Tragedy Strikes Wedding Party, Five Are Killed

Five Latin Americans, including a 15 year old bride to be of Floydada, were killed and two others critically injured Sunday night at Lockney when their car was crushed by a Santa Fe freight train at a crossing in southwest Lockney.

Dead on arrival at Lockney General Hospital were Teresa Islas, 15, of Floydada, who was to have been married Monday; Emma Herrera, 17, of Lockney, Lidia Cruz, 11 of Shallowater, and her three month old sister, Norma. Angelina Cruz, 13, another sister, died at Methodist Hospital in Lubbock some three hours after the accident.

Critically injured, but later termed in a serious condition, were Jessie Salas, 17 of Lock-

ney, the prospective bridegroom; and John Herrera, 17 also of Lockney, whose wife was killed in the mishap.

Investigating officers said the car carrying the young people was struck by the Santa Fe 202 West Extra, a westbound freight carrying 98 cars, at a crossing near the intersection of FM378 and U.S. 70 inside the Lockney City limits.

According to other news sources officers said the crossing is guarded by flashing signal lights which were in operation at the time of the accident.

Slowed, Then Speeded Up Engineer Calvin Glendon At- nrip of Slaton told the officers the car slowed as it stopped for the train, then speeded up again in an apparent attempt to beat the train to the crossing.

The locomotive, which Atnip and conductor L. N. Foster, also of Slaton, said was traveling about 45 m.p.h., struck the car almost in the center of the right side, carrying it more than a quarter mile before the train could be stopped.

Driver Not Determined The car was almost welded to the front of the train and several of the occupants were pinned inside the wreckage for about 15 minutes before they could be freed.

Patrolmen identified the car as belonging to Salas' father, Romeo Salas of Lockney, but were unable to determine who was driving at the time of the collision.

The injured were taken to Lockney General Hospital, where they received emergency treatment before being transferred to Methodist Hospital in

Lubbock. Teresa will be buried today in her wedding gown. The funeral SEE TRAGEDY PAGE 2

Churches To Unite In Giving Thanks

Schools Will Dismiss For Thanksgiving

All Floydada Public Schools will dismiss today (Wednesday) Nov. 23 at 2:30 p.m. to commence their annual Thanksgiving holidays. Dismissal at that time will enable parents to pick up their children one hour earlier in case of travel plans. Classes are to resume at the usual time Monday morning, November 28th, according to school officials.

Four Local Churches Sponsor Wednesday Night Thanksgiving Service

Four Floydada churches are sponsoring a special Thanksgiving service at the First Methodist church Wednesday night at 7 o'clock.

FAA Gives Ok To Airport Contract

Two representatives of the FAA met with the city council and the local airport commission in a special called meeting last week to discuss a contract for an operator-manager of the Floydada airport.

Spokesman for FAA encouraged the city council to go ahead and contract with Doodle Milton to operate and manage the new airport. Milton would build a ten plane hanger and offer gas and oil service at the airport.

Milton said it would be advantageous to go ahead and build hanger paving while the landing strip paving is going on. The FAA officials agreed.

The FAA officials stressed the fact that the government would have no say in how the airport is operated... they only hoped that it would be kept attractive and that the city could work out a contract with the prospective operator-manager that would be mutually beneficial.

Representing the airport commission at the meeting were: Aaron Carthel, Kenneth Bean, Wayne Collins and Billy Brown. The mayor presided at the meeting which was attended by city manager Bill Feuerbacher and all councilmen except Louis Anderson.

The churches extend and invitation to every person in this community to come and join in attendance at this special service.

The Rev. Paul Link will bring the Thanksgiving message. Special music will be presented by the First Methodist choir.

The Rev. Link will speak on "War-Peace? Division-Unity?, Love-Hate?" The choir will sing two numbers, "O Give Thanks Unto The Lord," "Amen!"

Sponsoring churches are The First Methodist, The First Christian, St. Mary Magdalen, and the Nazarene.

Lockney States Union Thanksgiving Service

LOCKNEY (Special) - The Rev. Richard Lunsford, pastor of the Cedar Hill Baptist Church, will deliver the message at 7:30 p.m. Wednesday for a community-wide Thanksgiving service here. Sanctuary of the First Baptist Church will be the site.

The Lockney Ministerial Alliance is sponsoring the joint service, which includes most churches in this area.

Other pastors appearing on the program will be: the Rev. William D. McReynolds, First Methodist Church; the Rev. Gene Hawkins, First Baptist Church; the Rev. Paul Link, San Jose Catholic Church.

City Council Selects Attorney Ben Ayres

In a special called meeting last week the Floydada City Council approved unanimously the selection of attorney Ben Ayres. Ayres will be consulting attorney for the city and special prosecutor in any criminal case.

Ayres was city attorney here before entering the armed forces in World War II.

March of Dimes Kick Off Dinner

A kick-off dinner for the March of Dimes was held in the home of Mr. and Mrs. Barry Barker in Lockney Monday night. Leaders of Lockney and Floydada communities were present to hear reports from the Lubbock and Dallas campaign meetings.

A film taken in the University of Arkansas Medical Center of birth defects was also shown. Those attending the dinner meeting were Mr. and Mrs. Bernie Parkey, Mr. and Mrs. Dean Morris and Mr. and Mrs. Ed Wester, all of Floydada, Mr. and Mrs. Kenneth Holt, Mr. and Mrs. Wilbur Mize, Mrs. Pat Frizzell, Mrs. Bobby McCormick, Mrs. Eddie Foster and Mr. and Mrs. Barker, all of Lockney.

Most of the March of Dimes money is no longer to aid polio victims, but primary concern now is to aid those suffering birth defects. Fifteen million Americans or one in every 10 families, now suffer this disease.

Floyd County's quota will be 50 cents per capita, or \$5,000. One-third of the contribution received will go for research; one-third to the National Foundation and one-third for local

aid. The Mother's March will be sometime in January, so mothers be quick to say "yes" when you are called upon to help. The ultimate goal is to PREVENT all birth defects and in giving you may prevent heart-break for a loved one.

case histories are used, identities and locations are disguised to protect the privacy of individuals.)

Who can get tuberculosis? Anybody can.

Fifty thousand Americans get

it every year. Of these, about 3,000 are Texans. And in West Texas, in the first six months of this year, 51 persons were hospitalized from 16 of the 23 counties represented by the West Texas Tuberculosis As-

sociation. The same people who get TB, give it. Your child can bring it home from school. Grandfather can breathe it in at the grocery store and pass it along to the family at home. You can get it from a casual customer at the store where you work.

Take the case of the healthy, successful saleswoman. Give her a name—Grace Brown. She's a friendly kind of person whom everybody likes. People laugh a lot around Grace, and sometimes they cough.

One fairly ordinary spring, Grace underwent a fairly ordinary operation.

Her surgeon assured her the operation was completely successful. That was good news, but Grace didn't feel good. She couldn't seem to get any pep back.

She suspected she might be running a fever in the afternoons, and she suspected she also might be showing the symptoms of a neurotic.

She hated to keep running to the doctor. While she debated the point, she noticed one day that the WTTA mobile x-ray unit was parked near the store.

It took her a minute and a half to fill out the blue card. She stood a few minutes in line. She felt so tired, she almost dropped out. But her turn came and she stood a second before the x-ray camera. She was through. She stuffed a contribution in the box provided and

started back to work.

"Well, that takes care of that possibility," she thought.

Here Grace was wrong. Here was the possibility that proved her problem. When her x-ray was checked, she was notified to see her doctor for further tests.

A few years back, Grace would have been told she had "galloping consumption," a devastation from of tuberculosis. Her husband, her children

and close associates checked. All the reports proved negative. For Grace, and others, her report in a TB hospital disease could be a control.

Because TB tricks, a close on her family. In time, her husband an active case of then a daughter,

CENTER NEWS

CENTER, Nov. 21 - Here it is nearly Thanksgiving! What pleasant childhood memories the season brings - back when schools made more of Thanksgiving than of Halloween. The school house in the country decorated with cedar boughs, there was a program with songs and "speeches" by pupils, and when parents came and all spread their sumptuous dinners together! A good part of "the good old days."

There are still many of the Calvary congregation who are ill with colds or a virus; Mrs. Davis, the Elbert Parks, Miss Nelson, the preacher's baby boy who is in Plainview hospital, but better.

Mrs. W. C. Plumlee reached home Sunday night from California where she has been visiting her son, Charles and family. She also got to hold and enjoy the first great grandbaby; two months old.

Mrs. Doyle Sandifur came home last Wednesday from Quana Memorial Hospital where she had had major surgery some eight days previous. Among callers to see the Sandifurs during the weekend were Mrs. Veri Miller, Mr. and Mrs. Roy Finley, Mr. and Mrs. Hal Thomas, the Elmer Sellers, Mr. and Mrs. H. C. Wise and Denton, the R. E. Waggoners of Plainview. Also, Walter Sims and Fred Robertson.

SMALL THANKSGIVINGS

THANKSGIVING IS A DAY YOU SAY,
 THE LAST WEEK IN NOVEMBER --
 ONE SPECIAL DAY TO UTTER THANKS
 AND PILGRIM PRAYERS REMEMBER
 A DAY YOU SAY, TO LOOK AROUND
 AND COUNT THE WAYS I'M BLEST --
 THANKSGIVING IS A HOLIDAY,
 TO PRAY, TO FEAST, TO REST,
 ONE DAY TO USE TO SAY TO GOD,
 "I LIKE MY WAY OF LIFE."
 ONE DAY TO SAY TO A HEART'S LIFE MATE,
 "I'M THANKFUL I'M YOUR WIFE."
 AND CAN I USE ONE SINGLE DAY
 TO THANK GOD FOR MY SONS --
 ONE DAY TO HUMBLBY BEG HIS HELP
 TO MAKE THEM NOBLE ONES?

AND IS THERE ONE DAY BLEST ENOUGH
 BY THE LORD ABOVE
 TO CARRY ALL MY GRATITUDE
 FOR FAMILY TIES OF LOVE?
 THE STRENGTH IN ME FOR DAILY WORK
 IS A GIFT FROM EACH NIGHT'S SLEEP--
 AND MUST I SAVE MY THANKS ALL YEAR,
 THEN SEND THEM IN A HEART
 NO, IT CANNOT BE A SINGLE DAY
 TAKEN FROM THE YEAR ...
 THANKSGIVINGS COME TO ME EACH NIGHT
 WHEN MY FAMILY'S NEAR,
 EACH TIME I HEAR A SMALL BOY'S PRAYER
 AND TUCK HIM IN HIS BED--
 EACH TIME I ASK IN CONFIDENCE,
 "GIVE US OUR DAILY BREAD,"

SMALL THANKSGIVINGS COME
 WHEN I BRING IN CLOTHES FRESH
 FROM THE LINE,
 THANKSGIVING IS THE DEEP, SWEET SMELL
 OF HONEYSUCKLE VINE,
 A CLEAN-SWEPT ROOM, A BABY'S SMILE
 AND ARMS THAT HOLD ME TIGHT,
 THANKSGIVING COMES WHEN A JOB'S WELL-
 DONE AND REST IS EARNED AT NIGHT--
 JUST A SMALL WHITE HOUSE WITH A TOY-
 CLUTTERED YARD AND A GARDEN AT THE SIDE--
 YET IT MEANS TO ME MY OWN PRIVATE WORLD,
 A HEAVEN FIVE ROOMS WIDE ...
 AND ONE BIG DAY TO CROWD THANK PRAYERS IN
 WILL NOT SERVE AT ALL.
 AND SO, EACH HOUR OF EVERY DAY,
 I'LL OBSERVE THANKSGIVINGS THAT ARE SMALL.

GUEST EDITORIAL

Cotton Is Best....

Cotton is the best all-around fiber known to man. It beats all substitutes in comfort, wearability, launderability, and many other qualities.

Why, then, is cotton going into storage while consumption of other fibers is increasing? Why is there a 16.9-million-bale cotton carryover and almost a one-third cut in cotton acreage?

Why did consumption of non-cellulosic fibers such as Dacron and orlon jump from 2.9 million bales in 1960 to 7 million bales in 1965 while cotton was sustaining a 24 per cent decline in its share of the domestic textile market?

While the answers to these questions can become quite involved, they can be incorporated into one simple statement: Synthetic fibers are vastly outresearching and outpromoting cotton.

Synthetic fibers are spending nearly \$150 million a year on research. Expenditures for cotton research, from all sources, total about \$26.5 million.

Some 14 giant corporations last year spent about \$65 million to promote their fibers as compared with only 34 million spent to promote cotton.

These huge programs of cotton's competitors are aimed at: (1) creating new or improved fibers, (2) developing attractive, well-designed products which utilize these fibers, (3) offering incentives to mills, finishers, manufacturers, and retailers to make and sell products made of their fibers, and (4) building consumer demand for these products through extensive advertising.

In research the odds are 6 to 1 against cotton. The promotional odds are 16 to 1. These odds are killing cotton.

Cotton farmers—some 500,000 strong—have developed a way, however, to fight back. They will vote soon in a Beltwide referendum on establishing a uniform assessment of \$1 per bale for expanded research and promotion. There are compelling reasons, as outlined above, for approving this program overwhelmingly, as we firmly believe it will be approved.

SAYS FLOYD PHILOSOPHER

Talks About A New Tax Proposal And Also Actors Turned Politicians

Editor's note: The Floyd Philosopher on his Johnson grass farm backs away from a new tax proposal, his letter this week reveals.
 Dear editor:
 To get my mind off some

Commissioner Canvassed Votes

The Floyd county commissioners canvassed and approved the election boxes at their regular meeting last week.

In other business the commissioners voted to close the canneries on November 30, bird control be continued at half price (\$17.50 per month), appointed Mrs. Jerald Vinson, Mrs. Pat Frizzell and Dale Goen to the Library board and traded some bonds around for better interest rate.

bill that needed paying I picked up a newspaper I'd been saving since last week when I pulled it off the back screen door during a high wind—I guess it's too much to ask science to produce a door that keeps flies out and lets newspapers in—and sat down to read.

You never know what you're going to run into. I'd hardly gotten started when I ran across a new tax proposal.

An economist has suggested that when times are good like they are now—well, I guess they are, everybody keeps telling me they are and I try to believe it but it's hard to do around the 10th of the month—the government should levy a special 5 per cent temporary withholding tax on all salaries and incomes.

This month, he said, would be held by the government, and then returned when times got hard. This way, he argued, we'd hold down inflation in good times and stave off a depression in bad times.

I have been thinking about this and believe it's a good idea, except for one thing. Who's going to decide when I need to draw my share? I don't want anybody in Washington deciding when a depression has hit me. A man can be in fine shape one day, blow a gasket on his tractor the next, and need that 5 per cent back before it gets there. But that would be hard to swing, as Washington is downhill from every other spot in the country. At least I guess it is, money flows better toward it than back. I don't believe this proposal will get anywhere.

By the way, I've noticed a lot of comment in the papers about actors becoming politicians. I doubt if there's anything wrong with it. I know some politicians who've been mostly actors all their lives. They say these actors turned politician will find they can't keep shooting the same scene over and over till they get it right, but I know some politicians

who've been trying it with speeches for years.
 Yours faithfully,
 J.A.

Faster Mail Service

Postmaster Edward Wester announced that henceforth all first class mail, personal sound recordings (voice letters), and parcels weighing 5 pounds or less and measuring not more than 60 inches in length and girth combined, will be air-lifted on a space available basis between the United States and all Military Post Offices overseas.

Also, under Public Law 89-725—The Dulski Military Mail Act—which was signed by President Johnson on November 2, 1966, second class publications such as newspapers (Hesperian) and magazines published weekly or more often, and featuring current news of interest to the military, will be

airlifted from San Francisco to the armed forces serving in Viet Nam.

Postmaster Wester explained that parcels weighing 5 pounds or less and not exceeding 60 inches in length and girth combined, paid at surface rates, will be moved by surface transportation within the United States from the point of mailing to the port of embarkation. He also reminded mailers that Christmas parcels weighing 5 pounds and under, though they are given airtight priority from San Francisco to Viet Nam or a space available basis, should be mailed soon and not much later than December 1. Airmail, he said should not be mailed much later than

December 10. Christmas packages weighing MORE THAN 5 POUNDS going to Viet Nam and other overseas military post offices by surface should be mailed now, the suggested date was by November 10.

News for
Homemakers
 BY SHERRY MULLIN
 FLOYD COUNTY H.D. AGENT

You should be thinking ser-
 iously of planting trees and
 shrubs this fall instead of wait-
 ing until next spring.
 Planting in October, Novem-
 ber and early December can
 have several advantages. The
 biggest problem with spring
 planting is getting the plants
 through the first summer.
 Plants set in April and May
 carry a standard warning "Wa-
 ter Every Week."

This weekly watering is not
 so essential for fall-planted
 trees and shrubs. Research
 shows that the roots of trees
 and shrubs can grow whenever
 the temperature is about 45
 degrees and upward. Since
 transplanting is always damag-
 ing to the root system, this
 gives plants the winter season
 for roots to regrow and get
 ready for spring. If this re-
 pairing of roots has to take
 place at the same time leaves
 are growing, then the plant
 has more trouble surviving.

Another reason for fall plant-
 ing is that there are several
 months for the soil to become
 firmly settled. Nurserymen
 know the soil must be firm
 around the roots and they can
 still do this even in the spring.
 Still, it is easier in the fall
 with nature doing the firming
 with rainfall and time. It is
 also best for the amateur gard-
 ner.

Severe pruning of the top
 growth is essential if plants
 are to survive. This is espe-
 cially true of late spring plant-
 ings. At least 1/3 to 1/2 of the
 top growth should be removed
 to compensate for loss of roots.
 For more information on
 pruning ask for bulletin No.
 B-979 Modern Pruning Meth-
 ods.
 Planting Roses - Plant bud-

any air pockets remaining in
 the soil mound.
 Cover the roots with top
 soil and tamp it firmly. Never
 plant when the soil is so wet
 that it can be pressed into
 balls that will not crumble.
 When the soil has been firmly
 tamped around the plant, wa-
 ter it thoroughly.

When new plants are set out
 in the fall, cut all the canes
 back to 12 inches from the
 ground. When the buds begin to
 swell in the spring, cut all
 the strong canes or stems down
 to 6 inches from the ground
 and remove all the weak or
 spindly growth.
 When plants are set out in
 the spring, cut the canes to
 6 inches above the ground at
 the time of planting.

FAIRVIEW NEWS

FAIRVIEW, Nov. 21 - The beautiful weather we are having has enabled the farmers to get a large part of their crop (both feed and cotton) gathered; some won't make any cotton due to the early freeze. Mrs. Galen Holland reports their cotton was ruined by the freeze and they won't even go in the field. Mr. and Mrs. E. W. Walls, returned home Thursday from a few days down state and over in Oklahoma. They spent Monday afternoon and night with their son, Dean and family at Ft. Worth. Tuesday they went on in to Oklahoma where they spent several days looking at the country.

Mrs. C. H. Wise visited Mrs. J. L. Day Tuesday afternoon. Mrs. Edell DuBois and son Bill spent from Tuesday until Friday in East Texas. While there they went deer hunting. They also visited at Jewett, Eddy and Buffalo with relatives. We all offer our sympathy to the family of Mrs. W. M. Sanders who passed away last week.

Thursday visitors in the Galen Holland home were Mr. and Mrs. S. H. Tackett and Mrs. W. M. Spears of Floydada and her sister and brother-in-law, Mr. and Mrs. Johnny Gibson of Paris, Tex. Mrs. Winfred Payne and Mrs. Ronnie Payne and children visited Mrs. Cecil Payne Tuesday afternoon.

Rites Held For Lockney Gin Worker

Services for Mike O. Contreras, 17 year old suction crewman at Lockney Co-op Gin, who was killed Saturday afternoon in a tractor mishap, were conducted Monday in Uvalde. Burial was also held there.

The youth, employed at the gin one week, was driving the farm tractor, and had towed an empty trailer to one part of the gin lot. As he was returning to the gin the tractor apparently struck a barrel and was overturned, pinning Contreras underneath. He was found by his brother, who also works at the gin.

Survivors include his parents, eight brothers and two sisters. The family moved to Lockney eight days prior to the fatality.

Dougherty News By Mrs. W. J. Ross

DOUGHERTY, Nov. 21 - Just in case you looked for the Dougherty newsletter the past two weeks and failed to find it, there is a reason. The correspondent played hooky. The first week I simply had to go to Lubbock on Monday instead of getting the news and this week I was in Houston. We were notified Friday of the death of my husband's nephew, Glenn Ross, Bob and I went to Houston to be with the bereaved mother and brother.

Glenn was born in the Cone Community October 6, 1942. He was killed during the night Nov. 10 when his car failed to negotiate a curve at a construction area on a Houston street. The funeral was conducted Monday morning in the chapel of the Colonial Funeral Home by the pastor of the First Baptist Church of Pasadena. Interment was in the Grandview Cemetery of Pasadena. Glenn is survived by his wife, Geneva, his mother, Mrs. Homer Erben and brother, Gary Ross.

Glenna and little sons, Tommy and Mitchell accompanied

us to San Antonio and visited with her sister, Mrs. Lewis Kaufman and brothers, Durrward and Darryl Blasingame and families while Bob and I went to Houston.

It may be a bit late to report the results of the Halloween carnival, but it has been published. The community club considers it a most successful affair and wish to thank everyone who cooperated. In the costume contests Tommy Ross won in pre-school division; Ricky Covington in primary; Billy Emert for 3rd and 4th grades; Ray Hinton for 5th and 6th grades; Frank Covington - adult.

Jim Morrison won the door prize; Carmel Eastham won the turkey and the doll; Bob Ross won the fuzzy toy dog; and R. D. Holly, the door mirror.

Kenneth Robertson attended the funeral of his grandfather, E. M. Robertson, in Dallas Nov. 9. Many years ago he was a resident of Floyd County. He was ninety years of age and passed away after a long illness.

Mr. and Mrs. Allen Leach of Lubbock visited friends at Dougherty during the weekend. They report her mother, Mrs. J. E. Newion is now confined to the bed and in very poor condition.

Mrs. H. N. Powell visited her granddaughters in Plainview two days this week.

Relatives of Alamogordo, N. M. are guests in the home of Mr. and Mrs. Orland Howard.

A. H. Kreis visited C. A. Caffee Tuesday afternoon.

Among those attending the Tech-Baylor game were Mr. and Mrs. Ned Bradley and Mrs. Ruth Daniel. Mrs. Bradley tells me the game was most discouraging but Tech's between halves performance was superb and most inspirational and patriotic.

Mr. and Mrs. Noble Hunsucker Sr. have a granddaughter. She is the daughter of Mr. and Mrs. William Hunsucker (Bill and Jennifou). She was born at Lubbock Methodist Hospital at 3:58 p.m. Thursday Nov. 17. She weighed 6 lbs. 2 1/2 oz. She has a brother Brett. Bill is stationed in Viet Nam. Recently, he had a mission in the Philippine Islands and talked with his wife at Lubbock. Bill is an

officer in the Air Force and recently had a promotion.

Friends in this area will be interested to learn Gano Scott is in Hong Kong for a brief rest after spending six months in Viet Nam.

Bill Ross has been reclassified by draft board and is now 11-S, whatever that means. He was home and visited with his father over the weekend.

Jerry Crawford is scheduled to graduate from a Navigation Course at Lackland Air Base Nov. 25. He will visit briefly in Austin, then spend a few days here with his parents, Mr. and Mrs. R. H. Crawford before going to Marther Air Base, Sacramento, California.

Mr. and Mrs. J. T. Poole plan to attend the funeral of a friend, Jay Hillery, at Burleson Sunday afternoon. They probably will visit briefly with relatives in that area before returning home.

The DeWese family will be entertained in the home of Mrs. Ruth Daniel Sunday.

Mrs. E. S. Foster is convalescing nicely since her recent operation.

Mrs. J. G. Cage continues to be a patient at Lockney Hospital. It is believed she may

GIANT SYNTHETICS PRODUCERS ARE TAKING COTTON'S MARKETS

HOW CAN 500,000 FARMERS FIGHT BACK?

The Farmers' Answer: 'Expand Research & Promotion'

With huge research and promotion expenditures, synthetic fiber firms rapidly are taking cotton's markets. As a result, the carryover is at an all-time record. Acreage is the lowest since 1872—down 30 per cent on the average for 1966.

But farmers have developed a way to fight back. It enables them to pool their resources to mount a hard-hitting research and promotion program to save cotton markets, acreage, and income.

Self-Help Plan Brings Beltwide Acclaim, Support

The farmer-originated plan gives growers an opportunity to vote, in a Beltwide referendum, on establishing a uniform assessment of \$1.00 per bale for expanded research and promotion. Thousands of growers and 61 cotton organizations have endorsed this approach—overwhelmingly. The press is praising farmers for their efforts to help themselves.

We Compliment Cotton Farmers On Their Business Approach

Clearly, the plan is based on hard and sound thinking. All projects must be initiated by grower trustees elected by cotton producer organizations. Other provisions give equal assurance of farmer direction and control. Any individual farmer who does not want to participate can have his money refunded.

We recognize that cotton is the economic lifeblood of our business and our community. We are happy to offer any assistance we can give our farmer friends as they work for approval in the referendum.
