## Floyd County Bank Deposits Reach New High Dec. 31

### Floydada Up, Lockney Down

Active with the December 31, 1966 bank report, the Floydada First National Bank showed an increase in deposits over the same time last year and the Lockney First National Bank was down just a little. Floydada bank showed deposits of \$10,099,277 in comparison with \$10,401,186.43 last year. Lockney bank showed deposits of \$7,634,634, down a little from last year's \$7,428,811.

**LOANS DOWN**  
The healthy economic report from the bank showed that loans were down. Floydada loans showed \$4,271,512.13, down from last year's \$5,544,182.72. Lockney's were down from last year's \$4,477,289.51 to this year's \$3,181,154.60.

**AREA DEPOSITS**  
Floydada bank deposit increase was reported to deposit reports from banks at Plainland Lubbock which were up over last year. County banks were down slightly from last year. . . reflecting the poor cotton crop.

Floydada bankers, pleased that 1966 turned out better than some had expected, showed an optimism about the economy of this year or the year already in progress.

As noted that the diversification of the future in this area was important in weighing 1966 and the adjustment to a new farm and a bad growing season weather has been made with farmer and business like coming out in fairly good financial condition.

Local banker Clay Henry said, "True, the crop missed the cream in 1966, but there is a lot of money in Floyd County for essential purposes and our bank reports prove it. Looking to 1967, it seems that the adjustments of 1966 have been made with minimum discomfort and 1967 looks highly promising. The course the weather is always an uncertain factor in the agricultural area, but we will be able to grow more acres of wheat and grain and the diversion payment in cotton will be better," he concluded.

### Caprock Chat

By WENDELL TOOLEY

IF YOU HAVE ENJOYED reading some of the material written by our chamber of commerce member, Dr. Charles Allen, one of my favorites is "God's Psychiatry."

Articularly like an illustration that he at the end of the chapter on the "23rd Psalm." Thought you might enjoy reading it: "I know the Shepherd" . . . . .

There is a story—I do not know its source—of an old man and a young man on the same farm before a vast audience of people. A special program was being presented, part of the program each was to repeat memory the words of the Twenty-third Psalm. The young man, trained in the best technique and drama, gave, in the language of the ancient silver-tongued orator, the words of the Psalm.

"The Lord is my shepherd . . ." When he had finished, the audience clapped their hands and feet, asking him for an encore so that they might hear again his wonderful voice.

The old gentleman, leaning heavily on his cane, stepped to the front of the same platform, in a feeble, shaking voice, repeated the words—"The Lord is my shepherd . . ." when he was seated no sound came from his lips. Folks seemed to pray, in the silence the young man stood to make the following statement:

"Friends," he said, "I wish to make an announcement. You asked me to come back and repeat the Psalm, but you remained silent. My friend here was seated. The difference? I shall tell you. I know the Psalm, I know the Shepherd!"

### Dangerous Dolls Found In Floydada

Eight dolls, the kind which burst into flames at the slightest heat, were turned in at the Floydada Fire Department last week as the result of a round-up following stories carried in other newspapers recently and demonstrations on television of the flammable dolls.

Fire marshal Fred Lambert said he felt there may be more dolls scattered around in the area, and thus warned parents of the hazard and urged them to bring the dolls to the fire station.

The highly flammable, but adorable looking dolls, which are from eight to 15 inches in height, were sold to Christmas shoppers in apparently other towns than Floydada. No merchants have reported stocking the item here.

The dolls sell for \$1 and most are Polish-made. The faces are made of a nitrocellulose material; the arms and legs of cloth. They are stuffed with sawdust and come with multi-colored and also com-

bustible hair pieces, which are arranged in braids. Lambert said he realized it is hard for a youngster to give up a doll she received for Christmas or at any other occasion, but if the problem is explained to her and she is made to realize the danger involved, then he feels the child will be willing to part with her toy.

It was found that one youngster in Floydada had purchased her doll last summer, carried it during vacation trips but evidently had not gotten too close to a heater or flame with it. They have been found to burst into flames from sparks.

Lambert and other members of the fire department, did some experimenting with the dolls and found the stories true. The dolls' faces and hair burst into flames as if they had been bathed in a flammable fluid.

To protect your child from possible serious burns if she possesses one of these dolls, please take it to the Floydada Fire Department.

Mr. and Miss Floydada High School were elected recently and named to the titles were Mac Baker, son of Mr. and Mrs. A. E. Baker and Miss Veda Thayer, daughter of Mrs. Ralph J. Thayer.

Miss Thayer has been a member of the Whirlwind Band for the past four years; FHA four years and International Club two years. She is senior cheerleader for 1966-67, was freshman class secretary, junior class favorite, Citizen of the Month, both her junior and senior year, student council three

### Light Agenda At School Board Meet

The Floydada school board handled a light agenda at its regular meeting here Monday night. The board discussed the new wage hour law that requires schools to pay a minimum of \$1.00 per hour and time and a half for overtime.

The schools are already paying over the minimum, so pay records will be kept on an hourly instead of monthly basis. This law concerns the school's auxiliary workers. The board agreed to hire

years serving as secretary this school term and was also named football sweetheart.

Baker was captain of the Floydada Whirlwind football team for 1965-66. He has been a member of the squad four years, on the varsity team three years and was named to all districts. He played basketball three years, was sophomore class favorite, Citizen of the Month several occasions and was Citizen of the Month for the semester for 1965-66, was junior class vice-president and is president of the senior class this term.

McCreary & Huey attorneys in Austin to collect delinquent taxes and voted to transfer some needed money, not to exceed \$4,000 to the athletic department.

Norma Feuerbacher was granted a leave of absence due to ill health.

The board voted to send the music and band teachers to Houston for a three day meet in February.

All board members were present.

## Chamber Of Commerce Banquet Here Tuesday

FLOYD COUNTY: 1966

### Births More Than Deaths

Births heavily outnumbered deaths in Floyd County during 1966, according to figures from the county clerk's office in Floydada. Births also outnumbered 1965 figures as did deaths. Divorces were lower in number but then so were marriage licenses issued.

There were 318 births recorded through December, 1966 compared to 69 deaths for the same period of time. There were 299 births for 1965 an increase of 19 babies in 1966. There were 64 deaths in 1965 in Floyd County and 69 deaths

for 1966, an increase of five. Maybe the draft call had something to do with the increase in marriage licenses in 1965 over the state, but no noticeable increase in Floyd County. One hundred and seven licenses were issued in 1965 as compared to a drop of 94 for 1966.

Divorces were 'way down compared to 1965 figures when 24 mates dissolved their marriages. Only 16 divorces were recorded in Floyd County for 1966.

### Dr. Allen To Speak

Over 500 persons are expected to attend the annual Floydada Chamber of Commerce banquet in the high school gymnasium

Tuesday night to hear Dr. Charles L. Allen and recognize the achievements of the chamber in the past year.

Theme of the banquet will be "Finish Eleven In '67."

The Floydada High School stage band under the direction of Jim Boyd will entertain as everyone enters the banquet and while eating the meal which will be prepared and served by Mrs. John McKinney and the ladies of the Floydada school cafeteria and students of the high school home economics classes.

As the guests arrive they will see an outstanding display of pictures courtesy of Parker Studio.

Parnell Powell, outgoing president will emcee the event, the Rev. Darrell Faires will give the invocation, incoming president Clay Henry will introduce the officers and directors of the Chamber of Commerce.

Henry will also introduce guests from out of town.

District Attorney and member of the chamber board John Stapleton will make two awards and the Rev. Herschel Thurston will introduce the speaker.

Dr. Charles L. Allen is pastor of the First Methodist Church of Houston, Texas. This SEE CHAMBER PAGE 2

### City Council Okays Cable TV

The city council adopted ordinance No. 436 at its regular meeting Tuesday night, which will grant a franchise to "Floydada Cable Vision Inc." to install cable TV within the city limits.

James Lackey and Bob Taylor are partners in the company which will begin installations within 180 days.

The new TV service will bring in all Lubbock and Amarillo TV stations plus some local newscasts. It will establish an office in Floydada and Taylor plans to move here.

**BIDS OPENED**  
The council opened bids for purchase of diesel fuel and tire repair for the city's vehicles. Wylie Petroleum was low bidder on the fuel and Crutchfield

Tire was low bidder on the tire repair.

### Memphis Cagers Here Friday

The Memphis Varsity boys and girls basketball teams will invade Floydada Friday night in what should be two very exciting games.

The girl's game begins at 6:30, and boy's game follows. The Floydada girls go into the game with a 4-1 record and the boys with a 1-4 record in district play.

### School Census Survey Begins

School census taking for the 1967-68 school term began last week and will conclude January 31, according to Mrs. Bob Copeland who is in charge of enumerating the number of children who will enter school for the first time in September.

Especially important is securing the list of names of all children who will be first graders the new school term.

All children who reach the age of six before Sept. 1, 1967 are to be listed on the census.

If you have a child already enrolled in any of the Floydada schools, census slips will be brought home by them to be filled out by the parent. If not, and you as a parent, have not received a census slip by the conclusion of this month, please contact Mrs. Copeland or school officials at Andrews Ward or Della Plains.

## Floydada High Students Present Musical "Get Up And Go"

A group of talented Floydada High School students will present a musical comedy "Get Up And Go" tonight and Saturday night in the high school auditorium at 7:30 each evening.

Proceeds of the musical play go to earn money for new lighting equipment for the stage and it is hoped the public will take advantage of this opportunity to support its high school and at the same time treat itself to an evening of solid entertainment.

Admission is \$1.00 for adults, 50¢ for students.

"Get Up and Go" is a modern musical comedy created by Mary Lacey, a leading television writer and lyricist, and by Paul Weirick, a successful composer-arranger, well known for his work on Broadway and in Hollywood.

Catchy melodies set the pace for a fast-moving, completely entertaining show and with the Floydada High School stage band, under the direction of Jim Boyd, it promises an evening of enjoyment.

The production is under the direction of Miss Edwina Schneider, assisted by Rachael De Los Santos. Leading roles are portrayed by Sarah Hollums, Keith Norrell, Rande Brown, Brenda Mathis, Shirley McClung, Garland Martin, Randall Moore, Judy Helms. Also taking part are Charles Owens, Becky Hammonds, Brenda Walls, Jim Snead, Paul Nash, Sandra Bonner, Christie Brown, Joe Thurston, and Mark Estes.

Members of the chorus are Rosie Simon, Linda Powell, Sharon Hasley, Sherry Campbell, Carol Sue Bennett, Debra Chatman, Willie Lou James, Glen Bertrand and Lee Toler.

"Get Up And Go", currently being performed in hundreds of schools throughout the country, tells the amusing story of a private school which, through a misunderstanding between the owners, has been divided into Miss McCauley's School for Girls and Mr. Lister's School for Boys. The doors joining the two schools has not been opened for three generations and a hedge divides the garden. Although the teachers and stu-

dents have been forbidden to associate with one another, they have become acquainted by utilizing a hole in the hedge. Even so, the strict rules and old-fashioned attitudes have caused the enrollment to fall, threatening both schools with bankruptcy. Through a twist of fate, an unemployed actor masquerading as a public relations man, rescues the schools from their predicament. He, with his wit SEE MUSICAL PAGE 2

church has a membership of more than 8,400. The sanctuary seats 2,000 people and it is necessary to have duplicate Sunday morning services to have room for the people who attend. His service each Sunday is televised over station KTRK-TV.

Dr. Allen came to Houston from the Grace Methodist Church in Atlanta, Georgia. He is a graduate of Young Harris College, Wofford College and the School of Theology of Emory University. He holds the degree of Doctor of Divinity from both Piedmont College and Emory University and the degree of Doctor of Laws from John Brown University.

TIME MAGAZINE said of him:

"The success story of Charles L. Allen is not the result of rafter-ringing oratory. He speaks simply, seldom raises his voice and uses few gestures. He emphasizes Christian daily living and prayer. He is inclined to say simply 'You'll be happier if you live this way.'"

Dr. Allen is a much sought after speaker and is author of the following books: "God's Psychiatry, When the Heart is Hungry, The Touch of the Master's Hand, In Quest of God's Power, Roads To Radiant Living, All Things Are Possible Through Prayer, When You Lose A Loved One, Healing Words, 12 Ways to Solve Your Problem, The 23rd Psalm, The Life of Christ, The Lord's Prayer, Prayer Changes Things, The Ten Commandments."

New officers for the chamber are Clay Henry, president; Bill Brown, vice president and Alton Higginbotham, treasurer.

The new board of directors includes Boone Adams, Ray Gene Ferguson, Carl Minor, Parnell Powell, Andy Anderson, A. E. Baker, Don Pemberton, John Fowler, John Stapleton, Bill Feuerbacher, the Rev. Herschel Thurston and Jay S. Hale.

Retiring directors are Tommy Assiter, Bill Cagle, Travis Jones, Walton Hale, Wendell Tooley and J. K. Holmes.

According to chamber manager John Reue invitations have been sent to guests in Dallas, Austin, Abilene, Amarillo, Plainview, Crosbyton, Lock-

WHILE WE'RE chamber of commercing... a suggestion to Don Hardy and Kelly Chadwick... don't forget to letter "Floydada, Texas" on the new Camaro when you paint it.

There's a picture of the new racing Camaro in this issue of The Hesperian.

A REAL CHEERY sort of fellow moves from Floydada to Pampa this week. He is Bush Jordan, local farmer and postman. Think his family will remain here until school is out. Bush will be service manager of Bell Pontiac Company at Pampa... we wish him the best in his new job... we'll miss him in this community... and his "train whistle."

"ISN'T that an odd posture for a statue of the general?" the woman asked the guide while touring a battlefield.

"That's not his fault," the guide said. "It was half finished when the committee decided it couldn't afford a horse for him."

Two farmers were griping to each other. Said one, "Never did see hay grow so short as mine was last summer."

"You think yours was short," snapped the other, "I had to lather mine to mow it."

Wife: "I was a fool to marry you!"

He: "Yes, but I was so infatuated with you, I didn't even notice it."

LOOK FOR A GOOD year "chamber of commerce wise" for the cities of Floydada, Crosbyton and Slaton this year. The chamber of commerce incoming presidents for the three cities are all bankers. All of these bankers showed good progress in 1966 in their respective bank businesses... so, this looks to me like good leadership.

HARRY MORCKEL'S patience was tried Saturday afternoon as Wendelyn and I went down to the Davis Farm Supply to get several "little dabs" of fertilizer for her science experiment... and he came through with flying colors... very helpful.

I learned from Harry that he had a rather unusual uncle to pass away in Missouri recently... unusual for several reasons. First, he was 109 years of age.

Secondly, "Judge" Young, as he was known to friends, always recited a special poem on his birthday each year... always changing the last two lines to conform to the date.

Thirdly, he always joked, "It takes a good while for 100 years to get around. I hope the next 100 years won't be as hard as the first."

A memory which never dimmed throughout his active life was of an incident which occurred in the late days of the Civil War. His father was a Confederate soldier. Some Federal soldiers rode up to his home, called the small boy out and questioned him about the whereabouts of his father and others they suspected of slipping back into the neighborhood to see their

families. Even under frightening threats, he refused to give the information.

HERE ARE SOME interesting industrial facts from the Public Service magazine ("The Southwesterner"): "The Chamber of Commerce of the United States has published some interesting statistics showing what 100 new factory workers mean to an area. If an existing factory or a new one added 100 additional workers, this would create in your community: 359 more people, 91 more school children, 100 more households, 65 more people employed in non-manufacturing jobs, 93 more passenger cars, 3 more retail establishments, \$710,000 more annual personal income, \$331,000 more annual retail sales, and \$229,000 more bank deposits.

That's a lot of people, cash and business. It means there are more new dollars coming into the town to be spread among all the citizens, be they "butchers, bakers, candlestick makers." These new dollars can broaden the tax base of your city and county governments, your school district, or other taxing agencies. This of course can help lighten the load that you as an individual must pay on your home. It can also help pay the cost for better streets, better schools for your children, nicer parks for recreation, better police and fire protection, and generally a better place in which to live and work. This many new factory workers can also help keep our young people in our home towns and keep them from migrating to the large metropolitan areas. It is also profitable when established manufacturers in your town add more workers. This is just as good, in most cases, as bringing in a new plant.

So new industry can help everybody and everybody can help industry. You as an individual can help attract new plants by keeping your eyes and ears open for leads and rumors and reporting these to the Industrial Foundation. The Industrial Foundation will follow up on these tips with information concerning plant location factors. You can also help your existing industries and help attract new ones by becoming better informed on what it takes to operate a profitable plant and what it takes to build a better business climate.

You need industry and industry needs you.

OTT GLASSMOYER took his first jet plane ride about Christmas time. Think he made a trip to California. Understand it was his first... I wouldn't hazard a guess how he is... but I suppose you never get too old to fly!

I HOPE everyone will take the time for a little entertainment enjoyment... plan now to attend the musical comedy that will be presented tonight and Saturday night in the high school auditorium... by a lot of talented youth.

# Philosopher Wants International Gunnery School To Train Missile Trigger Men

**Note:** The Floyd Philosopher, Leroy Saul, former state representative for Hale, Swisher, Floyd and Briscoe Counties, is reported to be resting comfortably in Plainview Hospital and Clinic Foundation, where he is recovering from a heart attack suffered some two weeks ago.

pen sooner or later, and according to a newspaper I read last night a guided missile got out of hand in Florida and took off without authority, but fortunately headed off several hundred miles into the ocean and disappeared harmlessly.

The incident bears out what I've been arguing: the world has got all these guided missiles, each one aimed at some important city in a potential enemy's country, but how do we know they're accurate? How do we know they're going to

land where they're aimed? How do I know that somebody in Moscow, aiming at New York, may not sight down the barrel wrong and land the missile in the middle of this Johnson grass farm, just before my crop's gathered? What's going to happen when some emotional Frenchman, told to fire, excitedly pulls the trigger toward Peking and the thing lands in the office of The Hesperian? Probably on press day.

Aside from the gross economic waste of using a multi-million-dollar missile on you or me, you can see what international confusion would result from guided missiles going off in all directions and few of them going where they were aimed. It might be years before we found out who won.

Of course the answer is an international peace conference, but I don't see much chance of that, therefore I am proposing that the world leaders immediately call an International Gunnery Conference.

Bring together all the men from all the nations who are in charge of firing missiles and give them an intensive, thorough-going training course in marksmanship. Make it an absolutely closed union shop, with nobody allowed to graduate and return to fire for any country until his accuracy is absolutely unquestioned. I don't know where they would do their practice firing, but China is an awfully big country.

It would be terrible enough to have a missile war run by experts, but turn it over to amateurs, with missiles going off in all directions like children's sky-rockets, and the situation is too awful to contemplate.

I hope you will get hold of our Congressman right away and get this gunnery school started.

Yours faithfully,  
J. A.

## MAJOR PYKE VISITS WILSONS

Mr. and Mrs. Woodrow Wilson received a pleasant surprise last weekend when their son-in-law, Major James A. Pyke of Hawaii flew into Lubbock. He was met by the Wilsons Saturday and returned to Floydada with them where he spent the weekend. Other guests included Dee Ann Wilson and her roommate, Diane Boyd of Texas Tech.

Major Pyke was enroute to Oklahoma City where he piloted a 135 military plane back to Honolulu yesterday. His wife, the former Myrna Wilson, was unable to make the trip.

## CENTER NEWS

CENTER, Jan. 9 - Mr. and Mrs. Doyle Sandifur were in Quanah last Thursday for a checkup at the hospital there. Both came away with good reports.

Mr. and Mrs. Charley Ball and baby have moved from Center community to the northern part of the county. We regret losing them but wish them success and happiness in their present home.

Mrs. Bud Warren, president of Calvary WMU is in Methodist Hospital. She had surgery last Thursday, and seems to be convalescing satisfactorily.

Mr. and Mrs. Hal Thomas were in Lockney Saturday afternoon seeing Mr. and Mrs.

Bill Thomas and Mrs. Maude Brister.

The Oklahoma and Hereford nieces of Mrs. Thomas, daughters of the late Mr. and Mrs. Martin Green, visited with the Hal Thomases Saturday morning. They were on their way home after a trip to Seagraves, to the late home of their parents.

Sue Thomas visited in Lubbock Thursday with Larry and Julie Miller.

The John Hinsleys visited the Thomas Warrens after church Sunday evening.

Tuesday afternoon Mr. and Mrs. O. C. Vinson visited Mr. and Mrs. Earl Bishop and Mr. and Mrs. J. A. Hartsell.

Mrs. Vinson visited Saturday afternoon in the home of their son, Jerrold in the Harmony community.

Mr. and Mrs. R. C. Ross visited last Monday evening at the Vinson home. Overnight guests at the Vinsons were the Tom Hansons of Denver on their way home from a Christmas vacation visit with her parents down state. Mrs. Hanson is the Vinsons' granddaughter.

J. D. Welborn is in a Lockney hospital over this weekend. Mrs. Frank Dunn returned home last Thursday from Lubbock accompanied by a granddaughter, Rhonda.

Today the R. E. Waggoners, former Centerites, but now of Plainview, are visiting Mrs. Dunn.

The J. E. Greens called at the R. H. Ashton home Saturday. So many we can't get this morning. We will just quit and go see the new baby, little Clarence Pope, son of Mr. and Mrs. Cecil Pope. He was born in the Lockney Hospital last Thursday, a 7 1/2 pounder. Congratulations to parents and little brother Wayne.

Survivors include one son; three daughters; three sisters, Mrs. Jeff Martin of Oklahoma City, Mrs. Mary Pair of Gorman and Mrs. Carrie Tedford of Plainview and two brothers, Earl Russell of Lubbock and Carl Russell of Floydada.

Funeral rites were pending yesterday awaiting the arrival of Mrs. Durett's children. The local brother will be unable to attend the funeral due to bad health.

### County Historical Survey Committee Meeting January 16

County Judge J. K. Holmes has called for a meeting of the newly appointed Floyd County Historical Survey Committee on January 16 at 7:00 p.m. in County Court room.

This meeting is being held in accordance with a proclamation by Governor John Connally, designating January 14-21 as "See and Save Texas History Week."

More than 3,500 committee members in 254 County Historical Survey Committees over Texas will convene during the week to announce plans for the 1967-68 term of Recordation, Appreciation, Marking, Preservation and Surveys (RAMPS) of Texas History.

"Every county's history is unique, and ours is no exception," said Judge Holmes. "Our County Historical Survey Committee has unlimited possibilities for doing us a great service in the fields of preserving our history for future generations as well as seeing that this

history is attractively displayed and marked for our citizens and visitors."

"The tourist trade stimulated by history-seeking travelers will materially aid the economy of the county," he added.

In his proclamation, Governor Connally pointed out that history is a major attraction of the state and extremely valuable to its economy.

The RAMPS, now in its third year, is the cooperative efforts of the Texas State Historical Survey Committee, an official State Agency, the County Committees and their private affiliate, the Texas Historical Foundation.

Members of the Floyd County Historical Survey Committee for the 1967-68 term are James H. Word, Chairman; Oliver Holmes, Mrs. Lester Honea, Mrs. Ralph C. Johnston, Walter Newell, John B. Stapleton, Mrs. Joe Taylor, Mrs. Henry Hodge, Mrs. Maude Hollums, Tommie Assiter, Miss Ann Swepston.

**OTHER BUSINESS**  
In other business, city manager Bill Feuerbacher presented blue-prints for a three or four year street light improvement plan for Ralls Highway, Houston and Second Streets. The council took no action on the plan.

The council turned down the suggestion that they have two meetings per month since they are already having several special meetings each month.

The council instructed manager Feuerbacher to investigate a canopy for the drive-in window and to order new water hose, coats, boots and gloves for the Volunteer Fire Department.

A new policy was set by the council on installation of Guard lights. The cost to the purchaser will only be \$4.00 per month, and the \$48.00 deposit charges will be cancelled.

The council also amended ordinance No. 354, which allows customers with electric irrigation wells to disconnect electric service and not be required to pay monthly minimum electric service charge.

All councilmen were present at the meeting with Mayor Leonard Matsler presiding.

### Ben Franklin's Thomas Carty Announces 90th Anniversary

Thomas Carty, local owner and manager announced today that more than 2,400 Ben Franklin stores, located in each of the 50 states, plan to stage a year-long celebration during 1967 commemorating the 90th anniversary of the founders of Ben Franklin stores.

Highlighting the 90th birthday event will be the promotion of 52 key values, one to be featured each week throughout the year at a very low price. Announcement of these special values will be made in this paper throughout the coming year.

Carty also explained that the local Ben Franklin store is participating in a 90th anniversary nationwide sweepstakes being sponsored by all Ben Franklin stores. Nine "Pick-Your-Trip" prizes will be awarded to nine lucky couples. First prize will be a two-week, all expense trip for two to anywhere in the world, plus eight second prizes of all-expense trips for two to anywhere in the Continental

United States. Winners will be announced in early November of 1967.

"The merchandise division of our Ben Franklin headquarters has come up with some outstanding merchandise values to be offered each week during 1967," Carty announced. "These weekly low-priced values are our way of thanking Floydada's shoppers for past patronage and to emphasize our policy of better living," Carty added.

**Wheat & India**

Secretary of Agriculture Orville Freeman recently announced at a news conference that the United States expected the rest of the world to share the burden in using free wheat to India.

He spoke amid strong pressure from India for Washington to pledge much more free wheat in 1967 as it gave India in 1966. In 1966 the United States sent 9,000,000 tons of free wheat to that country. Other major surplus countries, such as Soviet Union, France, Argentina, and Canada, have sold their wheat-Canada selling much of her crop to communist nations.

Freeman said the Johnson Admin-

istration expected the rest of the world to match its gifts in sending India free wheat to avoid excessive starvation. He also said Washington expects India to do more herself about the problem. (Some of the crisis in India has been due to a refusal of some provinces to exchange food with others, poor distribution and planning, etc.)

History shows that as long as the U.S. provides millions of tons of free wheat, Indians will accept it. History also shows that when a firm but fair and limited aid policy is adopted, those in need of the aid, and others, will do more to alleviate the crisis.

**Healthier States**

Based on life expectancy, the healthiest states in the union are Alaska, Iowa, Kansas, Minnesota and North Dakota. Thus the Midwest is the place to live if you want to live the longest. That's the gist of life expectancy statistics recently announced.

The unhealthiest state (including the District of Columbia) is South Carolina. The average lifespan of a Caucasian male in South Carolina is 65.97, while the national average is 67.55 and the average in the healthiest states several years longer. (Females live seven or eight years longer than males in practically all areas of the country.) Among

non-whites the average is even lower. Geographical location is not the only factor in longevity, however. The experts say another influence is heredity. Climate and rainfall and soil (which relate to geography) are all thought to have an effect. Contrary to what some might think, the ratio of doctors to the number of citizens has relatively little influence on life expectancy.

And the warm weather—which so many elderly people seek in later life—doesn't produce an average longevity as great as that in the upper Midwest, where the winters are cold and the weather severe, which may surprise a number of readers.

**STERLING PLAINS NEWS by Mrs. Murray Julian**

STERLING PLAINS, Jan. 7 — Charles Conger and his family and Brent, go to Plainview during the week; the grade school and Rev. to Wayland College. Schools will be finished, and of the semester January 13. Then the ill start to the South school.

Howard from Wayland where he is a pastor, will come to the Plains Baptist Church nights, beginning January and will hold a Bible study of the Book of Amos, 9, 10, 12, and 13th. This is 7 o'clock each day and will be the study for this coming year.

Make plans to attend each night. Wednesday night will be prayer meeting time.

Mr. and Mrs. Fred Fortenberry will leave this Saturday morning for Clayton, Oklahoma on a business trip, and they plan to be back the following Monday. Their son, Elmo, reported that their house at Clayton was badly damaged by fire last week when a hot water heater exploded. Elmo and family were not at home when the fire occurred, but a neighbor found the fire and the house was saved.

The brother of Mrs. Don Marble and his wife, Mr. and Mrs. Robert Holland of Lubbock, are proud parents of their first child, a son, born Dec. 29, weighing eight pounds, and the little son was named Malcom Lee, and he will be called Lee. Robert is finishing Texas Tech this summer, graduating with a business course.

Johnny Powell, who has been home on Christmas leave, returned to his army base at Ft. Gordon, Georgia, Sunday. He had been visiting his family, the Fletcher Powells.

Mr. and Mrs. Don Porbasco will serve this coming year on the Young Peoples Committee of the Farm Bureau, and part of their work will be helping hold the Farm Bureau Queen Contest, etc. Jerry and Kay Williams of Lockney head the committee.

Mr. and Mrs. Fletcher Powell and children moved the past week to the Charlie Jarrett house, and this is where the Trimble family formerly lived. The Powells' employer is Kenneth Bean.

Mrs. George West and Mrs. Skeet Thornton went up to Claude last Monday to visit Mrs. Truman Bradshaw, and they found her holding her own, but not much improved from the week before. Eulan Bradshaw was here in our community on Tuesday and had supper with Mr. and Mrs. Lee Pearson.

Walt Wood, son of L. T. Wood, has volunteered for the Marine Air Corps, and he goes to take his physical January 14. He goes to San Diego, Calif. for base training, and then will go to Marquette, Virginia, for the next fifteen months, for special training. Walt is a junior at Texas Tech in Lubbock, but wanted to get his army training underway.

Hobby Club members will meet at the home of Mrs. Early Pritchett for the January Club meeting, on Wednesday, January 18, at two o'clock.

Mmes. L. T. Wood, Arby Mulder and Fred Fortenberry will be hosts to the Club members this January 21, at the Sterling Community Club, where all will meet to have games of forty-two. All you have to bring is your dominoes. It was voted to have a club meeting every third Saturday night of the

**Social Baloney**

Just how good a buy are you getting in social security?

Not that you have any choice in the matter, but the answer could depend on your age at the present time.

For those who are already retired or who are soon to do so, social security may be a real bargain if considered solely as an investment.

For the young man just starting to work, it's a pretty poor buy.

Persons at retirement age now will probably collect several dollars in pension benefits for every dollar they put in.

As an investment, this is pretty good. As "security", the declining value of the dollar may make this a rather dim picture.

Residents of this county are now collecting more than \$1,606,000 a year in such benefits. Only a fraction of that annual amount, however, was contributed to the pension fund in any one year by the recipients.

But how about the young 21-year-old man in Lamb County going to work for the time?

—LAMB COUNTY LEADER

By the time he is ready to retire in the year 2010, he will have effectively put \$32,496 into the pension fund.

This includes his 3.5 per cent interest. It is easy to see that if he put the same amount in the bank, which pays up to 5 per cent interest, he would be considerably better off.

And, how much of this forced savings at low interest rates is he going to get back? If he doesn't marry, he will receive only \$19,704.

He's somewhat better off if he does marry since he and wife should be able to collect \$33,183 . . . still, much less than he could have had by putting his money in the bank.

Of course, there isn't any guarantee that he will get anything.

There may not be anything left for him to get, since this money can be and is used for many different things.

So, one wonders why the deceptive tag of "social security"?

Let's call it just another tax and be done with it.

mons of Truscott, her sister, and they stayed until Sunday. The Kinnibrughs' daughter, Mr. and Mrs. Teddy Horne of Lubbock spent from Friday until Monday with them, and other guests for Sunday dinner were her sister, Mr. and Mrs. Ray Dillard of Lockney. Saturday night supper guests with the Kinnibrughs and other guests were Lavoy Kinnibrugh, Donna Kay and Dennis.

Friday South Plains had a most terrible dust storm, which blew in ahead of the cold front, and housewives were very unhappy with all the dust, but there were no damages to speak of. The sun came out bright in the afternoon, and the wind quieted down.

Mrs. Mike Wood and baby, Danielle, returned recently from a plane trip to her native home, Atlanta, Georgia, where she had spent fifteen days visiting with her mother, Mrs. Logan, and other relatives. She flew both ways.

Miss Myra Myers, bride-elect of Bud Higginbotham of South Plains, will be honored at a bridal shower in the home of Mrs. J. P. Taylor on Saturday afternoon, January 14, between the hours of 3-5, at a Come and Go party.

A hostess gift of stainless steel table ware will be presented to the honoree.

Miss Myers' chosen colors of cranberry red and pink will be used in table decorations.

Around one hundred guests have been invited, and special guests will be mother of the bride-elect, Mrs. Henry Myers of Dumas, and Mrs. Bryant Higginbotham, mother of the groom-to-be.

The hostesses assisting Mrs. Taylor are Mmes. Raymond

Upton, Murray Julian, Grigsby Milton, Ursel Taylor, L. T. Wood, Sylvan Kinnibrugh, Arby Mulder, E. J. Kinslow, I. H. Parks, R. H. Adams, L. N. Johnson, Eugene Beedy, Early Pritchett, Bryan Karr, Harold Hamm, Fred Fortenberry, and Bill Beedy.

The young couple plan to marry on January 20, in Floydada.

Mr. and Mrs. Murray Julian plan to leave this Saturday, January 7, for a winter vacation to Florida. They will have lunch Saturday with Mr. and Mrs. Kendis Julian and girls, then go to Roscoe to see Mr. and Mrs. Terry Julian and family, and go by Weatherford to visit the Rev. and Mrs. Sealy Smith and family. They will visit friends in Grand Prairie, and as they go will spend a day or two touring in New Orleans, Louisiana, and other spots along the way. They will go to visit Murray's brother, Clifford Julian and family in Hallandale, Florida, near Miami. They plan to be gone for some time.

**Hal Hines Receives His Wings**

CORPUS CHRISTI (FHTNC)—Ensign Hal D. Hines, USNR, son of Mr. and Mrs. Howe H. Hines of Route 4, Floydada, is designated a Naval Aviator in ceremonies held at the Naval Air Station, Corpus Christi.

His "Wings of Gold" were pinned on by his wife, June. Under the Navy's present Flight Training Program, Ensign Hines received his wings approximately 18 months after entering the program and about six months after arriving at the Naval Air Station for his advanced phase of training.

He has received orders to Training Squadron One, at Naval Auxiliary Air Station, Saufley Field, Pensacola, Fla.

Ensign Hines is a graduate of Texas Technological College, Lubbock, Tex.

**Time For Inspection Stickers**

AUSTIN — Col. Homer Garrison, Jr., director of the Texas Department of Public Safety, reminded Texas motorists today that most vehicles have not yet been inspected for their 1967 vehicle inspection sticker.

"The inspection period is two-thirds over and only about one-third of the vehicles have been inspected," said Garrison. "This means that during the 14 weeks remaining before the April 15 deadline for inspections, more than twice as many persons each week must have their cars inspected to avoid long lines forming at the end of the period."

In urging motorists to have their vehicle inspected at an early date, Garrison pointed out that official inspection stations are easily identified by the standard sign displayed at or near the service entrance of the garage.

He advised that inspection stations are being urged to request permission to inspect any vehicle brought into the garage for repairs or regular service.

"In this way," Garrison pointed out, "time will be saved for the motorist as well as for the inspection station."

"And if you have not had your vehicle inspected, take it to one of the 5,500 authorized inspec-

tion stations for a "check-up" and start the new year off right with a safe vehicle."

**We've consistently s-t-r-e-t-c-h-e-d your electric service dollar to give you more!**

Today, you pay less for an average kilowatt hour of electricity than you did in 1952. That's because you're using more, enabling us to use larger and more efficient generators. Through use of this more efficient equipment, we're able to offset the inflationary pressures that cause rising prices.

And, to continue to keep electricity costs low, without sacrificing dependability, we'll invest more than \$20 million in 1967, in new construction.

Electricity is still the biggest bargain in your family budget.

### WHAT SIZE WATER HEATER DO YOU NEED?

Many people have no idea about the amount of hot water they use and often blame the water heater for the job it is doing when it is doing an excellent job for its size. The following table may help in choosing the correct size.

Hot Water Consumption

1. Personal washing (except bathing) — 2-3 gallons.
2. Preparing each meal. 3 gallons
3. Shaving with soap and brush — 3 gallons
4. Dishwashing by hand — 3 gallons
5. Baby's bath — 3 gallons.
6. Automatic dishwasher, (one load) — 7-10 gallons.
7. Tub bath — 12-15 gallons

8. Shower bath — 10-15 gallons.
9. Conventional washer, per load — 10-15 gallons
10. Automatic washer, per load — 15-30 gallons.

Heaters using electricity, natural or LP gas come in many sizes, styles, and capacities. Quick recovery rate is a big improvement in new models. Some 30 gallon heaters do the work of 50 gallon ones because an automatic control steps up the recovery rate instead of increasing the temperature.

On others, you can set a timer to increase the water temperature during peak loads. Heating elements at both top and bottom of the tank help maintain a constant temperature. Just one element heats as cold water flows in. Most units have an economical low-temperature setting for vacation time when you don't need hot water.

The least expensive heater may not be your best buy. Copper-lined and glass-lined water heaters both resist corrosion and rust well, but cost more. Talk with the water departments or plumbers in your area to find out what minerals are in the water supply before you decide on the lining. You will also want to check the guarantee before you buy. A quality heater given proper care will give 10 to 15 years of service.

### COUNTY AGENTS CORNER

by Joe Wilson

The Nineteenth Annual Soil Fertility Day will be held in Lockney February 23. The program for the day was planned at a breakfast sponsored by the Fort Worth & Denver Railway.

There will be six speakers on the program. Bill Lyle, Extension irrigation specialist from Lubbock will talk on irrigation timing and application; John McHoney, Extension Agricultural Economist from Texas A&M University, will talk on the outlook for cotton, grain sorghum and livestock; Dr. Lavon Ray, Agronomist from the South Plains Research and Extension Center in Lubbock will talk on fertilizer and trace elements. Credit should be given to the Lockney Chamber of Commerce and the Ft. Worth and Denver Railway for their continued support of this fine event.

Now is the time to take your soil samples so that you may put down your fertilizer before the spring planting rush gets here. A two dollar investment in the samples could save you hundreds of dollars by letting you know exactly how much of each nutrient is needed.

Soil sample boxes and information sheets can be obtained at the county agent's office in Floydada or at most fertilizer dealers in Floyd County.

Shrubs and grass need water during the winter months, and will be less likely to be killed by freeze if they are properly watered. Floyd County has received very little moisture since September and some landscape plants could very

will be hurting from lack of moisture if they have not been watered.

Farmers tax guides are available at the County Agent's office and the ASCS office in Floydada.

Starting with this year the refund of fuel used for farm purposes will be filed on the income tax forms. Information on this is available in the guide.

Maybe our '67 Pontiac is breaking sales records because people don't want to wait until '68 for a copy.

Our engineers have become used to seeing their ideas show up on other cars. Two years later. And apparently so have a lot of car buyers. Because 1967 Pontiacs are selling faster than 1966 Pontiacs. And '66 was a record year.

When you think about it, why should you wait around for innovations like our disappearing windshield wipers? Or for imaginative options like our exclusive hood-mounted tach? Especially when you consider that our engineers wouldn't turn a Pontiac loose with anything less than a standard 400 cubic inch V-8. Or a Tempest with anything less than our revolutionary Overhead Cam Six. (Not to mention all those new safety features like GM's energy absorbing steering column and a dual master cylinder brake system with warning lamp.)

In short, our engineers seem to have done it again. They may even start asking for royalties on the copies.

### Seventh Navy Recruiting Gets Award

DALLAS, Tex., Jan. 11 (AP) — The director of recruiting in the fifth district of the southwestern United States announced today that the seventh Navy recruiting office again has been named Chief of Naval Personnel Enlistment Award for the best attainment of recruitment in the Navy within the United States. During the year 1966 Captain Savage was named that more than 150 recruits enlisted in the southwestern area. Captain Savage attributed this high achievement to his recruiting and reenlistment staff's strong sense of patriotism.

Captain Savage emphasized the continuing highly trained, well-qualified ex-servicemen in the branches of the army within the navy and the many of the new challenging careers in many ex-servicemen entitled upon reenlistment into the Navy.

# Winds Take Lockney For First District Win

## SPORTS

### Kimble High Scorer

The Floydada Whirlwinds came to life here Friday night and won their first district game, defeating Lockney 68 to 52. Lockney now has a 0-5 record; Floydada has a 1-4 record in district play.

Big Jeff Kimble was high scorer for the locals, making 18 points. The locals showed good team work as they fed the ball into Kimble waiting under the basket.

Steve Marler made some good long shots and the locals led most of the contest.

At halftime Kimble led the locals with 10 points and Lockney's Webster had 11 points. However, it was Lockney's Bobby Kropp who would up with the scoring honors of 19 points.

The Whirlwinds will take on Memphis here tomorrow night. Memphis is looking better every game, especially after upsetting Friona last week.

Tony Pounds was high point man for Memphis.

### Building Given To Floydada Church Group

A church building has been given to members of the Church of God in Christ of Floydada and is being moved here from Aiken, Tex. The group has found this to be quite expensive and are in bad need of additional funds to cover the cost of moving the building and adding bathrooms etc.

The church has already raised \$500 and would appreciate any other donations given. Contributions may be turned in to financial treasurer, Mrs. Sybil Bullock or district secretary, Mrs. Joe Bennett, according to the pastor, E.N. Given.

Your donations will be more than welcome, Givens said.

### HIKE FOR CHARITY

### Whirlettes Beat Lockney 54-37

Lockney came to Floydada last Friday night to beat the Whirlettes, but when the game was over Floydada was the victor 54-37.

The Whirlettes were ahead all the way, leading 17-7 at the end of the first quarter, 31-19 at halftime.

Marilyn Harris was top scorer with 24 points and Sally McIntosh canned 15 points.

The Whirlettes now have a 4-1 record for the first round. Dimmitt leads with a 5-0 record. Floydada has beat Dimmitt, but it was in the Farwell Tournament and didn't count on district play.

PLAY MEMPHIS HERE TOMORROW NIGHT  
The Whirlettes take on Memphis here tomorrow night at 6:30. They wind up the first round play with Abernathy there Tuesday night.

### HIGHLIGHTS

#### LBJ's Talk At A Glance

WASHINGTON — High-lights of President Johnson's State of the Union message to Congress:

**TAXES** — A 6 per cent income tax increase on individuals and corporations. If approved, it probably would not become effective until July 1 and would not apply to income before that date.

**VIETNAM** — Continued U.S. participation to stop Communist aggression and void paying "a far greater price" later. He forecast "more cost, more loss, more agony."

**POVERTY WAR** — Pledged intensified efforts "to give the poor a chance to join the nation's progress" by improving administration of existing programs, use of "special methods" and "special funds" to overcome problems in city ghettos.

**SOCIAL SECURITY** — Urged an average increase of 20 per cent in Social Security benefits to the 23 million now receiving payments, with a raise of 59 per cent in minimum payments.

**BUDGET** — The budget for the next fiscal year will call for \$135 billion in spending and revenues of \$126.9 billion, leaving a deficit of \$8.1 billion.

**CRIME** — Urged Congress approve funds for local programs to combat crime.

**DRAFT** — Revise Selective Service to make draft laws as fair as possible.

**COMMUNIST CHINA:** Welcoming a China which could "respect her neighbors' rights," Johnson said that the United States would continue to hope for a reconciliation between Red China and the world community.

### Change In Parcel Post Zone Rates

Use of Zip Code will make it easier to mail packages after January 15, Postmaster Edward Wester said today. New rates and a new system for identifying parcel zones will go into effect on that date as provided in legislation signed into law by President Johnson on September 20, 1966, the Postmaster pointed out.

The rate increases will average about 10¢ a parcel, Wester said. Starting July 1, the law provides for a series of size and weight increases on packages mailed between first-class offices. Floydada is a first-class office and at the present time can accept packages limited to 40 pounds when addressed for delivery in the local, first, and second zones; and 20 pounds when addressed to the third through the eighth zones. The new law will provide size and weight increases in five annual steps, the last coming on July 1, 1971.

Use of ZIP Code in the recipient's address will enable the sender or a mail clerk to quickly determine the proper zone, and thus the rate, for the postage. The zones will be based on the distance a parcel travels between the 552 sectional centers in the country, Wester said.

By consulting a simple chart, which is available at all post offices, the zone can be readily identified because the first three numbers of the Zip Code represent the sectional center. The new rates will range from 40¢ for a three-pound parcel destined for local delivery to 60¢ for the same parcel to zone 3 (150 to 300 miles) to \$1.05 to zone 8 (over 1,800 miles). The new zoning method will also apply to air par-

cel post, catalogs and to publishers who pay zone rates on the advertising portion of their periodicals. Your new catalogs all contain this new information.

#### JIM OWENS ILL

Jim Owens of Floydada is confined to the intensive care unit of Lubbock Methodist Hospital where he was taken Tuesday afternoon after collapsing at the home of a daughter in Lubbock, Mrs. Bill Ward.

Mr. and Mrs. Owens had gone to Lubbock Monday and were due to emplane Tuesday morning for Yuma, Ariz., to visit a son, George and family. However their plane was delayed and they decided to wait for a later one, returning to the daughter's home where Owens was stricken.

Friends of the family said the ill man was undergoing tests yesterday and the results had not been learned here.

#### FLOYD DATA

Gene Vickers continues to hold his own in intensive care unit of Methodist Hospital in Lubbock. His mother said he seemed a little improved Tuesday and his color was better, however he still remains in a serious condition. Vickers suffered a brain hemorrhage on Christmas Eve at Lordsburg, N. M., and was returned to Lubbock by ambulance plane for treatment.

A sister, Mrs. Roscoe Rigles of Hayes, S. D., arrived here Tuesday to be with her ill brother and other relatives.

#### Juan Enriquez In Job Corps

Juan Enriquez, son of Manuel and Ninfa Enriquez, in Floydada is now in the Job Corps Center in Mountainair, New Mexico.

He has been in the Job Corps about four months and was allowed to visit his parents here during the Christmas holidays.

##### VETERANS ASK

Over one-half million Veterans have applied for Certificates to attend college or take some other form of training under the new GI Bill, Jack Coker, Manager of the Veterans Administration Regional Office in Waco, said today.

In a report to President Johnson, William J. Driver, Administrator of Veterans Affairs, said that as of December 1, a total of 288,000 were actually in training, mostly at the college level. Over 49,000 of these also attended summer school under the new law and enrolled for the Fall Semester. The educational benefits of the new GI Bill became effective last June.

As a comparison, Driver reported to the President that under the Korean GI Bill, only 65,000 Veterans took advantage of educational benefits within five months of the effective date of that law.

"Recalling the gratifying results of the World War II and Korean GI Bills, the good early response to the new GI Bill promises vast benefits for the entire nation as the educational and economic status of our Veteran-citizens increases," Driver said.

One-fourth of the remaining two million eligible Veterans have already applied for educa-

tional benefits. By the Spring of 1967, the agency expects one-half million Veterans to be enrolled in colleges and other training.

Veterans are also taking advantage of the Home Loan Guaranty provisions of the new GI Bill in large numbers. Over 220,000 Veterans have requested eligibility certificates for such guarantees, with 77,500 applications for approval already received.

**EDITOR'S NOTE:** Veterans and families are asking thousands of questions concerning the benefits their Government provides for them through the Veterans Administration. Below are some representative queries. Additional information may be obtained at any VA office.

**Q** - I have just been discharged from the Army. I served four years. Can I get a G.I. home loan and go to school under the new G.I. Bill at the same time?

**A** - Generally, yes. You should contact your nearest Veterans Administration regional office.

**Q** - Is a six-month reservist eligible for training under PL 89-358?

**A** - No, since this was duty for training purposes only.

**Q** - I receive a widow's pension. I was not working when I began receiving the pension, but I have now secured employment. Is it necessary to report this to VA, or may I wait until I receive an income questionnaire at the end of the year?

**A** - You should inform the VA at once so that your continued entitlement may be checked. This could prevent the creation of an overpayment, which would later have to be repaid to the VA.

**VETERANS ASK**

More than two million Veterans and dependents receiving pensions from the Veterans Administration are being mailed cards on which to report their annual income, Jack Coker, Manager of the VA Regional Office in Waco, said today. The check-sized Income Report Cards, enclosed with the November Pension Checks, must be filled out and returned to the VA by JANUARY 31 or payment of the Pension will be stopped, Coker reminded. The law requires that payments be stopped if income is not reported.

The forms have been simplified this year, and designed for faster processing in automatic accounting machines. It is important that the cards not be folded, torn or mutilated.

The Income Questionnaires are going to all Veterans and Dependents of Deceased Veterans on VA's non-service-connected Pension Rolls, and to parents of Deceased Veterans who are receiving Dependency & Indemnity Payments.

**Navy Waves To Hold Reunion**

Way back last September, the committee for the Waves 25th Anniversary Reunion to be held in San Diego 20-23 July, 1967, wrote thousands of letters to some of the 175,000 women who served in the navy during the war. They knew they didn't have a good mailing list, as it was used for the 1962 reunion in Washington, D. C. and most of these women probably have married and changed their names at least once, and their addresses many times. Some 1500 letters were returned by the post office, "unknown," etc., but where are the recipients of the thousands of other letters?

Of course, they did get a good response from many of the present and ex-navy women, but surely there are many more who would like to join their former shipmates next July to celebrate their 25th birthday. Where are they and how can we get them to answer their mail?

There was a plus side — several hundred women not only returned their "green response cards, but sent lists of names of other waves as well. Over 1100 letters were mailed out as a result of their submission of names of their friends. Now hear this!

Now LCDR Norma M. Batchelder, national chairman, is asking that everyone who has served in the navy this past twenty-five years be publicity agents for the reunion committee. This "green" card which went out with all the letters is vitally important to the committee. It is being used to compile the basic mailing list for all future mailings for this, the 25th reunion, as well as future reunions. Only Waves and ex-Waves who have returned the green cards will get mailings. The National Chairman asks if it is too much to expect everyone who received this letter to PLEASE RETURN IT at once. PRETTY PLEASE. For persons not interested in remaining on a

mailing list, it would be appreciated if the "green" card could be returned with that notation. Of course, the committee hopes that every Wave will be interested and knows that many, many are, but urges that they please take care of this soon, to allow their names and current addresses to be put on IBM.

In January, the committee plans to send out the next mailing, which will give the current information on the reunion, registration card, hotel reservation card, plus a whole lot of other goodies. Do remember though if the green card has not been returned, this latest mailing will not be sent.

Lost the green card?

If the green card is lost or been misplaced, please write to the Wave Reunion National Chairman, P. O. Box 12007, San Diego, California 92112.
