Ralls Jackrabbits Hop Into Wester Field Friday Night

Whirlwinds Open Season At 8 p.m.

By Wendell Tooley
The Floydada Whirlwinds will be out to make up the 43-8 loss they suffered back in 1965, as they host the Ralls Jackrabbits here in Wester Field Friday night at 8 o'clock.

Although Ralls is an A team, they have been picked to win their district this year, so they'll be plenty salty.

Ralls coach Luke Nickerson says, "I know we've been picked to win the 4-A championship, and we do have a team that is big and speedy... but so we know that they can be beat."

IF I'M GOING to be optimistic and declare that I will be the thirteenth will be lucky for the Whirlwinds will beat the Ralls Jackrabbits.

It won't be easy for the Whirlwinds to win because Ralls is fast. In fact, Ralls has been picked to win.

They will be facing a much tougher team in Ralls than they did when they scrimmaged and had no trouble beating them.

After watching the Crosbyton scrimmage by the running backs that are fast developing and a pass that is improving every week.

At the enthusiasm of the Whirlwind fans, as evidenced by their attendance at the Crosbyton scrimmage here last week, I suppose if the band had been down in the south west side would have been almost full. This is an interest for a scrimmage game.

Worth Merry Teaching Navajo Indians In Arizona

Former Floydada school teacher Worth Merry has accepted a teaching position in the Chil Chin Beto Day School in Kayenta, Arizona through the Civil Service program. She will be teaching Navajo Indian children. Most of the children come from sheep herder homes.

Worth reports that it is a dry area. . . water is hauled in and each person is allowed 1 1/2 gallons of water per day. This is the area where the operation haylift was performed last winter, and there is of course a lot of snowfall there.

Worth has been studying the Navajo language and working in the school since July 23 and will be teaching the year 'round.

She says that the Kayenta Post Office is the most remote Post Office in the USA. . . because it says so on the door of the post office. Kayenta is 50 miles from the "four corners" of four states.

The school has an enrollment of 82 children, four teachers and students attend regularly, "until a nine day squaw dance comes along," according to Worth.

Worth reports a considerable language barrier, but "hopefully meets the challenge of this provocative calling."

In a letter Worth recently received from her daughter Linda, who is a veterinarian with her husband in Brazil, the daughter gives some insight to understanding Worth's decision to teach the Navajo Indian:

"I'm fiercely proud of you and can hardly resist telling the populace at large, my mother's run off to the Indians! Jeff and I envy your getting to see the Gallup Festival. It must have new meaning to you now that you will be such a part of those people's lives. I remember the affinity you had for the Navajo women when we were there (how many years ago?). They asked you to come and visit them.

It seems strange and intricately meshed, that you should really be going to live with them, to help them, to love them now. Do you ever think how there seems to be a thin thread that runs through life and shows up again and again, somehow keeping a life related. . . to its past and its future?

Like, you loved the Indians way back in Gallup and said you'd like to go and live with them (why I believe those were your actual words!).

LARRY GUTHRIE PROBABLY ON WAY HOME

Cpl. Larry Guthrie, wounded recently in Vietnam, is probably enroute home and due to arrive any day by plane, according to a letter received by his family yesterday.

Cpl. Guthrie underwent surgery Sept. 2 in an Army hospital near Tokyo, Japan, for an arm injury sustained by hostile fire in Vietnam. He related he came through the repair surgery fine but would have partial nerve damage to his hand. He indicated that additional surgery would be required.

In a letter received yesterday by his sister in Lubbock Larry said he would be flown to the states anywhere from five days to two weeks after his surgery. Yesterday was the ninth day so the family is anticipating his arrival any day.

The Guthries said Larry wrote that he may be transferred to Reece Air Force Base, but Marine officials in Lubbock told the family he would probably be sent to Corpus Christi to convalesce.

Mr. and Mrs. Guthrie, as the rest of the family and Larry's friends as well, have lived in great anguish since receiving word of their son's injuries and would like to extend their deep appreciation to everyone concerned about Larry's condition, and especially for the prayers.

Approximately 95 Lighthouse Electric Cooperative employees and their families and directors and their families were at the beautiful Floydada Country Club Saturday night for their annual picnic.

Lighthouse linemen barbecued steaks and baked potatoes to serve to the group.

Highlight of the evening was the presentation of service awards. Five year pins were presented to Carolyn Cunningham and Alton Higginbotham. Carl Lewis received a twenty year pin and Wiley Rogers, a twenty-five year pin.

Wiley was also presented a beautiful, engraved gold watch in appreciation of his twenty-five years service to the cooperative.

Did you know that September is National Better Breakfast Month? A bird size breakfast is just for birds and humans should not try it according to USDA nutritionists. One-fourth of the day's food should be eaten at breakfast. A basic breakfast plan of fruit, cereal or bread (or both), milk, and, or eggs, can be varied by using a different form of fruit, or by adding meat. An awareness of better nutrition starts at home. What better way to give those children a headstart on learning than with a good breakfast? (Perhaps a good breakfast would give Dad that lift he needs to face the day's problems too.)

Everyone enjoys fresh fruit pastries during the winter months. But fresh fruit is sometimes hard to get and expensive during the winter months. You'll be well ahead if you stock your freezer with these delicious desserts now when fruits are in season. Pastry freezes especially well and should be frozen before baking for finest flavor and texture. Make up double or triple the standard pastry recipe. If time is short when making up the large batch, simply divide the pastry into balls, each the amount of a single

crust. Wrap in aluminum foil and freeze. These balls of pastry take only an hour at room temperature to soften sufficiently.

For easier, quicker use, roll pastry into tart or pie-sized circles of foil. Stack on a cardboard circle, alternating foil and pastry circles to prevent sticking. Overwrap in foil to make a compact package, label and freeze. Pastry shells, completely shaped may be nested one on top of the other, foil wrapped and frozen. If baked without filling, prick the pastry with a fork before baking.

Pastry shells and two-crust pies are easier to handle if they are first placed in the freezer without wrapping until they are firm. Slits should be cut in a complete top crust for the escape of steam, either before or after freezing.

Frozen pies go direct from the freezer to the oven. They take only 15 to 20 minutes longer to bake than unfrozen pies. Spreading the bottom of the pan with butter before placing the crust in it and baking the pie on a lower shelf helps brown the bottom crust.

For an after school treat, try PEANUT BUTTER BROWNIES.

Lubbock State School Evaluation team would come to Lockney and do the evaluation on the child. There would be no charge for this.

A public meeting has been set up for Tuesday September 17th, 8:00 p.m. at the Lockney Elementary Cafeteria with Dr. John Gladden, superintendent of the Lubbock State School and Bobby White, director of the "Satellite Program" possibly others from Lubbock also.

Some of our local citizens have expressed their opinions. Those opinions being:

Tom Simpson, president of Chamber of Commerce, "This program is backed 100% by Chamber of Commerce."

Mr. John Mason, superintendent of Lockney school, "This would be a valuable program in preparing children for special education in our school system if we can get it started."

Rotary president, Wilbur Mize, "The Satellite Program" would be a source of hope for those children who can benefit from it and would be an asset to our community."

We realize a lot of activity will be going on toward the opening of the Floyd County Fair, in which we take so much pride. Maybe you don't know of anyone in this program could help, at this particular time, but along life's pathway your path may cross that of friend, neighbor, relative or someone that as an individual you could help. Your presence at the meeting will show your interest.

Council Moves To Improve City Streets

In several votes Tuesday night the Floydada City Council made decisions that should give the city much improved streets.

The council agreed to rent a loader for a month to rebuild streets and clean the sediment from the sewer lake, gave the city manager authority to look for a used metal wheeled packer to pack caliche, and agreed to accept bids for purchase of a new street sweeper.

City manager, Bill Feuer-

bach, also announced that the city has a tank truck equipped to spread a tar-water emulsion on caliche base streets for hard surfacing and water proofing.

Feuerbacher also reported that the city's new water distribution installation is complete and the city will sell 500 gallons of water for 25¢ through a coin operated dispenser.

In other business the council agreed to advertise for bids on a new electric ladder equipment.

Science that Mary Baker Eddy discovered, the lecturer said, has divine Mind, or God, as its Principle. It is demonstrated, or proved practical, through thinking based on the divine Mind, or God, as its Principle. It is demonstrated, or proved practical, through thinking based on the divine Mind, not on brain cells, he explained.

Mrs. Eddy's life, Mr. Spencer said, exemplified a natural turning to God as divine Mind. He quoted from her book, "Every human thought must turn instinctively to the divine Mind as its sole centre and intelligence."

ment for a one ton truck, okayed hiring an additional lineman, authorized city manager to compile study and financial figures to replace some electrical circuits in the electric plant, agreed to join Lighthouse and Southwestern Public Service in an electric range promotion in October and November, and okayed the Nordberg four day school for Jerry Galloway.

The council also discussed purchasing more garbage containers and authorizing manager to buy care of the present

LEASED PROPERTY The council approved approximately 80 leases and lots totaling bid of \$8,991. All councilmembers except Junior Simpson and Gene Ferguson,

said, "We shall know the truth, and the truth shall make you free." (John 8:32), Mr. Spencer said. Jesus proved, he said, that thinking from a divine standpoint regenerates the moral droopiness, heals the sick, and feeds the hungry. Christ Jesus showed men that they could be healthy and safe and could live at peace with each other by grounding their thinking on the right basis, the universal, intelligent, divine Mind, he said.

Mr. Spencer also explained how we can base thinking on God. Using a ship as an analogy, he said the visible part, has to be kept clean and seaworthy to support the superstructure, he continued.

Our bodies, our homes, all of our daily affairs are the expressions of invisible thoughts, of our correct or incorrect understanding of God, he said. And if the invisible is neglected, he said then the visible

Sarah Puckett, a freshman in F.H.S. is in the hospital in Houston. She will be in bed for a long, long time and it would surely help her to feel lots better if she got lots and lots of cards and letters. This is just a little thing, and yet it could mean so much to her. If you know her, or her family, do take a few minutes of your time and send her a card. The address is:

Sarah Puckett, c/o Methodist Hospital, Texas Medical Center, 6516 Bertner, Houston, Texas 77025.

Can you believe we have a ballgame this Friday night? The word all around F.H.S. is **BEAT RALLS!**

I heard Coach Wilson, our head coach, speak at Rotary Club, a couple of weeks ago and he said he had been coaching for a long time, and that when he went out of town to a football game, he was naturally nervous. But he explained that the thing that worries a coach the most is to come into a town where "The Town" is not ready. He said naturally the boys must be ready, but "The Town" needs to be ready too.

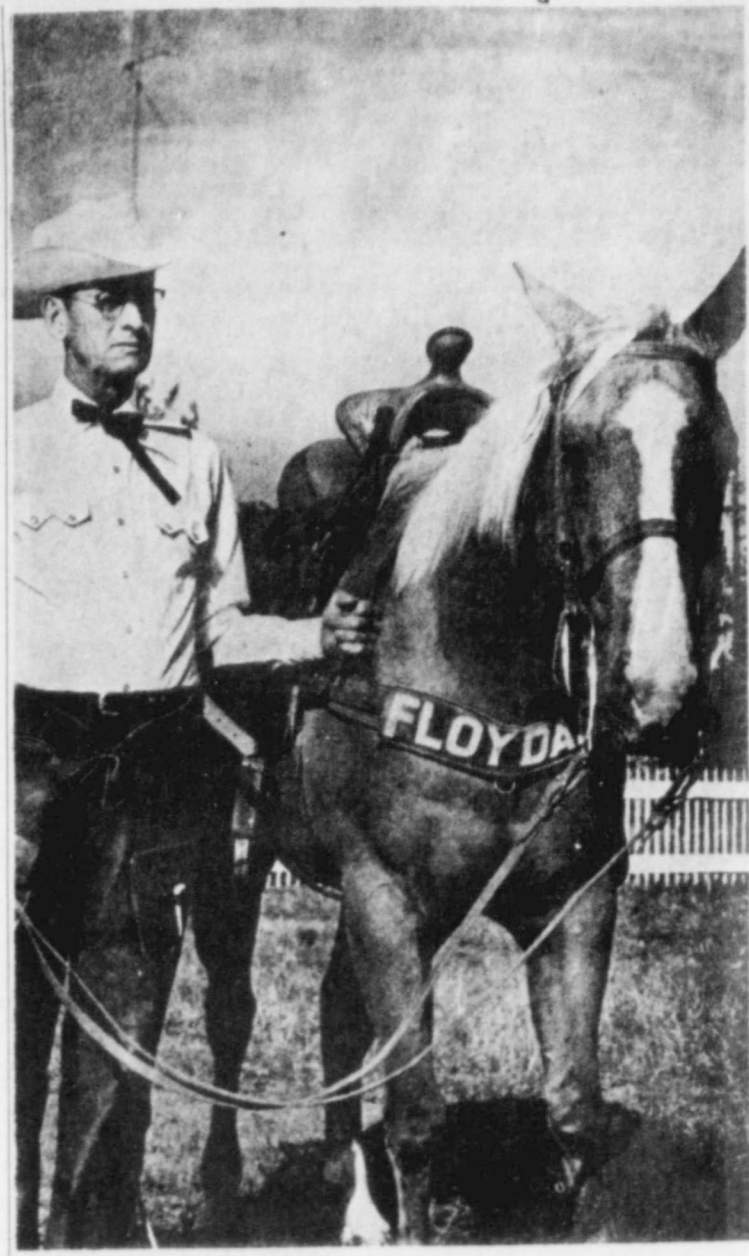

I know Coach Wilson will have the boys ready, so it is up to you and me to have Floydada ready as a TOWN! Let's all be READY to do our part, and we'll

BEAT RALLS tomorrow night - O.K.?

Be sure you are at the game, and do your part in supporting the Floydada Whirlwinds.

MRS. JOE CHRISTIAN

Miss Vickie Reeves Bride Of Joe Edwin Christian

Miss Vicki Darlene Reeves, daughter of Mr. and Mrs. Harry Reeves, became the bride of Joe Edwin Christian, son of Mr. and Mrs. Greer Christian in a dou-

ble ring ceremony read Saturday evening at 7 o'clock in the First Baptist Church. Both families reside in Floydada. Rev. Floyd C. Bradley, pas-

tor, performed the wedding before palms of commodore foliage, while gladiolus and pompons. Floor arched candelabra completed the setting and aisle posts holding gold colored satin ropes formed the entrance. Family pews were marked by arrangements of white ribbon and foliage.

Mrs. Bill Hardin accompanied Miss Darlene Mount as she sang "More" and "The Wedding Prayer."

The bride, given in marriage by her father, wore a formal length gown of satin peau de soie, fashioned with a bateau neckline and long petal point sleeves complemented by see-through appliques of lace. The empire bodice and A-line skirt was highlighted with scattered appliques of lace crested with pearls. A Watteau funnell chapel length train was adorned with matching see-through lace motifs and fell from a bow at the back neckline.

Her shoulder length veil of illusion was gathered to a butterfly of white seed pearls and iridescent beads. She carried a white satin and lace covered Bible centered with an arrangement of white Belmont gardenias, showered with garlands of white Butterfly rosebuds and English ivy. She wore diamond studded earrings which were a gift from the bridegroom.

Something old was the wedding band of her grandmother, attached to her blue garter; something new was her wedding attire and something borrowed was her bridal veil belonging to Mrs. Charles Christian. In each slipper was a penny bearing the birthdate of both bride and groom.

Mrs. Ronald Evans, sister of the bride, was matron of honor. Bridesmaids were Miss Melissa Spann of Thackerville, Oklahoma, and Miss Carole Burrow of Floydada. They were dressed in gowns of sparkle

crepe and fashioned with ruffled hemlines, street length at the front and sweeping into chapel length at the back. They wore headpieces of gold net attached to gold roses and carried cascade bouquets of white starburst pom pom mums trimmed with gold leaf foliage to match the gold in their dresses.

Charles Christian, Amarillo, brother of the groom, was best man. Groomsmen were Gayle Campbell and Hulon Carthel of Floydada. Ushers were Keith Reeves, brother of the bride, Bobby Christian, Tucson, Ariz., brother of the groom; Britt Gregory and Dayne Goulightly, Floydada.

Lea Ann Evans and Trina Reeves, nieces of the bride, were flower girls. They were dressed in full length dresses of sparkle crepe and carried white lace covered baskets holding red rose petals.

Joe Evans, nephew of the bride, was ringbearer and Billie Sue Christian, sister of the groom, and Ray Evans, nephew of the bride, lighted candles. Miss Christian wore a

matching dress to that of the flower girls and also a wristlet of small white pom pom mums.

Following the wedding a reception honoring the couple was held in the church parlor. At the table were Misses Beth Kiniburgh, Susan Reed and Teresa Hinsley. Mrs. Charles Christian registered guests. For traveling to Colorado

Springs, Colo., Mrs. Christian changed to a dress and tunic coat of matching beige and toast brown linen with brown accessories, with a shoulder corsage of gardenias from her bridal bouquet.

After the wedding trip the couple will make their home in Towers Apartments at Canyon where both will be attending West Texas State University.

force, but I still say it would be foolhardy for public officials and law enforcement officers to ignore or dismiss lightly the terrorism that is going on in our country. Answers to these problems will not be found until Americans regain respect for law and order.

A SMALL boy returned home from Sunday School, and his parents asked what he had learned. It seemed the youngster hadn't been paying much attention to what was going on, because he couldn't remember any of the Bible stories. Then suddenly his eyes brightened. "I remember the zip code of one story the teacher told," he said. "The zip code?" his mother asked. "Yes," exclaimed the boy. "It was Luke 10:16."

THURSDAY afternoon Republicans and Democrats as well should visit with Paul Eggers at the Community Room of the First National Bank. Regardless of our party affiliations, let's welcome a special guest to Floydada.

The things we failed to do last year, last month, and yesterday are still with us. He who thinks the things he didn't do can be forgotten is only fooling himself. The forgotten things will be waiting somewhere down the road ahead.

I DON'T know whether or not David Hull, who is stationed in California in the Navy, reads my column. In case you do, David, I liked your letter concerning the IBM punch card. You might turn it into a "suggestion box." Knowing the service, they would probably adopt the whole idea. Wouldn't that be something?

The Talent Show in Floydada Saturday night was well received by the few in number that attended. Maybe it would have gone over better if another night had been selected but one never knows. Anyway, a pat on the back to the kids who tried. Proceeds went toward the completion of North Ward Youth Center.

CONNIE Lu Reed passed all her tests and will graduate this morning from American Airline School at Dallas. One of the required tests was that hostesses unstrap safety belts, get out of a harness, inflate a sliding chute and descend in eight seconds. Connie went through the procedure in four seconds and in case of an emergency I bet she could do it faster. The Reed family is in Dallas today attending the graduation exercises. Connie will be stationed in Dallas.

ON STANDARD ENVELOPES
President Johnson has ordered all government agencies to standardize the size of mail envelopes. It is hoped private industry will follow suite. Postmaster General W. Marvin Watson said full compliance could save the Department millions of dollars annually in speeding up processing.

The Senate has been urged to take action on a bill to ease growing congestion at airports. Senator John Stennis (D-Miss), floor manager of the bill, said that air congestion is reaching emergency proportions.

MILLIONS of college students are returning to campuses throughout the country, and to me they represent both the hope and the shape of the future. It can be expected that most of these young people will fulfill the promises they represent to us. I do not believe these students are the ones causing campus demonstrations, but instead, a growing band of self-styled revolutionaries who are using college campuses as a base for their destructive activities. I agree with Mayor Daley in his TV talk Monday night that it "wasn't our people in Chicago who caused the trouble during the Democratic Convention, but people sent in for the sole purpose of provoking disorder." Mayor Daley may have exaggerated somewhat the seriousness of injuries to his police

DICK CARL AND DOG.....They came through a shock.

Shock Jolts Dog Out, Then Back

It came as quite a shock to J. H. (Dick) Carl late Wednesday when he brought his English Pointer, "Joe", back to life.

Carl, manager at Lamb County Electric, worked on the bird dog almost 45 minutes after the dog was "just plain electrocuted" in a small lake on the Dickie Hopping farm near Fieldton.

It happened this way: Dick was out on a dove hunting trip with the dog when they came upon the water and "Joe" jumped in and began swimming around.

At one edge of the water was an irrigation well where an electrical supply line had disconnected, fallen onto a tank and welded.

The dog swam right up to a discharge pipe from the pressure pump. "Joe" playfully bit right into the pipe and 125 volts sent him straight to the bottom of the lake. "Joe", an expert in artificial respiration, got the dog out of the water in just a few seconds, and began working on him.

"There wasn't a sign of life," he said. "Not even a faint heart beat, that I could hear."

After about 30 minutes of giving artificial respiration, Dick still saw no flicker of life in the 16-month-old bird dog.

"I was about to give up on him, so I took him by the hind legs and started to get up," Dick explained.

"Then I noticed one front paw flex just a little, so I went right back to work on him."

After about 15 more minutes, Dick still heard no heart beat.

But he kept working and accidentally got a little too close to the discharge pipe himself.

"My elbow just brushed it, and the 125 volts went right down my arm and wet hand," he said.

"That shock hit the dog and all of a sudden he rolled over and took off running into the field."

"It was quite a jolt, and a surprise when the dog rolled over. It all happened so fast."

As of Saturday, both man and dog were "doing fine."

we'll probably have some trouble with Spur, who is always plenty tough."

Nickerson makes no excuse for his team's speed and size.

"We have more speed and size than we've ever had. Shelby (end Pat) ran a 10.2 in the 100 this summer, (quarterback Mark) Wideman runs a 10.3. Our fullback (Matt Starch) can run 10.8 or nine. And Johnson can run 10.5."

That's speed, man, even for Jackrabbits.

The size comes next. Nickerson's starting backfield averages 181, and that includes 160-pound flanker Houston Mo-

Gaugh, who's been moved to that spot from quarterback where he was second team last year. McGaugh has good hands, and we want him to catch the ball."

So among the running backs and quarterback, the size is 188 each.

The size begins with quarterback Wideman, who goes 195. And that leaves fullback Starch and halfback Bruce Johnson at 185 each. "Bruce is younger brother to Danny Johnson, who did such a good job for us last year," adds Nickerson.

"We run 'em both (halfback and fullback) in our formation, and when Mark comes out of there, they have to respect his running, too. He ran for about 600 yards last year."

Football Contest Begins This Week

The annual Hesperian football contest begins with this issue on page two of the second section. As usual there will be \$15.00 in cash prizes each week, and all you need do is circle the winners, indicate the winner and total score on the tie-breaker game, print your name and address on the page, and bring or mail it to the Hesperian by 5 p.m. Friday.

The contest goes for ten weeks and is sponsored by several Floydada community mer-

chants. Each week, a couple of "arm chair quarterbacks" display their knowledge of the game, by indicating what they think will be the score of the Whirlwind game.

Sponsoring this year's contest are the following sports minded firms: Collins Implement Co., Baker Insurance Co., Farmers Co-op Gin, Moore-Rose Funeral Home, Higginbotham-Bartlett Lumber, Hammond Sheet Metal, Superior Cleaners, Eddie's Fina Service, Builders Mart, Goen & Goen Insurance, Carmack Feed & Seed, McDonald Implements, Oden Chevrolet, Floydada Service Center, Producers Cooperative Elevators, Panhandle Compress Warehouse, Brown Rexall Pharmacy, Floydada Implement Co., Robo Wash, Tommy Assister Insurance, Martin and Co., and Sanders Pump & Drilling.

Turn now to the big contest page. . . turn all that football knowledge into ready cash!

County Budget Is Approved

The 1969 County budget was approved and adopted by commissioners court before a public hearing Monday morning.

They also set a date to receive and consider bids for lease for mineral development purposes of real property owned by the County of Floyd and held by the State of Texas and Floyd County in Trust, for the use and benefit of itself, The City of Floydada and the Floydada Independent School District.

Other business taken care of included the approval of purchasing a motor grader for Precinct 1. The old grader now being used by named precinct, will be traded in on the new one. The wage increase of Monroe Schulz and Jim Harper was also approved by commissioners court.

Bids will be received in the

courthouse of Floydada at 10 a.m., October 3, 1968.

The real property is lots 19, 20, and 21, block 81, lot 3, block 96; all of block 72; 10 acres of land out of the extreme northeast corner of survey 62, block 1; lot 11 in block 29 and lots 10 and 11 in block 31 all in Floydada.

First Grain At South Plains

E. P. Pritchett brought in the first load of grain sorghum at South Plains this week to the South Plains Cooperatives. The load weighed 18,000 pounds and tested 14.50 moisture.

AS I WATCHED Chicago mayor Richard Daley meet the press Monday evening, I found myself agreeing with most of his explanations of the Chicago police efforts in the recent Democratic convention.

There is no doubt in my mind that the American people have the right to dissent. . . they have the right to believe that war is wrong, and they have the right to voice that opinion. The negro has the right to voice an opinion that he does not enjoy equal rights.

This dissent is brought to the American public's attention verbally and through public marches. . . and according to Mayor Daley, this is okay. . . as long as the marchers do not break curfew or other public laws.

So, it all sums up like this, if a person breaks a civil law, he should be arrested, and suffer the consequences of breaking the law. If he can peacefully voice his dissent, and break no laws, there of course is no problem with the local police or the citizenry.

When the smoke clears on the Chicago situation, it will be interesting to take a good look at the records of the leaders of the riots there.

**SARAH PUCKETT
DOING WELL
AFTER SURGERY**

Sarah Puckett, daughter of Mr. and Mrs. Sam Puckett, is said to be convalescing satisfactorily in Methodist Hospital in Houston where she underwent surgery yesterday a week ago. The four hour surgery was performed to correct a curvature of the spine.

Friends here who received a letter from Mrs. Puckett this week, related that Sarah was in a cast and being turned every three hours night and day and that she would have to be flat on her back for at least three months. Her recovery will be lengthy, and being unable to sit for several months, Sarah will be out of school for at least a year, but will be tutored at home.

Mrs. Puckett said Sarah should be able to be flown home by the latter part of next week.

Those wishing to send greetings to the Floydada miss may write her at Methodist Hospital, Texas Medical Center, 6516 Bertner, Houston, Tex. 77025.

**Meeting Today
On Method Of
Teaching Music**

There will be a meeting this afternoon (Thursday) at 2 o'clock in Lighthouse Electric meeting room sponsored by a group of mothers interested in music instruction for their children.

Speaker for the occasion will be Miss Carolyn Gee of Jent's House of Music in Lubbock. A film will be shown, explaining Yamaha, which is a method of teaching music.

There are no obligations and all interested parents are urged to attend this meeting. Children from the ages of three to six are eligible for this instruction.

Dear Mr. Tooley, Let me introduce myself. I'm Robert S. Goen, Elton Goen's youngest son. I am now in the United States Air Force, stationed at McChord AFB, Washington State. Recently a Sgt. John F. Hayburn, of the 62nd Security Police Squadron, asked me to go with him to a small town in Oregon. We were going to pick watermelons for a little girl, whose life depended on it! The reason, to buy a heart and blood she needed very badly. I had never met Becky, all I knew, I was going 315 miles on my day off, to pick 40,000 pounds of melons. I met Becky at a dinner the townspeople of Hermiston made for us. Becky is eight years old, very sweet, full of life, and happy to know people cared about her. Becky went and sat down in Sgt. Hayburn's lap, and said in a cheerful voice, "I have only 7 months to live!" This brought tears to my eyes. To think this could happen to my brother's child, to my parents, or any friend back home. I was determined to help save Becky's life. All I can do is give blood, a little money and pray. That is when I thought of a small West Texas town, entitled Floydada! I come before you now asking from my heart to give whatever amount you can. Every penny counts a heartbeat for Becky Howland. You may never see Becky or hear from her again, but you will have the satisfaction of knowing you saved a life - "for the love of God." McChord AFB is selling watermelons now, and we are trying to make this an Air Force wide project. This isn't easy, but nothing worth while ever is, until you do it! Becky needs \$75,000, she now has \$40,000. The goal is very short right now, but through yours and everybody else's help, Becky will have that new heart. I'm sending to you eight copies with the story about Becky's condition, also I'm sending you a copy of the McChord AFB "Airlifter", containing the melon picking in Hermiston, along with picture of Becky. Please, I ask you to take this to heart, for Becky's sake. If you can't spare a place in your paper, please distribute these pamphlets to all churches in Floydada.

TIME TO PLANT COOL SEASON PASTURES
Now is the time to be planting cool season pastures. These pastures can provide more grazing flexibility to a livestock operation by having a winter pasture available when grazing becomes scarce. The recommended time for establishing cool season pastures is September 1 - March 15. The time of planting within these ranges depends on the available moisture and the amount of ground cover desired the first growing season. Some of the grasses that are recommended for this particular area are Western Wheatgrass, Tall Fescue, Smooth Brome, Orchardgrass, and some of the Alfalfa or biennial Sweetclover mixtures. The Soil Conservation Service has additional information as to the recommended planting rate, management, and cost share assistance available.

it's time to change to a electric range!

Devotional of the Month

Christian Citizenship

Someone was trying to describe an optimist and finally said, "He is a bald-headed fellow who would buy a bottle of hair restorer and a new comb at the same time." A pessimist was described by the same wag as a "fellow who always puts on a belt in addition to his suspenders."

I don't appreciate blind optimism, but I certainly abhor continual pessimism. I suppose there is always ample evidence that things are not right, but on the other hand, there is abundance of reason to also see a bright side. I appreciate optimism. That person that can always find something to be cheerful about.

Possibly, the Apostle Paul was the finest example of an optimist I ever read or knew about. Did you ever thumb through the New Testament and observe his spirit of victory? Practically every book he wrote, he did so from a jail cell. Yet, through every page there is an underlying theme of VICTORY! All was not always bright, neither did he always appear to be on the winning team, but he was assured that to be on the Lord's side was an absolute guarantee of final accomplishment and complete victory.

There is much in our day to cause deep concern in our hearts. Much is not right in our land; there is oppression on many people, many do have difficulty in trying to get education, find a decent job, etc. But, remember, there are a thousand things that are right with our country. It's the finest country in all the world. It's the only place I know that has the problem of keeping multitudes out. Some have built barbed wire fences and crude stone walls to keep people in. It still is the land of the free and the land of opportunity. Thank God for this.

We have a great responsibility as Christian citizens to keep our country great and free. We will not be blind to our faults. Where there are areas of need, we must do our very best to correct these. Neither shall we be blinded by our greatness. We need to sell America's true self to America again. We need to help our children to love our flag, to be dedicated to our nation, and to be aware of their great heritage.

Christian citizenship carries a great responsibility. We cannot remain a free and prosperous nation and fail to pay the price of eternal diligence. We must, under God, raise up and elect strong, Christian leadership. We must pray for our nation. We must be willing to do our share to make democracy work, beginning in our local community. We must not be fooled by a small, misguided minority that would try to make us believe that all is wrong.

I want to shout the words of the song Kate Smith made popular a few years ago, "God bless America, my home, sweet home." I love my native land. Let's support her with our heart, hand, and love.

PHILOSOPHER Tells European Gold Speculators To Put Their Hand At Farm Products

The Floyd Philosopher on his farm sizes up the Russian situation this week, more or

less, than the people think and then he is supposed to be one of the successful politicians, but know-believe and won't believe ought to top 100.

After I finished reading an old newspaper reporting on the situation of Czechoslovakia.

If the Russians sent their troops storming into Czechoslovakia one morning, captured the whole country with the President and other officials, and announced to the world they'd captured the Czechs had asked them to, the Russians have been talking

to each other too long. They must have been the original inventors of, along with the airplane, the submarine, the steam engine, and the ABCs, the credibility gap.

It's as though a bunch of bank robbers, having held up the bank and made off with the money and the president and cashier, announced to the world they'd done it because they'd been invited to.

It'd just be hard for the public to believe this, and even harder for it to believe the gunmen believed it would believe it.

But if the gunmen did believe the public would believe them, then obviously humor has been set back a thousand years.

I'll admit I don't understand the Russians, but on the other hand I doubt if the Russians understand you and me, and it may turn out they don't understand the Czechs either.

Yours faithfully,
J.A.

The Drum Beat

BY THE BAND BOOSTER REPORTER

Tomorrow night we will see to first public appearance of our Whirlwind Band this season. We have problems, though. Some will be marching without uniforms, as the new ones haven't arrived.

I'm looking forward to the Band's new appearance. They will be doing mostly military drills in contrast to our old company-front drills. There will be 48 marching this first game. There is some new percussion equipment - 3 new marching snare drums, which will be used tomorrow night. In the Band Hall is a new concert cymbal and a tilting-stand base drum. Tremendous potential is in our band and all we need is to develop it. A winning band is like a good business - an awful lot of work and sacrifice and it all starts now.

We know that practice and marching takes a great amount of concentration. The Band Boosters do really care how our band performs on the field as well as off.

SO SOCK IT TO 'EM BAND!

NEW FLAIR DRUMS. . . . for the Floydada Whirlwind Field Band are being shown by three band members. The drums will be used Friday night at the first game this season by Jim Snead, left, Carrie Thayer and Tommy Farris, right. (Staff Photo)
