FACTS ABOUT PEST CONTROL (from Office of Information, U. S. Dept. of Agriculture).

YOUR HOME AND SAFE USE OF PESTICIDES - Bugs may be attractive to small boys, but to the average adult they are a nuisance. Especially in your home. They get into kitchen shelves and make waste of your food. They get into closets and ruin your clothes. Fleas bite your pets and mosquitoes bite you. Termites attack your house.

It takes a combination of continuous good housekeeping and correct pest control methods to keep household pests under control. The menace posed by these pests to comfort, property, and health has made pesticides a necessary part of our way of life - invaluable in maintaining strict sanitation and high standards of living.

But just as you need pesticides to help keep your home pest-free, you need the knowledge of how to handle them correctly in order to do the job safely. Pesticides must be toxic in order to kill pests. They're not automatically safe. It's how you handle pesticides that

makes their use safe and unsafe. **HERE'S WHAT YOU NEED TO KNOW** -

Point of Purchase - You take the first step toward safety at the store where you buy a pesticide. Don't buy it in a hurry. Take your time and make sure you're getting the right product.

Check the label to find out whether the pest you want to get rid of is listed. Read the directions to be sure you can safely use it in your home.

Check on whether the product is a surface spray or a space spray. It's important because a space spray isn't effective on surfaces and a surface spray may be dangerous when used to spray the air.

Surface sprays are for crawling insects. The container label usually says "residual" or the directions make it clear that you apply the product to surfaces.

If you intend to spray the air, buy a space spray. The label generally identifies the product as a space spray or a mist. Space sprays are meant to knock down flying insects. They don't last as long as surface sprays - that's why they can be used safely to spray the air.

Safe Storage Important - The main thing to remember when you get home after you've bought a pesticide - even if it's only mothballs - is to put it where the children can't reach it. The sooner the better. Check the label to see if it has any special directions about storage. If the product is flammable, for instance, it shouldn't be stored near heat.

In any case, don't store a pesticide near food or where it could get mixed up with cleaning supplies, other household items or medicines.

Always keep a pesticide in its original container, closed tight and well labeled. If the original label comes off, paste it back on or, if that's not possible, put on your own label.

If you find a container in the house that has lost its label, don't try to guess what's in the container - throw it out.

Using a Pesticide - The key to safety at this point is: don't depend on your memory.

Give the label another reading just before you use a pesticide. **EVERY TIME YOU USE IT.**

Banish pets and their food and water dishes before you spray a room. Remove birds, bird cages, aquariums, and fish bowls.

Take everything out of the pantry or dish cabinets when you spray the shelves. Wait until the spray dries and then cover the shelves with clean paper or foil before you put things back. Pesticides should never be allowed to get on food, dishes, pots, or pans. Don't spray the inside of a refrigerator or oven.

Smoking is taboo when you are using a pesticide. Some pesticides are flammable. All of them can be carried from hand to mouth by cigarette. **DON'T COMBINE DIFFERENT PESTICIDES.**

DON'T LET THE CHILDREN HELP. Keep them away from where you are mixing or using a pesticide. Look out for yourself, too. If you spill a pesticide, don't let it stay on your skin. Wash it off with soap and water right away. Avoid prolonged inhalation of insecticide sprays or dusts.

When you've finished using a pesticide, wash your face and hands with soap and water as a matter of routine. If you've spilled a pesticide on your clothes, take them off. Launder them before wearing again. **CAUTION - EMPTY CONTAINER** - An empty pesticide

BEGINS AT THE PALACE SUNDAY

Tony Randall, Shirley Jones And Real Live Lion Make "Fluffy" Uproarious

An artist's concept of the theme of Universal's hilarious comedy in color, "Fluffy," has Tony Randall romantically inclined toward Shirley Jones, with the very happy lion, Fluffy, pleased about the whole thing. Picture was directed by Earl Bellamy and produced by Gordon Kay.

Tony Randall and Shirley Jones are the stars of this funfest, but they're hard pressed for acting honors by Fluffy, a full grown Rhodesian lion who undoubtedly is the greatest scene stealer with whom either of the stars ever has competed.

Splashed brilliantly across the color screen and packed with uproariously comedic situations, "Fluffy" attests to the fact that when you combine the superb talents of Tony Randall and Shirley Jones with a cleverly written script and a very union-like lion the result is bound to be an hour and a half of side-shaking entertainment.

For Earl Bellamy, who has helmed numerous television shows of all types, this is his first feature film comedy, and he managed to wring out every possible laugh. Gordon Kay produced brilliantly.

"Fluffy", backgrounded against the imaginary Braden Institute, is the hilarious story of an animal head-shrinker who raises a lion to be more like a pampered child than a ferocious beast. The basic story point, however, lies in the fact that Fluffy's caretaker, Tony Randall, is the only one who knows of his gentle demeanor.

In addition to Tony and Fluffy, who turn in excellent performances as the most effective comedy team of the year, Shir-

the finest of professional acting standards. Teamed with Randall for the first time in her career, Shirley adds color and depth to her role as the wealthy young lady whose life is drastically and humorously changed when she walks into her apartment and discovers a lion snoozing on her bed - rakishly bedecked in one of her best hats.

container can be as hazardous as a full one.

Whatever you do, don't put anything into an empty pesticide container. It should never be used again. Rinse glass or metal containers with water inside and outside and rinse pressurized cans on the outside.

Wrap empty containers in heavy layers of newspapers and promptly put them in the trash can. Put the lid of the can on tightly. Don't burn a cardboard container or a sack that has had a pesticide in it. They should go into the trash can, too.

IN CASE OF EMERGENCY - Suppose someone in your family, or one of the neighborhood children, accidentally swallows a pesticide. Or that you spilled some on yourself and feel ill later on.

The best thing you can do is go straight to the pesticide container. Administer first aid if recommended on the label.

Call the doctor immediately in any case. Read him the label - the active chemical ingredient of the pesticide will be named on the label. Take the container with you if you go to a doctor or hospital for help.

The more toxic pesticides are marked "POISON" and have an antidote listed on the label. If a pesticide has been swallowed, follow the antidote directions and call your doctor right away.

The second meeting was held July 14, 1965 in the kitchen of the Agriculture building. We prepared "Angel Flake Biscuits" and talked about bread and yeast in our daily diet. Jennifer Teague demonstrated how to test water to dissolve yeast. Willa Finley told about the different shapes of rolls to make. Mrs. Roy Teague and Mrs. J. B. Colston were adult leaders.

The third meeting was July 21, 1965 at the Lighthouse kitchen. We made either a two layer or an angel food cake at home and brought it to the meeting and made a "Snow Peak" icing and iced our cakes. Mrs. Roy Teague was adult leader.

CARE-SOCIAL SECURITY IV Tending On Age, Americans May Consider Bill Blessing Or Burden

Self-employed persons will be paying \$514.80. By then, millions of Americans will be paying more Social Security tax than they pay in income taxes.

Advantages Are Clear
And along the way, Congress may add new benefits and new rate increases. It has been doing that every few years since the Social Security tax first took effect in 1937.

The advantages for those 65 and over are clear — higher monthly pensions retroactive to Jan. 1, bigger survivors' benefits and, starting next July 1, hospital insurance for all the aged and doctor-bill insurance for those who want it.

If you are younger, the benefits may be less obvious. But there are many. Your higher taxes will not only build better security for your own old age but they will also:

Aide Totally Disabled
—Ease your financial load of caring for aged and ailing parents.

—Provide higher monthly benefits if you are totally disabled at any age.

—Quite possibly, reduce the cost of your own private health insurance, by relieving your company of its oldest and costliest policyholders.

—Help make it possible for your children to finish school and college if you die or become disabled.

So steep an increase in Social Security taxes on Jan. 1 was not expected when Congress began its perennial consideration of Social Security legislation six months ago.

"Three-Layer Cake"
The bill grew as it went along. It became a "three-layer cake," as one congressman called it, to be served up on one big platter — higher pensions, hospitalization, and optional medical care. For frosting, some amendments were added.

The \$5-billion take from the nation's payrolls in 1966 — half from employees, half from employers — is now a matter of some economic concern. The total cost of the bill is \$6 billion, but the extra billion comes from the Treasury as a subsidy to the medical insurance plan and an increase in welfare grants to the states.

Subtracting that much money from the buying power of wage-earners, next year could be a business — depressing, officials admit, since it will be only partly offset by the bigger benefits paid out.

To Raise Earnings Base
Therefore some stimulants are being administered — the lump-sum retroactive payment this fall of the pension increase, the excise tax cuts of June and next January, and the White House talk of possible further income tax relief to come.

The chief reason for the steepness of the tax increase next year is the decision of Congress to raise the earnings base from \$4,800 to \$6,600 in one big jump next New Year's Day.

The earnings base is the portion of your pay which is subject to Social Security tax. The original House bill proposed to go to \$6,600 in two steps, five years apart. The more drastic Senate version prevailed.

Deductions Go Up Gradually
After 1966, your paycheck deductions will go up more gradually, as the tax rate rises step by step.

The following table shows you how much you pay in Social Security taxes now — and is matched equally by your employer, compared with how much you will be paying in the future.

The table applies to employees earning \$6,600 or more. If you don't make that much, you can reckon your tax by applying the

Year	Rate Per Cent	Annual Tax
1965	3.625	\$174.00
1966	4.2	277.20
1967-8	4.4	290.40
1969-72	4.9	323.40
1973-5	5.4	356.40
1976-9	5.45	359.70
1980-6	5.55	366.30
1987 and after	5.65	372.90

\$80 A Year In 1937
For self-employed men and women, the rate is higher. The maximum tax now is \$259.20. Next year it will go to \$405.90. Then, following the same schedule of step-ups as in the table, it will advance like this: in 1967, to \$422.40; in 1968, to \$468.60; in 1973, to \$498.30; in 1976, to \$501.60; in 1980 to \$508.20; in 1987 and thereafter, \$514.80.

If you had a job in 1937 — lots of Americans didn't that year — the figures in that tax table may make you wonder why you considered the first Social Security law a sensational stride toward old-age security.

Then, the topmost Social Security tax was \$30 a year. Now the earner of just an ordinary wage sees in prospect a tax of \$372.

Then, the smallest old age pension was \$10 a month. In two months the smallest pension will be \$44.

Then, the largest monthly pension check was \$47.50. Now it is moving up to \$135.90. Eventually, under the new law, it will go to \$168; a family could get as much as \$368.

Along the way have been added earlier retirement, payments to widows and orphans, help for the disabled — and now the two top layers on the cake, hospital and doctor-bill insurance.

Do the growing benefits outweigh the growing burdens? Congress has voted yes. And if you don't agree — maybe you will when you get older.

Floyd Philosopher Comments On Recent Mars Pictures

Editor's note: The Floyd Philosopher on his Johnson grass farm holds firm to his backward view of outer space, his letter this week indicates.

Dear editor:

Understand, sending a television camera 135 million miles through space to take some pictures of Mars and then getting the pictures transmitted back to earth is a brilliant feat, and while I couldn't tell much from

the pictures, still you can say the same thing about some television shows originating here on earth, none the less I continue to stay sort of unexcited about outer space.

What I mean is, I'm in favor of man's exploring, but he's got a lot of odds against him. Take Mars. Scientists have already discovered, according to Mariner's messages, that there's not enough oxygen there to keep a man alive. Now I suppose we could overcome

that, if we wanted to populate the place, by getting some company to go into the Mars oxygen-manufacturing and distribution business and equipping everybody with a meter to calculate his monthly breathing bill, think what you could make off of athletes and Congressmen, and I figure that's one bill practically everybody would pay and the company would have very few occasions when it had to disconnect a man's supply for lack of payment, a thoughtful person would just naturally put it ahead of his television or car installment, I'd like to have some stock in that company myself, but you might run into stubborn people who'd argue, why go to Mars and pay for breathing when you can do it free here on earth? This of course wouldn't include the people who go to the Mediterranean to see the sun set when they could stand in their own

backyard and see the same sun setting.

Well, anyway, so we rule out Mars as a serious prospect for sub-dividing and tackling another one. As I understand it, there are literally billions of planets out there and the human could go on forever. Eventually, way out on the other side of the universe, if the universe has any sides, we might find a planet with life on it.

Well, what would we do with it? We've already got a planet with life on it and we ain't doing to much with it.

Yours faithfully,
J. A.

Certainly, Madam
Bride: "I would like to open an account at this bank, please."

Teller: "We shall be very glad to accommodate you. What amount do you wish to deposit?"

Bride (smiling): "Oh, I mean a regular charge account, such as I have at the department stores."

PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER TWO ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965. HOUSE JOINT RESOLUTION NO. 5 proposing an Amendment to Section 49-b, Article III of the Constitution of Texas so as to authorize an increase in the total amount of bonds or obligations that may be issued by the Veterans' Land Board to Four Hundred Million Dollars (\$400,000,000); providing for the issuance of said bonds or obligations and the conditions relating thereto and the use of the Veterans' Land Fund; and providing for an election and the issuance of a proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Section 49-b, Article III of the Constitution of Texas, be amended so that the same will hereafter read as follows:

"Section 49-b. By virtue of prior Amendments to this Constitution, there has been created a governmental agency of the State of Texas performing governmental duties which has been designated the Veterans' Land Board. Said Board shall continue to function for the purposes specified in all of the prior Constitutional Amendments existing as modified herein. Said Board shall be composed of the Commissioner of the General Land Board and two (2) citizens of the State of Texas, one (1) of whom shall be well versed in veterans' affairs and one (1) of whom shall be well versed in financial matters. (1) such citizen member shall, with the advice and consent of the Senate, be appointed biennially by the Governor to serve for a term of four (4) years; but the members serving on said Board on the date of adoption hereof shall complete the terms to which they were appointed. In the event of the resignation or death of any such citizen member, the Governor shall appoint a replacement to serve for the unexpired portion of the term to which the deceased or resigning member had been appointed. The compensation for said citizen members shall be as is now or may hereafter be fixed by the Legislature; and each shall make bond in such amount as is now or may hereafter be prescribed by the Legislature.

"The Commissioner of the General Land Office shall act as Chairman of said Board and shall be the administrator of the Veterans' Land Program under such terms and restrictions as are now or may hereafter be provided by law. In the absence or illness of said Commissioner, the Chief Clerk of the General Land Office shall be the Acting Chairman of said Board with the same duties and powers that said Commissioner would have if present.

"The Veterans' Land Board may provide for, issue and sell not to exceed Four Hundred Million Dollars (\$400,000,000) in bonds or obligations of the State of Texas for the purpose of creating a fund to be known as the Veterans' Land Fund, Two Hundred Million Dollars (\$200,000,000) of which have heretofore been issued and sold. Such bonds or obligations shall be sold for

not less than par value and accrued interest; shall be issued in such forms, denominations, and upon such terms as are now or may hereafter be provided by law; shall be issued and sold at such times, at such places, and in such installments as may be determined by said Board; and shall bear a rate or rates of interest as may be fixed by said Board but the weighted average annual interest rate, as that phrase is commonly understood in the municipal bond market, of all the bonds issued and sold in any installment of any bonds may not exceed four and one-half per cent (4 1/2%). All bonds or obligations issued and sold hereunder shall, after execution by the Board, approval by the Attorney General of Texas, registration by the Comptroller of Public Accounts of the State of Texas, and delivery to the purchaser or purchasers, be incontestable and shall constitute general obligations of the State of Texas, and all bonds heretofore issued and sold by said Board are hereby in all respects validated and declared to be general obligations of the State of Texas. In order to prevent default in the payment of principal or interest on any such bonds, the Legislature shall appropriate a sufficient amount to pay the same.

"In the sale of any such bonds or obligations, a preference shall be given to the various Teacher Retirement Funds, the Permanent University Funds, and the Permanent School Funds.

"Said Veterans' Land Fund shall consist of any lands heretofore or hereafter purchased by said Board, until the sale price thereof, together with any interest and penalties due, have been received by said Board (though nothing herein shall be construed to prevent said Board from accepting full payment for a portion of any tract), and of the moneys attributable to any bonds heretofore or hereafter issued and sold by said Board which moneys so attributable shall include but shall not be limited to the proceeds from the issuance and sale of such bonds; the moneys received from the sale or resale of any lands, or rights therein, purchased with such proceeds; the moneys received from the sale or resale of any lands, or rights therein, purchased with other moneys attributable to such bonds; the interest and penalties received from the sale or resale of such lands, or rights therein; the bonuses, income, rents, royalties, and any other pecuniary benefit received by said Board from any such lands; sums received by way of indemnity or forfeiture for the purchase of any such bonds to comply with his bid and accept and pay for such bonds or for the failure of any bidder for the purchase of any lands comprising a part of said Fund to comply with his bid and accept and pay for any such lands; and payments received from investment of any such moneys. The principal and interest on the bonds heretofore and hereafter issued by said Board shall be paid out of the

moneys of said Fund in conformance with the Constitutional provisions authorizing such bonds; but the moneys of said Fund which are not immediately committed to the payment of principal and interest on such bonds, the purchase of lands as herein provided, or the payment of expenses as herein provided may be invested in bonds or obligations of the United States until such funds are needed for such purposes.

"All moneys comprising a part of said Fund and not expended for the purposes here provided shall be a part of said Fund until there are sufficient moneys therein to retire fully all of the bonds heretofore or hereafter issued and sold by said Board, at which time all such moneys remaining in said Fund, except such portion thereof as may be necessary to retire all such bonds which portion shall be set aside and retained in said Fund for the purpose of retiring all such bonds, shall be deposited to the credit of the General Revenue Fund to be appropriated to such purposes as may be prescribed by law. All moneys becoming a part of said Fund hereafter, shall likewise be deposited to the credit of the General Revenue Fund.

"When a Division of said Fund (each Division consisting of the moneys attributable to the bonds issued and sold pursuant to a single Constitutional authorization and the lands purchased thereunder) contains sufficient moneys to retire all of the bonds secured by such Division, the moneys thereof, except such portion as may be needed to retire all of the bonds secured by such Division which portion shall be set aside and remain a part of such Division for the purpose of retiring all such bonds, may be used for the purpose of paying the principal and the interest thereon, together with the expenses herein authorized, of hereafter issued and sold by said Board. Such use shall be a matter for the discretion and direction of said Board; but there may be no such use of any such moneys contrary to the rights of any holder of any of the bonds issued and sold by said Board or violator of any contract to which said Board is a party.

"The Veterans' Land Fund shall be used by said Board for the purpose of purchasing lands situated in the State of Texas owned by the United States or any governmental agency thereof, owned by the Texas Prison System or any other governmental agency of the State of Texas, or owned by any person, firm, or corporation. All lands thus purchased shall be acquired at the lowest price obtainable, to be paid for in cash, and shall be a part of said Fund. Such lands heretofore or hereafter purchased and comprising a part of said Fund are hereby declared to be held for a governmental purpose, although the individual purchasers thereof shall be subject to taxation to the same extent and in the same manner as are purchasers of lands dedicated to the Permanent Free Public School Fund.

"The lands of the Veterans' Land Fund shall be sold by said Board in such quantities, on such terms, at such prices, and at such rates of interest and under such rules and regulations as are now or may hereafter be provided by law.

Lighthouse Electric Cooperative, Inc., Nancy Morckel, Home Economist

FULL HOUSEPOWER MAKES HOME MODERN It's hard to believe that four out of five older homes, including some built only a few years ago, do not have sufficient electrical wiring to serve the electrical equipment their owners now possess - to say nothing of appliances they would like to have!

Today, new home buyers should be positive they are getting an electrical system which will enable the home to remain modern for life. The term "Full Housepower" was adopted by the electrical industry a number of years ago to describe a wiring system which has more than the minimum capacity required for safety. This means that portable electric equipment can be

used anywhere in the house and out-of-doors, without concern over the possibility of a "blackout" due to overloaded circuits. And, if additional major appliances requiring individual circuits are added in the future, they can be installed easily and economically, because the big main panel has spare capacity.

It is to be expected, of course, that a home which is total electric will have sufficient wiring to serve the electric heating equipment, the electric range, and the other major appliances which come with the house. However, the wiring should go further than this. It must also include plenty of convenience outlets in living and sleeping areas, plus special weatherproof outlets on the outside and in the garage, as well as over kitchen counters.

Lighting should be controlled, in every room, by a switch, located on the latch side of the door. Rooms which have more than one entrance should have switches located at each entrance, if those entrances are 10 feet or more apart. With this kind of switch control, it is never necessary to enter a room in darkness, or to retrace one's steps in order to turn off the lights.

Builders should realize that home buyers and owners want the joy of total-electric living all day, every day, and this kind of living takes FULL HOUSEPOWER WIRING ALL OVER the house.

PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER EIGHT ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965. HOUSE JOINT RESOLUTION NO. 57 proposing an Amendment to Section 1-a of Article V of the Constitution of the State of Texas, by adding to said Section as presently written, the following provisions: requiring automatic retirement of certain District and Appellate Judges at age seventy-five (75) or such earlier age, not under seventy (70), as may be provided by law; creating a State Judicial Qualifications Commission and providing for its composition and the qualifications, methods of selection and terms of office of its members; defining the functions and procedures of said Commission, including the duty to investigate, and hold hearings in respect of, disability and misconduct of District and Appellate Judges and to make recommendations to the Supreme Court of Texas as for involuntary retirement or removal of such Judges; empowering the Supreme Court of Texas, in its discretion, to retire such Judges for disability and to remove them for misconduct, upon recommendation of the aforesaid Commission and consideration of the record made before it; defining misconduct for which said Judges may be so removed; providing that the proceedings of said Commission shall be confidential until filed in the Supreme Court with recommendation for retirement or removal; and providing that the removal provisions hereby established shall be alternative to any cumulative of those provided elsewhere in the Constitution.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Section 1-a of Article V of the Constitution of the State of Texas be amended so that said Section shall hereafter read as follows:

"Section 1-a. (1) Subject to the further provisions of this Section, the Legislature shall provide for the retirement and compensation of Justices and Judges of the Appellate Courts and District and Criminal District Courts on account of length of service, age and disability, and for their reassignment to active duty where and when needed. The office of every such Justice and Judge shall become vacant when the incumbent reaches the age of seventy-five (75) years or such earlier age, not less than seventy (70) years, as the Legislature may prescribe; but, in the case of an incumbent whose term of office includes the effective date of this Amendment, this provision shall not prevent

him from serving the remainder of said term nor be applicable to him before his period or periods of judicial service shall have reached a total of ten (10) years. (2) There is hereby created the State Judicial Qualifications Commission, to consist of nine (9) members, to wit: (i) two (2) Justices of Courts of Civil Appeals; (ii) two (2) District Judges; (iii) two (2) members of the State Bar, who have respectively practiced as such for over ten (10) consecutive years next preceding their selection; (iii) three (3) citizens, at least thirty (30) years of age, not licensed to practice law nor holding any salaried public office or employment; provided that no person shall be or remain a member of the Commission, who does not maintain physical residence within this State, or who resides in, or holds a judgeship within or for, the same Supreme Judicial District as another member of the Commission, or who shall have ceased to retain the qualifications above specified for his respective class of membership. Commissioners of classes (i) and (ii) above shall be chosen by the Supreme Court with advice and consent of the Senate, those of class (iii) by the Board of Directors of the State Bar under regulations to be prescribed by the Supreme Court with advice and consent of the Senate.

(3) The regular term of office of Commissioners shall be six (6) years; but the initial members of each of classes (i), (ii) and (iii) shall respectively be chosen for terms of four (4) and six (6) years, and the initial members of class (iii) for respective terms of two (2), four (4) and six (6) years. Interim vacancies shall be filled in the same manner as vacancies due to expiration of a full term, but only for the unexpired portion of the term in question. Commissioners may succeed themselves in office only if having served less than three (3) consecutive years.

(4) Commissioners shall receive no compensation for their services as such. The Legislature shall provide for the payment of the necessary expense for the operation of the Commission.

(5) The Commission may hold its meetings, hearings and other proceedings at such times and places as it shall determine but shall meet at Austin at least once each year. It shall annually select one of its members as Chairman. A quorum shall consist of five (5) members. Proceed-

ings shall be by majority vote of those present, except that recommendations for retirement or removal of Justices or Judges shall be by affirmative vote of at least five (5) members.

(6) Any Justice or Judge within the scope of this Section 1-a may, subject to the other provisions hereof, be removed from office for willful or persistent conduct, which is clearly inconsistent with the proper performance of his said duties or casts public discredit upon the judiciary or administration of justice; or any such Justice or Judge may be involuntarily retired for disability seriously interfering with the performance of his duties, which is, or is likely to become, permanent in nature.

(7) The Commission shall keep itself informed as fully as may be of circumstances relating to misconduct or disability of particular Justices or Judges, receive complaints or reports, formal or informal, from any source in this behalf and make such preliminary investigations as it may determine. Its orders for the attendance or testimony of witnesses or for the production of documents at any hearing or investigation shall be enforceable by contempt proceedings in the District Court.

(8) The Commission may, after such investigation as it deems necessary, order a hearing to be held before it concerning the removal or retirement of Justice or Judge, or it may in its discretion request the Supreme Court to appoint an active or retired District Judge or Justice of a Court of Civil Appeals as a Master to hear and take evidence in any such matter, and to report thereon to the Commission. If, after hearing, or after considering the record and report of a Master, the Commission finds good cause therefore, it shall recommend to the Supreme Court the removal or retirement, as the case may be, of the Justice or Judge in question.

(9) The Supreme Court shall review the record of the proceedings on the law and facts and in its discretion may, for good cause shown, permit the introduction of additional evidence and shall order removal or retirement, as it finds just and proper, or wholly reject the recommendation. Upon an order for involuntary retirement for disability or an order for removal, the office in question shall become vacant. The rights of an incumbent so retired to retirement benefits shall be the same as if his retirement had been voluntary.

(10) All papers filed with and proceedings before the Commission or a Master shall be confidential, and the filing of papers with, and the giv-

ing of testimony before, the Commission, Master or the Supreme Court shall be privileged; provided that upon being filed in the Supreme Court the record loses its confidential character. (11) The Supreme Court shall by rule provide for the procedure before the Commission, Masters and the Supreme Court. Such rule shall afford to any judge against whom a proceeding is instituted to cause his retirement due process of law for the procedure before the Commission, Masters and the Supreme Court in the same manner that any person whose property rights are in jeopardy in an adjudicatory proceeding is entitled to due process of law, regardless of whether or not the interest of the judge in remaining in active status is considered to be a right or a privilege. Due process shall include the right to notice, counsel, hearing, confrontation of his accusers, and all such other incidents of due process as are ordinarily available in proceedings whether or not misfeasance is charged, upon proof of which a penalty may be imposed. (12) No Justice or Judge shall sit as a member of the Commission or Supreme Court in any proceeding involving his own retirement or removal. (13) This Section 1-a is alternative to, and cumulative of, the methods of removal of Justices and Judges provided elsewhere in this Constitution.

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State at an election to be held on the first Tuesday after the first Monday in November, 1965, at which election all ballots shall have printed thereon the following: "FOR the Constitutional Amendment providing for the automatic retirement of District and Appellate Judges for old age, creating the State Judicial Qualifications Commission, defining its functions; and empowering the Supreme Court, upon recommendation of said Commission, to remove District and Appellate Judges for misconduct and to retire such judges in cases of disability. AGAINST the Constitutional Amendment providing for the automatic retirement of District and Appellate Judges for old age, creating the State Judicial Qualifications Commission, defining its functions; and empowering the Supreme Court, upon recommendation of said Commission, to remove District and Appellate Judges for misconduct and to retire such judges in cases of disability."

Sec. 3. The Governor shall issue the necessary proclamation for the election, and this Amendment shall be published as required by the Constitution and laws of this State.

HIGHLIGHTS AND SIDELIGHTS

Water Remains in Spotlight, Cattle In Better Condition

AUSTIN, Tex. -- Water remains very much in the spotlight over the state.

As June ended, cattle were in better than average condition, says the US Department of Agriculture. Pastures and ranges continued to furnish good grazing, and rising cattle prices have resulted.

On the High Plains heavy showers boosted range prospects, but grass growth was slowing in many areas because of high temperatures which sapped soil moisture.

In the Trans-Pecos ranges some farmers and ranchers were forced to begin supplemental feeding.

Some farmers have been combatting the rain problem by irrigating their crops. A joint study by the USDA, the Texas Water Commission and the State Soil Conservation Board indicates that irrigation in Texas rose significantly from 1958 to 1964. Amount of water used increased nearly one third, to 12,500 acre feet or an average of 18 inches per irrigated acre.

Amount of irrigated land increased by about 15 per cent during the six-year period. Much of the gain occurred in the High Plains—in the upper parts of the Canadian, Colorado, Brazos and Red River basins—but some of it also was in the basins of the Rio Grande and Nueces Rivers.

By next September studies to show how much water will be available in 2020 from Texas reservoirs and ground water strata already in use will be complete.

Then will come the job of finding additional sources to match yields to needs. This will involve searching for new surface water supplies as well as desalinization of poor under-

ground water. When in-basin sources are checked out against the needs of each river basin, the planners expect to find some of the heavy rainfall regions will have more water than they will need, even to 2020, while others will not have enough.

Then, the question will be: where to take the surplus? \$100,000,000 SURPLUS.—State government will begin the new fiscal biennium with a surplus of nearly \$100,000,000. But it will wind up with a balance of only \$4,200,000, according to estimates of the Governor's budget office.

In a recap of legislative spending, Gov. John Connally's staff tallied all appropriations at \$3,700,000,000, of which \$622,900,000 will come from general revenue. (Vetoes by the governor of \$2,600,000 from the spending bills are deducted.) Figures put state cost of the average \$53 teacher pay raise at \$70,600,000 for the two-year period beginning September 1.

Total new revenue provided by the 59th Legislature will come to \$82,500,000, according to revised figures. Biggest portion of this comes from the three-cents-a-pack increase in the cigarette tax. HOSPITAL TRANSITION UNDER WAY.—Texas' vast system for treating the mentally ill, mentally retarded and victims of tuberculosis is entering a vital transition period.

On September 1, realignment and reorientation of these facilities and services, as enacted by the 59th Legislature, will go into effect.

Separation of the tuberculosis hospital treatment program from the mental health and retardation services and consolidating it with the State Health Department, which now handles case finding and follow-up work.

Abolishing the existing hospital board—general policy-making agency for mental and tuberculosis hospitals and special schools for the retarded—and creating a new Department of Mental Health and Retardation. A new, nine-member board will replace the present Board for Texas State Hospitals and Special Schools.

Sweeping new concepts of care, spelled out in recommendations of statewide study committees named by Governor Connally, are expected of the reorganization. AUTO INSURANCE HIKES.—Auto liability insurance rates will increase an average of 14.4 per cent on August 1. Rates will vary widely in the

26 rating areas in the state. However, some coverages will go down in cost, by as much as 17 per cent. These policies are for insurance against losses not connected with accidents—such as fire and theft.

State Board of Insurance says it has carefully reviewed the loss data forming the basis of the rate changes and finds that the new rates will be "adequate and reasonable as required by law."

In another area of insurance, Texas companies have had more than \$15,000,000 worth of claims from hail and storm damage. By this time last year, \$9,000,000 had been paid in such claims. Biggest blow came from the Wichita Falls storm of May 27.

BOUNDARY COMMITTEE NAMED.—Governor Connally has named a seven-member committee to negotiate with Louisiana in an effort to settle a long-standing dispute as to the Sabine River boundary between the two states.

Connally appointed his executive assistant Larry Temple, Land Commissioner Jerry Sadler, Atty. Gen. Waggoner Carr, Sen. Martin Dies Jr. of Lufkin, Sen. Jack Strong of Longview, Rep. David Crews of Conroe and Rep. Charles Wilson of Lufkin.

Recommendations as to location of the boundary line will be submitted to the state legislatures and the Congress of the U.S. for ratification.

Louisiana has claimed the boundary is the west bank of the Sabine. Texas maintains that the center line of the river is the correct line. Ownership of the area south of the mouth of the Sabine also is in dispute. Valuable oil and gas are at stake.

TOURIST ATTRACTIONS PRAISED.—University of Texas Bureau of Business Research credits tourist attractions with helping to keep the level of Texas' economy above last year's during the first five months of 1965.

However, business activity dipped 4.4 per cent in May. January-May average index for 1965 was nearly 20 percentage points above the average for the same months in 1964. Bureau says there is "every indication" this will be a good year for the travel industry in Texas.

HOSPITAL FUNDS SHORT.—State Board of Health has 65 applications for federal Hill-Burton hospital aid funds totaling \$38,000,000 but expects an allotment of only about \$14,000,000.

Hill-Burton funds assist communities in building and equipping non-profit hospitals and related health facilities. Allocations of the 1966 funds are expected in August.

Many applicants will not receive Hill-Burton money during the coming fiscal year, warns Dr. James E. Peavy, State Health Commissioner.

SCHOOL CHECKS TO BE MADE.—Texas Education Commissioner J. W. Edgar served notice on local school officials that the Texas Education Agency will check complaints resulting from the Civil Rights Act.

Periodic reviews also will be made by TEA to ascertain whether or not districts receiving federal aid are abiding by non-discrimination rules.

Formal complaints will result in a hearing before Edgar, appealable to the State Board of Education and the courts.

SHORT SNORTS State Banking Board denied applications of Denison Bank and Trust Company and American State Bank of Pasadena. An application by the Frontier State Bank of Eagle Pass has been filed.

Third Court of Civil Appeals has held an oil company may redrill and straighten slanted wells in the East Texas field.

House Speaker Ben Barnes named five Dallas representatives to survey cost of modernizing State Fair of Texas facilities in Dallas.

Parks and Wildlife Commission will meet on July 16 to review local hearings in 149 counties now under the game and fish regulatory responsibility program. Special meeting will be held later to set rules for 34 counties and areas added to the regulatory program by the 59th Legislature.

House Agriculture Committee Passes Cotton Legislation

The Agricultural Stabilization and Conservation Service Newsletter for July, 1965 gives several provisions which must be met in order to be eligible as a deduction on crops destroyed to effect compliance on cotton and feed grains.

Each plot of crop destroyed must contain one-tenth (.1) acre or more.

Plots must be regular in shape with not more than four sides unless an entire field is destroyed or an entire sub-division of a field.

To be eligible to designate as diverted acres, a plot of cotton or feed grain destroyed must be at least three acres. Turn rows, end rows, borders, and w-type ditches are not eligible to be diverted nor is land that is not intensively cultivated.

As in the past, a REMEASUREMENT must be requested and a deposit made within 15 days of the date on the notice. If there is reason to believe that an error has been made, the farmer should go to the ASCS office, review the measurements, and get the problem corrected as soon as possible.

Also in the newsletter, Orville L. Freeman of the office of the Secretary of Agriculture summarized the Farm Bill, H. R. 9811, which has just been approved by the House Agriculture Committee. Freeman noted that the major provisions of the bill were:

A. The cotton law would continue the one price approach that has increased the use of cotton in the United States this year and give cotton farmers greater freedom of choice.

B. The Feed Grain Program which has added three billion dollars to farm income the past four years would be extended, and improved.

C. An improved wheat program would boost wheat farmers incomes by \$150 million a year while reducing government costs and providing more freedom in the marketing system.

D. A new cropland adjustment program would help farmers shift a part of their allotted acreage out of crops into conservation and recreation uses if they wanted to—and be paid for it.

E. In addition, the Wool Pro-

gram would be continued.

Freeman continued by saying that the proposed cotton legislation, if passed by the Congress, would not only extend the one price idea that is in effect this year, it would help the government to bring under control the high costs which otherwise could wreck the entire program.

By the passage of this bill, the cotton community would not suffer damage or be destroyed. Actually, cotton income would be maintained. Allotment transfers would be permitted within a county; also within the state if producers agree to such a transfer in a referendum.

The Release and Reapportionment Program would be continued. Farmers who have been relying on release and reapportionment would not be deprived of this allotted acreage. In fact, they could acquire additional acreage permanently by purchase or on a long-term

lease. If the farm bill fails to pass, we would go back to the 1958 law on cotton, with price support at 66 to 90 percent of parity and continued overproduction, and the two-price system could eventually eliminate a substantial portion of our domestic market. The program proposed in the omnibus bill (H.R. 9811) would make U. S. cotton competitive both in the world cotton market and with synthetics here at home.

Proposed CONSTITUTIONAL AMENDMENT NUMBER TEN ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965. SENATE JOINT RESOLUTION NO. 47 proposing an Amendment to Section 4, Article III, Constitution of the State of Texas, to provide four-year terms of office for State Representatives.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 4, Article III, Constitution of the State of Texas be amended to read as follows:

"Section 4. The members of the House of Representatives shall be chosen by the qualified electors for the term of four years; but a new House of Representatives shall be chosen after every apportionment, and the members elected after each apportionment shall be divided by lot into two classes. The seats of the members of Class A shall be vacated at the expiration of the first two years, and those of Class B at the expiration of four years, so that one-half of the members of the House of Representatives shall be chosen biennially thereafter. Representatives shall take office following their election, on the day set by law for the convening of the Regular Session of the Legislature, and shall serve thereafter for the full term of years to which elected and until their successors shall have been elected and qualified. Except in case of an election to fill a vacancy, and except in the first election following each re-apportionment, a person who has been elected to the House of Representatives shall not be eligible to be a candidate again for membership in the Legislature until the term for

which he was elected has less than one year remaining."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified voters of the state at an election to be held on the first Tuesday after the first Monday in November, 1965, at which election all ballots shall have printed on them the following:

"FOR the Constitutional Amendment to provide for a four-year term of office for State Representatives."

"AGAINST the Constitutional Amendment to provide for a four-year term of office for State Representatives."

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time required by the constitution and laws of this state.

Sec. 4. In the event the Constitutional Amendment proposed in this Resolution is adopted by the people of Texas in the election in November, 1965, the Governor of Texas is directed not to issue a proclamation for the election and not to publish notice thereof for the Constitutional Amendment proposed by House Joint Resolution No. 1 of the 59th Texas Legislature, since the provisions of said House Joint Resolution No. 1 are included in this Resolution. But, should this proposed Amendment be rejected by the people of Texas in the election in November, 1965, then the terms and provisions of House Joint Resolution No. 1 shall be and remain in full force and effect and shall be proclaimed published and submitted to the electorate in November, 1966, as provided in said House Joint Resolution No. 1.

Ronald Tucker Joins Air Force

Ronald Lynn Tucker, age 19, son of Mr. and Mrs. Marion Tucker of Route #1, Floydada, has enlisted in the United States Air Force according to an announcement by SSGT. Clifton W. Harr, local Air Force Recruiter whose office is located at 1006 13th Street, Lubbock, Texas.

Based on the results of aptitude tests administered prior to his enlistment, Ronald selected and was enlisted in the Electronics Aptitude Index. Sgt. Harr stated that Ronald has been sent to Lackland Air Force Base, San Antonio, Texas where he will undergo six weeks of basic training. Upon completion, he will be reassigned where he will receive training and become a specialist in the Electronics field.

Ronald is a 1964 graduate of Floydada High School. While in school, Ronald was a member of both the football and basketball squad as well as a member of the band. He was also an active member in the 4-H Club and the FFA. Prior to his enlistment, Ronald also attended Texas Tech for one year.

Sgt. Harr urges all high school graduates who are not attending college to contact him and discuss the opportunities for technical training in fields that will prepare a person for his place in civilian life and also permit him to attend college while serving his country. The Air Force offers a very liberal tuition assistance for those persons attending college, reports Sgt. Harr.

Persons interested in obtaining further information may contact Sgt. Harr at the Selective Service Office between the hours of 10:00 AM to 4:00 PM at 114 E. 7th Street, Plainview on Mondays, or call him COLLECT in Lubbock to arrange an appointment. The phone number is PO2-3359.
