

127,000 BALES

Floyd County Cotton Estimate Takes Another Increase

Once again this year the estimated cotton production for the 20-county High Plains Area has taken an increase and Floyd County's estimate has risen as well.

After the September moisture the October 1st estimate took a great jump to 125,000 and November 1st shows another increase, this one to 127,000.

Some dryland crops, as expected, will not make enough crop to pay for harvesting, but the September moisture gave a little life to some other dryland crops and from 1/2 to 3/4 of a bale of cotton is expected

on land that before September was counted as lost. According to the report 2-bale cotton on irrigated land will be common, and over the 20-county area the estimate of 2,150,000 bales on 1,985,000 acres indicates production will top a bale to the acre counting irrigated, dryland and semi-irrigated.

To date Floyd County has ginned 10,152 bales. Last year at this time 14,059 had been ginned and two years ago the output had reached 20,184 bales.

The South Plains cotton harvest continued to pick up momentum last week and the volume of samples received at the three USDA Classing offices was highest for any week this season, according to W.K. Palmer, in charge of the USDA Classing Office in Lubbock.

Middling made up only 14 per cent of the total classed last week, Strict Low Middling 27 per cent, Middling Light Spotted 30 per cent and Strict Low Middling Light Spotted 13 per cent.

Floydada Tries Friona In Final Season Clash

The Floydada Whirlwinds wind up the 1965 football season in Friona tomorrow night. Last year the grid clash determined the district winner and Floydada won the right to the playoffs.

There is a different story this year. Floydada will enter the contest with a 1-3 conference mark while Friona is unbeaten in four outings. Therefore, the outcome of tomorrow's game has no bearing on the district representative.

cover the plant with cheesecloth on sunny days. This will not affect its growth.

The flowers measure from 3 to 4 inches across. They can be used effectively for the green that is so important in bouquets and arrangements—Envy can be planted or arranged with any variety.

Mr. and Mrs. F. J. LeClair, Pittsboro, N. C., operate a nursery. They found this variety to be very unusual. Mrs. LeClair gave me a few seeds to see if they would grow successfully in Texas. They have been blooming since mid-summer and perhaps Mr. Jack Frost will help close out their first year in W. Texas.

THIS IS a good week for our people to be spiritually renewed. . . . with three or four revival meetings going on. I was privileged to hear evangelist Angel Martinez and received a real blessing from his message.

I also heard him when he spoke to our Rotary club yesterday. Here is a man who has averaged more than a sermon a day for the past thirty years. Believe he began preaching when he was 13 years of age. Why not make plans now to attend one of these revival meetings this week?

JOHN REUE attended the national chamber of commerce convention in Houston this year and took a sack of "Johnny's Sausage" from the Ponderosa as one of the door prizes at the convention.

The Ponderosa received the following letter from the person who received the sausage:

"Gentlemen: At the recent 51st annual conference of the American Chamber of Commerce Executives in Houston, it was my privilege to draw some very wonderful sausage which you had furnished through Mr. John W. Reue, Manager of the Floydada Chamber of Commerce.

My family and I have been enjoying your product very much, and want to express our appreciation to you; as well

as to congratulate you on the outstanding quality and seasoning of your sausage."

NO DOUBT, many of our subscribers wonder why we don't publish more news about the new school and hospital. Actually, there's very little to say at this time. Architects are working ahead on both projects, and it appears now that shortly after the first of the year, contracts will be let on both buildings.

I WONDER why people are always telling these Aggie jokes. I feel so sorry for the poor Aggies who suffer from always being the goat of these jokes (but not quite). . . . I'll compile an Aggie jokebook. Well, you folks who have been calling Aggie Dr. Tom Thedford everytime you hear a new one, will have to resort to mail from now on. . . . he's moved to Oklahoma.

Our best wishes to Tom and his family. They were good citizens and we'll certainly miss them.

MY OLD FRIEND David Penn of the Olney Enterprise comes up with a good fishing recipe: "County Agent, L. M. McCarrroll sent us a copy of a new fishing hole baiting recipe which we thought we would pass along with his comments. The recipe is called the J. M. Cooper Method.

1. Get two large tubs. Put out and keep in full sunlight in the back yard.

2. Pour 20 to 25 pounds of maize into each tub.

3. Put one yeast cake or one package of dried yeast in each tub.

4. Fill with water, several inches above grain. The grain will swell and take up a lot of water. You may have to add more water in 5 or 6 hours.

5. At the end of 72 hours with the temperature in the 80's and 90's or above, it is ready to take up. The length of time depends upon several factors such as the complaint of the wife, friends and neighbors, about the smell, especially if the wind is right. To an old carp fisherman, though, it is a nice mellow smell and not offensive at all.

6. Put the soured grain, without measuring, into eight different tow or gunny sacks.

7. Use the tubs or several buckets to haul the sacks in the back (turtle back) of the car. Never put the sacks directly onto the floor of the car. If you do you wish later on you hadn't. The smell has a lot of staying power.

8. Take down to creek, water-hole, lake or river or wherever you want to bait. Put several rocks the size of your two fists into each sack. Tie the top of the sacks. Throw out into the water as far as possible. The rocks are to keep the fish from rooting the sack of grain far away from its original position.

9. Begin to fish with dough or stink bait 24 hours after immersion of the grain.

If you know of a good carp, buffalo, or catfish hole nearby, Agent McCarrroll recommends this method. If not, continue aging the grain at Step 5 and sooner or later you will have a brew that'll make you care less about fishing or anything else."

As you know, I serve on the Senate's Armed Services Committee. In that capacity, and as your representative, it is my responsibility to help assure the strength of America's defenses.

Certainly, the greatest test for America's strength is the current war in Vietnam. The chairman of the Armed Services Committee, Senator Richard Russell of Georgia, has authorized me to conduct an investigation of the Vietnam operations on behalf of the Armed Services Committee.

I hope to make this inspection tour next month; and in anticipation of that tour, I'd like to review with you the very great stakes now in the balance in Vietnam.

The Armed Services Committee has maintained continuing oversight of the Vietnam situation throughout the year, and I have joined its other members in insisting that our government face up to the fact that we are at war.

Indeed, I have suggested several times to the Secretary of Defense—and have discussed in several Texas speeches—the need for him to request sufficient additional funds to adequately meet the needs both of our forces in Vietnam and everywhere else in this nation and abroad.

Repeatedly during the spring and summer, I pointed out the danger in the Defense Department's refusal to seek money to pay the cost of the Vietnam war, rather than draining necessary weapons and equipment from our other military forces.

I was convinced—and I still am—that we could not afford to let the demand for weapons and equipment in Vietnam result in lowering the readiness of our worldwide forces that are on standby to meet any challenge which might arise in other potential trouble spots.

The Armed Services Committee called for additional funds to replace those arms and equipment sent from existing forces to Vietnam, and for funds to replace the resulting shortages facing our troops at home and in Europe. The Congress added an additional \$1.7 Billion to the Defense Appropriations bill for this purpose.

But, many times that amount doubtless will be required next year.

It is a matter of concern to me that, in spite of the huge expenditures already required for the fighting in Vietnam, the Congress was asked to pass new and untested welfare and social programs costing millions and billions of dollars.

I believe too many Executive Branch bureaucrats fail to realize that the war on poverty

is not the only war we are fighting.

The Armed Services Committee is maintaining a continuous watchfulness over this situation. My inspection trip to Vietnam is part of this watchfulness. I am sure the Committee will continue to insist that our men be provided the best and most modern equipment, in ample supply.

While our military situation in Vietnam is serious, indeed, recent developments in the fighting have been encouraging. There is ground for cautious optimism about the future.

The United States has largely taken over the actual conduct of the war, and our greatly increased military power is making itself felt. Our excellent soldiers, sailors and airmen are fighting magnificently and with splendid morale.

However, there will be no quick and easy solution. We still have a long, hard and bloody road ahead. Texans may be sure that I will continue my efforts to insure that our men have the best of everything they need, including weapons, equipment, supplies, ammunition and medical attention.

Ultimately, we may have to send many more men to South Vietnam than the some 150,000 we have there now. By the end of this year the number of troops there probably will exceed 180,000. Let us make no mistake about the fact that we are at war in Vietnam.

Dear Fellow Texan:

As Congress moves toward adjournment, our home State of Texas will benefit from several major bills which have been acted on during the last week of Congress.

First, action has begun to move on HemisFair, to be held in San Antonio in 1968: a fair of all the Americas, which will bring millions of people from all over this Nation and the world to participate in and view the exhibits of the countries from the Western Hemisphere. Both the House and Senate passed authorization bills for HemisFair, and they have gone to the President to be signed into law. Under this bill, the government is authorized to spend the first \$125,000 to determine the best and most efficient way for the Federal government to participate in this great Texas event. The law will also authorize President Lyndon B. Johnson to issue special invitations to foreign countries, inviting them to come to San Antonio and to participate with exhibits at HemisFair.

Besides this HemisFair authorization bill, the Senate has

Nazarene Church Holding Revival

Revival services are being conducted this week at the Church of the Nazarene by evangelist Clifford Mayo of Lubbock, Texas. Services are held each evening at 7:30 P.M. in the local church located at Fourth Street and Tennessee.

The Sunday evening service will begin at 7:00 P.M. During the N.Y.P.S. hour on Sunday evening Rev. Mayo will show colored slide pictures of his evangelistic work in Mexico and Guatemala. This service will begin at 6:15 P.M.

Reverend Mayo is an outstanding evangelist in the Church of the Nazarene and is a dynamic preacher. He has conducted several city-wide crusades and will travel to Africa next month for two months of revival campaign.

approved an appropriation for the \$125,000 to be spent by the Federal government. Remember, before the Federal government puts money into any project, there must be an authorization to certify that the project is worthwhile and then there must be an appropriation bill actually setting aside the money, which the House will have to agree on in Conference for HemisFair to be on its way.

Beauty Tips

WHEN TO USE A CLEANSER
Q. How often should I use a skin cleanser other than soap?
A. Makeup should always be removed with a skin cleanser and freshener.

Soap and water should be applied to your face only when you have no makeup on.

TO CORRECT DRY SKIN
Q. I have a dry skin. How can I correct this condition?
A. To replace the natural oils lost by the skin, be sure to use only products which are especially formulated for dry skin.

When cleansing your skin, use cream—not a lotion. If you use a stimulating lotion or freshener, be sure to use a non-astringent type.

Most important of all, use a night cream faithfully, and be sure to use a protective product under makeup during the day. All skins need some emollient oils to keep them soft, smooth, and supple. A dry skin needs all the outside lubricating help it can get.

Renfro Speaker At Hospital Auxiliary Meet

Floydada Hospital Auxiliary met Tuesday, November 9, at the Lighthouse Electric with Mrs. Jack Henry presiding over the business session.

There were two new members present, Mrs. Roy and Mrs. Sam Fowler, son to other members.

A night of discussion during business meeting was the redecoration of the hospital lobby by Mrs. Henry commended and hanging of new curtains and the new vinyl for the sofas. The new is a pleasant waiting room and all are invited to see what has been done.

Renfro, area representative of the Heart Association, was the speaker for the

program, and brought a timely and interesting film on the heart. He discussed with the auxiliary members the possibility of their helping with the Heart Fund drive in February, publicity to be placed in the hands of school children and youth, and the desire to send a representative from this community to conferences and workshops in the future. The Auxiliary voted to help with the Heart Fund drive in February.

Before adjournment, Mrs. Henry appointed Mrs. A. L. Wylie, Jr., Mrs. Verne Gauntt, and Mrs. Maurice Campbell as a nominating committee for new officers. The committee will report at the meeting on December 7th.

Club Meets In Lamplighter Inn

The 1922 Study Club met Thursday, Nov. 4, in the Lamplighter Inn with Mrs. P. W. Bell as hostess. Mrs. R. L. Nichols, president, presided. Mrs. W. O. Tye gave the devotional.

Club voted to be room mothers for the Spanish first grade taught by Worth Gwendolyn Merry.

Roll call was answered by Facts of Africa. Mrs. Lon V. Smith gave an interesting talk on former British colonies.

Names were drawn for the Christmas party.

Lovely refreshments were served to Mmes. Kenneth Bain, D. S. Battey, P. W. Bell, J. V. Daniel, Pearl Fagan, P. D. Helms, Lon V. Smith, Glad Snodgrass, W. O. Tye, Ben Whitaker, and Mrs. J. M. Willson Sr.

The club was honored by local Federated Clubs at the Diamond Jubilee on November 2. The program was very entertaining and thoroughly enjoyed.

Next meeting will be a Thanksgiving luncheon at Rogers Restaurant on November 18th at 12:30.

Club Members To Bring Gifts To Next Meeting

Members of the 1929 Study Club are reminded to bring their gifts for patients at the State Hospital in Wichita Falls at their next regular meeting, Nov. 18.

Articles that are permissible to send include toilet articles, hosiery for both men and women, stationery, head scarfs, jewelry, purses, candies, dolls, and most of all instant coffee. The hospital also requests that wrapping paper and ribbon accompany the gifts.

Tulia FES Visits Maria Capocéfalo

Amos Tincani of Reggio Emilia, Italy, American Field Service student in Tulia High school in 1963-64 finished high school in Italy third in his class of 200 students this past summer. A recent letter from Amos to his American parents, Mr. and Mrs. R. H. Braly and family, at Tulia, reads in part:

"The university won't open till mid-November so I'm enjoying a very long vacation. About two weeks ago I went to Rome to meet the national president of a club which was to be started here in Reggio. I went with a priest. We stayed two days. It was wonderful because he knew Rome very well and we saw many beautiful monuments, churches, etc. I met many Americans, especially in Veneto Avenue, the most fancy Roman avenue. I also visited the American Embassy. I also got to see Maria (AFS student at Floydada the same year Amos was in Tulia). She now works downtown in a public office dealing with Italian emigrants. We had dinner together and talked a lot about our common adventures in the states and our minds went back to Tulia and Floydada. She had to observe work schedules so we couldn't stay together very long, but we enjoyed it anyhow. Maria told me that she found work only because she speaks English. Most of her school friends are still unemployed. My Roman holiday soon came to an end. I enrolled in Parma, the town of classic music and cheese. There has been a proposal by the Reggio Chamber of Commerce to start a university here in Reggio, at the beginning only with the faculty of economics and commerce, but the city and county administrations voted against it.

After all, Parma is only 25 minutes away by train, and I don't mind going there, especially because it is a good and highly qualified university. I'll go back and forth every day by train.

I happened to learn that in Bologna there is the John Hopkins Foundation which offers post graduate studies with the opportunity of getting a master of arts degree after 2-3 semesters. Should my dreams come true in 6 years, I'll have a master's degree and come back to the States helping myself through. But for this moment I do not want to think about it too much because it would be too great, wonderful.

"Sometimes when I feel sad I sit down and dream back about a wonderful year spent in the States. A few nights ago when I was sad, I put on Levi's, took my jacket and tennis shoes and went to take a walk. When I was back I was all right. AFS keeps me pretty busy now. Next Saturday night we shall have a gran gala. The local Rotari invites all the American AFS'ers in Italy (10 only). It is made very year. We are allowed to sell tickets and all the entry is ours. This is very good because with just this event once a year, we collect all the money we need for our activities and it has always been a success.

"Soon we shall start the orientation meetings for students who wish to apply for

an AFS scholarship, and I am in charge of it. It takes a lot of time, but it's a nice job because you meet supposedly the best students of the area and hear their ideals, principles, what they hope to have from their experience in the states and so on.

"Our purpose as AFS for this year is to find as many families as possible for Americans Abroad. 10 all over Italy is too little. We hope to find at least two families next year in Reggio. Next weekend I am going to Genoa with my elder brother, Bruno, to visit our father and step mother.

"Well, we shall continue our conversation in the next letter."

Much love,
AMOS

SWEETPOTATOES - ALL-AROUND NUTRITIOUS FOOD Does the holiday turkey "a-roasting" suggest sweetpotatoes to accompany it? The new crop of sweetpotatoes is in peak supply now. Most of it will go through the curing process and into storage from which the market will be supplied until another crop matures. A small percentage of sweetpotato production moves from fields to markets. Growers of small acreages usually market their sweetpotatoes thus.

Dry or moist, they're sweetpotatoes, and only experts can look at the tuber and name the variety or even group them into the dry or moist kinds. If you can do this, rate yourself an expert! Newly harvested, uncured sweetpotatoes are generally more mealy than are they after curing. The syrupy texture of the moist varieties increases during the first weeks

SAYS FLOYD PHILOSOPHER

Outlawing War On Moon Right Idea, But In The Wrong Place

Editor's note: The Floyd Philosopher on his Johnson grass farm disagrees with some experts this week.

Dear editor:

This newspaper I found buried under a pile of leaves--I wasn't bothering the leaves, the wind did it--was fifteen days old but anytime I'm not more than 15 days behind I figure I'm about on schedule, the same as the State Department, so I took it in the house and settled down. On an inside page was an article about a conference of international legal experts in Athens, Greece, who have been struggling with the problem of law on the moon and other planets we may land on, and they raised some interesting questions.

For example, if a murder occurs on the moon, do you have to try the murderer up there in the county where the crime was committed? Does a patent for a valuable invention hold good up there? What would keep a company from borrowing the formula for the newest and-improved laundry soap from another company and selling the stuff to the moon colonizers, who are going to need a lot

of soap in all that volcanic dust. And, can the first astronaut to land there claim the entire moon for his country or just the part he can stake out, if the volcanic ash will hold a stod?

But the suggestion that threw me was one by a Hungarian expert who argued the earth ought to get together now and outlaw war on the moon. This is what comes of being an expert. He's got it exactly backwards. The best place I know to fight a war is on the moon. The place to outlaw it is on the earth.

Up there, there're no buildings in the way, no shrivbery to hide behind, no rivers to cross, no mud to contend with, the ground is always dry, you've got 365 fighting days a year, and when you get through the place doesn't look any different than it did before you started. If man needs anything, it's some place to fight a war off the earth, and it's just like some lawyer to try to keep us from switching it to the moon. I'm afraid though that not enough people in Red China and Russia will read this issue of The Hesperian, and we'd better stick by our guns for a while longer.

STERLEY CHURCH NEWS

Since the last time this pastor sent in a report to the two Floyd County newspapers there has been quite a variety of attendance, ranging from quite small to more than ninety per cent of the number who come with any regularity at all. The last two Sundays have been very good in this respect. Gordon Derrell McAda has placed his membership with the Lockney congregation. He has been a great inspiration to the Sterley people. Gordon sees so much more in the realm of the spirit than most of us do.

Tuesday evening, Nov. 16, from 7-9:30, the combined District Workshop and Children's Workers' Clinic is to be held at First Methodist Church in Plainview. The Conference Staff from Lubbock is to be present to assist our workers. All of the commissions are to be presented at this meeting. It is hoped that a good number will go from the Sterley Church.

There is a rich diversity of offerings available in the way of training "for the living of these days." Revs. Marvin Boyd, C. E. Matthews, Doyle Ragie, James Carter, Marshall Rhew, Albert Lindley, Wilbur Gaede, James Price, Darris Egger, Frank Peery, Billy Wilkinson, O. A. McBrayer, Rex Mauldin, Charles Hastings, Elton Wyatt and J. B. Fowler are to be leaders, as well as laymen Judge Lee Nowlin, Jimmy Willson, Charles Alexander, and Judge Charles Lawrence of Seminole. Women who are to give leadership include Mmes. J. D. Shewbert, Ray Wiese, R. G. Morris, Dean McCallum, Douglas Gossett, Clyde Briley, Marjorie Fowler, and R. C. Hyde, and others to be announced later. In overall charge is Dr. J. E. Shewbert, district superintendent.

Plains are already underway for the Christmas program in the church. It will be our privilege to give the religious service at Nichols Manor in Lockney the afternoon of the first Sunday in November. (Signed) Melvin R. Mathis, Pastor

Howards Host Amarillo Guests

DOUGHERTY, NOV. 8--Week-end guests in the home of Mr. and Mrs. Orland Howard were Mr. and Mrs. Alton Burchfield of Amarillo. Mr. and Mrs. Se-

ton Howard of Petersburg were supper guests Saturday. Sunday Mr. and Mrs. Grady Freeman of Floydada, Mr. and Mrs. Cecil Armstrong of Lubbock,

ARTICHOKES ANYONE. . . . E. J. Barker is holding the roots of one of four he dug up from his flower garden bed last week. Barker said he planted the potato-like bulbs last year and the tall thistlelike herb produced a flower head seemingly to that of a sun flower. Webster says the edible flower head is cooked for a vegetable. One type of artichoke grown in California, is eaten as a salad after it is peeled. (Staff Photo)

of storage. Sweetpotatoes are highly perishable, these newly dug ones are even more so. Sweetpotatoes originated in the tropics and they retain a preference for warm, moist surroundings. They chill at 50 degrees or below.

Sweetpotatoes are one of the most all-around nutritious foods in the world. A rich source of Vitamin C, thiamine, iron, and other vitamins and minerals.

A medium-sized sweetpotato provides about 140 calories. Baked and served with your ham or turkey, the sweetpotato needs no additional seasoning, thus no added calories! Have you ever served sweetpotatoes grated, raw, in salads? They are delightful crunchy nugget to add to many vegetable and fruit salads. Use sticks of the raw tuber on a relish tray or with dips. To retard darkening, dip the prepared raw tubers in salt water or lemon juice.

BAKED SWEETPOTATOES Wash and dry sweetpotatoes of uniform size. Bake until tender at 425 degrees (hot oven) 35 to 60 minutes, depending on size. You can save time by cutting large sweetpotatoes in half crosswise before baking. If you want the skin to be soft, rub a little fat over the tuber before baking.

Cut crisscross gashes in the skin of the baked sweetpotatoes on one side, then pinch them so that some of the soft inside pops up through the opening. Drop in meat drippings, bits of crisp cooked bacon, butter or margarine.

Save electricity by baking sweetpotatoes when you oven-cook other food. If a moderate oven is called for, allow extra time for the sweetpotatoes to bake.

STUFFED SWEETPOTATOES If the skins are not too thin and the inside not too moist, baked sweetpotatoes are delicious stuffed. Cut large baked sweetpotatoes in half lengthwise. Carefully scoop out the inside, leaving a little of the sweetpotato as a lining for the skins. Mash, adding seasoning. Stuff back into the shells, brush

Johnson Sells Automotive Machine Service

Acie Johnson announced this week that he has sold his interest in the Johnson Automotive Machine Service to Hardy Carlisle of Plainview.

Johnson expressed his thanks to everyone for their patronage while he owned the business and invited them to continue to come in for automotive machine work. Johnson said he would continue to manage and operate the business.

The business will now operate under the firm name of Motor Machine Service.

STITES HELD FOR ELLA NEWSOM

Mrs. Ella Newsom, a resident of Hart for the past 30 years, daughter of I. M. Stewart Jr., of Lockney and a sister of Mrs. Ethel Ringley also of that city, died Monday in her home.

Rites were conducted yesterday in the Hart Baptist Church. Survivors include her husband; a son; one daughter; four brothers; one sister; her father and nine grandchildren.

FLOYD DATA Mrs. Edd Brown, who is hospitalized in West Texas Hospital in Lubbock, is reported about the same this week.

Mayfields And Cumbies Home From Trip

Mr. and Mrs. Weldon Cumbie and Mr. and Mrs. Gordon Mayfield have returned home after traveling some 1862 miles through Texas. Their first stop was at Temple at Dr. Woods of Plainview, parent's home. Then they went on to Houston where they were houseguests of Mr. and Mrs. Charles Horton and Phil.

While there the Cumbies, Mayfields and Hortons toured Houston, saw the space center, oil, rice and sugar lands, ship channels and the city's 50 mile link to the Gulf of Mexico.

They also visited the home of the Astros baseball and Oilers football teams, the Dome Stadium, Texas Medical Center, San Jacinto battlefield which was marked by a towering shaft of marble where Sam Houston wrested Texas Independence from Santa Anna.

The group went over to Galveston on the ferry which carried 50 cars of people across to Port Bolivar back to Kemah, up to Laporte and through the under-water tunnel to Baytown back to Houston.

The group then visited at Alvin, Liver Pool, Dauburg, Angleton and Freeport to surf and enjoy the water in the Gulf; then they took a walk on the Jettie which runs out into the Gulf for a mile and a half.

The visitors left the Horton home and traveled on their return trip by way of Huntsville, Crockett, Palestine and Athens where they visited Cumbie's aunt and a cousin.

They went on to Tyler, Mineola and Clarksville to the Jake Caldwell Ranch where Mayfield, Clay Mercer and Mr. Bun Gardner went fishing and caught an 11 pound catfish. Caldwell, who is a brother of Mrs. Cumbie, accompanied the Cumbies and Mrs. Mayfield on to Idabel, Okla., for a visit; then back to the Ranch where Mayfield was preparing a fish fry for the group from their catch.

After spending the night at Clarksville the group left for home the next morning coming by way of Paris, Bonham and the Sam Rayburn Library, on to Sherman and Whiteboro where Mrs. Mayfield's aunt, Mrs. Roy Ivey lives, on to Nacoma and to Wichita Falls.

The group reported a wonderful trip, the weather good and reported the Hortons, former Floydada residents, well and happy. Their other son, Charles Bruce Horton, who is stationed in California would like to hear from his Floydada friends.

His address after his name is the number 9159444 SR, Co. 592, USNTA, San Diego, Calif.

Cummings Rites Held Saturday

Funeral rites for Oma Foster Cummings Sr., 80 year old long time Floyd County resident, were conducted Saturday in the First Baptist Church in Floydada.

Cummings, a retired farmer, died Thursday morning in Peoples Hospital after a brief illness. Following his retirement he was associated in real estate and rental properties.

He was born August 1, 1885 in Tennessee and was married to Ella Smith in 1917 at Bennington, Okla.

Survivors include his wife; two sons, Troy Edwin and Oma Foster Jr.; a daughter, Mrs. Laueta Campsey; a brother, Earl Cummings of Ralls and three sisters, Mrs. Shelby Waininger, Olney, Mrs. Adeline McAteer, Lubbock and Mrs. Bessie Cundiff, Durant, Okla.

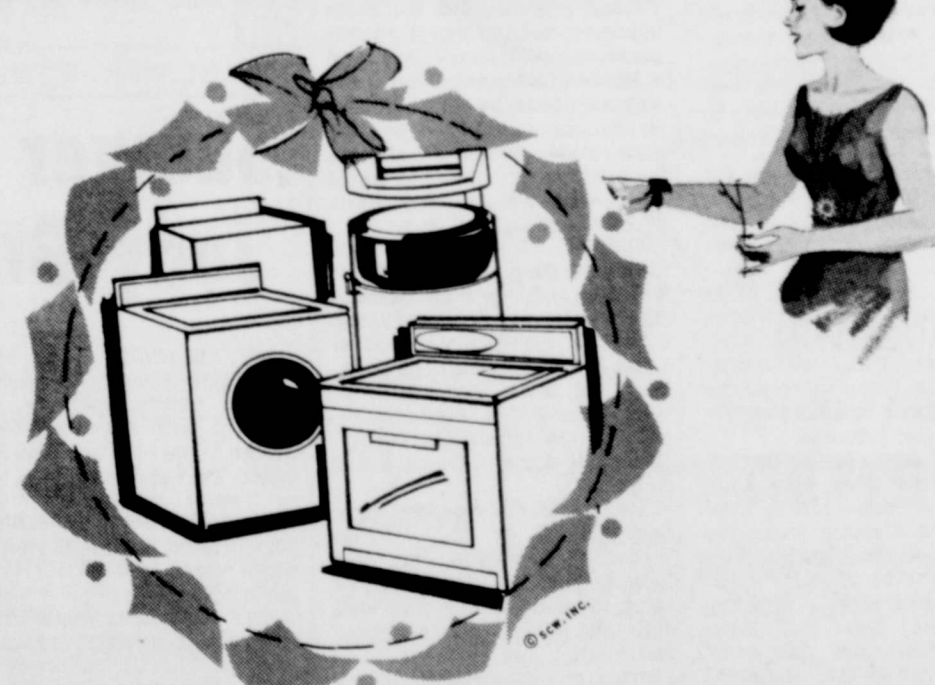

Rev. Floyd C. Bradley, pastor of the church, officiated. Interment was in Cone Cemetery under the direction of Moore Funeral Home.

pallbearers were Buck Hickerson, Lewis Reddy, Bill Norris, Clifford Willis, Albert Jones, Lloyd Murry and J. T. Myrick of Floydada and Chick Wilson of Ralls.

Farmers Looking For Freeze

Light rain and fog have been predicted for our area this week. But farmers are hoping a good freeze will come to open the cotton and castor beans.

Mr. and Mrs. Grigsby Milton kept their grandchildren, Jerry Lisa and Carmen Powell, of Floydada over the weekend, while Mrs. Arlis Powell was confined to the hospital. They were to go home Sunday night.

Thursday afternoon Mrs. Leighton Teeple, Mrs. E. J. Kinslow, Sharon Smith and Rhonda Teeple met in Floydada at the Home Demonstrations Agents office to plan the South Plains' 4-H Year Books for the coming year.

Mr. and Mrs. John Kinnibrugh and children had her sister, Mr. and Mrs. Arnold Reeves and Lyndell of Gilliland, over the week end. Sunday Mrs. Kinnibrugh's brother, Mr. and Mrs. Orville Burgess of Petersburg with their daughter Jan, came to spend Sunday with them and Orville's sister. This Monday John's parents, the J. A. Kinnibrughs of Vera spent the night with them.

Mr. and Mrs. Charlie Purnell of Cedar Hill visited Sunday, with Mr. and Mrs. Ursel Taylor and family. Ray Taylor will go to Amarillo this Wednesday to take his physical for the Armed Forces.

This Tuesday the Reeves are working cattle on the Raymond Reeves Ranch. Bob and Raymond Reeves and their father, Sim Reeves of Memphis will be there with other workers. Mr. and Mrs. Bruce Gibson of Turkey and Mrs. Reeves aunt, Mrs. Elsie Cornett of Silvertown came to spend the day and Gibson helped in branding and cattle roundup.

Mr. and Mrs. E. J. Kinslow have had her sister, Mrs. Lola Minor from Russellville, Arkansas here visiting this the past week. Sunday guests with them were Mrs. Kinslow's and Mrs. Minor's sister, Mrs. B. L. Ellison, Mr. and Mrs. Tommy Mabry and family of Petersburg, and Mr. and Mrs. Barry Kinslow of Canyon where Barry attends WT.

Mr. and Mrs. Glen Whitfill, Judy and Cindy of Sweetwater, Tex. came Saturday night and Sunday to stay with her parents, Mr. and Mrs. Alvin Nichols.

Mr. and Mrs. Murray Julian went to Albuquerque, New Mex. Thursday and returned Saturday after visiting with Mrs. Julian's sisters, Mrs. C. W. Hulick and Mr. and Mrs. B. C. Auman, and a niece, Mrs. Bob Richardson. The weather was around 36 degrees in the morning, with pleasant days. The foliage along the valleys and rivers was indeed beautiful. They have not had killing frost except in spots out that way.

Wednesday night after prayer service a group of neighbors went up to the lovely new home of Rev. and Mrs. Nathan Mulder to surprise them and give them a little house warming. The Mulders are just getting settled into their home. They are getting their drapes up and Cathy is having her piano moved. Refreshments of cake, cold drinks and coffee were served to everyone, and among those who went were Rev. and Mrs. Sealy Smith and children, the Fred Johnsons, the Murray Julians, Mrs. Frank McClure, Mrs. J. P. Taylor, Mrs. Bry-

ant Higginbotham, the J. Ronald Taylors, Tommy Powell, and the Early Pritchetts and Stevie.

Mr. and Mrs. Howard Staples visited over Saturday and Sunday with her parents, Mr. and Mrs. Harold Hamm, who live east of the Leighton Teeples in their new home. The Staples are from Amarillo.

Lee Pearson underwent surgery at Bataan Hospital in Albuquerque, New Mex. Wednesday morning and at this date he is getting along fairly well. With no complications, he will soon get to leave the hospital. Mrs. George Weast heard from them this Monday morning. Kenneth Bean flew out in his plane to be with Lee Wednesday, and Murray Julian visited them Friday afternoon at the hospital.

Mrs. Lee Pearson has taken this opportunity to say thank you to all the neighbors and friends who sent flowers, cards, messages, and the telephone calls and most of all for the prayers for Lee. She is surrounded with her sisters and several nieces in Albuquerque.

Good attendance at the South Plains Baptist Church Sunday morning. Visitors seen were Mrs. Harold Hamm, Geneva and Arlaine, Lisa Powell, Mrs. W. H. Simmons of Truscott and Mrs. Teddy Horne of Lubbock. Remember to bring canned goods on November 21 for the orphans of Buckners Orphan Home.

Gilbert Bean underwent major surgery at the Plainview Hospital and Clinic on Tuesday morning at 7 o'clock, and those with him were his sister Mrs. Leola McManaman of Dallas, Mr. and Mrs. Billy Bean of Winters and Rev. Sealy Smith, besides his immediate family. Gilbert is doing fine we are glad to hear.

Mr. and Mrs. Frank McClure, accompanied by Mrs. Willie Weast of Silvertown left this Monday morning for St. Petersburg, Florida where they will visit with Mrs. Weast's daughter and family, and they will tour Florida and other spots before they come home. They plan to be gone two or three weeks.

Roy Burks, Early Pritchett, Murray Julian and Kenneth Bean attended a Grain meeting at a restaurant in Plainview on Tuesday night. Ralph Wayne spoke to the group.

Rev. and Mrs. Nathan Mulder spent Sunday at Sandhill for the Homecoming ceremonies at the Sandhill Baptist Church. They had gone out to Clovis, New Mex. Friday to spend the night with Cathy's grandparents, Mr. and Mrs. Blalock.

Sunday and Monday Mrs. Arby Mulder accompanied her sister, Mr. and Mrs. Pete Land of Clarendo to Littlefield. There they stayed with another sister, Mr. and Mrs. Dale McCaugh, and while there visited Mr. and Mrs. Dan Whitsell, who are proud parents of twins, Dennis and Denlese. Mrs. Whitsell is the daughter of F. A. Fitzgerald, and this is the first time there has ever been twins in either side of the family. She is a niece of Mrs. Mulder.

Visitors over the week end with the Sylvan Kinnibrughs were their daughter, Marilyn and Teddy Horne of Lubbock, Mrs. Kinnibrugh's sister, Mr. and Mrs. W. H. Simmons of Truscott. Sunday and that night Sylvan's folks, Mr. and Mrs. J. A. Kinnibrugh of Vera came

to visit them. The Sylvan Kinnibrughs spent last Monday and the night in Lubbock with Mr. and Mrs. Horne.

Mr. and Mrs. Loyd Deavenport held a farm sale on their farm on Saturday, Nov. 6. They plan to move to Denver, Colorado to make their home and will leave sometime in January. Mrs. Deavenport is a nurse at the Lockney Hospital, and we surely hate to see them move. They formerly lived in Colorado, and their two older sons, the Steele Deaveports and Newton Deaveport are now living in Colorado.

Hobby Club members will have their November meeting at the home of Mrs. Murray Julian in South Plains on Nov. 17, with Mrs. Arby Mulder as co-hostess. The meeting will be at two o'clock, and this will be a Christmas Idea Program, so each one should come with something to make or give for Christmas. If cookies, cakes, or in the food line, bring recipes to share, if it is something to make bring pattern and ideas with you.

Young Farmers Hear Operations Of Local FHA

At a regular meeting of the Floydada Young Farmers recently, the group heard a detailed report of what the Farmers Home Administration in Floyd County does, and what it is capable of doing.

Alfred Harrison, supervisor of the Farmers Home Administration, brought the program.

A number of the different types of loans available to rural areas through FHA were discussed by the group. A few of the loans available, and the terms available include:

Operating loans--These are available for up to 7 years at an interest rate of 5%.

Emergency Loan--There is no maximum and the interest rate is 3% per annum.

Farm Ownership Loan -- Available for up to 40 years with a maximum of \$60,000 and with an interest rate of 4 1/2 to 5%.

Soil and Water Loans--Available up to a maximum of \$60,000.

Watershed Loans--Up to \$1 million and the interest is payable in one lump sum.

Rural Housing Loans -- Available up to 33 years at 4 1/2 to 4 3/4 %. Most loans in Floyd County range from \$14,000 to \$15,000.

Economic Opportunity Loans--Available up to \$2,500. Mostly used in the President's Poverty Program.

Also the organization discussed the farming problems in great detail.

At the next regular meeting, December 2, the program will be on Foreign Agriculture.

The November 23 meeting will feature a program on the new farm program.

Theft At Hales Still Under Investigation

Theft at Hales Department Store is still under investigation this week, according to city officials.

The firm lost four Curlee mens suits valued at \$80 each on October 30, according to Bill Hale.

He said three negro females and one male came into the store and was asked by a clerk if he could help them. They said they were just looking and when left alone, apparently took the suits, leaving the store unobserved, Hale said.

FLOYD DATA

Cip Gutierrez, Mexican laborer from the Cone Labor Camp, remains in a coma at Peoples Hospital where he was brought Tuesday by neighbors. He apparently suffered a stroke hospital attendants reported.

The Lockney Longhorns invaded Wester Field here Friday night with fire in their eyes, and carried home the victory and the Floyd County championship. The Longhorns upset Floydada last year in a 15-14 game to get the title and downed the Winds here this year 40-7 to retain possession.

The Whirlwinds met the charge of the visitors head-on in the first half of play, but the Horns came back after the intermission with three TD's in the third quarter and two in the closing period, one with only 18 seconds to play, to turn the game into a runaway.

The Whirlwind's lone counter came on a 45 yard punt return by Kerry Bearden mid-way in the first period. Lockney fought back and with 18 seconds remaining in the same period, Neil Mitchell went through the left side of the line for 26 yards and a TD.

The following play, and was returned to the 40.

The Longhorn team, hungry for another score, held tight and four plays later took over, when West's kick went out of bounds on the 43.

A pass to Mitchell was good for 12 yards and a screen pass to Jack Mickey carried to the 20, for an eleven yard gain. Time ran out before another play could start and at half-time the score stood 7-7.

After the intermission the Longhorns figured out the Wind defense and took advantage of it. Sissney took the second half kickoff and slipped down on the 29.

On the first play Sissney went through the center for 20 yards and a first. On the next three plays the Horns got enough for another first on the Wind 41, and then Mathis circled left end for 41 yards and the score with just over two minutes gone in the half. The kick was good and the score was 14-7.

Derrell Monday took the kick off on the goal line and got to the 20 before he was stopped. Three plays later West was caught behind the line for a 12 yard loss, after a clipping penalty put the ball back on the 18, so the Horns took over on the six.

It appeared for a couple of plays that the Winds defense would hold, but on second down Mathis went in for the TD. This was called back and Lockney was penalized five yards, but on the following play Mitchell carried through the line for the TD from the nine.

The kick for the point was good and Lockney led 21-7 with 7:15 left in the quarter.

The Winds took the kickoff

and got back to the 27, but a clipping penalty moved them back to the 15. The team tried to move, but a pass from DeLeon to West was intercepted by Lockney on the Lockney 41.

A penalty moved the ball to the 36, but the Horns picked up a first down and kept marching. A 17 yard run by Mathis and a 13 yard gain by Sissney plus another run by Mathis, for 27 yards, were the major plays in the Horns drive for another score.

The Longhorns had a first and goal on the four, and though the Wind defense was strong, and gave up yardage grudgingly, three plays later Mathis went in from the two with 2:40 remaining in the quarter. Galloway's kick missed and the score was 27-7.

The Winds took the kickoff and began a march of their own. A first down was picked up at the 35, when DeLeon was trapped trying to pass, found his receivers covered, ran to the right side, circled back to his left, got outside the defense and was finally dropped on the 47.

A pass from DeLeon to Bearden and one from DeLeon to Marler got two first downs down to the Lockney 30 before the

third quarter ended. DeLeon was trapped to the 19 for another first. The drive was soon for on the following play. Blenden intercepted a pass on the 15 and was down on the Lockney 48. Sissney got six to the dada 46 and then was for a one yard loss.

Friona Gains Playoff Berth; Defeats Olton

The Friona Chiefs clinched at least a tie for the 3-AA crown for the second year in a row, but contrary to last year, the team also won the right to play in bi-district by downing Olton 20-18 in Friona last Friday night.

Last year the chiefs tied for the crown, but the Floydada Whirlwinds won the right to the playoffs via a win over the Chiefs.

This year Floydada, again, is all that stands between Friona and a perfect conference record, for the Chiefs have disposed of the other four teams in the district without suffering a defeat.

Friona got on the board first when quarterback Lonnie Ellis passed 19 yards to Travis Graves, but the try for points failed.

The Chiefs widened the margin when fullback Ray Braxton ran 35 yards through the Mustang line and Bobby Simons kicked the point to give the host team a 13-0 margin.

In the closing minute of the first half, quarterback Joe Priest returned a Friona punt 83 yards for a TD, but the try for point failed so the score at halftime stood 13-6.

Olton got back in the game as the second half opened by driving 63 yards in 12 plays for another score. Benny Akin went in for the score from 9 yards out. A running try for points failed.

In the final stanza, Friona had a drive stopped on the one-yard line, but shortly thereafter, Tom Sherley scored for the Chiefs from the 3. Sims kicked the point and it was 20 to 12.

The Mustangs weren't through, however, and the Priest-led Mustangs moved in for the score in eight plays. The score stood 20-18, and only

1:37 showed on the clock.

Priest tried to pass for the two points, which would have tied up the game, but the aerial went incomplete.

Friona now stands 4-0 in conference play and hosts Floydada tomorrow night. Olton is 3-1 in conference play and takes on winless Dimmitt tomorrow.

Abernathy Seeks Share Of Crown, Downs Dimmitt

Three teams will hit the gridiron Friday hoping to take a share of the 3-AA crown, but a lot of "ifs" stand in the way. If Friona beats Floydada, the team will have the crown all to itself, but if the Winds should down the Chiefs, either Abernathy or Lockney will share the crown as co-champions.

This situation was reached last week as Friona downed Olton to stay on top in the race, and Abernathy and Lockney meet with 3-1 district records. The Antelopes downed winless Dimmitt 26-20 last Friday night to have only one defeat on their record.

Abernathy drew first blood in the first period when Mike Tannehill ran up the middle for 45 yards and a TD. In the second quarter, Tannehill went in again after taking a pass from quarterback Lane Wade. The play covered 40 yards.

Dimmitt had the score tied 12-12 at halftime on runs of four yards and two yards by Joe Bob Sanders and Tony Young.

In the third quarter Wade

One has to admit that the Whirlwinds fought their hearts out for the game last Friday night, and this showed on the scoreboard during the first half, but the team seemed to run out of steam, or else Lockney got a second breath that couldn't be stopped.

Unless the person is in excellent physical condition a 140-150 pound athlete cannot compete the full 48 minutes at his best if his opponent tips the scales at 170-220 pounds. There is a slight disadvantage that is quite noticeable.

The team did fight hard and they are to be commended for putting out such an effort. The locals were still fighting when the game ended and that was as far as they needed to go.

Lockney displayed some fine material in the game that could go ahead and develop into players on ball teams a little later in their school years.

At several games this year

broke outside to put Abernathy in the lead to stay. He covered 70 yards on the run and Tannehill ran the extra points.

Andy Oliver made it 26-12 in the final period on a 15-yard run. The score came after a long Dimmitt TD was called back on a penalty.

With just five seconds left on the clock, a 10-yard pass from Kent Lindsey to Tommy Stafford was good for a tally.

Danny Land ran the extra points.

The Antelopes are 3-1 in district play and travel to Lockney tomorrow night and Dimmitt takes on Olton in the final conference game for both teams.

Philosopher Not Enthusiastic About Computerized Farming

Editor's note: The Floyd Philosopher on his Johnson grass farm shies away from a new idea in farming.

I was out here looking this Johnson grass farm over yesterday afternoon without really planning on doing anything about it. I guess the reason some people don't get ahead is that they don't know they're behind, and for no reason at all I kicked a brush pile and a copy of a farm magazine fell out, which I took home and read that night. At first I thought

it was a rabbit.

According to an article in it, electronic computing machines, the kind that guides astronauts down from space when a fuse doesn't blow, and they have to do it by hand, will some day be commonplace for farmers and ranchers.

You'll carry a tiny tape recorder with you and talk each day's farm business into it as you go about your work, then at night you plug the recorder into your telephone and a central computer collects your day's reports and stores them in its electronic mind. When you need to make a decision on something, you phone the computer and have it do the figuring for you.

I don't know about business men, newspaper publishers, lawyers, etc., maybe they keep their mind on business and nothing else all day, but I reviewed some of my thoughts for one day and I doubt if science has yet produced a computer that could digest them to any great advantage. Here are some of them: (8 a.m.) There must be some way to figure out a football game where both sides win and everybody leaves the stadium happy. Will work on it tomorrow. (9 a.m.) One way to stop having so many junk yards alongside highways is to stop building so many highways. (10 a.m.) That sick calf will either get well or die, wish he'd do one or the other. I'll check on him tomorrow. (11 a.m.) I'm getting hungry. (1 p.m.) I'll think about Viet Nam after my nap. (2 p.m.) That fence needs fixing. (3 p.m.) Coffee break. A man can't work all the time. (4 p.m.) It's a little late in the afternoon to

start the tractor now. (5 p.m.) When you capture the moon, what have you got? (6 p.m.) I'm getting hungry. (6:30 p.m.) Time to quit work. Wonder what's on television tonight?

I guess if the government gave me one of these machines to talk into I'd take it, but I believe I can get the same results and do it cheaper just by talking to myself.

Yours faithfully,
J. A.

Lt. Simmons Is Assigned To Geodetic Party

The Coast and Geodetic Survey, a bureau of the U. S. Department of Commerce Environmental Science Services Administration, has announced the assignment of Lt. (jg) Walter S. Simmons of Floydada, as Chief of Party, Geodetic Party G-58 at Point Mugu, Calif.

Party G-58 performs all necessary survey operations for the Pacific Missile Program of the Navy and Air Force. As Chief of Party, Lt. Simmons will be responsible for the planning, coordination and execution of surveys in California, Alaska and throughout the area of the Pacific Missile Test Range.

Lt. Simmons' previous assignment has been with the USC & GS operations in Hawaii and Alaska. Simmons' duties include photogrammetry officer, electronic control officer, education officer and officer in charge of a hydrographic survey detachment for harbor surveys.

The U. S. Environmental Science Services Administration is a newly formed agency which combine the Coast and Geodetic Survey and the Weather Bureau for a more unified study of the earth's environment and for a combined warning system for natural disasters. The Coast and Geodetic Survey was the nation's oldest scientific body having been

County Does Part In Increasing GNP

NEW YORK, Oct. 25 - At a time when the gross national product is getting bigger and bigger, the questions that arise in Floyd County are: How are we doing locally? How is our own gross product shaping up? While the state of economy, nationally, is of great importance to all Americans, what is happening at the local level is of overriding interest in any community.

According to figures covering the past year's business activity, the county turned in its full quota toward the nation's gross national product, which broke into new high ground with a \$629 billion performance.

The story is told in Government statistics released by the Office of Business Economics and in marketing studies made by other agencies.

The measurement used is the gross national product (GNP), which is the total value of all goods and services produced in the country.

Floyd County's contribution

organized in 1807.

Simmons is the son of Mrs. W. S. Simmons of Floydada. His wife, Barbara, daughter of Mr. and Mrs. J. T. Huckabay of Floydada, and their two children have been visiting here during the summer. Lt. Simmons joined his family here on October 16 and departed for his new assignment at Port Mugu October 23.

to the GNP was a healthy \$26,296,000, a marked gain over the amount it contributed three years before, \$16,383,000.

It consisted of \$20,873,000 spent for merchandise in local stores and an estimated \$5,423,000 for services of all sorts.

The major credit for the breakthrough to \$629 billion goes to personal income spending on the part of the public. Their purchases of goods and services amounted to nearly \$400 billion, which was 82 percent of the total.

This was the real giant in the economy. By comparison, all expenditures by the Federal government, all spending by state and local governments and all capital outlays for industrial expansion fade into secondary importance. They provided only 38 percent of it.

Several factors contributed to the \$40 billion advance that was made by the GNP in the past year.

Principal among them was the increase in purchasing power that resulted from bigger incomes, more people employed and reduction in Federal income taxes.

Other factors included the higher outlays made by the Government for defense and welfare, the huge corporate investments for new plants and equipment and the rise in the cost of living.

Cotton is the most widely used of all textile fibers. The quality of cotton depends on the length and fineness of the fiber or staple. Long staple cottons are the finest.

Acala Pima are outstanding varieties of long staple cotton. The following list gives the names of some fabrics and garments that can be produced from High Plains Cotton. This is not to infer that all these materials are made from area cotton only, but rather that these can be, and after all, made from the type of cotton grown in this area. These are denim, twills, mattress ticking, broadcloth, terry towels and wash cloths, muslin sheets and pillow cases, bedspreads, knit goods and knitted footwear.

These are several advantages of wearing cotton clothing, besides the fact that you support yourself or your neighbors by buying cotton. Cottons are generally washable and can stand frequent laundering and a hot iron. White cottons can be sterilized or bleached safely unless they've been treated with a special finish that yellow with bleaching. Such materials are usually labeled.

Cottons are available in a wide range of colors that are normally fast to light, washing and perspiration. It feels cool in hot humid weather.

The main disadvantage of cot-

ton is that it wrinkles easily, due to very little elasticity in the fiber.

The advantages outnumber the disadvantages, so look for the tag that says 100% cotton.

Now! '66 Chevelle Malibu by Chevrolet

'66 Chevelle Malibu Sport Coupe (foreground) and new 4-door Malibu Sport Sedan.

Two racy new hardtops

A clean-sculptured new sport coupe with recessed rear window, and—for the first time—a 4-door Chevelle Sport Sedan. Pick from 12 racy-looking new Chevilles in all for '66.

Not only will you find more variety in the '66 Chevelle lineup, but even more of what makes a Chevelle a Chevelle.

Say you pick a new Malibu Sport Sedan and specify the new 220-hp V8. You've got yourself quite a machine.

Or pick a Malibu Sport Coupe, equip it with the new Strato-bucket front seats, and order the new 275-hp V8. You've got yourself even more machine.

Or maybe you'd like to pick a new black-grilled SS 396 Coupe or Convertible. (Standard engine is a Turbo-Jet 396 V8 with 325 hp. And there's also a 360-hp version you can specify.) Now you've got yourself the most.

Which '66 Chevelle for you? The answer to that covers a lot more ground than we can here. And that's where your Chevrolet dealer comes in.

See the new '66 Chevrolet, Chevelle, Chevy II, Corvair and Corvette at your dealer's

Lockney Hospital Nursing School Opens January

The Lockney General Hospital School of Vocational Nursing is set to open January 3, 1966, according to Eltie Sherman, Business Manager.

Vocational nursing can be rewarding and fulfilling, particularly when trained in the direction of the Physical Therapist or the supervised Registered Professional Nurse. The course offered by the hospital is twelve months in length. At the end of the twelve-month period, the student is required by the Board of Vocational Examiners before she may be a Licensed Vocational Nurse. The student will attend classes 8 hours a day, 5 days each week. All instruction will be in the hospital.

The school instructor is Mrs. Lora Williams, B.S. 1958 graduate of Henderson Memorial Hospital School of Nursing in Abilene. She is presently employed by the hospital as a resident of Lockney.

Those interested in taking the school of vocational nursing may make application by filling Mrs. Sherman, at the hospital, Wednesday, Thursday or throughout the month of December.

Since the hospital is a member of students must be limited to residing in Floyd and adjacent counties.

gave the ball to Bearden who got to the 34.

Once again the Winds started to move. Bearden circled right end for 31 yards and a pass from DeLeon was incomplete on the 10, but an interference penalty gave the Winds a first at that point.

the downfield blocking of the Whirlwinds has suffered. That is, after the initial block around left end for five. Lockney was offside on the play so the Winds had a second and goal from the five. On second down a pass to Monday was incomplete and on third down DeLeon was smothered by the Lockney line on the 10.

A screen pass to Monday carried to the 8 and the ball went over to Lockney.

Three plays later, however, Lockney was forced to kick out of bounds on the Lockney 41.

Again, the passes clicked, for DeLeon found Monday on the 26 and hit him with an aerial. On the next play, Bearden went around right end, reversed his field got to the 16 and fumbled. Lockney recovered on the 10.

In seven plays the Horns had moved out to the 41, but a fumble was recovered by Tommy Weathersbee on the 41.

Lockney returned the favor on the next play as a DeLeon pass was intercepted by Tim Hartman on the 30 and he was dropped on the 33.

Lockney moved to the 44 in two plays where they had a first and on the following play Mitchell went around his right end for 56 yards and a TD with only 18 seconds left in the game.

The kick was good and the score was 40-7.

The Winds received the kickoff and ran two plays before the game ended. The ball was on the 49 as the final whistle blew.

During the halftime ceremonies Miss Jenis Moore was crowned Band Sweetheart.

The Longhorns are now 3-1 in district play and the Winds are 1-3.

CRYSTAL BALL Q.B.

Either it's getting easier to predict the outcome of games or there were less upsets this past week than there have been in the past.

The winner of the contest, a Lockney resident, missed none of the games as did Steve Arney who finished in second place. The Crystal Ball QB missed two of the games, as did 18 of these entering the contest.

This week the results should be as follows: this hurts but Friona should defeat Floydada; Lockney will down Abernathy; Olton should come out on top of Dimmitt, but the Bobcats are getting tougher as the season progresses; Springlake should down Farwell; Hale Center will take Sudan; Kress will have a field day with Silvertown; Childress will fall to Quanah; Ralls will down Lorenzo; Tullia will take Hereford; Canyon will take Muleshoe; Perryton will fall to ever-powerful Dumas; Amarillo will down Lubbock; Tascosa will come out on top of Borger; Palo Duro will down Caprock; Monterey will have little trouble with Plainview; Matador will down Rule; Crosbyton should drop Petersburg.

On the college scene: Arkansas will down SMU but it will be a battle; Tech will take Baylor; Rice should defeat the Aggies; Texas should topple TCU; and WT should blast Lamar Tech.

Airman Bean At Chanute AFB, Illinois

San Antonio, Tex.--Airman Jimmie E. Bean, son of Mr. and Mrs. Jimmie L. Bean of Rt. 1, Floydada, Tex., has been selected for training at Chanute AFB, Ill., as an Air Force aircraft maintenance specialist.

The airman, 1965 graduate of Della Plains High School, recently completed basic training at Lackland AFB, Tex.

to retire indebtedness against the Post building.

For each dollar contributed, the donor will receive a chance to win a 1965 21" color TV. The television has been purchased from Kirk's Hardware and is on display at their store on the north side of the square in Floydada.

The drawing will be held on Christmas night, December 25 at the Post home.

The members of the VFW Post believe that when the building is paid for the organization will be better able to do more for the community than has been done in the past.

Contact a local member, or mail the contributions to Sam Spence, P. O. Box 554, Floydada.

FASTER FIELD SPEEDS CUTS SOIL COMPACTION

In an actual test, a 60 H.P. tractor, using standard single wheels and pulling a 14 foot disc, covered 73 rods in five minutes. The trip was made in third gear. But when the same tractor, pulling the same disc in the same field and in the same gear, was fitted with a set of M&W Duals, it covered 92 rods in five minutes! An increase of 27%. Saved fuel, too.

Single wheels put a tremendous "squash" on soil, leaving tightly packed dirt below the level reached by a disc, harrow or field cultivator. Duals spread the weight, cut compaction, help improve yields.

And every set of M&W Dual Wheels carries this **Guarantee**

If you are not satisfied with M&W Dual Wheels, your money will be refunded because "If you till 100 acres, you pay for a set of M & W Duals every two years whether you have them or not."

MARTIN AND COMPANY

SPEAK FOR DEMOCRACY

(The following essay was written by a 16-year old Akron, Ohio, high school junior, Elizabeth Allen Evans, and was awarded first prize in an essay contest sponsored by the U. S. Junior Chamber of Commerce. It was read recently over a national telecast and radio program and more than 100,000 requests for copies were received within five days. You may agree that it should be read by every American.)

I am an American.
 Listen to my words, Fascist, Communist.
 Listen well, for my country is a strong country and my message is a strong message.
 I am an American, and I speak for democracy.
 My ancestors have left their blood on the green of Lexington and the snow at Valley Forge
 ... on the walls of Fort Sumter and the fields of Gettysburg
 ... on the waters of the River Marne and in the shadows of the Argonne Forest
 ... on the beachheads of Salerno and Normandy and the sands of Okinawa
 ... on the bare, bleak hills called Pork Chop and Old Baldy and Heartbreak Ridge.
 A million and more of my countrymen have died for freedom.
 My country is their eternal monument.
 They live on in the laughter of a small boy as he watches a circus clown's antics
 ... and in the sweet, delicious coldness of the first bite of peppermint ice cream on the Fourth of July
 ... in the little tenseness of a baseball crowd as the umpire calls "Batting up!"
 ... and in the high school band's rendition of "Stars and Stripes Forever" in the Memorial Day parade
 ... in the clear, sharp ring of a school bell on a fall morning
 ... and in the triumph of a 6-year-old as he reads aloud for the first time.
 They live on in the eyes of an Ohio farmer surveying his acres of corn and potatoes and pasture
 ... and in the brilliant gold of hundreds of acres of wheat stretching across the flat miles of Kansas
 ... in the milling of cattle in the stockyards of Chicago
 ... the precision of an assembly line in an automobile factory in Detroit
 ... and the perpetual red glow of the nocturnal skylines of Pittsburgh and Birmingham and Gary.
 They live on in the voice of a young Jewish boy saying the sacred words from the Torah: "Hear O Israel: The Lord our God, the Lord is One. Thou shalt love the Lord thy God with all thy heart and with all thy soul and with all thy might."
 ... and in the voice of a Catholic girl praying: "Hail, Mary, full of grace, the Lord is with thee."
 ... and in the voice of a Protestant boy singing: "A Mighty Fortress is our God, a Bulwark never failing..."

An American named Carl Sandburg wrote these words:
 "I know a Jew fishcrier down on Maxwell Street with a voice like a north wind blowing over corn stubble in January.
 He dangles herring before prospective customers evincing a joy identical with that of Pavlova dancing.
 His face is that of a man terribly glad to be selling fish, terribly glad that God made fish, and customers to whom he may call his wares from a pushcart."
 There is a voice in the soul of every human being that cries out to be free.
 America has answered that voice.
 America has offered freedom and opportunity such as no land before her has ever known. To a Jew fishcrier down on Maxwell Street with the face of a man terribly glad to be selling fish. She has given him the right to own his pushcart, to sell his herring on Maxwell Street;
 ... she has given him an education for his children, and a tremendous faith in the nation that has made these things his.
 Multiply that fishcrier by 160,000,000-160,000,000 mechanics and farmers and housewives and cool miners and truck drivers and chemists and lawyers and plumbers and priests—all glad, terribly glad to be what they are, and free to work and eat and sleep and speak and love and pray and live as they desire, as they believe!
 And those 160,000,000 Americans—those 160,000,000 free Americans—have more roast beef and mashed potatoes—
 ... the yield of American labor and land: more automobiles and telephones, more safety razors and bathtubs, more Orlon sweaters and aureomycin, the fruits of American initiative and enterprise;
 ... more public schools and life insurance policies, the symbols of American security and faith in the future;
 ... more laughter and song—than any other people on earth!
 This is my answer, Fascist, Communist! Show me a country greater than our country, show me a people more energetic, creative, progressive—bigger-hearted and happier than our people, not until then will I consider your way of life.
 For I am an American, and I speak for democracy.

Veteran's Day 1965

November 11 is Veterans Day; a day dedicated to world peace... a day to recall our past achievements and our attempts to bring peace to the world.
 One of the truths we can recall on Veterans Day is that Americans are capable of greatness when it is demanded of them. Nearly 22 million veterans are living proof of it.
 In terms of age, the average American veteran of today was not even born in 1918, the year the national holiday we know as Veterans Day was first observed. November 11th was called Armistice Day until a dozen years ago. We can never forget those dead whom the first Armistice Day commemorated. They are revered in our inmost thoughts as we pay tribute to all living veterans... on Veterans Day.
 Far from being amenable to averaging, as in the matter of age, Veterans are a remarkably diverse group, well represented in every walk of life. They are performing top-urgency jobs, in the difficult peace as in wartime, ranging from the Chief Executive to the Chief Petty Officer on a Coast Guard Cutter patrolling the Vietnam coast.
 Veterans, diverse in national origins, religious beliefs, and ranging as they do from young men in their twenties to Indian War fighters now 95 years of age... they are alike in their basic good citizenship.
 History tells us that the American veteran never has... and never will... subscribe to the doctrine of "Peace at any Price". The loss of human dignity and individual freedom would indeed be too high a price to pay... even for a commodity as precious as peace.
 Today, the American veterans stand firmly united beneath the one flag that symbolizes our common Democracy, determined to maintain for themselves and posterity the principles of Liberty and Justice upon which this Government was founded, and upon which it stands securely today.
 A grateful Nation will pause on November 11, 1965, to pay tribute to the American Veterans because they have been willing to fight and die for Peace with Honor.

Left wingers and communists across the country continue to "demonstrate" against the US being in Vietnam and in support of the Viet Cong "liberators."
 "If I were in Vietnam, I'd probably help the Viet Cong," a young college student declared here recently.
 Thank goodness this is not the sentiment of the overwhelming majority of students at West Texas State University. Surveys have shown students on the WT campus to be either in favor of this country's Vietnam policies or impatient for the US to take even greater initiative against the VC.
 The American press has not been as thorough in reporting the atrocities of the VC as could be desired. A mathematical mistake by an artilleryman and the subsequent shelling of friendly positions has been getting a bigger play recently than the terrorist tactics of our adversary which caused our soldiers to be in Vietnam in the first place.
 Deane and David Heller, went to Vietnam and later wrote an article for The American Legion Magazine telling of the Systematic Terror of the Viet

Cong. Those who believe the VC are engaged in a civil war of liberation or that less than the sternest methods can be used effectively against them should read the Heller article.
 They tell of teenage girls being violated and then hacked to pieces. The VC cut strips of flesh from the living bodies of uncooperative village headmen. Peasants are burned alive. Two buses were stopped near the Cambodian border recently at a VC roadblock. All 16 passengers were taken from the buses, tied up and marched into the forest. They were made to lie down and then were shot to death.
 The VC uses well-known tools of terror: murder, kidnapping, arson, bombing, knifing, forced conscription, torture, destruction of property, mutilation, disemboweling, beheading and ambushing innocent villagers—men, women and children.
 In 1964 there were an average of 376 murders, kidnappings, rapes, disembowelments or other crimes against civilians of all ages and both sexes per week.
 This is a sustained campaign for freedom."
 The U.S. flag should be displayed in front of businesses and in front of homes today.

Cunningly contrived and dispassionately carried out. The targets are selected to fit a general policy dictated from communist North Vietnam.
 Complete collapse of all resistance to Hanoi is the goal of this terrorism.
 Terrorists of Hanoi make the Beast of Berlin look like a piker. Atrocities being carried out right now by the Viet Cong in South Vietnam will be ranked infamously along with Belsen and Buchenwald when the history of man's inhumanity to man is recorded.
 We have a strategic necessity to be in Vietnam. We have a treaty obligation to be in Vietnam. We have a human duty to be in Vietnam.
 In my opinion, people who speak out in defense of the Viet Cong are self-confessed animals and deserve to be considered as such.

Peace Corps To Test On November 13

Floyd County residents interested in putting their skills to use in developing nations around the world are invited to take the Peace Corps placement test at 9 a.m. on Saturday, November 13 at the Post Office Building in Lubbock.
 The Peace Corps uses the placement test to determine how an applicant can best be utilized overseas. The test measures general aptitude and the ability to learn a language, not education or achievement. (If test scores indicate a limited language-learning ability, for example, the Peace Corps tries to place the applicant in an English-speaking country.) The placement test requires no preparation and is non-competitive—an applicant can neither pass or fail.
 The application form, not the placement test, is the most important factor in the selection of Volunteers. Persons interested in serving in the Peace Corps must fill out an application, if they have not already done so, and present it to the tester before taking the test. Applications may be obtained from local post offices or from the Peace Corps, Washington, D. C. 20525.
 The placement tests takes about an hour and a half. An optional achievement test for applicants who have studied French or Spanish requires another hour.

TWENTY-FIVE YEARS AGO IN FLOYD COUNTY (Nov. 7, 1945)

President Franklin D. Roosevelt "busted" the third term tradition that has hung over these United States for so many years into bits and buried the hopes of the Republican party candidate, Wendell Wilkie.

Funeral rites for Mrs. J. E. Swinson, 59, were held yesterday in the First Baptist Church. She died Tuesday in the Floydada Hospital. Survivors include her husband and four daughters, Mrs. Merle Reed, Mrs. Earl Crow, Dorothy Nell and Betty Jean Swinson.

The Whirlwinds whammed the Lockney Longhorns 43-13 Friday night and Gollyghtly took the ball over for four of the touchdowns.

Mrs. J. E. Roy received treatment on her hand Thursday afternoon and a sewing machine needle was broken off in it.

Miss Topsy Dudley was named Queen of the Junior Carnival at high school last week and was crowned during the ceremonies. James Wester was her escort.

Cunningly contrived and dispassionately carried out. The targets are selected to fit a general policy dictated from communist North Vietnam.

Complete collapse of all resistance to Hanoi is the goal of this terrorism. Terrorists of Hanoi make the Beast of Berlin look like a piker. Atrocities being carried out right now by the Viet Cong in South Vietnam will be ranked infamously along with Belsen and Buchenwald when the history of man's inhumanity to man is recorded.

GREETING: You are commanded to appear by filing a written answer to the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 29th day of November, A. D., 1965, at or before 10 o'clock A. M., before the Honorable District Court of Floyd County, at the Court House in Floydada, Texas. Said plaintiff's petition was filed on the 15th day of October, 1965.

The file number of said suit being No. 5294. The names of the parties in said suit are: THOMAS LEE JOHNSON and wife DIXIE RUTH JOHNSON as Plaintiffs, and the persons first named, described and designated in this writ, and to whom this writ is directed, as Defendants.

The nature of said suit being substantially as follows, to wit: Suit in trespass to try title, for the title and possession of the following described real property situated in Floyd County, Texas: All of Lots Numbers Nine (9) and Ten (10), in Block Number Twelve (12) in the Town of Lockney, in Floyd County, Texas, as shown by the plat of such town of record in vol. 6-F, P. 591, Deed Records of Floyd County, Texas.

--Plaintiff pleading fee simple ownership thereof, and specially pleading the three, five and ten year statutes of limitation as to such real property, and praying judgment for title and possession thereof. If this Citation is not served within 90 days after the date of its issuance, it shall be returned unserved. Issued this 15th day of October A. D., 1965. Given under my hand and seal of said Court, at office in Floydada, Texas, this 15th day of October A. D., 1965.

County Agent's Corner
By Joe Wilson

Cotton burs that have had arsenic acid applied to them should not be fed to livestock. Arsenic acid is extremely poisonous and loss of livestock could result from such a practice.

This question has arisen several times in the past few weeks. At this time it would be unsafe to get burs to feed livestock from any gin in Floyd County. Toward the end of cotton season when most of the defoliated cotton has been harvested, it would be less likely to get any burs that have had arsenic acid applied to them. However you would be taking a chance at any time.

Caution should also be taken to keep livestock from grazing cotton land that has been defoliated or desiccated or to let livestock graze on areas that the chemical has contaminated.

Livestock should be removed from Grain sorghum, sudan, johnson grass, or any type sorghum plant following the first frost.

Prussic acid, a poisonous substance generally forms in sorghum type plants following the first frost. Livestock should be kept off the forage until the stalks are dead.

The USDA has recently included micronaire readings as an additional quality factor for the 1965 upland cotton crop. Premiums and discounts will be effective on cotton classed after October 31, 1965.

The schedule of premiums and discounts are as follows: Micronaire of 5.5 and above minus 50 points per pound; 5.2 through 5.4 minus 15 points per pound 4.9 through 5.1-even; 3.6 through 4.8 plus 14 points per pound; 3.3 through 3.5 - even; 3.0 through 3.2-minus 60 points per pound; 2.7 through 2.9 minus 165 points per pound; 2.7 through 2.9 - minus 60 points per pound 2.6 and below - minus 300 points per pound.

This can greatly effect the price of cotton here on the high plains. It is possible to take a deduction up to \$15.00 on a bale of cotton by this present market system. The maximum gained by this system would be only 70 cents a bale.

Kropp To Enter Sheep In Show At Chicago

Texas entries for the 1965 International Live Stock Exposition include those of two well known sheep breeders, Mrs. Ammie E. Wilson, of Plano, and Paul Kropp, of Lockney.

Mrs. Wilson will be exhibiting purebred Southdown and Hampshire sheep and Kropp will also be showing Hampshires. According to the show management, Mrs. Wilson has won many top awards in the sheep competitions of the International in past years.

The exposition will celebrate its 66th anniversary this year as the country's largest stock show.

It will be held here in the 13-acre International Amphitheatre at the Chicago Stock Yards. Stockmen from over 30 states will be competing in contests featuring 37 different breeds of cattle, horses, sheep, and swine in which cash prizes of \$130,000 are offered.

MRS. TAYLOR WINS AT STATE FAIR

Mrs. J. P. Taylor entered 24 jars of jams and jellies at the State Fair recently and received a total of seven red ribbons, three white and one blue.

Mrs. Taylor, a resident of the South Plains community, has received a number of awards from the local fair and the Lubbock Fair the past years. She entered her sweets in the state fair at the spur of a moment and felt quite honored after doing so well.
