NUMBER TWENTY-FIVE

## Onion Harvest Begins Early

### 300 Workers Here For Six Weeks

(By Melvin Mathis)  
A slight increase in onion acreage in Floyd County has been noted this year, according to County Agent Joe Wilson. It is estimated that there are now from 900-1000 acres in cultivation, representing from 100-200 increase over last year. According to Wilson, onions have done very well this year, with a minimum of trouble from disease and insects.

**HAIL**  
There has been some hail damage. In fact, this accounts for the harvest now in progress. Normally it does not get underway until about July 1.

**VARIETIES**  
The two main varieties are Grano and Granex, both large, known familiarly as "hamburger onions." The distribution of these onions is handled through the two onion sheds here in Floydada and one in Barwise. It is always interesting to know where the local products are sent. "Everywhere" is a pretty descriptive answer so far as local onions are concerned. The shed now in operation has shipped to Tennessee and New Orleans.

**HOW MUCH?**  
How much is realized from onions in Floyd County? The amount is different from year to year, of course, but last year a full half-million dollars were realized. \$500,000 sounds like a big number, alright; but consider the costs and the risks. The law of supply and demand is as much a factor in agricultural as well as any other kind of economics. When you look at the vegetable

field in general, you see a beginning in Crosby County with beans, potatoes, onions, and tomatoes. (In fact, Crosby grows more beans and potatoes than does Floyd). Then, reaching a sort of grand climax with a richly variegated assortment of vegetables in the Hereford area, there is a vast panorama of vegetables across this area of the upper South Plains and the lower Panhandle. To be dramatic, it is a "march of the vegetables." Sounds great? Certainly it does. But, and this is highly important, there can be too much, therefore low prices.

**COSTS**  
Wilson supplies figures that may vary up and down, but give a general idea of what are the problems, as well as opportunities, of onion farmers. And what is true of onions also has a bearing on other vegetable crops, right on through the list to tomatoes, which represent the most risky of all vegetable crops. First, it costs about \$125 for onion sets alone for an acre. The labor of setting them out is about \$40. Then, with fertilizer, the labor and other costs of cultivation and the harvest itself, there is generally a cost around \$500 per acre. It may run lower, or some higher. That is a lot of money tied up in one acre!

**GROSS**  
Gross profits may reach anywhere from minus to \$2000 an acre. Ordinarily, of course, the gross is well to the middle, which means that, while a farmer might make from minus to \$1500 per acre, he is likely to make something, but not too close to the latter figure. Usually he will get about 500 field bags of 50 pounds each to the acre. With culls reducing this total, he cannot expect this many sale bags of the same weight. The price hovers from \$1.25 to \$3.00 per bag, again depending on the law of supply and demand.

### Floyd Performers Score At Rodeo

Three nights of fast action came to an end Saturday as the tenth annual Floydada Rodeo came to a close. In the opening parade on Thursday afternoon at four, more than 200 riders took part, these groups coming from Lamb County, Tulla, Lubbock, Paducah, Petersburg, Plainview, Silverton and Lockney. At 6:00 more than 500 persons were guests at a free bar-b-que sponsored by the Floydada Riding Club.

**WINNERS**  
Thursday night results: Sheriff's Posse, Paducah, first; Tulla, second; Silverton, third. Junior Sheriff's Posse, Plainview Comancheros, first; Lubbock Rangers, second; Aulfield Roughriders, third.

Thursday night's first place winners in other events were: Bareback saddle and bull riding, Ed Harlon, Oklahoma; calf roping, Bowtie Wesley; club roping, J. E. Waller; junior calf roping, Commie M. Oates, Slaton; senior barrel racing, Tate Howard, Pampa. Other barrel racing winners were Diane Williams, Lockney, and Donna Record, Canyon. In team roping, C. R. and Bowtie Wesley took first.

**FRIDAY**  
In Friday night action, witnessed by 1,500 persons, these took first place: Gene Wright, Amarillo, bareback and saddle riding; Ross Beardon, Lubbock, bull riding; Kack Kirkpatrick, Post, calf roping; Jack Johnson Floydada, club calf roping; Glenda Light, Amarillo, barrel racing; Larry Martin, Floydada, junior calf roping; and Tom Blasingame and John Northcutt, Muleshoe, head and heeling.

### Local Chamber Office Convenient For Registrants

As a convenience for local boys who have come of age to register for selective service, the Chamber of Commerce provides registration service. The office, which is located at the

**SATURDAY**  
A crowd equal to Friday's turned out for the final performance on Saturday night, with Sam Rush, Levelland, winning the calf roping; Jack Johnson, Floydada, taking the club roping event; and Sam McGregor and Jerry Sweeney of Amarillo coping the head and heel roping. Bull riding champ was Ed Harlan of Texhoma, while Debbie Whitehead of Morton took the barrel racing number. Final standings showed Jud Sims of Lubbock as only double winner, taking both bareback and saddle bronc competition.

**FATHER-SON**  
The Floyd County Rodeo Grounds had been recently reworked, having been repaired through the efforts of the Floydada Riding Club and the Rodeo Club Association. An interesting thing about this is that these two groups are headed by a father-son duo, Sid and J. E. Waller.

**GROCERIES**  
In the drawing for groceries, first prize worth \$100 was won by J. R. (Boots) Dobbins; second place for \$50 by Vernon McPeak; and third and fourth prizes valued at \$50 each by Weldon Baker and George Ledbetter, Jr.

**DANCE**  
A dance at the VFW followed the last rodeo performance.

### Rodeo Group Expresses Thanks

A sincere "thank you" to everyone who helped make the Floydada rodeo so successful last week was expressed by president of the local rodeo organization Sid Waller at press time Wednesday. Waller expressed the appreciation of both the local rodeo and riding clubs and he said he expects next year's to be even bigger and better. He said cooperation was wonderful in this year's parade, barbecue and rodeo.

"HOW ABOUT A FRESH ONION?"... right out of the fields of Floydada, Martha Gill is pictured with onions from the Buck Huckerson field. About 800 acres will be harvested in the three onion packing sheds here and at Barwise. (Staff Photo)

### Guar Test Crop Now At 500 Acres

About a dozen Floyd county farmers have planted 500 acres of guar as a pilot program to test the new crop for production in this area of the Panhandle.

Bill Cagle, manager of Producers Cooperative Elevators here, said he has established a market outlet for the crop this fall. Cagle said prices for No. 1 quality guar beans will be \$3.90 per hundredweight, with lower qualities priced on a decreasing scale. Cagle said guar should perform well in this area, which has a deadline planting date of just a few more days. He said he still has some planting seed available.

### Soil Conservation Service Says Burning Wheat Straw Is Burning Profits

Don't burn your stubble! This practice not only wastes valuable plant nutrients, but it also robs the soil of many benefits. To replace 4000 lbs. of wheat straw would cost \$5.00 per acre by buying cotton burrs.

In a recent article published in the Agronomy Society magazine, CROPS AND SOILS, A. W. Goettel, Canadian Soil Scientist, says that burning the stubble from a 40 bushel per acre wheat crop wastes about \$3.00 worth of nitrogen and phosphorus per acre. Burning stubble from a 65 bu. barley crop wastes about \$2.50 per acre and from an 80 bu. oat crop about \$4.10 per acre. Farmers who burn stubble claim that it increases yields. Goettel says that although there may be an increase of 1 to 2 bushels per acre, this increase is neither certain nor constant. Even if it were, the value of straw for soil protection outweighs the value of the increased yield.

It is not true that stubble burning kills weed seeds. Tests have shown that the heat generated by burning stubble has little effect on weeds or weed seeds, according to Goettel.

### Lighthouse Sponsors Home Economics Field Day Here

Lighthouse Electric Cooperative was host to some 75 high school home economics students and teachers yesterday at their annual "Home Economics Service Class Field Day."

Lighthouse prepared and served the noon lunch and the all day program included some local people. The Hesperian will publish picture of the event next week.

Alton Higginbotham was master of ceremonies and Mrs. L. T. Wood spoke on home entertaining.

### VFW MEETING RE-SCHEDULED

Members of the Floydada VFW Post will not hold their regular meeting Tuesday night, July 4, due to that date being a holiday. They have re-scheduled the meeting for the night of July 18.

### MIGAKU SATO BIDS FAREWELL

"to the wonderful people in the wonderful town"

That was about four o'clock in the morning of August 7 last year. I was on the bus half asleep (I had been on it all the way from San Francisco), when an AFS staff member who traveled with us shook me telling that I had to get ready to meet my American Family. We should be in a city named Amarillo in another half an hour. I was all excited - excited like a little kid. When the bus stopped in front of a big building, I tried to find them looking out of the window. I could not recognize them, for there were several families waiting for several of us to get out. But it did not take me a moment after stepping outside. The Gregorlys were right there. I also remember very clearly a sunrise that I saw after we left the city. That was the most beautiful dawn I had ever seen. From the horizon way yonder, the sun was rising like a big fire ball. In Japan whichever way you look, there are mountains. I had never seen any horizon in my life like the one here, let alone the beautiful sun that was coming right up casting its golden rays all over the large, large prairie. I said to myself, "So this is Texas. This is where I am going to live - for one year! (Good grief...)"

Now that year has passed. So fast. Truly it seems only yesterday that I saw that sunrise; that I almost cried because I could not stand the American food; that I was so surprised to find out that little brother Jack could already drive; that I was shocked to receive those awfully thick textbooks from school; that I saw the beautiful Christmas tree in our living room; that I kept running on the track team not knowing what the whole idea was for (I doubt that anyone did); or that the tears covered my eyes and I could not see the audience very well in the graduation ceremony. All these seem to have happened just yesterday. But it was last year.

I think a lot about my year here these days. I re-read my diary which I have kept writing almost every day. It is like a book by now. I ask myself what it was that I learned out of this one-year stay here. I cannot find the answer soon. It may be natural. What I gained here is more of (direct) experience than of a piece of knowledge. I may not be able to point out that what I learned is this and this... but after I go back to my country, my experiences will, I am sure, help me do my works in many different ways, which I myself may not notice. Those experiences of students are the most important part of AFS. If what we students should gain were simply pieces of indirect knowledge about America, just one student would be enough to come here and learn as much as he could and would tell it to the people in his own country. This would not be the case. There are in the U. S. now more than three thousand AFS students living in more than three thousand communities, but all of their experiences are different from one another. I am one of them. I came here to a town named Floydada. I met you and knew you. It was between the year of 1966 and '67. These facts made my experiences different from anyone else's. These made my stay here valuable. This is why AFS students' "knowledge about America" differs from the one in the encyclopedia. You are not strangers to me any more as you used to be. Some-

thing is between you and me by now. I can feel it. I could not have possibly felt it by just looking up in the encyclopedia where it says, "The United States and its people."

I will leave Floydada Tuesday, June 27. I will go up to Amarillo that day, saying my last good-bye to my American Family and friends there, and will join the big AFS group. And this is the start of my tour around the U. S. There will be still about one month before I actually leave this country. I will leave the San Francisco Airport at 9:30 a.m. for Tokyo, Japan on July 22. This day happened to be my nineteenth birthday.

Here I would like to say once again thank you very much to all of you for everything you have done for me. I can hardly express my appreciation satisfactorily. If you come to my country, you will be welcomed very much, and I myself will try to be of any help to you. If you do, just let me know. My home address will be as the following:

Migaku Sato  
Shirakijo, Inawashiro-machi

Till we see each other again, sayonara to each one of you....

Federal housing unit at 302 E. Tennessee, is open for this service from 9 to 1, Monday through Friday. If young men come by at other hours to register, this does not serve as an excuse in the eyes of the law as far as their draft status is concerned. The local chamber receives no pay for this service, but is glad to do it to save traveling to Plainview, Lubbock, or Amarillo. Registrants are advised that they should actually go to the office to be sure someone is there. Simply because they can see no car outside, they should not consider their trip in vain. The secretary is there at designated hours to take care of this work.

**RISKS**  
Any business has its risks, and onion farming is not immune. There is the short amount of storage time; the possibility (not nearly so prevalent as in the case of tomatoes later on) of wastage in bad weather. The law of supply and demand has sometimes dictated the plowing under of onions, when it seemed certain that there would be no profit.

**NEW FARMERS**  
The number of farmers working onions is still small. But it is a vital factor in the economy of the Caprock area. Last year's early July prices may or may not prevail, but it is helpful to see what they were. The price at that time for yellow onions was quite good, with mediums and jumbos drawing down \$2.50 - \$2.75 per cwt. Medium whites were down because of oversupply, bringing \$1.50 - \$2.00. Jumbo whites were running high from \$3.00 - \$3.50 per cwt.

**PRICES LOW**  
\$1.50 is about the average going price this year, though it gets as low as \$1.00 in some cases and as high as \$2.50 in others. In extremely exceptional cases, involving 40-50 sacks of red onions, the price has gone as high as \$4.00. So evidently the market is depressed this year.

**750 AT PEAK**  
At the very peak of the season there are about 750 persons laboring with the onions, counting both the fields and the sheds. Approximately twenty farmers in Floyd County are at present raising onions on a commercial scale.

**Bolting Funeral Held Yesterday**

Funeral rites for Amplus Orville Boling, 61 year old Silvertown resident and formerly of Floydada, were conducted yesterday afternoon in the Church of Christ in Silvertown. Boling was a distant cousin of V. D. Turner of this city.

He died Monday morning at Amarillo Air Terminal after collapsing from an apparent heart attack. He and his wife were there to see a relative off on a trip. Boling was pronounced dead on arrival at Northwest Texas Hospital.

The deceased was a native of Paragould, Ark., and lived in Floydada as a young man. His parents, the late Mr. and Mrs. Daud Boling, operated the old Blue Goose Motel on the Y of the Matador Highway in Floydada.

Boling was a butcher at the B and B Grocery in Silvertown. He was a member of the Church of Christ.

Survivors include his wife, the former Marie Gregg of Silvertown; three sons, John of Lubbock and Bill and Jim, both of Silvertown; five brothers, L. B., L. E. and M. W., all of Lubbock; E. Heck Boling of Cheyenne, Wyoming and Bynum of Wichita Falls; one sister, Mrs. Minnie Mitchell, Lubbock and nine grandchildren.

Burial was in Silvertown Cemetery.

### FLOYD PHILOSOPHER

## Learned From Middle East

Editor's note: The Floyd Philosopher on his Johnson grass farm thinks he has learned something from the recent war in the Middle East, his letter this week indicates.

Dear editor:

As I understand the news now about the Israeli-Arab war (by the way, why doesn't the United Nations Security Council pass a resolution limiting all future wars to four days? How long do you think football would last if a game went on for days and days?) Israel was fighting to maintain its right to the use of the Gulf of Aqaba and the Suez Canal by its ships or, as it's put in international diplomatic language, "innocent passage" through those waters.

Up till now I'll admit I wasn't familiar with that nautical term, "innocent passage," but I see what it means and would like to recommend a more widespread application of it.

Why limit it to the Gulf of Aqaba and the Suez Canal? I never use those places myself and doubt if very many other people around Floydada do, although I don't try to keep track of everybody every time they leave town. It's their business whether they're going to the Gulf of Aqaba or Ralls.

What I'm saying is that what this country needs is innocent passage guaranteed to its citizens on the highway from Floydada to Lubbock. From Los Angeles to New York. From Washington to Philadelphia.

What the people of Los Angeles and New York and Washington and Philadelphia and dozens of other big cities need is innocent passage along their sidewalks, at least during the day time. It's probably asking too much at night.

If you can think of anybody we can declare war on to get this through, let me know. Yours faithfully, J. A.

### Library Notes

## Baseball Program In Full Swing

The local baseball program swung into high gear last week with all scheduled games played, and some of the makeup variety. Because so much time was lost during the rains, the schedule up to date still has not been completed, but the tendency is in that direction.

### Junior League

Since the last compilation of scores, five games have been played, adding to the two already run off in this four-team league.

Farmer's Cooperative Cotton Gins took three victories, two over Veterans of Foreign Wars, the first a make-up, after having taken First National Bank into camp. Lighthouse Electric and First National Bank split a doubleheader. This leaves FCCG unbeaten and VFW at the other extreme of not winning a game yet.

## Mike Burk Sets New 880 Record

Mike Burk set a new intermediate record of 2:10.4 in the 880 yard run at the Brownfield Invitational Track and Field Meet last Saturday, bettering his previous week's performance in the Jaycee contests at Lubbock by .7 second. The contests were held in quite hot weather. He also teamed up with Billy Ray Chism and a couple of Lubbock youngsters to take third place in the mile relay. He competed in the age bracket taking in ages 14-15.

### WEIGHTS

Mike and Billy Ray also contested the discus and shot put, Mike placing second in discus and sixth in shot; with Billy Ray pulling down fifth in each event.

### OTHERS

With the help of an Idaho boy, third place in the 440-yard relay was earned, with Steve Hendrix, Kirby Pierce, and Billy Chism running. Kirby also took sixth in the 220-yard dash. Jody Bacucus lunged up to fourth position in the pole vault, junior division.

Ted Allen, Jr., coached the boys.

## Locals Squeeze Through Over Lockney To Retain Unblemished Record

With two complete rounds of play finished, at press time the local baseball contingent was a full two games in front of Lockney, having taken both tilts from them and also from Silverton. The western Floyd County entry bombarded Silverton on Monday evening under the one-hit pitching of Gonzales to make a double conquest of the Briscoe County unit. The final score was 3-0.

With the score tied up by Lockney in the sixth inning, and remaining knotted at the close of the regulation seven rounds of play, the local Senior League entry was forced into an extra inning to take the measure of the pesky Lockney contingent 3-2 Thursday night on the local field. Kerry Bearden doubled, then stole third and made it into home base on a wide throw.

Bob Gilliland was the winning pitcher, but had to be relieved for the extra inning by Kerry, as he had exhausted the number of innings league rules allow for one pitcher in a week. In the first game of the week he had relieved Steve Marler. Manager Junior Bearden declares that Bobby is easily capable of going the full seven innings. Heavy hitters for the local

aggregation in this victory over their Floyd County rivals included Domingo DeLeon, Steve Marler, Kerry Bearden, Bob Marler and Ronnie Hill.

## Dad's Sleeping Less

By Melvin Mathis

Daylight Saving Time isn't the rage among the adult workers in the baseball program. But surely there must be some connection, you say? Oh, yes, here it is, DST makes them rage!

One man indicated last Friday evening's schedule. It turned out to be evening-night. Activities involving the adults, such as game preparations, began about six, and several hours later the games were over. One man said his two boys began their baths about 11:30, and by the time he was through with his and ready for bed it was 12:30. But at 6:30 he was expected to roll out of bed. (Maybe the boys got in a longer snooze).

Surely some of the men must arise even earlier. As one of them said, with more of humor than of exasperation, the nights are really short!

One man was heard to mutter that he was spending more time on baseball than on his business. This same colorful character was also caught declaring, in relation to staying up so late, "Oh, well, a little dissatisfaction is good for a man."

"Course you can't take that too seriously, for the baseball program is good, clean fun, and these men who are involved in it are pointing the way to the use of time and effort in a wholesome manner.

But it is at least a little rough, and at times even trying, on managers, umpires, and officials of the baseball program. And one can well imagine that at times it even imposes some strain on the players, too.

Young American Jews leave for tasks in Israel.

Weather is testing Soviet Union farm plan.

8-9

Another problem faced under Daylight Savings Time is the sun problem in the hour from eight to nine. According to a Senior League spokesman, at that time in the Floydada playing field the sun gets in the eyes of the three basemen, and a ball thrown as hard as it's done in this league could well cause an injury. Over at Silverton the first and second basemen are pretty safe in this respect, but the third baseman is menaced, as well as the shortstop and left fielder. Baseball is play, but it also has problems.

So what does DST really amount to? It simply means that Dad sleeps one hour less.

## Dr. Hobbs To Speak At Baptist Assembly

Dr. Herschel H. Hobbs, pastor of the First Baptist Church in Oklahoma City, will be the featured speaker for the workshop service which will close the Two Area Southern Baptist Men's Camp at the Plains Baptist Assembly on June 26.

A large number of men and boys from the two areas, which include Lubbock, Staked Plains, South Plains, Llano Alto, and Caprock Baptist Associations, are expected to be present at this Men's Camp.

The camp activities will begin at 2:00 p.m. with swimming, horseshoe pitching, and softball. One of the highlights of the afternoon will be the softball tournament. Each association will have a team entered in the tournament.

A Fish Fry will be served to all of the men and boys from 6:30 till 7:30 p.m. After the Fish Fry, the men will assemble in the new air-conditioned auditorium to hear Dr. Hobbs, speaker on the Baptist Hour since 1958, author of the weekly column "Baptist Beliefs," published in the Baptist Standard and other similar periodicals, and past president of the Southern Baptist Convention. All men and boys are invited to be present.

## Church Of Christ Minister's Condition Critical

Members of City Park Church of Christ have been alerted to the critical condition of a former minister of their congregation, Henry Ewing, who has been in Africa as a missionary since serving with the local congregation several years ago.

In a letter published in the City Park Church of Christ bulletin for last Sunday, the elders of Southside Church of Christ in Amarillo tell of Ewing's undergoing surgery on June 2 to remove a left kidney, along with a tumor that had almost overgrown the kidney. Lab reports showed that it was malignant, and that the malignancy had spread to other areas of his body. Doctors in Windhoek, Southwest Africa, advised his wife, Beth, to bring him to the States for treatment. One June 12 cablegram brought the information that his condition had been worsened by a blood clot in his right leg. The elders talked to Beth by phone, and she said that although his recovery had been complicated by the thrombosis, the doctors felt that he would be able to return as scheduled.

PLANS  
The Southside elders have arranged for the entire family to return, leaving Saturday night, June 24, at 8:35, and going by way of Frankfurt, New York, and Dallas, to Amarillo, where they are scheduled to land at 11:42. This, of course, depends on Ewing's condition. A group from the Southside Church plans on meeting them at the airport, and Mrs. George Elkins says that some from the local congregation will be there, too.

VERY SERIOUS  
Ewing's condition is so serious that Mrs. Ewing plans to dispose of all their belongings before coming to Amarillo. Doctors have advised the family to return as scheduled.

DEE ANN WILSON HAS OPERATION  
Dee Ann Wilson, daughter of Mr. and Mrs. Woodrow Wilson, is expected home Friday from Lubbock Methodist Hospital where she underwent knee surgery Saturday morning. Dee, who is employed as a camp girl counselor at El Tesoro, near Ft. Worth during the summer months, turned her knee accidentally last Friday while assisting a group in a skit. It was the knee injured badly in a car wreck some two years ago. The operation was to repair a split cartilage behind the knee cap.

Dee was taken to a Fort Worth hospital shortly after the accident where she received medical attention. She was met there Friday morning by her mother and both returned by plane to Lubbock that afternoon.

The Floydada girl, who is a student at Texas Tech, will be on crutches for some time, but has hopes of returning to the camp to continue her work in a short time.

ily that treatment, if successful, will be long and drawn-out and painful. The Southside elders have a three-bedroom furnished apartment ready for their arrival, emphasizes George Elkins, local evangelist, in releasing the letter to his congregation.

CORRESPONDENCE  
Persons wishing to contact the Southside Church of Christ may direct their letters to 4400 Crockett in Amarillo.

FAMILY  
A reporter from the Hesperian, in talking with Mrs. Elkins, Mrs. Troye Stansell, and Mrs. Ned Bradley, found that one of the most remarkable things about the Ewings was the unusual composure and harmony of the children.

On long trips and on other occasions when it would be generally considered normal for the children to do some quarreling and complaining, they were always very agreeable. Mrs. Stansell cited a trip to Abilene as an instance, and it was reported the Dan Whitakers, who entertained them in their home for several days, said that it seemed he was playing host to group of angels rather than children, so well-behaved and joyous they were.

Of the six children two are married, one in college and three at home. Betty, now Mrs. Alvis Gollightly, is in missionary service in Latin America, while Jeanie, also married, is in Bulawao, an area of southern Rhodesia to which the Ewings went upon leaving Floydada, and from which they are a family left only a few months ago to start missionary work in Southwest Africa. Pat, enrolled as a student at Abilene Christian College, is now taking advantage of the summer vacation to sell Bibles in the South. Bonnie, George, and Linda are at home, and will accompany their parents to Amarillo. Beth's own parents have been missionaries in Africa for over forty years, and she was born in Africa.

ELDERS  
According to the letter from the Southside elders, Joe Lomax, Curtis Crofford, Mar-

vin Morrell, and Ted McCutchan, "We ask that you pray fervently in behalf of this godly missionary family. Besides the physical pain, there is the matter of having to leave a work that promises great harvest, and this is extremely difficult for Henry and Beth. Everything in man's power will be done in order to restore this man of God to his health that they might return to the work at which he is so experienced and so effective."

LOCAL  
The local congregation is designating June 25 as "Henry Ewing Sunday," at which time an offering will be taken to aid them.

## CENTER NEWS by Mrs. J. E. Green

CENTER, June 19 - Today is a real summer day. It is getting to the time of year that it's more comfortable to fight the weeds early in the day - and stay in the shade some of the afternoon.

Yesterday was Father's Day. There were visits and phone calls. A nice day and most people, we hope, had something to be happy about.

One visitor at Calvary Baptist Church Sunday was Mrs. Butler's sister, Mrs. Lloyd Odell of Gray Lake, Ill. She is spending the week with Bro. and Mrs. Butler.

Mr. and Mrs. Leo Frizzell visited Sunday after church with their daughter and family, the Garvin Beedys of South Plains. The Frizzells were in Lubbock Saturday. Mrs. Ava Jackson accompanied them that far on her way to Kermit to visit a son and family.

Mrs. Frank Dunn visited Mrs. J. D. Walborn Saturday. The Walborn clan, all but the Nolan Arneys who are vacationing at Chicota, met at James David Walborn's of Plainview for Father's Day.

Visitors in the Walter Sims home one afternoon recently were Mr. and Mrs. Gordon Lightfoot and Mike of Floydada and Mrs. T. C. Hollums of Sandhill. Most of these were former Centerites and all had a nice time talking about old times. How we all enjoy such visits!

Mr. and Mrs. Elmer Sellars ate Saturday night supper with Mr. and Mrs. Doyle Sandefur.

Mr. and Mrs. Hal Thomas went to Lubbock Saturday where they visited their daughter Sue in her recently acquired apartment. Sue is employed in Lubbock.

Mr. and Mrs. Eddie Parks and baby Leigh Ann who have been visiting her mother, Mrs. Frank Dunn, and other relatives in the Plains area returned to their home in Houston Sunday.

Mrs. Dunn was a Sunday dinner guest of Mr. and Mrs. Son Jackson of McCoy. Other guests were Mr. and Mrs. Joe Lee Dunn of Lubbock.

Mrs. Tony Bollos and children of Lubbock spent part of last week with her mother, Mrs. Dunn, and with Mary and Eddie Parks and baby when they were there.

Mrs. Thomas Warren and Elaine made a trip to Plainview one day last week.

Mr. and Mrs. Thomas Warren attended a party and supper at the Allen Bingham home Friday evening. Sunday the War-

rens attended the Huckabee reunion at the Legion Hall in Lockney. Eighty-six relatives—brothers, sisters, cousins, etc., attended and enjoyed the basket dinner and the fellowship. Others attending from this area were Mrs. Ola Warren and Mr. and Mrs. Fred Battey.

Mr. and Mrs. Ernest Huckabee and family of Stephenville, enroute and returning from the reunion, visited at her parents' home, the O. C. Vinsons, and with her brother, Jerrold and family there.

Mrs. Vinson visited Mrs. Hartsell Friday afternoon. The Hartsells were a bit indisposed. J. E. Green has about overcome a late cold.

Mr. and Mrs. Elbert Parks dined Sunday with Mr. and Mrs. R. C. Ross.

Mr. and Mrs. Victor Green and boys of Plainview visited Sunday afternoon with his parents, the J. E. Greens. While here there was a call from daughter Margaret, Mrs. J. M. Ryman Jr. of Hubbard. She and family were at Doc's parents at Bay City for Father's Day and a few more days of rest.

Late Sunday the Rosses had a phone call telling of an accident—an explosion at the home of their son Melvin Ross of near Sunray. Melvin and a teenage son were badly burned and were transferred to hospitals—Melvin to one in Amarillo and the son to one in Dumas. Mr. and Mrs. Ross left this morning for Plainview where they were to be met by their daughter, Mrs. Buck Ragsdale of Baileyboro and all were to go on to see the injured in Amarillo and Dumas. We hope all will be better soon. Mrs. Melvin Ross was also burned, but not badly.

We had to say goodbye to another of our dear members of Calvary Baptist Church last

week when Mrs. Edwards died Tuesday in a Lockney Hospital after three weeks' illness. We shall miss Mrs. Edwards who attended church every Sunday evening she could. To her many descendants and other relatives and friends we express our deepest sympathy.

The J. E. Greens and Miss Delzie Bradford visited after church Sunday evening with Mrs. Zala Johnson, and with her sister Mrs. Cora Pinckard of Itaska who is visiting Mrs. Jackson.

## Can You Match These Mothers and Daughters?\*

Mother-daughter and father-son combinations aren't unusual at Southwestern Bell.

There are many reasons for this happy state of affairs. For one thing, ours is a good company to work for. For another, we offer a real opportunity for serving the public, an opportunity that calls for a true "spirit of service." We're pleased and proud

so many of our Texas employees suggest a telephone career to their children. By doing so, they help insure the business will be in good hands for many years to come. We think this is a good thing for Southwestern Bell and for our customers.

## Baseball Program In Full Swing

The local baseball program swung into high gear last week with all scheduled games played, and some of the makeup

variety. Because so much time was lost during the rains, the schedule up to date still has not been completed, but the tendency is in that direction.

### Junior League

Since the last compilation of scores, five games have been played, adding to the two already run off in this four-team league.

Farmer's Cooperative Cotton Gins took three victories, two over Veterans of Foreign Wars, the first a make-up, after having taken First National Bank into camp. Lighthouse Electric and First National Bank split a doubleheader. This leaves FCCG unbeaten and VFW at the other extreme of not winning a game yet.

### RESULTS

Three commendations have been awarded to Sgt. Harold Peace, now on a visit to his parents, Mr. and Mrs. Huell Peace, who reside at 328 W. Kentucky in Floydada. He and his wife and child have been visiting with her parents in Georgia, and when they leave here at the conclusion of his period of leave will return to Ft. ## Mike Burk Sets New 880 Record

Mike Burk set a new intermediate record of 2:10.4 in the 880 yard run at the Brownfield Invitational Track and Field Meet last Saturday, bettering his previous week's performance in the Jaycee contests at Lubbock by .7 second. The contests were held in quite hot weather. He also teamed up with Billy Ray Chism and a couple of Lubbock youngsters to take third place in the mile relay. He competed in the age bracket taking in ages 14-15.

### WEIGHTS

Mike and Billy Ray also contested the discus and shot put, Mike placing second in discus and sixth in shot; with Billy Ray pulling down fifth in each event.

### OTHERS

With the help of an Idalou boy, third place in the 440-yard relay was earned, with Steve Hendrix, Kirby Pierce, and Billy Chism running. Kirby also took sixth in the 220-yard dash. Jody Bacus lunged up to fourth position in the pole vault, junior division.

Ted Allen, Jr., coached the boys.

## Locals Squeeze Through Over Lockney To Retain Unblemished Record

With two complete rounds of play finished, at press time the local baseball contingent was a full two games in front of Lockney, having taken both tilts from them and also from Silverton. The western Floyd County entry bombarded Silverton on Monday evening under the one-hit pitching of Gonzales to make a double conquest of the Briscoe County unit. The final score was 3-0.

With the score tied up by Lockney in the sixth inning, and remaining knotted at the close of the regulation seven rounds of play, the local Senior League entry was forced into an extra inning to take the measure of the pesky Lockney contingent 3-2 Thursday night on the local field. Kerry Bearden doubled, then stole third and made it in to home base on a wide throw.

Bob Gilliland was the winning pitcher, but had to be relieved for the extra inning by Kerry, as he had exhausted the number of innings league rules allow for one pitcher in a week. In the first game of the week he had relieved Steve Marler. Manager Junior Bearden declares that Bobby is easily capable of going the full seven innings. Heavy hitters for the local

aggregation in this victory over their Floyd County rivals included Domingo DeLeon, Steve Marler, Kerry Bearden, Bob Marler and Ronnie Hill.

## Dad's Sleeping Less

By Melvin Mathis

Daylight Saving Time isn't the rage among the adult workers in the baseball program. But surely there must be some connection, you say? Oh, yes, here it is, DST makes them rage!

One man indicated last Friday evening's schedule. It turned out to be evening-night. Activities involving the adults, such as game preparations, began about six, and several hours later the games were over. One man said his two boys began their baths about 11:30, and by the time he was through with his and ready for bed it was 12:30. But at 6:30 he was expected to roll out of bed. (Maybe the boys got in a longer snooze).

Surely some of the men must arise even earlier. As one of them said, with more of humor than of exasperation, the nights are really short!

One man was heard to mutter that he was spending more time on baseball than on his business. This same colorful character was also caught declaring, in relation to staying up so late, "Oh, well, a little dissatisfaction is good for a man."

"Course you can't take that too seriously, for the baseball program is good, clean fun, and these men who are involved in it are pointing the way to the use of time and effort in a wholesome manner.

But it is at least a little rough, and at times even quite trying, on managers, umpires, and officials of the baseball program. And one can well imagine that at times it even imposes some strain on the players, too.

Young American Jews leave for tasks in Israel.

Weather is testing Soviet Union farm plan.

8-9

Another problem faced under Daylight Savings Time is the sun problem in the hour from eight to nine. According to a Senior League spokesman, at that time in the Floydada playing field the sun gets in the eyes of the three basemen, and a ball thrown as hard as it's done in this league could well cause an injury. Over at Silverton the first and second basemen are pretty safe in this respect, but the third baseman is menaced, as well as the shortstop and left fielder. Baseball is play, but it also has problems.

So what does DST really amount to? It simply means that Dad sleeps one hour less.

## Dr. Hobbs To Speak At Baptist Assembly

Dr. Herschel H. Hobbs, pastor of the First Baptist Church in Oklahoma City, will be the featured speaker for the workshop service which will close the Two Area Southern Baptist Men's Camp at the Plains Baptist Assembly on June 26.

A large number of men and boys from the two areas, which include Lubbock, Staked Plains, South Plains, Llano Alto, and Caprock Baptist Associations, are expected to be present at this Men's Camp.

The camp activities will begin at 2:00 p.m. with swimming, horseshoe pitching, and softball. One of the highlights of the afternoon will be the softball tournament. Each association will have a team entered in the tournament.

A Fish Fry will be served to all of the men and boys from 6:30 till 7:30 p.m. After the Fish Fry, the men will assemble in the new air-conditioned auditorium to hear Dr. Hobbs, speaker on the Baptist Hour since 1958, author of the weekly column "Baptist Beliefs," published in the Baptist Standard and other similar periodicals, and past president of the Southern Baptist Convention. All men and boys are invited to be present.

## NEWS FOR HOMEMAKERS

by Sherry Mullin  
Floyd County H. D. Agent

When barbecued. Any number of savory barbecue sauces and wide variety of fruits and vegetables complement the delicate pork flavor.

Brush on barbecue sauces towards the end of the cooking time. Because they help with browning, it is difficult to judge doneness when they've been added earlier.

A meat thermometer is essential when grilling fresh pork roasts. Approximate roasting times are difficult to calculate since air currents can affect the source of heat out-of-doors.

Pork loins (boneless or easier to carve) should be cooked to an internal temperature of 170 degrees F. While shoulder and fresh ham roasts cook to 185 degrees F.

Pork loin also can be cut into chops for long, slow cooking over low heat.

Barbecued spareribs always please outdoor eaters. Since pork must be thoroughly cooked, simmer ribs in water 45 minutes on the range, then take them to the grill for final browning and crisping with a tangy barbecue sauce.

For a change, serve back or country ribs which have a high proportion of lean. Simmer about an hour before barbecuing.

Smoked pork chops or loin roasts, similar in flavor to Canadian bacon come either "cook before eating" or "fully cooked." These are enhanced by the barbecue flavor too.

Since lamb is so tender, most cuts are suitable for the grill. Tart or tangy sauces accent lamb chops, roasts and ground-lamb patties. Lamb kabobs are quick cooking and make most attractive entrees.

Alternate chunks of lamb with either fruit - peaches, pineapple, oranges, plums; or vegetables - onions, mushrooms, cherry tomatoes, celery, green peppers.

Just about any combination of foods that taste good together can be skewered together. The only rule is to select foods that will cook in about the same time.

Fresh pork cubes, for example, can be broiled - but they take longer to cook through thoroughly than the pineapple chunks or green pepper pieces that go with them.

In such cases put the meat on the skewer or several skewers and start it first. Put the fruits and vegetables on other skewers to start grilling later.

For last minute barbecues, nothing beats canned meats. Canned hams, pork and beef luncheon meats, meat balls and cocktail frankfurters are ready to heat and eat.

Luncheon meats and hams can be cooked either whole or sliced. Score the whole loaves and brush with a brown sugary glaze for a festive appearance.

Skewer meatballs and little franks to make hot appetizers to eat while waiting for the rest of the meal to finish cooking.

## Church Of Christ Minister's Condition Critical

Members of City Park Church of Christ have been alerted to the critical condition of a former minister of their congregation, Henry Ewing, who has been in Africa as a missionary since serving with the local congregation several years ago.

In a letter published in the City Park Church of Christ bulletin for last Sunday, the elders of Southside Church of Christ in Amarillo tell of Ewing's undergoing surgery on June 2 to remove a left kidney, along with a tumor that had almost overgrown the kidney. Lab reports showed that it was malignant, and that the malignancy had spread to other areas of his body.

Doctors in Windhoek, Southwest Africa, advised his wife, Beth, to bring him to the States for treatment. One June 12 a cablegram brought the information that his condition had worsened by a blood clot in his right leg. The elders talked to Beth by phone, and she said that although his recovery had been complicated by the thrombosis, the doctors felt that he would be able to return as scheduled.

**PLANS**  
The Southside elders have arranged for the entire family to return, leaving Saturday night, June 24, at 8:35, and going by way of Frankfurt, New York, and Dallas, to Amarillo, where they are scheduled to land at 11:42. This, of course, depends on Ewing's condition.

A group from the Southside Church plans on meeting them at the airport, and Mrs. George Elkins says that some from the local congregation will be there, too.

**VERY SERIOUS**  
Ewing's condition is so serious that Mrs. Ewing plans to dispose of all their belongings before coming to Amarillo. Doctors have advised the family to return as scheduled.

**DEE ANN WILSON HAS OPERATION**  
Dee Ann Wilson, daughter of Mr. and Mrs. Woodrow Wilson, is expected home Friday from Lubbock Methodist Hospital where she underwent knee surgery Saturday morning.

Dee, who is employed as a camp girl counselor at El Tesoro, near Ft. Worth during the summer months, turned her knee accidentally last Friday while assisting a group in a skit. It was the knee injured badly in a car wreck some two years ago. The operation was to repair a split cartilage behind the knee cap.

Dee was taken to a Fort Worth hospital shortly after the accident where she received medical attention. She was met there Friday morning by her mother and both returned by plane to Lubbock that afternoon.

The Floydada girl, who is a student at Texas Tech, will be on crutches for some time, but has hopes of returning to the camp to continue her work in a short time.

ily that treatment, if successful, will be long and drawn-out and painful. The Southside elders have a three-bedroom furnished apartment ready for their arrival, emphasizes George Elkins, local evangelist, in releasing the letter to his congregation.

**CORRESPONDENCE**  
Persons wishing to contact the Southside Church of Christ may direct their letters to 4400 Crockett in Amarillo.

**FAMILY**  
A reporter from the Hesperian, in talking with Mrs. Elkins, Mrs. Troye Stansell, and Mrs. Ned Bradley, found that one of the most remarkable things about the Ewings was the unusual composure and harmony of the children.

On long trips and on other occasions when it would be generally considered normal for the children to do some quarreling and complaining, they were always very agreeable. Mrs. Stansell cited a trip to Abilene as an instance, and it was reported the Dan Whitakers, who entertained them in their home for several days, said that it seemed he was playing host to group of angels rather than children, so well-behaved and joyous they were.

Of the six children two are married, one in college and three at home. Betty, now Mrs. Alvis Golightly, is in missionary service in Latin America, while Jeanie, also married, is in Bulawa, an area of southern Rhodesia to which the Ewings went upon leaving Floydada, and from which they are a family left only a few months ago to start missionary work in Southwest Africa.

Pat, enrolled as a student at Abilene Christian College, is now taking advantage of the summer vacation to sell Bibles in the South. Bonnie, George, and Linda are at home, and will accompany their parents to Amarillo. Beth's own parents have been missionaries in Africa for over forty years, and she was born in Africa.

**English Professor Wants To Know How Floyd Communities Got Name**

Residents of Floyd County were asked this week to help solve the mystery of the origins of several geographical names found on county maps.

The information is needed for a dictionary of Texas place names, including Floyd and the other 253 counties, to be published soon by the East Texas State University press. Before Dr. Fred Tarpley, professor of English at the university, submits his final manuscript, he is appealing to county residents for assistance in contributing information about several names with unexplained origins.

With the following exceptions, the reasons for the choice of approximately 200 names found on detailed maps of the county have already been determined: Alken, Alinon Community, Antelope, Arick Oil Field, Baker, Barwise, Booth, Brown Airfield, Carrs, Cedar Hill, Cereal, Edgin, Fairmont, Harmony, Lakeview, Lone Star, McCoy, Muncy, Prairie, Providence, South Plains, Thompson, Farm Airfield and Trinity.

Dr. Tarpley, who started his research on Texas geographical names five years ago, has exhausted material available to him in history books, newspaper files, student research, and

interviews with county leaders. He is hoping that the story behind the naming of the communities, creeks, and other geographical sites listed above can be explained before his book goes to press.

Information will be welcomed by Dr. Fred Tarpley, Department of English, East Texas State University, Commerce, Texas 75428.

## A. Dunlap Spans Era From Trail Dust To Jet Smoke

There are seven grandchildren, five in California, in easy reach, and the two children of the R. G. Dunlaps of Floydada.

**DISCOURAGEMENT**

When he came to this part of Texas the ranchers tried to discourage him from farming. They said that this country was suitable only for ranching, that a farmer would starve. He bought a farm in 1914. Until a few years ago, his son R.G. was still living on the old homestead in the Liberty community north of town. The younger Dunlaps have a fine picture of the home, drawn by Mrs. W.P. Nicholson. He had a great deal to do with the carpenter work in all of the homes he lived in, and also did the plumbing.

J. A. DUNLAP

**WEATHER, TRAVEL**

His daughter-in-law, Mrs. R.G. Dunlap, says that he can tell some really tall stories about the weather in this country. When asked about this subject, he chuckled as if to say, "Well, you never could expect the young folks to believe them!" Telling of the difficulties in travel, he said they moved in a wagon, with a cover protecting all of their possessions.

**PHILOSOPHY**

He attributes his long life to his refusal to worry, and Mrs. R.G. Dunlap says there isn't a lazy bone in his body; that he never complains; has always been a fine cook; loves to read history, and most of all, the Bible. He says that if you'll treat your fellow man right, you'll always have friends. He declares that there is no place he has ever been that he would be ashamed to visit again.

**CURIOSITY**

Something of his intellectual curiosity was shown only a few days ago. He was wondering out loud where a certain place was on the map. Asking his daughter-in-law, he found she did not know either, so together they looked it up in a world atlas. He spends considerable time studying maps. Having come to this area when cotton could hardly be ginned, he is now familiar with the freeways in California, and would have flown here for his yearly visit of about a month, but for the train schedule being so much handier to follow. He has seen the time when cotton became so knotted that it was first run through a threshing cylinder, and then ginned. This was immature cotton. At first cotton culture around Plainview was unsuccessful, though it was being grown in Floyd County. Many thought the growing seasons were too short, but in recent decades this most positively has been shown to be false.

**GOOD COOK**

Part of the humor that helps to spark his conversation was shown in his talk of cooking, and his wife's health. He said he married her at 17 1/2 and taught her to cook; that upon their marriage his mother-in-law told him that he was marrying a doctor bill, and then pointed with pride to the age she attained, being 6 months past eighty at her death. He takes little medicine even yet. He has been living in Yucaipa, Calif., for the past 20 1/2 years. One son is in Woodland Hills; a daughter in North Palm Springs, and they both check up on him at least weekly. He says he realizes that an older person would get in the way of

**PROGRESS**

There was a time, he says, after coming out here to North-west Texas, that a person could say of Lubbock and Floydada: "Wasn't either one fit to be a camping place"; and "No courthouse was big enough to hold a jury."

From the times when Judge Henry's story-and-a-half house was quite a landmark and the Duncans were pioneers,

**EXERCISES**

This, then, is the picture of a man carrying his own load, willing to help others carry theirs, believing in exercise of the mind, the body, and the heart and soul. Believing that this is the best agricultural area in the world, he thinks his present home, in the San Bernardino region, has the world's finest climate. Because of his deafness he has to restrict his intake of knowledge very much to the printed page, using his bifocals occasionally. He is apparently just as much a part of the current world of 1967 as he was of that of the 1880's. Having seen the time that he bought his Liberty land for \$10.50 an acre (there had earlier been a chance to buy it at \$1 for legal fees), he laughs over the time he refused an offer of two sections of shallow irrigated land near Lockney in exchange for one section at Liberty. Irrigation just didn't appear feasible at that time, as the production costs were prohibitive.

## DOUGHERTY NEWS by Mrs. Ross

**DOUGHERTY, June 19** - The wheat harvest is nearing completion. With favorable weather it should be finished this week. The report is an average good crop and comparing with other areas our area was most fortunate this season. The overall quality of the wheat has been good; dryland excellent; dryland yields are reported from 6 to 22 bushels with average about 12 bu. The irrigated wheat yields are reported from 19 to 40 bushels, the average probably around 30 bushels.

Mrs. Gus Hammonds is patient at Medical Arts Center, Plainview, following a one car accident near Crowell June 13. The accident was caused by mechanical failure. She received facial, chest and spinal injuries. She is reported to be recovering as well as can be expected.

Mrs. Roy Crawford spent several days last week in the home of her sister, Mrs. Brownie Smith, caring for the infant daughter and other members of the family. Mrs. Smith stayed at the Plainview Hospital with her son, Mark, who has pancreatitis as a complication of the mumps. His condition is good and he is expected to make a complete recovery.

Bill Norman is convalescing at home after spending six weeks in a Houston hospital. Mrs. Houston Green was the house guest of Mr. and Mrs. G. W. Smith several days last week. Houston was an overnight guest Sunday and they returned to Durango, Colo. today.

Mr. and Mrs. Frank Ashton and Mrs. Lena Cleveland of San Antonio were house guests of Mr. and Mrs. Orland Howard last week. Saturday Mr. and Mrs. Cecil Armstrong, Lubbock, Mr. and Mrs. Grady Freeman of Floydada, and Earl Freeman were dinner guests in the Howard home. Sunday this group were entertained in the Grady Freeman home.

Carlton Freeman of Albuquerque will arrive today for a visit with his aunt, Mr. and Mrs. Orland Howard.

Jimmy Powell is leaving today (Monday) for his new home at Oklahoma City.

Mr. and Mrs. R. H. Crawford were Sunday dinner guests of

to the present, is quite a story, but he has taken it all in stride, with good humor, and appreciation of what progress means. Now with his four surviving children scattered, two near him in California, one here just west of Floydada, and another in North Carolina, he retains his sense of adventure and awareness.

Some people simply won't crawl up on that shelf!

Mr. and Mrs. A. C. Pratt. Mrs. Birdie Burnett of Quanah was the house guest of Mr. and Mrs. Claude Ring last week. Sunday Miss Sue Ring of Denver, Colo. and Mr. and Mrs. Hubert Ring and David of Lubbock were guests of their parents. Jimmy Powell was also a dinner guest in the Ring home.

Mrs. Bob Everett and sons of Lubbock were Sunday guests in the G. W. Smith home.

Sunday dinner guests in the home of Mr. and Mrs. Ray Tiney and Danny were her parents, Mr. and Mrs. John Burrus and daughter Kandice Jon, her grandparents, Mr. and Mrs. John Callahan, and her great aunt, Mrs. Lizzie Crausly of McAdoo.

Mrs. R. H. Crawford visited her sister, Mrs. Bill White and sister-in-law, Mrs. Marlon Brooks in Lubbock Friday.

## Nine Accidents in Floyd County in Month Of May

The Texas Highway Patrol investigated nine accidents on rural highways in Floyd County during the month of May, according to Sergeant Thurman Keffer, Highway Patrol Supervisor of this area.

These crashes resulted in an estimated property damage of \$4,305.00.

The rural accident summary for this county during the first five months of 1967 shows a total of 29 accidents resulting in three persons killed, 17 persons injured, and an estimated property damage of \$23,898.00.

The vacation season is now in full swing. This means more traffic and many drivers going for long hours without sleep.

In many areas harvest is in progress which means slow-moving farm machinery on the highway, oftentimes poorly lighted or not lighted at all.

The Patrol Sergeant cautioned motorists to watch for the dozing driver and to be alert for slow-moving vehicles. If you are traveling this summer, allow plenty of time for your trip, and rest often.

**FLOYD DATA**

Mr. and Mrs. Jake Dollar of Wichita Falls visited last week with her aunt, Mrs. G. C. Bailey of Floydada. The Dollars were enroute to California.

U.S. payments show a deficit in quarter.

## Rites Held For Young Victim Of Tractor Mishap

Funeral rites were held Monday afternoon in Lockney at the San Jose Catholic Church for Dionicio Sanchez, 11 year old Cedar Hill youth killed in a tractor mishap about 11 o'clock Saturday morning.

Father Paul Link officiated. Burial was in Lockney Cemetery.

The boy, along with his mother, Mrs. Eluteria Tamayo, her husband and other members of the family, were at the boy's older brother's home, the Jessie Sanchez family at Cedar Hill when the accident occurred. Jessie was preparing to leave the house on the tractor to plow on the Raz Ware farm, where he is employed. His younger brother was riding with

him. Friends said the youth fell forward from the tractor and a rear wheel passed over his body before the tractor could be stopped. The family rushed the boy by private car to Lockney General Hospital where he was pronounced dead on arrival.

Tamayo is employed by J.A.

Welch at Cedar Hill. The family has resided in that area for the past four or five years. The victim was a native of Robstown.

He is survived by his father, Jose Sanchez of Robstown, his mother and stepfather; three brothers and five sisters.

Because you love to save stamps you ought to know...

Side-by-side comparison shows what makes Heritage Stamp different and more valuable than ordinary trading stamps

THIS IS A HERITAGE SAVINGS STAMP

It's different and better because:  
\* Each Heritage Stamp has an actual cash value of one-half (1/2) cent. Thus two Heritage Stamps are worth one cent (1c); twenty of them equal a dime in cash; one hundred of them equal fifty cents (50c) cash. You get one Heritage stamp with each 25c purchase.

\* A Heritage Stamp junior saver's book is worth \$2.50 in your personal savings account at the bank listed below. Or it is worth \$2.50 in merchandise or \$2.25 in cash at any store which gives Heritage Stamps. Heritage Stamps may also be collected in regular saver's books worth \$7.50 in savings or merchandise and \$7.00 in cash.

\* You can redeem Heritage Stamps in your own hometown at any place which gives them. Heritage Stamps are redeemable for a wide, wide range of merchandise and services. Many merchants who give Heritage Stamps (supermarkets for example) allow their customers to apply their stamps to their charge account. Thus, each store which gives Heritage Stamps is its own redemption center. It is convenient for you, and it keeps the money at work in your own hometown.

\* Heritage Stamps give you the option of saving for many important purposes. When deposited as personal savings, they can build an educational fund for your children. They can finance vacations. They can be the foundation of your own retirement fund.

\* Heritage Stamps are versatile, practical, valuable. They work like money for you.

Filled books of Heritage Stamps are accepted in your personal Savings Account at FIRST NATIONAL BANK Lockney

THIS IS A CONVENTIONAL TRADING STAMP

This is the way it works:  
\* The usual trading stamp has an actual value of one mill which is one-tenth (1/10) cent. Thus it takes ten to be worth a penny; a hundred have a cash value of ten cents. You get one conventional stamp with a purchase.

\* A filled book of ordinary trading stamps has an actual cash value of about \$1.20, but is rarely redeemed for money.

\* A filled book (1200 stamps) is worth \$2.40 when redeemed for merchandise at a redemption store. The apparent difference in cash value and redemption value is due to mark-up which the redemption store puts on merchandise in order to make a profit.

\* Usually, you must travel some distance to a redemption center. In some cases a redemption center may be in another city away from you.

\* While many redemption stores are well stocked, the merchandise offered is rarely limited.

\* You can redeem conventional stamps at the redemption store established for that store. You have no opportunity to shop for better merchandise or better value.
