-THANK YOU NOTE-

Now that my stay here in Texas is almost over, I would like to thank everybody for everything you did for me. It was great to be in your town, and I will always remember how you accepted me among your family or friends as somebody that was a friend to you. This year will always be the most valuable and most wonderful of my whole life. A year in the great U.S.A. will mean the same to anybody that meets people like I met in Texas.

Thank you so much.

CREDIT goes to Charles Didway in the Post Dispatch: "A woman is like a newspaper because:

1. They both have forms.
2. Back numbers are not in demand.
3. They're well worth looking over.
4. They have a good deal of influence.
5. There's small demand for the bold face type.
6. They always have the last word.
7. Every man should have one of his own and not go borrowing his neighbor's."

I WANT to personally invite everyone to come to the open house of one of Floydada's new industries.....Blanco Offset Printing Inc. from 2 to 5 p.m. this Sunday.

land in that area that was desirable was too expensive, too far out, or too small. . . . especially in comparison of sites that were freely given, at no cost to the school district tax payers. Baker said the location was preferred in replanning the entire school system, due to the "total integration" requirements.

The board expressed its appreciation to Masste for his generous offer of the land.

ARCHITECTS GO TO WORK

The board also authorized the architects to finish preliminary plans on a new cafeteria at Andrews Ward grade school, Junior High, the science wing at the High School; and additional space and facilities for the bookkeeping and business classroom needs at High School.

TOTAL INTEGRATION

Baker said that there will be no "zoning" arrangement when total integration begins. A freedom of choice plan will be worked into a plan whereby Latin American, negro and white children will be totally integrated.

ASSISTANT COACH HIRED

In other business the board employed an assistant football coach, Delbert Wylie, who comes here from Brownfield where he was B team coach for the past two years.

Wylie played football for Rice two years, received his Bachelor's degree from McMurtry with a major in History and PE.

Muncy Sustains Burns From Ammonia

It appeared Tuesday that Norman Muncy would not lose the sight of his right eye, due to a farm accident that happened last week. However, doctors said there is still the possibility of an infection behind the eyeball.

Muncy is receiving treatment in the Crosbyton Hospital where he was taken Friday after being burned on the face, eyes, arm and one side from anhydrous ammonia fertilizer.

The mishap occurred on the Muncy farm when a hose attached to a fertilizer tank blew off spraying the liquid on Muncy, members of the family said. A container of water nearby possibly saved Muncy from more serious burns. When the liquid splattered Muncy, he grabbed the jug of water and washed the ammonia from his eyes. A neighbor farmer in a nearby field came to Muncy's aid.

The family said he suffered second degree burns on his arm, face and side, with the eye more seriously burned.

Wreck

(Cont. from page 1)

Pierce leaped out of bed, got into the Oldsmobile and began chasing her. He overtook her about five miles south of Floydada. In the collision she suffered internal injuries, bruises on one arm, and possible other injuries. She was taken to People's Hospital in a Moore Ambulance", Lenz said.

According to the patrolmen, Pierce is being charged with aggravated assault.

ONE-CAR MISHAP

A one-car accident was investigated by the DPS Monday afternoon around 2:30 p.m.

James Edward Sparks, of Rosenberg, Texas, was involved in the accident. He was traveling on U.S. 70 toward Lockney about seven miles northwest of Floydada when a blowout on the left front tire caused him to lose control of his vehicle. The auto went off the right side of the road and turned over. Sparks was not injured.

CAR-TRAIN WRECK

An accident involving a 1964 Rambler Sedan and a Santa Fe train occurred inside the City Limits Monday night around 9:21 resulting in several hundred dollars damage to the car, but no serious injuries, according to a City patrolman who investigated the mishap.

Mrs. Virginia Lindsey, driver of the car, was traveling east and the train was backing down the track north.

The accident is still being investigated.

Emergency

(Cont. from page 1)

ications will go beyond their effective or useful date.

A mobile unit was decided upon because it would be easier to take the vehicle to the scene, rather than carrying the people to the treatment center.

However, the Highway Department on the Lockney highway was designated as an auxiliary treatment center should a disaster destroy or heavily damage the hospital. This was selected because of the generator at the site that could furnish power if other power lines were destroyed and it is across town from the hospital so it is not likely that both would be destroyed in case of a major disaster.

It is planned for the vehicle to be kept underground so it is very unlikely that a major disaster could destroy the vehicle.

Donations are still needed, and are being asked for on a voluntary basis. It is hoped enough funds will be raised by this manner, from individuals and from civic organizations to finance the supplies planned for the vehicle.

Onion

(Cont. from page 1)

WHEAT HARVEST
With the beginning of the onion harvest, the wheat harvest has almost been completed. One elevator spokesman jokingly said it was 99.9% complete recently. Most of the crop left to be cut was delayed in maturity by recent rains.

The county had a total acreage of around 115,000 and a near average yield was earlier expected to be cut. Actually the irrigated yielded above what was expected, up to 60 bu., and the dry-land yielded a little below what was expected, 5 to 15 bu.

The price of the wheat is down somewhat this year, from \$1.80, with certificate payments, last year to \$1.25 this year. There is no sedimentation bonus allowance this year, but there is a protein content price advantage.

TOTAL RAINFALL
Rains in June of this year in amounts, on various days, to three inches and more, accounted for most of the moisture the county has received this year.

In Floydada, proper, according to the ASC office, the total rainfall through May was 3.86 inches. To date June has yielded another .87 of an inch. Monday night scattered showers varying from a trace to near .1 were recorded in the county. Some parts of the county received no rain from the showers Monday afternoon and Monday night.

USE YOUR FREEZER FOR MEALTIME MAGIC EVERY DAY!

Feeding her family wisely and well is one of today's busy homemaker's most important jobs, but it's often more time consuming than it needs be. Voluminous are written about "jiffy-quick" meals, meals they claim one can practically pull out of a hat, but haven't you tried them and too frequently they come out looking--and tasting--like exactly that?

We all know that producing delectable, mouth-watering meals day after day takes more than that--sleight-of-hand just doesn't get the job done. But, you will find your freezer the perfect partner for all sorts of mealtime magic--you need not be a magician--but you must be a good and careful planner.

REMEMBER --- when preparing recipes for your freezer, keep in mind the following principles of successful freezing.

1. Choose only high quality foods.
2. Process foods rapidly and carefully.
3. Package foods properly, excluding as much air as possible.
4. Seal packages and label.
5. Always freeze foods at 0 F. or lower.
6. Do not overload the freezer with more unfrozen food than it can handle.
7. Make sure temperature in the freezer remains at 0 F. or lower.
8. Avoid long storage, especially of prepared foods.

For a quick and easy no-bake pie crust here is a good recipe:

NO-BAKE CRUST
1 cup graham cracker crumbs
1/4 cup melted butter
3 tablespoons powdered sugar
1 teaspoon plain gelatin
Add sugar, plain gelatin and melted butter to the crumbs. Mix thoroughly. Press mixture evenly over bottom and around sides of a buttered 9-inch pan. Chill at least 15 minutes before putting in filling.

CHERRY PIE makes a delicious filling for this crust:
1 can Eaglebrand milk (condensed milk)
Juice of two lemons
1 can (No. 2) drained red sour pitted cherries, few drops red coloring.
1/2 pint whipping cream, whipped stiff. 1/2 cup chopped nuts may be added if desired. Beat lemon juice and milk, add coloring. Combine other ingredients and fold into milk mixture. Pour into pie crust, chill, and serve.

Dead Litter Cover

(except double and triple dwarf varieties) should be planted at a rate of fifteen pounds per acre. Dead litter crops need to be drilled with rows spaced not more than fourteen inches apart for best results. During its growing season, the dead litter crop should be mowed for hay or shredded to leave a stubble height of 8-10 inches, should be protected from grazing, and fertilized if needed.

The cool season grass species can then be seeded in the fall, or warm grass species in the spring on a firm seedbed in the dead litter stubble. A dead litter cover or mulch is not required for the seeding of grasses where the grasses are planted in rows after April 1 and can be cultivated, where grass plantings are irrigated, or where Johnson grass is drilled for pasture after May 1. Cost-share assistance for establishing a dead litter cover is available through the Great Plains Conservation Program, which is administered by the Soil Conservation Service.

Bridesmaids were Miss Shirley McClung, Floydada, cousin of the bride, and Miss Martha Ellis of Slaton. They wore ensembles identical to that of the maid of honor.

Candlelighters were Sandra Stapleton, cousin of the bride, and Jan Killian, cousin of the groom, both of Floydada. Their attire was similar to those of bridal attendants, but wore orchid wristlets.

Terry DuBose, Brownfield, was the groom's best man. Groomsmen were Ben Qualis, Chicago, and Richard Archley of Midland. Ushers were Cliff Cunningham, Corpus Christi, John Patton, Snyder, brother of the bride, and Stanley Killion, Floydada, the groom's cousin.

Presented by her father, the bride wore a gown of white peau de soie, designed by the bride and made by her mother. The bodice featured a bateau neckline edged in re-embroidered Alencon lace with iridescent sequins and seed pearls. Its long petal pointed sleeves were fastened with minute covered buttons. A godet of pleats which formed the back of the sheath skirt fell into a Watteau train and was accented with re-embroidered Alencon lace and a bow at the corded waistline. An elbow length veil of French silk illusion was attached to a pillbox of re-embroidered Alencon lace. She carried a bouquet of white carnations and ivy leaves centered with a white cattleya orchid atop a white lace-covered Bible. Carrying out the tradition of wearing something old, new, borrowed and blue, she wore a bracelet bearing a calendar charm, designating the wedding date with a diamond, which was a gift to the bride from the groom.

A four-tiered wedding cake held the focal point on the refreshment table at the reception in the church fellowship hall. Added decor was in orchid and green accent. Appointments on the white covered table were of crystal. At a separate table coffee was served from a silver service and the groom's cake was part of refreshments.

After June 16, the couple will be residing in Abilene at 2401 Church, Apt. 1. They went to Ruidoso and Cloudcroft for a wedding trip. The bride traveled in a blue and white linen suit and white accessories. She graduated last year from Snyder High School and is a student at Hardin-Simmons University, where the groom is a senior. Graduating from Hagerman High School, he is head of the picture framing department for Abilene Builders Supply.

A rehearsal party was given at Town House Restaurant in Snyder.

SURFING BEACH GANG TURNS TO SKY DIVING

READY TO JUMP — Frankie Avalon and Annette Funicello get off their first sky dive jump in open door of airplane in scene from American International's color and Panavision musical comedy "Beach Blanket Bingo", opening Sunday at the Palace

It's the increasingly popular and daring sport of sky diving that captures the fancy of the "Beach Party Gang" of surfers in their newest film, American International's "Beach Blanket Bingo".

The color and Panavision musical comedy, opening this coming Sunday at the Palace Theatre here, stars Frankie Avalon, Annette Funicello, Deborah Walley, Harvey Lembeck, John Ashley, Jody McCrea, Donna Loren, Marta Kristen and Linda Evans. Co-starring are Don Rickles as "Big Drop" and Paul Lynde as "Bullets" with Buster Keaton, Earl Wilson and Bobbi Shaw as cameo stars.

Sky diving joins drag racing, muscle building and the original surfing as skills in which stars Avalon and Funicello participate in this, their fourth "Beach" musical comedy. It was all surfing in the original "Beach Party" with muscle men featured in "Muscle Beach Party" and drag racing featured in "Bikini Beach".

The youngsters and their friends still ride their surfboards in "Beach Blanket Bingo" to march thrills with sky diving. Of course, there's also plenty of action in the new film filled with hilarious comedy, romance, singing and dancing.

Some of the new sky diving sport's top jumpers helped to make the jumps of the story vividly realistic. These included Rod Pack, the "miracle jumper" who made the widely publicized first parachuteless sky dive and landed safely by donning a chute passed to him in midair.

Taken all together, "Beach Blanket Bingo" is a fun-filled entertainment package that will appeal to the young-at-heart of every age group.

such instruction. Consequently, such a shortcourse as this will enable teachers throughout Texas to do a better job of instruction with some 40,000 students with which they work, according to Dr. Hughes.

"During the coming year, approximately six weeks will be devoted to a study of farm management and related economic problems in the Floydada High School vocational agriculture classes," according to the vo-ag instructor, Thompson.

To facilitate such instruction, East Texas State University and the Texas Education Agency help provide the vo-ag department with free instructional materials, along with a list of additional sources of instructional materials, needed for such study. Because of this, teachers are able to provide more adequate educational experiences for their students.

Military pay plan is called too low.

Instruction was conducted by Dr. W. L. Dorries

of the University and Carl Anderson of the Agency. "With farm management becoming increasingly important to American Agriculture, teachers are devoting more of their instructional time to teaching the principles of farm management," said Dr. A. C. Hughes, head of the Department of Agriculture. A thorough knowledge of sound and practical economic practices will give them a foundation for

Tom Pearson, 77, older brother of Lee Pearson here, passed away at his home in Ontario, California, about 2:30 Tuesday morning. A telephone call from the daughter at this time brought the message here to the Pearsons, who had gone out to California last summer to visit Tom and other relatives. The Pearsons did not go out for the funeral. We extend our sympathy to Lee and his family in their sorrow. Many of the older people will remember the Pearson family who used to live here.

Mrs. Doris Casey was taken to the Lockney Hospital on Sunday, but she was able to betaken home later in the week, and is doing much better now.

Mr. and Mrs. Homer Driskell from near Grapevine, Tex., uncle and aunt of Mrs. Fred Fortenberry spent the day here Thursday with the Fortenberrys along with Mrs. Fortenberry's mother, Mrs. N. C. McCain of Lockney. The Driskells have been visiting relatives here the past week.

Congratulations to Mr. and Mrs. Dean Stewart on the birth of a little son Friday night at the General Hospital in Lockney. The baby was named Kyle Dean and he weighed six pounds and fourteen ounces. His proud grandmother here is Mrs. Lotie Stewart. Kyle has a brother and a sister. The Dean Stewarts live in South Plains.

Janet Respondek, daughter of Mr. and Mrs. Tom Respondek, was taken to the Lockney Hospital Wednesday night and Thursday morning underwent an emergency appendectomy. She is getting along fine at this time at her home. The Jimmy Respondeks of Lubbock and the Tommy Respondeks of Peters-

Mr. and Mrs. Grigsby Milton were at the home of Mr. and Mrs. Sam Puckett in Floydada for a banquet last Tuesday night, given for Farm Bureau Directors.

Mr. and Mrs. H. L. Marble were hosts on Fathers Day Sunday for all the members of their family, the Don Marbles, the Fred Marbles, the Marvin Wells and the Keith Marbles. Also Mrs. G. H. Floyd Youngsters On Capital Tour Visited By LBJ

A surprise visit from President Lyndon B. Johnson on the White House lawn highlighted a tour of Washington, D. C., for Ethyl Mabry and David Scarborough of Petersburg and Billy Stanforth of Floydada, June 9.

Participating in the "Government in Action Youth Tour" sponsored by Lighthouse Electric Cooperative, Ethyl, David and Billy gathered in the Rose Garden of the Executive Mansion with more than 700 rural youth from all over the nation. "We are part of the volunteer generation," the President told the youth group referring to 90,000 men and women of the Peace Corps serving in 46 countries. "We have no war except the war on war," he said.

The audience with the President climaxed three days of sight-seeing, meetings and educational activities for the three high school students who returned home Monday, June 14, laden with souvenirs and mementos of the ten day Government in Action Youth Tour to Washington.

Among their souvenirs is a set of slides which they will be happy to present before any group upon request.

On the return bus trip the Texas youths toured Norris Dam in Tennessee where they learned of the development of the Tennessee Valley Authority. This stop included a cable car ride to the top of Lookout Mountain near Chattanooga.

A party honoring the 63 tour winners from Texas was held in Shreveport, Louisiana, on the eve of arrival back in Dallas, their departure point, on June 14.

Tears and promises to keep in touch marked the dispersal for home.

st Floydada

Floydada, the Court and the citizens came together and suggested several things this community needs, high on the list was the cleaning up of this area of our city.

Of course there is still a need of paving in this area and the building of better homes. These two items cost money, and through the cooperation of the people who reside in this area and the city, this can be accomplished in the future.

In the meantime, the hauling off of truck after truck of junk and rubbish has helped the appearance 100%.

It is gratifying to see these people take pride in their cemetery and their area of town. It is good to see them take a responsible outlook on this community.

In this issue of The Hesperian is a letter to the editor, expressing the appreciation of these people to the city, commissioner's court and many firms in town who have shown a personal interest in them and their living conditions.

This, we believe is all a step in the right direction.

The Insurance Rate Question

By SAM KINCH
Star-Telegram Austin Bureau

AUSTIN—The insurance industry—at least one segment of it—is shifting emphasis in explaining to car owners why premiums are high and going higher.

For years they have stressed chiefly that the more traffic accidents there are, the higher the rates will be on coverage.

Now they are increasingly emphasizing that the big judgments juries have been giving accident victims against the "big" insurance companies have a marked effect in forcing insurance rates upward.

A spokesman for the industry points out that driver carelessness in one bloody moment can use up all the premiums paid that year in Somervell County—or in Armstrong, Zapata, Culberson or Oldham Counties.

A \$50,000 damage suit judgment also would take up the premiums paid in Glasscock and Irion Counties together.

Furthermore, he declares, the insured person must pay his medical and hospital bills—and may lose time from his job—and could wind up with less of the judgment than his attorney.

F. Darby Hammond of Dallas, executive director of Southwestern Insurance Information Service, Inc., is not fighting lawyers. He comes from a family of them.

He just doesn't want them to hold themselves out as altruistic saints to accident victims and insurance purchasers.

Hammond thinks car owners should know the big jury awards in such cases boost rates on all kinds of insurance.

He also thinks they should be made aware that exaggerated and padded insurance claims—where repairmen hike the price and rebate to the owner the amount of his "deductible" clause—result in the same thing.

Hammond declares that when fake accident rings and unscrupulous garage men do such things, they are called "claim frauds." When solid citizens do the same thing, it is known as "claim padding," and when a doctor or lawyer joins the game, it becomes "unprofessional conduct," he said.

The insurance man has statistics from the State Board of Insurance to show that a \$50,000 jury award would take all the annual premiums paid on 1,862 private passenger cars—if it resulted from an accident in the Wichita Falls rate territory. It could absorb more or fewer premiums in those areas where rates are lower or higher.

He adds on his own that attorneys who work on contingent fees frequently get from one-third to one-half of the jury award.

And he quotes an estimate of the Columbia University Project for Effective Justice that 20 cents of every premium dollar paid for automobile bodily injury liability insurance goes to plaintiff attorneys.

Many an insured driver faces the prospect of being hit by an uninsured one—and finding himself unable to recover, lawyer or no. Still, Hammonds does not agree with advocates of compulsory liability insurance.

Three of the 50 states have tried it, and none has achieved the goal of complete insurance for motorists, he says.

There is no protection from persons driving stolen cars, from uninsured motorists, from unapprehended hit-and-run drivers, from "dodgers" who cancel their insurance after obtaining registration for their cars, and from uninsured motorists who hit you when you are in other states.

Hammond said an aroused citizenry is the only answer to rising claim costs and the higher rates that have to go with them.

Car owners can demand tighter law enforcement, help in safety programs, ask insurance reimbursement for no more than the loss suffered, lock automobiles when leaving them, and vote as jurors, for verdicts that consider the real loss instead of the fact the money is coming from an inanimate insurance company.

Hammond says the average damage verdict in New York increased 245 per cent between 1940 and 1963—a period when the cost of living rose 119 per cent.

In San Francisco, between 1952 and 1962, he said, the average jury verdict rose more than seven times as fast as the cost of living.

Part of the blame should be placed on lawyers who specialize in such litigation, Hammond contends.

He says they seek to publicize big verdicts, arrange for speakers to be introduced as attorneys in big verdicts and in other ways try to make outside awards seem normal.

They even have their own lexicon, he declares, and warn members against using such simple terms as headaches or backaches, which everyone has suffered at one time or another.

They recommend instead that juries be told about "pressure in the head" or "pressure at the base of the skull," and in the case of the back "a searing pain" up the back of the legs or "a spike driven into the spine."

Cubs Lose To White Sox, But Still Lead

The Cubs, who were holding an impressive 4-1 record after three weeks playing fell to the White Sox in a 3-2 game last week. However, the Cubs are still in front of the second place Pirates, after four weeks, by one complete game.

The White Sox drew first blood when Rex Yeary blasted a triple and was driven in by a single by West Whittle. In the bottom of the second the Cubs made it 1-0 when Ruben DeLeon got a walk and managed to cross the plate before the third out.

The White Sox came back in the third with two runs to lead 3-1 and retained that lead until the fifth, when John Cagle scored for the Cubs. The game ended with the score reading White Sox 3, Cubs 2.

Murry was the winning pitcher, with three innings and DeLeon was the loser after 2 2/3 innings. Johnson had two for the White Sox and McIntosh had 2 1/3 for the Cubs.

Pirates 11, Yankees 5

The Yankees following a four run first inning, fell behind in the third and never recovered as the Pirates won the game 11-5.

The Pirates gained two runs in the second and got another four in the third to pull ahead 6-4. In the fourth another four runs made it 10-4 and each team got one more run in the fifth to make the count 11-5.

Marricle was the winning pitcher with 5 1/2 innings and Ware was the loser for the Yanks.

Cubs Blast Yankees, 13-2

The Cubs gained one run in the bottom of the first inning, continued to increase that lead in each inning and blasted the Yankees 13-2. The Yanks could muster only eight men for the game.

In the second the Cubs scored two, added three in the third and got another seven across in the fourth to account for the 13 runs. The Yanks scored two in the fifth to end the game.

McIntosh was the winning pitcher. He relieved DeLeon in the second and Cagle took the last 1/2 inning. Lipham was the loser after four innings. Holster pitched the last inning for the Yankees.

Floydada Will Have Freshman League Tourney

Orville Marler, president of the Floydada Baseball Association, announced recently that Floydada has been selected as the site for the District Freshman League Baseball Tournament again this year. The date has not been set but it will be near the end of July or the first of August.

This is the fifth year in succession the event has been held here.

Last year six teams entered the tournament and the same number is expected. The teams in this district include Earth, Matador, Abernath, Silvertown and two from Floydada (one from the American and one from the National League).

This tournament is one of eight in the state. The winners of each district meet will advance to the state finals in Odessa sometime in mid-August.

IN SPITE OF FIVE ERRORS

Drillers Steal Past Lockney

In spite of the fact the Drillers infield leaked a total of five errors in a game with the Lockney Tigers last week, the locals came out on top with an easy 13-0 victory.

The Drillers moved their men on bases around without much difficulty as they stole 21 bases off the Tigers' pitchers.

Johnny DeLeon was the winning pitcher, who tossed the entire game to his brother Sam-

my DeLeon behind the plate. Sammy was replacing Wilmer Bonner who had a reaction from a recent vaccination.

Kerry Bearden and Ronnie Gaston shared the batting honors as each drove in three runs for the Drillers. Gaston's share came on a triple with the bases loaded.

From the mound Johnny DeLeon struck out 9, walked 0 and allowed only two hits.

Robert Conte, Cliff Southerland, Johnny DeLeon, Weldon Emert and Junior Martinez, the pitching coach for the Drillers, were candidates for St. Louis Cardinals tryouts at Lubbock's Lowery Field Friday. Martinez played semi-pro ball for a Slaton team a few years ago.

There were eighteen of the local players at the tryouts Friday morning and the five named above were called back Saturday. Southerland, Martinez and Conte now have chances to go to a training camp to be held by the Cardinals next month.

MAKE IT 8 IN-A-ROW Sox Lead Freshman League

The undefeated Red Sox made it eight in a row last week as they slaughtered the Mets 23 - 2 and narrowly downed the Indians 7 - 5. The Sox were tied at one point in the game by the tough Indians at 4 - 4, but pulled ahead in the fourth to stay.

The Red Sox had no trouble downing the Mets, however as they gathered 12 runs in the first inning and allowed the Mets no score until the third. The Mets final score came in the sixth.

Puckett blasted two home runs to lead the winners at the homeplate.

Cardinals Win From Colt 45's

The Cardinals pulled away from a 4-4 tie with the Colts in a game last week to take the match with a 7-4 score.

Each team got four runs in the first inning and the Cardinals added three in the third to end the scoring for both teams. The Colts got five men on base during the final five innings but couldn't move any of them across the plate.

Southerland was the winning pitcher for the Cardinals and Michols was the losing pitcher.

Braves Down Giants, 4-2

Two bases on balls walked in Johnson and Mize for the Braves in a game with the Giants to give the Braves a two point margin when the game ended 4-2.

T-Shirt All-Star Game Tuesday

The annual T-Shirt All-Star Baseball Game has been set for next Tuesday afternoon at the T-Shirt ball park.

The winning team will be playing against the best of the remainder of the teams in the League have to offer.

At this writing the Cubs are leading the League with a 5-2 record but are closely pushed by the Pirates standing at 4-3. Should the present trend continue the Cubs will play the team composed of members of the Yankees, Orioles, Pirates and White Sox.

Orioles Outlast White Sox, 5-4

The Orioles erased a three point deficit when they played the White Sox last week, went one run ahead in the fourth and gained one more run in the fifth to barely get by the scrappy Sox 5-4.

The White Sox got one run in the first and two in the second to lead, temporarily. In the fourth the Orioles came alive and got four runs across to go into the lead. In the top of the fifth the White Sox tied it up with another run, but the Orioles ended the game when Marc Smitherman crossed the plate in the bottom of the fifth.

Rance Young was the winning pitcher and the loser was Travis Johnson.

TIE FOR LEAD

Bankers Blast Lighthouse

A fourth inning rally that netted the First National Bank team four runs was not in vain for the league leading Lighthouse Electric nine could not close the gap to give the Bankers the game by a 6-2

LHE 23 VFW 3

Earlier in the week the LHE team had continued to roll in its usual manner by knocking over the VFW 23-3.

The scoring was started in the second by Christian of LHE when he got on on a single, was moved to second by Barbee on a fielder's choice, reached third when Thirkill was walked and scored as Barbee was caught between second and third. However, in the fourth LHE added another five runs, two in the fifth, six in the sixth and had an eight-run inning in seventh to account for the 23 runs.

VFW's runs came in the sixth inning.

Christian was the winning pitcher and Pierce was the loser.

First Nat'l 8 Matador, 5

Matador's first batter, Welling, crossed the plate in the first inning on a single by Cox and L. Bostick crossed the plate to put Matador in the lead early in the game against First National last week. However, the lead didn't last for in the bottom of the first the Bankers came back with four runs scored by Whittle, Rose, Gilliland and Billegas to put the locals ahead.

In the second the locals put another three across the plate and added another in the sixth to account for the eight scores. Matador got two more in the fifth and another in the top of the seventh, but these weren't enough to overtake the six point lead.

Bobby Gilliland was the winning pitcher, going five innings, and Bostick was the loser.

VFW Defeats Matador 11-10

The VFW and Matador played a nip-and-tuck ball game last week that was tied 10-10 after the seven regular innings but finally went to the local club when Jenkins crossed the plate in the eighth.

The VFW was behind 3-2 going into the fourth but managed five runs in that inning and two in the fifth to pull within one point of Matador after their seven runs in the fifth. The VFW got one more run in the seventh to tie the game.

The winning pitcher was Pierce and Bostick was the loser.

Sterley Methodist Church News

Next Sunday morning the worship service is to begin at 9:45 with the Sunday School starting at 10:45. This is a reversal of the usual starting times that have been in effect since June 6. The pastor is filling in at the pulpit for Rev. James Carter at Lockney both times Sunday. The Carters are on vacation. Last Sunday morning there was good attendance, a number in excess of half the membership being there for both Sunday School and morning worship. It is hoped that throughout the summer the attendance will be good.

Revival dates have been set for Aug. 2-6, Monday through Friday evenings, with Rev. H. Carl Nunn, pastor of the Methodist Church at Silverton, doing the preaching. A number of years ago he was called "Little Carl", in the Pampa district. Although six feet and three inches in height, he was exceeded by J. Carl Hudson, who is six feet six and now pastor at Kress, and by Carl M. Anderson, now at Albany, who was "somewhere in between." But he is tall in faith, with his feet on the ground, and it would be good for the people of that community, who have no other church nearby, to save that date for spiritual enrichment. In fact, we would be glad for them to worship regularly with us, with Sunday School usually at 9:45, and worship at 10:45. Remember the change this next Sunday.

Water Use Begins Annual Increase

Records at the City Hall show that the daily use of water by residents is now around 800,000 to 900,000 gallons.

This figure is expected to rise sharply in the next few weeks with the let-up of thundershowers that have been covering the area the past couple of weeks. Last year in July and August the use reached a peak of around 2 million gallons of water per day. By mid-July this year the figure is expected to be at least that amount.

Bill Feuerbacher said recently, "We can handle the 2 million per day demand, if nothing goes wrong with our water system, such as a well going dry or one of the engines or pumps breaking down".

The City officials are presently considering enlarging the Floydada water system to handle more water from planned wells and to handle the water from the Mackenzie Reservoir when it is completed.

the natural beauty of this country and I can go along with a good part of it, although first Washington has to understand my definition of natural beauty.

Some people I suppose would consider an electric light pole unnatural, it didn't grow there, but not me. There's nothing more naturally beautiful than a string of poles marching across the countryside toward your house bringing power to an electric water pump to replace a rope and bucket. A rope and bucket may be more romantic looking in a rustic sort of way, but if you want to get completely natural you'd eliminate all hydrants and have everybody cup his hands and drink out of a spring, preferably barefooted.

One of the major goals I understand in the beauty drive is to eliminate automobile junk yards along the highways, or at least screen them from view, and I'd like Washington to know I'm ahead on this. I left a cultivator at the turn-row near a public road 18 years ago when I went to the house to get a drink of water and have now successfully screened it with weeds I estimate to be about feet tall. Furthermore I have not contributed to the junkyard eyecore personally as I am still driving my car. Also, I haven't put up any billboards or rickety hotdog stands, and I don't print newspapers to be thrown out of cars to litter up the highways. You might say I'm in almost total compliance.

However, there is one plank in the beauty program that seems to me outrageous. One of the members of the planning group got a little over-enthusiastic and wanted to eliminate sagging fences along the highways. "There's nothing more unattractive," he said,

"than sagging wires along a highway winding through the rolling countryside."

Well, I'll tell you. Tight wires and tight bankers have their usefulness, but not in the beauty department. The prime purpose of a fence or a banker is not to look at.

I'll tighten the wires on my fences only when my cows get out, or actually when they get out so often my neighbors announce what's going to happen if I don't do something about it, today, not tomorrow. That's the way to get a fence tightened, not through Washington.

You let some official tell you how tight your fence has to be, and his next move will be to tell you what kind and color of cows you can graze behind it. Cows, like Congressmen, are not to be gazed at esthetically. They're to be milked as long as they produce, then turned over to the packers.

Yours faithfully,
J. A.

CENTER NEWS by Mrs. J. E. Green Farmers Would Appreciate Rain

CENTER, June 21 - Thunder heads are gathering today. As most of the wheat is in farmers would like to have some rain on cotton, feed, and gardens.

Father's Day was quiet but well attended at Calvary Baptist. Today Vacation Bible School begins. We are expecting a fine bunch of youngsters. We think attending a V.B.S. is one of the best ways a child can spend time.

Mrs. Rob Robinson (Norma) and children of Roswell, N. Mex. spent Father's Day weekend visiting her parents, Mr. and Mrs. R. C. Ross.

The Rosses made a trip to Plainview one day last week. Mr. and Mrs. Leo Frizzell dined Sunday with their daughter and family, the Garvin Beedys of South Plains. The granddaughter, Rise Beedy returned home with them for a visit.

Mrs. Frank Dunn, also Mr. and Mrs. Floyd Montgomery of Plainview visited briefly Friday with the Rosses. They were just starting on a trip to see relatives in Missouri and other points north.

The Thomas Warrens were in Lubbock Thursday afternoon when they took her mother, Mrs. Charley Battey, to Methodist Hospital. Mrs. Battey had surgery on Friday. The patient seems to be doing as well as can be expected. We trust she will continue to convalesce.

Mr. and Mrs. W. C. Plumlee are enjoying a visit from a daughter, Alma Ruth and family who recently returned from Manila, the Philippine Islands where they were serving Uncle Sam for over two years. They are Mr. and Mrs. Wallace Goss and sons, Tommy and Junior. The family arrived Friday.

Mrs. Plumlee and daughter, Mrs. Goss made a trip to Lubbock today - Monday.

Mr. and Mrs. O. C. Vinson and the R. R. Wallers were guests at the home of Mr. and Mrs. Oliver Allen last Monday evening. They played 84.

The Vinsons had a real Father's Day weekend at home this time with all their children present. These are Mrs. Ernest Huckabee (Doris) and children of Stephenville, Mrs. La Verne Anderson and Mrs. LaNell McLeod of Harlingen, and Jerrold Vinson and family of the Harmony community.

Visiting in the Walter Sims home Sunday afternoon were Mrs. Sims' niece and husband, Mr. and Mrs. Sinclair of Plainview, and the Sinclair's daughter and family, Mr. and Mrs. McIvritte and girls.

Floydada and surrounding communities are saddened today at the passing of two long time residents, John Lanier for many years manager of the Co-op Gin, and Fred Reeves, a farmer of Center community - on the Silverton Hiway. Our

sympathy goes out to families and other loved ones of these men who so suddenly passed on.

Vic Green of Plainview called today at the parental home, the J. E. Greens.

The Greens visited briefly with Mrs. Charley Battey Thursday morning, and with Mrs. Joe Evers Sunday evening after church, and the R. H. Ashtons Monday a.m.

WHO WANTS TO KILL

★ THE STATE OF TEXAS ★

"RIGHT TO WORK LAW?"

IS IT THE RANK AND FILE OF LABOR?

If Congress repeals Section 14(b) of the Taft-Hartley Act, it means the "Right to Work Law" in the State of Texas is void. It means thousands of independent Texas employees will be forced to join a union whether they like it or not. The rank and file of organized labor are protesting now the arbitrary and undemocratic process within many unions. Most of the rank and file would hate to see the union labor process have absolute control of every workman in every industry in America. When Section 14 (B) of Taft-Hartley is eliminated, the premium on a worker's loyalty to his union is of small consequence because every man who wants to work in the shop must join the union, pay dues, and pay for the political contributions by the unions whether he wants to or not. "Thousands of union members are opposed to making union membership compulsory; many are afraid to speak out for themselves for fear of retaliation of union bosses," says an A.F.L.-C.I.O. machinist union member. "If Section 14 (B) is repealed, it will ruin our country," says a member of the Lubbock Teamsters Union. NO, IT'S NOT THE RANK AND FILE OF LABOR WHO WANT TO KILL THE RIGHT TO WORK.

IS IT THE GENERAL PUBLIC?

"A right to work law is one which provides that a person need not belong to a union to get and keep a job."—World Book Encyclopedia. According to this definition, the Right to Work Law prohibits compulsory unionism. The provision of our Texas law guarantees the general public the following personal rights: (1) The right to join the union without fear of losing your job; (2) the right to reject union membership without fear of losing your job; (3) the right to hold your job without forced payment of any kind of fee to a union; (4) the right to work in the job of your choice without interference from any labor union; (5) the right to political freedom to withhold your personal monies from activities and candidates whom you oppose. IT IS NOT THE GENERAL PUBLIC WHO WANTS TO KILL THE RIGHT TO WORK.

IS IT OUR ELECTED OFFICIALS?

On repeated occasions, the vast majority of the elected officeholders in Austin, including the governor, have stated their belief in the present Right to Work Law. Most of our elected representatives in the Legislature have also gone on record in favor of right to work. George Mahon expressed his opposition to the repeal of this law at a national press conference, Tuesday, May 18. Senator Tower and Representative Pool strongly support the present law.

An honest investigation will prove that neither the rank and file of organized labor nor the general public nor the local or state elected officials in Texas want to abolish a State law that allows the right to work. Who is it that is clamoring, shouting, screaming for the repeal of this law?

HERE IS THE ANSWER !!!!

PLEASE READ IT TWICE!

The people who want to kill the Right to Work Laws that exist in nineteen states across America are the union bosses, particularly the political wing of organized labor—COPE—and the leadership of the National Democrat Party. Their reasons for wanting to kill this basic freedom are simple and plain to understand: (1) the A.F.L.-C.I.O., through its COPE organization, admits openly and proudly proclaims the millions of dollars of union funds it spent defeating candidates who were not pro-labor in 1964.

The National Democratic leadership openly and publicly admitted that they are obligated to the national union bosses for their assistance in the Congressional and Presidential campaigns of 1964. They are offering on the altar of political sacrifice this one great last freedom that belongs to the laboring man. If this law is repealed, COPE will be able to spend millions to defeat all conservative candidates—Democrat or Republican. If you do not want compulsory unionism in Texas, ask your Congressman to vote against the repeal of Section 14 (B) of the Taft-Hartley Act. DO NOT LET THIS FREEDOM DIE!

What distinguishes a free man from a slave?—A free man has the right to contract freely for his labor while a slave does not. The Constitution of the United States provides for our freedoms. The most elementary of all freedoms is the freedom to make a living without paying tribute to any organization. The Thirteenth Amendment to our Constitution clearly states that: "Neither slavery nor involuntary servitude—shall exist within the United States"—

If membership in a labor union is so desirable, why should it be necessary to make it compulsory?
