

SANTA COMES TO

Floydada

Old Santa Claus will be in Floydada Friday from 1:00 to 3:00 p.m. on the courthouse lawn to visit with the little tots... and he'll have plenty of free candy for everyone.

The retail sales committee of the Floydada chamber of commerce is sponsoring a "Lucky Number" bargain event for four big days beginning to-

day and continuing through Monday, Dollar Day. Every family in this trade area will receive a tabloid size newspaper with a number on it. About 100 of the numbers are good for amazing bargains at firms in Floydada.

Inside the newspaper is a listing in each merchant's advertisement listing for what his lucky numbers are redeemable.

The participant need only look for his number in the participating Floydada stores... upon finding it, present his newspaper to the firm's manager for redemption of the merchandise.

★ **Nation In Cotton Referendum** ★

Floyd cotton farmers will voice their opinion along with the nation's other cotton farmers their preference on the Cotton Referendum and Promotion Act, December 5-9.

The county ASCS office will send out the ballots tomorrow and all should be returned by not later than a postmark of 12 midnight December 9.

*New synthetic fiber plants are scheduled; additional manufacturing capacity equal to another 3.5 million bales of cotton by end of 1967.

The ballot must be signed by the voter to be valid. About 90 farmers attended a breakfast Tuesday morning at Lockney and around 45 attended a similar breakfast at Floydada Wednesday morning to discuss the Referendum which basically seeds a dollar per bale from each farmer to be used to promote cotton merchandise to the consumer.

*Carryover is at all-time high; acreage lowest since 1872. *1966 acreage cut averaged 30%; further cuts will come unless carryover is reduced. *Research odds (5 to 1) and promotion odds (16 to 1) must be reduced if cotton is to survive.

Largest Soybean Crop In History

Floyd county farmers received over eight million dollars for their grain sorghum and soybeans this year. It was the biggest soybean crop in the history of the county.

Over 408 million pounds of grain sorghum were harvested at an average price of \$1.70 per hundred. This yield compares with 443 million pounds in 1965, 364 million pounds in 1964, and 487 million pounds in 1963.

Rites Today For T. T. Hamilton

Funeral rites for Thurman Travis Hamilton, 71 year old retired tax accessor and collector for Floyd County, will be conducted this afternoon (Thursday) in the First Baptist Church. Rev. Floyd C. Bradley, pastor, will officiate. Time of funeral had not been decided at press time.

Floydada Man Victim Of Strong Arm Robbery

Two Lubbock negroes were apprehended in that city Monday night and returned to Floydada where they were placed in Floyd County Jail charged with a strong-arm robbery. They have been identified as Devroe DeCroen, 43, and Billy Ray Perkins alias Phillip Perkins. Their bond has been set at \$5,000 each.

The charges stem from the robbery about 3:30 Monday afternoon of L. E. Fancher, Floydada white man who had gone to the flats to secure the services of Albert Jones, negro plumber, according to investigating officers.

Fancher told Sheriff Walter Hollums he was driving along on a street in the flats when he was waved down by one of the negro men. After stopping, the man got in the car with Fancher and told him to drive on up the street a distance, which he did. At this point, after being told to stop, another negro got into the Fancher vehicle and Fancher was told to drive his car away from the residential area and was told where to stop.

He told Hollums he was then forced to hand over his wallet which contained \$75. The two then directed him to drive to a vacant house in the flats where they got out, telling him to stay in his car until they were out of sight. They disappeared around the house and Fancher drove to the sheriff's office to report the robbery.

He said the two had no guns that he saw but he wasn't taking any chances and did just what they said to do.

Lubbock detectives apprehended the two suspects about 6 p.m. in the 1000 block of E. 29th in Lubbock upon the basis of descriptions given them. The two negroes were known to officials there.

Sheriff Hollums and acting police chief Freddie Edwards accompanied by Fancher went to Lubbock Monday night where the victim positively identified the two men as the ones who robbed.

Some \$65 of the money taken from Fancher was recovered, Hollums said.

up one of these days and find it's gone or nearly gone.

No doubt about it...the cotton business is sick...especially our South Plains of Texas short staple cotton.

The cotton spinning mills don't want it...the government buys it and stores it...or exports some of it.

There seem to be two points of attack to the problem. Produce a better grade of cotton...and promote the use of cotton products.

There's another area of thought...stop concentrating on the cotton lint and concentrate on more and better cotton seed. The oil business remains healthy and there's a good market here.

There is a considerable amount of disagreement among our farmers about how to vote on the cotton referendum that comes up next week. We have printed statements from both groups and we urge every cotton farmer to go vote.

Basically, it seems that all cotton farmers see the need of promotion of cotton merchandise...yet there is a difference of opinion about some of the items in the cotton law 89-502. The Farm Bureau doesn't agree with several points in the law...yet I believe that most Farm Bureau members are for promotion of cotton.

I have a copy of the law here on my desk and it would be impossible for me to point out all the points of the law that Farm Bureau doesn't like. If you're interested in the details of the law, I suggest that you pick up a copy at any gin, or the Farm Bureau office.

After reading the items circled in the law that Farm Bureau doesn't like, I figure their main unhappiness is the fact that the secretary of agriculture is involved in the law...the Bureau has a principle of being against government control.

Since Farm Bureau has not suggested a similar or better plan, I would suppose that most of its members will vote for the referendum. At least this was the case when the Bureau met in Lubbock...but not so at the state convention.

Along with these reductions, all intrastate station-to-station calls which are made after 8 p.m. and all-day Sunday will get the lowest night rate. At present only station-to-station calls which are prepaid (charged to the number placing the call) and credit card calls are charged at this low rate.

This is the 10th reduction in Long Distance rates for Texas telephons users since the end of World War II.

"Although technological development continues to play a major role in keeping the cost of telephone service at a reasonable level, this reduction in Long Distance rates is due in no small part to telephone users themselves," the company spokesman said.

"Without the cooperation of our customers in placing their calls by number, using Area Codes, and the overwhelming acceptance of Direct Distance Dialing, it would not have been possible to achieve the operating economies that have made possible the series of reductions in rates," he added.

In addition to the lower Long Distance rates, there will be reductions of some miscellaneous telephone charges, effective December 1 this year.

A reduction in the one-time charge for a color telephone from \$7.50 to \$5.00;

A reduction in the monthly rate for amplifier telephones to \$1.00. The rate now is \$2.00. (This type telephone is most often used by persons with hearing impairments and at noisy locations.)

Introduction of a flat-rate charge for installing residence service. This flat-rate, one-time Residence Service Charge will enable residence customers to have several telephones installed or changed at one time for the single service charge.

Established 1896 by Claude V. Hall. Entered as second class mail at the post office at Floydada, Texas April 10, 1907 under the act of Congress of March 8, 1879.

NOTICE—Any erroneous reflections upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of The Floyd County Hesperian will be corrected gladly upon its being brought to the attention of the publishers.

SAVE THAT SECTION with the number on the front of it from this issue of The Hesperian. It may be worth several dollars of merchandise to you if you bring it to a Floydada merchant sometime between now and next Monday. If you can match that number with one posted in the participating stores here, it's worth up to \$129.95! Bring your number and come into Floydada... it will be a rewarding trip whether you find your "lucky number" or not, because Floydada merchants have their stores loaded with best buys for the Christmas shopper.

I GUESS IT WAS back in the early 1940's that I stood in line at the Plainview auditorium to see the "Tennessee Plowboy"... Eddie Arnold put on an hour and a half show that was really something. He was number one then in the Western singing field... and he continually comes back to the top or near the top.

Back then, Eddie sang with his guitar and string band. Now, he's shown an extreme amount of versatility... as he will be singing in Amarillo Saturday night, accompanied by the Amarillo Symphony.

Yessir... Eddie's come a long way... from the handle of the plow in Tennessee!

I SUPPOSE WE have some sort of typographical error about every week... and last week's was a humdinger... it was certainly embarrassing to me.

The joke that we attempted to run in this column should have read, "Young Lad on knee of department store Santa: 'Notice one thing... 'I'm adequately clothed.'"

Well, I thought it was a fairly good joke... until I read it in this column and a "Y" had been added to the word "Lad."

I ATTENDED THE cotton farmer breakfast at the Lamplighter Inn Wednesday morning. Learned a lot about the cotton referendum and about cotton production marketing and promotion problems.

One interesting thing I learned from the meeting... both Texas Senators Yarborough and Tower voted for this law when in came before Congress... so it must be okay!

NOW AND THEN we come across some interesting names in our stories... one of particular interest this week is in the Dougherty News... "Pinto Bean". Think there's a person by the name of Gray Bean also in this area?

TWO THINGS seem to be in favor of the Floyd cotton farmer for next year... first, he will have a little more lint poundage on his history of production and second, some changes that have been made on the 1967 program.

Duane Howell in the Lubbock Avalanche Journal makes these observations about the 1967 program:

Part of Price of Cotton

Under the cotton section of the Agricultural Act of 1965, these payments constitute what amounts to a part of the price of cotton at the farm level.

The law is worded so that these payments must be increased as the price support loan rate declines. Production payments are made on the so-called "domestic allotment," which for 1967 again is 65 per cent of a farm's effective allotted acreage.

Price support and diversion payments on the South Plains this year amounted to more than \$125 million, a figure which will be especially bolstered next year by the increase of about \$10.55 per bale in the production payments on the domestic allotment.

These payments are made on projected yields, which in many instances were higher than the actual production on this year's freeze-shortened crop. The payments this year saved many a weather-struck cotton farmer.

Contributing to a greater over-

all total in cotton payments next year will be the fact that projected yields for the 23-county South Plains area, on a weighted average basis, have been boosted from 513 pounds in 1966 to 542 pounds per acre for 1967.

Income Outlook Improved
Everything considered a and again not taking into account the presently unknown factor of

quality differentials in the loan, most observers here agree the cotton farmer will face a better income situation in 1967 than he had in 1966.

In the past, these quality differentials have been based on happenings in the nation's 14 spot cotton markets in a nine-month period from August through April.

The precise quality differentials thus usually aren't announced until about the first of May, when the crop to which they are to apply is being planted.

It's not likely that the exact differentials will be announced any sooner this time, although

some inkling of what the USDA might have in mind in a purported effort to make the spreads "more realistically reflect actual spinning values" could come to light in the near future.

There is considerable disappointment that no move was made to encourage at least some increase in plantings for 1967 in view of this year's extremely and unexpectedly short crop, which some observers now doubt will top a national total of about 10 million bales.

Some cotton officials, however, would about as soon get the surplus reduction over in a hurry to hasten the day the overall industry can move down the road to recovery without burdensome surplus stocks overhanging the market.

All-in-all, the basic details of the 1967 cotton program contained no real surprises.

VETERANS ASK
EDITOR'S NOTE: Veterans and their families are asking

thousands of questions concerning the benefits their Government provides for them through the Veterans Administration. Below are some representative queries. Additional information may be obtained at any VA office.

Q. - My husband is a World War II veteran. We have been married six years. But he still lists his mother, who is well-to-do as his sole beneficiary in his \$10,000 G. I. insurance.

Is there anything I can do to change it? I have any more.

A. - Legal Administration proceeds of G. I. the beneficiary of a veteran.

Q. - I entered the service April 15, 1942. I was discharged May 15, 1945. I got a home school at the time.

Whirlettes Beat Petersburg, Lose To Springlake

Although the Floydada Whirlettes played a reasonably good game against the Springlake girls last Tuesday night, they just weren't on with their shots and lost the contest 57 to 41. Janice McNeill was top scorer for the Whirlettes with 13 points, close behind was Cindy Ward with 12 points. Springlake led 25-19 at the half...Floydada never could get ahead in the contest.

PETERSBURG GAME

The Whirlettes had no trouble defeating Petersburg Saturday night 56-38. Sally McIntosh was hitting the basket with ease and led the scoring with 29 points. Marilyn Harris scored 19 points.

Becky Miller was hustling and made 12 rebounds. Although the game was pretty much Floydada all the way, the locals hit only 15 of 30 free throws.

Petersburg was ahead 13-12 at the end of the first quarter, but Floydada was ahead 2-19 at half.

ENTER TOURNAMENT

The Varsity boys team enters the Plainview tournament play today at 9 p.m. with the Plainview team.

Chadwick Wins Texas Super Stock Championship

Makes Semi finals In Long Beach

FLOYDADA'S KELLY CHADWICK sets a record in his Chevy II. Many times the front wheels lift off the track as the 427 engine generates up to 900 horse power on the drag.

Kelly Chadwick won the Texas State Super Stock Championship at San Antonio Thanksgiving Day with his Chevy II and set a new track record of 1000 feet in 7.80 seconds. This is the second time in three years that Kelly has won the championship.

LONG BEACH RACES

On Saturday night Kelly ran his Chevy in the top ten super stockers at Long Beach California. The top ten stockers of the east ran the top ten of the west. Kelly represented the west and defeated Pee Wee Wallace of Richmond, Virginia in three straight runs of a quarter mile. Pee Wee was racing a Plymouth.

On Sunday the cars were divided into two brackets...over and under 2500 pounds. Kelly's Chevy II fell in the over 2500 pound class. Each group had 16 of the nation's best.

Kelly was runner-up in his class to the Melrose Missile, a Plymouth from Oakland, California, losing in the final round for the National Championship.

In the semi-final race Kelly set a record low elapsed time for the class and top miles per hour at 9:20 (151.50 miles per hour.)

This was the fastest the Chevy has ever run weighing this much.

On the final run the front wheels came up higher than usual and the car hit a slick spot, causing Kelly to have to ease out of the throttle, giving the Melrose Missile the margin he needed for the win.

ODESSA, DEC. 10

The people of West Texas will have an opportunity to see Kelly race at the new Odessa Raceway Park December 10 when he will race the nationally famous Shirley Shahan, the nation's only woman Super Stock driver.

COUNTY AGENTS CORNER
by Joe Wilson

Every eligible Floyd County farmer should vote in the upcoming election concerning the Cotton Referendum and promotion Act. The voting will take place the week of December 5-9 and will be handled by the Floyd County A.S.C.S. office by mail. Office manager Tom Moore stated that ballots would be mailed from his office Friday December 2 and should be returned to his office so that it is post marked by 12 midnight Friday December 9. The ballot must be signed by the voter to be valid. Moore also stated that eligible voters include all owners or operators that had cotton proceeds in 1966. This does not include farmers that cash leased their cotton land, he states.

In case a farmer does not receive a ballot and thinks he is an eligible voter he should contact the ASCS office in Floydada.

Farmers have had every opportunity to become familiar with this act through local meetings, area meetings and excellent news paper and magazine coverage as well as radio and T.V. reports. It is your duty and privilege to vote whether it is for or against but please exercise your right in the election.

With the arrival of cold weather when most plants turn brown home owners often forget to water their evergreen plants. The last good measurable rain received in Floyd County was in September so if you have not watered your plants lately it would be advisable to do so. Much cold injury to plants can be avoided by keeping them adequately watered during the winter months.

Lee Mathis and Mr. and Mrs. Russell Overturf.

The group presented the couple with fishing equipment.

The Scribners, who are members of the City Park Church of Christ, were also honored by church members with a dinner and were presented a bedspread and lamp. Mrs. Scribner was given a salad supper and a gift by the women of the church, and the Bible teachers presented the couple with a Cuidens Concordance. Mrs. Scribner also received many gifts from neighbors of theirs. Before moving they resided in the rent home of the P.L. Ormans and Mrs. Scribner commented, "the Ormans are wonderful people and we hate leaving them as we do all our dear friends here". She continued "the townspeople received us so graciously when we moved here and its like leaving a town in which we grew up in".

The couple are returning to Japlin, Mo. They lived nine years in St. Louis before coming to Floydada. They have recently built a new home in Joplin and moved in Tuesday of this week.

Their future plans call for a lot of fishing, bowling and hunting of which both are very interested and later may be venturing into a new business. After getting settled they plan to take a trip to Florida to visit relatives, mainly a sister and brother who reared Scribner when he was orphaned at the age of 13.

Mr. and Mrs. Scribner have one daughter, Mrs. Joe Rowland of Kansas and three grandchildren.

Before departing Floydada the couple extended their sincere thanks and appreciation for the love and friendship given them their five years here.

Half Century Of Marriage Has Adventurous Beginning

By MRS. MAX MARBLE

LOCKNEY - On a brisk fall night in 1916, the bedroom window opened, screen unclipped, and the bride-to-be slipped out the window. Wanting to take her to a nearby car were the future bridegroom and his brother.

The bride was Miss Viola Berryhill Mobley and her bridegroom was Wayne B. Mullins. Date - Nov. 28, 1916. Place - Lubbock.

This activity had been planned days before and kept very secretive by the couple's friends and several of their school teachers.

Home of Mrs. C. C. Lindsey in Lubbock was scene of the mid-night marriage performed by J. T. Strickland, a Lubbock Church of Christ minister. It was witnessed by several school teachers and two carloads of school chums. The newlyweds returned to school the next day.

Early Homes
Their first home was on a farm near Lubbock. Later they moved into town where Mullins was employed at a drugstore. A big move soon came and the couple lived in South Dakota and then Wyoming several years. Many happy memories remained behind at Lubbock and they returned there for two years before transferring residence to Brownfield where they resided 21 years.

In 1947, Mr. and Mrs. Mullins purchased a farm at Sterley in

Floyd County and moved there. Only two of the couple's seven children were still in school. They were Rita and Barbara, both of whom were graduated from Lockney High School. Rita later married R. V. Webster and Barbara married Joe Cunyus, both of Lockney and the families still live here.

Other children of the Mullins' are Wayne Mullins of Brownfield; Mrs. B. H. (Auida) Denton of Ruidoso, N.M.; Carl Mullins of Houston; Mrs. G. L. (Pauline) Bryant of Odessa; and James Mullins of Pampa. They have 13 grandchildren.

History
Mrs. Mullins was born at Honeygrove and came to the Lubbock area in 1905. Her hobbies include reading, tating and other "fancy work."

Mullins was born at Parvin in Denton County and moved to the Lubbock area in 1900 with his parents. He lists his hobbies as raising Tennessee Walking Horses and German Shepherd dogs.

Joint hobbies shared by the couple include horseback riding, raising chickens and caring for their two "grandma" turkeys. "Grandpa" turkey died since last Thanksgiving and has been greatly missed during this festive season.

Supplies and equipment for this test are furnished by the West Texas Tuberculosis Association. The state supplies the medicine. The actual testing is done under plans which vary from school to school. By state law, all first and seventh graders must be tested. When a positive reaction is discovered, the child, his immediate family and all close associates also are checked for symptoms of active tuberculosis.

In one West Texas school, a young first grader showed a positive reaction. Her family was notified that the WTTA mobile x-ray unit would be close by on a specific date.

"For your own protection and that of your family, please have this child and all her close contacts x-rayed."

The school nurse made sure the family understood. This was a family of means. Not great means, but the father had a steady job and the children worked after school and on weekends in the field. This helped. While the father could

Mullins suffered a heart attack in 1959 and was compelled to retire from farming. The Mullins still live on the farm but rent their land.

Tea Honorees
Mr. and Mrs. Mullins were honored earlier with a golden anniversary tea in the R. V. Webster home. The event was hosted early to enable their son, James Mullins to attend. He was leaving for Holland to set up a Cleasense Laboratory.

Hosts for the tea were the couple's children and their families.

A surprise of the day was a visit from Mr. and Mrs. Z. O. Faughn and children of Ozan, Ark. Faughn lived with the Mullins family in Brownfield and attended school. After his completion of school, he remained with the family for a time and worked in Brownfield. The honoree's children arranged for the surprise visit.

Not pay the full price for a clinic x-ray for each member of the family, he was a man of pride. He paid the cost of each x-ray taken by the WTTA mobile unit.

Nervously, the family waited for the results, and these results were shocking. All but one small pre-school child had active tuberculosis.

The results could have been more shocking. This family stands a better than even chance of full recovery, of long life and health for all its members because one small child in the first year of school had the tuberculin skin test required by law.

This law in the Texas Plan for the Eradication of TB, The first part of the Plan is for the control of TB. The tuberculin skin tests for school children is a primary part of this control.

The West Texas Tuberculosis Association, as a part of the Texas Tuberculosis Association used Christmas Seal contributions to lobby for this Plan... just as Christmas Seal funds were used to lobby for a law against spitting in public. This effort already is beginning to pay back Christmas Seal supporters in better health protection for them and for their communities.

Five Of Six In Family Hit By TB

(Editor's Note: The following is one of a series of articles prepared by the West Texas Tuberculosis Association to remind the people it serves in 23 West Texas counties that Christmas Seals do a continuing job all year long. Where case histories are used, identities and locations are disguised to protect the privacy of individuals.)

Five out of six, that's usually looked on as pretty good odds. When it's five out of six members of one family to have tuberculosis, the outlook changes.

These were the figures discovered, however, as the end result of a chair in events begun when first grade students were given the Heaf tuberculin test in a West Texas school.

Letters To Ann

Dear Ann, I have a very serious problem. Year after year I buy Christmas presents for my husband, but he never really seems to appreciate or has any real use for the gifts. What should I do? Should I give up on buying presents or what? Disappointed

Dear Disappointed, Buying a gift for a husband, or for anyone, is sometimes quite a problem. No, you should not give up. One thing for sure, if your husband plays golf you can find any number of gifts for him at the Floydada Country Club Golf Shop. Either Bobby Westfall or Tex Morren will be glad to assist you in any way they can. They know what golfers need most. Call them at YU 32769. ADV.

Miss Denison Is Bride Of Lynn Ray Musslewhite

Janice Eileen Denison of Brownfield became the bride of Lynn Ray Musslewhite of Abilene in a double ring ceremony read November 23 at 4 o'clock in the First Baptist Church chapel in Brownfield.

Rev. Ed Crow performed the wedding before an arch of greenery flanked by baskets of white gladioli and palms.

Mr. and Mrs. C.W. Denison of Brownfield, former Floydada residents are parents of the bride. She is also the granddaughter of Mr. and Mrs. C.W. Denison Sr., of Floydada. Parents of the bridegroom are Mr. and Mrs. W.L. Musslewhite of Abilene, former Lubbock residents.

Jerry Gannaway, organist, accompanied Dale Durham as he sang "The Greatest of These Is Love" and "The Wedding Prayer".

Given in marriage by her father, the bride wore a full length gown of candlelight pearl de sole with a detachable chapel length train. The empire waistline and skirt front was accented by lace and seed pearls which also bordered the train. Petal point sleeves complemented the bodice. Her tiered veil of illusion was attached to a headpiece of bridal leaves and seed pearls. She wore a single strand of pearls and carried a white orchid surrounded by white roses atop a white bride's Bible.

Carol Denison, Brownfield, sister of the bride was maid of honor. Mike Hale of Lubbock was best man.

The feminine attendant wore a street length dress of peacock blue peau de soie styled with an empire waistline and long sleeves. Her hat consisted of matching roses with a demi veil. She wore peacock blue shoes and carried a nosegay of tiny white mums and peacock blue net.

Ushers were Bob Denison, Lubbock, brother of the bride and Larry Musslewhite of Abilene, brother of the groom.

A reception followed the wedding in Fellowship Hall of the church. The couple were accompanied in the receiving line by their parents, Mrs. Darne Ritchey of Lubbock registered guests and presiding at the table were Mrs. Odie Summers of Levelland and Miss Joyce Sitton of Idalou. All are cousins of the bride.

of the bride, Rex Lawson, Mark Goen and Tandy Johnston of Lockney.

A reception followed the wedding in the home of the bridegroom's parents, 629 W. Lee. The bridal table was covered with pink net over a pink base and was caught at intervals with bows. A three tiered wedding cake and punch were served from silver and crystal appointments. The attendant's and bride's bouquets were used at the base of a crystal candelabra which formed the center arrangement on the table.

Mrs. Bill Stephens of Fredrick, Okla., aunt of the bride, presided at the register table which was highlighted by a rice tree holding tiny pouches of pink rice given each guest.

Mrs. Ned Bradley served cake and Mrs. Tom Porter presided at the punch bowl. Other members of the house-party were Mrs. Robert Kerr, Lubbock, Mrs. W.H. Eubanks, Richardson, Tex., Mrs. G.B. Johnston, Lockney and Mrs. Aldine Williams, Floydada, all aunts of the groom; Mrs. K. B. Stephens of Big Spring, aunt of the bride and Mmes. Grady Walker, James Jordan, George Elkins and Mrs. L.D. Smith all of Floydada.

Following a wedding trip the couple will be at home in Un-

The table was laid with a white appliqued cloth of imported linen and held a centerpiece of a silver cornucopia filled with white fruit and puffs of peacock blue net. Peacock blue tapers in crystal candelabra with crystal appointments completed the setting.

After a wedding trip to Ruidoso, N. Mex., the couple returned to Lubbock where they reside at 2420 22nd St. For traveling the bride wore a three piece wool knit suit of ivory and burnt orange with brown accessories.

Mrs. Musslewhite teaches at Mackenzie Junior High School in Lubbock and her husband teaches at Alderson Junior High in the same city and is working on his masters degree at Texas Tech.

Mrs. Musslewhite is a 1962 graduate of Brownfield High School and a 1965 graduate of Hardin-Simmons University where she was a member of Alpha Chi, Sigma Tau Delta, Epsilon Eta Phi and TSEA. Her husband is a 1957 graduate of Abilene High and a 1961 graduate of Abilene Christian College.

Parents of the bridegroom were hosts for the rehearsal dinner at their home Thursday night for members of the wedding party.

Miss Seago is a graduate of McMurry College and is employed by First National Bank in Abilene. The prospective bridegroom is stationed at Dyess AFB in Abilene, having returned recently from Viet Nam.

The Seago family are former residents of Floydada. Rev. Seago was pastor of the First Methodist Church here.

FLOYD DATA Mrs. Lewis Jones recently sustained a broken foot and is in Lockney General Hospital for several weeks treatment. The break was in the ankle bone and her leg has been placed in a cast.

Mr. and Mrs. W. D. (Dave) Standefor, 400 Bryan Street, in Plainview, were honored Sunday afternoon with a reception in the Coach Room of the Alcove Restaurant in observance of their Golden Wedding anniversary.

Their four sons and daughters-in-law and their son-in-law and daughter were hosts for the party. They are Mr. and Mrs. Nelson Standefor and Mr. and Mrs. Weldon Standefor of Houston, Mr. and Mrs. Frank Standefor of Lubbock, Mr. and Mrs. Nick Farris of Midland and Mr. and Mrs. Dick Standefor, Plainview.

Decorations

The refreshment table featured a floral arrangement bearing names of the honored couple and the dates, 1916-1966. Completing the appointments was a crystal punch service and three-tiered wedding cake.

Mrs. Genevieve Bourland of Canyon and Mrs. Howard Standefor, Plainview, nieces of the couple, and grandchildren assisted with hospitalities.

Biographies

Mr. and Mrs. Standefor have lived in Plainview and this area since childhood. Mrs. Standefor, the former Myrtle Ruth Nelson, and Standefor met in Matador July, 1914, and married in Plainview Nov. 26, 1916.

When a small girl Mrs. Standefor moved with her parents, the late Mr. and Mrs. E. C. Nelson of Floydada, to Plainview where her father was superintendent of schools from 1907-1910. The family then moved to Floydada where Nelson became president of the bank.

Standefor, as a boy, lived in Matador. In 1947 he established Standefor Realty here, which he still owns and operates.

Attending the reception from Floydada were Mr. and Mrs. S.W. Ross, Mrs. E.P. Nelson, Mrs. H.O. Pope, Mr. and Mrs. Jack Henry, Mr. and Mrs. Frank Harmon and Mr. and Mrs. W.R. Daniel.

56 Club Meets

Members of the 1956 Study Club met with Mrs. Laron Fulton November 22. Mrs. Bill Hardin brought the invocation and roll call was answered with "Someone We Might Share with at Thanksgiving."

Club president, Mrs. Bernice Parkey, was in charge of the business session during which time the financial report was given, and a new member, Mary Day, was welcomed. Members agreed to give the remainder of clothing left from

their rummage sale to the Community Clothing Center. They were reminded to bring cash donations to their next meeting which will be contributed to the Wichita Falls State Hospital and to also take discarded toys to the Methodist Church in Floydada as soon as possible. These items will be made ready for distribution to needy children at Christmas.

Their next meeting is December 13 in the home of Mrs. Herman Galloway for the club's annual Christmas party.

Attending Tuesday night's meeting were Mmes. Charles Chandler, Herman Galloway, Gordon Hambricht, Bill Hardin, Ray Johnson, Roy Kinard, Norman Muncy, Glad Norman, Bernice Parkey, A. C. Pratt, Charles Reid, Jakey Younger, Mary Day, and one guest, Marsha Carlton.

Ewing was minister of the City Park Church of Christ in Floydada before returning to his work in Africa. The address is P. O. Box 3718 Windhoek, S. W. Africa.

FLOYD DATA Mrs. Ralph Mardis is now home from a Lubbock hospital and recovering from surgery.

FLOYD DATA Mr. and Mrs. L. J. Welborn are at Falcon Lake this week where they are enjoying a few days of fishing.

MRS. LARRY NOLAN BRAND (Neé Donna Sue Baker)

Baker, Larry Brand Exchange Twin Ring Vows

Traditional blue wedding garter belonging to Dee Wilson. Something new was a single strand of pearls, a gift from the groom, something borrowed was an early day wedding band belonging to Mrs. J.E. Elza. She wore a six pence in her slipper, a gift from Jancy Ginn, which she secured in Europe last summer.

Long stemmed red roses were removed from her bridal bouquet as she entered the church and presented to her mother and the bridegroom's mother as she departed.

Miss Juanita Stewart was maid of honor and bridesmaids were Misses Connie Reed, Camilla Nash and Jancy Ginn all of Floydada. Candlelighters were Misses Linda Williams and Dee Wilson. They wore formal length gowns of azalea red lined georgette, fashioned with bateau necklines, long sheer sleeves, empire bodices and soft gathered column skirts. The backs were accented by bows from under which a flowing loose panel flowed to the hemlines. Matching headpieces of leaf clusters and illusion were worn by all with the exception of candlelighters.

Each carried cascade bouquets of soft pink carnations showered with azela colored maline and satin streamers of matching color. Candlelighters wore flower wristlets.

Littis Miss Jana Sue Elza was flower girl. She wore a formal length petal pink sheer lined dress designed with a bateau neckline, cape sleeves and empire waistline. An embroidered band extended from the waistline front of the A line skirt. The skirt back fullness was caught up by a single small bow. She wore a wristlet of feathered pink carnations and carried a lace over satin flower basket and scattered azalea petals along the aisle to the wedding altar.

Toynette Smith secured names of wedding guests.

Kenneth Huckabee of Floydada served his cousin as best man. Groomsman were Jimmy Oden, James McKinney and Robert Weems.

Serving as ushers were Charles David Baker, brother

of the bride, Rex Lawson, Mark Goen and Tandy Johnston of Lockney.

A reception followed the wedding in the home of the bridegroom's parents, 629 W. Lee. The bridal table was covered with pink net over a pink base and was caught at intervals with bows. A three tiered wedding cake and punch were served from silver and crystal appointments. The attendant's and bride's bouquets were used at the base of a crystal candelabra which formed the center arrangement on the table.

Mrs. Bill Stephens of Fredrick, Okla., aunt of the bride, presided at the register table which was highlighted by a rice tree holding tiny pouches of pink rice given each guest.

Mrs. Ned Bradley served cake and Mrs. Tom Porter presided at the punch bowl. Other members of the house-party were Mrs. Robert Kerr, Lubbock, Mrs. W.H. Eubanks, Richardson, Tex., Mrs. G.B. Johnston, Lockney and Mrs. Aldine Williams, Floydada, all aunts of the groom; Mrs. K. B. Stephens of Big Spring, aunt of the bride and Mmes. Grady Walker, James Jordan, George Elkins and Mrs. L.D. Smith all of Floydada.

Following a wedding trip the couple will be at home in Un-

iversity Gardens apartments in Lubbock, where the bridegroom is a junior at Texas Tech, majoring in mechanical engineering.

Both Mr. and Mrs. Brand are graduates of Floydada High School.

Parents of the bridegroom were hosts for the rehearsal dinner at their home Thursday night for members of the wedding party.

Members of the 1956 Study Club met with Mrs. Laron Fulton November 22. Mrs. Bill Hardin brought the invocation and roll call was answered with "Someone We Might Share with at Thanksgiving."

VISITING COLLEGIANS---The McMurry College Indian Band will appear in Floydada Wednesday, Dec. 7, at 9:30 a.m. for a concert in the high school auditorium. Band officers who take many responsibilities in

order to help Director Raymond Bynum during the tour are (left to right) Russell Mason, Sarah Brown, and Robert McClellan. The Indian musicians are well-known for their novelty numbers and showmanship.

McMurry College Band To Perform Here Next Week

McMurry College's Indian Band will present a program that ranges from classical to comedy when they appear in Floydada High School Auditorium Wednesday, Dec. 7, at 9:30 a.m.

The Indian musicians will perform in Floydada while on a four day tour that includes eight West Texas cities and towns.

Under the direction of Dr. Raymond Bynum, well-known West Texas Bandmaster, the collegians will present a program of overtures, South American numbers, and a prominent display of showmanship and comedy.

Novelty numbers are a tradition with the McMurry musicians. Another tradition of the band is to end each concert with a stirring rendition of the "Stars and Stripes Forever."

This year new comedy numbers are added. A specialty of the Indian musicians is the use of unusual instruments such as post horn, Latin American instruments, and English Hand Bells. The program will feature a trio for French horns, a trio for trumpets, a trio for

trombones, a quartet for saxophones, a solo for post horn, and a baritone solo.

Dr. Bynum, one of the best known bandmasters in the Southwestern United States, is one of the five Texans who hold membership in the American Bandmasters Association, an organization limited to 127 outstanding band directors throughout the country. He organized what is thought to be the first all-student high school

band in Texas. His influence on the lives of students was apparent recently when Abileneans honored him at a half-time show in the football game between Abilene Christian College and McMurry College and he was honored by educators of many schools and ex-students. Telegrams of congratulations were read from the American Bandmasters Association, the Texas Music Educators Association and many other music organizations.

Recent Death Of Joe Green

Word was recently received here of the death of Phillip J., or Joe Green, 79 year old former resident of Floydada, who died early in the a.m. August 15, 1966 at his home, 641 Greenland Rd., Lewisville, Tex. He had been in ill health for some time.

Funeral rites were conducted at Lucas Wright Funeral Home Chapel with interment in the Old Hall Cemetery in Lewisville. Dick Kerr of University Place, Church of Christ, officiated.

The deceased's sons served

as pallbearers. Green was born April 29, 1887 in Denton County and was

Burrow In Navy Training

SAN DIEGO, CALIF. (FNT-NC) Nov. 17—Seaman Recruit Michael Y. Burrow, USN, son of Mr. and Mrs. Tom Burrow of 302 S. Fifth St., Floydada, Tex., is undergoing nine weeks of basic training at the Naval Training Center here.

He is receiving instructions in Naval customs, courtesies and organization, ordnance and gunnery, seamanship, damage control, first aid, swimming and survival, shipboard drills and sentry duty.

A program of physical fitness, military drill and inspections keeps the recruits mentally and physically alert during their training.

His Navy Classification tests will determine whether he will be assigned to a school, shore station or ship after his graduation.

well known in Floydada having lived in the Baker community and married Miss Lillian Young, public school teacher of Floyd County from Lockney June of 1909. The couple made their home in Floydada during which time Green was a book-keeper at the First National Bank here.

An open house honoring the couple was held June 20, 1959 in Lewisville in observance of their Golden Wedding anniversary. They often returned to Floydada to celebrate the Old Settlers reunion by the pioneers of Floyd County.

Survivors include his widow, Lillian; seven sons, Elton of Cordova, Tenn., Ernest of Valdosta, Ga., John of Dallas, Clois of Fort Lavaca, Dell of San Jose, Calif., Henry of Austin; two daughters, Mrs. Nila Jo Meador of Dallas and Mrs. Nila Woodall of Fort Worth; two brothers, Martin Green, Seagraves and Wilford of Fresno, Calif.

Also surviving are 27 grandchildren; five great grandchildren, several nieces and nephews. Mrs. J.H. Green of Floydada is a sister-in-law of the

GI School Bill Explained

Most veterans attending school under the new GI Bill have received their first checks, but if you're one who didn't and fail to receive your check due this week, it's possible you failed to do your homework, the VA told veteran students today. VA Regional Office Manager, Jack Coker, urged those students who fail to receive checks due this week to:

1. Make sure that the notice of enrollment, which must be filled out and mailed by the school, has been sent to the VA by the school.

2. Make sure the certificate of attendance, which the veteran must fill out and send to the VA, has been mailed.

3. If there is any question about payment, contact the nearest VA Office. The VA pointed out that it was not necessary for the veteran student attending college to send in his certificate of attendance for the first month since VA accepted the college's notice of enrollment as basis for paying the first check. However, the VA emphasized, all subsequent checks will be withheld until the student's own certificate of attendance is received. VA officials, recalling past experience with the GI educational programs of World War II and the Korean Conflict, pointed out that a "shakedown period" was necessary before the payment machinery was functioning smoothly. It is possible that a few checks have been delayed by administrative or machine errors, but it is anticipated that these will be limited, according to the VA. Failure to receive checks can be blamed mostly on the delay in receiving the necessary certificates, it was pointed out. The veteran student must send in the certificate of attendance this month. VA Manager Jack Coker urged students who have any misunderstanding, or who have had checks delayed, to contact the nearest VA Office so that problems may be cleared up.

Two cannibals met in an asylum. One was tearing out pictures of men, women and children in a magazine, and eating them.

"Tell me," said the other, "is that dehydrated stuff any good?"

4-H Club Shown Ireland

The Floydada 4-H Club met Nov. 17, for their monthly meeting. The program for the evening was presented by County Agent Joe Wilson. Joe talked and showed films of his trip to Ireland as an exchange student with the International Federation of Youth Exchange.

It was decided to have the December meeting in the community room of the First National Bank at 7:00, December 16. Each member is to bring a gift of \$1 or less and at least one can of food. George Finley will be in charge of games.

CHARLIE GRANT IN CRITICAL CONDITION

Charlie Grant, former long-time Floydada and South Plains community resident, lies in a critical condition in an Oklahoma City Hospital the results of a vehicle crash near his home in Woodward, Okla., on Nov. 17. Grant is said to be still unconscious and the family has been given very little hope for his recovery.

While in Floydada Grant was a carpenter. They moved to Woodward last year.

The G.E. Trimble family at South Plains, who has two sons who are married to Grants daughters, visited in Oklahoma over the weekend with their children and were told that Grant was enroute home from work in the oil fields when the mishap occurred. It was understood his pick-up hit a bridge abutment, bounced off and then careened into a tree. Grant was alone at the time of the accident.

He is in room 2084, St. Anthony Hospital, Oklahoma City.

MCGUIRE CRITICAL FOLLOWING WRECK IN SPRINGFIELD

Word has been received here by friends that Robert McGuire, Anton merchant and former Floydada resident, remains in a critical condition in St. John's Hospital in Springfield, Mo. McGuire was injured there Friday morning in a car wreck. He underwent brain surgery Friday night and has not regained consciousness, however doctors feel this is in his favor.

Mr. and Mrs. McGuire, accompanied by their son, Bob, were in Springfield to visit their other son, Don and family for the holidays. Friends said the McGuire was leaving his son's house to take the car to be serviced and it was struck by another vehicle as he was backing it from the drive. He was thrown from the car sustaining a head injury, which later developed a blood clot, requiring the operation.

Merriott visited in Floyd County on a number of occasions and were well known in this vicinity.

Mrs. Merriott had been ill for some time.

Rites were to be conducted yesterday.

FLOYD DATA

Sam Lide underwent surgery yesterday morning in an Amarillo Hospital to repair a nerve in his face. It is not known at this time just how long he will be in the hospital.

RITE HELD FOR MRS. PURCELL

Funeral rites were conducted Tuesday for Mrs. Minnie Purcell, mother of Cecil and Grady Purcell of near Quitaque, who was found dead of natural causes Sunday in her home at Quitaque. Rites were held in the First Baptist Church in that city.

Mrs. Purcell, 85, had been a resident of Quitaque for the past 16 years. She was born in Walker County, Ala.

Survivors include seven sons; three brothers; two sisters; 29 grandchildren; 50 great grandchildren and two great great grandchildren.

DEATH OF MRS. MERRIOTT LEARNED

Word was received here Monday night by Mr. and Mrs. Jack Henry of the death of Mrs. E.W. Merriott of Wichita Falls, whose late husband was connected with the Stringer estate in Floydada. Mr. and Mrs.

Ownership High In Floyd County

This compares favorably with the ratio throughout the United States generally, where car ownership is at the rate of 130 per 100 families. It averages 133 per 100 in the West South Central States.

The figures are contained in a study of consumer markets, released by the Standard Rate and Data Service. It covers all parts of the country.

Nationally, it shows, new cars are appearing on the scene at a much faster rate than babies are being born. The ratio is more than two to one.

The steady rise in car ownership reflects the economic

gains that have been attained by a majority of the people. Their incomes have been rising and, therefore, their ability to spend more money for cars.

A major factor in the boom, also, has been the teen-ager and his eagerness to get behind the wheel of a car — any kind — the instant that he gets his license to drive.

To satisfy this urge, in many families the used car is being turned over to junior instead of being traded in when a new one is bought. It has led to a sharp increase in the number of two-

car families.

In Floyd County, the figures show, passenger car registrations have increased 13.3 percent since 1963. The number in operation has climbed from 4,650 to 5,270 in the three years.

The amount of money being spent for the purchase and maintenance of cars has also grown by leaps and bounds.

The expenditures in local service stations alone, for gas, oil, repairs, and incidentals came to \$1,989,000 in the past year, the SRDS report shows.

News for Homemakers

BY SHERRY MULLIN

FLOYD COUNTY H.D. AGENT

Fruit cakes are as much a part of the tradition of Christmas time as youthful carolers and the aromatic scent of pine. Make fruit cakes ahead to avoid the last minute rush of activities and to give as gifts. Here is a recipe for those people who do not like candied fruit. You might like to try it for a change.

GERMAN FRUITCAKE
 3/4 cup butter or margarine
 2 cups sugar
 4 eggs
 3 cups flour
 1/2 teaspoon allspice
 1/2 teaspoon cinnamon
 1/2 teaspoon nutmeg
 3/4 teaspoon soda
 1 cup buttermilk
 2/3 cup cherry preserves
 2/3 cup apricot preserves
 2/3 cup pineapple preserves
 1 cup chopped pecans
 1 teaspoon vanilla

Cream butter or margarine, sugar and eggs until light. Sift dry ingredients together. Add to creamed mixture alternately with buttermilk to which soda has been added. Fold in remaining ingredients. Bake in two 9x5x3 greased and floured loaf pans or one large tube cake pan at 325 F for 1 1/2 hours. Cool in pans 15 minutes before removing.

CANNING FRUIT CAKE
 Grease or line plain tin cans with waxed paper. Fill cans with batter 1 inch from top. Tie heavy brown wrapping paper which has been greased on top of the cans to keep water out during steaming. Place cans in pressure canner which contains about 3 inches of boiling water. Fasten lid, but leave petcock open. Steam No. 1 cans 60 minutes and No. 2 cans 75 minutes. Remove paper covers from cans; seal and place cans back in the canner. Process at 10 pounds pressure for 30 minutes. Fruit cake packed in a No. 3 can is difficult to cook done to the center. If attempted, add 25 minutes steaming and 15

minutes processing time. Plum puddings need 2 or 3 inches head space. Steam the same as for fruit cake, but if canning, process 15 minutes at 10 pounds pressure.

DECORATING FRUIT CAKE
 Cakes may be decorated by placing extra pieces of fruit or nuts on the top either scattered or in a set design. Add decorations when the cake has almost finished cooking because fruits and nuts tend to discolor in the oven. Fruit may be added after the steaming period if the cake is steamed or when the glaze is put on an oven-baked cake. If the surface of the cake is dry, dip the decorations in egg whites or corn syrup to make them stick.

To glaze a fruit cake, brush the surface of dark fruit cakes with a mixture of molasses and water or a light fruit cake with a mixture of honey and water or egg whites and water about 1 hour before baking time is completed.

CAKE AFTER BAKING AND WRAPPING FOR STORAGE
 After the cake is removed from the oven cool thoroughly in the paper in which it was baked. Then wrap securely in a second layer of heavy waxed paper or moisture-vapor-proof packaging materials such as cellophane, aluminum foil, plicofilm or laminated wrapping paper, and store in a tightly covered container in a cool place. Fruit cakes generally are considered best after 1 to 3 months storage.

FRUIT CAKES IN THE FREEZER
 Well-wrapped fruit cakes can be kept in the freezer for 1 year. When ready to use, remove cake from the freezer and thaw. Do not unwrap while thawing.

FROZEN FRUIT CAKE
 2 cups milk
 1/2 cup sugar
 1/4 cup flour
 1/4 teaspoon salt
 2 cups crumbled macaroons or cookie crumbs
 1/2 cup chopped candied cherries

2 eggs, well beaten
 1 teaspoon vanilla
 1 cup white raisins
 1 cup chopped nuts
 1 cup cream whipped
 Scald milk; mix flour, sugar and salt and add to milk. Stir until smooth. Cook over low heat for 10 minutes. Add small amount of mixture to the beaten eggs. Add eggs mixture to remaining milk mixture. Continue cooking over low heat until thickened, stirring constantly. Add the vanilla, raisins, nuts, crumbs and cherries. Fold in the whipped cream. Pour into a well oiled 9 inch square pan. Cover with aluminum foil. Place in food freezer or refrigerator until solidly frozen. Slice or cut in squares. Garnish with whipped cream and candied cherries.

Philosopher Asks A Question Which He Doesn't Have The Courage To Answer

Editor's note: The Floyd Philosopher on his Johnson grass farm tackles a problem this week which he is on his own with. We have nothing to do with it.

Dear editor:
 I don't want to get into a squabble, I'm just reporting the facts and if anybody gets mad at me just tell him or her, especially her, that you don't know where to get in touch with men, probably left the county, but according to an article I read in a newspaper last week, Switzerland once more has declined to allow wo-

men to vote.

The article said: "Switzerland, the last civilized country to withhold the vote from its women, will continue to do so, its male voters decided in an election Sunday. They rejected a constitutional amendment giving the country's women equal voting rights."

This was stirring around in the back of my mind when two nights later I ran across another article on Switzerland, which said it is one of the most civilized nations on earth. It hasn't had a war in hundreds of years, the people are prosperous, its banks are so good lots of people from other countries keep money there, it hardly knows what a depression is, very little crime

there, the government is efficient and democratic, it's not in debt, the schools are excellent, everybody seems happy and healthy.

As I said, I don't want to get into a squabble, but you reckon there could be any connection between Switzerland's splendid condition and the fact women there can't vote?

Understand, I'm not claiming there is. All I know is that when women were agitating for the vote in the United States, they kept arguing if we let them

vote they'd straighten out the politicians, eliminate inefficiency and graft in government, restore peace to the world, wipe out crime, end most injustices, elect better school boards, better city officials, better governors, etc., but I'm not prepared to say it all came true.

It's something to think about, but I suggest most men would do well to think about it somewhere off by themselves.

Yours faithfully,
 J. A.

Time To Get Voter Certificates

Any persons that wish to vote in any election held in 1967, must register between now and the 31st day of January, 1967. You may register at the County Tax Assessor & Collectors office in Floydada, or the City Hall in Lockney. To date there have only been 710 persons registered. There is no fee charged for issuing Voter Registration Certificates.

Only the husband-wife-father-mother-son or daughter, of an applicant may register and sign for the applicant. If application is made by mail it must be done for on special

form that can be obtained from the County Assessor & Collectors office.

Those persons 60 years of age or older prior to January 1, 1966, are not required to register in this County. Required to register in Counties with Cities of ten thousand population only.

Anyone becoming 21 years of age any time during the year must register thirty days prior to an election. If a person not yet 21, he may register but the Certificate will be marked not eligible to vote before his 21st birthday.

Devotional of the Month

"Let's Keep Christmas"

My heart was made sad about the last of August when I saw a widow display suggesting that people do their Christmas shopping then. It seems that the race for business each year pushes the commercial emphasis a little earlier. There were even a few appearances of the bearded gentleman dressed in red before Thanksgiving.

Now, don't get me wrong; I'm not against the giving of gifts at Christmas time. I just think we have given it so much emphasis that Christmas is about pushed out of the entire season.

Let's keep Christmas! I mean, let's keep the true meaning of the occasion. To do this we must remember whose birth we celebrate. It would possibly do all of us good to turn occasionally, and especially now, to the gospel of Luke and read again the story told so beautifully. "And it came to pass in those days, etc., etc." This will help us to begin our thinking in the right direction.

If we keep in mind that it is the anniversary of the birth of Jesus Christ the Lord, then surely worship would be of prime importance and desire in our hearts. Every church in our community will provide for its people and all else who would attend special periods of worship centered around the Christ who was born of the Virgin Mary.

The occasion of His birth constitutes the greatest gift ever brought to man. Paul found words inadequate to describe it when he wrote, "Thanks be to God for His unspeakable gift." If our hearts are truly surrendered to Him, the example of the wise men will be followed in each of our personal lives. After all, it is His birth we are celebrating!

Will there be other occasions of giving? Certainly! What better way could we express true Christian love in our hearts than to help those who are in need? The spirit of the season seems to demand of us that the hungry be fed, the lonely be comforted and little children be made glad. For many, someone outside the family must do this, or Christmas will be the loneliest day of the year.

Christmas is a season conceived in love. The loving heart of God the Father. Then, it seems reasonable to show our devotion to those we love in a special way during the Christmas season. It's a mighty good time to do that special favor for those we love most. This makes for a mighty good feeling in all our hearts.

This is Christmas! Let's keep its meaning ever in our hearts. Make it a time of worship, sharing, giving and loving.

CENTER NEWS by Mrs. J. E. Green

Center News Thanksgiving has come and gone with various reactions. Some were sick, some visited relatives out of town and some had homecomings. And saddest of all, it has again been demonstrated that "speed kills" more than anything else, even war! Why don't we have laws penalizing excessive speed? And enforce them?

Pastor Herbert Row and family, Calvary Baptist Church spent Thanksgiving in the Abilene area visiting in parental homes.

Mrs. Epperson also visited relatives in Abilene. Mrs. Wexler is still in Houston with a daughter who is ill.

Wiley Rogers is home from the Lockney Hospital, but still on the ailing list. Mrs. Walter Sims reports her brother, Willie Sandifur of Lockney home from a Plainview Hospital last week has had an other attack and is back in the hospital.

Mr. and Mrs. Elbert Parks are still convalescing slowly at home after a battle with flu.

Mr. Whitley had an attack of asthma last week but is better now. (Say, this gin smoke is bad on asthma and lung trouble—rather like cigarettes!)

The J.E. Greens dined in Plainview Thanksgiving Day with a son and family, the Victor Greens.

Mr. and Mrs. Leo Frizzell had at their home for Thanksgiving their daughter and family, the Garvin Beedy's of South Plains.

Mrs. W.M. Jackson with a daughter and family, the Neal Wrights, spent the holiday weekend in Amarillo visiting another daughter and family, the Orbin Carrolls.

Mrs. Doyle Sandifur made a trip to Plainview today. The Sandifurs and most other farmers out our way are about through harvesting. Weather has been so perfect for which we are thankful.

Martin Green of Seagraves spent Tuesday night with the Hal Thomases. He was in this area to attend last rites for a niece, Mrs. Mildred Nelson. Martin Green is a brother-in-law of Mrs. Thomas.

Welborn Miller of Odessa dined Friday with the Hal Thomases.

The Thomases visited Sunday p.m. in Lockney with Mr. and Mrs. Bill Thomas and Mrs. Maude Brister.

Mr. and Mrs. C.W. Denison were in Brownfield last Wednesday to attend the wedding of a granddaughter, Janice Denison, to Lynn Musslewhite. The young people are teachers in the Lubbock School System. Congratulations!

Guests for the Thanksgiving weekend at the Walter Sims home were their daughter and family, Mr. and Mrs. Charles Horton and their son Phil and wife all of or near Alvin. Son Bruce Horton of the U.S. Navy in San Diego, California joined his family by telephone at 12 noon Thursday and talked to his family and grandparents. (A thoughtful Service boy!)

Other Thanksgiving guests in the Sims home were Mr. and Mrs. Walter Horton and son Chuck of Borger, and boyfriend of Chuck's; Mr. and Mrs. O.G. Mayfield and her mother; Clarence Sisson of Lockney; Mr. and Mrs. Weldon Cumble of Lone Star; and callers, Mrs. Dale Miller and children.

The Charles Horton party left for home Sunday morning. Sunday dinner guests of Mr. and Mrs. Plumlee were a daughter and family, Mr. and Mrs. Johnny Hines and boys of Plainview.

The six year old son of Mr. and Mrs. Dale Miller was brought home Wednesday from a Plainview Hospital where he had had surgery earlier in the week. An adenoidectomy, tonsilectomy and corrected an injured nose. The boy is doing fine.

Mr. and Mrs. Roger Gooch are happy parents of a new son, Dennis Bryan, born Thursday, Mr. and Mrs. J.D. Welborn are grandparents.

Mrs. Frank Dunn writes from Houston that she has a new grand daughter, the daughter of Mr. and Mrs. Eddie Parks. The baby was born Nov. 22.

ASCS Announces Next Year's Crop Program

CROPLAND ADJUSTMENT PROGRAM: Signup for this program will start December 1, 1966 and will be on a "first come, first served" basis. The rates for Floyd County are as follows:

- Cotton 6¢ per lb.
- Grain Sorghum 41¢ per bu.
- Non-allotted land \$8.00 per acre average.

COTTON REFERENDUM: Two cotton referendums which are in no way related to each other will be held by mail from December 5 through December 9, 1966. The ballots will be mailed to you in the same envelope. Instructions for voting will be enclosed with the ballots.

MARKETING QUOTA PROGRAM

- | | | | |
|---|----------------------|-------|--|
| IF YES | | IF NO | |
| A diversion payment for participating farms | No diversion program | | |
| A price support payment for participating farms | No diversion payment | | |

Penalties for exceeding allotment

- | | |
|--|---|
| Loan for participating farms to be announced prior to the referendum | No penalty for overplanting |
| IF PROGRAM CARRIES-Diversion level will be between 12 1/2% and 35% of allotment. Price support payments will be on 65% of allotment. | Loan at 50% of parity if complying with allotment (about 21¢) |

IF PROGRAM DOES NOT CARRY - You could plant all the cotton you want and sell to anyone that wanted to buy.

RESEARCH AND PROMOTION

On this program you will be voting for or against paying \$1 per bale for use in research and promotion of cotton use and sales.

Since the vote on this issue could be determined by volume of production, producers who have an interest in 1966 cotton crop in counties other than where he will cast his ballot will need to notify the county committee of such interest by December 9, 1966 if he wishes for this production to count.

A limited number of copies of the Federal Register pertaining to this order are available at the county office for persons so interested.

ACP: Beginning with the 1967 ACP, the cost-share level for underground pipe will be as follows: "50% of the actual cost of the installed pipe."

LEASE AND SALE OF COTTON ALLOTMENT: All transactions must be complete by no later than January 3, 1967.

MEASURING SERVICE-WHEAT: \$6.00 per hour will be the charge for measuring service under the 1967 program. Producers who want this service, should apply as soon as possible.

1967 Voluntary Feed Grain Program

With feed grain supply and demand in near-perfect balance today, but with increased production needed in 1967, Secretary of Agriculture Orville L. Freeman today announced 1967 feed grain program provisions designed to divert about half as many as in 1966.

The 1967 program will be basically the same as in previous years, the changes being a higher loan rate, higher total price support, and elimination of voluntary diversion for payment except on small farms which may earn diversion payments higher than in 1966.

"This is one of the earliest dates we have ever announced a feed grain program, Secretary Freeman said. "We have made the

1967 program decisions with utmost care and after thorough study. Feed grain crops are now safe from serious freeze damage. The October crop report has given us the necessary information about U. S. production. We have estimates of foreign production that are probably as accurate as we will be able to get. The Canadian grain crop has been confirmed as a record. The Russian crop is a record. European crops are good. As to utilization, we now have good estimates for the past year and for the year ahead. Therefore, we have proceeded to make the decisions and announce them now to enable farmers to make their plans.

"More than a million feed grain producers have been cooperating in these programs annually since 1961, and their efforts have resulted in the present balance between supply and demand along with improved farm returns and stability for the livestock economy. We hope and believe that most cooperators will continue to take part in the program in 1967 and will be able to plant more acreage.

"The 1967 feed grain program has these objectives: Improved farm income; livestock prices at a level fair to producers and consumers; full development of our export potential; and maintenance of adequate but not excessive reserves."

Major provisions of the 1967 program:

1. Acreage. The program encourages farmers to divert 15-18 million acres as compared with 30 million acres of corn and grain sorghum land diverted in 1966.

2. Price support. For corn, the price-support loan is increased from \$1 to \$1.05, national average, and the payment stays at 30 cents a bushel on the projected yield of acres planted, up to 50 percent of the base acreage. For grain sorghum the loan is increased from \$1.52 to \$1.61 per hundredweight (national average), and the payment stays at 53 cents, computed as for corn. Loans are again available on all corn and grain sorghum produced on participating farms.

3. Minimum diversion. As in 1966, a farmer will divert 20 percent of his corn-grain sorghum base to qualify for price support payment and loans.

4. Diversion payment for small farms. Program provisions are exactly the same as for 1966; however, payments will be higher. Farms with feed grain bases of 25 acres or less will again be eligible for land diversion payments equal to 20 percent of support (loans plus price support payments) for the qualifying diversion (20 percent of base acreage) and 50 percent of support on any additional acres diverted, up to the total base. Producers who have bases of more than 25 acres and who divert 25 acres and plant no feed grains will be eligible for diversion payment on 5 acres at 20 percent of support and 20 acres at 50 percent of support.

5. Additional diversion for payment on other farms. Except on small farms, there will be no diversion payments. The Department seriously considered recommendations for a provision for additional diversion available to all farmers at a reduced rate. However, in view of the need for increased production and the possibility of encouraging the diversion of too much acreage, and in the interest of program simplicity the payment for additional diversion was dropped from the program.

6. Projected yields. Yields will be calculated on an up-to-date basis as provided for in the Food and Agriculture Act of 1965. For corn, the national average projected yield will be 75 bushels per acre as compared to the 72 bushel per acre projected for 1966.

7. Conserving base provisions. Conserving base and acreage substitution features continue as in 1966.

8. Soybean substitution. Soybeans will continue to be eligible for planting on permitted acreage without loss of corn-sorghum price-support payments.

9. Barley. As announced earlier, barley is not included in the 1967 program.

The program signup period will begin in early 1967. Wheat and cotton program signups will be held concurrently with those for the feed grain program.

"The success of the voluntary feed grain program has brought feed grain supplies into line with demand," Secretary Freeman said.

"As of October 1 this year, the carryover was approximately 47 million tons which is generally considered to be a desirable level. However, increased domestic use and soaring exports in the vital dollar markets of the world indicate a higher total utilization. A possible 30-million-ton carryover is in prospect for next October 1. Since a further drawdown in stocks is not desirable, production should aim to provide supplies for the 1967-68 marketing year adequate for domestic use and a continued high level of export sales, even with unfavorable weather during the 1967 growing season.

"The program for 1967 minimizes the risks of too much or too little."

1967 Cropland Adjustment Program

The U.S. Department of Agriculture announced a continuation of the Cropland Adjustment Program for 1967 with the dual objective of farm and nonfarm benefits through shifting cropland presently not needed for agricultural production into long-term conservation, recreational and open space uses.

The program for 1967 provides generally higher rates except for cotton for putting land under the CAP. These rates reflect the improvement in commodity prices and apply to those crops for which surplus potential continues to exist.

The Greenspan provisions of the program will continue to help State and local governments acquire cropland for nonfarm uses such as preservation of open spaces and natural beauty, wildlife habitat and recreation, and the prevention of air and water pollution.

Department officials pointed out that the 1967 program geared to the changed need for agricultural production. As a result, the program is aimed at those crops with the most implications such as feed grains, cotton, peanuts and soybeans. The program will continue to emphasize the shift of public benefit uses which also conserve soil and water for future needs.

Even though about 30-35 million base acres are now in production under the 1967 wheat and feed grain program along with more than 2 million acres from existing Conservation Reserve contracts, there is need to promote expansion of acreage in many crops, including feed grains, to avoid returning to costly surplus buildups.

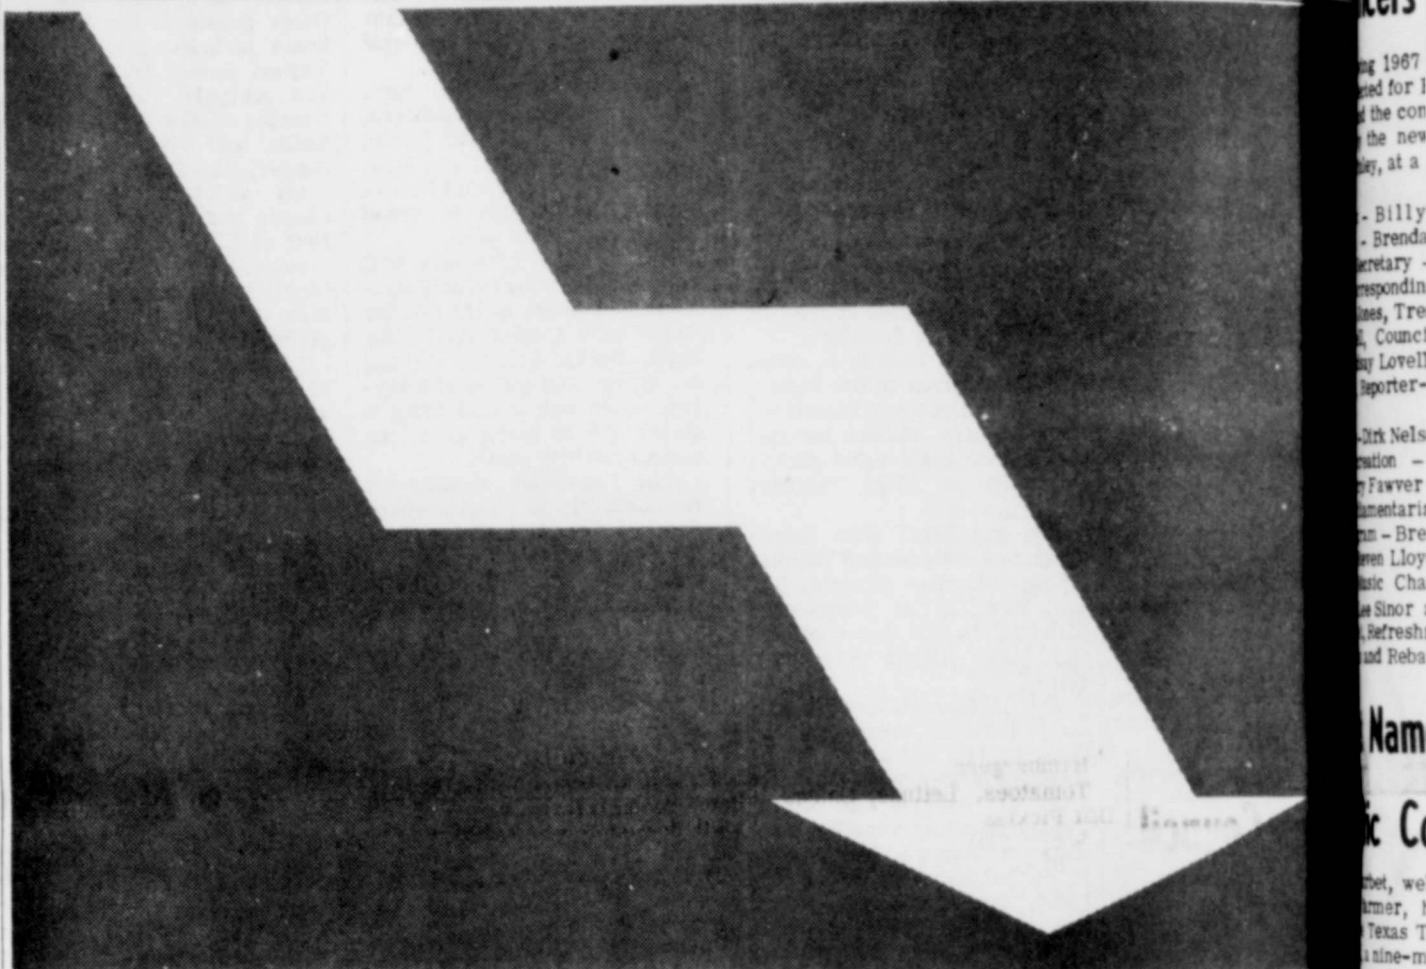

The program is expected to be of particular benefit to those who want to retire or take jobs in industry, or for other reasons want to change their production pattern. The program means by which they can shift their land into new uses at the same time apply needed conservation measures to the land.

The program for 1967, which reflects the flexibility of the Food and Agriculture Act of 1965, offers contracts of 10 years. Participants will receive adjustment payments based on the value of crops normally produced on the land. They will be eligible for conservation cost-sharing on land put under the program. More than 36,000 agreements covering 2 million acres of cropland were signed under the 1966 CAP.

In addition, where appropriate, those who agree to give free public access to fishing, hunting, hiking, or other recreational uses in accordance with State and Federal regulations, may receive additional per-acre payments. Of the 2 million acres put under the program in 1966, about 500,000 acres are now open charge to the public for these uses under this public use feature of the program.

Farmers who participate will receive payments based on past use and the productivity of the land. For land that otherwise produce corn and grain sorghum, the national average is \$1.00 per acre.

Southwestern Bell announces \$6 million rate reduction for Texas Telephone customers

Second Voluntary Reduction For Texans in Two Years

At a time when prices for most goods and services are continuing their upward spiral, Southwestern Bell has announced a voluntary reduction in rates that will result in annual savings of \$6 million for Texas telephone users.

Included in the reduction are both Long Distance rates (effective January 1, 1967) and a series of miscellaneous telephone charges, (effective December 1, 1966).

Lower Rates on Long Distance Calls Between Cities in Texas

Reductions in intrastate (calls within Texas) Long Distance rates become effective January 1, 1967.

With the reduction, most station-to-station calls over 56 miles in distance will have lower rates, varying from 5 to 15 cents for three minutes, depending on the distance. Reductions are even greater for calls over three minutes.

In addition, all intrastate station-to-station calls which are made after 8 p.m. and all-day Sunday will get the lowest night rate—a maximum charge of 80 cents, plus tax, for three minutes. At present only station-to-station calls which are prepaid (charged to the number placing the call) and credit card calls get this low rate.

This is the 10th reduction in Long Distance rates for Texas telephone users since the end of World War II.

One-Time Color Charge, Other Rates Reduced on December 1

Texans will also enjoy savings on other telephone services, effective December 1, 1966.

These include the one-time charge for telephones in color (from \$7.50 to \$5). This is also the second reduction in the color charge in the past two years.

The original color charge was reduced from \$10 to \$7.50 on April 1, 1965.

And a new Residence Service Charge will benefit most residence customers who will be arranging for new service and additional service requiring installation. At present, there is a Service Connection Charge on each item of equipment installed. The new flat-rate, one-time Residence Service Charge will enable residence customers to have two or more telephones installed for the price of one.

There will also be a reduction in the monthly rate for amplifier telephones (presently ranging from \$1.25 to \$2). The new charge will be \$1. Amplifier telephones are primarily used by persons with hearing impediments and at noisy locations.

Customer Cooperation Helps Reduce Long Distance Rates

Technological developments continue to play an important part in keeping the cost of telephone service at a reasonable level. But much of the credit for making possible the reductions in Long Distance rates goes to Texas telephone users.

Without the cooperation of our customers placing their calls by number, using Area Code and the taking advantage of Direct Distance Dialing where it is available, it would not have been possible to achieve the operating economies that have made possible these reductions.

We know of no better way, in passing the savings directly back to you, to say "thank you."

What'd you expect us to put our Overhead Cam Six in?

An ordinary car?

Our revolutionary 165-hp OHC 6 is so revolutionary we had to do something special with it. So we made it standard in all Tempests and Le Mans.

You see, it was inspired by those famous overhead cam engines in expensive European sports cars. With a few Pontiac refinements, of course.

That's why it'll keep running and running until somebody turns it off. And with a power reserve for expressway passing you'd normally expect from a V-8.

We even offer a 215-hp version that makes a lot of big V-8s seem awfully extravagant. Which is why we say, with a 6 like this who needs an 8?

Incidentally, a four-way hazard warning flasher, backup lights, and GM's energy absorbing steering column are some of the safety features also standard in all Tempests and Le Mans. So how can you possibly resist seeing your Pontiac dealer right now?

Governor Connally Reports On Tax Increase

By-Vern Sanford
Texas Press Association

AUSTIN — Gov. John Connally has made his big decisions on state spending and taxes for the coming fiscal period.

He scheduled releases of his budget by sections starting this week. Reportedly, it calls for just under \$200,000,000 in new taxes.

First section on state employment problems calls for payroll hikes of \$75,000,000 from all funds and \$26,000,000 from the general revenue.

Connally told Texas mayors and council members that he will not recommend the optional local sales taxes they advocate. He indicated that he won't ask for an increase in state general sales levies.

Speculation is that the governor will include a gasoline tax increase, college tuition boost and sales tax on alcoholic beverages in his revenue program.

He definitely will recommend some financial relief for hard-pressed cities. He hinted this will be in the form of state assistance for building, maintaining and policing streets.

While Connally completed his financial recommendations which will be sent to legislators on December 15, legislative budget writers made no progress.

Lt. Gov. Preston Smith has not called a meeting of the Legislative Budget Board since dismissal of Director Vernon McGee on August 29. Smith promised a legislative budget would be submitted by the January 15 deadline, however.

REQUESTS ALMOST DOUBLE — Texas' state agencies have requested 93 per cent more money for the 1968-69 biennium than they are receiving during this biennium. Governor Connally said that's evidence of the increasing complexity and magnitude of state government.

Connally said general revenue appropriations for the current biennium total \$635,000,000, and requests for the next two-year period amount to almost double that sum — \$1,216,000,000.

"Biggest item in the budget is public and higher education," Connally said, "and it is in this

critical area where the largest increase is requested." The current appropriation in this area is \$347,000,000, but \$683,000,000 is requested, he said.

OIL ALLOWABLE AT PEAK — Santa Claus came early for Texas oil producers. Railroad Commission set the highest production factor in seven and a half years for December.

Statewide allowable will be 36.5 per cent of potential. Factor will permit production of 3,322,712 barrels a day, compared with November's 34.5 per cent which produced allowable of 3,205,042 barrels daily.

Commented Commission Chairman Ben Ramsey in announcing the happy tidings: "The crude oil market is extremely tight. Demand is extremely strong, and will remain strong for the next several months."

NEW VOTER SIGNUP SYSTEM PROPOSED — A bi-partisan election law sub-commit-

tee, headed by Sen. Tom Creighton of Mineral Wells, has agreed unanimously on a proposed new free registration system for Texas voters.

System would work like this: all voters must sign up personally with county tax officials, initially. Afterward, they can register annually by signing an official application form sent out by the tax office.

Voters must carry a registration card or certificate and identify themselves by signature at the polls.

Creighton said he hopes to submit the plan, together with an omnibus election law "clean up" bill, to the public hearing early next month.

Voters at the November 8 general election expressed preference for annual registration as opposed to permanent sign-up.

TEACHERS' BENEFITS — Texas college teachers may not get salary increases from the

60th Legislature, but they may get a new battery of fringe benefits as compensation, if the recommendations of the Interim Legislative Committee on Faculty Compensation in State-Supported Colleges and Universities are followed.

In reporting to approximately 200 college presidents and professors, the committee said it would recommend to the Legislature an optional retirement or annuity program, paid research or study leaves, state aid for group insurance plans, the waiving of tuition for faculty members and their families and lifting the legal ban against construction of parking lots that don't charge user fees.

WATER PLAN ADVISORS — Twelve West Texans have been named as an advisory group to the Texas Water Development Board to keep the board informed of West Texas attitudes toward the state's fulfilling its

Texas Water Plan.

The 12, nominated by the West Texas Chamber of Commerce and the Plains Cotton Growers, Inc., of Lubbock, will be kept fully informed and will be asked for advice as two major Texas engineering firms and the U. S. Bureau of Reclamation explore various ways to get water surpluses from East and Northeast Texas to West Texas.

Board authorized the preparation of two contracts aimed at the West Texas water problem and accepted the bureau's offer to make a study of the possibility of pumping water back up the Colorado River to serve San Angelo, Midland, Odessa and El Paso.

Appointed to the advisory group were C. B. Ray of El Paso; K. B. Watson of Amarillo; A. V. Jones of Albany; Hank Avery of Midland; Bill Clayton of Springlake; Fred Conn of San Angelo; Jess Cooper of Dallas; J. Lee Johnson of Fort

Worth; George W. McClesky of Lubbock; S. B. Whittenburg of Amarillo; H. R. Drew of Fort Worth; and Joe B. Pate of Lubbock.

VOTE YES ON COTTON RESEARCH AND PROMOTION DEC. 5-9

Because:

- Higher-priced synthetics are taking our markets — over 2 million bales in the last 2 years.
- New synthetic fiber plants are scheduled; additional manufacturing capacity equal to another 3.5 million bales of cotton by end of 1967.
- Carryover is at all-time high; acreage lowest since 1872.
- 1966 acreage cut averaged 30%; further cuts will come unless carryover is reduced.
- Research odds (5 to 1) and promotion odds (16 to 1) must be reduced if cotton is to survive.
- Farmers originated research and promotion proposal; farmers will run it.
- Plan is voluntary; any farmer not wishing to participate can get a refund.
- 42 cotton producer organizations have endorsed this approach —officially.
- All projects must be initiated and administered by producer trustees elected by cotton producer organizations.
- If we want to keep on growing cotton, we must sell more cotton.
- Most farmers put nearly \$100 or more into growing, harvesting, and ginning a bale; can you afford not to spend \$1 to sell a bale?

Patterson Soybeans Show Good Yield In Area

The Patterson soybean, a product of the soybean breeding program of the High Plains Research Foundation, was planted on a large scale by many farmers for the first time in 1966. Reports received at the Foundation from a large number of the growers indicate yields of from 30 to 44 bushels per acre.

This "short season" soybean matures in from 100 to 125 days after planting. It was developed by Foundation Scientists as a possible "catch crop" for farmers to have available in case hail or other weather difficulties destroyed other long season crops, and it would be too late to replant.

"The Patterson variety proved to be a saviour for farmers who lost their cotton through hail in 1966. The largest acreage for this season, however, was planted following wheat. The crop matured in time to plant wheat for the 1967 season.

During the development period of this new variety, the original projected yield was estimated to be between 25 and 35 bushels per acre. Dr. E. H. Collister, registered state licensed plant breeder who developed the Patterson variety at the Foundation, said that reports received from a number of farmers listed yields of from 30 to 44 bushels per acre under irrigation, and some ex-

cellent yields under dryland planting. "Many farmers reported their intentions to increase their planting acreage of this soybean in 1967."

Among the high yields reported under irrigation were the following 44 bushels, Hereford; 42 and 43 Bushels, Littlefield; 38 bu., Morton; 38.5 & 39.8, Plainview; 37 and 40 bushels, Farwell; 40 1/2 bu., Idalou; 37.5 bu., Lockney; 38.5, 40.8 & 43.8, Dimmitt; 36.1 & 37 bu., Floydada; 35 bu., Tulsa; 38 & 40 bu., Hale Center; 35 bu., Boise City, Okla; 30 bu., Farnsworth; 43.8 bu., Sunray; 41 bu., Halfway.

Some of the dryland yields reported included 30 1/4 bu., Barwise; 35 bu., Sumner (near Paris, Texas); 32 bu., Jasper, Mo.; and 33 bushels, St. Joseph, Mo.

Excerpts taken from the farmers reporting indicate considerable satisfaction with the new Patterson soybean. E. W. Jones, Rt. 4, Floydada, who had a yield of 36.1 bushels of Patterson per acre reported, "The yield surprised me on these beans. They combined perfectly. I did not expect this much. I would encourage anyone to plant Patterson Soybeans."

Mrs. Roy Handley Dies In Lockney

LOCKNEY - Mrs. Wilmetta Owen Handley, 81, of Lockney, died Saturday morning in Lockney General Hospital.

Funeral rites were conducted Monday in Lockney First Baptist Church. Elders L.M. Handley and Joe Jackson officiated. Burial was in Lockney Cemetery with grandsons serving as pallbearers.

Born June 6, 1885 in Caldwell County, she married Roy Handley April 28, 1907 in Dale. Mrs. Handley came to Floyd County from Ballenger in 1925.

She was a member of the Primitive Baptist Church. She is survived by her husband; three sons, Harmon Handley of Lockney, E. F. Handley of Skellytown; a daughter, Mrs. Reva McNeill of Amarillo, a brother, C. E. Owen of Sinton; three sisters, Mrs. Heneritta Handley of Austin, Mrs. Beulah Baethge of Doss and Mrs. Audrey Blundell of Edna; eight grandchildren and 16 great-grandchildren.

Francis X. Bushman, 83, known as "King of the Movies" during the silent era, died recently from a fall.

VETERANS ASK

EDITOR'S NOTE: Veterans and their families are asking thousands of questions concerning the benefits their Government provides for them through the Veterans Administration. Below are some representative queries. Additional information may be obtained at any VA office.

Q--I entered active duty November 14, 1956 and was discharged November 21, 1962. If I go to school under the New G.I. Bill, how much money am I allowed to make?

A--The amount of money you make has no bearing on your

eligibility for schooling. Q--I draw \$66 a month from Social Security, but \$3 is deducted for Medicare. Do I report the full amount when I turn in my income to the VA?

A--Yes. You report the full amount before any deductions.

Q--I am entitled to 36 months schooling under the New G.I. Bill. If I go to school half-time for 36 months, how many months of eligibility will be charged?

A--Eighteen months.

Q--A deceased veteran had active service in WW I and WW II. Will burial allowance of \$250.00 be paid for each period of service?

A--No. A payment, not to ex-

ceed \$250.00, is awarded the veteran's expenses.

Yarborough Newsletter

Dear Fellow Texan:

Cotton is still the "King" crop in Texas field crop farming just as it has been for the last 140 years, since commercial farming first began in this state. But right now it looks as if Texas cotton farmers may be short-changed by the Department of Agriculture.

The Department of Agriculture has issued new figures on the projected cotton yield for 1967 which cut back Texas crop loans below both the 1965 and 1966 levels. This means that Texas cotton farmers would lose millions of dollars, since Federal subsidy prices are based on these figures.

This is a case of rank injustice to Texas cotton farmers, because of all the cotton-growing states in the Union only Oklahoma and Texas harvest figures were cut back.

If these Department of Agriculture figures are not changed, the Texas cotton farmers will not only lose money but many of them will be faced with disaster.

That's why I wrote Secretary of Agriculture Orville Freeman on November 4 demanding that these projected cotton harvest figures be reconsidered and that justice be done to the cotton farmers of Texas.

In the case of Texas, these department figures mean a loss of \$3.40 an acre in the 1967 yields. Texas has about 40 percent of the nation's acreage planted in cotton, and it seems as if Texas is being stripped down in order to divide its projected yields among 11 other states. These states are being given yield figures far beyond any modern average of production in those states.

So you can see that it is unfair to ask the Texas cotton farmer to give up part of his income just to spread that money to other states.

But this is not the only recent case in which the Department of Agriculture appears to be hurting the Texas cotton farmer.

Recently the Department released 3 million bales of government loan cotton into the world market. This action came just as Texas cotton farmers were hauling this year's harvest to the gin.

This glutting of the market at harvest time meant that the Texas cotton farmers were forced to put their crop in loan storage or accept lower market prices. This was poor timing by the Department.

The Texas farm economy should not be forced to accept a situation which produces a "good average income" only twice within a decade, because of weather conditions, market prices and government action.

Cotton farmers have nothing to apologize for in Texas. Their crop is still the backbone of our farming economy. And any loss that affects this farmer also affects million of other Texans.

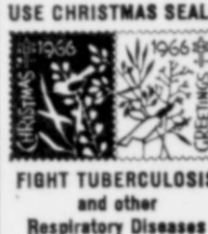

About six million acres are planted in cotton every year in Texas. Row cotton alone brings in over \$600,000,000 a year to Texas. No other major field crop produces as much income per harvested acre as does cotton and 69 per cent of this crop is sold outside Texas - thus bringing into the state money from foreign markets which helps our economy at home.

I will continue to fight for fair treatment for our Texas cotton farmers.
