johnson administration is that the weight of excise taxes on a broad range of consumer goods which are no longer considered "luxury" items in America has also tended to hold down consumer spending . . . thus acting in restraint of trade. So it is that President Johnson is not only applying Newton's law of gravity to the tax structure, but is hopefully attempting to apply another law of physics to the national economy . . . the one that declares that for every action there is an opposite and equal reaction. The hoped-for reaction, in this case, is that sales will go up as taxes come down . . . and the general boom in the national economy will replace the government's tax losses from other sources.

Predictably, many of the extreme right-wing critics of the federal government who have been most bitter in their denunciation of "confiscatory" taxes are just as critical of this tax reduction program . . . viewing it with their customary alarm and distrust as a further evidence of the Communist influence which is undermining our government. We suspect that the only thing which would ever satisfy this group, which finds nothing good in democracy or Democrat, would be the total destruction of government as we know it.

But we also suspect that the right-wingers are going to find that it's about as hard to repeal Johnson as it would be to repeal Newton. (Canadian Record)
