## Drivers License Office Opens In Courthouse

### Pictures Go On Licenses

FRANCES ROSE

January 1, 1968.

"The change makes it necessary for all drivers to renew licenses in person at one of our Department offices," Garrison said, "and we have been working toward setting up a procedure that will not cause excessive delay when a person comes to us to renew a license."

Garrison explained that the change in license was incorporated into law by the last legislature. "Renewal notices will be mailed to each driver, just as always," Garrison said. "However, under the new procedure, each driver must take the re-

A full time drivers license office has opened in the Floyd county courthouse and clerk in the new office is Frances Rose. She will keep the office open Monday through Friday and license examinations will be given each Friday and on the first, third and fifth Thursdays of each month.

The office is located on the second floor of the courthouse, next door south of the Migrant Health Office.

A new requirement on Texas drivers licenses is a picture of each individual and Mrs. Rose takes the pictures. When licenses expire, they should be renewed at her office.

### C.J. Payne Seeks Re Election As County Tax Assessor Collector

C. J. PAYNE

The Hesperian has been authorized to announce the candidacy of C.J. Payne, who seeks re-election to the office of tax assessor-collector of Floyd county.

His statement of candidacy reads as follows:

I, C.J. Payne would like to announce at this time as a candidate for re-election as your County Tax Assessor & Collector of Floyd County subject to the actions of the Democratic Primary.

Also I would like to say it has been a pleasure as well as a rewarding experience to serve as your County Assessor & Collector for the past three years.

Your influence and vote will be greatly appreciated if you see fit to re-elect me to this office.

Again, thanks for the courtesies shown this office in the past three years.

missioner of precinct 1 for several years. He has lived in Floyd County 24 years. In a statement to The Hesperian Mr. Fowler said:

"I want to express my appreciation to the people in precinct 1 and to the entire commissioner's court for their cooperation during my past terms of service as your commissioner.

If re-elected I pledge my continued best efforts to serve you

### Old Man "Flu" Hangs On

The influenza malady hangs on in Floyd county, although it probably hit a peak during Christmas week.

A total of 100 students were out of school just before the Christmas holidays with the flu and a report at noon Wednesday showed 199 absent from Floydada schools. Of course the ice storm kept some in.

One hundred students were absent in Lockney schools on Tuesday.

Approximately 2,000 persons in Lubbock are suffering with the flu.

There has not been an appreciable increase in patients at the hospital, but doctors have worked night and day adminis-

FIRST NEW YEAR'S BABY.... In Floyd County was born at 12:52 a. m. Monday, January 1, in Lockney General Hospital. The little girl, Esmeralda Vidaurri, weighed six pounds 12 and a half ounces at birth. The parents are Mr. and Mrs. Narciso Vidaurri of Rt. 1, Lockney. No New Year's baby had been born in Floydada by 9 o'clock yesterday morning. The Vidaurri family will receive a years free subscription to the Hesperian. (Lockney Beacon Photo)

### Stapleton Seeks Re Election As District Attorney

District Attorney John B. Stapleton of Floydada this week announced his candidacy for re-election as District Attorney of the 110th Judicial District. Stapleton is a Democrat, and his candidacy is subject to the action of the Democratic Primary May 4, 1968. The district is made up of Dickens, Motley, Floyd and Briscoe Counties.

Stapleton was reared at Lockney and has made his home at Floydada for thirty years. Prior to his election as District Attorney he served two terms as County Attorney of Floyd County. He was elected District Attorney in 1946 right after returning from four years' service in the Army in World War Two and has served in the office ever since.

Stapleton is married to the former Bernice Patton of Floydada, and they have two children, a son now with the Air Force in Japan, and a daughter in college.

Stapleton expresses his appreciation to the people of the District for the opportunity of serving over the years and for the cooperation which they have given him and the other officers in all the counties of the district.

### Walter Hollums Seeks ReElection County Sheriff

Sheriff Walter Hollums has authorized The Hesperian to publish the following statement in which he seeks re-election as sheriff of Floyd County.

"To The People of Floyd County: I have enjoyed serving you as your Sheriff, and I appreciate the understanding and very fine co-operation which all of the people have given me. I would like to serve you as Sheriff again, and so I am hereby announcing my candidacy for re-election to the office subject to the action of the Democratic Primaries.

If re-elected, I promise you the very best service of which I am capable. If you feel that the experience I have had and the service I have rendered merit further service in the office, I will appreciate your support with all of my heart."

ROY HALE

### Roy Hale Seeks Commissioner Precinct 1 Office

Roy Hale has authorized The Hesperian to publish his announcement as a candidate for commissioner of precinct 1 in Floyd county in the Democratic Primary May 4.

His statement of candidacy reads as follows:

"To the people of Precinct No. 1 I am a candidate for commissioner of precinct No. 1, Floyd County. Subject to the Democratic primary on May 4th. I have been a resident of Floyd county for 48 years. Most of that time I have lived in the Harmony community and precinct No. 1, where I now live and farm.

I will make every effort to see and talk with each of you

BOB HOPE picture that we printed in Hesperian last week, resulted in a lot of calling and saying the fellow with the name like Sammy Hale. (Thanks, Sammy, for being a good sport.)

It started when Dr. Tommy McIntosh was through a Holiday Inn magazine and saw the picture. Actually, the fellow with Bob of the Holiday Inn officials from up north. Well, Tommy came across the street in the Hesperian and says, "who does this look like visiting with Bob Hope." Everyone said, "Sammy Hale."

So, just for the curiosity appeal, we ran the picture to see if our readers agreed that the fellow looked like Sammy. They did!

WELL GIVE coach Bill Curry an A plus for being the first to call in the answer to our quiz last week. His answer: 90 pennies, one ten, seven 50 cent pieces, two quarters. Another answer sent in also seems to be correct: one fifty cent piece, thirty-nine dimes and sixty pennies.

They both add up to the requirements of the quiz... 100 different coins adding up to \$1.00.

COME SOME DWI's are reported in Hesperian and some are not?..... This question that occasionally comes to me I try to explain our policy on why we don't. In the first place DWI stands for driving while intoxicated.

We don't report all the small arrests and those that happen in and out of the city of Floydada... and this includes the first offense, which is considered a misdemeanor.

To report all the major auto wrecks and DWI arrests that get into grand jury action. This DWI is important enough that it is a second or more offense considered a felony and there fore goes to jury judgement.

If you are arrested for DWI on the scene, go before the grand jury and if found guilty, the Hesperian will print the results of the jury's action.

Of course the best guarantee that you'll have your name published on a DWI is very simple: If you drive don't drink and if you drink, don't drive.

YOU CAN'T WIN 'EM ALL... we were through the Cowboy loss to Green Bay that one by 12 seconds... and next we thoroughly enjoyed the Texas A&M win in Alabama.

We were for the Cowboys all the way (but a sorta proud of Donnie Anderson for the play he made for Green Bay.)

Well I'll be back hollering for Green Bay the next one, which I figure they'll have a little winning.

I have come to see about your advertisement for a man to retail canaries. Oh, do you want the job? Well, no. But I'm curious. How did they catch these little birds?

My mother was sitting in the igloo from a storybook to her small son, "What's that?" she read, "sat in a box."

"Mother," asked the boy, "what's a cor-?"

My say that some electronic data machines are human that when they make a mistake can blame it on other machines.

Boy: "I'll have to have a raise, Sir. I am now three companies after me." "What three?" "Light, telephone, and water."

Other: "I sent my son to buy five pounds of meat, but you gave him half that amount." "How?" "My scales are accurate. But have weighed your son?"

Politician who had changed his views radically was congratulated by a colleague. "I'm glad you've seen the light," he said. "I felt the heat."

Tourist pulled up to a curb in a strange place and chanced to ask the village idiot, "you know a fellow with one arm called Ed Peters?"

"I don't believe I do," replied the idiot. "Tell me the name of his other arm and maybe I will help you."

### Highway Patrol Tells Of New Headgear Law For Motorcycle Riders

Floydada Highway Patrolman Gerald Howard week reminded all motorcycle riders of the new law requiring protective headgear. The new law is effective now and any person desiring more information about the type of protective headgear to wear should visit the Highway Patrol office. A complete list of approved headgear is available. The law also states that any peace officer may stop and detain any motorcycle operator wearing headgear for the purpose of inspecting the headgear to determine if the headgear is of a style and make approved by the department.

Any person who violates this law is guilty of a misdemeanor and upon conviction is liable by a fine of not less than \$10 nor more than \$50.

## South Plains News

BY MRS. MURRAY JULIAN

SOUTH PLAINS, Jan. 1—Happy New Year to everyone, as well as startanew—it depends on each of us as to what the year will hold for us. The wintry weather got down to 14 degrees Saturday night and hovered in the 20's Sunday. Snow at the ice-covered front of the Baptist Church here helped decide to not have New Year's Eve services. Only 46 were there for the Sunday morning services, with no visitors seen. We had a regular old blizzard Wednesday morning, but by noon the sun was out and the brief storm was over except for the bitter cold.

School will begin here Wednesday, January 3rd, and most of our children are well after several cases of flu and other disorders, such as colds, sore throats, coughs. Many adults as well as the youngsters have suffered from the flu, including Mrs. E.W. Newton, and members of the Harold Hamn families who were visiting here from Dallas and Abilene.

Jimmy Pritchett went back Saturday to Texas Tech after visiting thru Christmas here with his folks, the Early Pritchetts. He was in the process of moving from his dorm to another place closer to classes. Another son, Mr. and Mrs. Price Pritchett, returned home the day after Christmas as Patty came down with a case of flu during the holidays.

Mr. and Mrs. Marvin Wells, Kim and Marilinda from Mineral Wells is here visiting this Monday with her brother and family, the Don Marbles. They will be here visiting members of her and his families until the week end is over. Marvin is conducting a farm sale Saturday, Jan. 6, in which he will put his home on the market. The house is situated just off the road between here and Floydada, near the Lockney cut-off.

Mr. and Mrs. H. L. Marble had all their children and grandchildren home with them Sunday for a pre-New Year's Dinner, and all the children carried dishes to serve at the dinner. Those who attended were Mr. and Mrs. Marvin Wells and girls from Mineral Wells, the Don Marbles, Brett and Donette, the Fred Marbles, and children, and the Keith Marbles, Dwayne and D'Lee.

Mr. and Mrs. Dale Roberts, Pam and Mike from Albuquerque, N.M., were visiting here with his sister, Mrs. Kendis Julian and family Friday and Saturday. They were in the vicinity during the Christmas holidays, and were here also for the wedding of Ken Roberts and Miss Arlene Taylor which took place Saturday evening.

Mr. and Mrs. Jack Douglas, Don and Donna from Albuquerque, N.M., have started their return home Tuesday, and were planning to visit friends and relatives in Shamrock, but spent the holidays here with their people, Mr. and Mrs. W. W. Merrell of Quitaque, and visited here with her sister, Mrs. J.P. Taylor and family during Christmas.

Mr. and Mrs. Tillman Powell, Sandy, Donna and Warren returned from Anna, Tex. near Dallas, Wednesday night after visiting over the weekend of Christmas with his folks, Mr. and Mrs. W. S. Powell. Their son, Tommy, who is in the Armed Forces, the Air Force in Omaha, Nebr. at Offutt Air Base, had hoped to be home for Christmas, but all leaves were cancelled. He was given extra work at the Air Force Library where he works, but he is hoping to get home sometime during January.

Word from Allan Adams, who is in the Marine Base at California, expects to get home around January 3. He will be in Falls, where he is with the Carter Funeral Home. We will be happy when all the boys can get home.

Mr. and Mrs. Howard Staples and son came last Saturday from Dallas, and Mr. and Mrs. John Bentley of Abilene, where he attends McMurry College arrived Friday evening to spend the Christmas holidays here with the girls' parents, Mr. and Mrs. Howard Hamn, Jeanneva and Arlaine. Mr. and Mrs. Thomas Pierce and children and Bev, and Mrs. H. S. Calahan Jr. of Burleson and some of their children visited last Tuesday evening in the home of Mr. and Mrs. Sylvie Kimbrough.

Rev. and Mrs. Bealy Smith, Gregg, Terry and Sharon and Mrs. Bryant Higginbotham had dinner with Mr. and Mrs. L.N. Johnson and family last Tuesday. Then they were overnight guests of Mrs. Higginbotham. They left for their home in Weatherford Wednesday morning. The Smiths visited with other friends in this area while here.

Ken Erwin Roberts of Floydada and Miss Arlene Taylor of Petersburg were united in marriage on Saturday afternoon at the First Baptist Church of

Floydada, with the Rev. F. C. Bradley officiating. Miss Taylor is the daughter of Mr. and Mrs. Cecil Taylor and Ken is the son of Mrs. Jessie Roberts of Floydada. Ken is the brother of Mrs. Kendis Julian in our vicinity. Mr. and Mrs. Kendis Julian, Kristi and Mitzel attended the wedding as did

the immediate members of both families. The young folks will make their home in Floydada where Ken is employed by the First National Bank. We extend much happiness to the young couple. The bride formerly lived in our area with her parents.

Mr. and Mrs. I. H. Parks went to Houston over the Christmas holidays to visit their son, Mr. and Mrs. Eddie Parks and daughter during Christmas. Another son, Mr. and Mrs. J. Frank Parks of Abilene, where he attends McMurry College, were in Floydada for the holidays with her folks, the Harpers.

Mr. and Mrs. Glen Whitfill, Judy and Cindy left Tuesday after staying here Saturday night to Tuesday with her parents,

Mr. and Mrs. Alvin Nichols, Judy, who attends Cisco Junior College, remained here to visit with her grandparents until Thursday. Mrs. Nichols is feeling good again, after her fall several weeks ago at the Methodist Church in Floydada.

Mr. and Mrs. Murray Julian plan to leave Saturday for Kit Carson, Colo., east of Denver, to attend the wedding of her niece, Miss Wanda Everist to Larry Johnson Saturday evening, January 6, weather permitting. They plan to visit her brother, the Wesley Everists, and her sister, Mr. and Mrs. Otis Sandusky in Denver, and friends at Brighton, Colo., and in Atwood, Kansas, before returning home.

Mr. and Mrs. Eugene Beedy

and boys were hosts for the Christmas Day dinner and get-together of the Beedy family this year with Mr. and Mrs. Bill Beedy of Claude, Mr. and Mrs. Charles Beedy and children of Stinnett and Mr. and Mrs. Bradford Beedy and sons of Shamrock attending.

Mr. and Mrs. Ernest Newton went to Monett, Missouri, to spend Christmas with their daughter, Mr. and Mrs. Leonard Moore and children. They left Saturday, and returned Tuesday. Mrs. Newton came down with the flu the night they returned home and was confined to her home all the past week with illness. She hopes to be able to resume her work Tuesday morning.

Mr. and Mrs. Eddie Branch

of Lake Whitney and Mrs. J.E. Woodson of Snyder came Friday afternoon and spent the night here with Mrs. Branch's and Mrs. Woodson's sister, Mrs. Frank McClure, and other guests, Mrs. Jean McClure, Donna, D'Ann and Boyd of Plainview, who spent from Wednesday to Monday here with her folks, Mr. and Mrs. McClure.

Mr. and Mrs. J. P. Taylor and Katie, and Mr. and Mrs. J. Ronald Taylor and baby son, spent New Year's Day in Lockney with Mr. and Mrs. Joe Taylor, Rise and Gregg.

Mr. and Mrs. Roy Burks of Ballinger arrived here Saturday night at the home of Mr. and Mrs. Bryan Karr. Mrs. Purks became ill and they left

for home Sunday mornng. She had been ill with the flu the past week.

We offer our sympathy to Mrs. Kendis Julian at the passing of her aunt, Mrs. Ross Woods (Freda) of Roaring Springs, Friday evening at a Matador Hospital. She was the sister of Mrs. Jessie Roberts of Floydada. Services were held at the Slegler Funeral Home in Roaring Springs Sunday afternoon. Mrs. Woods had only moved recently to Roaring Springs from Amarillo, and had been ill for several months.

Mr. and Mrs. Don Prasco have been confined to their home since Christmas with their five children and themselves with the flu. All the children have had coughs

and sore throats. Beginning this Tuesday at 7 o'clock, there will be a Bible study at the Baptist Church, taught by Rev. Chas. "They study course will be on from "Studies in the Gospel" by Frank Stagg. The course will go through the night.

All of the members of the Tom Maurer family have been ill with the flu during the Christmas.

There will be a PT-A Meeting at the South Plains High School Friday, Jan. 5. The meeting will be the exchange of Lockney from Malaysia. Everyone come and hear and discussions that will be

## Making The Drag

BY SUZANNE GUTHRIE

### "Making The Drag"

Congratulations Whirlettes on winning a first place trophy in the Farwell Tournament!

One of the strangest things just happened: I called Susan and Jan Killian, at Jan's house, and after we talked a few minutes Jan said "Guess what we're doing," I said "What?" And she informed me that she and Susan were coloring in a color book they got from Susan's little sister, Jaysia. If you think teen-agers are growing up too fast, think again!

Back to school! I think we were all ready to get back and see each other, but now that we've all talked and etc. I think we're ready for another holiday.

The drag has been filled with lonely girls since Saturday. Seems that all the boys are at home watching the football game. I know lots of girls that are glad all that football is over (That's tuff competition!)

Let's have some GOOD spirit! O.K.? It seems to me that the crowds haven't been very big lately at the games so now that everyone's had a rest, Support the Whirlwinds and Whirlettes very game-O.K.???

Your answer is (SURE WE WILL!)

"Seeing we also are compassed about with so great a cloud of witnesses...let us run with patience the race that which is set before us." Hebrews 12:1

Most of us do not have time to sit down and work out in detail just what it is we believe or just what life is all about. Our days are so full of things to be done that there is not much time for abstract thinking. But then there is a danger that life might become purposeless, and dreary.

The Apostle Paul suggested a good solution in the above quotation.

When we attribute greatness to Americans such as Lincoln, John Paul Jones, Jefferson, we are in reality, setting a standard of conduct for ourselves. Then we should try to make our lives into something men like the above would respect.

And most important, we should try to set a standard of high quality for those who look up to us.

I think we as high school students need to especially realize that someone looks up to each of us--So let's don't let them down. O.K.?

Run around all you can, finals are coming up soon.

Suzanne Guthrie

notice to the nearest DPS office. There he will be given a standard vision test, sign the renewal notice and step in front of our camera. The picture will be snapped and a receipt will be issued to enable the person to drive until he receives his new license in the mail.

Garrison explained that about 30 full-time license offices could be in operation over the state to service license renewals. Issuance of new licenses will also be conducted in many of these new offices as well as at offices already established.

There are currently over 5,000 licensed drivers in Texas and about 2,500,000 licenses are renewed annually.

Facilitate the process all licenses after January 1 will be renewed to expire on the birthdate of the licensee. If the person holds a license ending in an even number, it will be renewed for a four year term; if license ends in an odd number, it will be renewed for two years the first time then for one year each time thereafter.

The cost to the driver remains the same per year.

The new license will be approximately 2 1/8 inches wide by 3 3/8 inches long, or about the same size as a standard edit card.

"We anticipate fairly large crowds at many of our offices," said Garrison, "and we hope to be able to give each person completely satisfactory service. We look forward to making many new friends among millions of persons we have been serving by mail before."

**DIRECTORS TO WATER DISTRICT TO BE ELECTED**

Floyd County will elect committee members from Precincts 1 and 3 to the High Plains Underground Water Conservation District No. 1 in a January 9 election. Chester W. Mitchell of Lockney is seeking re-election to the board of directors at the same time.

Mitchell currently serves as director for Precinct 5—Floyd and Hale Counties—and is secretary of the five-man board.

Nominees for county committee members are M. J. McNeill of Floydada for Precinct 1 and M. M. (Murray) Julian of South Plains in Precinct 3.

Residents of the district also will decide whether to annex Crosby County.

All qualified voters living within the district are eligible to vote for the district directors, county committee members, and to accept or reject the county that desires to become a part of the district.

A qualified voter is one who has a valid voter registration certificate for 1967 and owns property within the district. Water district officials point out that an individual must not necessarily own a farm or an irrigation well to vote.

Lockney City Hall and the Courthouse in Floydada are voting sites.

**CENTER NEWS by Mrs. J. E. Green**

CENTER, Dec. 30, 1967—Our better half was able to spend Christmas at home after several days in Caprock Hospital.

We had a sweet Christmas on Wednesday, the 27th, when our whole family of 21 were present except Doc-plus the Anthony Lattos of Mt. Blanco.

The Doctor's decree was a trip to see a certain Lubbock specialist on Friday—two of our children brought us—So here we are in Methodist Hospital. We hope and think J.E. Green is improving already after minor surgery.

Also we understand other Centerites had a good Christmas. The Rosses had their son Melvin and family of Sun Ray, and Maxine and Buck Ragsdale of Baileyboro.

The Leo Frizzells and the daughter's family, the Garvin Beedys, of South Plains were together.

Mrs. Frank Dunn was with some of her family.

At Calvary Baptist, Bro. and Mrs. Butler had their family of some 18 present and Bro. Breeding was home with most of his family for dinner.

We are sorry Mrs. Plumlee and Mrs. Vernon McPeak spent the day in the hospital. Also

our neighbor on the east, Mr. Kincheloe, but he came home later. We trust all will soon be well again. Thanks for all the calls and visits and the flowers and every help. Happy New Year to all.

**Increased Mail Rates Go Into Effect Jan. 7**

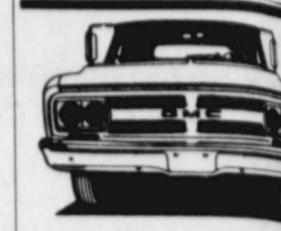

Increased rates for all classes of mail except parcel post and international mail will go into effect Sunday January 7, Postmaster Wester reminded postal customers today. He pointed out that patrons should purchase a supply of 1¢ stamps before Sunday to add to the postage they have on hand. The postage you have can not be exchanged but can be used by adding additional postage with it.

The new rates include 6¢ an ounce for first class, 10¢ an ounce for Air Mail, 5¢ each on postal cards, and 8¢ each on air postal cards. The new rate provisions also establish important changes for heavier first class mail pieces,

Mr. Wester explained, if the first-class mail piece weighs more than 13 ounces, it will automatically go air mail or by the fastest transportation available, and all air mail above 7 ounces will be subject to the air parcel post rate schedule. On third class mail, the basic single piece rate will be increased from 4¢ to 6¢ for the first two ounces, thereafter it remains the same, 2¢ for each additional 2 ounces.

## Miss Adams Is Bride Of Larry Jay Orman

In a double ring ceremony read at 2 p.m. Dec. 23, Miss Cheryl Louise Adams, Plains, daughter of Mr. and Mrs. Bob M. Adams of Phillips, became the bride of Larry Jay Orman, Lubbock, son of Mr. and Mrs. W. L. Orman, Floydada.

The Rev. Rollo Davidson, pastor, read the service in the Phillips Methodist Church before a background of candelabra bearing lighted red tapers. Mrs. Bill Orman, Plainview, played traditional nuptial music on the organ and accompanied Jodie Brock, who sang "Wedding Prayer" and "One Hand, One Heart."

The bride was given in marriage by her father. She wore a white ribbon lace cage dress over a crepe A-line skimmer. The rounded neckline and bracelet length sleeves were edged with a crepe bias fold. Tiny bows marked the back bodice. Her three tiered veil of illusion was attached to a feathered chrysanthemum. She carried a cascade arrangement of white gardenias.

Mrs. Johnny Baker, Weatherford, Okla., was matron of honor for her sister. She wore an emerald green dress of peau de soie with rounded neckline and bugle sleeves. Her matching headpiece of illusion fell from a green peau de soie rose. She carried a bouquet of red poinsettias.

Bill Orman, Plainview, was best man for his brother.

Usher was Johnny Baker. Mrs. Adams, mother of the bride, wore a two piece rose double knit suit with black patent accessories. Mrs. Orman, the bridegroom's mother, wore a three piece teal blue double knit suit with black patent accessories. Both wore corsages of white gardenias.

Miss Judy Paschal, Oklahoma City, Okla., presided at the guest book at the reception in the church parlor. Miss Jane Gillespie, Albuquerque, N.M., served punch and Miss Kay Tipton, Dallas, cut the four tiered white wedding cake with its decoration of red roses and its topping of wedding bells. The bride's colors of red and green were used in table and room decoration.

For her wedding trip, a jet flight to Mexico City, Mexico, the bride wore a green tweed hopsack weave coat and dress ensemble with black accessories and the corsage from her bouquet.

Guests at the wedding from Oklahoma were Mr. and Mrs. Kenneth Roark, Guyton; Mr. and Mrs. Darryl DeShields, Okmulgee.

Other out of town guests were Miss Jinnie Winn Jackson, Odessa; Mr. and Mrs. J. J. Litchford, Gruver; Mike Gulick,

Houston; Mr. and Mrs. George R. Henry, Wellington; Mr. and Mrs. Larry Talley, Denton; Mr. and Mrs. Bary Kinslow, Amarillo; Mr. and Mrs. Jay Dycus, Seminole.

### FLOYD DATA

Dinner guests in the home of Mr. and Mrs. Leslie Fawver, Gayle and Larry on Christmas Eve, was their daughter, Eilene, also Bruce Francis, and Mr. and Mrs. Roger Francis, all of Amarillo; Mr. and Mrs. Roy Fawver, Mr. and Mrs. D. W. Burke, Mr. and Mrs. L. D. Gollightly of Floydada and Bob Gollightly of Austin. Calling in the afternoon were Mr. and Mrs. Jerry Hal and Kristi Lyn of Lubbock.

Among the group along with their families were Myrtle Allmon of Hereford, Lounette Chiddin, Wildorado, Ludie Morris, Wolfe City, Jettie Ewing of Lubbock and Velma Berry of Floydada.

Greek King moves from Rome.

## Miss Turner, Wayne Martin Plan February Wedding

Mr. and Mrs. Carl W. Turner of Floydada announce the engagement and approaching marriage of their daughter, Judy Dianne to Wayne Martin, son of Mr. and Mrs. Ed Martin of Cono.

The couple plan to wed Feb-

ruary 1, 1968 in the First Baptist Church in Floydada. Miss Turner is a 1967 graduate of Floydada High School. Her fiancé, also a high school graduate, is employed by the Lubbock Police Dept.

MRS. LARRY JAY ORMAN

## Mrs. Ramsey Is Chairman Of Study Club Style Show

Mrs. Dallas Ramsey, 1950 Study Club Style Show general chairman for 1968 named her own committee at a regular meeting of the club Tuesday night.

Mrs. Cleo Whittle was hostess for the meeting held at the clubhouse Electric.

Committees named were as follows: theme; Mrs. David W. Moore, Herman Graham, Tom Moore and Miss Nancy; Script; Mrs. Whit-

Mrs. Lane Decker and Mrs. Laurence Wedel; Models; Mrs. Sammy Hale, Mrs. W.R. Bradshaw; publicity; Mrs. Charles Craig and Mrs. L.W. Crabtree; entertainment; Mrs. Claude Weathersbee and Miss Swinson; ramp; Mrs. Don Seay; Mrs. John C. Moss; program and tickets; Mrs. Doyle Moore and hairstyles; Mrs. Copeland.

This year's show is scheduled for Monday, April 1 at 7:30 in the High School auditorium. Complete details will be decided at the merchant's meeting later this month.

Tuesday night's meeting was opened with the salute to the Texas Flag led by Mrs. Laurence Wedel.

The program, "Texas, Today's Fun-tier", was presented by Mrs. Copeland. Roll call was answered with an interesting spot in Texas members had seen.

Those attending were Meses. W.R. Bradshaw, Bob Copeland, L.W. Crabtree, Charles Craig, Lane Decker, Herman Graham, Sammy Hale, David Kirk, Doyle Moore, Dallas Ramsey, Jimmy Seay, Claude Weathersbee, Laurence Wedel and Mrs. C.C. Whittle.

## Socially Yours

BY PEGGY MEDLEY

EVERYTHING is called mini-something or other now a days and we noticed in an article recently that a reporter is calling the flu over in Britain the miniflu.

BRITIAN is famous for their mini skirts, which right now has fashion designer, Mademoiselle Coco Chanel exploding all over Paris. It is well-known that Chanel has always been opposed to mini-jupes and op cloths (me too for that matter).

Now she has turned on the noise, (her cloths in her now fall and winter collection are one inch below the knee) saying "minicloths are indecent. Women don't gain anything by them. Women need to use exposure only when they are short of charm. Baring your body on the street doesn't make you prettier. The men agree with me. The Mini-skirt is unfair. Only the very young can wear it. Let the silly young things wear their skirts bathing suit length if they want. They're bored, and they want to amuse themselves. They're insecure and have not yet learned poise".

I disagree with Madam Chanel in saying a young girl who wears the skirts do it to amuse themselves or have not yet learned poise. Some do, but most don't. They are going along with the fashion changes, just as they did when they wore boy levis, or their shirt tails hanging out. Fashions change just as hair styles. Its kind-like a woman said "when we were younger we like to 'dress-up' in mother's dresses, now its right the opposite, we like to dress up in our daughter's dresses".

TODAY'S farmer has a double problem, not only must he remember what he is not growing, he has to remember in which field he is not growing it. Maybe thats the reason so many farmers are selling out and moving. Its getting where they have to do more book-keeping than farming. Things have really changed since my growing up days on the farm.

Elections are coming up next year and there are always stickers boosting or booging candidates. This one I saw last week on a car. "All The Way With ABJ" and in little letters "anybody but Johnson. I'm sure there would be stickers such as this, regardless who the president is.

DON'T criticize the women who "back-seat" drive; they evidently have good cause. Texas Safety Association re-

ports show that more than one-half of the female traffic victims in Texas last year were passengers.

I HEAR John Wayne has been signed to portray Red Adair, famous oil well fire fighter, in the movie "The Hellfighters". The film will deal with oil well fire fighters with location near the oil town of Odessa. Filming is to start sometime in February.

U.S. flier intimates MIG's fight from China bases.

I'M so glad the holidays are over. Had several wonderful days off but always have to make up for it when we get back to work and Tuesday was no exception. All I can say is "I've had enough football and enough to eat" and the results, tired eyes and five pounds heavier at least.

Naval Reduction  
"And how is your husband getting on with his reducing exercises?"  
"You'd be surprised. That battleship he had tattooed on his stomach is now only a rowboat."

Public Property  
A soldier parked an army jeep and started walking down the street. A policeman called after him: "Hey, buddy, drop a nickel in that parking meter."  
"Put it in yourself," the GI yelled back. "That jeep belongs to you as much as it does to me."

Refreshments were served from a beautiful appointed table by Mrs. Copeland and co-hostesses.

Those present were Meses. W.R. Bradshaw, Don Cheek, Bob Copeland, Jack Covington, L.W. Crabtree, Charles Craig, Lane Decker, Jeff Glazner, Herman Graham, Sammy Hale, David Kirk, Doyle Moore, Tom Moore, John C. Moss, Dallas Ramsey, Jimmy Seay, Claude Weathersbee, C. C. Whittle, Lawrence Wedel, Misses Jo Muncy and Nell Swinson.

Wife-Darling, I always hit my fingers when I go to drive a nail. Isn't there some way I can prevent this?  
Darling-Yes. You should hold the hammer in both hands, dearest.

Silenced  
He (angrily)-Do you believe everything every fool tells you? She (sweetly)-Oh, no, darling, but sometimes you do sound so plausible.

Trouble is Here  
"If you please, ma'am," began the new maid, "there's a strange woman downstairs. She won't give her name, but she's taken off her hat and coat, opened two cupboards, rubbed her fingers over the piano and complained about the dust, and when I left her she was--"  
"Oh, dear," exclaimed Mrs. Brownson. "I didn't expect my husband's mother until tomorrow."

# Water Importation Feasible

## CALIFORNIA TOUR REVEALS

"It can be done!" Six local men who spent four days touring California's mammoth state water project as part of an 80-member Water, Inc., group are confident that Texas can do the same thing and more — irrigate the High Plains with imported water.

California's \$2½ billion project moves water from the northern mountain areas to the populous southern region.

Participating in the tour from Lockney were Gene Collins Jr., Chester Carthel, Hershel Carthel, L. B. Brandes, J. R. Belt Jr. and Leslie Ferguson.

They experienced a full agenda with bus trips to points of interest along the waterway starting early and extending late afternoon. Talks and discussions filled the early even-

ing hours.

Persons on the tour learned that it is engineeringly, financially and politically feasible to move millions of acre feet of water annually.

**Political Obstacles**

Enormous obstacles — political, for the most part — must be overcome before the project becomes a reality. The Water, Inc., group learned in California that there are greedy geographical areas which are unwilling to part with water although it is surplus to them. Also, special interest groups will fight the project unless they receive special concessions and metropolitan areas will attempt to secure all available water, leaving little for agricultural usage.

"There must be a little

candy for everybody; otherwise the project will not succeed," Harvey Banks of San Francisco, mastermind behind the California Water Project, told the local men.

Banks stated that, similar to the California project, West Texans must prove to Houston, Dallas, San Antonio and other metropolitan areas that a prosperous High Plains economy means profits for them, too.

Collins explained the California situation thusly:

Two-thirds of that state's water supply lay in the northern ten per cent of the state, and only ten per cent of the water was in the populous southern sector, which has two-thirds of the people. California

has 19 million residents and expects 35 million within 25 years. Much of the metropolitan area was already facing water shortage.

The Feather River in northern California in the Sierra Snow Pack, annually carries 5½ million acre feet of water to sea . . . wasted. Oroville Dam in this area, giant in the California water project, was constructed to impound 3.5 million acre feet of precious water.

Water flows naturally down a riverbed to the delta country of Sacramento and San Francisco, 60-70 miles from the dam. Near the town of Tracy, water is pumped from the river to gigantic canals — 30 feet deep and 300 feet across the top at the widest point and 180 feet across the bottom. The canals

can flow approximately 4½ million acre feet of water each year.

At the Tracy pumping station, water is lifted approximately 240 feet to the canal. Gravity flow carries the canal water through the San Joaquin Valley to the Tehapipi Mountains, below Bakersfield.

A series of pumps lift water nearly 2,000 feet over the mountains and dump it into another canal. Terminal point for the water is Cedar Lake, from where Los Angeles will conduct its own aqueduct system. LA alone will utilize 2¼ million acre feet annually.

Second largest consumer will be Kern County (Bakersfield), a rich agriculture region which is to use much of its supply for irrigation. It will use two million acre feet.

**State Plan Expected**

Water, Inc., officials and other persons vitally interested in the project are anxiously awaiting publication in January of the Texas Water Project master plan.

Some persons believe that it will suggest securing Mississippi River water in Louisiana, building a canal through Louisiana to transport water to the Sabine River. It would be pumped upstream from the Sabine's headwaters near Wichita Falls in the Sabine or another river to canals across West Texas. It would also distribute water to all parts of the Lone Star State.

Collins stated that "if we can get water into the Panhandle, it would be easy to sent it downstate in existing rivers."

**Beck Proposal Aired**

Another plan which Collins believes West Texans will hear much about in the future is the so-called "Beck Plan." Sen. John Tower has asked for a federal feasibility report on this plan.

The action by Sen. Tower came on the heels of an announcement by Rep. George Mahon that studies will be made of the possibility of recharging the dwindling underground supply in the Texas High Plains by injecting surface water brought in from other areas.

The Beck Plan was presented Dec. 8 by R. W. Beck and Associates, consulting engineers, to the Midwest Electric Consumers Assn's in Omaha, Neb.

Beck and Associates contend that the Missouri River Basin offers the best source of water for West Texas "and I am inclined to agree with them," Tower said.

Under the Beck proposal, the Missouri would be diverted below Fort Randall Reservoir in Nebraska at 1,250 feet above sea level. The flows would be lifted through a series of dams and canals 200 miles up the Niobrara River in Nebraska to 4,050 feet above sea level just north of Alliance, Neb.

From there the entire project would flow by gravity in a major 940-mile canal running almost due south through border, and across the Oklahoma Panhandle into Texas west of Amarillo.

It would swing south and west through the High Plains of West Texas, crossing the upper reaches of the Brazos River above Lubbock and the Colorado River near the New Mexico border. The canal would terminate near Hobbs, N. M.

The Texas project would be much larger than that in California.

Various timetables have been arranged, but when this area would expect imported water still is anyone's guess. The important factor now is to start the project as quickly as possible.

**A NEW STAMP**

The Post Office Department has announced that the profile of Franklin D. Roosevelt will be used on the first class stamp. The U.S. postage six cent stamp will replace the five cent stamp for mailing a first class letter January 7th.

### Bench Leveling Advantages Are Told

Bench leveling is simply altering the slope and topography of a field from what is existing to what is desired. This is done for several reasons, some of which are:

1. Make the maximum use of rainfall. The interval of the bench is level from side to side and end to end and rainfall does not run off and is utilized to the maximum.
2. Reduce erosion. Erosion results in the loss of millions of tons of valuable topsoil each year. Bench leveling reduces this to a minimum by eliminating runoff.
3. Maximum utilization of irrigation water. It takes an irrigation well pumping 400 gallons per minute a total of 17 days to put 3 inches of water on 120 acres. Bench leveling can reduce the number of pumping days to a minimum by preventing loss of irrigation water in the form of tailwater.
4. Uniform penetration of rainfall and irrigation water. Hot spots and waterlogged spots are eliminated since all portions of the bench receives the same amount of water.

Bench leveling may be the answer to the problems created by the sloping land on the back forty. The local Soil Conservation Service personnel are available to assist anyone in discussing the need for benches and planning the irrigation system. They will also explain the cost-share assistance available.

### FLOYD PHILOSOPHER Amazed To Learn A New Bug Has

#### Emerged That Thrives On Paved Highways

Editor's note: The Floyd Philosopher on his Johnson grass farm comes up with some news this week we hadn't heard about.

I know that cities have about all the problems they can handle and then some, the city problem has now pulled up along side the farm problem, so I hate to report on the latest scientific discovery I ran across at the bottom of an inside page of a newspaper I found under a pile of tin cans and Christmas wrappings in the ditch near my Johnson grass farm out here yesterday.

According to this article, a new bug has been discovered in Australia that eats up paved roads.

That's right, the bug, so small it takes a microscope to see it, can consume matter equal to its own weight every five seconds and can multiply into 17,000,000 in 24 hours. Its favorite diet is blacktop roads.

It eats the oil out and the road then gradually falls apart, scientists have discovered, Miles of roads in Australia have been ruined by the bug.

I have been claiming all along that insects are smarter than men, that every time man comes out with a new insecticide, the insects come out with a new insect, and this sure

bears me out.

The way I figure it, the insects have been noticing that more and more farm land is being paved, put into highways and city streets and suburbs and shopping centers—hundreds of thousands of acres a year according to the latest estimate—and they said, "Look, if this keeps up, there's going to be less and less crops for us to work on, we got to find a new source of supply," so they've come out with an insect that thrives on pavement.

I feel sorry for the city people. Get the road bug started in the United States and telling what will happen to city streets, a lot of which already are in pretty bad shape. It'd take a mighty hungry bug to attack them. And after they finish with the streets, you know they'll start on the concrete foundations of buildings.

There are times when I feel like we ought to let up on the moon for awhile and go to work on our problems on earth, although if scientists can't do any better at fighting insects than I have out here on this Johnson grass farm, I don't blame them for trying the moon.

Yours faithfully,  
J. A.

### Floydada School Patrons Should Report to School Tax Office

Floydada school tax assessor-collector Claude Estes reminds the patrons of the school district in a public notice in this issue of The Hesperian that they should come into the school tax office and render their property for taxation. Deadline for rendering is April 30, 1968. Estes said all persons, partnerships, associations or corporations holding, owning or controlling real property, personal property or mixed property having a situs within the limits of the Floydada Independent School District are required by law to file with the school tax office a full and complete sworn inventory of all real property and all personal property.

The property taxes concern items of ownership as of January 1, 1968. A complete listing of taxable items and requirements of the law are published in the school tax office's special public notice in the second section of this edition of The Hesperian.

### Basketball Teams Lose To Friona

The Floydada Whirlwinds and Whirlettes journeyed to Friona Tuesday night where they both lost. The Whirlwinds lost 59-37. Britt Gregory was the high scorer for the locals with 15 points. The 'Winds are still seeking their first win of the year.

The Whirlettes lost 64-44. Actually, they lost the game in the first half when they made only 3 out of 23 shots, while the Friona girls were making 17 of 21.

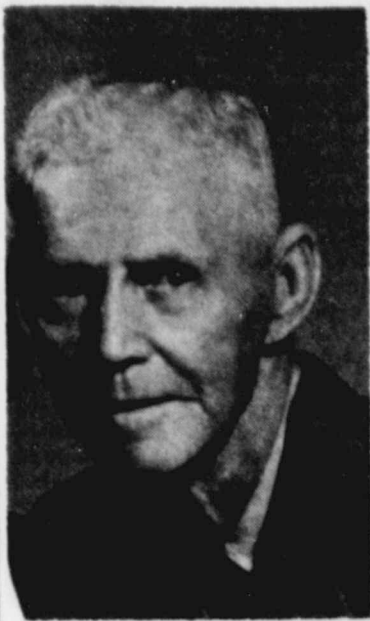

Marilyn Harris made 22 points to lead the Whirlettes scoring. The Whirlettes are 1-3 in district play. FARWELL TOURNAMENT The Whirlettes had everything going their way at the Farwell tournament last weekend, as they brought home the championship trophy. On Thursday night they beat Muleshoe 58-37, Friday night they defeated Bula 60-38 and on Saturday night beat Sudan 50-45 in a real thriller.

Marilyn Harris made 27, 22 and 22 each night respectively and Cindy Ward made 19, 15 and 26 points each night. Coach Teddy Allen said the Whirlette guards did an outstanding job in the Farwell tournament and guard Jill Bertrand is averaging 10 rebounds per game.

LOCKNEY FRIDAY The Whirlwinds and Whirlettes will play in Lockney at 6:30 tomorrow night and take on Abernathy here Tuesday night for the first home game in a couple of weeks.

Miniature basketballs will be thrown to the fans by the cheerleaders at all home games for the rest of the season.

FRESHMEN PLAY The Freshman boys and girls will be playing in a tournament at Springlake this Thursday, Friday and Saturday.

G. H. DAY

The B team boys play Ralls here tonight at 6 o'clock.

### Alma's Gift Shop, City Auto Hit By Burglars Last Week

Alma's Gift Shop was burglarized and four new tires and wheels taken from a 1968 Pontiac parked at City Auto last week, according to sheriff reports.

The theft of two men's Bulova watches and a woman's dinner ring were taken from the showcase at Almas', after culprits used a high rock to knock a hole in the glass. Items were valued at \$69 each retail. Other jewelry in the showcase, along with woman's watches, were not taken.

Officers said the burglary took place near 7 p.m. or shortly before, Wednesday night of last week. Employees left the business firm about 5:45 p.m., and nothing was seen amiss at approximately 6:30 p.m. City officials noted the broken glass around 7 p.m. (see picture section 1, page 4)

At City Auto sometime before 10:30 Saturday night and under bright lights, four wheels with tires and hub caps, were lifted from a Firebird parked outside just east of the showroom. The vehicle was left sitting on the brake drums (see picture section 1, page 4)

The hubcaps were later found by highway patrolmen scattered along the ditch east of the Ponderosa Meat Co.

Officers said several persons had been questioned but no charges had been filed as late as yesterday in either case. One DWI case was reported otherwise the holidays was relatively quiet, officials said.

### Rites Conducted For Harlan Day

Funeral rites were conducted Sunday afternoon in the First Baptist Church for George Harlan Day, 78 year old long time resident of Floyd County, who died in Caprock Hospital at 6 o'clock Friday evening. Day had been in failing health for a number of years.

He was a native of the Indian Territory of Oklahoma, born Aug. 1, 1889, and moved with his parents as a young boy to the Estacado Community in 1907. He returned to Oklahoma and on July 1, 1914 was married to Maude Elizabeth Woolsey. The couple returned to Floyd County, residing first in the Allmon Community. From rural land in the McCoy Community, Day became a prominent farmer, later moving to Starkey Community. He was retired due to ill health, but still held farming interests in the county. The family resides in Floydada, moving into town some two years ago.

The deceased assisted in getting electricity to the rural area of McCoy and was instigator in the building of the McCoy school of which he was trustee. He also helped to open rural roads to homesteaders in that community.

Day was preceded in death by his parents, Mr. and Mrs. T. J. Day of Floyd County, a grandson, Kenneth O'Neal, whom he helped to rear, and two sisters and a brother.

Survivors include his wife; three daughters, Mrs. M. J. McNeill, Mrs. Wanda O'Neal and Mrs. J. W. Day Jr., all of Floydada; four brothers, Robert of Floydada, Roy of Sudan, Earl of Portland, Ore., and Hobart of Amarillo; one sister, Mrs. Ruby Fletcher of Portland; three grandchildren, Tom, Roland Adams of Canyon, Tommy O'Neal of Olton and Cindy Day of Floydada.

Rev. Floyd C. Bradley officiated at rites, assisted by Rev. Herschel Thurston, pastor of the First Methodist Church. Burial in Floyd County Memorial Park was held Monday due to inclement weather delaying the arrival of the sister.

Moore-Rose Funeral Home was in charge of arrangements. Pallbearers were Wilson Edwards, A. C. Carthel, Aaron Carthel, Olin Bryant, Rafe Ferguson, Bill McNeill, Farnell Powell and Weldon Cumbie. Honorary pallbearers included J. K. Holmes, Cecil Griggs, Sid Waller, Henry Borchart, E. M. Jackson, Lloyd Botts, Claud Botts, Cotton Wilson, S. L. Holmes Sr., Efford Parrish, V. C. Permenter, Ulmer White, Walter Hollums, Wylie Rogers, Omber Parrish, J. M. Willson Sr., F. C. Harmon and C. M. Meredith.

### Weldon Emert Completes Navy Basic Training

(S0588) SAN DIEGO (FHTNC) Dec. 22--Seaman Apprentice Weldon G. Emert, USN, son of Mr. and Mrs. Lon G. Emert of Rt. 4, Floydada, Tex., has been graduated from nine weeks of Navy basic training at the Naval Training Center here.

In the first weeks of his naval service he studied military subjects and lived and worked under conditions similar to those he will encounter on his first ship or at his first shore station.

In making the transition from civilian life to Naval service, he received instruction under veteran Navy petty officers. He studied seamanship, as well as survival techniques, military drill and other subjects.

### Missionary Work In Hawaii Will Be Told At Nazarene Church

Rev. W. Lee Gann, superintendent of the Hawaiian District Church of the Nazarene, will speak Sunday morning at 10:30 in the Church of the Nazarene located at 4th. and Tennessee. Before his appointment to the Hawaiian Islands, Rev. Gann pastored several churches, one of which was Burlington, North Carolina. He has served in his present position about five years.

Pictures will be shown of the missionary work of the Church of the Nazarene in Hawaii, and Rev. Gann will be speaking in the interest of a special project for Hawaii.

This will be a very informing and interesting service, and the public is extended a cordial invitation to attend.

### COURT ON PASSPORTS

The U.S. Court of Appeals has ruled that the State Department may deny or revoke a passport "when the sole travel that is intended by the citizen is to an area where the passport has been restricted."

### TARIFF REDUCTIONS

New tariff reductions go into effect January 1st as a result of agreements reached early in 1967, which is the first step in the "Kennedy Round" agreements at a Geneva conference among the United States and several other countries.

### INCOME UP

The government has reported strong advances in personal income and home building during the month of November. It was the largest increase in wages and salaries in more than two years while new housing starts rose 4.7 per cent.

### DIET-PILL PROBE

Chairman Phillip A. Hart, member of Senate antitrust subcommittee has announced that his panel will open hearings into diet-pill suppliers as well as doctors specializing in treatment of obesity. The Michigan Democrat plans to begin investigation early in 1968.

### UNCLAIMED SAVINGS

The Post Office Department has nearly \$38-million waiting to be claimed by Americans. The money is what is left from the old postal saving system which operated from 1911 until it was abolished June 30, 1967.

### NASA POSTS ELIMINATION

The space agency has announced that it would eliminate 1,704 jobs as a result of Congressional budget cuts. The 640 employees would be dropped from the payroll of the National Aeronautics and Space Administration because Congress had given it only \$4.6-billion for the fiscal year that began July, 1967.

### Jackson Family New Residents

Mr. and Mrs. Billy Bob Jackson and children, Mark, seven; Eric, five; and Wendy, three; have moved to Floydada from Hale Center. Jackson is associated with Don Hardy Racing Enterprises.

The Jacksons are members of the Baptist Church. He is also a member of the Masonic Lodge and was director of the Civil Defense in Hale Center. His wife is also a member of Young Homemakers, PTA and Homebuilders Club.

Jackson is the grandson of Mrs. Andy Jackson of Floydada.

### Mahon To Speak To FHA At Levelland

Congressman George Mahon will speak at a "Borrowers Banquet" at South Plains College in Levelland tomorrow night at 6:30.

Also on the program will be state FHA director L. J. Cappelman and national administrator of Farmers Home Administration in Washington D.C. Howard Bertsch.

Local FHA farm management specialist A. Harrison urges all FHA borrowers and FHA connected personnel to attend the banquet and tickets are available at his office, 107 West California.

### FLOYD DATA

Mr. and Mrs. Jimmy Powell and family of Midwest City, Okla., visited here last week with his sister, Mrs. Ed West and family and the Pete Hickersons. Jimmy has just recently completed a course of data processing at Tinker Air Force Base, where he is employed.

### FLOYD DATA

Judge Keller Holmes was scheduled to undergo surgery yesterday in Lubbock Methodist Hospital. A report as to his condition had not been learned here at noon time.

### TROOPS AND GERMANY

Beginning in April a total of about 31,000 soldiers and 3,400 airmen will be returned to the U.S. This will reduce U.S. armed strength in West Germany to 222,000 and cut the balance of payments deficit by about \$75 million a year, according to the Defense Department.

Five-day week faces Soviet changes.

**POINT 5 - PROSPECTING**

**So You Want Industry**

(Editor's Note: This is the last article in a five-part series, provided by Texas Industrial Commission, outlining how towns and cities can attract industry. Today's story lists five top prospects -- some of which may be a bit surprising and food for thought.)

BY JAMES J. KELLY  
Assistant Executive Director  
Texas Industrial Commission

IF YOU have read the first four "Points" in this series, you will understand why vigorous prospecting for new industries should begin in earnest only after these four concepts have been given full consideration and at least partially implemented. Community betterment programs must be underway, ideally with a long range plan and set of goals for the community.

Research and Analysis must have been carried out, resulting in the identification of "candidate" industries.

All available means of financing must have been examined and, preferably, an Industrial Foundation formed.

Sites and buildings must have been inventoried and evaluated

WHERE are your best prospects? The answer is surprising to some.

Your first best prospects are found in the industry you already have.

It may be the least glamorous, but research shows that 80% of all industrial growth is due to expansion of existing industry.

And, after all, the industry that you already have will be the easiest and most economical to work on. They need the help of your I. D. Committee just like outside industry does - help and encouragement in the forms of research and financing and securing a new building.

The entire program that we have been outlining can apply right in your own back yard.

**YOUR SECOND BEST** product is "the man with an idea", in terms of your "candidate" industries.

THESE FOUR points are on-going processes and should be well underway before concerted prospecting will be worthwhile.

However, because industrial development is a very long-term, continuous process, every community that has a program

must inevitably get out and beat the bushes for prospects.

Inventiveness combined with enthusiasm is very valuable. The man with a sound idea for a new business, or a new way to expand an existing business may be the springboard your community needs.

Encourage such a man, and work to develop and display an atmosphere that will encourage the emergence of many such men.

When you are seeking industrial development, there should be no such thing as too many new ideas.

**YOUR THIRD BEST** prospects will come from you allies.

These are the utility company serving your community, the railroad, or a state agency such as the Texas Industrial Commission.

All of these allies are as anxious for industrial and economic growth in your area as you are, and they can offer a wealth of experience, data, and actual prospects.

**YOUR FOURTH BEST** prospects are manufacturers in Texas.

Our state has more multi-

plant operations than any other state in the nation.

And Texas industry is growing rapidly.

No industrial prospector should be without a current copy of The Directory of Texas Manufacturers, a valuable reference book.

**YOUR FIFTH BEST** prospects will come from making the best of the inside information that can be gathered in your own community when all of your citizens are aware of the program and helping.

Get every one looking for tips, get them interested . . . get them involved.

IN A CERTAIN Texas town, a group of young businessmen with industrial development in mind hold a weekly breakfast for all the salesmen who happen to be in town.

Imagine what information might be passed on at such a gathering.

If Mrs. Smith's brother is purchasing agent for a big plant in the mid-West, and she hears that his company is considering a Texas location . . . well, that's a prospect.

All this is not to say that prospecting is easy. It's not.

But it is intended to show you that there are more types of prospects than you perhaps thought, and closer to home.

AT SOME STAGE in prospect-

ing, you will want to promote your community.

A colorful, informative brochure is a good way to do this.

A campaign of direct mail to your "candidate" industries is another good means of promotion.

If your town has developed any tourist attractions, these can be used for promotion relating to industrial development.

**PROSPECTING** for new industry is never easy, but it will be a lot easier when the first four points of industrial development have been initiated.

**HEARING ON LOCKNEY SCHOOL DAMAGE SUIT HERE MONDAY**

District Judge L. D. Ratliff will hear a plea Monday by defendants for a change-of-venue in the suit for damages filed by Lockney Independent School District against the contractor, architect and bonding company of the elementary school.

A date for the trial is expected to be set soon after the change-of-venue hearing. Morehead, Sharp and Boyd, attorneys, are representing the school district.

The Monday hearing in the courthouse at Floydada will be a public hearing.

**FLOYD DATA**

Ensign and Mrs. Burl Masters and baby son, Blake, have returned to Long Beach, Calif., after spending two weeks leave from the Navy, with Mrs. Masters' mother, Mrs. Effie Foster and with Ensign Masters' parents, Mr. and Mrs. Leldon Masters at Lovington, N.M. Mrs. Foster and family, including Ray of the home, Linda and Sue, both students at Tech. The Masters visited Christmas weekend in Odessa, Lubbock and Pecos with relatives.

**FLOYD DATA**

Mr. and Mrs. Tom Bob Jarboe and children of Friona spent the holidays here visiting their parents, Mr. and Mrs. Mal Jarboe and Mrs. Mable Laminack and other relatives.

**\$17 Million Construction Is Planned During '68 By SWPS**

Power plant additions which will increase the company's electric generating capability by 225,000 kilowatts make up the major investments in a \$17,318,000 construction program for 1968 which has been announced by Roy Tolk, president of Southwestern Public Service Company.

"We have invested more than \$200-million in new equipment in the last ten years for just one purpose, meeting the needs of our customers. Our 1968 program is another step in a continuing effort to assure our 5,000 square mile service area of the electric power necessary or it to reach its full growth potential," Tolk said in announcing the electric company's 1968 plans.

The company's generating capability will go to 1,717,000 kilowatts, twice what it was ten years ago, with the completion of a 210,000 kilowatt addition to Nichols Station, northeast of Amarillo, and the installation of a 15,200 kilowatt gas turbine in the Guymon, Oklahoma area.

**For Peak Periods**

The Guymon installation will be used principally for peak purposes during periods of high usage, but will also provide area protection, complementing transmission line power source in the Oklahoma Panhandle. The plant will be operated by remote control from Guymon and can be brought up to full production in a matter of minutes.

In view of the concern about reliability of service which is prevalent in some areas of the nation and in political circles in Washington, Tolk pointed out that Southwestern Public Service Company will have adequate reserve capabilities in 1968.

Water and electricity will begin combining forces for efficiency and economy in 1968

with the beginning of the utilization of the Sanford Dam Project by the 11 member cities of the Canadian River Municipal Water Authority. The major pumping on this system will be done electrically on a controlled peak system supervised at the Southwestern Public Service Company's dispatching center in Amarillo, with the most efficient generating units utilized, thus keeping production costs as low as possible.

**VETERANS ASK**

EDITOR'S NOTE: Veterans and their families are asking thousands of questions concerning the benefits their Government provides for them through the Veterans Administration. Below are some representative queries. Additional information may be obtained at any VA office.

Q -- I suffered a disability while I have been in the Army. Does this mean I'll have to pay higher insurance rates when I get out of service next month?

A -- No. To begin with, servicemen are covered by their Servicemen's Group Life Insurance for 120 days after discharge at no cost to them. During that period you may secure insurance from any of some 500 private commercial insurance companies at regular rates, regardless of any disabilities incurred in the service.

Q -- I draw a pension as widow of a veteran. With a recent check was a folder which reported a new benefit, the supplying of medicine by the VA. May I get medicine from the VA?

A -- No. The present law authorizes the VA to furnish medicine only to certain types of veterans.

House approves bill to raise social security.

Other improvements planned in the 1968 program will include a 4200 mile transmission line which interconnects 10 plants and provide for additional distribution facilities in communities throughout the area.

"1967 was a year of development on the High Plains and the basis of our optimism for 1968 and other years is the thoughtful consideration and financial support that has been given this year. Plans and programs to be imported water to this area, the initiative of this region. This 'done' spirit benefits the area and the nation -- as better suited to agriculture, development. With supplies of water, this territory will a major role in feeding the world, and the diversification of agriculture. Industry will make it one of the most productive areas of the nation." Tolk concluded.

## Rites Conducted For Harlan Day

Funeral rites were conducted Sunday afternoon in the First Baptist Church for George Harlan Day, 78 year old long time resident of Floyd County, who died in Caprock Hospital at 6 o'clock Friday evening. Day had been in failing health for a number of years.

He was a native of the Indian Territory of Oklahoma, born Aug. 1, 1889, and moved with his parents as a young boy to the Estacado Community in 1907. He returned to Oklahoma and on July 1, 1914 was married to Maude Elizabeth Woolsey. The couple returned to Floyd County, residing first in the Allmon Community. From raw land in the McCoy Community, Day became a prominent farmer, later moving to Starkey Community. He was retired due to ill health, but still held farming interests in the county. The family resides in Floydada, moving into town some two years ago.

The deceased assisted in getting electricity to the rural area of McCoy and was instigator in the building of the McCoy school of which he was trustee. He also helped to open rural roads to homesteaders in that community.

Day was preceded in death by his parents, Mr. and Mrs. T. J. Day of Floyd County, a grandson, Kenneth O'Neal, whom he helped to rear, and two sisters and a brother.

Survivors include his wife, three daughters, Mrs. M. J. McNeill, Mrs. Wanda O'Neal and Mrs. J. W. Day Jr., all of Floydada; four brothers, Robert of Floydada, Roy of Susan, Earl of Portland, Ore., and Robert of Amarillo, Ore.; one sister, Mrs. Ruby Fletcher of Portland; three grandchildren, Mrs. Roland Adams of Canyon, Tommy O'Neal of Olton and Cindy Day of Floydada.

Rev. Floyd C. Bradley officiated at rites, assisted by Rev. Herschel Thurston, pastor of the First Methodist Church. Burial in Floyd County Memorial Park was held Monday due to inclement weather delaying the arrival of the sister.

Moore-Rose Funeral Home was in charge of arrangements.

Pallbearers were Wilson Edwards, A. C. Carthel, Aaron Carthel, Olin Bryant, Rafe Ferguson, Bill McNeill, Parnell Powell and Weldon Cumble.

Honorary pallbearers included J. K. Holmes, Cecil Griggs, Sid Waller, Henry Borchardt, E. M. Jackson, Lloyd Botts, Claud Botts, Cotton Wilson, S. L. Holmes Sr., Efford Parrish, V. C. Permenter, Ulmer White, Walter Hollums, Wylie Rogers, Omber Parrish, J.M. Willson Sr., F. C. Harmon and C. M. Meredith.

## Sister Of Mrs. Roberts Dies

Funeral rites were held Sunday in the Baptist Church at Roaring Springs for Mrs. Freda Woods, 64 year old sister of Mrs. F.I. Roberts of Floydada. Mrs. Woods, in ill health for some time, died Friday in the Matador Clinic.

She had lived in Roaring Springs four months moving there from Amarillo where she had resided for 25 years.

Survivors include her husband; three sons; a daughter; two brothers; three sisters; eight grandchildren and three great grandchildren.

## Lockney Rites For T. S. Fox

Funeral rites were held last week in Lockney for 90 year old T. S. Fox, who died Wednesday of last week in Lockney General Hospital. Fox had been a resident of Lockney since 1944. He was a native of Slate Springs, Miss., born Sept. 18, 1877.

Survivors include his wife; three daughters, Mrs. Sid Thomas of Lockney, Mrs. Joe Page of Eufaula and Mrs. W.C. Payne of Red Oak and six grandchildren.

## Rites Held In Lockney For Williams Boy

Funeral rites were held Friday in Lockney's First Baptist Church for Shelby Foster Williams, 13, who died Wednesday night of last week in an Abilene Hospital. The youngster was a victim of cerebral palsy and had been ill most of his life.

He was born in Lockney. Survivors include his parents, Mr. and Mrs. Dan Teuton of Lockney; his maternal grandparents, Mr. and Mrs. A. D. Foster and paternal grandparents, Mr. and Mrs. Dee Williams all of Lockney; a brother, Bruce and a sister, Nina Rhea both of the home and a stepsister, Vicki Faye Teuton of Farmington, N. Mex. Burial was in Lockney Cemetery.

## Mrs. Boling Dies In Wichita Falls

Mrs. Bynum Boling of Wichita Falls, former Florene Jeter of Floydada, died Saturday afternoon in a Wichita Falls Hospital. She had been in ill health for several months. Funeral services were held Tuesday.

The Jeter and Boling are families well known in Floydada. The deceased's husband drove a truck for V.D. Turner here in the 30's.

Among survivors of Mrs. Boling include her husband; two daughters and one son.

### FLOYD DATA

Mrs. B.H. Shultz of Floydada left this week by jet from Amarillo for Chicago, Ill., where she is to enter the hospital there for tests and treatment. The Shultz' daughter, Mrs. Fred Rink, is a nurse at the hospital where Mrs. Shultz will be a patient.

### FLOYD DATA

Visiting in the home of Mrs. H.R. Stanley during the holidays were Mr. and Mrs. James Stanley and sons, David and Douglas of Tulsa, Okla., Mr. and Mrs. Delbert Grones and son, Marion of Pampa, Mr. and

Mrs. Jerry Davis, Glen, Susan and Sharon also of Pampa, Mr. and Mrs. W.C. Holt of Levelland, Mr. and Mrs. Curtis Holt and Mr. and Mrs. Steve Ray, Donnie, Stevie and Larry all of Lubbock, and Ovt. Leonard A. Smith of Ft. Polk, La.

## Willie Wiredhand NOTES

LIGHTHOUSE ELECTRIC COOPERATIVE, INC.  
MARY PHILLIPS, HOME ECONOMIST

Full of turkey and the trimmings, we headed our New Year's Resolutions with the promise (to ourselves) that next year, we will not "Stuff" anything but the turkey!

With all of the flu and colds circulating, we might add the advice of Dr. Thomas E. Shaffner of Ohio.

Differences are known to exist regarding the effectiveness of normal home laundering procedures in combating germs which may spread disease. When it comes to the common cold, Dr. Shaffner believes that family laundry is not the major key to household cross-infections.

In writing about the efficiency of modern detergents in a book published by the American Medical Association, he declares that when only a detergent is used in complete laundering process, 99% of common germs could be removed from fabrics except in case of an unusual amount of soiling. However, he specifies two important factors to insure disinfection: water of 160 degrees F. and a wash cycle of more than 10 minutes.

This doctor-author adds that detergents are usually sufficient to disinfect under those conditions, but he does suggest adding a mild germicide for blankets and woollens that can't take hot water.

Running out of hot water on a big washday and having to wait for more to heat is only one of the many problems which can be solved for the homemaker with a quick recovery water heater. These heaters have (generally), 2 4500-watt elements to assure hot water anytime, all the time.

Do you have days when you feel you aren't worth a cent? Then here's some encouraging news. Currently, chemicals in the human body are estimated at a value of \$800. This value, once estimated at 98¢, has risen because of the demand for nucleic acids and enzymes.

Did anyone stop to think how many appliances are sold annually in the continental U.S.? It is astonishing to note that in refrigerators alone, approximately 400,000 refrigerators or refrigerator-freezer combinations will be purchased by rural electric consumers alone!

These figures are based on four consecutive surveys conducted over the past 6 years. These surveys show that the average life of a refrigerator is 15 years. Should your refrigerator fall into this group, a comforting thought to the consumer: Modern electric ap-

pliances offer the consumer one of her biggest bargains. For example, the approximate cost per cubic foot of a 1948 model was \$31.00. The cost per cubic foot of the average model today (much larger and with many more features) is only about \$22.00.

Although rural America is often pictured as being a little "backward" compared to her metropolitan cousin, this has been disproved by the same survey mentioned above. True, the rural consumer is

generally far from city utilities, the corner grocer, and the coin-operated laundry. Therefore, she must necessarily rely more heavily on the resources at hand.

On a national average, about 58% of the rural homemakers have electric ranges compared with 44.6% for the nation. Well over 60% have freezers compared to only 25.7% national average. Electric water heaters are enjoyed by about 50% of rural families, but by only 24.7% of their city cousins. Electric heat is more popular in rural areas, too. More than 6.7% of the rural consumers use this type of heating with more being installed daily.

Remind the next city slicker of these facts on the next go-round and also remind him that congestion, smoke, smog, traffic, and many other urban "problems" are just what we read about in the country!

Several copies of our latest booklet, "WILLIE RECOMMENDS" are still available. Drop by and pick up a copy. Recipes from the Lighthouse Service area are featured on every page. One of the family favorites submitted by the person whose name appears with

the recipe. An example is the following cake recipe submitted by Mrs. Elsie Hines of Floydada.

**POPPY SEED CAKE**  
1 1/2 sticks oleo  
1 3/4 cup sugar  
2 eggs  
2 cups flour  
1 teaspoon baking powder  
3/4 box poppy seed  
3/4 cup milk  
1 teaspoon vanilla

Cream oleo and sugar together. Add eggs and beat for 5 minutes. Sift flour and baking powder together. Add to sugar mixture alternately with milk. Add poppy seed and vanilla. Bake in tube pan or long loaf pan at 350 degrees until done. Ice with following icing.

**ICING FOR POPPY SEED CAKE**  
4 egg yolks  
3/4 cup sugar  
2 tablespoons flour  
1/2 teaspoon vanilla  
1 1/2 cups milk  
1 cup chopped pecans  
Mix flour and sugar together. Add to beaten egg yolks and milk. Cook until thickened. Stir in vanilla and pecans and spread over cake.

Mr. and Mrs. Clarence fee spent Christmas with their daughter, Mr. and Mrs. Ragsdale.

#### MOTHER SHIPTON'S PROPHECY

Mother Shipton was born in Yorkshire, England, in July, 1488 and died about 1559. In books of information she is described as a half-mythical English prophetess, baptized Ursula Shipton, who later married Tony Shipton. According to the tradition she was the child of Agatha Shipton and the devil. The following extracts from her amazing prophecies were taken from a scrapbook reputedly owned at one time by a Rochester woman:

A carriage without horses shall go,  
Disaster fill the world with woe;  
In London Primrose Hill shall be,  
Its center hold a Bishop's See.  
Around the world men's thoughts shall fly,  
Quick as the twinkling of an eye.

And waters shall great wonders do....  
How strange, and yet it shall come true.  
Then upside down the world shall be,  
And gold found at the root of tree;  
Through towering hills proud men shall ride,  
Nor horses nor ass move by his side.

Beneath the waters men shall walk;  
Shall ride, shall sleep, and even talk,  
And in the air shall be seen,  
In white, in black, as well as green.  
A great man than shell come and go,  
For prophecy declares it so.

In water iron then shall float,  
As easy as a wooden boat.  
Gold shall be found in stream and stone,  
In land that is as yet unknown.  
Water and fire shall wonders do,  
And England shall admit a Jew.

The Jew that once was held in scorn,  
Shall of a Christian then be born.  
A house of glass shall come to pass,  
In England - but alas, alas!  
A war will follow with the work,  
Where dwells the pagan and the Turk.

The states lock in fierce strife,  
And seek to take each other's life;  
When North shall thus divide the South,  
The eagle builds in lion's mouth.  
Then tax and blood and cruel war,  
Shall come to every humble door.

Three time shall sunny, lively France,  
Be led to play a bloody dance;  
Before the people shall be free,  
Three tyrant rulers shall she see;  
Three rulers, in succession be,  
Each sprung from different dynasty.

Then, when the fiercest fight is done,  
England and France shall be as one.  
The British olive next shall twine,  
In marriage with the German vine.  
Men walk beneath and over stream.....  
Fulfilled shall be our strangest dreams.

All England's sons shall plow the land,  
Shall oft be seen book in hand.  
The poor shall now most wisdom know,  
And water wind where corn did grow.  
Great houses stand in for-flung vale,  
All covered o'er with snow and hail.

And now a word in uncouth rhyme,  
Of what shall be in future time;  
For, in those wondrous, faroff days,  
The women shall adopt a craze,  
To dress like men and trousers wear,  
And cut off their lively locks of hair.

They'll ride astride with brazen brow,  
As witches on a broomstick now.  
Them love shall die and marriage cease,  
And nations wane as babes decrease.  
Then wives shall fondle cats and dogs,  
And men live much the same as hogs.

In nineteen hundred thirty-six,  
Build houses light of straw and sticks;  
For then shall mighty wars be planned,  
And fire and sword shall sweep the land.  
But those who live the century through,  
In fear the trembling this will do.

Flee to the mountains and the dens,  
To bog and forest wild fens -  
For storms shall rage and oceans roar,  
When Gabriel stands on sea and shore;  
And as he blows his wonderful horn,  
Old worlds shall die and new be born.

\*When this prophecy was uttered, Primrose Hill was two miles from London; today it is nearly the heart of the city.

## The Perfect Man

C. P. Mooney in the Commercial Appeal, Memphis, Tennessee, Dec 22, 1912.

THERE IS NO OTHER character in history like that of Jesus.

As a preacher, as a doer of things, and as a philosopher, no man ever had the sweep and vision of Jesus.

A human analysis of the human actions of Jesus brings to view a rule of life that is amazing in its perfect detail.

The system of ethics Jesus taught during His earthly sojourn more than 2,000 years ago was true then, has been true in every century since and will be true forever.

Plato was a great thinker and learned in his age, but his teachings did not stand the test of time. In big things and in little things, time and human experience have shown that he erred.

Marcus Aurelius touched the reflective mind of the world, but he was as cold and austere as broken marble.

The doctrine of Confucius gave a great nation moral and mental dry rot.

The teachings of Buddha resulted in mental and moral chaos that makes India derelict.

Mohammed offered a system of ethics which was adopted by millions of people. Now there children live in deserts where once there were cities, along dry rivers where once there was moisture, and in the shadows of gray, barren hills where once there was greenness.

Thomas Aquinas was a profound philosopher, but parts of his system have been abandoned.

Francis of Assisi was Christlike in his saintliness, but in some things he was childish.

Thomas Kempis' Imitation of Christ is a thing of rare beauty and sympathy, but it is, as name indicates, only an imitation.

Sir Thomas Moore's Utopia is yet a dream that cannot be realized.

Lord Bacon writing on chemistry and medicine under the glasses of the man working in a twentieth century laboratory is puerile.

The world's most learned doctors until a hundred a fifty years ago gave a dragon's blood and they ground dried tails of lizards and shells of egg for certain ailments. The great surgeons a hundred years ago bled a man if he was wounded.

Napoleon had the world at his feet for four years, and when he died the world was going on its way as if he had never lived.

Jesus taught little as to property because He knew there were things of more importance than property. He measured property and life, the body and soul, at their exact relative value.

He taught much as to character, because character is of more importance than dollars.

#### LBJ & Nomination

A major daily newspaper recently polled all delegates to the 1964 Democratic Convention to determine the extent of support for President Johnson as the party nominee in 1968. The result was an overwhelming show of support for the President.

About ninety percent of those who answered (37 per cent of 2,800 1964 delegates) said they supported LBJ for the nomination. In other words, the poll of the Charleston, West Virginia, Gazette indicates that those hoping to head off Lyndon at the convention pass have a tall order, probably an impossible one.

The election in November is, of course, another matter. Public opinion polls have indicated regularly in recent months that Johnson might be

beaten if a strong Republican ticket is nominated and conducts a shrewd political campaign.

That the President is confident of victory was made clear in a recent television interview, during the course of which he acknowledged current dissatisfaction and confusion but said this was often true a year before an election. He added that he was confident things would change enough in the coming months to produce a Democratic triumph in November.

That remains to be seen: what does seem certain, in view of the Gazette poll and other indications, is the nomination of LBJ at this summer's convention—despite efforts of the opposition on the right and left.

#### Ike On War

Some weeks back former President Dwight D. Eisenhower shocked some people by calling for "hot pursuit" of the enemy in Vietnam. Eisenhower suggested U.S. and South Vietnamese forces continue to pursue enemy forces after battles in South Vietnam when they fled across borders into Cambodia and Laos.

It is now reliably reported that Eisenhower's views are even more positive than what has already been attributed to him. The former President is said to have urged President Johnson to issue what would amount to an ultimatum to Hanoi, stating this country's determination to use nuclear weapons, if necessary, to bring the war to a conclusion.

He feels we should not continue to accept heavy losses we have been

forced to take this year because of the increased intensity of ground fighting. And he recognizes a danger in not winning the war before North Vietnam and China acquire newer and more sophisticated weapons.

which to kill Americans. (The North Vietnamese have asked Moscow to supply the nation's armed forces with 500-mile range rockets, presumably to mount an attack on U.S. bases deep inside South Vietnam.)

The publicized opinion of former President Eisenhower is certain to have an effect on public opinion throughout the nation. It may bring the Vietnamese war to a turning point, in one direction or another, strengthens President Johnson's hand should he take more positive action.

## JESUS

FROM PAGE 6

Other men taught us to develop systems of government. Jesus taught us as to perfect the minds of men. Jesus looked to the soul, while other men dwelled on material things. After the experience of more than 2,000 years, no man can find a flaw in the governmental system outlined by Jesus. Czar and kaiser, president and socialist, give to its complete merit their admiration.

No man today, no matter whether he follows the doctrine of Mills, Marx or George as to property, can find a false principle of Jesus' theory of property. In the duty of a man to his fellowmen no sociologist has ever approximated the perfection of the doctrine laid down by Jesus in His Sermon on the Mount.

Not all of the investigation of chemists, not all the discoveries of explorers, not all the experience of rulers, not all the historical facts that go to make up the sum of human knowledge on this day in 1912 are in contradiction to one word uttered or one principle laid down by Jesus.
