Making The Drag

BY SUZANNE GUTHRIE

I hope each of you are having a great summer. I certainly am. The drag isn't very busy in the day, but at night things are usually pretty exciting.

Sam Henry and I will be leaving on Tuesday for Scandinavia and Europe. The Lions Club is sponsoring us as Youth Tour Exchange Students for six weeks.

Since Wendell is home, I guess I will be the next Foreign correspondent for the paper.

The next article I write will be "Making the Drag in Sweden". Sara Stanforth, head cheerleader for next year, really has the girls working. Jill Stansell, Jill Bertrand, Judy Probasco, Reagan Cagle and Allison McLain, are all really working hard, helping Sara get ready for next year.

They have already made all of the signs for next year and they are ready to work on Locker Tags. They already have lots of pep and spirit, so we can all look forward to a great year.

Sam, our foreign exchange student from last year, left early Monday morning. He was a great exchange student and we were sorry to see him leave and go back home.

Our exchange student for next year will live with the Fred Martins. We are all looking forward to meeting her.

Everyone is enjoying the baseball games, and if you haven't gone to a game, be sure and go - it's great fun.

There has been a lot of talk lately about a "Teen Center." I really think it is a great idea. Floydada is a great place and there are so many fine kids, if we could just organize a little, not telling what might come about. One must admit that this would be good, if we all had some place to get together. I know there has been a lot of controversy, but it certainly couldn't hurt anything.

I believe if we had a Teen Center that was properly managed and sponsored, that it would be a great success. It would be a place where EVERYONE could go and have fun.

Work on that while I'm gone, would you?

Bon Voyage,
Suzanne Guthrie

Letters To The Editor

Dear Editor,

It is my understanding that when we elect Congressmen (Representatives and Senators) that we elect these men to do the will of the people, to represent our views concerning legislation.

The news carries reports every day that from the southwest area that the mail is against gun control legislation 100% - how should our congressmen stand then on this.

It seems Mr. Mahon has other ideas. It has been made known that he feels the view of the administration is more important than the view of the people. He actively supports this against the wishes of the People.

France had gun registration laws before World War II. When the Germans came in they confiscated the gun registration records. They sent out notices for the registrants to bring in their guns.

The ones that did not comply were shot and their guns taken; is this the destiny the present administration has in store for us? Register our guns, so the communists that seek to destroy us will know where all guns are and can disarm the United States without a battle. Remember this and write to your congressmen (Senators and Representatives) now! Tomorrow may be too late to save our right to bear arms and protect our families and our nation. God help us if this gun registration law is passed.

Yours,
Pete Looney

the firm for the past 24 years, said he spotted a blaze inside the warehouse about 1:05 p.m. when he returned from lunch Wednesday. He immediately phoned the local fire department, which asked Plainview firefighters for assistance.

"It seemed to explode," Andrews stated. After he had summoned the fire department, the manager said "there was fire all over the elevator. The whole thing was falling 15 minutes later."

The terminal held only 77,000 pounds of wheat and no grain sorghum, since "wheat harvest is just now starting out here." Had the fire been two weeks later, much more wheat would have been stored. Andrews could not place an

estimate on the monetary loss. He added, "I couldn't say what started the fire," but theorized that it could have been an electrical wire short.

Harvest Queen Mill of Plainview owns the elevator.

Andrews stated that the fire departments answered the call quickly and kept flames from spreading to the office. When they arrived, the elevator manager asked firemen to try to prevent the blaze from spreading.

"They couldn't have done anything else if they had been here when I first saw the fire," Andrews added.

Patrons of the elevator are requested to haul their wheat to Cereal Elevator, also owned by Harvest Queen Mills.

Would you believe a stack of electric fry pans 16 miles high, or electric blankets stretching from South Texas to North Dakota?

This bonanza for the home town appliance dealer is a challenge to the management of Lighthouse Electric Cooperative. This ever increasing demand for more electricity calls for ever larger services... bigger lines... heavier poles... larger transformers... more sub-stations. Scarbrough Shows Film Of Tiwan

The Harmony Community Center held their regular monthly meeting Thursday night with Mr. and Mrs. Glenn Pool, Mr. and Mrs. Loyd Hopper, Mr. and Mrs. Gerald Smalley and Mr. and Mrs. Allan Gross as hosts and hostesses.

The meeting was called to order by the president, Everett Miller. Following business the program portion was turned over to Glenn Pool, who introduced this month's guests, Mr. and Mrs. Henry Scarbrough. Scarbrough gave an interesting program and showed slides of their recent agriculture tour, primarily of Taiwan.

The Scarbroughs left the States February 14 and were gone 23 days. During this time they were with groups from grain elevators, ASCS officials, cattle, cotton and milo farmers. They toured Japan, Philippines, Hong Kong and Honolulu spending some four days in each country.

Slides shown were of Taiwan, the Republic of China, which has less than 14 thousand square miles and 13 million people. Scarbrough said Taiwan's main resources are agriculture and exports, rice and tea. The average farm is two and a half acres and the farmer raises three crops of rice a year. They receive about 100 inches of rainfall a year and every farmer belongs to a cooperative.

Scarbrough said their motive way of travel is by bicycle. Their homes are two bedroom and kitchen with dirt floors. Also under the same roof with the farmer and his family are chicken coops, buffalo stalls and hog pens.

Following the film refreshments were served by the hostesses.

The next meeting will be July 18 at 8:45 p.m. with Mr. and Mrs. Bob Hopper, Mr. and Mrs. Phillip Dunavant, Mr. and Mrs. Wesley Carr and Mr. and Mrs. Jimmie Hale as hosts and hostesses.

CENTER, FROM PAGE 2 also saw their first new great granddaughter. She is the daughter of Mr. and Mrs. Ronnie Ross. Mrs. Melvin Ross, Don, Larry and Sandra are in Galveston where Don is undergoing more treatment for burns received last summer. They hope to return home soon.

ers Play Hale er Here Tonight

Tim Rose hit two home runs in the first two innings of the game here with Lockney.

"Floydada Drillers", sponsored by Hinton Well Service, Rose pitched flawlessly six innings for the locals, but got in trouble. Bobby Gilliland came in, put out the fire, and got credit for the win.

Butch Emert got into home on a press play in eighth for the winning run.

Gilliland hit some long balls in the game that just wouldn't get on over the fence.

Coach Junior Bearden said that fielders Steve Craig and Butch Emert were outstanding in catching some long fly balls.

The Drillers play Hale Center here tonight at 8 o'clock in what promises to be an exciting game.

Another home game last Thursday saw the Floydada club beat Hale Center 3-2.

Chadwick Makes New Speed Record

Kelly Chadwick, Floydada's pride and joy in the racing profession, blew two transmissions in the first two races of three against Gene Snow at the Amarillo Dragway Sunday, but went on in the third heat to break two records.

Chadwick beat Gene Snow away from the starting line in each of the first two races, but the supercharged Camaro faltered in mid race both times.

Chadwick, a former school teacher at Floydada repaired the damage both times and finally

was rewarded for his efforts with an 8.36 second elapsed time and a run of 189.46 miles an hour, both records for funny cars at Amarillo Dragway.

Snow's transmission failed in the final run, blowing the bell housing off of the back of the unit and scattering metal all over the track.

Chadwick is back in New York this week. He raced Tuesday night at Long Island and will be at Detroit over the weekend racing Thursday, Friday and Saturday.

Heads-Up Driving Urged By TDPF For July 4th

AUSTIN - The acting director of the Texas Department of Public Safety today called for "heads up" driving on the part of Texas motorists over the upcoming four-day Fourth of July weekend to help bring about a reduction in the estimated toll of 38 lives in traffic during the holiday period.

Wilson E. (Pat) Speir announced that "Operation Motorcade," a special emphasis program designed to focus attention on the added dangers of holiday travel, will be placed in effect from 6 p.m. Wednesday, July 3, through 11:59 p.m. Sunday, July 7.

Traffic fatalities will be tabulated by the DPS throughout the period, and the totals will be announced officially three times daily as a means of keeping safety uppermost in the minds of the motoring public, he said.

"It is a known fact that the unusually crowded conditions of the highways on Independence Day holidays makes driving more hazardous than usual," Speir said. "Past experience and the present trend of traf-

fic deaths indicate that 38 persons will lose their lives in traffic accidents during the 102-hour period of the holiday this year, according to DPS Statistical Services. This means that on the average one person will be killed in traffic every two and-a-half hours.

"Of course, we hope this proves to be too high an estimate, and will do everything we can to keep down the expected toll of lives and suffering from accidents. As part of this effort, we will be utilizing additional personnel from our other uniformed services to augment the regular Highway Patrol force during the holiday period.

"However, the most important effort needs to come from the drivers themselves who, of course, have the most at stake. We can talk all we please about inadequate highways, we can talk about mechanical defects, but in the end, the vast majority of all accidents and fatalities can be traced directly to misbehavior, misjudgment, recklessness, negligence, and mixing drinking and driving.

**NEWS FOR
HOMEMAKERS**
by Sherry Mullin
Floyd County H. D. Agent

When nature calls you to the great outdoors, be prepared for that favorite American summer pastime - picnicking. It is a good idea to keep a few supplies on hand for that impulsive excursion. But before you lay in a store of these picnic makings, the U.S. Department of Agriculture cautions you to be informed on the causes and prevention of food poisoning.

The best way to prevent infectious bacteria from growing is to keep food either hot (above 120 degrees) or cold (below 50 degrees). Of course, this is not always possible, but when perishables are part of the picnic festivities, a cooler is an absolute necessity.

The major cause of poisoning bacteria is the uninformed or careless food handler. Open cuts, sores or boils can contaminate both the food and the equipment you are using. Dangerous microorganisms can also be carried by flies, cats, dogs, rodents and unclean utensils.

It is a good idea to leave the salad dressings and mayonnaise out of such picnic favorites as potato salad and cole slaw until you are ready to eat.

Foods with mayonnaise or salad dressing are particularly susceptible to food poisoning bacteria. If a pre-mixed salad must be taken, store and carry it in small containers rather than a large one.

Never carry hot foods, such as fried chicken, baked beans, macaroni and cheese, or casseroles, unless they are packed in an insulated container - or are thoroughly chilled first, refrigerated, and then reheated at the picnic.

If you don't want to carry a cooler, plan your picnic meal around fool-proof foods such as bread, cheese, hard cooked

eggs, fresh fruit, etc. For meat items any canned meat or poultry product that you can carry in the can, such as corned beef, chili, ham or some of the dry or semi-dry sausage, thuringer, and lebanonologna.

Be careful of leftovers, cream sauces and other foods which are not reheated to the boiling point - they are potential sources of food poisoning. Another thing to be aware of is that foods which have been handled a lot such as salads, sandwich fillings and casseroles, are more susceptible to food poisoning bacteria than are many other foods.

If it is not possible to take canned meats, raw meat can be taken to be cooked at a picnic if it is carefully wrapped and chilled. It would be a good idea to freeze the meats beforehand to insure they'll stay cold and keep the temperature of the cooler low.

Remember, too, that meat and poultry inspectors of USDA's Consumer and Marketing Service are your "behind-the-scenes" partners in the protective chain. In a few instances, the food itself may be contaminated before it reaches you as a result of uninspected and unhealthy animals or food handlers, under processing, contaminated equipment or lack of proper storage.

This is why it is so important to buy meat and poultry products which you know have been adequately inspected. Meat and poultry products stamped with the official USDA inspection mark assure you that the products you buy came from healthy animals and birds, was processed under sanitary conditions, and is honestly labeled and packaged.

Now, it is up to you to protect your family and enjoy that picnic.

Eight Floyd County youth attended the District II 4-H Leadership Camp in Levelland June 18-21. Barton Abbott, Lockney; Lindsay Lovell, Craig DuBois, and Herschel Pool, all of Floydada, were the boys and the Floydada girls were Patsy Schulz, Kay Russell, Karen Willis, and Ilene Daniel.

Approximately 160 other youth from throughout the District attended the three day event. They studied such subjects as youth leadership, 4-H activities, recreation and 4-H membership. Everyone seemed to have a very enjoyable time and each youngster gained a great deal of leadership training from the camp.

Package foods tightly in moisture-vapor proof wrappings or freezer containers to preserve flavor and prevent "freezer burn."

Meat and poultry freeze better in large compact pieces. If you use small pieces, hold flavor by covering them with gravy or sauce.

Cream sauces and gravies may separate after freezing. This will be reduced if little fat is used in preparation of the sauce. Separation can be corrected by beating with a fork or spoon during reheating. Cooked meat and poultry should be used within two or three months. They don't improve with age!

Once thawed and reheated, cooked foods should not be refrozen.

Smaller, more compact, more convenient, the new food freezers save time and money for the busy families of today. It is indeed a "super-market in the kitchen."

Lighthouse has several copies of "Freezer Tips" available. For your copy, call or drop by the Cooperative office.

Freezer tips - Sliced apples plus the other ingredients for pie can be frozen in a pie pan, then removed and wrapped for freezer storage; this can be placed directly into a crust when you are ready to make apple pie in a hurry. (Speaking of apple pies - substitute orange juice for water for making your next apple pie. It's different and delicious.)

When lemons are especially low priced, squeeze the juice into paper muffin cups and freeze. Stack the cups in a plastic bag until needed for pie, lemonade or other drinks.

Keep containers moving in and out for best use of space... use bulky cuts of meat containing bones ahead of boneless cuts which take up less room.

Freeze soups in concentrated form; dilute to taste when ready to use. One of the best dressings for fruit salad that we have had in a long time is -

- HONEY LIME FRUIT SALAD DRESSING
 - 1 cup sugar
 - 1/2 cup honey
 - 1 tablespoon dry mustard
 - 1 tablespoon ginger
 - 1 teaspoon salt
 - 1/3 cup lime juice
 - 1/3 cup white vinegar
 - 2 cups salad oil
 - 1 tablespoon poppy seed.
- Mix all ingredients except oil on HI speed of blender, until sugar is dissolved. Reduce speed to Lo and gradually add oil until dressing is thick and clear. Stir in poppy seed if desired. Store in air tight container in refrigerator. Dressing will keep for several months.

NOTES**

LIGHTHOUSE ELECTRIC COOPERATIVE, INC.
MARY PHILLIPS, HOME ECONOMIST

Freezing time is very near for those who like to preserve the fresh flavor of fruits and vegetables. However, think a minute - do you use your freezer only to store fresh foods for the winter months? If so, your electric hired hand is working for you only part of the year.

Next time you're cooking a big meal or a favorite food, cook double. Cook some extra for the freezer. During the hot summer months, you can "heat and eat" these meals and enjoy

effortless, cookless days ahead. Better yet, it is a good habit to establish all year 'round.

For best results, avoid high seasonings and over-salting cooked foods. Seasoning can be added later. Avoid overcooking foods that are to be frozen. Cook them quickly before packaging, and freeze them in meal-sized portions. The smaller packages will freeze more quickly and maintain higher quality in the freezer.

COUNTY AGENT'S CORNER
by Joe Wilson

The cotton crop is late in Floyd County this year. How much this will hurt the yield and quality will depend a great deal on the type of fall we have. Generally we think around July 4 is the time we see the first blooms and the first irrigation is applied at this stage. Many fields will not even have squares by the 4th this year.
If you have a dry fall with a late frost the cotton may produce well and be favorable in quality. However, if the reverse is true the farmer, gin-ner and local businessmen will indeed be hurt.
The only thing a farmer can do to help improve his chances of a good crop is to make sure he properly irrigates and harvests correctly.
The last irrigation will be the most critical as a late application of water will lower quality greatly.
Thrip are continuing to bother some cotton in the county. One of the following insecticides should be applied for control if damage is occurring. The rates per acre are also given. Guthion .125 to .25; Bidrin .1 to .25; Sevin .5 to 1.0; Strobane - DDT 2-1 mix 1.25 to 2.25; and Toxaphene DDT 2-1 mix 1/25 to 2.25.
Sunday afternoon.
Best wishes to newlyweds, Mr. and Mrs. Larry Adams, whose marriage took place in the First Methodist Church in Floydada Friday night. Jimmy Upton, whose parents live here, was best man, and Rita Taylor, daughter of Mr. and Mrs. Urssel Taylor, was one of the bridesmaids. The young couple both plan to attend West Texas State University. Larry grew up in our vicinity and attended schools here.
The June meeting of the South Plains Hobby Club was held in the home of Mrs. Frank McClure Wednesday afternoon, June 19, with Mrs. Sylvin Kinnibrugh as co-hostess. Guests were Mrs. Teddy Horne of Plainview, and Mrs. Mary Phillips of Floydada from the Lighthouse Electric, who showed a film on "Simply Beautiful." The Avon sponsored film was about how to feel, act and be beautiful, starting first with a daily bath, then a daily ritual of make-up, with beauty helps shown, ending with sparkling, clean, fragrant hair. Mrs. Marnie Wood gave a beauty quiz and four lovely Avon prizes were given to the winners of the Beauty Quiz. Roll call was answered with "What I Notice First About a Person." Once you take a really close look at this '68 Impala Custom Coupe, chances are you won't care what other people's 1969's are going to look like. But we'll tell you anyway.
This particular model—with its formal "notchback" roof line—is the most popular one we build. Which means it's by far the most popular '68 anybody builds. Which means (and this is an open secret around Detroit these days) some other cars are going to look a lot like it in '69.
Frankly, we're kind of used to being borrowed from this way by now. Whether it's styling, riding comfort or just plain painstaking workmanship, we know that putting you first keeps us first. And we can't blame other carmakers for wanting to catch up.
But meantime the thing for you to do is drop down and have a talk with your Chevrolet dealer now. Great as our styling looks on this '68 Impala, we can't promise it's going to look so good on a '69 something else.
Happening now at your Chevrolet dealer's, a tremendous explosion of extra buying power. Only the leader could make it happen.
Save on popular V8 engines, automatic transmissions, whitewall tires—and more. Just take a look at these five bonus savings plans. Then see your Chevrolet dealer.

Letter To The Editor

(Editor's note: The following letter was received this week by Sam Henry from the family he is to stay with while in Sweden this summer)

Kungshamn, Sweden, June 17, 1968
Mr. Sam Clayton Henry,
229 W. Mississippi St. FLOYDADA,
Texas/USA

Dear Sam,
Today I have got a letter including a picture of you informing me that you will be our guest for the main part of July. Your arrival by plane is scheduled to Thursday, July 4th, via Stockholm to Gothenburg at 14:50 p.m. where we, your host family will be at the airport to greet you very welcome to the stay with us.

We are living at the west coast of Sweden quite near Lysekil at a place called Kungshamn, a small fishing village, but at the same time visited by thousands of people spending their summer vacation in the area.

I myself is a member of the local Lion club by the name Gravarne-Smoggen. - I myself is the general production manager of the largest fish canning company here in Sweden. - Our family consists of four people, my wife Elsa 49, two sons Ulf 21, Bjorn 16 and I myself 53. - Ulf graduated from college in May is now in the army for his compulsory military training, after that he will enter the university. Bjorn graduated from high school also in May will be your colleague is free from school all summer and I think regarding to your interests you two will get along very well. He is interested in all kinds of sports and you will have good opportunities for fishing and swimming. Our summerhome is located 10 miles outside Kungshamn, close to the sea.

I believe that three girls from your group will stay at Smoggen not so very far from us and two of them are from Michigan. Maybe you can find them on the plane. Their names are Martha Drolet and Renee Strobule.

Ulf was over in the USA last summer in the Lion exchange and Bjorn visited England for some weeks. As you understand we all speak a little English so I don't think you will find difficulties in that respect.

If you have anything on your mind don't hesitate to ask about it. It might happen that we have time for another letter. So finally our best greetings to your parents with the promise that we will try our utmost to give you a good stay here.
Sincerely yours,
/s/ Gunnar Stensby

Dear Teen-Ager

I have just read your letter to the editor and as an adult I would like to try to help you. You don't say why you can't talk with your father but you know that isn't anything new. As a teenager, I couldn't talk to my father especially about the things that I knew he would disapprove. Adults can't keep you out of trouble (you don't say what kind of trouble) if you don't try to keep yourself out. If you are in your teens you should be working at some kind of job. That would keep you busy and give you spending money. My grandmother always said "an idle mind is the devil's workshop and so is an idle body." And another one of her quotations was "the road to hell is paved with good intentions." She has been gone for many a year now but those two quotations can keep you out of a lot of trouble if you will get busy and apply them to your life. They are just as true today as the day they were first quoted.

When you say you are PLAYING the game of life and compare it with a game of jacks, it makes me think you are an extremely young teen-ager. You don't play the game of life, you work at the game of live and work very hard. You don't seem to be learning much from experience or mistakes or the jacks you miss. So I would say you are really playing a game instead of working not to make the same mistakes again.

You say your dad says you're being smart and want to know if you are but you don't say what you are being smart about. One of the best ways that I can think of to not be a smart aleck is to study and apply good manners. Emily Post and Amy Vanderbilt have both written books on etiquette. Don't knock it until you have tried them.

Occasionally, you might take inventory of your actions and see if you are making any teens. Just how would you go about having a WELL sponsored Teen Center without the sponsors being noticed? If you were being sponsored, you would know you were being looked after whether the sponsor was noticed or un-noticed. Let me tell you just a little about how some adults feel. You know what, we are out on a limb as well as you are. We grew up in an age where young people and children were to be seen and not heard. We didn't have as much to entertain ourselves as you do and there was very little money around. I'm sure you have heard of the big depression. Most of us were thankful if we just knew where the next meal was coming from. Since the beginning of time everyone has been born as a baby, then a little child, an adolescent, a teenager, and adult and if they lived long enough, an old person. Teenage and teenage problems aren't anything new or anything special. The trouble is are you mature enough to handle them or maybe I should say capable? If not you should be listening to your father and your mother. He probably doesn't have their children's interest at heart. He loves you more than anyone except your mother. He is probably just like you, not always right but doing the best he can. Give him a little thought, a little love, and a little consideration instead of so much criticism. You know an adult is only a human being with a little more experience, wisdom and knowledge than a teenager. After our teenage days, (most of us grew up fast) we were on our own. Maybe not married, but making our own way. Our parents believed and taught us that "we made our beds and we could lie in them." Then when our children came along, this psychology bit hit the fan. We owed our children everything (regardless of whether we could afford it) they were not to have one little desire suppressed or taught manners, that would warp their personalities. Well as a result a large part of the teens today have not matured with the years and you can blame the adults. That is just one of the jacks we have missed. Some more are that you have not been taught to accept responsibility, dependability and respect. Read Romans 14-12 (Good News for Modern Man) Every one of us, then, will have to give an account of himself to God. Read all of Romans Chapters 14 and 15. There are some very good instructions for you to live by, for everyone to live by. Since you are a teenager, you are responsible for what you do and what you say. You should be thinking about helping your parents with some of their load and problems instead of feeling so sorry for yourself. Self-pity is very destructive. You really aren't alone in this world unless you wish to be. Do you not have a friend, a pastor, or an acquaintance such as a school teacher or Sunday School teacher to whom you can discuss your problems? If you don't, there is something wrong with you which you should admit to yourself and get to work and correct that fault. I wonder what ever went with the custom of people trying to do nice things for others. Some times just a kind word or a smile will brighten up the day for another person. Get busy, teenager, working or playing to stay busy is the best thing I can think of right now. Why don't you try reading, there are worlds of books in the county, school, and church libraries, all over town. You might learn something that would be a big help in your future. Have you really given working at the game of life a try or are you just waiting around for someone else to do it for you? You know we didn't know what a Teen Center was years ago and I don't know of a single teenager that I grew up with that became a criminal. I don't know that any of them did anything spectacular but they all made good citizens. So try doing things for yourself instead of asking others to do for you. When you do something wrong, admit you did wrong and don't go back and do the same thing or something worse anymore. Be responsible and stop criticizing and blaming others for your action. Quit asking others to be happy with your blundering. Watch what you say and how you say it. Listen to others. Polish yourself. Acquire a little charm and manners. You can do this by watching other people. Try all of this and six months later see if it is such a bad world.

FLOYD PHILOSOPHER

Takes On A Slightly Serious Note In Comparing U.S. With Some Others

Editor's note: The Floyd Philosopher on his Johnson grass farm is either serious or hunting for some garden fresh vegetables this week, we can't tell which.

Dear editor:

After I'd shaken the dirt off a newspaper a neighbor had used to wrap up some fresh vegetables he brought over to me out of his garden yesterday, proving I guess that we're living in a sick society or why wouldn't he have washed the greens first, I went out on the front porch and started reading.

The article that won top honors with me was one about a man who left this country a while back in a stolen boat because, he said, "America has never done anything for me," and went to Cuba. Last week he floated back to this country on a rubber raft, saying "Cuba never did anything for me either." He added that he believed he preferred jail in the United States to being out in the open in Cuba.

Actually of course he gave up too soon. Why didn't he try France, where the minimum wage is 40 cents an hour and demonstrations, even by students, have just been banned?

From there he could have sampled Russia, where apartment rent is free to all three families living in the same room and you can denounce the government any time you don't mind being shot.

Then of course there's India, free of air pollution because they travel on foot and pull their own plows and the average income is \$73 a year. They have no over-weight problems either.

I started to mention China, but I don't have the heart.

I could go on listing the other countries on earth, well actually I couldn't because I don't know the names of a tenth of them, I don't suppose anybody, not even college students, can sit down and name all the 200-odd countries, but I guess I've made my point.

America still has a long way to go, the same as you and me, but I doubt if Cuba has out-distanced us, or Russia or China or France or North Viet Nam.

Why don't you improve the health of this country and send me my copy of The Hesperian each week wrapped around a batch of fresh vegetables, cleaned of course?

Yours faithfully,
J. A.

FLOYD DATA

Gladys and Dick Fitch and Dick's mother have just returned home to Santee, Calif., after a pleasant trip in the Southwest. They came to Floydada about June 1st, picked up Mrs. Fitch's mother and father, Mr. and Mrs. W. A. Lovell and continued to East Texas. The Fitches went on to New Orleans, then returned to pick up the Lovells. They returned to Floydada by way of Sweetwater, where they visited Mr. and Mrs. G.R. Nixon and family. Intending to visit relatives in California, Lu Ann Lovell accompanied the Fitches, when they returned home the 13th.

PVT. ARTURO ROMERO, 1967 Floydada graduate, completed basic training in Ft. Bliss at El Paso recently and has been transferred to Ft. Huachuca, Ariz., for advanced Individual Training. Graduating ceremonies were attended by his wife, Mrs. Aldriana Romero, mother and brother-in-law, Eloy.

Dickens and Kent Counties. He helped to organize the Neighborhood Centers in Spur and Crosbyton.

The local Center has been built into a meeting place for adult and youth groups, serves for classes in driving, citizenship, sewing, cooking and other interest areas, and is currently the site of an eight week Summer Youth Program.

Curry stated, "At the present time it appears that new Centers will be funded at Floydada, Lockney and Ralls, but no definite commitments have been received as yet."

SCRIPTURE READING
"For the law of the Spirit of life in Christ Jesus hath made me free from the law of sin and death."

This verse from Romans is part of the lesson-Sermon to be read in all Christian Science churches this Sunday. Title of the Lesson is "Christian Science."

Among related passages from the denominational textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy are these lines: "Sickness, sin, and death, being inharmonious, do not originate in God nor belong to His government. His law, rightly understood, destroys them."
