Monday morning at 8 a.m. sixty-five Whirlwind hopefuls were issued football uniforms and practice for the 1965 season got underway.

With this number of boys out for football it is expected that in addition to the varsity schedule a "B" team and a Freshman will play separate schedules. The seventh-eighth grade team will also have a schedule with eight opponents.

The Whirlwinds are having two practices per day and will continue this through next week. An intra-squad scrimmage has been set for Saturday morning and the first contact with an opponent will be a scrimmage with Hale Center next Thursday.

The team this year will average about the same as last year's however, there are no large boys. The heaviest man on the squad, according to a roster released by Coach Bill Curry, weighs 175 pounds. One potential Wind tips the scales

Coach Curry said recently that in spite of their size they're going to hit and they seem to have the needed desire to do

something. That something in the past has taken the Whirlwinds to more than one winning season when the team was certainly not a pre-season favorite.

## Hesperian Wins Press Awards

At the West Texas Press Convention held in El Paso this past weekend, the Floyd County Hesperian was cited for outstanding achievement in three areas of the newspaper field.

The Hesperian was named for General Excellence, Editorial Writing, and Advertising Composition.

The awards received were third for the most coveted, the General Excellence Award, and second in the other two fields. The contests entered were for weekly publications in citles of 3,000 or more.

Each of the awards states, "Presented for outstanding achievement in the field of newspaper publishing to the Floyd County Hesperian. A citation for winning outstanding honors in the annual Newspaper Contests by the West Texas Press Association."

## Bill Norris Wins Rocky

Bill Norris, Floydada farmer, is the winner of the "Trip to the Rockies". His name was drawn Monday morning from the twelve preliminary winners. Norris is the eighth winner

Mrs. Norris said she and the family were thrilled over winning. They have made no definite plans thus far. Norris's name was re-

## Attend Funeral

Mr. and Mrs. Kenneth Poole and Lance, Mrs. J. T. Poole, Mrs. L. G. Norrell and Mr. and Mrs. Harold Norrell of Floydada attended funeral services for Farris E. Moore of Fort Worth Saturday, August 14 at Greenwood Funeral Chapel. Interment was in Mt. Olive Cemetery.

Moore was a cousin of Mrs.

L. G. Norrell and Mrs. J. T.

While in that area the group visited relatives in Dallas and Burleson, Mrs. J. T. Poole also attended the Homecoming at the Bethesda Baptist Church near Burleson on August 15. The church was celebrating their 110th anniversary.

To keep from stumbling over furniture and bumping into doors in the dark, paint the edges with luminous paint. The coatings from six to eight hours after being activated by natural or artificial light. They come in light green, pale yellow and white and won't show in the daylight if they're applied to furniture enameled in a similar color. They may also be used to mark slippers, a flashlight, light switch or lamps.

Mr. and Mrs. William Hensley and family of Floydada were Monday night supper guests of her grandparents, Mr. and Mrs. Joe Fortenberry. THE FORTENBERRY

REUNION The 14th annual Fortenberry reunion was held Saturday, Aug. 14, 1965 at the American Legion

Hall in Lockney. The meeting was called to order by the president, Joe Fortenberry, and a welcome was extended to everyone. All the brothers and sisters were present except Mrs. J. D. Seay, of Tucumcari, who was unable to attend because of sickness in the home. Each one present wore a

corsage of pink roses and rose buds and a name badge. Group singing was led by Fred Fortenberry. First song was "Standing on the Promises of God" with Patsy Boone at the piano. Charles Higgins gave the Invocation. Rev. Horace Reeves of Plainview brought the morning devotion. Bro. Reeves is an old time friend and pastor of the family. He brought a very inspiring message from Matt. 5. It was very nice to have Bro. and Sister Reeves with us and to renew our friendship. A special number was rendered by Fred Fortenberry, Mrs. Jessie Thomas, Mrs. Alta Mae Higgins, Mrs. Belle Lemons, Mrs. Robin Fortenberry, entitled "In Times Like This We Need a Saviour." A duet by Paula and Pam Boone of Childress was

also heard. Mrs. Charles Higgins had charge of the Memorial Service. The stage arrangement was a center table with a white linen table cloth, a folding picture of the deceased, Mr. and Mrs. J. C. Fortenberry, or better known as "Uncle Ceph and Aunt Ann", an open Bible and a pair of reading glasses, a lighted kerosene lamp and a vase of pink roses. Mrs. Higgings gave two very appropriate readings. The congregation stood in a moment of silent meditation. Jake Fortenberry led in prayer and the group sang

"Amazing Grace." The same officers were hold overs for another year. There were about 150 present. The next reunion will be held the 2nd Saturday in August, 1966, at the same place. Eldon Fortenberry dismissed the crowd. All enjoyed a very delicious meal served by a group of the young homemakers. It was a good day of visiting and fellowship.

Why does high humidity in the summer make us uncom-

The relative humidity (percentage of moisture in the air) has a noticeable effect on us because the body perspires constantly, the amount varying on activity and other factors. On days when a high pressure system is above us, with its usual dry, cool air, we feel good. The drier air causes

tion, and clothes do not become wet or sticky. In addition, low pressure (which often accompanies high humidity) acts on our blood vessels with what is sometimes a depressing effect. Thus physically and physiologically high humidity directly affects

### DOUGHERTY NEWS

DOUGHERTY, Aug. 16 - The area two and three miles east, west and south of the Antelope school site received rain in amount of one inch early Sunday morning. However, the moisture was lighter to the north tapering off to 1/2 inch at the Doughtery townsite and reports of none to two or three tenths along the Floydad-Matador highway and north.

A limited number of farmers have combined grain, but the majority decided to wait for grain to be drier. The early grain has been reported a trifle

A composite of reports on the cotton situation in the Antelope and Dougherty areas indicate the cotton is very promising. Boll weevils are reported in some fields but other fields appear to be free of this pest. There is also a scattered infestation of boll worm and this pest seems to be increasing. The farmers are spraying and trying to control the insects. Glenna Harris, who has been

Dear editar:

According to an inside-dope column I read in a newspaper last night during a repeat telelike the first time, the news has leaked out that many government officials in Washington are using machines to sign their names.

Somebody has perfected a robot that learns how to sign a name exactly like an official signs it, then all the official has to do is dictate a bunch of letters and a secretary hands a fountain pen to

its hazards, like raising children, but I have thought about it and have concluded its advantages far outweigh its disadvantages, the same as with children, generally speaking. Take check-writing. I don't have the exact figures, don't guess anybody has, but there must be at least 10 million

AN OPEN LETTER

# COMMANCHE COUNTY To The People Of Floydada

Tarpley Matthews. I well re-

For the past two and one-half months, Floydada has been my home away from home. My stay here has been a most enjoyable one, though in the beginning, I must admit that I looked upon my move with a great deal of skep-

I was born in a town of 65,000 population and for the past four years, I have been living in ubbock and attending school at Texas Tech. With a background of this nature, you can readily see how I have become acclimated to living in a larger city.

Floyd County Hesperian, I was really disappointed in the prospects of spending the summer in another of those little West Texas "hick towns." When I first arrived in Floydada, I was even further disappointed, because it was nothing like Tyler and Lubbock and Dallas and other places that I have lived. However, after living in Floy-

dada and associating with the people herein, I can truthfully say that I will miss it. I came to learn that Floydada is not a "hick town," and that living in small town was not such a chore after all.

Floydada is fortunate to have a citizenry that is highly civic minded and interested in seeing their town and their area grow and prosper. Projects, both old and new, are underway in order to make Floydada abetter place to live. Projects such as the new hospital, which seems to be on the road to success now that the suit against the Caprock Hospital District has been dropped, the building of new schools, the new highway between the Lockney and Silverton highways, the planning of the airport, and many others about which I do not have sufficient knowledge to talk, are underway.

Of course in any town, whether it be large or small, there are bound to be people who are against progress and agains:

and associates with Floydada, they somehow get the idea that the progress minded citizens are not going to let these diehard unmunificents hinder their drive toward giving Floydada what it needs and deserves. Floydada is fortunate in hav-

share. But the longer one lives

ing people like Homer Steen, Parnell Powell, Lon Davis, J. C. Wester, Bill Feuerbacher, Mrs. John Farris, Mrs. Maud Hollums, Wendell Tooley and many, many others who will always have an interest in Floydada, But these are people who will not only take an interest, they will stand up and be counted and do something. These are the people that will put Floydada on

In a few short days, I will be leaving the small town atmosphere of Floydada and going back to the big city; to Amarillo where I will take a position as Director of Student Publications at Amarillo High School. But even though I am leaving, my short stay in Floydada will never be forgotten. It has been a memorable part of my life, one that has not only added a great deal to my professional experience, but also one that has added to my stature as a human being. For this I want to say Thank You, and may God bless of the past, you all.

four under par 284 in winning the tournament. Farquhar posted a 285, just one stroke behind.

McKinney, who almost didn't play in the tournament because of a heat stroke he suffered last Wednesday, said, "I putted well all the way through the tournament, and I guess that made the difference."

Sunday's final day of action saw Farquhar even the match more than once, only to have McKinney pull away. On the fifteenth hole of the final round, Farguhar rolled in a ten foot birdle putt and McKinney had to settle for a bogie six to even the match. But on the very next hole, Farquhar's drive rolled into a ditch and was almost "unplayable" in the words of the blonde bomber from Amarillo. McKinney took a birdie on the hole and Farquhar had to settle for a par.

Both McKinney and Farquhar pared the last two holes of the tournament and a smiling but obviously tired Robert McKin-

ney was the victor. Next in line behind McKinney and Farquhar was a lanky, longhitting golfer from Wichita Falls, Bill Holstead, who ended up with a 290, six strokes off the pace. Joe Huber of Lubbock was fourth with a 295, followed by Otis Gallihugh of Amarillo with

true date is noted by "Grandmother Bagwell," who said the way she figured it up," he was born on Aug. 15, 1866." But his sons, George and Ivor, both of Dimmitt contend that an old family Bible has the date recorded as 1965. There wasn't a big cele-bration Sunday in the way of

a party or entertainment, but members of the Bagwell family and many of his old friends dropped by to visit the oldtimer. Many of the members of the family were present for a Sunday dinner honoring the centen-Born In Indian Territory

### Cold War GJ. Bill Passes

Dear Fellow Texans:

Now that the Cold War GI Bill has passed the United States Senate by more than a four to one vote, I have had many requests from all over Texas asking for more details about this bill and how it will affect the lives of the five million forgotten veterans of the Cold War-250,000 of them in Texas.

First, who is eligible for the bill? Any veteran with an honorable discharge who has served more than 180 days on active duty between January 31, 1955 (the end of the Korean GI Bill) and July 1, 1967 (the end of the present draft), will be eligible for these benefits. Second, what are the benefits

under this bill? For each day of service a veteran will receive 1 1/2 days of educational assistance, with a maximum of 36 months assistance to any veteran. This is long enough for four years of college, with nine months of schooling each year.

This assistance will be in the form of a monthly cash allowance paid to the veteran, but he must pay all of his tuition, books, living expenses, and other costs from this money.

# Martin And Company Tells Of New IH Equipment Released By Firm

Martin and Company today announced the first local public showing of the new farm tractors, hay machines, and farm implements just introduced by International Harvester Com-

The showing is considered to be part of the largest array of big new farm tractors and equipment ever offered in the farm equipment industry. Mark and Freddie told of the machines they previewed earlier during an all-day session.

They said IH has introduced three new powerful tractors, a 60-pto hp model, a 110-pto turbo/diesel model, and a 110 drawbar hp four-wheel-drive model plus a variety of hay machines and new tillage equip-

The new Farmall 656 Martin said, is a 60-pto hp (manufacturer's measured maximum rating) tractor which offers many comfort features, modern hydraulics, steering, and styling found in the big tractors manufactured by the firm. In the 110-pto hp class, he said IH is offering two model 1206 turbo/diesel tractors in the seven-plow class for high-speed farming. In a four-wheel-drive model, the company introduced its International 4100, a 110

to the farmer,

cotton farmer? Under the present law supports are handled by complicated Commodity Credit Corporation loan process, and the direct subsidy to the individual farmer is not readily apparent. Yet it can be determined.

Will Congress, over a period of years, make a direct payment of seventy-two dollars a bale, or even fifty dollars a bale to cotton farmers who produce from fifty to five hundred bales of cotton? This is doubtful. Most West Texas cotton growers are in the fifty to five hundred bale production bracket.

As Chairman of the House Appropriations Committee, I have a special responsibility, and I am of the opinion that within a couple of years it would be most difficult to prevent a limitation being added to the Agricultural Appropriation bill limiting the amount of subsidy payment to any one producer. We already have the problem with us and this proposed program would make the problem more difficult to handle

The reactions which I am getting from farmers and farm organizations at home are many and varied. To some farmers the bill is good; to others it is bad. The majority of those contacting me are skeptical about the cotton section or are against it. But most seem to grasp the seriousness of the situation and the urgent need for an improved program to reduce the mounting cotton surplus.

The Plains Cotton Growers organization is usually considered a pretty good barometer of cotton farmer sentiment. Last year the organization finally supported the enactment of the present law. It has thus far withheld support of the pending bill. Caution and concern are understandable since the facts are so complex, the future unpredictable and the matter of such vital importance to the economic well being of all our people.

Innumerable articles and volumes have been written on the to an individual subject of what to do about cot-

ments, it is still impossible to establish precisely what to do and not to do. Of course, everybody wants to overcome the competition of synthetics and sell large volumes of cotton to domestic mills and overseas. Also, we would like to see cotton move into the regular channels of trade and not into the

The proposed bill would certainly reduce the amount of cotton moving into the loan. How much it would stimulate export trade is difficult to calculate but it would help.

The United States is producing about thirty per cent of the world crop of cotton. We have been exporting cotton at near world prices for years, but have had poor success with the export sales program in recent years.

If we cut the loan slightly below the world price, will we sell large additional cotton stocks abroad or will foreign producers, who have no way of holding their cotton, do as they do now, sell their cotton just below the American offering price? Would the twenty-one cent loan just mean a less price for cotton world-wide?

We are already selling midiling one-inch U.S. cotton abroad

we reduce to twenty-one cents, this would certainly dampen plans for further cotton expansion abroad, but will foreign growers continue to meet our price and sell slightly below? Nobody can prove what the an-

swer to this question is. Congress will have to pass before it adjourns some type of farm bill to cover most major crops as many of the present laws expire this year.

If the omnibus farm bill is defeated in the House this week, the Committee on Agriculture will have to back-up and try some kind of new bill. As difficult as the situation is, it is not correct to say that the issue is pending bill or nothing.

With respect to cotton, if the present proposal is defeated, a continuation of the present law with an amendment calculated to encourage a great improvement in exports would no doubt be among the approaches consid-

Senator Ellender, Chairman of the Senate Committee on Agriculture, appears to scoff at the cotton version of the House bill, indicating that he will have no part of it.

At the moment it is just not possible to predict what this Congress will do about cotton. I believe something will and must be done but the dimensions of the final legislation are not yet apparent.

The wheat provision of the omnibus bill is in controversy because of opposition to the certificate plan. In my opinion this can and will be resolved. The feed grain portion of the bill is widely accepted and is not in trouble

A few additional comments are in order. The bill has certain features which would be attractive to certain type far-

For example, the bill as now written would permit unlimited planting of cotton by a farmer who stayed out of the program. Farmers who do not have a cotton or feed grain allotment might want to plant all cotton and sell at the world price.

this so that only old growers could stay out of the program

and plant cotton without limit. Through the so-called release and reapportionment system West Texas farmers have been acquiring a total of nearly 100,000 additional acres of cotton allotment annually.

The bill as now written hedges the release and reapportionment program with so many restrictions, the program would probably be made ineffective. This would not be too bad because it would be made ineffective throughout the cotton belt and would discourage farmers from holding on to cotton allotments where cotton growing is being discontinued.

Indications are that the Agriculture Committee of the House may change course and recommend a continuation of release and reapportionment as it now is.

# Letter To The Editor

August 9, 1965

Mr. Wendell Tooley Floyd County Hesperian Floydada, Texas

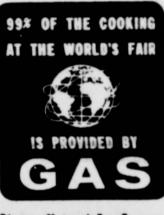

Dear Wendell:

I want to thank you for your telegram regarding a minimum wage bill pending here which would eliminate the exemption for small newspapers. The Labor subcommittee reported this bill to full committee for consideration last week, and I understand that the full committee is to consider it early this week. I will transmit your views to the Committee and I will watch the situation care-

Wendell, I just don't know what may happen to this bill. At this point it goes beyond the bounds of reason and I could not support it in its present form. In the past I have usually voted against minimum wage legislation.

It's good to hear from you and I extend best wishes.

> Sincerely, /s/ George George Mahon
